THE WEATHER OF 1934.

All Meteorological Stations have been under the control of the B.E.A. Meteorological Service throughout 1934.

In connection with the Service, 101 Rainfall Stations have reported, including one First Order Station, fifteen Second Order Stations, one Third Order Station, and eleven Rainfall Stations which were opened. during the year.

Rainfall and Temperature normals have been recomputed from all available records.

The times of observation are the international hours—0600 G.M.T. and 1200 G.M.T. (8-30 a.m. and 2-30 p.m. Local Standard Time).

Some of the stations are new and were opened during the course of the year. The records are, in consequence, incomplete.

RAINFALL.

The total rainfall for the year was 6% below normal. January, February, March and September were unusually dry, the total rainfall for these months being 76%, 49%, 39% and 35% below normal respectively, while the total rainfall for April, August and December was high, being 42%, 17% and 32% above normal for these months.

In the north the total rainfall was generally above normal ; Arua was 15% above, Gulu 17% above and Ngetta 4% above normal ; Mubende, due to heavy rains during the last three months of the year, was 14% above normal. With few exceptions, the total rainfall for the remainder of the Protectorate was below normal ; Kampala was 3% below, Entebbe 14% below, Masaka 6% below, Jinja 13% below, Mbarara 35% below and Kabale 16% below normal. The abnormalities are also shown in the following table :—

Station.	Province.	Deviation.	Station.	Province.	Deviation.
Entebbe	Buganda	− 8·38	Moroto	Eastern	+ 4·71
Kampala	,, ...	− 1·58	Bubulu	,, ...	+ 0·32
Masaka	,, ...	− 2·43	Fort Portal ...	Western	+ 0·45
Bukalasa	,, ...	− 5·43	Busenyi	,, ...	− 10·68
Mubende	,, ...	+ 6·55	Bunyaruguru ...	,, ...	− 6·55
Kalangala ...	,, ...	− 9·46	Kabale	,, ...	− 5·52
Jinja	Eastern	− 5·98	Butiti	,, ...	+ 1·23
Mbale	,, ...	− 5·60	Kilclooney ...	,, ...	− 7·91
Namasagali ...	,, ...	− 2·29	Kitgum	Northern	− 2·07
Serere	,, ...	− 4·93	Hoima	,, ...	− 10·68
Bugondo	,, ...	− 6·55	Gulu	,, ...	+ 10·18
Ngetta	,, ...	+ 2·34	Arua	,, ...	+ 7·47

The highest fall for the year was 70·41 ins. at Kalangala, and the lowest 29·41 ins. at Mwirasandu The greatest fall recorded in 24 hours was 4·35 ins. on 30th April at Moroto.

TEMPERATURES.

Twenty-three Stations recorded temperatures during 1934. Of these, seventeen recorded readings of the Dry and Wet Bulb thermometers.

The highest temperature recorded was 100° F. at Budini in January, and the lowest 41·1° F. at Kabale C.M.S. Station in January.

The departures from normals for the various stations are shown below :—
