AVVERTENZA

Secondo quanto è stato detto nel precedente Bollettino (anno 1928) anche questo riporta per esteso, le più importanti osservazioni quotidiane con le cifre caratteristiche (valori assoluti mensili) e le medie decadiche, mensili ed annuali. È col successivo Bollettino del 1930 che si spera di poter introdurre nella pubblicazione considerevoli aggiunte e sostanziali mutamenti ed iniziare anno per anno, la trattazione diffusa dei principali elementi raccolti durante il periodo.
