In speaking of the recent big run of mackerel on the Nova Scotia coast, the Halifax Chronicle of November 2 says:

"The largest stop is reported from Ketch Harbor, where a man named Flemming is said to have made a haul in his seine of 45,000 fish which will net him $4900. Other fishermen have made catches in their nets from 1000 upwards.

"Such a run of fine fish so late in the season has not been seen on the shore for years and it is a great boon to the fishermen, nearly all of whom have done very poorly this season. The fishermen had almost given up hope of mackerel making their appearance so late, and in consequence many of them were unprepared for this streak of good luck. There was great activity at all the fishing hamlets on Saturday, and it was a reminder of days gone by when large numbers of fish were caught, and the fishermen were happy.

"Thousands of the fish were brought to the city yesterday, and they were a sight to see as they lay scattered over the decks of the fishing crafts. The fish were iced and barrelled as soon as possible and made ready for shipment to the American market, where the demand is said to be good at the present time. The mackerel are schooling well inshore, and if the wind and weather holds as favorable as it has been during the past two days, it is expected that more fish will be taken. Dogfish are reported to be disappearing and if that is the case the mackerel will not be harrassed."

CAPT. SOL FOUND THEM.

Steamer Alice M. Jacobs Has 1400 Fresh Mackerel.

Netted Them Last Night Off Thatcher's Island.

Steamer Alice M. Jacobs, Capt Solomon Jacobs, came in this afternoon with 1400 large fresh mackerel, taken last night in nets off Thatcher's island The fish sold to John Nagle & Co. at 14 cents apiece.

Yesterday Capt. Jacobs had made up his mind to go out in his son's big gasolene launch, but later changed his mind and with his nets went out in his steamer Alice M. Jacobs, and as will be seen, made a good night's work.

Such good netting fares as have been secured during the last few days off Thatcher's is something unusual for so late in the season and would indicate that there is quite a body of fish in the vicinity.
