On the 10th at 11.25 a.. Barometric changes on the China Coast are slight except in the Gulf of Tongking where decrease of pressure has taken place. In Luzon the barometer has risen. Unsettled squally weather seems to prevail f the Annam Coast. Forecast :—. moderate or fresh E winds; mostly fair but possibly some light showers.

On the 11th at 11.20 a.. A depression which has moved Eastward over N China seems now situated in N Korea. he barometer has risen considerably at Shanghai and fallen around the Sea of Japan. Increasing winds from NE, th rising barometer, will probably spread down the China Coast during the next 24 hours. Forecast:—, NE winds, ght at first then freshening considerably; cloudy, some rain.

On the 12th at 10.30 a.. There are indications of a depression to the SW of Luzon. Since yesterday a sharp fall of the barometer has taken place at Bolinao where pressure is now about 0.1 inch below the normal. On the SE Coast of China pressure has increased and ranges above the average to the extent of 0.1 inch at Hongkong and 0.2 inch at Shanghai. In the N. part of the China Sea strong NE winds will probably prevail. The depression in the North seems to be moving Eastward across the Sea of Japan. Forecast:—, fresh NE winds; fair.

On the 13th at 10.25 a.. The depression off the SW. coast of Luzon is either increasing in intensity or moving very slowly towards NW. At 11.10 a.. During the past 24 hours a further decrease of pressure has occurred in Luzon and the barometer has also fallen on the S. and SE. coasts of China. At Shanghai the barometer has risen. At the latter station pressure is now greatly above while in Luzon it is considerably below, the normal. Forecast:—, Strong NE breezes, accompanied by fine weather, are likely to prevail generally on the S and SE coasts of China; in the N. part of the China Sea, strong NE winds or gales.

On the 14th at 10.45 a.. The depression seems to be lying yet to the WSW of Bolinao with apparently a very slow motion towards WNW. At 11.15 a.. The barometer has varied but little at Bolinao since yesterday and remains still about 0.15 inch below the normal. On the China Coast pressure has given way slightly and now stands at the average in Hongkong but over 0.2 inch in excess at Shanghai. Forecast:—, strong NE and E breezes will probably prevail on the S and SE coasts of China accompanied by fair weather; in the N. part of the China Sea, strong NE winds or gales.

F. G. FIGG.
First Assistant.

On the 6th at 10.35 a.. A depression exists to the E. of Luzon. At 11.15 a.. Since yesterday the barometer fallen rapidly in Luzon and the depression is probably advancing in a Westerly direction at present. High sure still covers Japan but a quick fall of the barometer has taken place on the East Coast of China, probably g to a depression over North China. Forecast:—, moderate E winds; squally and showery. Increasing NE ds in the N. part of the China Sea.

On the 7th at 10.45 a.. Depression WSW of Bolinao probably moving rather quickly towards WNW. Red South Cone hoisted. At 11.20 a.. The depression crossed S. Luzon yesterday and entered the China Sea. Strong SE winds were experienced at Bolinao last night. The barometer is now rising at that station but is falling on the China Coast and in W. Japan. The depression in N. China seems to be moving towards East. Forecast: —, moderate NE and E winds, probably increasing considerably; unsettled, squally and showery. Strong N to E winds in the N. part of the China Sea.

On the 7th at 6.15 p.. Black South Cone hoisted. The depression, about 300 miles to the SSE of Hongkong, appears to be moving towards NW at present. On the 8th at 10.45 a.. The area comprised by strong winds in the depression to the S. of Hongkong, appears to be small at present. At 11.15 a.. The barometer has continued to fall quickly on the S. and SE coasts of China, but has risen at Shanghai in rear of the depression in the North. At Bolinao there is a little change. Pressure now exceeds the normal by about 0.05 inch at Shanghai but is in defect to the extent of about 0.1 inch at Hongkong and Bolinao. Gradients for NE winds are becoming steeper on the China coast. Forecast:—, moderate NE winds, freshening; unsettled, showery and squally.

On the 21st at 11.30 a.. The depression in the Sea of Japan seems slowly passing away to the Eastward. On the China Coast barometric changes are irregular, a fall having occurred on the S. coast and a rise in the N. part of the Formosa Channel. Pressure appears to be somewhat low over Mid China. Forecast:—, moderate or fresh SW winds; unsettled, squally and showery.

On the 22nd at 10.30 a., A depression is apparently moving Eastward on the coast between Foochow and Shanghai. At 11.20 a., The barometer has fallen moderately at Shanghai and considerably between Foochow and Hongkong. Pressure is generally below the normal on the China Coast, particularly in the neighbourhood of Foochow where it is over 0.2 inch in defect. Gradients are rather steep for SW winds along the S. and SE. coasts. Forecast:—Strong or fresh SW winds; unsettled, squally and showery.

F. G. FIGG.

On the 5th at 1.40 a.m. The depression in the Pacific to the East of Luzon is apparently moving Westward at present. At 4.20 a.m. A further considerable decrease of pressure has taken place in Luzon and the barometer has also fallen on the China Coast and in the extreme North, the Northern stations being under the influence of a depression which seems moving Eastward across Manchuria. Pressure is now slightly above the normal in Hongkong and below it, at Shanghai nearly 0.1 inch, at Manila 0.15 inch. Forecast :—, light E winds ; fine.

F. G. FIGG.

On the 7th at 7.30 p.. Two lanterns hoisted vertically. At 7.45 p.. The depression seems moving in a Westerly direction and likely to pass to the South of Hongkong. On the 8th at daylight, Black South Cone hoisted. At 10.40 a. The depression, to the SSW of Hongkong in about 20° Lat., appears to be approaching the coast between Macao and Hoihow. At 11.20 a.. The barometer has risen around the Formosa Channel and in Luzon, fallen in the neighbourhood of Hongkong. The Northern depression still covers the NE part of the Sea of Japan. Forecast :—, Strong E veering to SE winds, perhaps a gale ; hard rain squalls at times.

On the 22nd at 11.30 a.m. A further decrease of pressure has taken place in Luzon and along the China Coast this yesterday. Apparently the central area of the depression still lies between Formosa and Japan. Forecast:—, light or moderate W winds; mostly fair but less settled as a whole, perhaps a thunderstorm.

F. G. Fidler,
First Assistant.

On the 22nd at 4.10 p. Typhoon North of Formosa approaching coast between Foochow and Shanghai. On the 23rd at 10.20 a. Typhoon centre moving northwards has just passed to the North of Shanghai. At 11.20 a. The barometer shows a heavy fall at Shanghai and a slight fall between Foochow and Hongkong while at Bolinao there is no change. Pressure remains low generally with no marked tendency to increase in the South and it is likely that another depression may form in the N part of the China Sea. Forecast: —, light NW or variable winds; fair.

On the 7th at 10.30 a.. Typhoon appears to have entered Luzon to the Southward of Bolinao. At 11.20 a.. further considerable decrease of pressure has taken place at Bolinao and the barometer has also fallen on the S and E coasts of China. In the extreme North, pressure is increasing in rear of the depression near Wladivostock yesterday. Forecast :—, NW or variable winds, light ; fine. Telegraphic communication between the Observatory and Victoria Peak was restored at 4.30 p on the 6th.

On the 8th at 10.30 a.. Typhoon is East of and approaching the neighbourhood of Bolinao, apparently moving towards NW. at present At 11.10 a. Pressure has continued to give way rapidly at Bolinao and a considerable decrease has also taken place on the S. and SE. coasts of China. At Shanghai the barometer has risen. Pressure is now about 0.1 inch above the average at the latter station, normal in Hongkong and nearly 0.4 inch in defect at Bolinao. Forecast :—, N winds, freshening : fine at first, less settled by tomorrow. Strong N and NE winds and gales in the NE part of the China Sea; increasing NE winds in the Formosa Channel.

Cape S. James,	..	..	..	..	..	..	..

On the 14th at 11.0 a. Red Drum lowered. The barometer has risen slightly at Bolinao and Hongkong, fallen at Shanghai. Pressure is normal in Hongkong but remains over 0.1 inch in defect in Luzon. At Shanghai the barometer is also nearly 0.1 inch below the average. Apparently the depression still lies in the Pacific. Forecast:—, light variable winds; fine.

Cape S. James,	..	..	..	SW	6	r	..

On the 22nd at 11.25 a.. Pressure has given way moderately in Japan, and slightly along the China Coast but is still above the normal in both districts. At Bolinao the barometer is almost steady and continues about 0.1 inch in defect. Pressure remains deficient in a trough-like area, in about 16° Lat., lying across the China Sea and extending to the Pacific. Forecast :—, moderate E. and NE winds; fair.

On the 12th at 11.30 a.. Black Drum lowered. The typhoon seems to have continued on its original course towards NW yesterday, and is probably recurving near Swatow this morning. A strong NNW gale blew at Gap Rock last night. No reports received from Swatow and Amoy this morning. The barometer has fallen in the N. part of the Formosa Channel and on the E coast of China, and remains low and almost steady in Hongkong. In Luzon and the Gulf of Tongking pressure has increased. Forecast :—, strong NW winds ; fair. NW gales off shore.
