October 1912

FOR OFFICIAL USE ONLY

NOT TRANSFERABLE

(See inside cover)

This booklet is one of a limited edition valuable in research studies. When you have no further use for this copy, kindly notify the U. S. Weather Bureau, Washington 25, D. C., and return to central stock for reissue.

Daily Synoptic Series

Historical Weather Maps

Northern Hemisphere Sea Level

October 1912

The Joint Meteorological Committee has decided that classification of these maps under rigid security regulations would unnecessarily restrict their official use by forecasters and research collaborators on official projects of the United Nations. They are, therefore, "Unclassified". Distribution is, however, restricted to an approved list of official agencies. Copies are not to be transferred by the recipient to another agency for the duration of war without authority of the Joint Meteorological Committee. All recipients should take necessary steps to prevent copies falling into hands of persons who would put them to uses prejudicial to the interests of the United States and her allies.
