WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

JANUARY, 1961

Summary

Between the 23rd and 28th the island came under the influence of a moderately active cold front which became quasi-stationary, thereby causing persisting cloudiness with widespread showers chiefly along the northwest and northeast coasts. Strong and gusty northeasterly winds were experienced along the north coast for most of the month.

Temperatures

Apart from in hilly regions, temperatures were 1 degree to 3 degrees Fahrenheit above the average for the month. Average temperatures for the month ranged from about 56 degrees to 88 degrees Fahrenheit throughout the island.

Rainfall

Island rainfall was 33% below the normal for the month. The parish of Portland alone showed above normal rainfall, with 89% above the normal. Four stations each reported a total of over 9 inches for the month.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

FEBRUARY, 1961

Summary:
A cold front moved across the island on the 11th giving generally cloudy conditions with scattered light rain showers, with greatest concentration along the northwest and northeast coasts. The prevailing winds continued to be very strong, reaching a maximum gust of 48 knots along the south and southeast coasts and 40 knots along the north coast.

Temperatures:
Except along the south coast and in the northeast hilly regions, temperatures were 1 degree to 4 degrees Fahrenheit above the average for the month. Average temperatures ranged from about 57 degrees F in hilly regions to 89 degrees F along coastal areas.

Rainfall:
Island rainfall was only 8% above the normal, reflected in the parishes of Portland, Westmoreland, St. Ann and Hanover. Balcarres in Portland reported 5.50 inches in 1 day.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

MARCH, 1961

Summary

Shower activity during the month was confined to the ridges except for Friday 10th when a diffuse cold front in the vicinity of the island gave rise to considerable cloudiness with light showers being fairly widespread.

Temperatures:

Temperatures were 3 degrees to 4 degrees Fahrenheit below the average in hilly regions and 1 degree to 5 degrees F above the average in lower regions. Average temperatures ranged from about 58 degrees to 89 degrees F in the warmest areas.

Rainfall

Island rainfall was 67% above the normal for the month. Only the parishes of St. Thomas and Clarendon showed deficits with 41% and 37% respectively of the normal. Highest rainfall occurred in the parishes of St. James, Trelawny, Westmoreland, Hanover and Portland in that order and ranged from 201% to 111% of the normal.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

APRIL, 1961

Summary:

Two cold fronts reached the island during the month but were so weak that they dissipated on reaching here, thereby causing very little change to the normal weather.

Temperatures:

Apart from hilly areas such as Orange River and Hope Gardens, well above average temperatures were experienced, especially in the southern areas including Old Harbour where maximum temperatures were about 9 degrees F. above average. Average island temperatures ranged from about 58 degrees F., to 96 degrees F. in the Bodles area.

Rainfall:

Island rainfall was about normal. Wettest parishes were Portland and St. Elizabeth followed by St. Mary, Hanover, Kingston and St. Andrew, St. Ann and Manchester in that order. St. James had the lowest rainfall, being only 13% of the normal for the month.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

MAY, 1961

Summary

During the period 12th to 20th the island was affected by a moist unstable air mass which was located in the northwestern Caribbean and gave rise to widespread showers during the period. Very strong and gusty prevailing winds occurred for most of the month.

Temperatures:

Temperatures were generally 1 degree Fahrenheit to 6 degrees F. above the average for the month, except in hilly regions where they fell 2 degrees F to 3 degrees F below the average. The mean island range of temperatures was from about 59 degrees to 92 degrees F.

Rainfall:

Island rainfall was 19% below the normal for the month. Of the 13 parishes, only St. Elizabeth, Westmoreland, Hanover, and Portland showed above normal rainfall of the order of 17% in Portland to 59% in St. Elizabeth.

WEST INDIES METEOROLOGICAL SERVICE

MONTHLY SUMMARY OF OBSERVATIONS

JAMAICA WEATHER REPORT

JUNE, 1961

Summary

Showers during the month were more confined to coastal areas chiefly in the southeast and northeast, where strong and gusty local winds persisted.

Temperatures

Temperatures were 1 degree to 4 degrees F above the average for the month in most localities and equally below in isolated hilly regions. Average island temperatures ranged from about 60 degrees F. to 92 degrees F.

Rainfall

Island rainfall again fell below the normal for the month, being 78% of the normal. The parishes of Hanover, Portland, Westmoreland, St. James and St. Thomas showed over 17% above the normal for the month.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

JULY, 1961

Summary

Two Easterly waves, one on the 4th and the other on the 16th, moved across the island giving widely scattered showers and isolated thundershowers. The activity was more marked along the east and southeast coast where continuous rain was experienced in various parts throughout the night of the 16th.

Temperatures

Temperatures were slightly above the average for the month in the Corporate Area, but 2 to 4 degrees above in other coastal areas and in some hilly regions. Average island temperatures ranged from about 57 degrees to 93 degrees F.

Rainfall

Island rainfall was 36% above the normal for the month. The parishes of Hanover, St. Elizabeth, Westmoreland, St. James, St. Thomas, Portland and Trelawny showed below normal rainfall.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

AUGUST, 1961

Summary:
An Easterly wave was in the vicinity of the island on the 13th but did not affect the weather appreciably.

Temperatures:
Temperatures along the south coast were above average, but 1 degree to 4 degrees F below average in hilly regions. Average island temperatures ranged from about 57 degrees F to 91 degrees F.

Rainfall:
Island rainfall was 17% below the normal for the months. Six parishes, however, showed above normal rainfall ranging from 3% to 82%.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

SEPTEMBER, 1961

Summary:

Tropical storm 'Carla' and Hurricane 'Esther' greatly affected the island's weather. Carla passed to West-south-west of Negril and with its associated instability gave rise to extensive showers chiefly in the southwest. Esther induced a trough over the island and this also resulted in extensive showers.

Temperatures:

Temperatures were normal along the south coast but varied between 3 degrees and 8 degrees F below the average for the month in hilly regions such as Orange River and Hope Gardens and 3 degrees F. above the average in most other hilly regions. Average island temperatures ranged from 57 degrees to 91 degrees Fahrenheit.

Rainfall:

Island rainfall was slightly above the normal for the month and was well distributed throughout the island, except in the parishes of St. James and St. Ann where it was 36% and 58% respectively of the normal for the month.

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

OCTOBER, 1961

Summary:
The development of Hurricane Hattie in the vicinity of San Andres, to the southwest of Jamaica gave rise to unusual squally conditions in the extreme west. A slight earthquake was felt at 12.32 p.m. at Palisadoes and was also reported from St. Elizabeth and Manchester.

Temperatures:
Temperatures in coastal and low hilly regions were mainly from 1 degree to 3 degrees F. below the average for the month. Temperatures were above average mainly in the eastern and north-eastern coastal regions of the island. Average island temperatures ranged from about 56 degrees to 90 degrees F.

Rainfall:
Island rainfall was 44% above the normal for the month. Rainfall in the parish of St. Thomas was 3 times higher than normal while 14 stations in Portland reported 5 inches to 10 inches in one day. Parade Gardens in Kingston reported 10.06 inches in one day.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

NOVEMBER, 1961

Summary:
No special weather feature.

Temperatures:
Maximum temperatures in the north-eastern section of the island were 2 degrees to 5 degrees F. above the average for the month but slightly below the averages mainly in the southern and western areas. Average island temperatures ranged from about 54 to 89 degrees Fahrenheit.

Rainfall:
Island rainfall was 50% of the normal for the month. Rainfall in the parish of Portland was just under 4 times higher than normal. All other parishes had less than normal rainfall. Bowden Pen and Barrett's Gap in Portland reported 7.65 inches and 5.10 inches respectively in one day.

WEST INDIES METEOROLOGICAL SERVICE

JAMAICA WEATHER REPORT

MONTHLY SUMMARY OF OBSERVATIONS

DECEMBER, 1961

Summary

During the month the general weather of the island came under the influence of two slow moving cold fronts which caused extensive showery conditions to persist, particularly along the north coast.

Temperatures:

Temperatures were 5 to 6 degrees F. higher than average in the north-eastern section of the island but about normal in other parts except in some isolated hilly regions where they were about 3 degrees F. below the average for the month. Average Island temperatures ranged from 54 degrees to 87 degrees Fahrenheit.

Rainfall:

Island rainfall for the month was unusual with 123% above the normal. Heaviest rainfall was in the parishes of Portland, St. Ann and St. Mary where it ranged from 4 to 6 times higher than normal. Only in the more western parishes of Manchester, St. Elizabeth and Westmoreland was the rainfall below the normal for the month.
