ERRATA

The following corrections should be made to entries in Climatological Summaries for 1958:-

Nassau International Airport:

1. Rainfall for December 1958 should be read as 4.52 and not 3.52
2. Rainfall total for the year should be read as 61.25 and not 60.25
3. Average Annual Rainfall (1945-1957) should be read as 49.94 and not 50.71
4. Percentage of Average should be read as 295% and not 230%
5. Percentage of Average for the year should be read as 123 and not 121

The following corrections should be made to entries in Climatological Summaries for 1959:-

Nassau International Airport:

1. Average Annual Rainfall should be read as 50.78 and not 50.71
2. Percentage of Average for December should be read as 121 and not 126

Notes:

1. The station elevation refers to the height of the barometer cistern above Mean Sea Level.
2. Instrumental corrections are applied at the time of observation.
3. All thermometers are exposed in louvred screens.
4. Extreme temperatures are read in the morning and the maximum is entered to the previous day.
5. Rainfall is read in the morning (normally 1200 GMT) and is entered to the previous day.
6. - indicates that the information is not available or is unreliable.
