INFERENCE
DATE 30 - 6 - 1961 DATUM
AFLEIDING
As a result of an upper-air low over the west coast it will remain partly cloudy, in general, over the western parts of the country with a possibility of isolated light showers. Elsewhere it will be mainly fine or only slightly cloudy and mild.
As gevolg van 'n boluglaag oor die weskus sal dit oor die algemeen gedeeltelik bewolk bly oor die westelike dele van die land met 'n moontlikheid van enkele ligte buie. Elders hoofsaaklik mooiweer of slegs effens bewolk en mild.

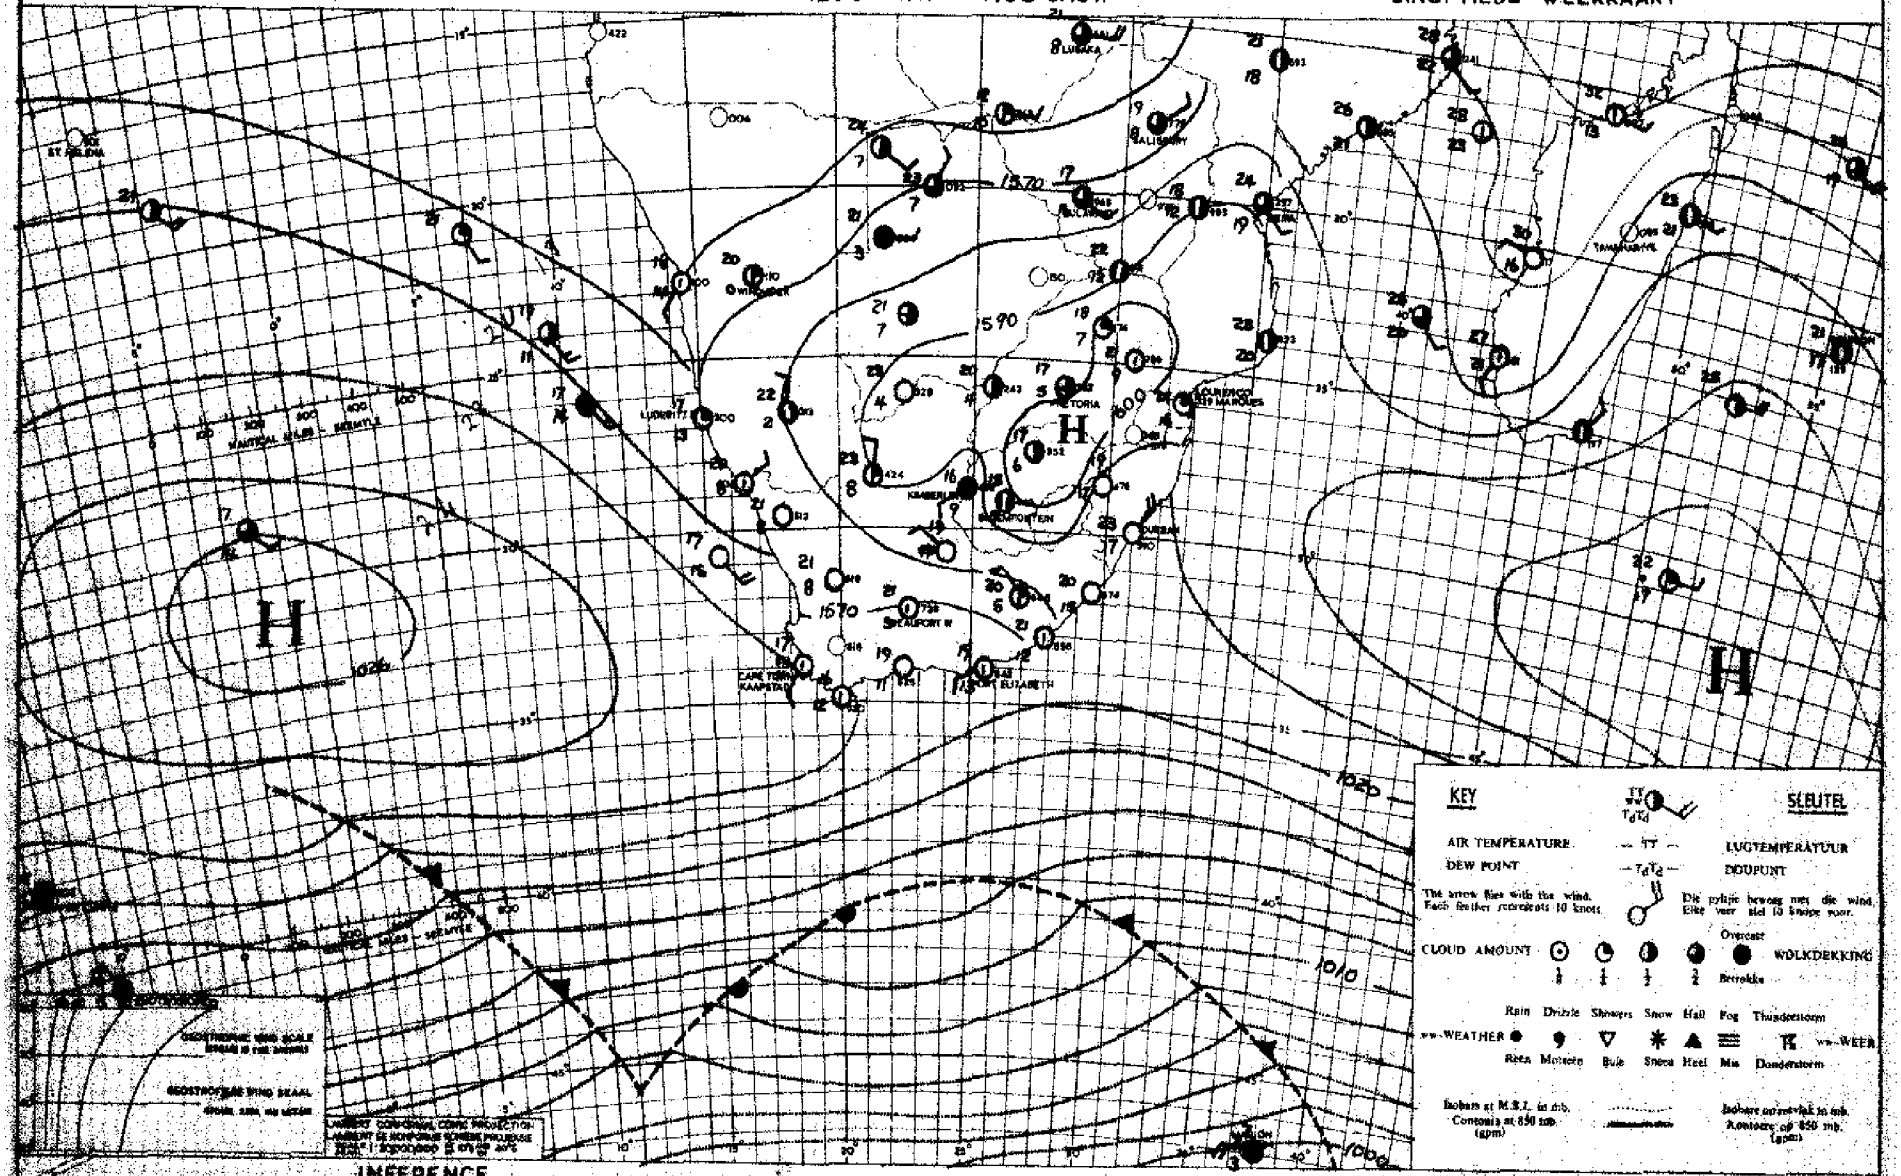
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 1-7-1961 DATUM AFLEIDING

The upper air over northern Bechuanaland is rather moist and over this area and also over the Transvaal it will be cloudy and mild with isolated showers over Bechuanaland and the western Transvaal. Over the rest of the country it will be Fair to Fine and mild but Frost will occur at night over the central parts of the interior.

Die bokag oor noordelike Betsjoeanaland is taamlik vogtig en oor hierdie deel asook oor die Transvaal sal dit bewolk en matig wees met los buie oor Betsjoeanaland en die westelike Transvaal. Oor die res van die land sal dit redelike mooiweer tot mooiweer en matig wees meer ryp sal gedurende die nag voorkom oor die sentrale dele van die binneland.

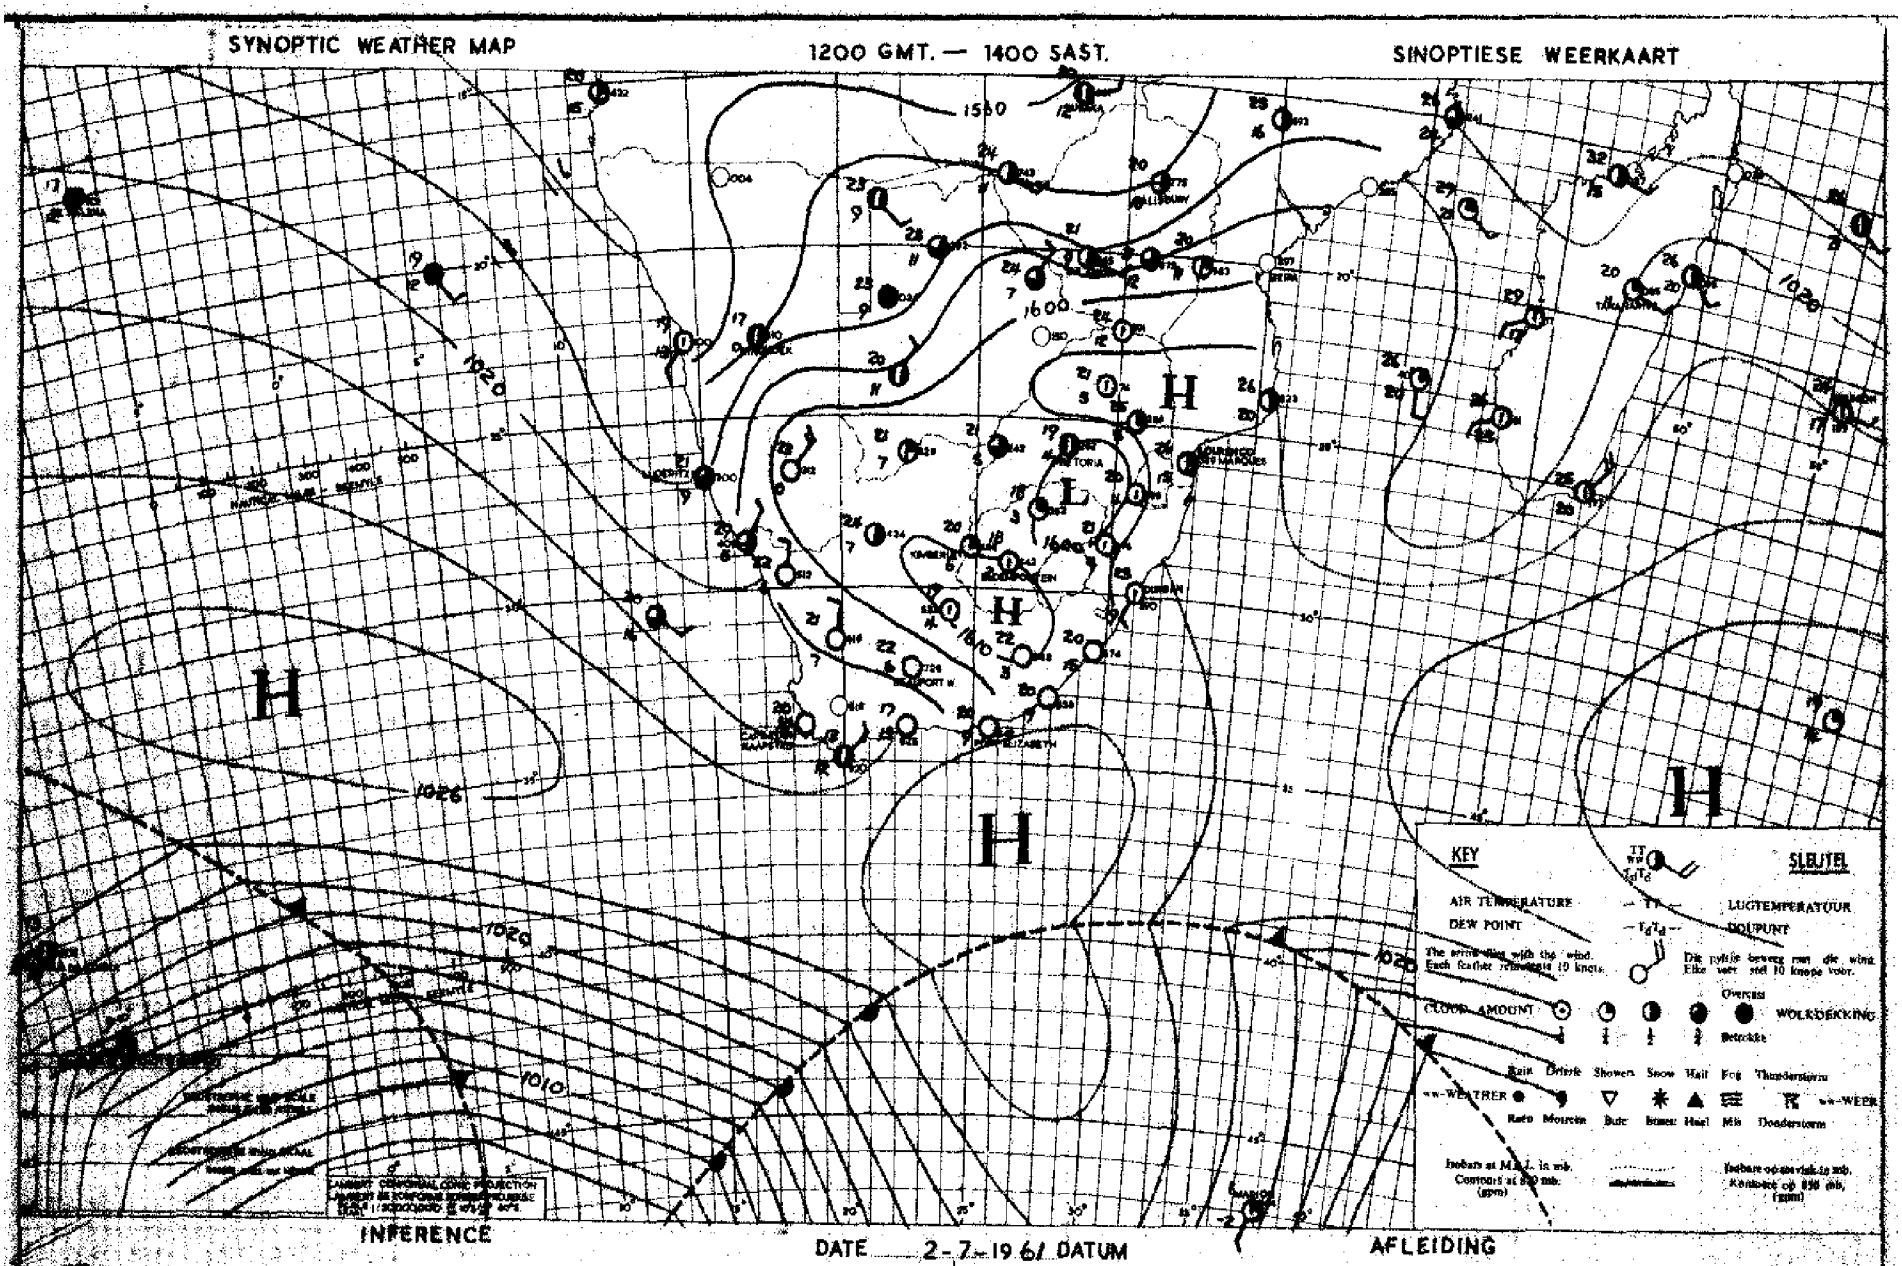
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 2-7-1961 DATUM — AFLEIDING

There is a trough in the upper air over the western part of the country and fairly moist air is advancing southwards so that isolated showers will occur over South West Africa, Bechuanaland, Northern Cape and the northwestern part of the Cape Province.

In die bolug is 'n trog oor die westelike deel van die land en betreklik vogtige lug beweeg suidwaarts sodat los buie sal voorkom oor Suidwes-Afrika, Betsjoeanaland, Noord-Kaapland en die noordwestelike deel van Kaapland.

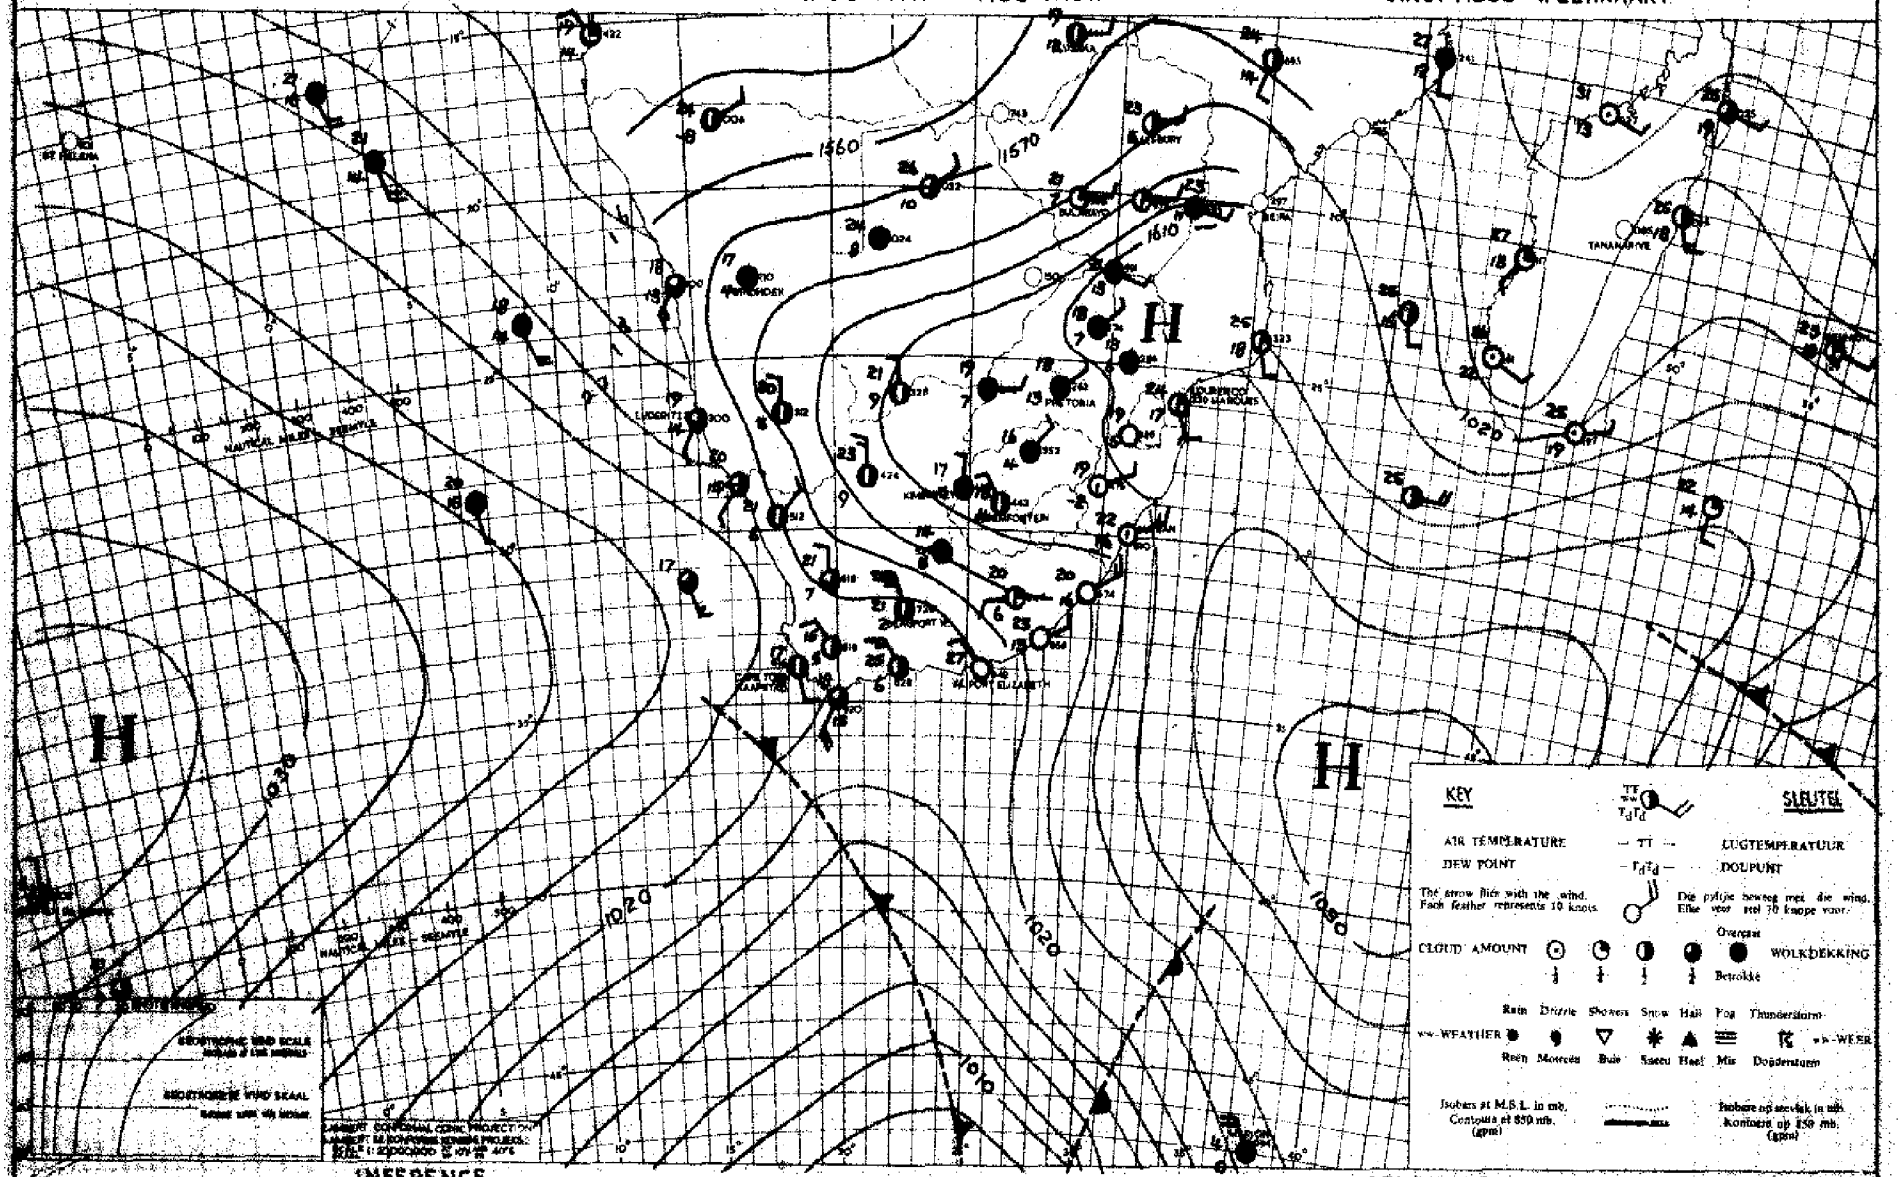
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 3-7-1961 DATUM — AFLEIDING

With the cold front to the south-west of the Cape it will become cloudy over the southern coastal regions with rain or showers. Little change is expected in the prevailing weather conditions over the remainder of the country. It will be fairly cloudy and mild over the interior and isolated showers are possible over the southern parts.

Met die koufront suidwes van die Kaap sal dit bewolk word oor die suidelike kusgebiede met reën of buie. Min verandering word verwag in die heersende weerstoestande oor die res van die land. Dit sal oor die algemeen taamlik bewolk en mild wees oor die binneland en enkele ligte buie is moontlik oor die suidelike dele.

A ridge of high pressure is moving in south of the continent and cloudy conditions with slight showers will spread over the western coastal regions and the lowveld. Over the remainder of the country it will remain fine or partly cloudy.

'n Rug van hoë druk beweeg suid van die vasteland in en gevolglik sal bewolkte toestande oor die oostelike kusstreke en laeveld uitbrei gepaard met ligte buie. Oor die res van die land sal dit mooinweer tot gedeeltelik bewolk bly.

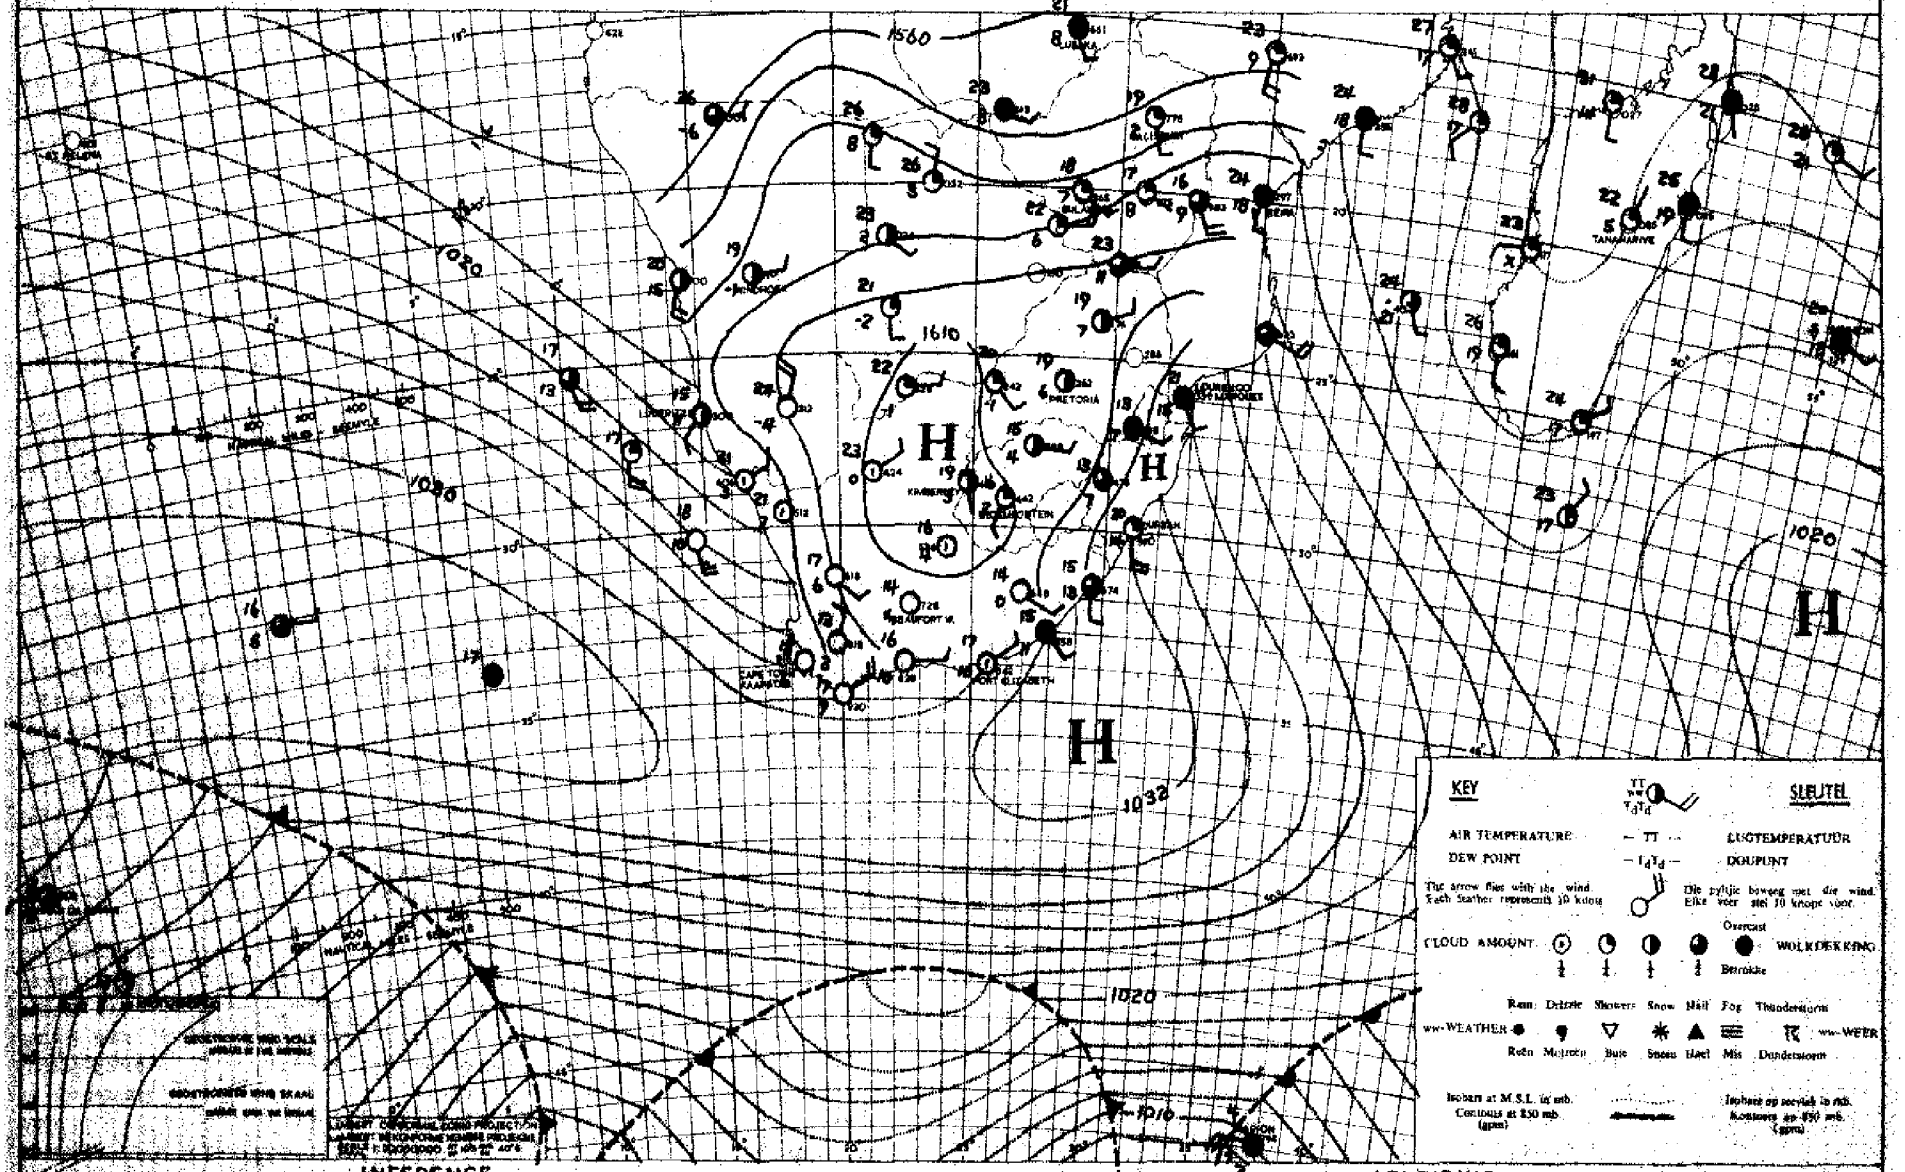
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 5-7-19 61 DATUM

AFLEIDING

The air has become appreciably drier over the northern parts of the interior and it is expected that it will be mainly fine over most parts of the country. Over Natal and the north-eastern parts of the Transvaal it will be cloudy at first and local showers will fall. Hot berg winds will occur at places in the south-western and southern coastal regions.

Die lug het oor die algemeen heelwat droër geword oor die noordelike dele van die binneland en na vervaging sal dit hoofsaaklik mooiweer wees oor die meeste dele van die land. Oor Natal en die noordoostelike dele van Transvaal sal dit aanvanklik nog bewolk wees met lokale buie. Warm bergwinde sal voorkom by plekke oor die suidwestelike en suidelike kusgebiede.

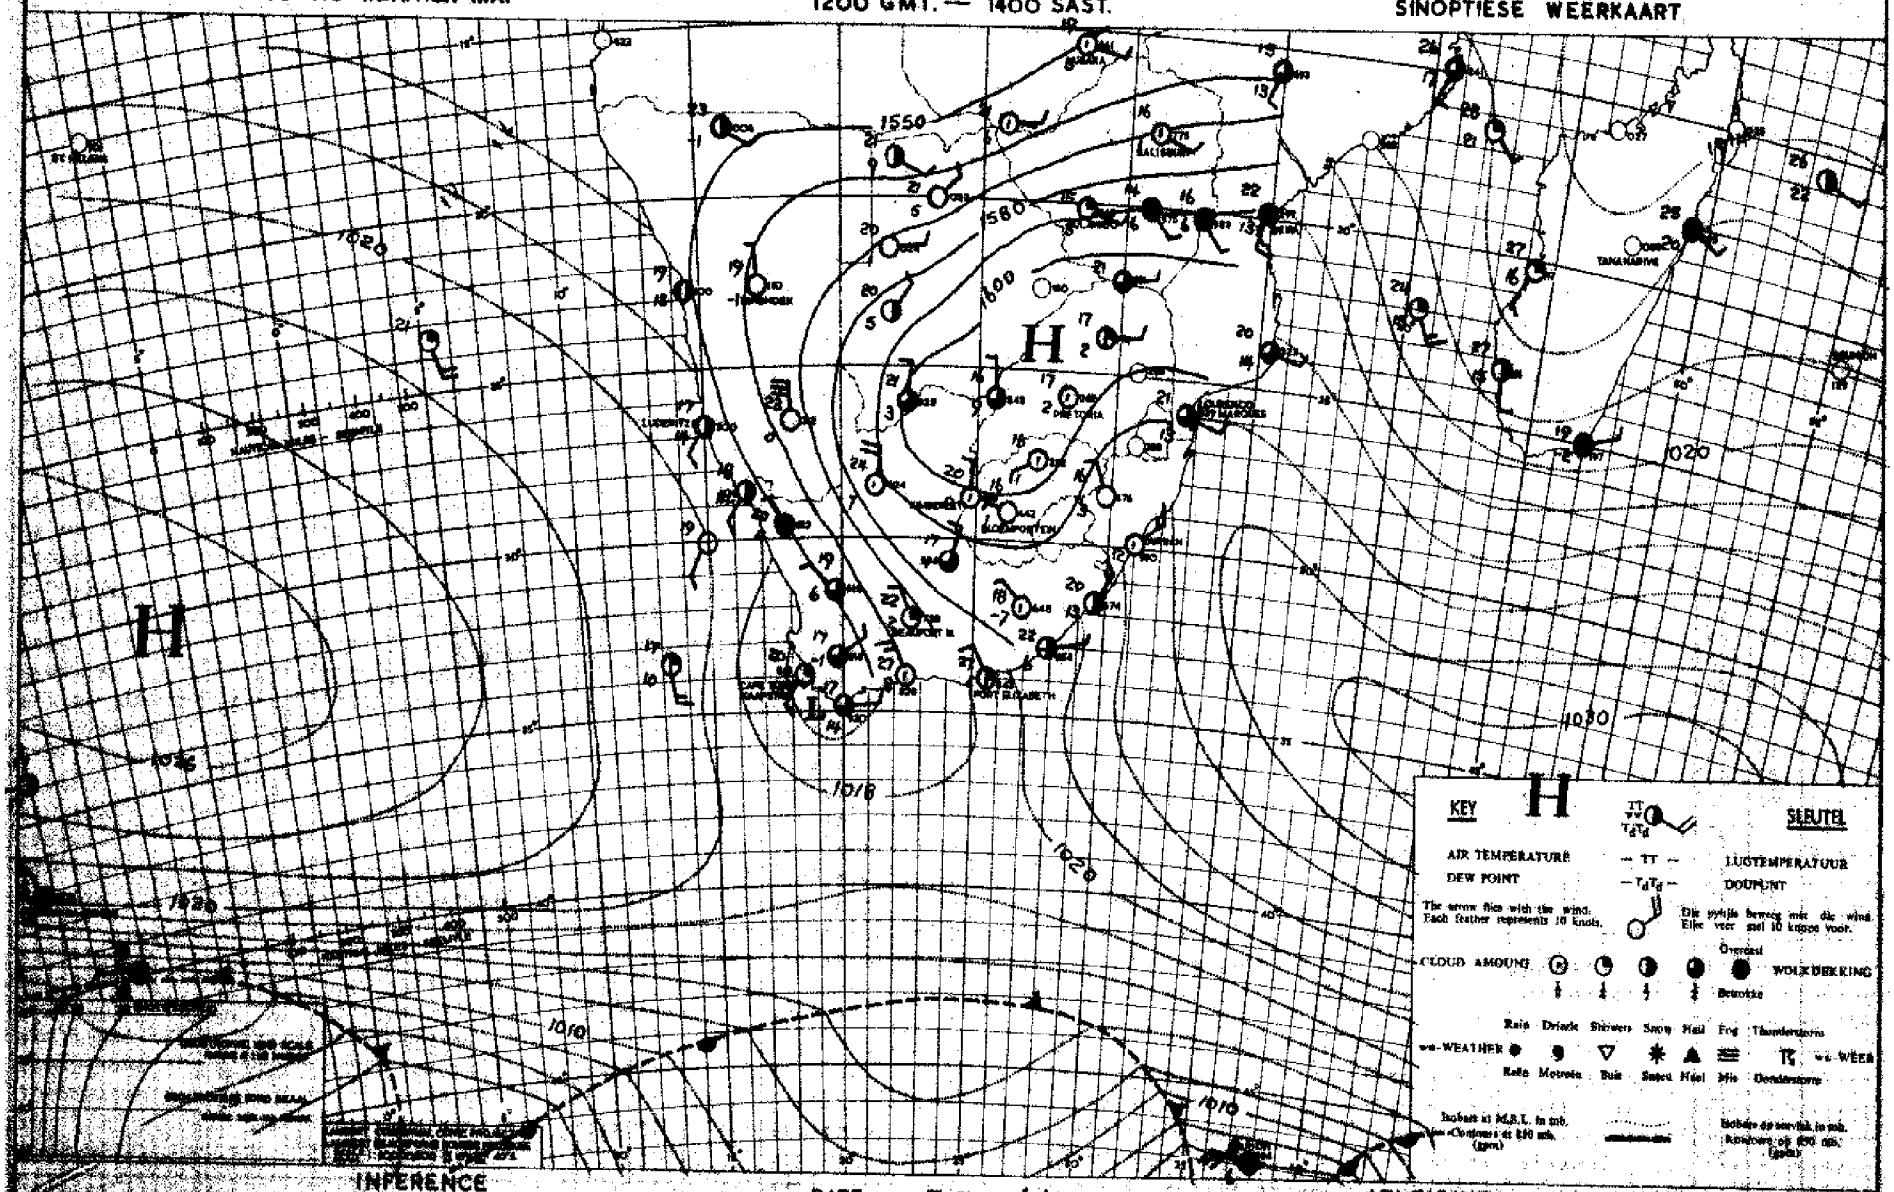
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 7-7-1961 DATUM

AFLEIDING

The coastal low over the south-west coast will move eastwards and it will become fairly cloudy and cool over the south-western coastal districts. Extensive fog will occur over the western coastal belt. Over the interior it will be fine or only slightly cloudy and mild to warm.

Die kuslaagie oor die suidwestekus sal oostwaarts beweeg en dit sal taamlik bewolk en koel word oor die suidwestelike en suidelike kusgebiede. Mistige weer sal voorkom oor die weskus gebied. Oor die binneland sal dit hoofsaaklik mooiweer of slegs effens bewolk en matig tot warm wees.

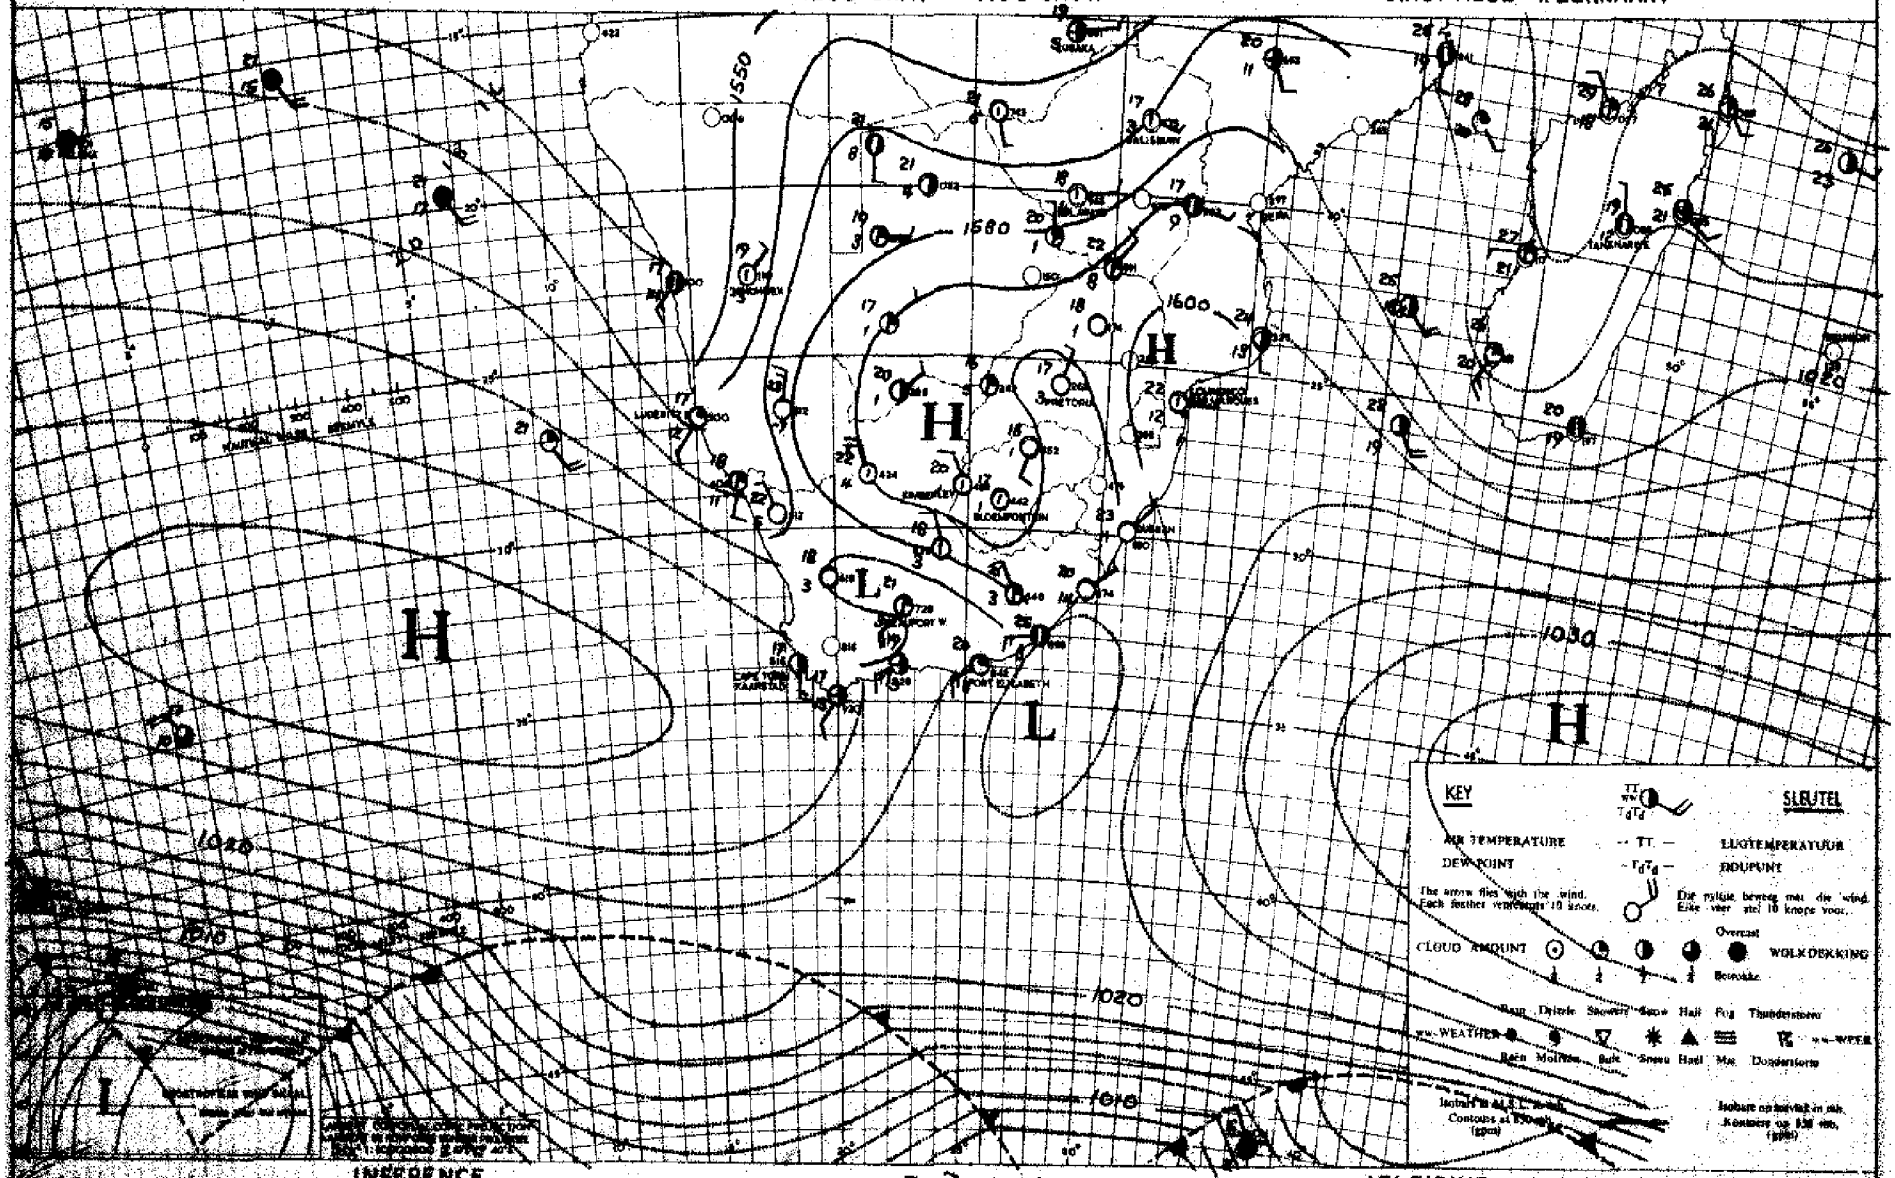
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 8.7.1961 DATUM — AFLEIDING

With the low south of East London cloudy conditions will occur temporarily over the southeastern Cape coast and the Natal coast but over the remainder of the country it will remain fair and mild.

Met die laag suid van Oos-Londen sal bewolkte weer tydelik voorkom oor die Kaapse suidooskus en die Natalkus maar die res van die land sal dit mooiweer en matig bly.

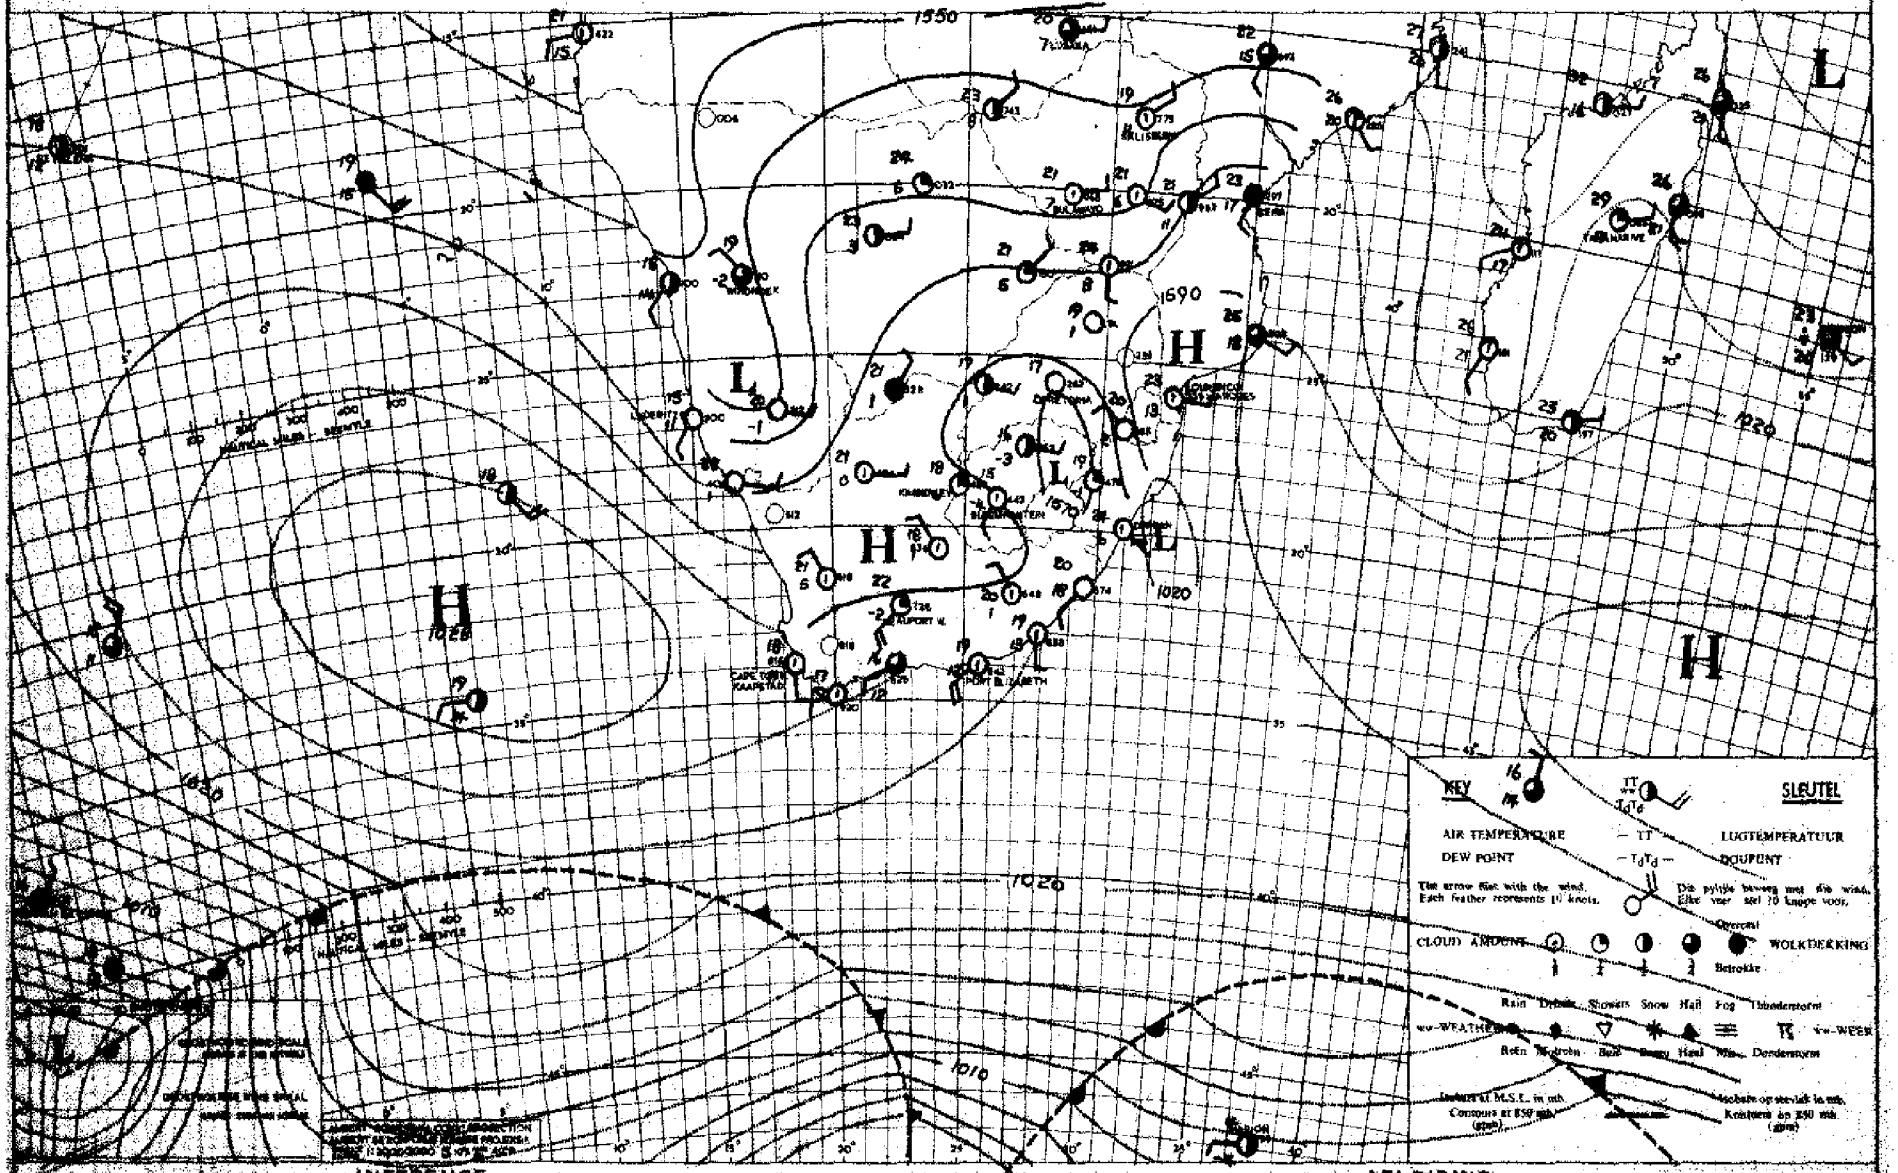
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 10-7-1961 DATUM AFLEIDING

The frontal systems are passing well to the south of the continent and consequently there will be little change in the prevailing fine weather over the country.

Die frontstelsels beweeg ver suid van die vasteland verby en gevolglik sal daar min verandering wees in die huidige mooiweerstoestande oor die land.

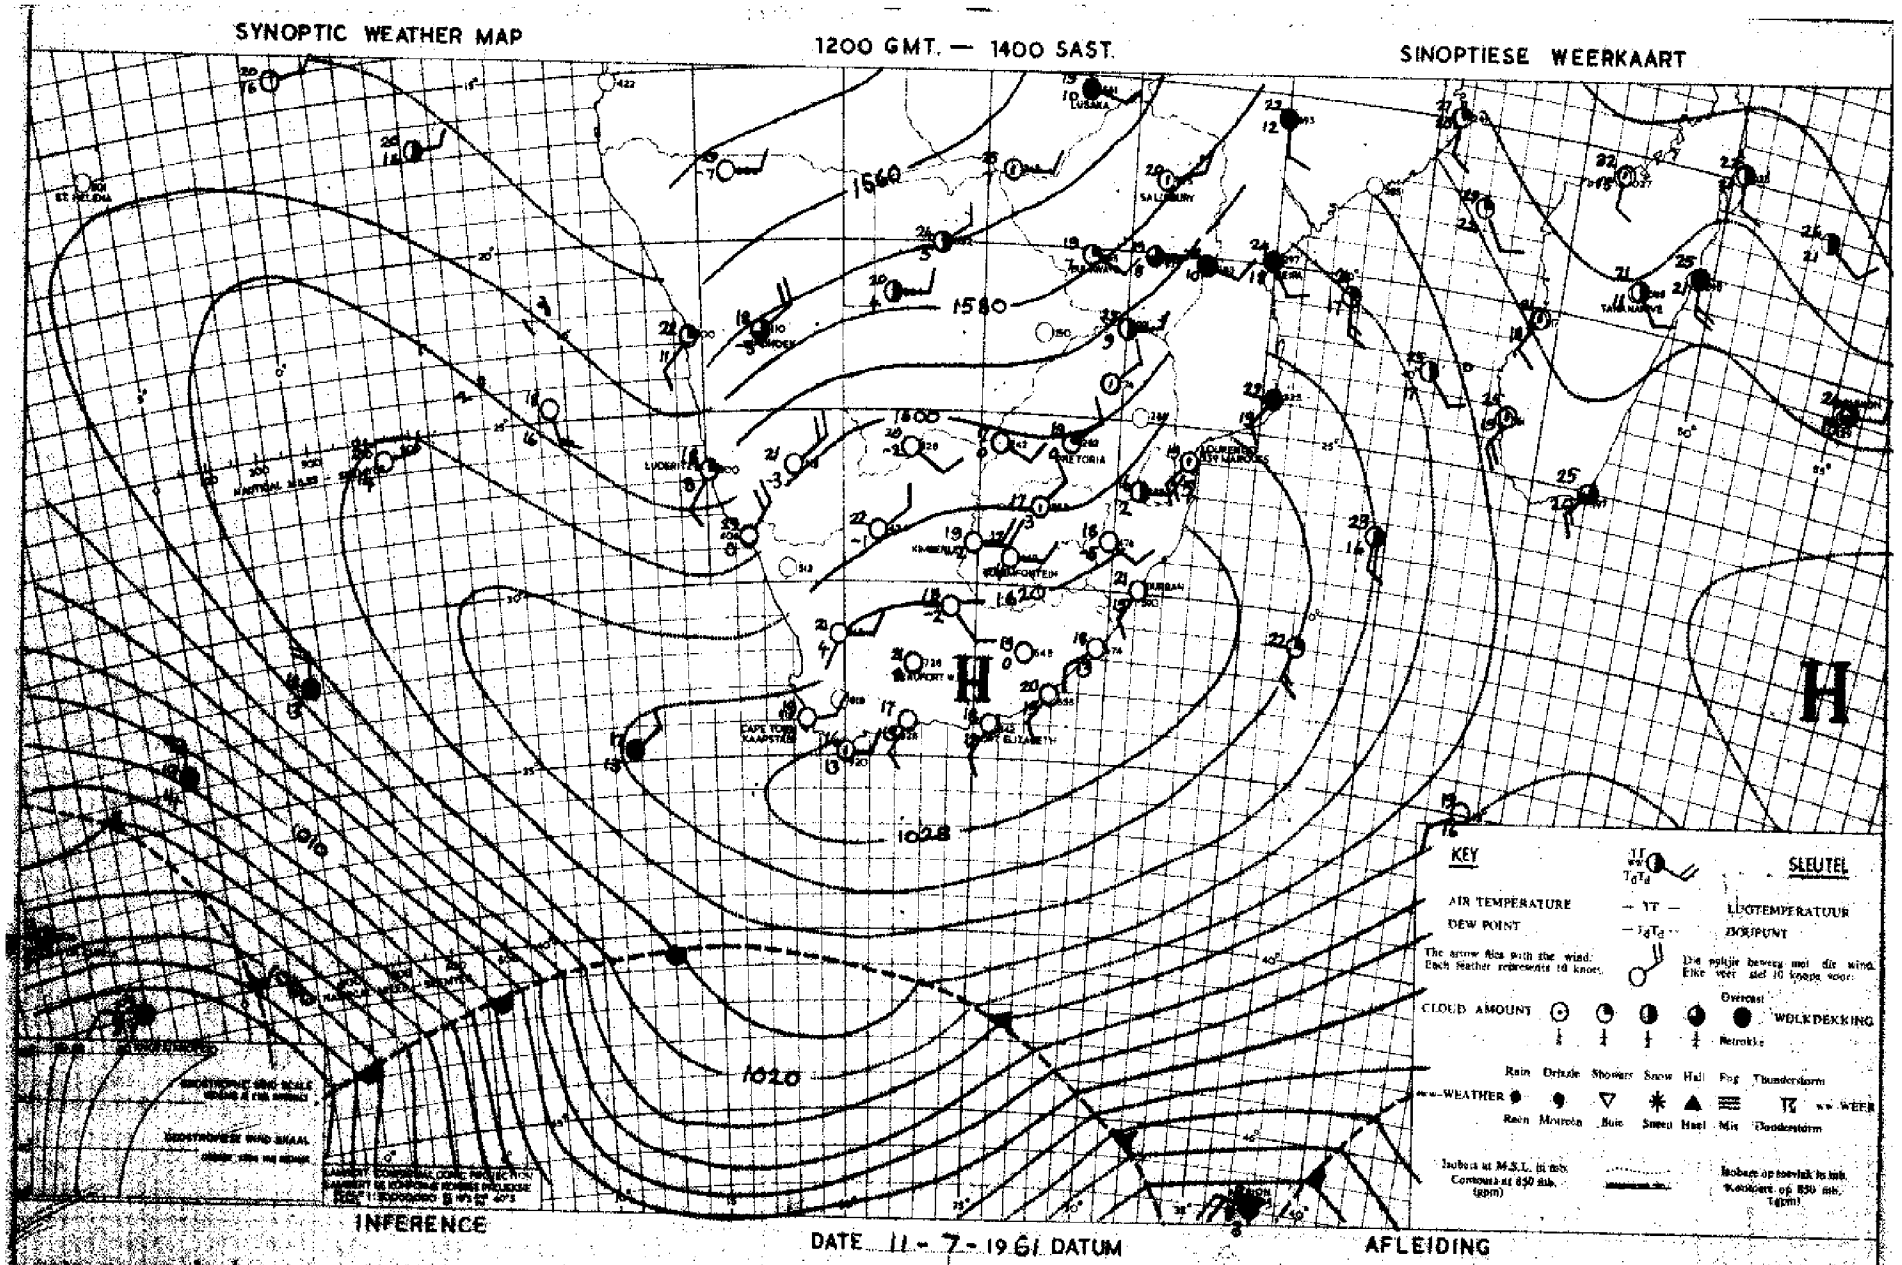
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 11 - 7 - 1961 DATUM

AFLEIDING

A strong high is situated over the southern parts of South Africa and it will be mainly Fine and mild, but it will be cold at night with frost over the central parts of the interior. Berg wind conditions will develop over the west coast.

'n Sterk hoog lê oor die suidelike dele van Suid-Afrika en dit sal hoofsaaklik mooiweer en matig wees, maar koud snags met ryp, oor die sentrale dele van die binneland. Bergwindtoestande sal ontwikkel oor die weskus.

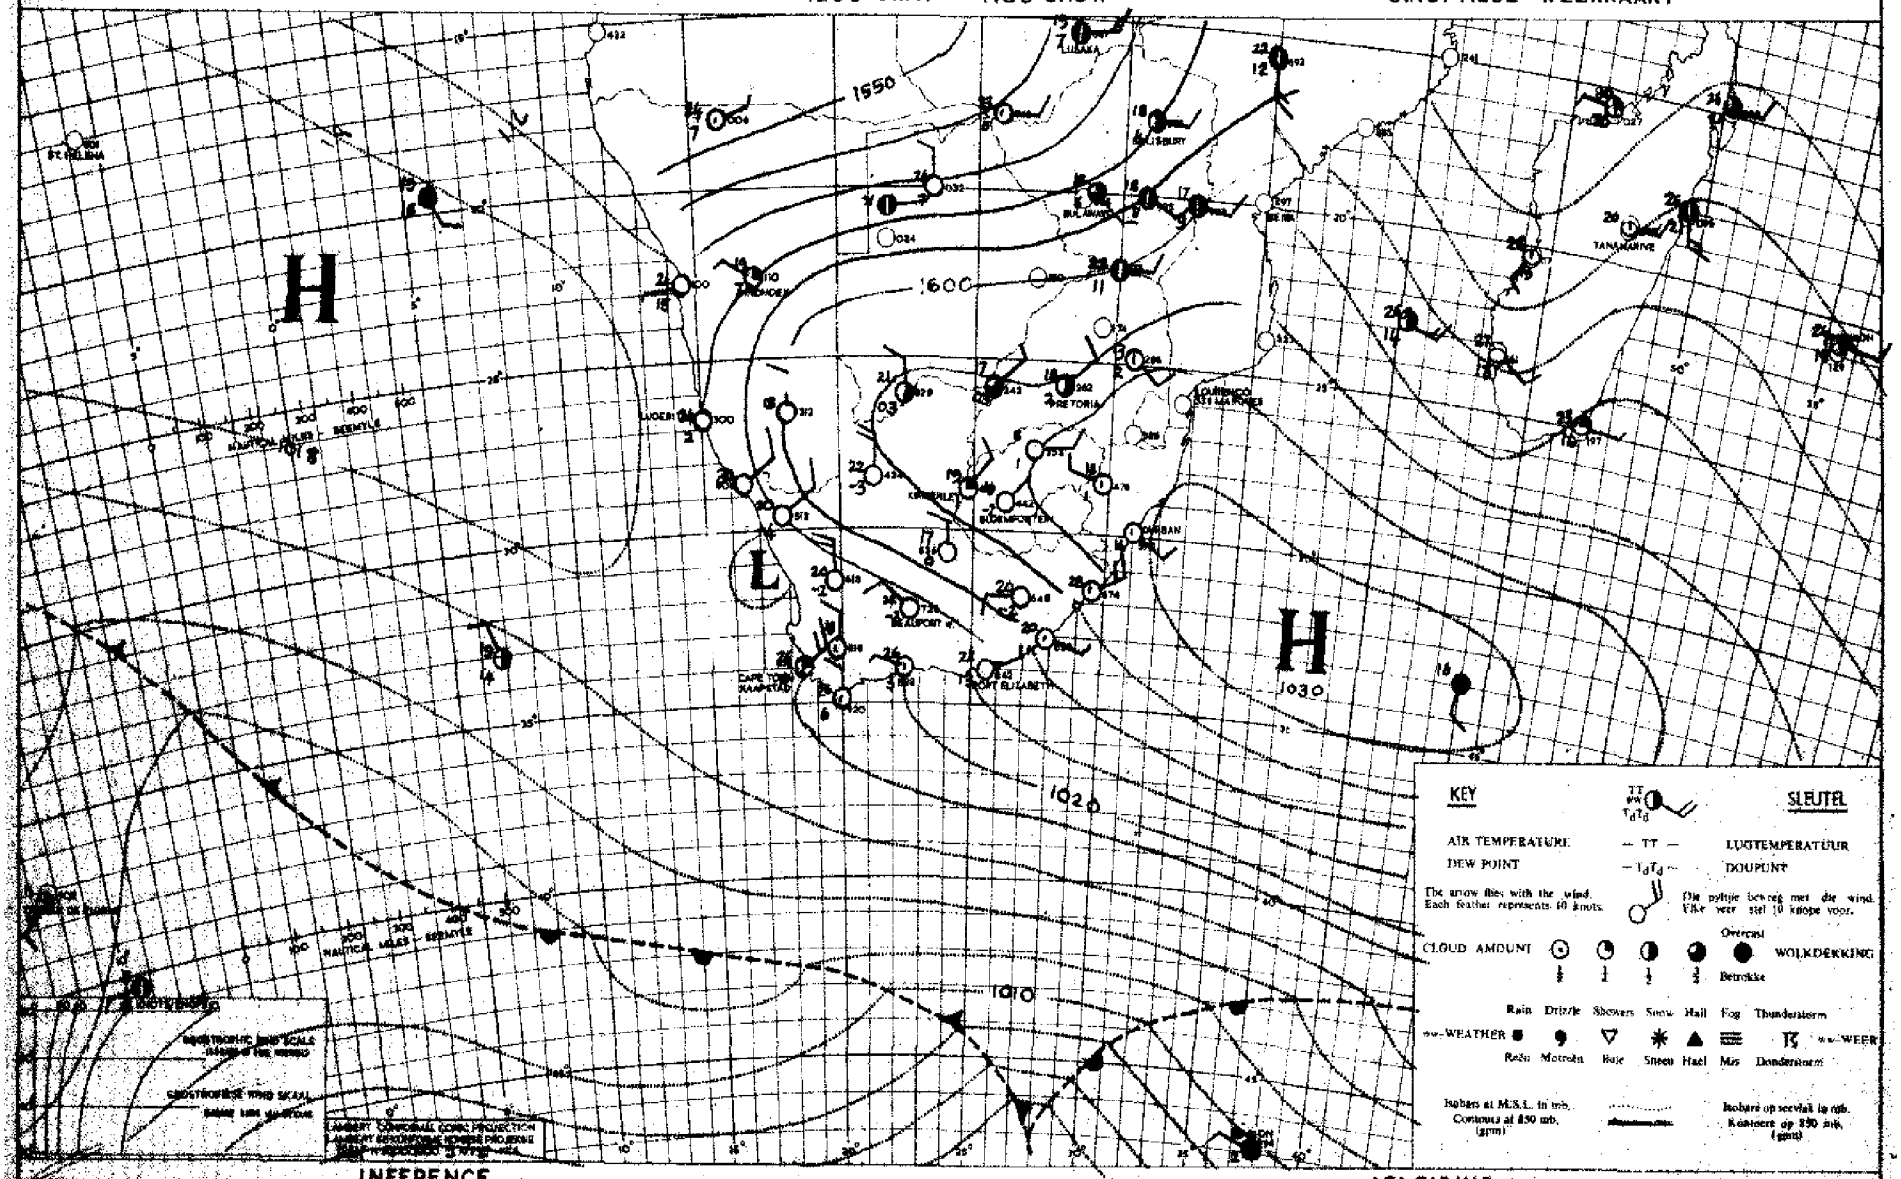
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

With the trough approaching from the west it will become cloudy with occasional rain or showers over the southern-western coastal regions. Apart from scattered clouds over the northern parts of the interior it will be mainly fine and mild over the remainder of the area. Hot bergwinds will occur over the southern coastal regions.

DATE 12-7-1961 DATUM

AFLEIDING

Met die trog wat uit die weste nader sal dit bewolk word met afwisselde reën of buie oor die suidwestelike kusgebiede. Afgesien van los wolke oor die noordelike dele van die binneland sal dit hoofsaaklik mooiweer en matig wees oor die res van die gebied. Warm bergwinde sal voorkom oor die suidelike kuststreke.

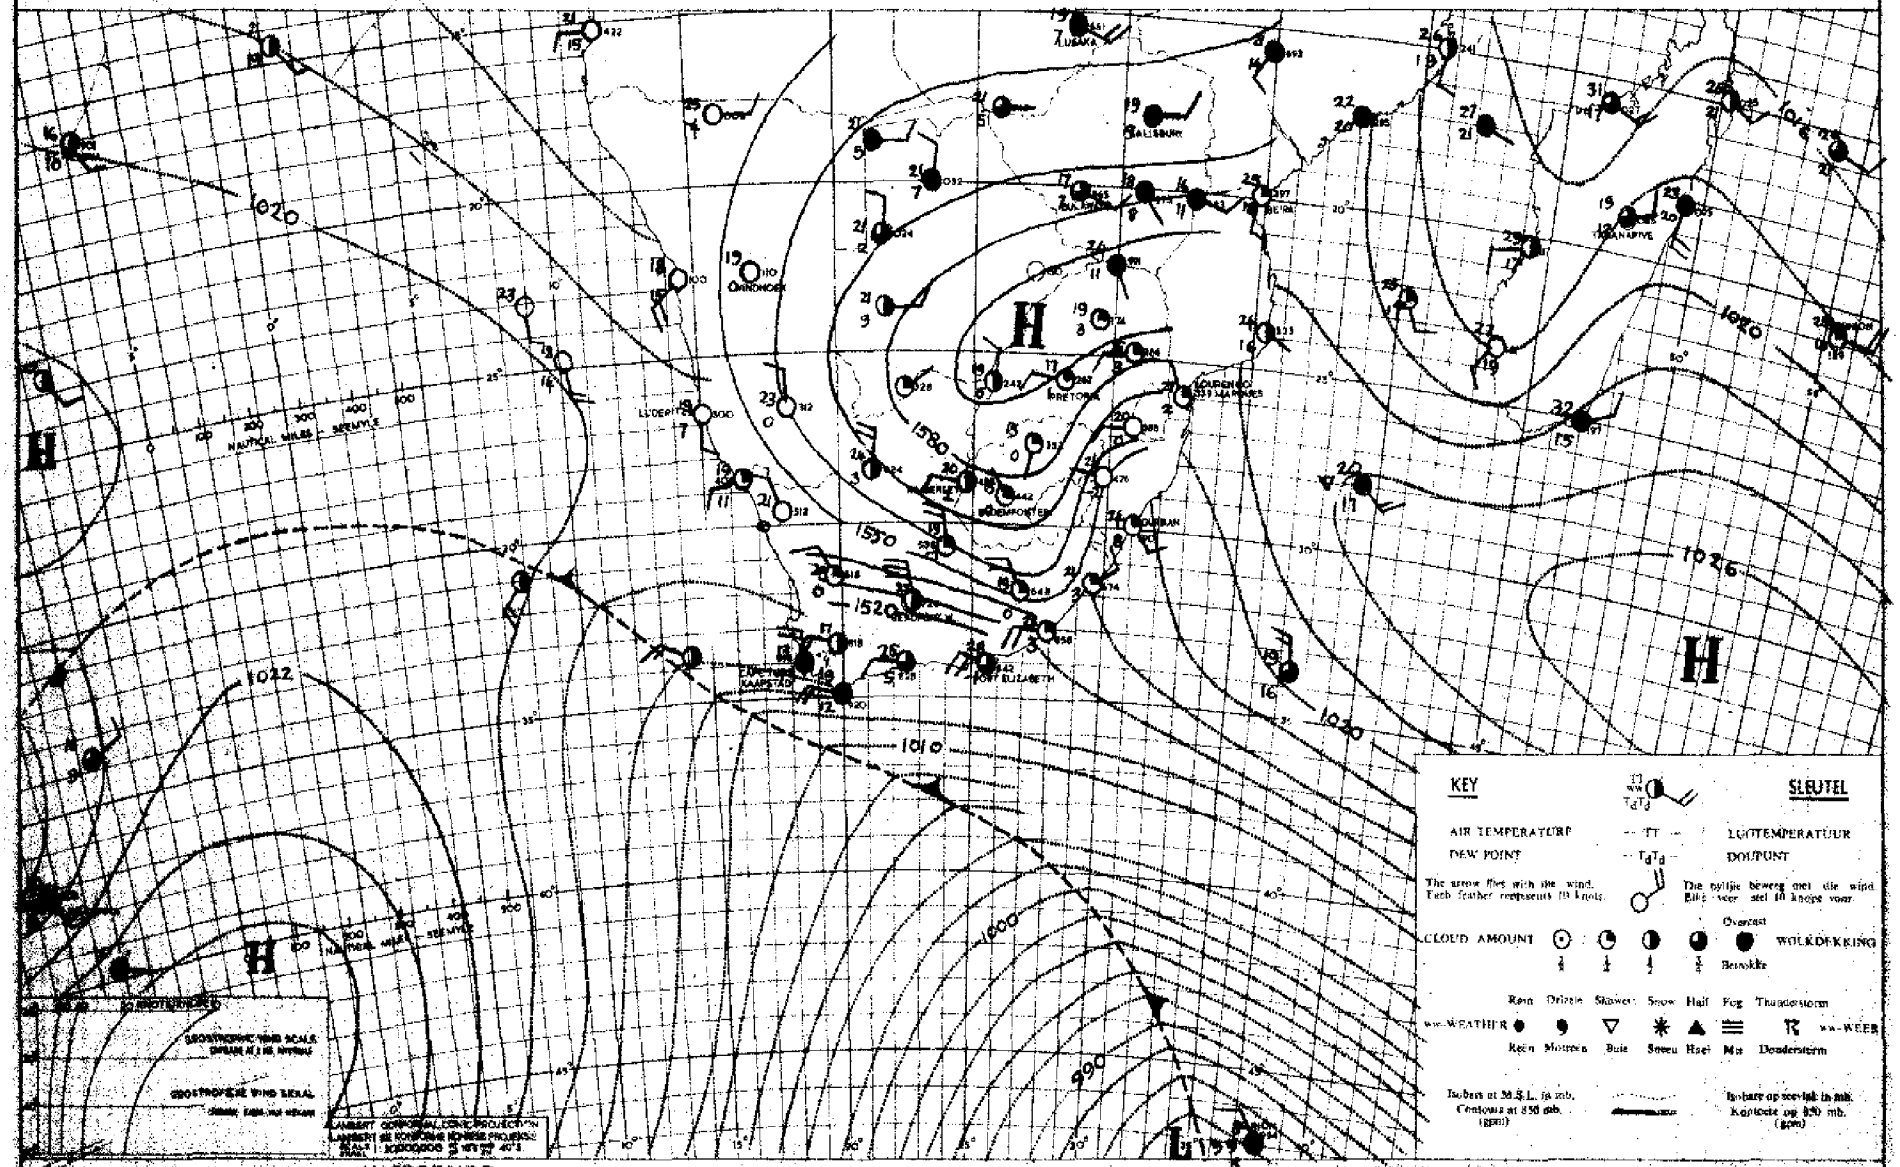
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 13-7-1961 DATUM AFLEIDING

The cold front west of the Cape peninsula is moving eastwards and cloudy, colder weather with rain will spread over the Southern and Southwestern Cape and tomorrow also over the Cape Southeast coast. Over the rest of the country it will remain fair, but it will become colder over the southern parts of the Cape interior.

Die koufront wes van die Kaapseskiereiland beweeg ooswaarts en bewolkte kouer weer met reën sal uitbrei oor Suidwes- en Suid-Kaapland en môre ook oor die Kaapse suidooskus. Oor die res van die land sal dit redelik mooiweer bly, maar dit sal kouer word oor die westelike en suidelike dele van die Kaapse binneland.

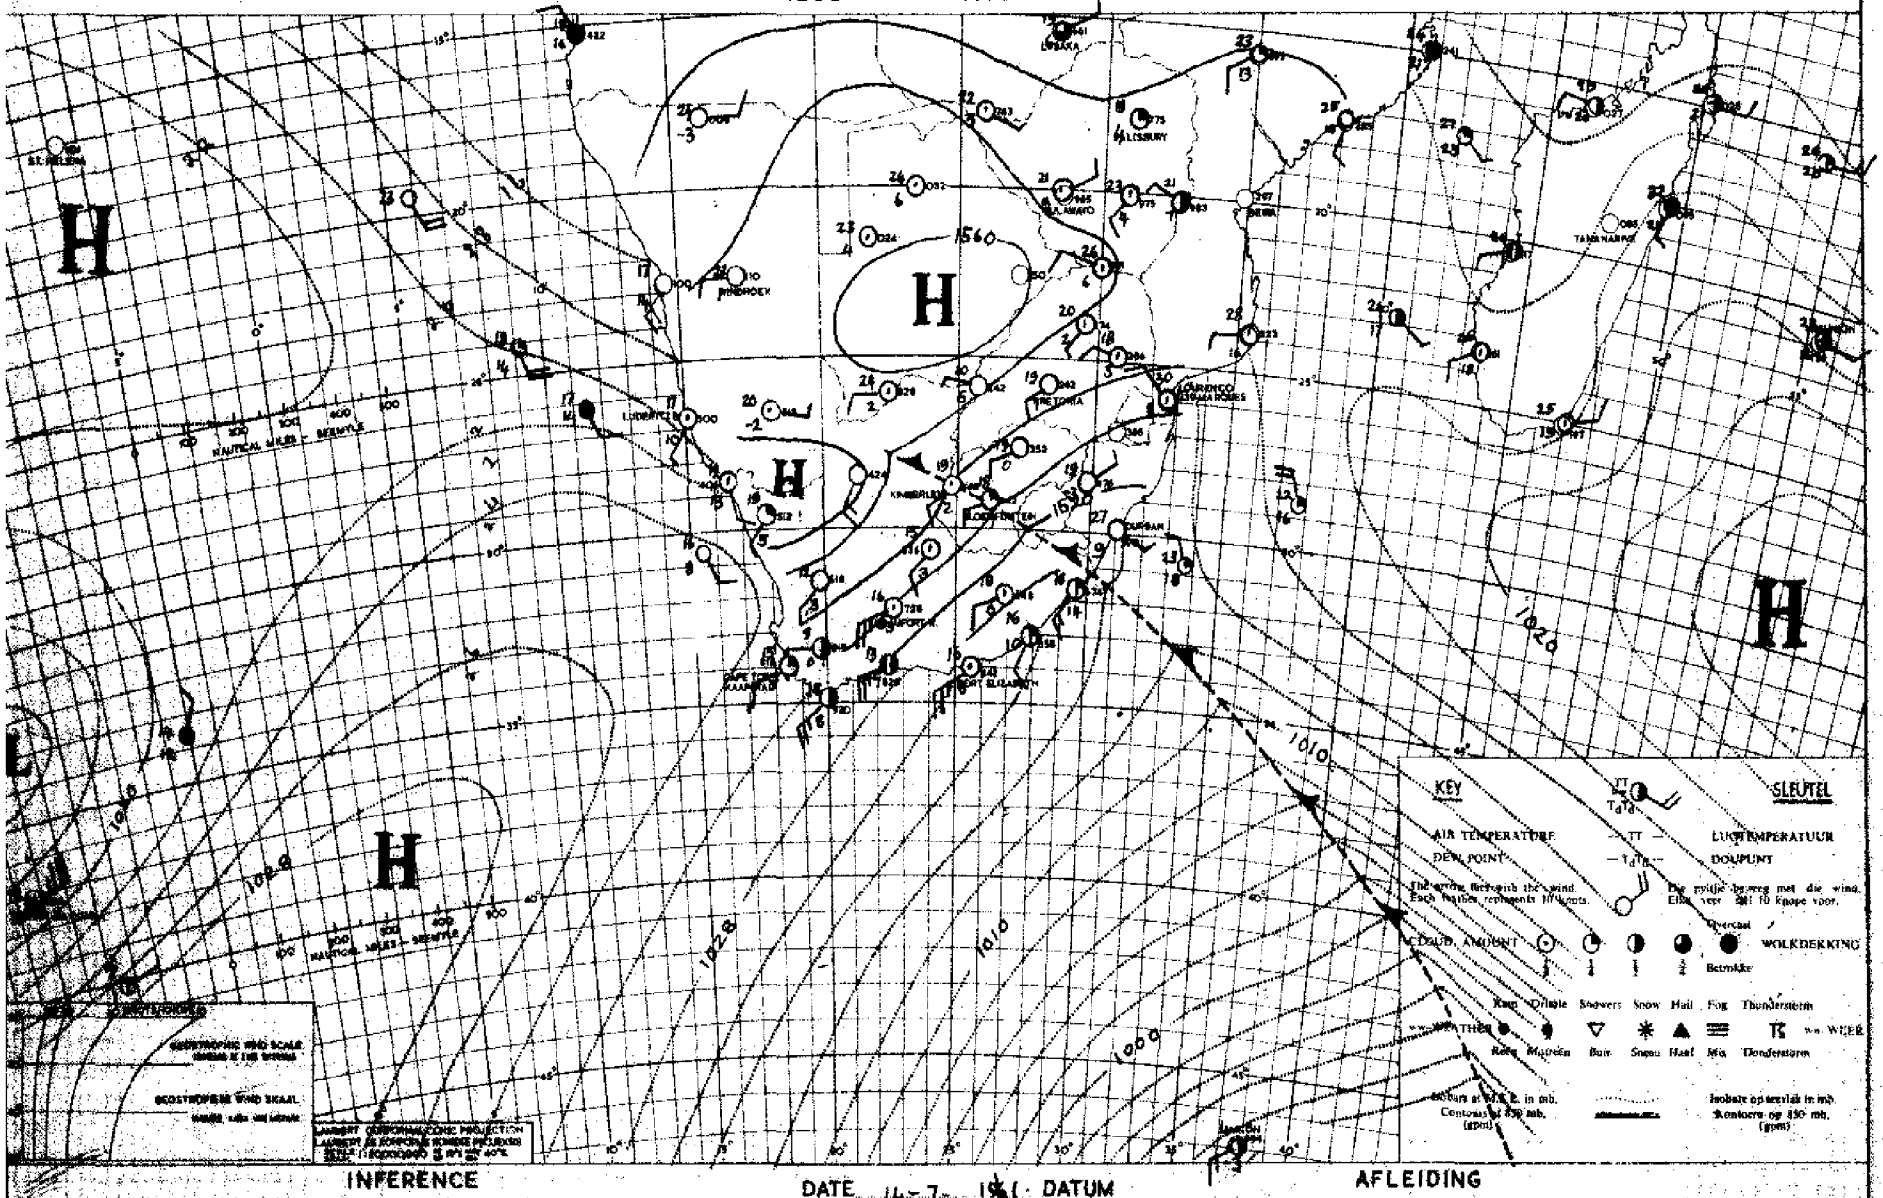
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

It is expected that it will be fairly cloudy in general over the southern and south-eastern coastal regions with local showers. Cold, dry air is moving in over the southern and central parts of the interior and it will be fine and cold over these regions. Elsewhere it will be fine and mild.

DATE 14-7-1961 · DATUM

AFLEIDING

Na verwagting sal dit oor die algemeen taamlik bewolk en koud wees oor die suidelike en suidoostelike kusgebiede en pleaslike buie sal uitsak. Koue droë lug beweeg in oor die suidelike en sentrale dele van die binneland en dit sal mooiweer en koud wee oor die dele. Eldus sal dit mooiweer en matig wees.

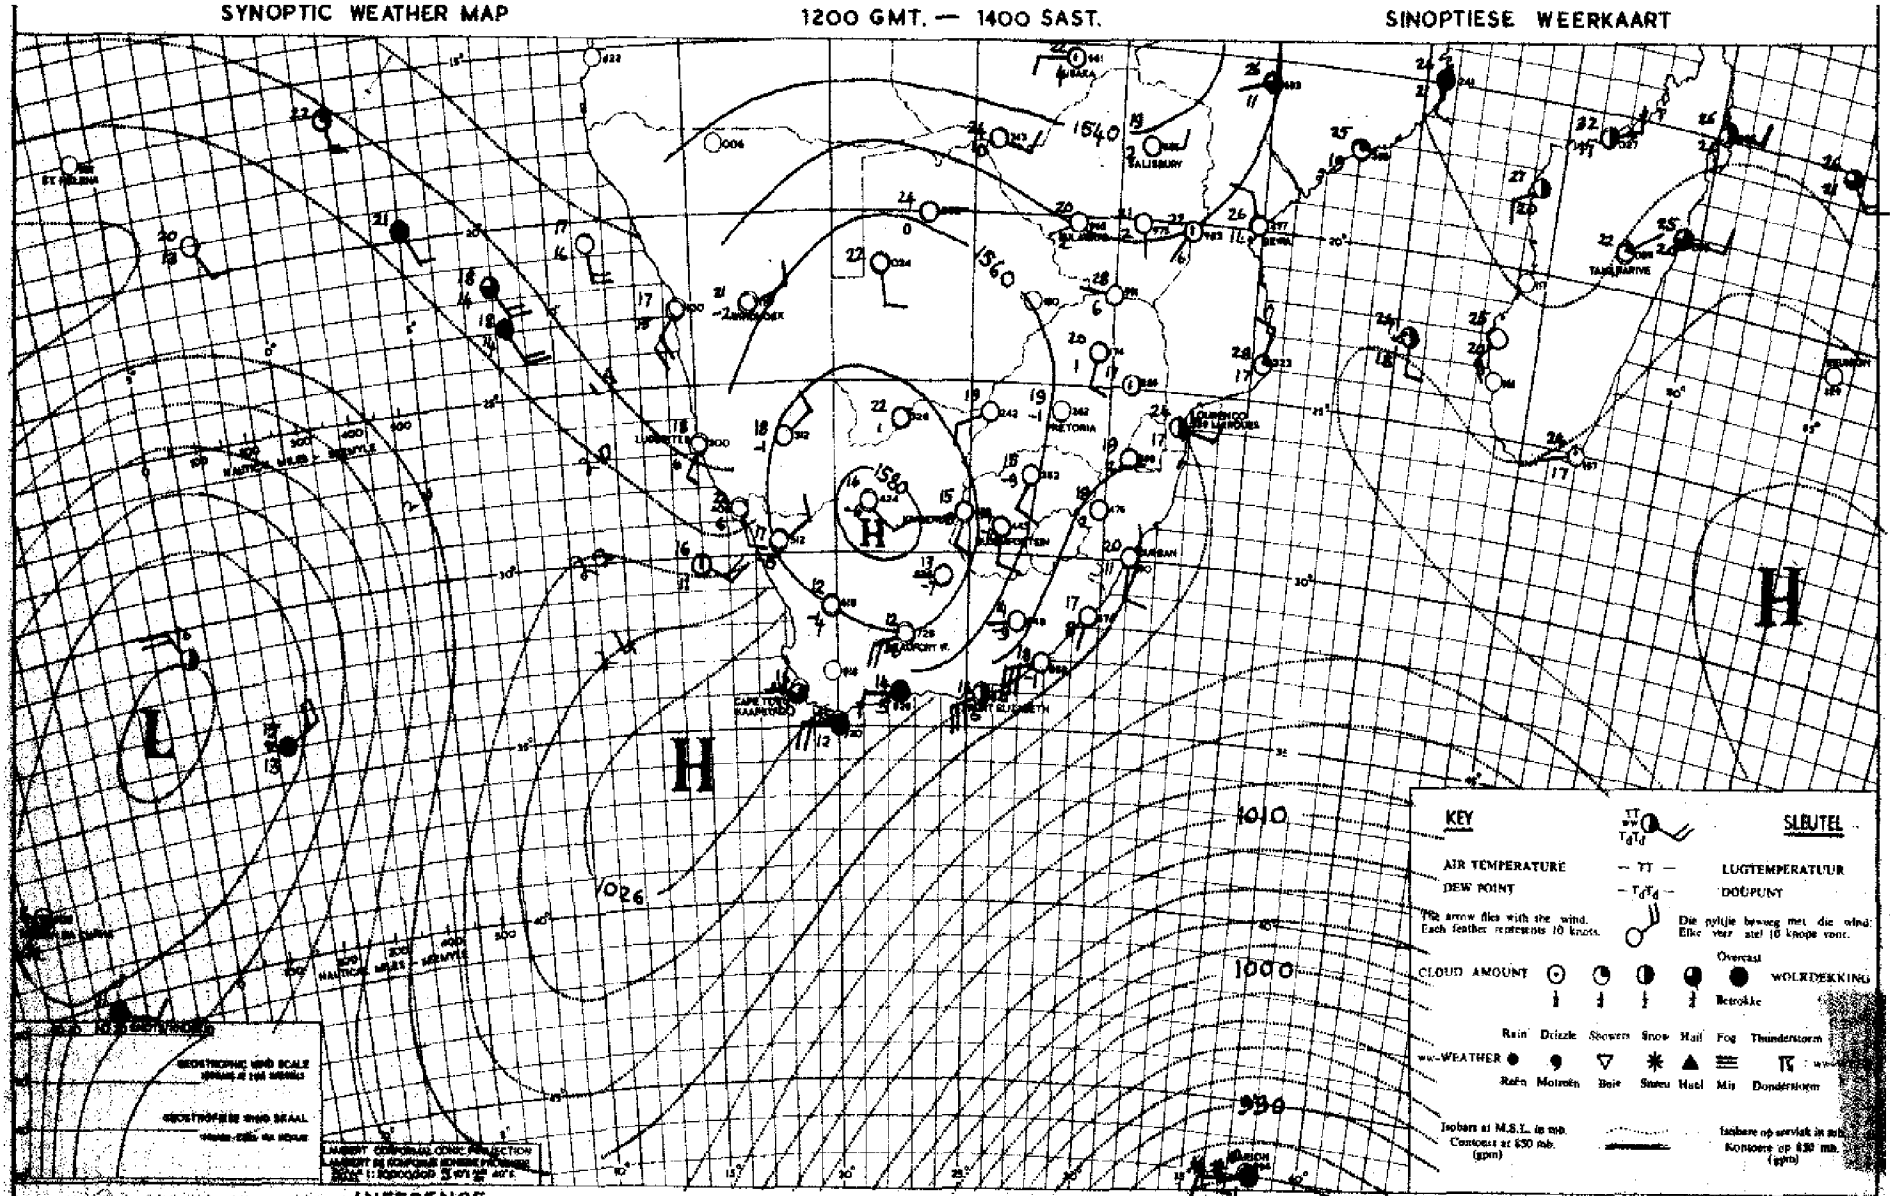
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 15-7-1961 DATUM AFLEIDING

The high off the South West Cape coast will extend a ridge eastwards to the Natal coast and it will become cloudy with occasional drizzle over Northern Natal, Transvaal lowveld and the Northern Transvaal Elsewhere it will be mainly fine and mild except over the Transvaal highveld, Freestate and the Cape interior where it will be cold.

Die hoog wat net suidwes van Suidwes Kaapland lê sal 'n rug laat ooswaart uitbrei na die Natalsekus en dit sal bewolk word met motreen af en toe oor die Noordelike Natal, Transvaal laeveld en die Noordelike Transvaal. Origens sal dit meestal mooiweer en matig wees behalwe oor die Transvaal hoëveld, Vrystaat en die Kaapse binneland waar dit koud sal wees

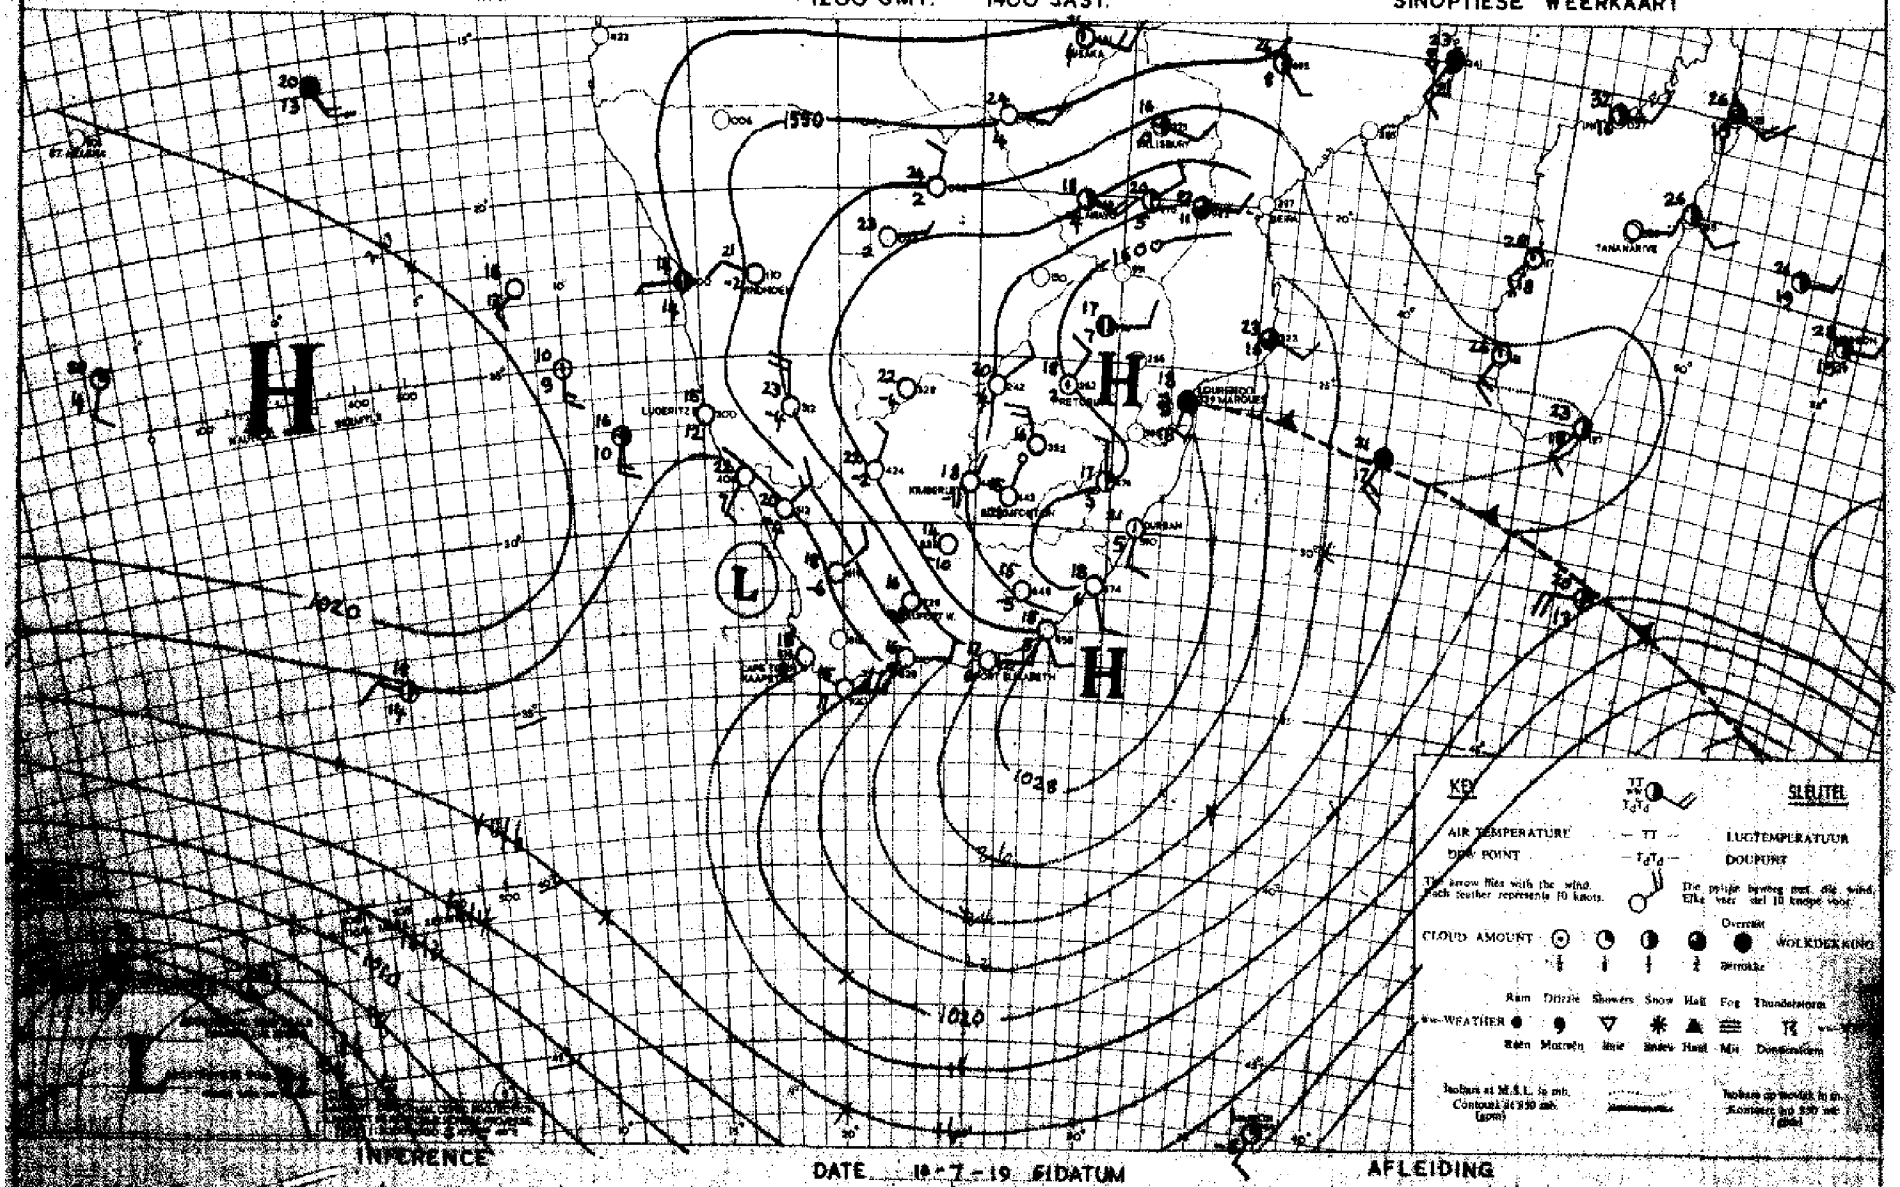
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 18-7-19 DATUM AFLEIDING

Cold air will move over the whole of the Transvaal, the northern parts of the Free State, the eastern Bechuanaland and over these regions it will be cloudy and cold with occasional drizzle over the Transvaal during the morning. Along the Cape West Coast it will be cloudy with coastal fog patches which will spread over the Peninsula and the Cape South Coast. Elsewhere over the country it will be fair and mild.

Koue lug sal oor die hele Transvaal, noordelike Vrystaat en die oostelike Betsjoenaland beweeg en oor hierdie dele sal dit bewolk en koud wees, met motreen af en toe oor die Transvaal gedurende die oggend. Langs die Kaapse Kus sal dit bewolk wees met mis langs die kus hierdie toestande sal uitbrei na die Kiereiland en die Kaapse Suidkus. Origens sal dit redelik mooi weer en mang wees.

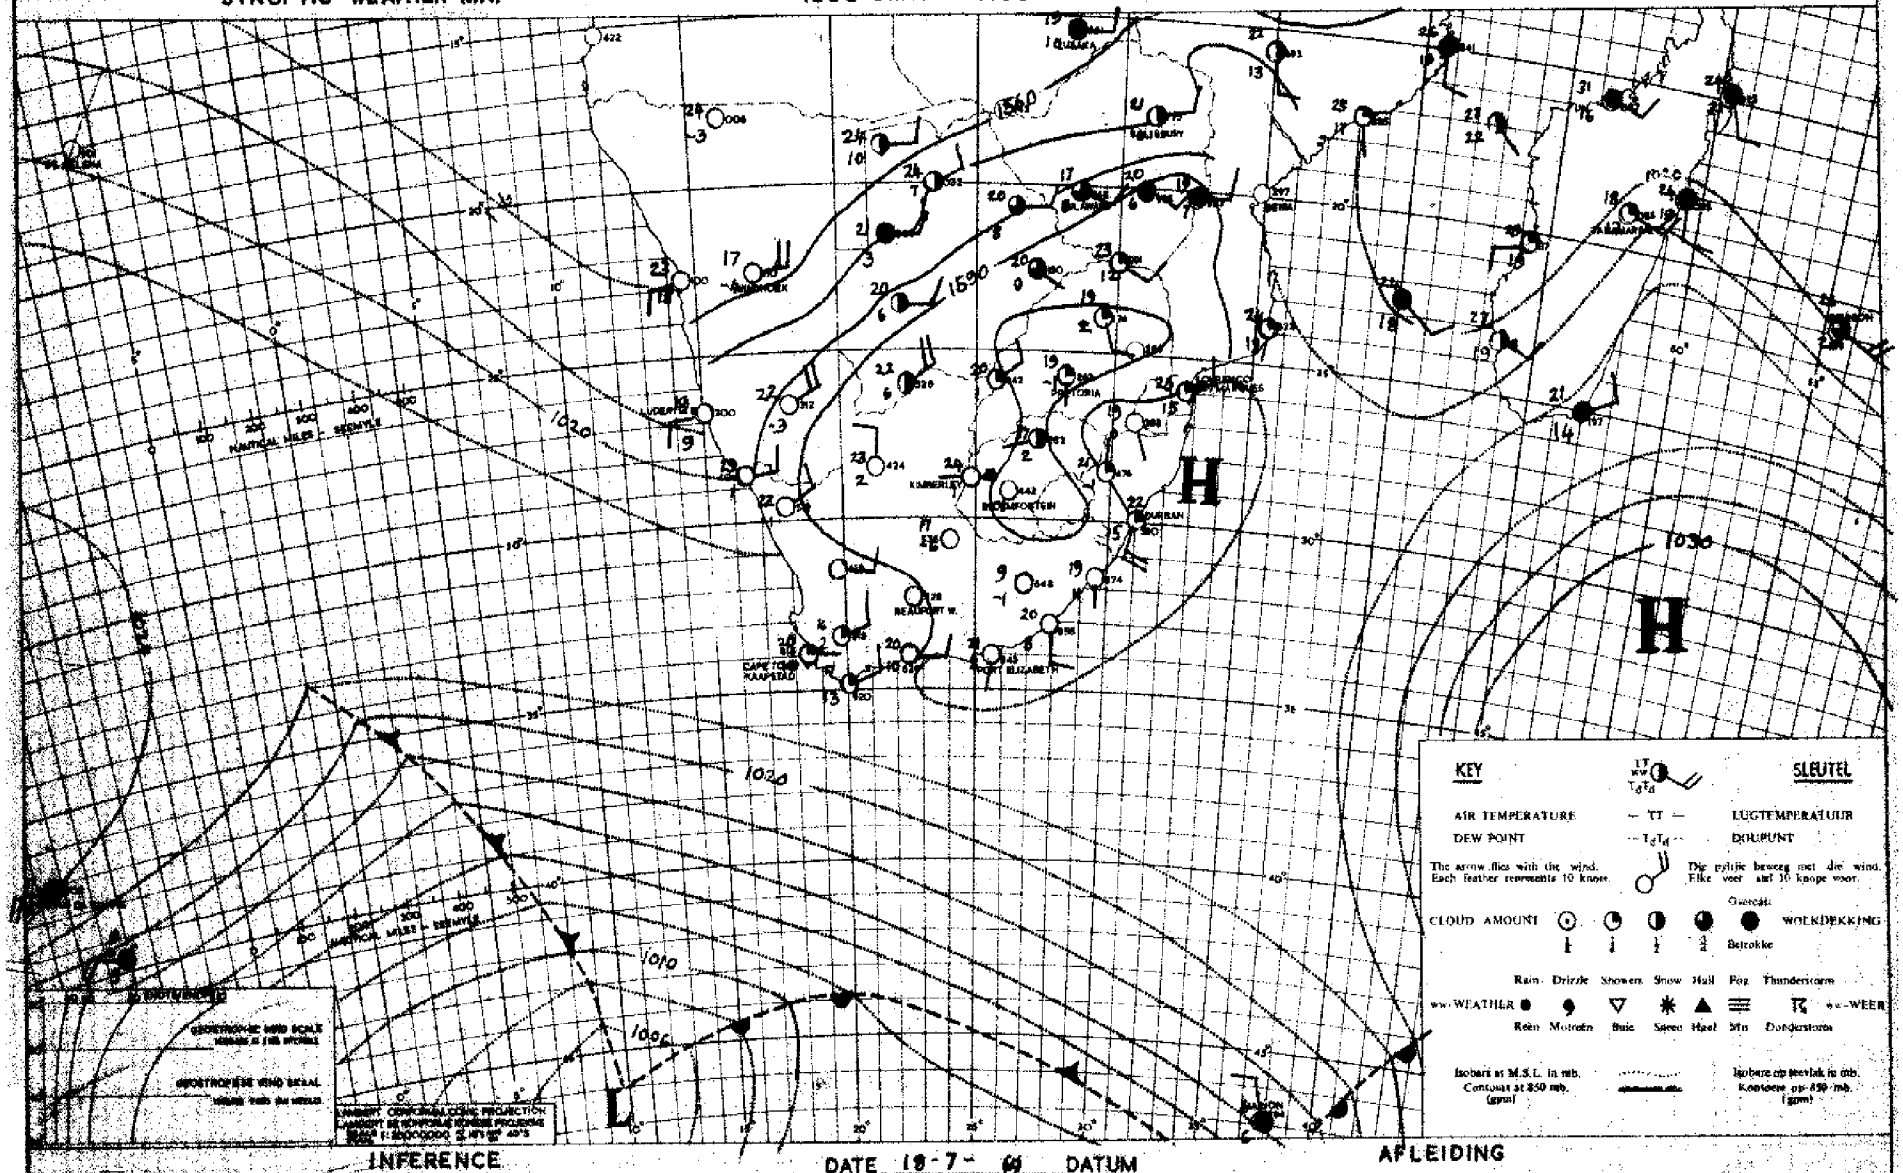
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The air over the northern and northeastern boundaries of the country is somewhat moist and the weather will be fair over the Northern Transvaal, Bechuanaland and Northern S.W.A. The frontal system approaching the S.W Cape will bring cloudy weather to these regions towards Evening. Over the remainder of the country it will be mainly fine and mild except along the Cape West S.W and S coast where it will be warm at first.

DATE 18-7-69 DATUM

AFLEIDING

Die lug oor die noordelike en noordoostelike grens van die land is ietswat vog en dit sal redelik mooiweer wees oor die noordelike Transvaal, Betsjoeanaland en noordelike S.W.A. Die front wat wes van die Suidwes Kaap lê sal S.W Kaapland vanaand bereik en dit sal bewolk word. Oor die res van die land sal dit meestal mooiweer en matig wees behalwe langs die Kaapse Wes, Suidwes en Suidkus waar dit aanvanklik warm sal wees.

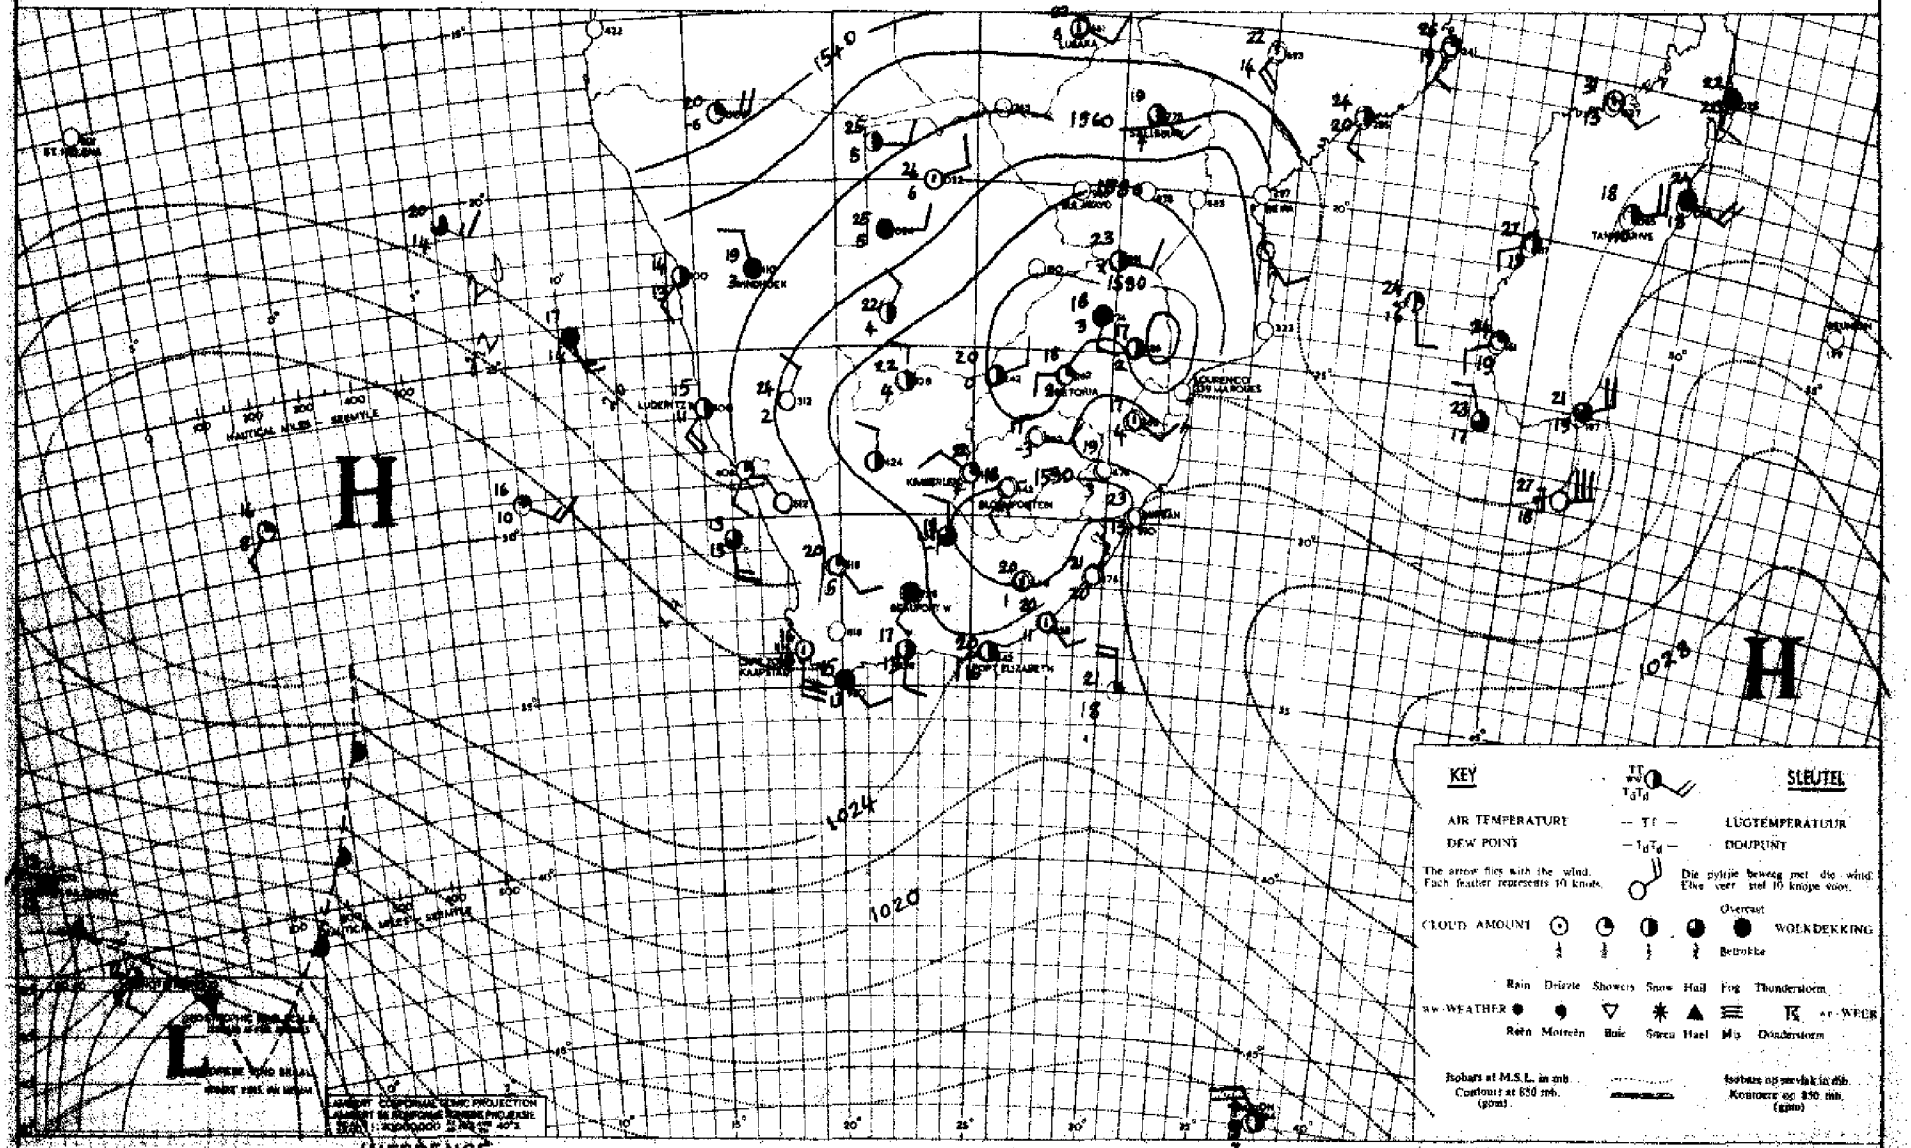
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 20-7-79 61 DATUM — AFLEIDING

A ridge of high pressure is moving eastwards around the Cape bringing cloudy weather with local drizzle to the South Cape coast and S.E. coast and later today to the southern Natal coast. The moist air lying over the western half of the interior will spread to the N.E. Cape and Natal interior and light showers are possible over the Northern Cape Midlands, N.E. Cape and the southern Freestate. Over the remainder of the country it will be Fair or Fine and mild.

'n Rug van hoë druk is besig om oostwaarts te beweeg suid van die Kaap en die weer sal bewolk wees met plaaslike motreën langs die Kaapse Suidkus en die Suidooskus en later oor die suidelike Natalse kus. Die vochtige lug wat oor die westelike dele van die binneland lê sal uitbrei na N.O. Kaap en die Natalse binneland en ligte buie is moontlik oor die Kaapse Middelland, N.O. Kaap en die suidelike Vrystaat. Oor die res van die land sal dit redelik

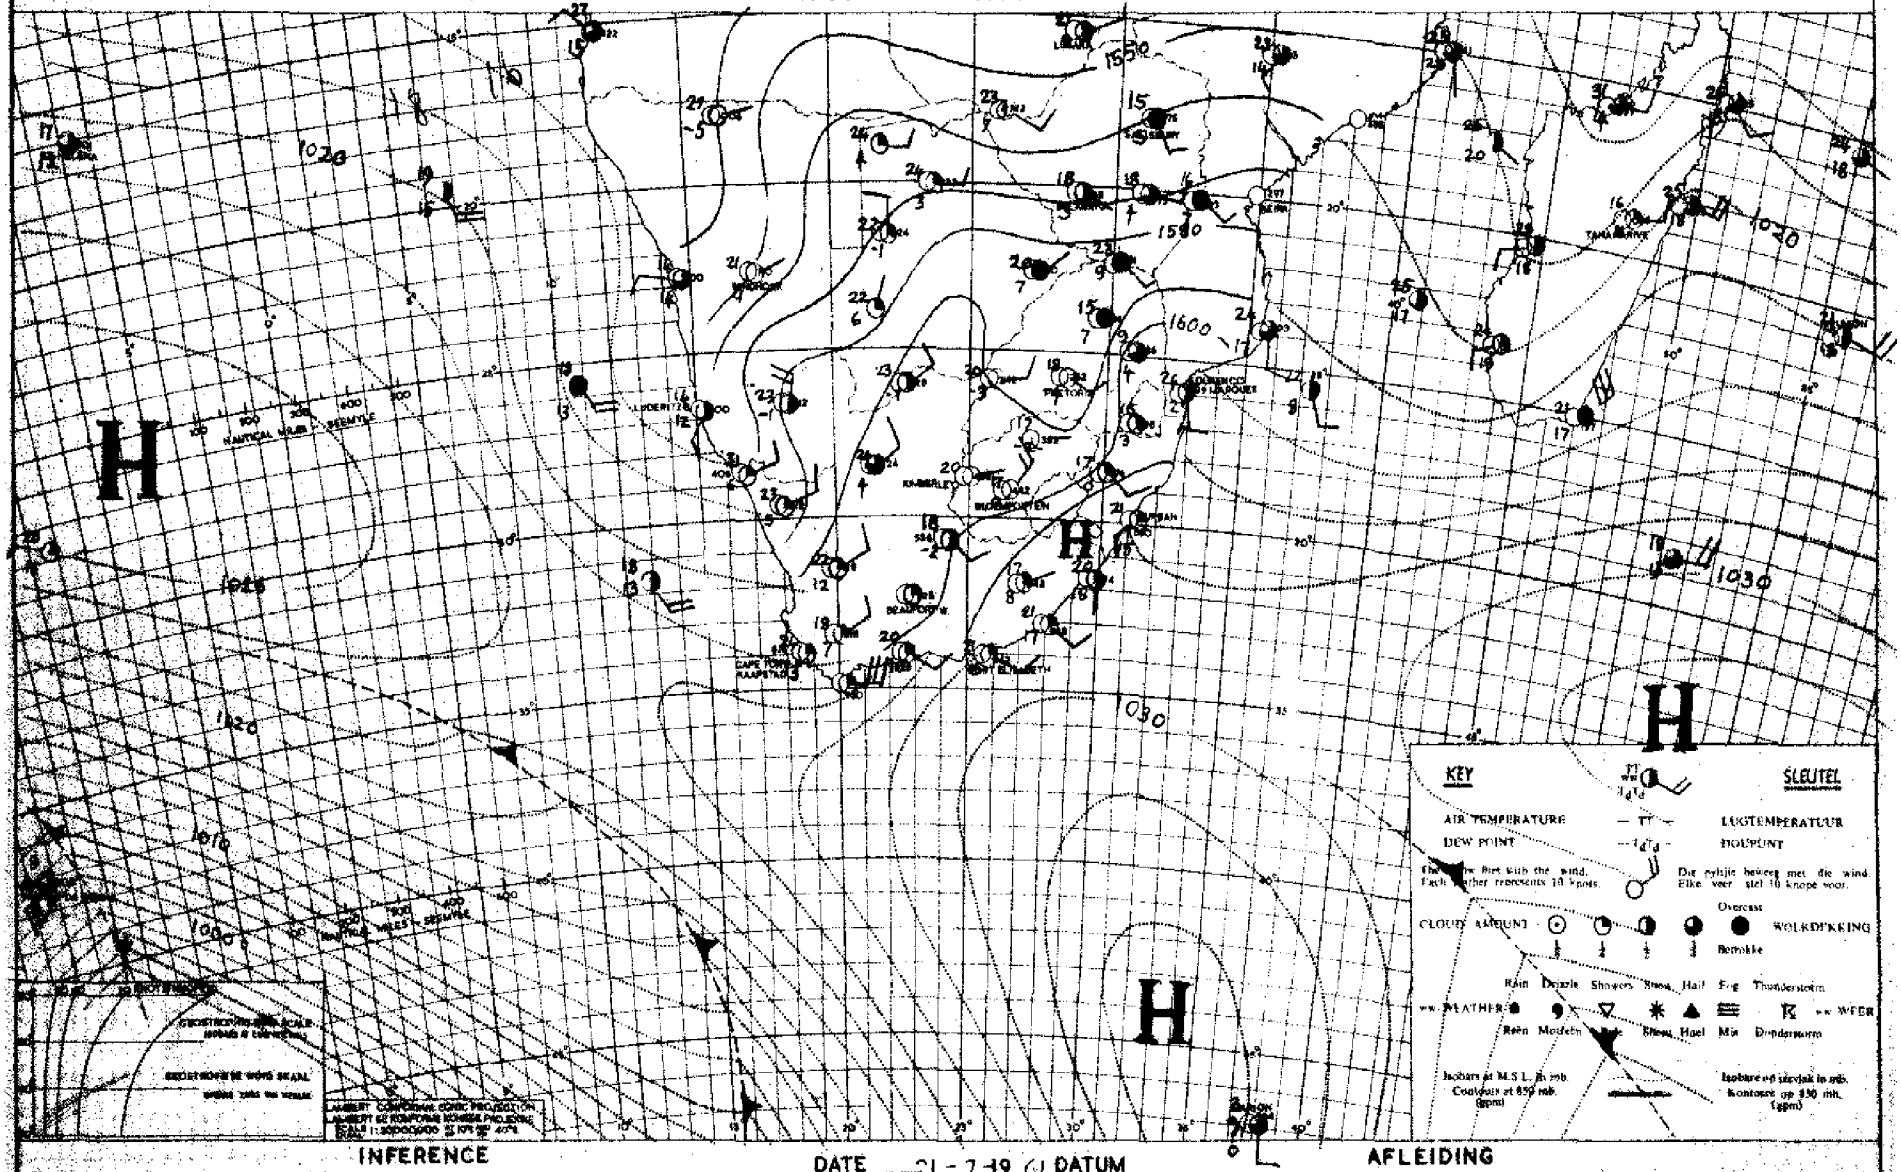
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 21-7-49-61 DATUM — AFLEIDING

Cloudy conditions will persist over northern Natal and eastern Transvaal as a result of a fairly deep easterly flow over these regions but over the rest of the country it will be fair. Warm bergwinds will blow over the western and southern Cape coastal regions.

Met 'n betreklike diep oostelike lugstroom oor noordelike Natal en Oos-Transvaal sal bewolkte toestande daar voorkom maar oor die res van die land sal dit redelike mooiweer wees. Warm bergwinde sal voorkom oor die westelike en suidelike Kaapse kusgebiede.

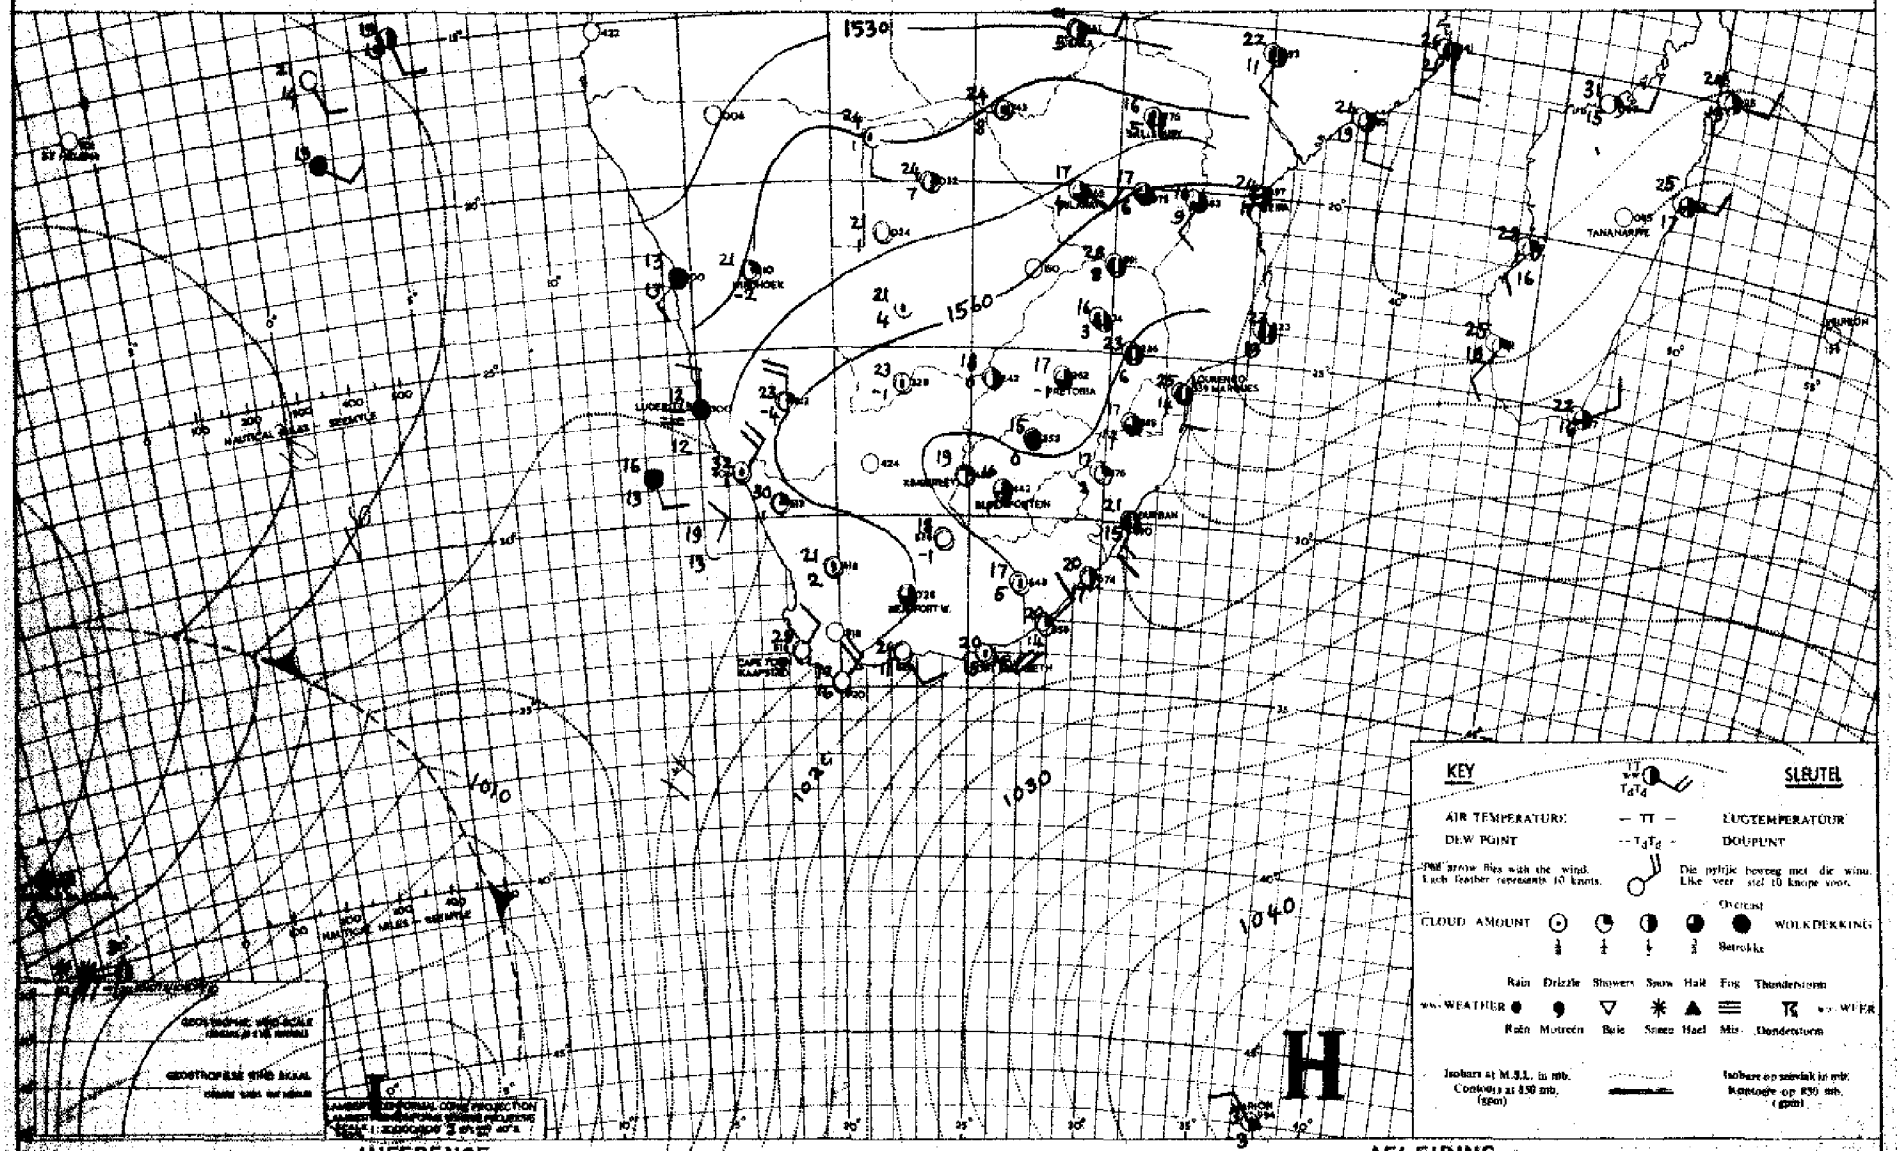
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 22-7-1961 DATUM — AFLEIDING

The front approaching the S.W Cape will bring cloudy weather to the S.W Cape and Cape West coast and berg winds to the Cape South coast. The cloudy weather over Natal and the Transvaal will clear gradually from the West. Over the remainder of the country it will be mainly fine and mild.

Met die front wes van S W Kaap, sal die weer bewolk wees langs die Kaapse Suidkus en S W Kaap en oor die Kaapse Suidkus sal warm bergwinde waai. Die bewolkte weer oor Natal en die Transvaal sal geluidelik vanuit die weste verbeter. Oor die res van die land sal dit meestal mooiweer en matig wees.

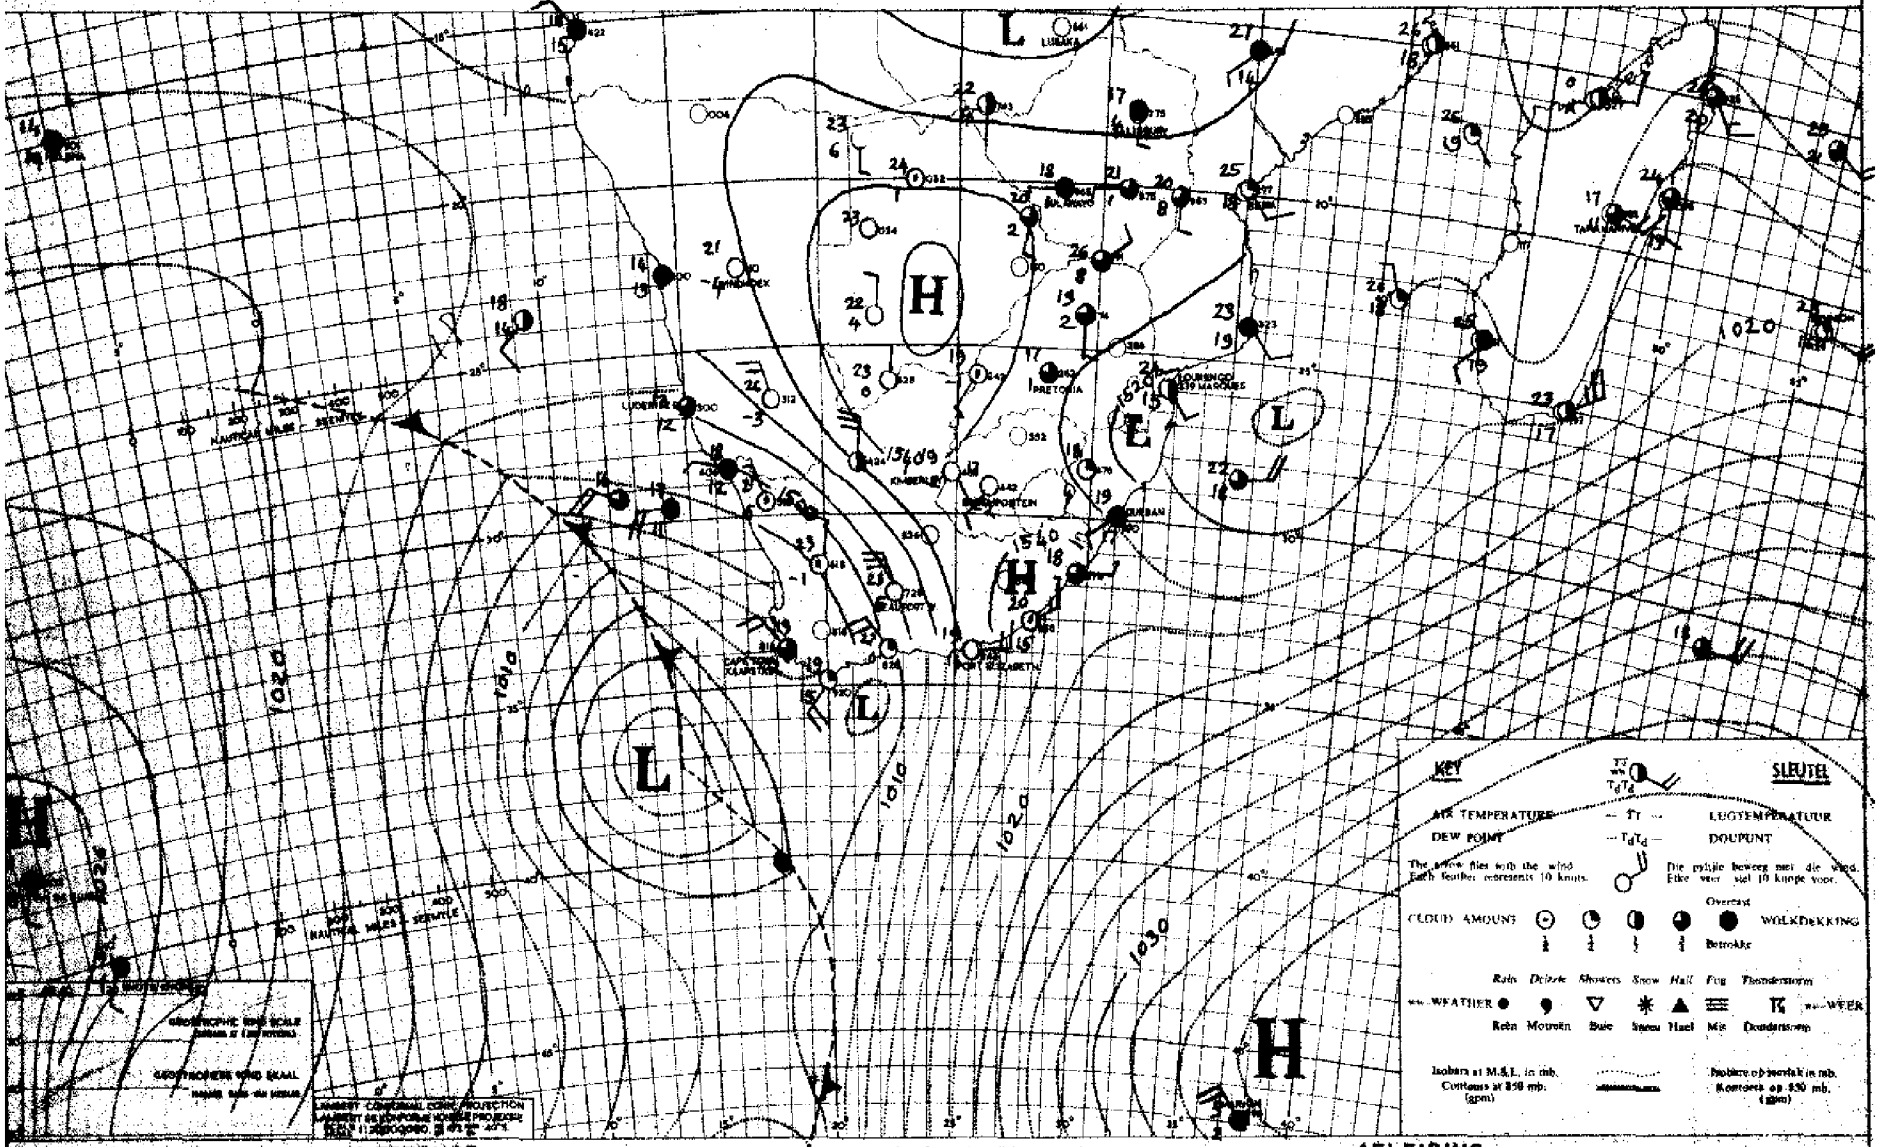
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 23-7-1961 DATUM AFLEIDING

The approaching low and cold front will bring cloudy conditions with showers over the western and southwestern parts of the Cape Province but over the rest of the country it will be mainly fine with fresh to strong northwesterly winds over the western regions.

Die naderende laag en koufront sal bewolkte weer gepaard met reënbuie veroorsaak oor die westelike en suidwestelike dele van Kaapland. Oor die res van die land sal dit hoofsaaklik mooiweer wees met sterk noordwestewind oor die westelike gebiede.

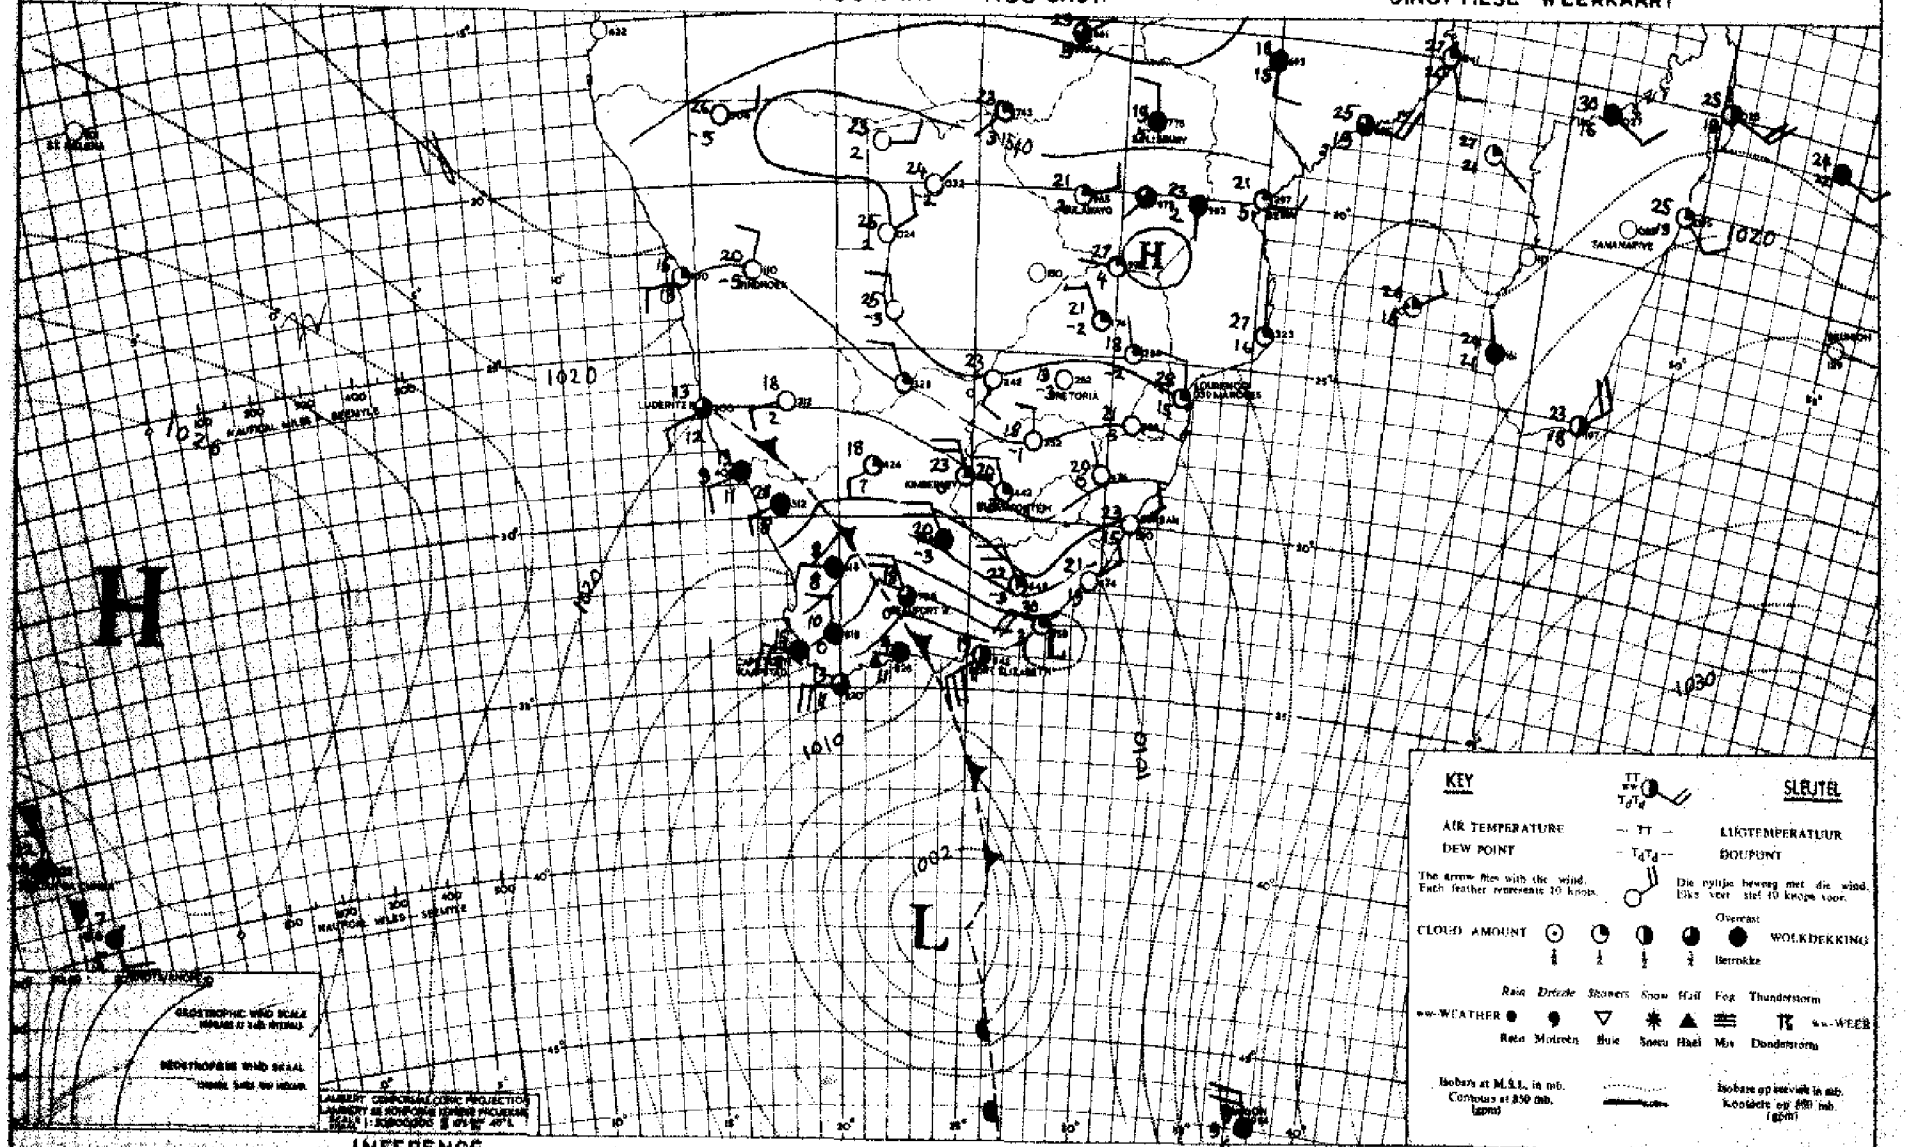
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 24-7-1961 DATUM AFLEIDING

With the cold front moving eastwards across the country, temperatures will drop over all regions south of 28°S. It will become partly cloudy over the Cape Interior and cool cloudy conditions with scattered showers will occur over the South-western and S Cape coast spreading gradually over the S.E coastal regions. Fresh NW winds will blow over the Karoo [illegible]

Die koue front beweeg ooswaarts oor die land en temperature sal daal oor alle dele suid van 28°S. Dit sal gedeeltelik bewolk wees oor die kaapprovinsie en koue bewolkte toestande met verspreide buie sal voorkom oor die SW en S Kaapse kusstreke. Hierdie toestande sal uitbrei oor die kaapse SO kusstreke. Taamlik sterk noord- [illegible] oor die res van die binneland sal dit meer

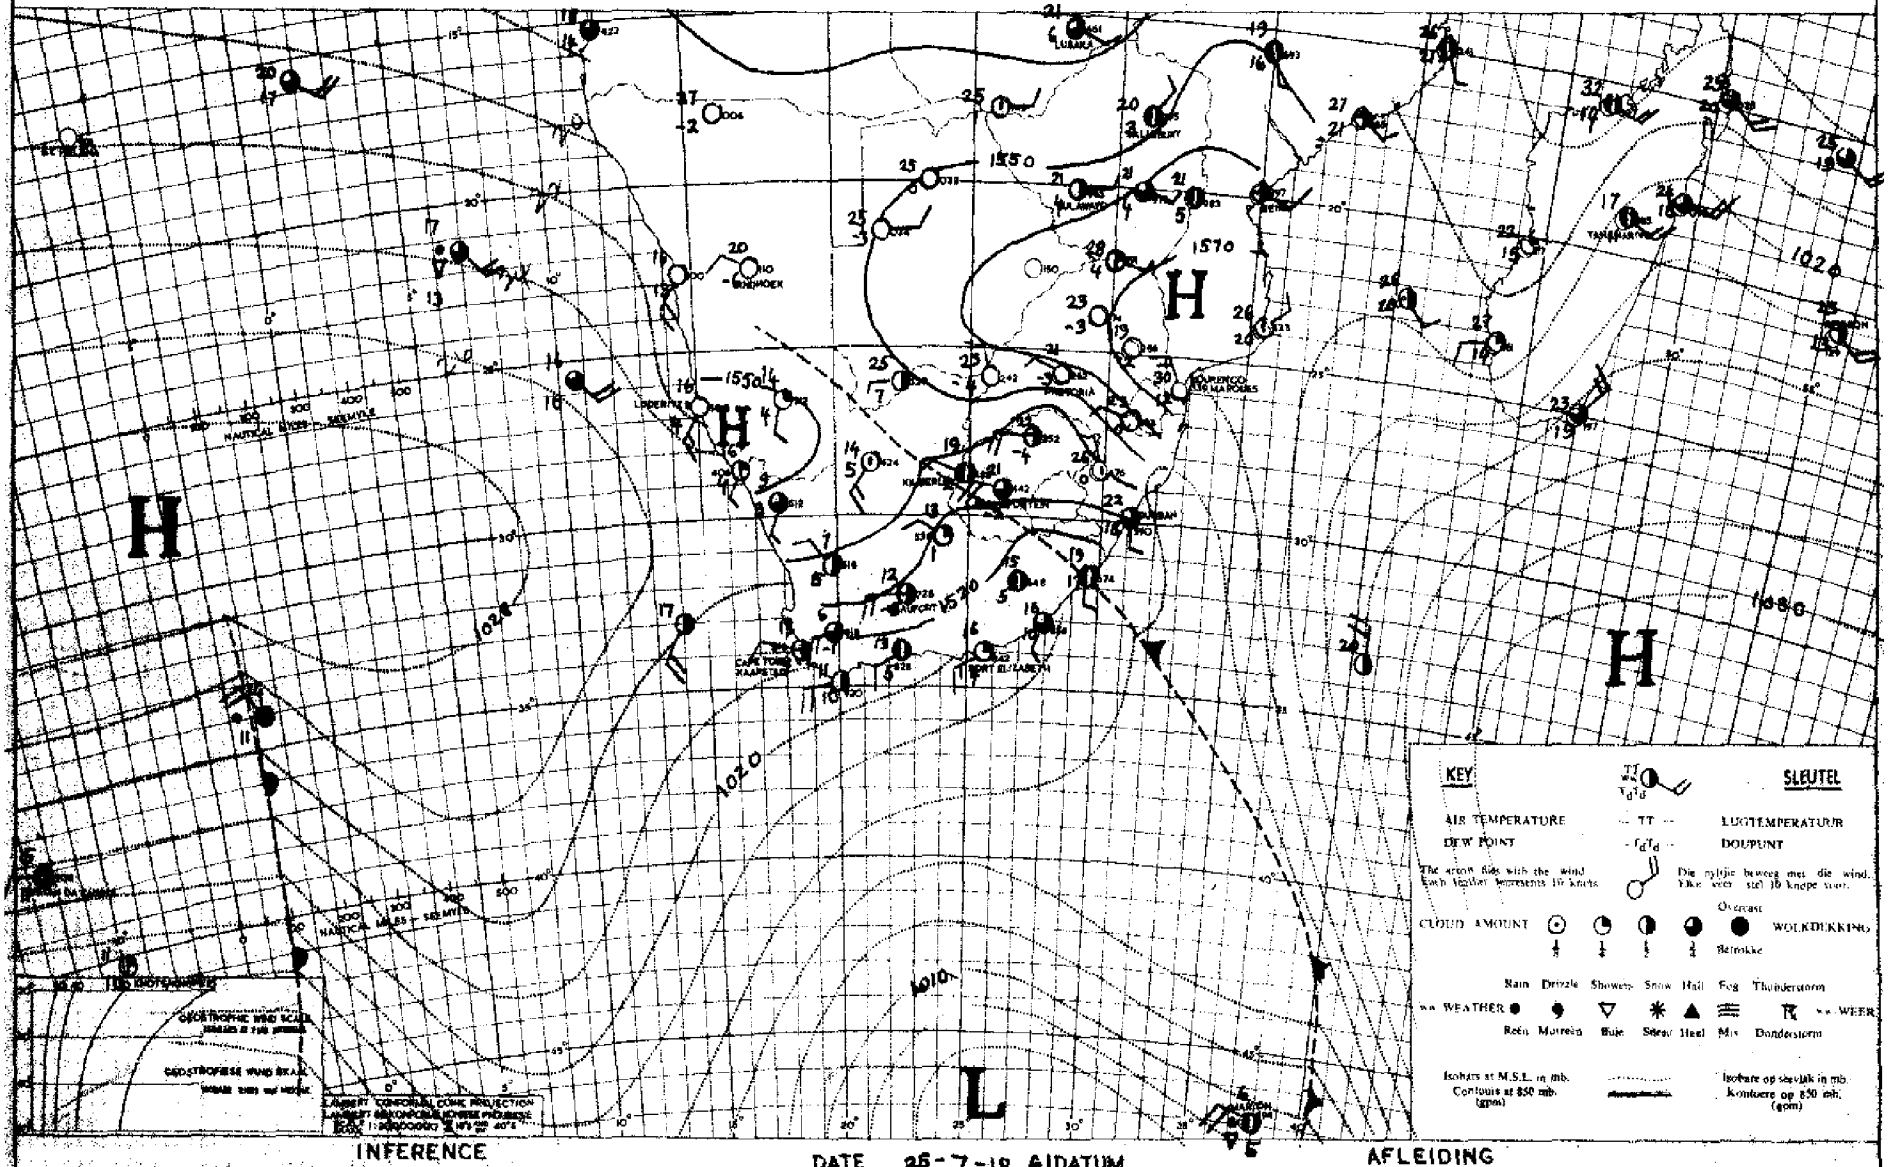
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 25-7-19 &IDATUM AFLEIDING

The cold air will advance further over the Free State and over Natal but it will remain mild over Transvaal and Bechuanaland. Further showers will occur over the southwestern and southern coastal regions as a result of the trough south of the continent.

Koue lug sal verder uitbrei oor die Vrystaat en oor Natal maar dit sal matig bly oor Transvaal en Betsjoenaland. Verdere reënbuie sal voorkom oor die suidwestelike en suidelike kusstreke as gevolg van die trog suid van die land.

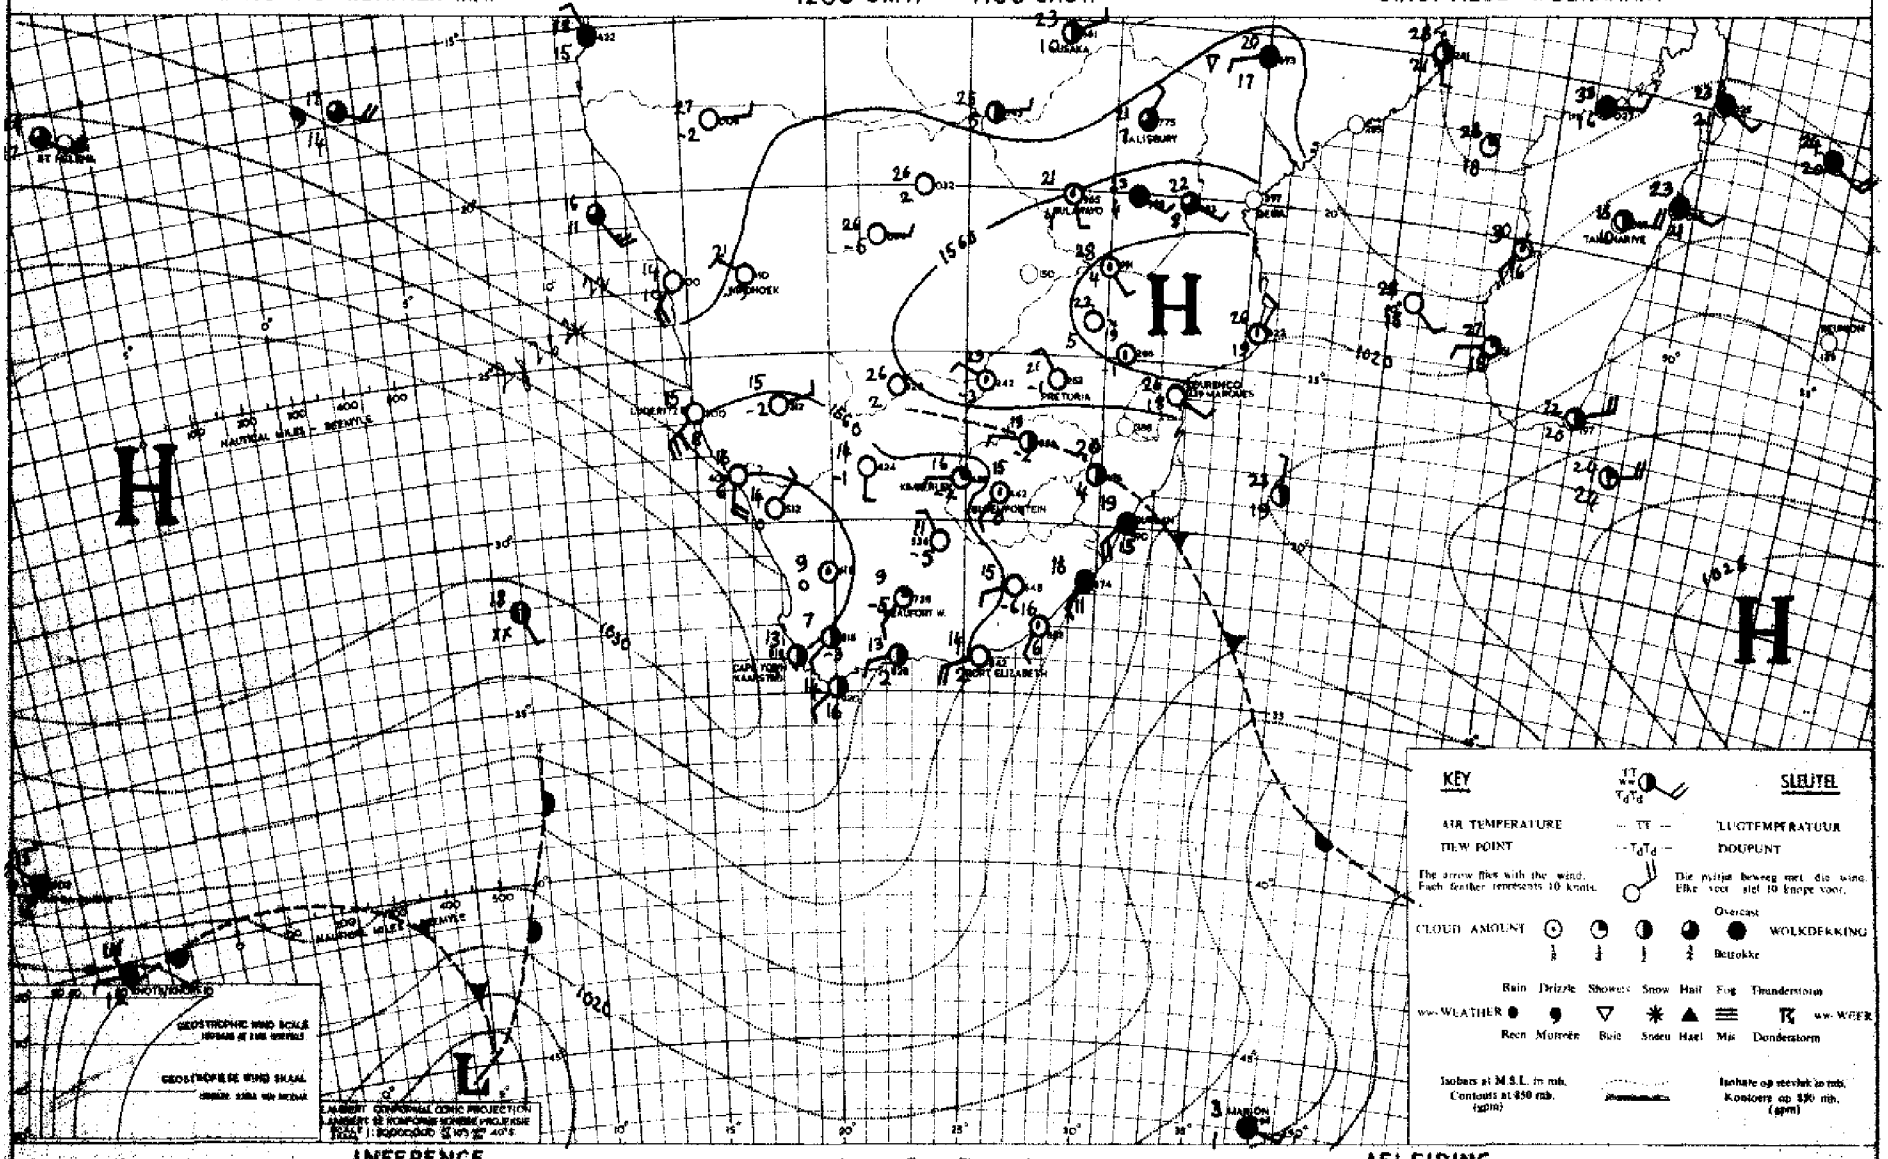
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 26-7-1961 DATUM — AFLEIDING

The High to the West of the Republic is ridging South eastwards past the South Coast. Cloudy conditions with drizzle will occur along the Cape South and South-east coastal regions and the Natal coastal areas and low cloud will spread over the Transvaal Lowveld. The S.W. Cape coastal regions will clear to fair from the West. It will be fine and cold over the Cape interior and Free State but elsewhere over the interior it will remain fine and mild.

Die Hoog wes van die vasteland beweeg Suidooswaarts verby die Suidkus. Bewolkte toestande met motreën sal voorkom oor die Kaapse Suid- en Suidoos-kusstreke en die Natalse kusgebiede. Lae wolke sal uitbrei oor die Transvaalse Laereld. Dit sal opklaar uit die weste oor die Suidwestelike Kaapse kusgebiede. Dit sal mooiweer en koud wees oor die Vrystaat en Kaapland maar elders sal dit mooiweer en matig wees

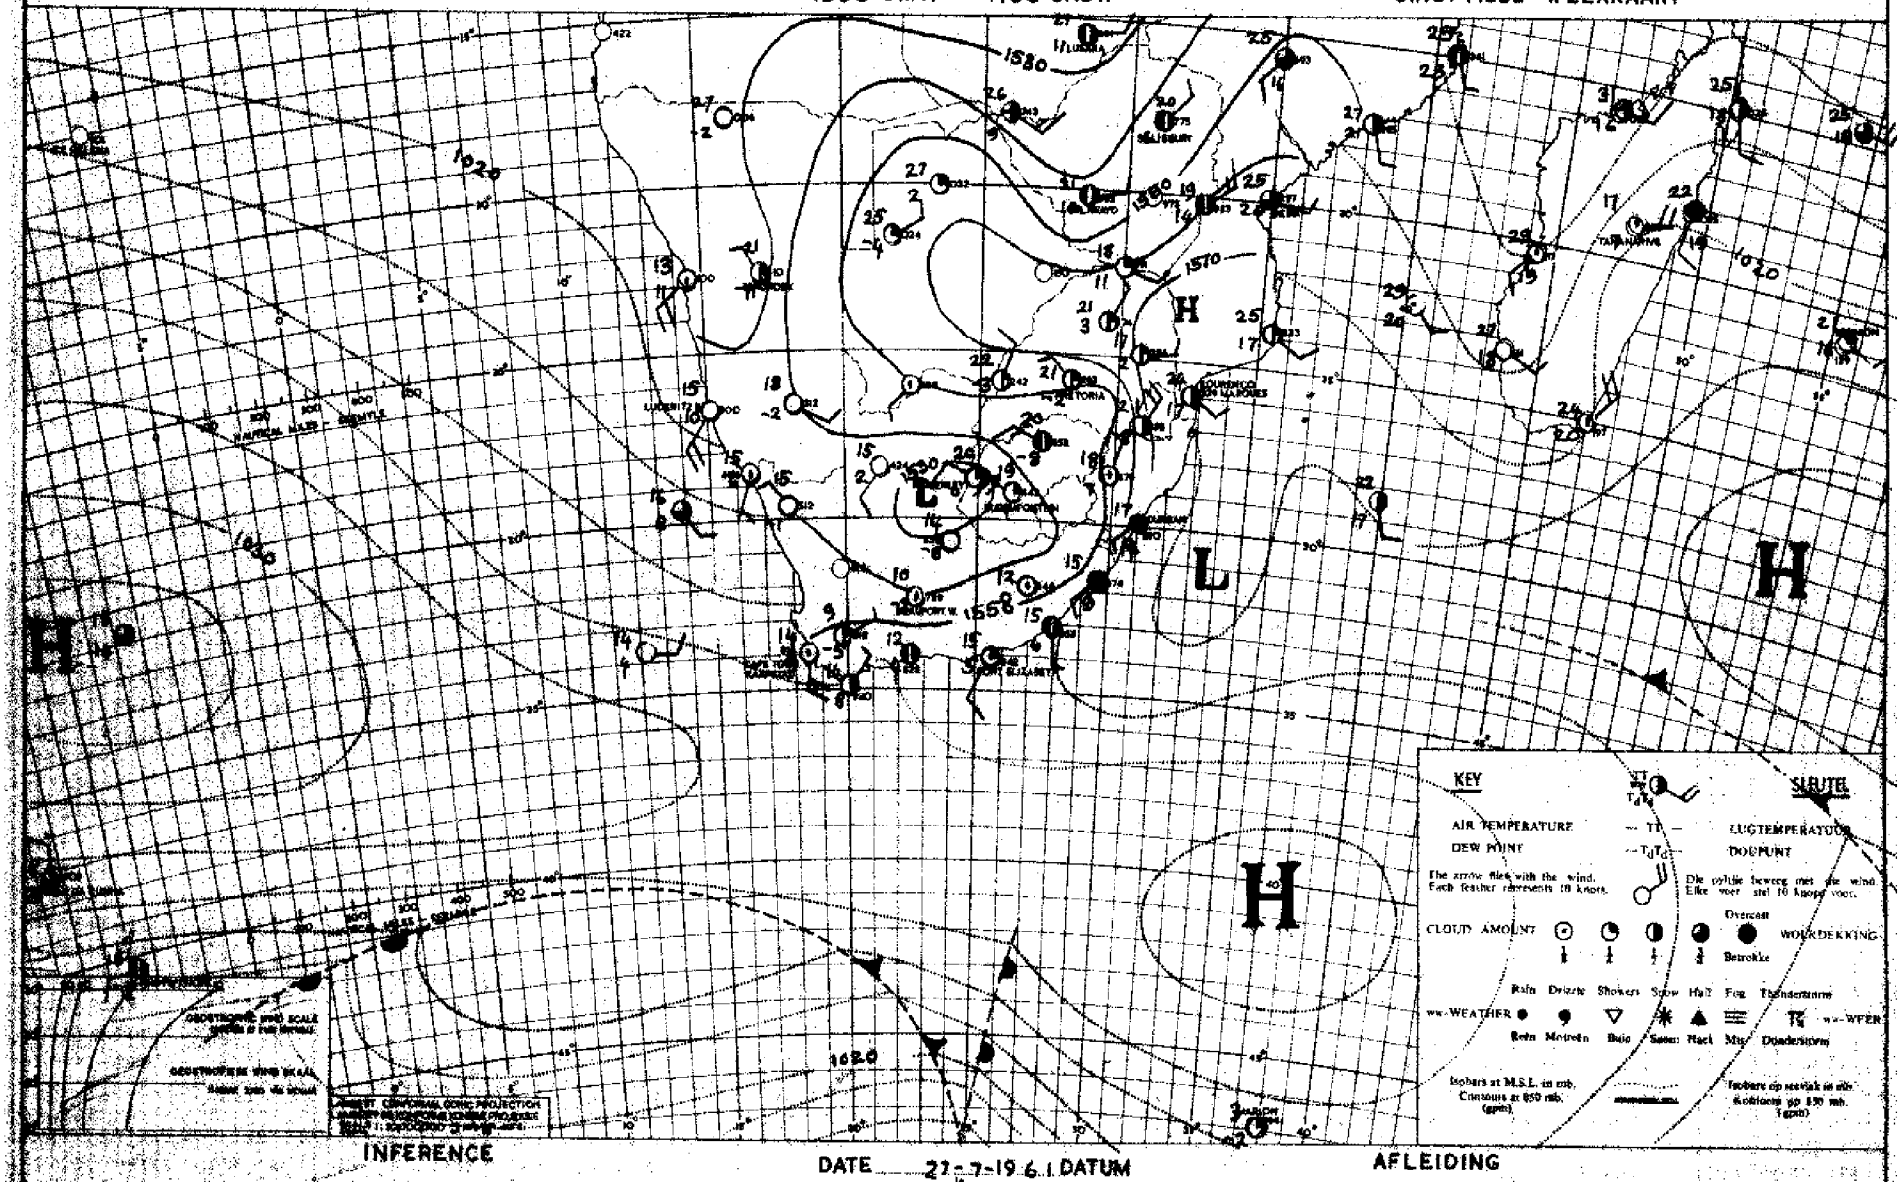
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 27-7-1961 DATUM AFLEIDING

A trough is developing over the western half of the country and moister air will flow southwards in the upper air so that fairly cloudy conditions will spread over South West Africa, Bechuanaland, and the central and western parts of South Africa. Cool cloudy weather will persist over the eastern coastal regions.

'n Trog ontwikkel oor die westelike deel van die land en vogtiger lug sal in die bolug suidwaart stroom sodat betreklik bewolkte weer sal voorkom oor Suidwes-Afrika, Betsjoanaland en die sentrale en westelike dele van Suid-Afrika. Koel, bewolkte weer sal nog voortduur oor die oostelike kusstreke.

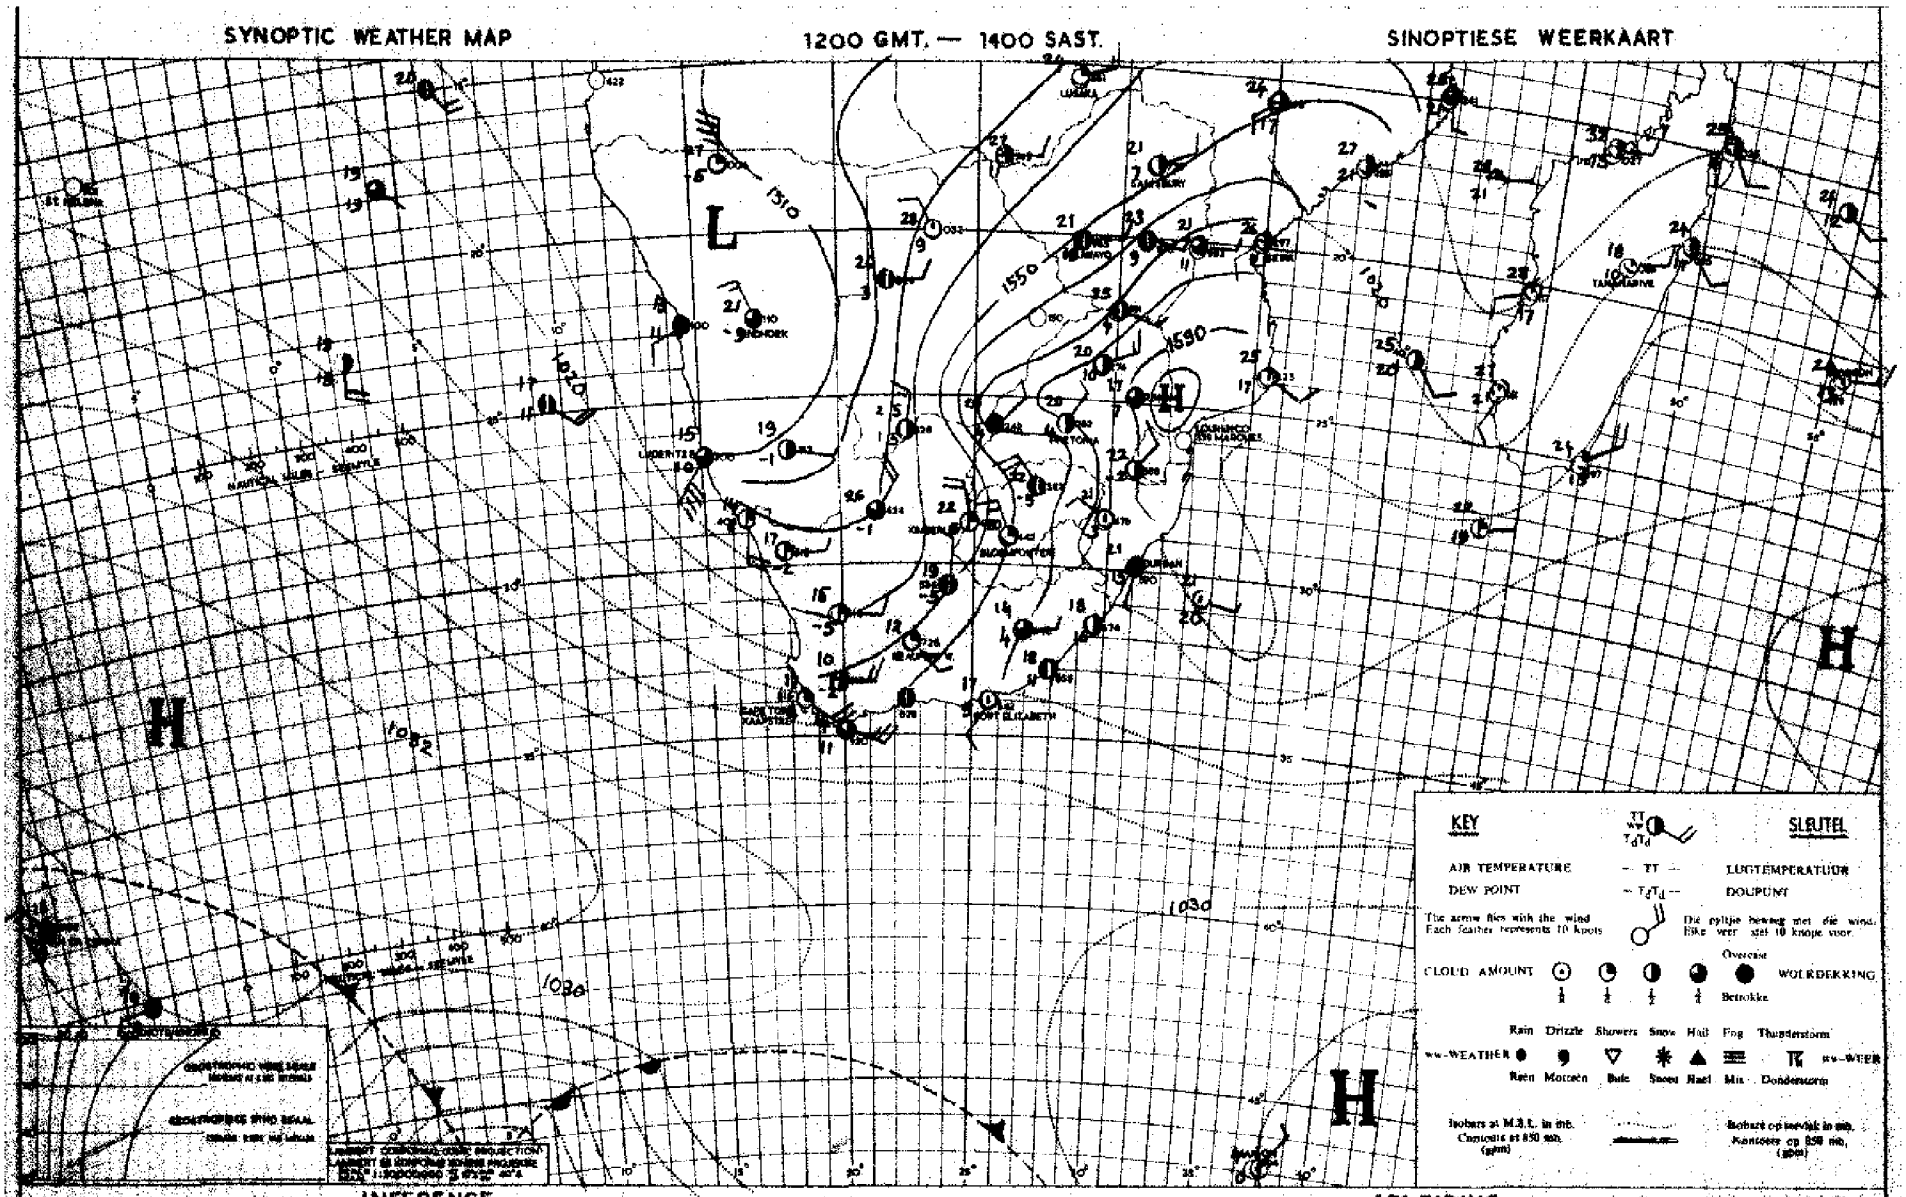
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 28 - 7 - 19 61 DATUM — AFLEIDING

The stationary low over South West Africa and the strong pressure gradient over the interior is causing humid air to move southwards. Thundershowers can be expected over Bechuanaland, the Free State and the northern, central and southern Cape Province over the remainder of the country it will be fair to partly cloudy and mild.

Met die laag oor Suidwes-Afrika en die sterk drukgradiënt oor die binneland word vogtige lug suidwaarts beweeg. Donderbuie sal voorkom oor Betsjoenaland, die Noordelike sentrale en suidelike dele van Kaapland. Dit sal hoofsaaklik mooiweer en matig tot gedeeltelik bewolk en matig oor die res van die binneland wees.

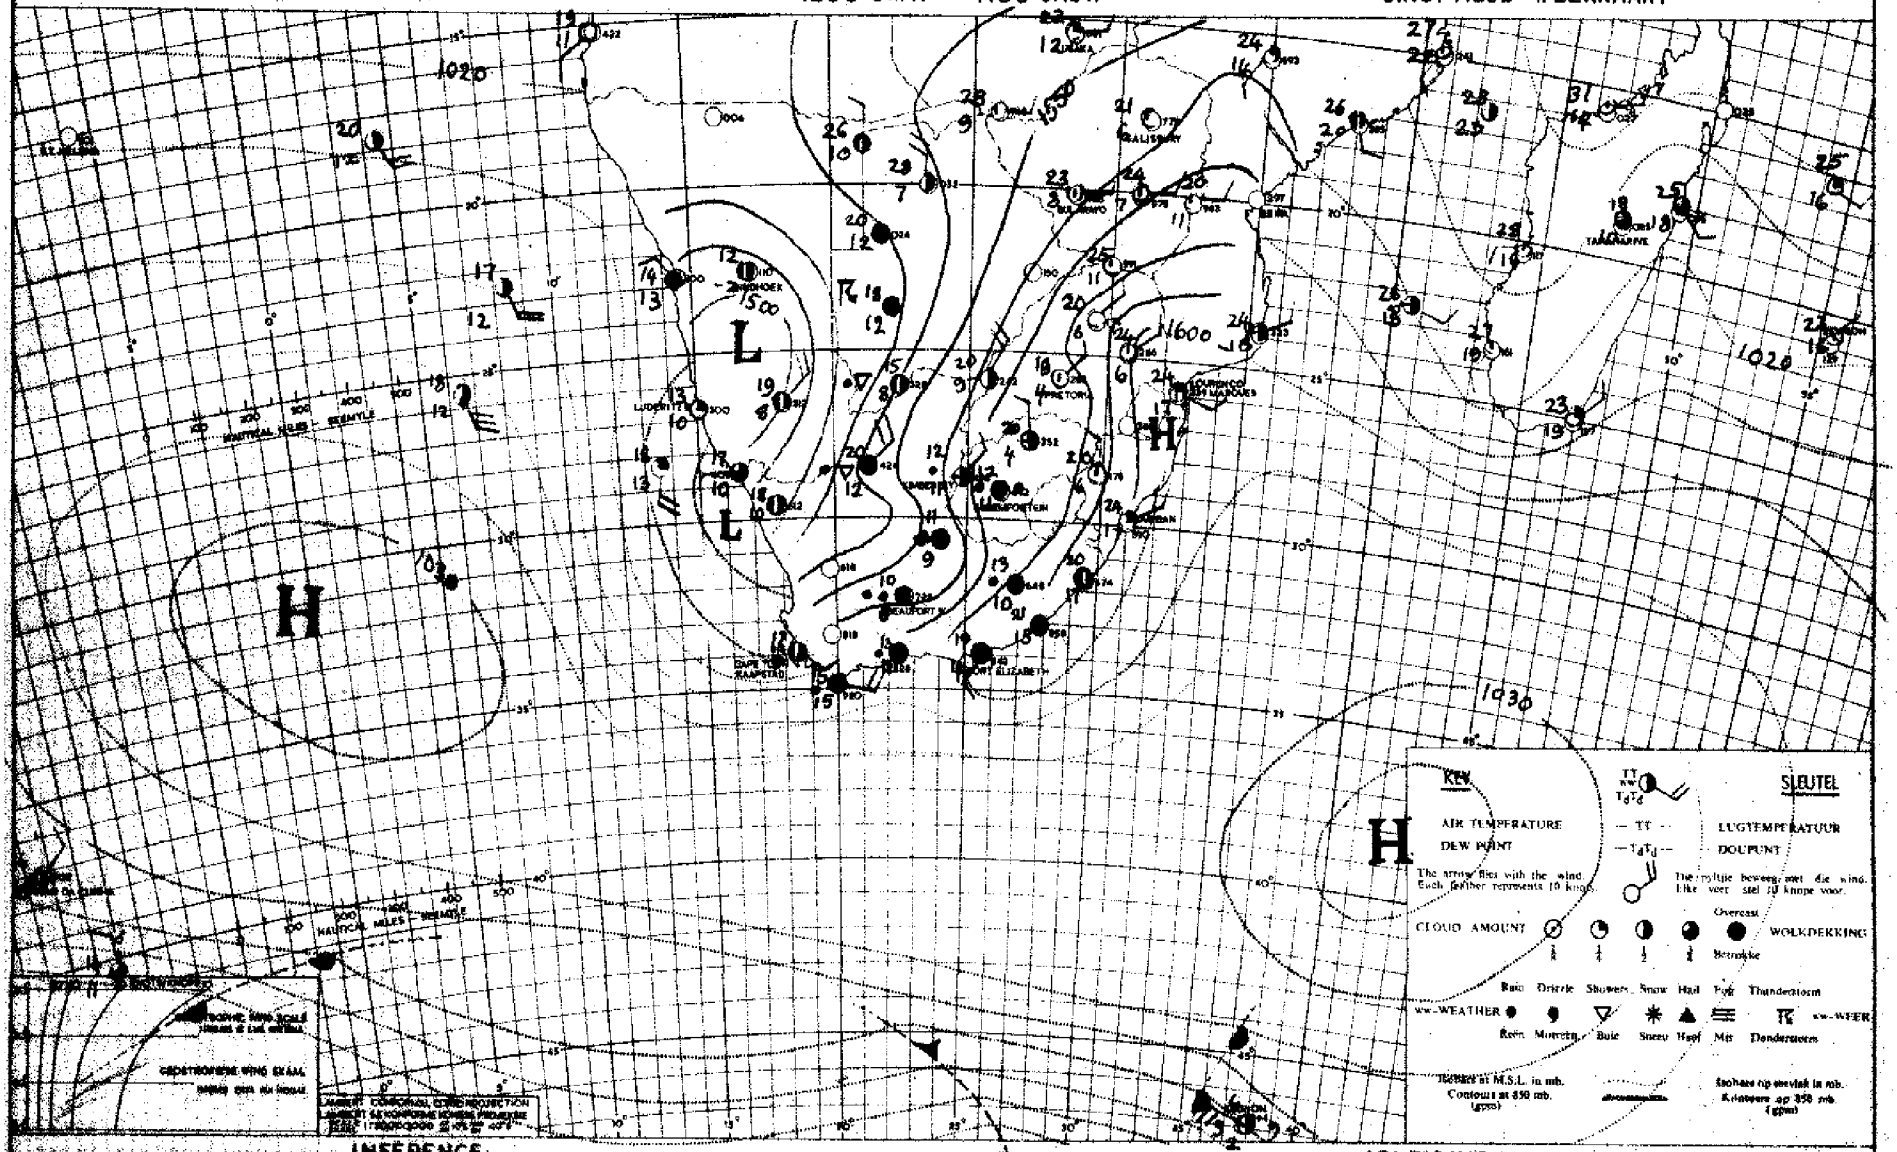
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 27-1921 — DATUM — AFLEIDING

The low over the western part of the country extends to a great height in the atmosphere and is moving slowly southwards. Cloudy conditions with general rain and thundershowers will occur over the entire Cape Province, the Free State, Bechuanaland, and later over the western half of Transvaal and southern Natal. As the low moves southwards, drier air will spread over South West Africa.

Die laag oor die westelike deel van die land strek tot groot hoogtes van die atmosfeer en beweeg suidwaarts. Bewolkte weer met algemene reën en donderbuie sal voorkom oor die hele Kaapland, Vrystaat, Betsjoenaland en later ook oor die westelike helfte van Transvaal en suidelike Natal. Met die suidwaartse beweging van die laag sal droër lug egter oor Suidwes-Afrika instroom.

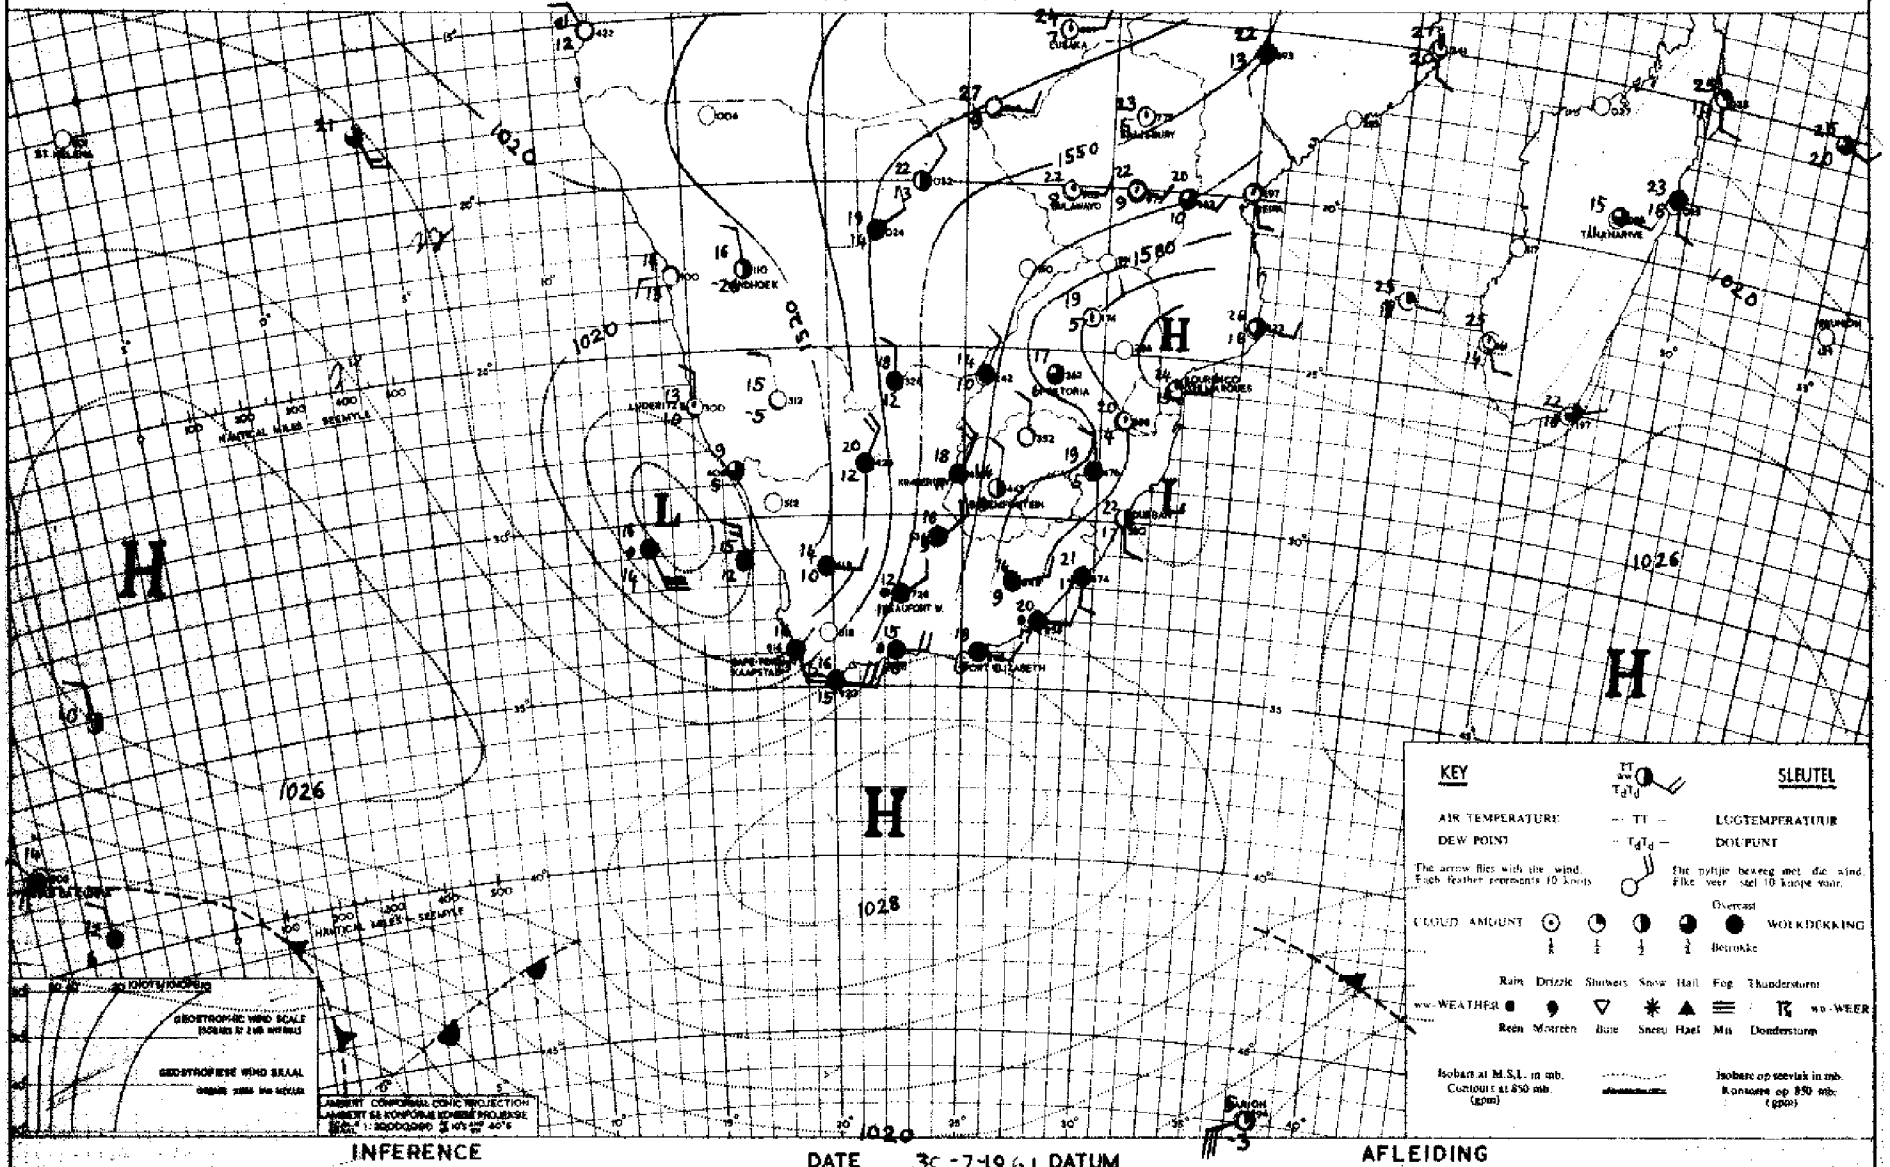
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 30-7-1961 DATUM AFLEIDING

The low over Alexander Bay is moving slowly. Dry air over S.W.A will not move further eastwards. Cloudy weather with local rain or thundershowers will prevail over the remainder of the country except of the extreme eastern and northwestern districts of South Africa.

Die laag wes van Alexanderbaai beweeg stadig. Droë lug oor S.W.A sal nie verder ooswaarts beweeg nie. Bewolkte weer met reën of donderbuie op plekke sal voorkom oor die res van die land behalwe oor Suid-Afrika se heel oostelik en noordelike distrike.

The low centered over the Karoo is moving eastwards to the Natal coast and drier air will spread over the country from the west and north-west. Scattered showers or thundershowers will fall over the Free State, Vryburg-Mafeking area, Karoo, Cape Midlands, North-east Cape, Cape South-east Coast and the southern half of Natal. Over South-west Africa it will be fine elsewhere partly cloudy and mild

Die laag wat oor die Karoo lê sal oostwaarts beweeg en droër lug sal oor die land beweeg vanuit die weste en noordweste. Verspreide buie en donderbuie sal uitsak oor die Vrystaat, Vryburg-Mafeking gebied, Karoo, Kaapse Middellande, Noord-oos Kaap, Kaapse Suid-oos Kus en die suidelike helfte van Natal. Oor Suidwes-Afrika sal dit mooi weer wees maar elders gedeeltelik bewolk en

DATE 1 - 9 1961 DATUM

AFLEIDING

Drier upper air is moving over the country from the west and it will clear over most parts of the Republic. A cold front off the Cape Peninsula is moving eastwards and partly cloudy, cold weather with showers will spread over the Southwestern and southern Cape coastal belts and later also the south-east coast.

Droër bolug beweeg oor die land vanuit die weste en dit sal opklaar oor meeste dele van die Republiek. 'n Koufront naby die Kaap beweeg ooswaarts en gedeeltelik bewolkte, koue weer met buie sal uitbrei oor die suidwestelike en suidelike Kaapse kusstreke en later ook oor die Suidooskus.

INFERENCE

DATE 3-5-1961 DATUM

AFLEIDING

A cold front is approaching the Cape rapidly from the west and it will become overcast and cold with rain over the Southwestern and Western Cape tomorrow and later over the Cape South coast. The high over Southern Bechuanaland is moving eastwards and it will clear tomorrow over the eastern parts of the country.

'n Koue front nader die Kaap vinnig vanuit die weste en dit sal betrokke en koud word met reën môre oor Suidwes en Wes-Kaapland en later oor die Kaapse suidkus. Die hoog oor die suidelike Betsjoeanaland beweeg oostwaarts en dit sal more ooptrek oor die oostelike dele van die land.

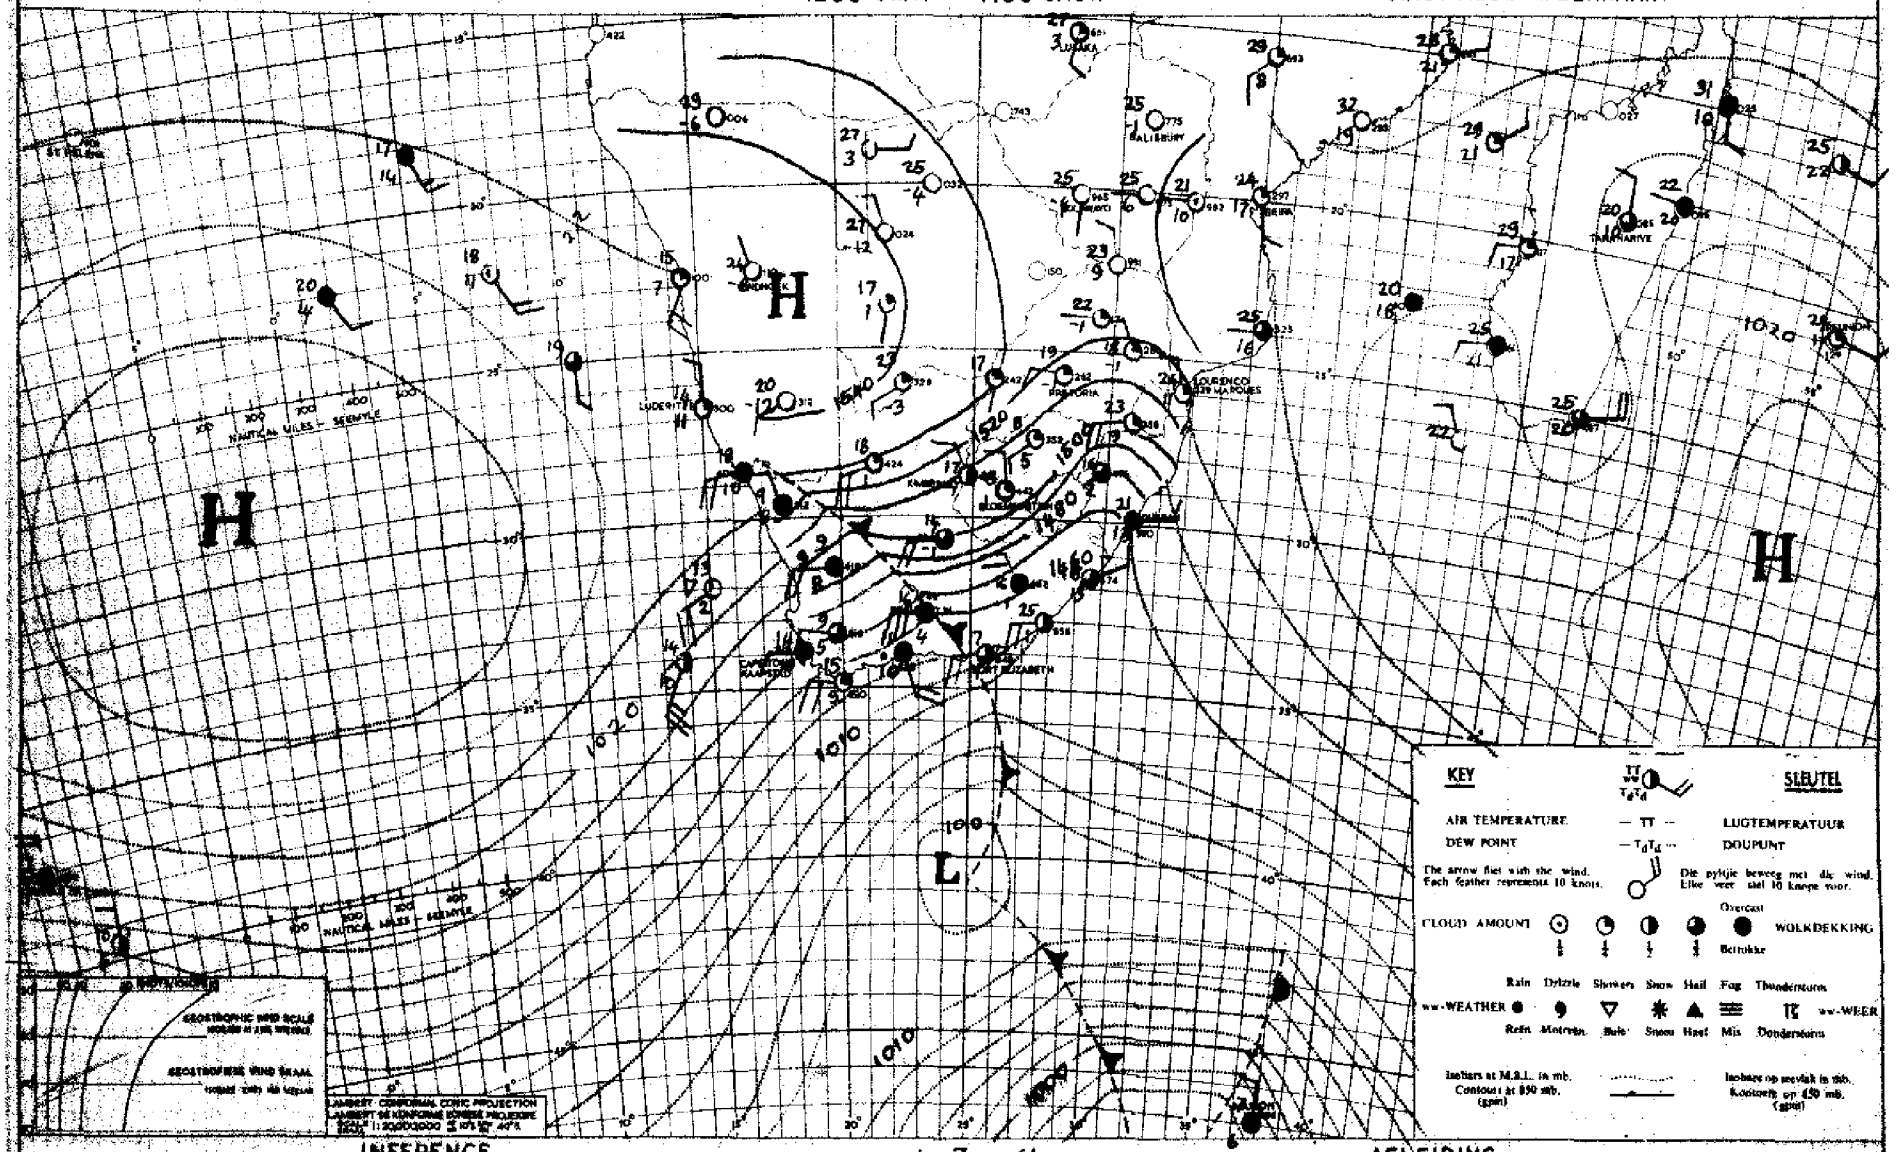
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 4-7-1961 DATUM — AFLEIDING

Cold weather with showers is sweeping across the Cape from the west and will cross Natal during the day. It will also be cold over the Southern areas of Southwest-Africa, Bechuanaland and Transvaal and the whole of the Free State; elsewhere it will be mild.

Koue weer met buie is besig om oor Kaapland vannuit die weste uittebrei en sal Natal gedurende die dag bereik. Dit sal ook koud wees oor die suidelike dele van Suidwes-Afrika, Betsjoenaland en die Transvaal en ook die hele Vrystaat. Elders sal dit matig wees.

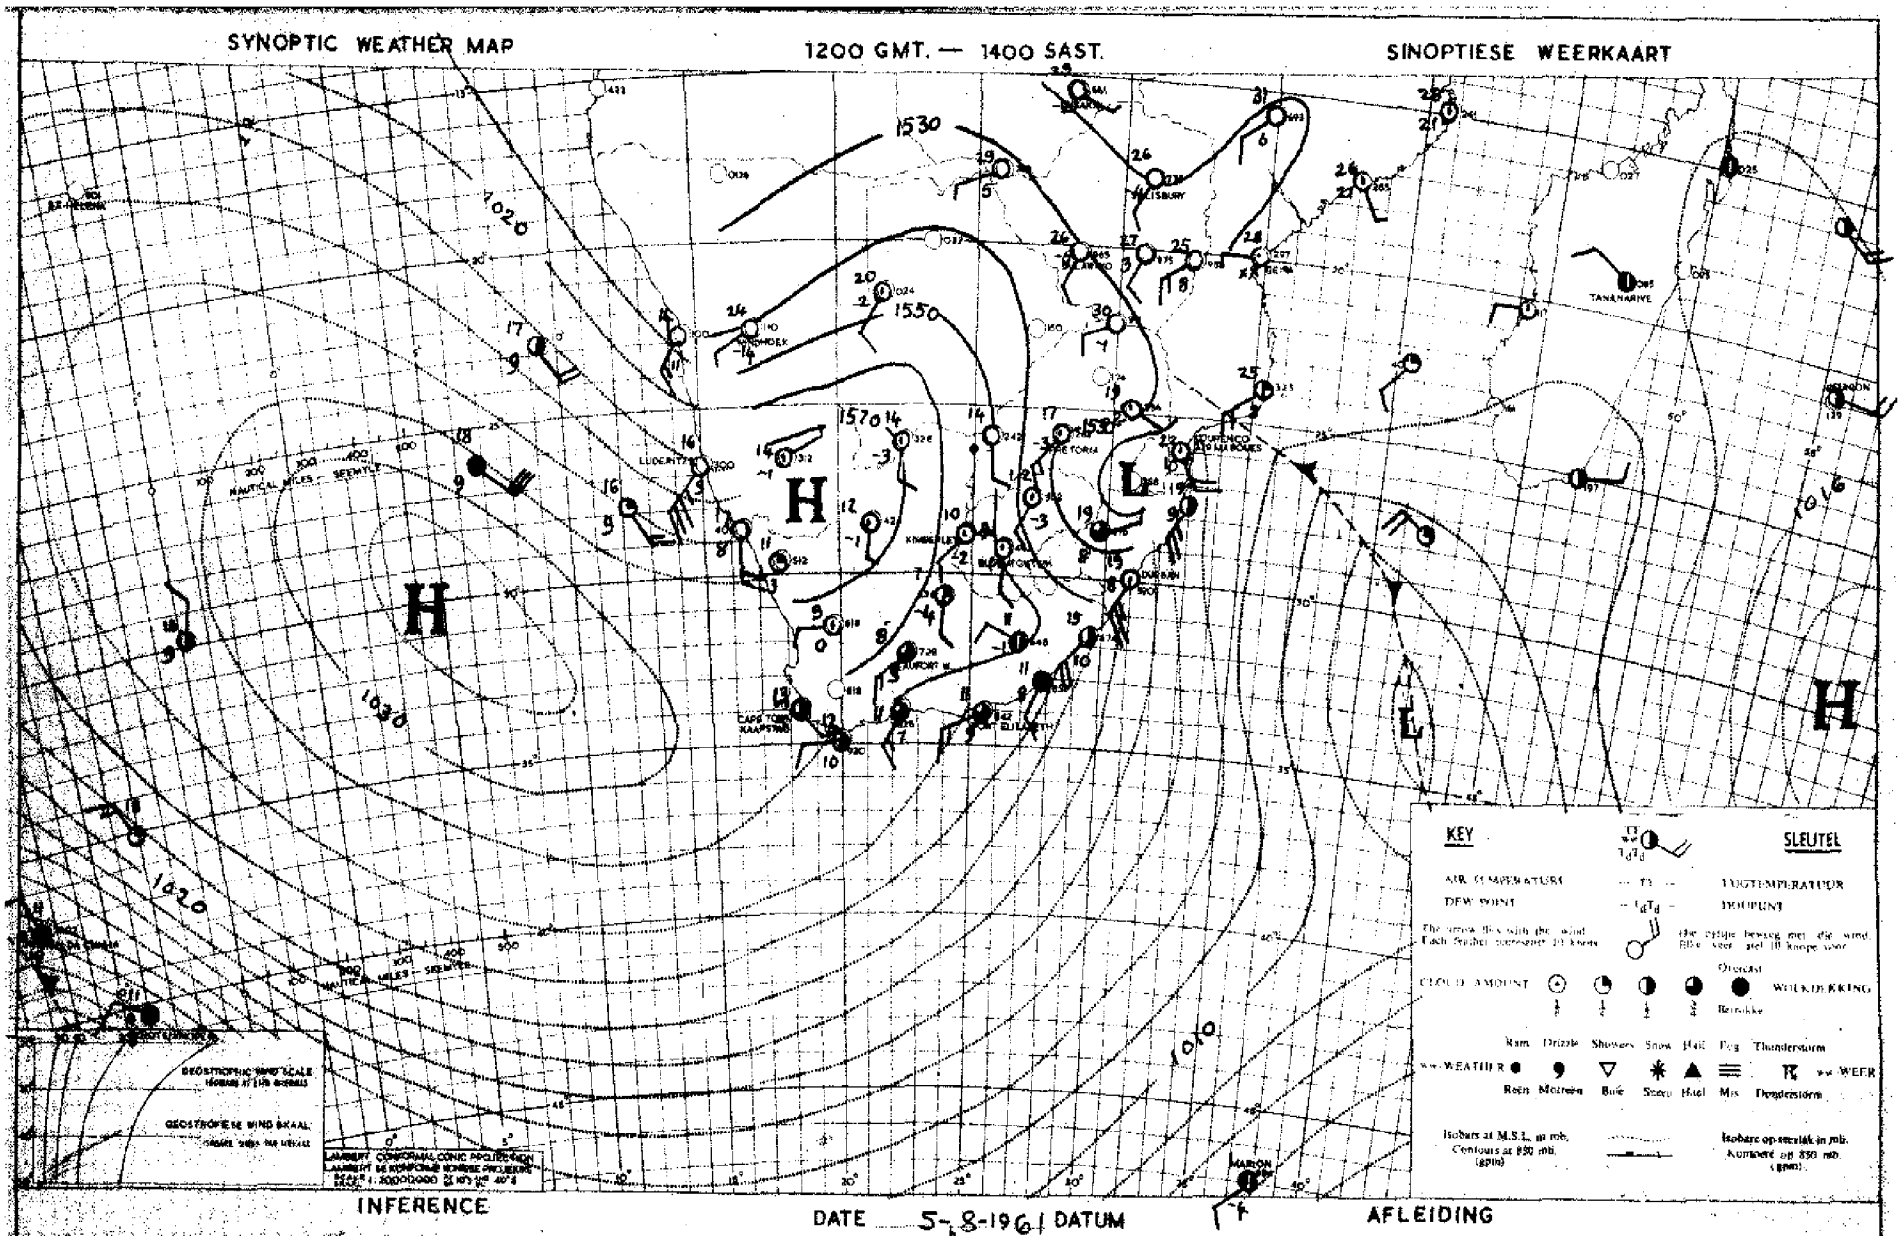
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 5-8-1961 DATUM — AFLEIDING

The high centered off the Cape coast will move along the Cape South coast and the weather will clear over this area, while along the Natal coast and Cape South east coast it will be cloudy and cold with scattered showers but along the Transvaal Lowveld it will be partly cloudy. Elsewhere it will be fine and cold

Die hoog wat net wes van die Kaapse weskus lê sal langs die Kaapse Suidkus beweeg en die weer sal oor hierdie gebied opklaar, maar langs die Natalse kus en die Kaap suidooskus sal dit bewolk en koud wees met verspreide buie en oor die Transvaal Laeveld gedeeltelik bewolk. Elders sal dit mooiweer en koud wees

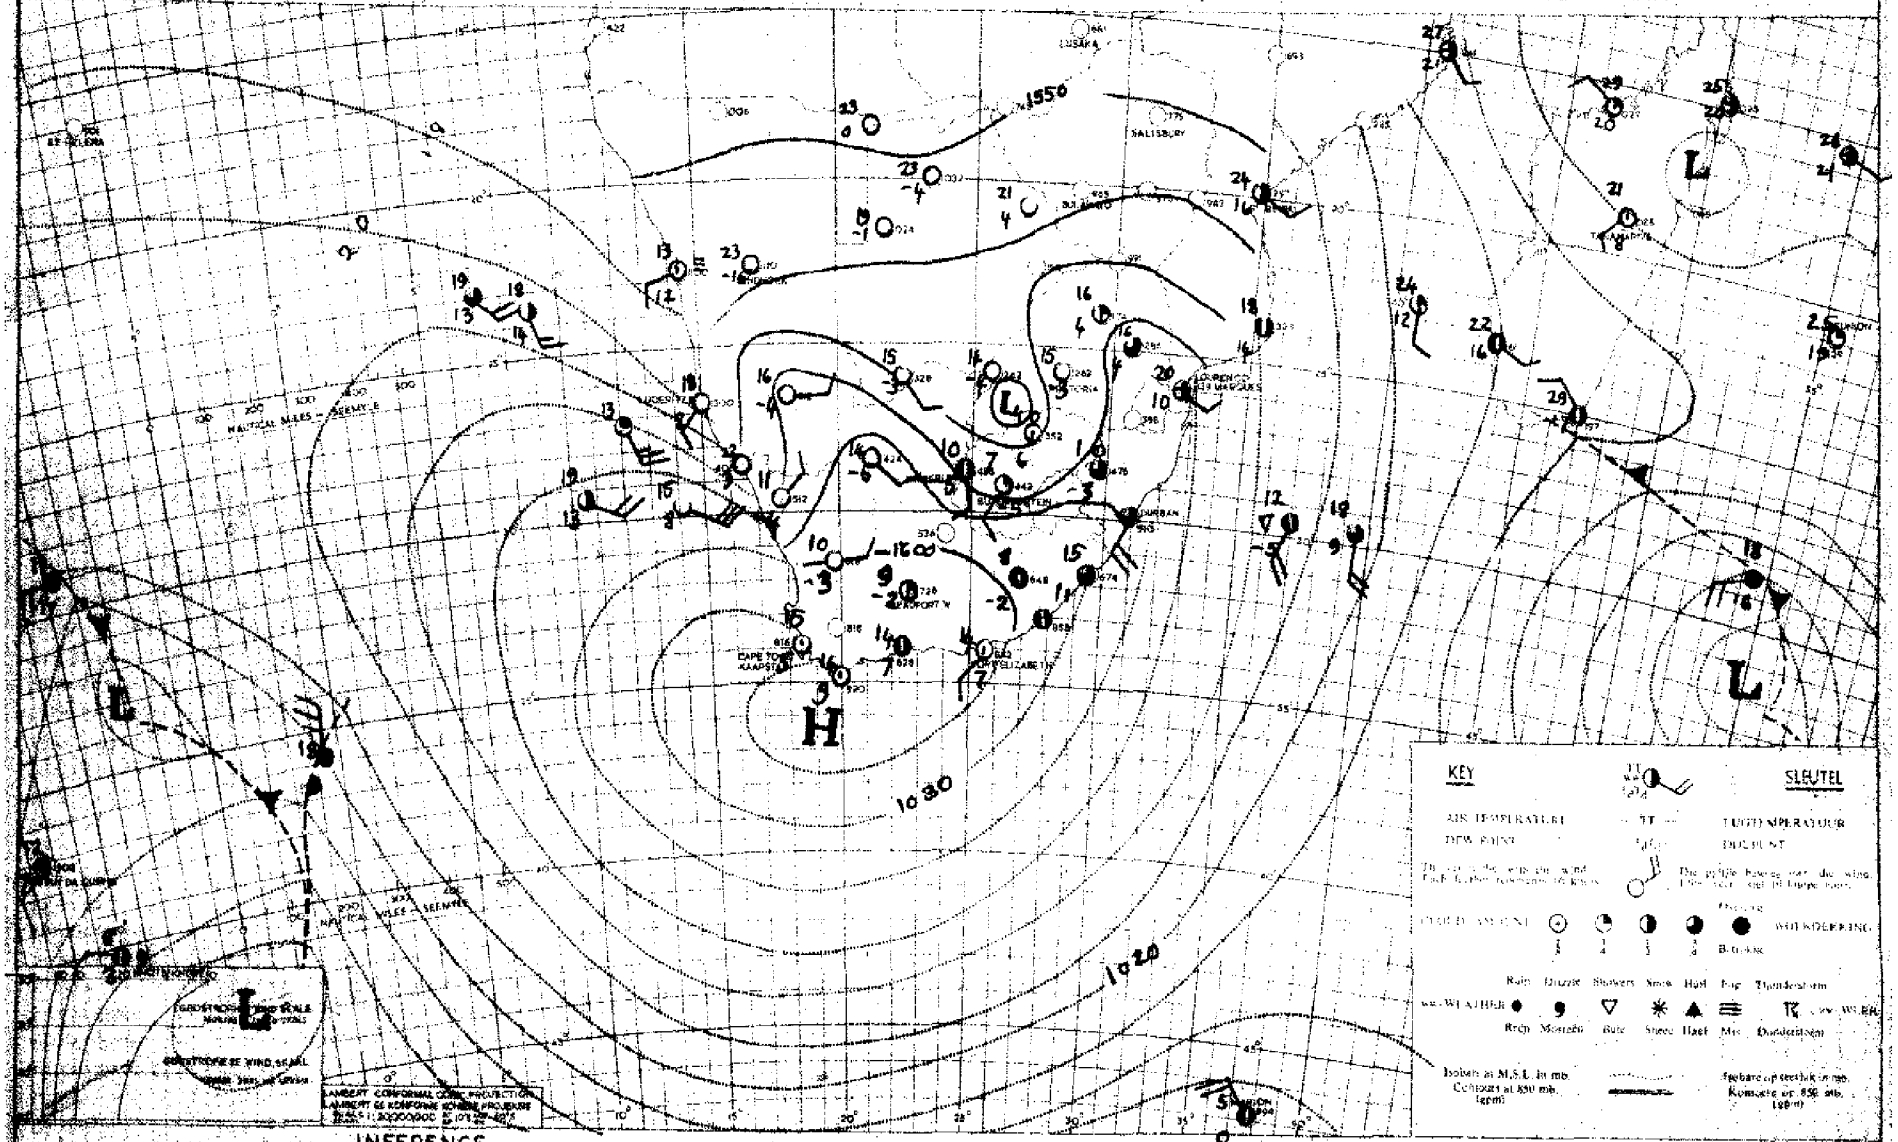
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 6-8-1961 — DATUM — AFLEIDING

The high is moving slowly eastwards and the weather will clear gradually along the Natal coast from the south. Over the Northern Natal it will be cold with scattered showers while the cloudy weather over the Transvaal Lowveld will spread. Over most of the Transvaal and the North eastern Free State. Elsewhere it will be Fine and cold to mild but warm along the Cape West coast

Die kaapse Suidkus hoog beweeg stadig oostwaards en die weer sal opklaar langs die Natal-kus vanuit die Suide. Oor die Noordelike Natal-kus sal dit koud wees met verspreide buie. Die bewolkte weer oor die Transvaalse Laeveld sal uitbrei oor meeste dele van die Transvaal en die Noordoostelike Vrystaat. Elders sal dit mooi weer en koud tot matig wees maar warm langs die Kaapse weskus.

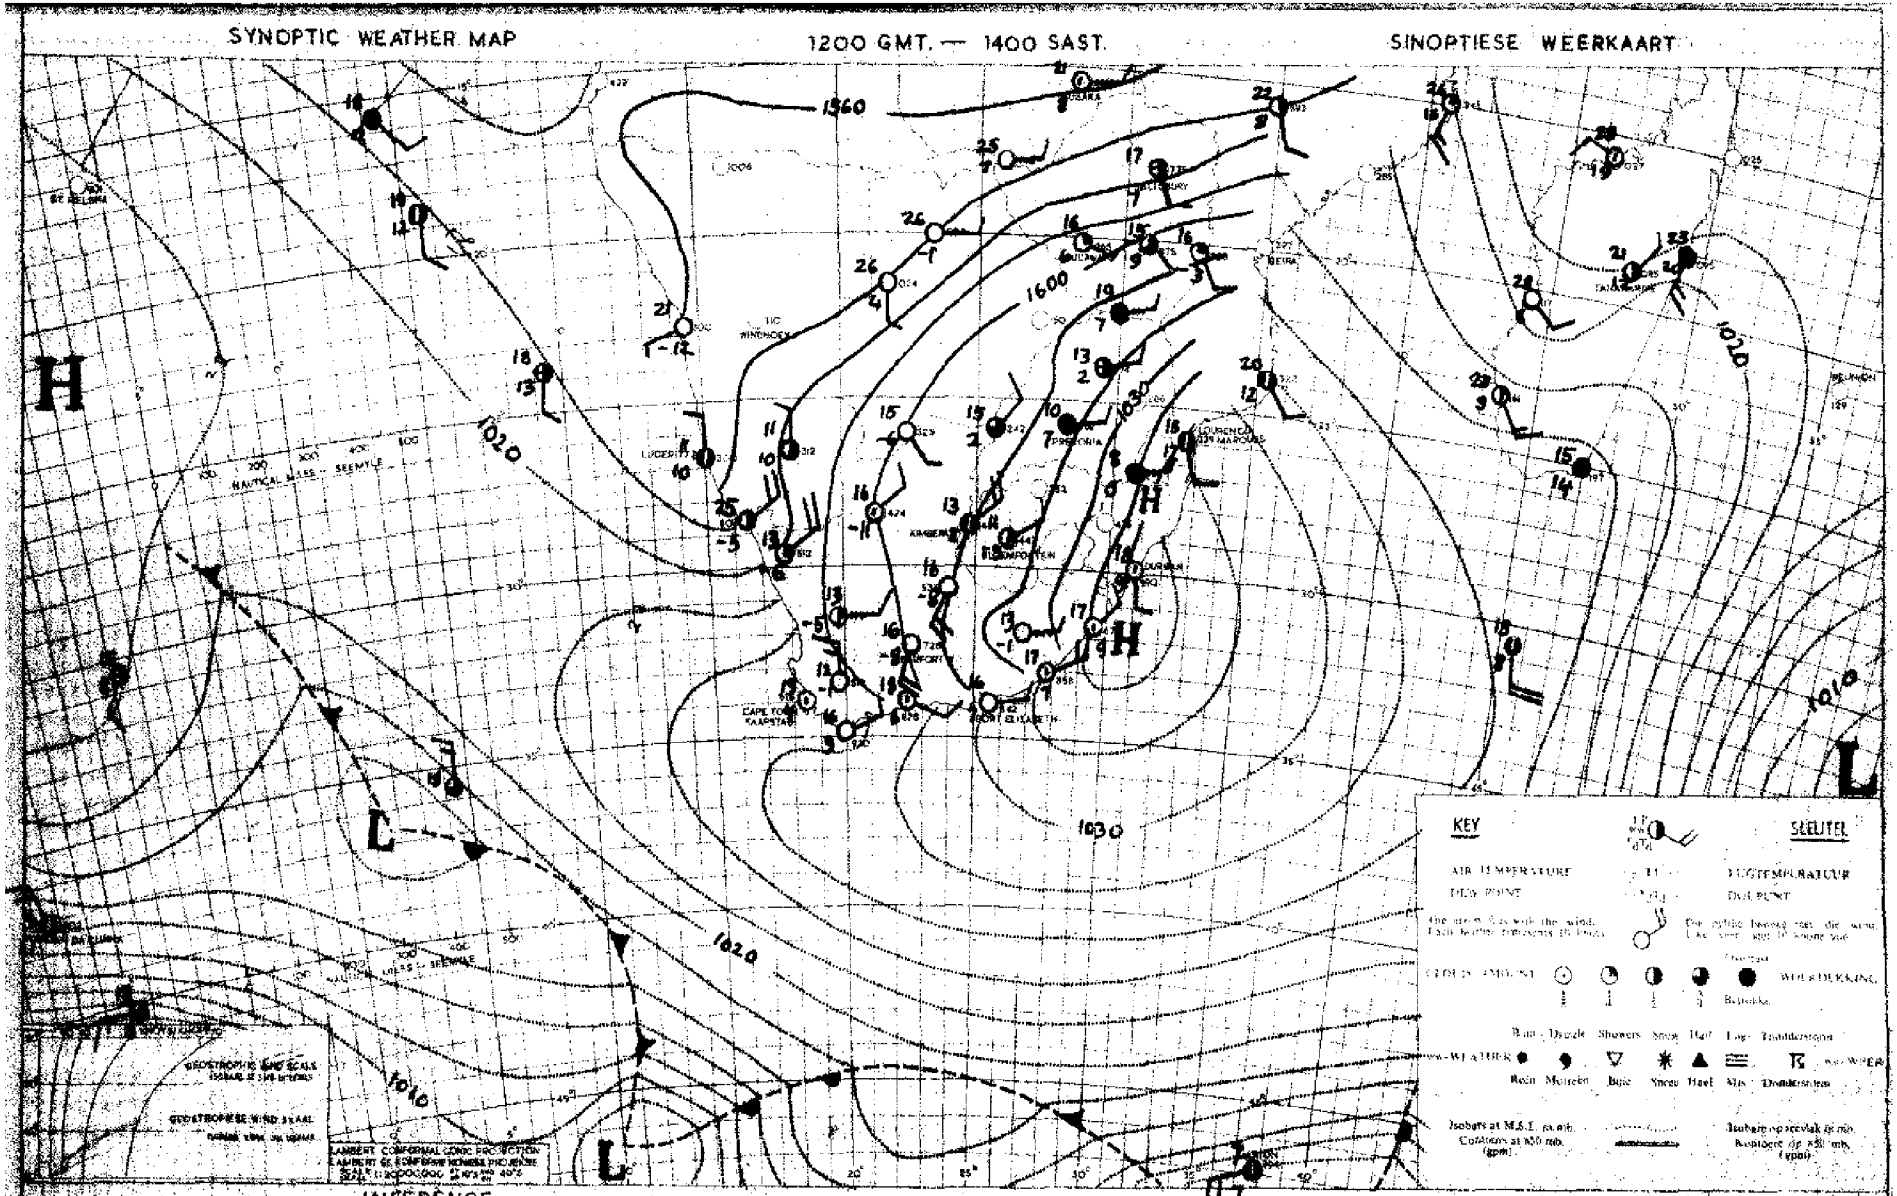
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 7-8-1961 DATUM AFLEIDING

The high off the Natal coast is moving eastwards and cold air is still moving over the eastern interior from the northeast. An upper air low is moving eastwards and it will clear over this region. With the strong gradient over the interior and the Cape coast berg winds are possible along the western and southern coastal regions.

Die hoog langs die Natal kus beweeg ooswaarts en koue lug stroom vanuit die noordooste oor die oostelike binneland. 'n Bolug laag oor die Transvaal beweeg oswaarts en dit sal oor hierdie dele opklaar. Met die sterk druk gradient oor die binneland en die Kaapse kusgebiede is bergwinde moontlik langs die westelike en suidelike Kaapse kuskstreke.

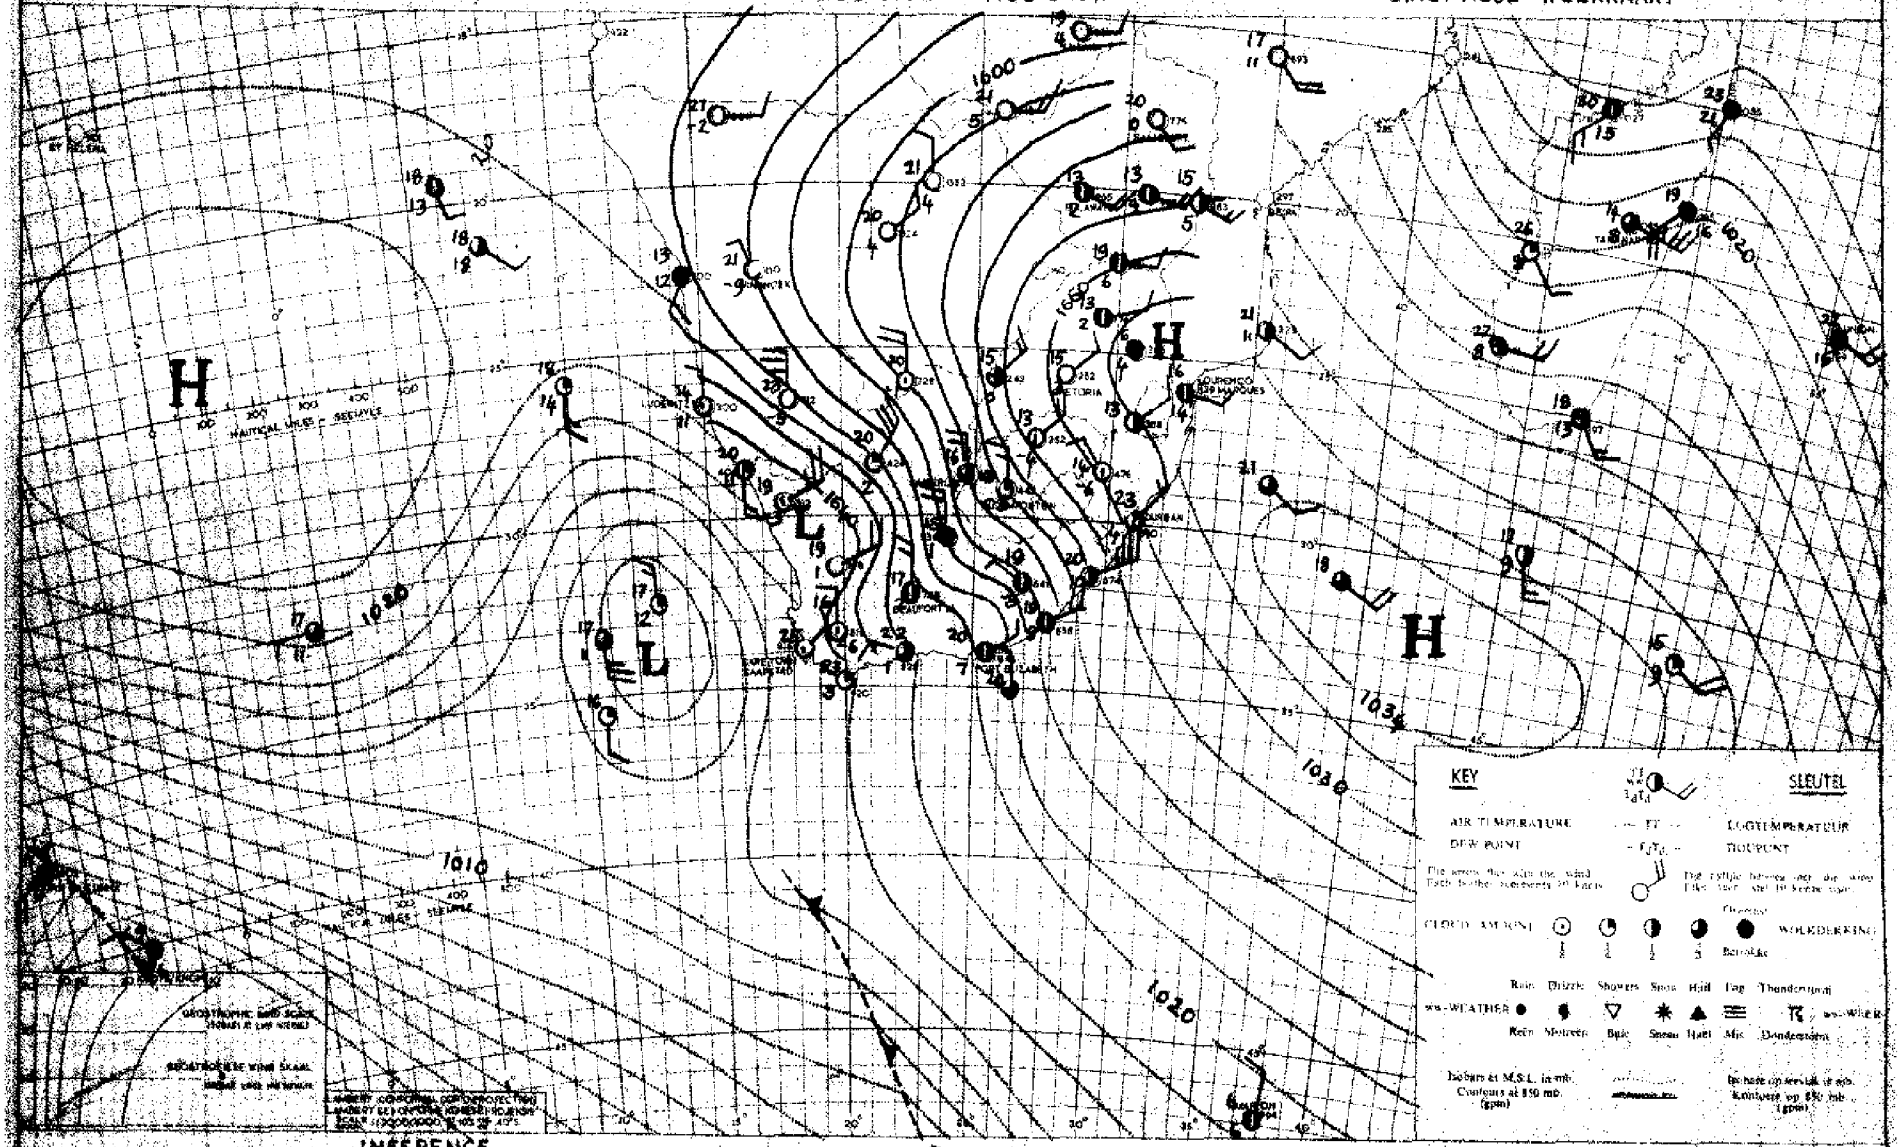
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

The low lying to the west of the South West Cape is moving southeastwards and it will be cloudy and cooler with rain and showers over the southwestern half of the country; elsewhere mainly fine and mild.

DATE 8-8-1961 DATUM

AFLEIDING

Die laag wat na die weste van die Suidwes Kaap lê beweeg suidoos waarts en dit sal bewolk en koeler wees met reën en buie oor die suidwestelike helfte van die land. Origens sal dit meestal mooiweer en matig wees.

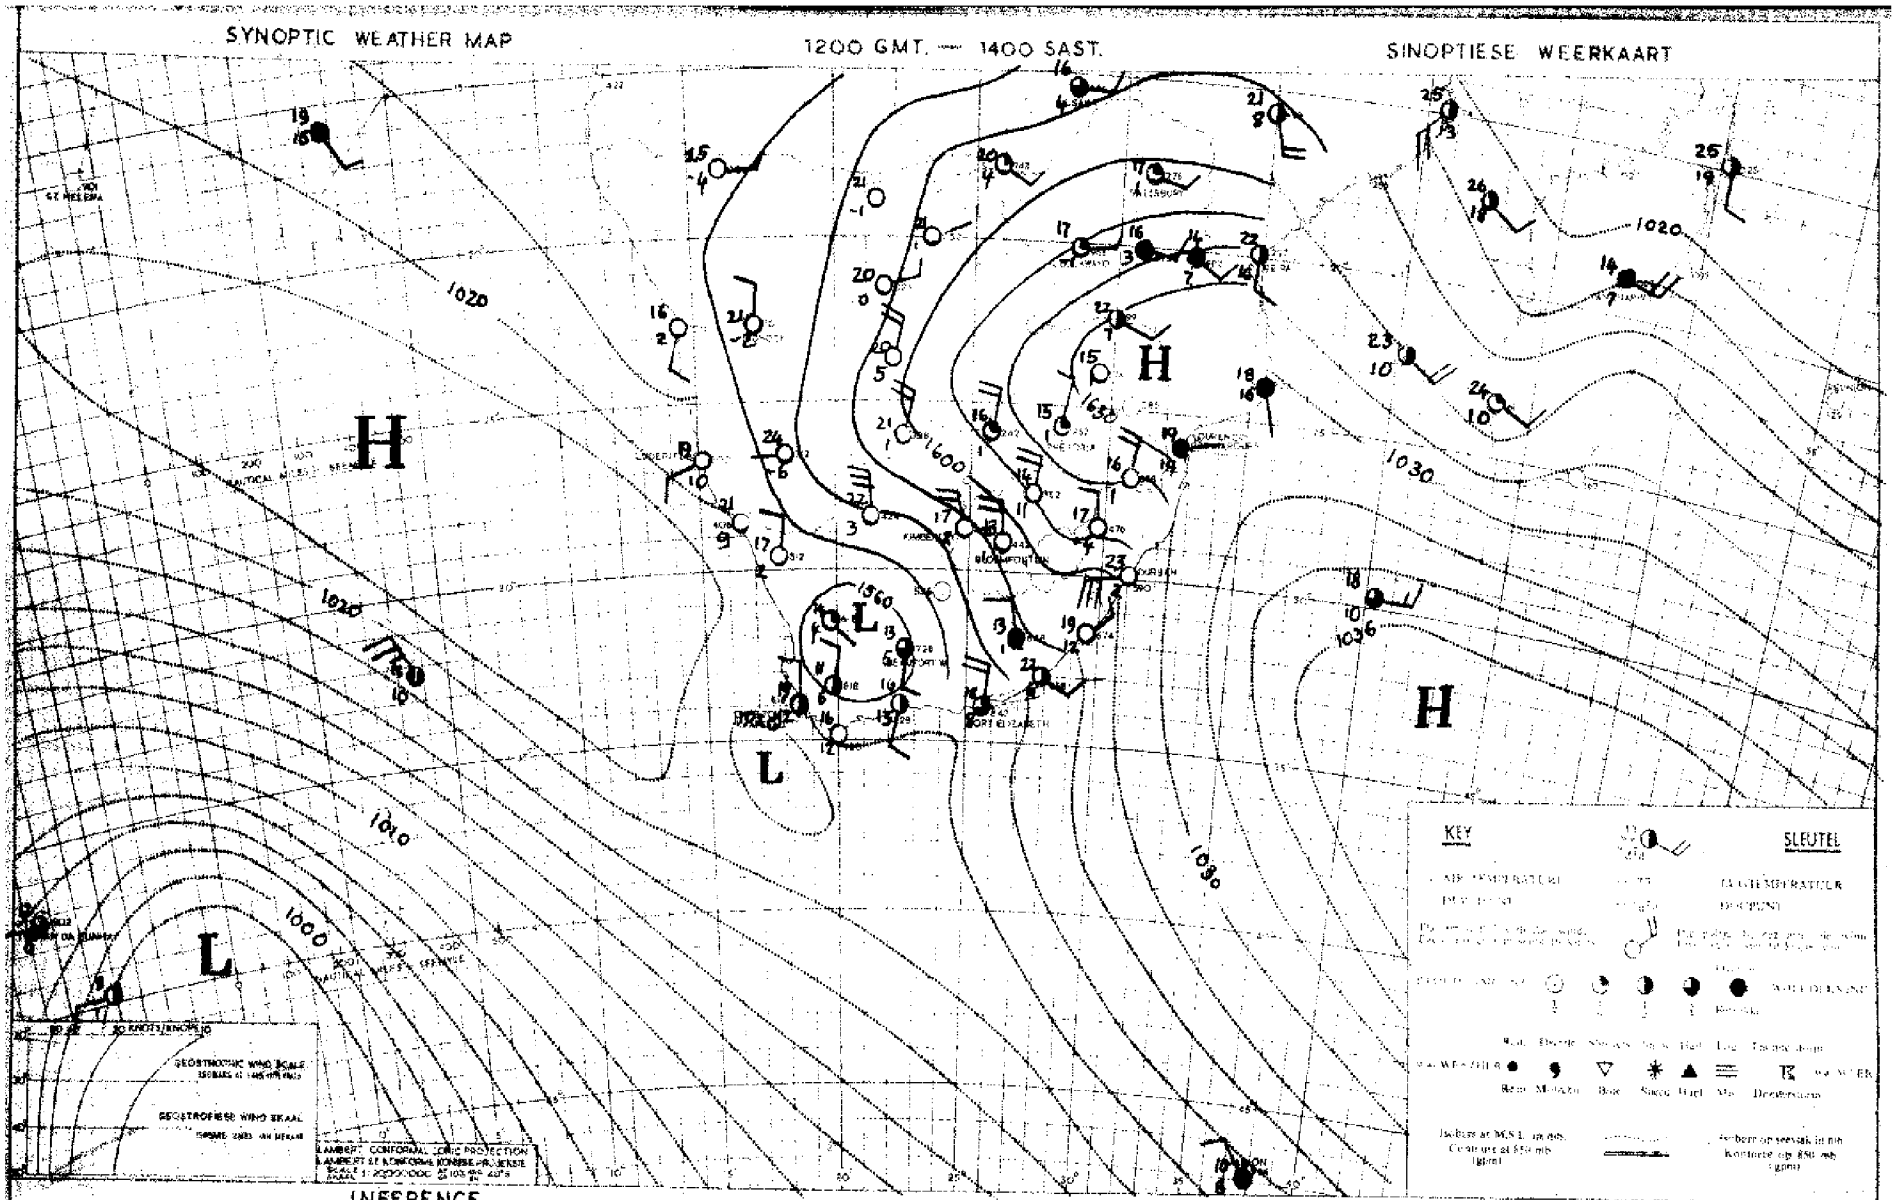
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 9-8-1961 DATUM

AFLEIDING

The closed low in the southwest is moving eastwards and filling up, with the pressure gradient over the interior weakening. It will be partly cloudy over southern Natal and the Pondoland and Transkei areas, but clearing from the west later. Elsewhere over the country it will be fine and mild but cloudy conditions will develop over the South Western Cape later as the trough over the Atlantic moves nearer.

Die geslote laag in die suidweste beweeg ooswaarts en verswak. Die drukgradient oor die binneland sal dus ook swakker word. Dit sal gedeeltelik bewolk wees oor suidelike Natal, Pondoland en die Transkei met geleidelike opklaring uit die weste later. Elders oor die vasteland sal dit mooiweer en mild wees maar bewolkte toestande sal later oor die Suidwestelike hoek ontwikkel as die Atlantiese trog nader beweeg.

INFERENCE

The blocking high at Marion will steer the low southeast of Tristan further to the southeast. With the high over the country it will remain fine over South Africa, South-West Africa, and Bechuanaland.

DATE 13-3-1961 DATUM

AFLEIDING

Die blokkerende hoog by Marion sal die laag suidoos van Tristan na die suidooste laat beweeg. Met die hoog die land sal dit mooiweer bly oor Suid-Afrika, Suidwes-Afrika en Betsjoeanaland.

With the anticyclonic circulation over the interior it will remain fine and mild over most areas but with the trough approaching from the west it is expected that cloudy weather will spread over the southern and southwestern coastal regions.

Met die antisiklonies sirkulasie oor die binneland sal dit mooiweer en matig wees oor meeste dele maar met die trog wat van die weste af nader sal bewolkte weer oor die suidelike en suidwestelike kusstreke uitbrei.

The cold front over the Cape Province is moving eastwards and cloudy, colder weather with showers will spread along the southeastern and the Natal coastal areas. Elsewhere it will be mainly fine or only slightly cloudy, but it will become colder over most parts of the interior and frost can be expected at night, later.

Die koue front oor die Kaap-provinsie beweeg ooswaarts en bewolkte, kouer weer met buie sal uitbreï langs die suidoostelike en die Natalse kusgebiede. Elders sal dit hoofsaaklik mooiweer of slegs effens bewolk bly, maar dit sal kouer word oor meeste dele van die binneland en ryp kan later snags bewag word.

DATE 17-8-1961 DATUM

AFLEIDING

The Atlantic high is extending a ridge south of the continent and as a result cold, cloudy conditions with showers will persist over northern Natal and spread gradually over Transvaal.

Over the remainder of South Africa however it will be fine but cold.

'n Rug van die Atlantiese hoog druk suid van die land in en gevolglik sal koue, bewolkte weer met buie oor noordelike Natal voortduur en vanaf die ooste ook Transvaal uitbrei. Oor die res van Suid-Africa sal dit egter mooiweer maar koud wees.

INFERENCE

DATE 18-8-1961 DATUM

AFLEIDING

Dry and cold air has moved over most parts of South Africa and frost will occur fairly generally at night over the Free State and the Cape Interior. Over the northeastern parts of the country it will be partly cloudy and isolated thundershowers are possible.

Droë en koue lug het oor meeste dele van Suid-Afrika beweeg en ryp sal snags taamlik algemeen voorkom oor die Vrystaat en die Kaapse binneland. Oor die noordoostelike dele van die land sal dit egter gedeeltelik bewolk bly en los donderbuie is moontlik.

The circulation over South Africa is anticyclonic and it will be fine over most areas except for Northern Natal and the Transvaal Lowveld where partly cloudy weather will occur. Hot berg-winds will blow over the west coast.

Lugsirkulasie is sterk antisiklonies oor Suid-Afrika en dit sal hoofsaaklik mooiweer wees behalwe vir verspreide wolke oor Noord-Natal en die Transvaallaeveld. Warm bergwinde sal oor die weskus waai.

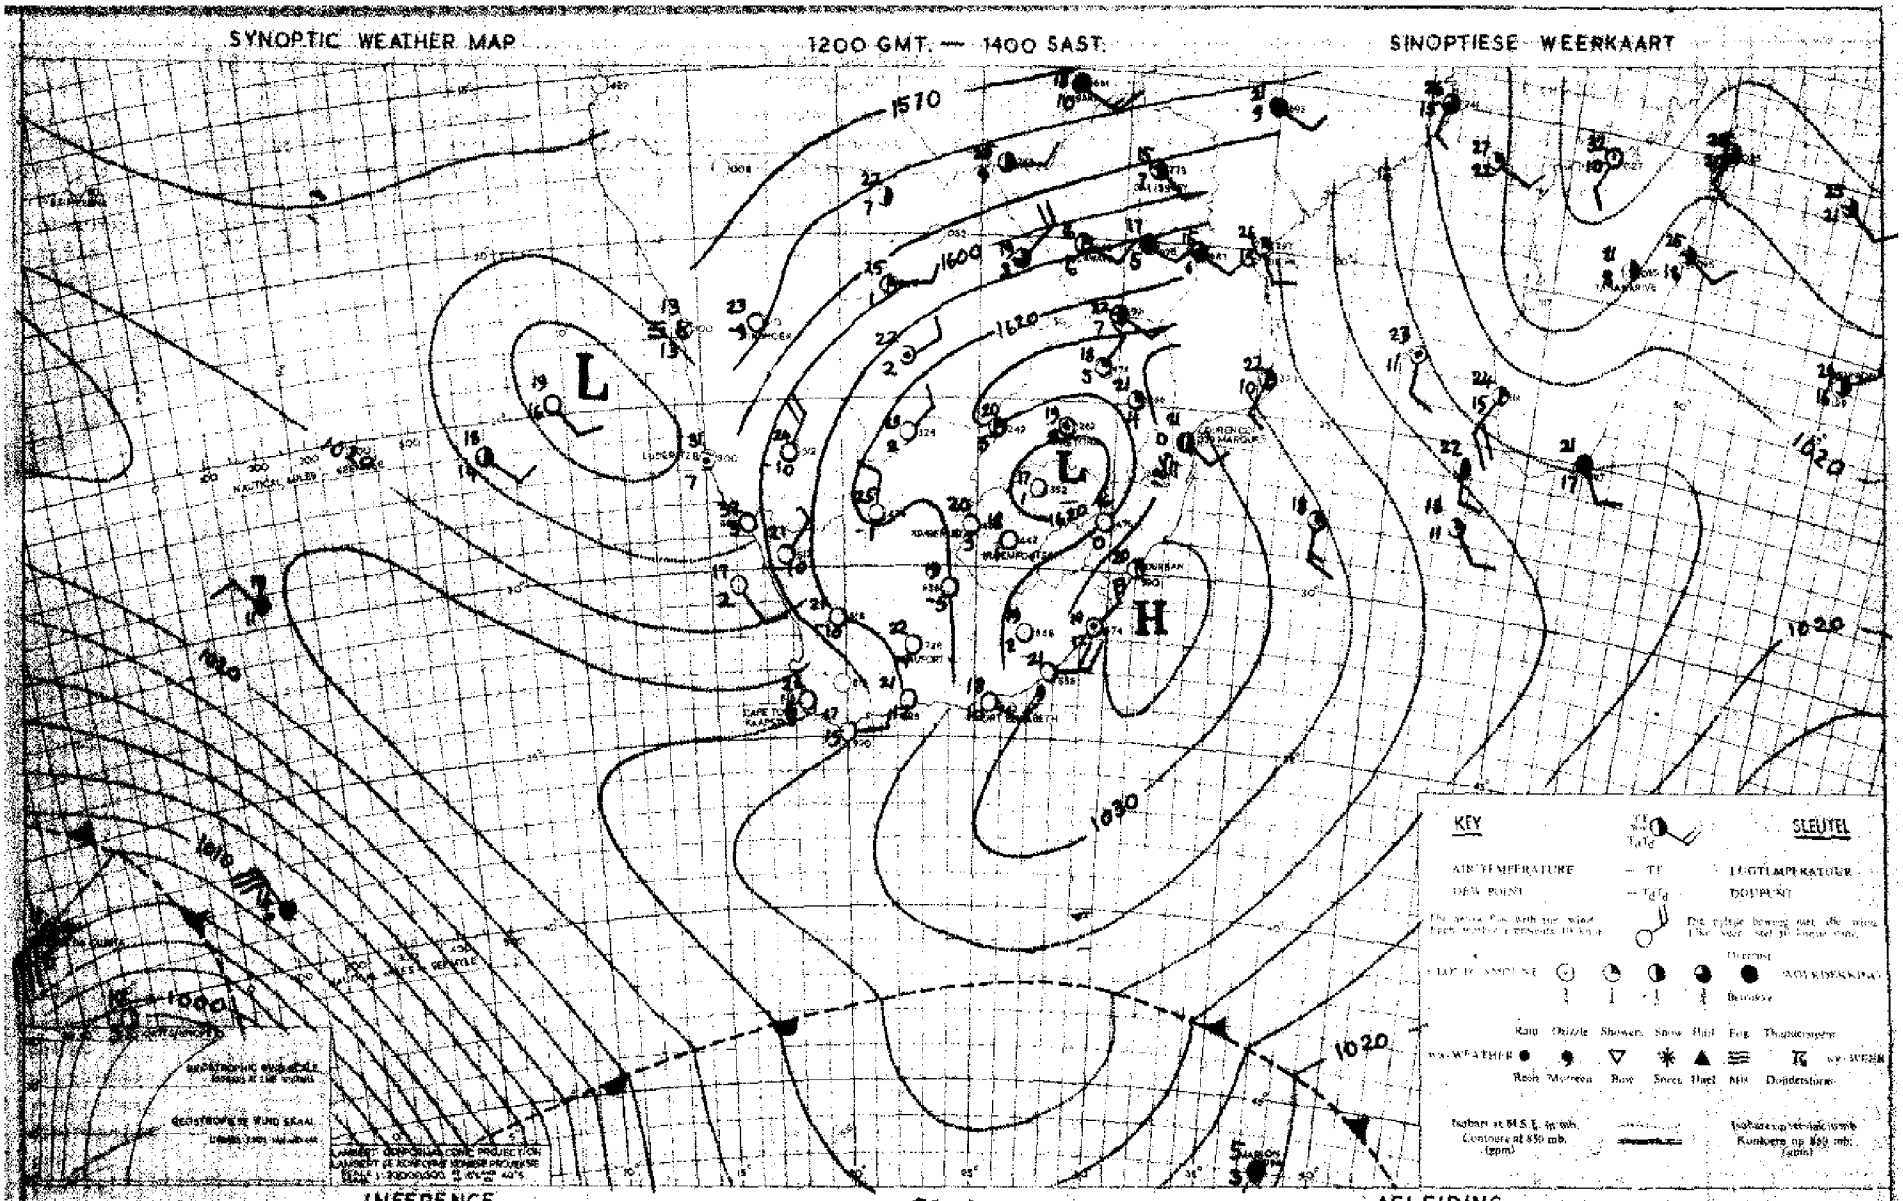
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 20-3-1961 DATUM AFLEIDING

The pressure is very high over South Africa and with an upper air high over the country it will remain fine and temperatures will rise. Bergwind conditions will develop over the West and Southwest Coast and tomorrow also over the Cape South Coast.

Drukke is baie hoog oor Suid-Afrika en met 'n bolughoog oor die land sal dit mooiweer bly en temperature sal styg. Bergwind toestande sal ontwikkel oor die Wes- en Suidweskus en more ook oor die Kaapse suidkus.

The Indian Ocean high is moving slowly eastwards. The cold front lying between Gough and the Cape Coast is being moved eastwards by rising pressures to the west of it but will be blocked by the Indian Ocean high and is expected to move south-eastwards. It will be fine and warm over the country but becoming partly cloudy later over the south-western Cape coastal regions.

Die hoog oor die Indiese Oseaan beweeg stadig ooswaarts. Die koue front tussen Gough en die Kaapse kus word ooswaarts beweeg deur stygende drukke wes van die front, maar sal deur die Indiese Oseaan hoog geblokeer word en sal na verwagting suidooswaarts beweeg. Dit sal oral s mooi weer en matig wees maar dit sal later bewolk word oor die suidwes-Kaapse kusstreke.

INFERENCE

DATE 22-8-196 DATUM

AFLEIDING

A cold front has reached Cape Agulhas, but it is very weak and only partly cloudy and somewhat cooler weather will move eastwards along the coast. Over the interior it will remain fine and mild over most parts and light frost is still possible over the central areas.

'n Koufront het Kaap Agulhas bereik, maar dit is baie swak en slegs tydelik bewolkte en ietswat koeler weer sal langs die kus oostwaarts beweeg. Oor die binneland sal dit hoofsaaklik mooiweer en matig bly en ligte ryp is nog moontlik oor die sentrale dele.

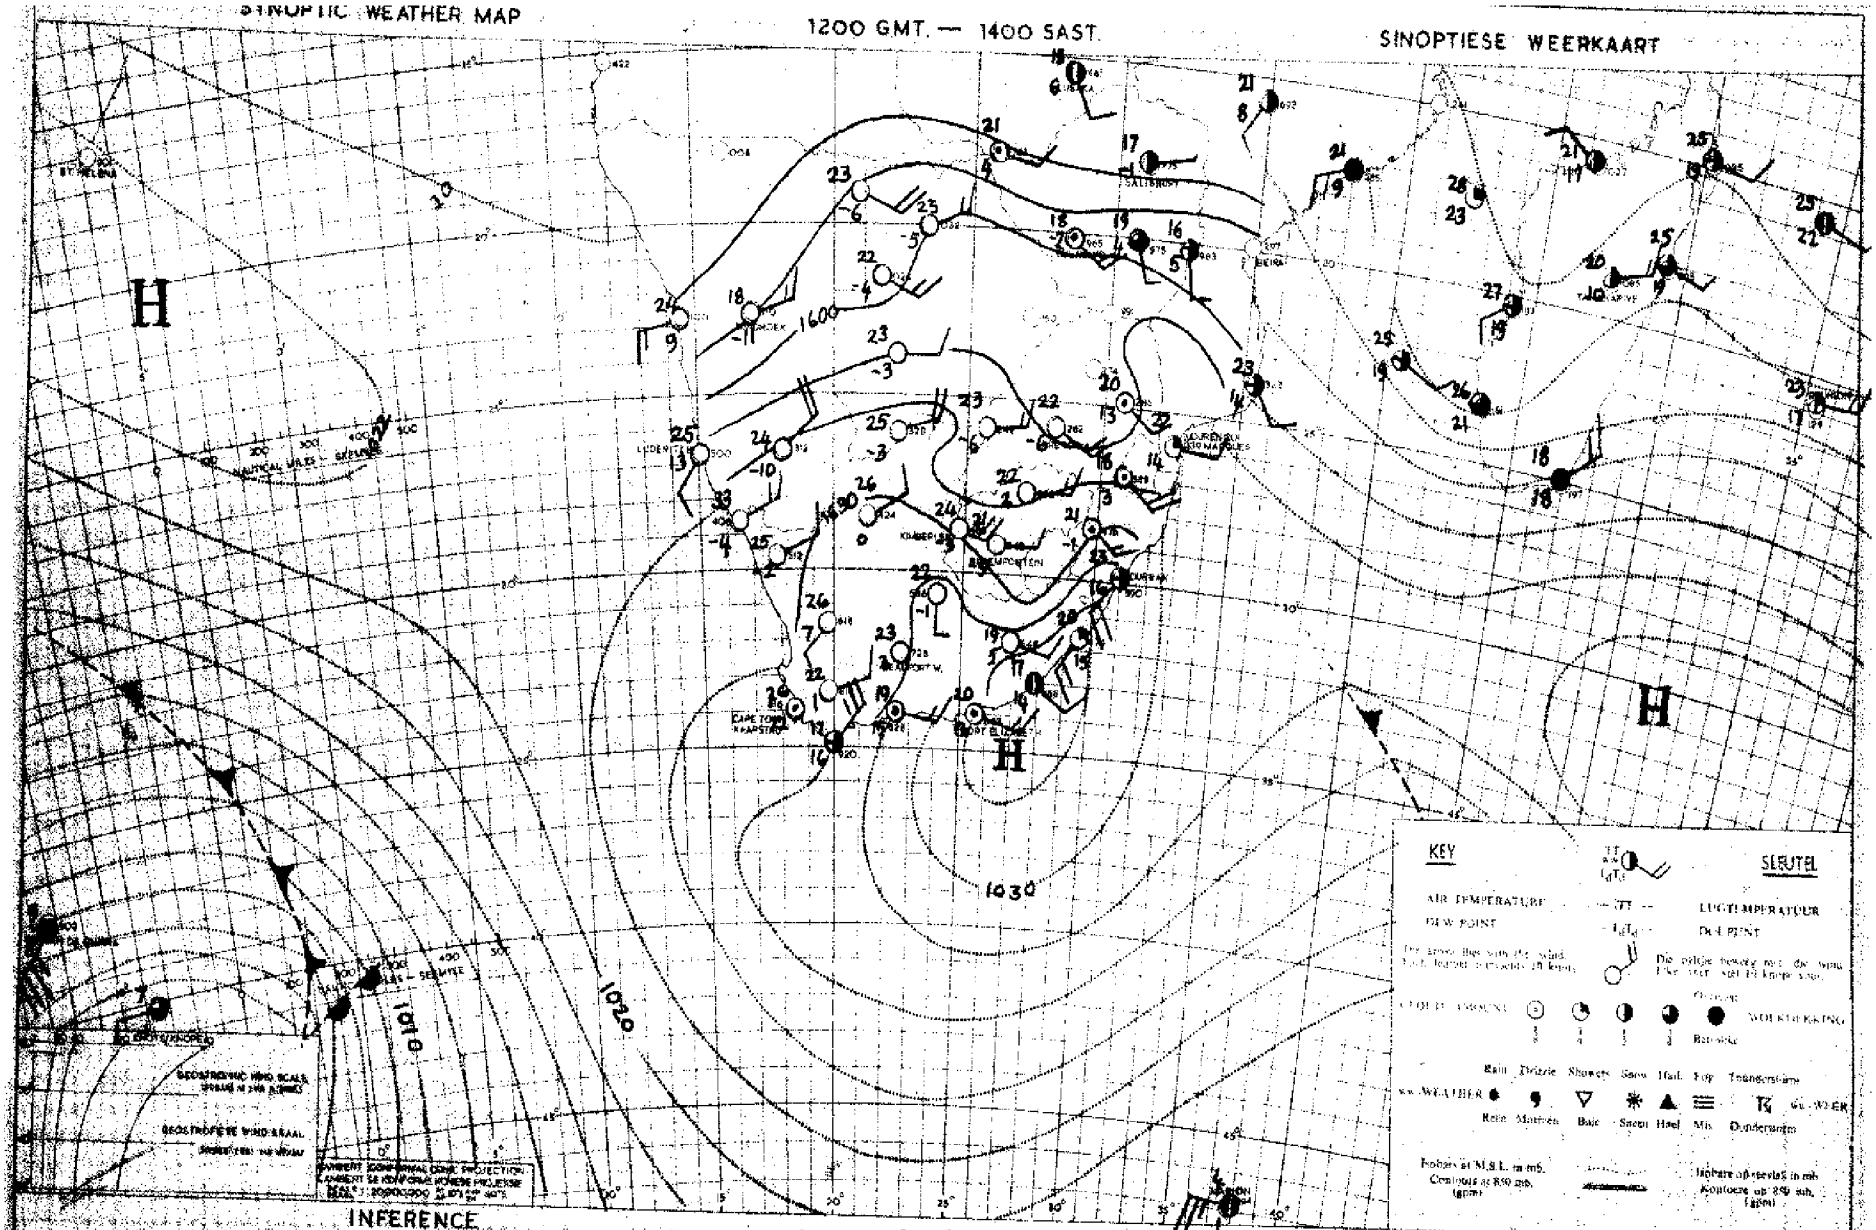
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 23-8-1961 DATUM

AFLEIDING

The high off the South east coast is moving eastwards and cloudy conditions will occur over Northern Natal and the Transvaal Lowveld and Escarpment. With a strong pressure gradient off the South Coast berg winds are possible over these regions. The trough east of Gough is being moved eastwards by a high in the west Atlantic and will affect the Southwest Cape Coast later.

Die hoog langs die Suid ooskus beweeg ooswaarts en bewolkte toestande sal voorkom oor Noordelike Natal in die Transvaal Laeveld en platorand. Met 'n sterk drukgradient langs die Suidkus kan berg winde oor hierdie dele verwag word. Die trog oos van Gough word ooswaarts beweeg deur 'n hoog in die Wes Atlantiese oseaan en dit sal Kaapse weer later affekteer

INFERENCE

DATE 24-5-1961 DATUM

AFLEIDING

A cold front is approaching the Cape. It will become cloudy and colder over the Cape coastal belt from the west and showers will fall at places. Over the remainder of the country it will be fair or partly cloudy and mild, but bergwind conditions will develop at first over the Cape Southwest coast.

'n Kouefront nadder die Kaap. Dit sal more bewolk en kouer word oor die Kaapse kusstreke vanuit die weste en buie sal uitsak op plekke. Oor die res van die land sal dit redelik mooiweer of gedeeltelik bewolk en malig wees, maar bergwind toestande sal aanvanklik ontwikkel oor die Kaapse suidooskus.

INFERENCE

The cold front is moving very rapidly eastwards. It will become cloudy along the South Eastern Cape Coast and Natal with showers as the front approaches these areas. Clouds along the South Western and Southern Cape coast will clear from the west later. An upper air trough over the interior is moving southeastwards and it will be mainly fine over most of the interior.

DATE 25 S-1961 DATUM

AFLEIDING

Die koue front beweeg vinnig ooswaarts. Dit sal bewolk word oor die Suidoostelike Kaapse kus en Natal met los buie. Wolke langs die Suidwestelike en Suidelike Kaapse kus sal later opklaar. 'n Bolug trog oor die binneland beweeg suidooswaarts en dit sal mooiweer wees oor die binneland.

INFERENCE

The new low which has developed to the west of the Orange River will move eastwards and it will be cloudy with scattered showers over the western half of the Cape Province gradually eastwards. Elsewhere it will be partly cloudy and mild except over northern South West Africa and Bechuanaland where it will be mainly fine.

DATE 27-8-1961

AFLEIDING

Die nuwe laag wat ontwikkel het wes van die Oranje-rivier sal ooswaarts beweeg en oor die westelike gedeelte van Kaapland sal dit bewolk wees met verspreide buie, wat geleidelik ooswaarts sal uitbrei. Elders sal dit gedeeltelik bewolk en matig wees behalwe oor die noordelike Suidwes-Afrika en Betsjoenaland, waar dit meestal mooiweer sal wees.

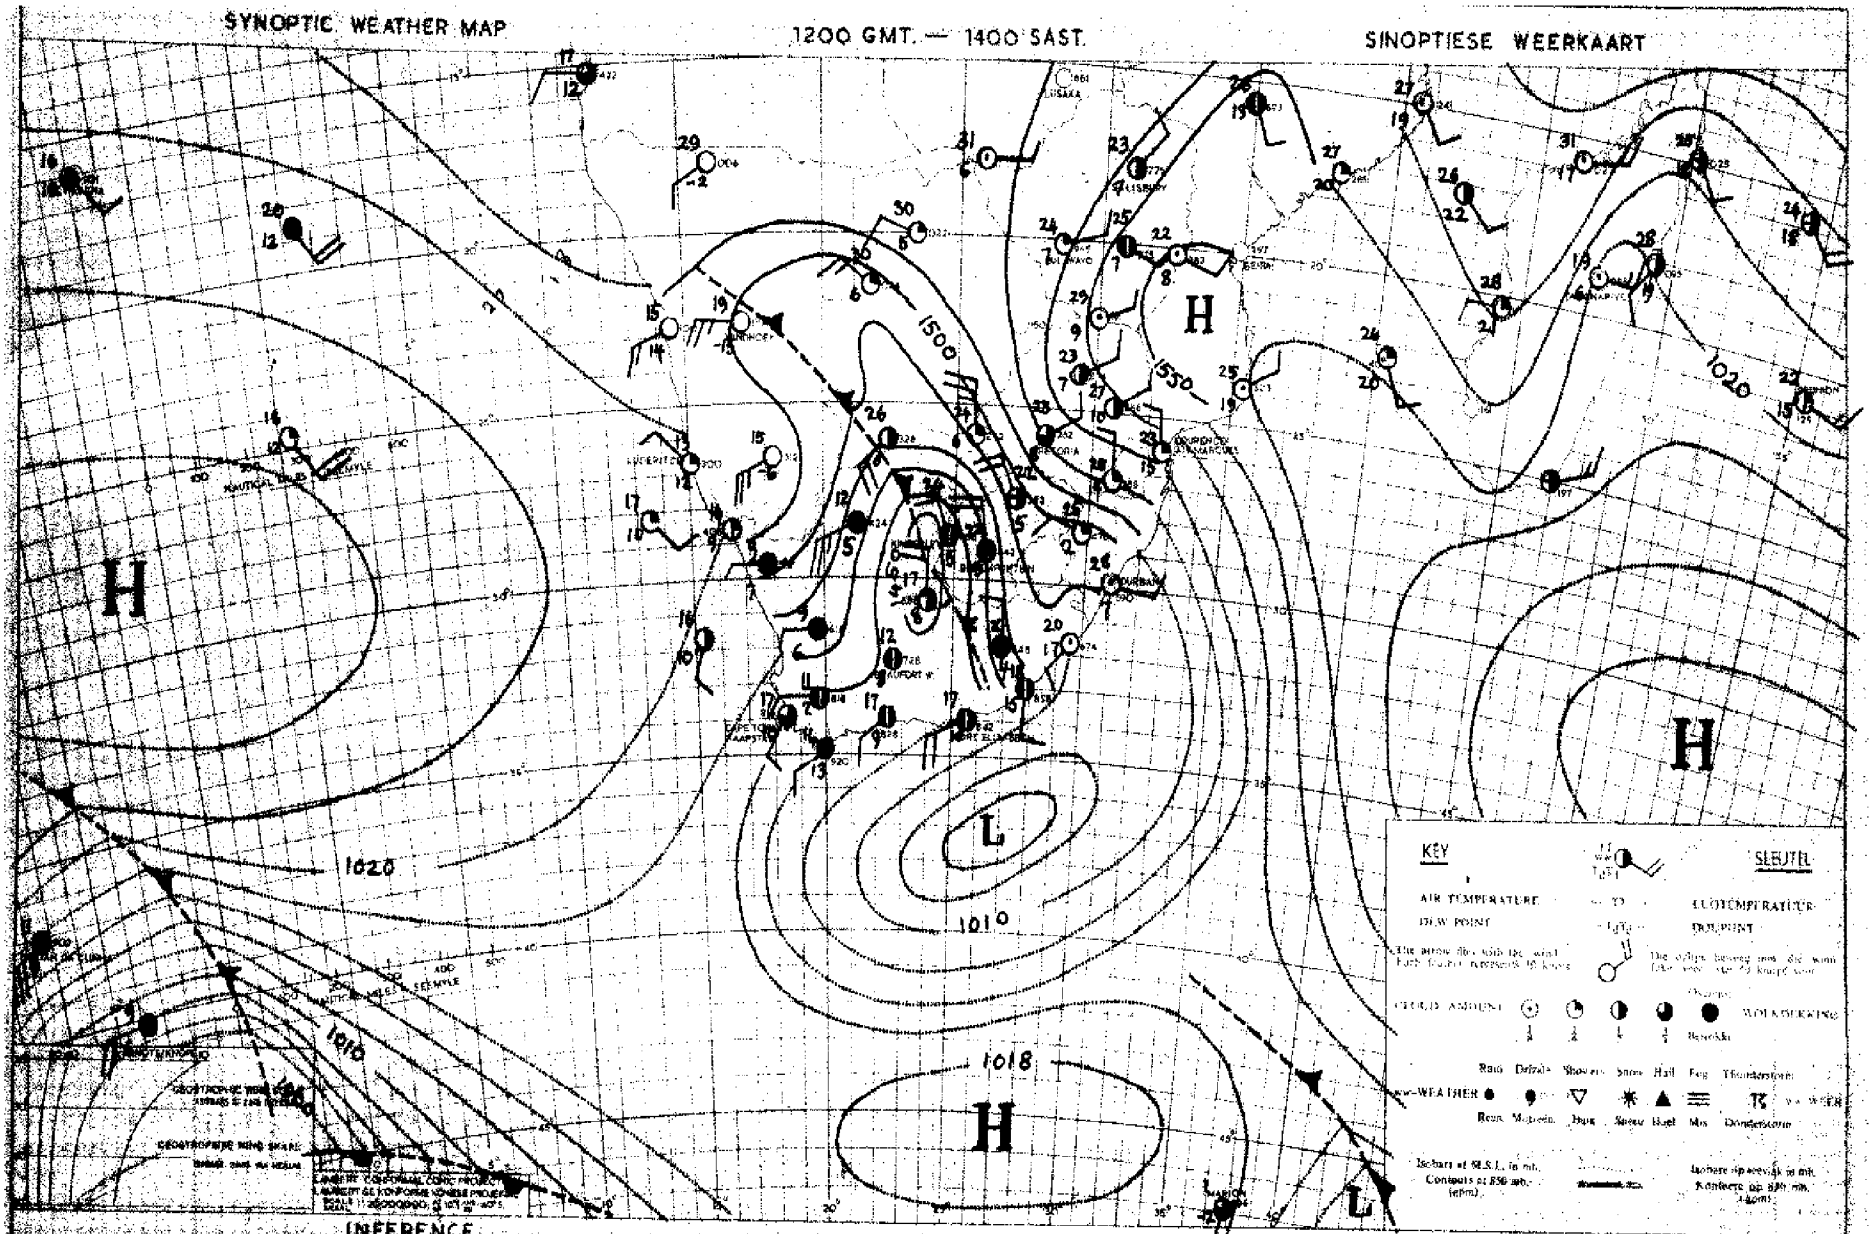
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 28-8-1961 DATUM

AFLEIDING

Pressures are rising over the west coast and as a result the cold front over the continent will advance eastwards over the entire Cape Province, Free State, Natal, and the southern half of the Transvaal. Cloudy conditions with showers will still occur over the southern and eastern coastal regions but over the interior the weather will clear from the west.

Lugdruk styg oor die weskus en gevolglik sal die koufront oor die land verder uitbrei oor die hele Kaapprovinsie, Vrystaat, Natal en suidelike helfte van Transvaal. Bewolkte toestande met buie sal nog voorkom oor die suidelike en oostelike kusstreke maar oor die binneland sal die weer opklaar.

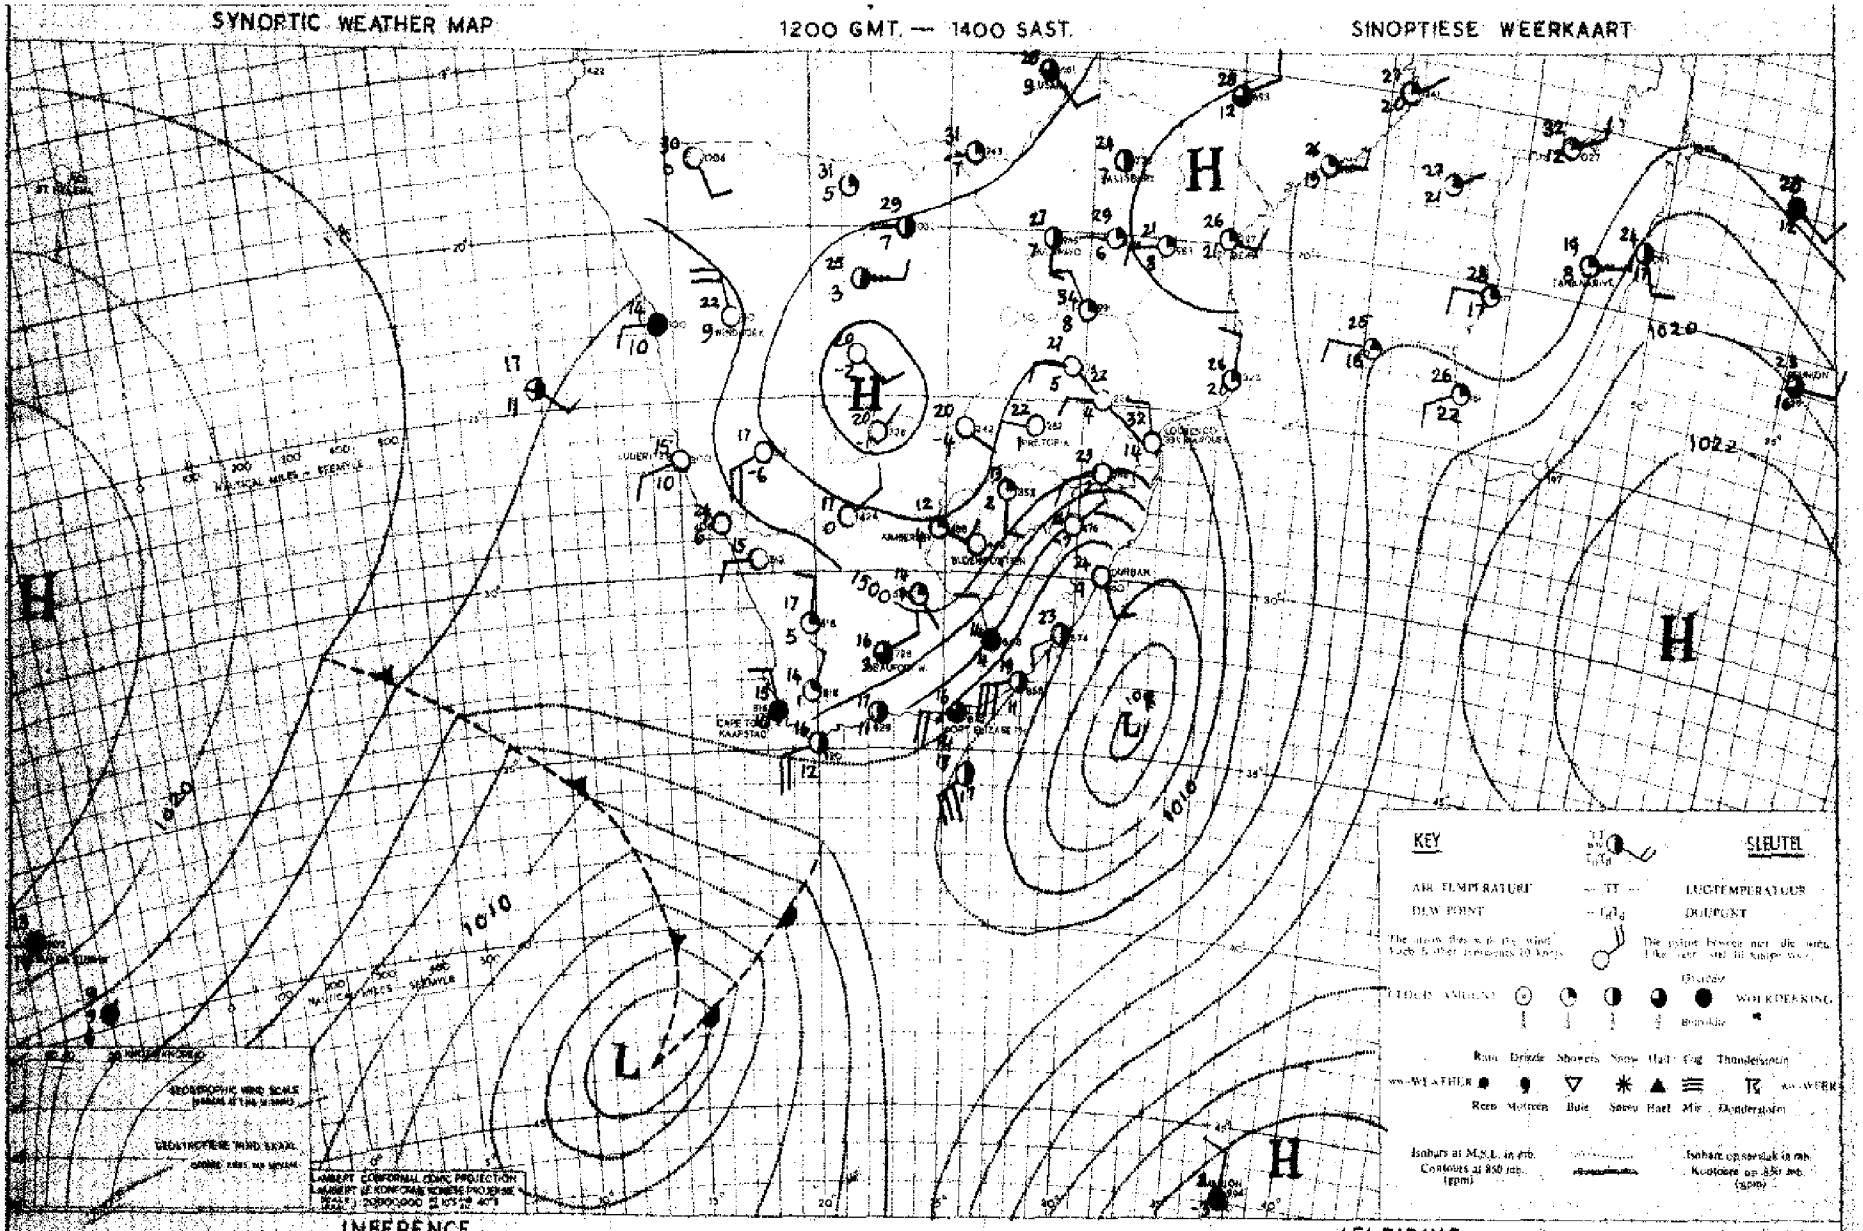
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 29 - 8 - 1961 DATUM — AFLEIDING

The rapidly approaching frontal system to the west of the South-west Cape will bring cloudy cold weather with rain and showers to the southwestern half of the Cape elsewhere it will be mainly fine and mild but warm over the extreme northern areas.

Die vinnig naderende druk stelsel wat wes tot suidwes van die Suidwes Kaap lê, bring bewolkte koue weer met reën en buie na die suidwestelike helfte van Kaapland. Elders sal dit mooiweer en matig wees behalwe oor die heel noordelike dele waar dit warm sal wees.

DATE 30-8-1961 DATUM

INFERENCE

The low south of the country is moving southeastwards and its influence on the weather of South Africa will decrease. A trough west of the Cape province is moving eastwards and it will become cloudy with rain over the Cape southwest, west and south coast again. Elsewhere it will be mainly fine and cool [illegible] warm over the rest of the country.

AFLEIDING

Die laag suid van die land beweeg suidooswaarts en sy invloed op Suid-Afrika se weer sal verdwyn. 'n Trog wes van Kaapland beweeg ooswaarts en dit sal more weer bewolk word met reën oor die Kaapse suidwes-, wes- en suidkus. Elders sal dit hoofsaaklik mooiweer wees en koel in die suide maar matig tot warm oor die res van die land.

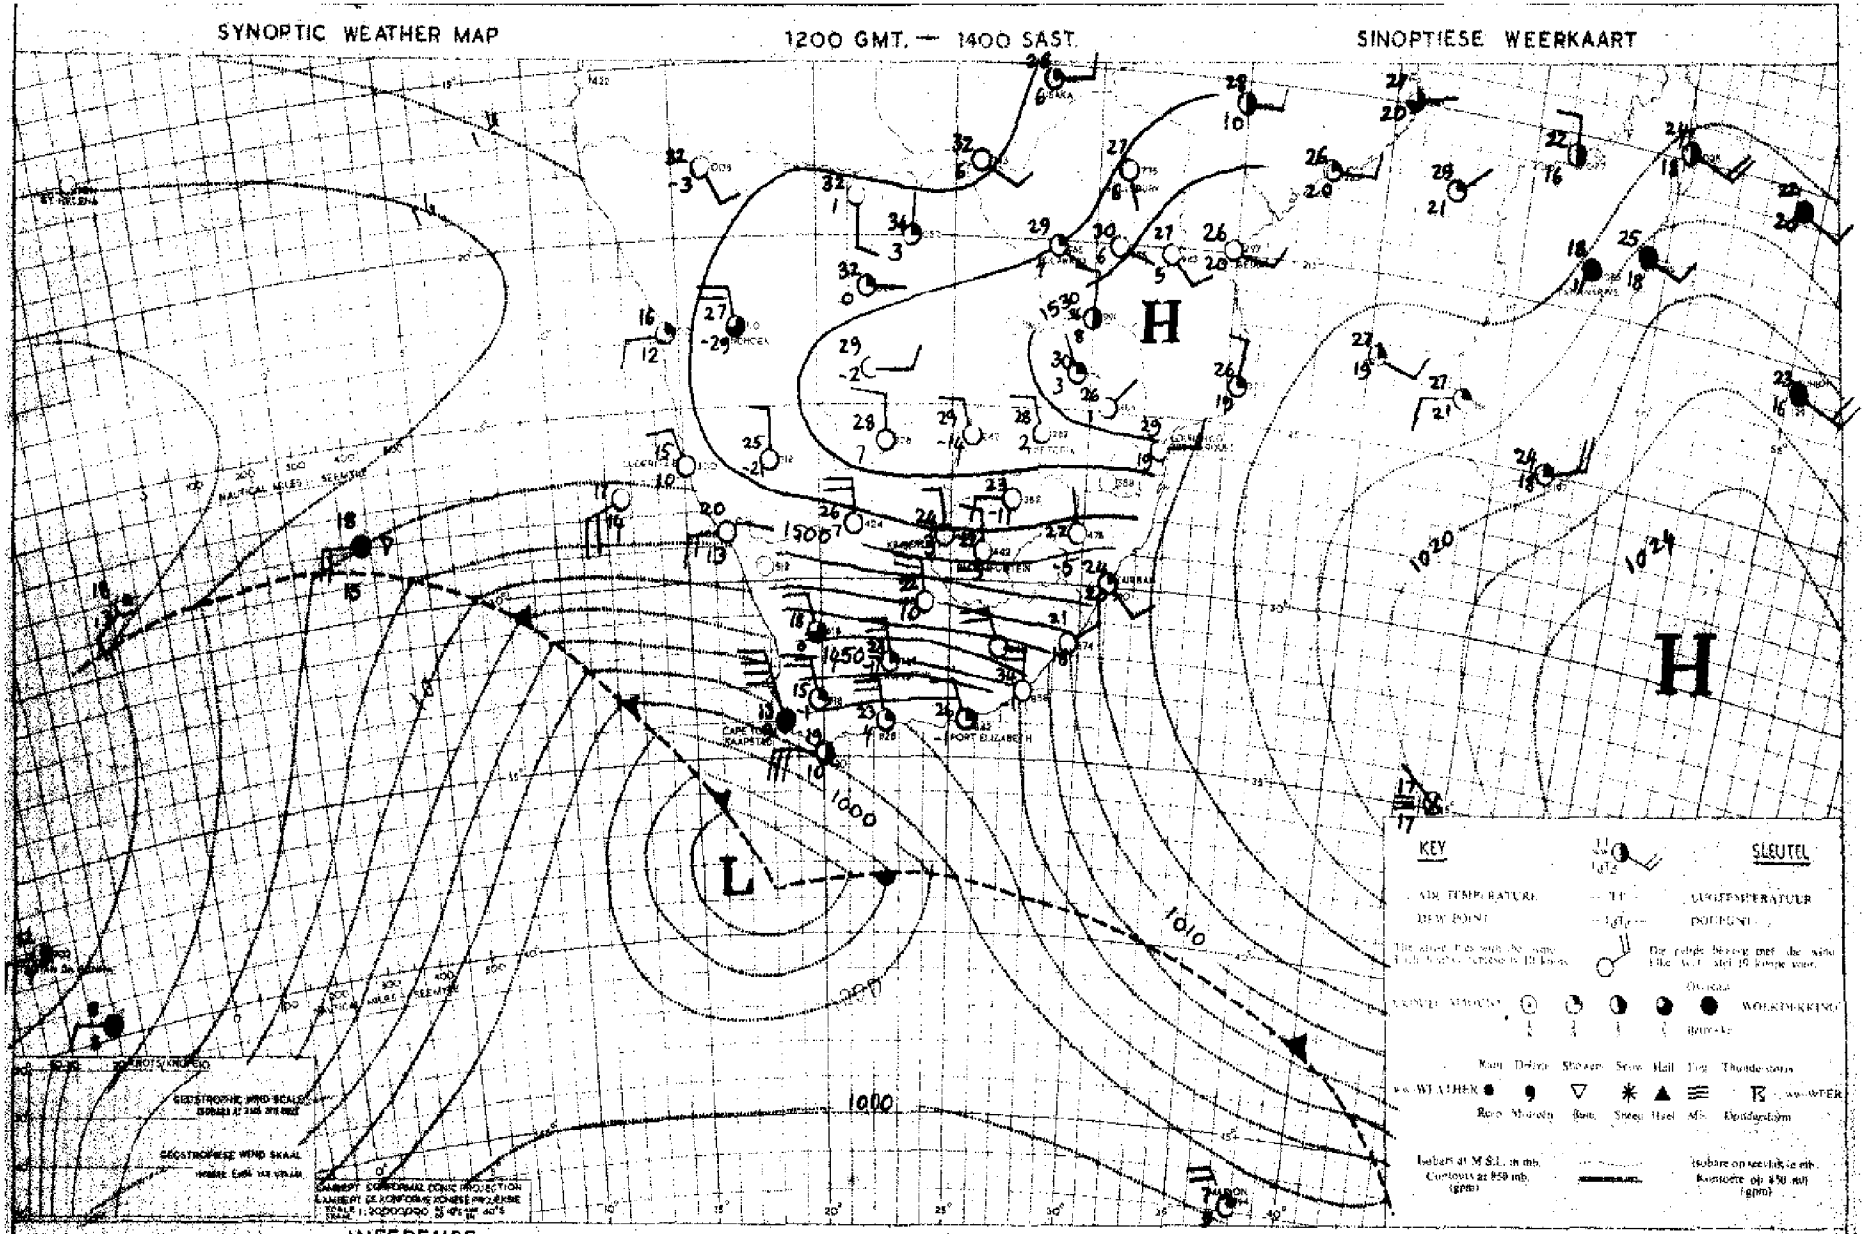
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 31-5-1961 DATUM AFLEIDING

The new low centred off the Southwest Cape is moving rapidly eastwards and the weather will be generally unsettled with rain and showers and strong to gale force westerly winds over the Southern half of the Cape, spreading later to the Pondoland coast. Elsewhere mainly fine, and mild to warm but warm over the northern half of the country.

Die nuwe laag wat Suidwes-kaapland nader, beweeg taamlik vinnig oos waarts en die weer sal betrokke wees met reën en buie en ook sterk tot stormsterk weste like winde oor die suidelike helfte van Kaapland, later sal dit uitbrei na die Pondolandkus. Elders meestal mooiweer en matig tot warm oor die noordelike helfte van die land.

INFERENCE

DATE 1-9-1961 DATUM

AFLEIDING

The high is ridging strongly eastwards behind the cold front and cold air will spread further over South Africa. The strongest pressure rise is along the south coast so that cloudy weather will develop also over Natal and the eastern Transvaal lowveld. Showers will still occur over the southern and eastern coastal regions.

Die hoog druk sterk in agter die koue front en die koue lug sal verder uitbrei oor Suid-Afrika. Lug druk styg die vinnigste oor die suidkus en bewolkte weer sal ook uitbrei oor Natal en die oostelike laeveld van Transvaal. Buie sal nog oor die suidelike en oostelike kusstreke uitsak.

The South Coast high is moving eastwards and the weather will clear gradually over Natal and later over the Transvaal where it will be partly cloudy. Elsewhere it will be fine with day temperatures somewhat warmer

Die Suidkus hoog beweeg oostwaarts en die weer sal geleidelik opklaar oor Natal en later oor Transvaal waar dit aanvanklik nog gedeeltelik bewolk sal wees. Elders mooiweer en ietwat warmer.

With the trough approaching from the west and the high to the southeast of the continent a strong northerly wind will blow over the western half of the country. Hot bergwinds will occur over the southern coastal regions. Somewhat more humid air is moving southwards over S.W.A and isolated light shower are possible over this part. Mainly fine elsewhere.

Met die trog wat uit die weste nader en die hoog suidoos van die vasteland sal 'n sterk noordewind oor die westelike helfte van die land waai. Warm bergwinde sal voorkom oor die suidelike kusgebiede. Iets vogtiger lug beweeg nou suidwaarts oor S.W.A. en enkele ligte donderbuie is moontlik oor die dele. Hoofsaaklik mooi elders.

INFERENCE

DATE 4-9-1961

Fairly humid air is moving southwards over South West Africa and it will become partly cloudy over the western parts of the interior with local thundershowers. Elsewhere over the country it will be mainly fine. Hot bergwinds will occur over the South-eastern coastal regions.

DATUM

AFLEIDING

Vogtiger lug beweeg suidwaarts oor Suidwes-Afrika en dit sal gedeeltelik bewolk word oor die westelike dele van die binneland met plaaslike donderbuie. Elders oor die land sal dit hoofsaaklik mooiweer wees. Warm bergwinde sal voorkom oor die suidoostelike kusgebiede.

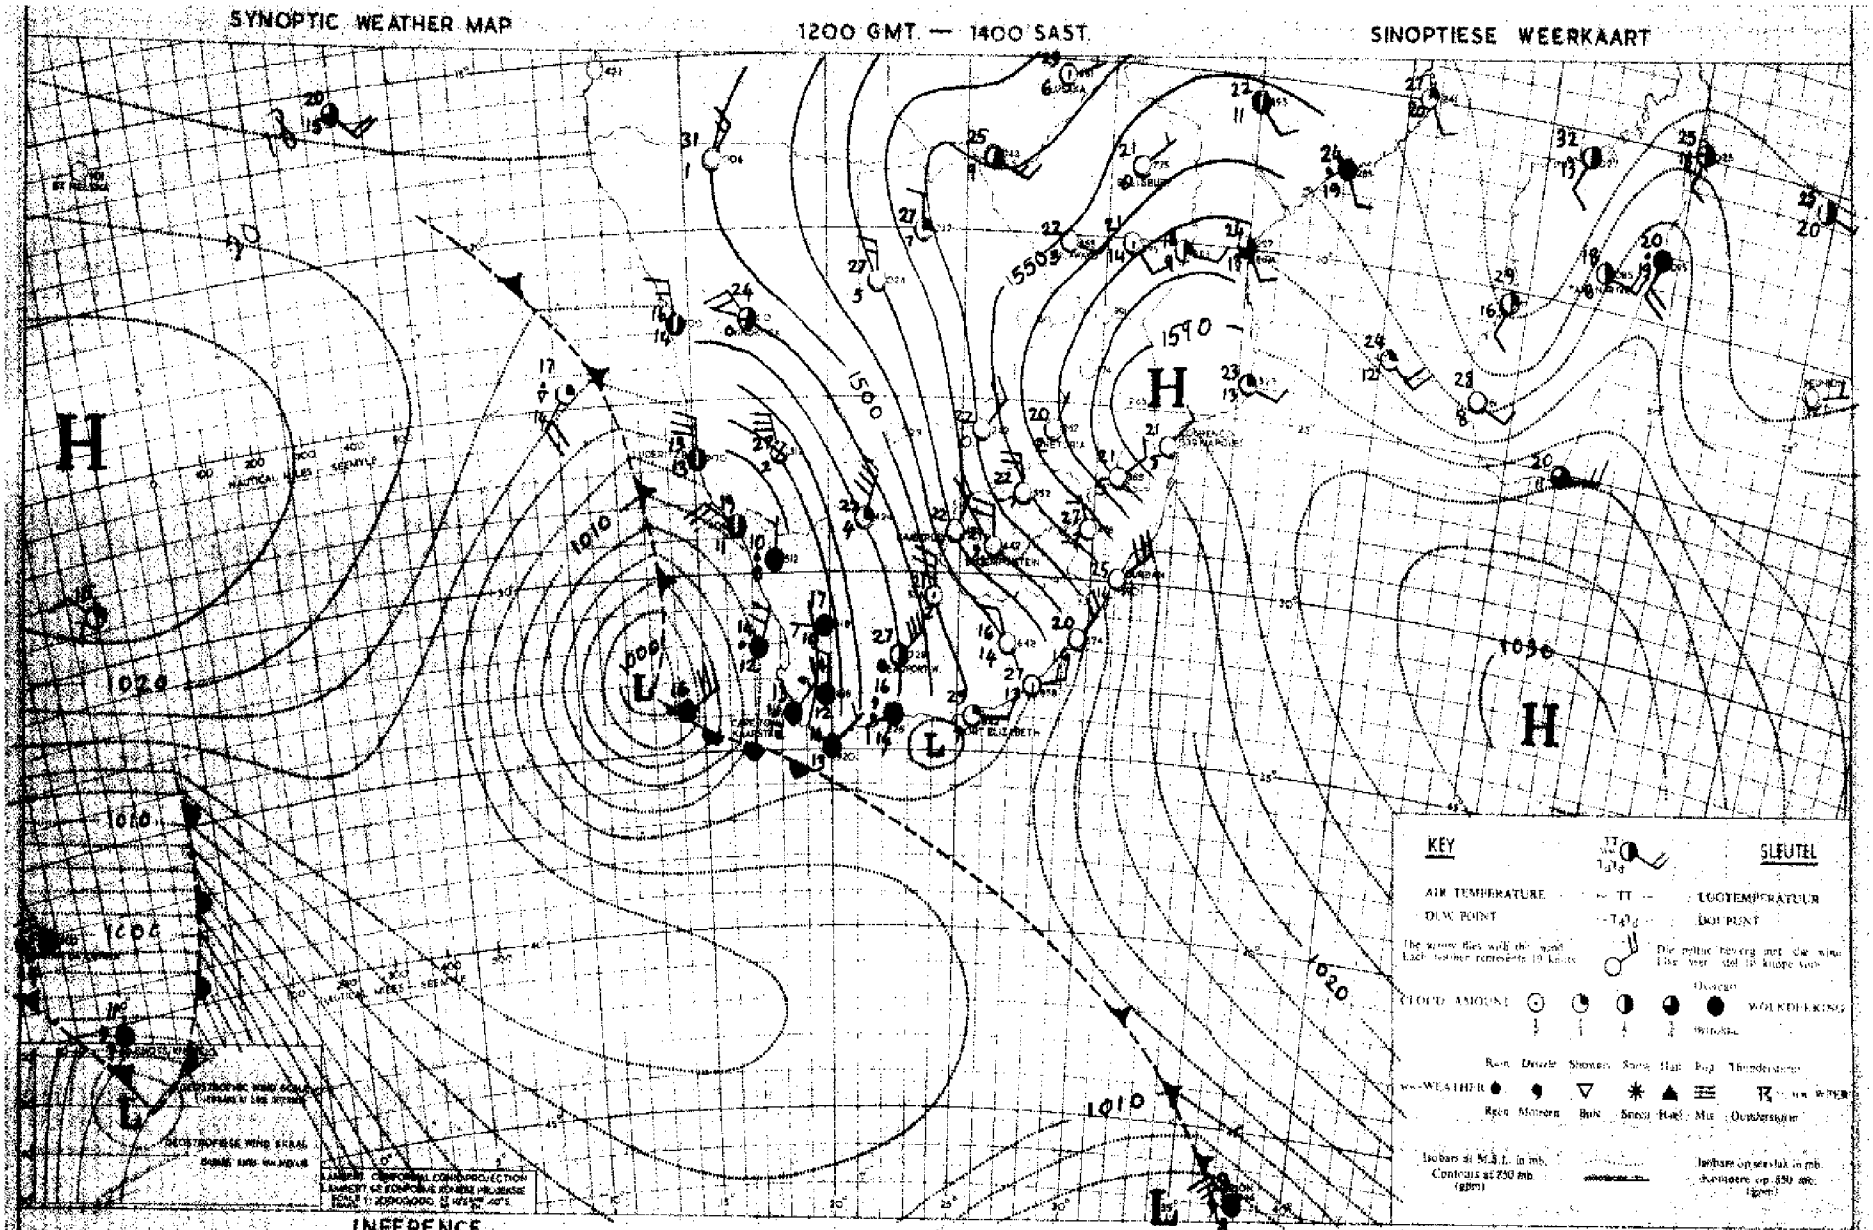
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE — DATE 5-9-1961 — DATUM — AFLEIDING

The low west of the country will advance slowly southeastwards and cloudy conditions with rain will persist over western and south-western Cape and spread gradually eastwards over the Cape Province. Cooler, dry air will spread over South West Africa. It will be fine over the eastern half of South Africa but winds will be rather strong

Die laag wes van die land sal stadig suidooswaarts beweeg sodat bewolkte weer met reën sal voortduur oor Wes-en Suidwes-Kaapland en geleidelik ooswaart uitbrei oor die Kaapprovinsie. Droër koeler lug sal instroom oor Suidwes-Afrika. Oor die oostelike helfte van Suid-Afrika

INFERENCE

DATE 6 - 9 - 1961 DATUM

AFLEIDING

The cold front trough over the interior is expected to move off rapidly to the south-east and the cloudy conditions over the southeastern interior will clear overnight. With the trough approaching from the west the weather over the extreme southwestern part of the Cape Province will remain unsettled with further rain or showers. Elsewhere over the country it will be mainly fine.

Die kouefront trog oor die binneland word verwag om vinnig suidooswaarts uit te wyk en die bewolkte toestande oor die suidoostelike binneland sal oornag opklaar. Met die trog wat nader vanuit die weste sal die weer ongestadig bly oor die heel suidwestelike dele van die kaapprovinsie met verdere reën of buie. Elders oor die land sal dit hoofsaaklik mooi weer wees.

INFERENCE

DATE 7-9-1961 DATUM

AFLEIDING

A series of waves on the polar front is moving from west to east and cloudy conditions with rain and showers will occur over Southwestern and Southern Cape but over the rest of the country the circulation is anticyclonic and the weather will remain fine.

'n Reeks golwe op die polêre front beweeg van wes na oos en bewolkte weer met reën en buie sal voortduur oor Suidwes- en Suid-Kaapland maar oor die res van die land is die sirkulasie antisiklonies en dit sal mooiweer bly.

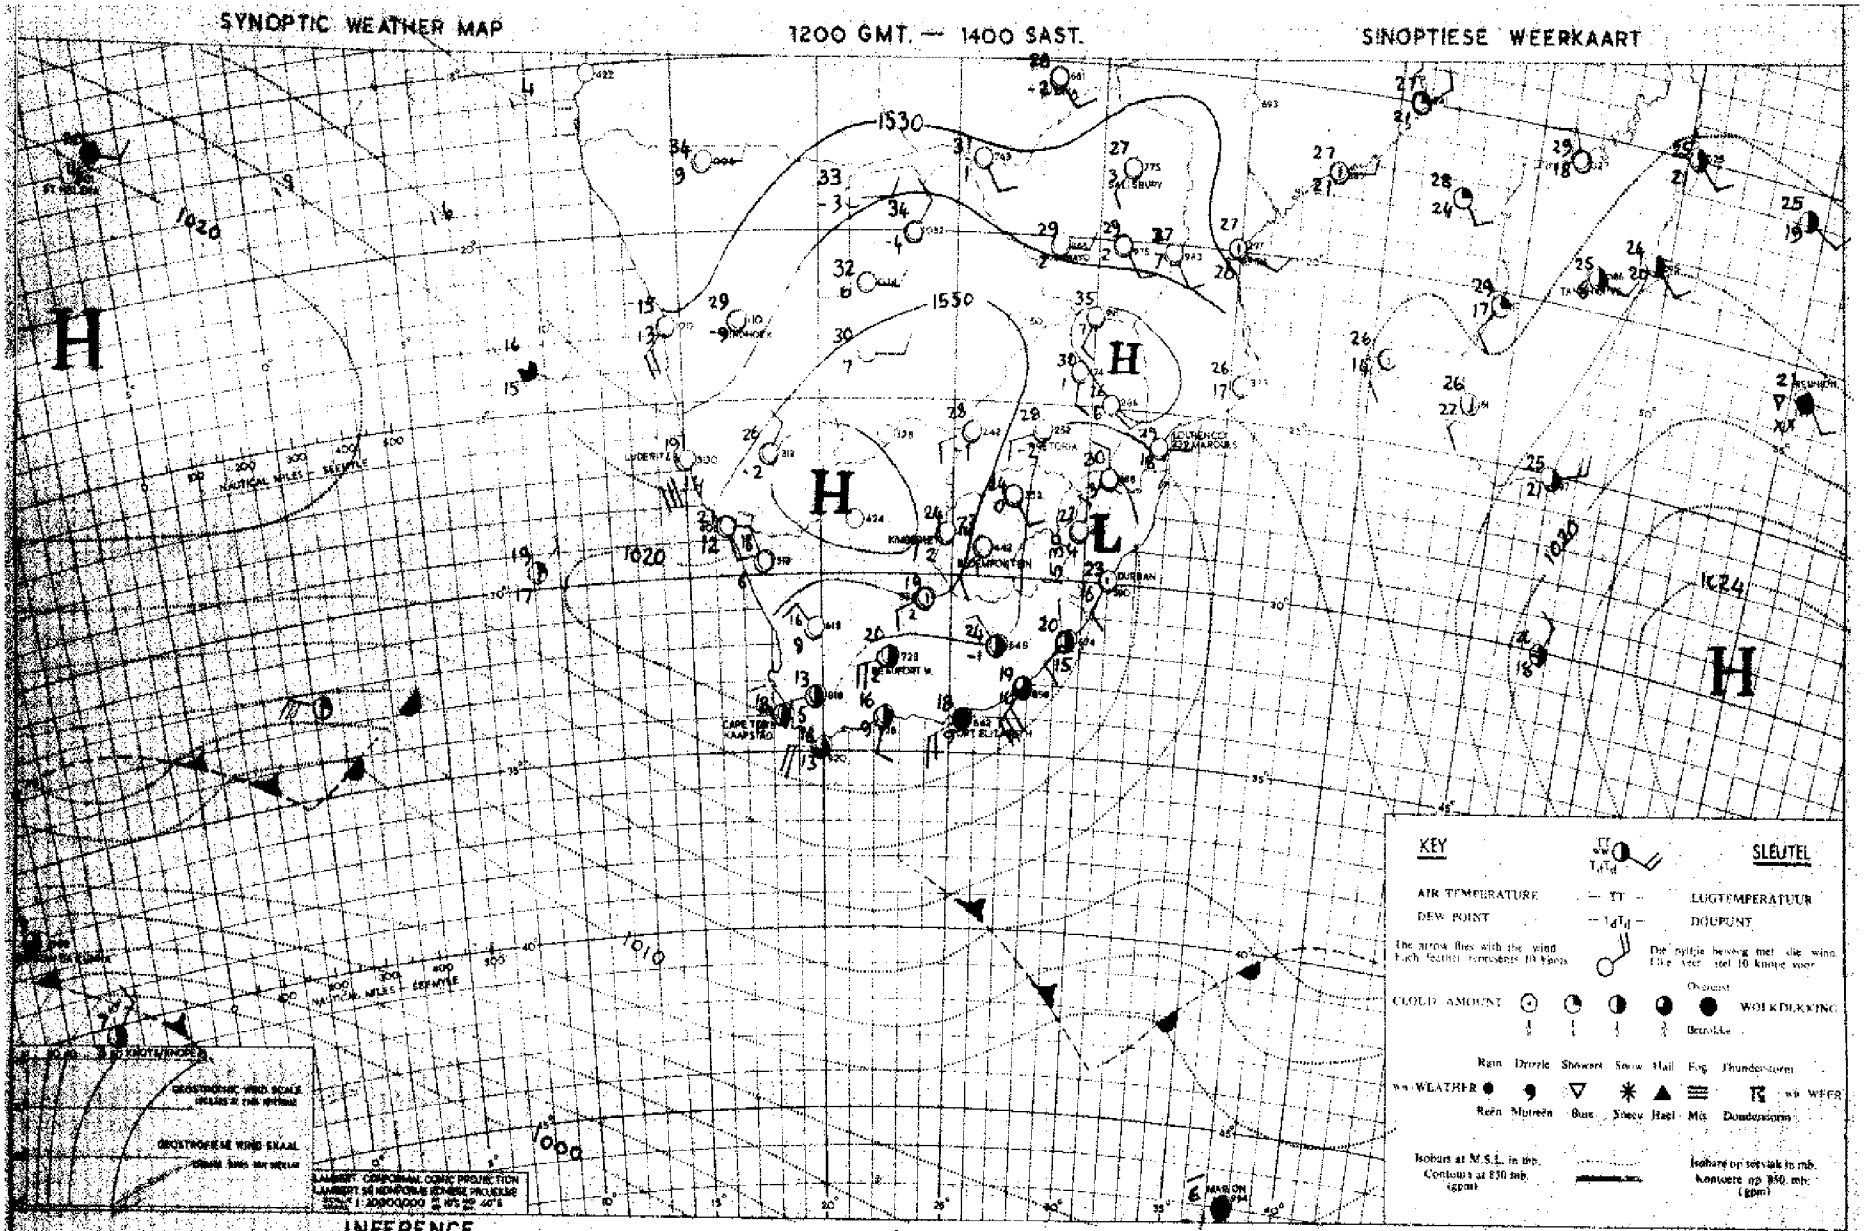
Bospoort	26	7	



A high pressure ridge is moving eastwards around the southern coast and is expected to form a separate cell. Clouds along the Southern and South-eastern Cape coast will clear but it will be slightly cloudy at first over Northern Natal. The wave over the Atlantic Ocean will affect the South-western Cape's weather Early later tomorrow it will be fine and warm over the interior

'n Rug beweeg ooswaarts om die Kaapse Suidkus en sal na verwagting 'n aparte sel vorm. Wolke langs die suid en suid-oos Kaapse kusstreke sal opklaar maar dit sal aanvanklik effens bewolk wees oor noordelike Natal. Die golf oor die Atlantiese Oseaan sal die Suid-wes Kaapse weer eers later môre affekteer oor die binneland sal dit mooi weer en warm wees

INFERENCE DATE 9 - 1971 DATUM AFLEIDING

The circulation over South Africa is anti-cyclonic at all levels and it will remain fine and warm over most areas but cloudy conditions may develop later on the southwest coast

Die sirkulasie oor Suid-Afrika is antisiklonies tot groot hoogtes en dit sal mooiweer en warm bly oor meeste dele. Bewolkte toestande mag later oor die suidweskus voorkom.

INFERENCE

DATE 10-9-1961 DATUM

AFLEIDING

A high over the Transvaal is nearly stationary. Under its influence it will be mainly fine and warm to hot over the country, but it will remain partly cloudy and mild to cool over the interior.

'n Hoog oor die Transvaal is feitlik stasionêr. Onder sy invloed, sal dit hoofsaaklik mooiweer en warm tot baie warm bly oor die land maar gedeeltelik bewolk en matig tot koel oor die kusstreke.

The front near Greenwich is expected to pass to the south of SW Cape. The high off the Natal coast will be rapidly followed by a coastal low which will bring cloudy weather to the Cape South and Southeast coasts and to the southern Natal coast. Over the interior it will remain warm to hot, becoming cooler and fair over the Southwestern regions of the Cape.

Die front wat in die omgewing van Greenwich lê sal na verwagting na die suide van die Suidwes Kaap verby beweeg. Die Natalse hoog sal vinnig deur 'n kuslaag verplaas word en die weer langs die Kaapse Suid en Suidooskus en die suidelike Natalse kus sal bewolk wees. Oor die binneland sal dit warm tot baie warm bly, oor die suidwestelike dele van Kaapland sal dit mooiweer en koeler wees.

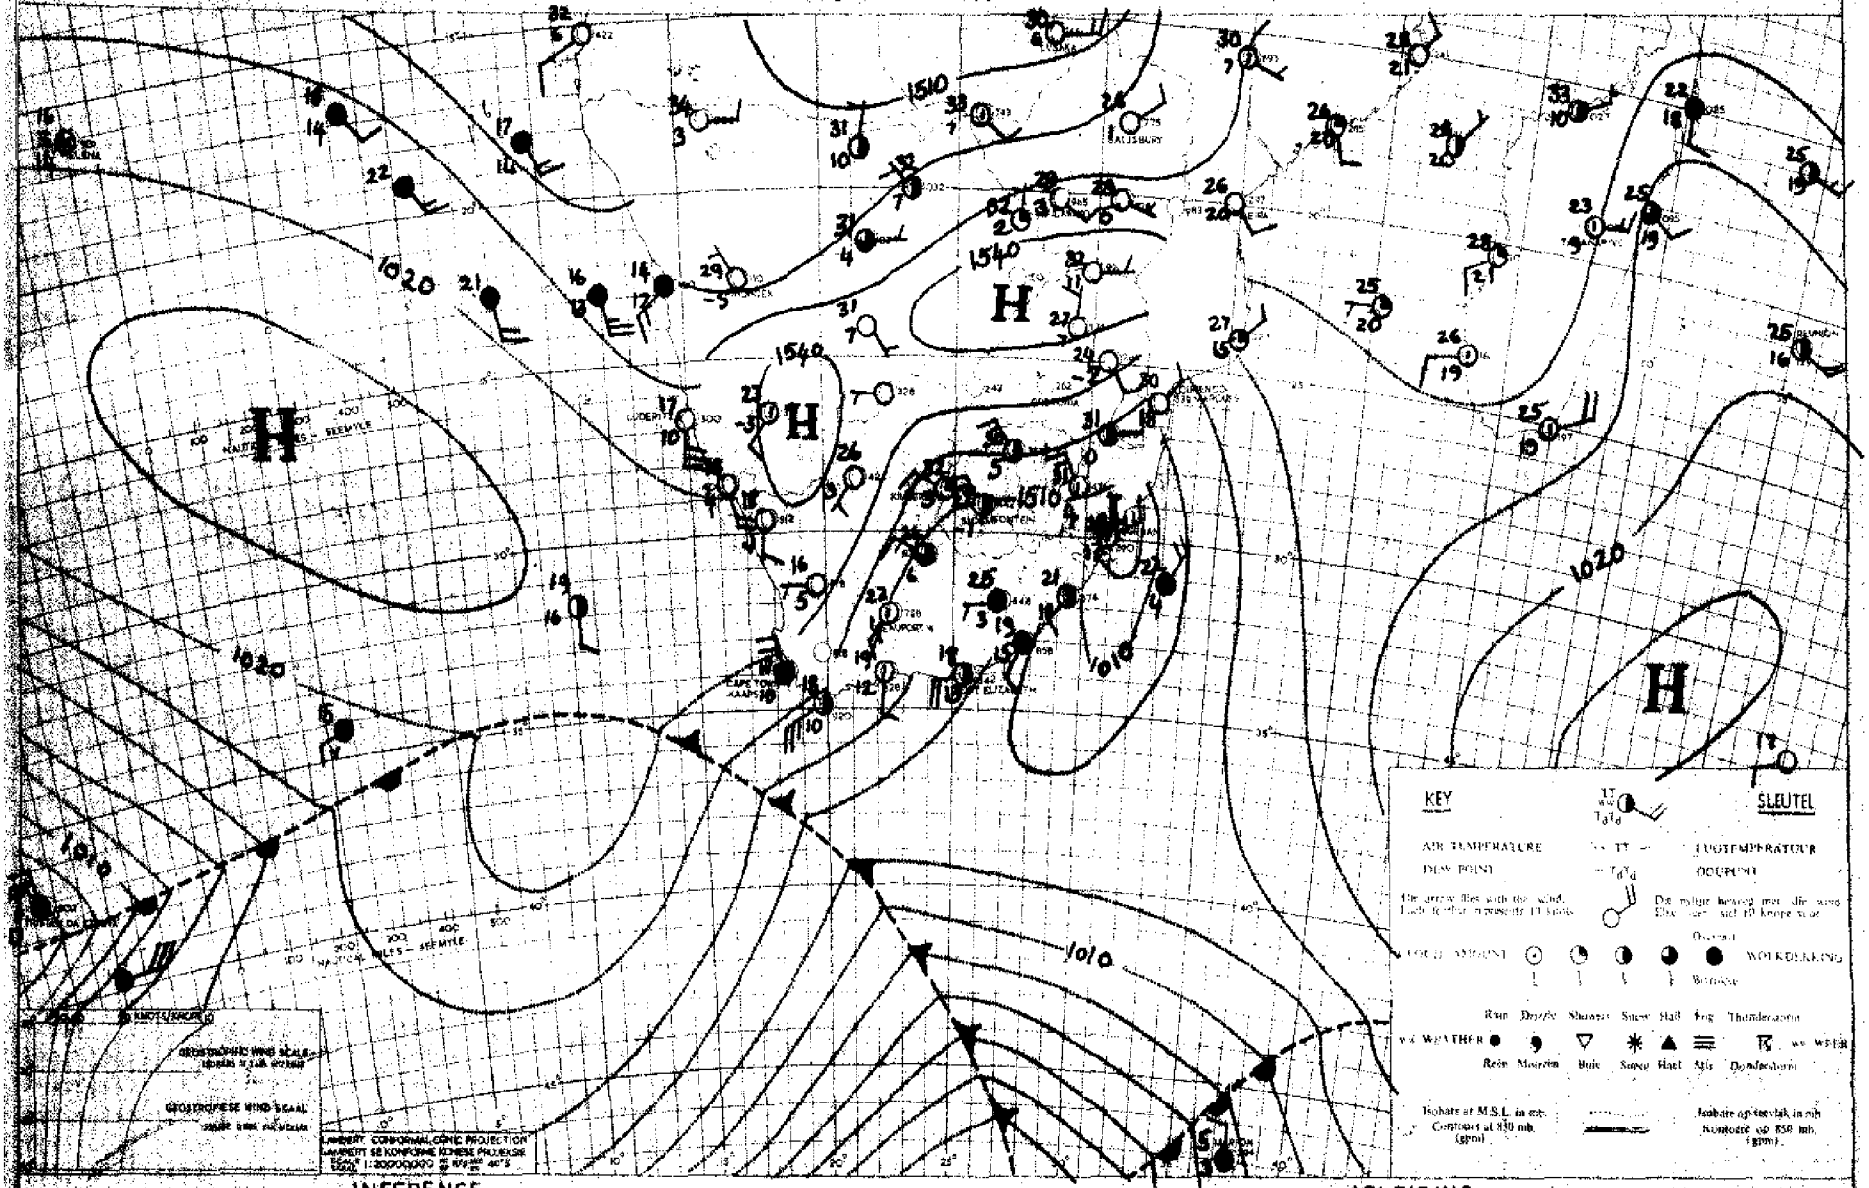
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 12-9-1961 DATUM AFLEIDING

A cold front is approaching the Cape from the south west and will reach the Cape Southwest and South coast and cooler, cloudy weather with showers will spread over these areas. The trough over South Africa will move quickly eastwards and it will be mainly fine over most parts of the interior tomorrow.

'n Koue front wat die Kaap van die suidweste nader, sal oornag die Kaapse Suidwes- en Suidkus bereik en koeler, bewolkte weer met buie sal uitbrei oor hierdie gebiede. Die trog oor Suid-Afrika sal vinnig ooswaarts beweeg en dit sal mare weer hoofsaaklik mooiweer wees oor meeste dele van die binneland.

The front southwest of the Cape is moving eastward slowly and rain will spread tomorrow over the southwestern and southern Cape coastal belt. Over the remainder of the country it will be fair and warm to hot, but a few thundersforms will develop over the northeastern parts of South Africa.

Die front suidwes van die Kaap beweeg baie stadig ooswaarts en reën sal more slegs oor die suidwestelike en die suidelike Kaapse kusstreke uitbrei. Oor die res van die land sal dit redelik mooiweer en warm tot baie warm bly, maar enkele donderstorms sal ontwikkel oor die noordoostelike dele van Suid-Afrika.

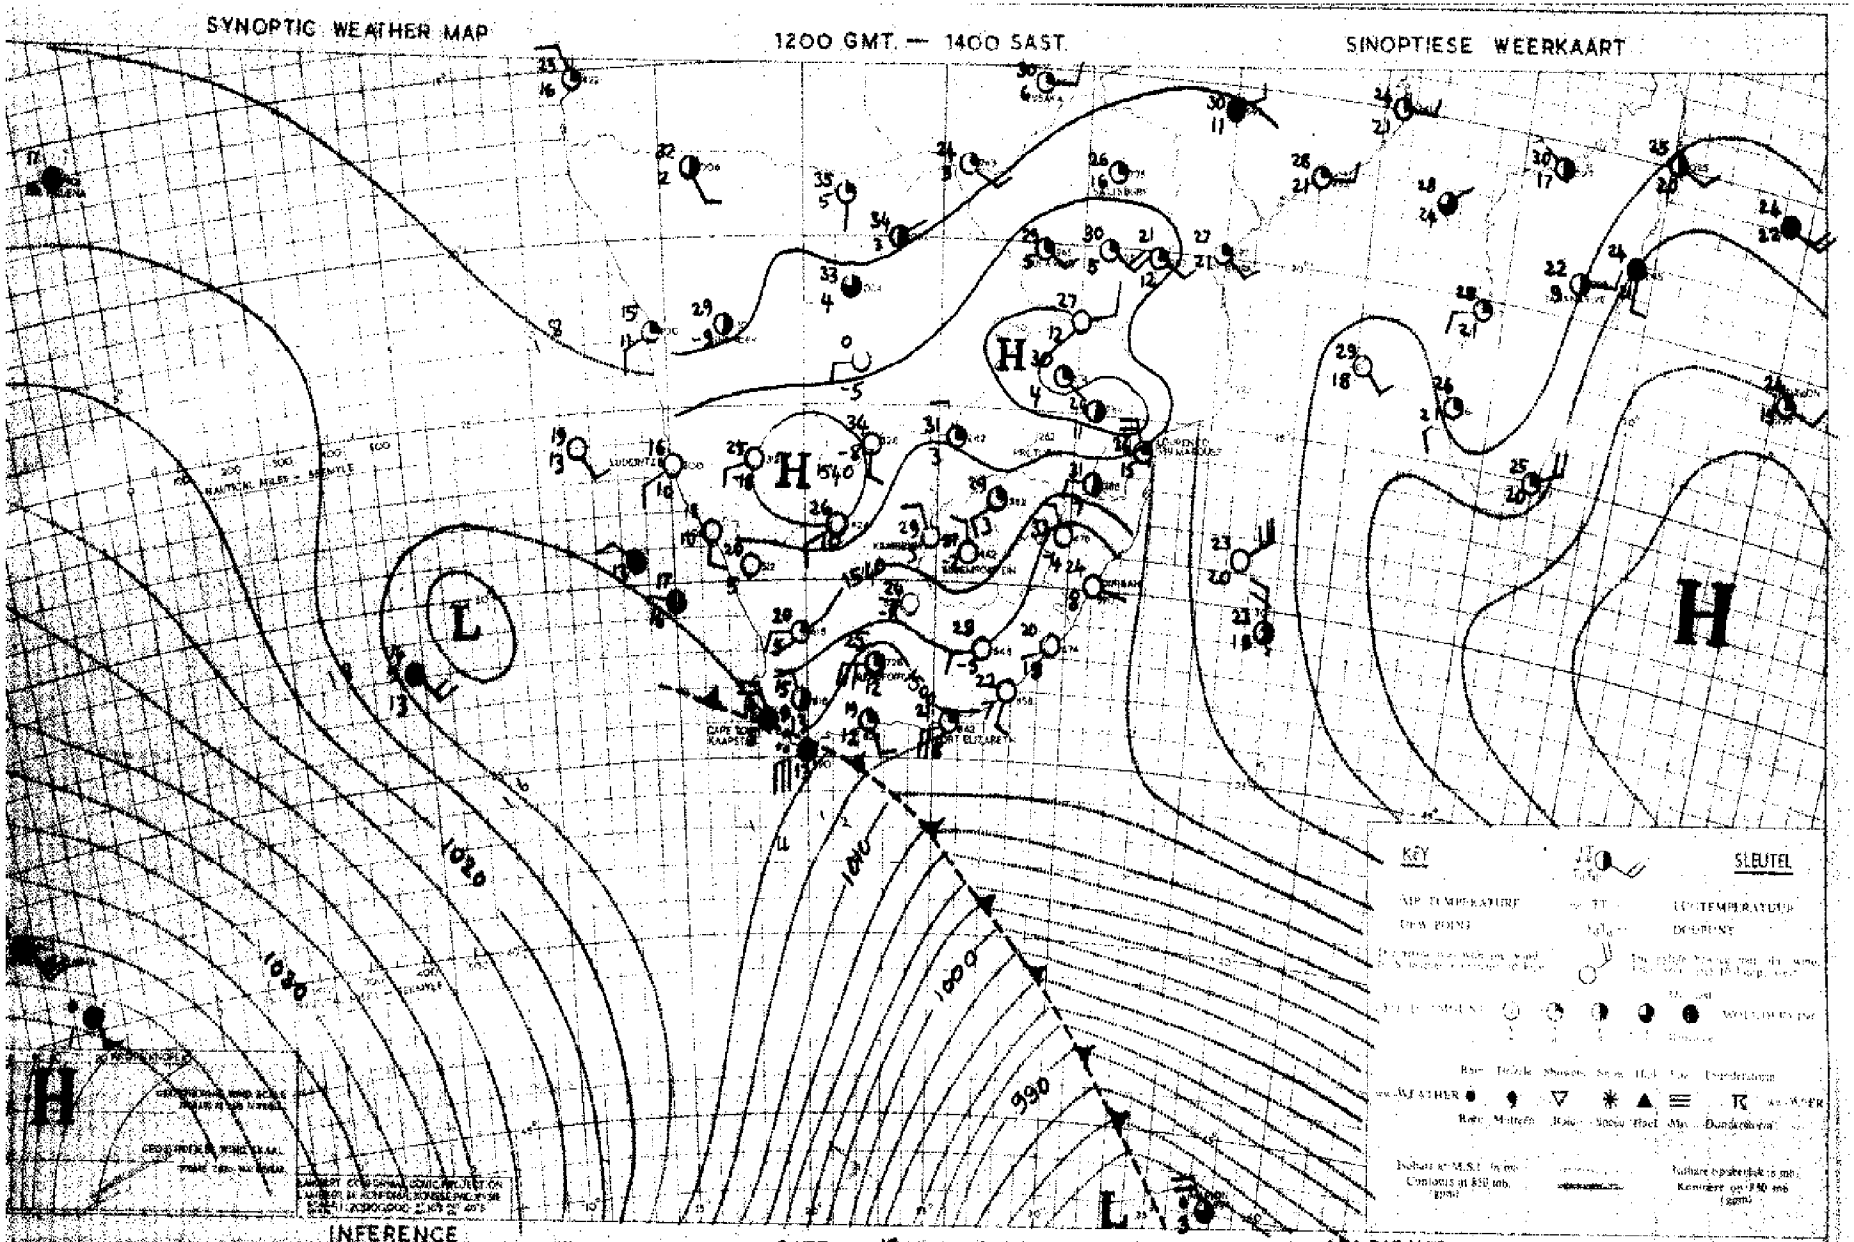
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

The inverse Gough high is moving rapidly eastwards in the rear of the frontal system which has crossed the Southwest Cape. The weather will be cloudy and cold with rain and showers over the Southern Cape. Partly cloudy over the Transvaal and Northern Bechuanaland with isolated light showers in the afternoon. Elsewhere fair or fine and warm.

DATE 15-4-1961 DATUM

AFLEIDING

Die Gough hoog beweeg vinnig ooswaarts agter die front wat oor Suidwes Kaapland lê. Die weer sal bewolk en koud wees met reën en buie oor die suidelike kaap. Oor die Transvaal en Noordelike Betsjoeanaland sal dit gedeeltelik bewolk wees met enkele ligte buie in die namiddag. Elders redelik mooiweer. Tot mooiweer en warm.

DATE 16-9-1961 DATUM

INFERENCE

The inverse high off the Southwest Cape is moving rapidly eastwards and along the Cape South and Southeast coasts, Natal coast and the eastern Transvaal it will be cloudy to overcast with rain and showers clearing later in the day over the Cape South coast. The medium cloud over Southwest Africa and the Cape north of the Orange river will move over most of the Cape. Elsewhere it will be mainly fine and warm.

AFLEIDING

Die sterk hoog in die omgewing van Suidwes Kaapland beweeg vinnig oostwaarts en langs die Kaapse Suid- en Suidooskus, Natal en die Transvaal laeveld sal dit bewolk tot betrokke weers met reen en buie maar dit sal later langs die Kaapse Suidkus opklaar. Die middelwolke wat oor Suidwes-Afrika en die Kaap noord van die Oranje rivier lê sal oor die res van Kaapland beweeg. Elders sal dit meestal mooineer en warm wees.

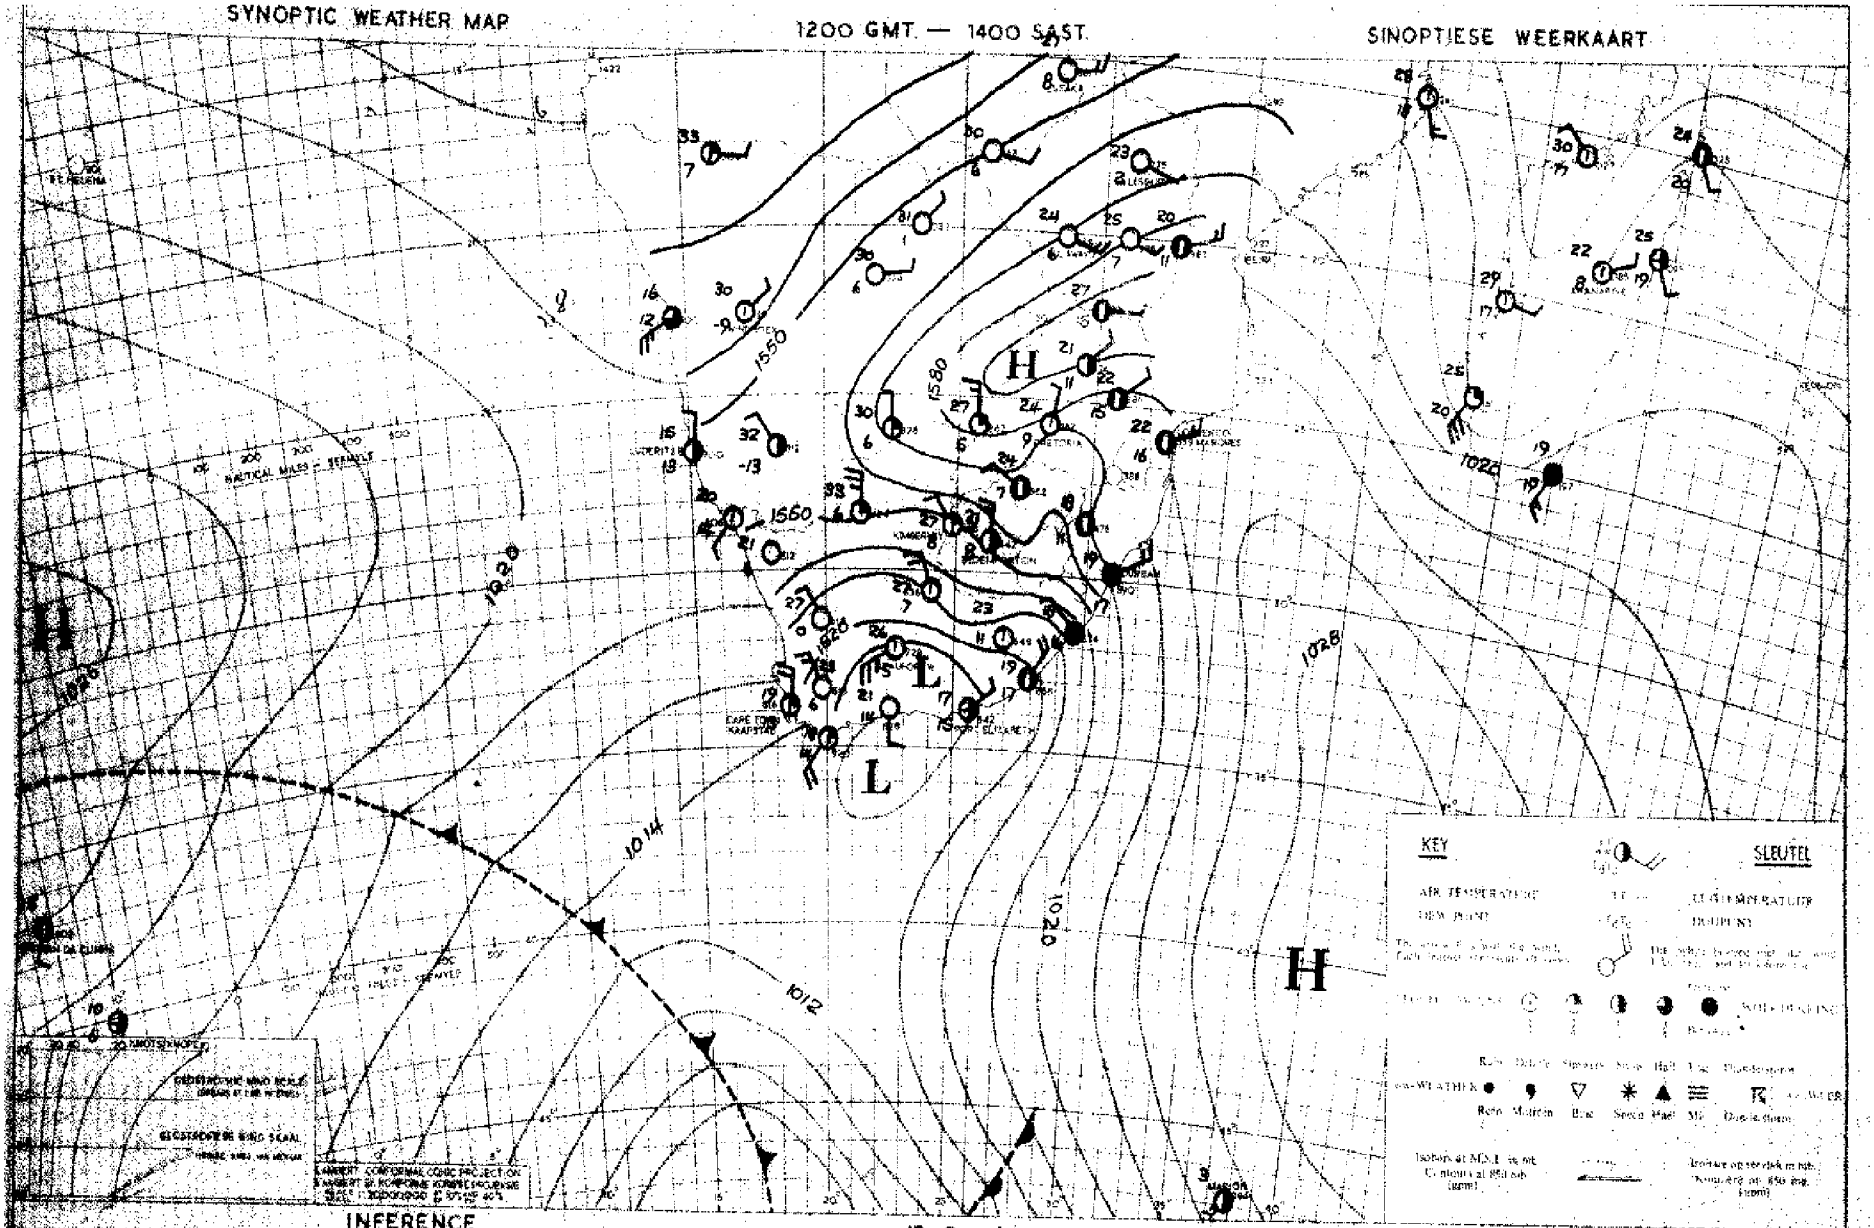
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 18-9-1961 DATUM

AFLEIDING

The clouds and rain along the south-eastern Cape coast and the Natal coast are caused by an upper-air trough. It is expected to move eastwards giving partial clearance over these areas. The approaching cold front will affect the south-western Cape tomorrow. Over the rest of the country it will be fine and warm with possible light thundershowers over the northeastern Free State.

Die bewolkte toestande oor die suidoostelike Kaapse kusgebiede en die Natalse kus word veroorsaak deur 'n boluytrog. Na verwagting sal dit ooswaarts beweeg en dit sal gedeeltelik opklaar oor hierdie gebied. Die koufront sal die weer oor die Kaapse suidwestkus mêre beïnvloed. Elders mooiweer en warm met 'n moontlikheid van donderbuie oor die Noordos-Vrystaat.

DATE 19-9-1961 DATUM

INFERENCE

The weak cold front just west of the Southwest Cape will bring partly cloudy weather with isolated light showers to the Cape South and Southeast coasts and the southern Natal coast. Over the remainder of the coastal areas it will be fair and mild and over the interior fair with isolated light showers or thundershowers in the afternoon over the southern Transvaal.

AFLEIDING

Die swak front net wes van die Suidwes Kaap sal gedeeltelik bewolkte weer met enkele los buie oor die Kaapse suid- en Suidoos-kus en die suidelike Natalkus veroorsaak. Oor die res van die kusstreke sal dit redelik mooiweer en matig wees en oor die binneland redelik mooiweer met los ligte buie oor die suidelike Transvaal in die namiddag.

DATE 19-9-1961 DATUM

AFLEIDING

The atlantic high is ridging eastwards very slowly. Fairly unstable conditions are the cause of thunderstorms over the Free State, Natal and Southern Transvaal. It will clear over the southwestern coast but cloudy conditions with showers will occur over the southeastern coastal areas.

'n Rug van die Atlantiese hoog beweeg stadig oswaarts. Onstabiele toestande veroorsaak donderstorms oor die Vrystaat, Natal en Suidelike Transvaal. Dit sal opklaar oor die suidwestelike kusstreke maar bewolkte toestande met buie sal voorkom oor die suidoostelike kusgebiede.

DATE 21-9-1961 DATUM

AFLEIDING

The high to the southwest of the Cape is moving rapidly eastwards and the low over the interior will move westwards. The weather along the Cape South and Southeast coast and the Natal coast will be cloudy with scattered showers and over the southeastern, eastern and southern areas of the interior thundershowers will develop in the afternoon. Elsewhere it will be fair and mild to warm.

Die hoog wat suidwes van die Kaap lê beweeg vinnig oostwaarts en die laag oor die binneland sal weswaarts beweeg. Die weer langs die Kaapse Suid- en Suidooskus en die Natalkus sal bewolk wees met verspreide buie en oor die suidoostelike, oostelike en suidelike dele van die binneland sal donderbuie in die namiddag voorkom. Elders redelik mooineer en matig tot warm.

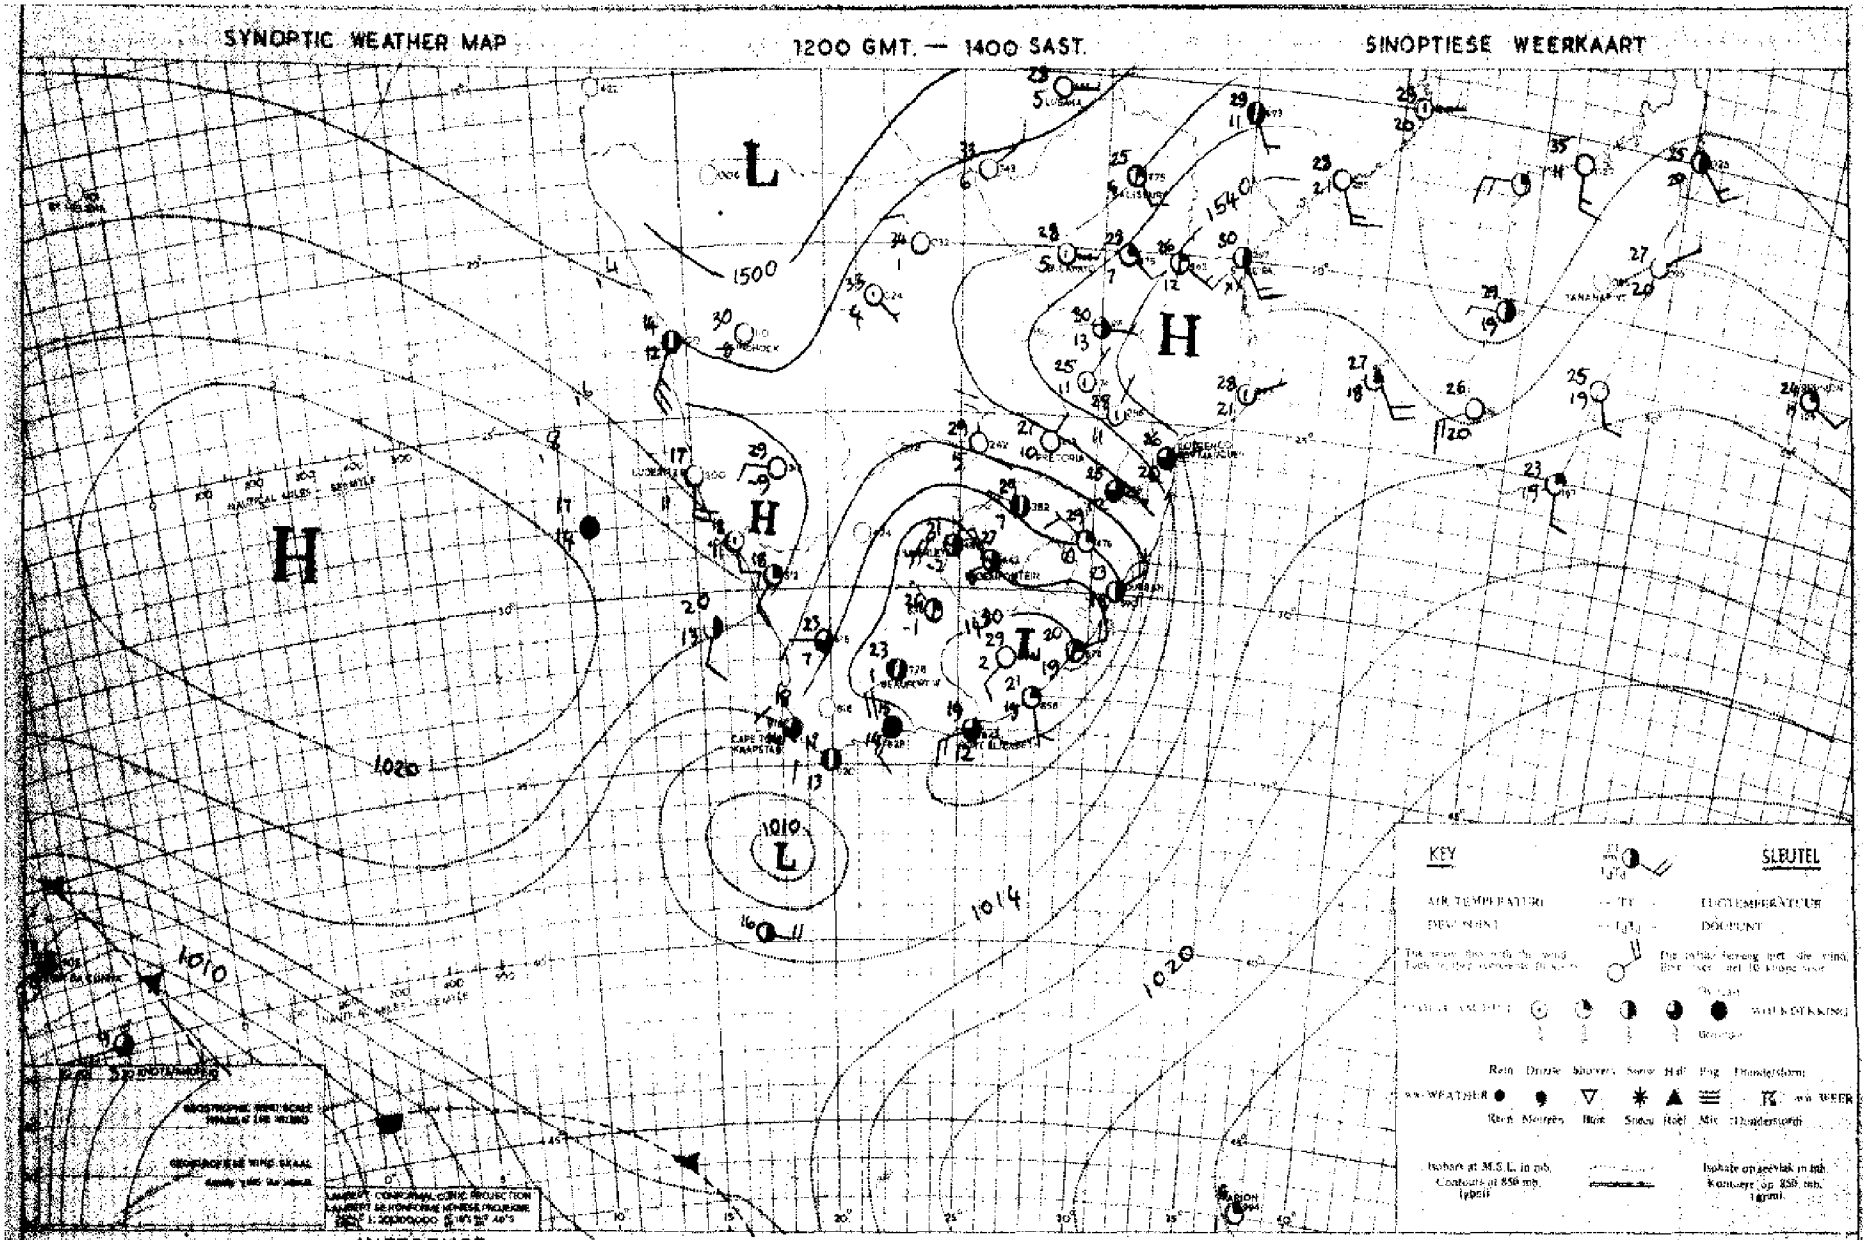
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 23-9-1961 DATUM

AFLEIDING

The Atlantic high will move eastwards in the rear of the low south of Cape Town. Along the Cape south and southeast coast it will be partly cloudy but over Natal, Free State, Northeastern Cape and Southern Transvaal partly cloudy with isolated showers or thunderstorms. Elsewhere it will be Fair or fine and mild to warm.

Die Atlantiese hoog sal ooswaarts beweeg agter die laag suid van Kaapstad. Langs die Kaapse suid-en suidooskuste sal dit gedeeltelik bewolk wees maar oor Natal, Vrystaat, Noordoos-Kaap en suidelike Transvaal gedeeltelik bewolk met los buie en donderbuie. Elders sal dit redelik mooiweer en matig tot warm wees.

INFERENCE

DATE 24-9-19 61 DATUM

AFLEIDING

The low over the Free State is coupled to a deep upper air low which is moving slowly northeastwards so that scattered thundershowers will still occur tomorrow over the eastern half of the Transvaal. The Atlantic high is ridging eastwards along the south and east coasts and cool, cloudy weather will persist over Natal.

Die laag oor die Vrystaat is verbonde aan 'n diep boklaag wat geleidelik noordooswaarts beweeg sodat verspreide donderbuie more nog oor die oostelike helfte van Transvaal sal uitsak. 'n Rug van hoë druk beweeg in oor die suidelike en oostelike kussteke sodat koel, bewolkte weer ook nog oor Natal sal voorkom.

The coastal low over the west coast is moving quickly southeastward and cloudy, cooler condition will spread over the west and southwest coasts. It will only clear gradually over the Transvaal and Natal and isolated thundersterms will develop over the northeastern half of the country.

Die kuslaag oor die weskus beweeg vinnig ooswaarts en bewolkte koeler toestande sal uitbrei oor die wes- en suidweskus en more oor die Kaapse suid- en suidooskus. Dit sal slegs geleidelik ooptrek oor Transvaal en Natal en los donderstorms sal ontwikkel oor die noordoostelike helfte van die land.

INFERENCE

DATE 26-9-1916 (DATUM)

AFLEIDING

The cold front, west of Cape Town is moving eastwards and colder, cloudy weather with showers will advance over Western and Southwestern Cape, the Cape south coast, and later tomorrow over the Eastern Cape coast and Natal. Colder air will spread over the Cape interior and S. Freestate but it will remain warm over the rest of the country.

Die koufront wes van Kaapland beweeg ooswaarts en koue bewolkte weer, met buie sal uitbrei oor westelike en suidelike Kaapland, die Kaapse suidkus en later more oor die Kaapse Ooskus en Natalkus. Kouer lug sal ook oor die Kaapse binneland en suidelike Vrystaat uitbrei, maar oor die res van die land sal dit mooiweer en warm bly.

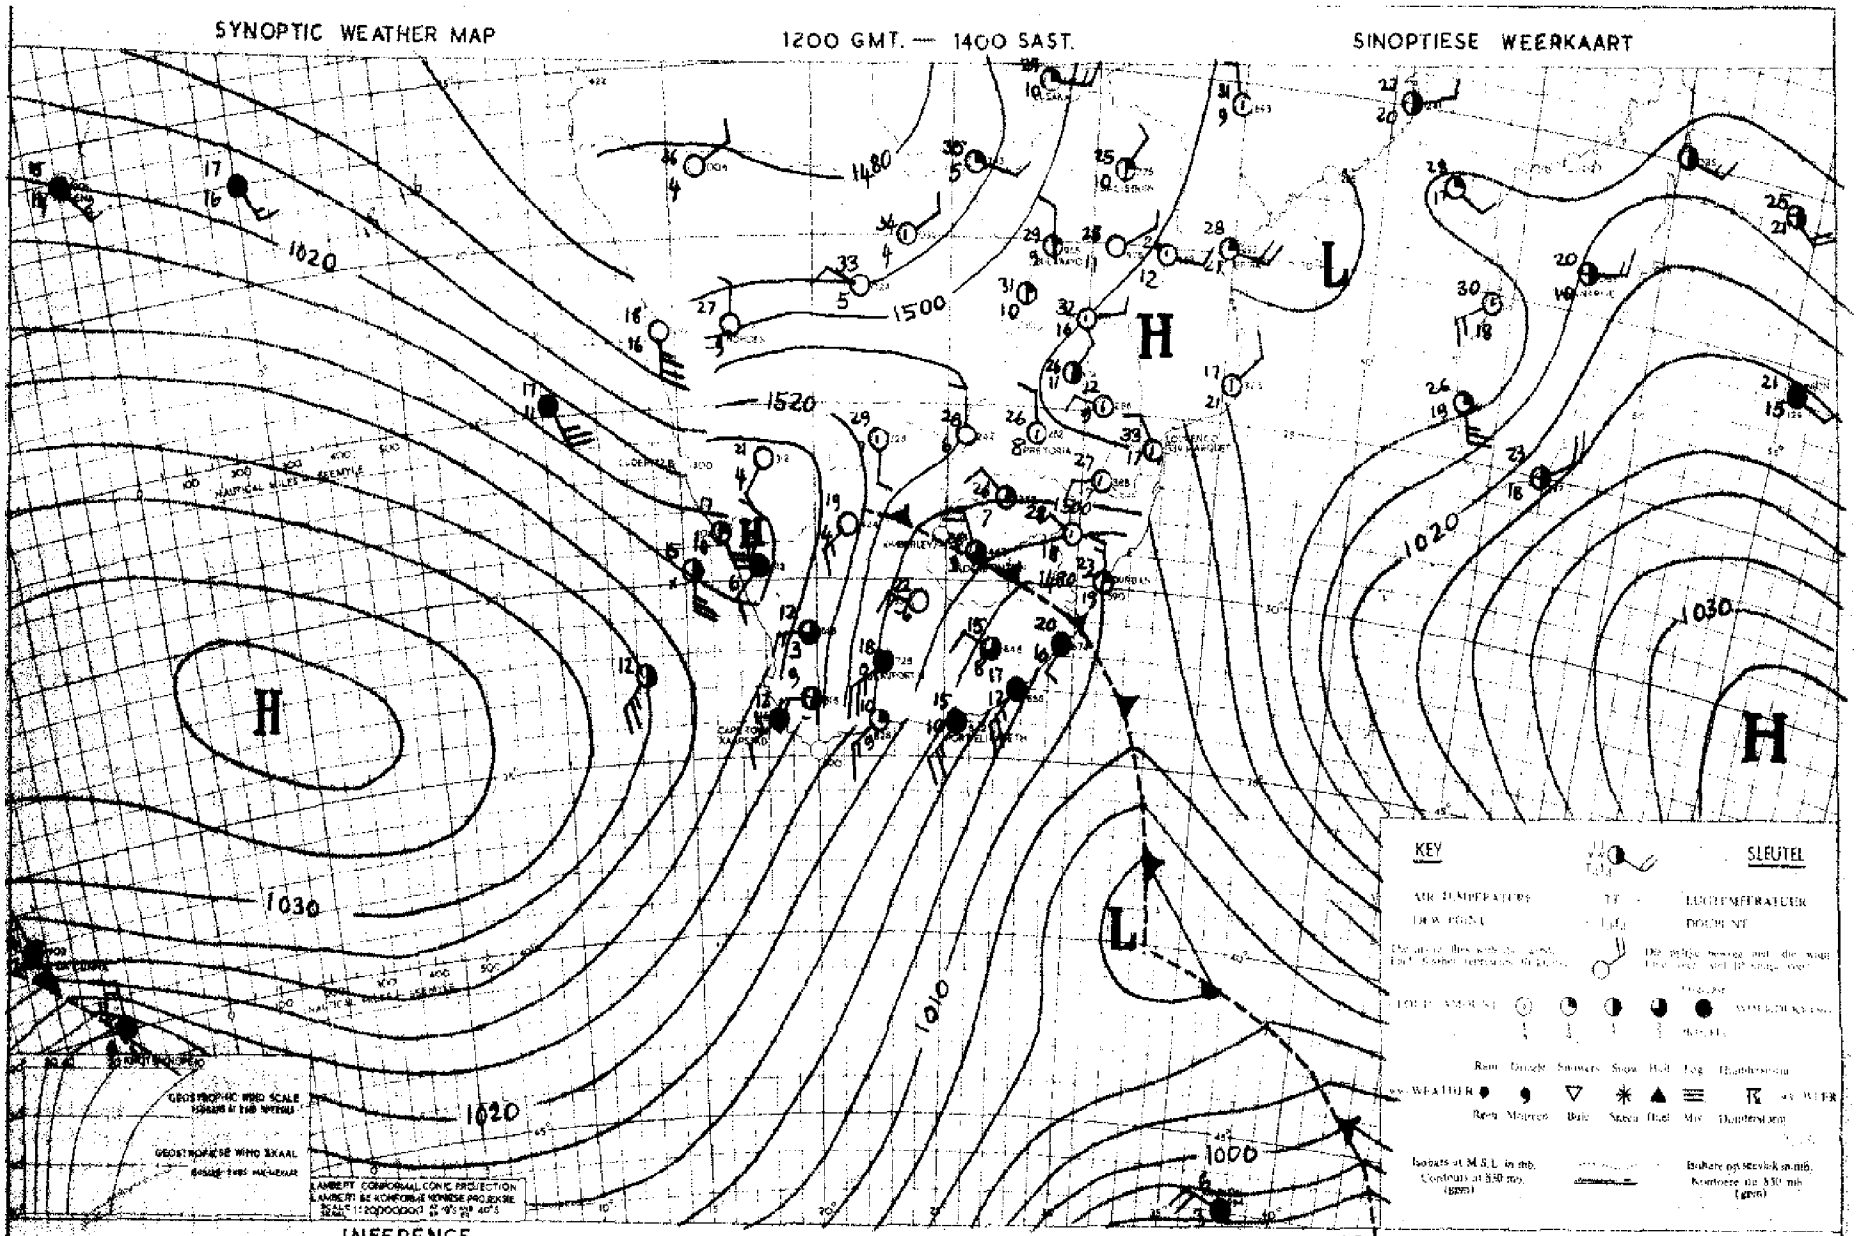
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 27-9-1961 DATUM AFLEIDING

The cold front will only move slowly northwards and it will remain warm over most parts of the Transvaal, but isolated thunderstorms are possible. It will remain cloudy and cold with showers over most parts of the coastal belt, but it will clear over the west and southwest coasts.

Die koufront sal stadig noordwaarts beweeg en dit sal warm bly oor meeste dele van die Transvaal, maar los donderbuie is moontlik. Dit sal bewolk en koud bly met buie oor meeste dele van die Kusstreke, maar dit sal opklrek oor die wes- en suidweskus.

AFLEIDING

With the ridge of high south of the Continent and the low over the Free State, it is expected that cold, cloudy conditions with rain and thundershowers will persist over Natal and spread also over most of the Transvaal and the northern Free State. Elsewhere it will clear but remain cold.

Met die rug wat suid van die land inbeweeg en die laag oor die Vrystaat sal koue, bewolkte weer met reën en donderbuie voortduur oor Natal en ook uitbrei oor die hele Transvaal en die noordelike Vrystaat. Oor die res van Suid-Afrika sal dit opklaar maar koud bly.

The low over the Southern Transvaal is moving eastwards. It will clear Eastern Transvaal over most parts of the Transvaal and Natal, but isolated showers are still possible over the Northern and Eastern Transvaal and also over Northern Natal. It will be fine over the remainder of the country and warmer over the western half of South Africa.

Die laag oor Suid-Transvaal beweeg ooswaarts. Dit sal môre ooptrek oor die meeste dele van Transvaal en Natal maar los buie is nog moontlik oor Noord-en Oos-Transvaal asook oor Noord-Natal. Dit sal mooiweer wees oor die res van die land en warmer oor die westelike helfte van die Suid-Afrika.

DATE 30-9-1961 DATUM

AFLEIDING

The cold front west of the continent is advancing eastwards and will bring cool cloudy conditions with rain over the south-western coast and later over the southern and south-eastern coasts. Over the rest of the country it will be fair with anticyclonic circulation.

Die koue Front wes van die vasteland beweeg oostwaarts en sal koel, bewolkte weer met reën veroorsaak oor die suidwestelike kusgebied en later oor die suidelike en oostelike kusstreke. Oor die res van die land sal dit mooiweer bly met antisikloniese sirkulasie.

INFERENCE

With the high over the northern parts of the country it will be mainly fine and warm. A cold front over the Cape South coast is moving eastwards and cloudy, cooler weather with local rain will spread over the southeast coast and tomorrow also over the Natal coastal areas and the adjacent enterior.

DATE 1 - 10 - 1961 DATUM

AFLEIDING

Met die hoog oor die noordelike dele van die land sal dit hoofsaaklik mooiweer en warm bly. 'n Koue front oor die Kaapse suidkus beweeg ooswaarts en bewolkte, koeler toestande met reën op plekke sal uitbrei oor die suid-ooskus en mâre ook oor die Natalse kusgebiede en die aangrensende binneland.

The Atlantic high is ridging south-eastwards and the weather over the southwestern and the southern Cape coasts should clear from the west. Cloudy conditions with rain will persist over the south-eastern coastal regions. Elsewhere over the country it will be mainly fine and warm, but cooler over the Cape Province and Free State.

Die atlantiese hoog beweeg suid-ooswaarts en dit sal langs die suidwestelike en suidelike Kaapse kuslstreke opklaar vanuit die weste. Dit sal bewolk bly met reën oor die suidoostelike kusgebiede. Elders sal dit hoofsaaklik mooiweer en warm wees maar koeler sal oor die Kaapprovinsie en die Vrystaat beweeg.

INFERENCE

DATE 3 - 10 - 1961 DATUM

AFLEIDING

The pressure is rising quickly over the southeastern coast. It will clear gradually over the Cape South and southeastern coast tomorrow and it will become cloudy and cooler over Northern Natal and the eastern Transvaal. Elsewhere mainly fine, but also cooler over the northern parts of South-Africa.

Drukke styg vinnig oor die suid-oskus. Dit sal märe geleidelik opklrek oor die suidelike en suidoostelike Kaapse kusgebiede, maar dit sal bewolk en koeler word oor Noord-Natal en Oos-Transvaal. Elders hoofsaaklik mooiweer maar ook koeler oor die noordelike dele van Suid-Afrika.

The low over the northeastern part of the interior is filling up and moving eastwards. The Indian ocean low is also moving eastwards slowly and pressures are rising along the Southeast coast. Over these coastal regions and over Natal and the Transvaal lowveld it will be cloudy and mild. It will be partly cloudy, clearing later, over the south coast. Over the rest of the country it will be and cool.

Die laag oor die noordoostelike dele van die binneland verswak en beweeg oostwaarts. Die Indiese oseaan laag beweeg ook stadig oostwaarts en drukke styg langs die suidooskus. Dit sal oor hierdie kuststreke en die Transvaalse laeveld en Natal bewolk en matig wees. Gedeeltelik bewolkte toestande sal voorkom oor die suidkus maar sal later opklaar. Oor die res van die land sal dit mooiweer en koel wees.

INFERENCE

DATE 5 — 10 1961 DATUM

AFLEIDING

The high over the Natal coast is moving northwards and it will clear rapidly over the Eastern Transvaal. The pressure is falling over the Western Cape and it will become warmer over the country, but cloudy and cooler conditions will spread over the west coast.

Die hoog oor die Natalse kuslyndte beweeg noordwaarts en dit sal vinnig opklrek oor Oos-Transvaal. Drukke daal oor Wes-Kaapland en dit sal warmer word oor die land, maar bewolkte en koeler toestande sal uitbrei oor die weskus.

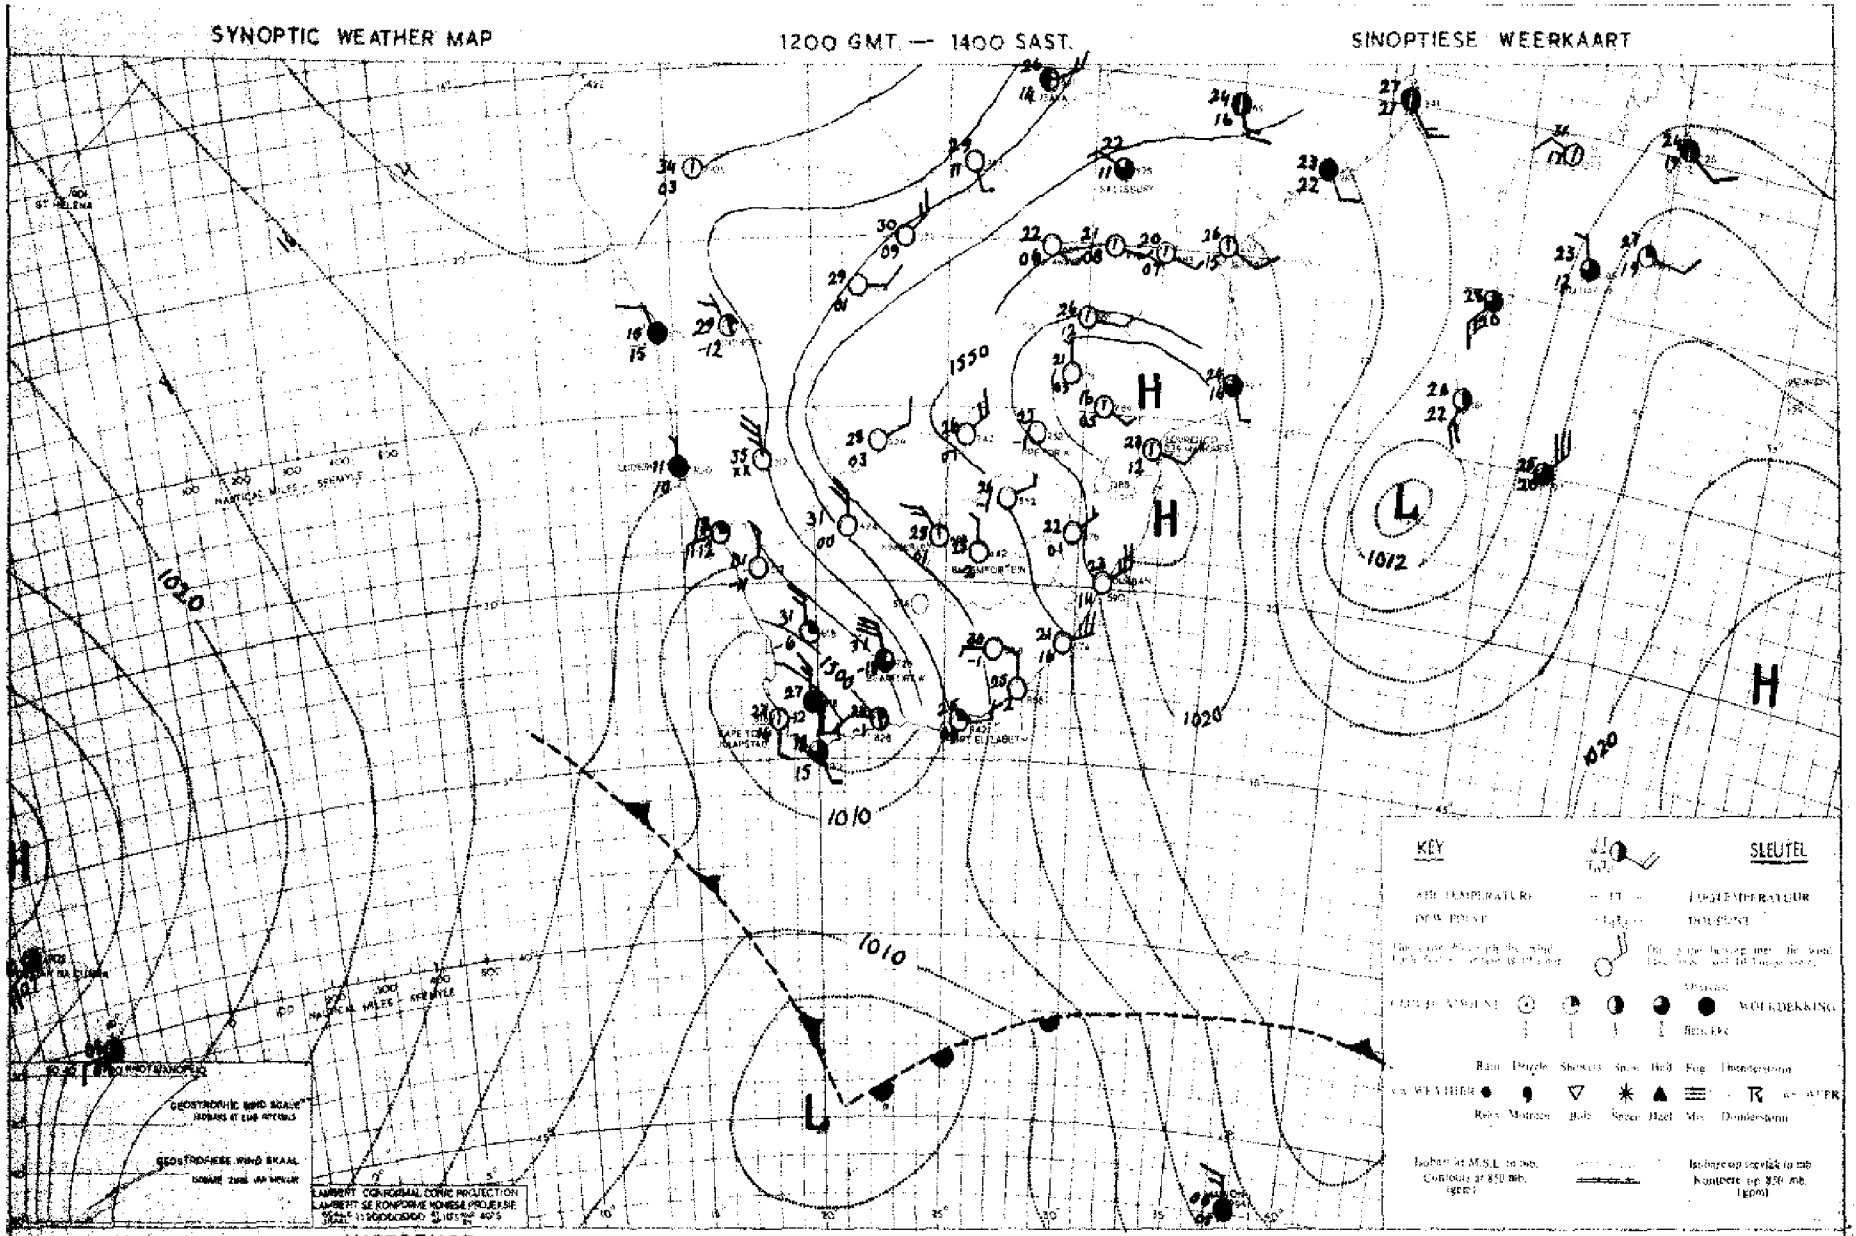
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 6-10-1961 DATUM — AFLEIDING

The coastal low over the South-west Cape is moving eastwards rapidly. The cold front system south-west of the Cape is not expected to have much effect on these coastal areas. It will be cloudy along the south-western and southern Cape coast with a possibility of light local drizzle. Over the remainder of the country it will be mainly fine and warm.

Die kuslaag langs die suidwes Kaapse kus beweeg vinnig ooswaarts. Dit word nie verwag dat die koufront suidwes van die Kaap hierdie kusstreke veel sal beinvloed nie. Dit sal bewolk wees met 'n moontlikheid van ligte plaaslike motreen langs die suidwestelike en suidelike Kaapse kusstreke. Elders oor die land sal dit hoofsaaklik mooiweer en warm wees.

INFERENCE

DATE 7 — 10 — 1961 DATUM

AFLEIDING

The cold front lying across the Southwest Cape will bring a sharp drop in temperature to the whole of the Cape and southern Freestate and cloudy showery weather to the Cape southeast coast. Elsewhere fine and warm.

Die koue front wat oor suidwes Kaapland lê sal temperature skerp laat daal oor die hele Kaapland en die suidelike Vrystaat. Langs die Kaap Suidoos-kus sal dit bewolk en buierig wees. Elders mooi-weer en warm.

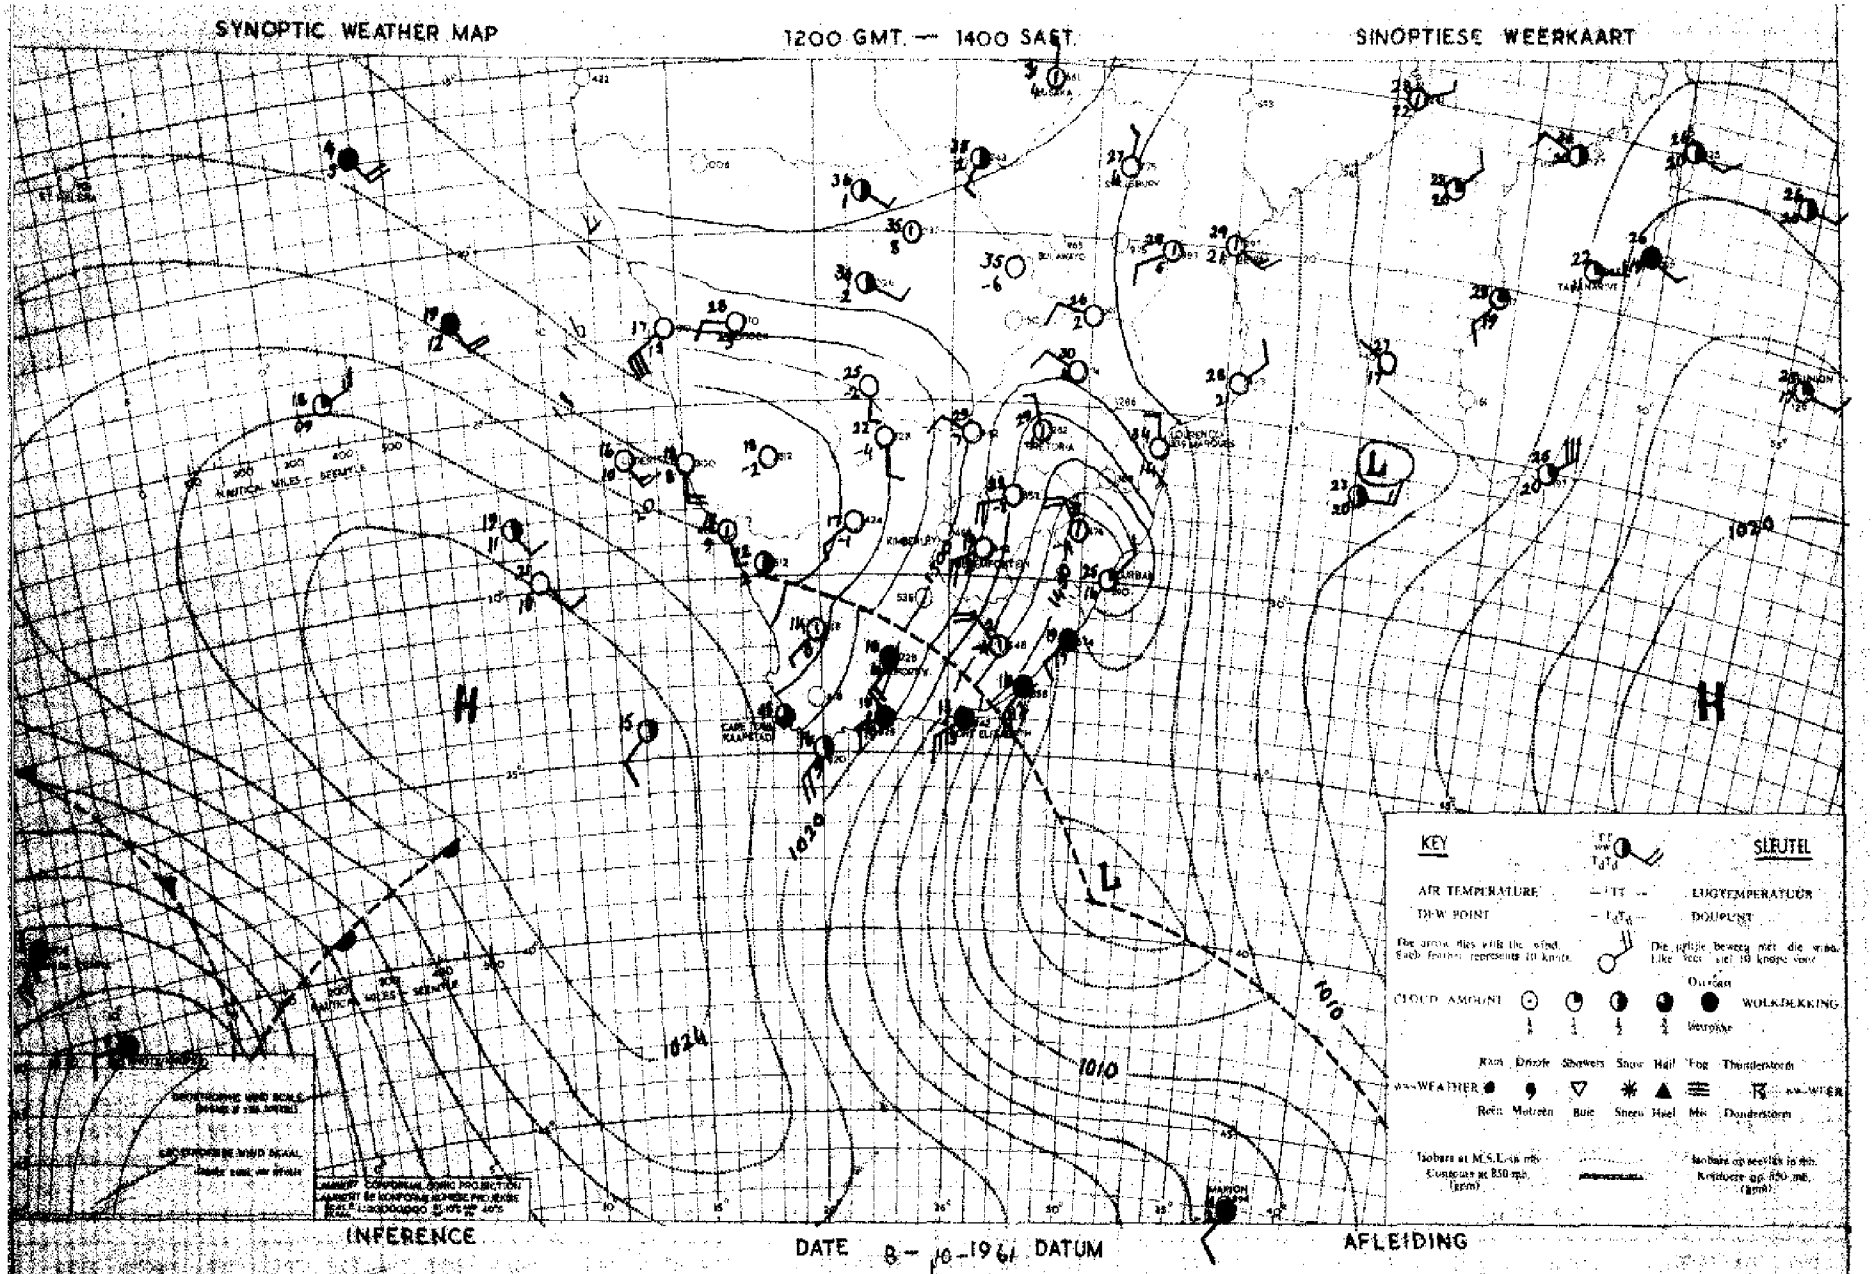
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 8 - 10 - 1961 DATUM AFLEIDING

Pressure will rise rapidly over the southern regions of the country and the weather will be fair or fine, but day temperatures will be below average over most of the country.

Drukte sal skerp styg oor die suidelike dele van die land, en die weer sal redelik mooiweer tot mooiweer wees, maar dagtemperatuur sal heelwat onder normaal wees oor meeste dele van die land.

SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART

INFERENCE — DATE 10-10-1961 DATUM — AFLEIDING

The weak front approaching the South-west Cape is moving south-eastwards and will give temporary cloudy weather with light drizzle over the southern Peninsula and the Cape Southcoast. Elsewhere over the country mainly fine and warm.

Die swak front wat die Suidwes Kaapland nader vanuit die weste beweeg suidooswaarts en die weer sal tydelik bewolk word met ligte motreen oor die suidelike Skiereiland en die Kaapse Suidkus. Elders meestal mooiweer en warm.

INFERENCE

Cooler air from the west will spread over most of the Cape Province and the southern Free State but over the rest of the country it will remain warm to hot with a possibility of light thundershowers over the south-western half of Transvaal and eastern Bechuanaland.

DATE 11-10-1961 DATUM

AFLEIDING

Koeler lug van die weste sal uitbrei oor meeste dele van Kaapland en die suidelike Vrystaat, maar oor die res van die land sal dit warm bly met 'n moontlikheid van las donderbuie oor die suidwestelike helfte van Transvaal en oostelike Betsjoeanaland.

INFERENCE

The Tristan high is stationary and pressures are falling to the south of the Cape. It will be cloudy with occasional rain and showers along the Cape south and southeast coasts and over Natal. Isolated thundershowers are expected in the afternoon over the Free State, Bechuanaland, northern S.W.A. Natal, Transvaal and the northern areas of the Cape midlands. Elsewhere fair and mild to warm.

DATE 12-10-1961. DATUM

AFLEIDING

Die Tristan hoog is stasionêr en die druk is besig om te val suid van die Kaap. Dit sal bewolk wees met reën en buie af en toe oor die Kaapse suid- en suid-oos kus en oor Natal. Los donderbuie sal in die namiddag uitsak oor die Vrystaat, Betsjoeanaland, noordelike S.W.A., Natal, Transvaal en die noordelike dele van die Kaapse middellande. Elders redelik mooiweer en matig tot warm.

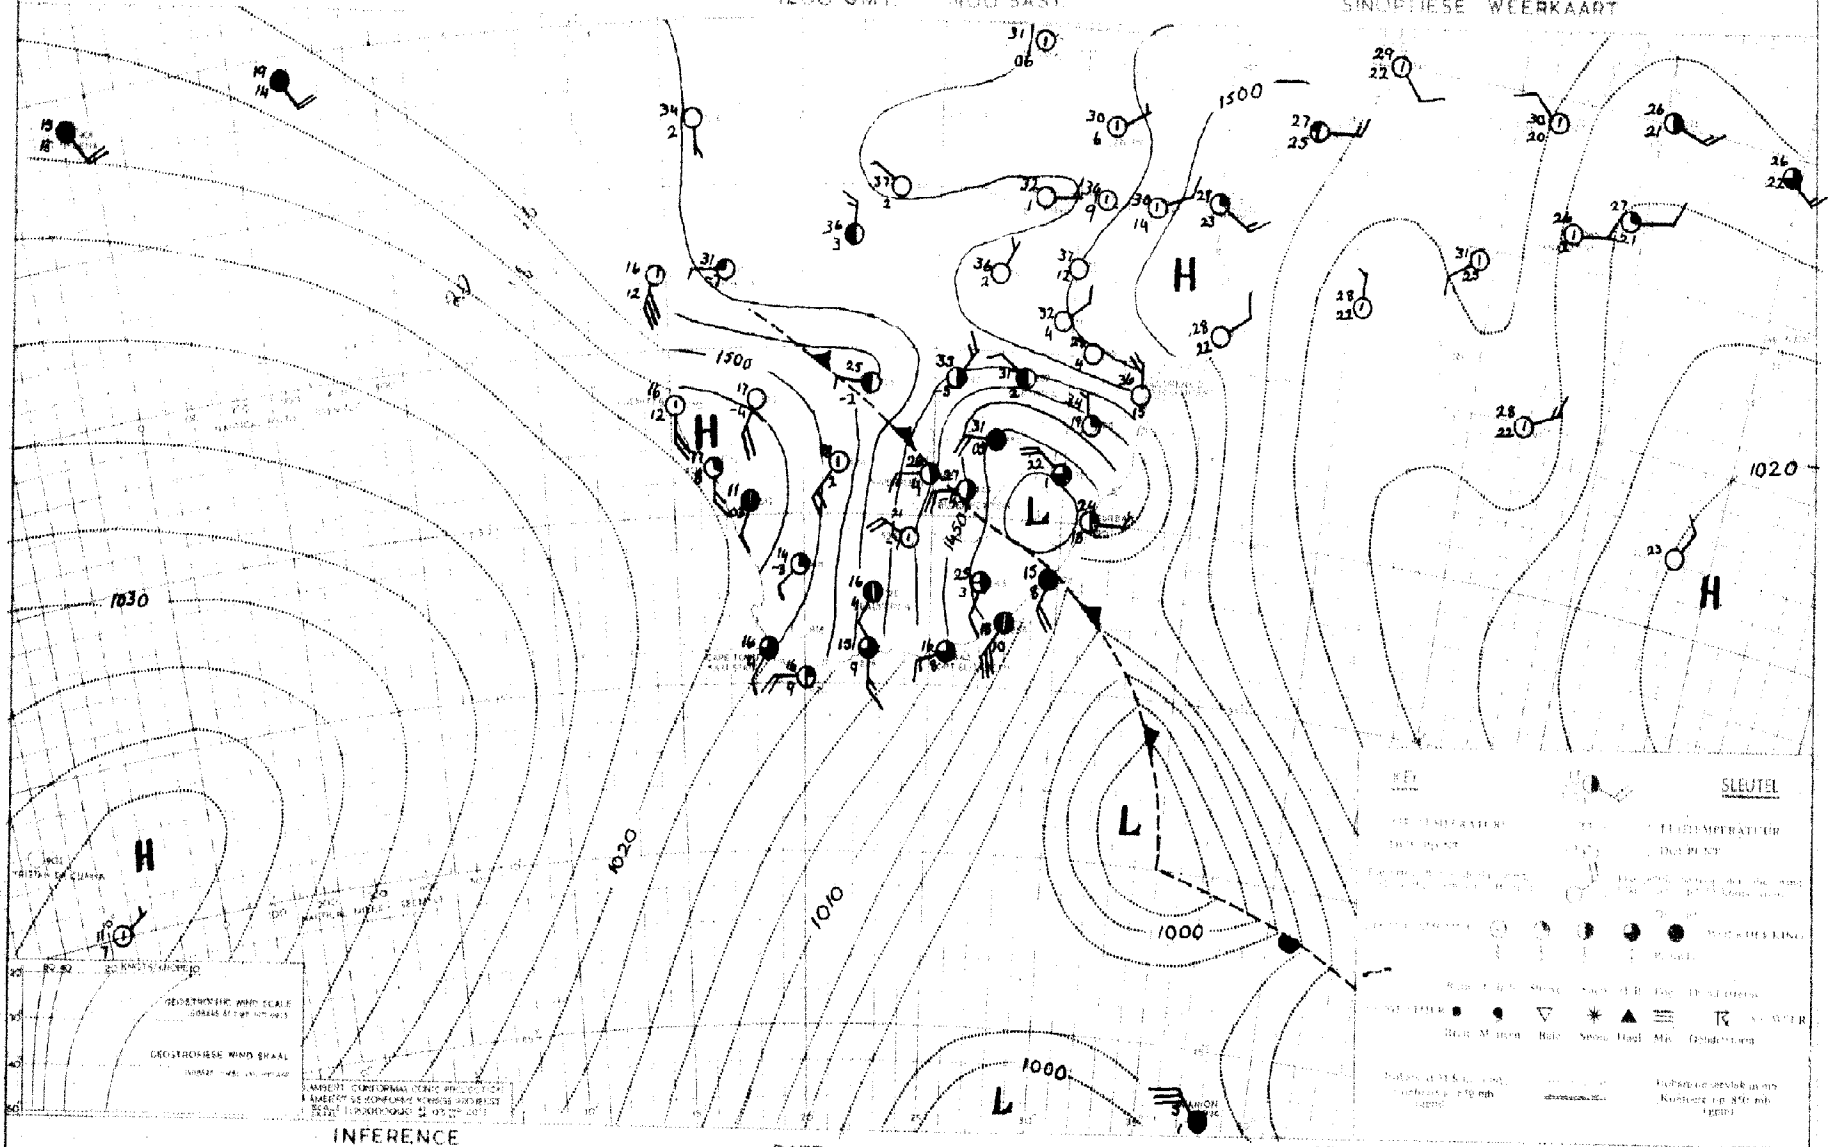
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE

The cold air will advance further eastwards over the country but it will remain warm with local thunderstorms over most of Transvaal, northern Natal and northern Bechuanaland. Partly cloudy conditions with light showers will occur over the southern and eastern coastal regions.

DATE 13-10-1961. DATUM

AFLEIDING

Die koue lug sal verder ooswaarts uitbrei oor die land maar dit sal nog warm bly met los donderstorms oor meeste dele van Transvaal, Noord-Natal en noordelike Betsjoeanaland. Gedeeltelik bewolkte weer met ligte buie sal oor die suidelike en oostelike kusstreke voorkom.

INFERENCE

DATE 14 - 10 - 1961 DATUM

AFLEIDING

With the deep low in the Marion area and the wedge of high pressure pushing in over the northern Cape, expect cold, showery weather along the Cape south and southeast coasts and towards evening along the Natal coastal belt. Elsewhere it will be mainly fine with day temperatures below normal except over the northern areas of S.W.A. and Bechuanaland where it will be partly cloudy and warm.

Met die diep laag in die Marion-gebied en die wig van hoë druk wat instoot oor Noord-Kaapland, verwag koue buierige weer langs die Kaapse suid- en suid-oskus en teen aand se kant langs die Natalse kusstreek. Elders mooiweer met die dag temperature onder normaal behalwe oor die noordelike dele van S.W.A. en Betsjoeanaland waar dit gedeeltelik bewolk en warm sal wees.

DATE 15-10-1961. DATUM
AFLEIDING
Pressure is rising steeply along the southcoast and cloudy weather with showers will spread over Natal and the eastern Transvaal during the night, but over the southwestern and southern coastal regions it will start clearing. Over the remainder of the country it will be fine.
Lugdruk styg nou baie vinnig oor die suidkus en bewolkte weer met reënbuie sal oor Natal en die oostelike gedeelte van Transvaal uitbrei maar oor die suidwestelike en suidelike kuisstreke sal dit begin opklaar. Oor die res van die land dit mooineer bly.

INFERENCE

DATE 17-10-1961

The low west of the continent is now advancing southwards and cooler, cloudy weather will spread over the western and southwestern parts of the Cape Province where rain is possible. Warm, moister air will advance southwards over South-West-Africa and the western Cape interior and isolated thunderstorms will occur there.

AFLEIDING

DATUM

Die laag wes van die vasteland beweeg nou vinnig suidwaarts en koeler, bewolkte weer sal uitbrei oor die westelike en suidwestelike dele van Kaapland waar reën moontlik is. Warm, vogtiger lug sal suidwaarts beweeg oor Suid-Wes-Afrika en die westelike Kaapse binneland en los donderbuie sal daar uitsak.

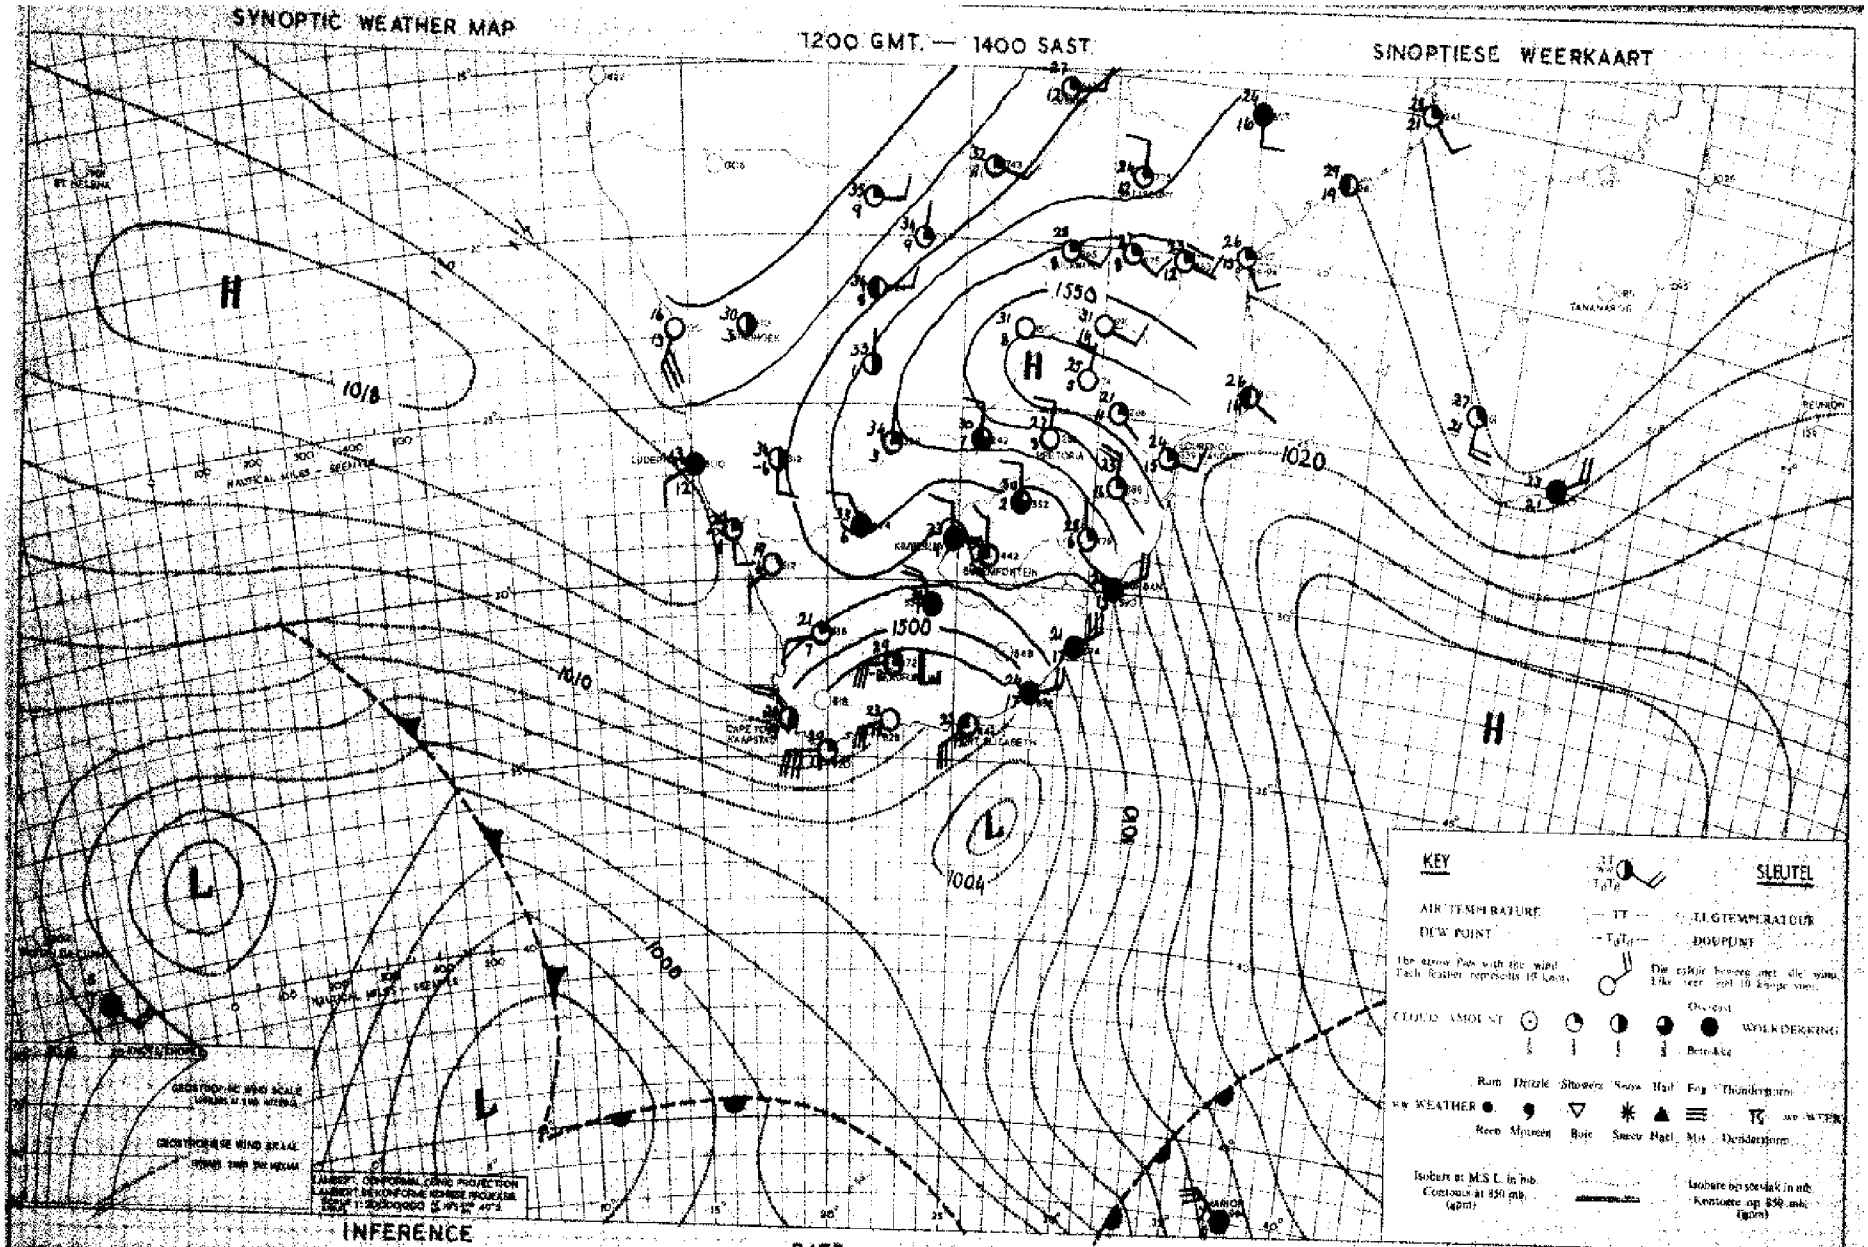
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST

SINOPTIESE WEERKAART



INFERENCE

DATE 18-10-1964 DATUM

AFLEIDING

The low off the South coast is moving south-eastwards and an Atlantic trough is approaching the South-western Cape. It is expected that it will be fine along the South-eastern coast but cloudy conditions with showers will occur along the South-western coastal regions. Over the interior it will be mainly fine and warm with possible thundershowers over South West Africa.

Die lag sind van die land beweeg suidoostwaarts en 'n Atlantiese laagdrukstelsel nader die Suidwes Kaap. Na verwagting sal dit mooiweer wees langs die suidoostelike kusstreke maar bewolkte toestande met buie sal oor die suidwestelike kus voorkom. Oor die binneland sal dit hoofsaaklik mooiweer wees maar donderstorms is moontlik oor Suidwes-Afrika.

INFERENCE

DATE 19-10-19 61. DATUM

AFLEIDING

The high at Gough Island is advancing eastwards and it will ridge in south of the continent so that cloudy wheather with showers will spread over the southern and eastern coastal regions. Over the interior it will be hot and some convective thundershowers will occur.

Die hoog by Gough beweeg oeswaarts en sal suid van die vasteland in beweeg sodat bewolkte weer met buie oor die suidelike en oostelike kusstreke sal uitbrei. Oor die binneland sal dit baie warm wees en enkele konveksiedonderstorms sal voorkom.

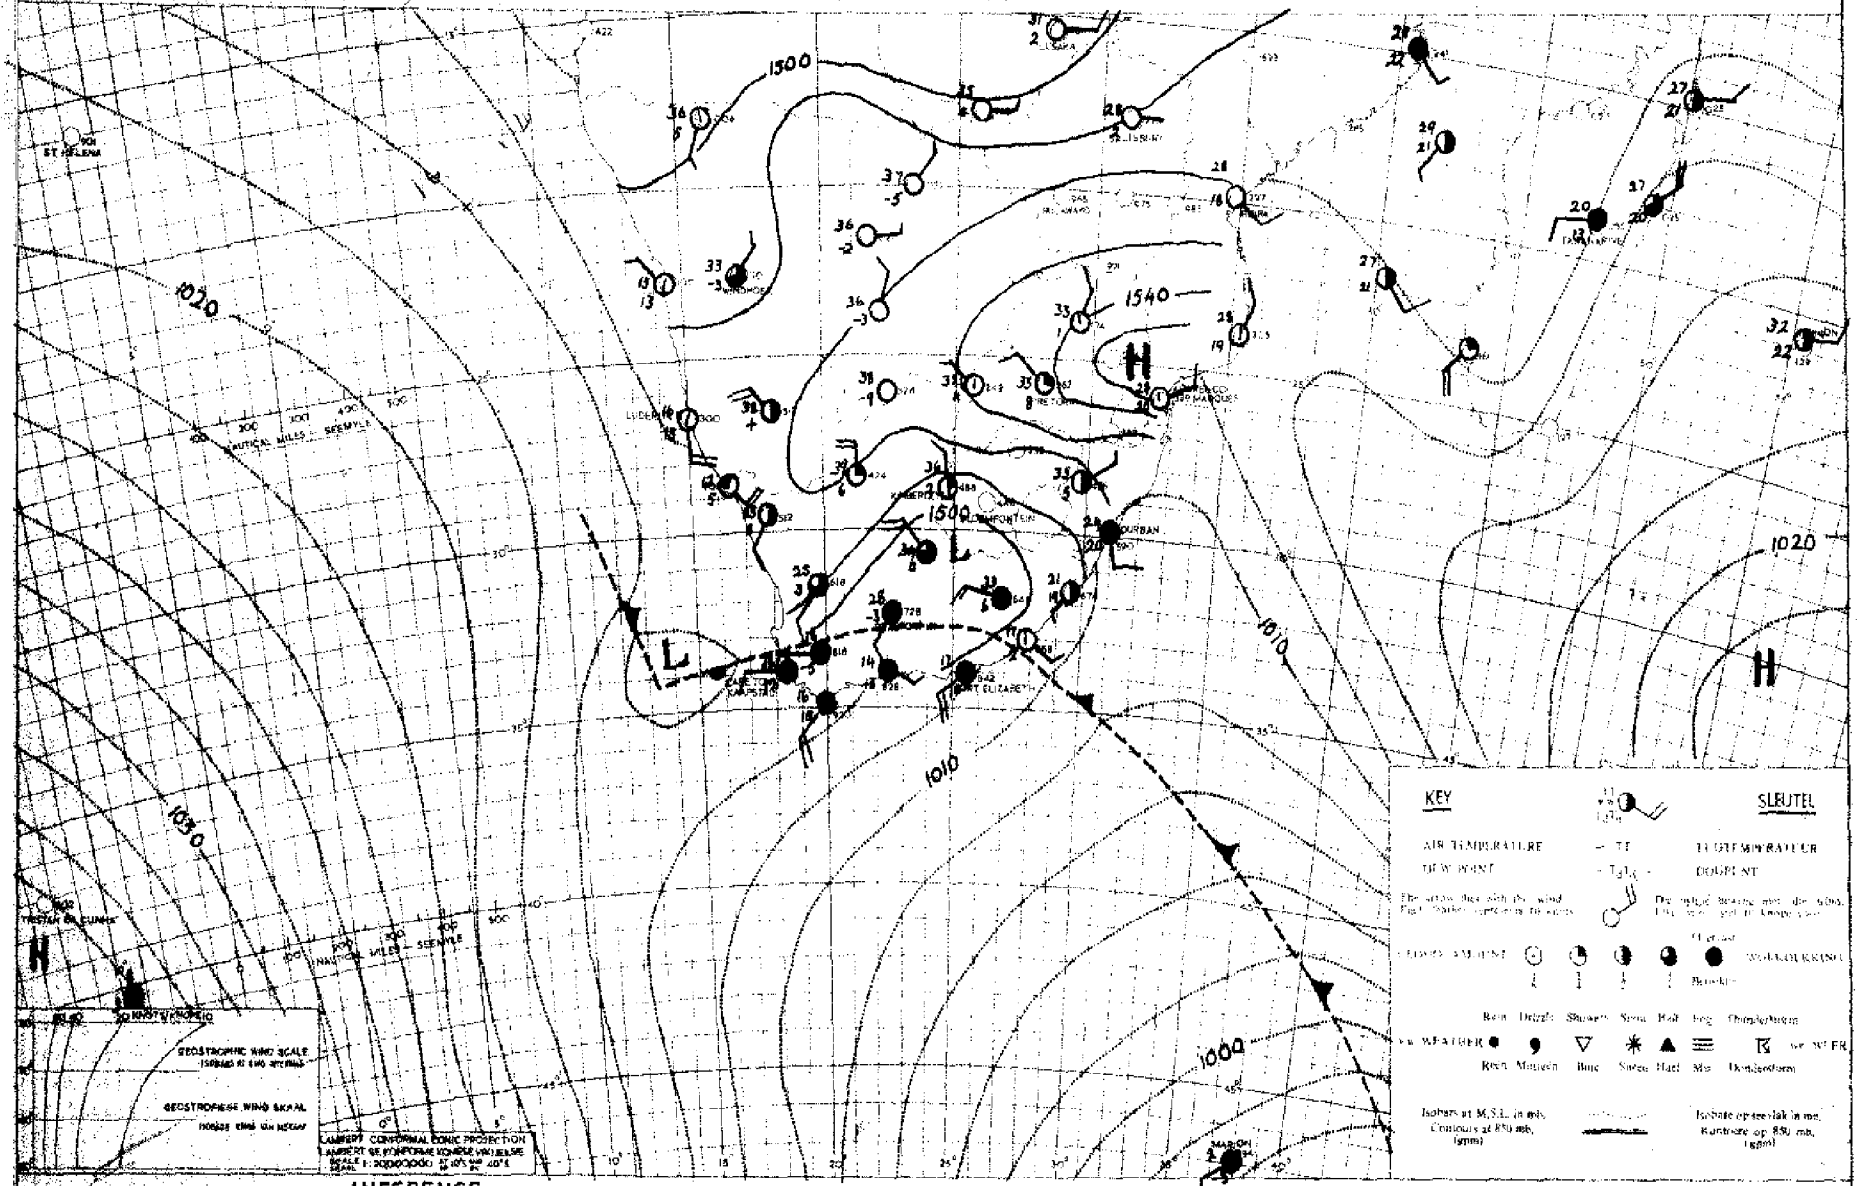
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

A high pressure is moving eastwards behind the cold front and cloudy, cool conditions with showers along the Cape coastal regions will spread over the Natal coast. Cooler air will move over the southern parts of the country and light isolated thundershowers are possible over the central and eastern parts of the interior. Elsewhere fine and warm.

DATE 20-10-1961 DATUM

AFLEIDING

'n Rug beweeg stadig oostwaarts agter die koue front en koel, bewolkte toestande met buie langs die Kaapse kusstreke sal uitbrei oor die Natalse kus. Koeler lug sal oor die suidelike dele van die land inbeweeg en enkele ligte donderbuie is moontlik oor die sentrale en oostelike dele van die binneland. Elders mooiweer en warm.

INFERENCE

DATE 21-10-1961. DATUM

AFLEIDING

Cooler, cloudy weather with rain or showers is spreading over the southern and southeastern Cape coastal belt and the adjacent interior and will spread tomorrow over the Natal coastal areas and the Eastern Transvaal. Over the remainder of the country it will be fair and hot.

Koeler, bewolkte weer met reën of buie brei uit oor die Suidelike en Suidoostelike Kaapse kuistreke en die aangrensende binneland en môre ook oor die Natalse kusgebiede en Oos-Transvaal. Oor die res van die land sal dit redelik mooiweer en baie warm bly.

INFERENCE

DATE 22-10-1961 DATUM

AFLEIDING

A low has formed over the Southern Cape and is moving eastwards. It will remain cloudy and cool with occasional rain over the coastal belt and cooler air will move over the southwestern and southern parts of the interior tomorrow. Elsewhere it will remain fair and hot, but isolated thunderstorms are possible over the Free State the southern half of Transvaal and the Natal interior.

'n Laag het gevorm oor Suid-Kaapland en beweeg oos waarts. Dit sal bewolk en koel bly oor die kusstreke met reën af en toe en koeler lug sal môre oor die suidwestelike en suidelike binneland beweeg. Elders sal dit redelik mooiweer en baie warm bly, maar los donderstorms is moontlik oor die Vrystaat, die suidelike helfte van Transvaal en die Natalse binneland.

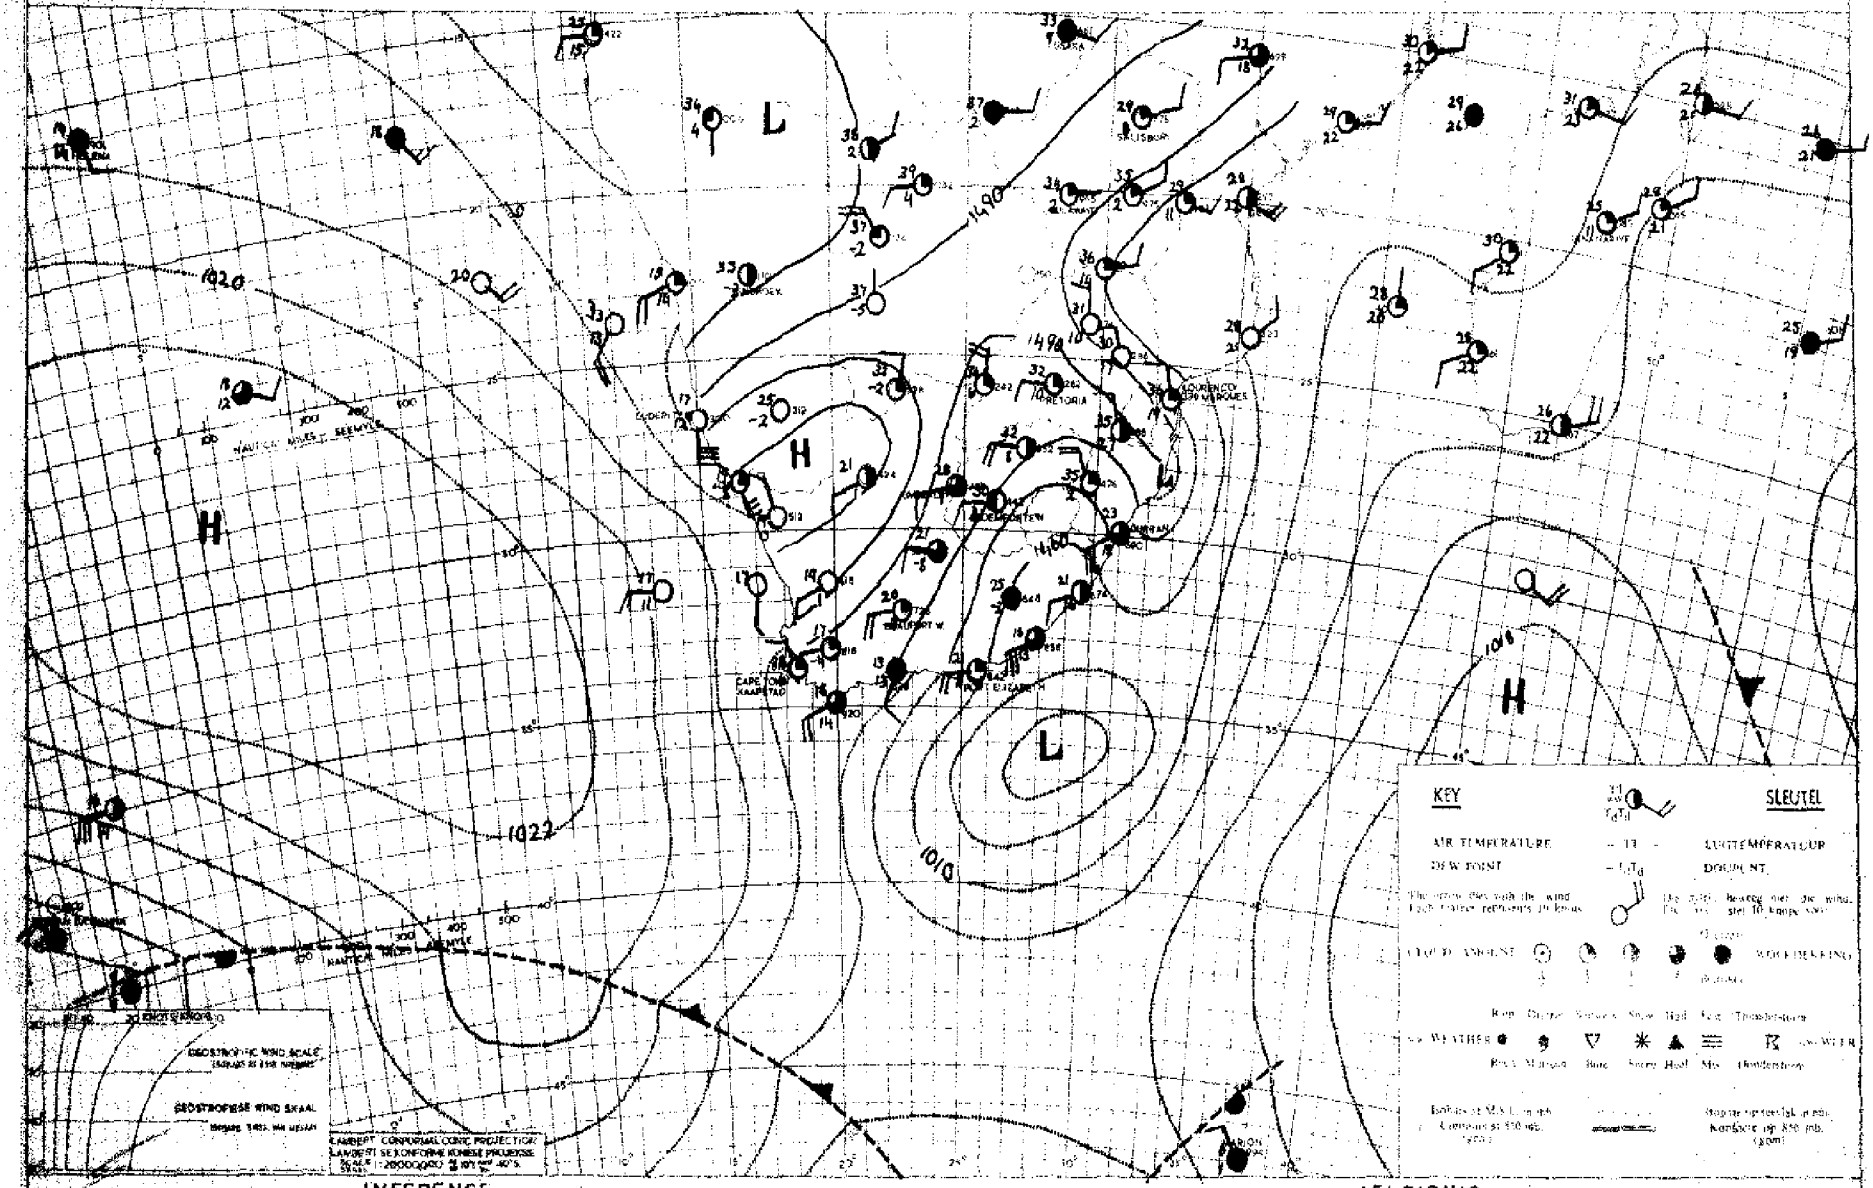
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST SINOPTIESE WEERKAART



INFERENCE DATE 23-10-1961 DATUM AFLEIDING

The trough centred over the eastern areas will remain stationary and it will remain hot over the northern area, and cool to mild over the southern areas. Isolated light thundershowers will develop over the Transvaal, northern Free State and Natal interior.

Die Transvaalse trog sal stasionêr bly en dit sal nog baie warm wees oor die noordelike dele en koel tot matig oor die suidelike dele van die land. Los ligte donderbuie sal uitsak oor die Transvaal, noordelike Vrystaat en die Natalse binneland.

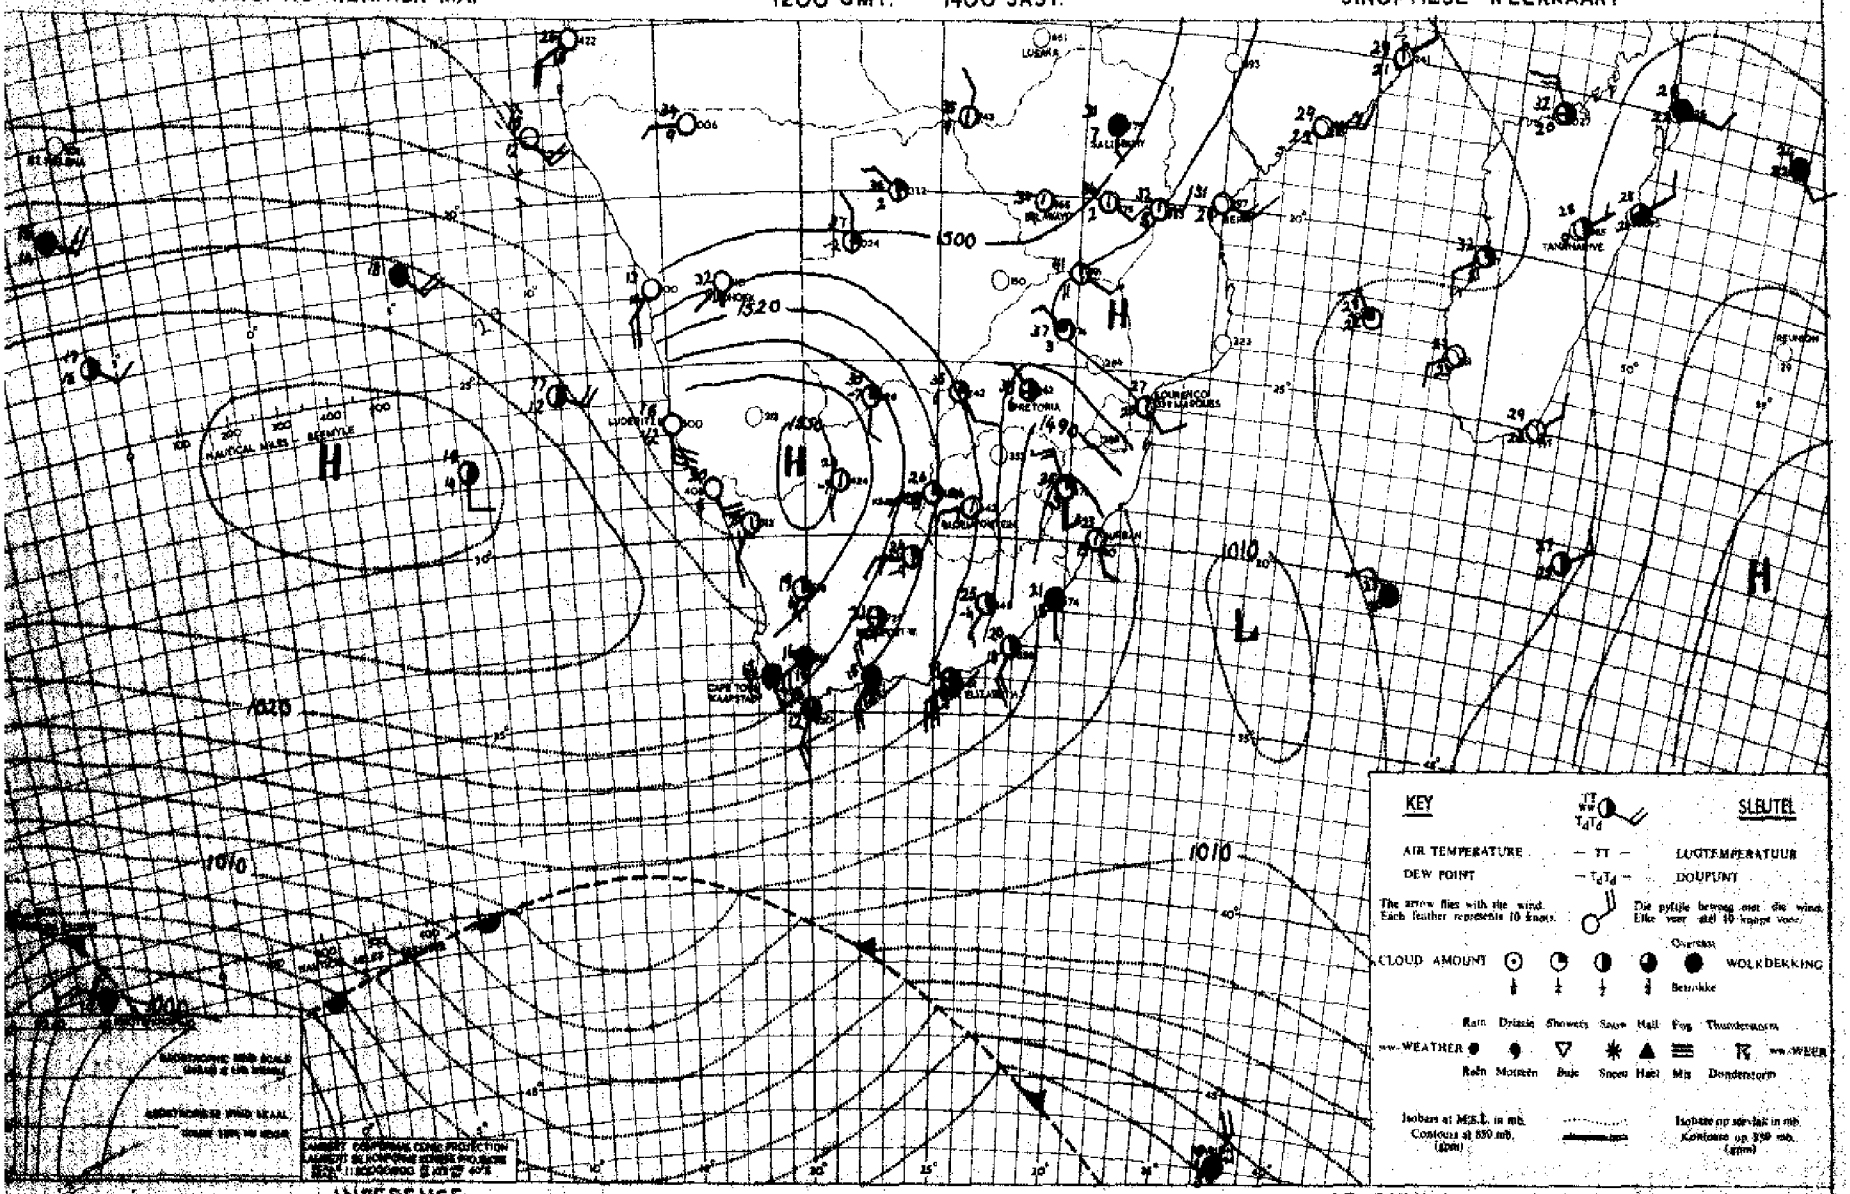
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 24-10-1961. DATUM — AFLEIDING

A trough over Southern Transvaal is weakening and isolated thunderstorms will develop over this area this afternoon. The pressure is rising rapidly over the Southern and Southeastern Cape coastal belt and overcast conditions with light rain will spread over Natal and the Eastern Transvaal, but it will clear over the Cape coastal belt.

'n Trog oor die suidelike Transvaal is besig om te verswak en los donderstorms sal vanmiddag daar ontwikkel. Drukke styg vinnig oor die suidelike en suidoostelike Kaapse kusstreke en betrokke toestande met ligte reën sal uitbrei oor Natal en Oos-Transvaal, maar dit sal opklrek oor die Kaapse kusstreke.

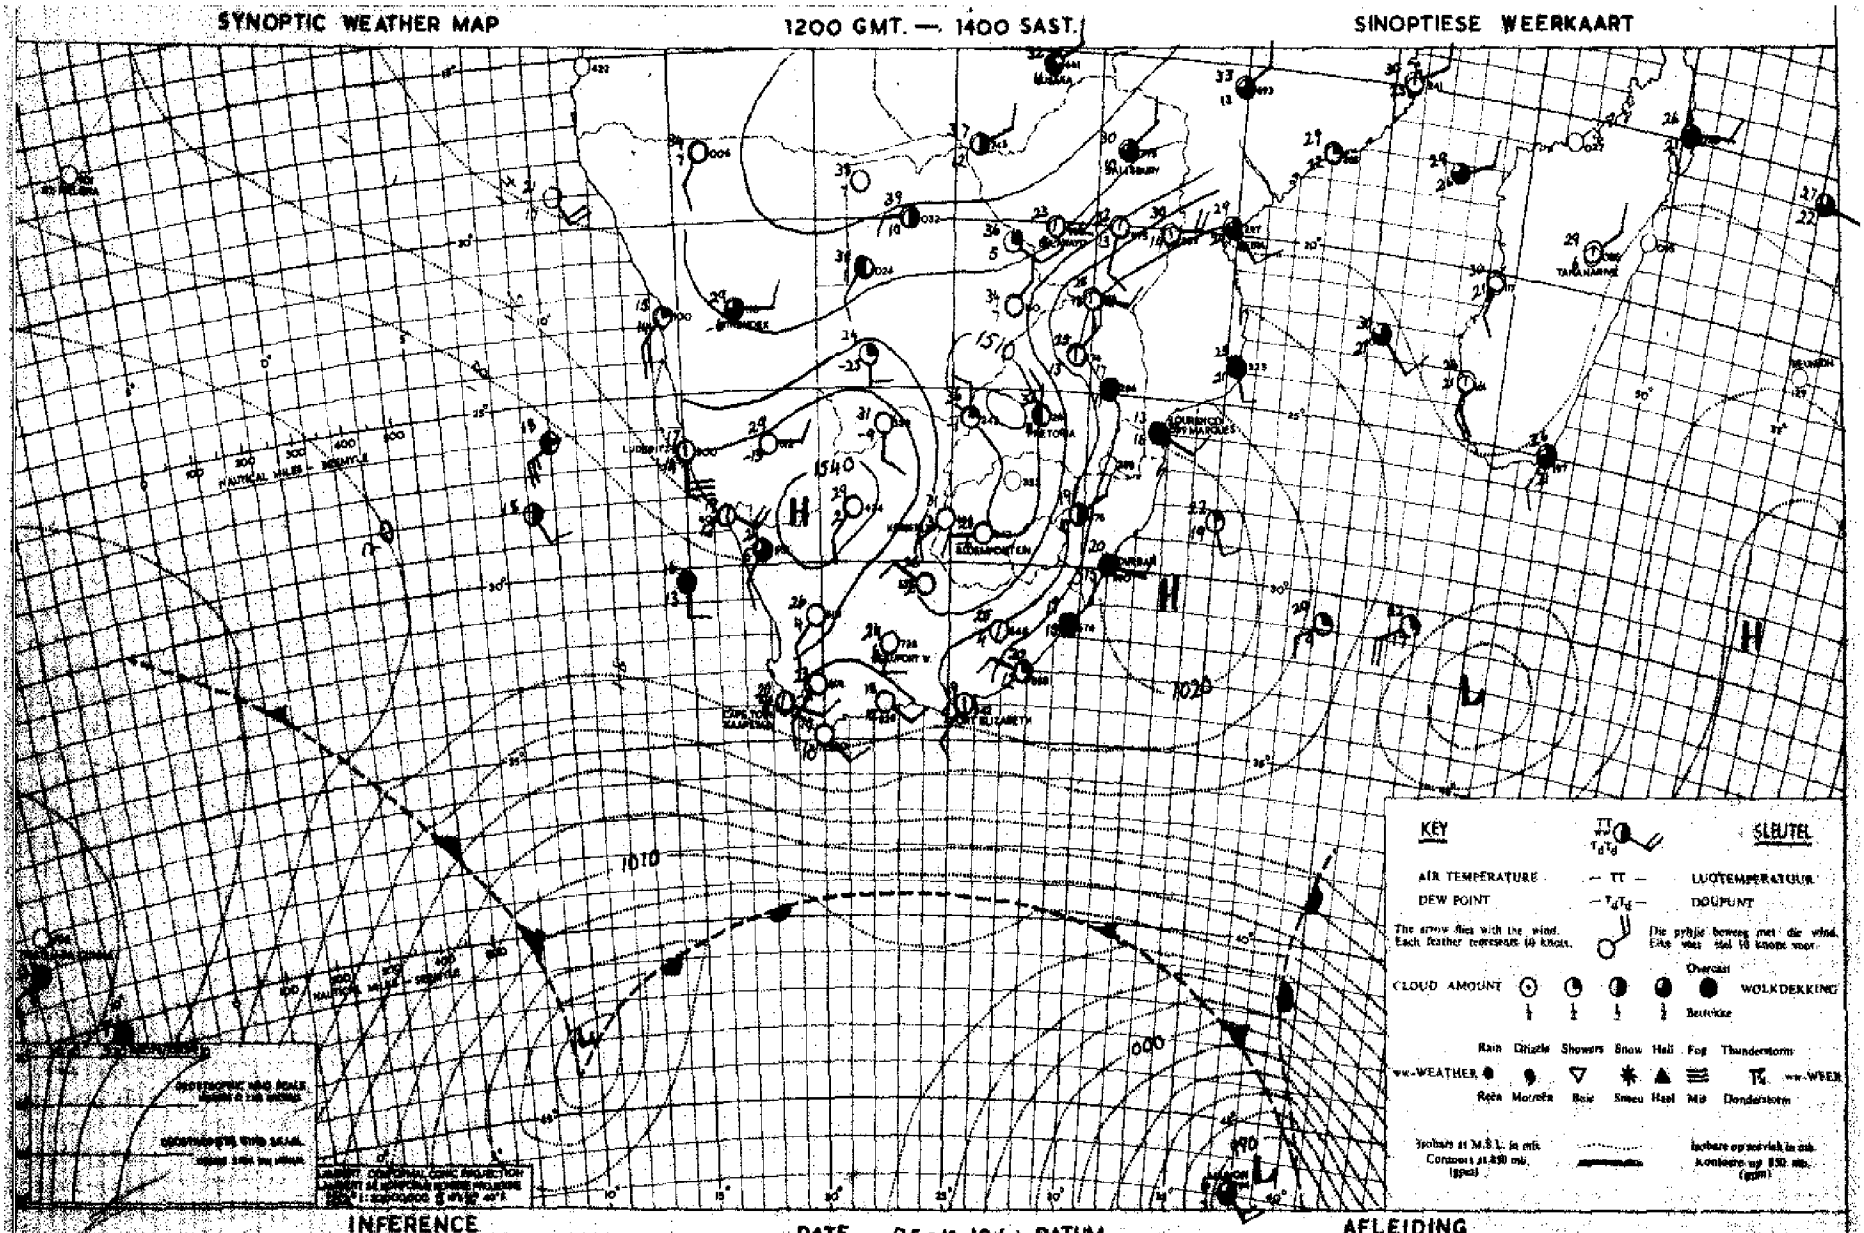
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

Front or is spreading Southwards from the Rhodesia and isolated thunder-showers will develop over the Transvaal highveld, Northern and central Free State, Eastern Natal-area, Bechuanaland and Northern Natal and S.W.A. Frontal weather will reach the Southwest Cape during the evening and occasional rain will fall over the Peninsula.

DATE 25-10-1961. DATUM

AFLEIDING

Yoglige lug beweeg suidwaarts vanuit Rhodesië en los donderbuie sal voorkom oor die Transvaalse hoëveld, noord en sentrale Vrystaat, Vrygburg-Natalingebied, Barlspeanaland en noordelike dele van Natal en S.W.A. Dit word verwag dat 'n front suidwes Kaapland vanaand sal bereik en reën af en toe sal oor die Skiereiland uitsak.

This air over the Transvaal, Bechuanaland, Northern Freestate continues to be moist and unstable and thundershowers will develop over these areas. The frontal weather south of the Cape will keep the weather cloudy with showers along the Cape southcoast, southeast coast and over Natal.

Die lug oor Transvaal, Betsjoeanaland en Noordelike Vrystaat bly nog vogtig en onstabiel en donderstorms sal ontwikkel oor hierdie gebiede. Met die frontlyn weer suid van die Kaap sal die weer oor die suid en suidoos kus en Natal bewolk en buierig wees.

INFERENCE

DATE 28-10-1961 DATUM

AFLEIDING

With the low over the Northern Free State and the ridge south of the continent, cloudy conditions with general rain and showers will occur over Transvaal, Natal, Eastern Cape, and Northern Free State. Over the remainder of the country it will clear and remain cold.

Met die laag oor die Noord-Vrystaat en die rug wat suid van die vasteland inbeweeg sal bewolkte toestande met algemene reën en buie voorkom oor Transvaal, Natal, Oos-Kaapland en die Noord-Vrystaat maar oor die res van die land sal dit opklaar en koud bly.

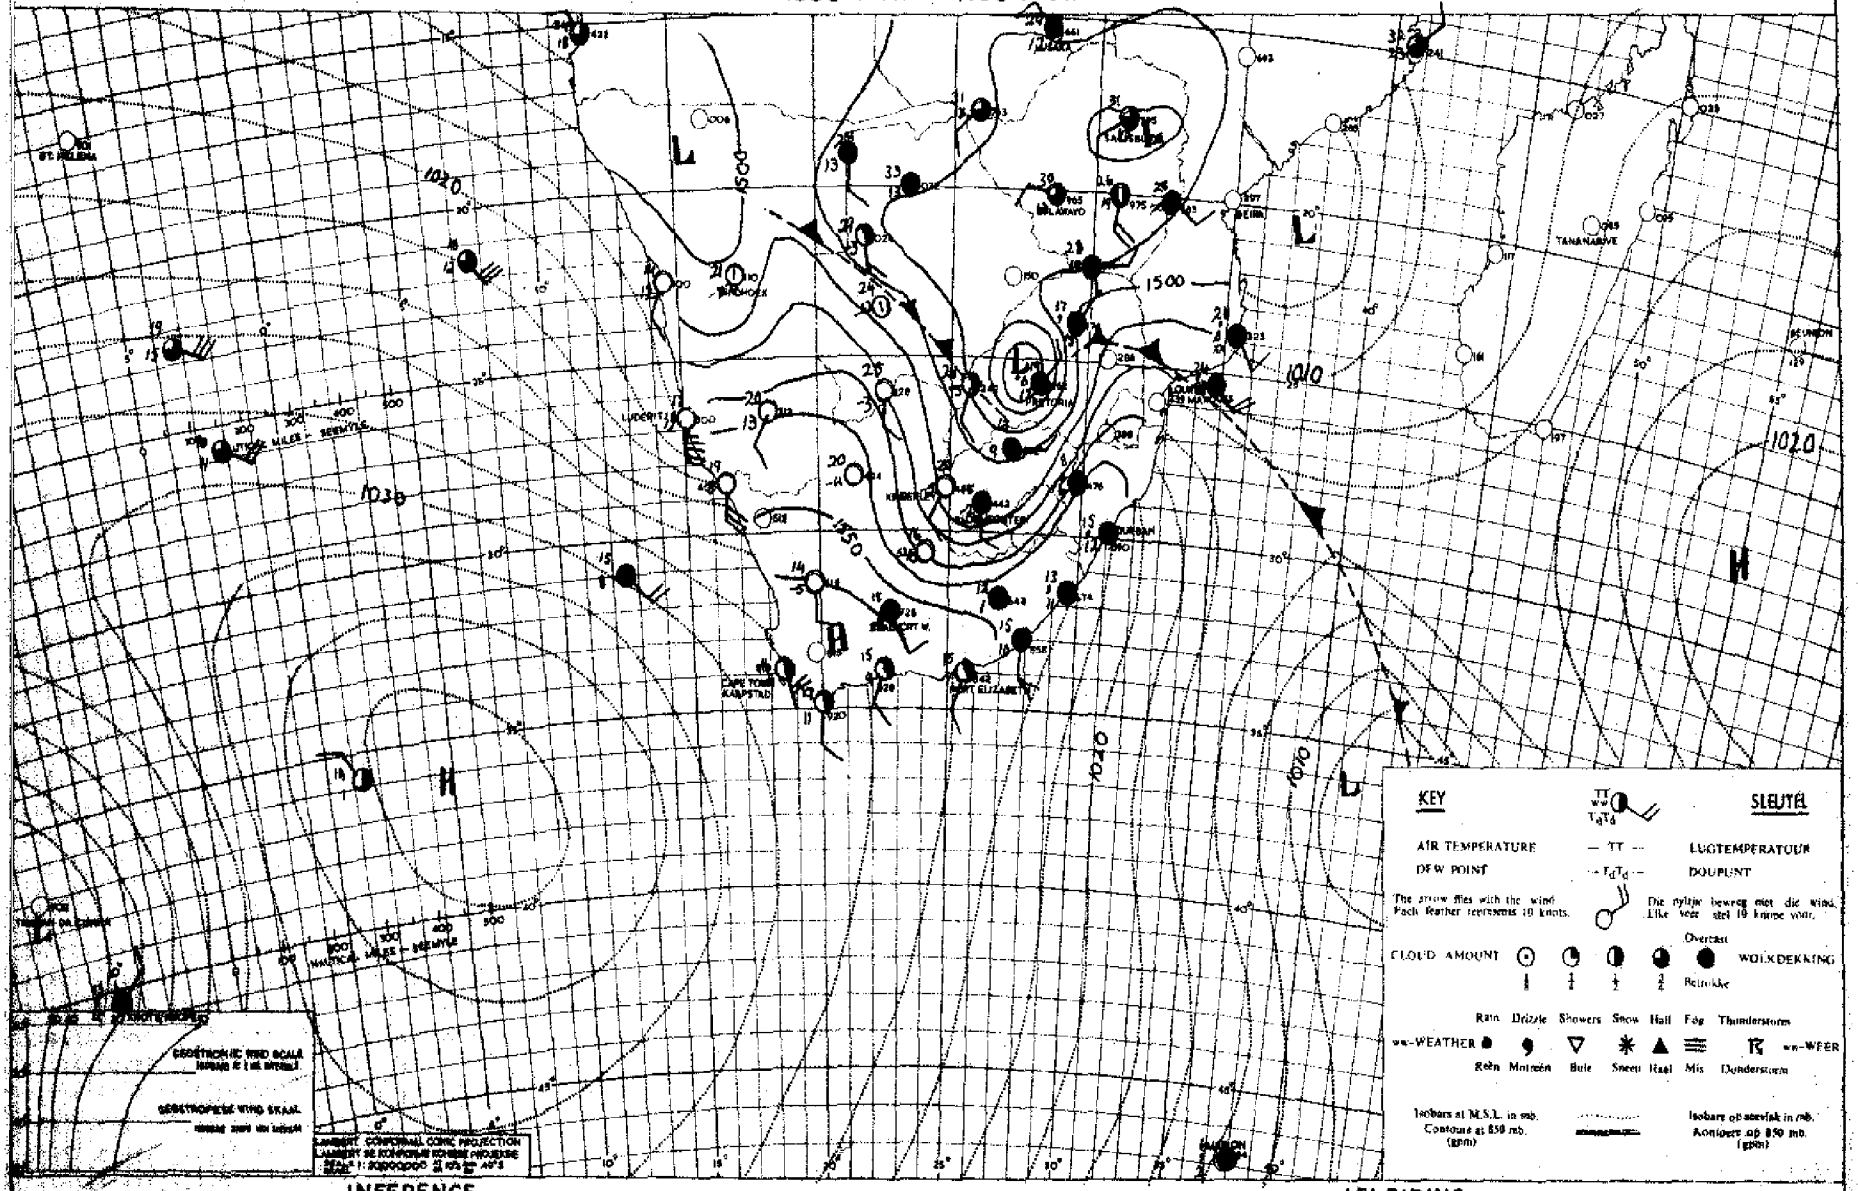
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 29-10-49 bl. DATUM AFLEIDING

The low over Transvaal is advancing slowly northwards while a strong high is moving in south of the continent. Cloudy conditions with rain and thundershowers will still occur over Natal and the eastern and northern areas of Transvaal.

Die laag oor Transvaal beweeg stadig noordwaarts terwyl 'n groot hoog suid van die vasteland inbeweeg. Bewolkte toestande met reën en donderbuie sal nog voorkom oor Natal en die oostelike en noordelike dele van Transvaal.

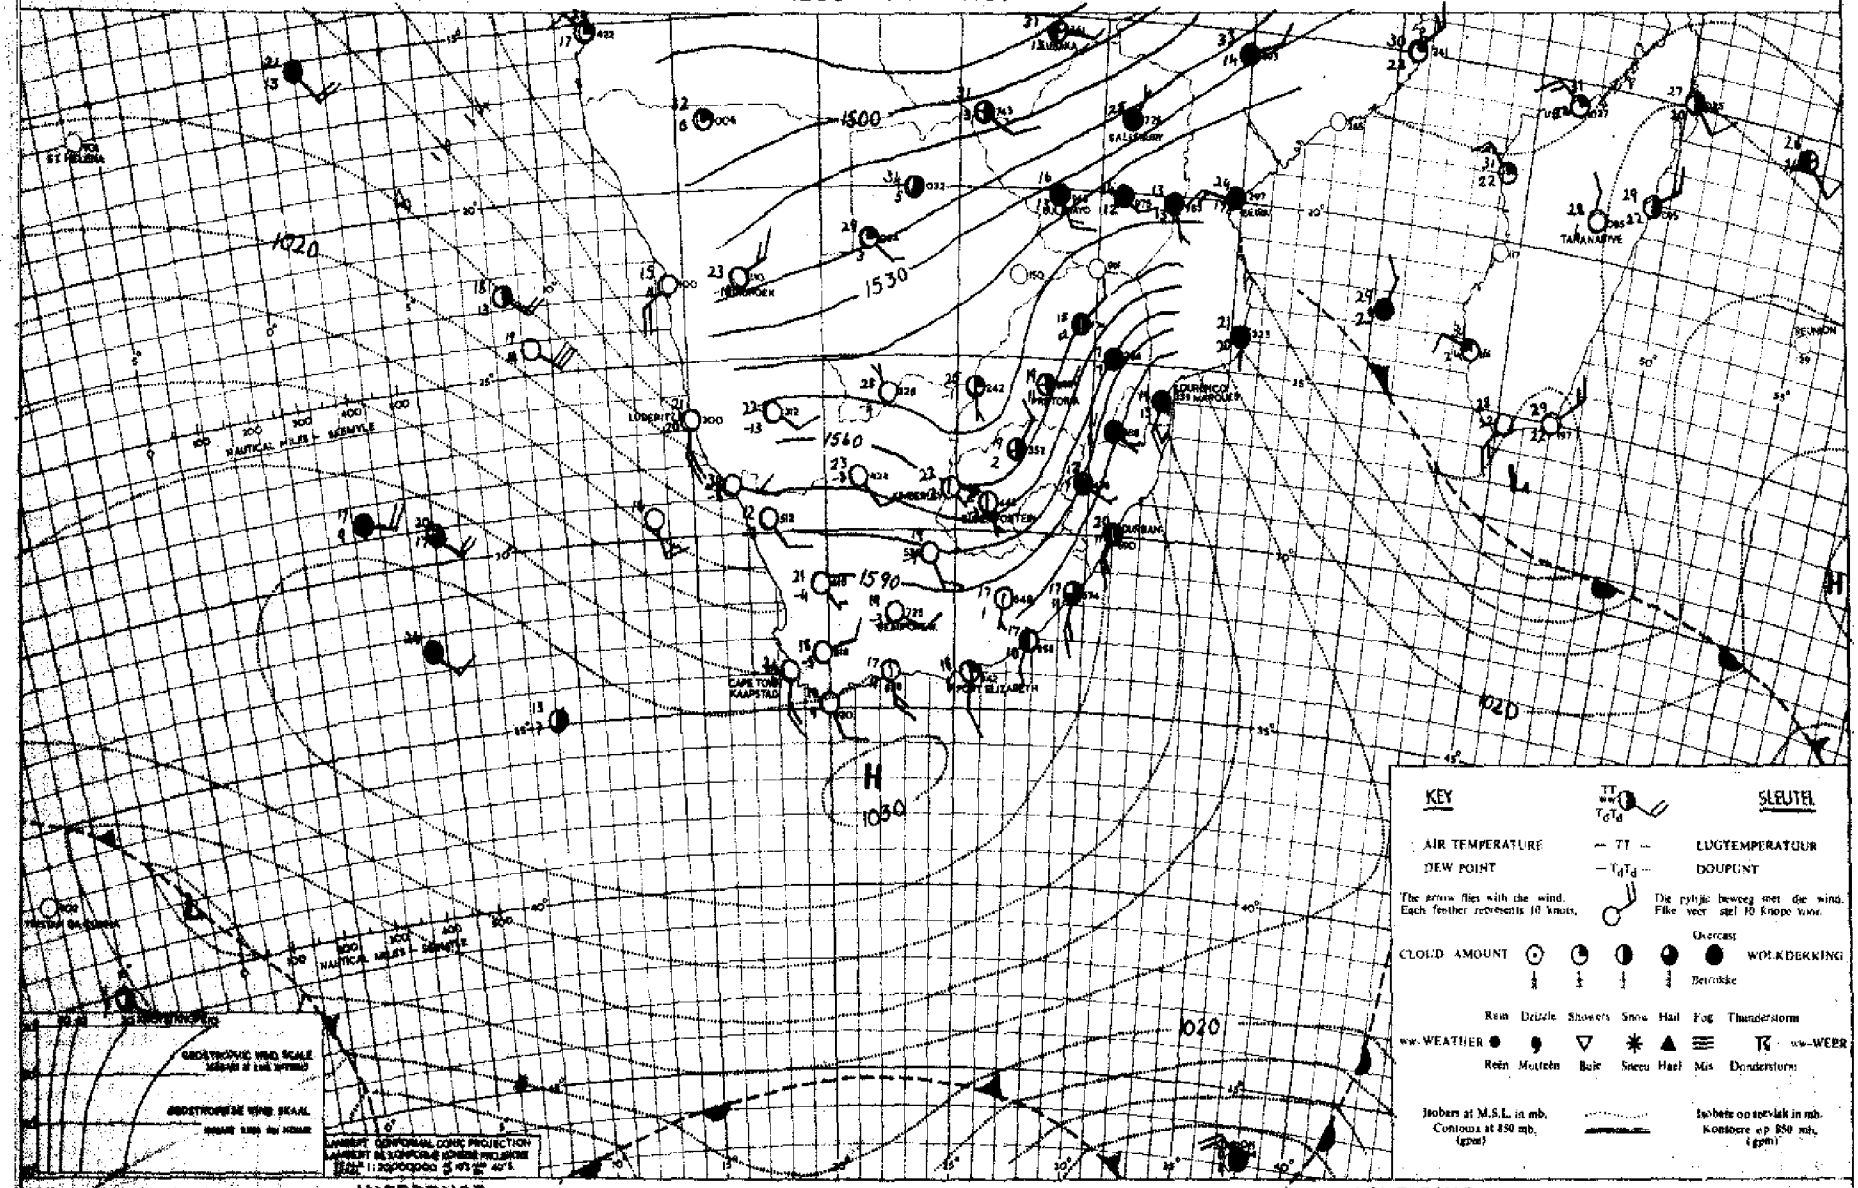
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The pressure is rising rapidly over the northeastern parts of South-Africa and the high south of George will move northeastwards quickly. It will remain partly cloudy to cloudy and cold over the eastern and Northern Transvaal, but it will clear gradually over Natal and the remainder of Transvaal. Over the remainder of the country it will be fine and will become warmer.

DATE 30-10-1961. DATUM

AFLEIDING

Drukke styg sterk oor die noordoostelike dele van Suid-Afrika en die hoog suid van George sal vinnig noordoostwaarts beweeg. Dit sal gedeeltelik bewolk tot bewolk en koud bly oor Oos- en Noor-Transvaal, maar dit sal geleidelik opklrek oor Natal en die res van Transvaal. Oor die res van die land sal dit mooiweer wees en warmer word.

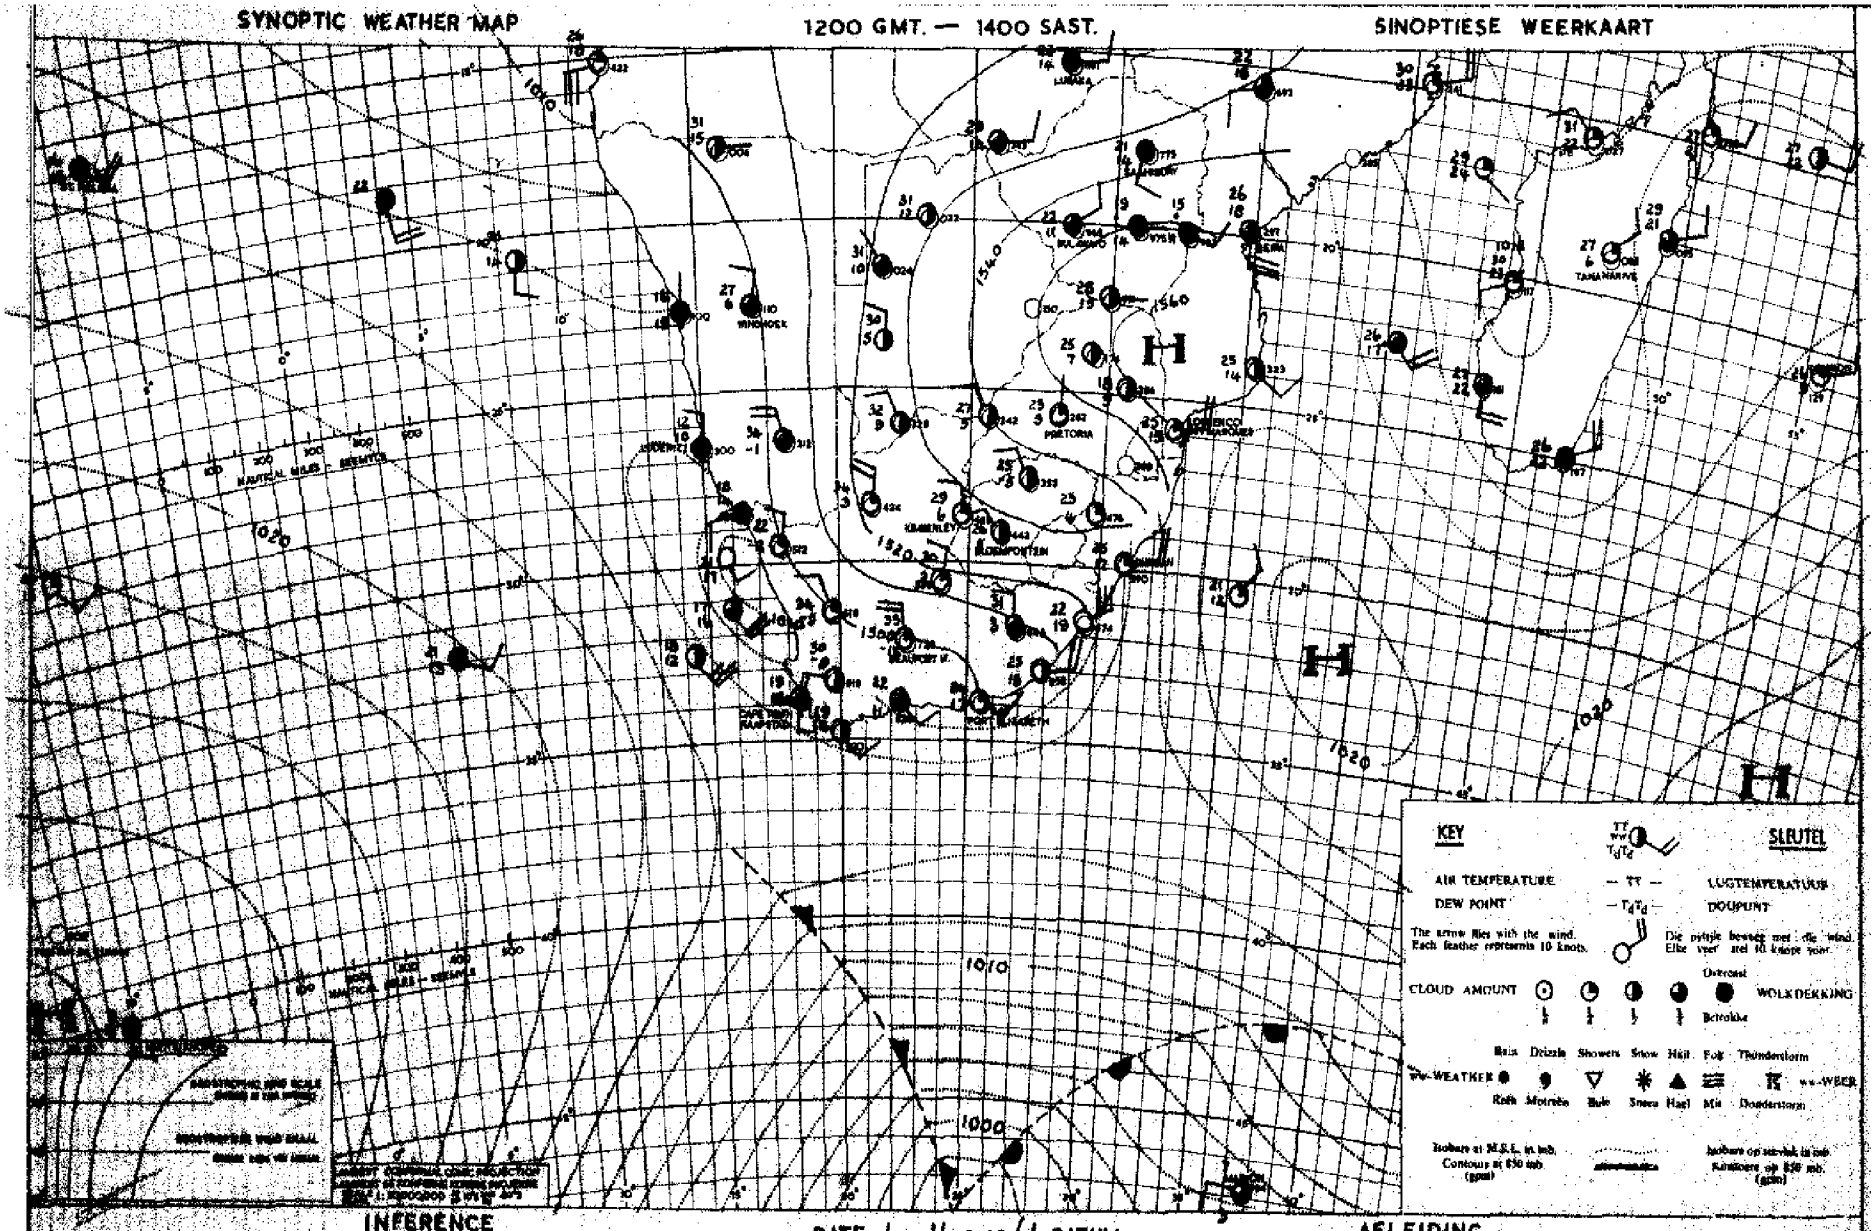
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 1 - 11 - 1961 DATUM

Another air over South West Africa and Bechuanaland is moving southeastwards and isolated thundershowers will occur tomorrow over Northern Cape, the Free State and the interior of the Eastern Cape and Natal. The coastal low over the west coast will move to the southeast coast and cooler cloudy conditions will spread over most parts of the Cape coastal belt.

AFLEIDING

Vogtiger lug beweeg oor Suidwes-Afrika en Betsjoeanaland suidoostwaarts en los donderbuie sal more voorkom oor Noord-Kaapland die Vrystaat en die Oos-Kaapse- en Natalse binneland. Die kuslaag oor die weskus sal na die suidoostkus beweeg en koeler bewolkte toestande sal uitbrei oor meeste dele van die Kaapse kusstreke.

With the low over the INTERIOR and the ridge moving in south of the continent cloudy conditions with scattered showers will occur over Natal and Eastern Cape. Thundery conditions with scattered showers will occur over Bechuanaland, the Free State, Northern Cape and the southwestern half of Transvaal.

Met die lae oor die binneland en die rug wat suid van die land inbeweeg, sal bewolkte toestande met reënbuie voorkom oor Oos-Kaapland en Natal. Donderweerstoestande met verspreide buie sal voorkom oor Betsjoeanaland, die Vrystaat, Noord-Kaapland en die suidwestelike helfte van Transvaal.

SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART

INFERENCE — DATE 5 - 11 - 1961 DATUM — AFLEIDING

The Atlantic high is ridging eastwards. It will be cloudy and mild over Natal but will clear gradually from the south. Cloudy conditions will persist over the Transvaal lowveld and thundershowers will develop over the rest of the Transvaal. Elsewhere it will be fine and warm.

Die Atlantiese hoog stoot ooswaarts. Dit sal aanvanklik bewolk en matig wees oor Natal met geleidelike opklaring later vanuit die suide. Dit sal bewolk bly oor die Transvaalse laeveld en donderbuie sal oor die res van die Transvaal ontwikkel. Elders sal dit mooiweer en warm wees.

INFERENCE

DATE 8 - 11 - 1961 DATUM

The Atlantic high extends a strong ridge to Natal and the Eastern Transvaal. Scattered thundershowers will develop in the afternoon over Natal, Transvaal, the Free State and Vryburg - Mafeking area while isolated thundershowers will develop over Bechuanaland, Northeastern Cape, the Cape Midlands and Upper Karoo. Along the Cape south and southeast coasts, it will be cloudy with isolated suidooskus sat dit bewolk wees met los buie.

AFLEIDING

Die Atlantiese hoog rek 'n sterk rug na Natal en die Oostelike Transvaal. Verspreide donderbuie sal ontwikkel in die namiddag oor Natal, Transvaal, die Vrystaat en die Vryburg - Mafeking-gebied en los donderbuie sal ontwikkel oor Betsjoeanaland, Noordoos - Kaapland, die Kaapse Middellande en Bo - Karoo. Langs die Kaapse suid- en

INFERENCE

DATE 9 - 11 - 1961 DATUM

The surface trough over the interior, associated with a deep upper air closed low, continues to cause cloudy weather with showers over the eastern and northeastern parts of the country. These conditions are expected to continue but the activity will be somewhat weaker. Elsewhere over the country it will be fine and warm.

AFLEIDING

Bewolkte toestande met buie oor die noordelike en noord oostelike dele van die land is te wyte aan die oppervlakte trog gepaard met 'n diep boluglaag oor die binneland. Hierdie toestande word verwag om voort te duur maar die aktiwiteit sal swakker word. Elders oor die binneland sal dit mooi weer en warm wees.

INFERENCE
With the deep trough over Southwest Africa, scattered thundershowers will develop over Southwest Africa, Bechuanaland, The Cape north of the Orangeriver while isolated thundershowers will develop over the Transvaal, Natal interior, Free State, Upper Karoo and Bechuanaland. Over the Natal coast it will be cloudy with scattered showers. Over the remainder of the country it will be mainly fine.
DATE 10 - 11 - 1961 DATUM
AFLEIDING
Met die diep trog oor Suidwes-Afrika, sal verspreide donderbuie voorkom oor Suidwes-Afrika, Betsjoeanaland, Kaapland noord van die Oranjerivier en los donderbuie sal ontwikkel oor die Transvaal, Natalse binneland, Vrystaat, Bo-Karoo en Boesmanland. Langs die Natalkus sal dit bewolk wees met verspreide buie. Oor die res van die land sal dit meesal mooiweer wees

INFERENCE

With a low on the surface and in the upper air over South West Africa, the inflow of moist air will be maintained over most of the interior where scattered thundershowers will occur. The coastal low on the west coast will advance southwards followed by cooler, cloudy weather.

DATE 11 - 11 - 1961 DATUM

AFLEIDING

Met 'n laag oor die oppervlakte en in die belug oor Suidwes-Afrika, sal vogtige lug instroom oor meeste dele van die binneland en verspreide donderbuie sal voorkom. Die kuslaag langs die weskus sal suidwaarts beweeg gevolg deur koeler, bewolkte weer.

DATE 12-11-1961 DATUM
AFLEIDING
Humid air is moving southwards over most parts of the country and scattered thunderstorms will develop over the central and western parts of the interior. The coastal low over the Cape south coast is moving eastwards and cloudy, cooler conditions with light rain or drizzle will spread over most parts of the Cape coastal belt.
Voglige lug stroom suidwaarts oor meeste dele van die land en verspreide donderstorms sal ontwikkel oor die sentrale en westelike dele van die binneland. Die kuslaag oor die Kaapse suidkus beweeg ooswaarts en bewolkte koeler toestande met ligte reën of motreën sal uitbrei oor meeste dele van die Kaapse kusstreke.

INFERENCE

DATE 13 - 11 - 1961 DATUM

AFLEIDING

The Atlantic high extends a ridge south of the continent and cloudy weather with rain will occur over the southern and eastern coastal regions, Natal and the eastern Transvaal lowveld. With the trough over the interior, scattered thundershowers will occur over the eastern half of South Africa and Bechuanaland.

'n Rug van hoë druk strek suid van die vasteland in en bewolkte toestande met reën sal voorkom oor die suidelike en oostelike kusstreke, Natal en die Oos-Transvaalse laeveld. Met die trog oor die land sal verspreide donderbuie nog voorkom oor die oostelike helfte van Suid-Afrika en Betsjoeanaland.

INFERENCE

The high over the Cape south coast is moving north-eastwards and it will clear gradually to-morrow over Natal. Milder and cooler conditions with local rain will spread over the Eastern and Northern Transvaal. It will remain partly cloudy and warm over the remainder of the interior and isolated showers will develop in the afternoon.

DATE 14 - 11 - 1961 DATUM

AFLEIDING

Die hoog oor die Kaapse suidkus beweeg noordoostwaarts en dit sal mòre geleidelik opklaar oor Natal. Bewolkte en koeler toestande met reën op plekke sal uitbreek oor Oos- en Noord-Transvaal. Dit sal gedeeltelik bewolk en warm bly oor die res van die binneland en los buie sal in die namiddag ontwikkel.

INFERENCE

DATE 15 - 11 - 1961 DATUM

With an extensive high south of the continent cloudy conditions will persist over Natal and Eastern Transvaal. A weak trough over Bechuanaland will cause local thunderstorms over the southwestern half of the Transvaal, Northern Free State, Northern Cape and the eastern and northern parts of Bechuanaland.

AFLEIDING

Met die groot hoog suid van die vasteland sal bewolkte toestande nog voortduur oor Natal en Oos-Transvaal. 'n Swak trog oor Betsjoeanaland sal donderbuie veroorsaak oor die suidwestelike helfte van Transvaal, Noord-Vrystaat, Noord-Kaapland en die noordelike en oostelike dele van Betsjoeanaland.

INFERENCE

DATE 16 - 11 - 61 DATUM

AFLEIDING

The coastal low over the Cape South Coast is moving northeastwards and cloudy, cooler conditions will spread along the southeast coast and the Natal coastal regions. Fairly humid air is moving over the interior and with a trough over the central Republic and South West Africa thundershowers will develop over these regions and Bechuanaland.

Die kuslaag oor die Kaapse Suidooskus beweeg noordooswaarts en bewolkte koeler toestande sal uitbreek oor die suidooskus en die Natalse kusgebiede. Taamlike vogtige lug beweeg oor die binneland en met die trog oor die sentrale Republiek en Suidwes-Afrika sal donderbuie ontwikkel oor hierdie gebiede en Betsjoeanaland.

INFERENCE

DATE 17 - 11 - 1961 DATUM

AFLEIDING

A trough stretches southeastwards from Windhoek and moist air is present over the northern half of South West Africa, Bechuanaland and the eastern half of the Republic. Scattered thunder-showers will therefore occur over these regions.

'n Trog strek vanaf Windhoek suidooswaarts en vogtige lug is aanwesig oor die noordelike helfte van Suidwes-Afrika, Betsjoeanaland en die oostelike helfte van die Republiek. Verspreide donderbuie sal dus oor hierdie gebiede voorkom.

INFERENCE

DATE 18 - 11-19 61 DATUM

AFLEIDING

The surface low over the interior is stationary but with an upper air anticyclone over this region mainly fine weather is expected. The cold front approaching the Cape is not very active. The weather along the southern and south eastern coastal regions will be partly cloudy and mild.

Die oppervlakte-laag beweeg nie en met 'n bolug-antisikloon oor die binneland word hoofsaaklik mooiweer verwag. Die Atlantiese koue front sal suid van die land verby beweeg en dit sal slegs gedeeltelik bewolk wees langs die suidelike en suidoostelike kuststreke.

INFERENCE

DATE 19-9-19 61 DATUM

AFLEIDING

The ridge moving round the Cape South coast will result in a low developing over the Northern Cape. Expect scattered thundershowers over Bechuanaland, northern and eastern South West Africa and Vryburg - Mafeking area while isolated thundershowers will develop over southern areas of the Transvaal, northern Natal interior and Free State. Along the Cape South and Southeast coastal areas and also the Natal coastal area it will be cloudy and mild with occasional rain and showers.

'n Rug beweeg om die Kaapse Suidkus en dit word verwag dat 'n laag oor die Noord-Kaap sal ontwikkel. Dit word verwag dat verspreide donderbuie sal uitsak oor Betsjoeanaland, noordelike en oostelike Suidwes-Afrika en die Vryburg-Mafeking-gebied. Los donderbuie sal uitsak oor die suidelike dele van die Transvaal, noordelike Natalse binneland en Vrystaat. Langs die Kaapse Suid- en Suidoos-kusstreke en ook die Natalse kusstreek sal dit bewolk en mating wees met reën of buie af en toe.

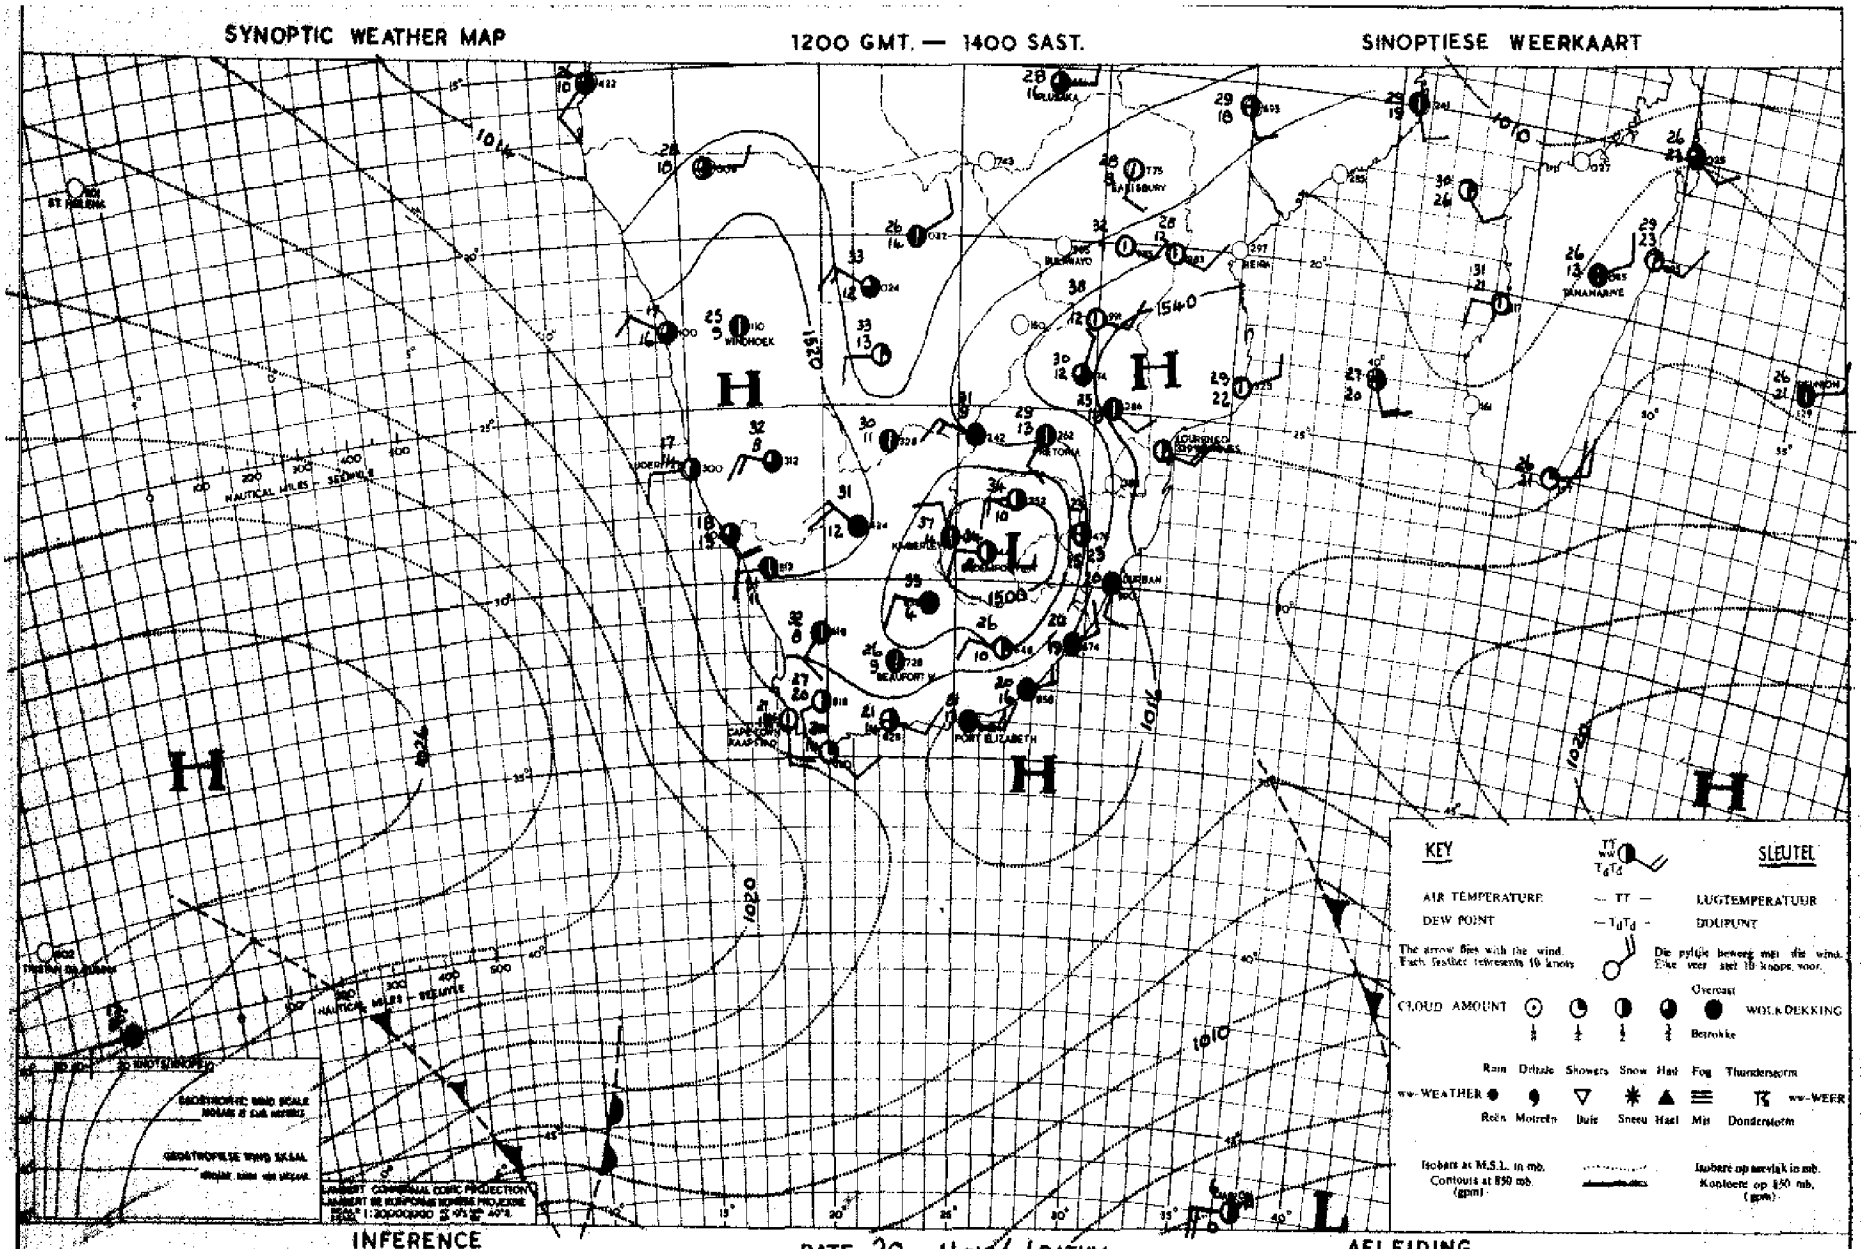
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

An upper air high is situated over the northeastern part of the interior and humid air is flowing southwards over the country. Scattered showers and thundershowers are expected over most of the interior. Due to the Atlantic high extending south of the country, cloudy weather with showers is expected along the coast.

DATE 20 - 11 - 1961 DATUM

AFLEIDING

Voglige lug word suidwaarts beweeg deur 'n bolughoog oor die noordoostelike dele van die land. Verspreide buie word verwag oor meeste dele van die binneland. Die Atlantiese hoogrug lê suid van die land en bewolkte weer met buie sal voorkom langs die kusstreke.

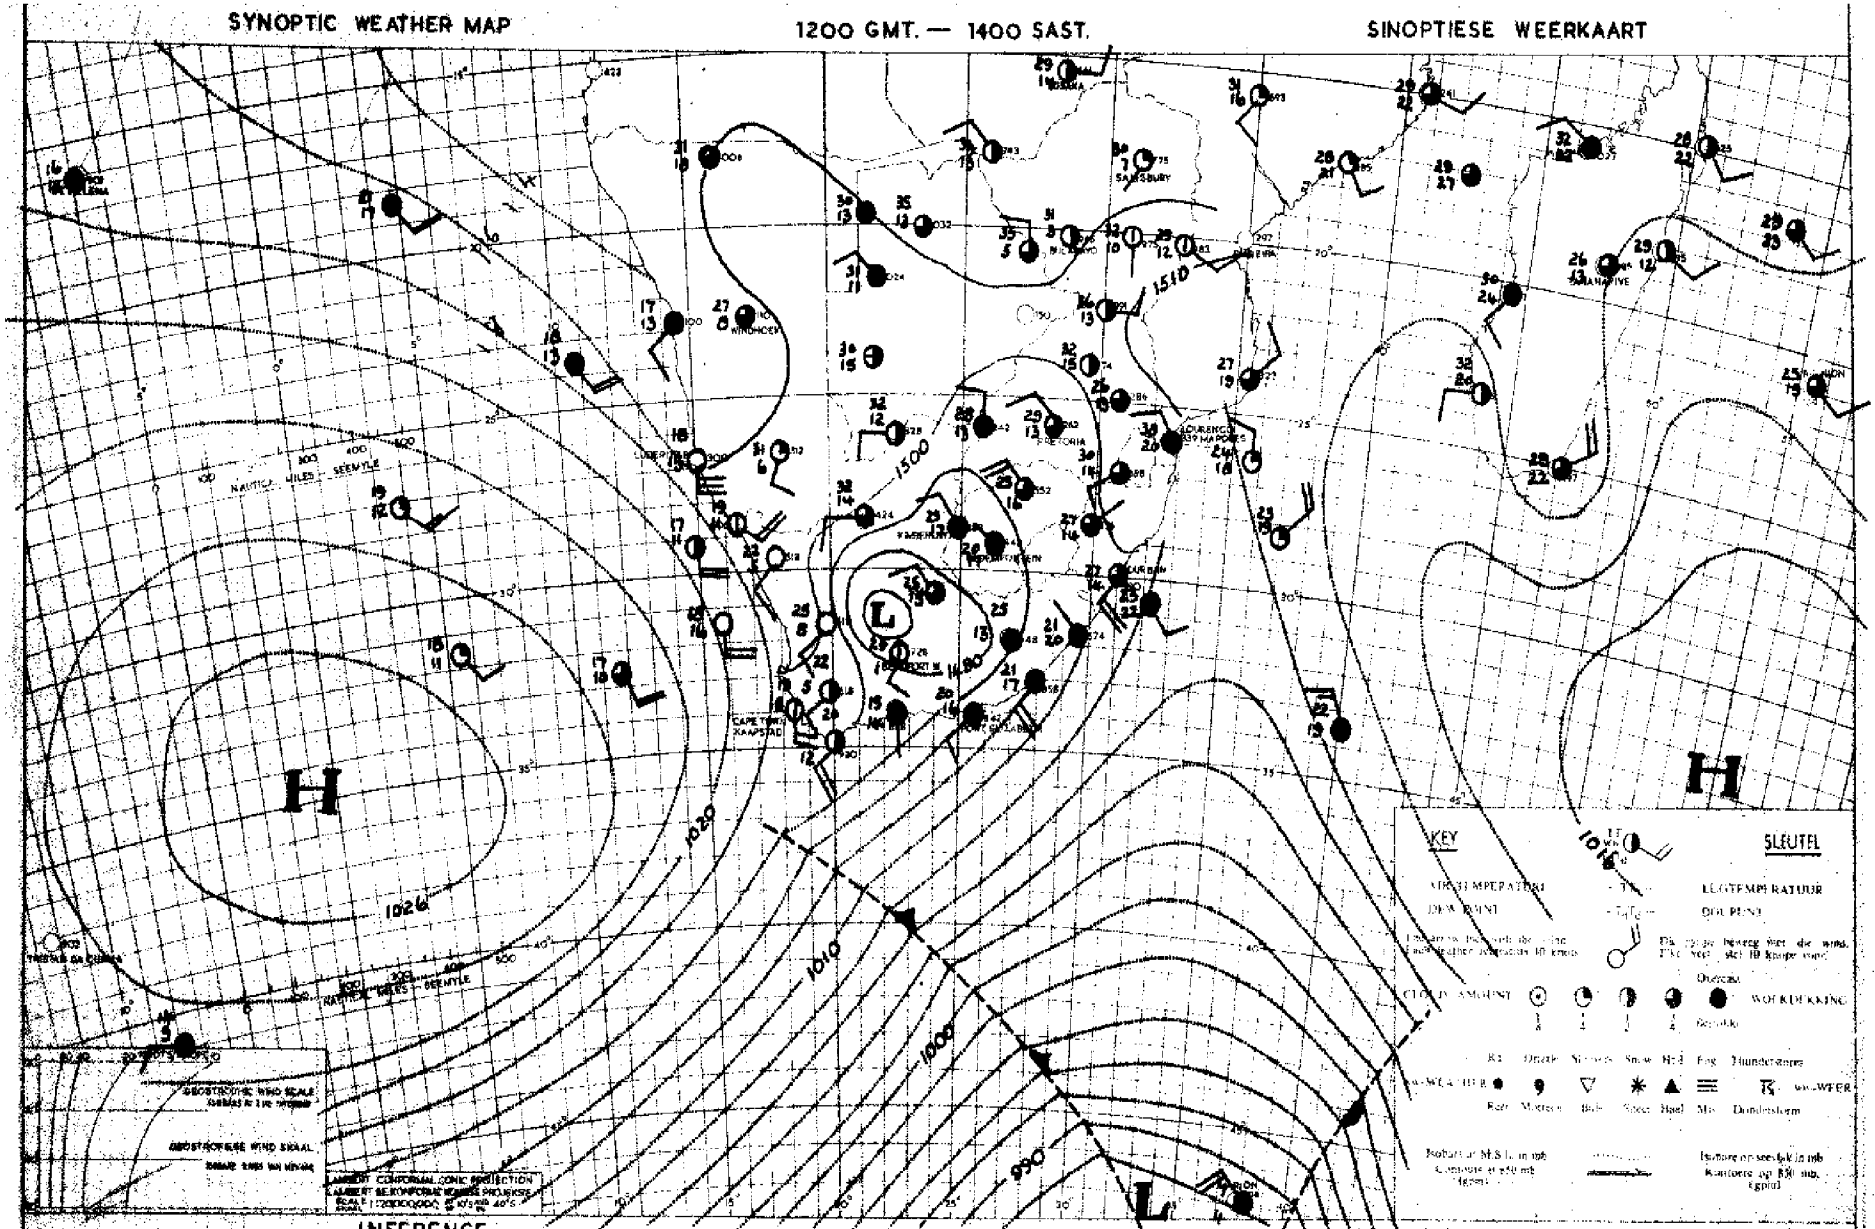
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 21 - 11 - 1961 DATUM

AFLEIDING

The low over the interior will remain stationary and it will be fair and warm over the southwestern and western half of the Cape, elsewhere over the interior partly cloudy and mild to warm with isolated thundershowers except over the northern Free State, the southern Transvaal and the Natal interior where scattered showers and thundershowers will fall. Along the Cape southeast coastal belt and the Natal coastal belt it will be cloudy with scattered showers and thundershowers.

Die laag oor die binneland sal stasionêr bly en dit sal redelik mooi weer wees oor die westelike helfte van Kaapland, elders oor die binneland gedeeltelik bewolk en matig tot warm met los donderbuie behalwe oor die noordelike Vrystaat, suidelike Transvaal en die Natalse binneland waar verspreide buie en donderbuie sal uitsak. Langs die Kaapse suidooskusstreek en die Natalse kusstreek sal dit bewolk wees met verspreide reën en buie.

INFERENCE

The Atlantic high is moving slowly eastwards and cool, cloudy weather will occur along the southern, southeastern and the Natal coastal areas. The air over the eastern parts of the interior is humid and with the surface low over the central interior, showers are expected to fall over Natal, the southern Transvaal and the northeastern Free State.

DATE 22 - 11 - 1961 DATUM

AFLEIDING

Die Atlantiese hoog beweeg stadig ooswaarts en dit sal koel en bewolk weer langs die suidelike, suidoostelike en die Natalse kusstrake. Oor die oostelike dele van die binneland is die lug vogtig en met 'n oppervlakte-laag oor die sentrale binneland word buie verwag oor die suidelike helfte van Transvaal, Natal en die noordoostelike Vrystaat.

INFERENCE

DATE 23 - 11 - 1961 DATUM

AFLEIDING

The low over South West Africa is expected to deepen and scattered thundershowers will develop over central and northern South West Africa and Botswanaland. Over the remainder of the interior except the southern and western Cape, isolated thundershowers will develop in the afternoon. Along the Natal coastal belt it will be cloudy with isolated showers. Over the remainder of the coastal areas it will be mainly fair.

Die laag oor Suidwes-Afrika sal na verwagting verdiep en verspreide donderbuie sal ontwikkel oor sentrale en noordelike Suidwes-Afrika en Botswanaland. Oor die res van die binneland behalwe die suidelike en westelike Kaapland, sal los donderbuie in die namiddag ontwikkel. Langs die Natalse kusstreke sal dit bewolk wees met los donderbuie en oor die res van die kusstreke meesal redelik mooi weer.

INFERENCE

DATE 24 - 11 - 1961 DATUM

AFLEIDING

Humid air is moving southwards over the interior and rain and thundershowers are expected over most areas except the western and southwestern Cape interior. It will be fair along the southern and southwestern coastal areas.

Vogtige lug beweeg suidwaarts oor die binneland en reën en donderbuie sal oor meeste dele van die binneland uitsak behalwe die westelike en suidwestelike Kaapse binneland. Dit sal hoofsaaklik mooiweer wees langs die suidelike en suidwestelike Kaapse kusstreke.

DATE 25 - 11 - 1961 DATUM

AFLEIDING

Very humid air is spreading over the country from the northeast and with the V-trough over the western part of the country, it is expected that scattered rain showers and thundershowers will occur over nearly all areas of the country.

Die lug wat van die noordooste oor die land instroom is baie vogtig en met die V-trog oor die westelike deel van die land sal verspreide reënbuie en donderbuie oor feitlik alle dele voorkom.

INFERENCE

Very moist air has now advanced over the whole country and with the trough over the west coast, conditions are favourable for fairly general rain showers and thundershowers over most of the interior regions and locally along the coast.

DATE 26-11-1961 DATUM

AFLEIDING

Besonder voglige lug het nou oor die hele land uitgebrei en met die trog oor die weskus is toestande gunstig vir taamlike algemene reën en donderbuie oor meeste dele van die binneland en plek-plek langs die kus.

INFERENCE

DATE 27 - 11 - 1961

The low near Port Elizabeth is moving northeastwards and somewhat drier air will spread over the country from the southwest. It will clear partially over most parts of South Africa, but isolated thundershowers are still possible over the central, eastern and northern parts of the country.

AFLEIDING

DATUM

Die laag naby Port Elizabeth beweeg noordooswaarts en ietwat droër lug sal vanuit die suidweste oor die land uitbrei. Dit sal gedeeltelik opklaar oor meeste dele van Suid-Afrika maar los donderbuie is nog moontlik oor die sentrale, oostelike en noordelike dele van die land.

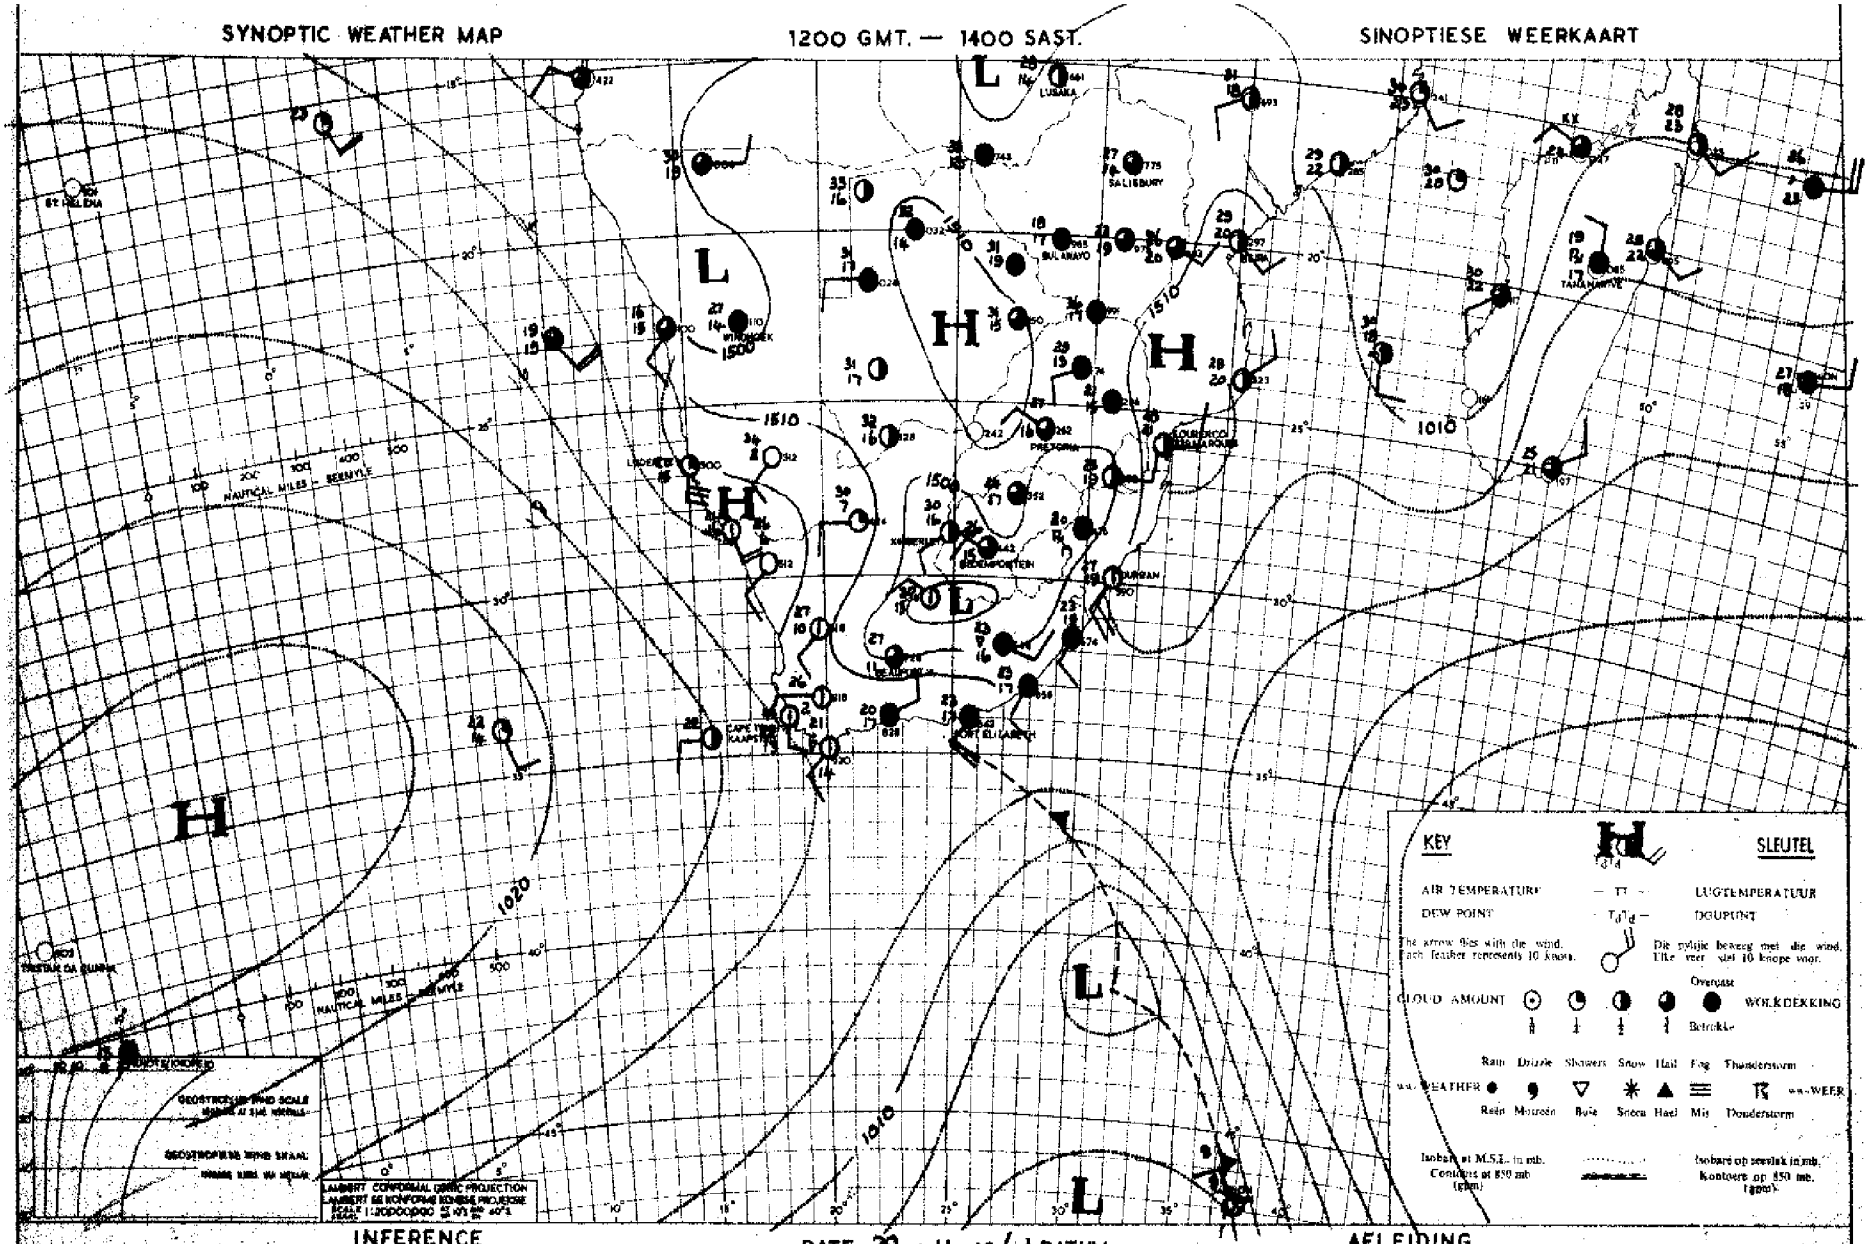
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 28 - 11 - 1961 — DATUM — AFLEIDING

The air over the eastern, northern and central parts of the country is still very humid but the upper air circulation has become anticyclonic so that only local thundershowers will occur over these regions.

Die lug oor die oostelike, noordelike en sentrale dele van die land is nog baie vogtig maar die bolugsirkulasie het antisiklonies geword en slegs los donderbuie sal voorkom oor hierdie dele.

INFERENCE

East of the low over the central parts of South Africa very humid air is moving southwards. Local thunder-showers or rain will develop over the Transvaal, Natal, the Vryburg-Mafeking area and the extreme northern districts of the Free State.

DATE 29-11-1961 DATUM

AFLEIDING

Oos van die laag oor Suid-Afrika se sentrale dele word baie vogtige lug suidwaarts beweeg. Donderbuie of reën sal plek-plek ontwikkel oor die Transvaal, Natal, die Vryburg-Mafeking-gebied en oor die heel noordelike distrikte van die Vrystaat.

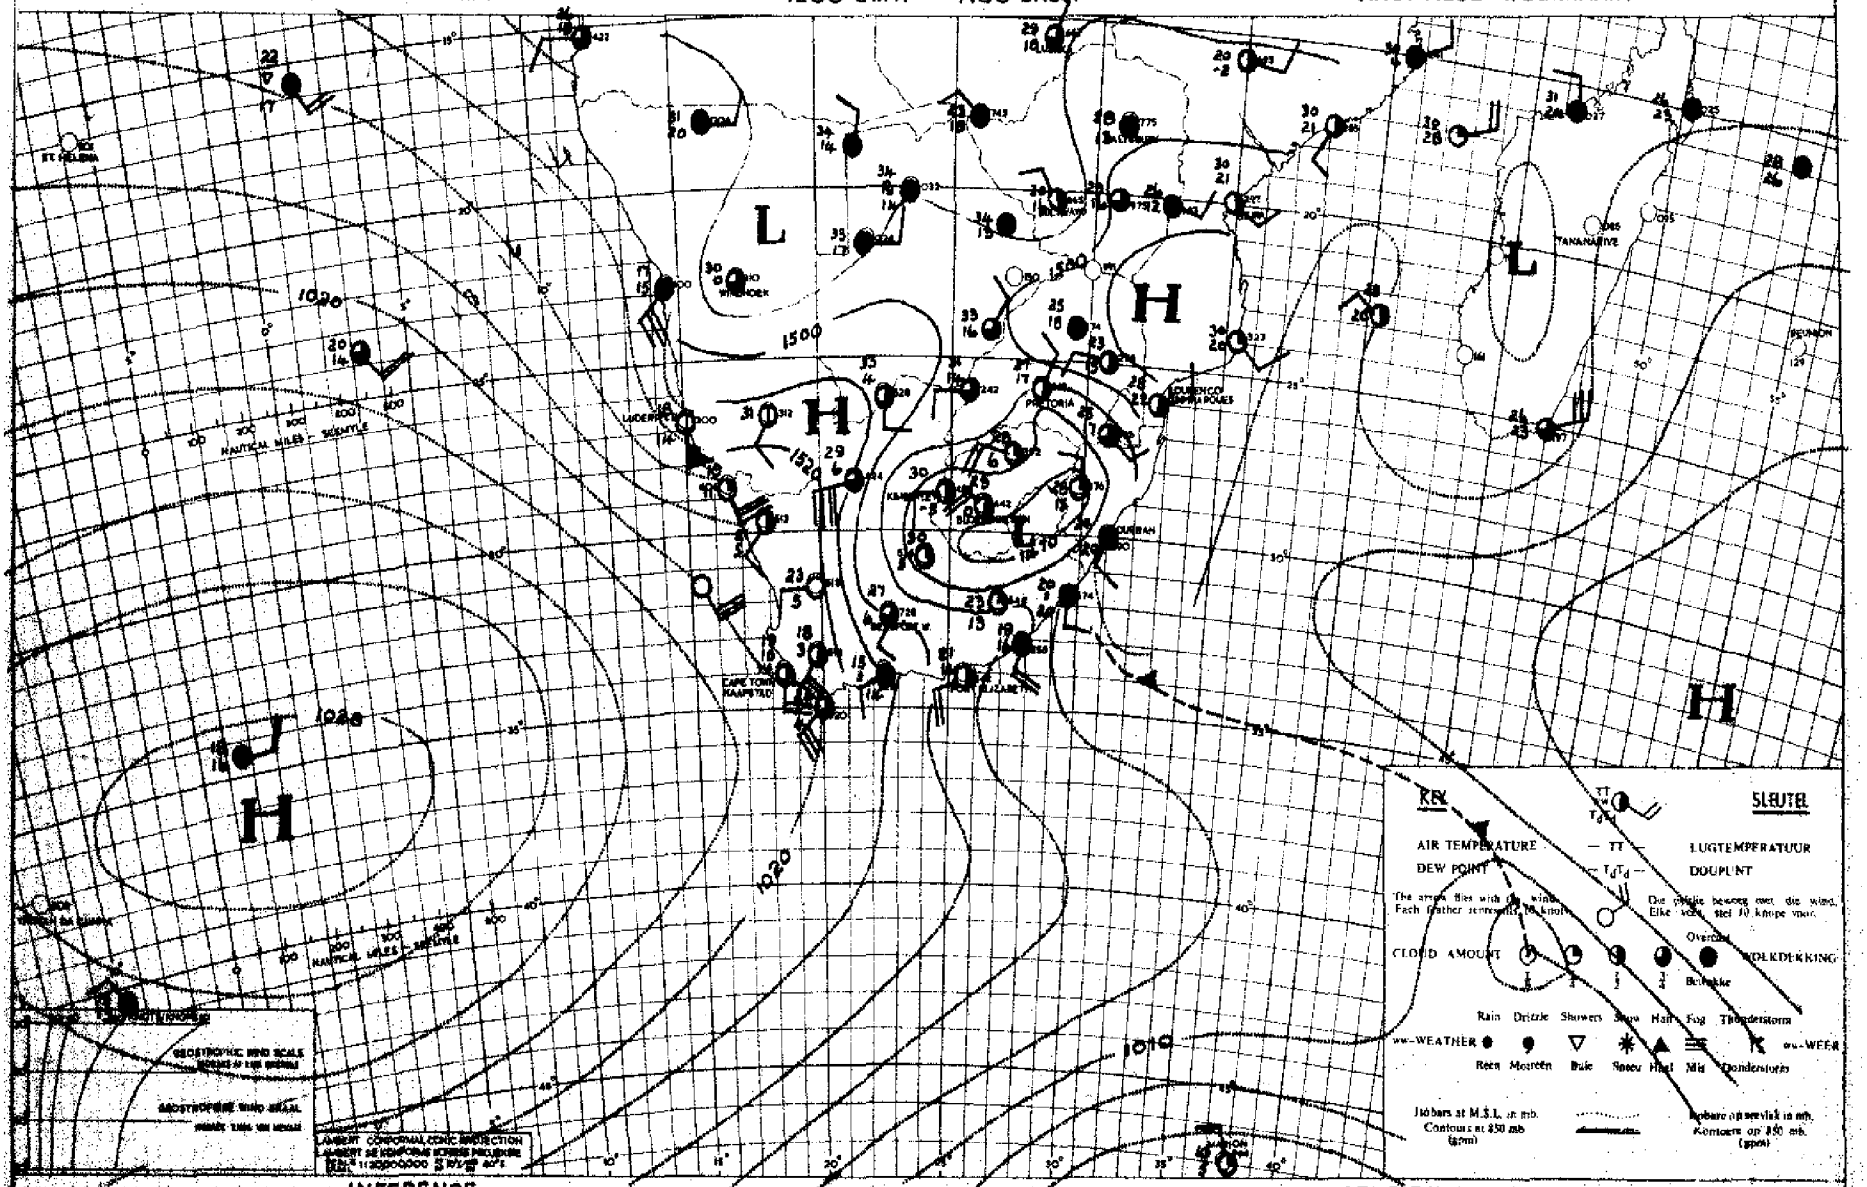
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 30 - 11 - 1961 DATUM AFLEIDING

The Atlantic high is ridging eastwards over the continent and the weather will clear over the western and central parts of the country. Pressures are, however, also rising over the south coast so that cloudy weather with rain showers or thundershowers will persist over the eastern parts of the Republic and over the northern parts

Die Atlantiese hoog stoot 'n rug oor die land in en die weer sal opklaar oor die westelike en sentrale dele van die land. Lugdruk styg egter ook vinnig langs die suidkus sodat bewolkte toestande met reënbuie of donderbuie sal voortduur oor die oostelike deel van die Republiek en die noordelike dele van Betsjoeanaland en Suidwes-Afrika.

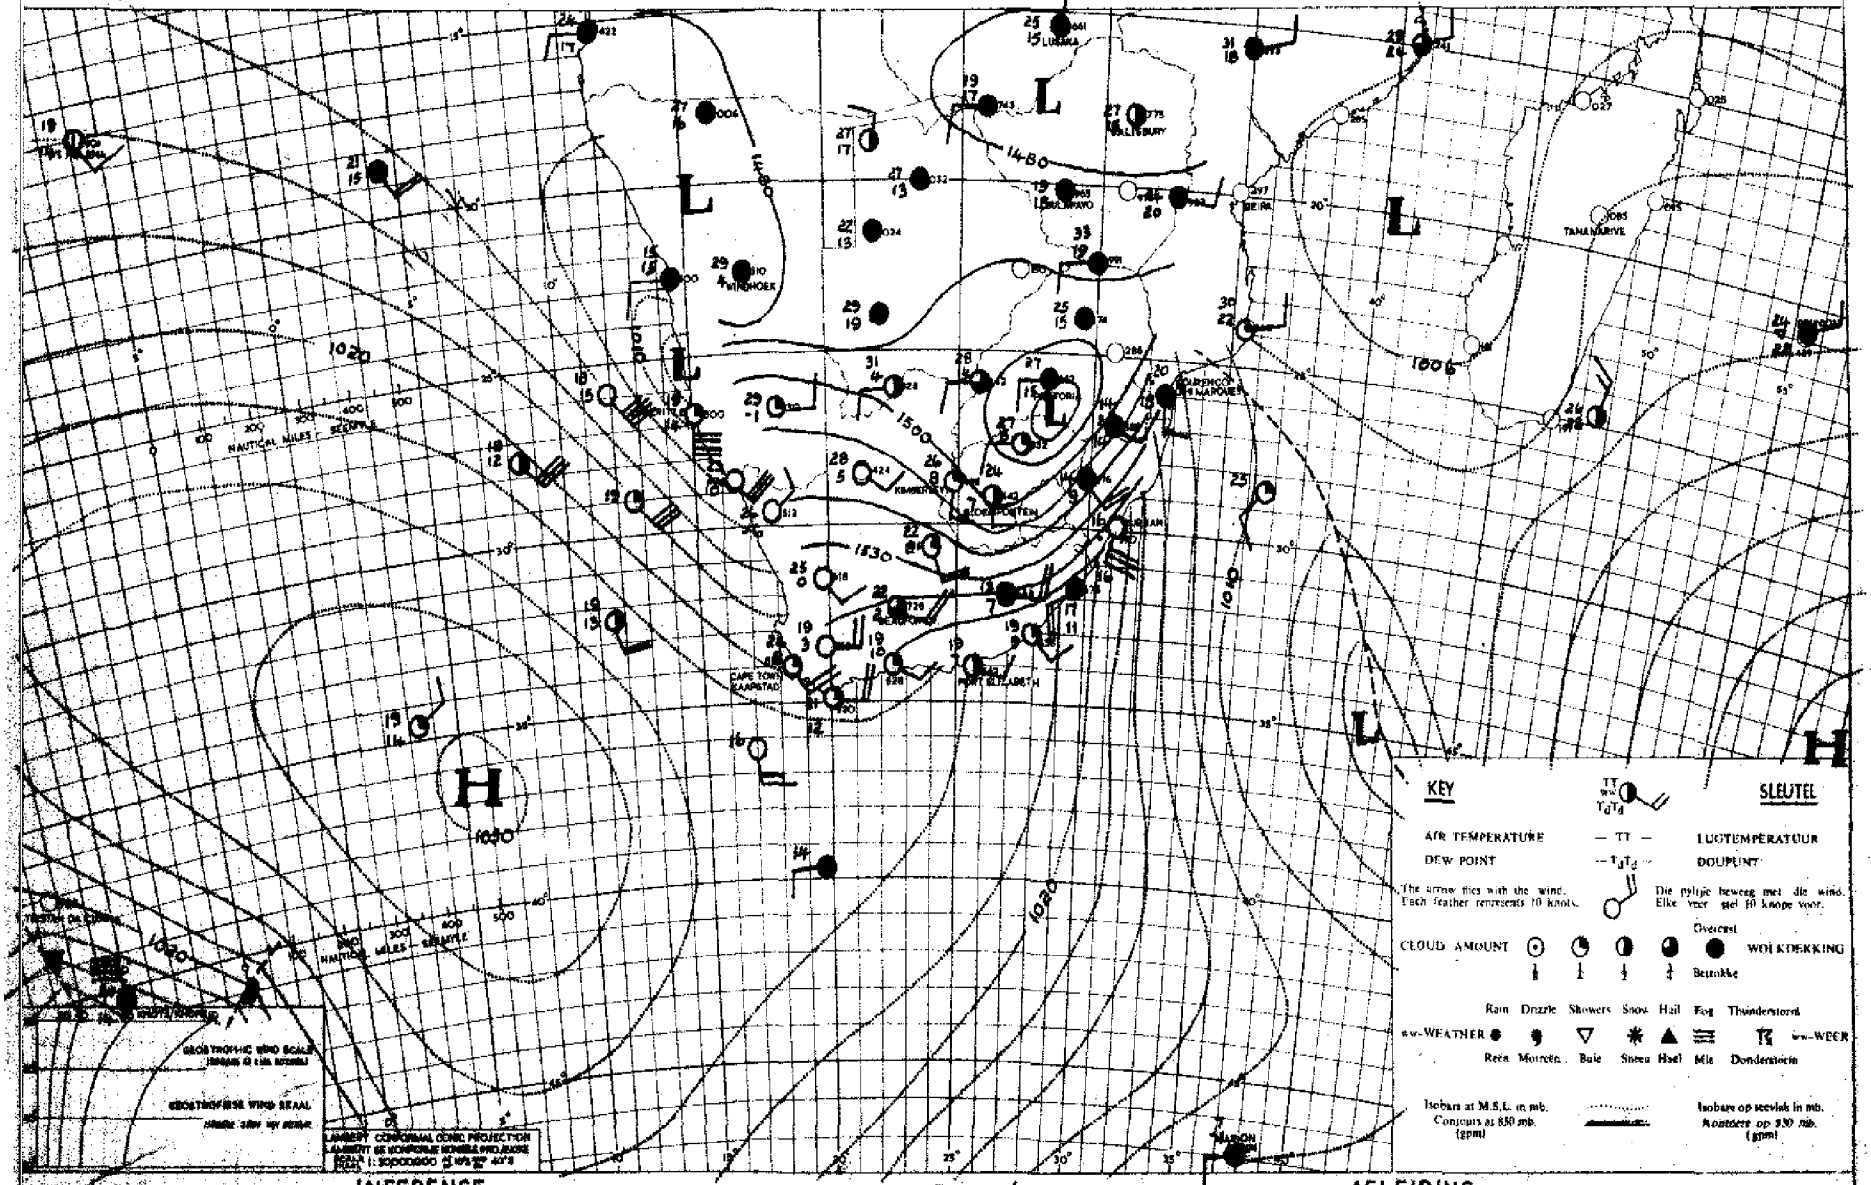
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 1 - 12 - 1961 DATUM AFLEIDING

The pressure is rising rapidly over the eastern parts of the country and is falling in the west. Cooler, overcast conditions with light rain or showers will spread northwards over most parts of the Transvaal. Over the remainder of South Africa it will be fair and warm and it will clear gradually over the Eastern Cape and later also over the southern parts of Natal

Drukke styg vinnig oor die oostelike dele van die land en daal in die weste. Koeler bewolkte toestande met ligte reën of buie sal noordwaarts uitbrei oor meeste dele van die Transvaal. Oor die res van Suid-Afrika sal dit redelik mooiweer en warm wees en dit sal geleidelik opklaar oor Oos-Kaapland en later ook oor die suidelike dele van Natal

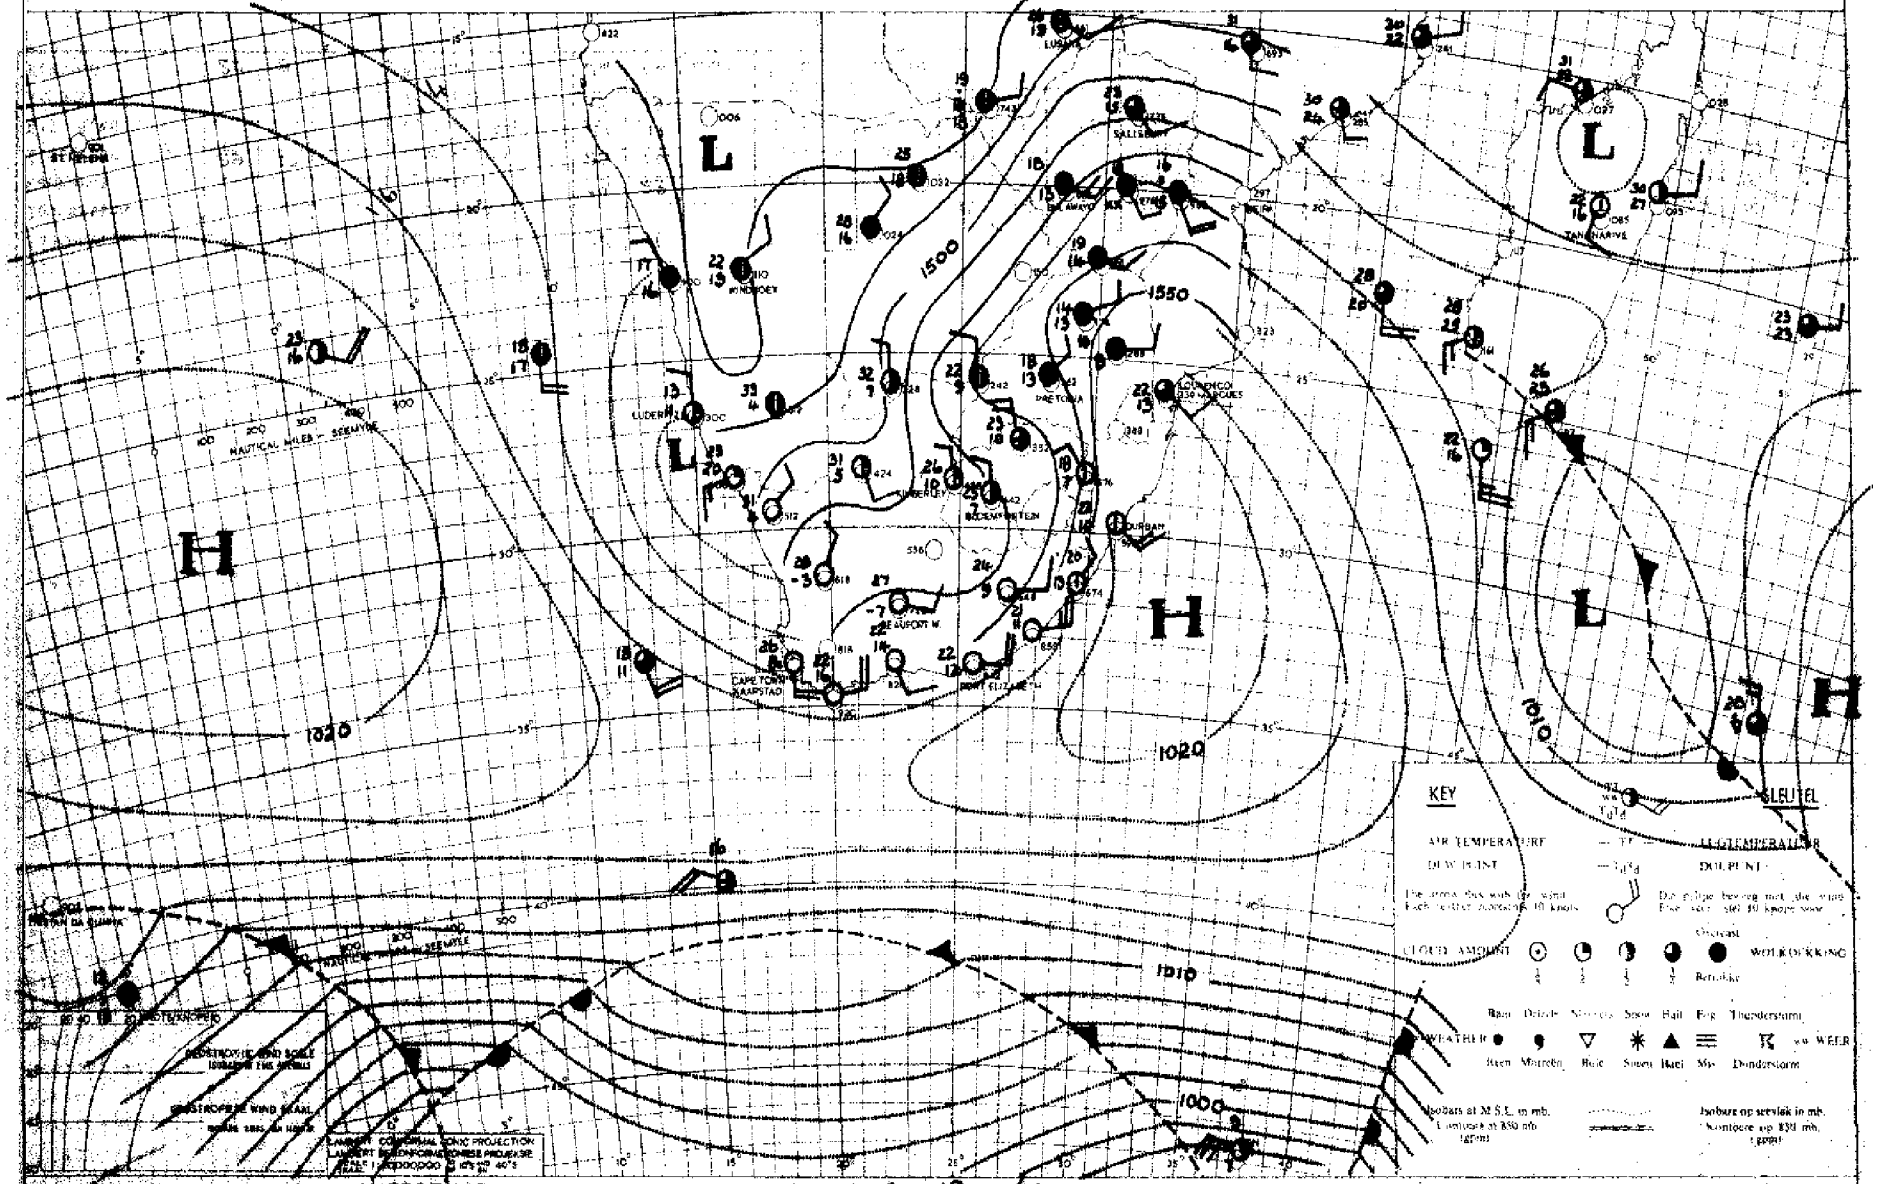
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 2 - 12 - 61 DATUM

With the high over the eastern part of the country and a trough over the west coast, it is expected that the stream of humid air from the north will spread over most of the interior. Scattered rain and / or thundershowers will occur.

AFLEIDING

Met die hoog oor die oostelike deel van die land en trog oor die weskus, sal die stroom van betreklik vogtige lug vanaf die noorde uitbrei oor meeste dele van die binneland sodat verspreide reën- en / of donderbuie sal uitsak.

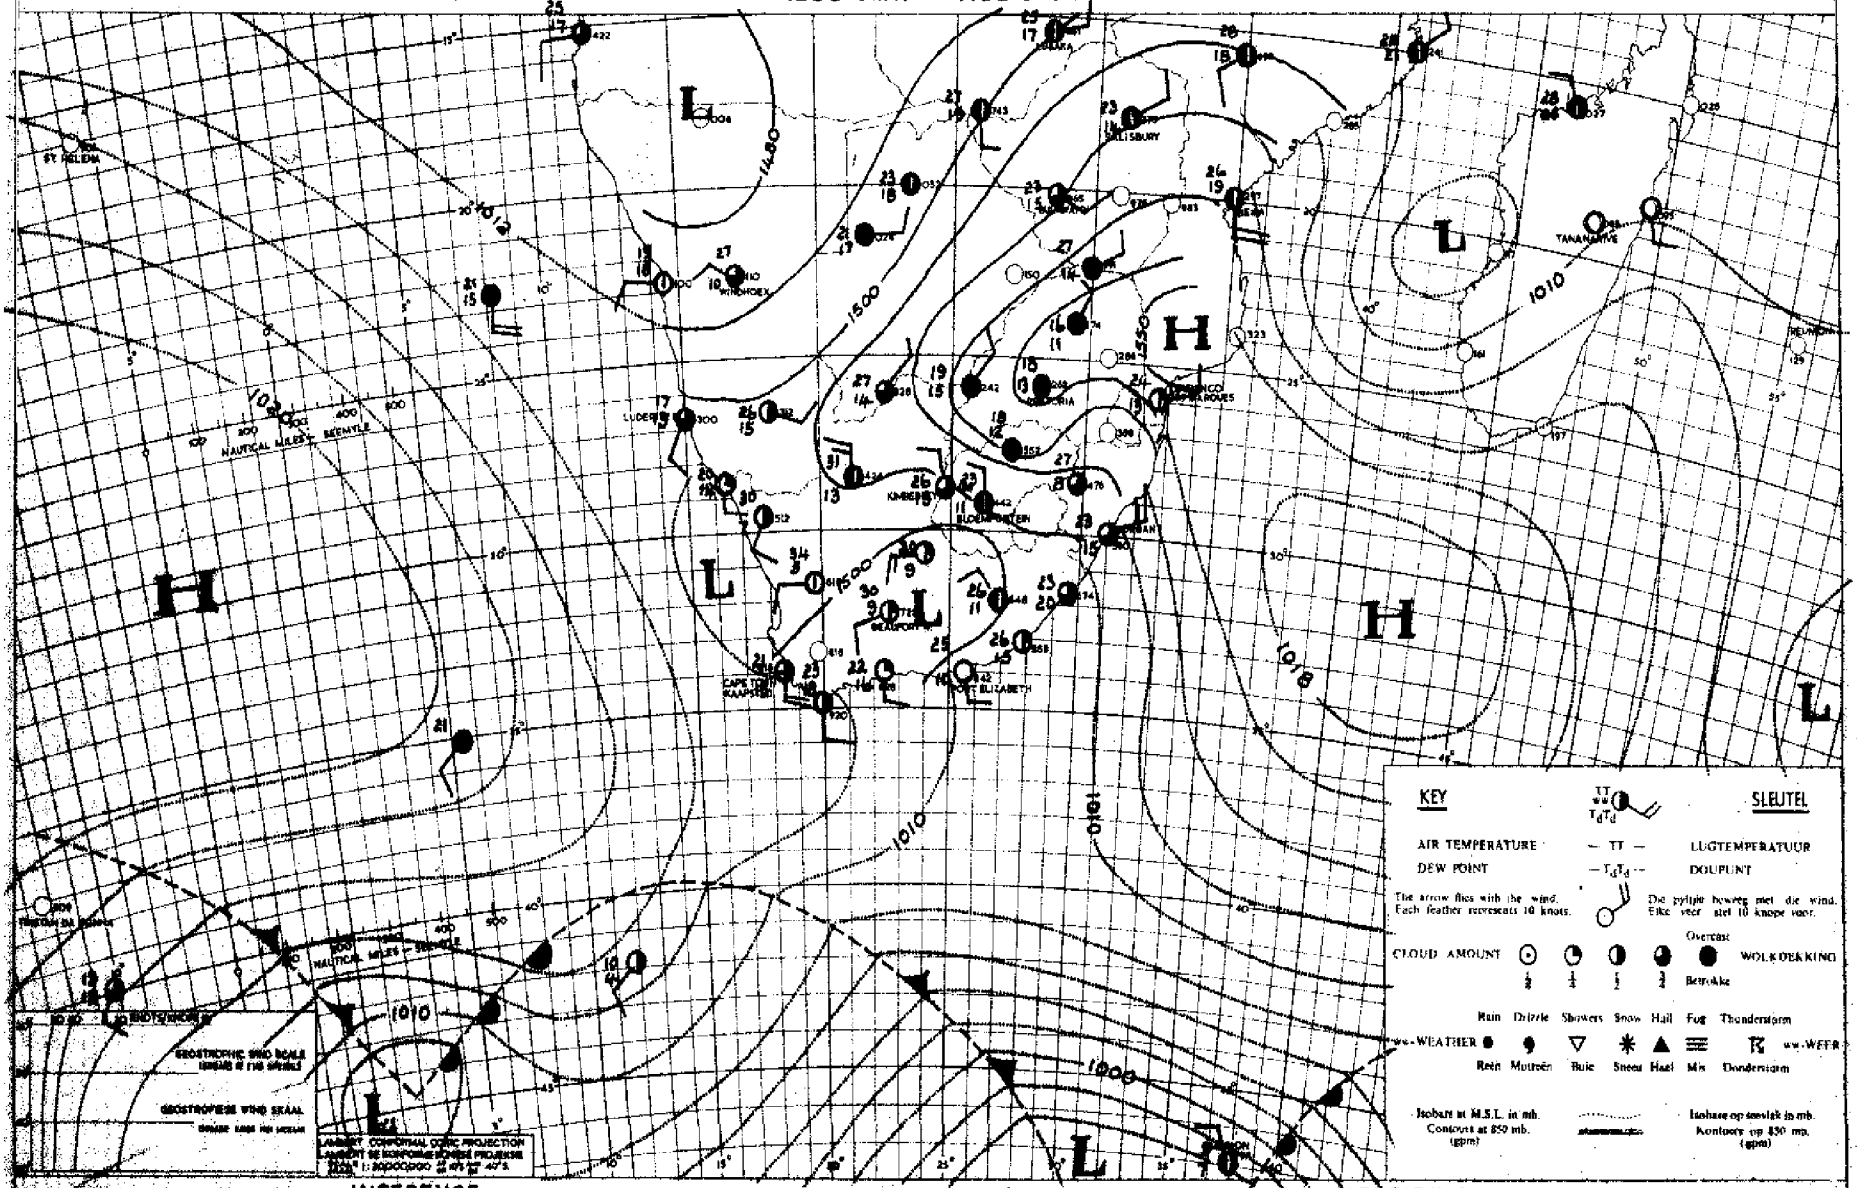
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

Humid air is moving southwards over the interior. With the low pressure area over the southern interior, showers are expected over most of the eastern, northeastern and northern regions.
It will be mainly fair along the coastal areas.

DATE 3 - 12 - 1961 DATUM

AFLEIDING

Vogtige lug beweeg suidwaarts oor die binneland. 'n Laag lê oor die suidelike binneland en buie word verwag oor die meeste dele van die oostelike, noordoostelike en noordelike gebiede.
Dit sal mooiweer of affens bewolk wees langs die kusstreke.

INFERENCE

A ridge of high pressure is moving round the Cape in the rear of a cold front. Along the eastern half of the Cape South coast, the Cape southwest coast and the Natal coast, it will be cloudy with occasional rain and showers. Scattered thundershowers will develop over the Transvaal and Natal interior while isolated thundershowers will develop over Bechuanaland, the Free State, the Northern areas of South West Africa and the Cape north of the Orange River.

DATE 4 - 12 - 61 DATUM

AFLEIDING

'n Rug van hoë druk beweeg oostwaarts rondom die Kaap. Langs die oostelike helfte van die Kaapse Suidkus, die Kaapse suidooskus en die Natalkus sal dit bewolk wees met reë en buie of en toe. Verspreide donderbuie sal ontwikkel oor die Transvaal en Natalse binneland. Los donderbuie sal ontwikkel oor Betsjoeanaland, die Vrystaat, die Noordooste dele van Suidwes-Afrika en die Kaap noord van die Oranjerivier.

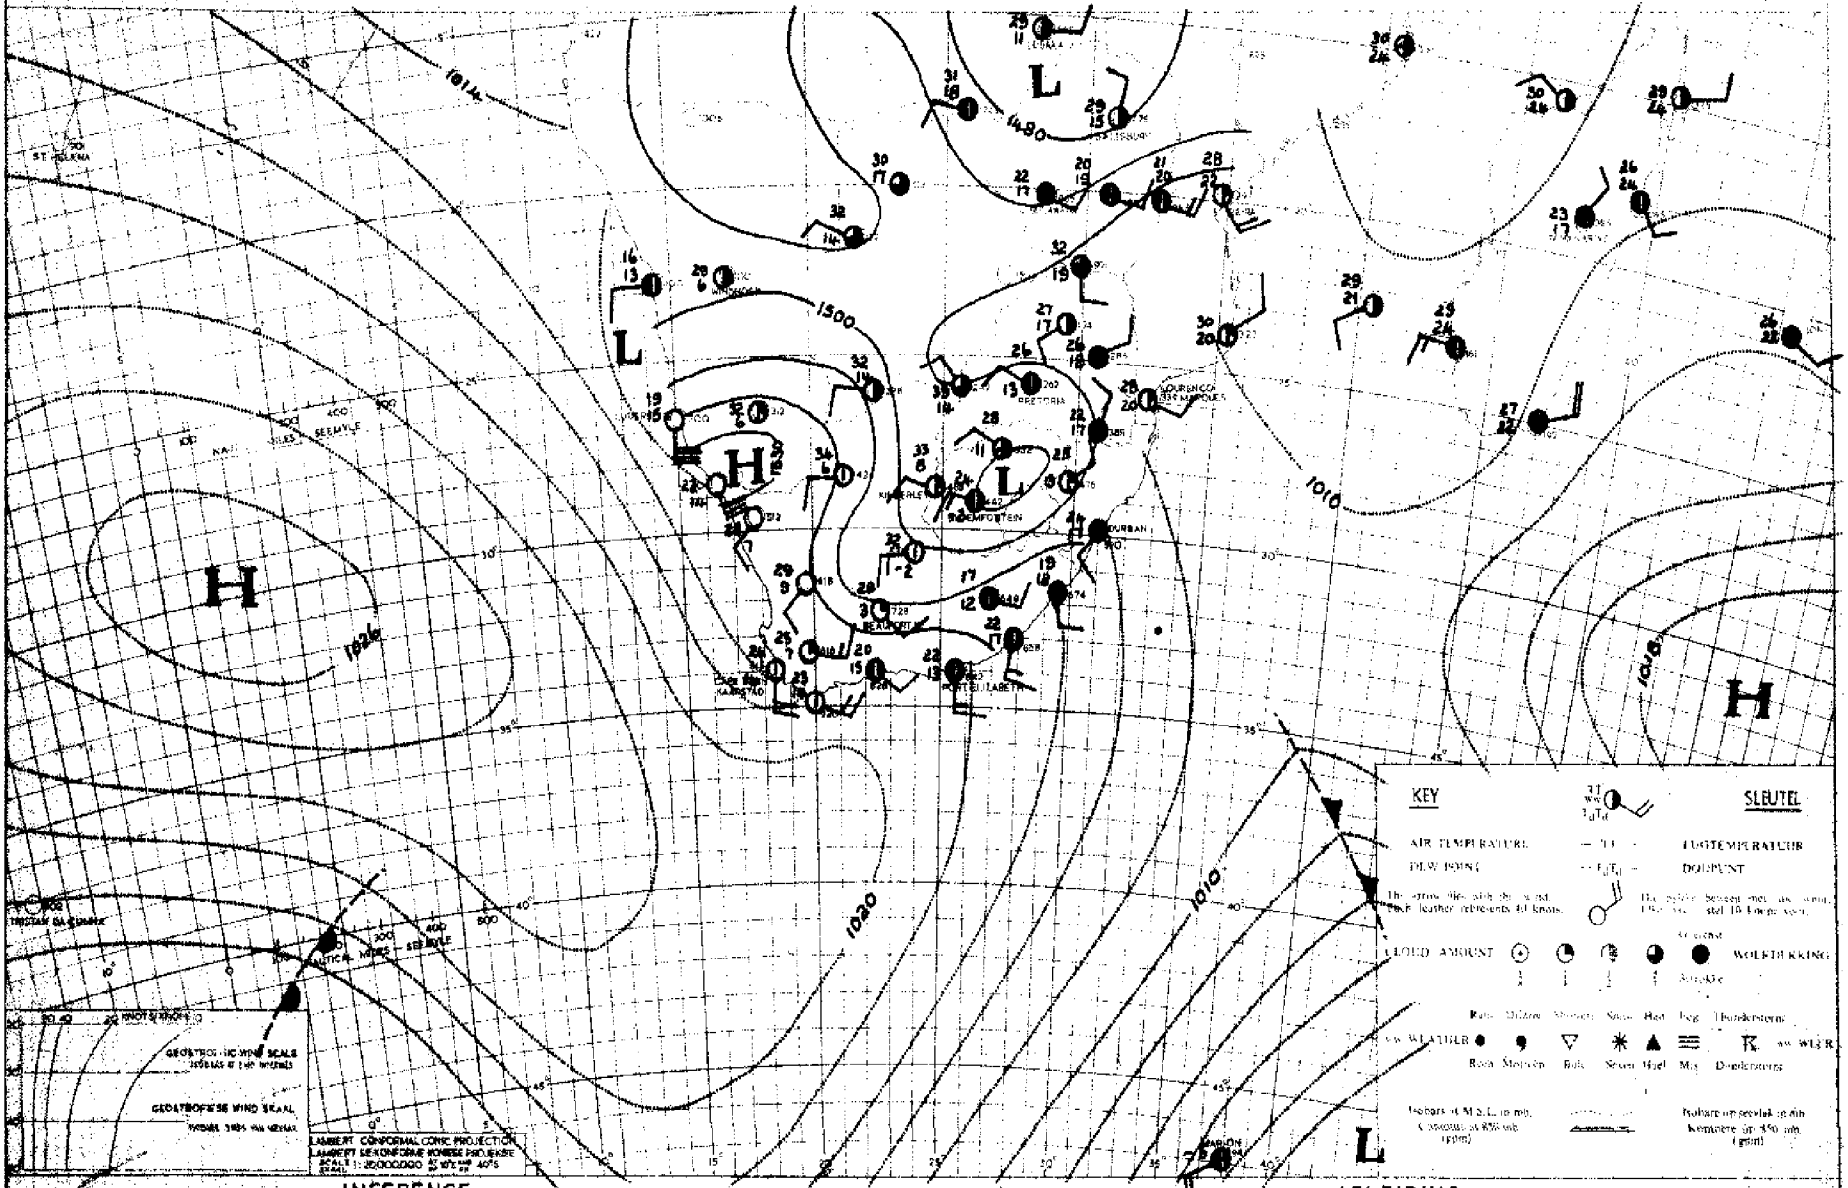
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST SINOPTIESE WEERKAART



INFERENCE DATE 5 - 12 - 1961 DATUM AFLEIDING

The Atlantic high is ridging eastwards and cooler, cloudy conditions with rain will occur along the Cape southeast coast, the Natal coast and adjacent interior. With the surface low over the interior cloudy conditions with thundershowers will occur over the eastern and northeastern parts.

Die Atlantiese hoog beweeg ooswaarts en koeler bewolkte toestande met reën sal voorkom oor die suidoostelike Kaapse kusstreke, die Natalkus en aangrensende binneland. Met die oppervlakte-laag oor die binneland word bewolkte toestande met donderbuie oor die oostelike en noordoostelike dele verwag.

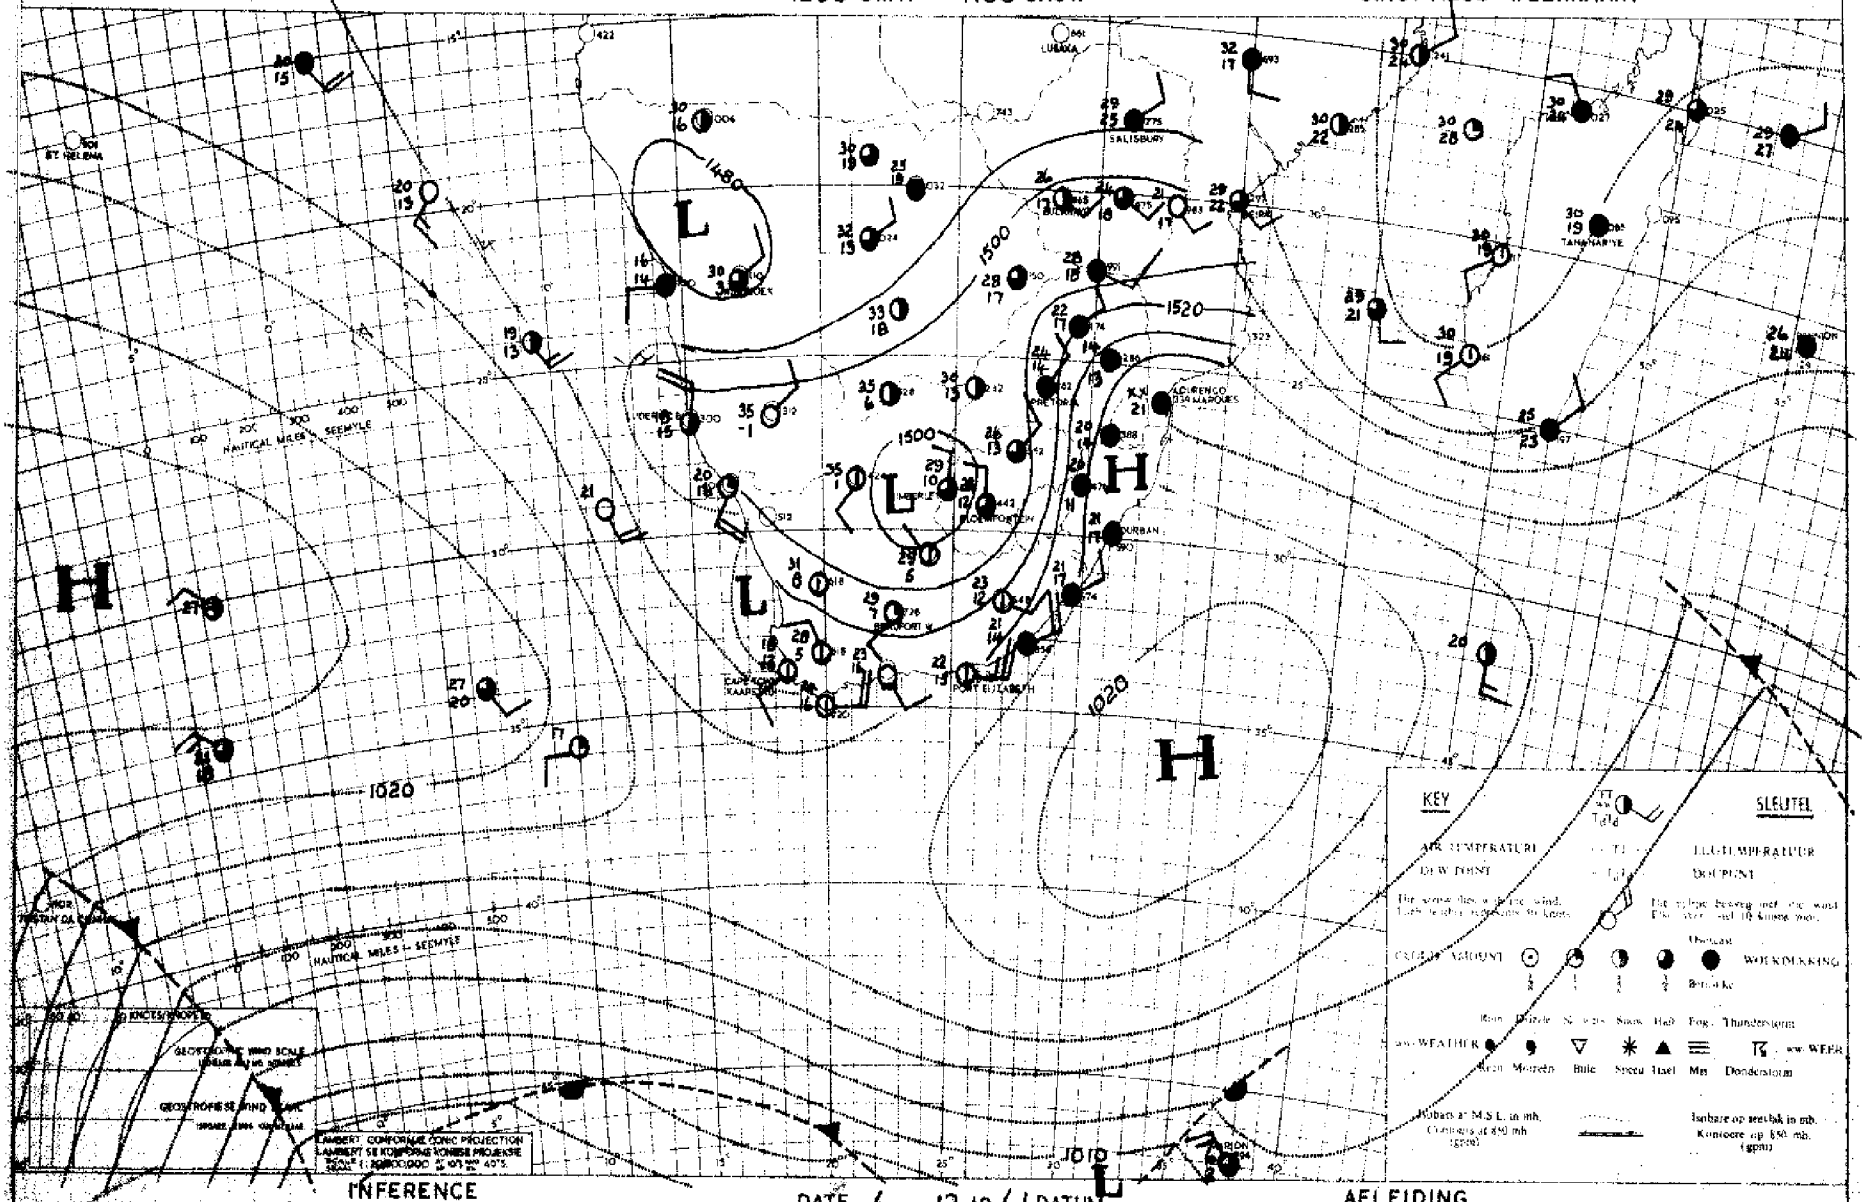
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

With the low centred over the interior, scattered thundershowers are expected over the Transvaal, Northern Free State and Northern Natal while isolated thundershowers will develop over the remainder of the interior except the southern and western halves of the Cape. It will be cloudy over the Northern Natal coast, South West Africa coast and the Cape west coast elsewhere fair and warm.

DATE 6 - 12-9 61 DATUM

AFLEIDING

Met die laag oor die binneland, word verspreide donderbuie verwa oor die Transvaal, Noordelike Vrystaat en die Noordelike Natal. Los donderbuie sal voorkom oor die res van die binneland behalwe die suidelike en westelike dele van Kaapland. Dit sal bewolk wees oor die Noordelike Natalkus, die kus van Suidwes-Afrika en die Kaapse Weskus. Elders sal dit redelik mooiweer en warm wees.

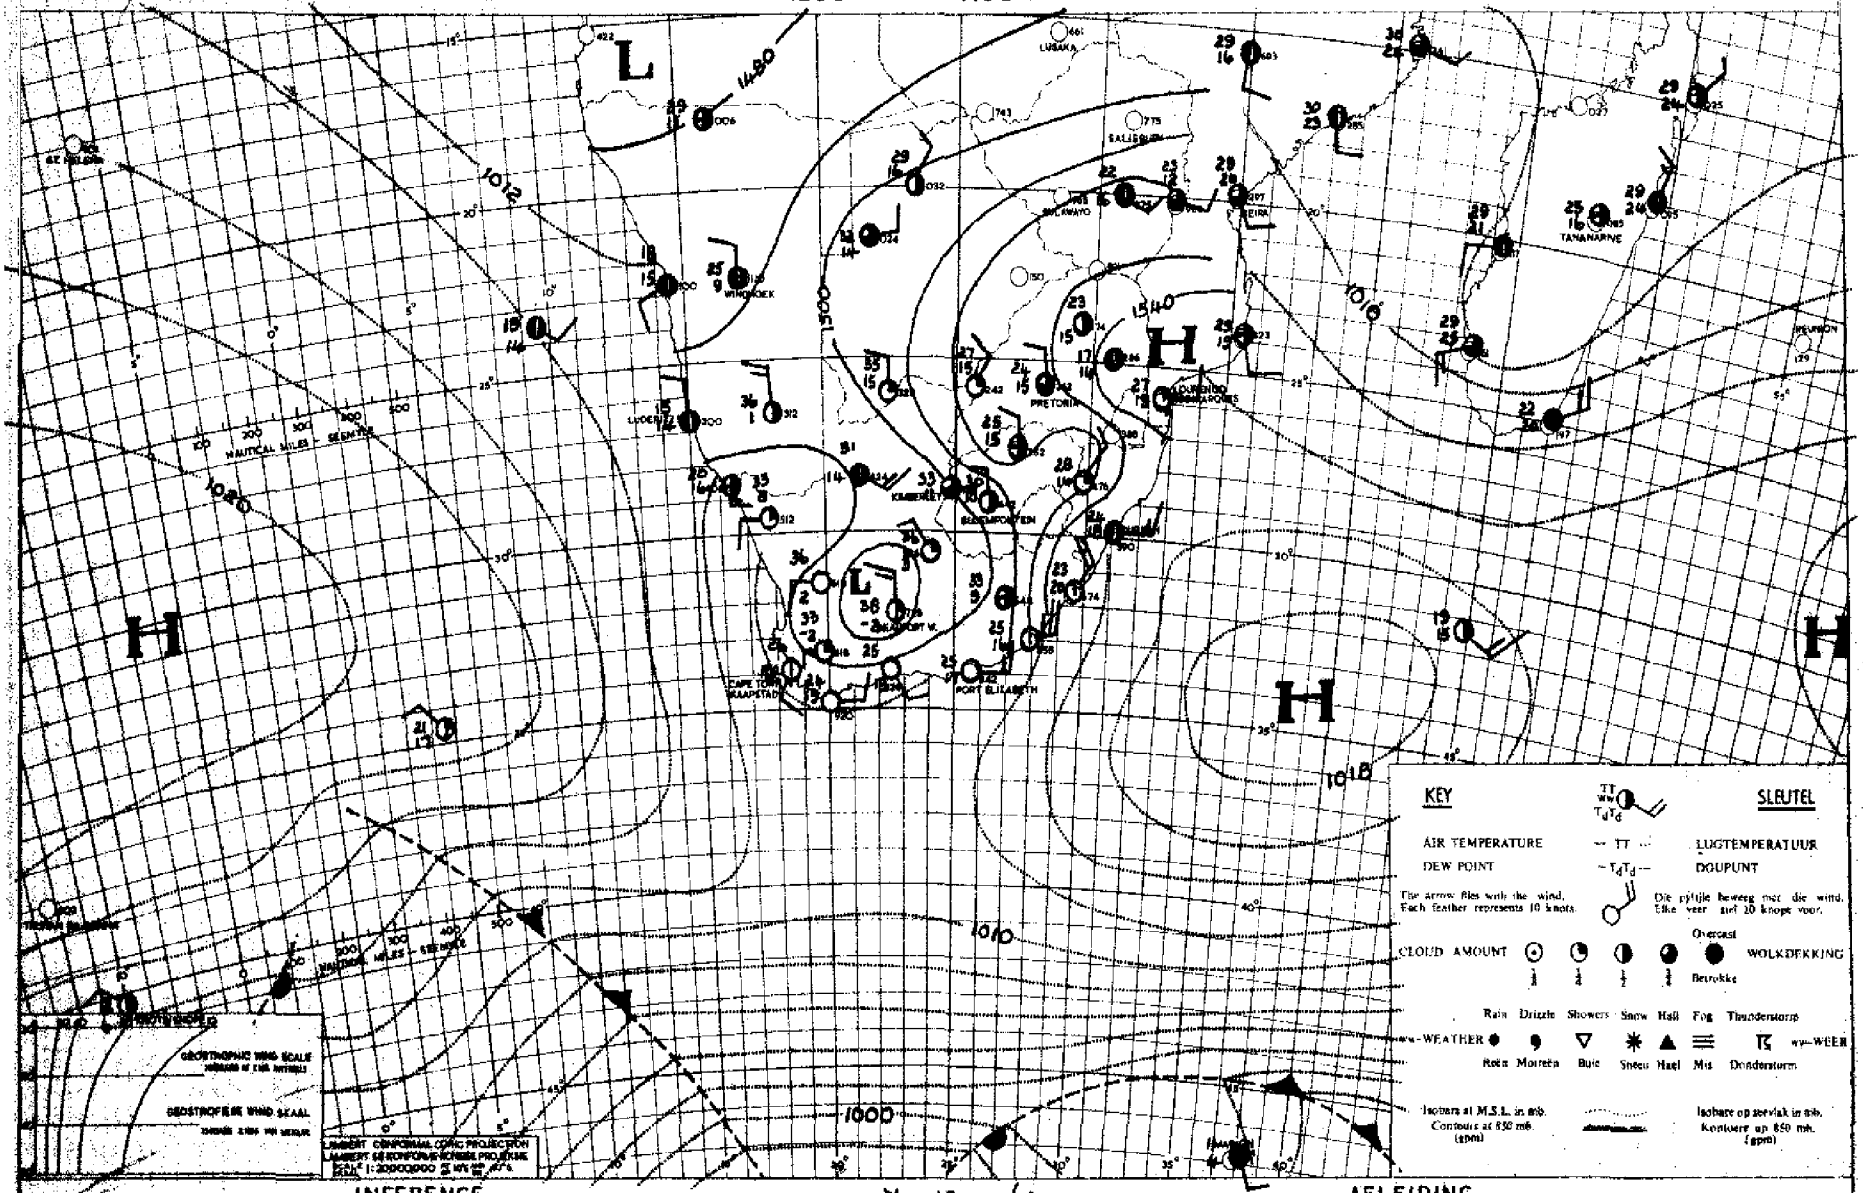
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 7 - 12 - 19 61 DATUM AFLEIDING

Humid air is flowing southwards over the interior and isolated thundershowers will develop over most of the country during the afternoon. A coastal low is moving eastwards and cloudy conditions will occur along the south coast.

Vogtige lug beweeg suidwaarts oor die land en los donderbuie sal in die namiddag oor meeste dele van die binneland ontwikkel. 'n Kuslaag beweeg ooswaarts en bewolkte toestande sal langs die suidkus voorkom.

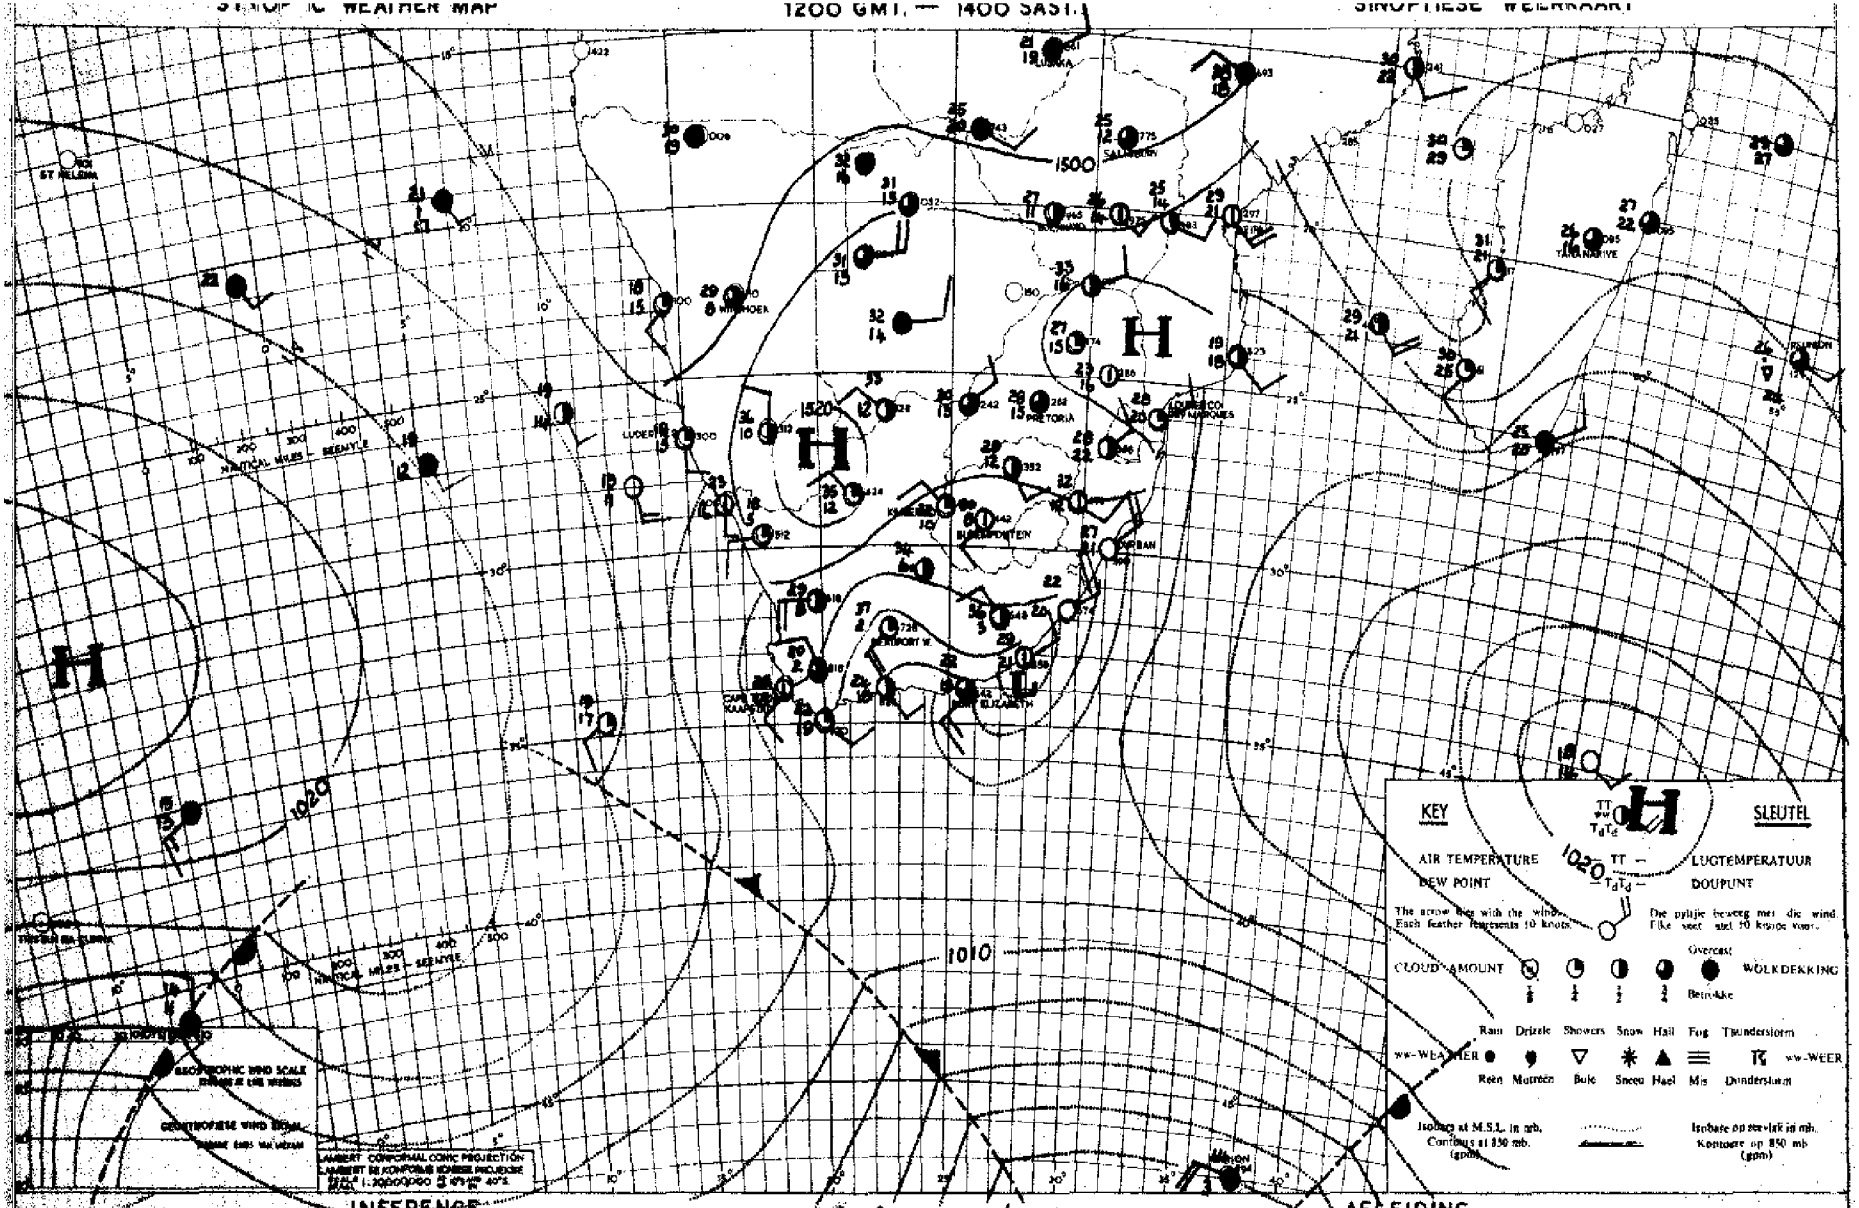
SYNOP 1C WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

Moist air continues to move over most of the interior from the north and scattered thundershowers will develop over Transvaal, Bechuanaland and the Natal interior while isolated thundershowers will develop over most of the remainder of the interior. Along the Cape South coast, the Cape Southeast coast and Natal coast it will be partly cloudy with isolated showers and thundershowers.

DATE 8 - 12 - 1961 DATUM

AFLEIDING

Vogtige lug beweeg nog oor meeste dele van die binneland vanuit die noorde en verspreide donderbuie sal ontwikkel oor Transvaal, Betsjoeanaland en die Natalse binneland. Los donderbuie sal ontwikkel oor meeste dele van die res van die binneland. Langs die Kaapse Suidkus, Suidooskus en die Natalkus sal dit gedeeltelik bewolk wees met los buie en donderbuie.

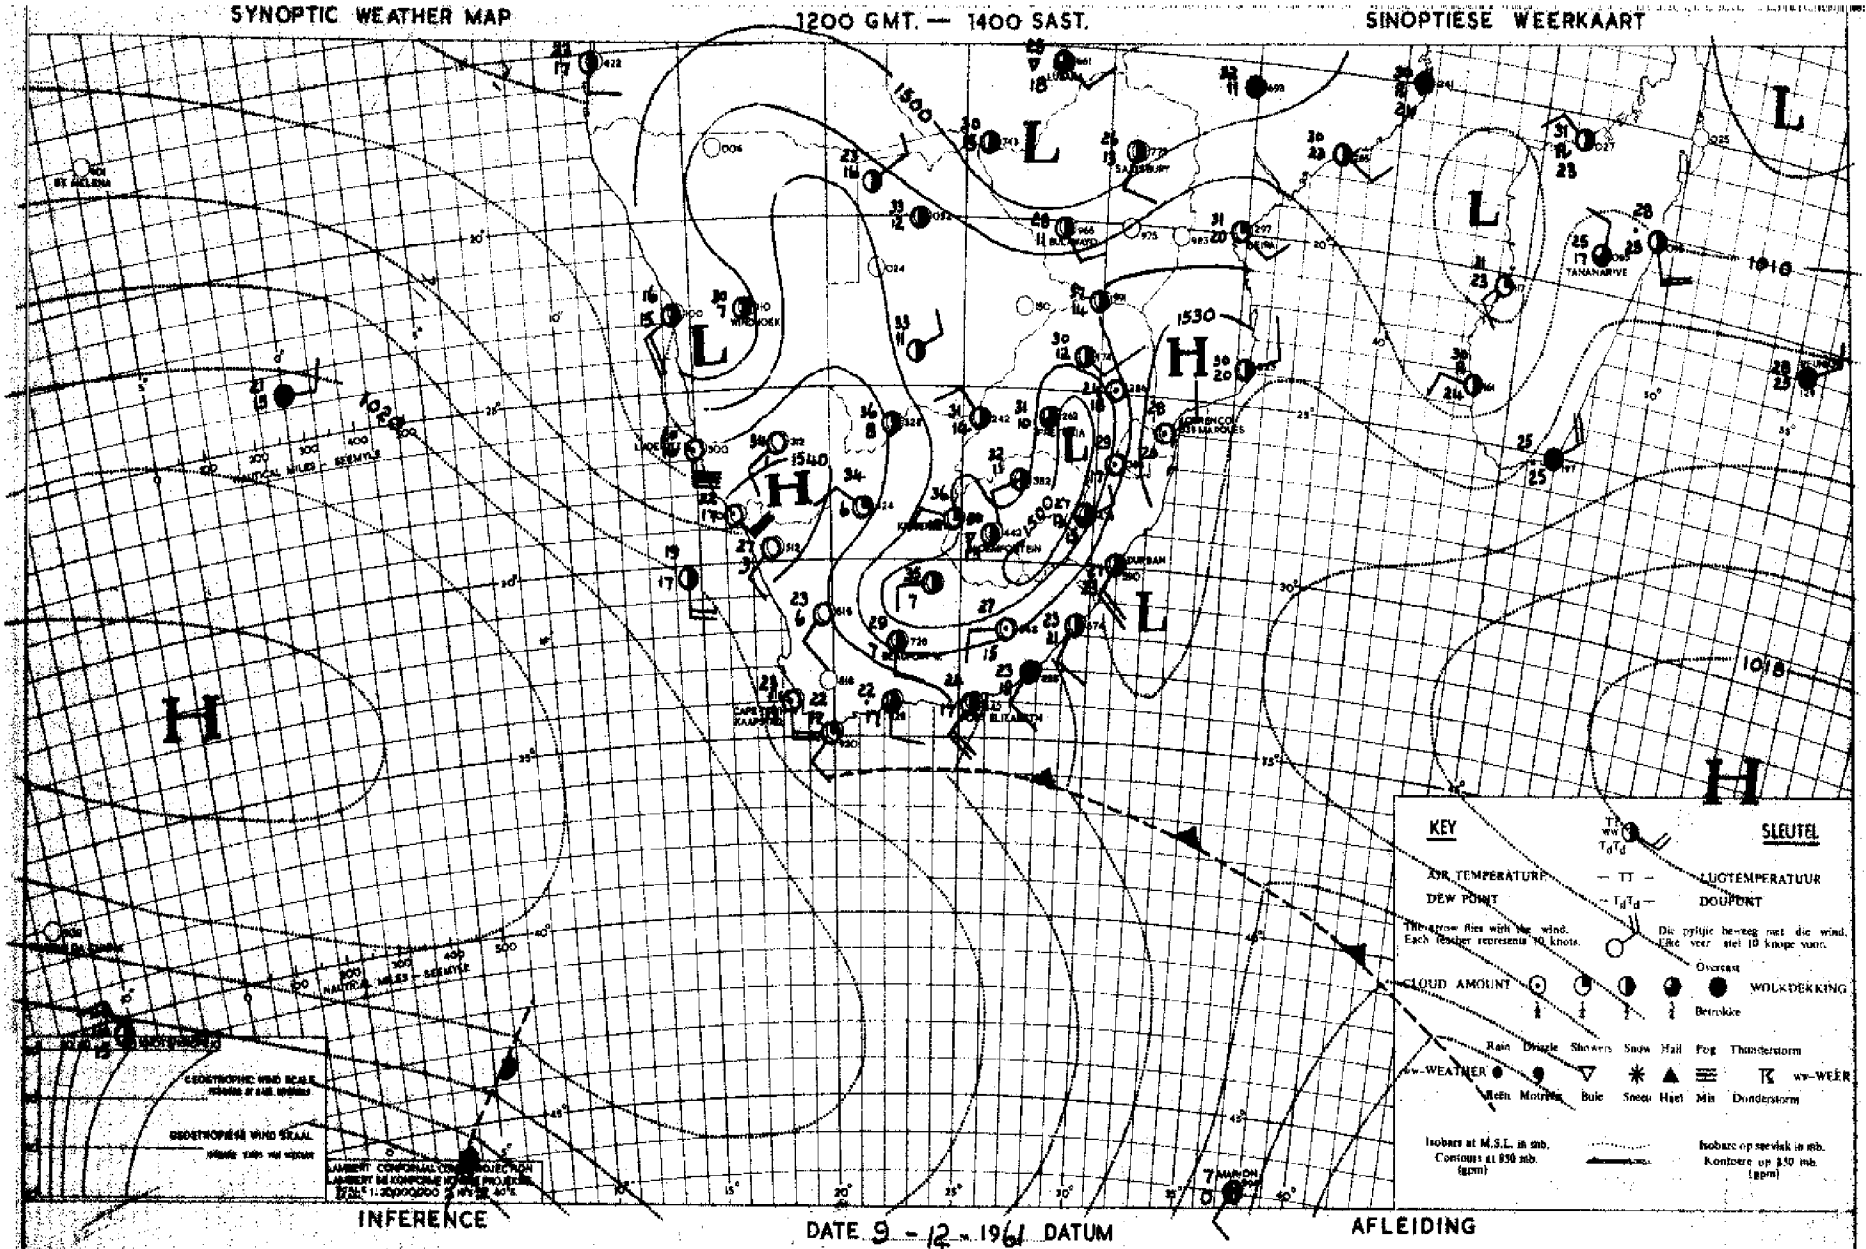
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 9 - 12 - 1961 DATUM AFLEIDING

With the low over the Free State, isolated thunder-showers will develop over the eastern areas of the country. Elsewhere it will be mainly fair.

Met die laag oor die Vrystaat, sal los donderbuie ontwikkel oor die oostelike dele van die binneland. Elders sal dit meesal redelik mooiweer wees.

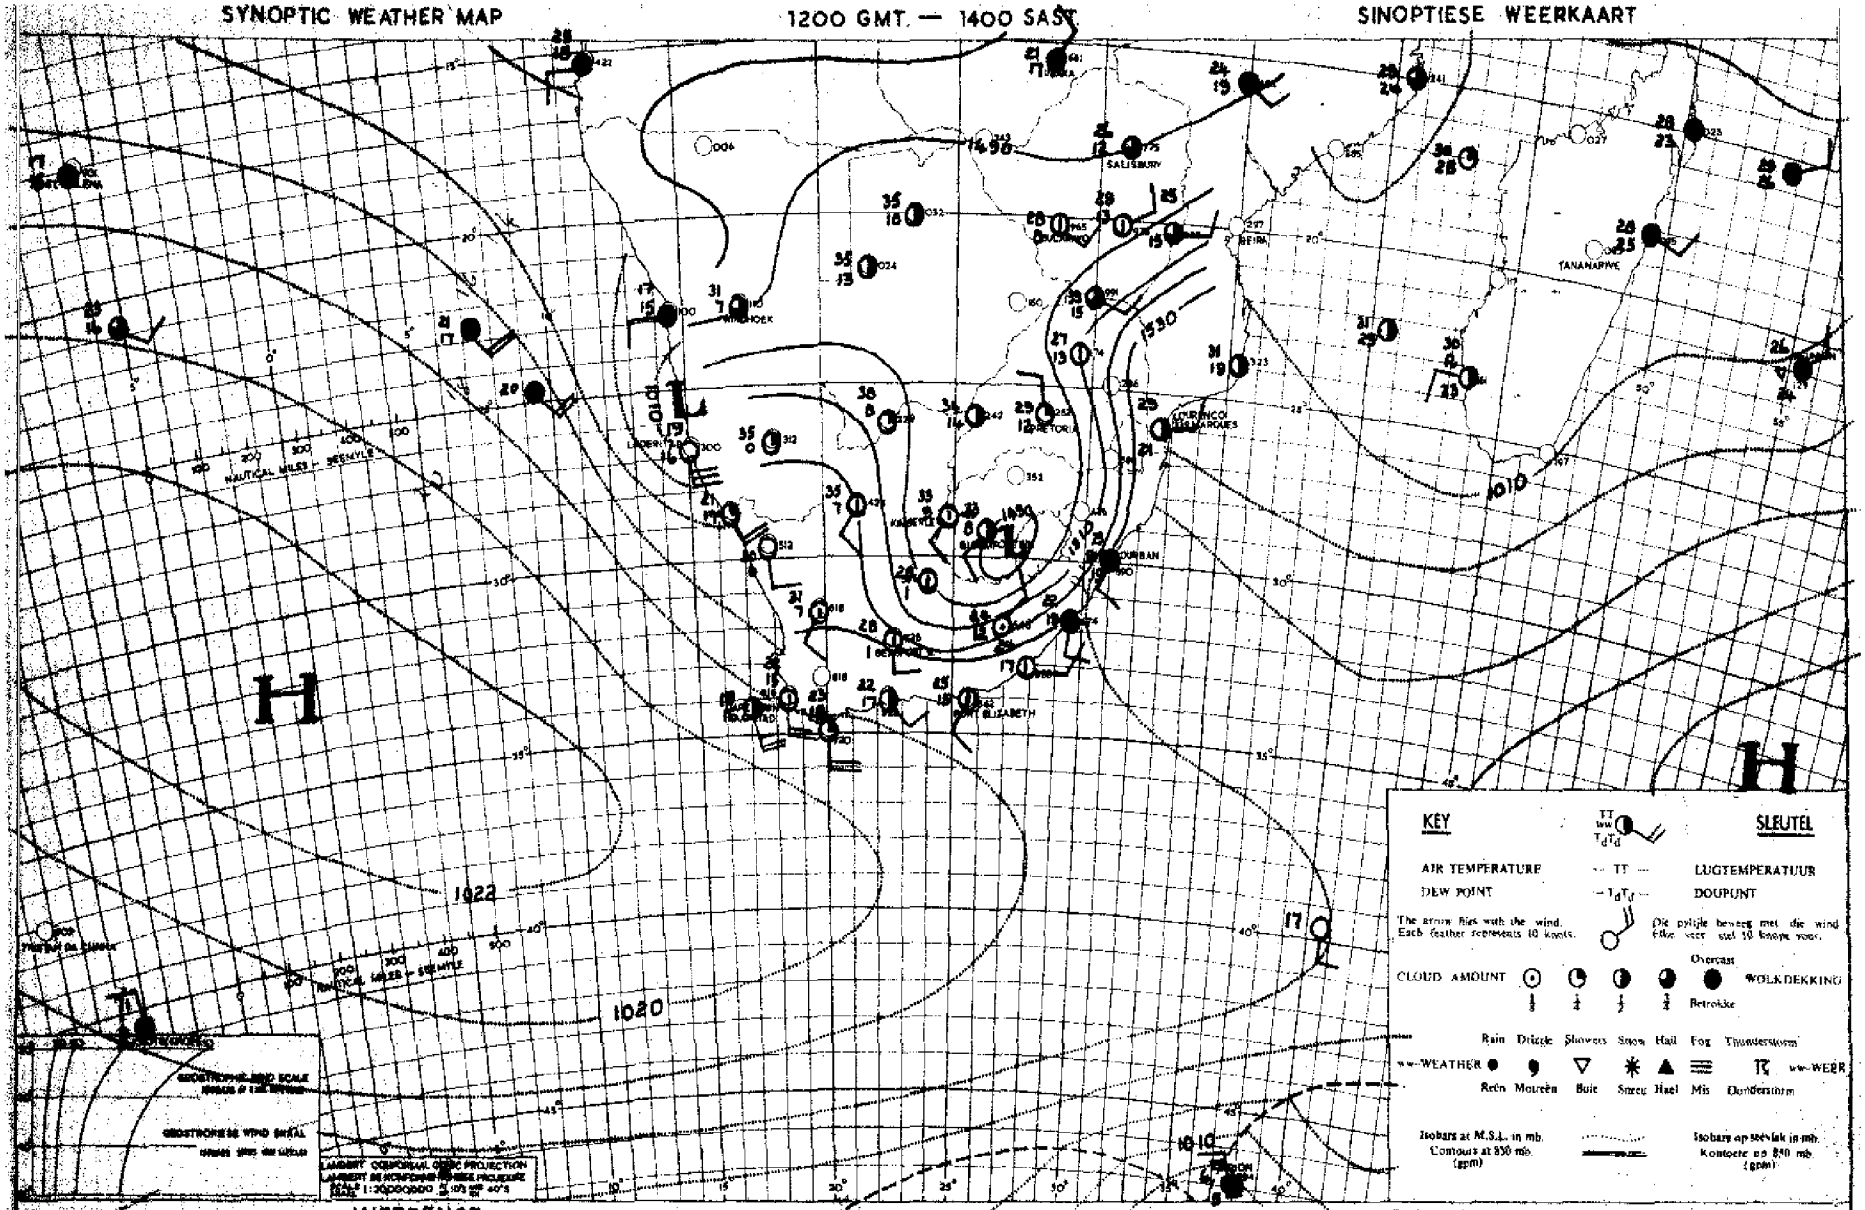
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE — DATE 10-12-1961 DATUM — AFLEIDING

The west coast low is moving southwards and the pressure is rising over the eastern parts of the country. Thundershowers will develop today over the northeastern and eastern parts of South Africa and will spread over the Northern Cape and Free State tomorrow.

Die weskuslaag beweeg suidwaarts en drukke styg oor die oostelike dele van die land. Donderbuie sal vandag voorkom oor die noordoostelike en oostelike dele van Suid-Afrika en sal môre uitbrei oor Noord-Kaapland en die Vrystaat.

The low over the interior shows little sign of moving and scattered thundershowers will occur over the Transvaal, Natal, the Free State, Eastern Cape and Bechuanaland. Cooler, cloudy weather with showers will advance over the southwestern, southern and eastern coastal regions.

Die laag oor die binneland sal nie veel beweeg nie sodat verspreide donderbuie weer sal voorkom oor Transvaal, Natal, die Vrystaat, Oos-Kaapland en Betsjoeanaland. Koeler, bewolkte weer met buie sal uitbrei oor die suidwestelike, suidelike en oostelike kusstreke.

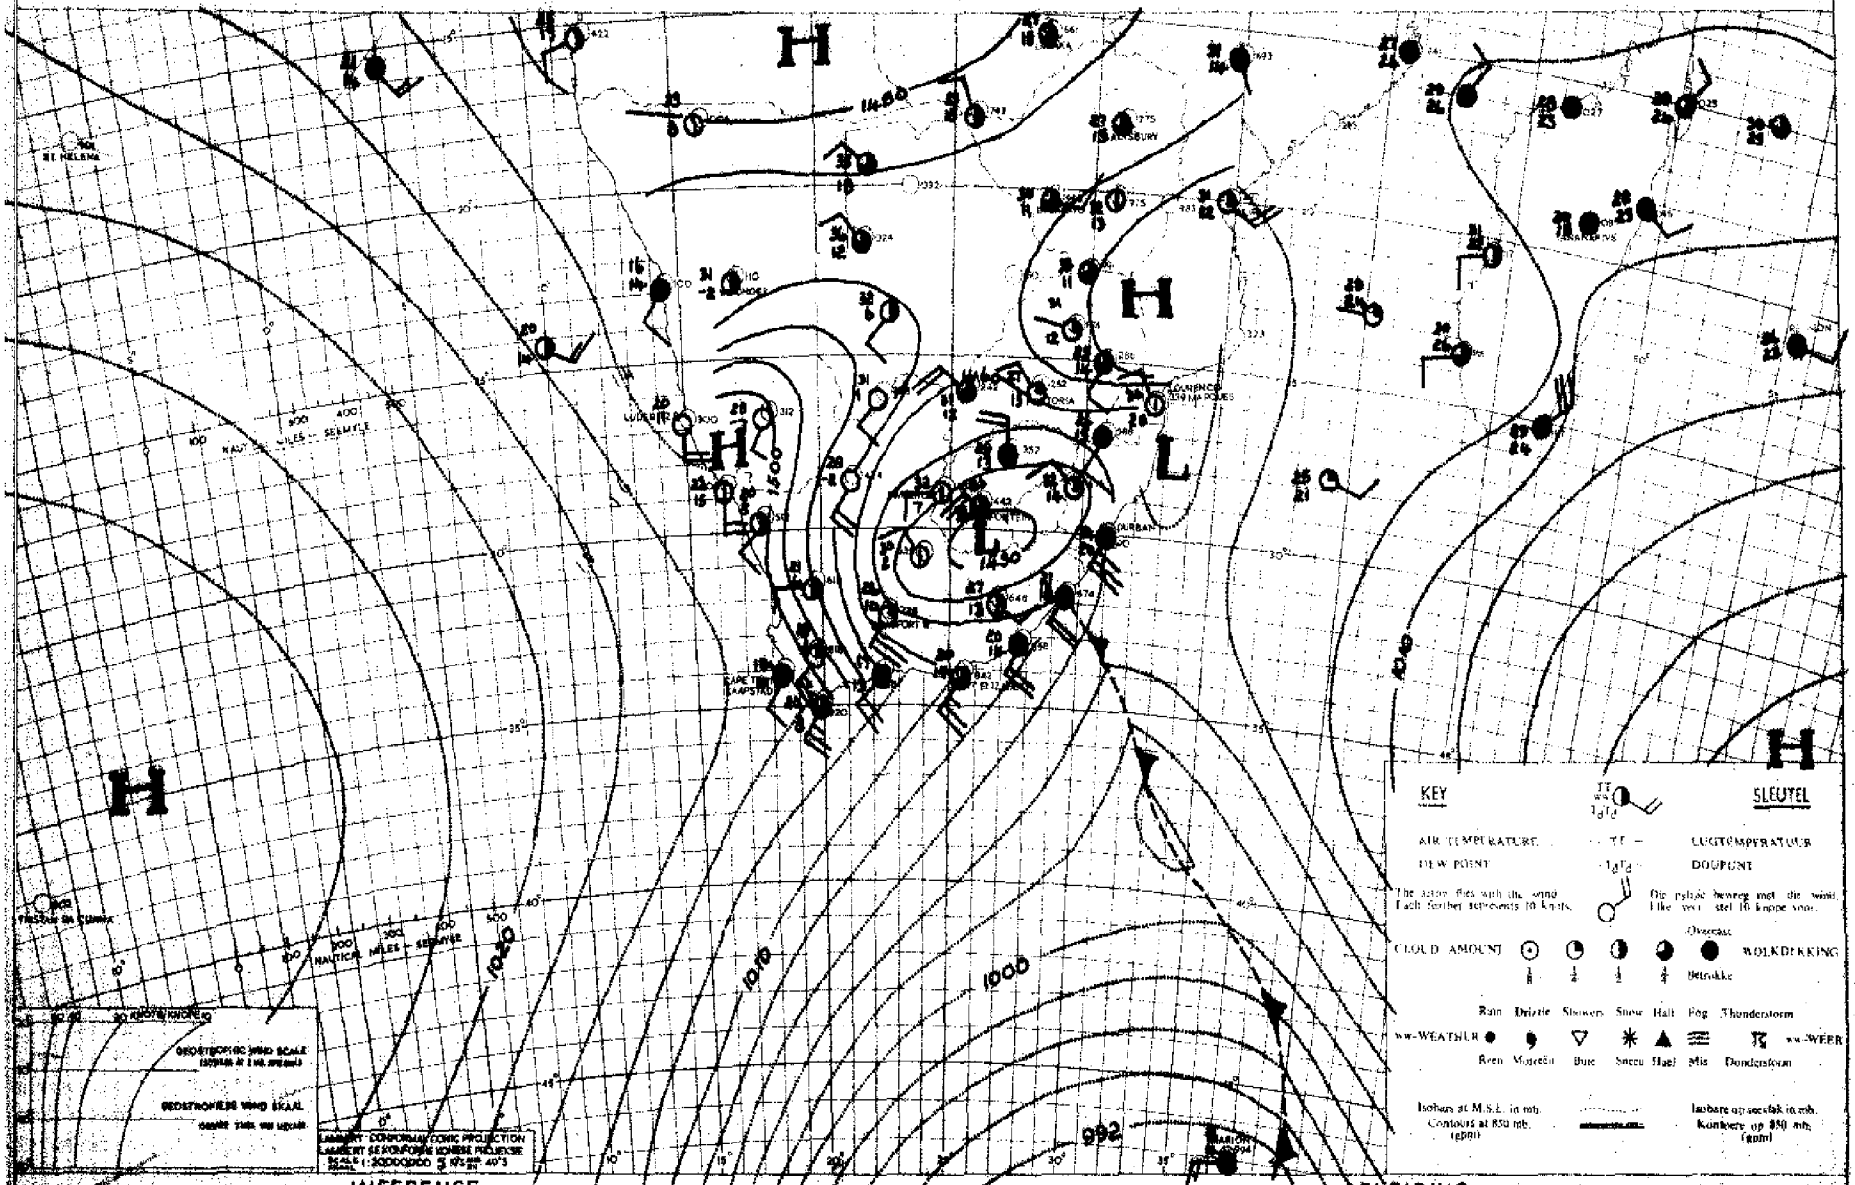
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 12 - 12 - 1961 DATUM AFLEIDING

The low over the Southern Free State is moving northeastwards slowly and will weaken. Local thundershowers will fall over the northeastern parts of South Africa. Cooler, humid air is moving northeastwards over the coastal areas and the adjacent interior and rain or showers will fall over these areas.

Die laag oor die Suid-Vrystaat beweeg stadig noordoostwaarts en verswak. Donderbuie sal uitsak op plekke oor die noordoostelike dele van Suid-Afrika. Koeler, vogtige lug beweeg noordoostwaarts oor die kusgebiede en die aangrensende binneland en buie of reën sal uitsak oor hierdie gebiede.

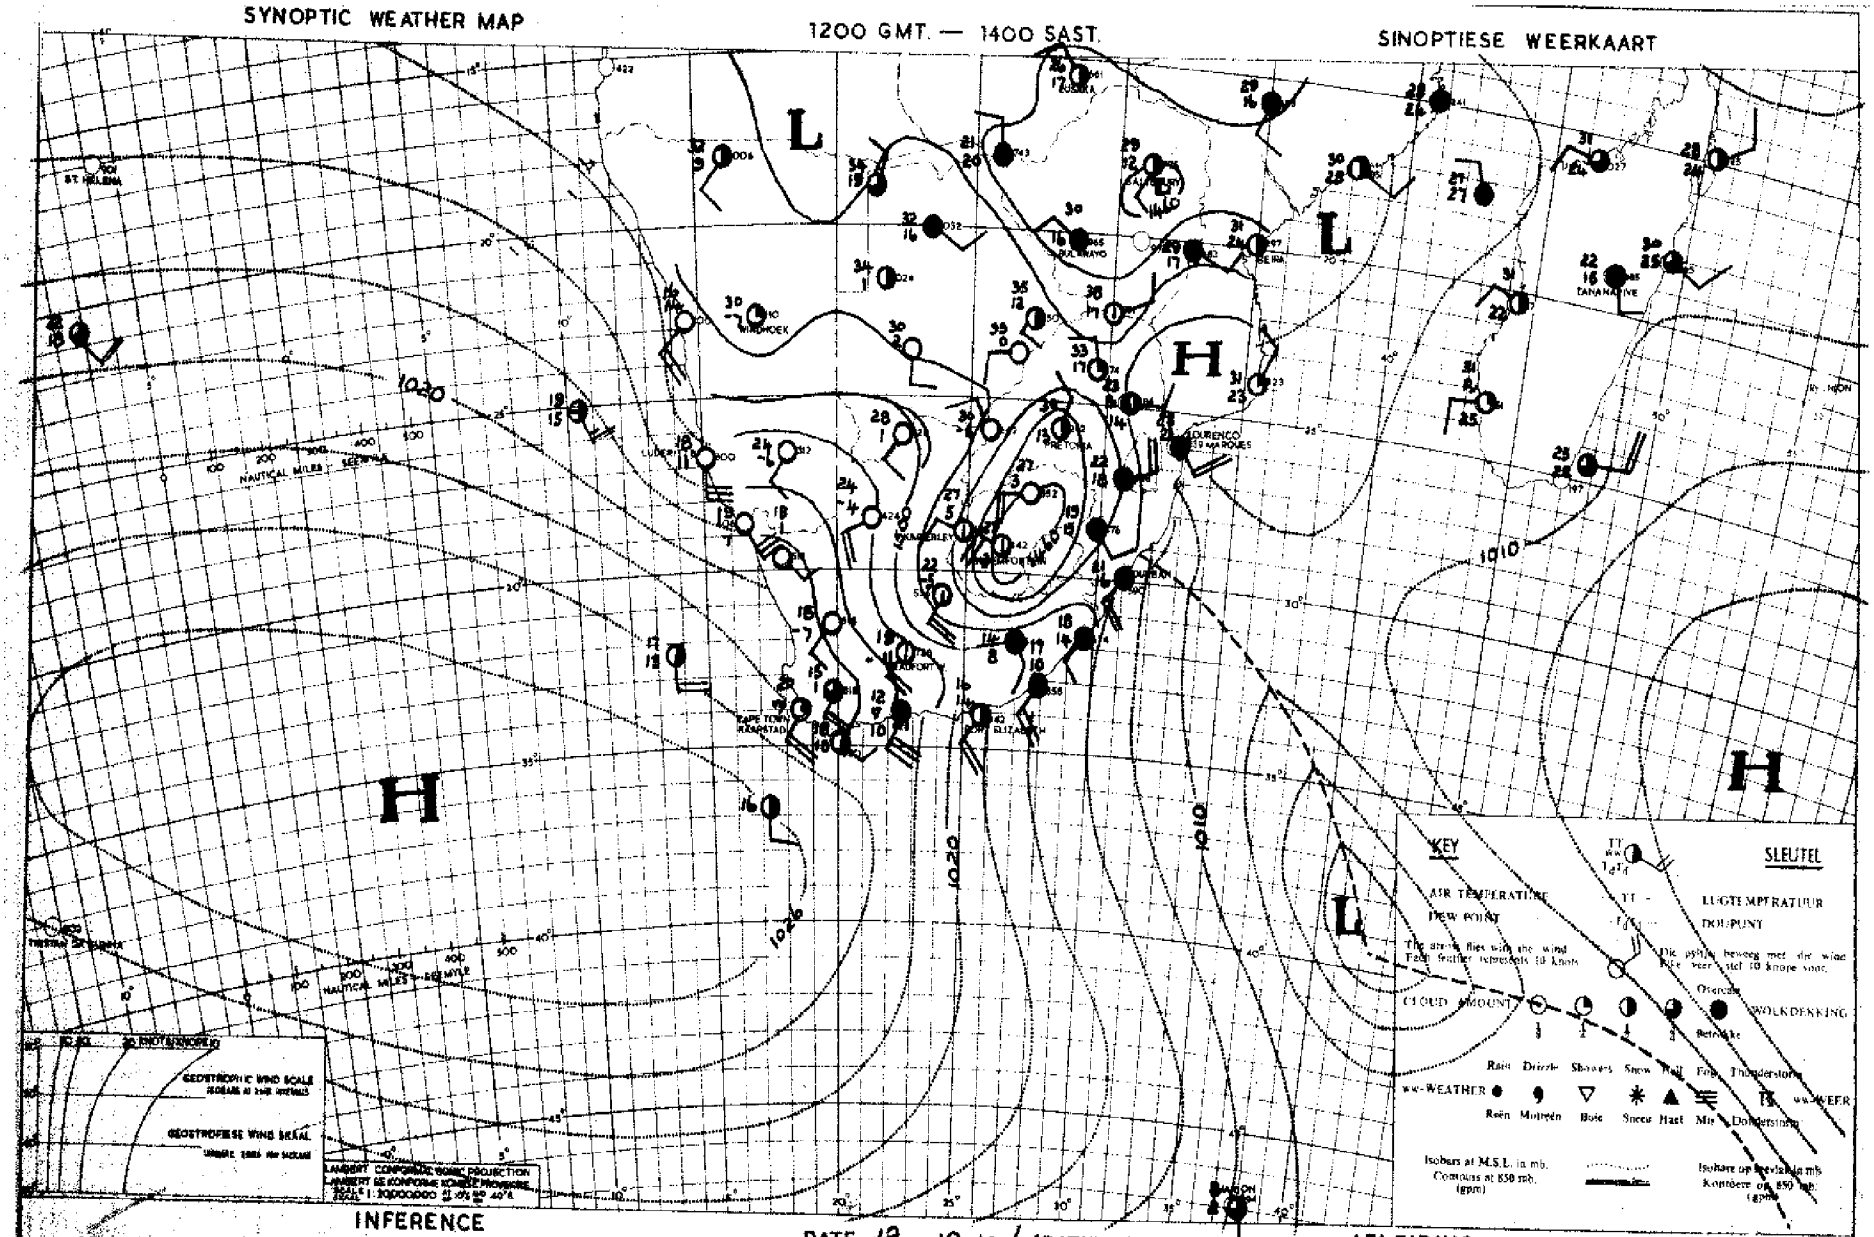
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

A strong ridge is moving in south of the continent and cloudy conditions will occur over southern and eastern Cape, Natal and the eastern parts of Transvaal. Dry air has spread over the western interior regions but over most of Transvaal and the northeastern Bechuanaland thundery conditions will develop with showers.

DATE 13 - 12 - 49 (DATUM)

AFLEIDING

'n Sterk rug druk suid van die land in en bewolkte weer met buie sal voorkom oor suidelike en oostelike Kaapland, Natal en die oostelike dele van Transvaal. Droë lug het oor die westelike binneland inbeweeg maar donderweerstoestande met buie sal nog voorkom oor meeste dele van Transvaal en noordoostelike Betsjoeanaland.

ww-WEATHER — Rain, Drizzle, Showers, Snow, Hail, Fog, Thunderstorm — ww-WEER — Reën, Motreën, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb. — Isobare op seevlak in mb.
Contours at 850 mb. (gpm) — Konture op 850 mb. (gpm)

INFERENCE

DATE 14 - 12 - 1961 DATUM

AFLEIDING

Colder air has moved over the southern, southeastern and eastern parts of the country and will spread tomorrow over most parts of the Transvaal and Free State.
It will remain cloudy to overcast with rain over Natal and the Eastern Transvaal and isolated thundershowers will develop today over the Free State and the remainder of the Transvaal.

Kouer lug het oor die suidelike, suidoostelike en oostelike dele van die land beweeg en sal more uitbrei oor meeste dele van Transvaal en die Vrystaat. Dit sal bewolk tot betrokke bly met reën oor Natal en Oos-Transvaal en los donderbuie sal vandag ontwikkel oor die Vrystaat en die res van Transvaal.

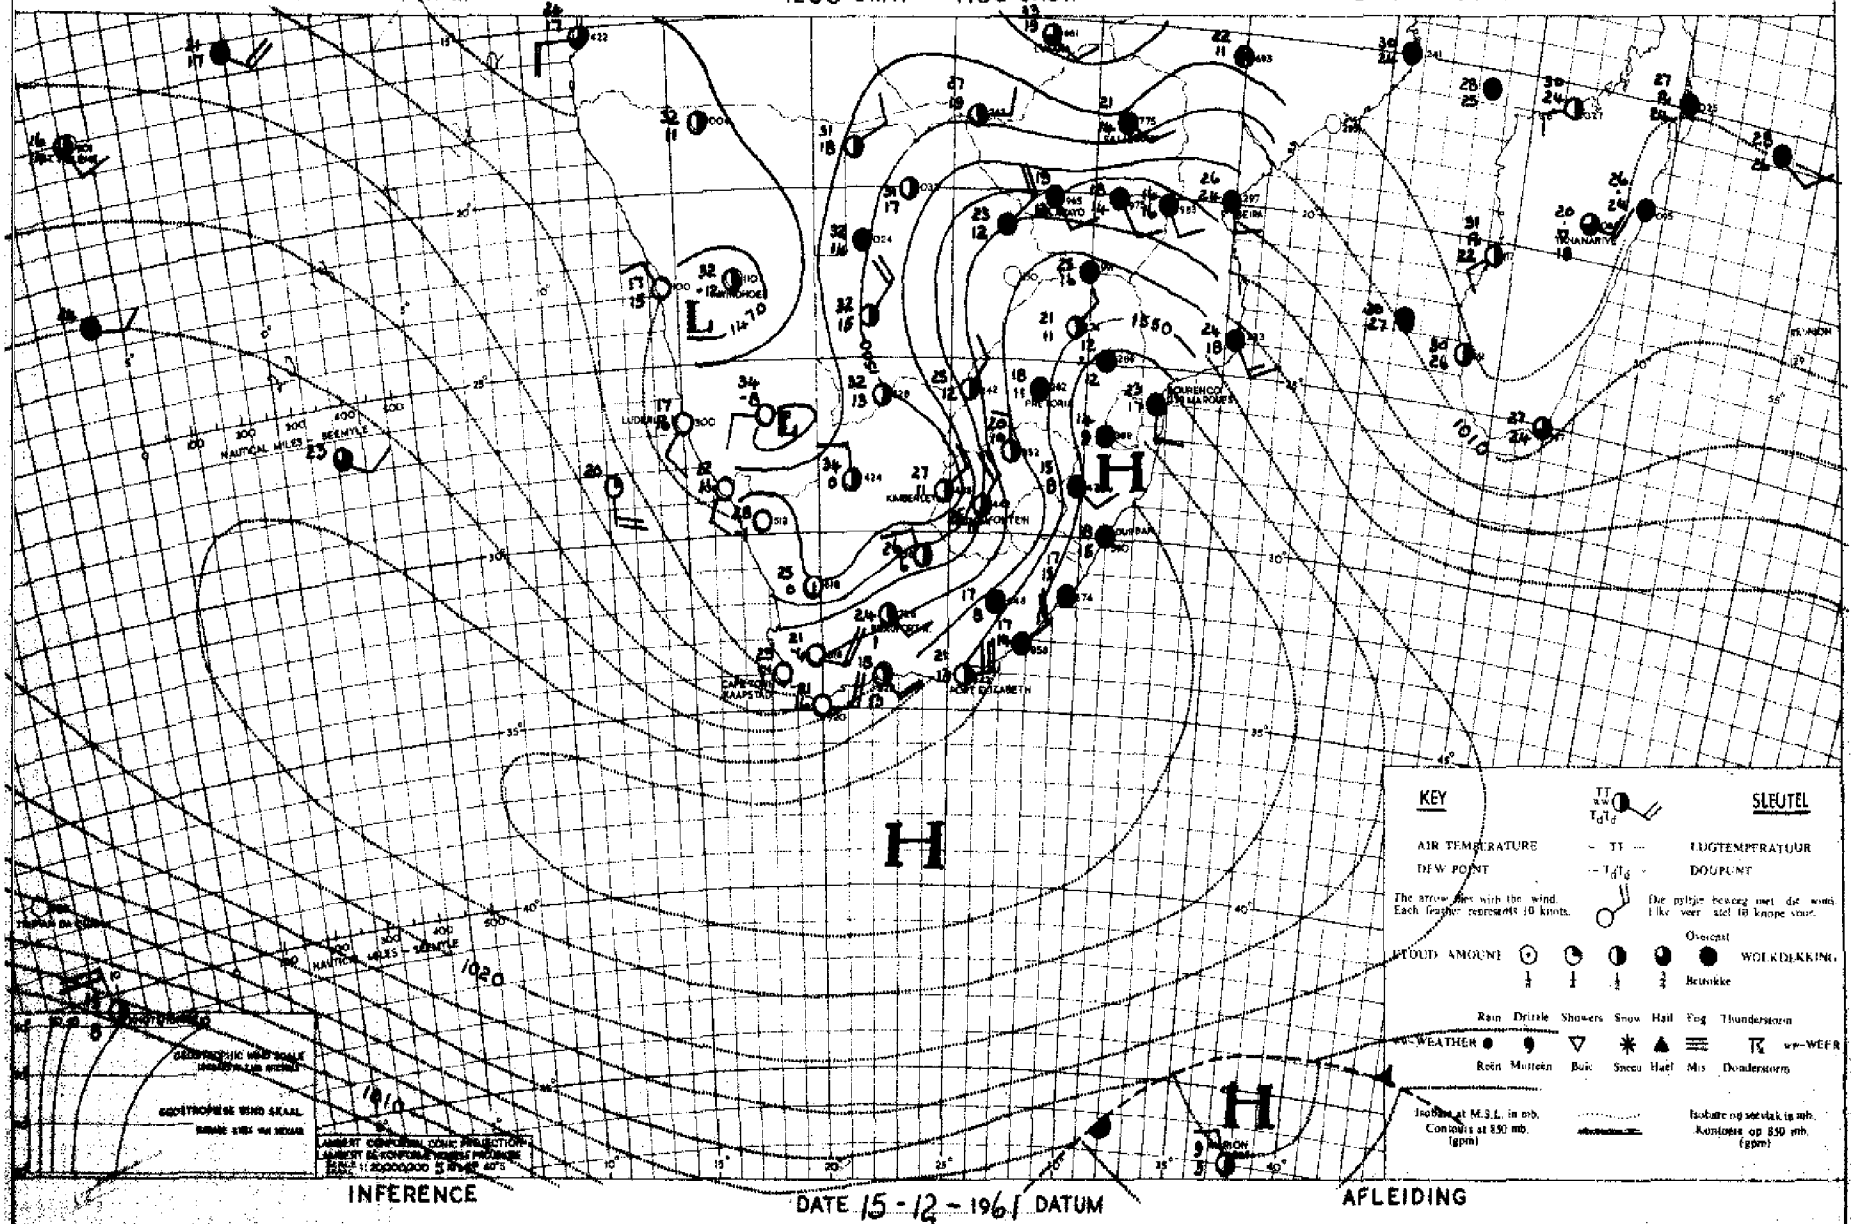
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 15 - 12 - 1961 DATUM — AFLEIDING

The low pressure over South West Africa will move southeastwards and deepen. Moderate and heavy showers will fall over the Free State and the North-eastern Cape. Over the remainder of the eastern areas of the country there will be a general clearing later in the day. Elsewhere it will be fair.

Die laag oor Suidwes-Afrika sal suidooswaarts beweeg en verdiep. Matig tot swaar buie sal uitsak oor die Vrystaat en Noordoos-Kaapland. Oor die res van die oostelike dele van die land sal die weer in die algemeen opklaar. Elders sal dit redelik mooiweer wees.

SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART

INFERENCE — DATE 17 - 12 - 19 61 DATUM — AFLEIDING

The cold front approaching the Southwestern Cape will bring occasional light rain and showers to the Peninsula and the western half of the Cape south coast. Isolated thundershowers will develop in the afternoon over the eastern half of the country and may spread to the Cape Southeast coast and the Natal coast.

Die koue front wat Suidwes-Kaapland nader sal ligte reën en buie laat uitsak oor die Skiereiland en die westelike helfte van die Kaapse suidkus. Los donderbuie sal in die namiddag ontwikkel oor die oostelike helfte van die binneland en verder uitbrei na die Kaapse Suidooskus en die Natalkus.

INFERENCE

DATE 18 - 12 - 1961 DATUM

AFLEIDING

A cold front is approaching the Cape and cloudy, cooler weather with showers will spread eastwards along the Cape coastal regions and over the Natal coast. Isolated thundershowers will occur over the eastern and north eastern interior and Bechuanaland but elsewhere it will be fine and warm.

'n Koufront nader die Kaap en koeler bewolkte weer met buie sal uitbrei oor die Kaapse kusstreke en die Natalkus. Los donderbuie sal voorkom oor die oostelike en noordoostelike dele van die binneland en Betsjoeanaland. Elders sal dit mooiweer en warm wees.

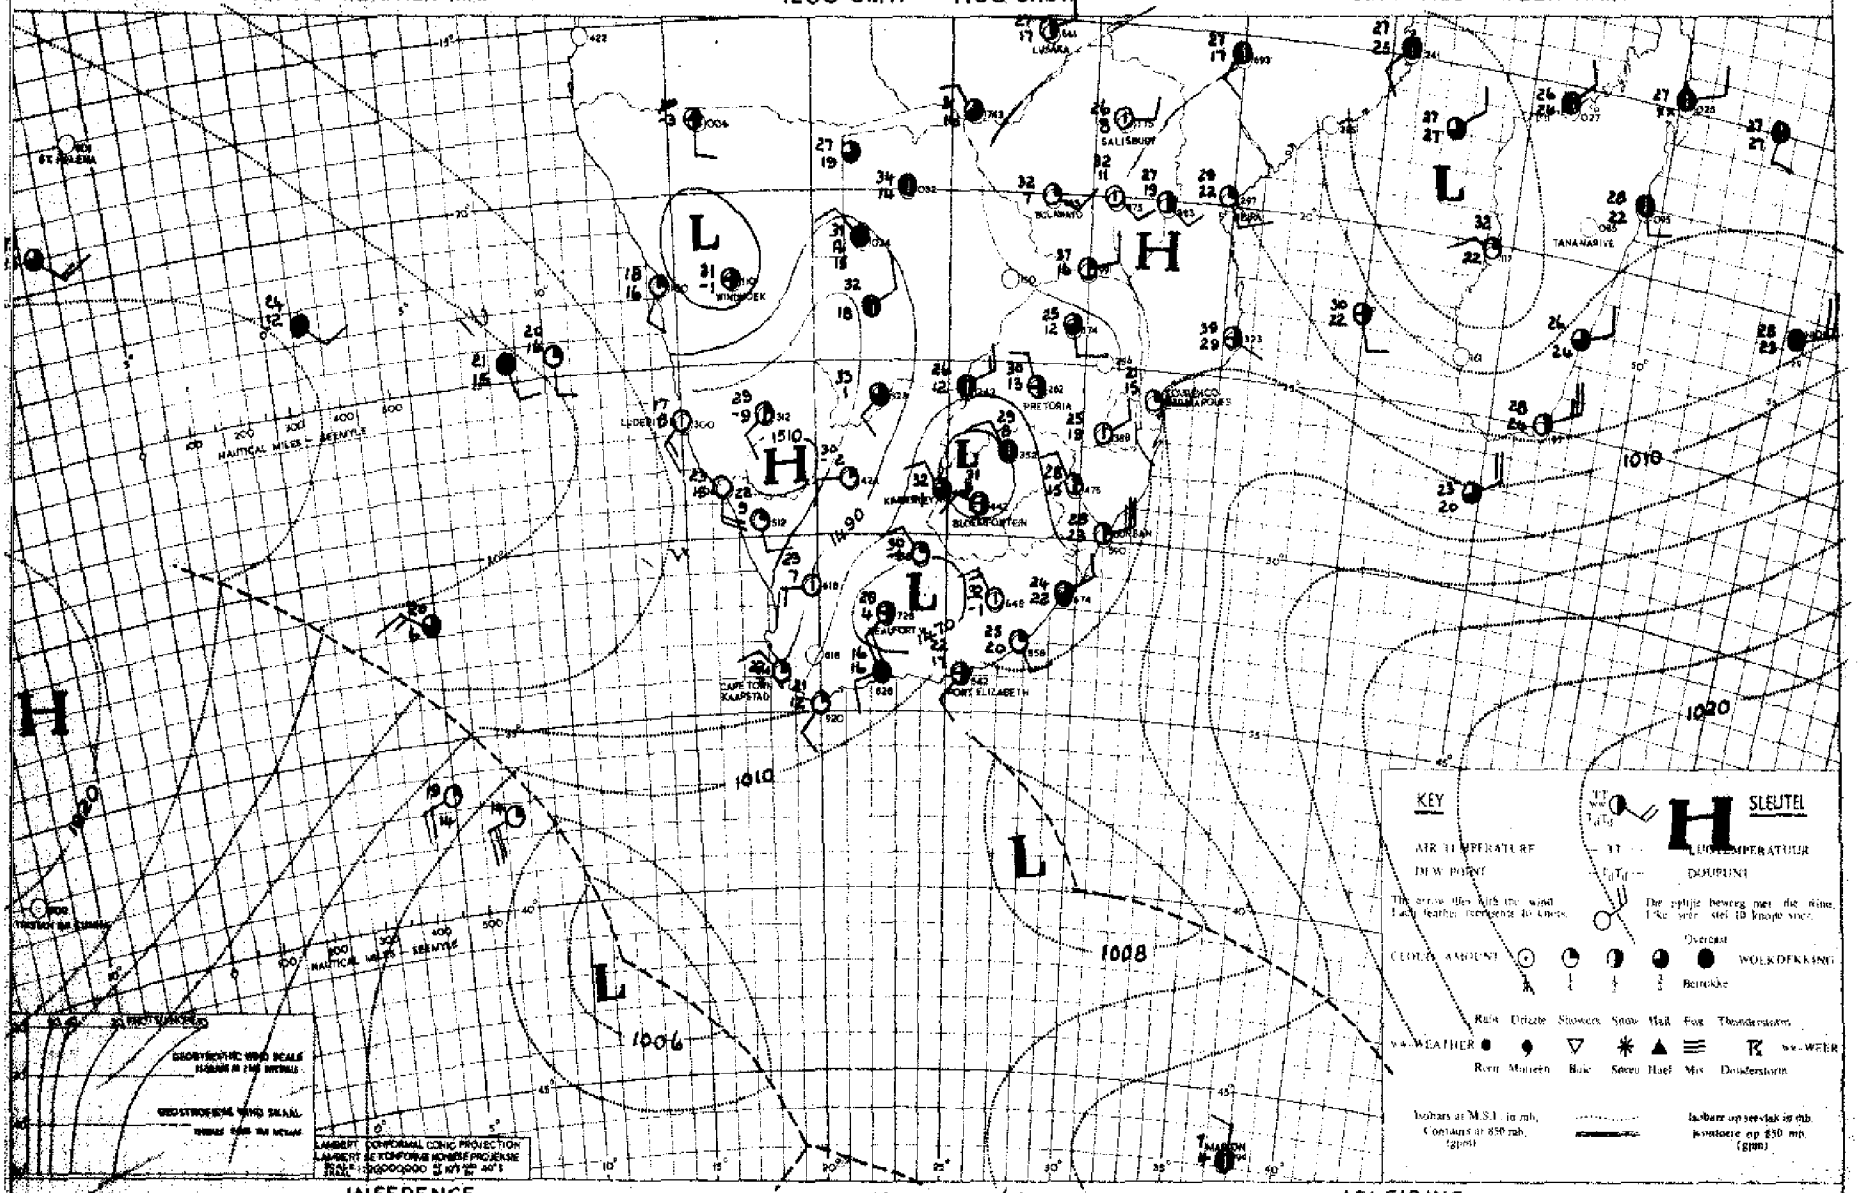
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 19 - 12 - 61 DATUM — AFLEIDING

The inverted trough over the interior will remain stationary and thundershowers will develop over the northern and eastern areas of the country. The cold front to the west of the Cape will bring occasional rain and showers to the Southwestern Cape.

Die omgekeerde trog oor die binneland sal stasionêr bly en donderbuie sal ontwikkel oor die noordelike en oostelike binneland. Met die front net wes van die Suidwestelike Kaap sal dit bewolk wees met reën en buie af en toe oor hierdie dele.

INFERENCE

DATE 20 - 12 - 19 61 DATUM

AFLEIDING

A low pressure system and the cold front south of the country is moving eastwards, and cloudy cool conditions with local showers will occur along the coastal regions. Over the interior it will be fine and warm but isolated thundershowers will develop over Bechuanaland and the eastern and northeastern parts of South Africa.

'n Laagdrukstelsel en die koufront suid van die land beweeg ooswaarts en koel bewolkte toestande met plaslike buie sal langs die kusstreke voorkom. Oor die binneland sal dit mooiweer en warm wees maar los donderbuie sal ontwikkel oor Betsjoeanaland en oor die oostelike en noordoostelike dele van Suid-Afrika.

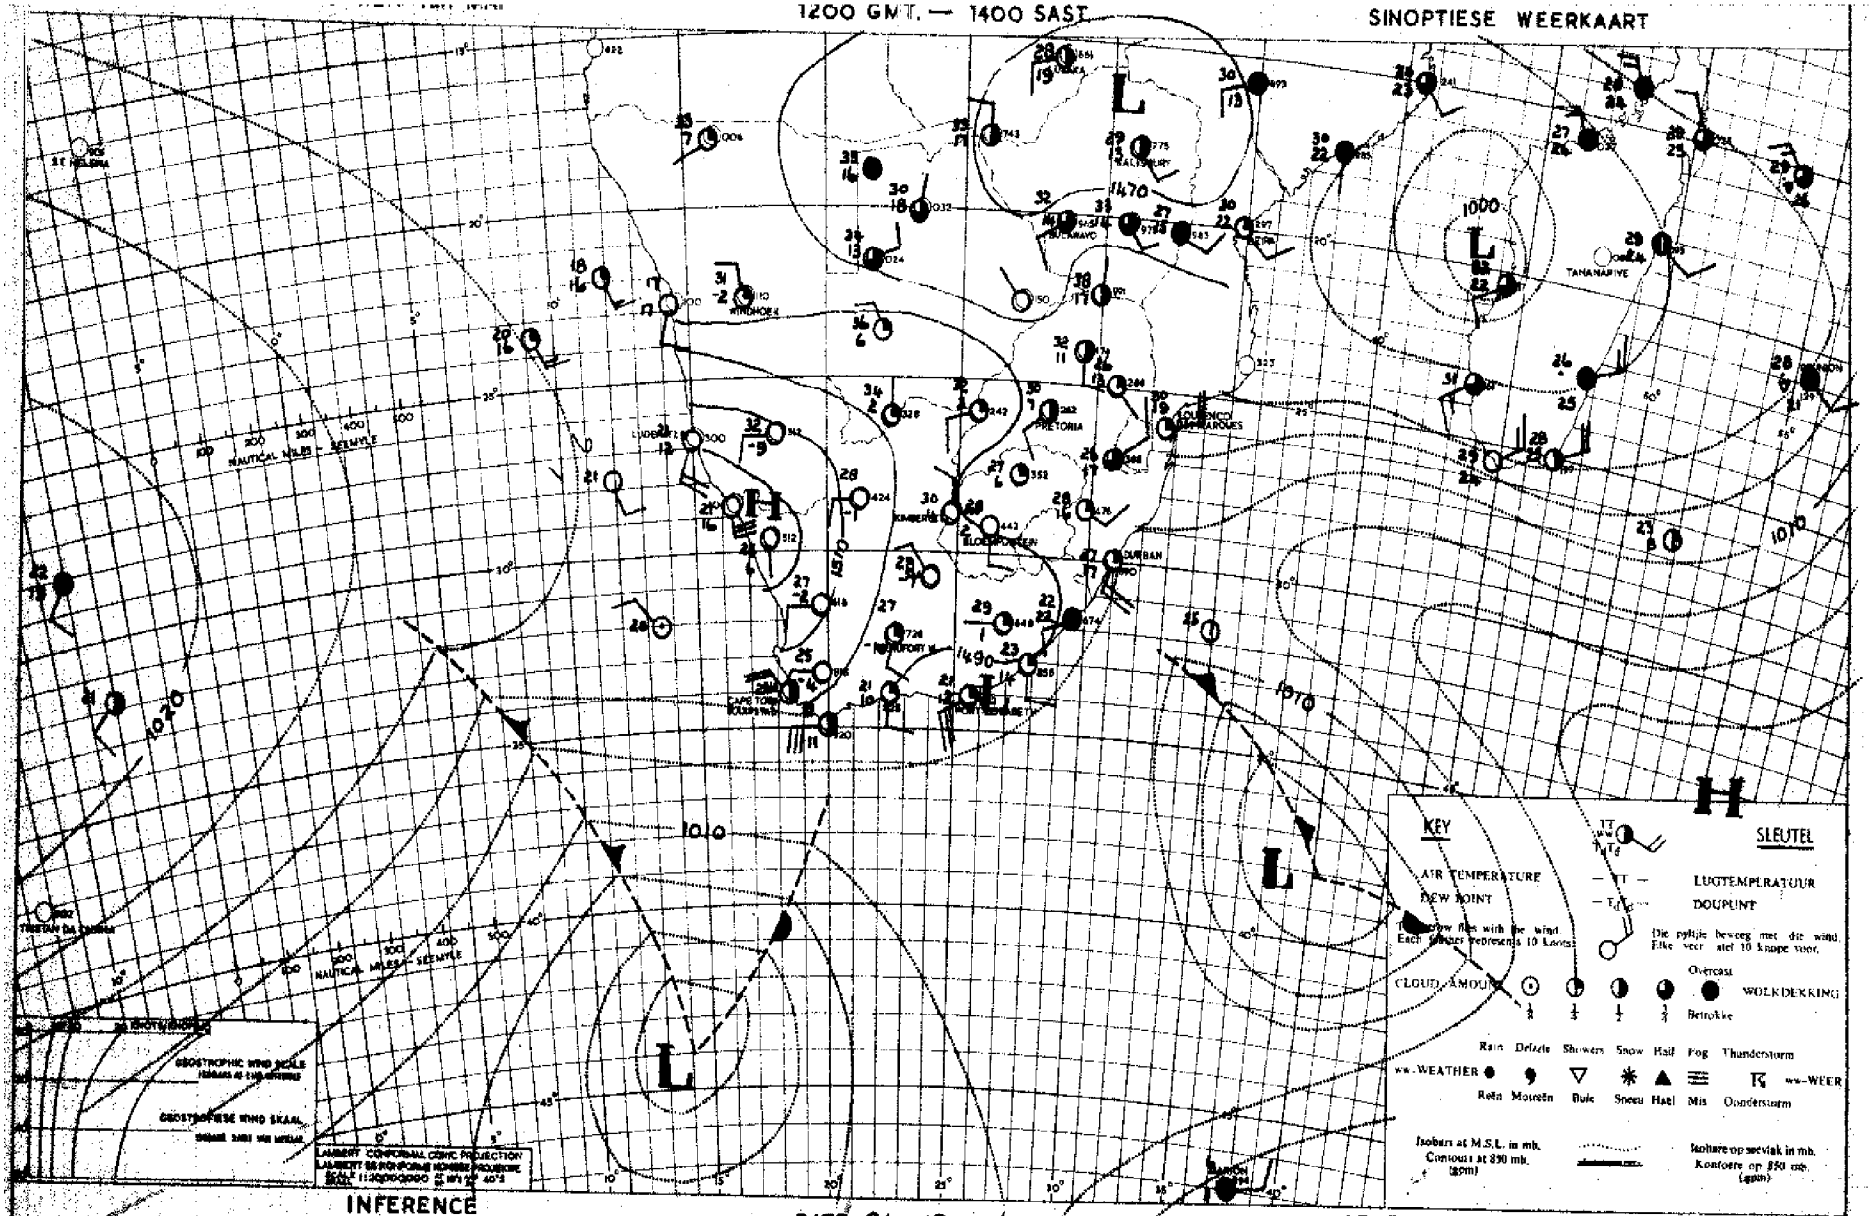
SINOPTIESE WEERKAART



INFERENCE

With the low over Rhodesia, isolated thundershowers are expected in the afternoon over northern and eastern Transvaal and the northern Bechuanaland. Frontal weather will cross the Southwestern Cape during the morning and spread along the Cape south and southeast coasts. Over the remainder of the interior it will be mainly fine and warm to hot.

DATE 21-12-1961 DATUM

AFLEIDING

Met die laag oor Rhodesië sal los donderbuie in die namiddag ontwikkel oor die noordelike en oostelike Transvaal en noordelike Betsjoeanaland. Frontale weer sal gedurende die oggend Suidwes-Kaapland bereik en later in die dag uitbre langs die Kaapse suid- en suidooskus. Oor die binneland sal dit meesal mooi weer en warm tot baie warm wees.

AFLEIDING

A small high pressure system is moving around the coast and will cause cloudy weather with rain or showers along the southeast Cape coast, the Natal coast and the Natal interior. Over the remainder of the interior it will be fine and warm.

'n Klein hoogdrukstelsel beweeg ooswaarts om die kus en dit sal bewolkte weer veroorsaak met reën of buie langs die suidooskus, Natalkus en die Natalse binneland. Oor die res van die binneland sal dit mooiweer en warm wees.

AFLEIDING

Humid air is moving over the extreme northeastern parts of South Africa and isolated thundershowers will develop. Over the remainder of the country it will be mainly fine. A cold front will move over the Cape south and southeast coasts tomorrow and it will become cloudy and cooler with rain over these regions.

Vogtige lug beweeg oor die heel noordoostelike dele van Suid-Afrika en los donderbuie sal ontwikkel. Oor die res van die land sal dit hoofsaaklik mooineer wees. 'n Koue-front sal môre oor die Kaapse suid- en suidooskus beweeg en dit sal bewolk en koeler word met reën oor hierdie gebiede.

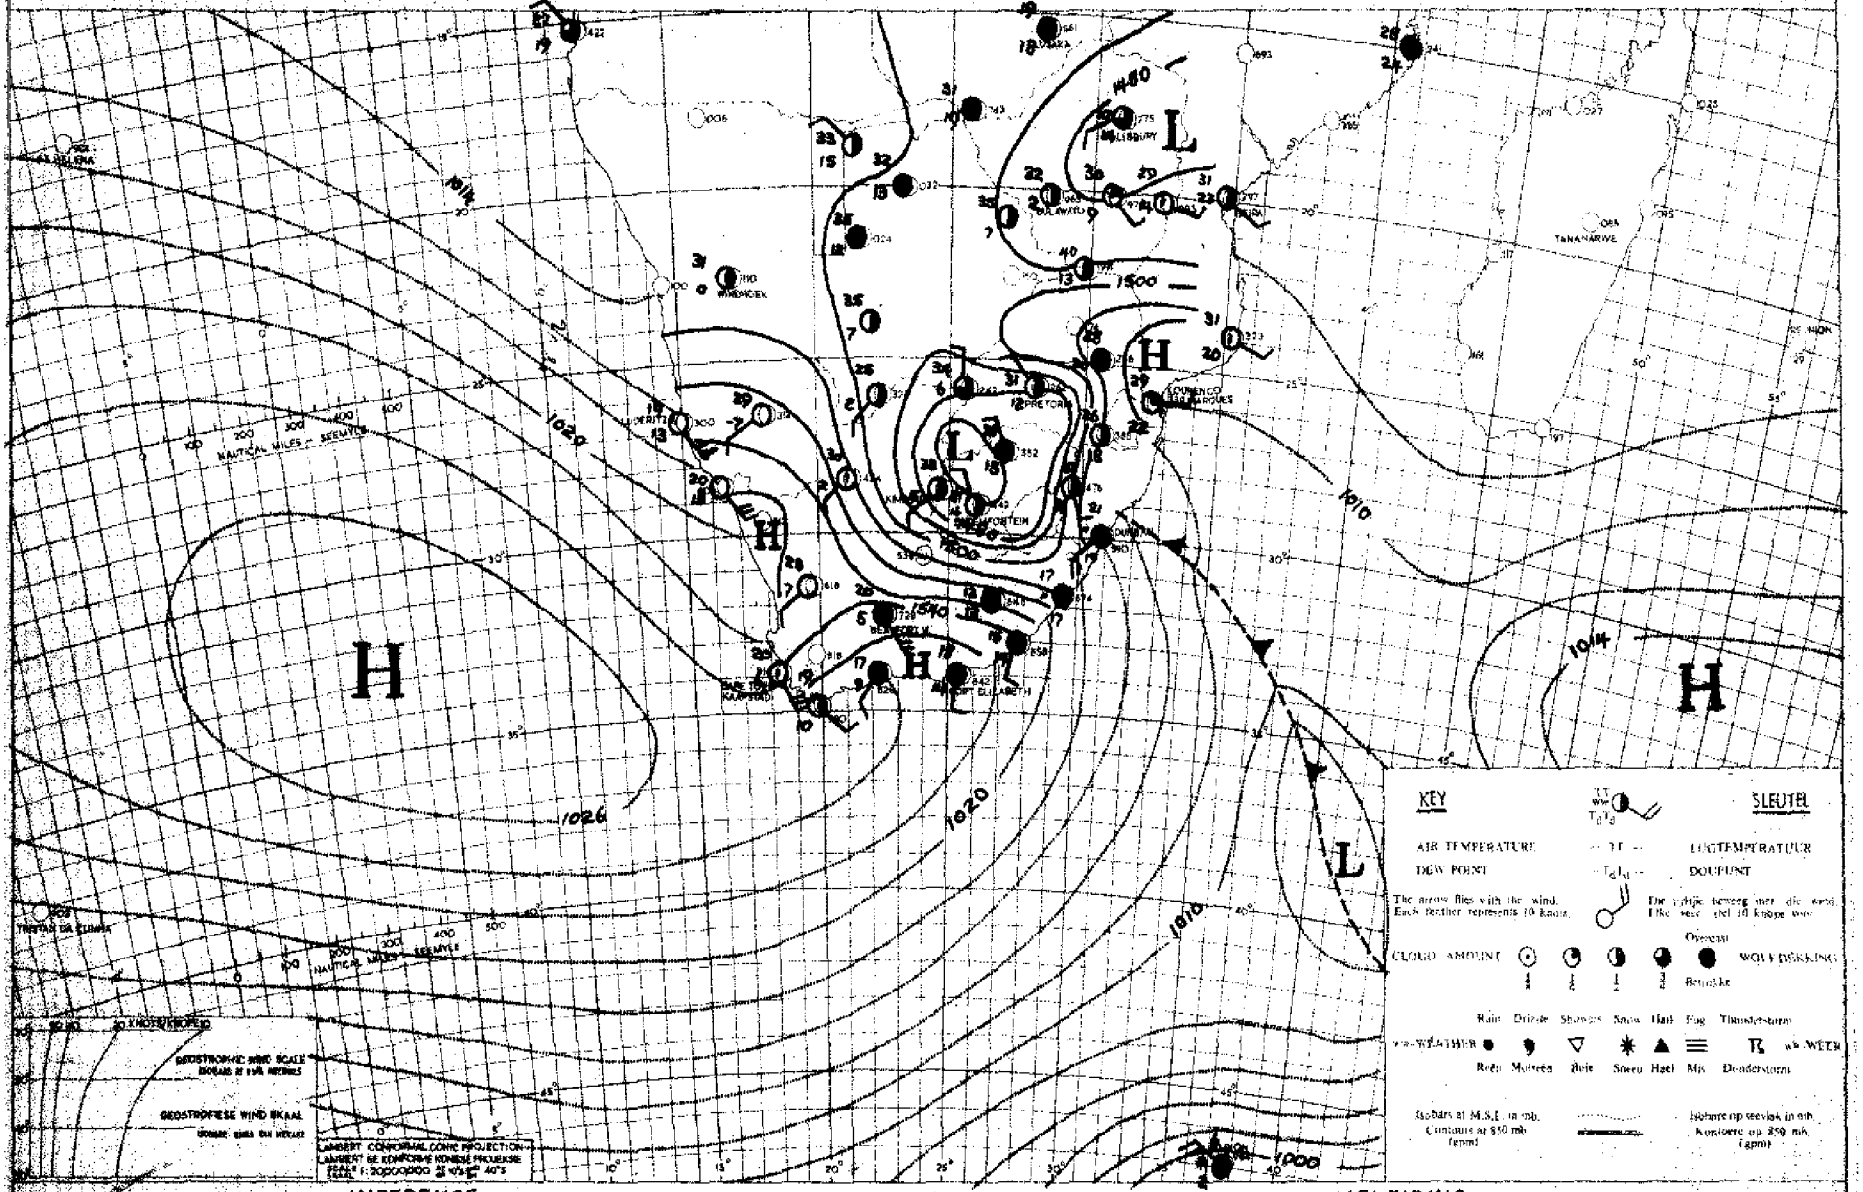
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 25-12-1961 DATUM — AFLEIDING

A strong low pressure system over the interior will cause general rain and thundershowers over the southern parts of the Transvaal, Natal and the eastern part of the Free State. Over the south-eastern and eastern coastal regions it will be cloudy and cold with rain. Elsewhere over the country it will be fine.

'n Sterk laagdrukstelsel oor die binneland sal algemene reën en donderstorms veroorsaak oor die suidelike deel van Transvaal, Natal en die oostelike deel van die Vrystaat. Oor die suid-oostelike en oostelike kusgebiede sal dit bewolk en koud wees met reën. Elders oor die land sal dit mooinweer wees.

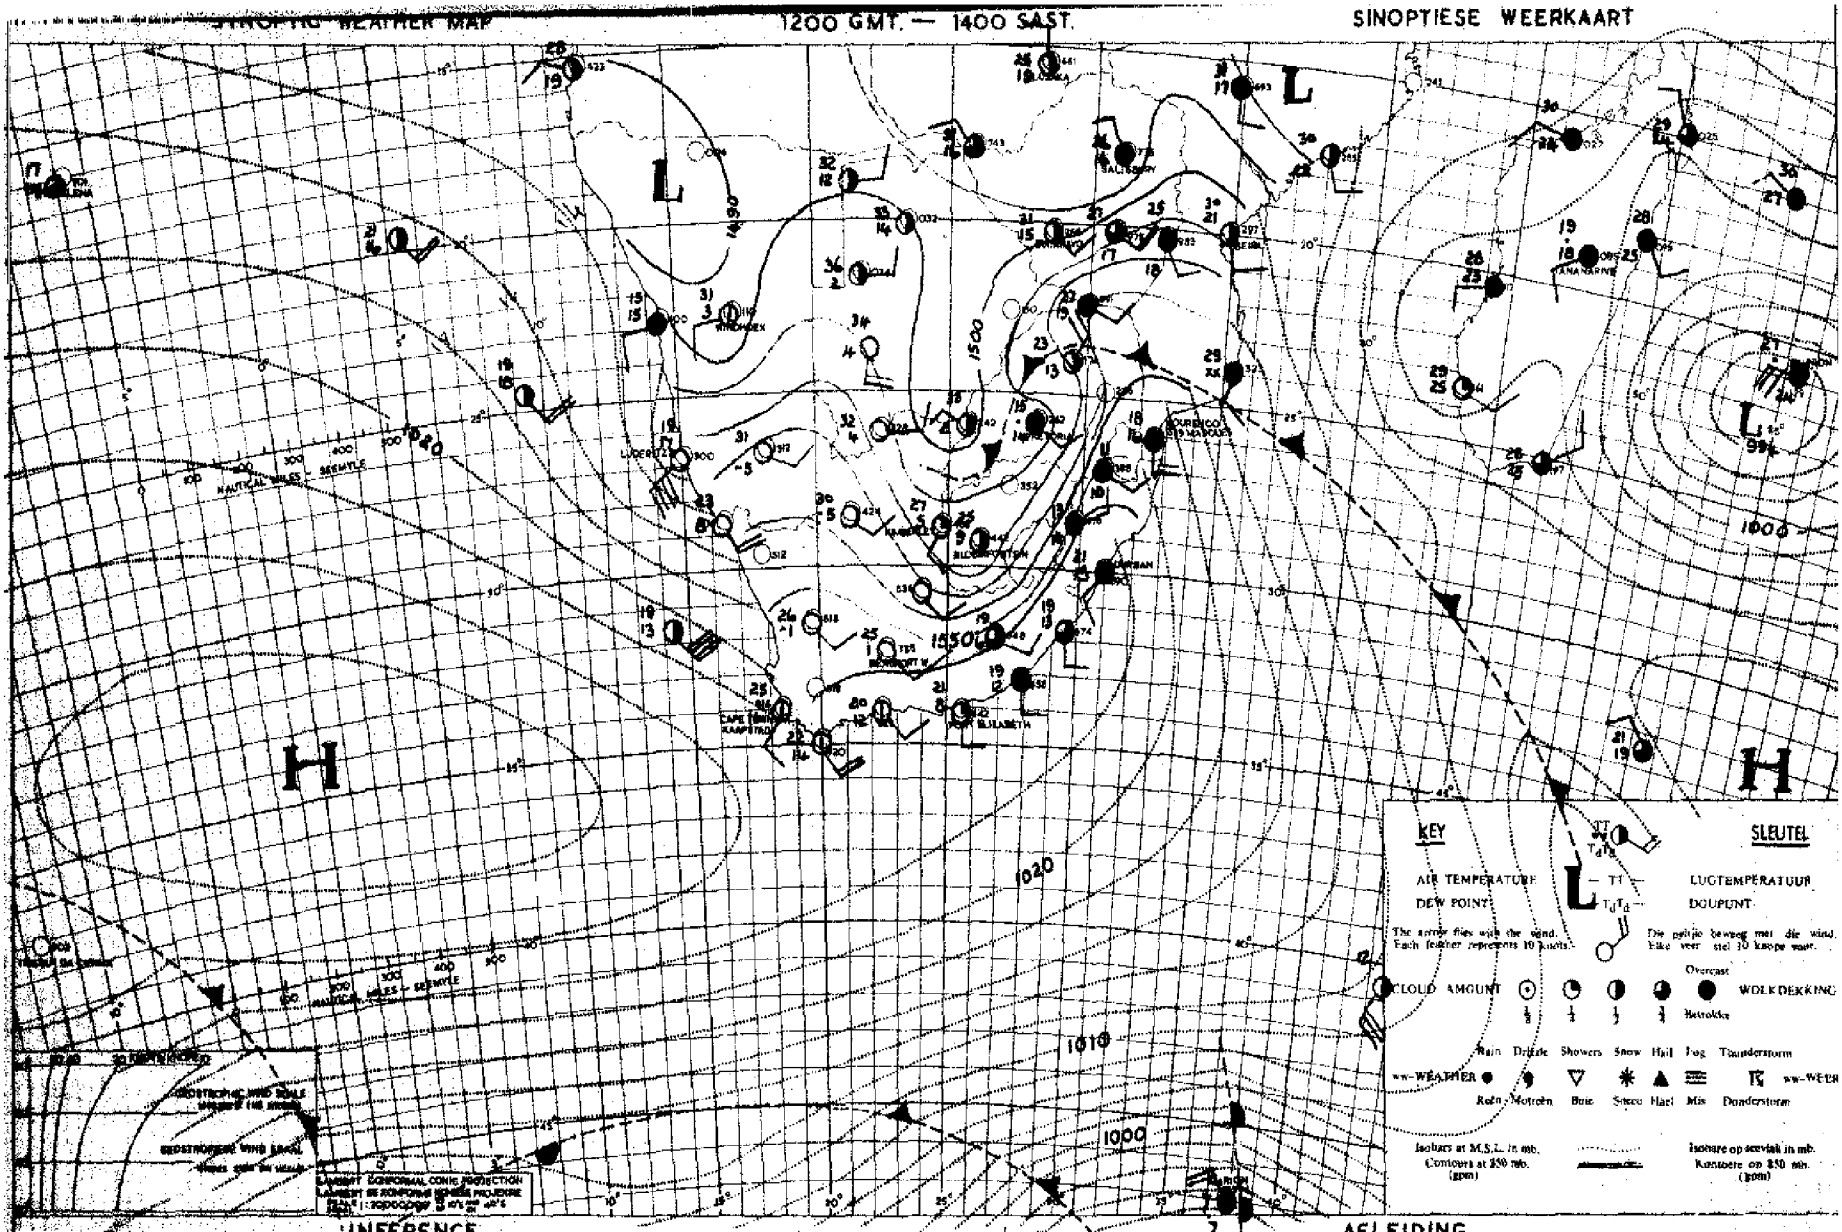
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The cold air has now also advanced over most of Transvaal and associated with it is an upper air trough over Transvaal which appears to be moving eastwards so that rain will be confined to Eastern Transvaal tomorrow. Isolated thundershowers will however still occur over northeastern Bechuanaland

DATE 26-12-1961 DATUM

AFLEIDING

Die koue lug het nou ook uitgebrei oor meeste dele van Transvaal en gepaard hiermee is daar ook 'n ba trog oor Transvaal wat verwag word om oostwaarts u te beweeg sodat reën mòre net nog oor Oos-Trans sal voorkom. Los donderbuie sal egter nog oor noordoostelike Betsjoeanaland voorkom

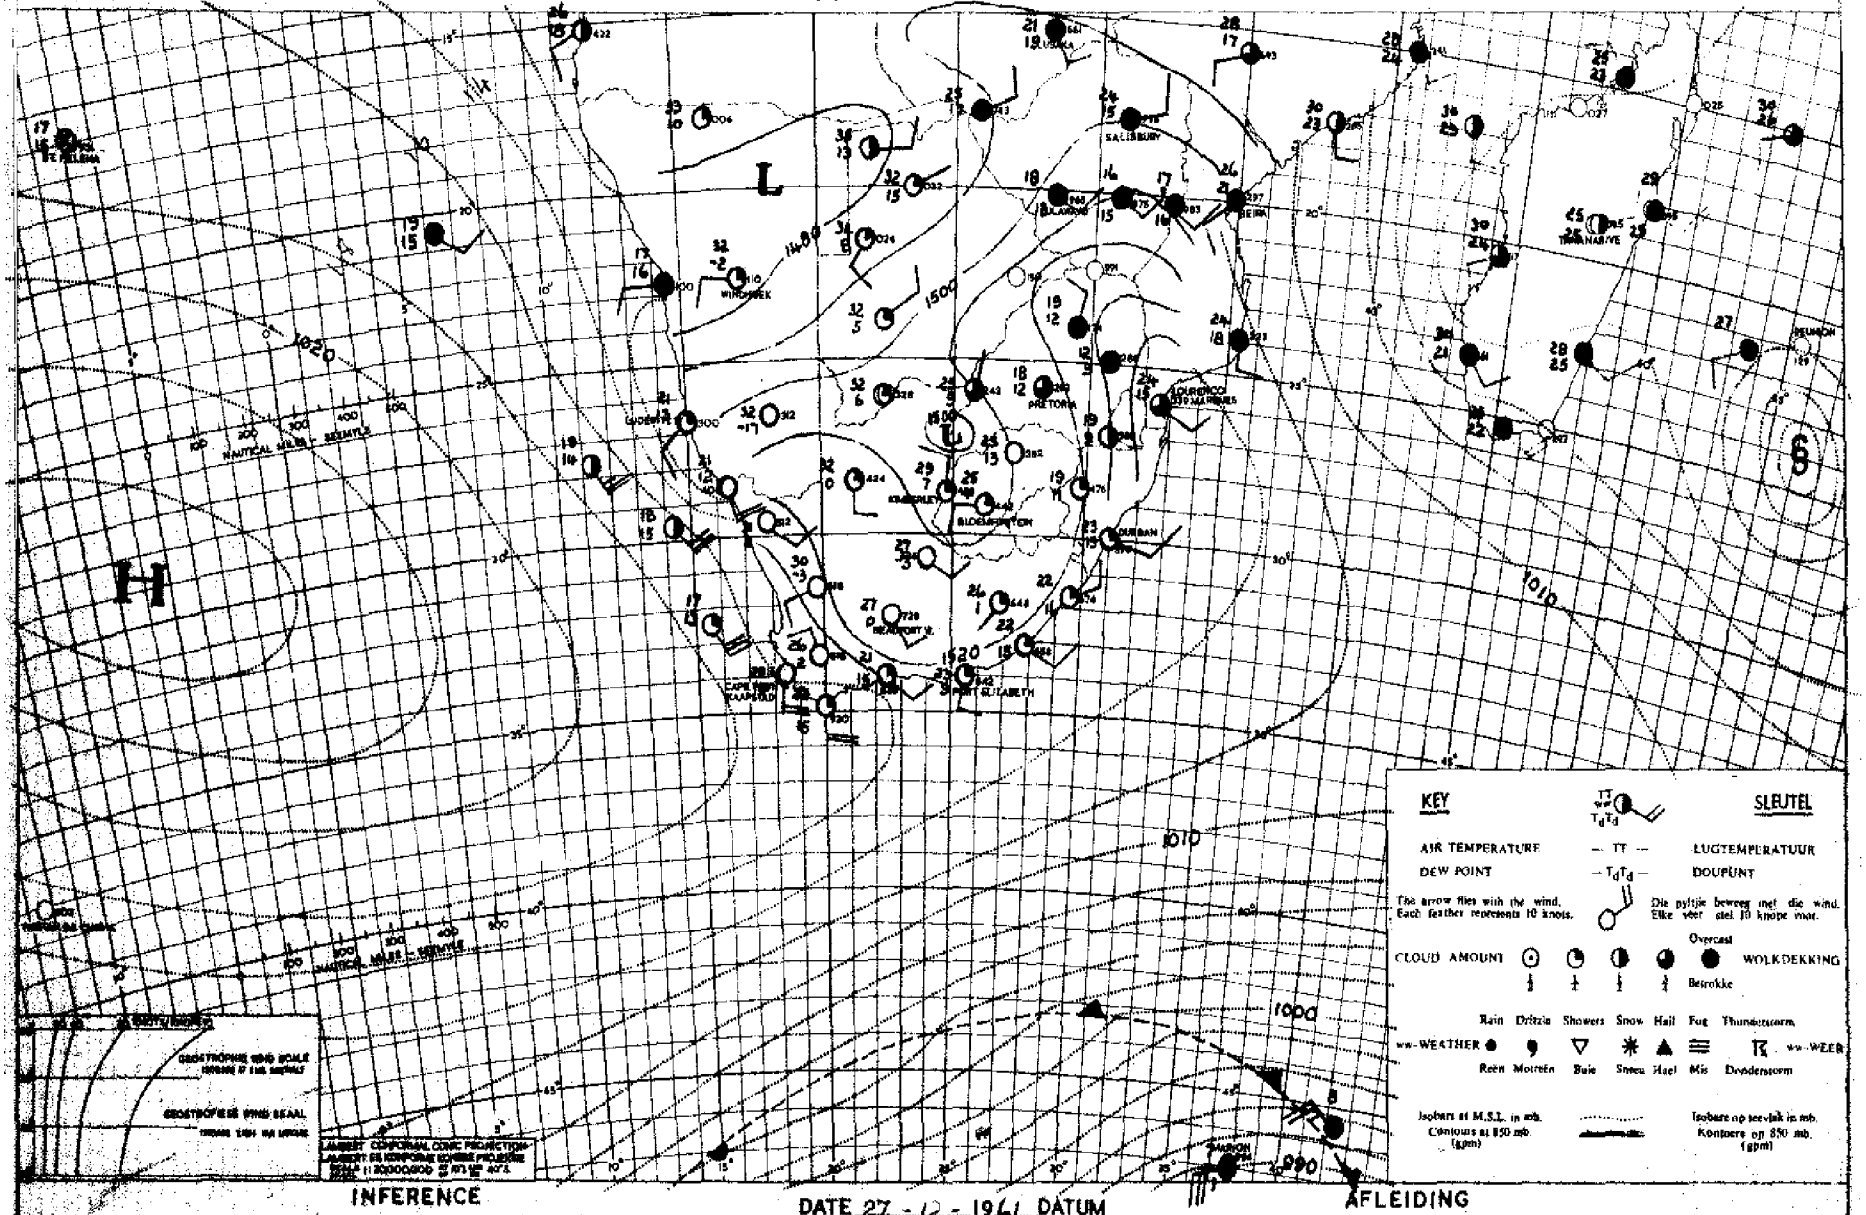
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 27 - 12 - 1961 DATUM

AFLEIDING

Drier air has moved over most parts of the country and isolated showers are only possible over the extreme northeastern districts. It will become warmer again over Natal and the Transvaal.

Droër lug het oor die meeste dele van die land beweeg en los buie is slegs moontlik oor die heel noordoostelike distrikte. Dit sal weer warmer word oor Natal en Transvaal.

INFERENCE

DATE 28-12-1961 DATUM

AFLEIDING

Although the upper air flow is still anticyclonic there is a well defined trough on the surface over the country and isolated thunderstorms will occur over Zambesiland, Bechuanaland and the central and northeastern parts of South Africa.

Hoewel die bolugstroom nog antisiklonies is, is daar 'n duidelike oppervlaktetrog oor die binneland en los donderbuie sal voorkom oor Betsjoeanaland en die noordoostelike en sentrale dele van Suid-Afrika.

INFERENCE

The pressure is rising over the southern and southeastern coastal areas and is falling over the western parts of the country. Showers will develop today over the northeastern parts of South Africa, but conditions will become more favourable for thundershowers over the central parts of the interior tomorrow and cloudy conditions will develop along the southern and eastern coastal belt.

DATE 29-12-1961 DATUM

AFLEIDING

Drukke styg oor die suidelike en suidoostelike kusstreke en daal oor die westelike dele van die land. Buie sal vandag ontwikkel oor die noordoostelike dele van Suid-Afrika, maar toestande sal môre gunstiger word vir donderbuie oor die sentrale dele van die binneland en bewolkte toestande sal langs die suidelike en oostelike kusstreke ontwikkel.

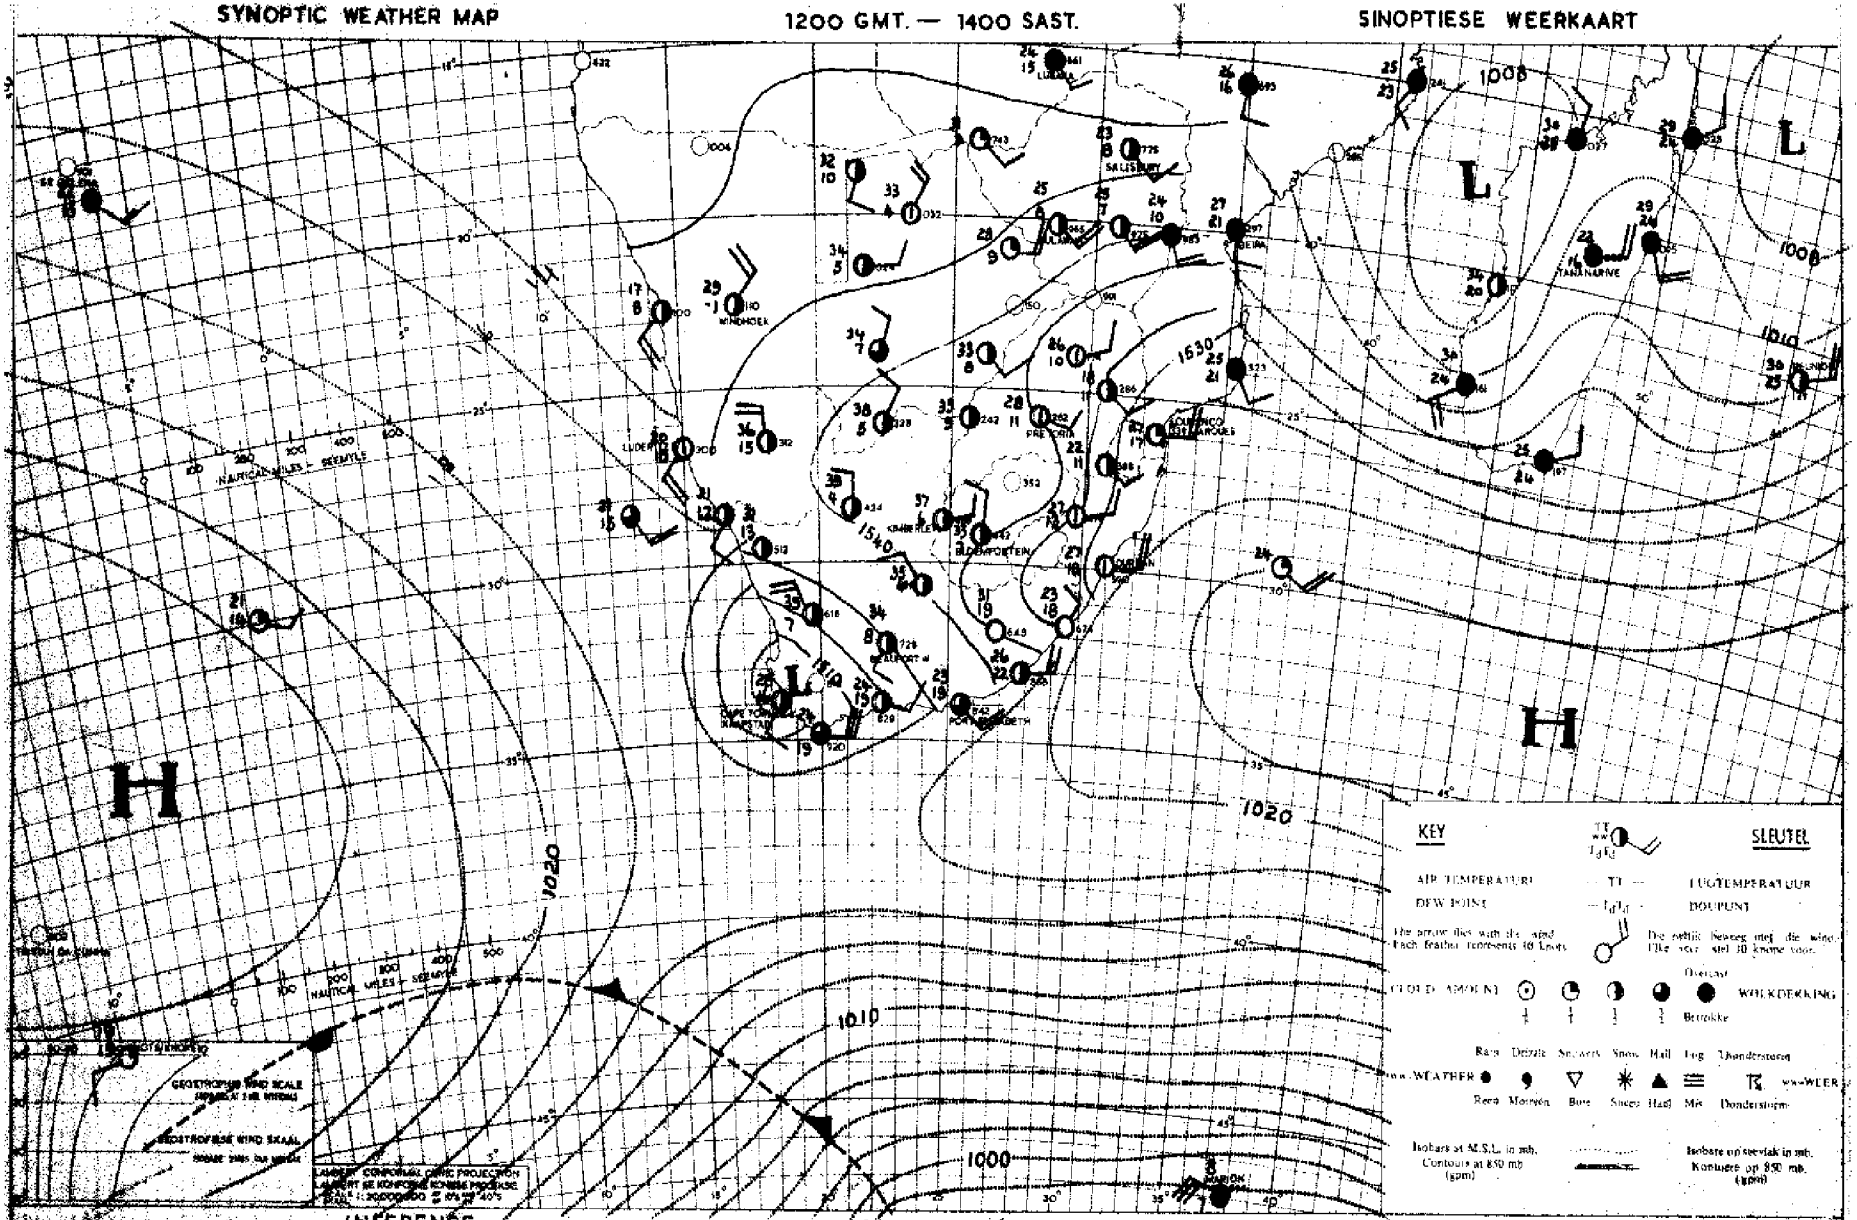
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The coastal low centred over the Southwest Cape will spread to the Cape South coast and the weather will become cloudy also over these regions. Over the remainder of the country it will be mainly fine and warm to hot.

DATE 30 - 12 - 1961 DATUM

AFLEIDING

Die kuslaag wat oor Suidwes-Kaapland lê, sal uitbrei na die Kaapse Suidkus en dit sal oor hierdie dele ook bewolk word. Oor die res van die land sal dit meestal mooiweer en warm tot baie warm wees.
