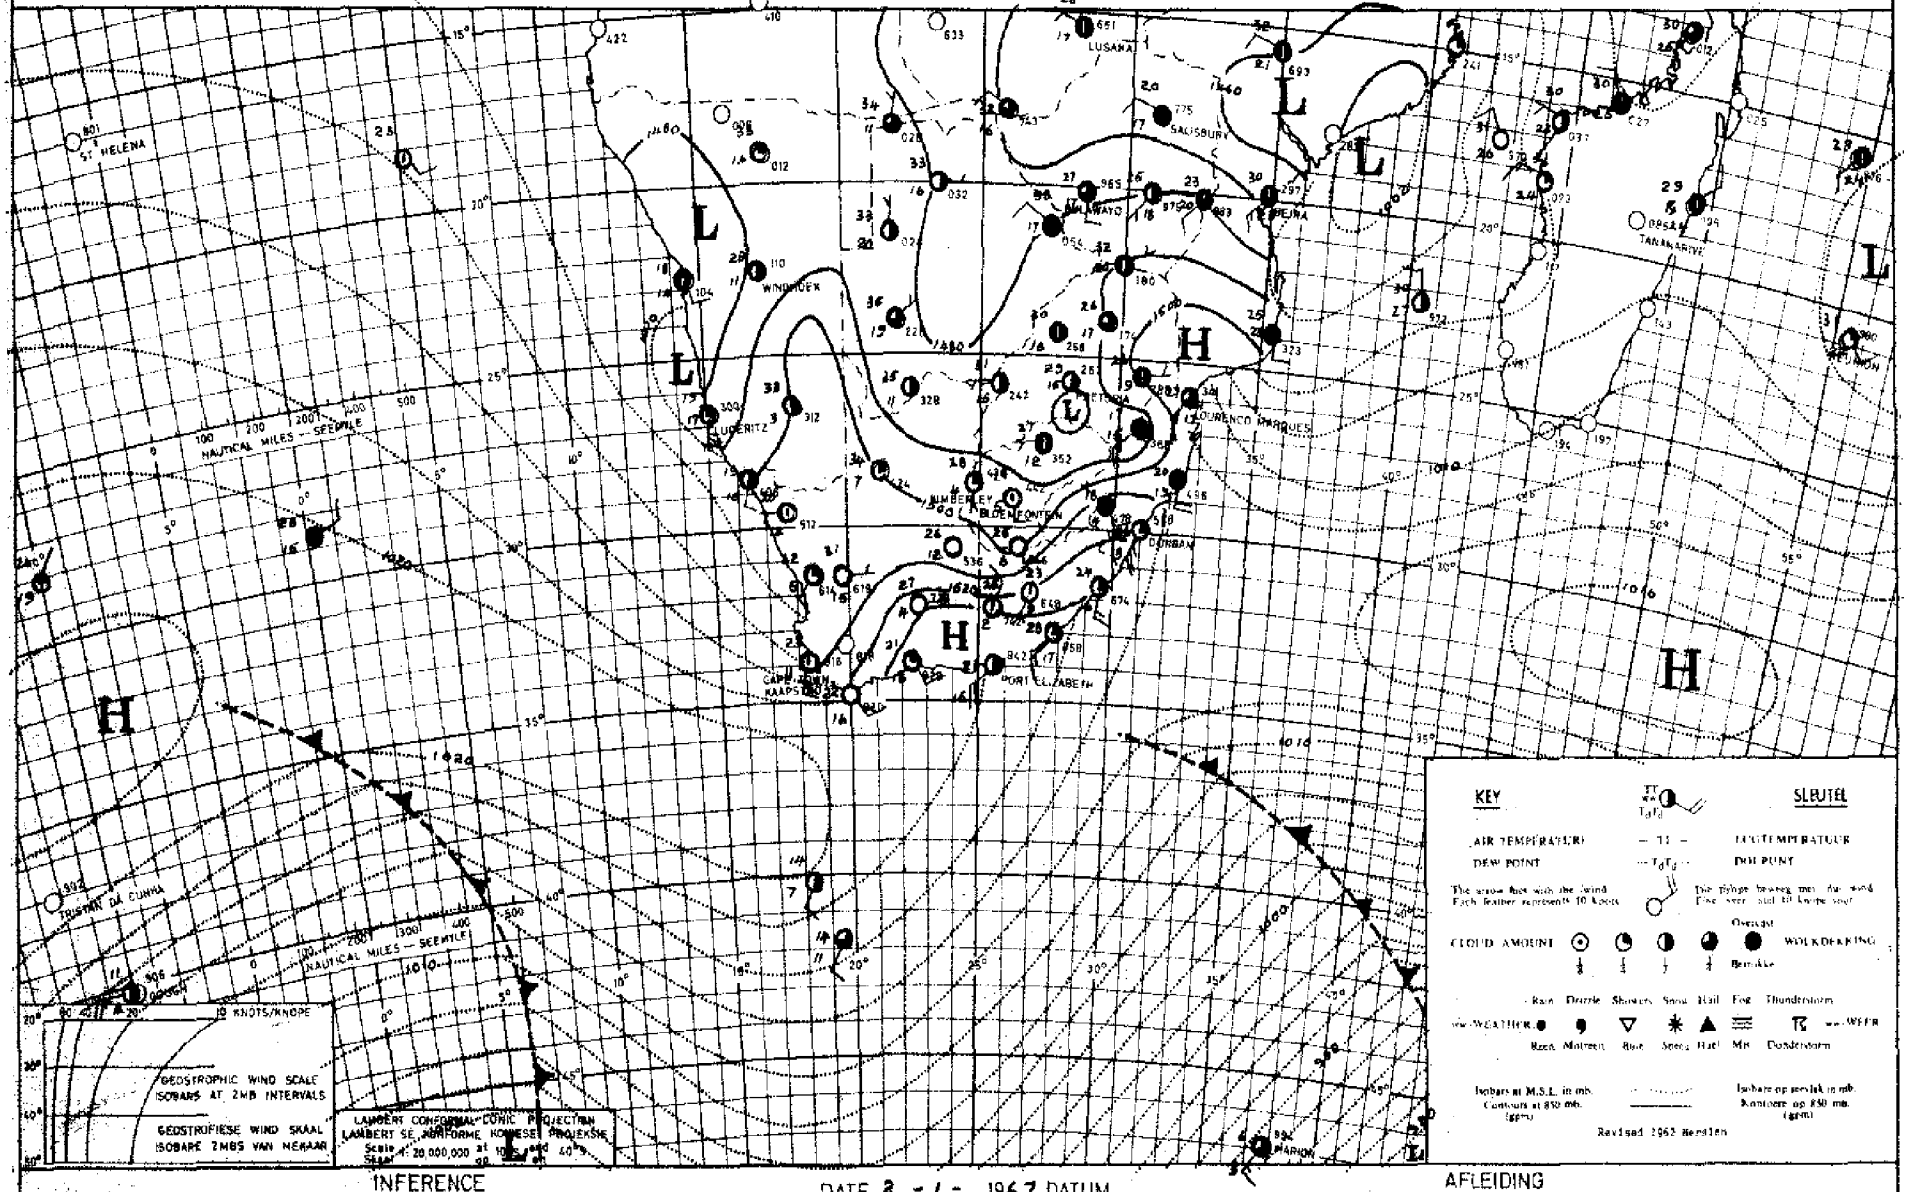
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 2 - 1 - 1967 DATUM AFLEIDING

The ridge of the Atlantic high south of the country will cause cloudy weather with showers over Natal and eastern Transvaal. The trough over the interior will cause thundershowers over the north-eastern, northern and central regions of the country.

Die rug van die Atlantiese hoog wat suid van die land inbeweeg, sal bewolkte weer met buie veroorsaak oor Natal en Oos-Transvaal. Die trog oor die binneland sal donderbuie veroorsaak oor die noordoostelike, noordelike en sentrale dele van die land.

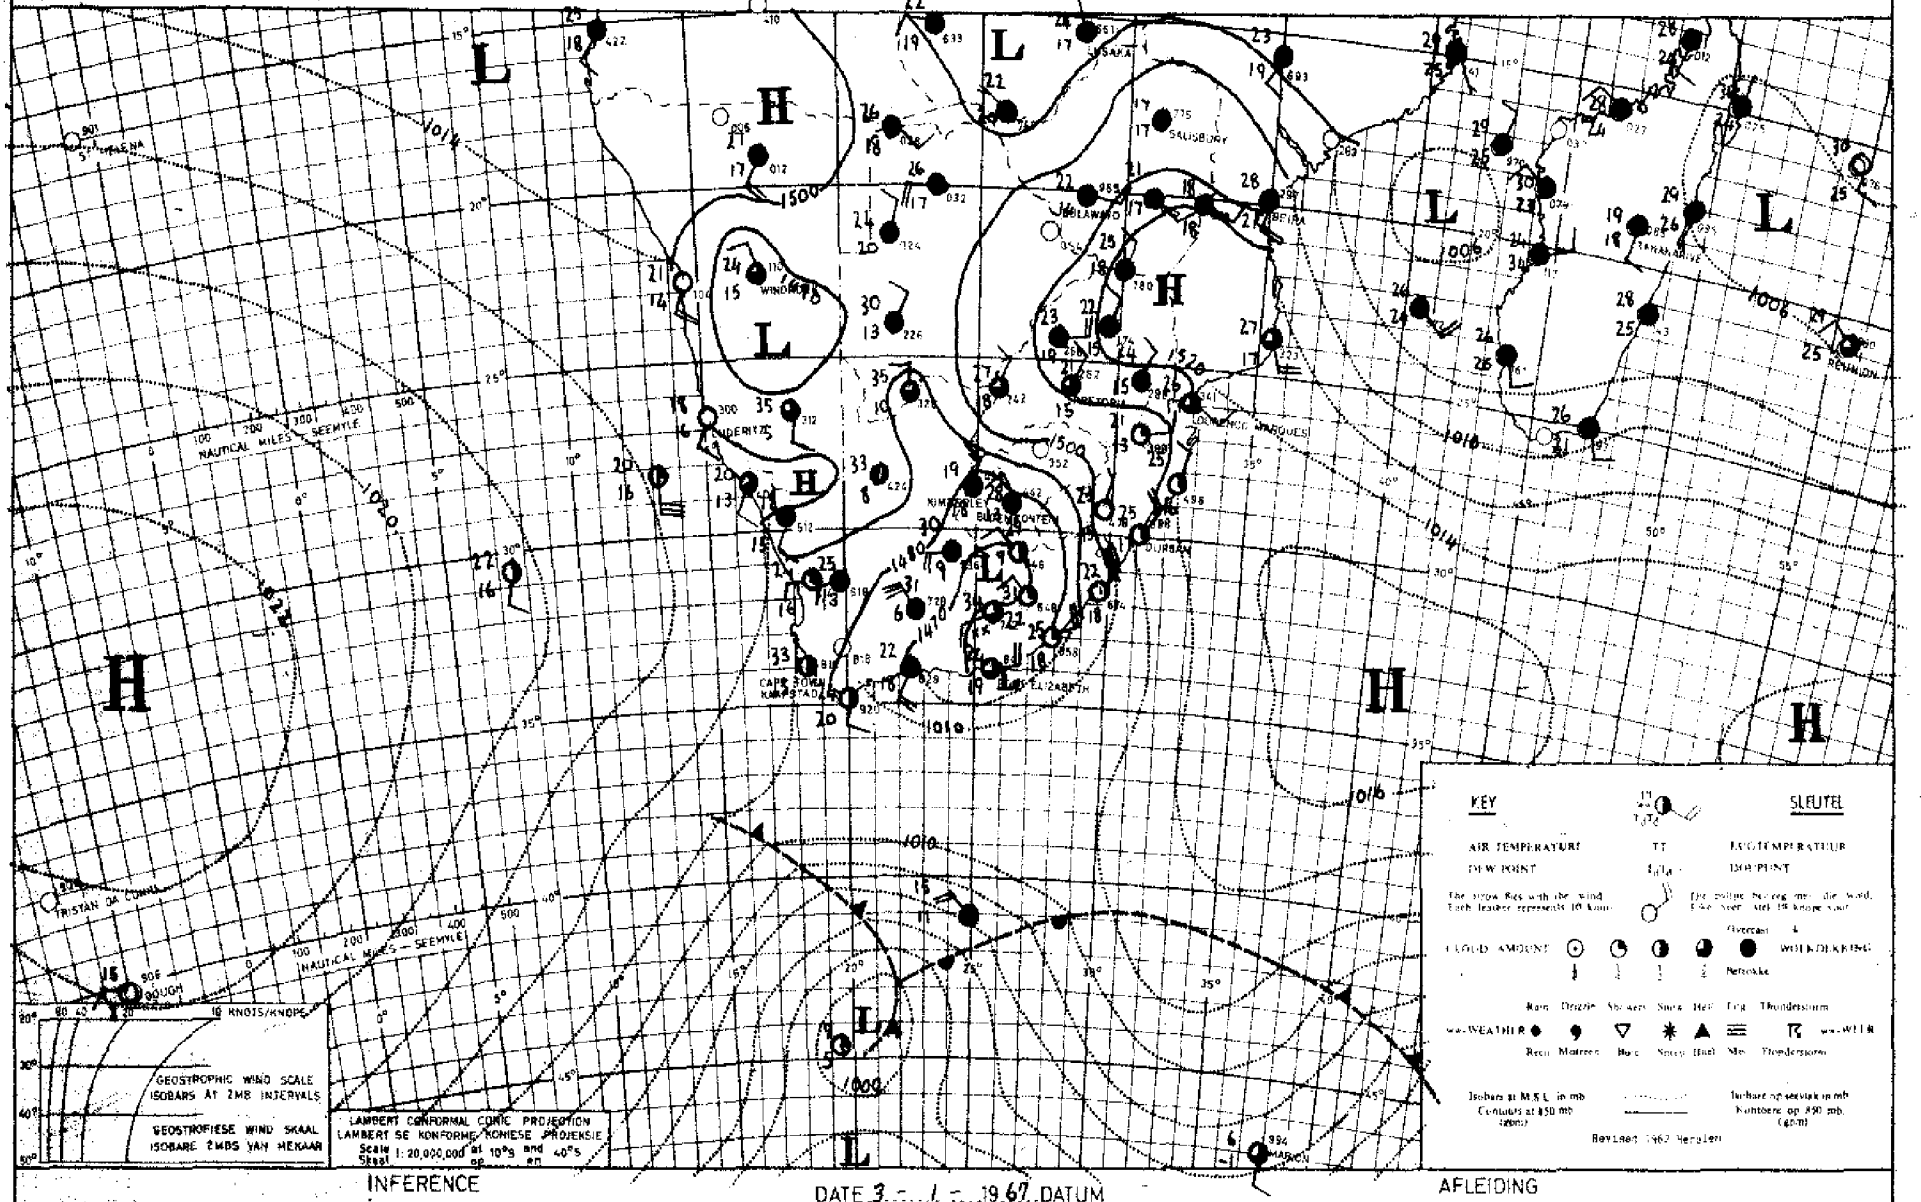
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE — DATE 3 - 1 - 1967 DATUM — AFLEIDING

With a trough over the central interior and moist air over the eastern interior, thunder-showers will occur over Transvaal, Natal, Free State, and north-eastern Cape. The coastal low is moving along the east coast and will cause cloudy weather with light rain over the Natal coast. With dry air over the south-western interior it will be fine to partly cloudy and warm.

Met 'n trog oor die sentrale binneland en vogtige lug oor die oostelike binneland sal donderbuie voorkom oor Transvaal, Natal, Vrystaat en Noordoos-Kaapland. Die kuslaag beweeg langs die ooskus op en sal bewolkte weer met ligte reën oor die Natalse kusgebied veroorsaak. Met droë lug aanwesig oor die suidwestelike binneland sal dit mooiweer tot gedeeltelik bewolk en warm wees oor hierdie gebied.

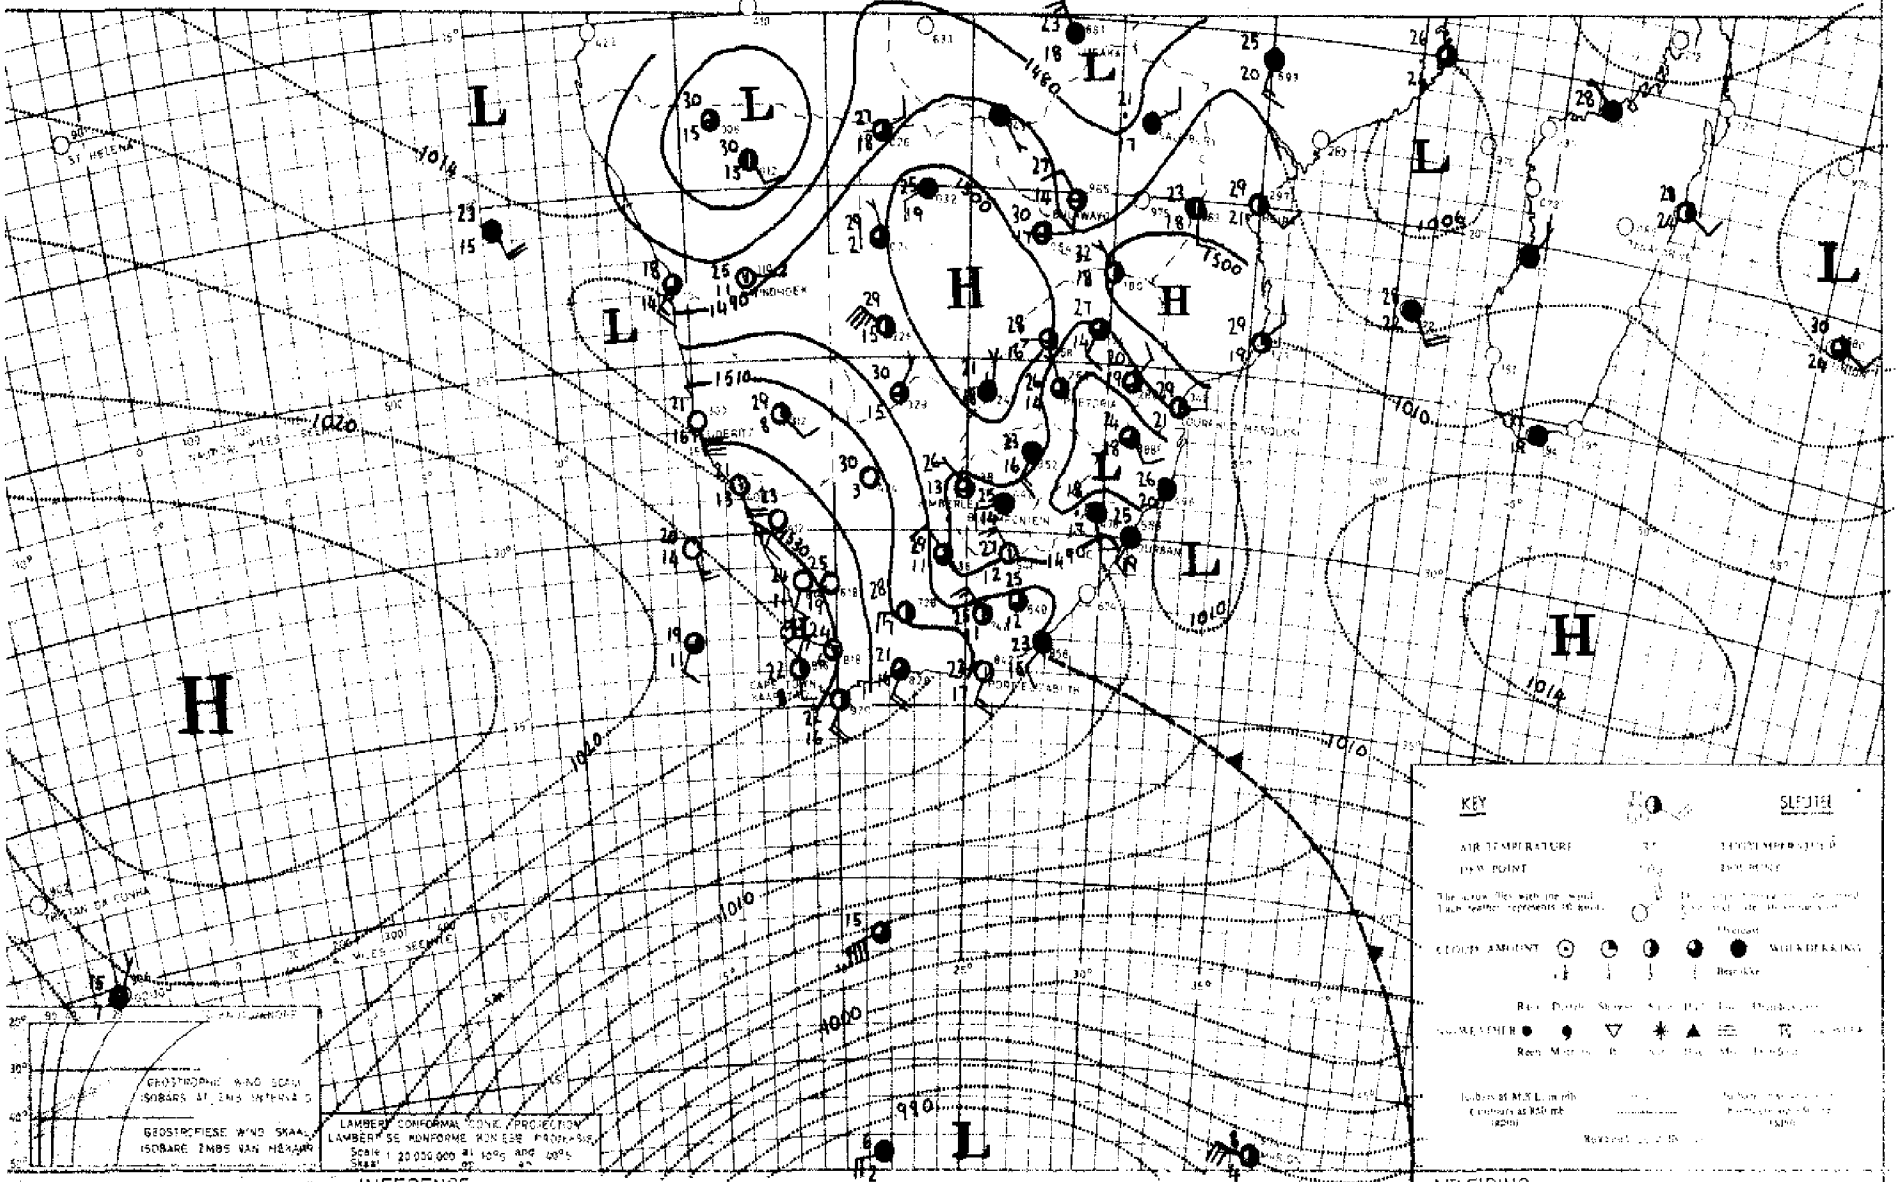
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 4 - 1 - 1967 DATUM

AFLEIDING

The ridging in of the Atlantic high along the Cape south coast is causing cloudy weather to spread over Natal and the Eastern Transvaal and showers will occur. A low pressure area will develop over the interior and thunder-showers will occur over the remainder of the Transvaal, parts of the Free State and North-eastern Cape.

As gevolg van die Atlantiese hoog wat langs die suidkus indruk sal bewolkte weer oor Natal en Oos-Transvaal uitbrei en buie sal voorkom. 'n Laagdruk-gebied sal oor die binneland ontwikkel en donder-buie sal voorkom oor die res van Transvaal, dele van die Vrystaat en Noordoos-Kaapland.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 5 - 1 - 19 67 DATUM

AFLEIDING

Moist air is in circulation over the northern and eastern parts of the country and with a trough over the central interior, rain or thunder-showers will occur over these regions.

Vogtige lug is in sirkulasie oor die noordelike en oostelike dele van die land en met die trog oor die sentrale binneland sal reën of donderbuie voorkom oor die dele.

INFERENCE

DATE 6 - 1 - 1967 DATUM

AFLEIDING

As a result of the zonal westerly circulation over the southern oceans, it will be cloudy with light showers over the south-western and southern coastal regions. At the same time the Atlantic is ridging in over the interior from the west so that it will be fine over most regions.

As gevolg van die sonale weswindstroming oor die suidelike oseane, sal bewolkte weer met ligte buie voorkom oor die suidwestelike en suidelike kusstreke. Terseltdertyd druk die Atlantiese hoog van die weste af in oor die binneland waar dit dus mooiweer sal wees oor die meeste dele.

DAAGLIKSE WEERBULLETIN

Reën, Motreën, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb — Isobare op seevlak in mb

Contours at 850 mb (geom) — Kontoere op 850 mb (geom)

Revised 1962 Hersien

INFERENCE

DATE 7 - / - 1967 DATUM

With a cyclone in the Mozambique channel and a high over the western parts of the country, conditions of rain over the interior are favourable and thunder-showers are expected only over South-eastern Transvaal, Natal and North-eastern Cape. A cold front is approaching the Cape and cloudy weather with light rain will occur over the South-western coastal area. Over the rest of the interior it will be fine and warm.

AFLEIDING

Met 'n sikloon in die Mosambiek-kanaal en 'n hoog oor die westelike dele van die land, is toestande vir reën oor die binneland ongunstig en word donderbuie slegs oor Suidoos-Transvaal, Natal en Noordoos-Kaapland verwag. 'n Koufront nader die Kaap en koel bewolkte weer met ligte reën sal oor die suidwestelike kusstreke voorkom. Oor die res van die binneland sal dit mooiweer en warm wees.

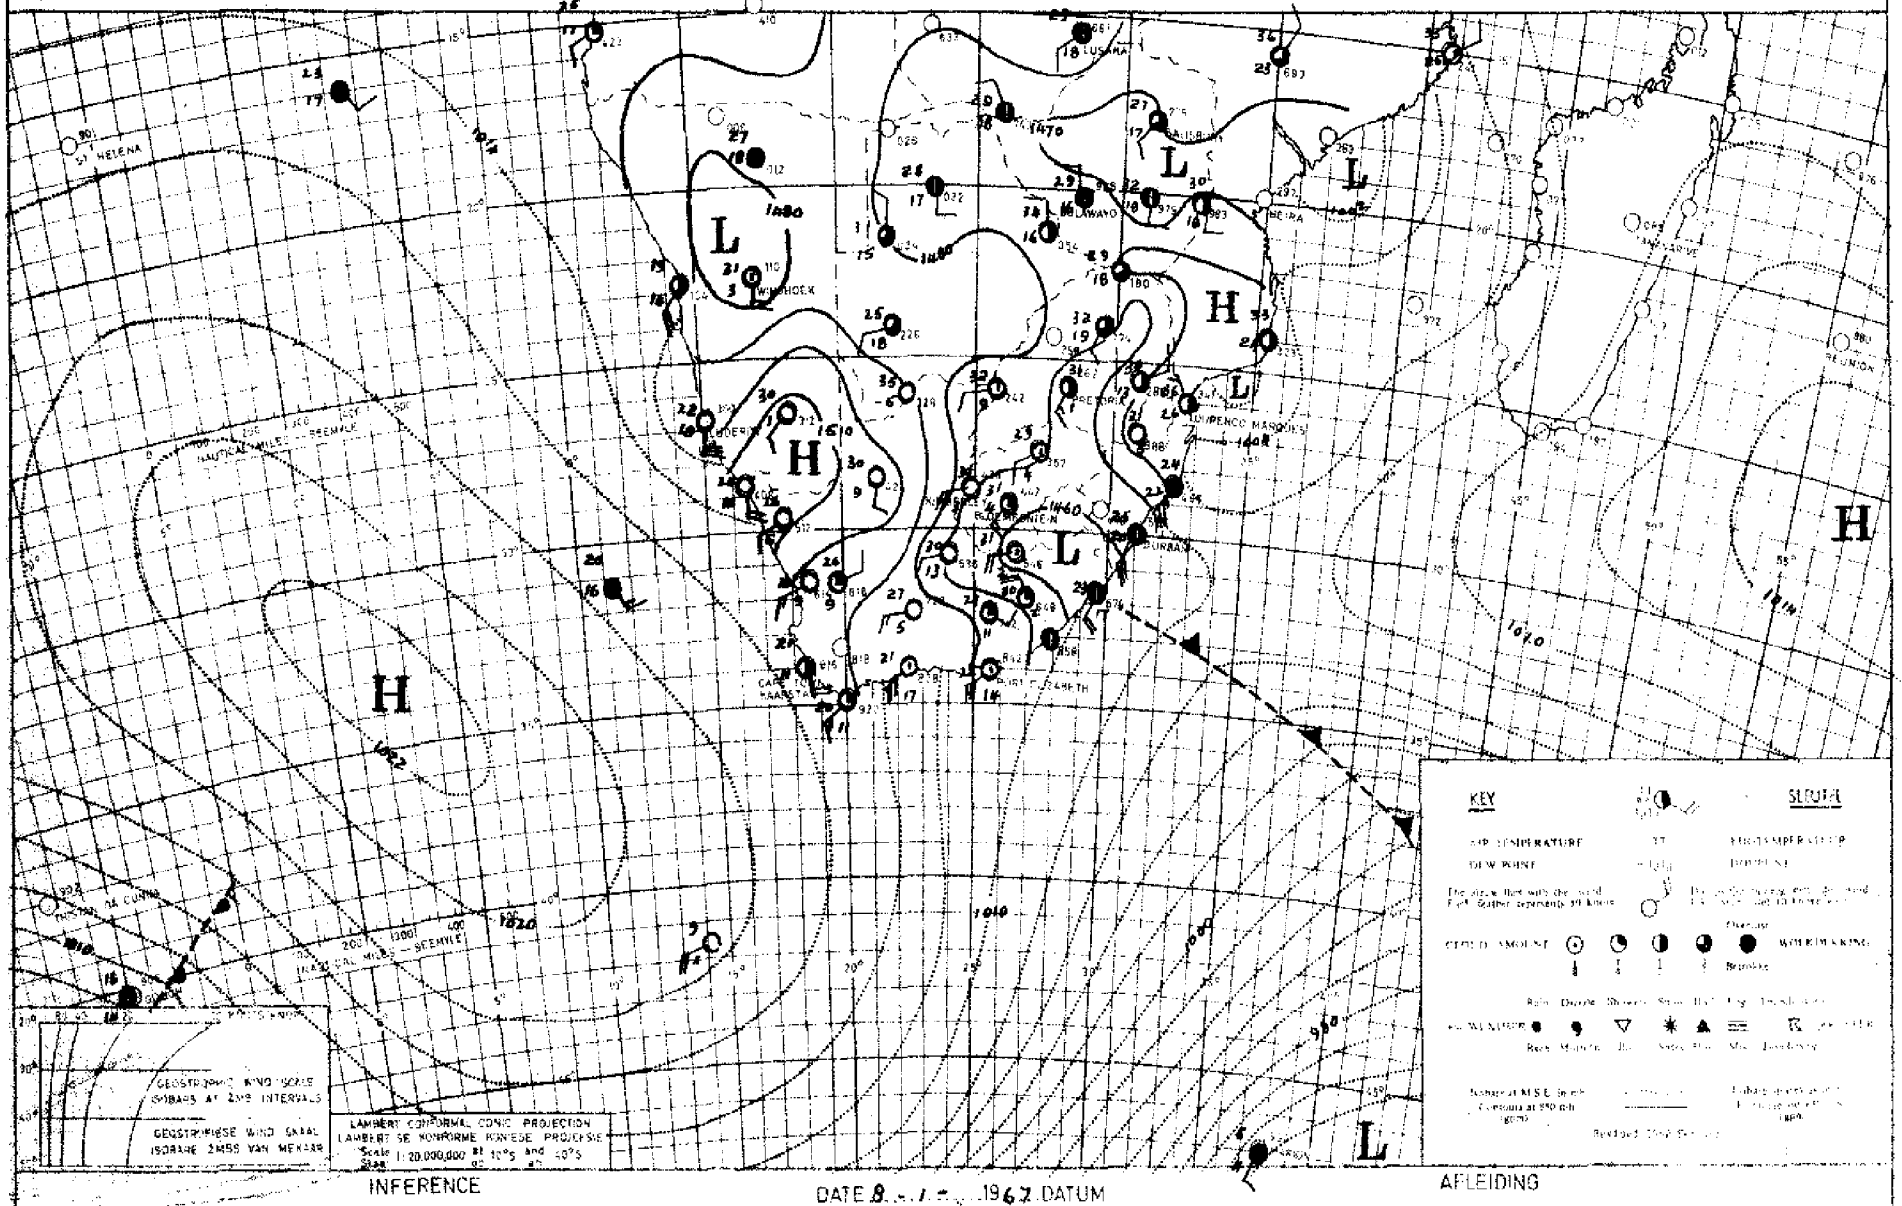
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 8 - 1 - 1962 DATUM AFLEIDING

With a high over the western parts of the country, a low over North-eastern Cape and low dew-points over the interior, fine weather is expected over the greater part of the interior. A few thunder-showers will occur over the extreme eastern parts of the country. The stream of moist air from the south will cause cloudy and cool weather with light rain over the southern and south-eastern coastal areas.

Met 'n hoog oor die westelike dele van die land, 'n laag oor Noordoos-Kaapland en lae douepunte oor die binneland word mooiweer oor die grootste deel van die binneland verwag. Enkele donderbuie sal egter voorkom oor die verre oostelike dele van die land. Die stroming van vogtige lug uit die suide sal bewolkte en koeler weer met ligte reënbuie oor die Suidelike en Suidoostelike kusstreke veroorsaak.

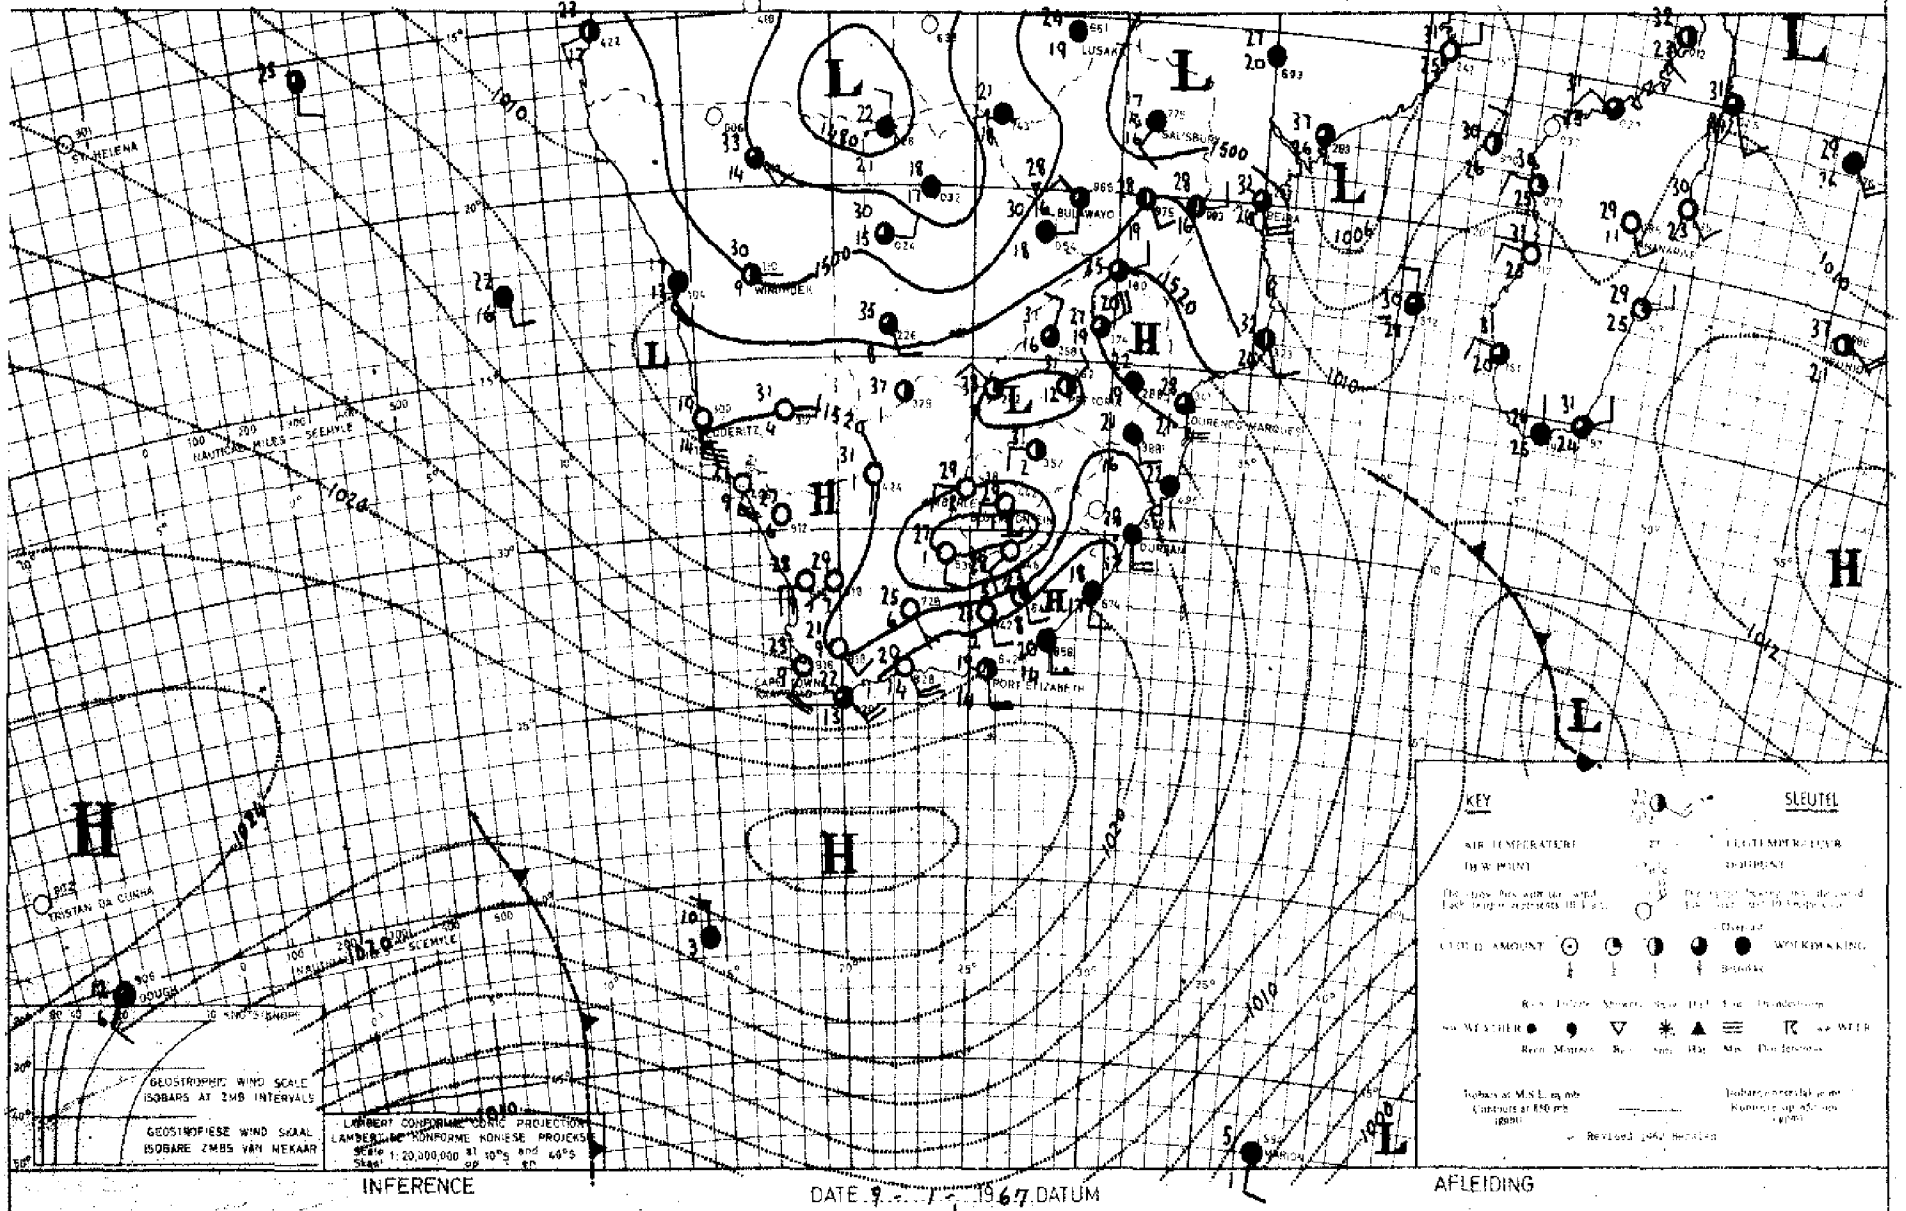
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 9 - 1 - 1967 DATUM AFLEIDING

A high pressure cell will form off the east coast and cloudy weather with showers will occur over Natal, Transvaal and northern Free State. Over the western regions of the country, where the air is dry, it will be fine.

Die hoog suid van die land beweeg ooswaarts en bewolkte weer met buie sal oor Natal, Transvaal en Noord-Vrystaat voorkom. Oor die westelike gebiede van die land is die lug droog en dit sal mooiweer wees.

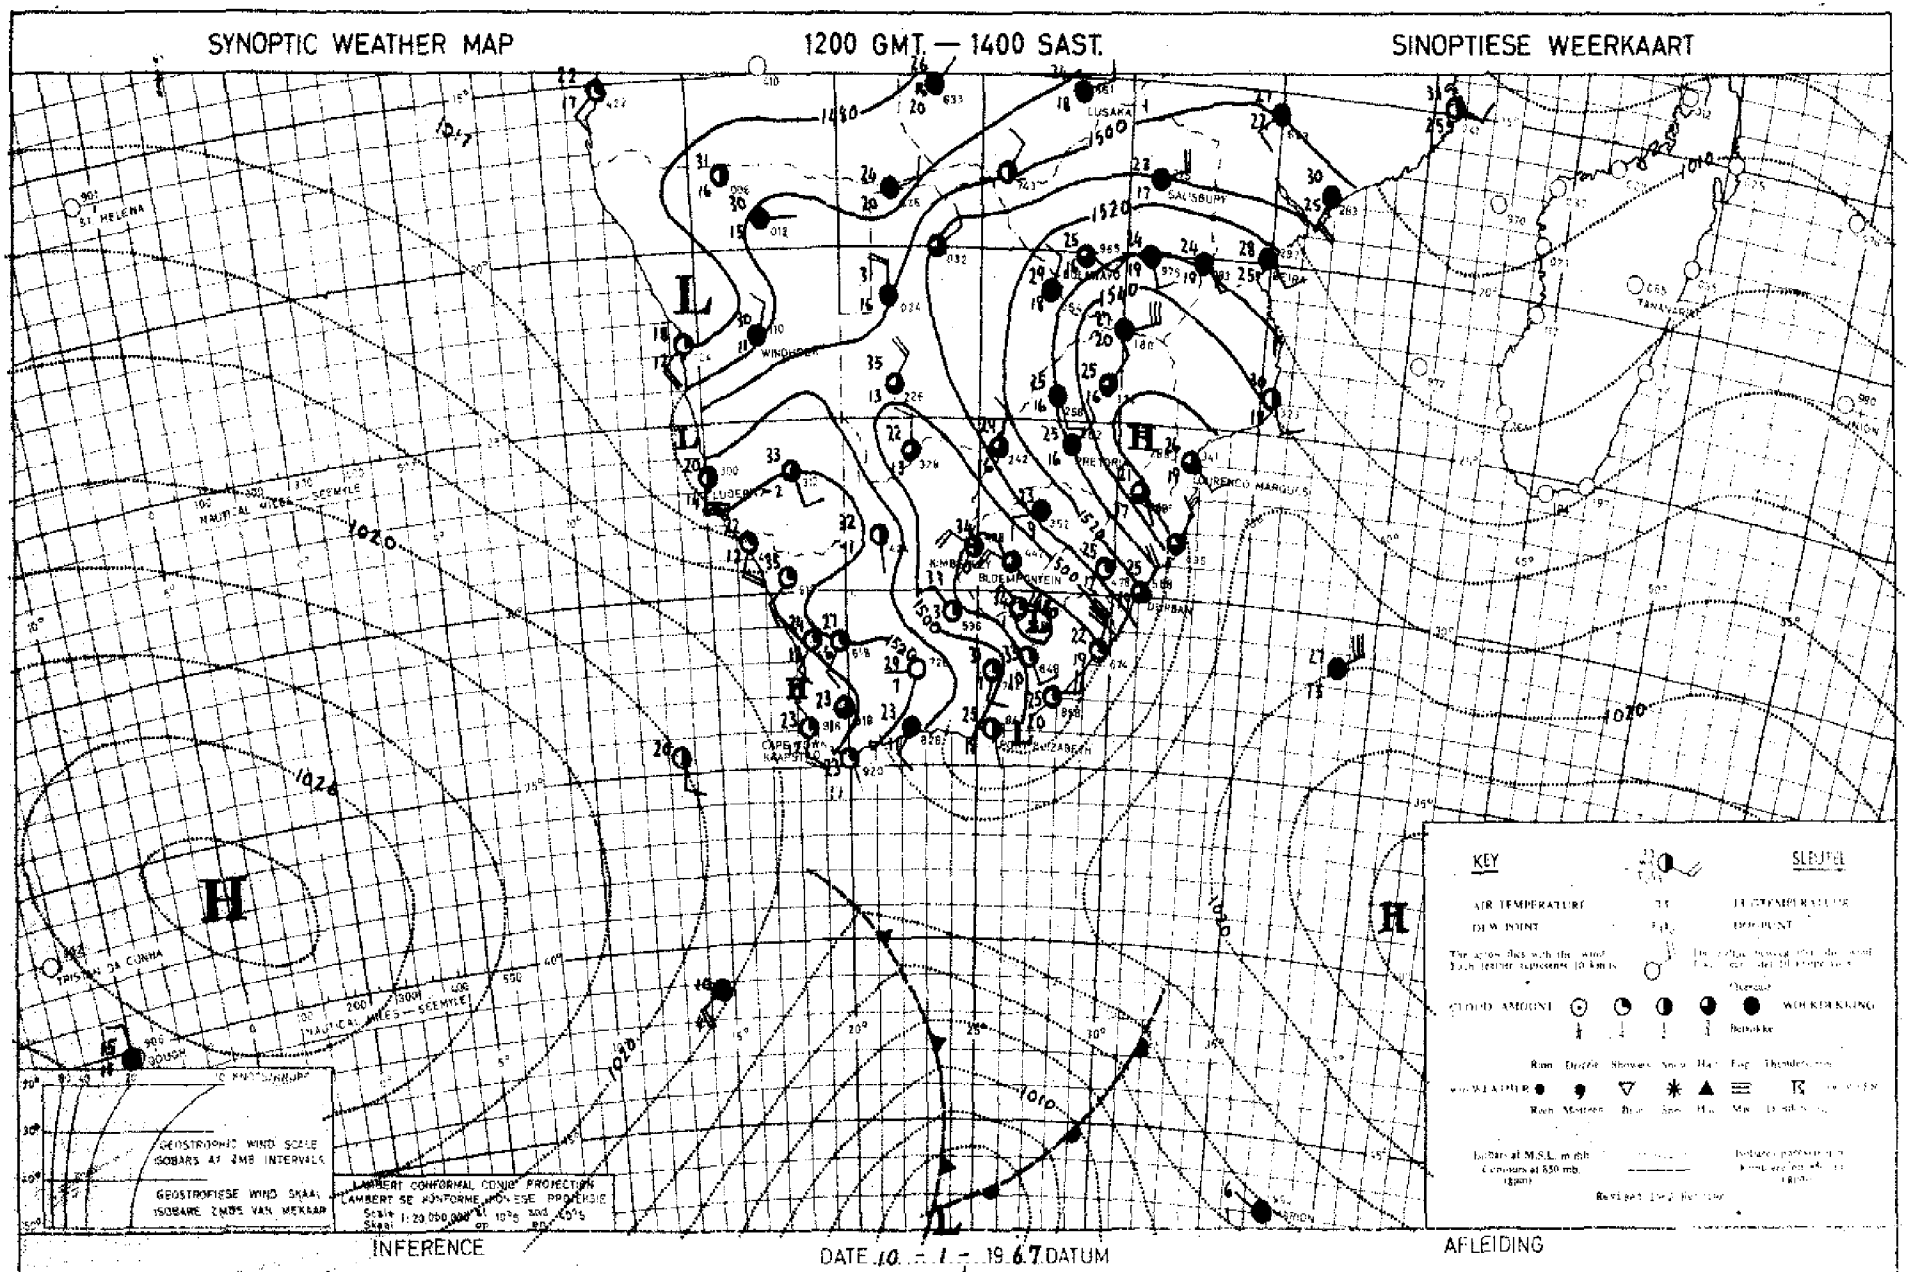
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 10 - 1 - 1967 DATUM AFLEIDING

Moist air is in circulation over the northern parts of the country and with the low over the interior, thunder-showers will occur over these regions.

Vogtige lug is in sirkulasie oor die noordelike dele van die land en met die laag oor die binneland sal donderbuie oor dié dele uitsak.

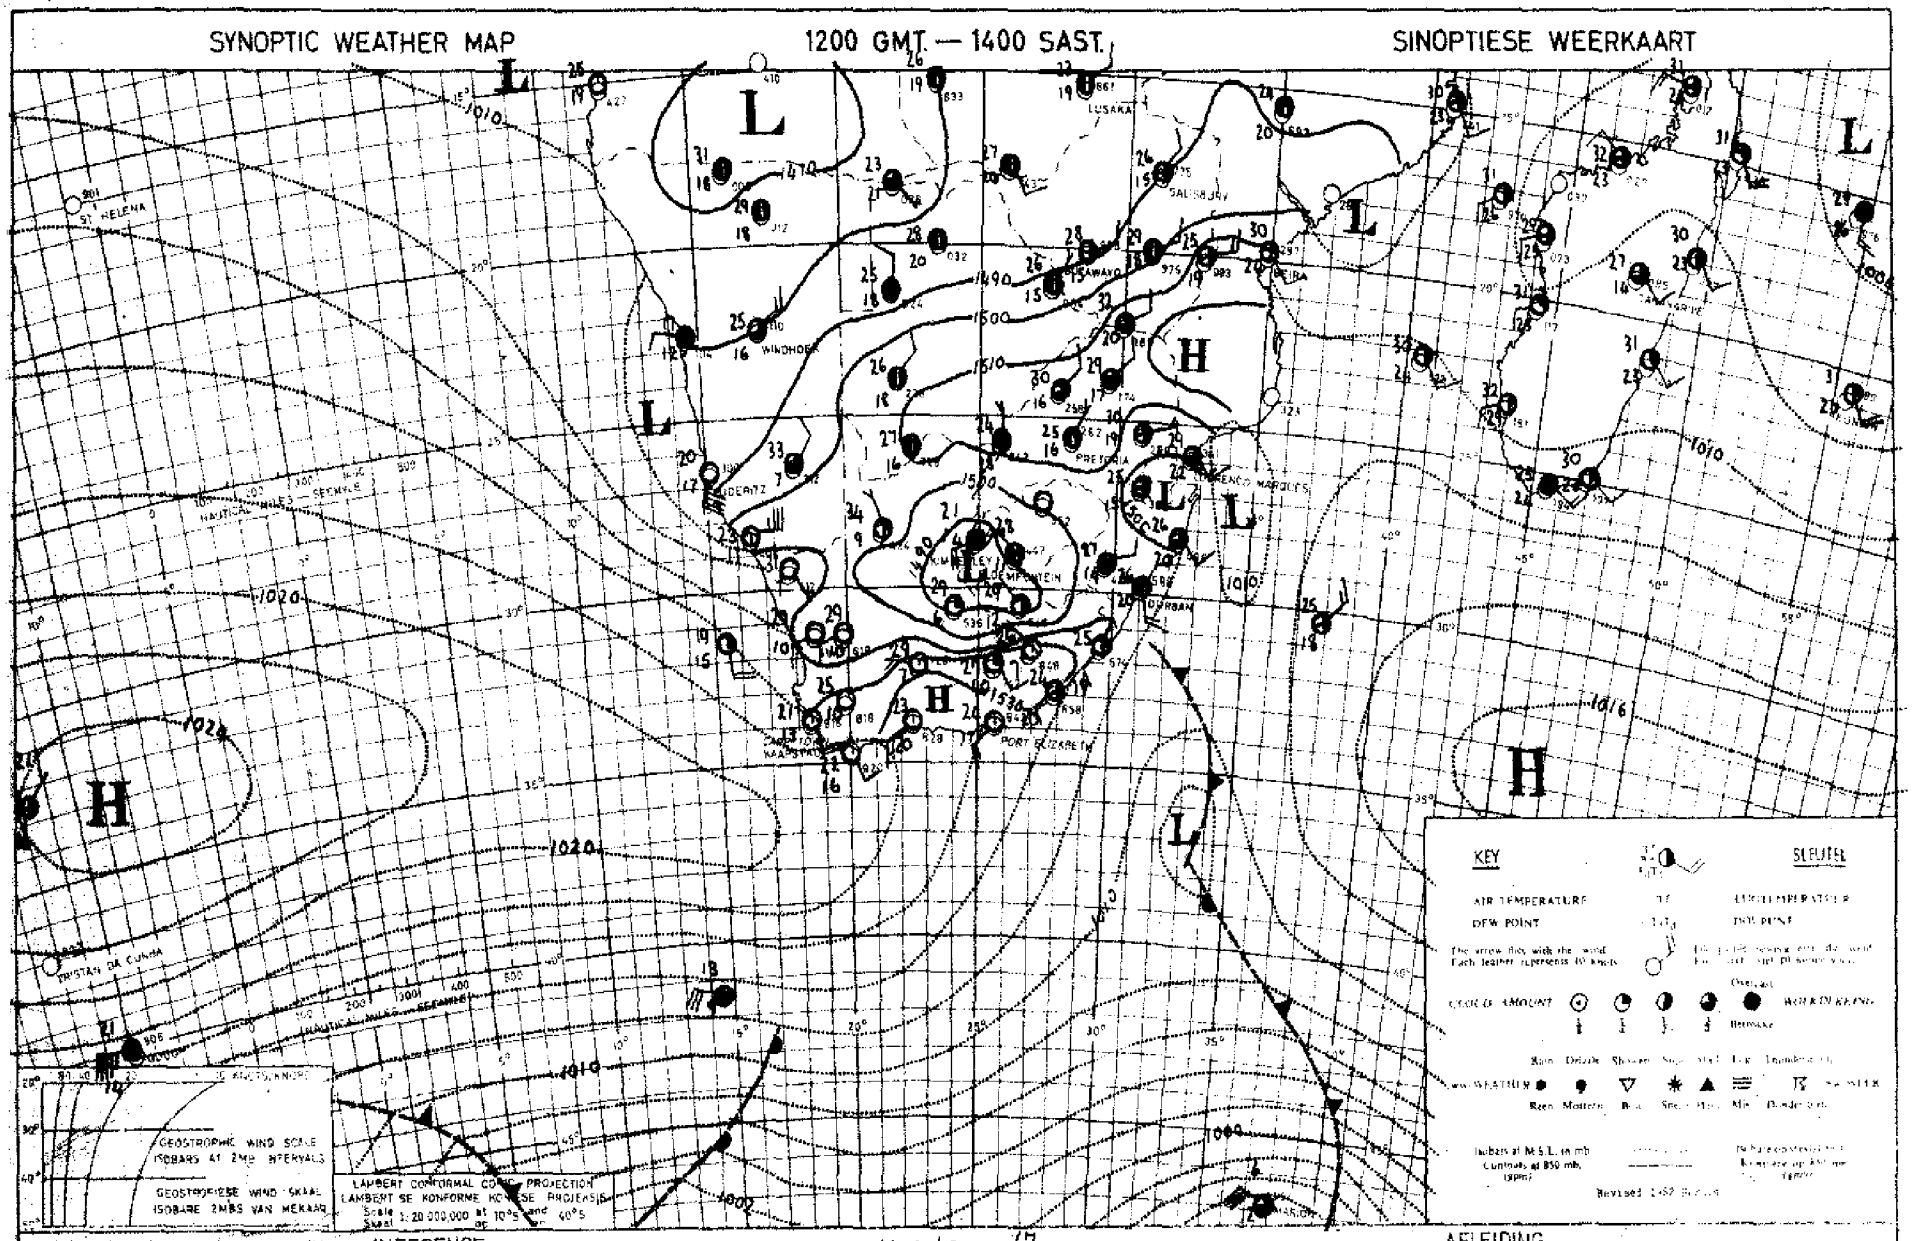
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 14 - 1 - 19 67 DATUM AFLEIDING

With a low over the interior and moist air present over the northern and eastern parts of the country, thunder-showers will occur over these areas. Onshore winds over the South-eastern coast will cause partly cloudy weather. With dry air in circulation over the South-western interior, it will be fine and warm over these areas.

Met 'n laag oor die binneland en vogtige lug aanwesig oor die noordelike en oostelike dele van die land sal donderbuie voorkom oor hierdie gebiede. Die aanslag van suidewinde teen die suidoostelike kusstreke sal gedeeltelik bewolkte weer veroorsaak. Met droe lug in sirkulasie oor die suidwestelike binneland sal dit mooiweer en warm wees oor hierdie gebiede.

Moist air is flowing south-westwards over the country and, associated with a low pressure area over the central interior, rain or thunder-showers will occur over the northern, eastern and central regions.

Vogtige lug beweeg suidweswaarts oor die land terwyl daar 'n laag oor die sentrale binneland aanwesig is. Reën en donderbuie sal dus voorkom oor die noordelike en oostelike sentrale gebiede.

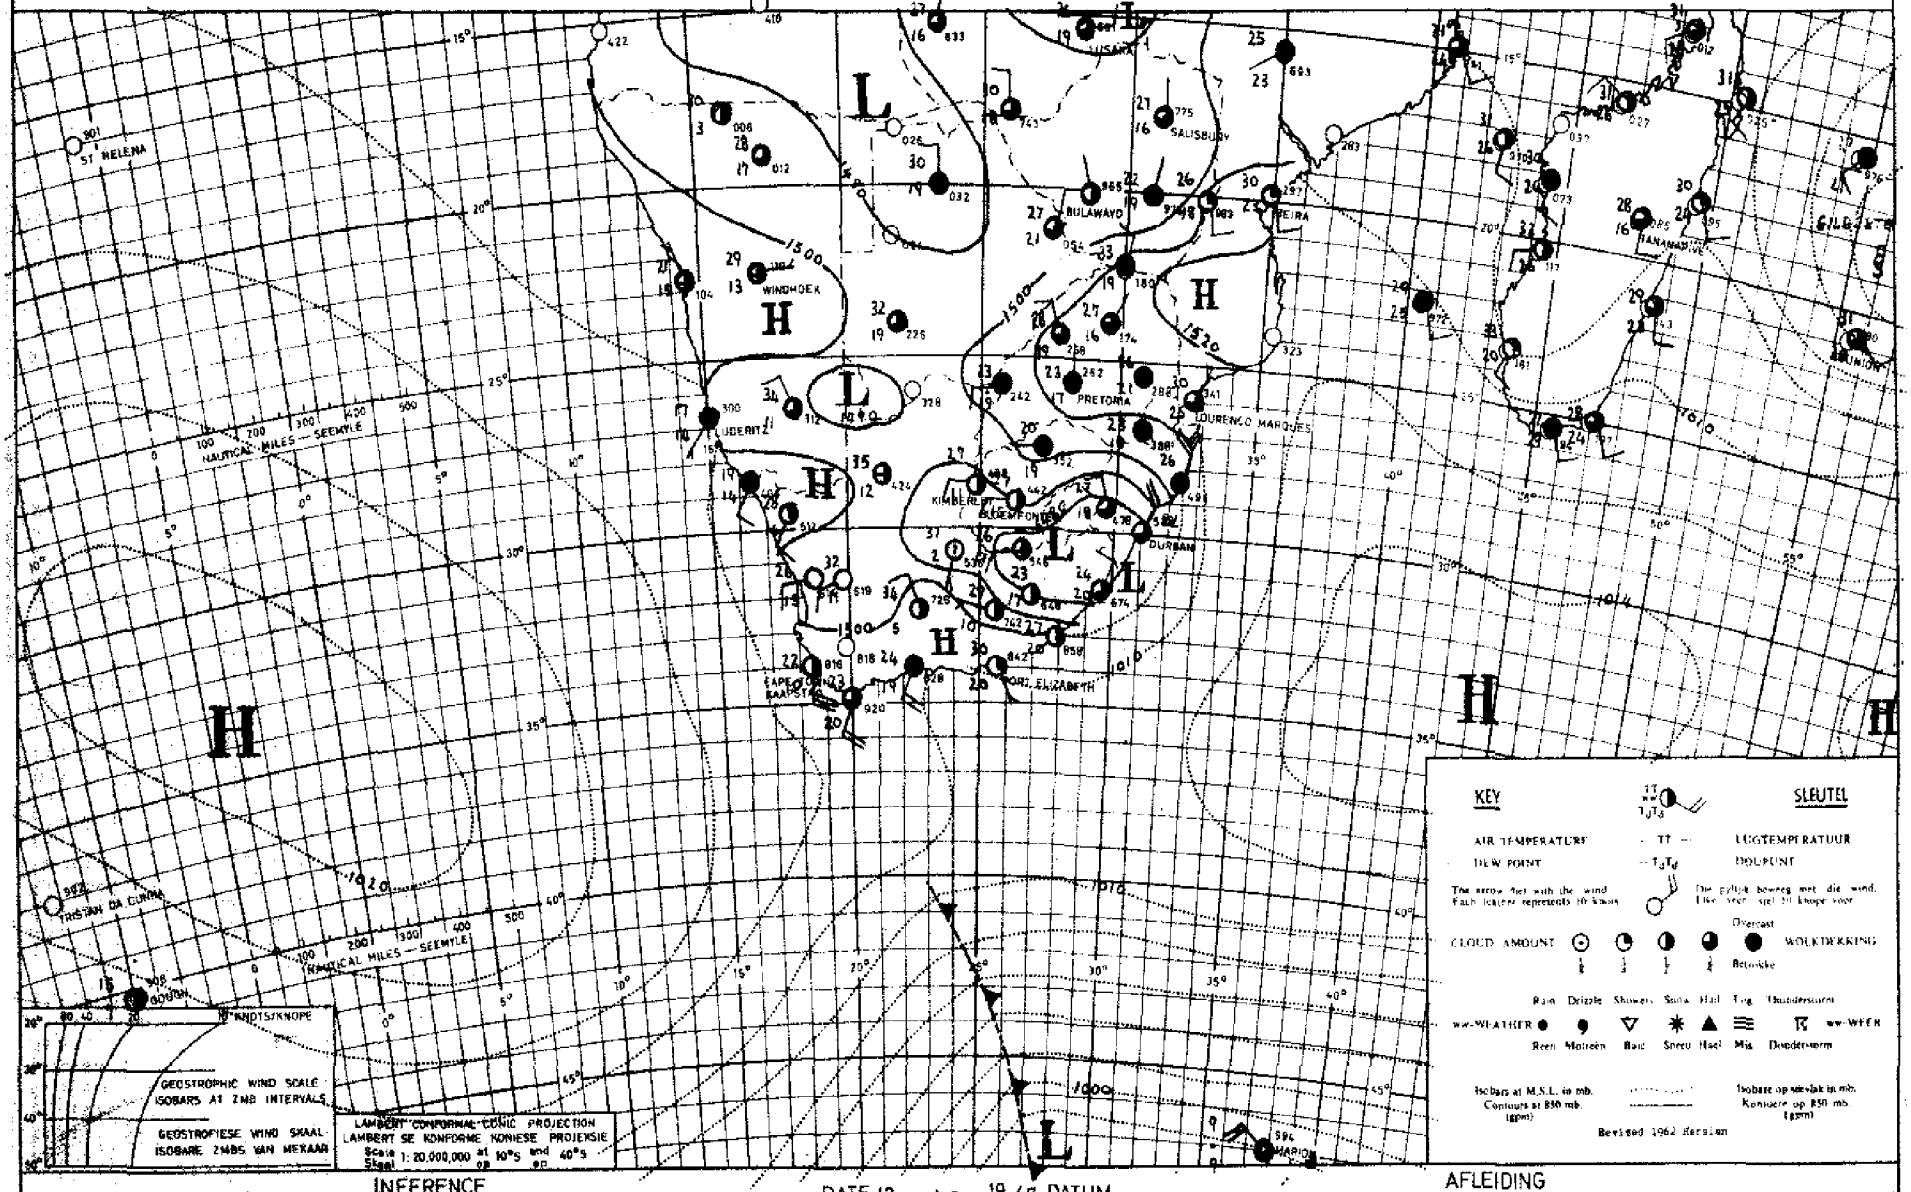
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



KEY / SLEUTEL

AIR TEMPERATURE — TT — LUGTEMPERATUUR

DEW POINT — T_dT_d — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots. / Die pyltjie beweeg met die wind. Elke veer stel 10 knope voor.

CLOUD AMOUNT / WOLKDEKKING — Overcast / Bedekte

ww-WEATHER / ww-WEER — Rain, Reen; Drizzle, Motreen; Showers, Bale; Snow, Sneeu; Hail, Hael; Fog, Mis; Thunderstorm, Donderstorm

Isobars at M.S.L. in mb. / Isobare op seevlak in mb.

Contours at 850 mb. (gpm) / Kontoere op 850 mb. (gpm)

Revised 1962 Herskou

INFERENCE

DATE 13-1-1962 DATUM

AFLEIDING

With moist air present over the northern and eastern interior and a low on the surface and in the upper over Botswana, thunder-showers will occur over Transvaal, Free-State, Natal, Botswana and the northern parts of South West Africa. The Atlantic high ridging in south of the country will cause cloudy weather with light rain over the south coast of the Cape. The inflow of dry air over the western parts of the Cape will cause fine weather over this area.

Met vogtige lug aanwesig oor die noordelike en oostelike binne-land en 'n laag een die oppervlakte en in die bolug oor Botswana, sal donderbuie voorkom oor Transvaal, die Vrystaat, Natal, Botswana en die noordelike dele van Suidwes-Afrika. Die Atlantiese hoog wat suid, van die land uitstoot, veroorsaak bewolkte weer met ligte reën oor die suidkus van Kaapland. Die invloei van droe lug oor die westelike dele van Kaapland laat mooiweerstoestande oor hierdie gebied voortduur.

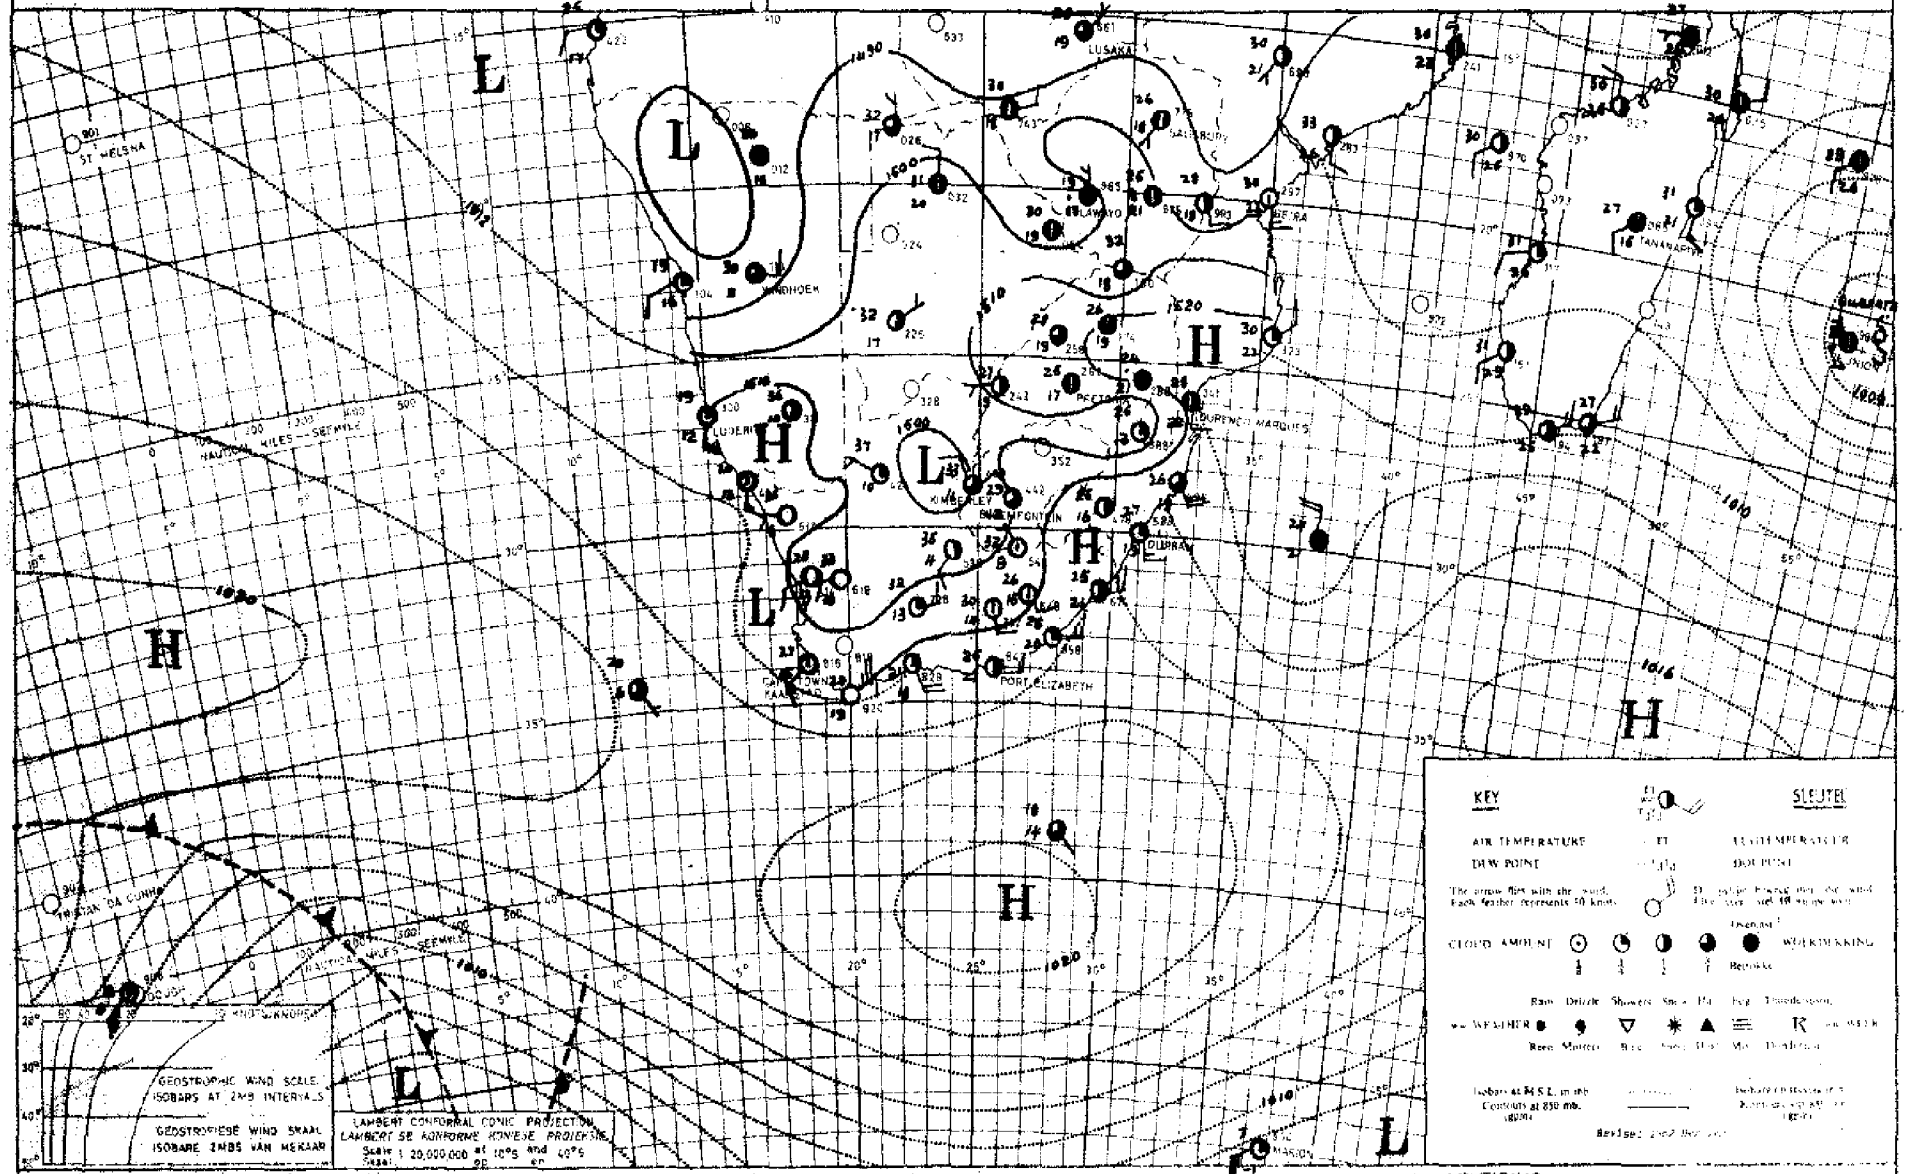
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 14 - 1 - 1967 DATUM AFLEIDING

The high south of the continent is advecting moist air over Natal and Eastern Transvaal where it will be cloudy with light rain. With the low over the interior and warm moist air over Botswana, northern South-West Africa and Northern Transvaal, thunder-showers will occur over these regions. Dry air has moved in over the western interior where it will be fine

Die hoog suid van die land voer vogtige lug in oor Natal en Oos-Transvaal waar dit dus bewolk sal wees met ligte reën. Met die laag oor die binneland en warm vogtige lug oor Botswana noordelike Suidwes-Afrika en Noord-Transvaal, sal donderbuie oor hierdie dele uitsak. Droë lug het oor die westelike binneland inbeweeg en dit sal mooiweer wees oor die dele.

INFERENCE

DATE ... 16 . 1 . 19 67 DATUM

Moist air is present over the eastern interior but with the absence of a low in the upper air only isolated thunder showers are expected over Southern Transvaal, North-Eastern Free State and Natal. The coastal low moving along the east coast will cause cloudy weather with light rain over the South-east and east coast. The Atlantic high is ridging in over the western interior and it will be fine to partly cloudy over these areas.

AFLEIDING

Vogtige lug is aanwesig oor die oostelike binneland maar met die afwesigheid van 'n laag in die bolug word slegs los donderbuie verwag. oor Suid-Transvaal Noordoos-Vrystaat en Natal. Die kuslaag wat langs die ooskus opbeweeg, vergorsaak bewolkte koel weer met ligte reën oor die Suid-ooste en Ooskus. Die Atlantiese hoog druk oor die weste-like binneland in en dit sal dus mooiweer tot gedeeltelik bewolk en warm wees oor die dele.

INFERENCE

DATE 16 - 1 - 19 67 DATUM

AFLEIDING

The high south of the country is moving north-eastwards and will cause cloudy weather with light rain over the eastern regions. With a low over the interior thunder-showers will occur over most parts except for the westen and central regions of the Cape Province.

Die hoog suid van die land beweeg noordooswaarts en sal bewolkte weer met ligte reen veroorsaak oor die oostelike dele van die land. Met die laag oor die binneland sal donderbuie voorkom oor die meeste dele behalwe die Kaapse westelike en sentrale dele.

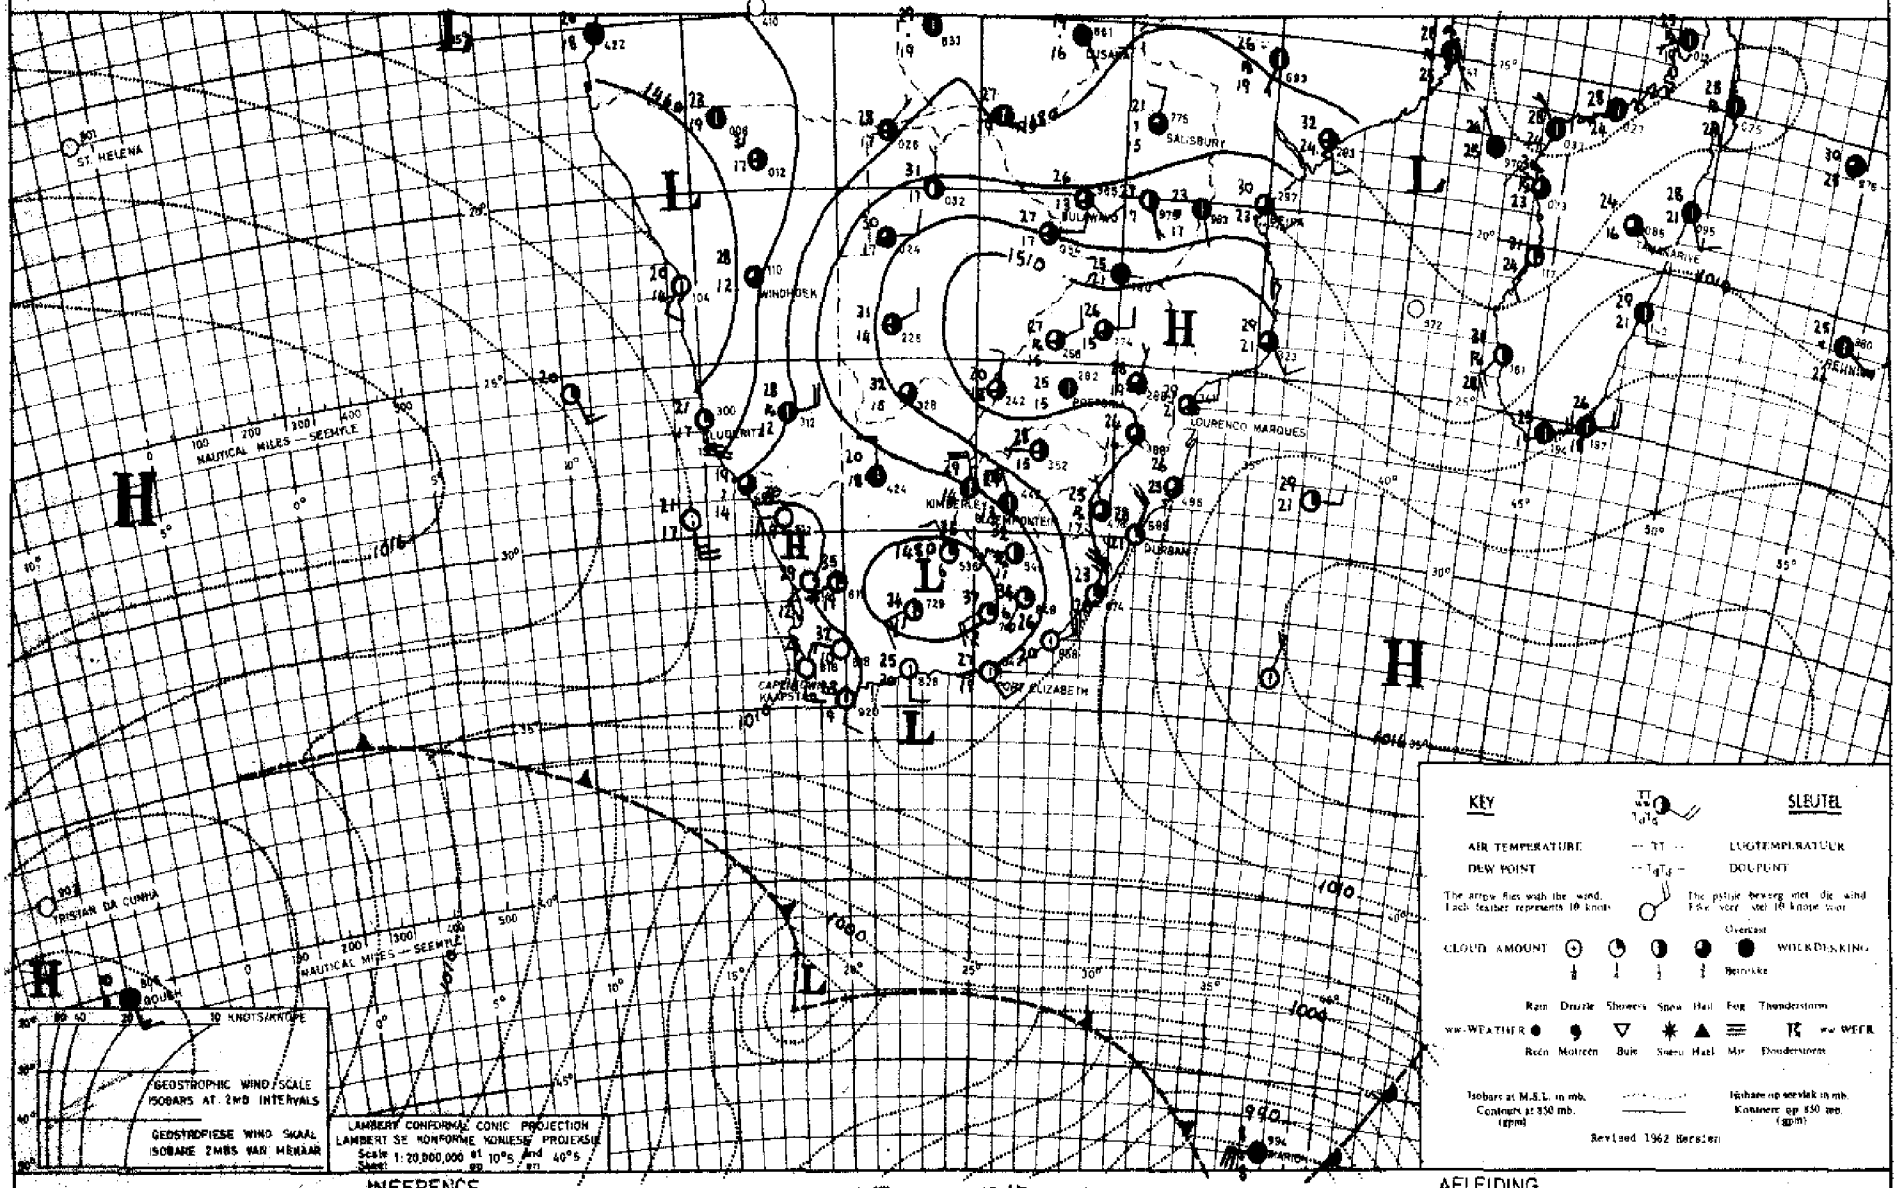
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 17.../.../...1967 DATUM AFLEIDING

The cold front to the west of the Cape is moving eastwards and will cause cloudy weather in the mo g along the south-western coast. With moist over the northern, central and eastern regions and a low pressure area over the interior, thunder-showers will occur over these regions.

Die kouefront wes van die Kaap beweeg ooswaarts, en sal tydelik bewolkte weer langs die suidweskus veroorsaak. Met vogtige lug oor die noordelike, sentrale en oostelike streke en 'n laagdrukgebied oor die binneland sal donderbuie oor eersgenoemde streke uitsak.

SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART

INFERENCE DATE 19.. .. .. 19.67 DATUM AFLEIDING

General rain will continue over the northern, eastern and central interior as a result of the low over the central interior. The cold front west of Cape Town will reach the western, south-western and southern Cape coasts where it will become cloudy and cooler with rain.

Algemene reën sal voortduur oor die noordelike, oostelike en sentrale binneland as gevolg van die laag oor die sentrale dele. Die koufront wes van Kaapstad sal môre die Kaapse wes-, suidwes en suidkusstreke bereik waar dit bewolk en koeler sal word met reën.

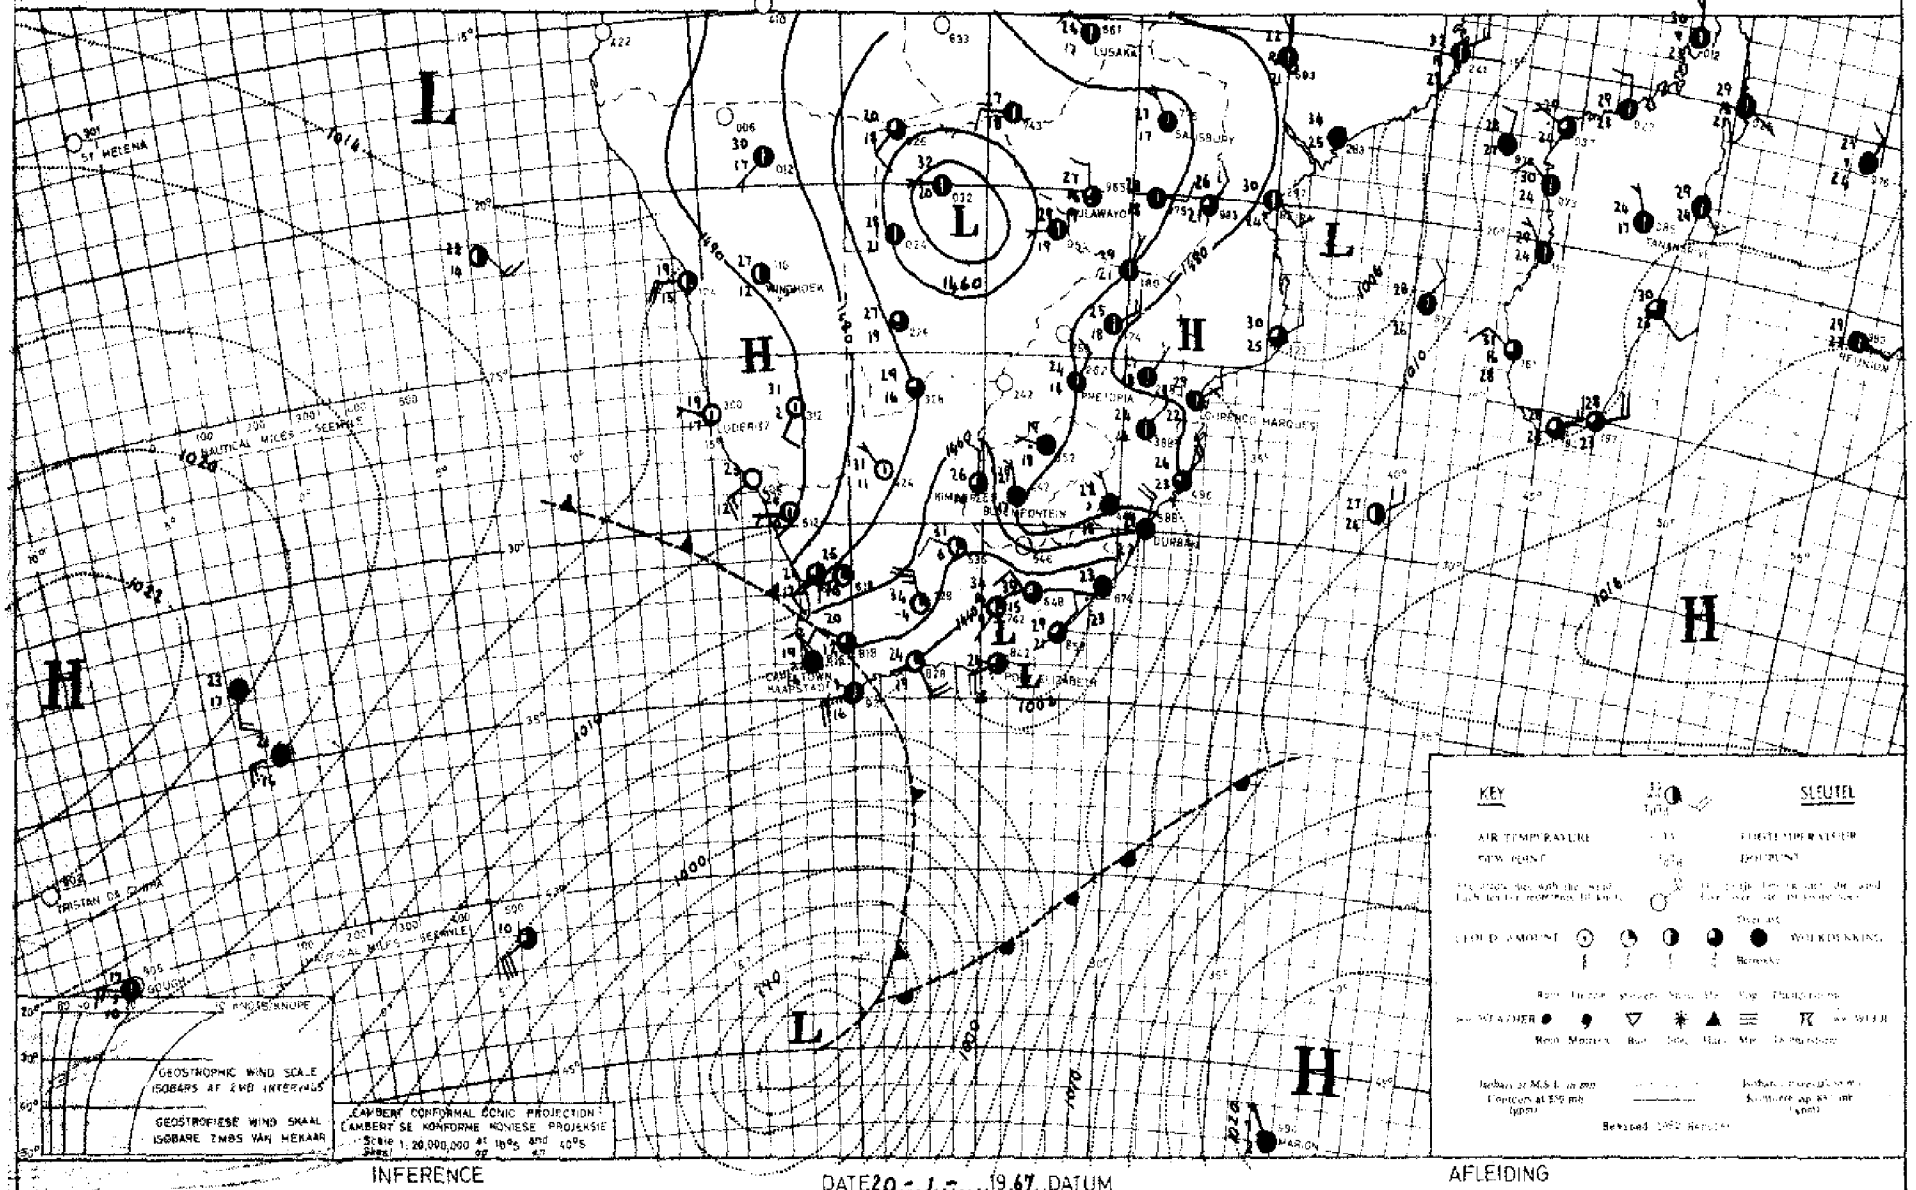
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 20 - 1 - 1967 DATUM AFLEIDING

The trough over the interior is moving eastwards and dry air from the west will spread over western Transvaal and most of the Free State where the weather will clear. Moist air is still present over the remainder of the Transvaal and Natal where further rain and showers will occur. The cold front moving along the south coast will cause cooler weather with light rain over the southern and eastern coastal regions.

Die trog oor die binneland beweeg ooswaarts en droë lug vanuit die weste sal oor Wes-Transvaal en die meeste dele van die Vrystaat uitbrei waar dit sal opklaar. Vogtige lug is nog aanwesig oor die res van Transvaal en Natal waar verdere reën en buie sal voorkom. Die koufront wat langs die suidkus beweeg, sal koeler weer met ligte reën oor die suidelike en oostelike kusstreke veroorsaak.

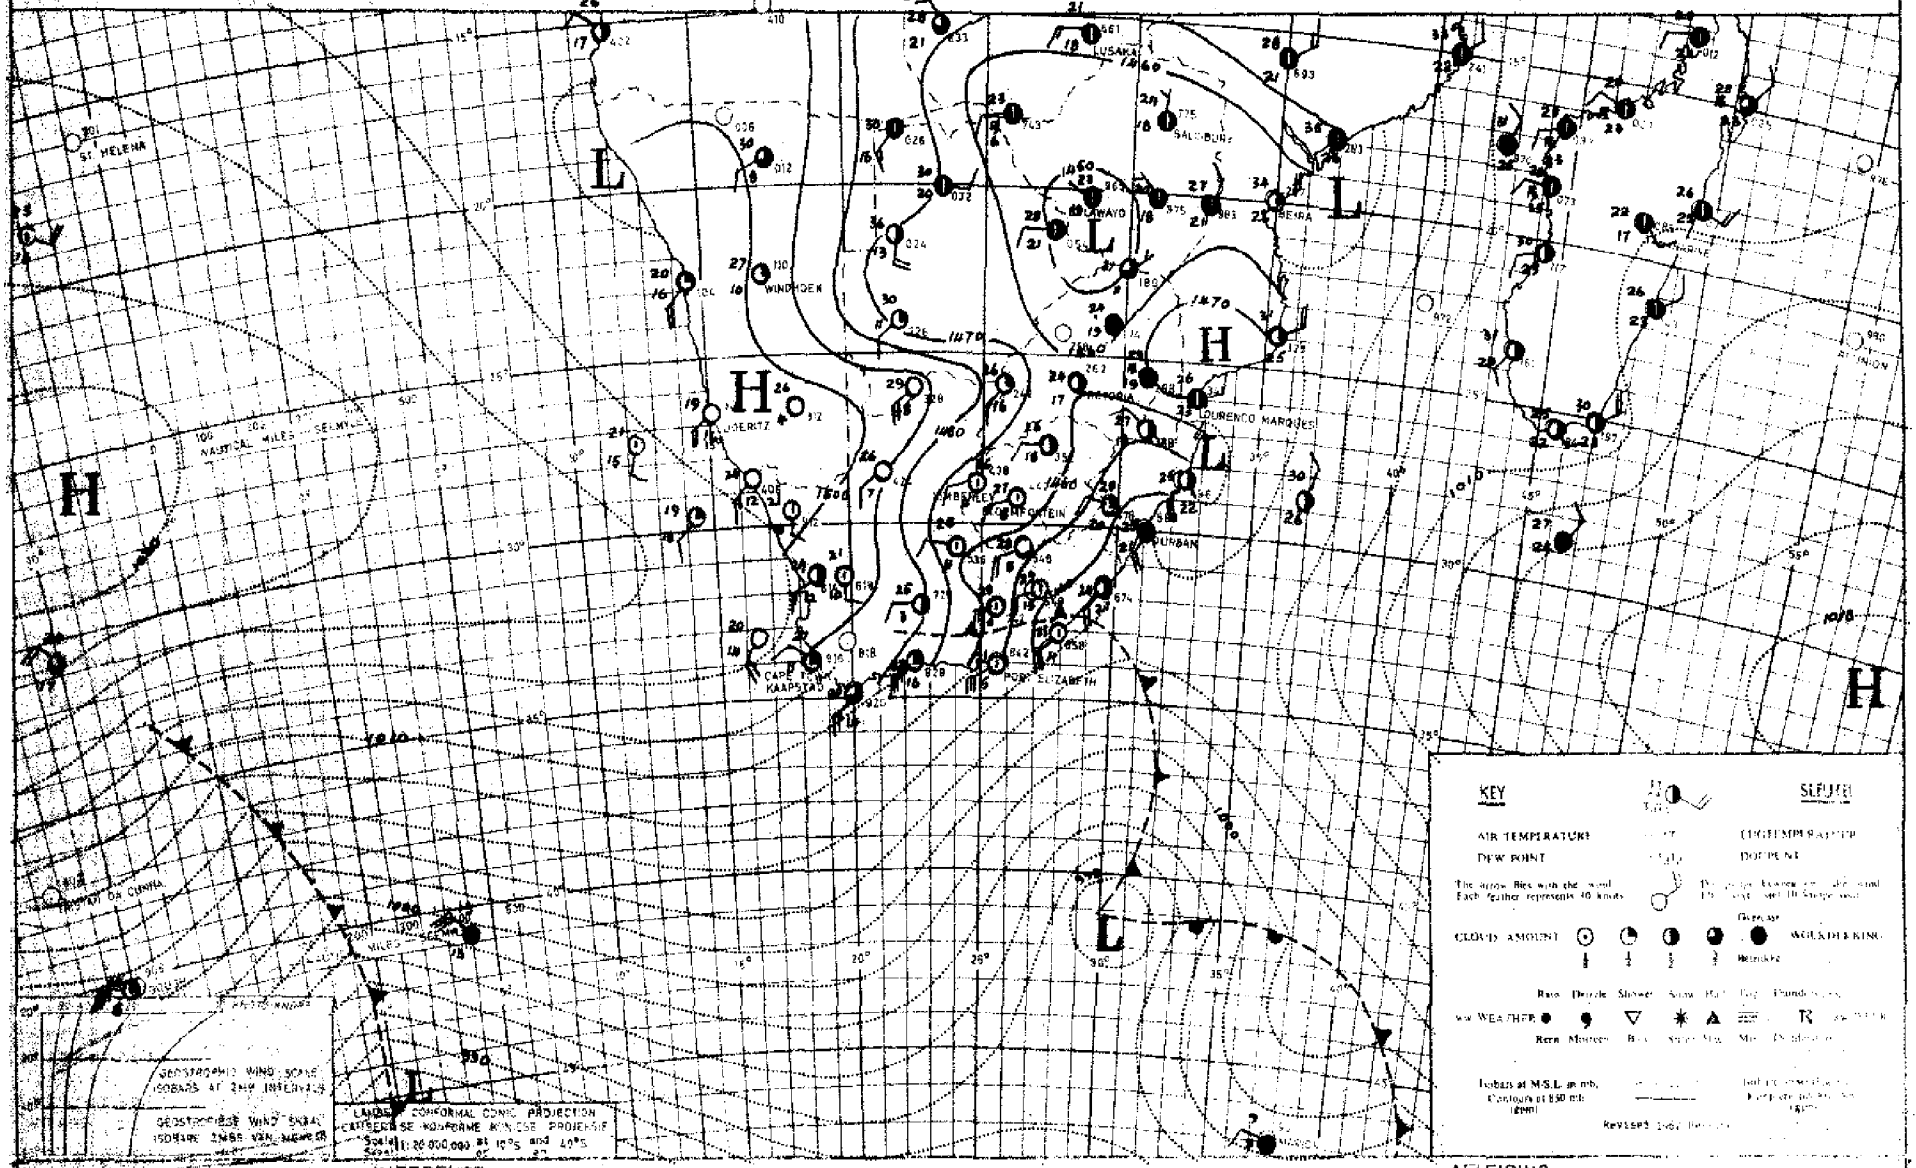
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 21 - 1 - 1967 DATUM AFLEIDING

As a result of the low over Rhodesia, fairly general rain will occur over Northern Transvaal. Isolated showers will fall over Eastern Transvaal and Natal. Dry air is moving in over the rest of the country where it will be fine.

As gevolg van die laag oor Rhodesië sal taamlike algemene neerslae oor Noord-Transvaal voorkom. Los buie sal oor Oos-Transvaal en Natal uitsak. Droë lug beweeg in oor die res van die land waar dit mooi weer sal wees.

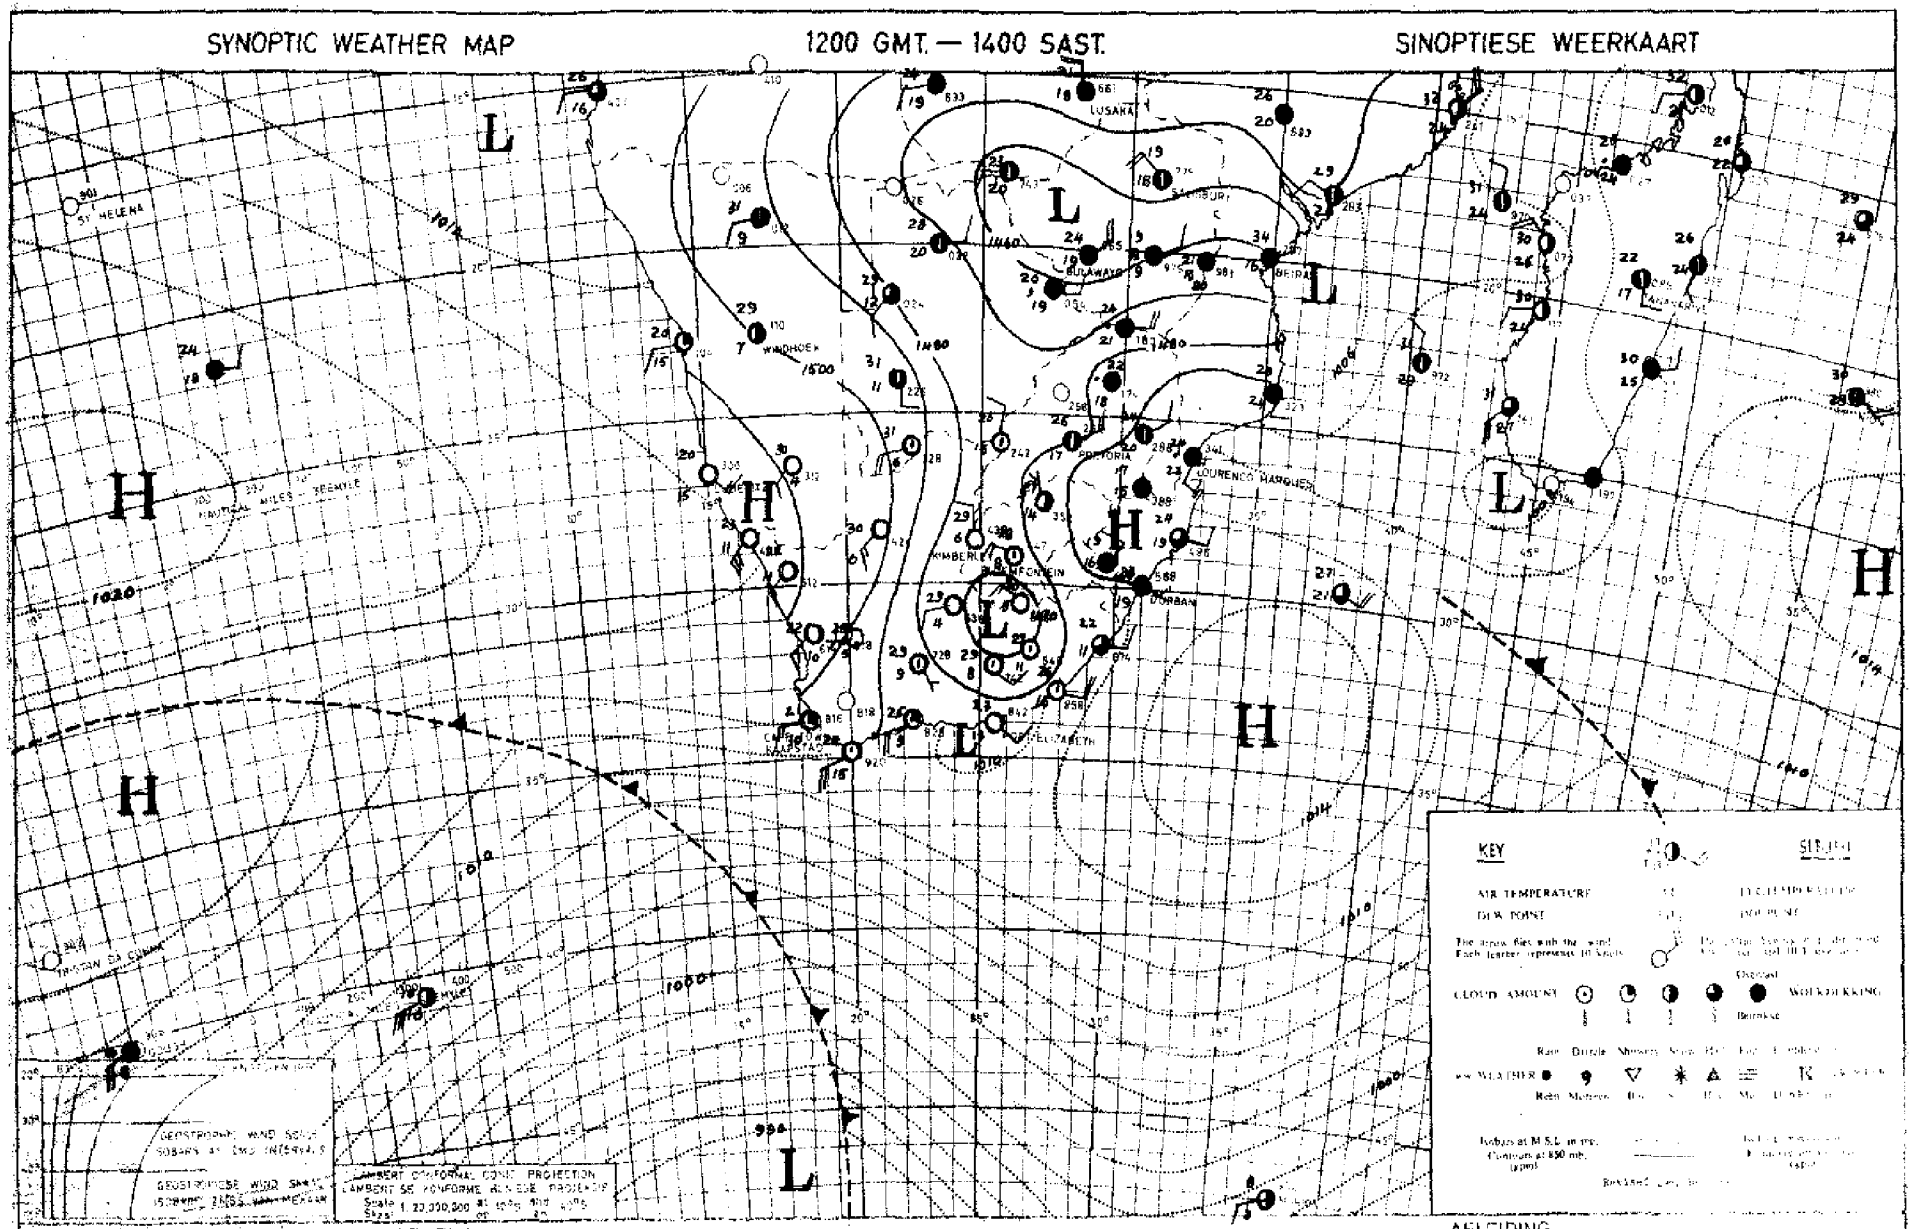
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 22 - 1 - 1967 DATUM AFLEIDING

The front approaching the Cape from the west, will cause cloudy to partly cloudy weather along the south-western coast and light showers will fall. Isolated thunder-showers will occur east of the trough over the interior.

Die front wat die Kaap vanuit die weste nader, sal bewolkte tot gedeeltelik bewolkte weer langs die suidwestelike kusstreke veroorsaak, en ligte buie sal uitsak. Oos van die trog oor die binneland sal los donderbuie uitsak.

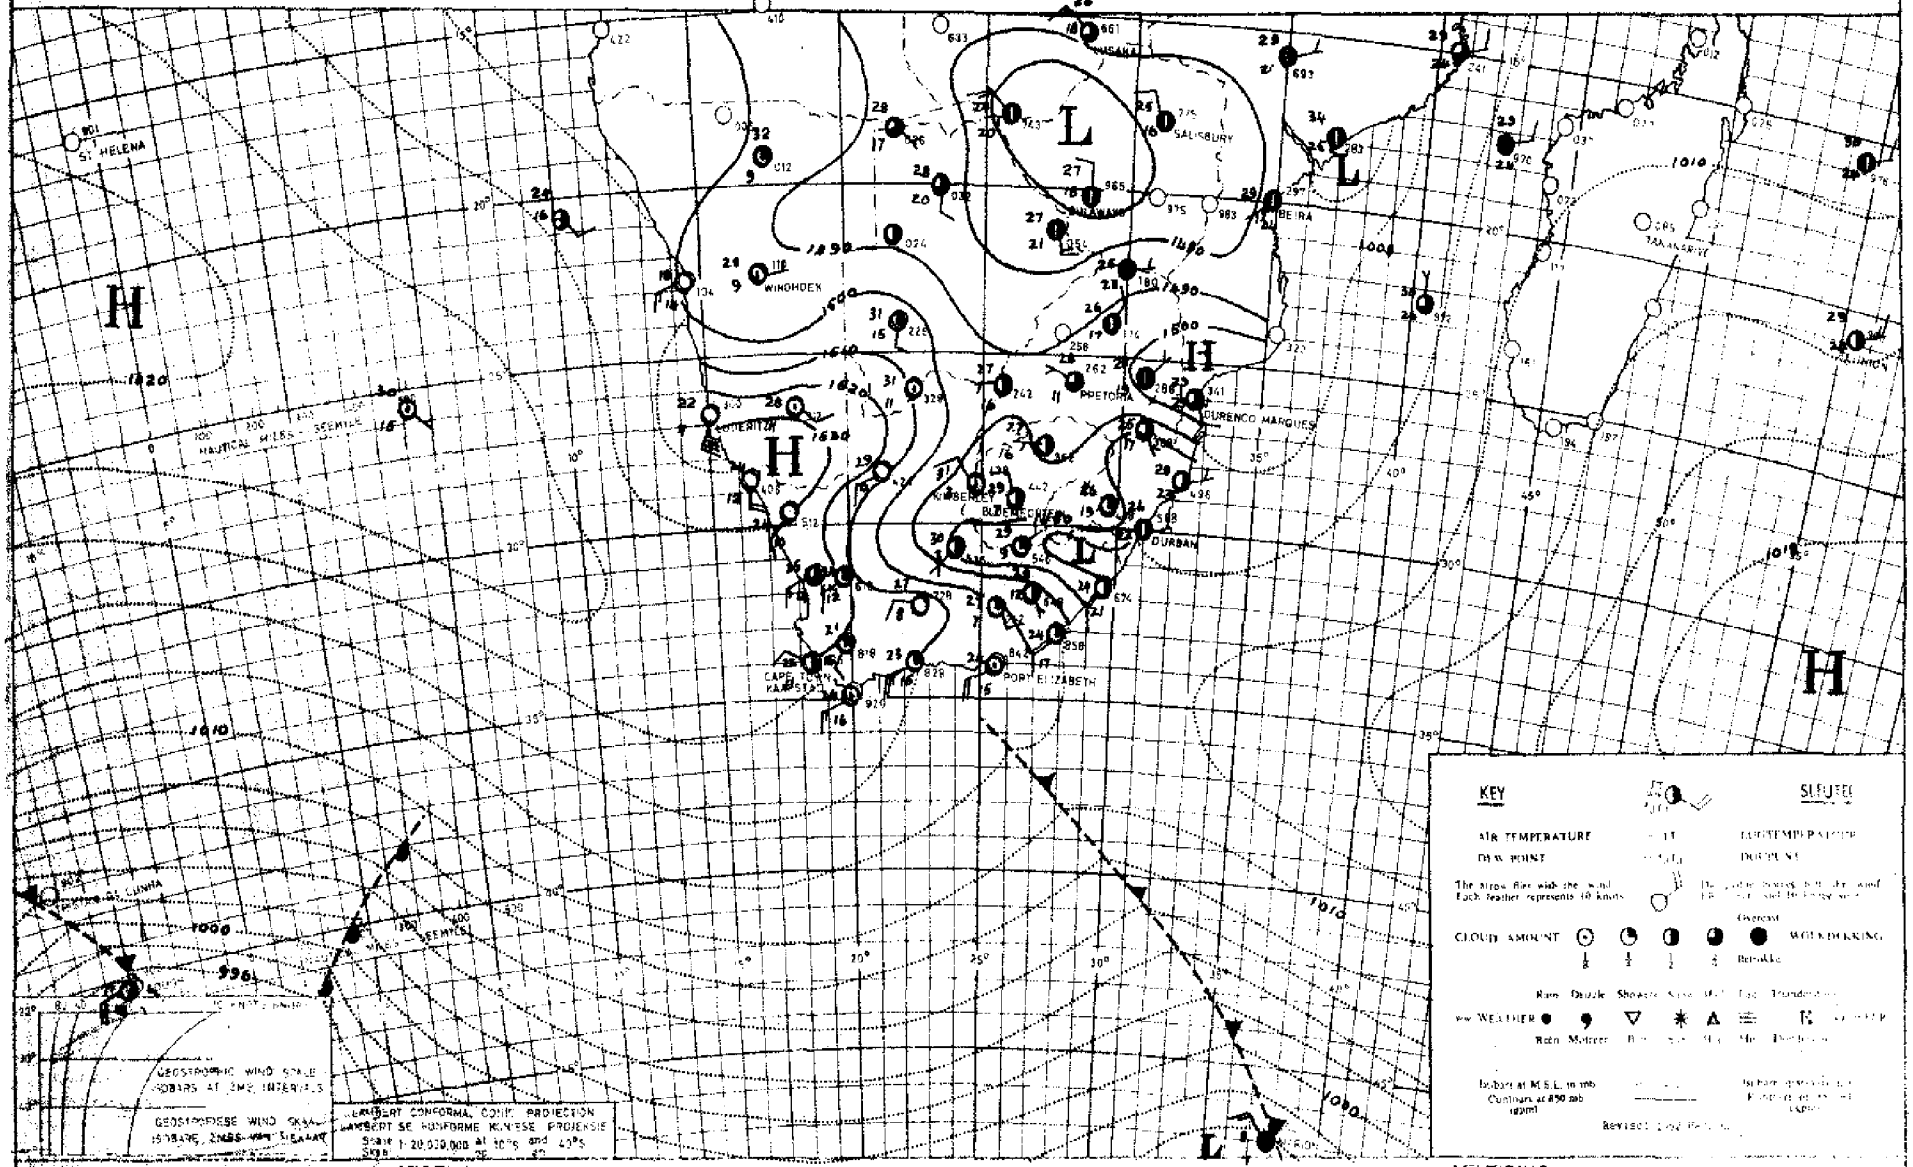
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 23 - 1 - 1967 DATUM AFLEIDING

There is a trough over the central interior and, with moist air present, thunder-showers will occur over the northern and eastern parts of the country. With south-west winds over the southern and south-eastern coastal areas, it will be cloudy and mild with probability of light rain. A high ridges in over the western interior and it will be fine and warm over these areas.

Daar is 'n trog oor die sentrale binneland en met vogtige lug aanwesig sal donderbuie voorkom oor die noordelike en oostelike dele van die land. Met suidwestewinde oor die suidelike en suidoostelike kusstreke, sal dit bewolk en matig wees met 'n moontlikheid van reën. 'n Hoog staan in oor die westelike binneland en dit sal dus mooiweer en warm wees oor hierdie gebiede.

INFERENCE

DATE 24 ... 19.67 DATUM

AFLEIDING

The cold front situated to the west of the Cape will cause cloudy weather with showers over the south-western and southern Cape coasts. Thunder-showers will develop over the north-eastern interior, where the air is moist, but over the remainder of the country it will be fine, as a result of dry air in circulation.

Die koufront ten weste van die Kaap sal bewolkte weer met buie oor die suidwes- en suidkus veroorsaak. Donderbuie sal oor die noordoostelike binneland ontwikkel, aangesien die lug oor daardie dele nog vogtig is, maar met droë lug in sirkulasie oor die res van die land, sal dit mooiweer wees.

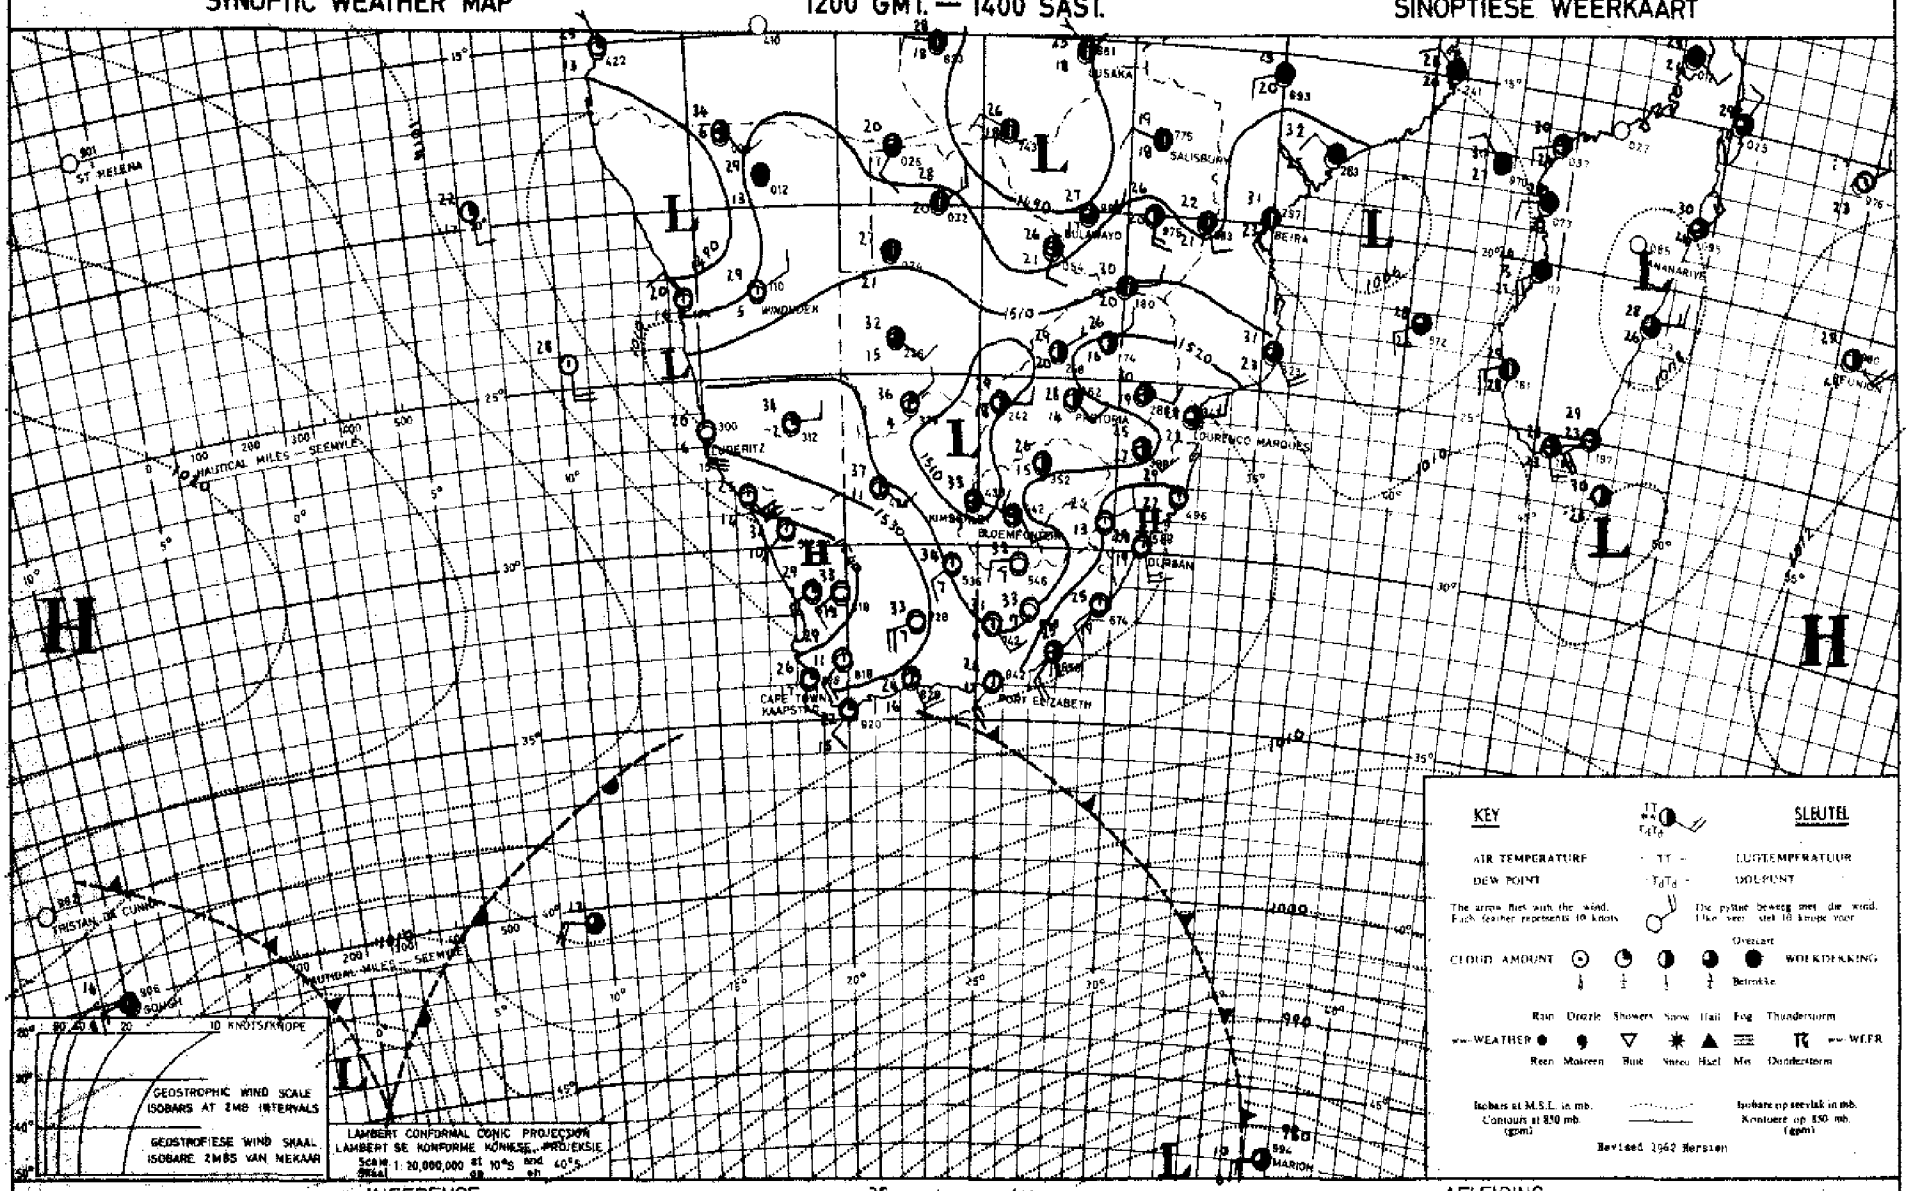
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 25 - 1 - 1967 DATUM AFLEIDING

The upper air circulation over most parts of the country is strongly anticyclonic so that it will be fair and hot. Over the northern parts, however, it will be partly cloudy and isolated thunder-showers will occur.

Die bolugsirkulasie is sterk antisiklonaal oor die meeste dele van die land sodat dit redelik mooiweer en warm sal wees. Oor die noordelike dele sal dit egter gedeeltelik bewolk wees met los donderbuie.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

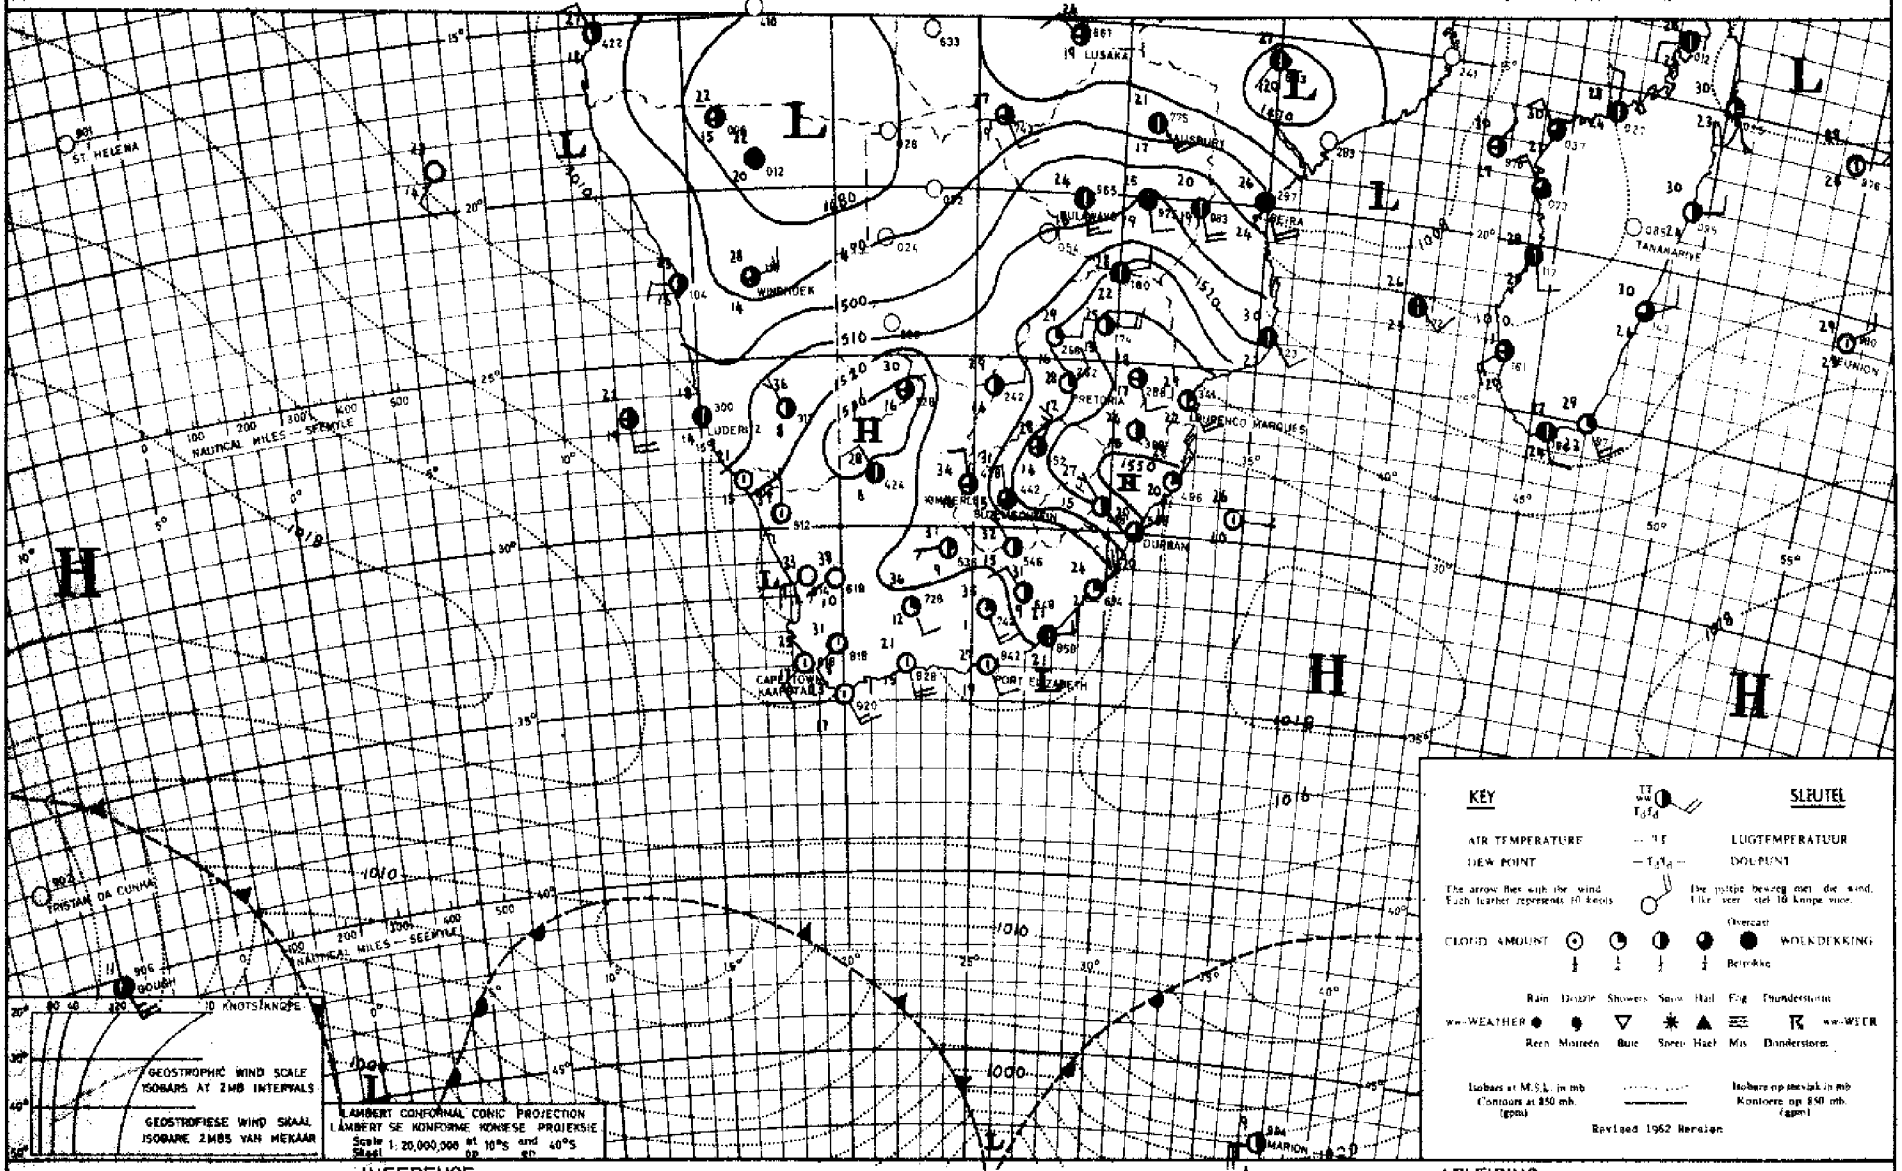
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 26.-.1.-...19.67.DATUM

AFLEIDING

With a high in the upper air over the eastern interior, little activity is expected over these areas. The inflow of moist air over the western interior will cause thunder-showers over South West Africa, western Botswana and Northern and North-eastern Cape. Over the coastal areas and adjacent interior it will be fine and warm.

Met 'n hoog in die bolug oor die oostelike binneland word min aktiwiteit verwag oor hierdie dele. Die invloei van vogtige lug oor die westelike binneland sal donderbuie veroorsaak oor Suidwes-Afrika, westelike Botswana, Noord-Kaap en Noordoos-Kaap. Oor die kuskstreke en aangrensende binneland sal dit mooiweer en warm wees.

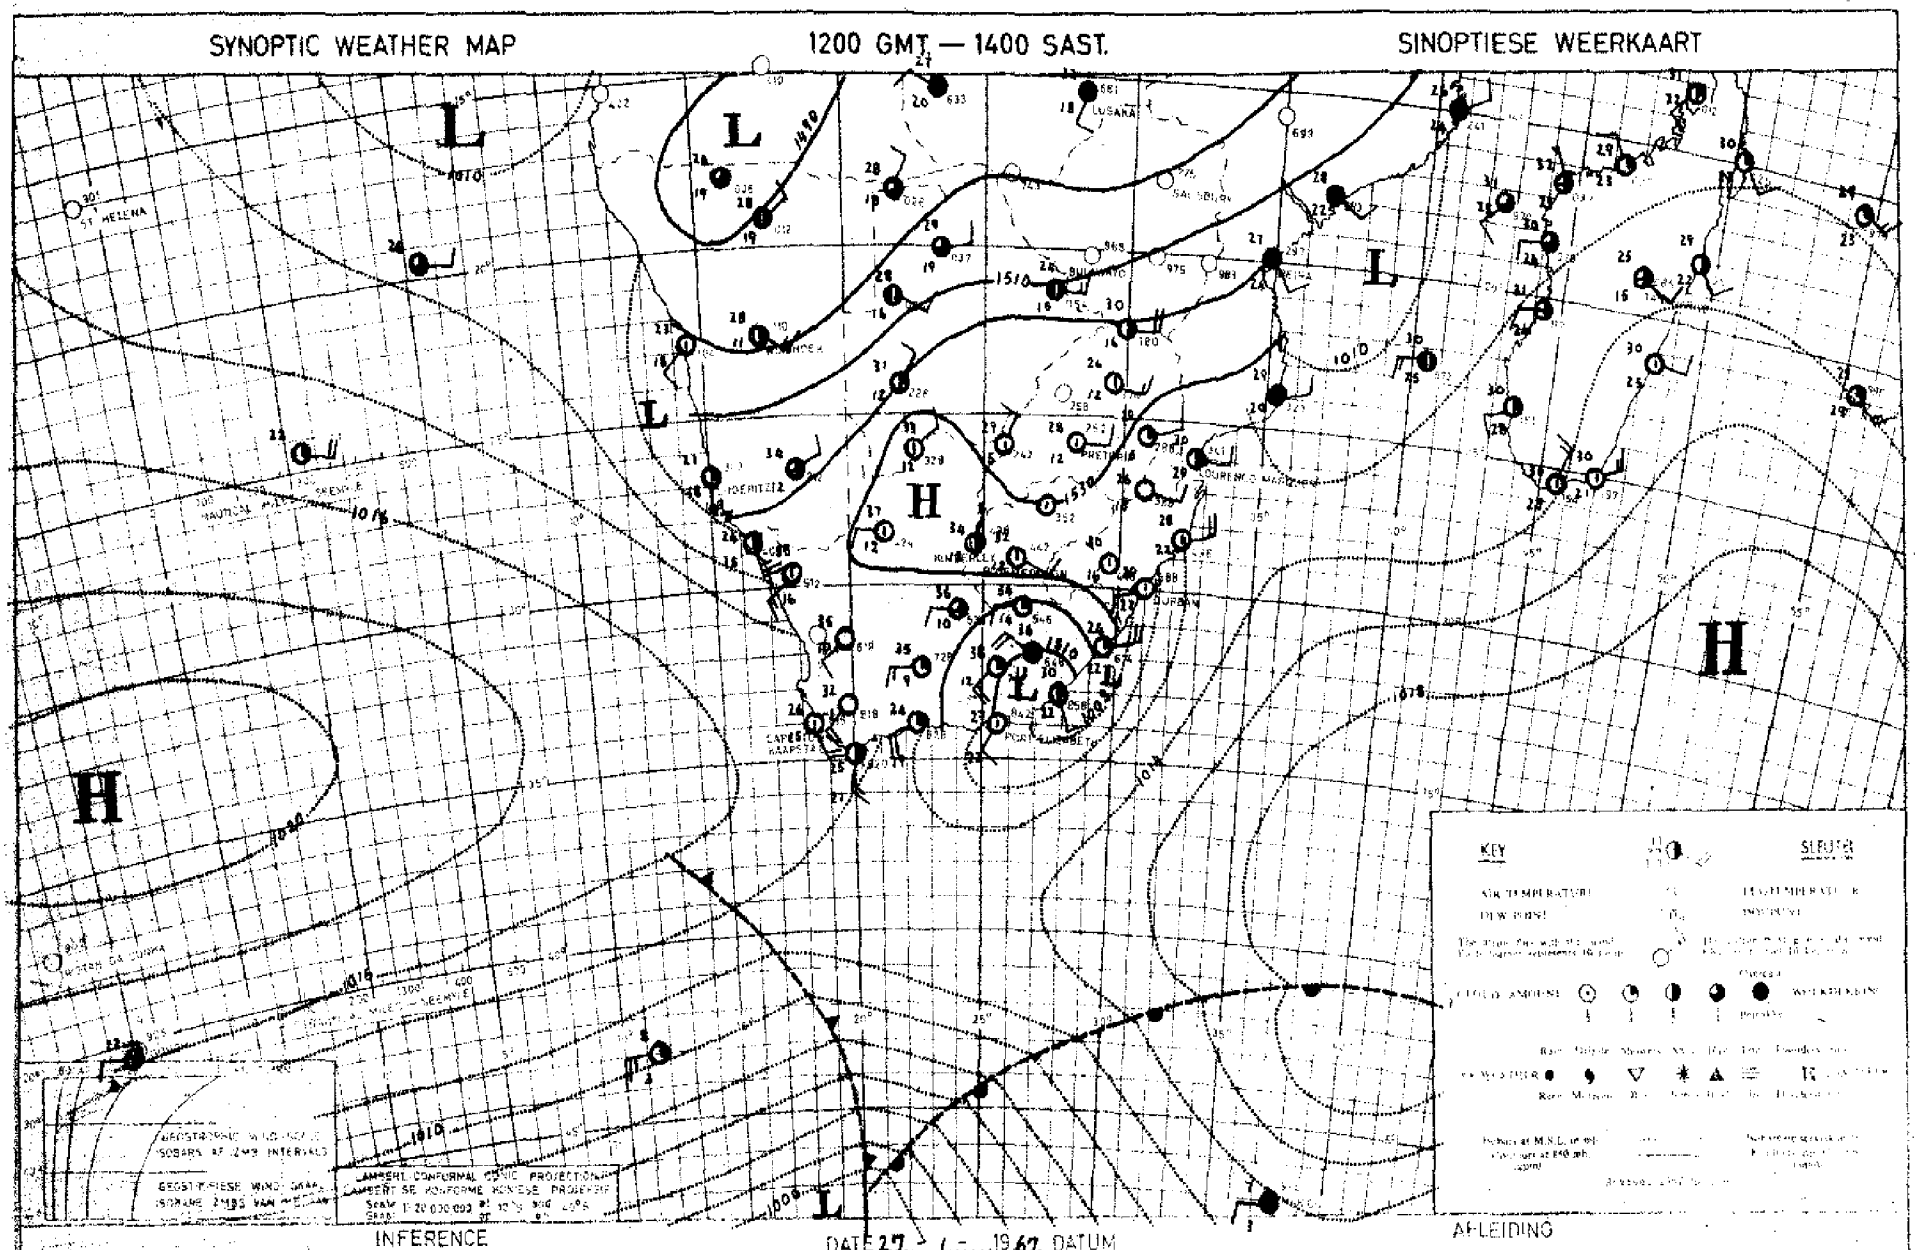
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 27 / 1 / 1967 DATUM AFLEIDING

The cold front approaching the Cape from the west will cause cloudy weather with drizzle over the Cape coasts, where it will clear from the west. With a strong high over the interior, thunder-showers will only develop over South-West Africa and Northern and Eastern Cape.

Die koufront wat die Kaap vanuit die weste nader, sal bewolkte weer met motreën veroorsaak oor die Kaapse kusgebiede, waar dit later vanuit die weste sal opklaar. Met n sterk hoog oor die binneland sal donderbuie slegs oor Suidwes-Afrika, en Noord-en Oos-Kaapland ontwikkel.

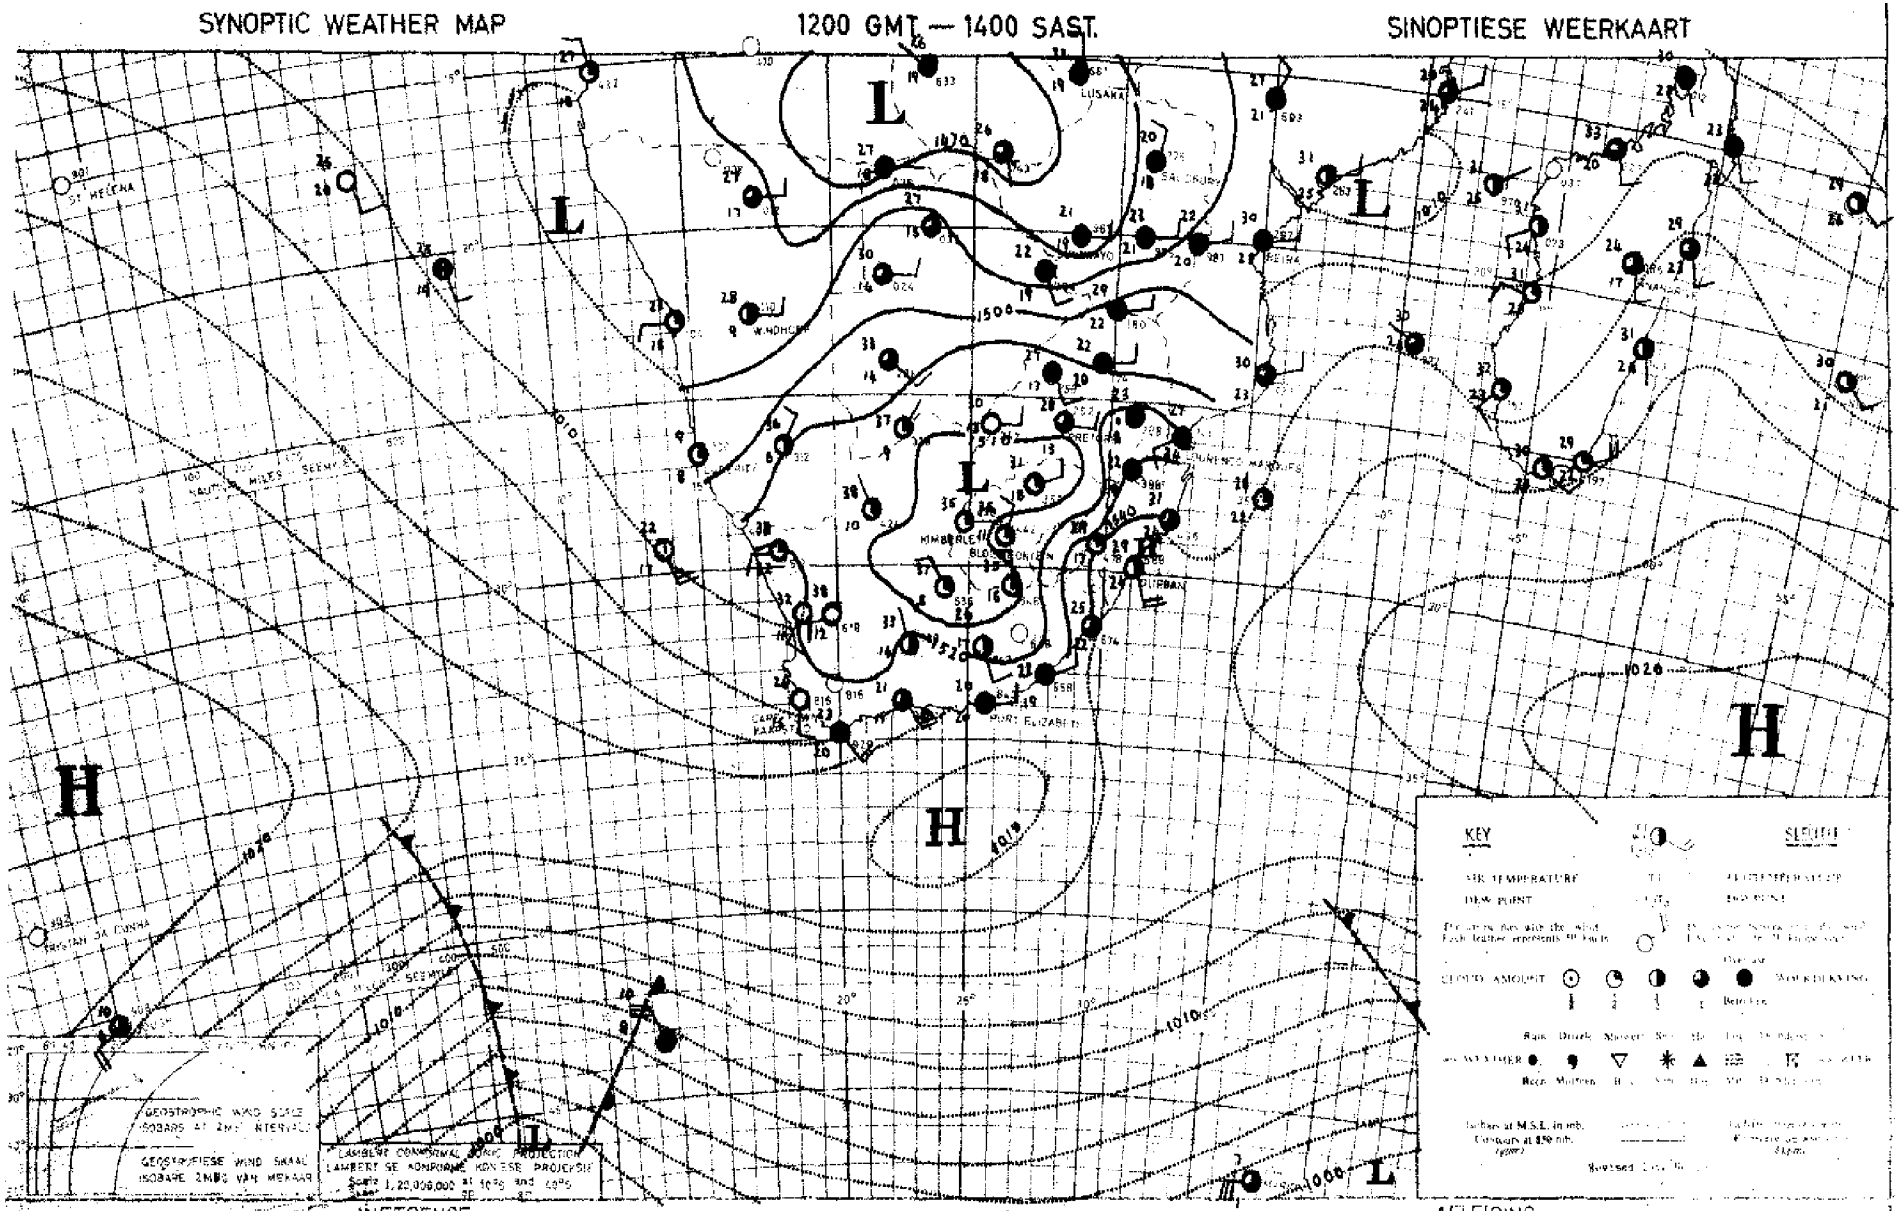
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 28 / 1 / 19 67 DATUM AFLEIDING

With a cell of high south-east of the country and a trough over the central interior, thunder-showers will occur over the northern and eastern parts of the country. South-easterly winds over the southern and southeastern coastal areas will cause cloudy weather with the possibility of light rain. With dry air in circulation it will remain fine over the western interior.

Met 'n hoogsel suidoos van die land en 'n trog oor die sentrale binneland, sal donderbuie oor die noordelike en oostelike dele van die land voorkom. Suidoostewinde oor die suidelike en suidoostelike kusstroke veroorsaak bewolkte weer met ligte reën. Droë lug in sirkulasie oor die westelike binneland sal mooiweerstoestande hier laat voorkom.

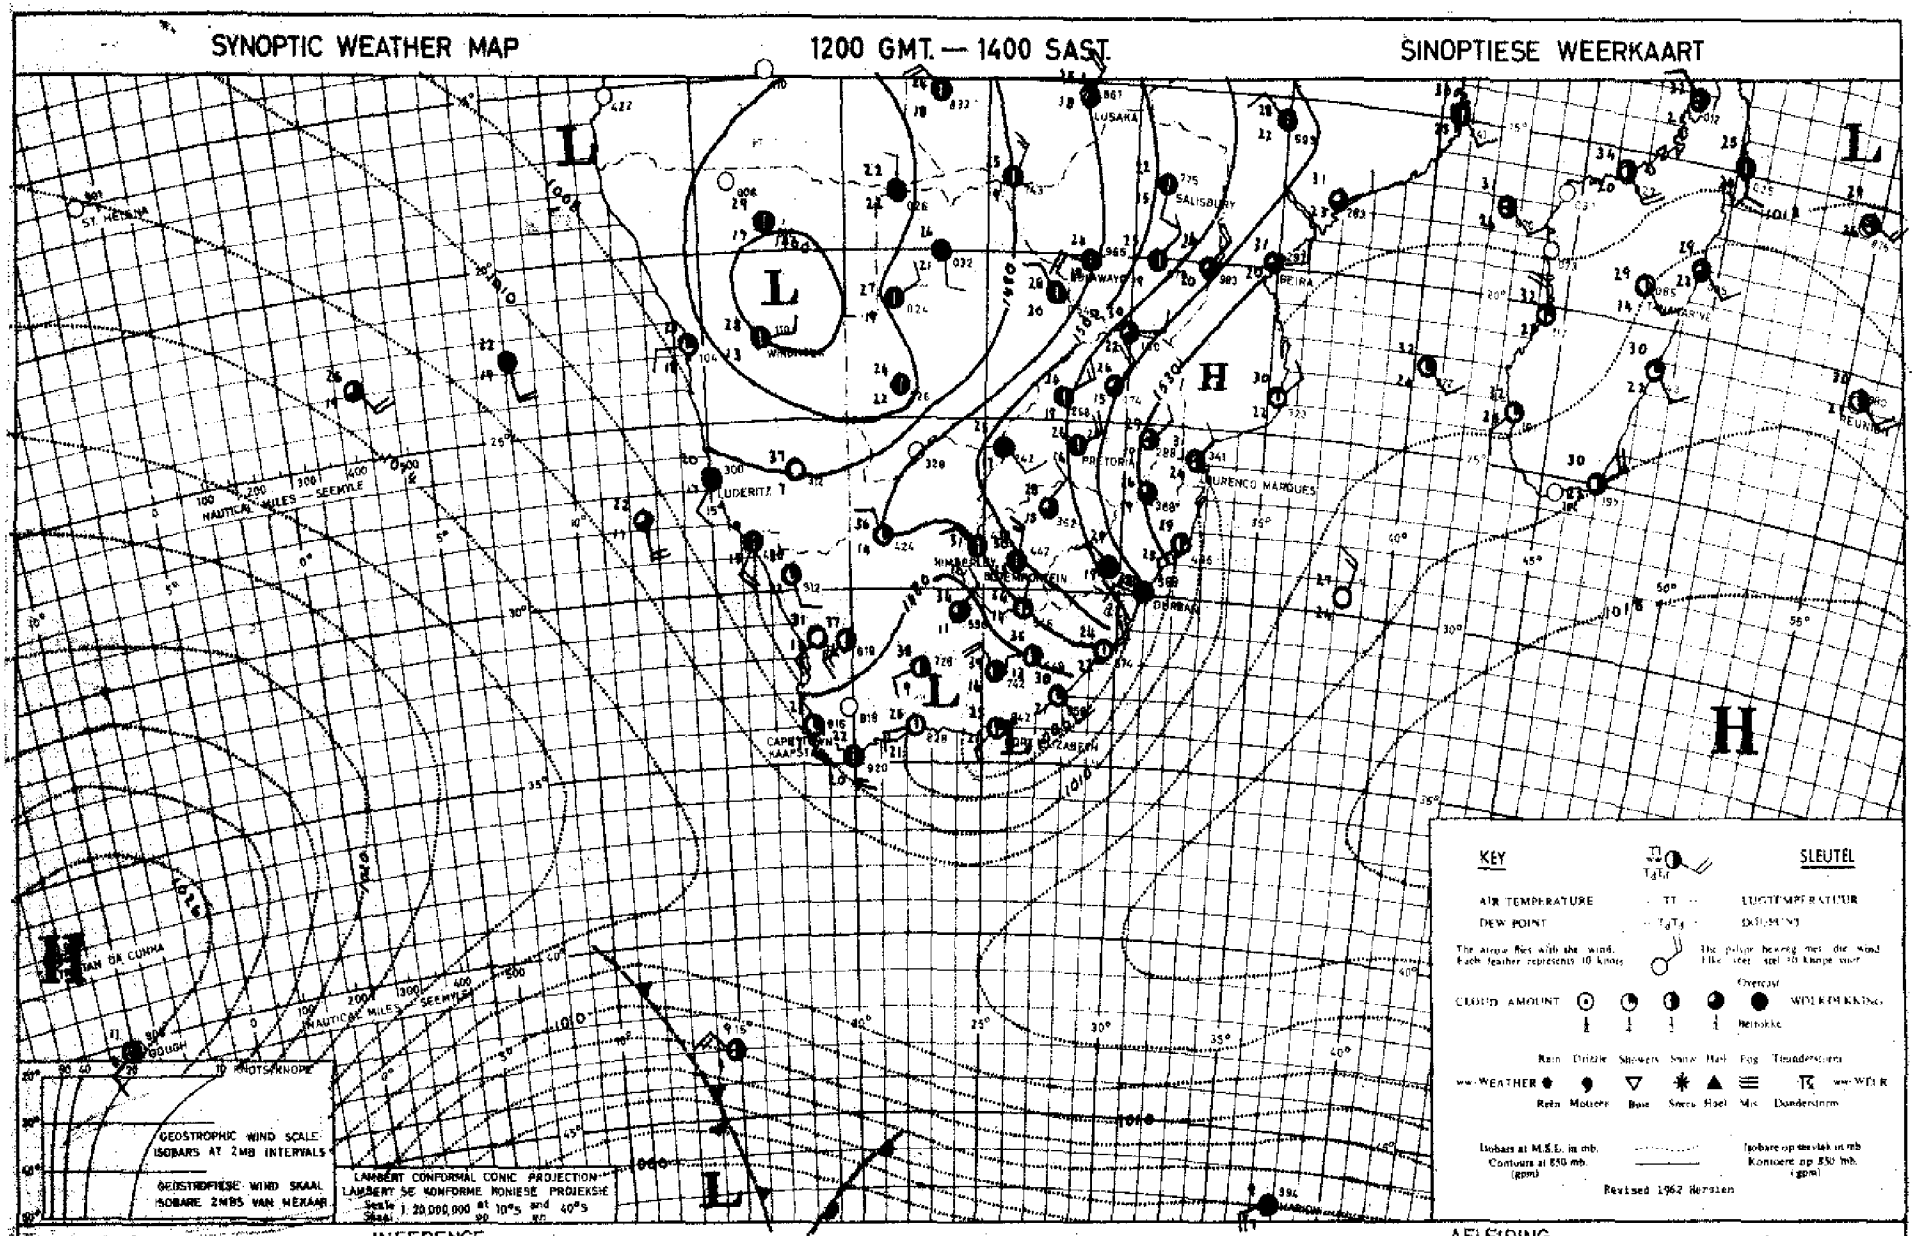
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 29 - 1 - 1967 DATUM — AFLEIDING

The coastal low on the south coast will cause cloudy weather with light rain over the southern and eastern coastal areas, and the Atlantic high ridge wich is moving in behind this low will cause clearance from the west. The air over the interior is moist and with a trough over the western parts, thunder-showers will develop over the eastern interior.

Die kuslaag op die suidkus sal bewolkte weer met ligte reën oor die suidelike en oostelike kusgebiede veroorsaak, en die Atlantiese hoogrug wat agter die laag om die kus beweeg, sal opklaring vanuit die weste veroorsaak. Met vogtige lug oor die binneland en 'n trog oor die westelike dele, sal donderbuie oor die oostelike binneland ontwikkel.

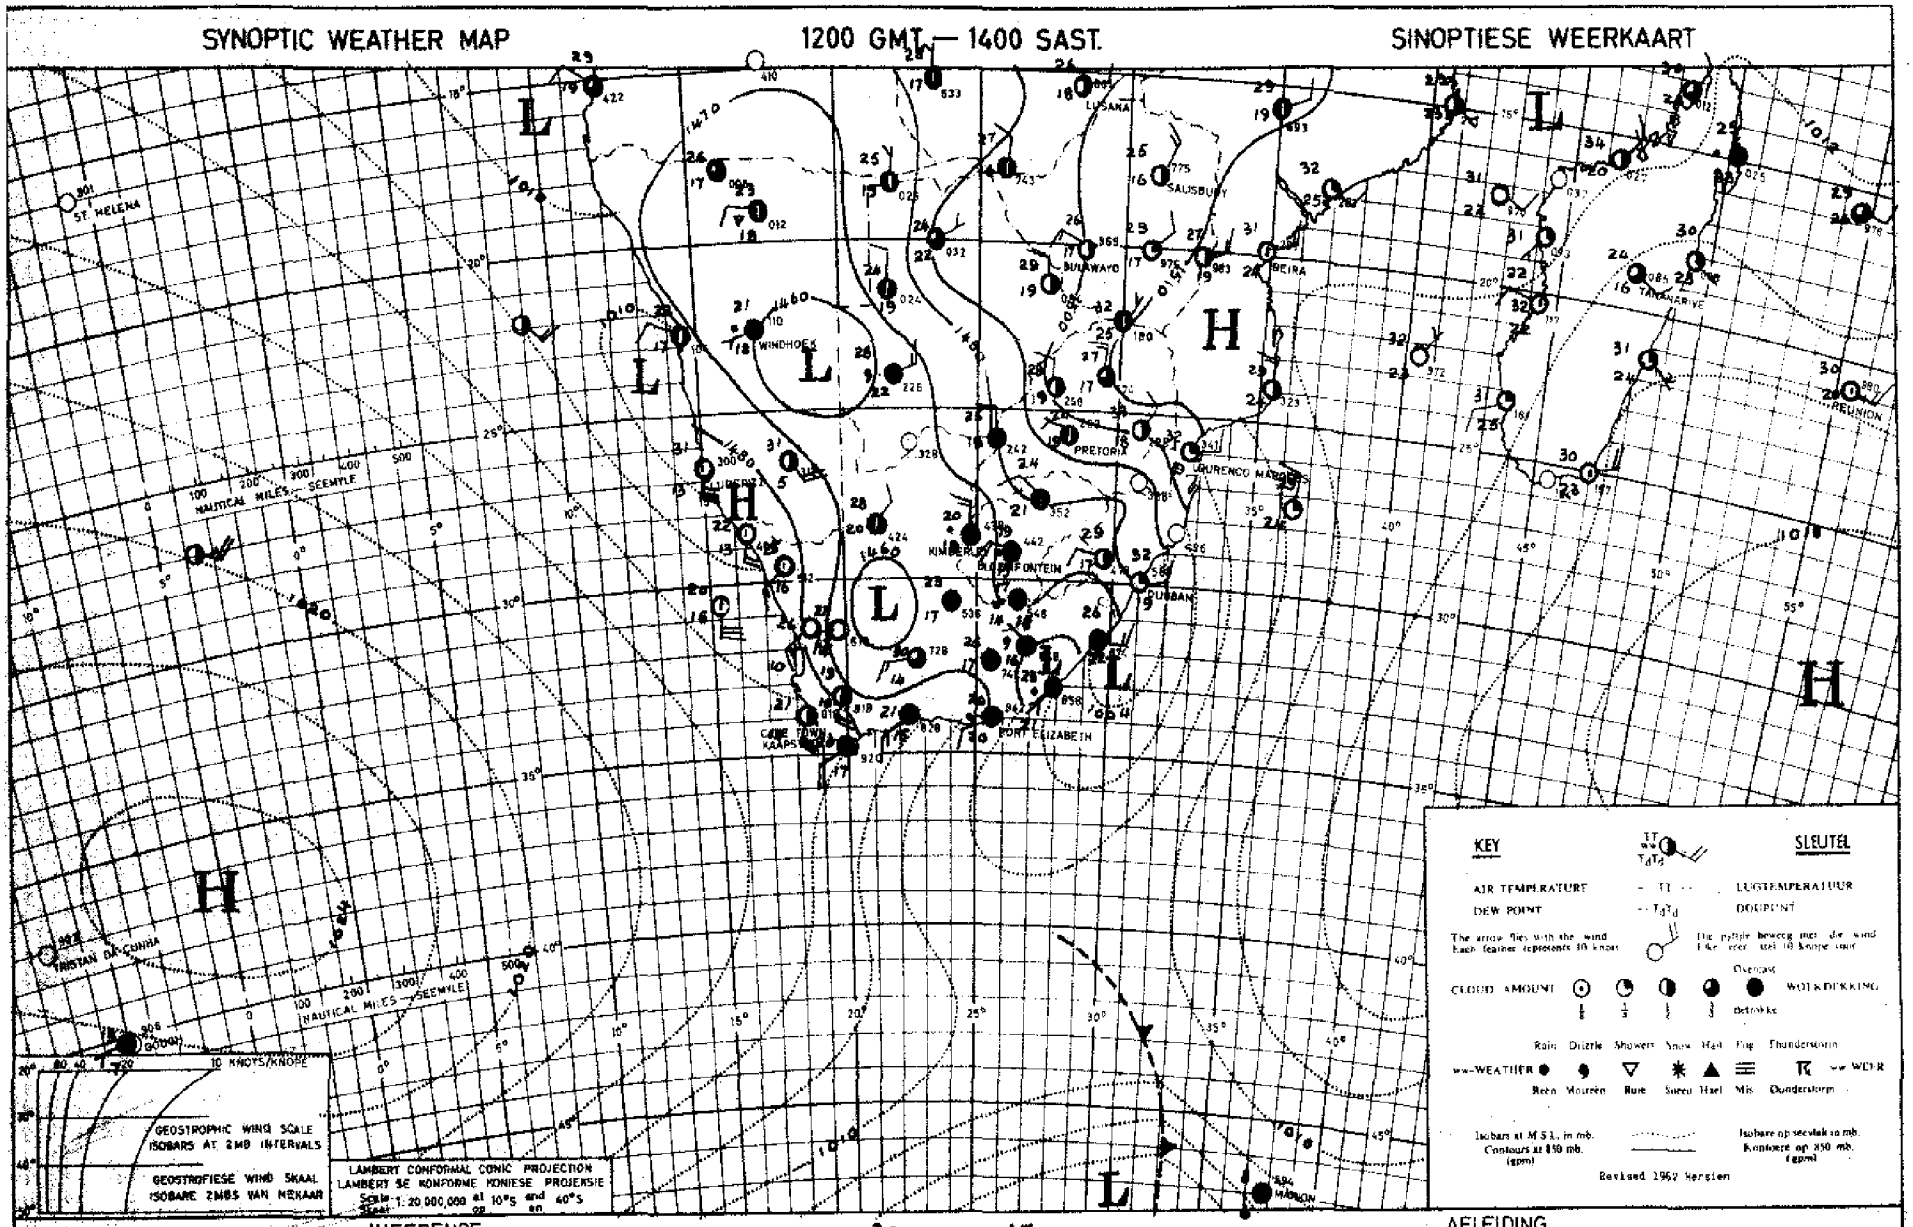
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 30 - 1 - 1967 DATUM

AFLEIDING

With moist air in the east and a low pressure system over the central interior, rain and thunder-showers will occur over the eastern half of the country. Good falls may be expected.

Met vogtige lug in die ooste en 'n laagdrukgebied oor die sentrale binneland, sal donderbuie oor die oostelike helfte van die land voorkom. Goeie neerslae kan verwag word.

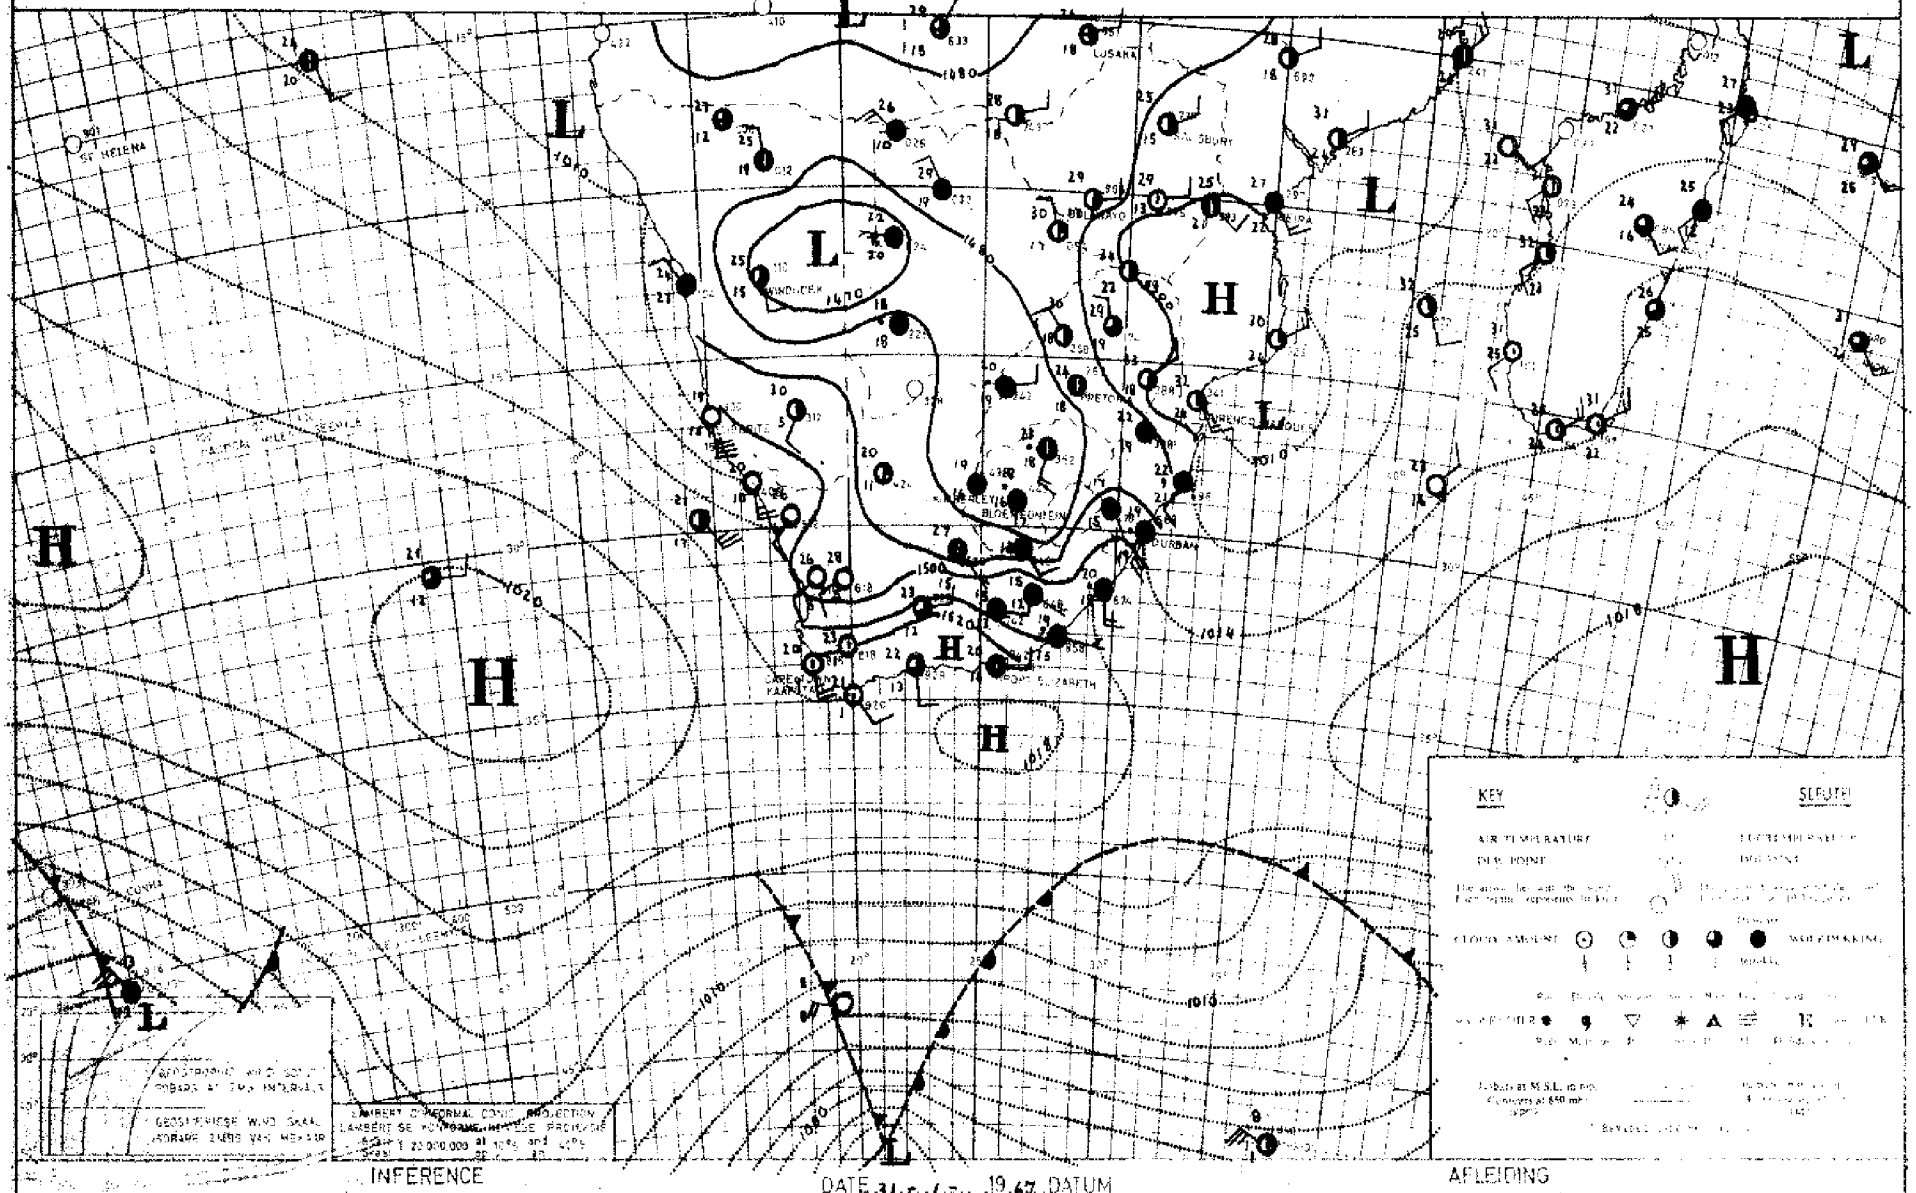
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

With a trough over the central interior and moist air in circulation, fairly general rain will occur over Transvaal, Botswana, the Free State and Natal. With a cell of high south-east of the country, onshore winds over the south-eastern, and eastern coasts will cause cloudy conditions with light rain. It will be fine and warm over the western interior as the result of dry air in circulation over this area.

DATE 31 - 1 - 19 67 DATUM

AFLEIDING

Met 'n trog oor die sentrale binneland en vogtige lug in sirkulasie sal taamlik algemene reën voorkom oor Transvaal, Botswana, die Vrystaat en Natal. Met die hoogsel suidoos van die land sal winde vanaf die see bewolkte toestande met ligte reën oor die suidoostelike en oostelike kusstreke veroorsaak. Met droë lug in sirkulasie oor die suidwestelike binneland sal dit hier mooiweer en warm wees.

INFERENCE

The cold front situated to the south-west of the Cape is moving south-eastwards and will only cause temporary cloudy conditions with possible light rain over the south-west coast. The cell of high to the south is moving eastwards so that it will clear over the south coast. The air over the eastern interior is moist and the trough over the central parts will cause thunder-showers over the north-eastern interior.

AFLEIDING

Die koufront suidwes van die Kaap gelee, beweeg suidooswaarts en sal slegs tydelik bewolkte weer veroorsaak met moontlike ligte reën oor die suidweskus. Die hoogsel suid van die land beweeg oostwaarts, met gevolglike opklaring oor die suidkus. Die lug oor die oostelike binneland is vogtig, en die trog oor die sentrale dele sal donderbuie veroorsaak oor die noordoostelike binneland.

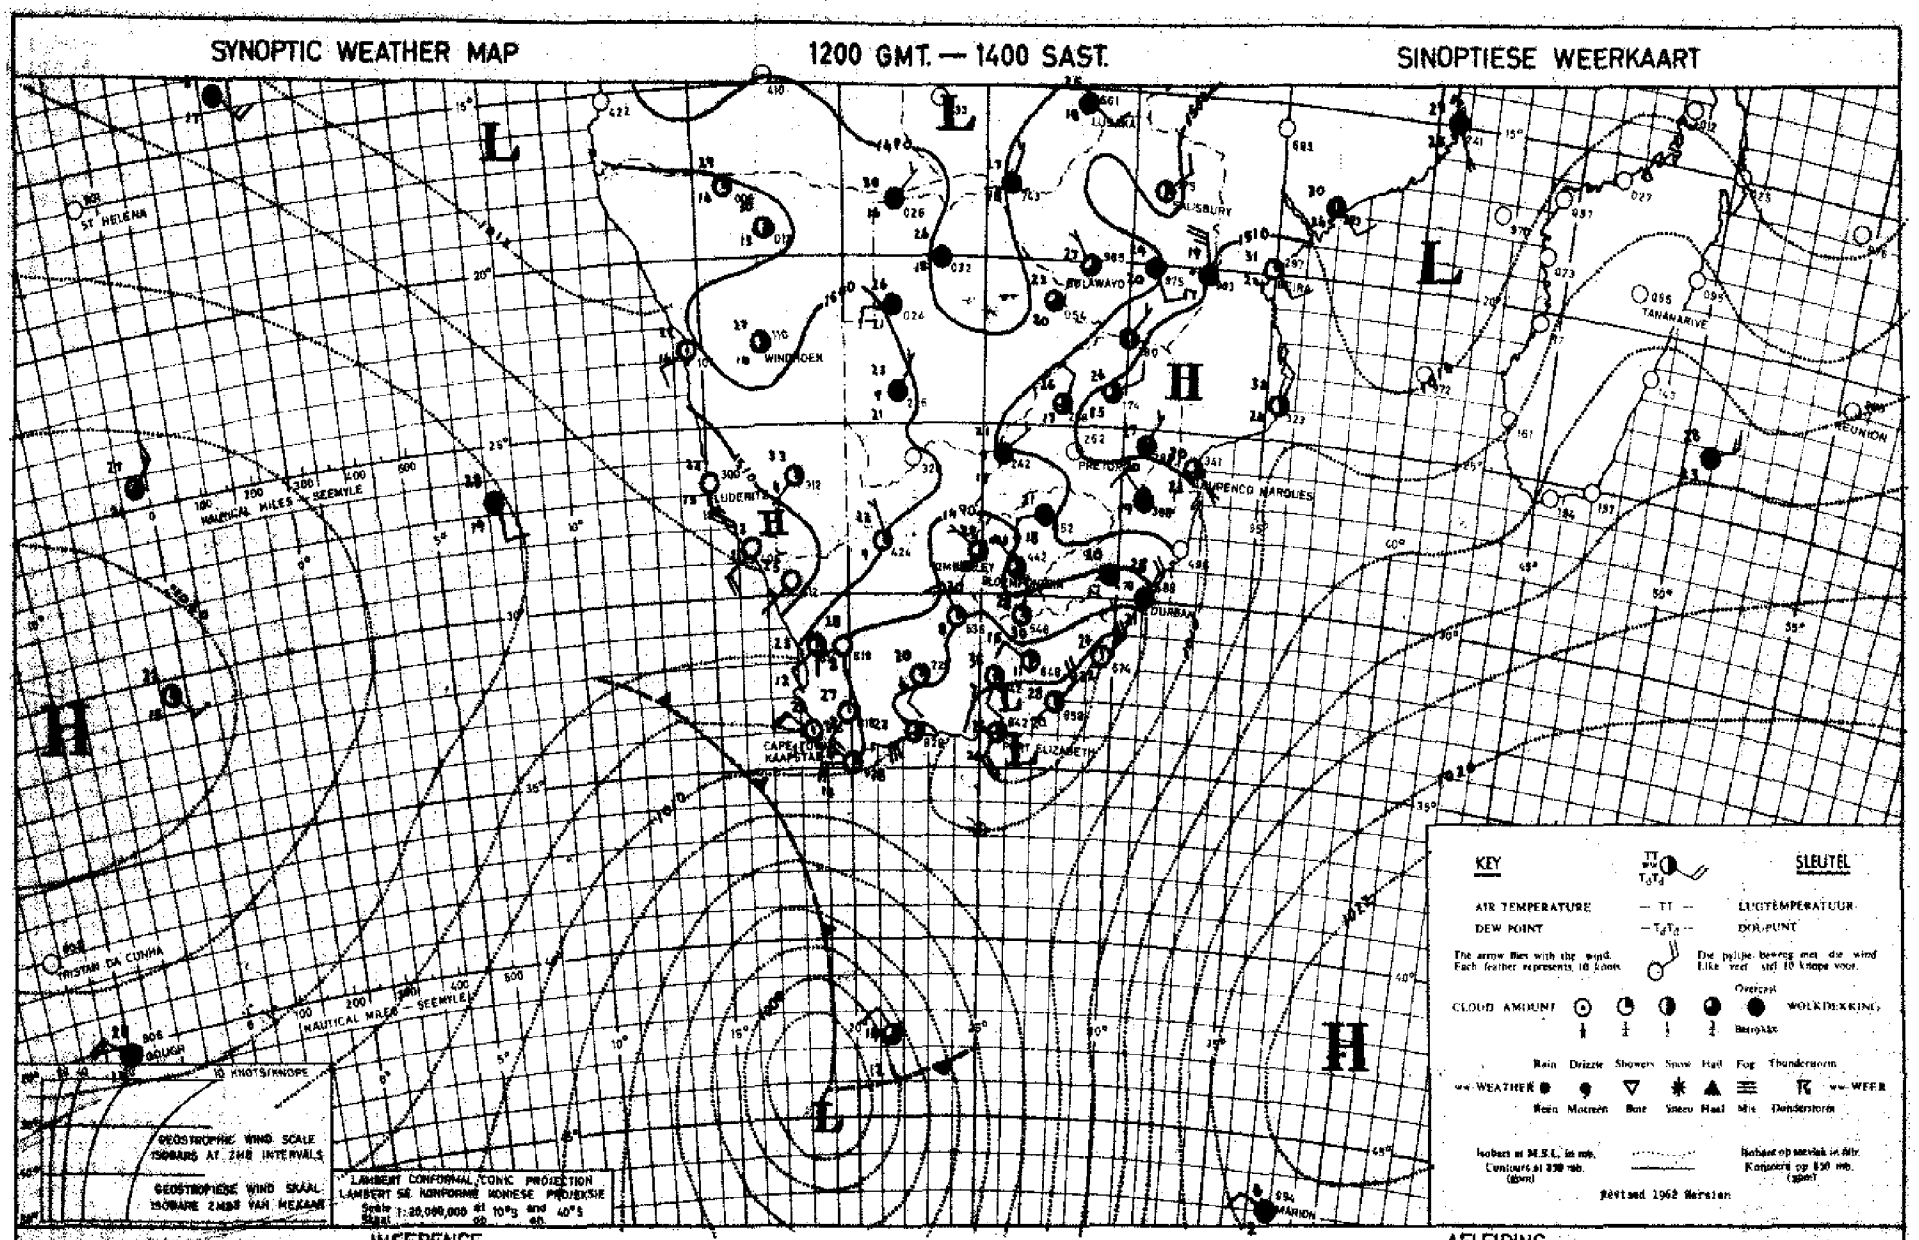
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 2 - 2 - 1967 DATUM AFLEIDING

With moist air in circulation over the eastern parts it will be cloudy and showers will occur. The cold front to the west of the Cape will move eastwards causing cloudy to partly cloudy weather along the south-western and southern coasts with showers.

Met vogtige lug in sirkulasie oor die oostelike dele sal dit bewolk wees met buie. Die koufront wes van die Kaap sal ooswaarts beweeg en sal bewolkte tot gedeeltelik bewolkte weer veroorsaak langs die suidwestelike en suidelike kuslyne met buie.

SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART

INFERENCE DATE 4 - 2 - 1967 DATUM AFLEIDING

A ridge south of the country will cause clearance over coastal areas. The air over the north-eastern interior is moist and thunder-showers will develop here. Over the remainder of the country the air is drying out and fine weather will prevail.

'n Swak hoogrug suid van die land sal opklaring veroorsaak oor die kusgebiede. Die lug oor die noord-oostelike binneland is vogtig en loë donderbuie sal hier ontwikkel. Oor die res van die land word die lug droog en mooiweerstoestande sal voortduur.

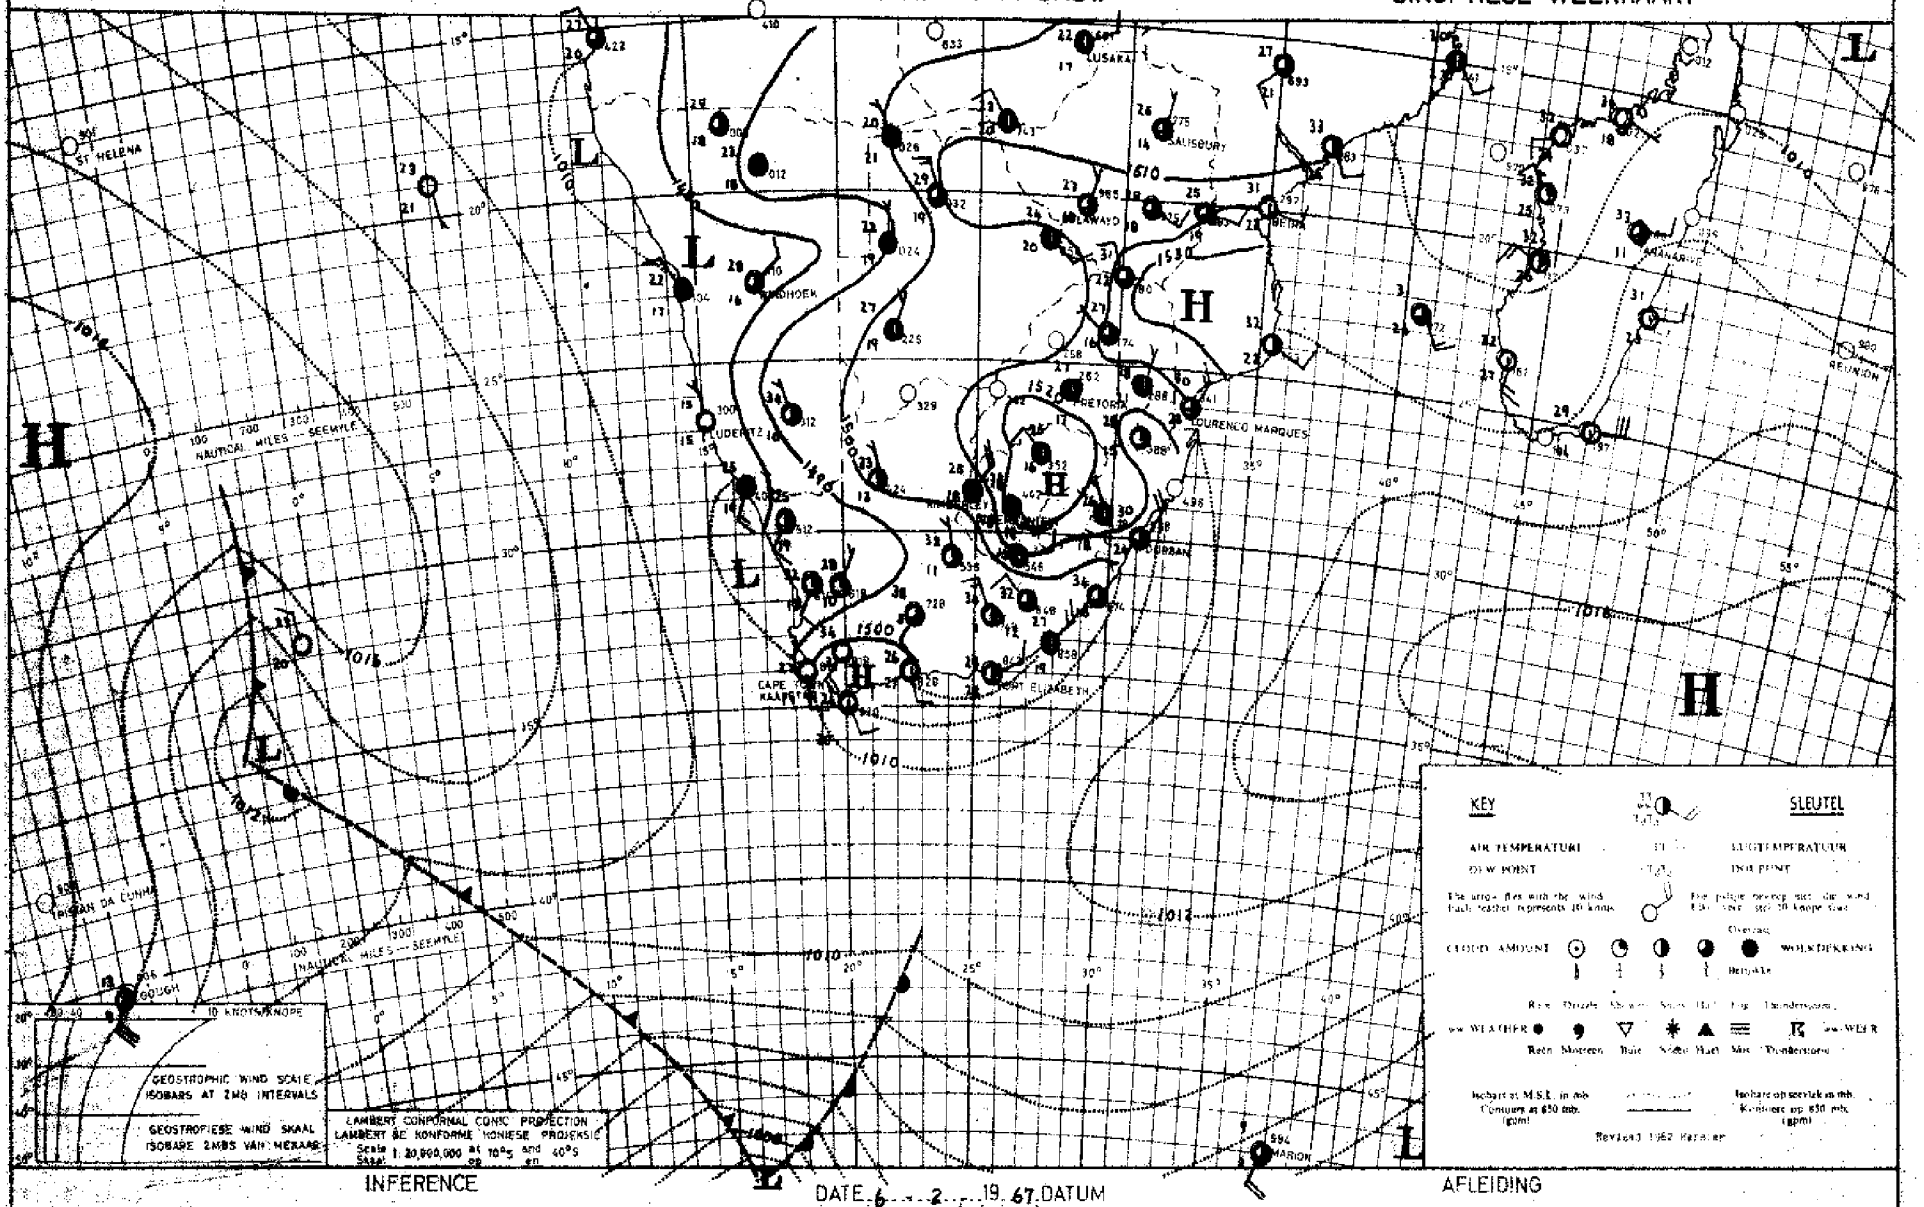
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 6 2 19 67 DATUM AFLEIDING

Moist air is being advected over most of the interior from the north and, with a low over the western parts, thunder-showers and showers will occur over most of the country. It will, however, be fine over the south-western interior. With a low along the south-east coast it will be cloudy over the south and south-east coasts.

Vogtige lug word ingevoer vanuit die noorde oor die grootste gedeelte van die binneland en met 'n laag oor die westelike dele sal donderbuie en buie voorkom oor die meeste van die land. Oor die suidwestelike binneland, egter, sal dit mooiweer wees. Met 'n laag langs die suidooskus sal dit bewolk wees oor die suid- en suidooskus.

INFERENCE

DATE 7 - 2 - 19 67 DATUM

AFLEIDING

A trough is situated over the central interior and with moist air present in the north and east, further showers or thunder-showers will occur over these areas. The eastwards moving Atlantic high is causing clearance over the western parts of the country.

'n Trog is geleë oor die sentrale binneland en met vogtige lug aanwesig in die noorde en ooste sal verdere buie en donderbuie oor hierdie gebiede uitsak. Die Atlantiese hoog beweeg ooswaarts en sal opklaring oor die westelike streke veroorsaak.

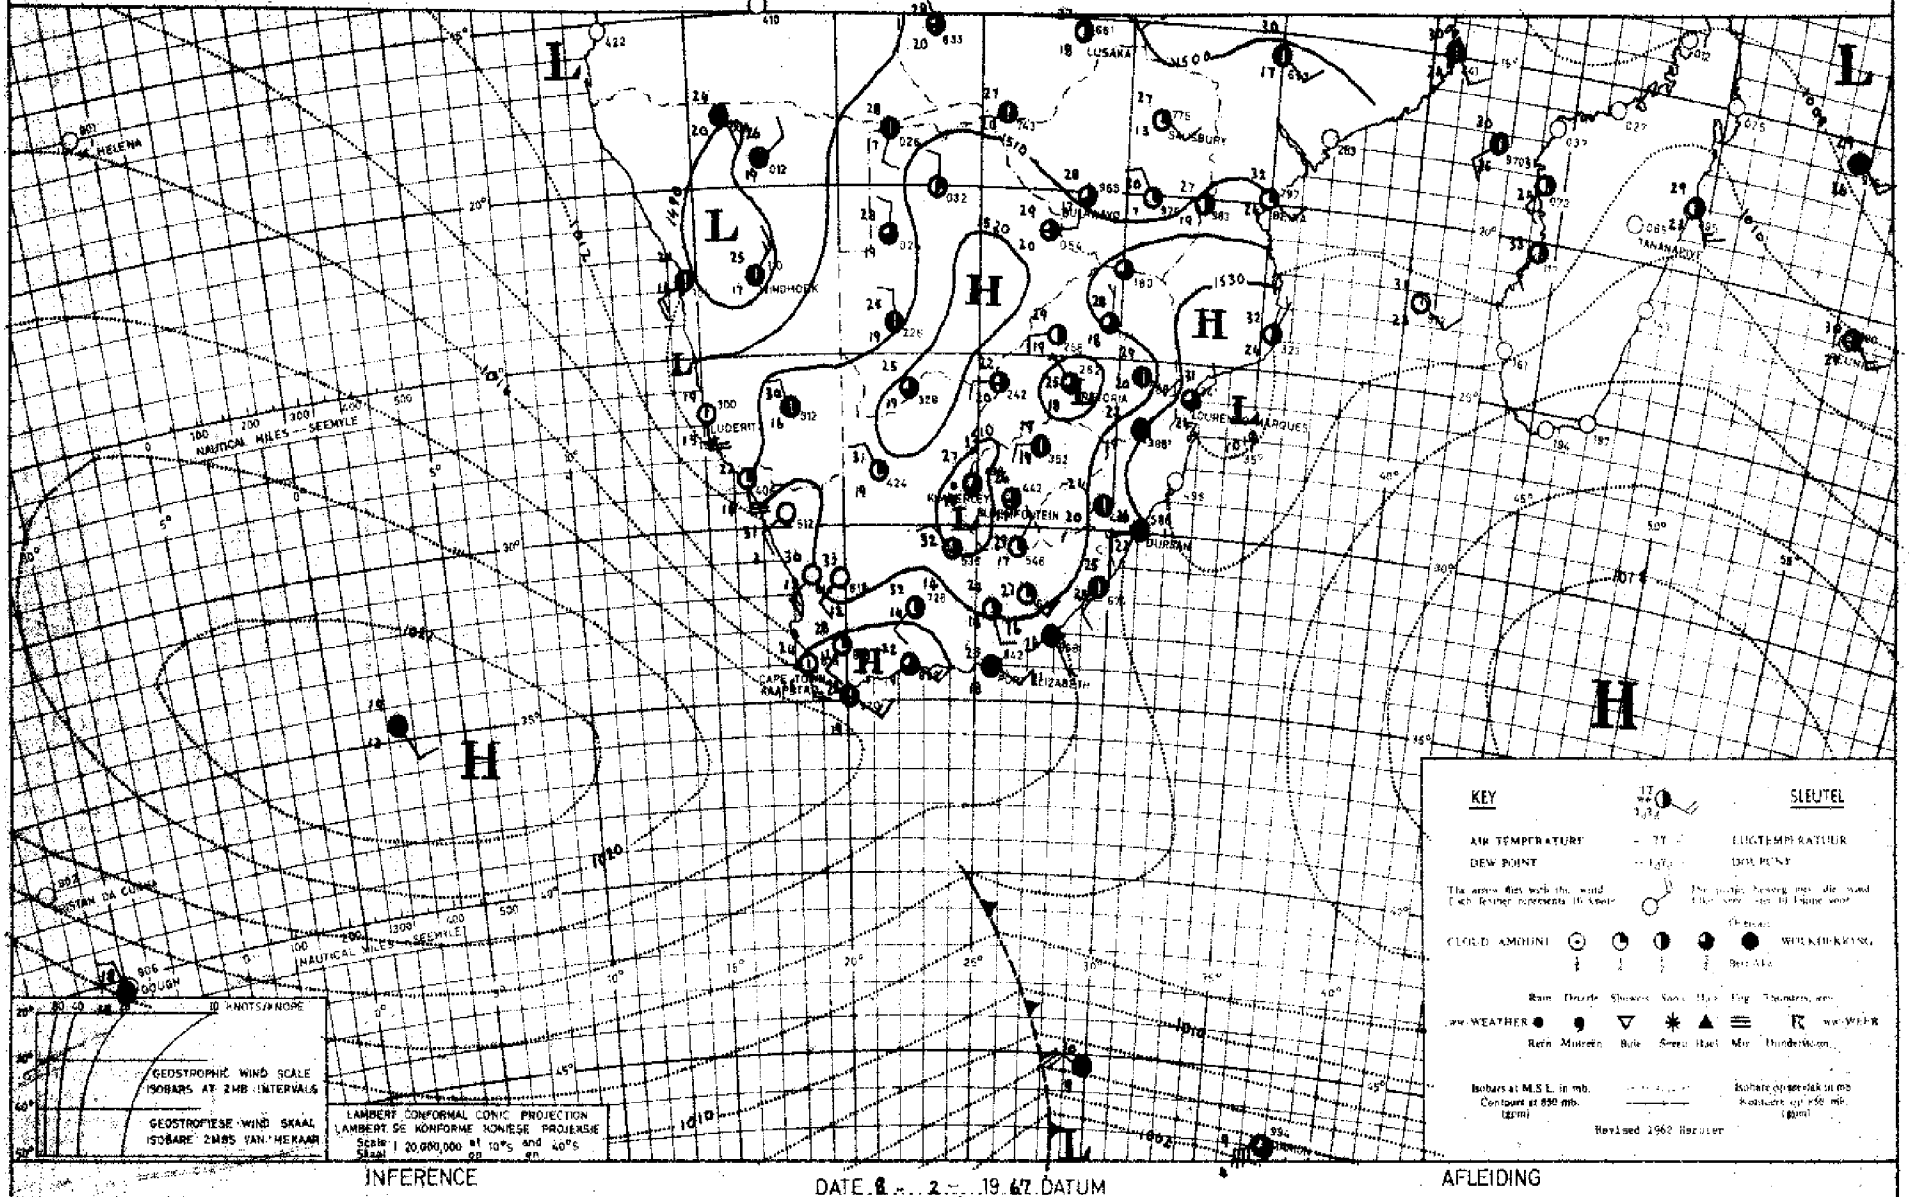
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 8 - 2 - 1967 DATUM AFLEIDING

The cell of high wich is moving in to the south of the country will cause clearance over the southern and south-eastern Cape coastal areas. The air is moist over the interior, and thunder-showers will develop over most parts, except the western and southern Cape interior.

Die hoogsel wat suid van die land inbeweeg, sal opklaring veroorsaak oor die suidelike en suidoostelike Kaapse kus. Die lug oor die binneland is vogtig en donderbuie sal oor meeste dele ontwikkel, uigesonderd die westelike en suidelike Kaapse binneland.

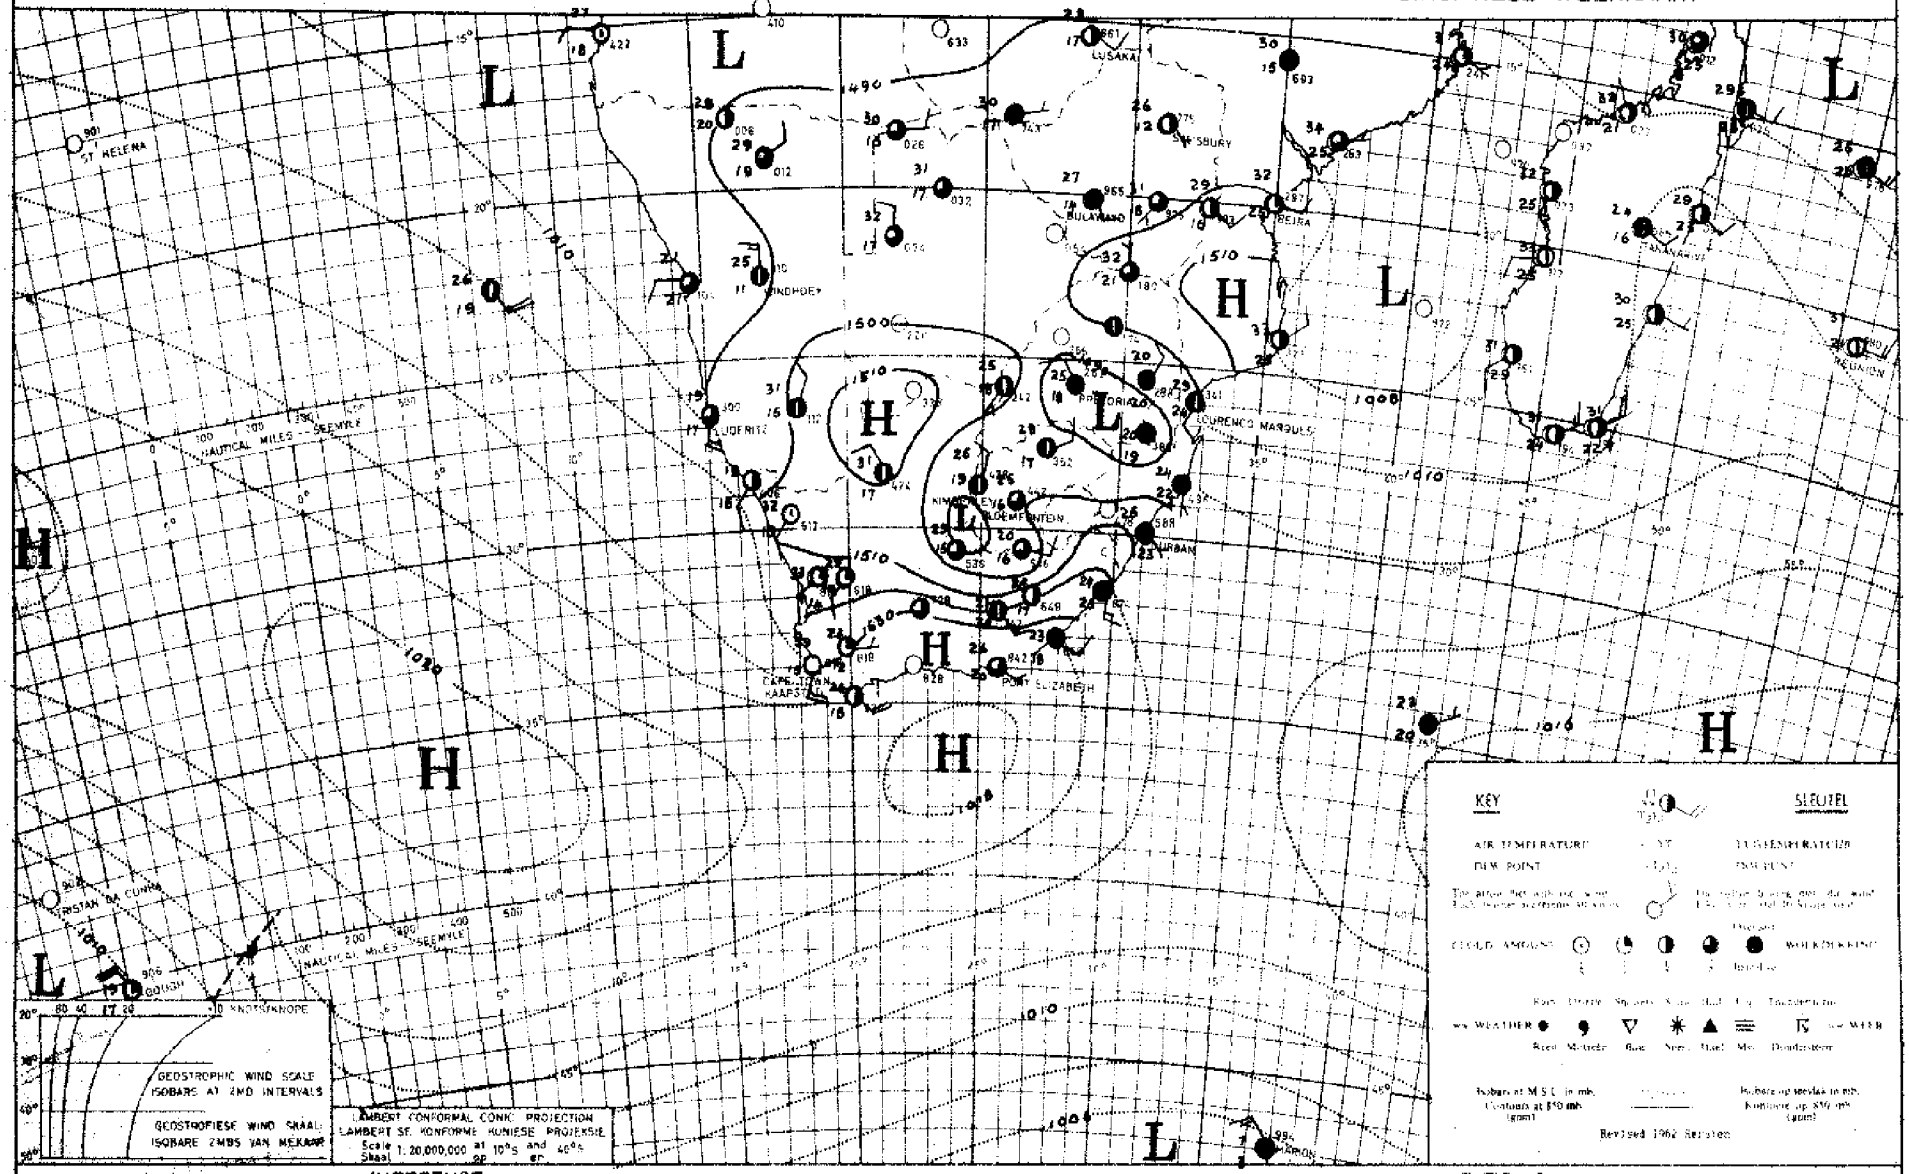
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 9 - 2 - 19 67 DATUM

AFLEIDING

The Atlantic high ridges in south of the country and with a trough over the central interior, thundershowers will occur over the northern, central and eastern parts of the country. With onshore winds over the south and south-east coasts, cloudy conditions with light rain will occur. It will be fine and warm over the rest of the country.

Die Atlantiese hoog stoot suid van die land in en met 'n trog oor die sentrale binneland sal donderbuie voorkom oor die noordelike, sentrale en oostelike dele van die land. Met winde vanaf die see oor die suid- en suidooskus, sal bewolkte toestande met ligte reën oor dié gebiede voorkom. Oor die res van die land sal dit mooiweer en warm wees.

INFERENCE

DATE 10 - 2 - 1967 DATUM

The eastwards - moving high south of the continent is causing moist air to flow in over Natal and the Eastern Transvaal where it will be cloudy overnight with showers. A high is centred in the upper air over Botswana and with moist air moving southwards over the western regions, conditions are favourable for thundershowers over South West Africa and the central regions of the Republic.

AFLEIDING

Die hoog suid van die land beweeg oostwaarts en as gevolg daarvan word vogtige lug oor Natal en Oos - Transvaal ingevoer waar dit oornag bewolk sal wees met buie. 'n Hoog is in die bolug gelee oor Botswana en met 'n suidwaartse beweging van vogtige lug oor die westelike gebiede is toestande gunstig vir donderbuie oor Suidwes - Afrika en die sentrale streke van die Republiek.

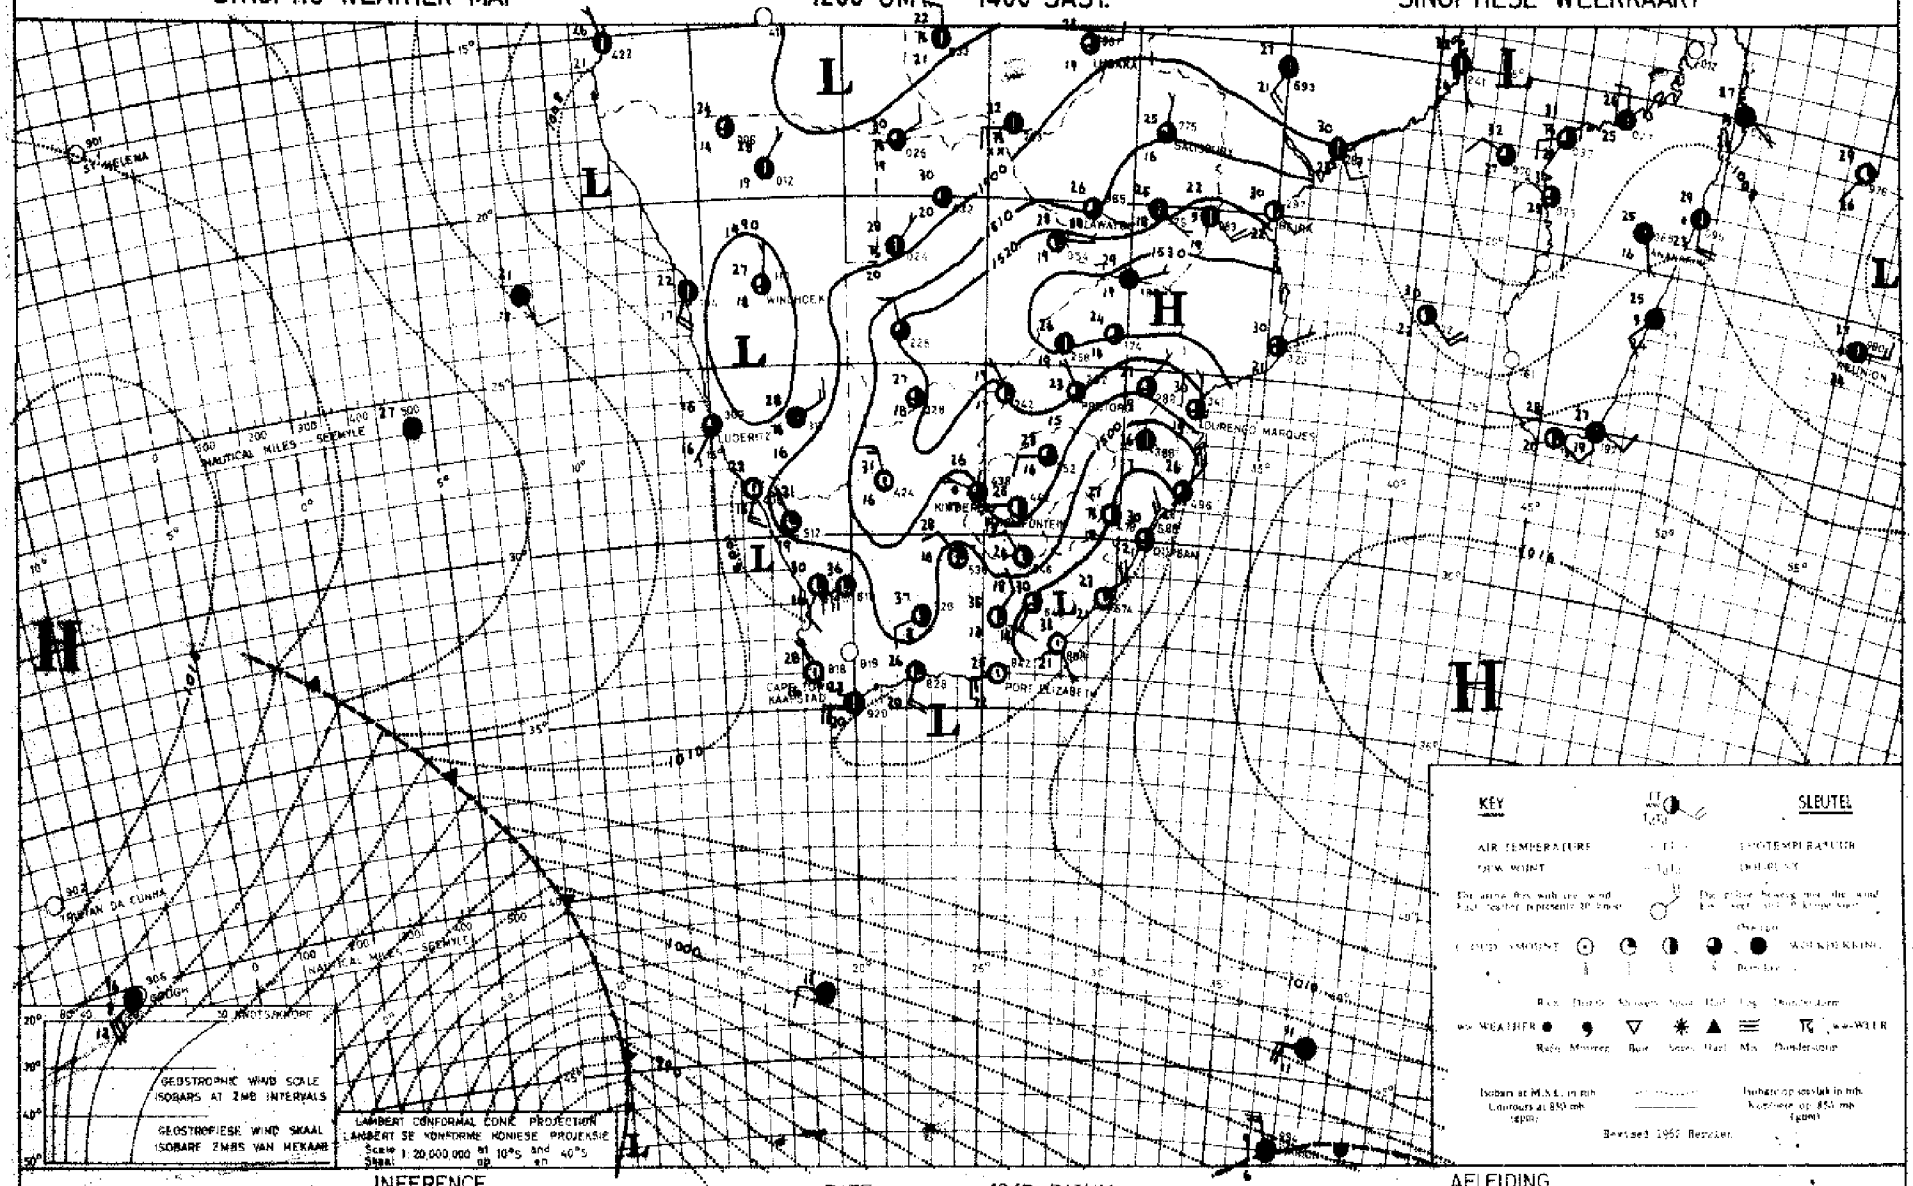
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 12 - 2 - 1967 DATUM AFLEIDING

The low pressure system on the coast will cause cloudy weather over the coastal areas. The air over the interior is still moist and thunder-showers will develop.

Die laagdrukstelsel op die kus sal bewolkte weer veroorsaak oor meeste kusgebiede. Die lug oor die binneland bly vogtig en donderbuie sal ontwikkel.

GEOSTROFIESE WIND SKAAL
ISOBARE 2MBS VAN MEKAAR

LAMBERT CONFORMAL CONIC PROJECTION
LAMBERT SE KONFORME KONIESE PROJEKSIE

INFERENCE DATE 14 - 2 - 19 67 DATUM AFLEIDING

With rising pressures on the south coast it is expected that cooler moist air will be advected over the extreme eastern interior. With moist air present over most of the country, thunder-showers will occur over the northern central and eastern interior. Light rain will occur over the south and south-east coasts but elsewhere it will be fine and warm.

Met stygende lugdruk langs die suidkus word verwag dat koeler vogtige lug oor die verre oostelike binneland ingevoer sal word. Met vogtige lug teenwoordig oor die grootste gedeelte van die land sal donderbuie voorkom oor die noordelike, sentrale en oostelike binneland. Ligte reën sal oor die suid- en suidooskus voorkom maar oor die res van die land sal dit mooiweer en warm wees.

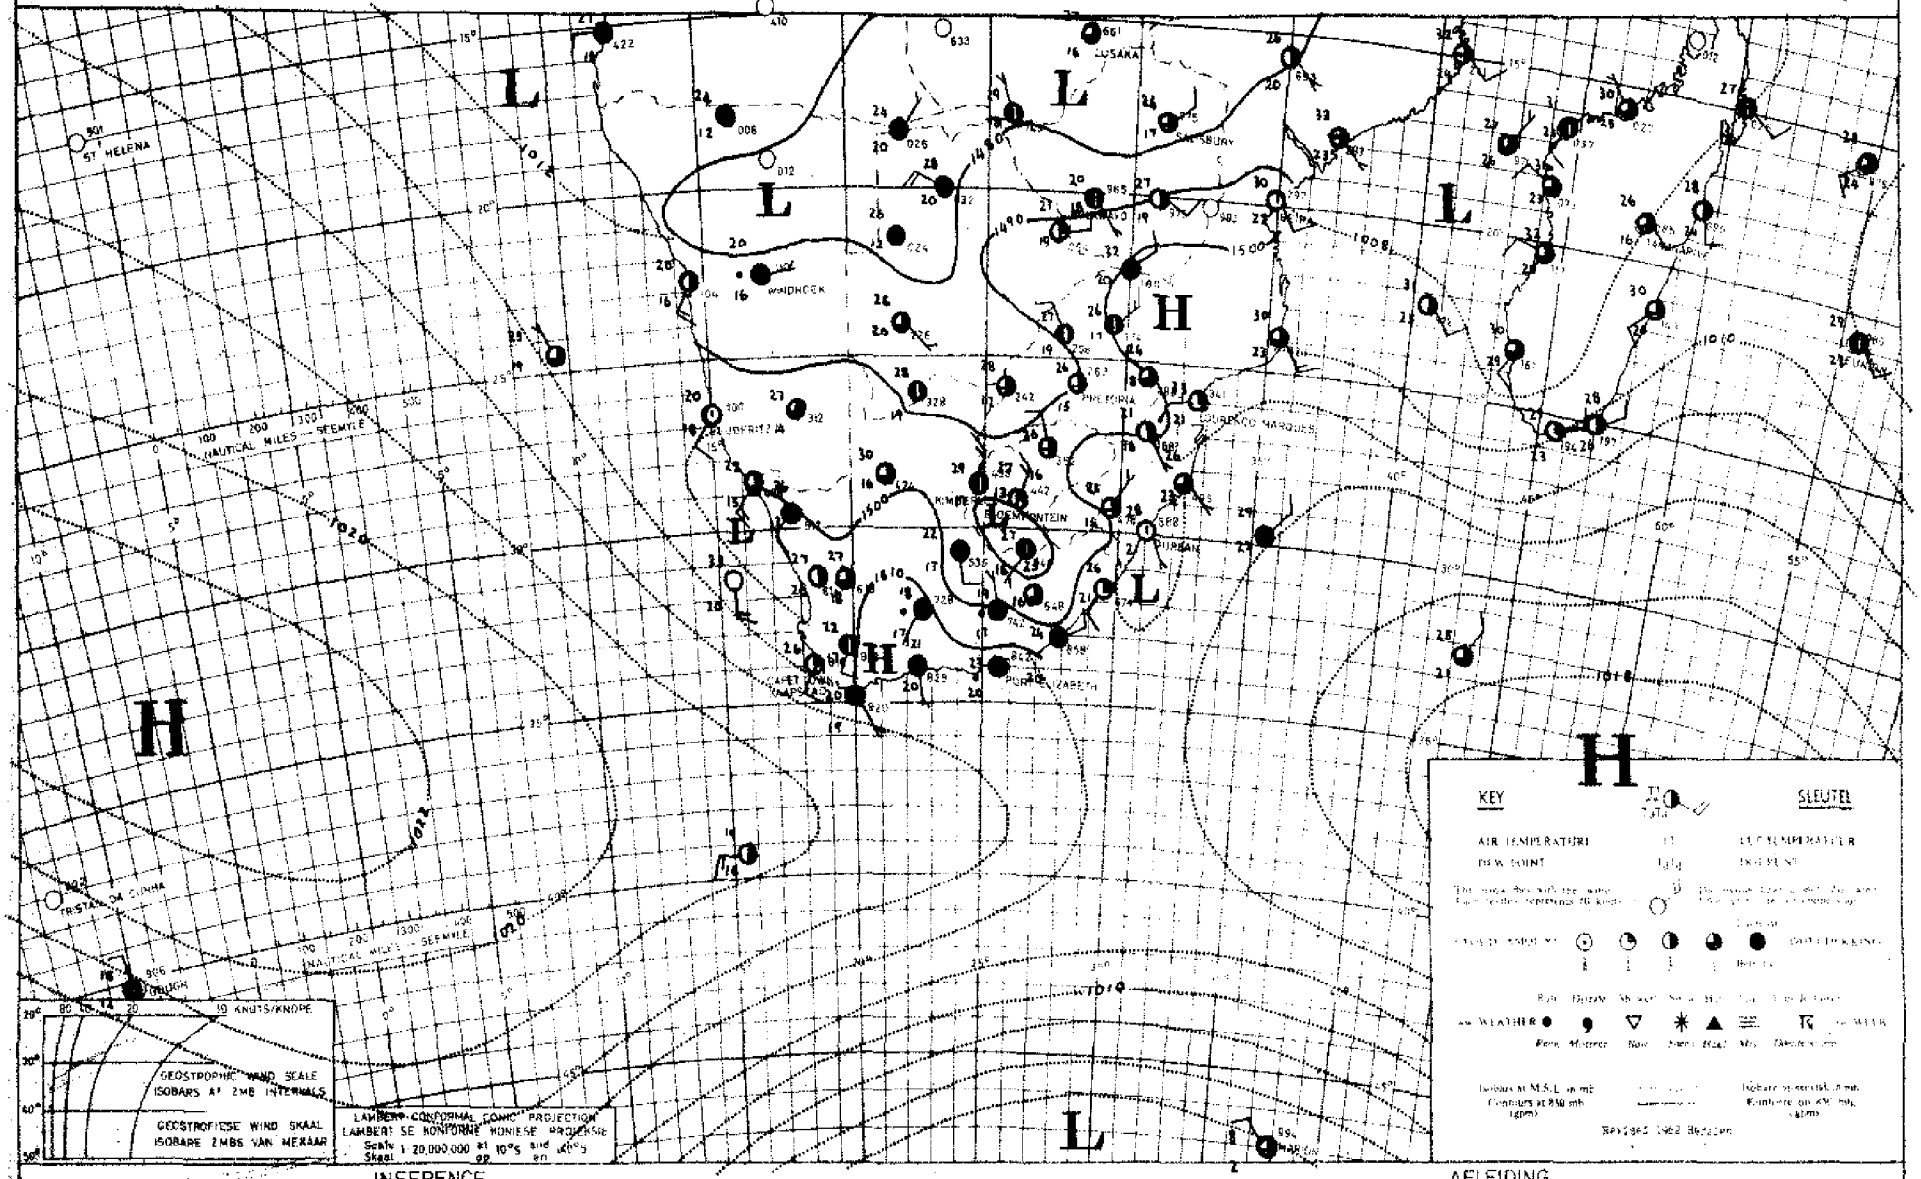
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 15 - 2 - 19 67 DATUM AFLEIDING

The high, wich is ridging in around the coast, will gradually cause clearance over the south-western and southern coastal areas. With moist air from the north thunder-showers will occur over most of the interior as a result of low pressure systems over these regions.

Die hoog wat suid van die land indruk, sal mettertyd opklaring veroorsaak oor die suidwestelike en suidelike kusgebiede. Met vogtige lug vanuit die noorde sal donderbuie oor die hele binneland voorkom as gevolg van laedrukstelsels oor die gebiede.

INFERENCE

DATE 16 - 2 - 1967 DATUM

AFLEIDING

Moist air is present over the whole country and a trough of low pressure extens from South-West Africa across the Republic. Scattered showers and thunder-showers will therefore occur over most areas, except the Western Cape.

Vogtige lug is aanwesig oor feitlik die hele land en 'n trog van lae lugdruk strek vanaf Suidwes-Afrika oor die Republiek. Verspreide buie en donderbuie sal dus voorkom oor meeste dele behalwe Wes-Kaapland.

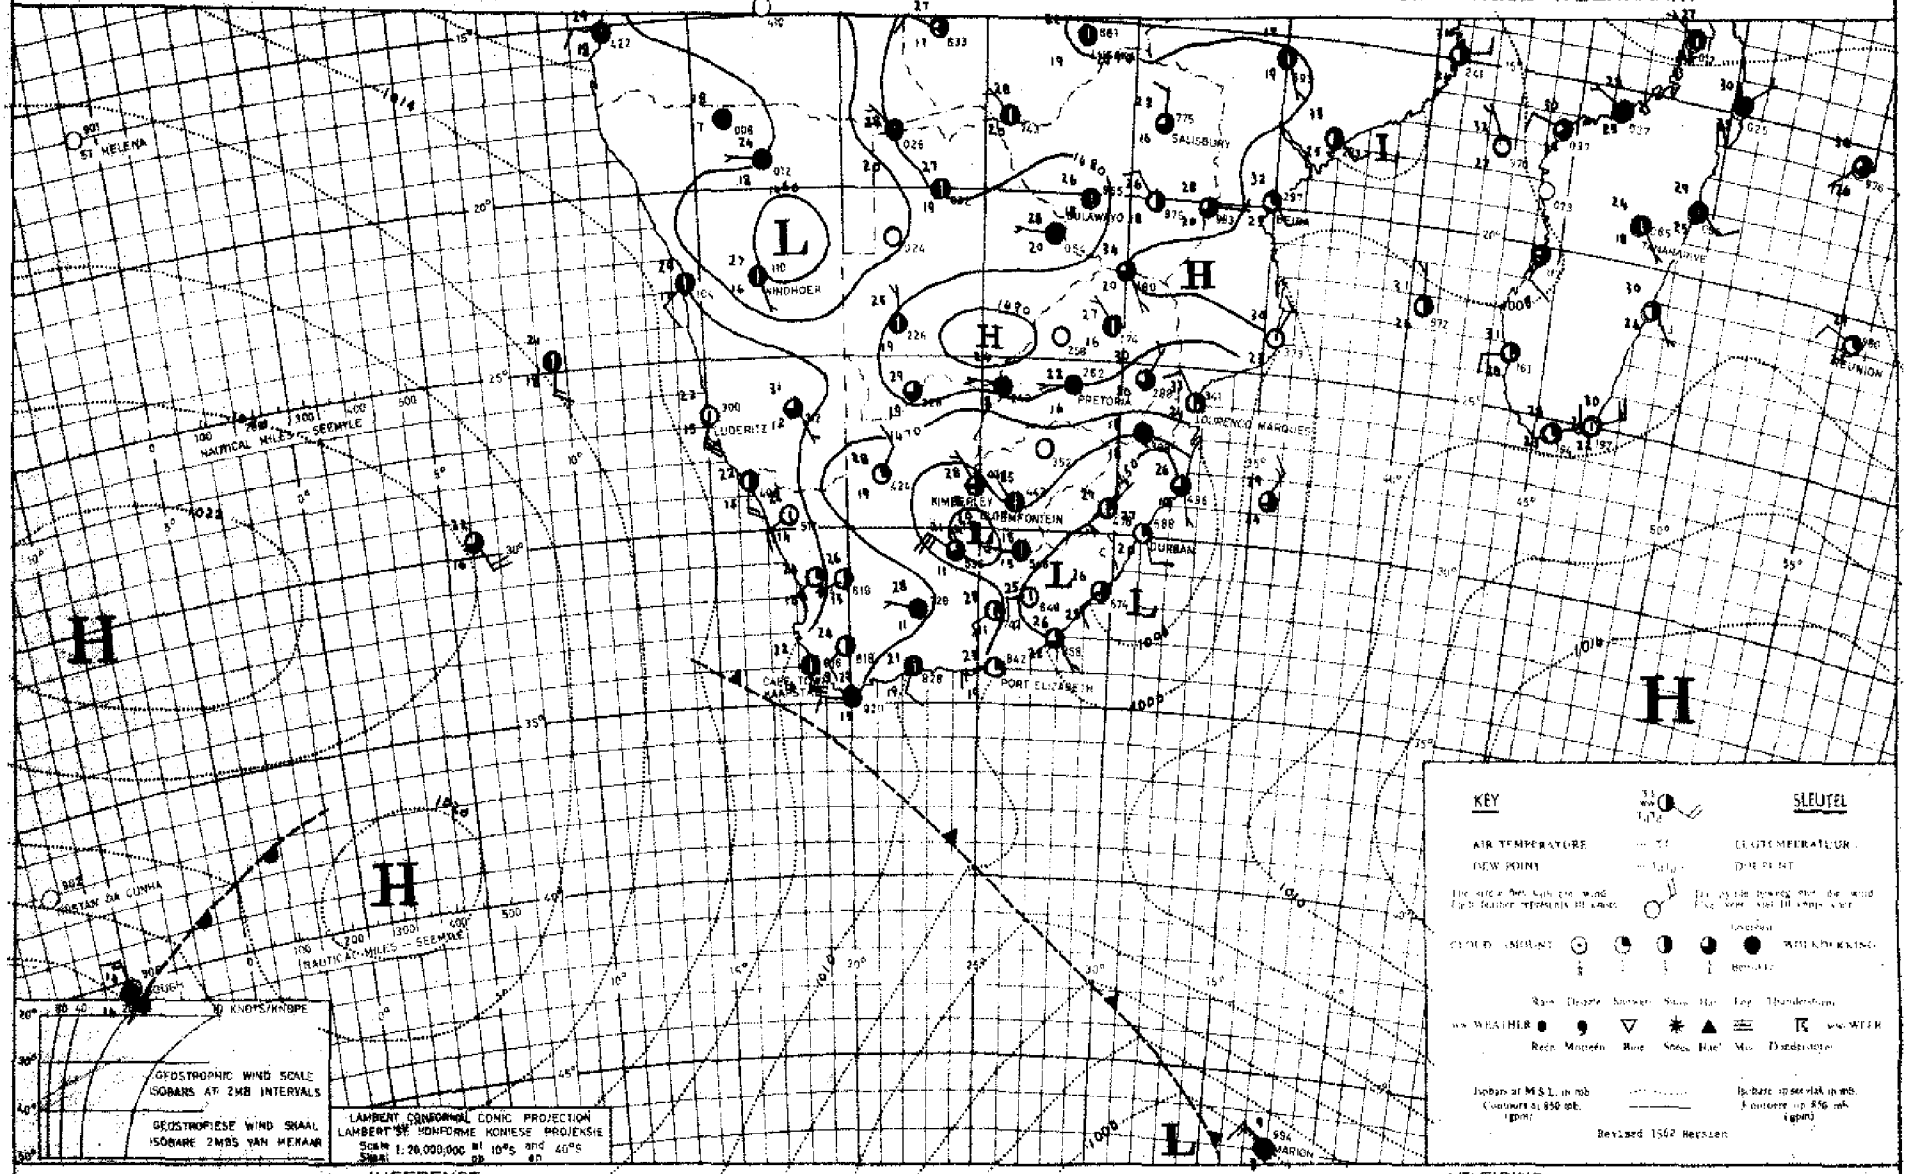
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 17 - 2 - 1967 DATUM AFLEIDING

With low pressure systems over the central and north-western interior and moist air present, rain and showers will occur over the northern and eastern parts of the country. Cloudy conditions with light rain over the southern coastal areas will be caused by the cold front south of the country. Elsewhere it will be fine and warm.

Met laagdrukstelsels oor die sentrale en noordwestelike binneland en vogtige lug aanwesig sal reën en buie voorkom oor die noordelike en oostelike dele van die land. Bewolkte toestande met ligte reën sal oor die suidelike kusgebiede voorkom as gevolg van die koue front wat suid van die land verby beweeg. Elder sal dit mooiweer en warm wees.

A weak coastal low will cause partly cloudy and cooler weather along the Cape south coast. A strong upper air high is situated over the interior and it will be fair over the remaining areas.

'n Swak laag sal gedeeltelik bewolkte en koeler weer veroorsaak langs die Kaapse suidkus. 'n Sterk bolughoog is oor die binneland geleë en dit sal oor die res van die land mooiweer wees.

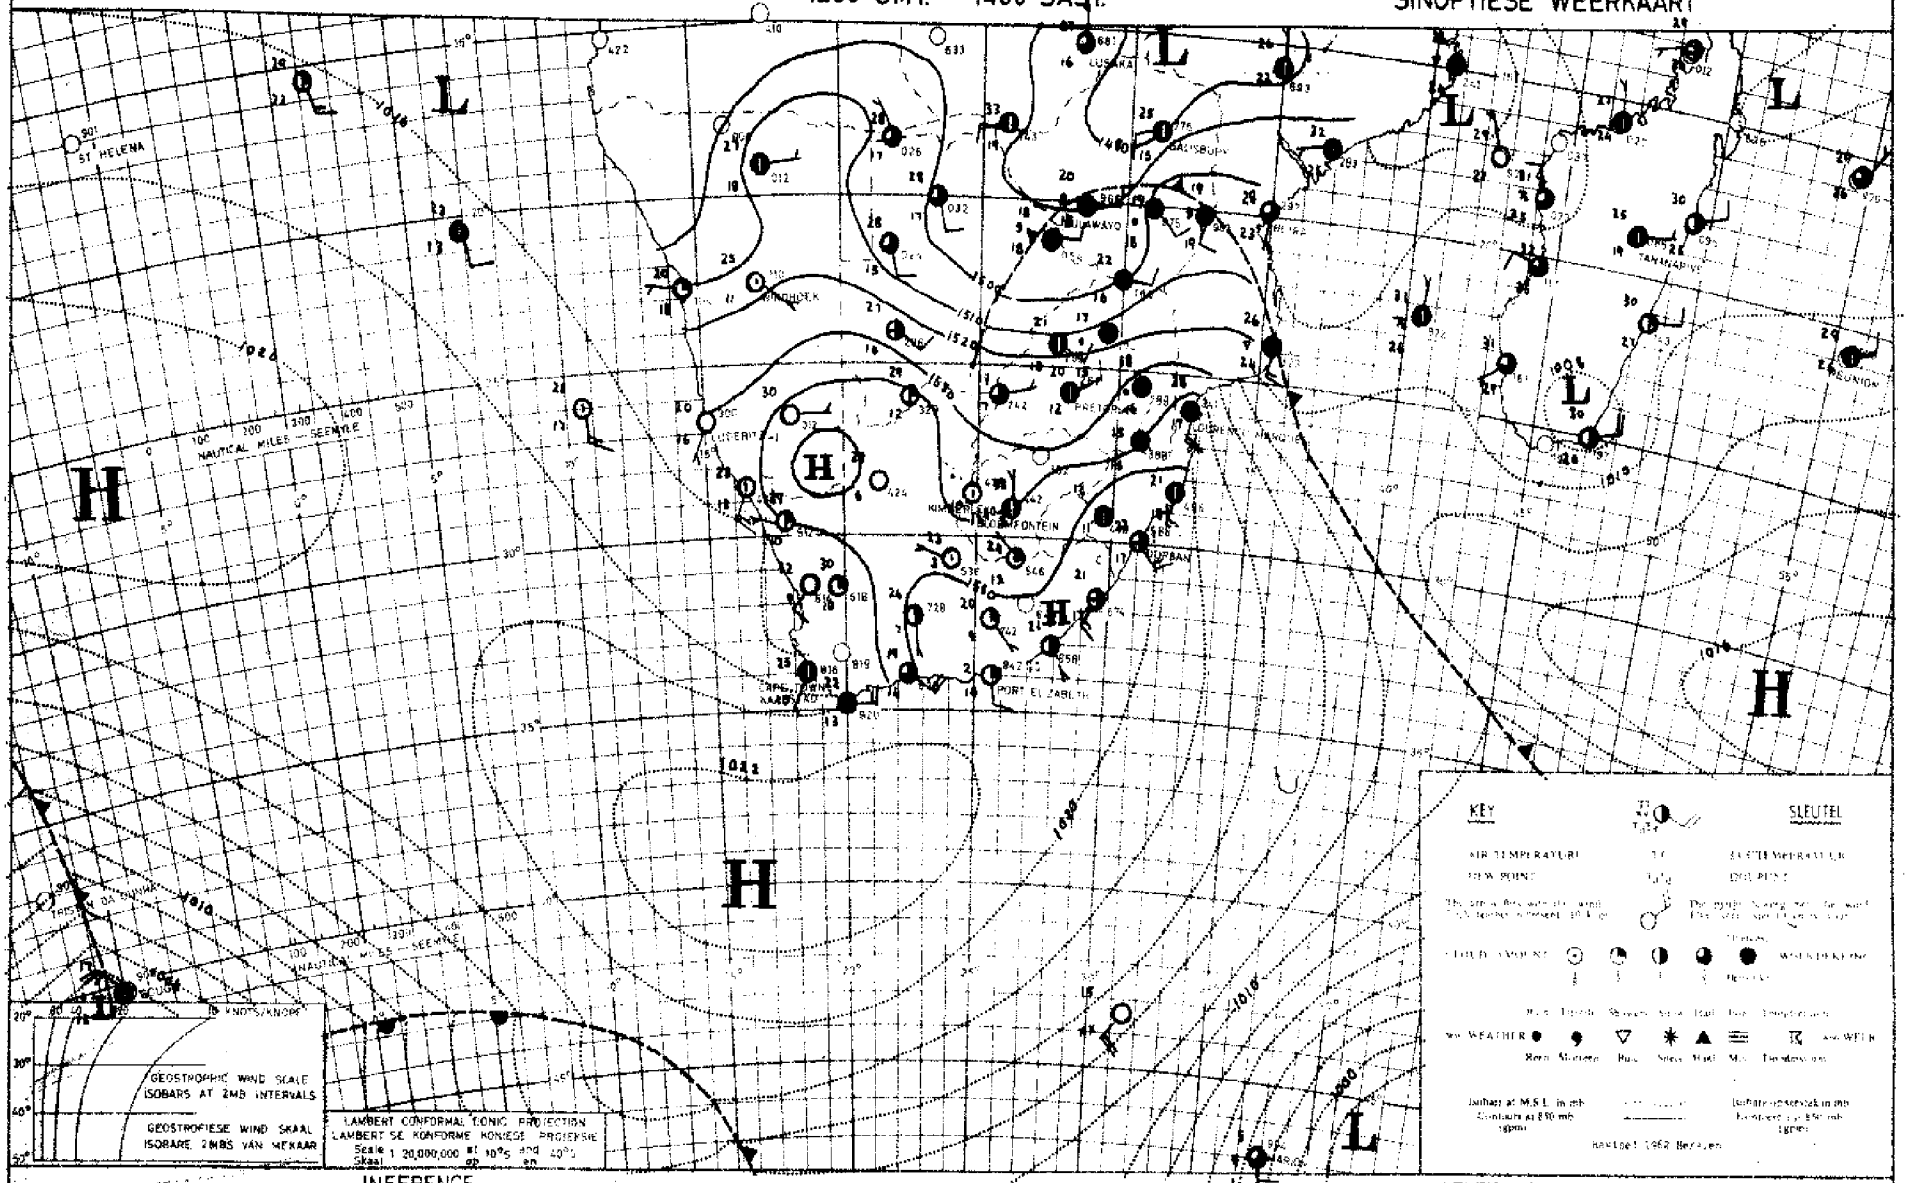
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 19 . . 2 . . 19 67 DATUM AFLEIDING

With a high moving eastwards south of the country, it will clear over the southern and south-eastern coastal areas. With a weak trough over the interior thunder-showers will occur over Transvaal, the Free State and Botswana. Dry air is being advected over the western parts of the country where it will be fine and warm.

Met 'n hoog wat suid van die land verby beweeg, sal dit opklaar oor die suid- en suidoostelike kusstreke. Met 'n swak trog oor die binneland sal gonderbuie voorkom oor Transvaal, Bafswana en die Vrystaat. Droë lug word ingevoer oor die westelike dele van die land waar dit mooiweer en warm sal wees.

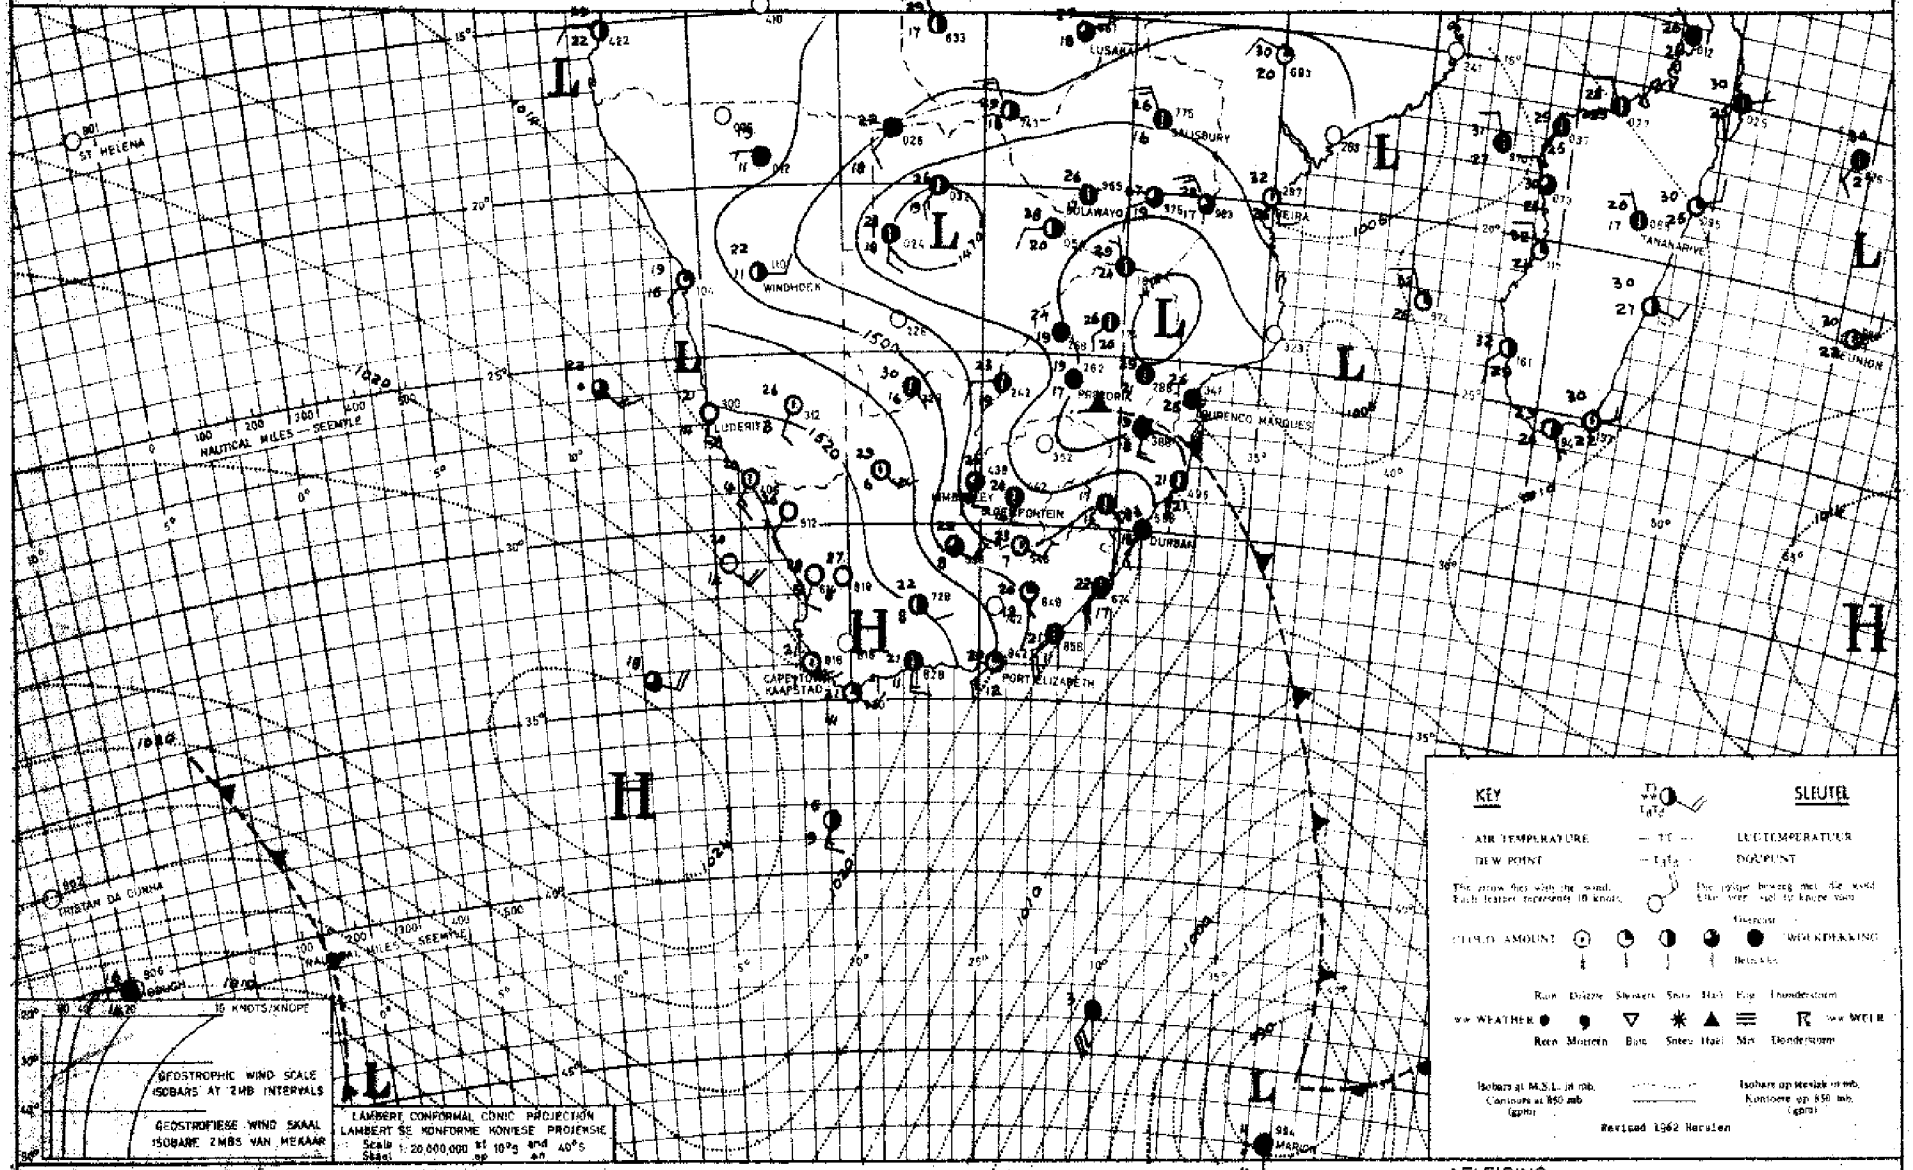
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



KEY SLEUTEL

AIR TEMPERATURE — LUGTEMPERATUUR

DEW POINT — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots.

Die pyltjie beweeg met die wind. Elke veer stel 10 knope voor.

CLOUD AMOUNT — WOLKDEKKING

WX WEATHER — WX WEER

Rain Drizzle Showers Snow Hail Fog Thunderstorm

Reën Motreën Buie Sneeu Hael Mis Donderstorm

Isobars at M.S.L. in mb. Contours at 850 mb (gpm)

Isobare op seevlak in mb. Kontoere op 850 mb (gpm)

Revised 1962 Herzien

INFERENCE DATE 18 - 2 - 1967 DATUM AFLEIDING

A high pressure system is moving in fast to the south of the country, so that it will clear over the Cape coastal areas. Dry air has moved in over the western and southern interior, but cloudy weather will persist over the north-eastern interior, with rain and showers.

'n Hoogdrukstelsel stoot vinnig suid van die land in, sodat dit van die weste sal opklaar oor die Kaapse kuststreke. Droë lug het oor die westelike en suidelike binneland beweeg, maar bewolkte toestande met reën en buie sal oor die noordoostelike binneland voortduur.

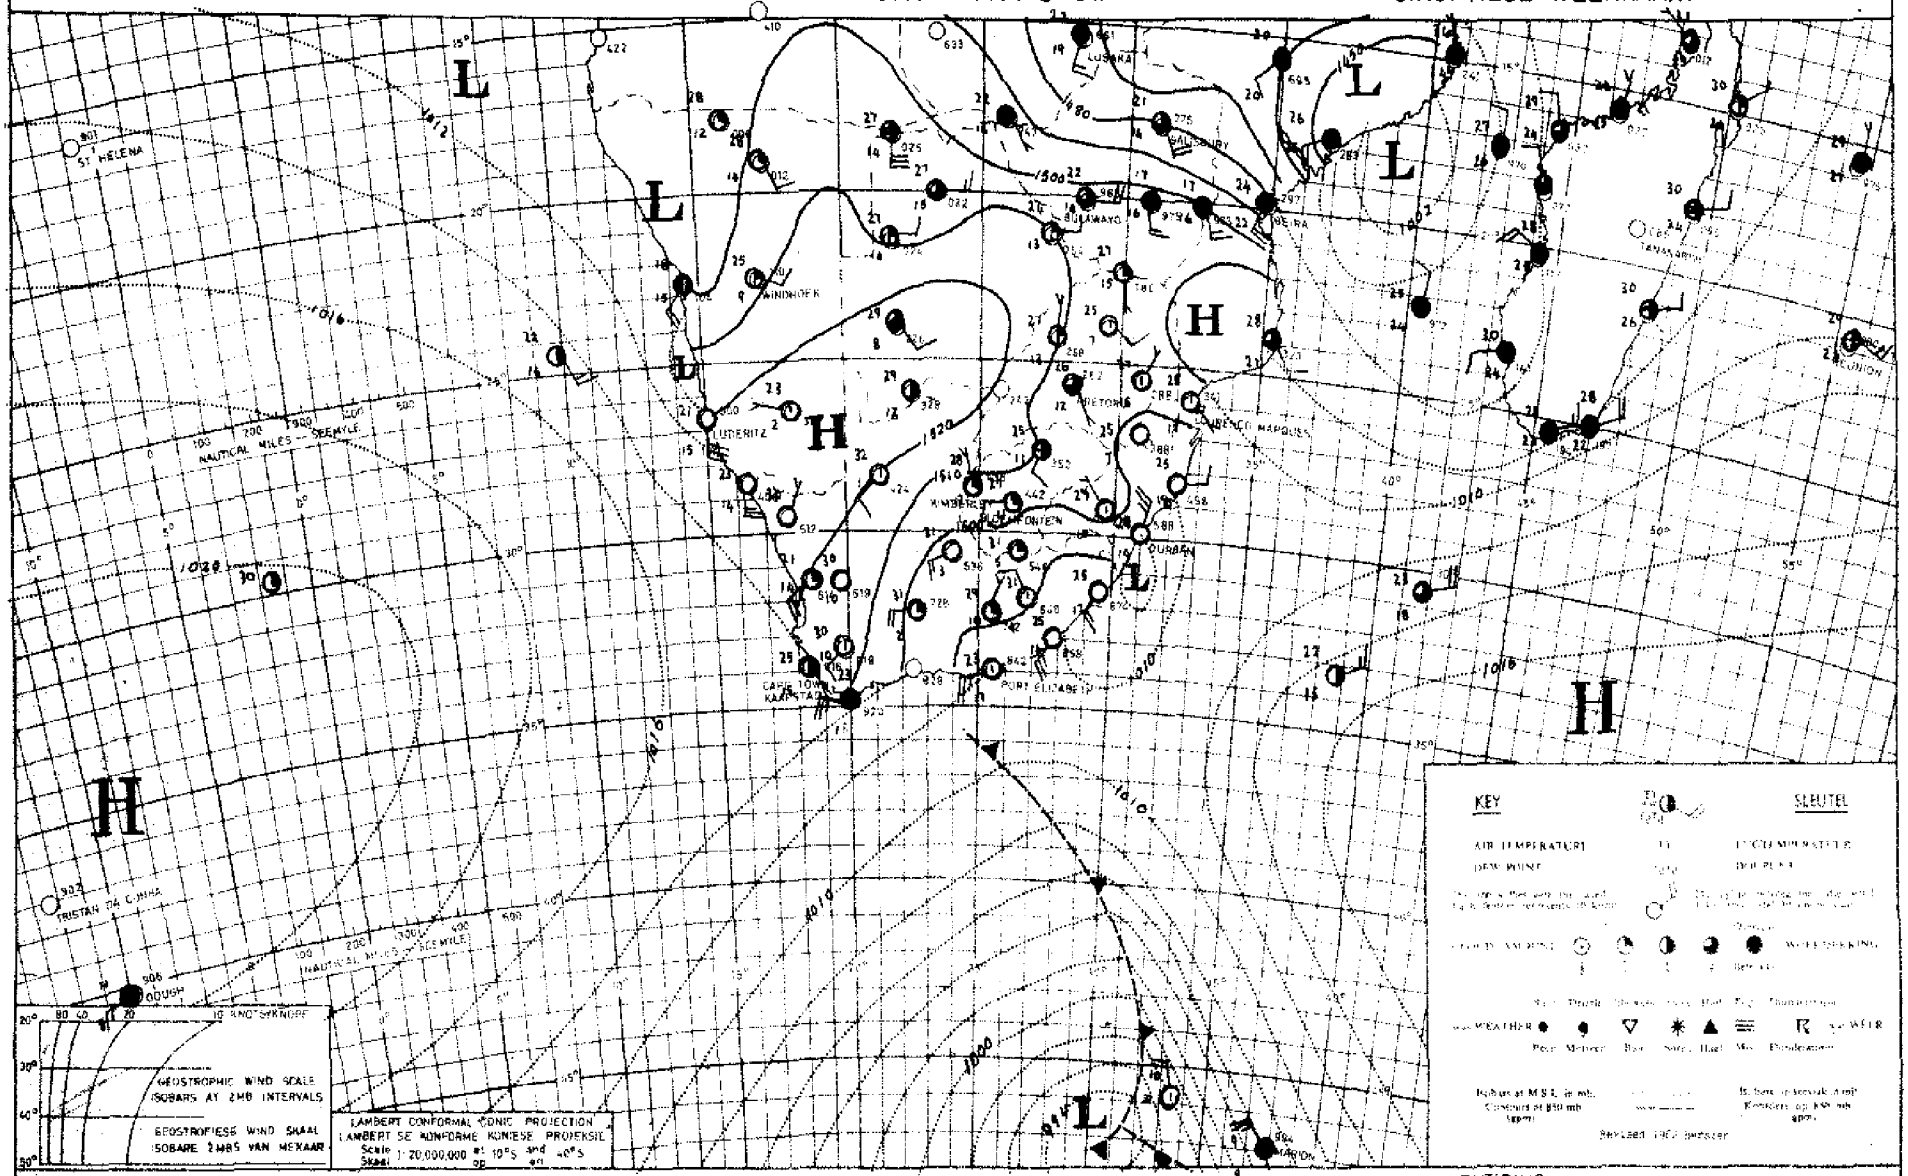
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 21 - 2 19 61 DATUM AFLEIDING

A weak high pressure systems is ridging in over the south coast behind a cold front wich is moving eastwards to the south of the country, so that with a high over the interior preventing development, it will be fine or partly cloudy over most of the country.

'n Swak hoogdrukstelsel stoot in oor die suidkus agter die koue front wat suid van die land verby-beweeg, terwyl 'n hoogdrukstelsel oor die binneland ontwikkeling verhoed, sodat dit oor meeste dele mooiweer of gedeeltelik bewolk en matig tot warm sal wees

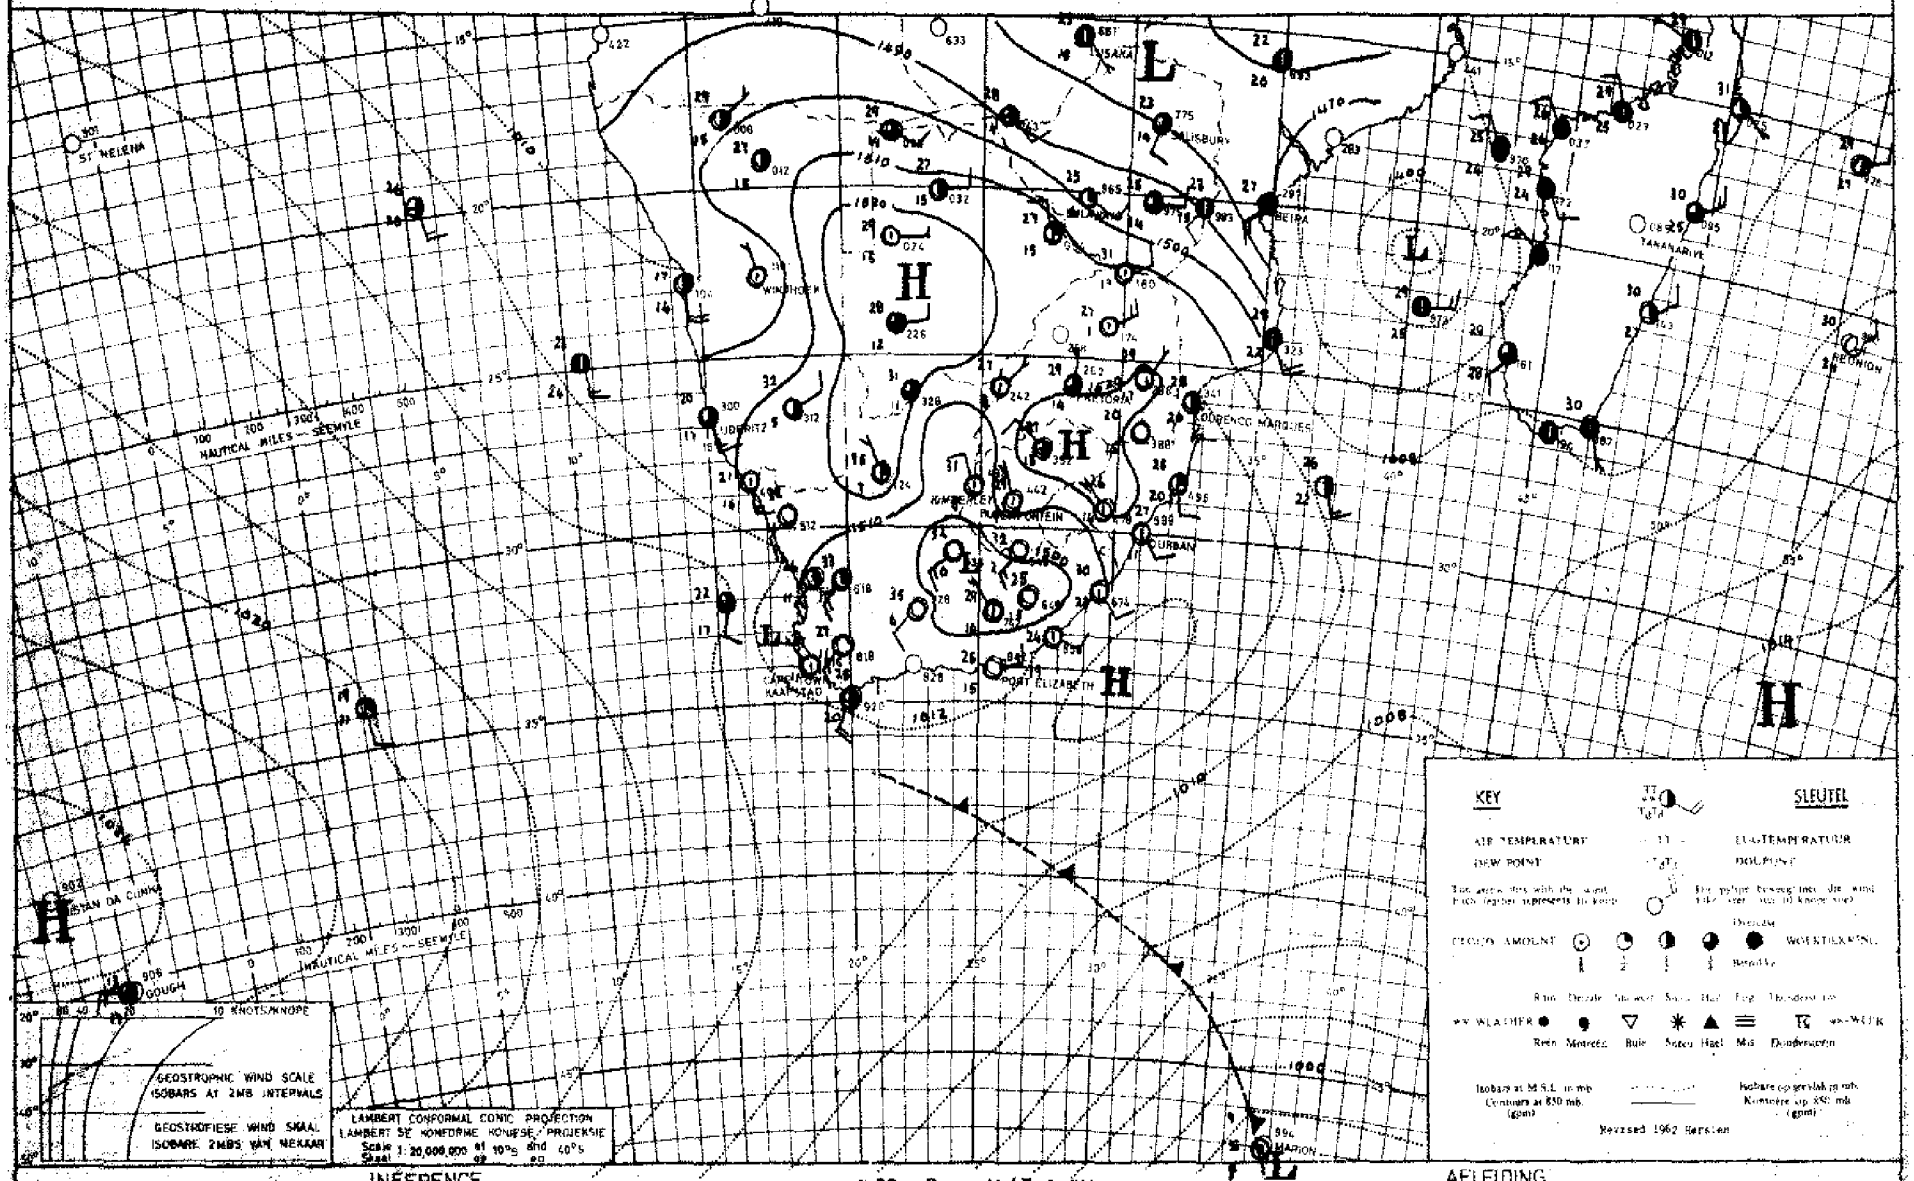
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 22 - 2 - 1967 DATUM

AFLEIDING

Moist air is being advected over the northern parts of South West Africa and Botswana and thunder-showers will occur over these areas. With the upper air circulation anticyclonic it will be fine over most of the country. Partly cloudy weather caused by a coastal low will occur over the southern coastal areas of the Cape

Vogtige lug word ingevoer oor die noordelike dele van Botswana en Suidwes-Afrika en donderbuie sal hier voorkom. Met 'n antisiklonale sirkulasie in die bolug sal dit oor feitlik die hele land mooiweer wees. Gedeeltelik bewolkte weer oor die Kaapse suidkus sal voorkom as gevolg van laag langs die kus.

INFERENCE

DATE 23 - 2 - 1967 DATUM

AFLEIDING

The high moving in south of the country will result in cloudy conditions over the south-eastern and eastern coastal regions and the Transvaal lowveld. An upper air low over South West Africa will cause isolated thunder-showers over this region and also over Gordonia and Griqualand West.

Die hoog wat suid van die land inbeweeg sal bewolkte toestande oor die suidoostelike en oostelike kusstreke en die Transvaalse laeveld meebring. As gevolg van 'n bolugtrog oor Suidwes-Afrika sal los donderbuie daar voorkom en ook uitbrei na Gordonia en Griekwaland-Wes.

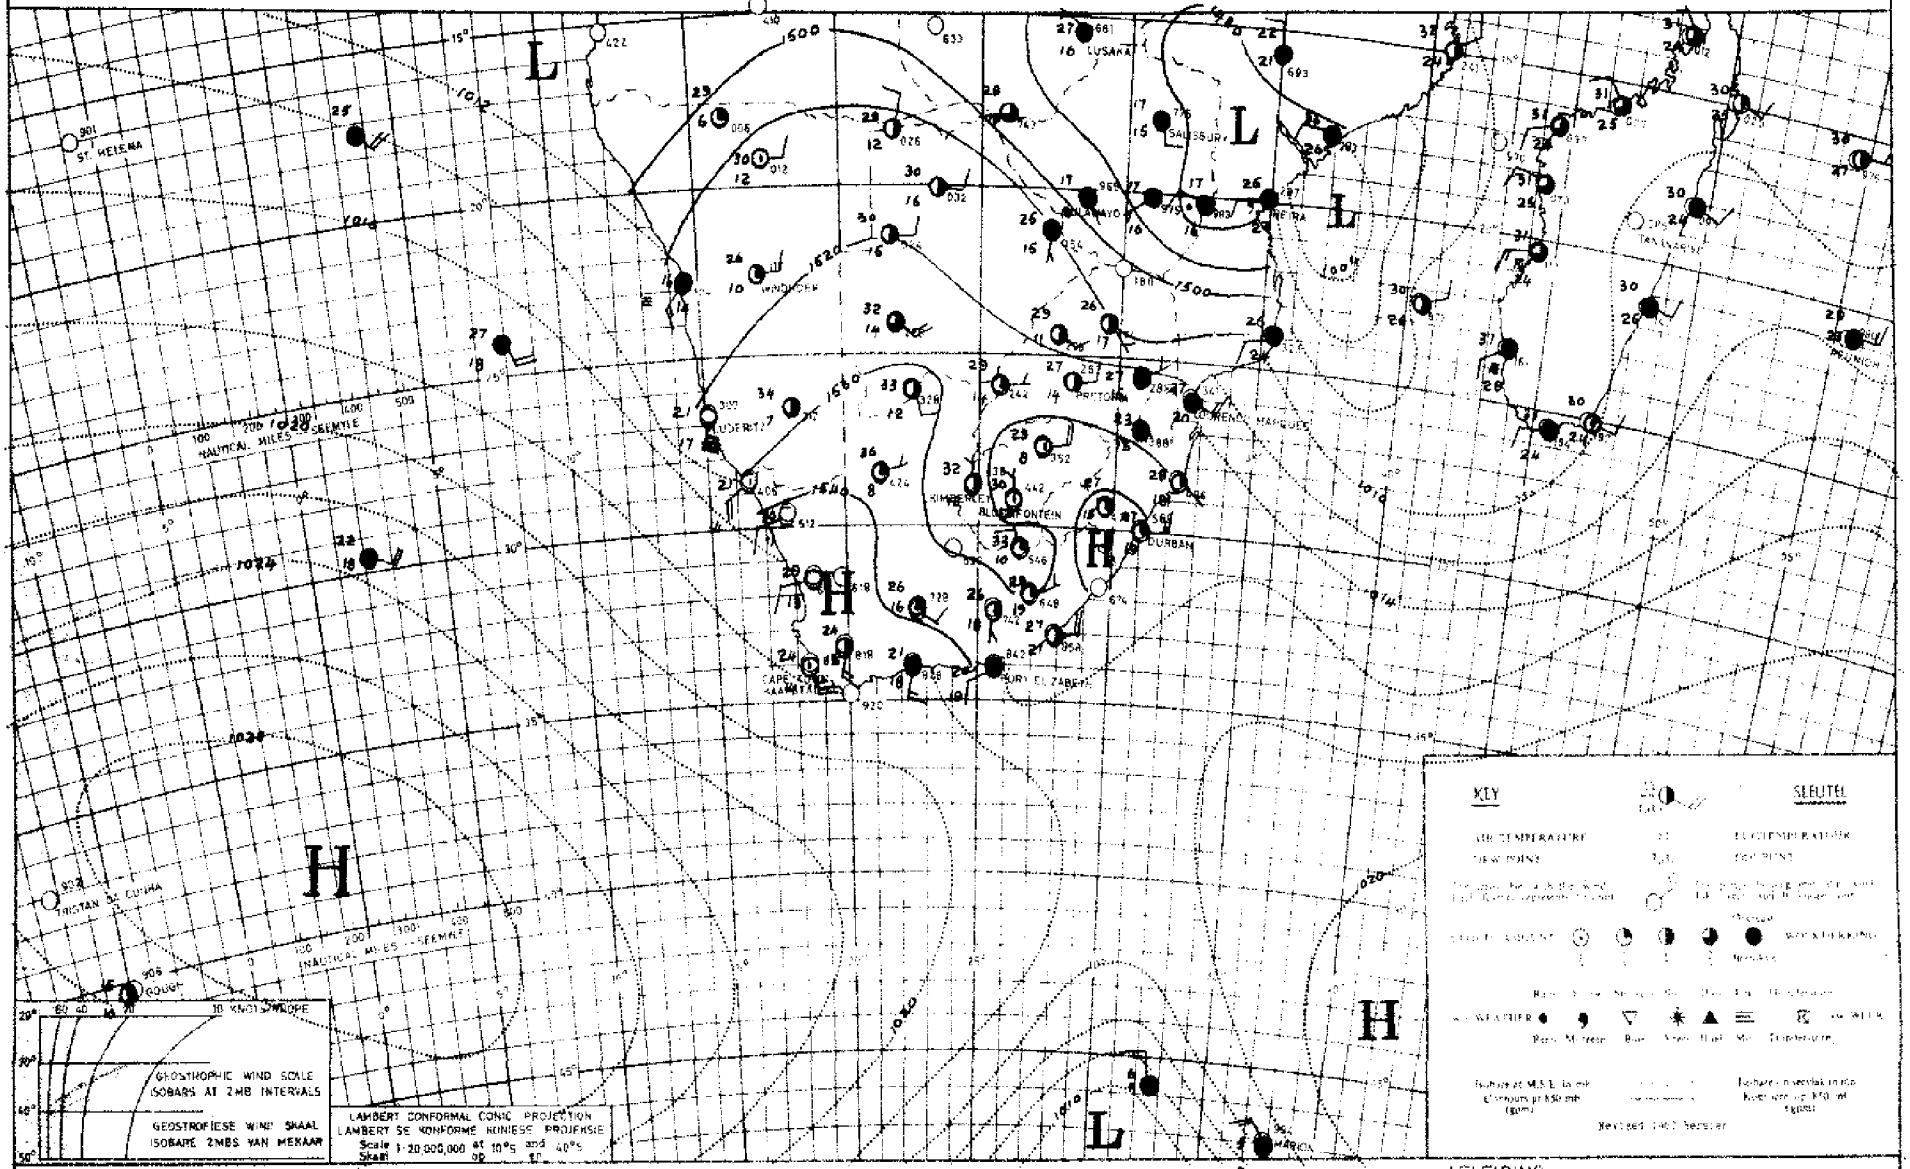
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 24 - 2 - 19 67 DATUM AFLEIDING

The high pressure system to the south of the country is moving slowly, so that cloudy weather with drizzle will persist over the south and east coasts. The cyclone over the Mozambique channel will cause general rain over the north-eastern Transvaal, but the resultant descending air will maintain fine weather over the remainder of the interior. Isolated thunder-showers will, however, develop over the central and south-eastern parts.

Die hoogdrukstelsel suid van die land beweeg baie stadig sodat bewolkte weer met motreën oor die suid- en ooskus sal voortduur. Die sikloon oor die Mosambiekkanaal sal bewolkte weer met algemene reën veroorsaak oor Noordoos-Transvaal, maar die gevolglike afsakking sal mooiweerstoestande oor die res van die binneland laat voortduur. Los donderbuie sal egter oor die sentrale en suidoostelike dele ontwikkel.

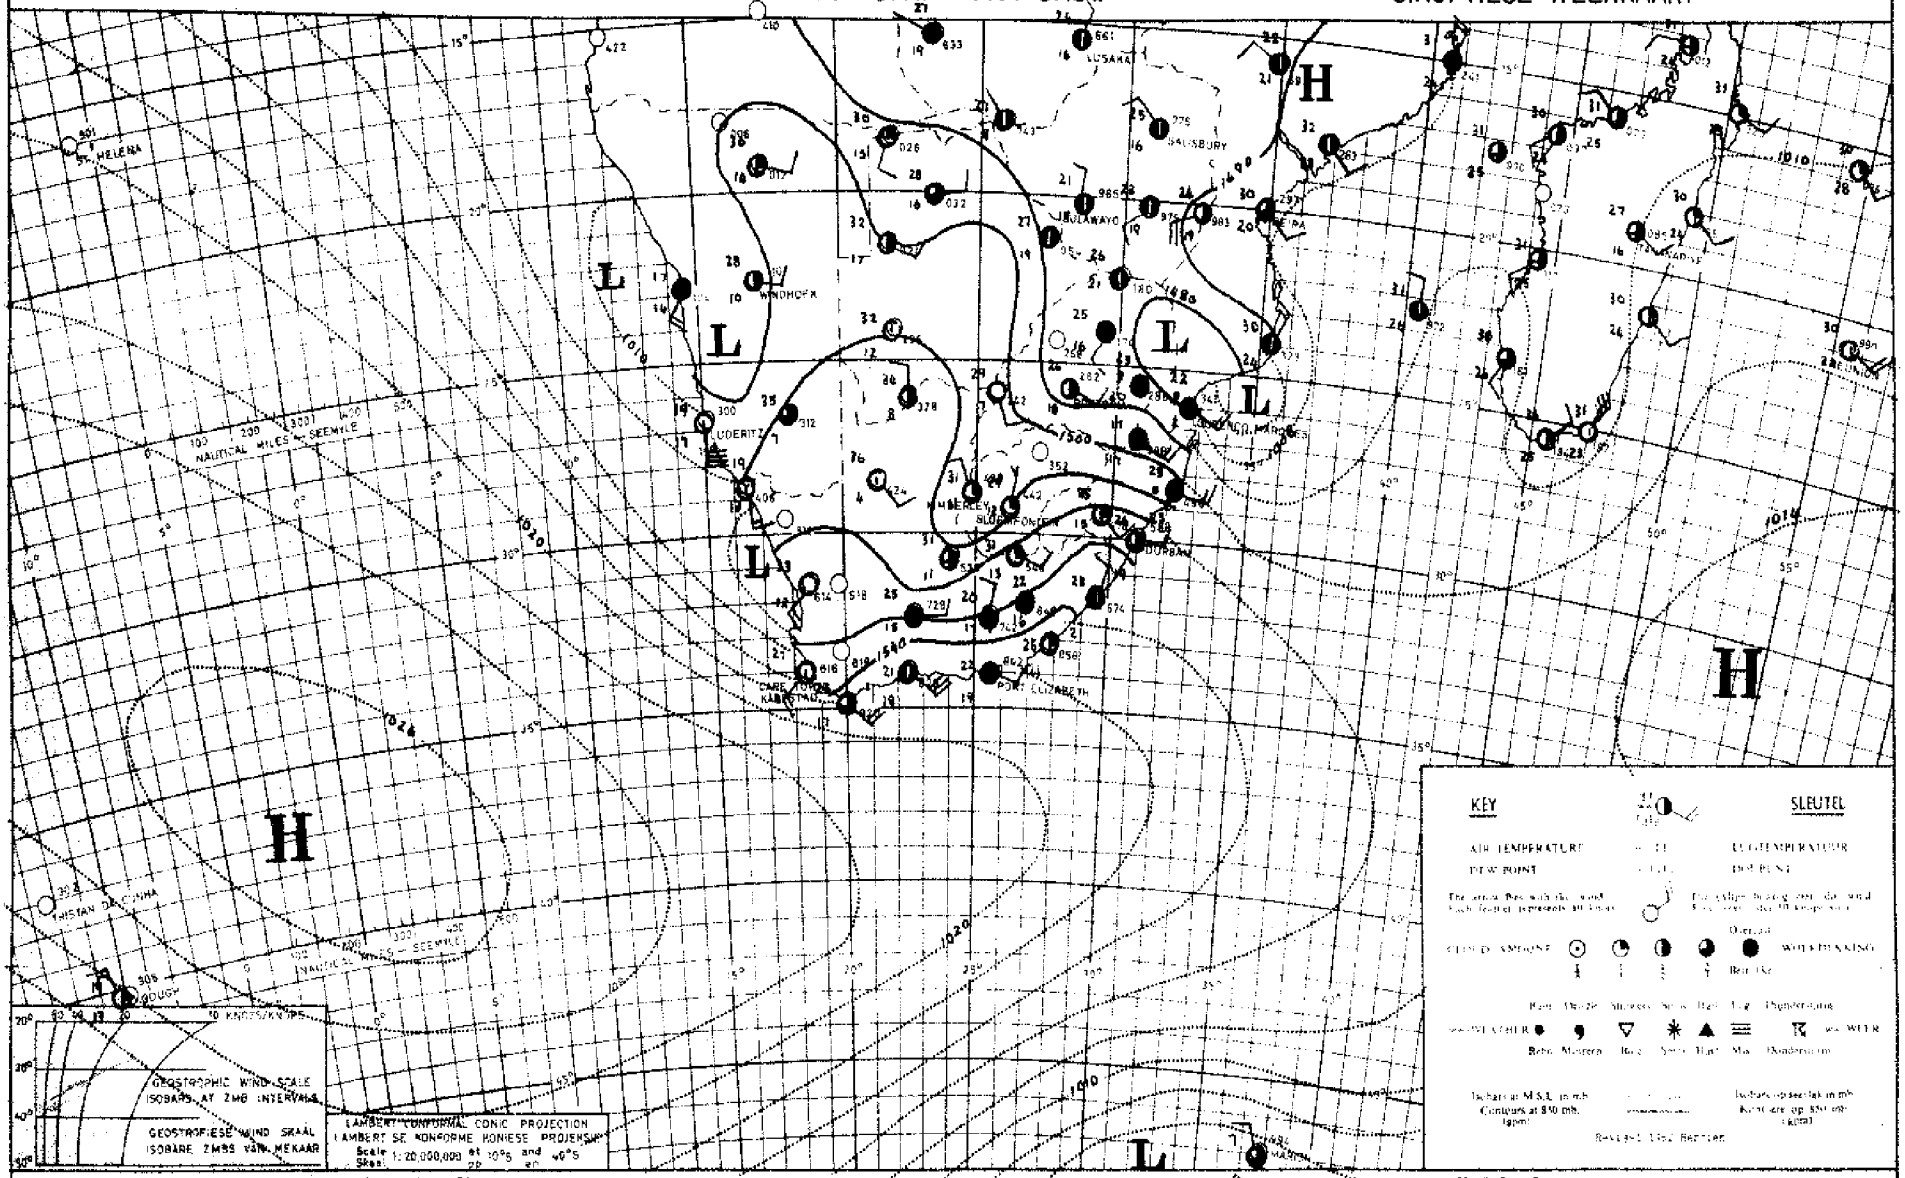
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 25 - 2 - 19 67 — DATUM — AFLEIDING

The weak high ridge to the south of the country will maintain cloudy weather over the southern and eastern coastal areas. Light rain will occur at places over the east coast. It will be partly cloudy and warm over the interior, and thunder-showers will develop over the central and eastern parts.

Die swak hoogrug suid van die land sal bewolkte toestande oor die suidelike en oostelike kusgebiede laat voortduur. Ligte reën sal plek-plek oor die ooskus voorkom. Oor die binneland sal dit gedeeltelik bewolk en warm wees, met donderbuie oor die sentrale en oostelike dele.

DAAGLIKSE WEERBULLETIN

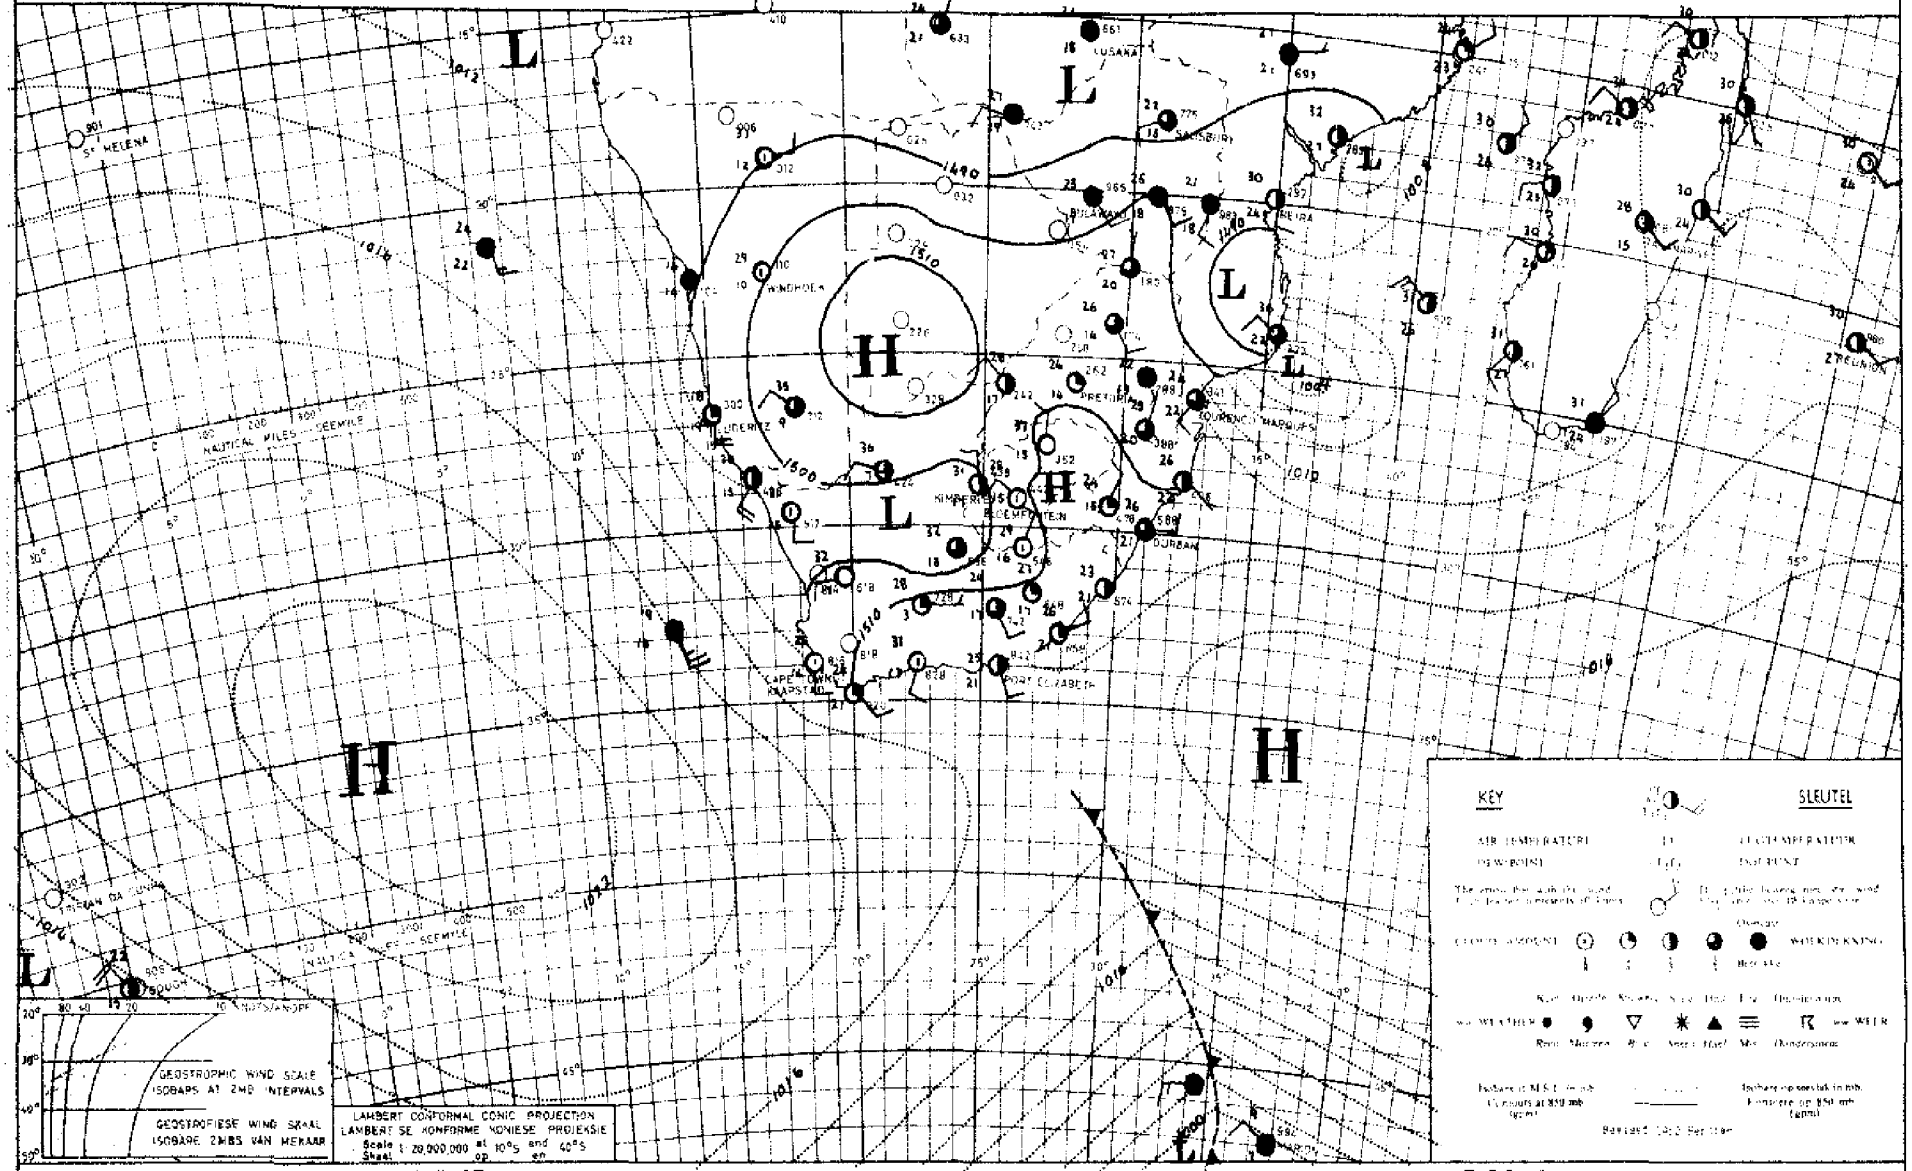
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 26 . 2 . 1967 DATUM AFLEIDING

With a high cell expected off the east coast, the weather will clear over the south coast but cloudy weather will persist over the east coast. Thunder-showers will develop over most of the interior, except the extreme north.

Met 'n swak hoogrug wat oos van die land verwag word, sal dit oor die suidelike kusgebiede opklaar, maar bewolkte toestande oor die oostelike dele sal voortduur. Donderbuie sal oor die meeste dele van die binneland ontwikkel, uitgesonderd die verre noordelike dele.

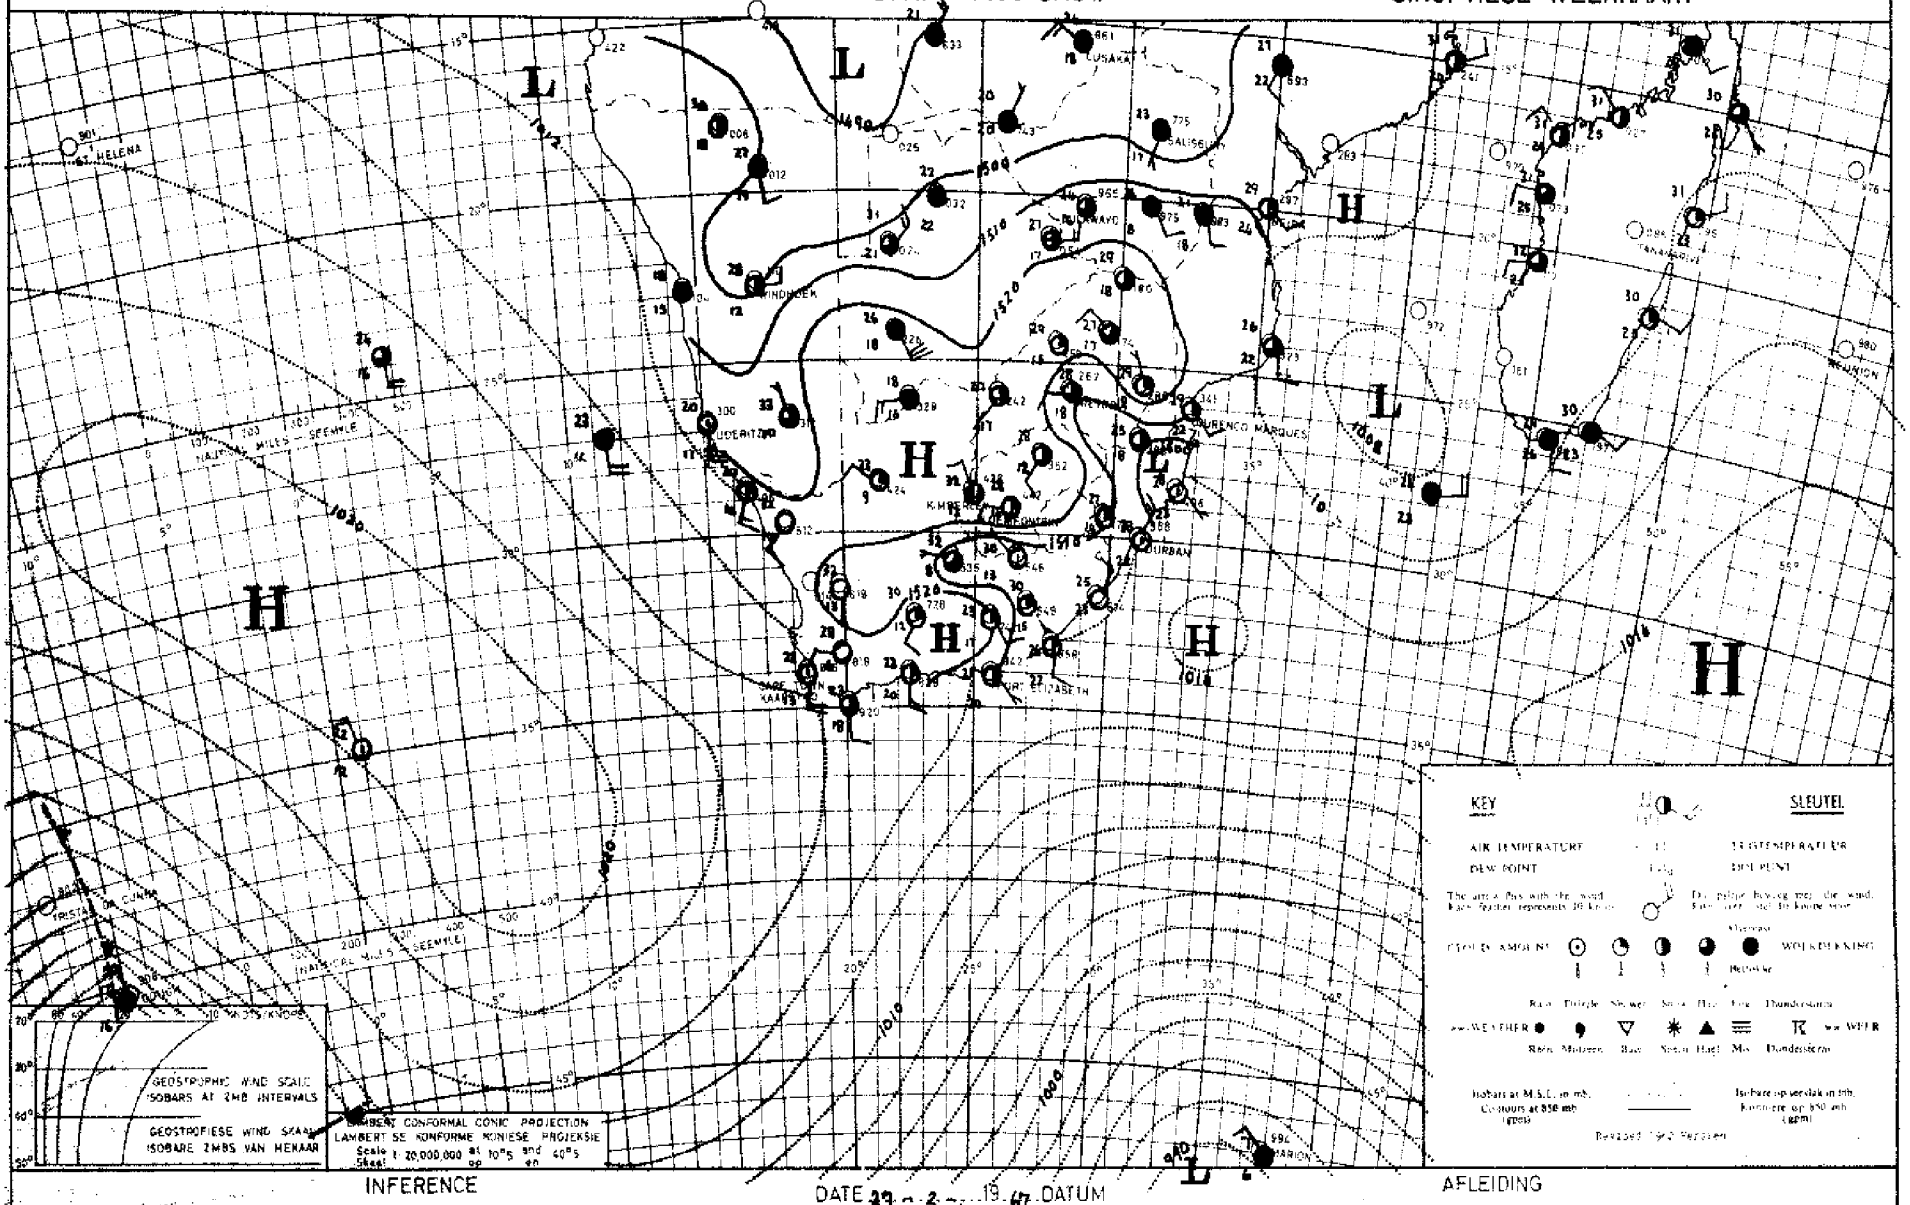
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

With moist air present over the northern and central interior of the country, thunder-showers will occur over most of these areas. The Atlantic high is ridging in south of the country and will cause cloudy weather with possible drizzle over the south and south-east coasts.

DATE 29 - 2 - 19 67 DATUM

AFLEIDING

Met vogtige lug aanwesig oor die noordelike en sentrale binneland, sal donderbuie voorkom oor die meeste van hierdie gebiede. Die Atlantiese hoog beweeg suid van die land in en gevolglik sal dit bewolk wees met moontlike motreën oor die suid- en suidooskus.

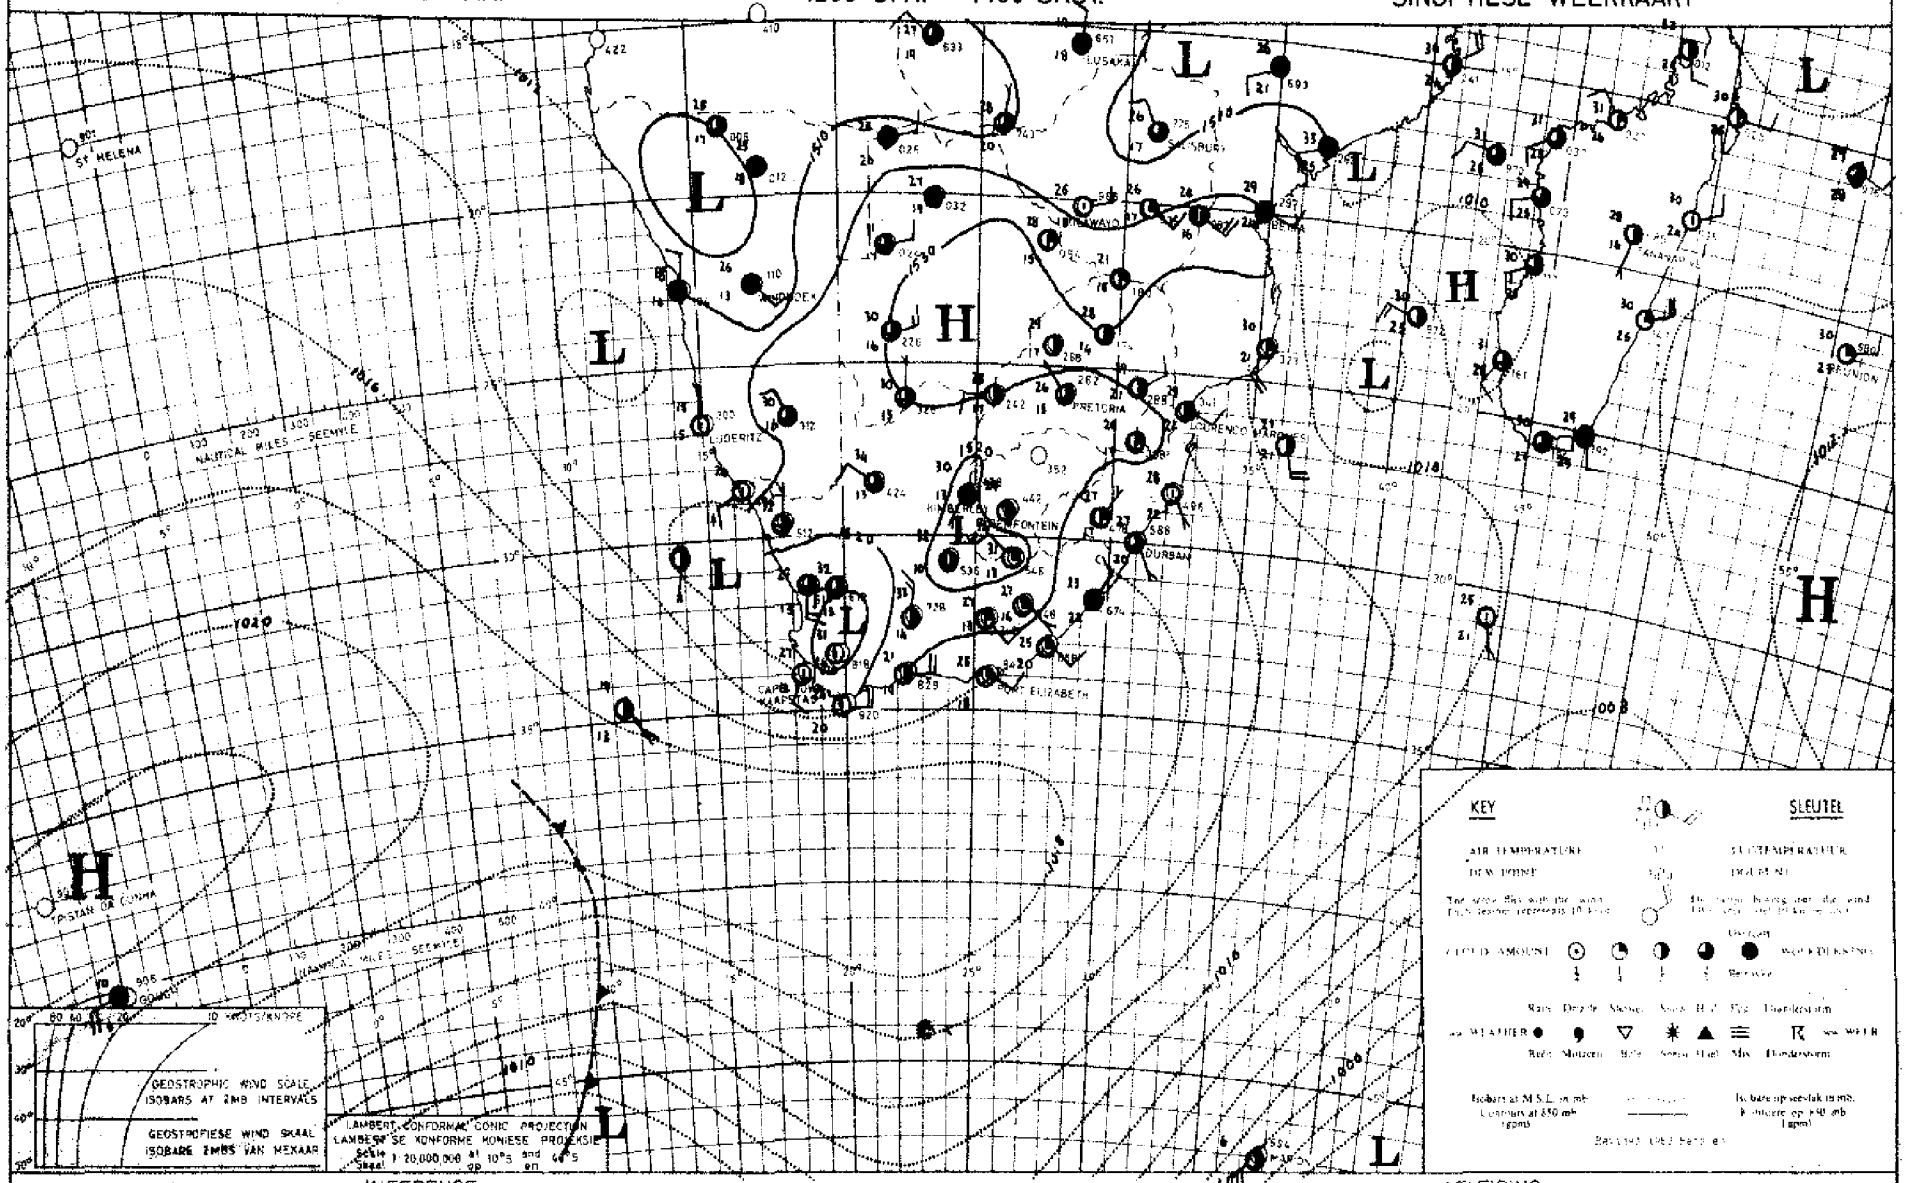
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 28 . 2 . 1967 DATUM APLEIDING

The low off the Cape West coast will move to the south coast causing cloudy to partly cloudy and cooler weather over these regions. The air is moist over most regions of the interior and thunder-showers will occur.

Die laag langs die Kaapse weskus sal na die suidkus beweeg wat bewolkte tot gedeeltelik bewolkte weer oor hierdie gebiede veroorsaak. Die lug is vogtig oor die meeste dele van die binneland en donderbuie sal voorkom.

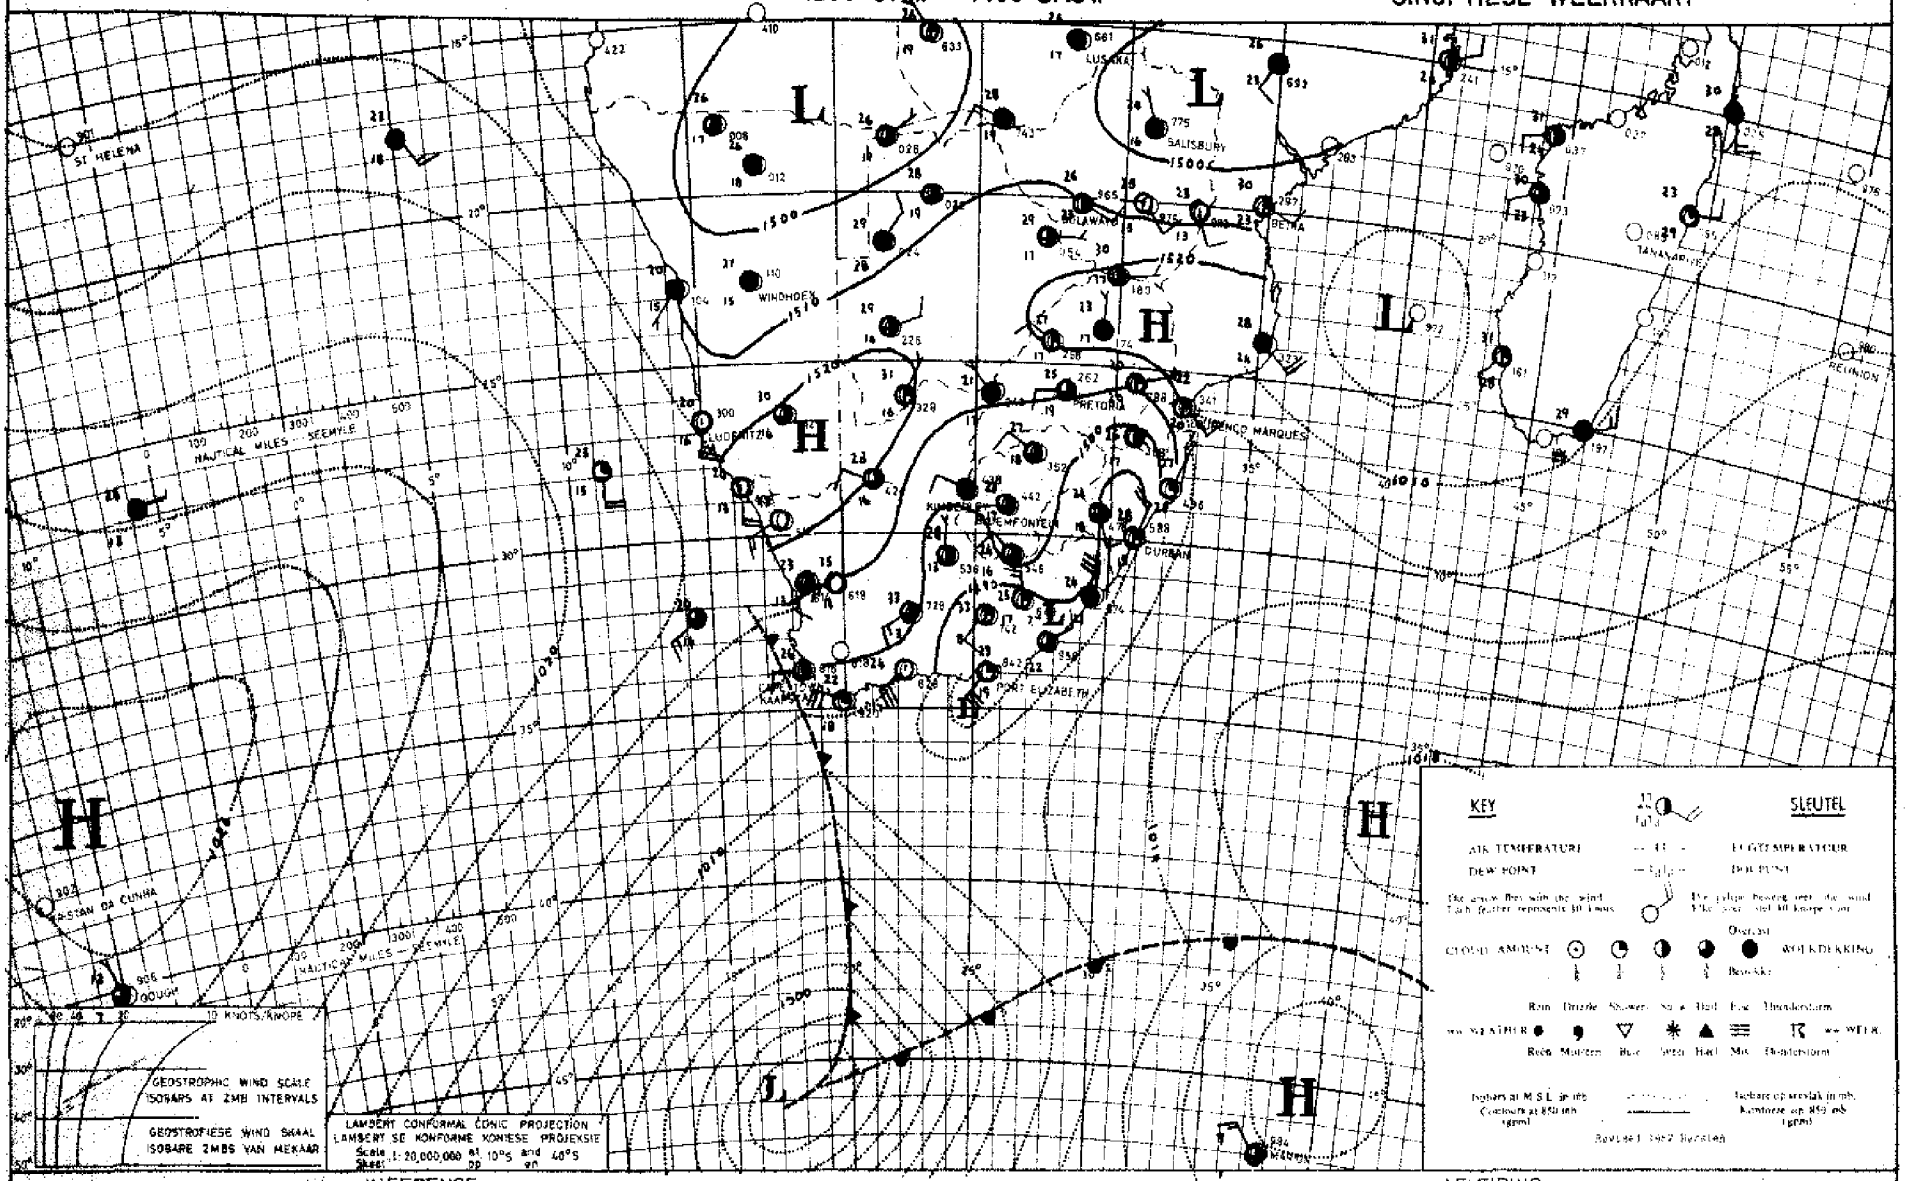
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 1 - 3 - 1967 DATUM

AFLEIDING

With the eastwards movement of the cold front near the Cape, the cloudy weather with showers over the southern and eastern coastal areas will clear from the west. Dry air is moving in over the western half of the interior, and thunder-showers will develop tomorrow over the eastern and northern interior only.

Met die ooswaartse beweging van die koufront naby die Kaap, sal die bewolkte weer met buie oor die suidelike, suidoostelike en oostelike kusgebiede vanuit die weste opklaar. Droë lug vanuit die weste beweeg oor die westelike helfte van die binneland, en donderbuie sal môre slegs oor die oostelike en noordelike binneland ontwikkel.

The Atlantic high ridges in south of the country and will cause cloudy weather with light rain over Natal and eastern Transvaal. With moist present thunder-showers will occur over Transvaal and the northern parts of Botswana and South-West Africa. Dry air is spreading from the south-west to the interior and it will be fine over these areas.

Die Atlantiese hoog staot n rug suid van die land in en gevolglik sal bewolkte toestande voorkom oor Natal en Oos-Transvaal met ligte reën. Met vogtige lug aanwesig sal donderbuie voorkom oor Transvaal en noordelike dele van Botswana en Suidwes-Afrika. Droe lug brei uit van die suidweste oor die binneland en gevolglik sal dit mooiweer wees oor dié gebiede.

INFERENCE

DATE 3 - 3 - 1967 DATUM

AFLEIDING

The high off the south-eastern coast is causing moist air to flow in over the north-eastern parts where it will be cloudy but it will clear later tomorrow. The circulation over the remaining areas is anticyclonic and apart from partly cloudy weather no rain is likely to fall. Dry winds from the interior will cause bergwinds along the Cape Atlantic coast.

Die hoog langs die suidooskus veroorsaak 'n instroming van vogtige lug oor die noordoostelike dele waar dit bewolk sal wees, maar dit sal later môre opklaar. Die sirkulasie oor die res van die land is antisiklonaal en behalwe gedeeltelik bewolkte weer sal voorkom, is reën onwaarskynlik. Droë winde wat vanuit die binneland waai sal bergwinde langs die Kaapse Atlantiese kus veroorsaak.

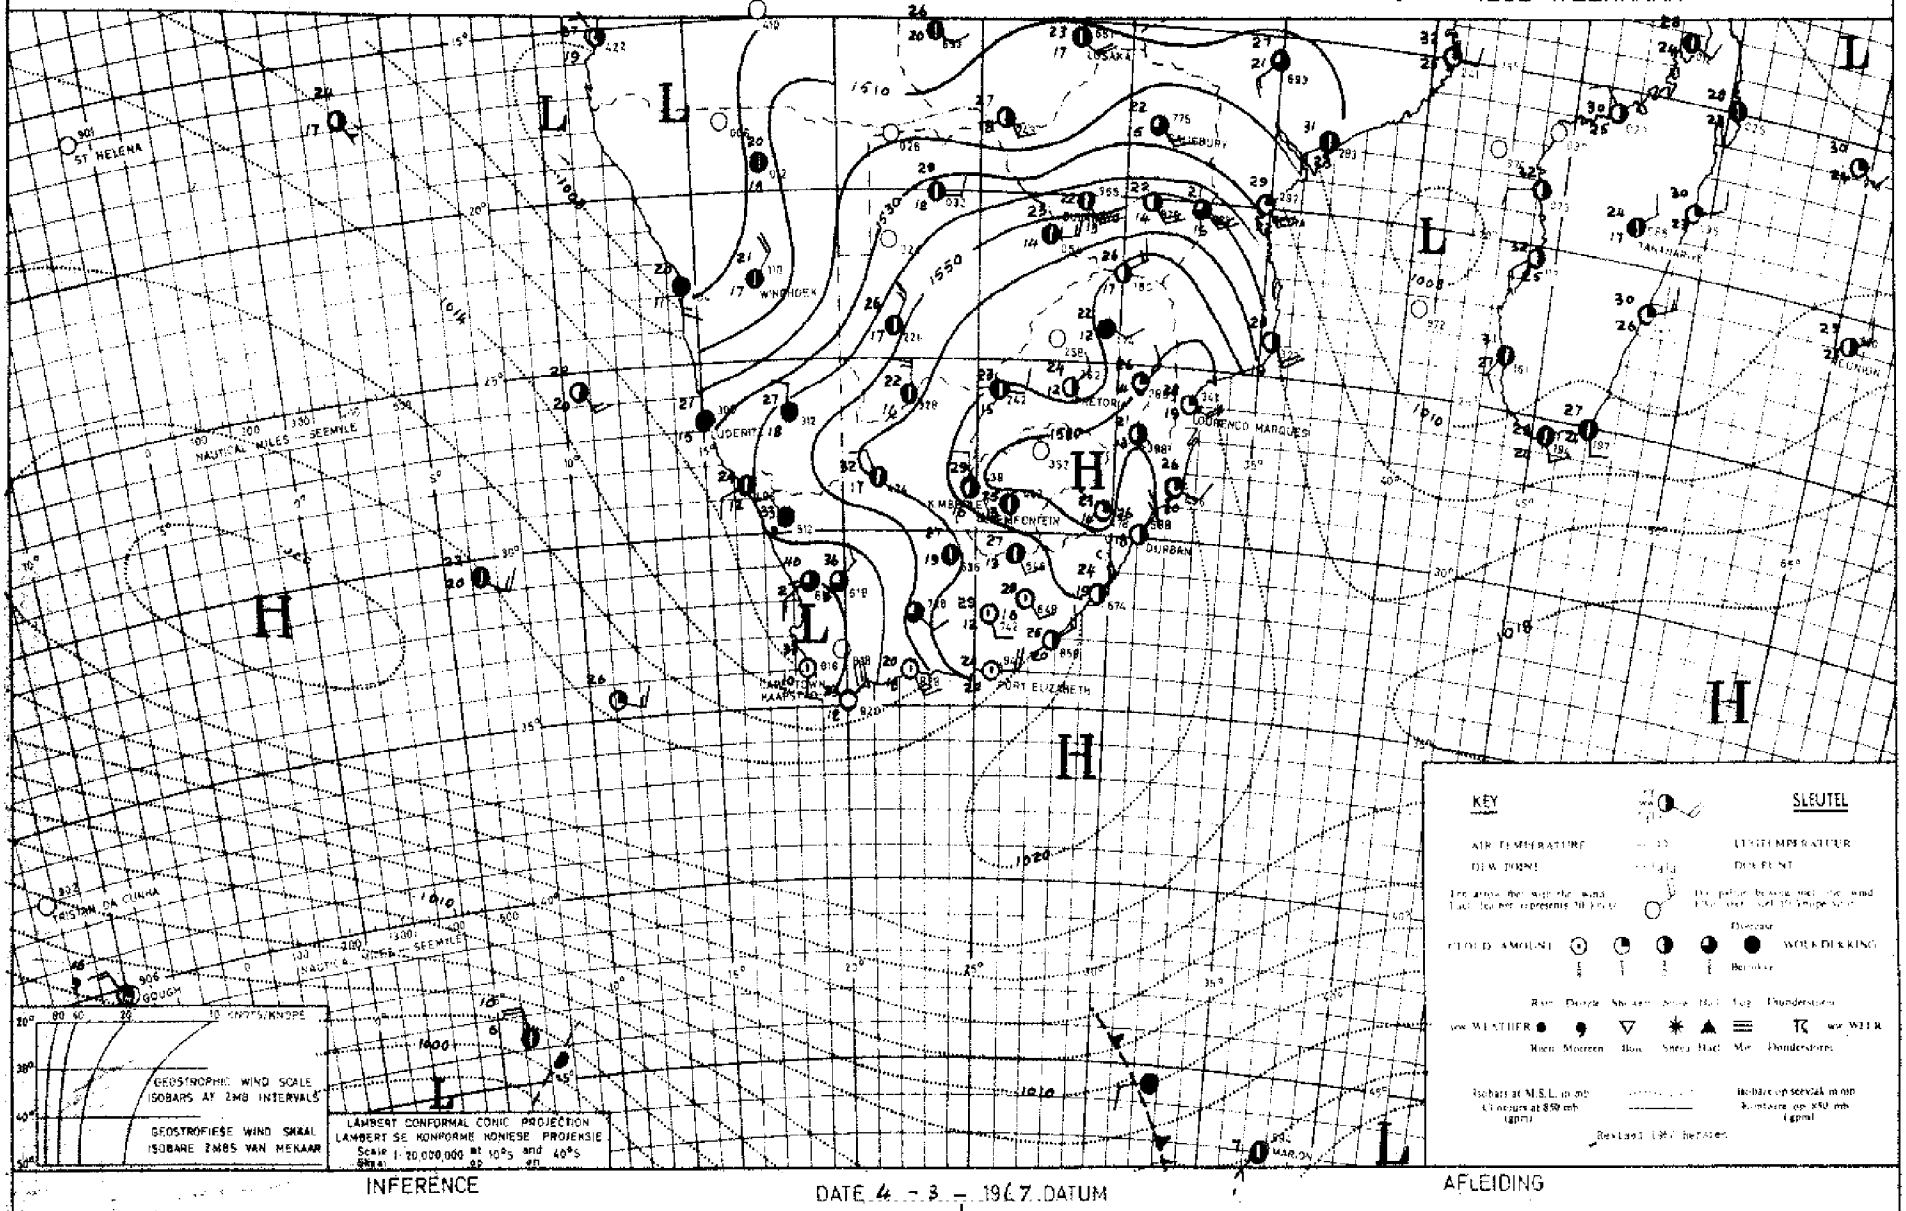
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 4 - 8 - 1967 DATUM — AFLEIDING

Moist air is flowing in over the north and western interior, and scattered thunder-showers will occur over the north-western interior and isolated thunder-showers over the north-eastern interior. As the high south of the country has already passed, it will be fine over the coastal areas and the rest of the interior.

Met vogtige lug wat instroom oor die noordelike en westelike dele, en 'n hoog oor Transvaal, sal verspreide donderbuie oor die noordwestelike binneland, en los donderbuie oor die noordoostelike binneland voorkom. Die hoog suid van die land het reeds verby beweeg en dit sal dus mooiweer en warm wees oor die kus-gebiede en die res van die binneland.

INFERENCE

DATE 5 - 3 - 19 67 DATUM

AFLEIDING

The coastal low along the south coast is moving eastwards with the result that cloudy to partly cloudy weather will spread to the Eastern Cape coast with the high still over the interior conditions remain unfavourable for showers, but with a trough over the western regions, thunder-showers will fall there.

Die kuslaag langs die suidkus beweeg oostwaarts met die gevolg dat bewolkte tot gedeeltelik bewolkte weer langs die Kaapse ooskus sal uitbrei. Met n hoog oor die oostelike binneland sal toestande ongunstig bly vir buie maar met n trog oor die westelike gebiede sal donderbuie daar voorkom.

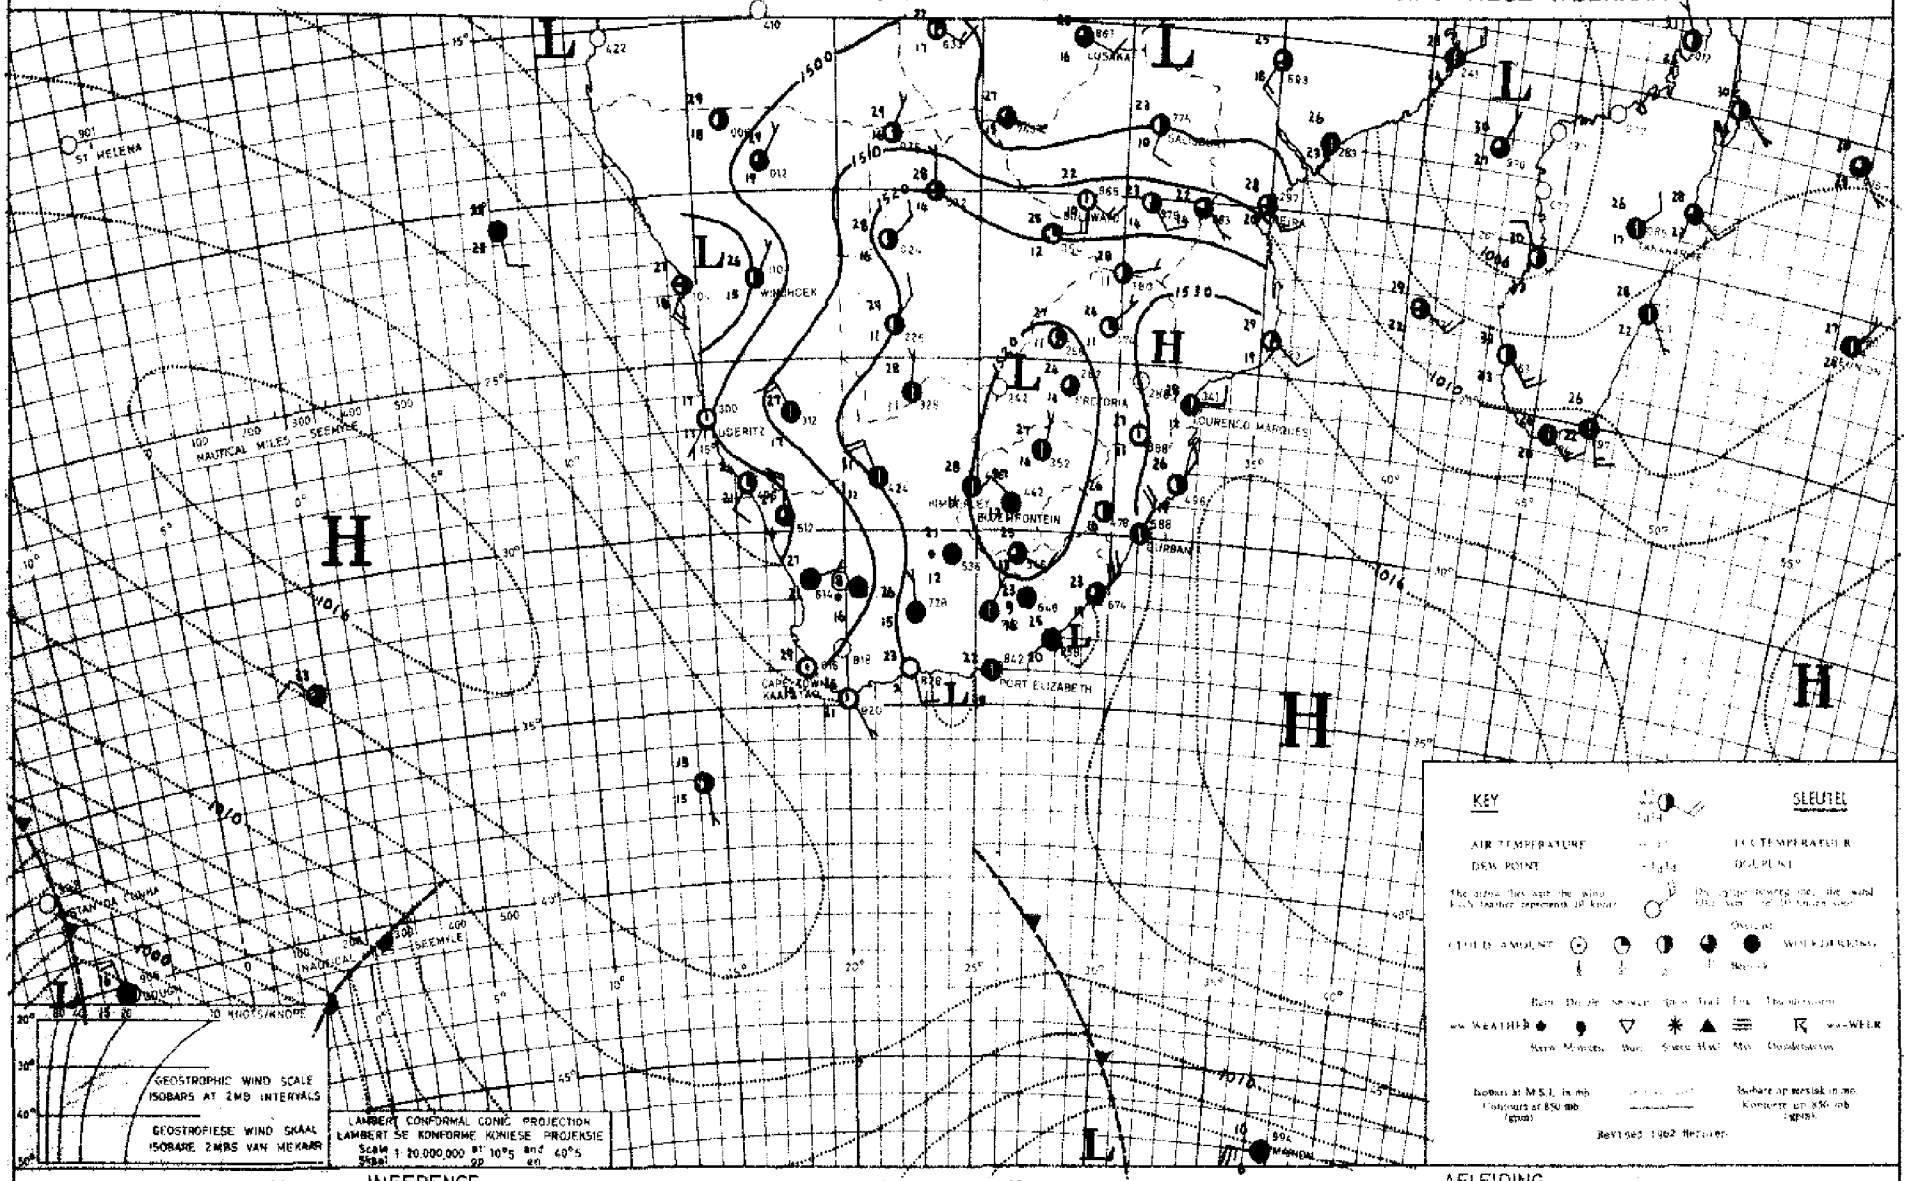
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 6 - 3 - 1967 DATUM AFLEIDING

The air over the interior is moist and with a low pressure system over the west coast in the upper air, thunder-showers will develop over most of the interior, except the Transvaal. It will remain partly clouded over the coast, with fog in the morning over the western parts and a few showers over the south coast.

Die lug oor die binneland is vogtig, en met 'n laagdrukstelsel oor die weskus in die boluq, sal donderbuie oor meeste dele van die binneland, uitgesonderd die Transvaal ontwikkel. Oor die kusgebiede sal dit gedeeltelik bewolk bly, met mis in die oggend oor die westelike dele, en enkele buie oor die suidkus.

INFERENCE

DATE 8 - 3 - 1967 DATUM

AFLEIDING

The cold front approaching the Cape from the west will cause cloudy, cooler weather with showers along the south-western coastal belt. Moist air from the north is flowing in over the northern, central and eastern regions of the country where conditions are favourable for thunder-showers.

Die kouefront wat die Kaap vanuit die weste nader, sal bewolkte koeler weer met buie langs die suidwestelike kusstreke veroorsaak. Vogtige lug vanuit die noorde beweeg oor die noordelike sentrale en oostelike dele van die land waar toestande gunstig is vir donderbuie.

INFERENCE

DATE 9 - 3 - 1967 DATUM

AFLEIDING

The cold front to the south of the country will cause cooler weather with showers over the southern and eastern coastal regions. Drier air from the south is moving in over the interior, so that it will clear over the western parts but over the remainder of the interior the air remains moist, and thunder-showers will develop.

Die koufront suid van die land galeë, sal koeler weer met buie veroorsaak oor die suidelike en oostelike kusgebiede. Droër lug van die suide veroorsaak opklaring oor die westelike binneland, maar elders oor die binneland bly die lug vogtig en donderbuie sal ontwikkel.

Revised 1962 Herzien

INFERENCE

DATE 10 - 1 - 19 67 DATUM

The Atlantic high is moving in south of the country and will cause cloudy weather with light rain over the extreme eastern parts of the country. With high dewpoints over the interior, thunder-showers will occur over the northern, central, and eastern interior and also over South West Africa. With dry air in circulation over the Western Cape it will be fine and warm over these areas.

AFLEIDING

Die Atlantiese hoog beweeg suid van die land om en veroorsaak bewolkte weer met ligte reën oor die verre oostelike dele van die land. Met hoë doupunte oor die binneland sal donderbuie voorkom oor die noordelike sentrale en oostelike binneland asook Suidwes-Afrika. Met droë lug in sirkulasie oor Wes-Kaapland sal dit hier mooiweer en warm wees.

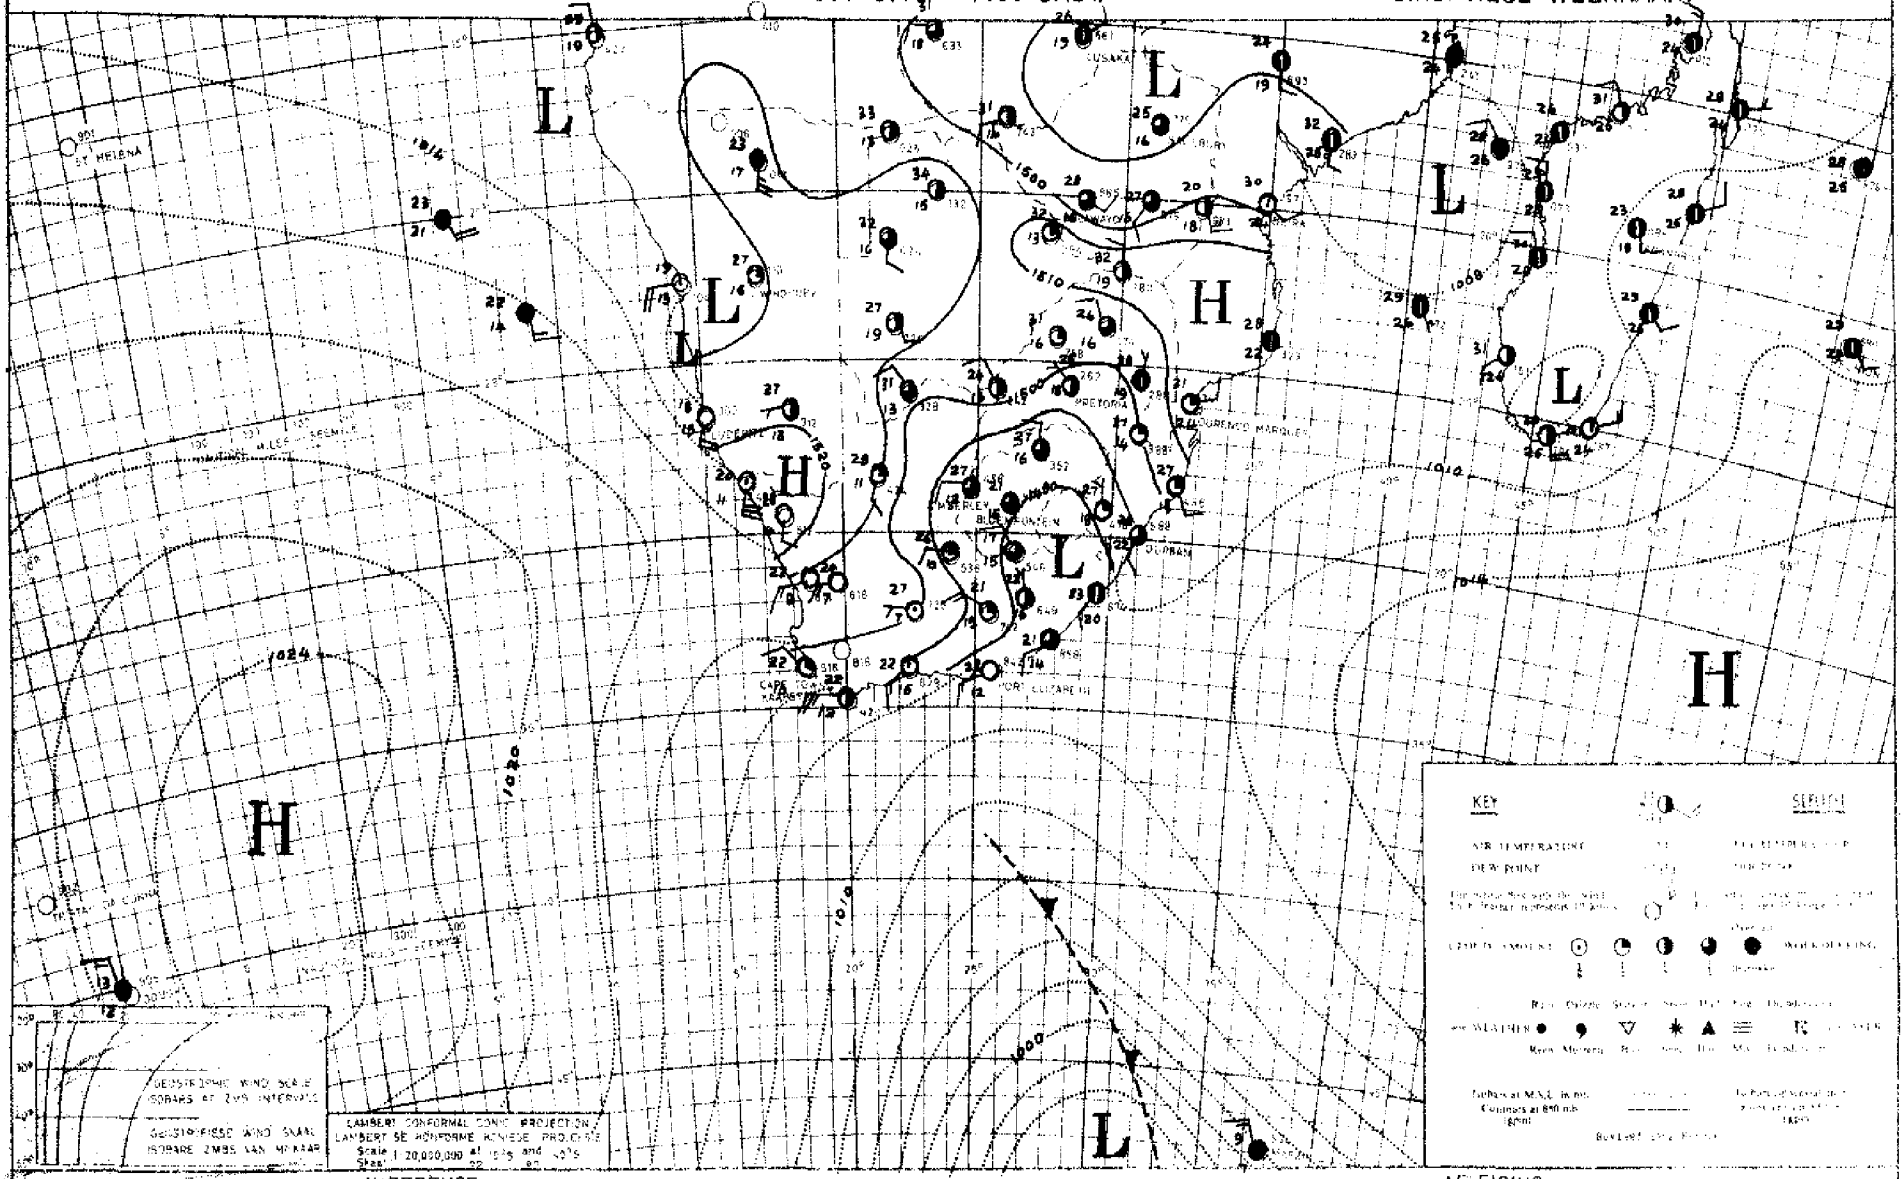
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 11 - 3 - 1967 DATUM

AFLEIDING

A trough south of the country is causing cloudy weather over the southern and eastern coastal areas, with rain and showers. The air is moist over the eastern interior, and a low pressure system will cause thunder-showers over the eastern and northern interior. Over the western parts of the country the air is dry and fine weather will persist.

'n Trog suid van die land veroorsaak bewolkte weer met reën en buie oor die suidelike en oostelike kusgebiede. Die lug oor die oostelike binneland is vogtig, en 'n laagdrukstelsel oor die sentrale binneland sal donderbuie veroorsaak oor die oostelike en noordelike binneland. Oor die westelike dele van die land is die lug droog, en mooiweerstoestande sal voortduur.

INFERENCE

DATE 12 - 3 - 1967 DATUM

AFLEIDING

The Atlantic high is moving in south of the country and with a trough over the interior, thunder-showers will occur over the northern and eastern interior. With onshore winds over the southern and eastern coastal areas, cloudy weather with light showers will occur over these areas. With a high over the western interior it will be mainly fine and warm.

Die Atlantiese hoog beweeg suid van die land om en met 'n trog oor die binneland sal donderbuie voorkom oor die noordelike en oostelike dele van die land. Met suidewinde oor die suid- en ooskusstreke sal dit bewolk wees met ligte reën oor dié gebiede. Die hoog oor die westelike binneland veroorsaak mooiweer oor dié dele.

High pressure systems to the south of the country will cause partly cloudy conditions over the south and east coasts. The air over the eastern interior is moist, but high pressure systems in the upper air will inhibit development, so that only a few thunder-showers are expected. Over the western parts of the country the air is dry and fine weather will persist.

Hoogdrukstelsels suid van die land sal gedeeltelik bewolkte weer oor die suidelike en oostelike kusgebiede veroorsaak. Die lug oor die oostelike binneland is vogtig, maar hoogdrukstelsels in die bolug verhoed ontwikkeling, en slegs enkele donderbuie word verwag. Oor die westelike binneland is die lug droog en mooi-weerstoestande sal voortduur.

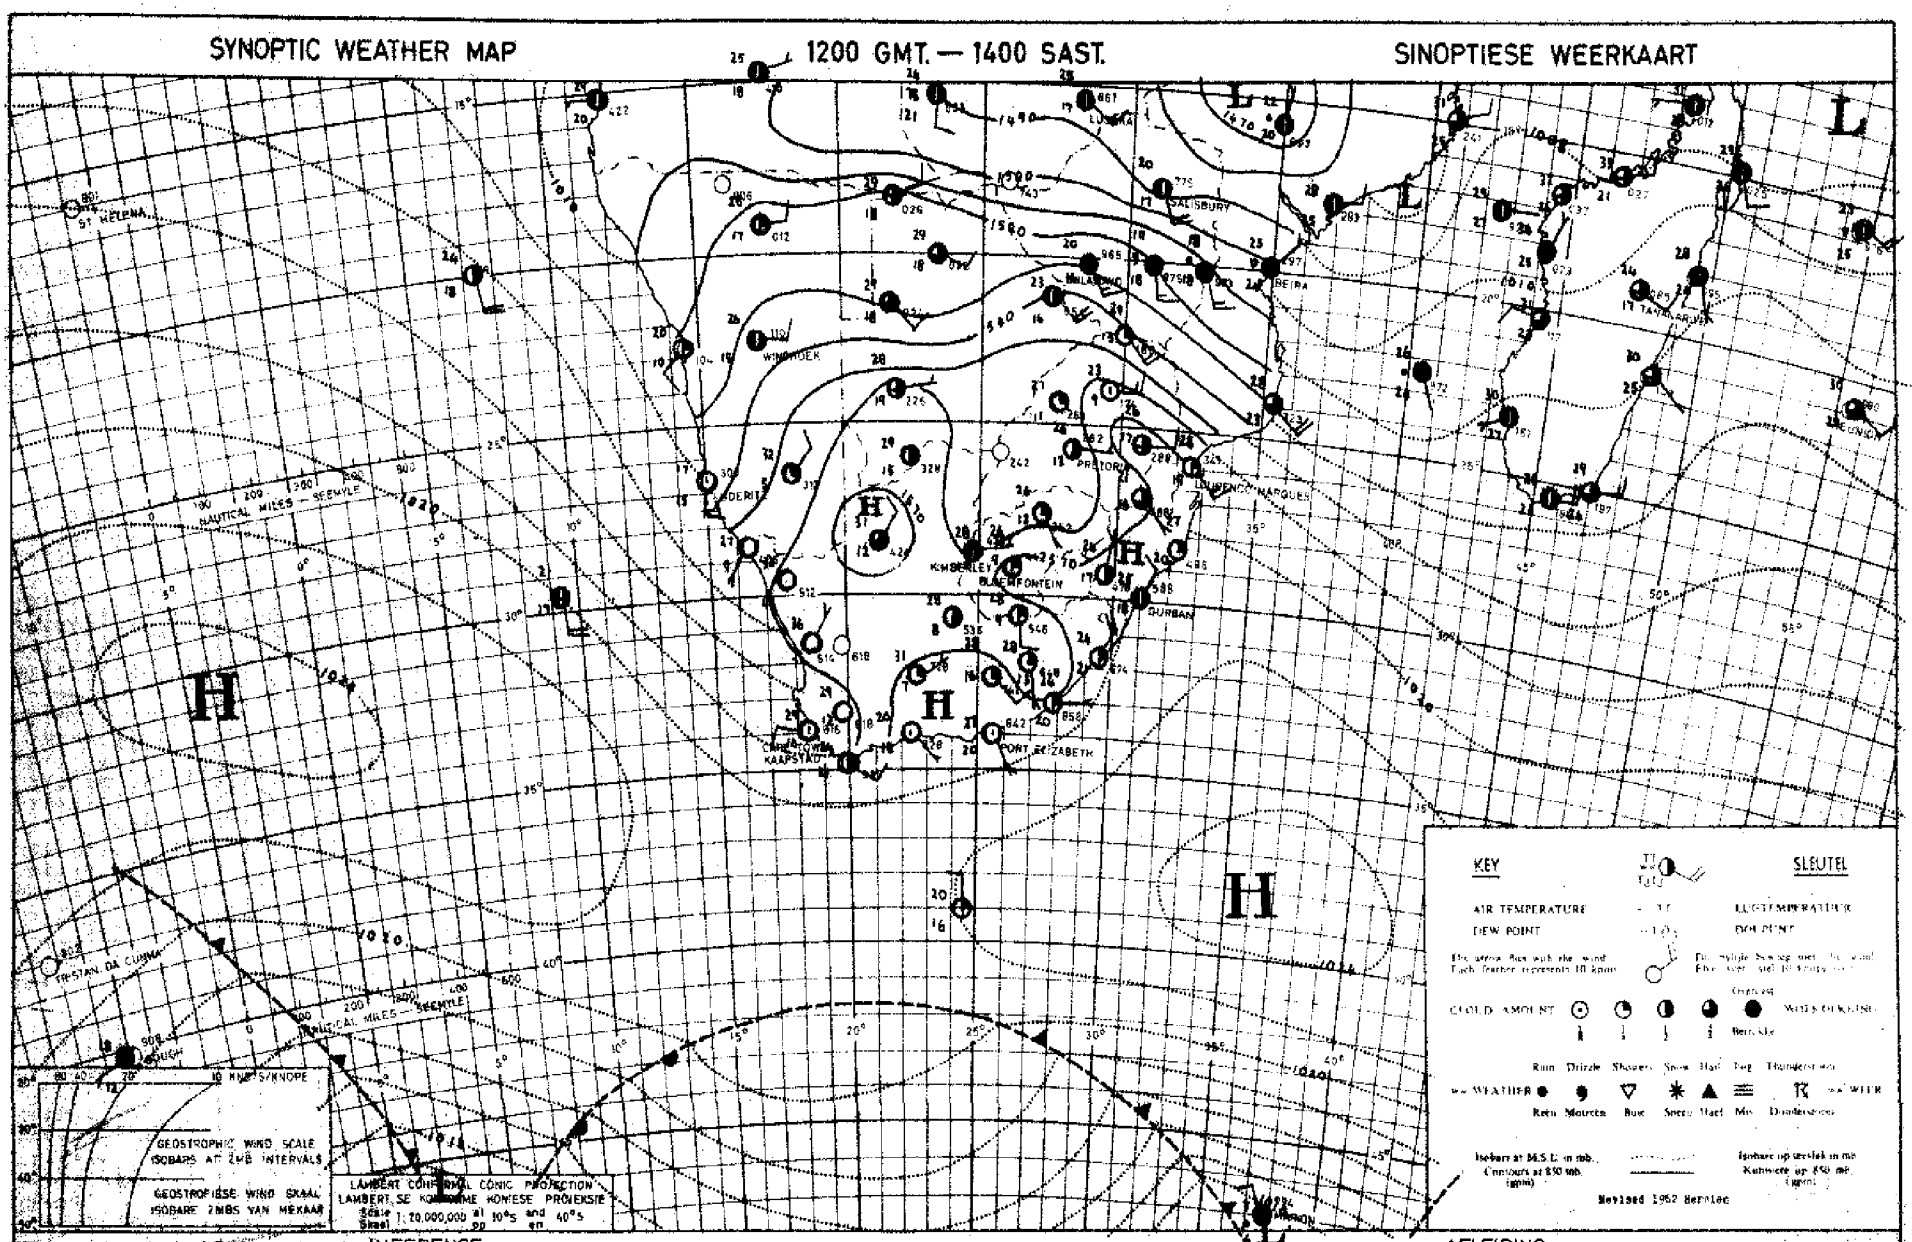
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 15 - 3 - 19 67 DATUM — AFLEIDING

With low pressure systems far south of the country it will be fine over the coastal areas. The upper air circulation is anticyclonic and little activity exists over the interior but thunder-showers will still occur over Natal, Free State, Northern Cape and South West Africa. Over the rest of the country it will be fine and warm.

Met laagdrukstelsels ver suid van die land sal dit geen invloed op die kusstreke hê nie en sal dit hier redelik mooiweer wees. Met antisiklonale bolugsirkulasie sal min aktiwiteit oor die binneland wees maar donderbuie sal nog voorkom oor Natal, die Vrystaat, Noord-Kaapland en Suidwes-Afrika. Oor die res van die land sal dit mooiweer en warm wees.

INFERENCE

DATE 16 - 3 - 1967 DATUM

AFLEIDING

The circulation on the surface and in the upper air is anticyclonic over the Republic, Botswana, and South West Africa and it will be only slightly cloudy over these regions with a few thunder-showers over South West Africa and Gordonia.

Die sirkulasie aan die oppervlakte en in die bolug is antisiklonaal oor die Republiek, Botswana en Suidwes-Afrika en dit sal net effens bewolk wees oor hierdie gebiede met enkele donderbuie oor Suidwes-Afrika en Gordonia.

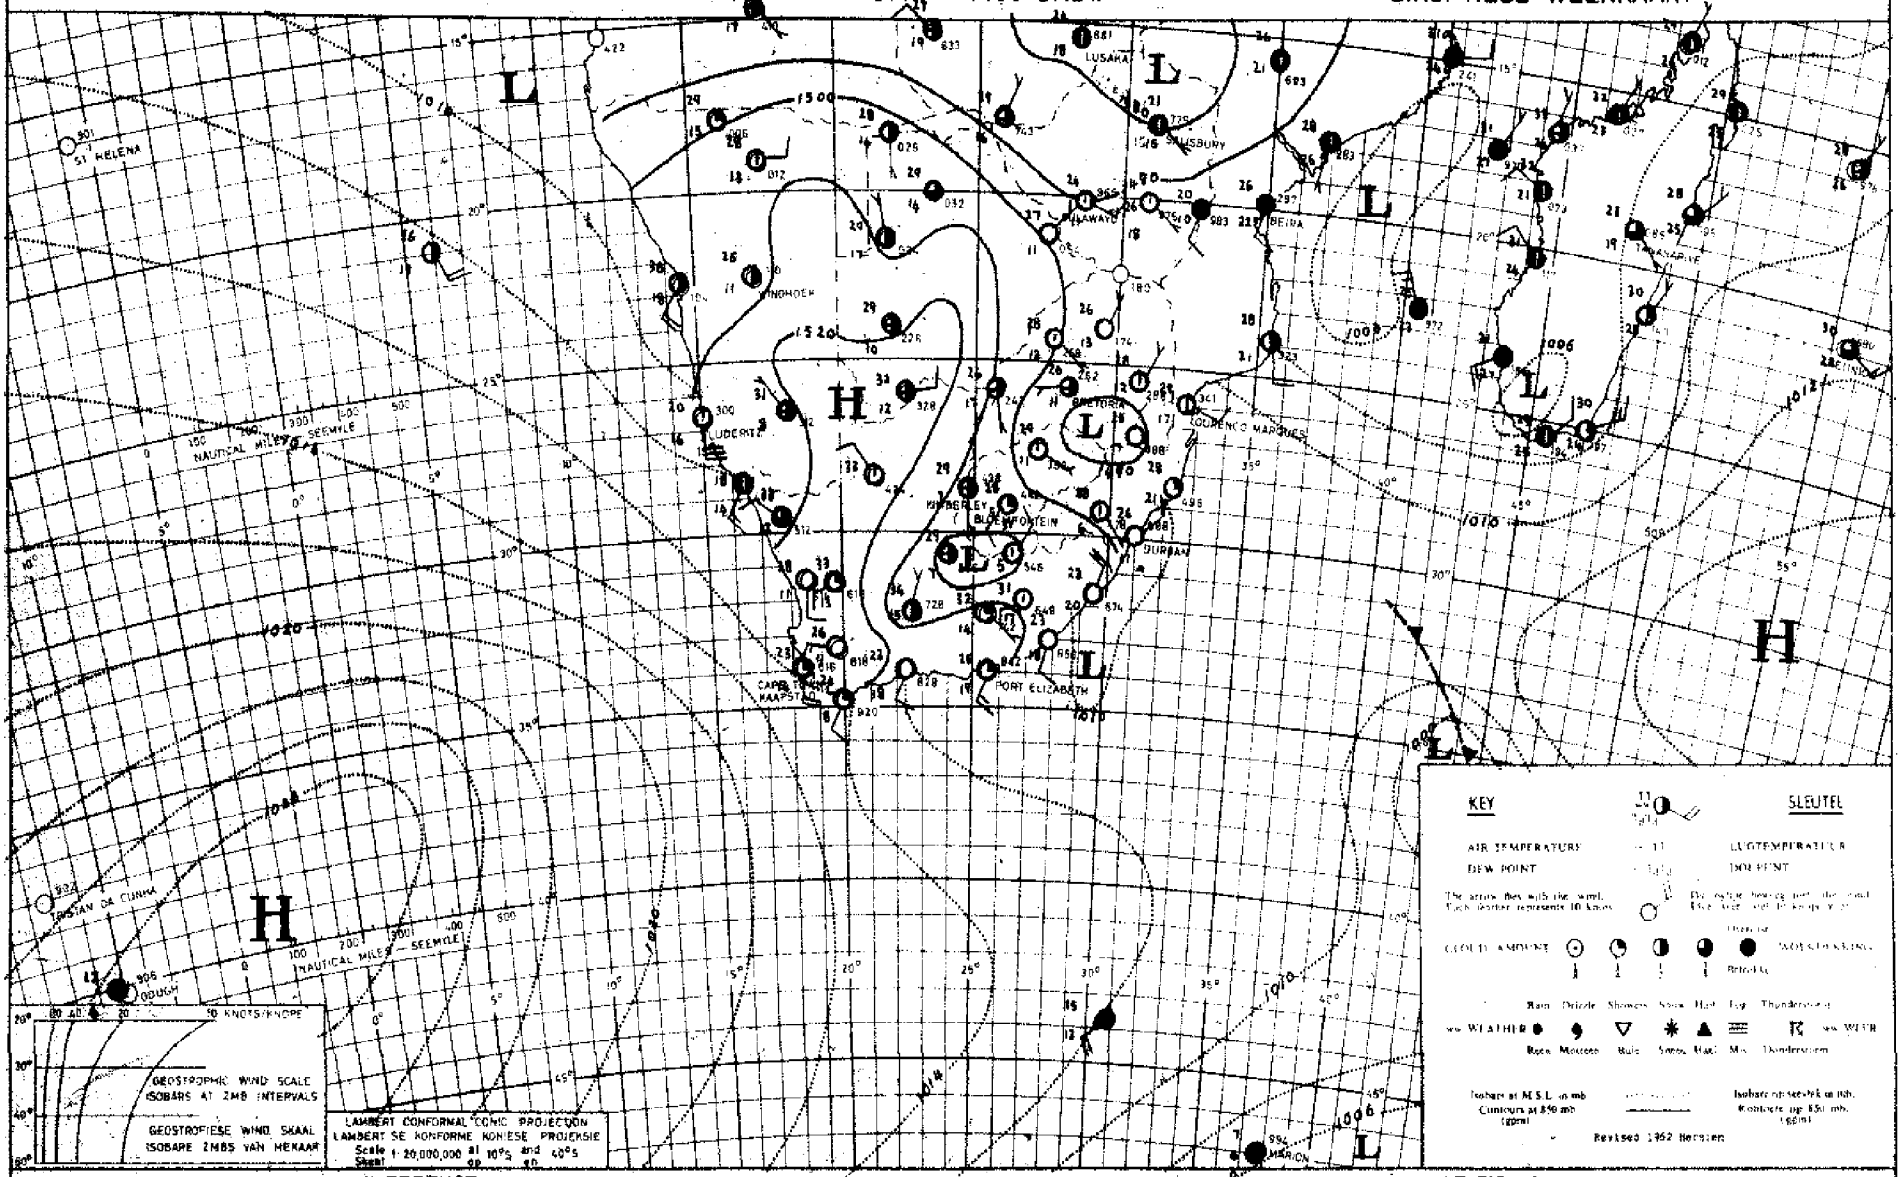
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 7 - 3 - 1967. DATUM — AFLEIDING

A strong high pressure system to the south of the country is causing onshore winds over the southern coastal areas with resultant cloudy cooler weather with showers. High pressure systems over the interior is preventing development, so that only a few thunder-showers are expected over northern and central South-west Africa, the north-eastern Cape and the Natal berg areas.

Die hoogdrukstelsel suid van die land veroorsaak winde van die see af oor die suidelike kusgebiede, met gevolglike bewolkte koel weer met buie. Oor die binneland verhoed hoogdrukstelsels ontwikkeling, en enkele donderbuie sal slegs oor noord- en sentraal Suidwes-Afrika, asook oor die noordoostelike Kaapse binneland en die Natalse berggebiede ontwikkel.

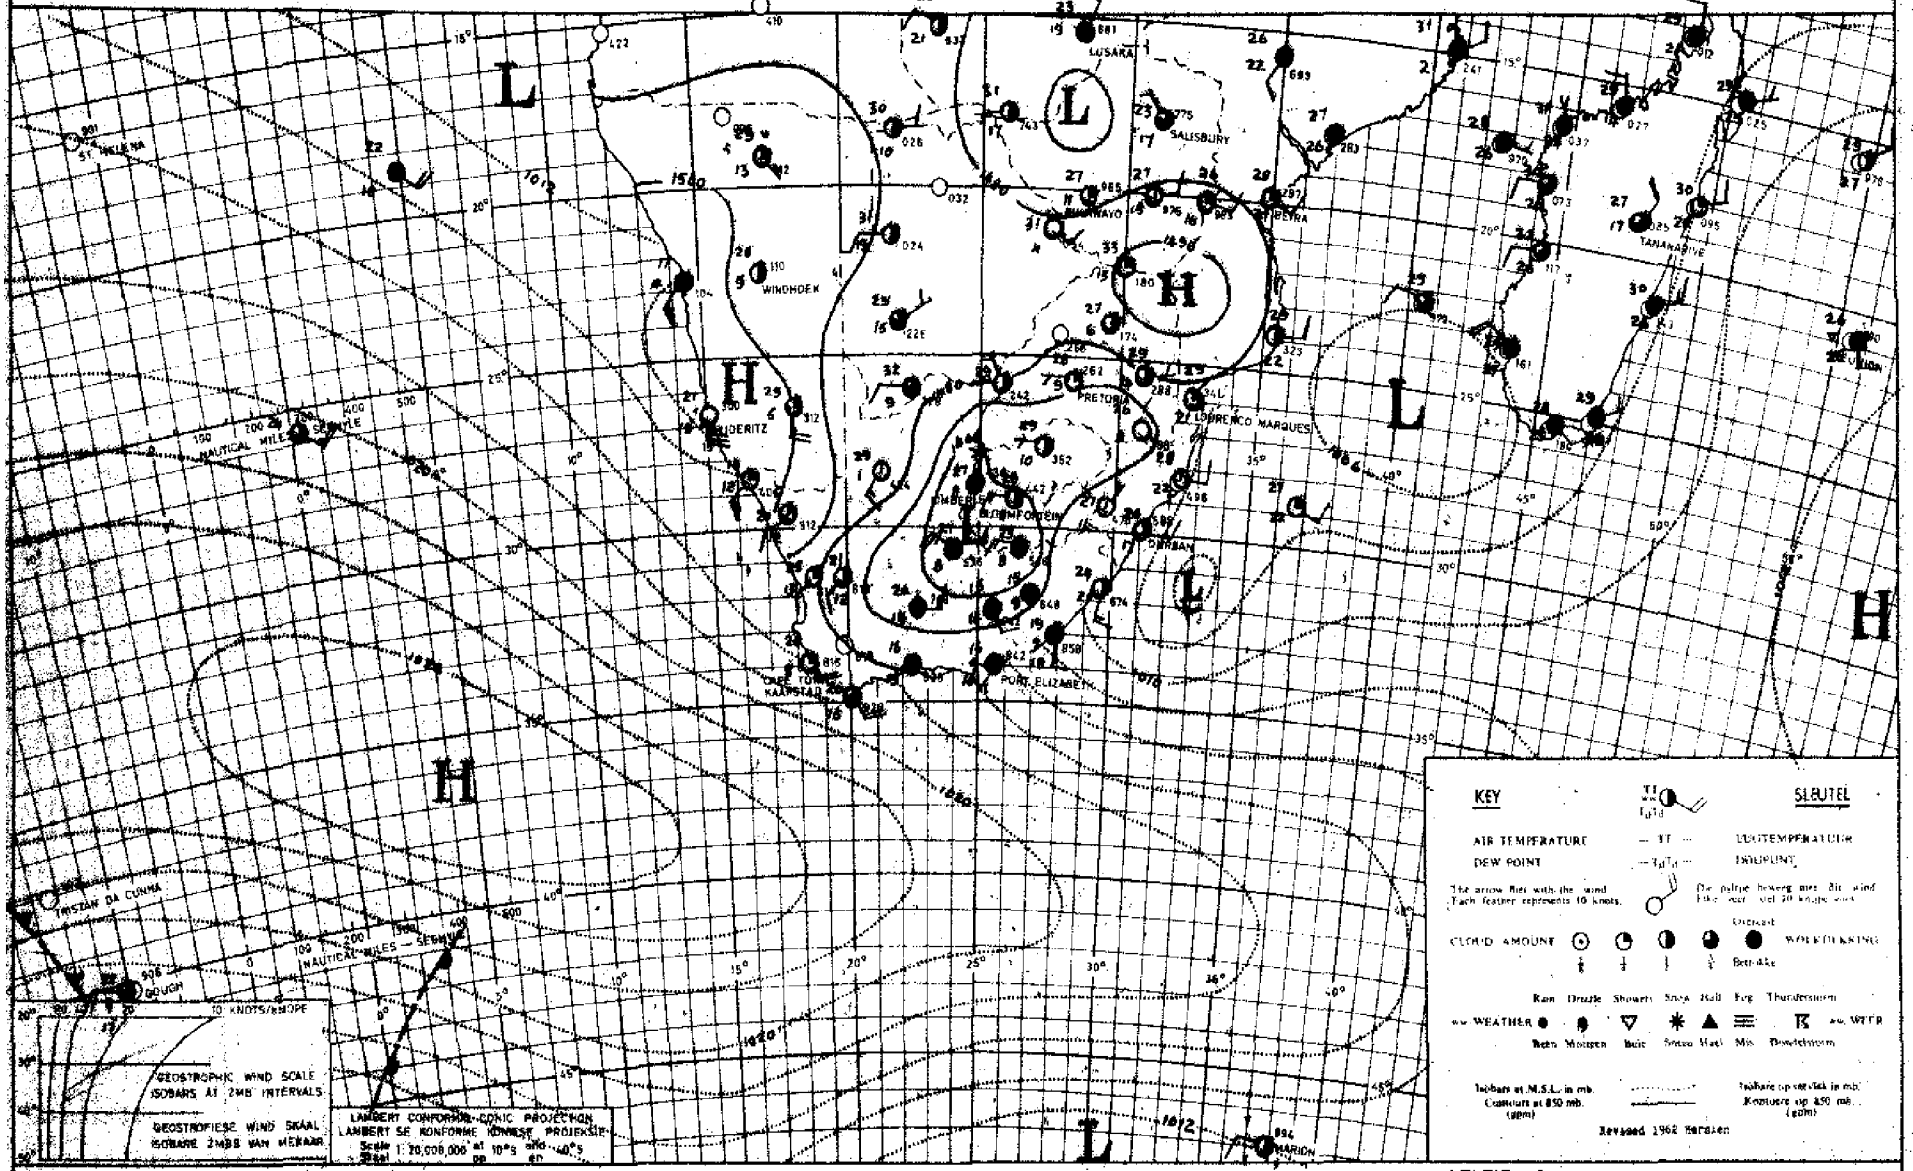
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST SINOPTIESE WEERKAART



INFERENCE DATE 18 - 3 - 1967 DATUM AFLEIDING

The high to the south of the country is advecting cool, moist air over the eastern interior - and the low pressure system over the central interior will cause cloudy weather with rain and showers over the eastern interior.

Die hoogdrukstelsel suid van die land voer vogtige, koel lug oor die oostelike binneland in, en die laagdrukstelsel oor die sentrale binneland sal bewolkte weer met buie en reën oor die oostelike binneland veroorsaak.

INFERENCE

DATE 19..-.3.-..1967..DATUM

AFLEIDING

The deep low pressure system over the central interior, on the surface and in the upper air, will maintain cloudy, cool weather with rain or showers over the eastern interior. The air over the western interior is dry, and fine weather will persist there.

Die diep laagdrukstelsel oor die sentrale binneland, aan die oppervlakte en in die bolug, sal bewolkte koel toestande met reën en buie oor die oostelike dele van die land laat voortduur. Die lug is droog oor die westelike dele van die land, en mooiweerstoestande sal daar voortduur.

SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART

INFERENCE DATE 21 - 3 - 19 67 DATUM AFLEIDING

The upper air low over the central interior is filling up and the cloudy conditions over the eastern regions will clear. The cold front now west of Cape Town will cause light rain over the south-western and southern coastal regions.

Die laag in die bolug oor die sentrale binneland is besig om op te vul en die bewolkte weer oor die oostelike dele sal opklaar. Die koufront nou wes van Kaapstad sal ligte reën veroorsaak oor die suidwestelike en suidelike kusgebiede.

DAAGLIKSE WEERBULLETIN

The Atlantic high is ridging in south of the country and although moisture is relatively low over the interior a few thunder-showers will occur over the central interior, Natal and north-eastern Cape. With a high over the western interior it will be fine over these areas. Over the coastal areas it will be fair to partly cloudy and warm.

Die Atlantiese hoog druk suid van die land in en alhoewel die vogtigheid relatief min oor die land sal enkele donderbuie voorkom oor die sentrale binneland, Natal, en Noordoos-Kaapland. Met 'n hoog oor die westelike binneland sal dit mooiweer wees oor dié gebiede. Oor die kusstreke sal dit redelike mooiweer en warm wees.

INFERENCE

DATE 23 - 3 - 1967 DATUM

AFLEIDING

With high pressure systems over the entire country, it will be fair and warm over most of the country, with a few thunder-showers developing over the interior. A coastal low will cause fog and low clouds over the west coast, spreading to the south coast later.

Met hoogdrukstelsels oor meeste dele, sal dit mooi-weer en warm wees oor die grootste deel van die land. Enkele donderbuie kan oor die binneland ontwikkel, terwyl 'n kuslaag mis en lae wolke sal veroorsaak oor die weskus, en later ook oor die suidkus.

INFERENCE

DATE 24 - 3 - 19 67 DATUM

AFLEIDING

The Atlantic high will ridge in behind the low along the south coast with the result that it will be cloudy along the southern and south-western regions with rain. The low over the interior will cause showers and rain over the central regions.

Die Atlantiese hoog sal agter die laag wat langs die suidkus geleë is, instoot en sal bewolkte weer met buie langs die suidelike en suidwestelike dele veroorsaak. As gevolg van die laag oor die binneland sal reën en buie oor die sentrale streke uitsak.

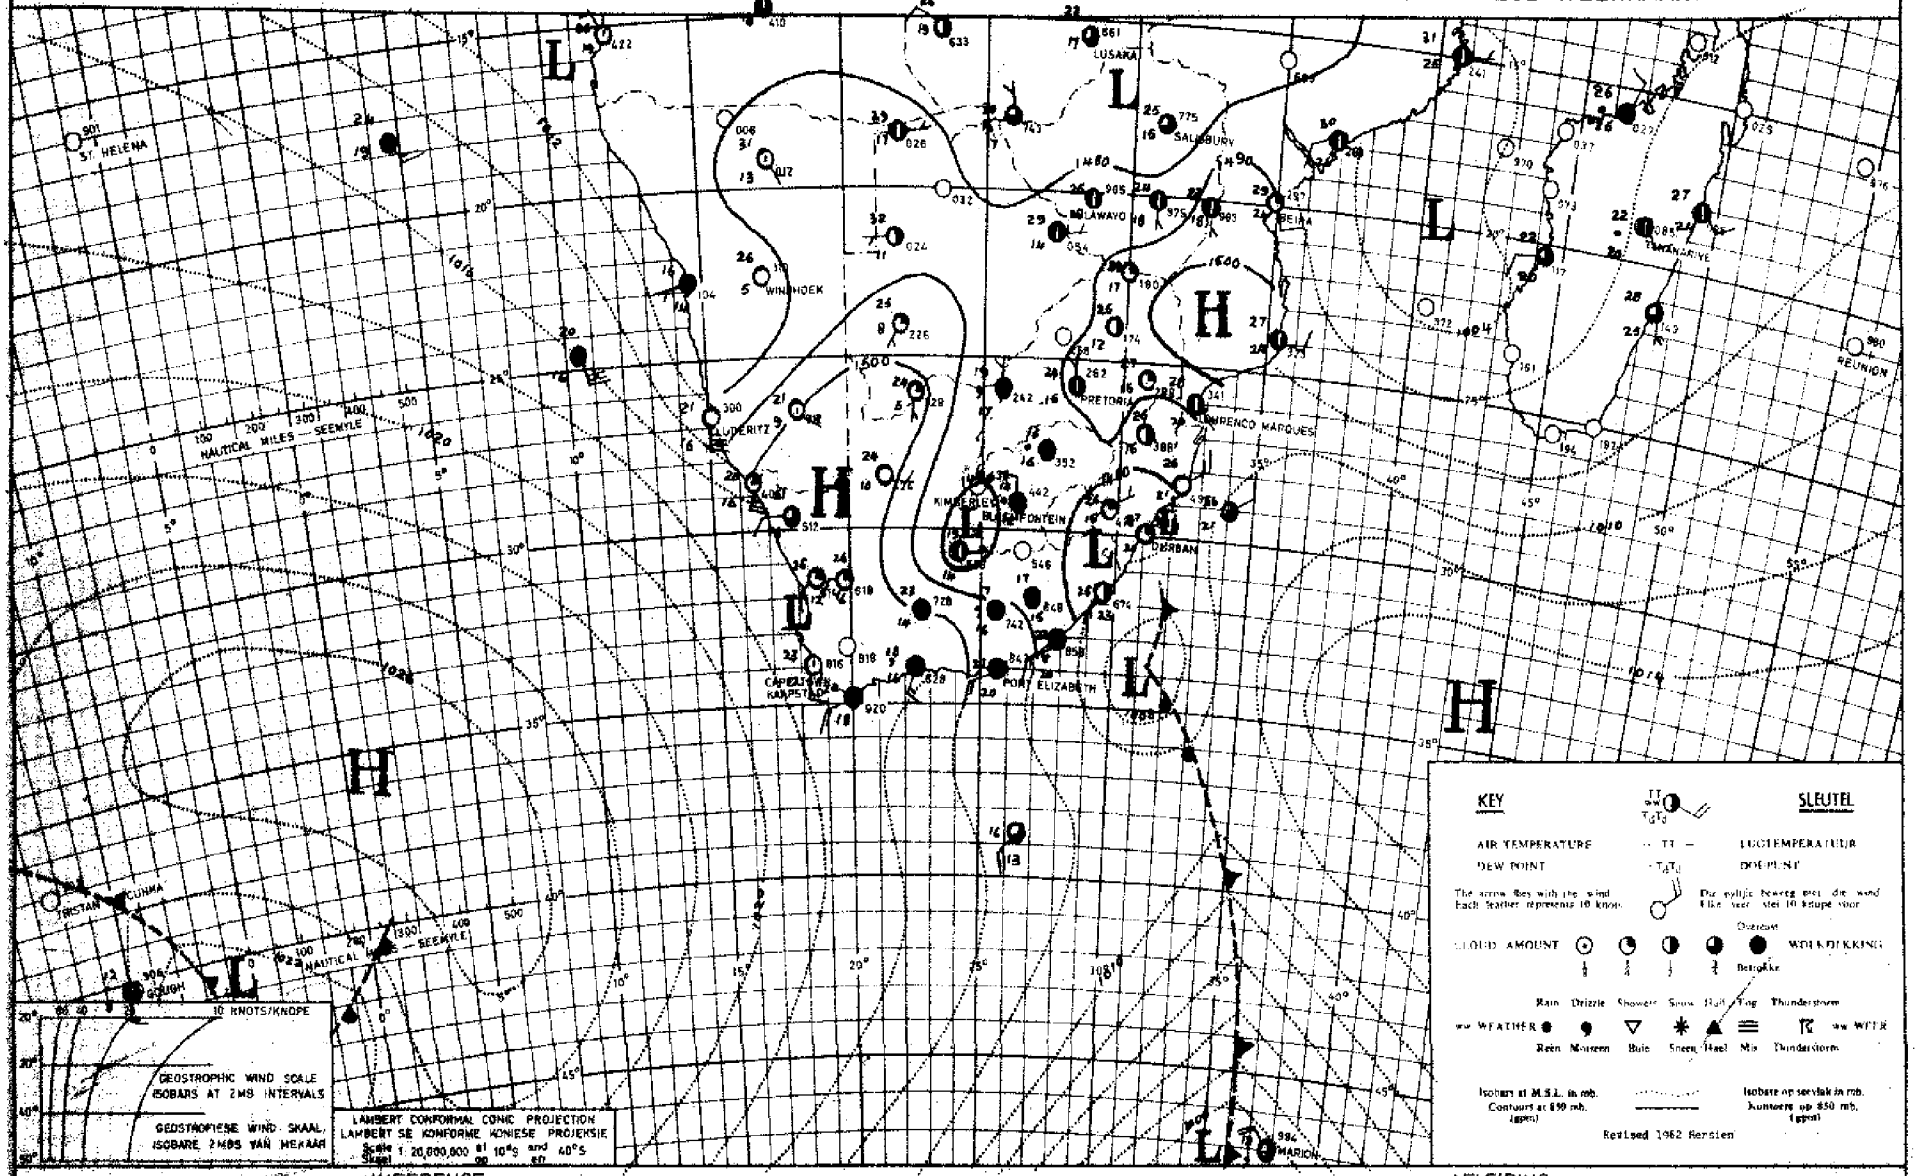
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 25 - 3 - 1967 DATUM

AFLEIDING

On-shore winds over the southern and eastern coastal areas will cause cloudy weather with rain and showers. The air is moist over the eastern interior, and a trough over the central interior will cause showers and thunder-showers over these areas. Dry air over the western interior will cause clearance.

'n Landwaartse lugstroming oor die suidelike en oostelike kusgebiede sal bewolkte weer met reën en buie veroorsaak. Die lug oor die oostelike binneland is vogtig, en 'n trog oor die sentrale binneland sal buie en donderbuie oor die oostelike dele veroorsaak. Dit sal opklaar oor die westelike binneland, waar die lug droog is.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

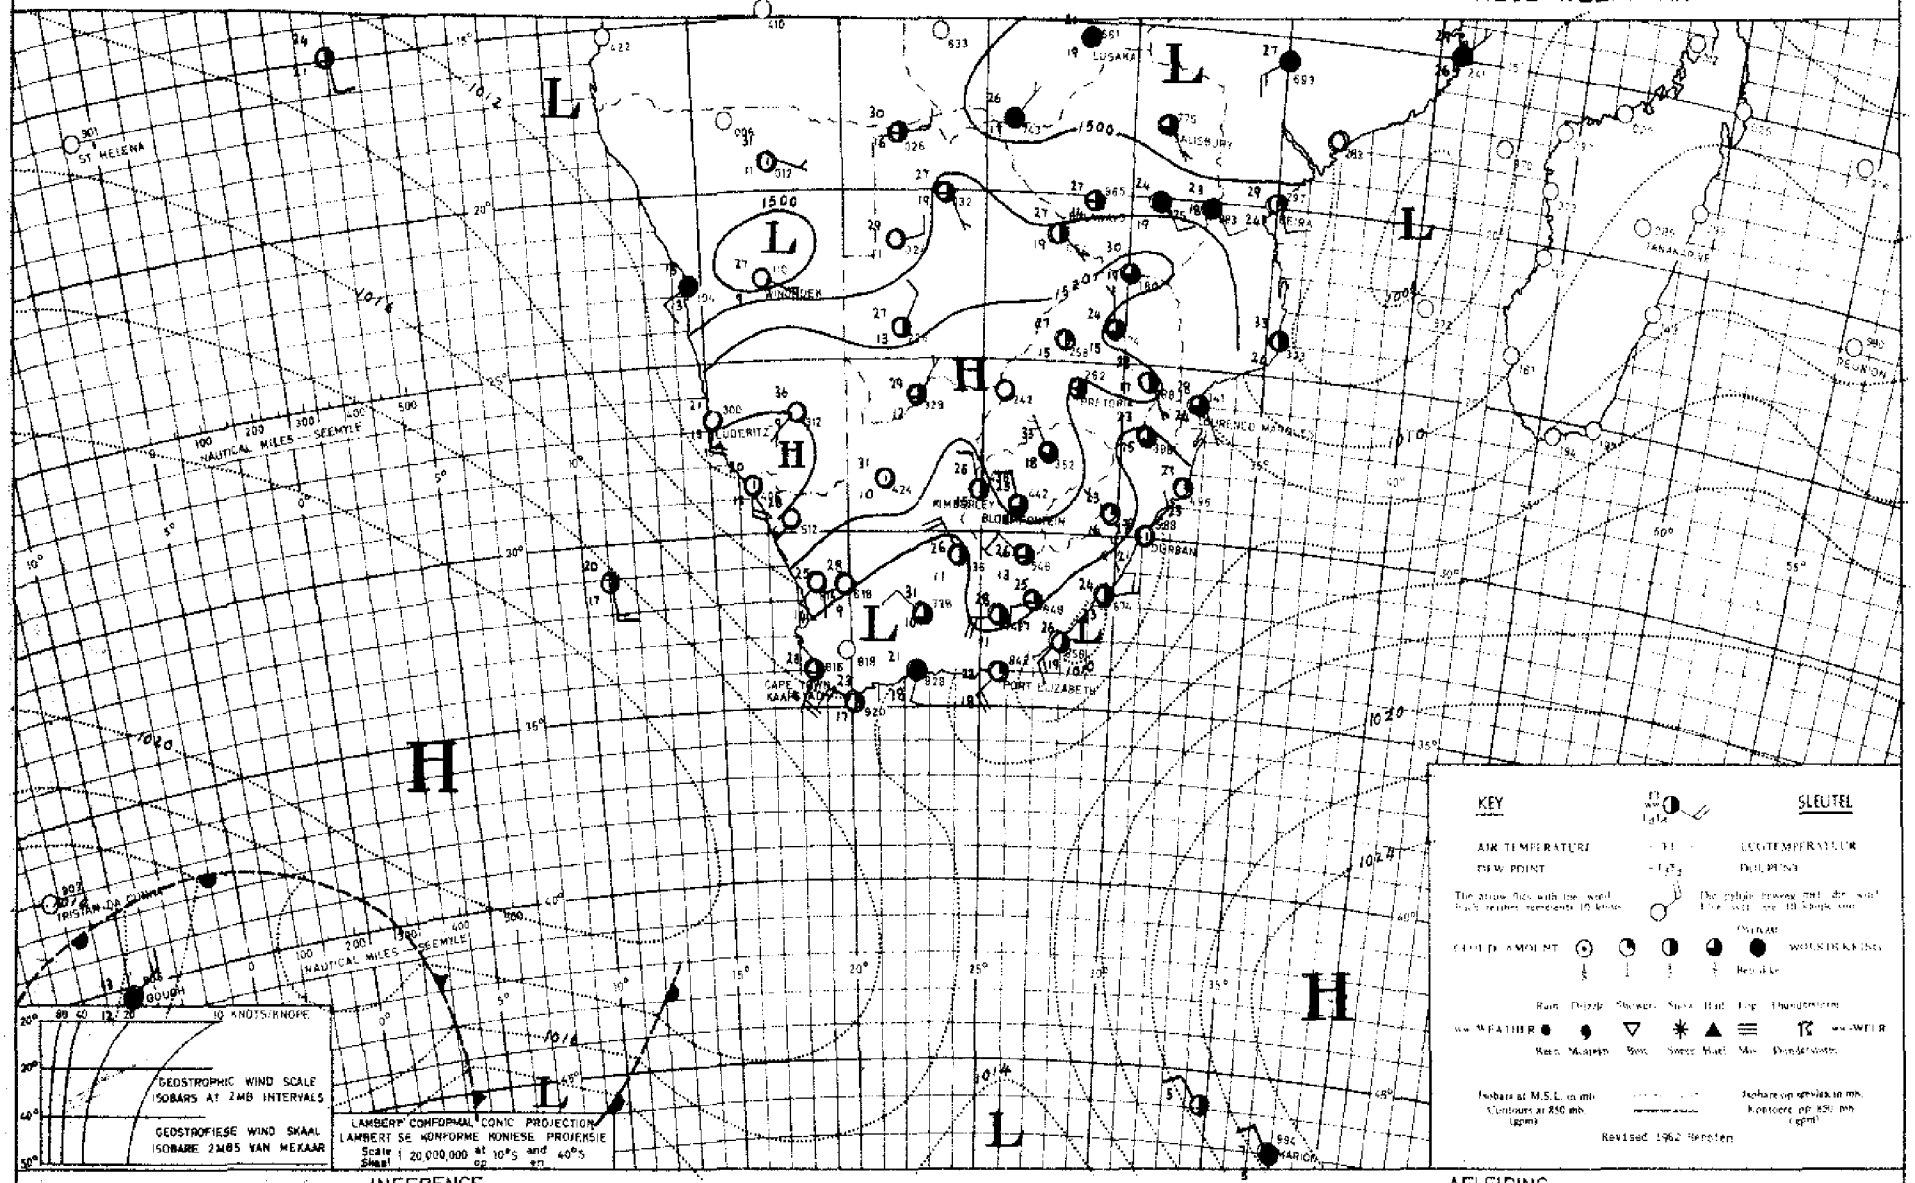
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 27 - 3 - 19 67 DATUM AFLEIDING

The coastal low on the south-east coast is moving northwards, so that cloudy cool weather with light rain will spread over Natal coast and interior, while the weather will gradually clear over the Cape coast. The high over the interior prevents development, except over the north-eastern interior, where a few thunder-showers might develop.

Die kuslaag op die suidooskus beweeg noordwaarts, sodat bewolkte, koel weer met ligte reën oor die Natalse kus sal uitbrei, terwyl dit mettertyd oor die Kaapse kusgebiede sal opklaar. 'n Hoog oor die binneland verhoed ontwikkeling, behalwe oor die noordoostelike dele waar enkele donderbuie kan ontwikkel.

DATE 28 - 3 - 1967 DATUM

AFLEIDING

The coastal low along the south-west coast will cause cloudy weather along the southern and western coastal areas with light rain at places. South-westerly winds are advecting moist air over Natal and the Eastern Transvaal but it will clear later as the high south of the continental moves eastwards. The circulation over the interior is anticyclonic and little development is expected.

Die kuslaag langs die suidweskus sal bewolkte weer langs die suidelike en westelike kusstreke veroorsaak en ligte reën sal plek-plek voorkom. Suidwestewinde voer vogtige lug oor Natal en Oos-Transvaal in maar dit sal later opklaar soos die hoog suid van die land ooswaarts beweeg. Die sirkulasie oor die binneland is antisiklonaal en min ontwikkeling kan verwag word.

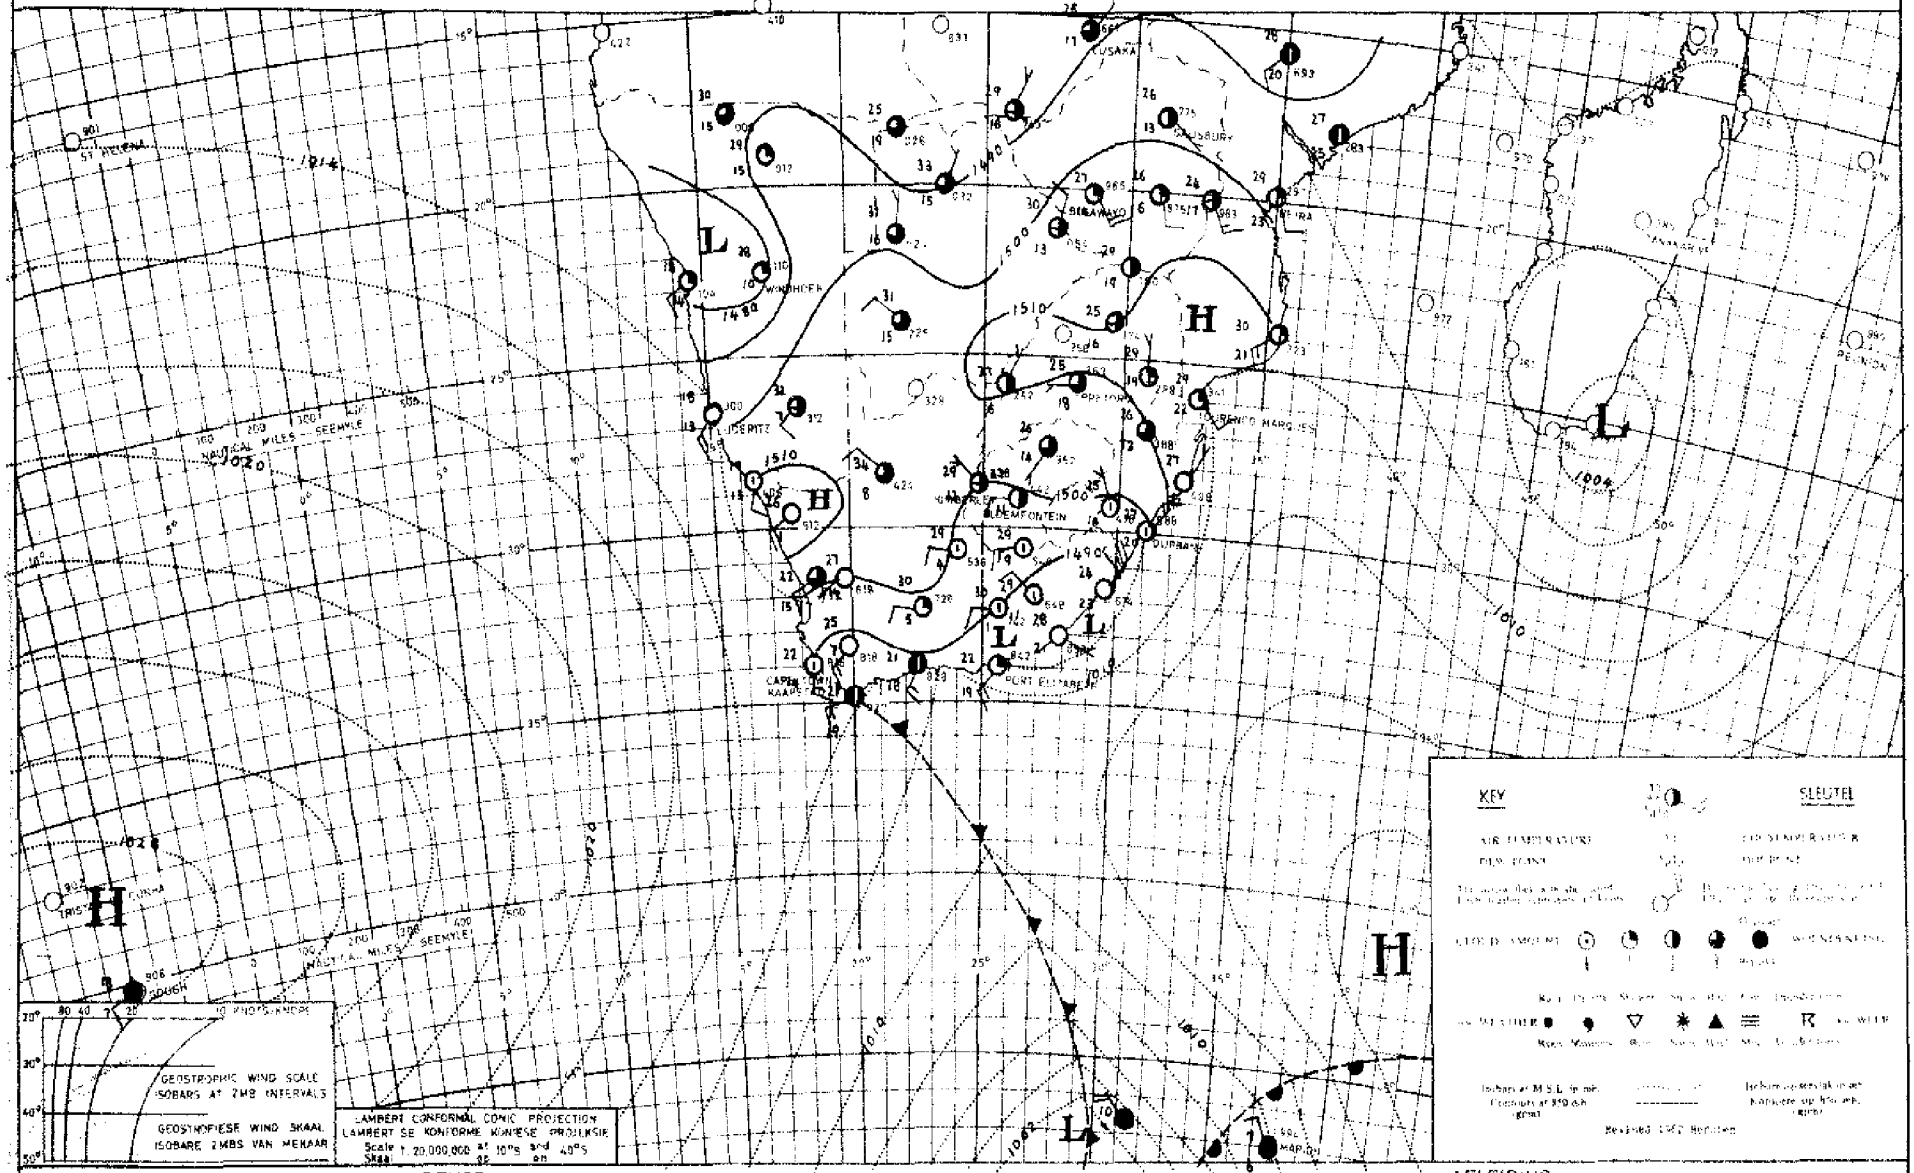
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 29 - 3 - 1967 DATUM AFLEIDING

The cold front at the Cape is moving eastwards and it will cause cooler, cloudy conditions over the south and east coast with rain and showers. It will also become cooler over the adjacent interior. The air over the interior is relatively moist, but with a high in the upper air over these areas only a few thunder-showers will develop over the central and north-western parts.

Die koufront by die Kaap beweeg oostwaarts en sal koeler bewolkte toestande langs die suid- en ooskus veroorsaak met reën en buie. Dit sal ook koeler word oor die aangrensende binneland. Die lug oor die binneland is redelik vogtig maar met h hoog in die bolug oor hierdie dele sal net enkele donderbuie oor die sentrale en noordwestelike dele voorkom.

INFERENCE

DATE 30 - 3 - 1967 DATUM

AFLEIDING

The Atlantic high ridges eastwards behind the cold front along the south-east coast. Cloudy to partly cloudy and cooler weather with showers will occur along the southern and eastern coastal regions and adjacent interior. The air over the interior is relatively moist and thunder-showers will occur in the afternoon over the eastern, central and north-western areas.

Die Atlantiese hoog druk ooswaarts agter die koufront langs die suidooskus in. Bewolkte tot gedeeltelik bewolkte en koeler weer met buie sal langs die suidelike en oostelike kusgebiede en aangrensende binneland voorkom. Oor die binneland is die lug redelik vogtig en donderbuie sal in die namiddag oor die oostelike sentrale en noordwestelike dele voorkom.

The high is now rapidly moving in south of the country while there is a low over Southern Transvaal. Thus cool, cloudy weather with rain and showers will spread over Eastern Cape, Natal, Transvaal and northern Free State.

Die hoog druk nou vinnig suid van die land in terwyl daar 'n laag oor Suid-Transvaal aanwesig is. Dus sal koel, bewolkte weer met reën en buie uitbrei oor Oos-Kaapland, Natal, Transvaal en die Noord-Vrystaat.

INFERENCE
DATE 2-4-1967 DATUM
AFLEIDING
The high south-east of the country is advecting moist air over the eastern and northern areas of the republic and over Botswana. At the same time there is a sharp upper air trough over the central interior so that rain and showers will occur over the above-mentioned areas.
Die hoog suidoos van die land voer vogtige lug oor die noordelike en oostelike dele van die Republiek en oor Botswana. Terselfdertyd is daar 'n skerp boulugtrog oor die sentrale binneland sodat verspreide buie en reën oor die bogenoemde streke sal voorkom.

INFERENCE

DATE 3 - 4 - 19 67 DATUM

AFLEIDING

The high over the Indian Ocean is causing moist air to flow in over the northern and central regions where thunder-showers will occur. Over the Transvaal, however, only isolated showers will fall. Over the southern areas of the country where the winds are off-shore, it will be fine.

Die hoog oor die Indiese Oseaan veroorsaak 'n instroming van vogtige lug oor die noordelike en sentrale gebiede waar donderbuie sal voorkom. Oor Transvaal sal slegs los buie uitsak. Oor die suidelike streke van die land waar die winde landaf waai, sal dit mooiweer wees.

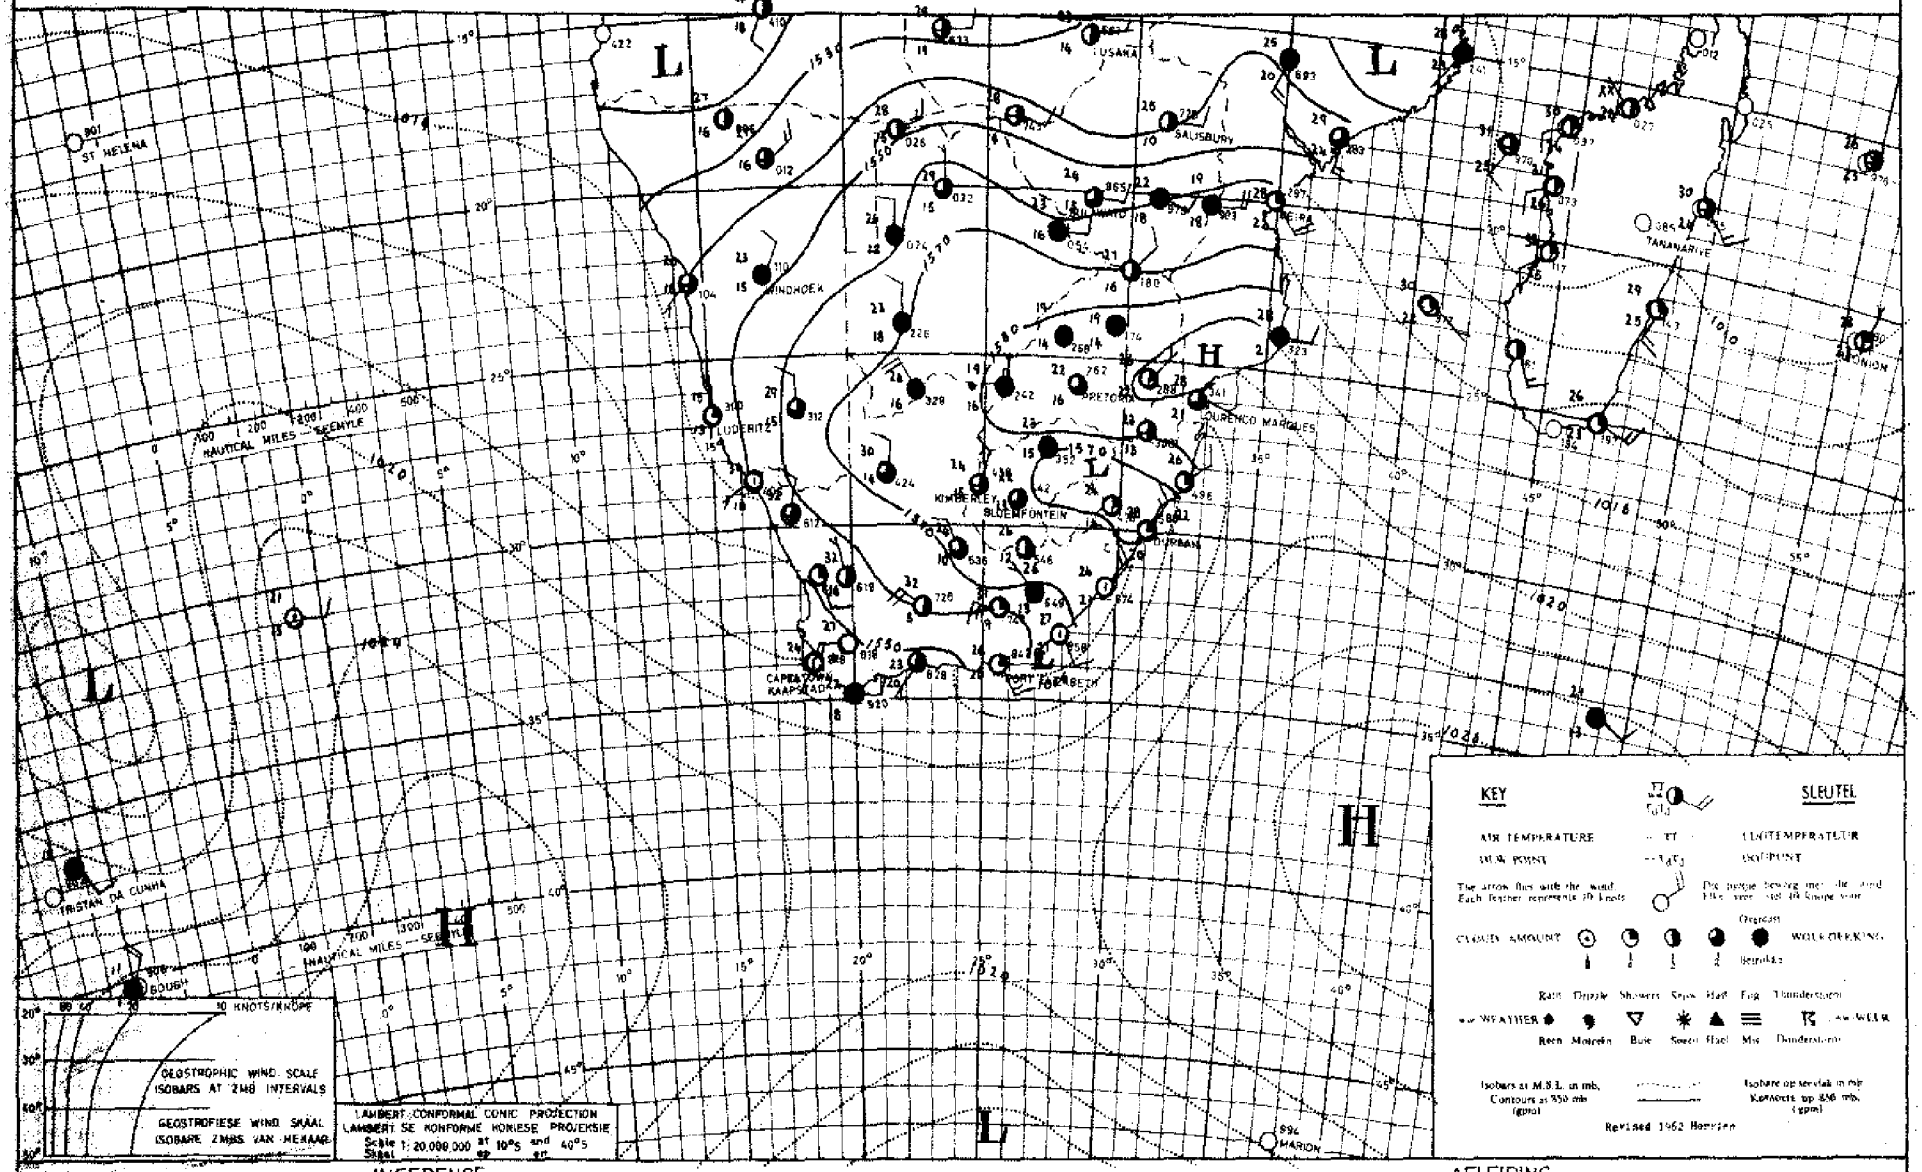
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 4 - 4 - 19 67 DATUM AFLEIDING

Moist air is in circulation over the country. As a result it will be partly cloudy over most regions with thunder-showers.

Vogtige lug sirkuleer oor die land. Dit sal gevolglik gedeeltelik bewolk wees oor die meeste dele van die land met donderbuie.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 5 - 4 - 1967 DATUM

AFLEIDING

The Atlantic high extends eastwards south of the continent with the result that cooler, cloudy conditions with rain will occur over the southern and eastern coastal regions and adjacent interior. The air over the interior is still relatively moist and scattered thunder-showers will occur over the central, northern and eastern areas.

Die Atlantiese hoog stoot ooswaarts suid van die vasteland in, met die gevolg dat koeler, bewolkte toestande met reën langs die suidelike en oostelike kusgebiede en aangrensende binneland sal voorkom. Oor die binneland is die lug nog redelik vogtig en verspreide donderbuie sal oor die sentrale, noordelike en oostelike dele uitsak.

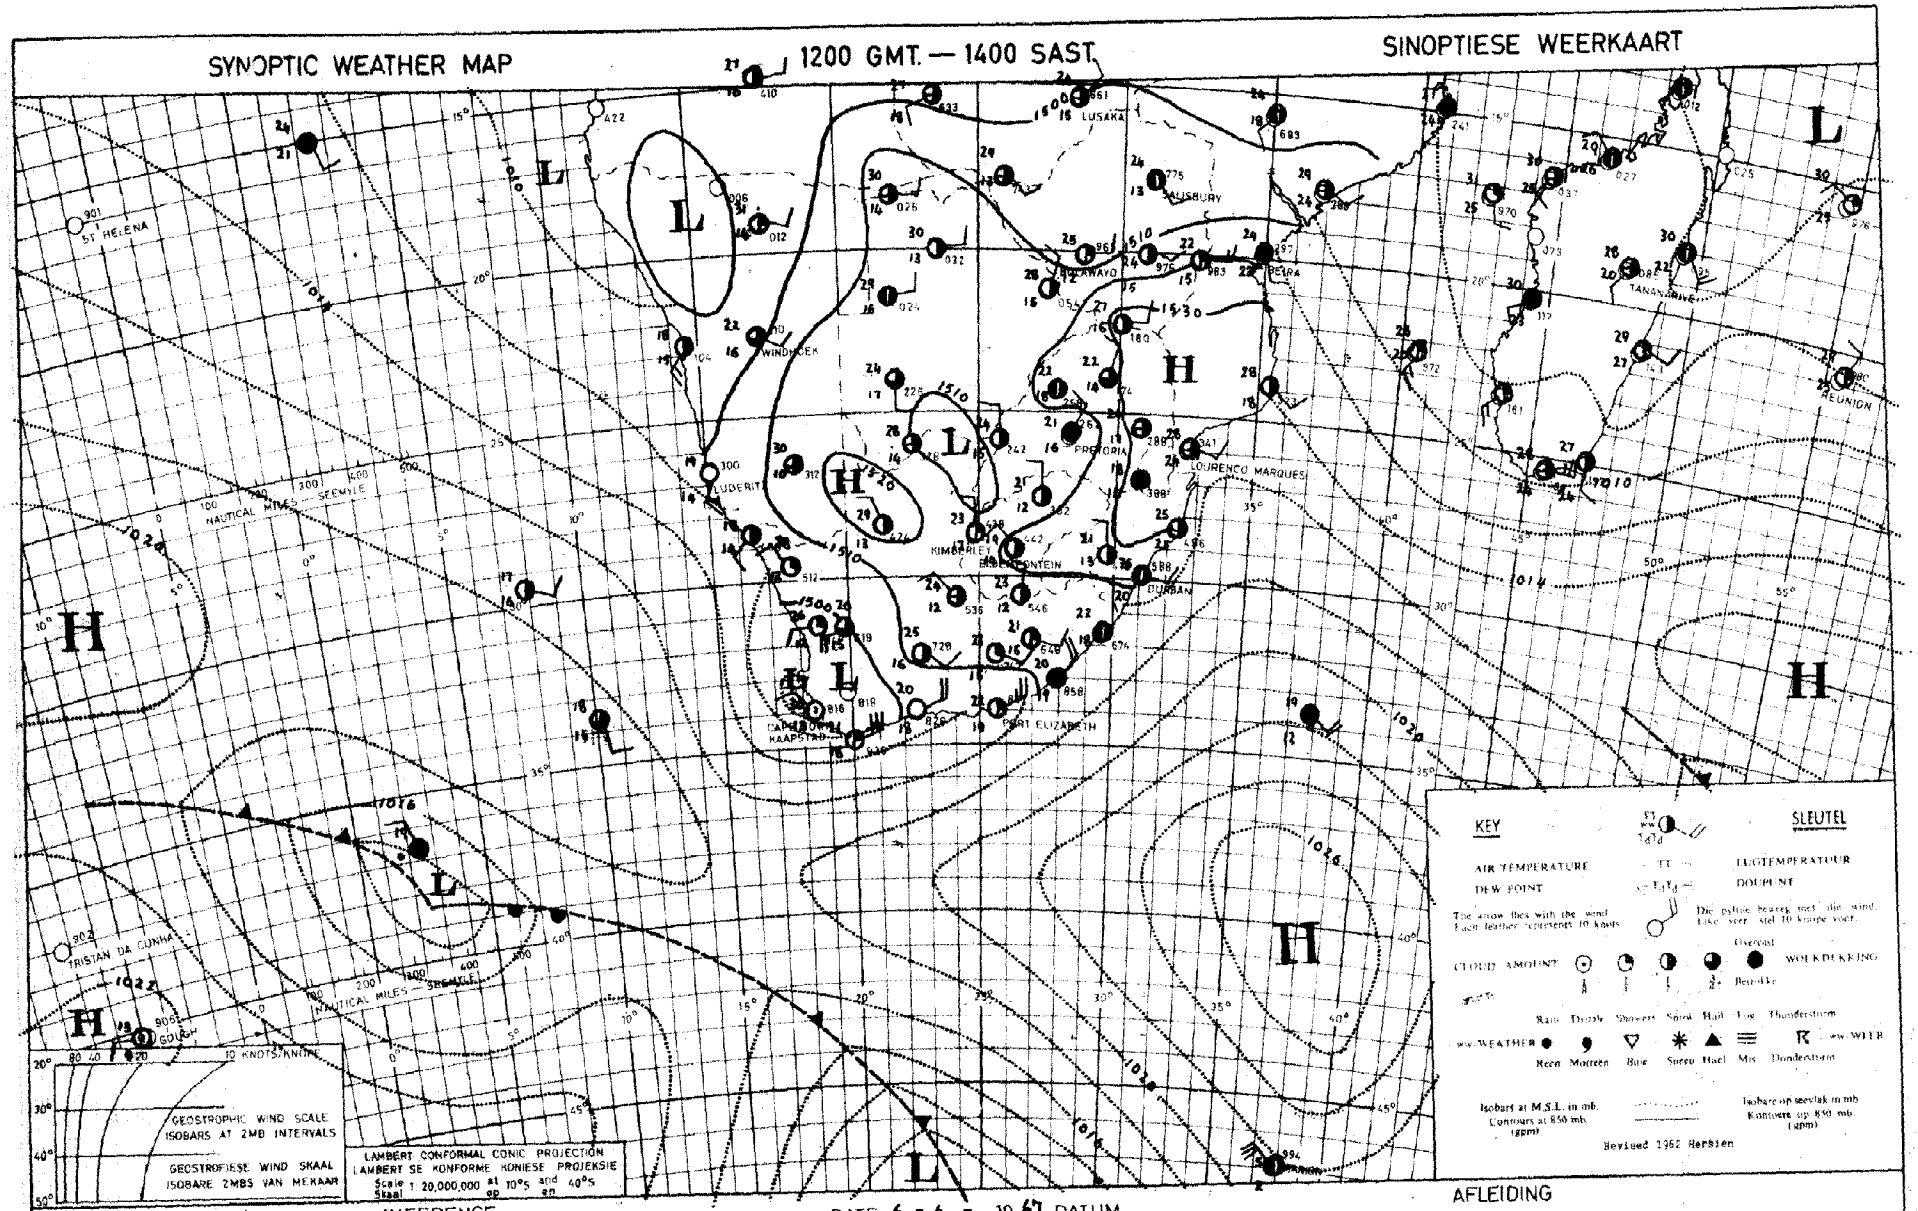
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE

The low along the south-western Cape coast is moving eastwards. As a result cloudy cooler weather will occur along the western and south-western Cape coasts, spreading eastwards later. Over the interior the air in circulation is very moist and cloudy weather with scattered thunder-showers will occur over the eastern and central interior.

DATE 6 - 4 - 1967 DATUM

AFLEIDING

Die laag oor die Kaapse suidweskus beweeg ooswaarts en gevolglik sal bewolkte koeler weer oor die westelike en suidwestelike kusstreke voorkom en later ooswaarts uitbrei. Die lug oor die land bly steeds vogtig en bewolk-te weer met verspreide donderbuie word oor die oostelike en sentrale binneland verwag.

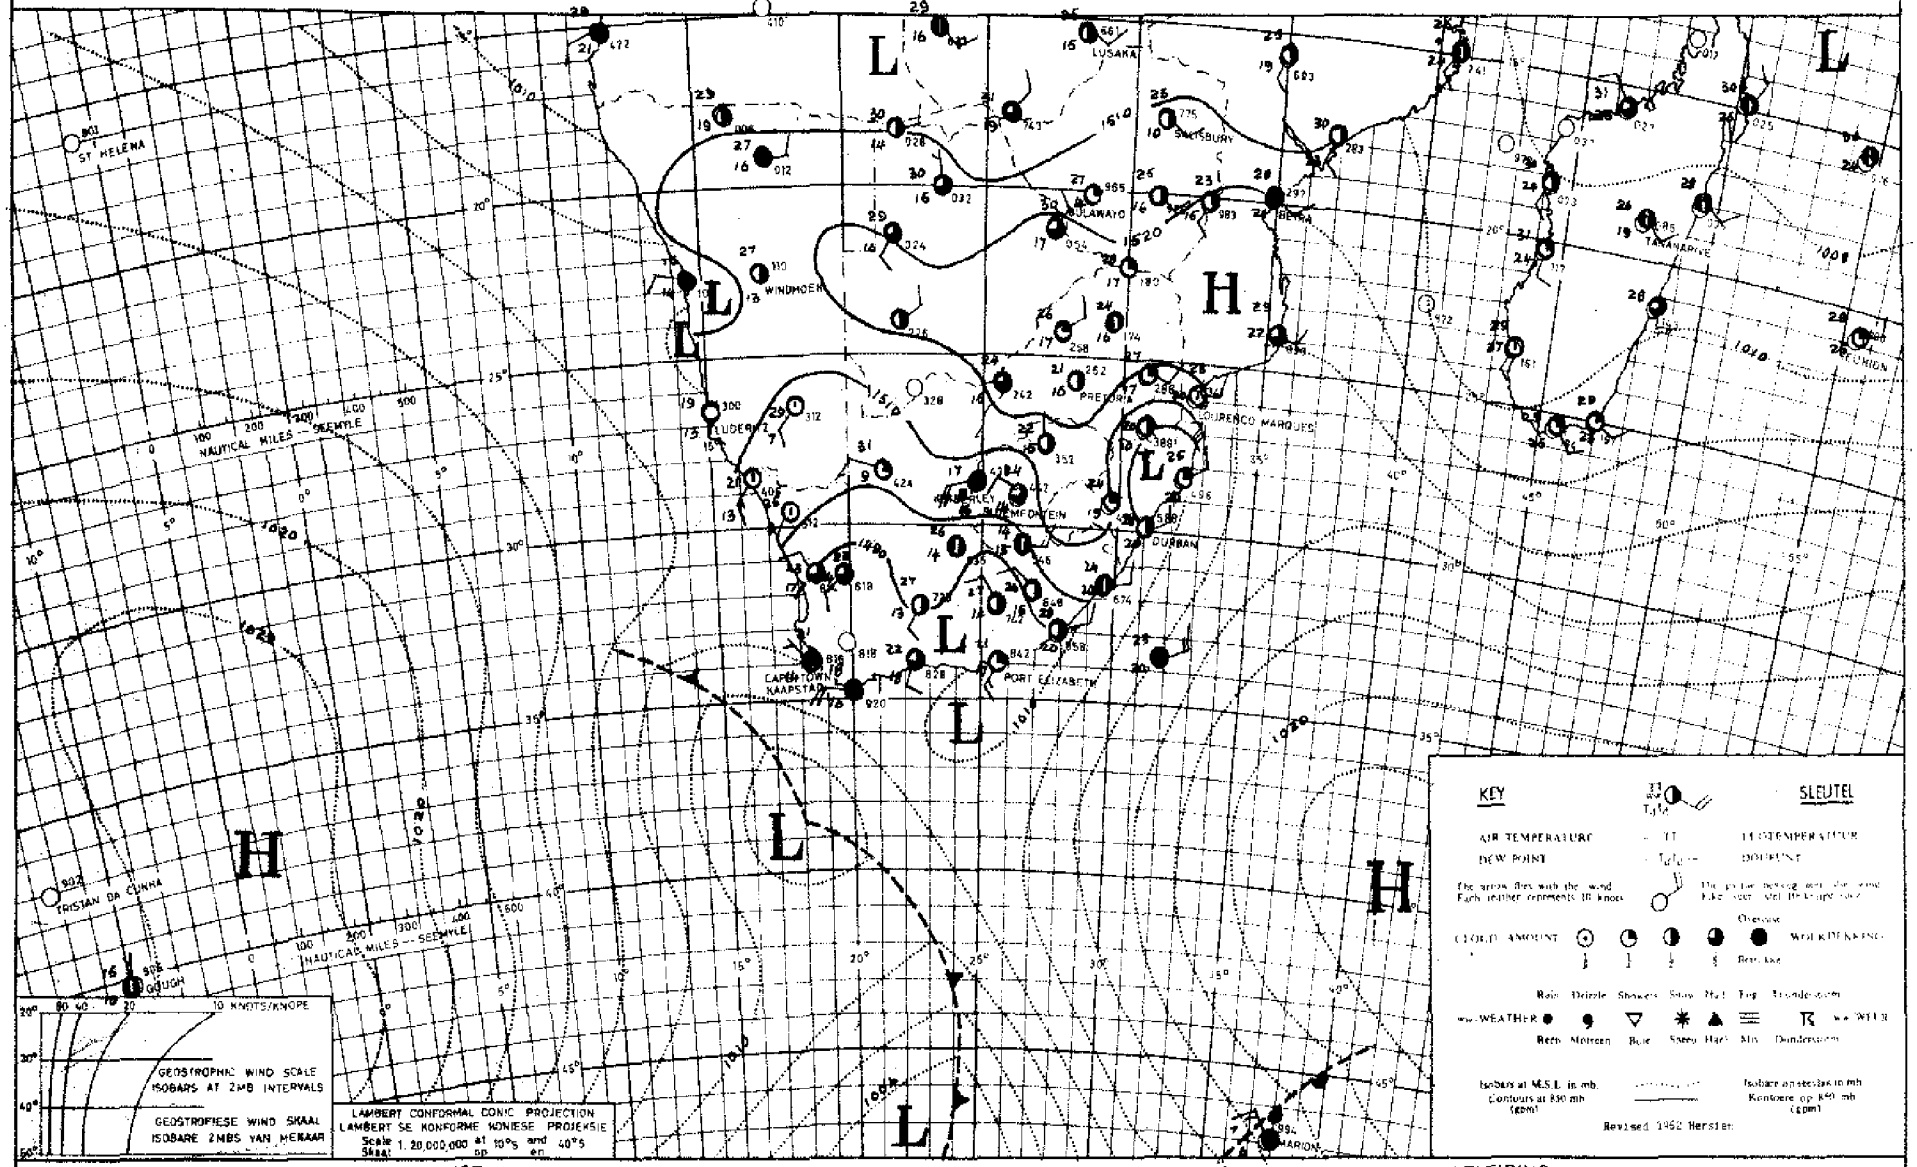
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 7 - 4 - 1967 DATUM AFLEIDING

The cold front is moving eastwards and cloudy cooler weather with rain or showers will occur along the coastal regions and adjacent interior. With a trough over the interior, thunder-showers will occur over the central and eastern interior

Die koufront beweeg oaswaarts en bewolkte koeler weer met reën en buie sal oor die kusgebiede en aangrensende binneland voorkom. Met 'n trog van lae druk oor die binneland sal donderbuie oor die sentrale en oostelike binneland voorkom.

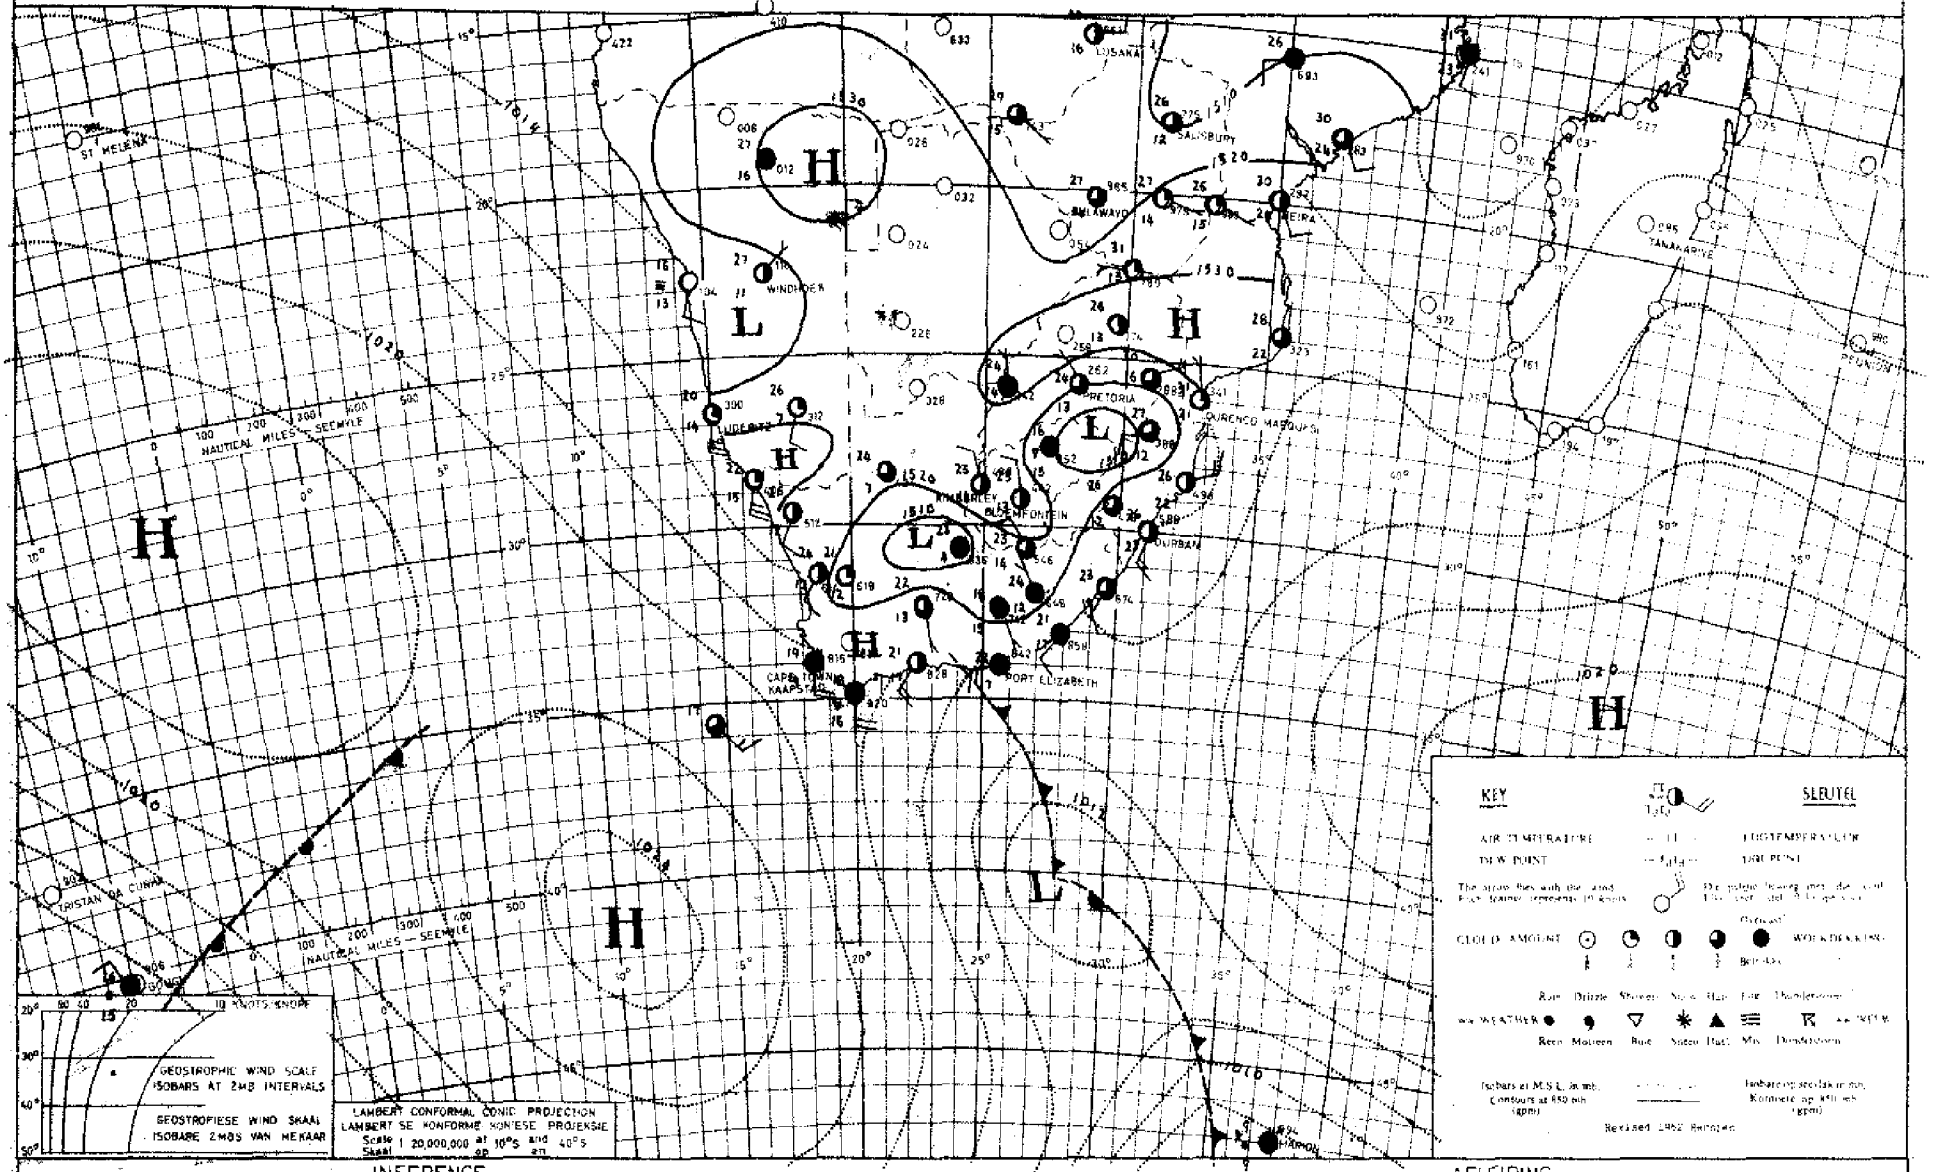
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 8 - 4 - 1967 DATUM AFLEIDING

The cold front along the Cape south coast is moving eastwards and will cause cooler, cloudy weather with rain or showers to spread over the Cape southern and eastern coasts and later over the Natal coast and adjacent interior. Drier air from the west is moving in over the western interior, and thunder-showers will therefore be confined to the north-eastern interior.

Die kouefront langs die Kaapse suidkus beweeg oos-waarts en sal koeler bewolkte weer met reën of buie veroorsaak oor die Kaapse suidelike en oostelike kusgebiede en later oor die Natalse kus en aangrensende binneland. Droër lug uit die weste beweeg in oor die westelike binneland en dus sal donderbuie beperk wees tot die noordoostelike binneland.

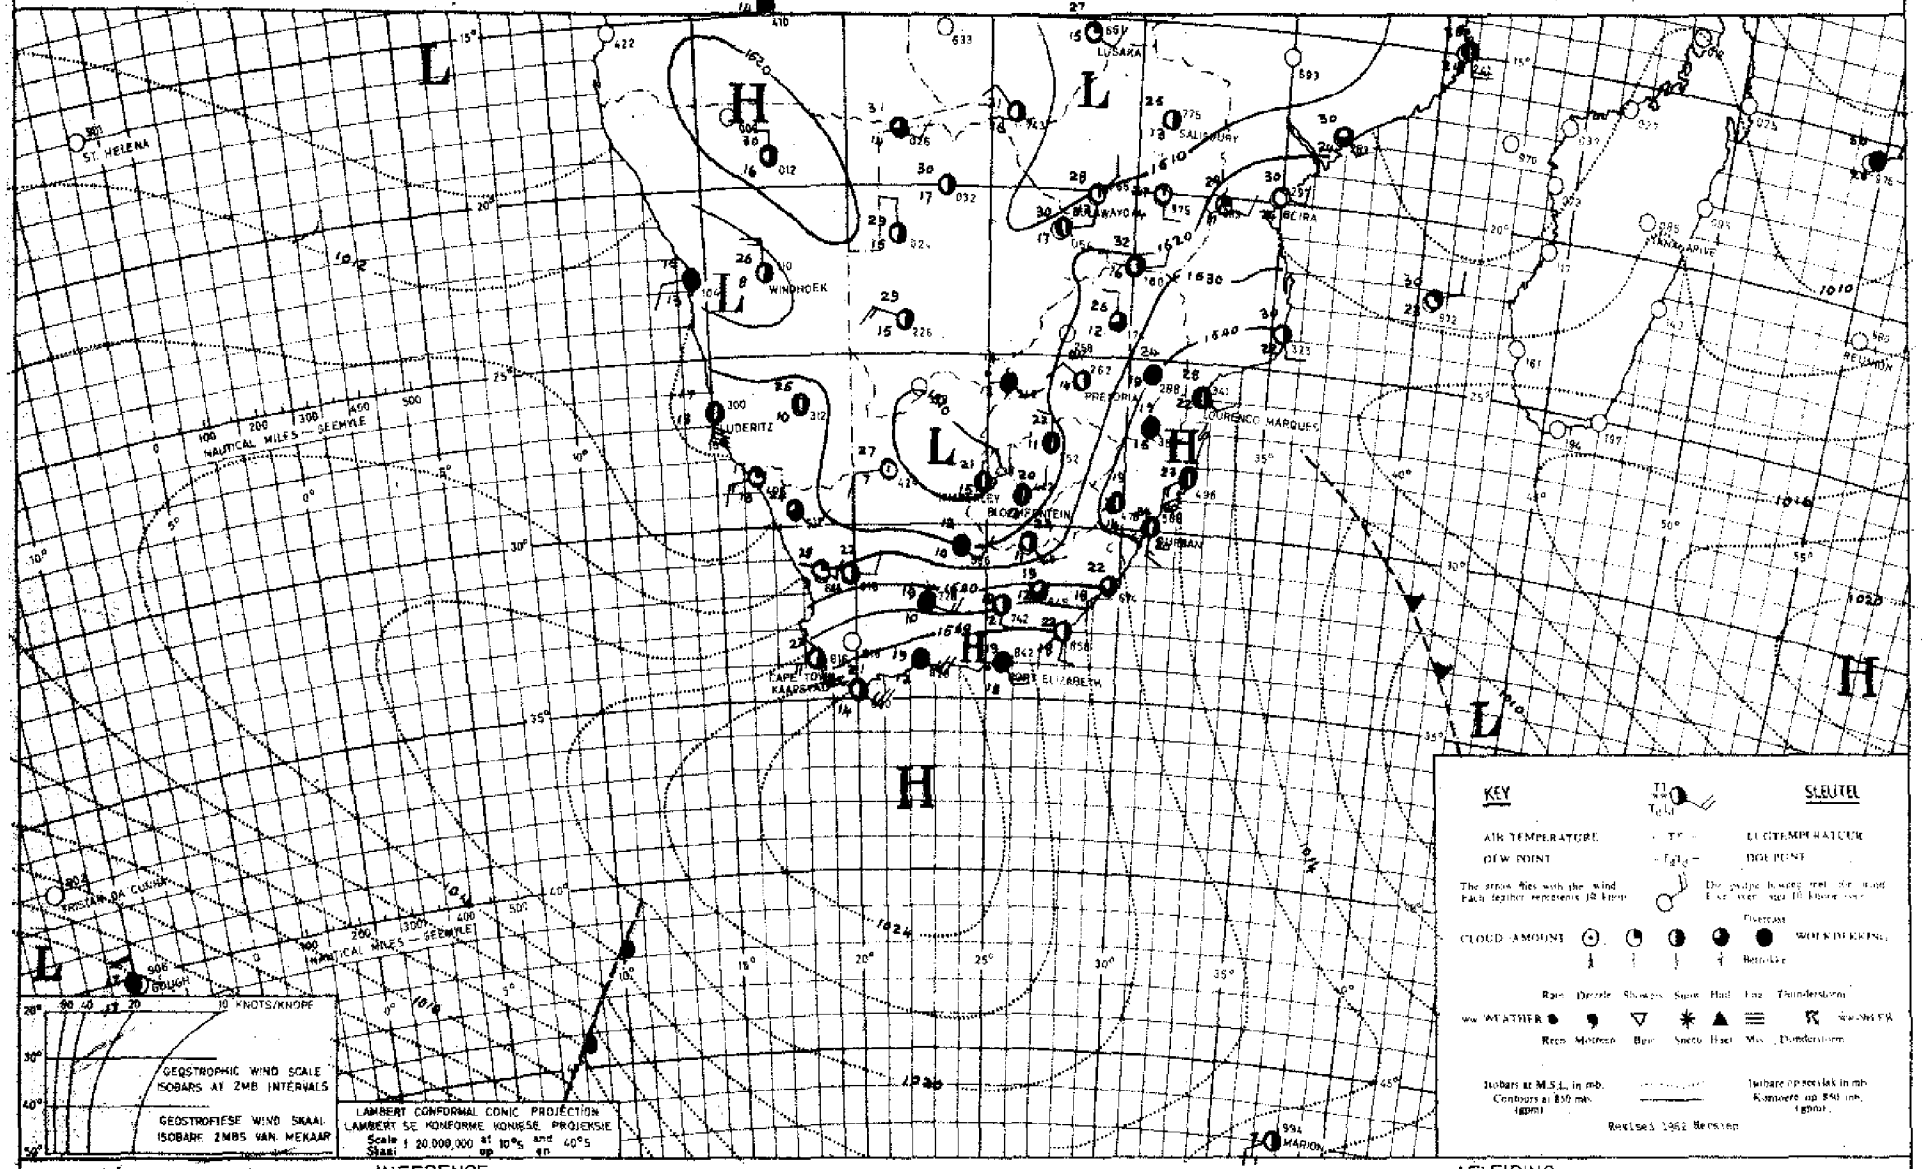
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 9 - 4 - 1967 DATUM — AFLEIDING

The high to the south of the country is moving eastwards and with pressures falling over the central and western interior a cut-off low will develop. Therefore cloudy weather with rain or showers will occur over the eastern half of the country.

Die hoog suid van die land beweeg ooswaarts en met dalende drukke oor die sentrale en westelike binneland, word verwag dat 'n afgeslote laag oor die westelike binneland sal ontwikkel. Gevolglik word bewolkte weer met reën en buie oor die oostelike helfte van die land verwag.

INFERENCE

DATE 10 - 4 - 19 67 DATUM

AFLEIDING

The low over the southern parts of South West Africa together with the high to the south-east of the continent is causing moist air to flow in over the central, southern and eastern regions of the country where it will be cloudy and cool with rain or showers.

Die laag oor die suidelike dele van Suidwes-Afrika tesame met die hoog suidoos van die vasteland veroorsaak 'n instroming van vogtige lug oor die sentrale, suidelike en oostelike gebiede van die land waar dit bewolk en koel sal wees met reën of buie.

INFERENCE

DATE 11 - 4 - 1967 DATUM

AFLEIDING

The high south-east of the country is causing moist air to be advected over most parts. A deep low on the surface and in the upper air is situated over the western Cape. As a result it will be cloudy and cool over most parts of the country with rain and showers, except over South West Africa and the western Cape where it will clear to partly cloudy.

Die hoog suidoos van die land voer vogtige lug in oor die meeste dele. 'n Diep laag aan die oppervlakte en in die bolug is oor westelike Kaapland aanwesig. Dit sal gevolglik bewolk en koel wees oor die meeste dele van die land met reën en buie behalwe oor Suidwes-Afrika en Wes-Kaapland waar dit sal opklaar.

INFERENCE

DATE 12 - 4 - 1967 DATUM

AFLEIDING

The low to the south of the country, together with the upper air low, is moving eastwards and dry air is spreading over the country. Therefore it will clear over most regions except over the eastern parts where it will be partly cloudy with isolated thunder-showers.

Die laag suid van die land tesame met die bolug-laag, beweeg ooswaarts en droë lug brei oor die land uit. Dit sal gevolglik opklaar oor die meeste dele behalwe oor die oostelike dele waar dit nog gedeeltelik bewolk sal wees met los donderbuie.

The upper air low and surface trough will move further eastwards so that the weather will clear over most parts of the interior. South-westerly winds behind the low near East-London will advect maritime air over the eastern coastal regions where it will be cloudy.

Die boluglaag en oppervlaktetrog sal verder ooswaarts beweeg sodat dit oor die meeste dele van die binneland sal opklaar. Suidwestewinde agter die laag naby Oos-Londen sal agter seelug oor die oostelike kusstreke invoer en dit sal bewolk wees oor dié gebiede.

A cold front is approaching the Cape from the west and cloudy cold weather with showers will occur over the south-western parts of the country. Over the rest of the country dry air is in circulation so that it will remain fine or partly cloudy over these regions.

Die koue front nader die Kaap vanuit die weste en bewolkte kouer weer met buie sal oor die suidwestelike dele van die land voorkom. Oor die res van die land is die lug droog en dit sal gevolglik mooiweer of gedeeltelik bewolk bly.

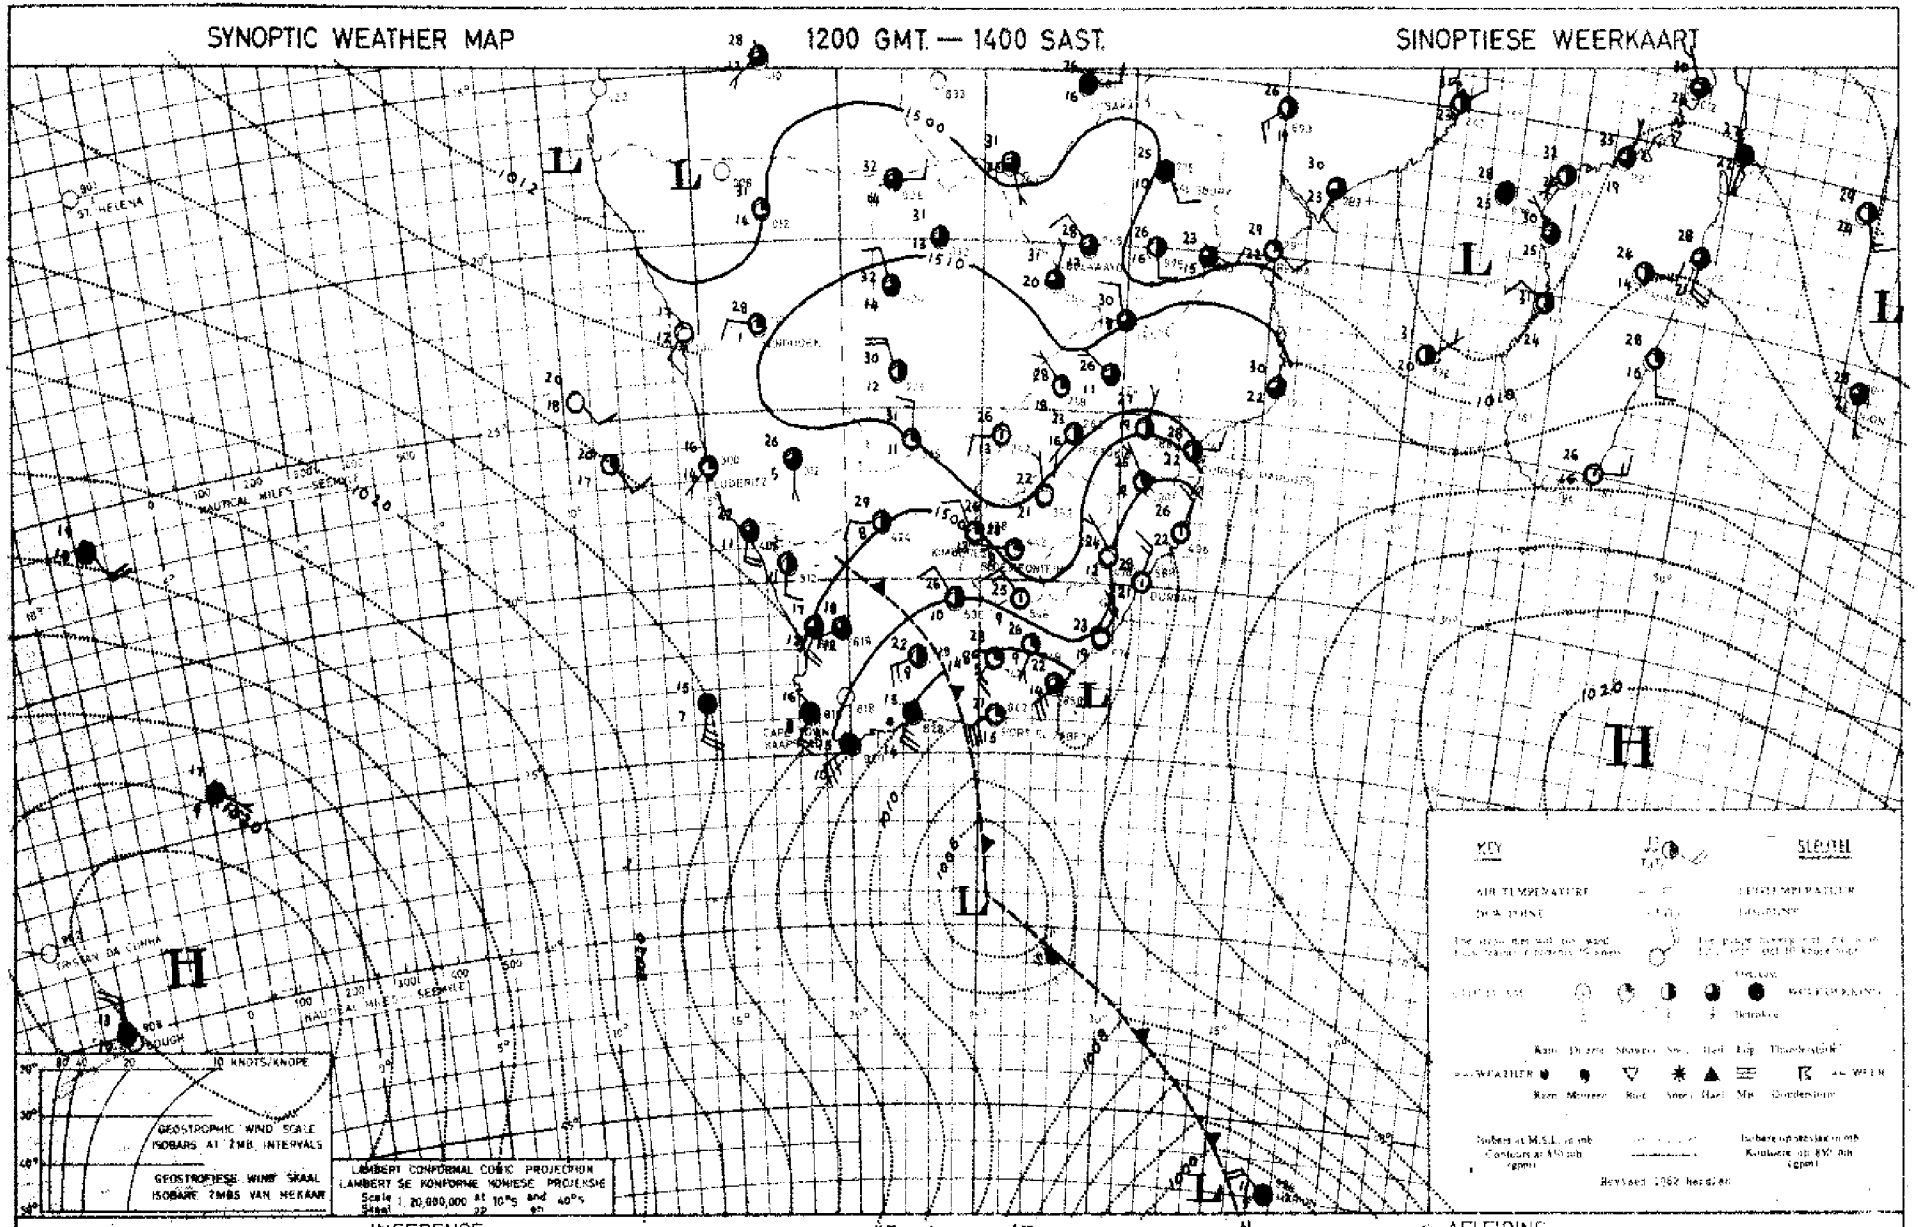
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 15 - 4 - 1967 DATUM

AFLEIDING

The cold front wich advanced from the west over the country is expected to move further eastwards and cloudy weather will spread to the southern and south-eastern parts of the country. Over the remainder of the country it will remain fine or partly cloudy.

Die koufront wat vanuit die weste oor die land beweeg het, sal verder ooswaarts beweeg en bewolkte koue weer met buie sal na die suidelike en suidoostelike dele van die land uitbrei. Oor die res van die land sal dit mooiweer of gedeeltelik bewolk bly.

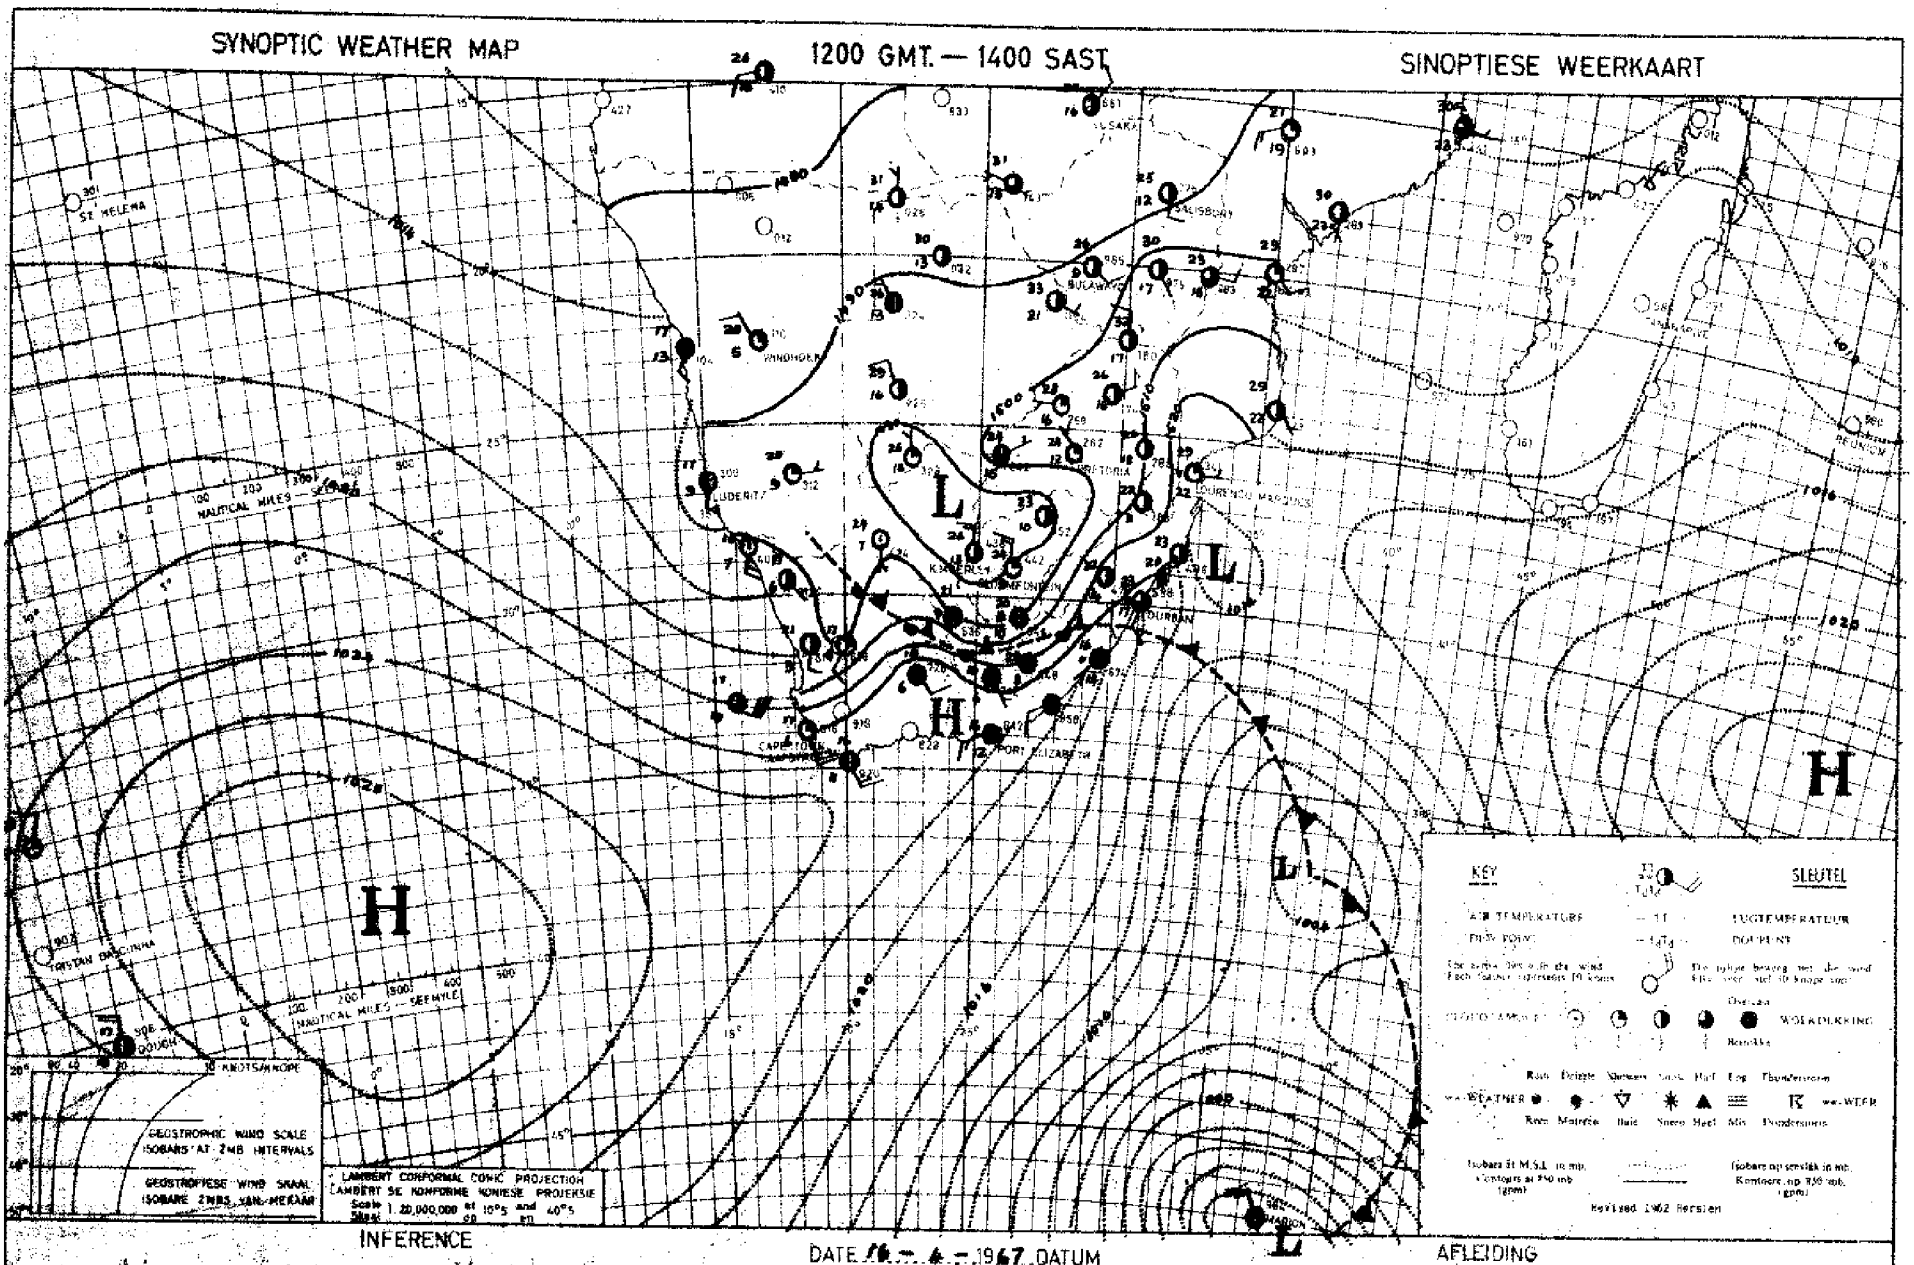
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART



DATE 10 — 4 — 1967 DATUM

INFERENCE

Behind the cold front the Atlantic high is extending a ridge around the coast. A trough of low pressure is situated on the surface as well as in the upper air over the central and western parts of the country. Therefore cloudy weather with rain or thunder-showers are expected over most regions except over the western parts.

AFLEIDING

Die Atlantiese hoog beweeg om die kus agter die koue-front. 'n Trog van lae druk kom aan die oppervlakte en in die bolug voor oor die westelike en sentrale dele van die land, sodat bewolkte weer met reën of donderbuie oor die meeste gebiede, uitgesonderd die westelike dele, verwag word.

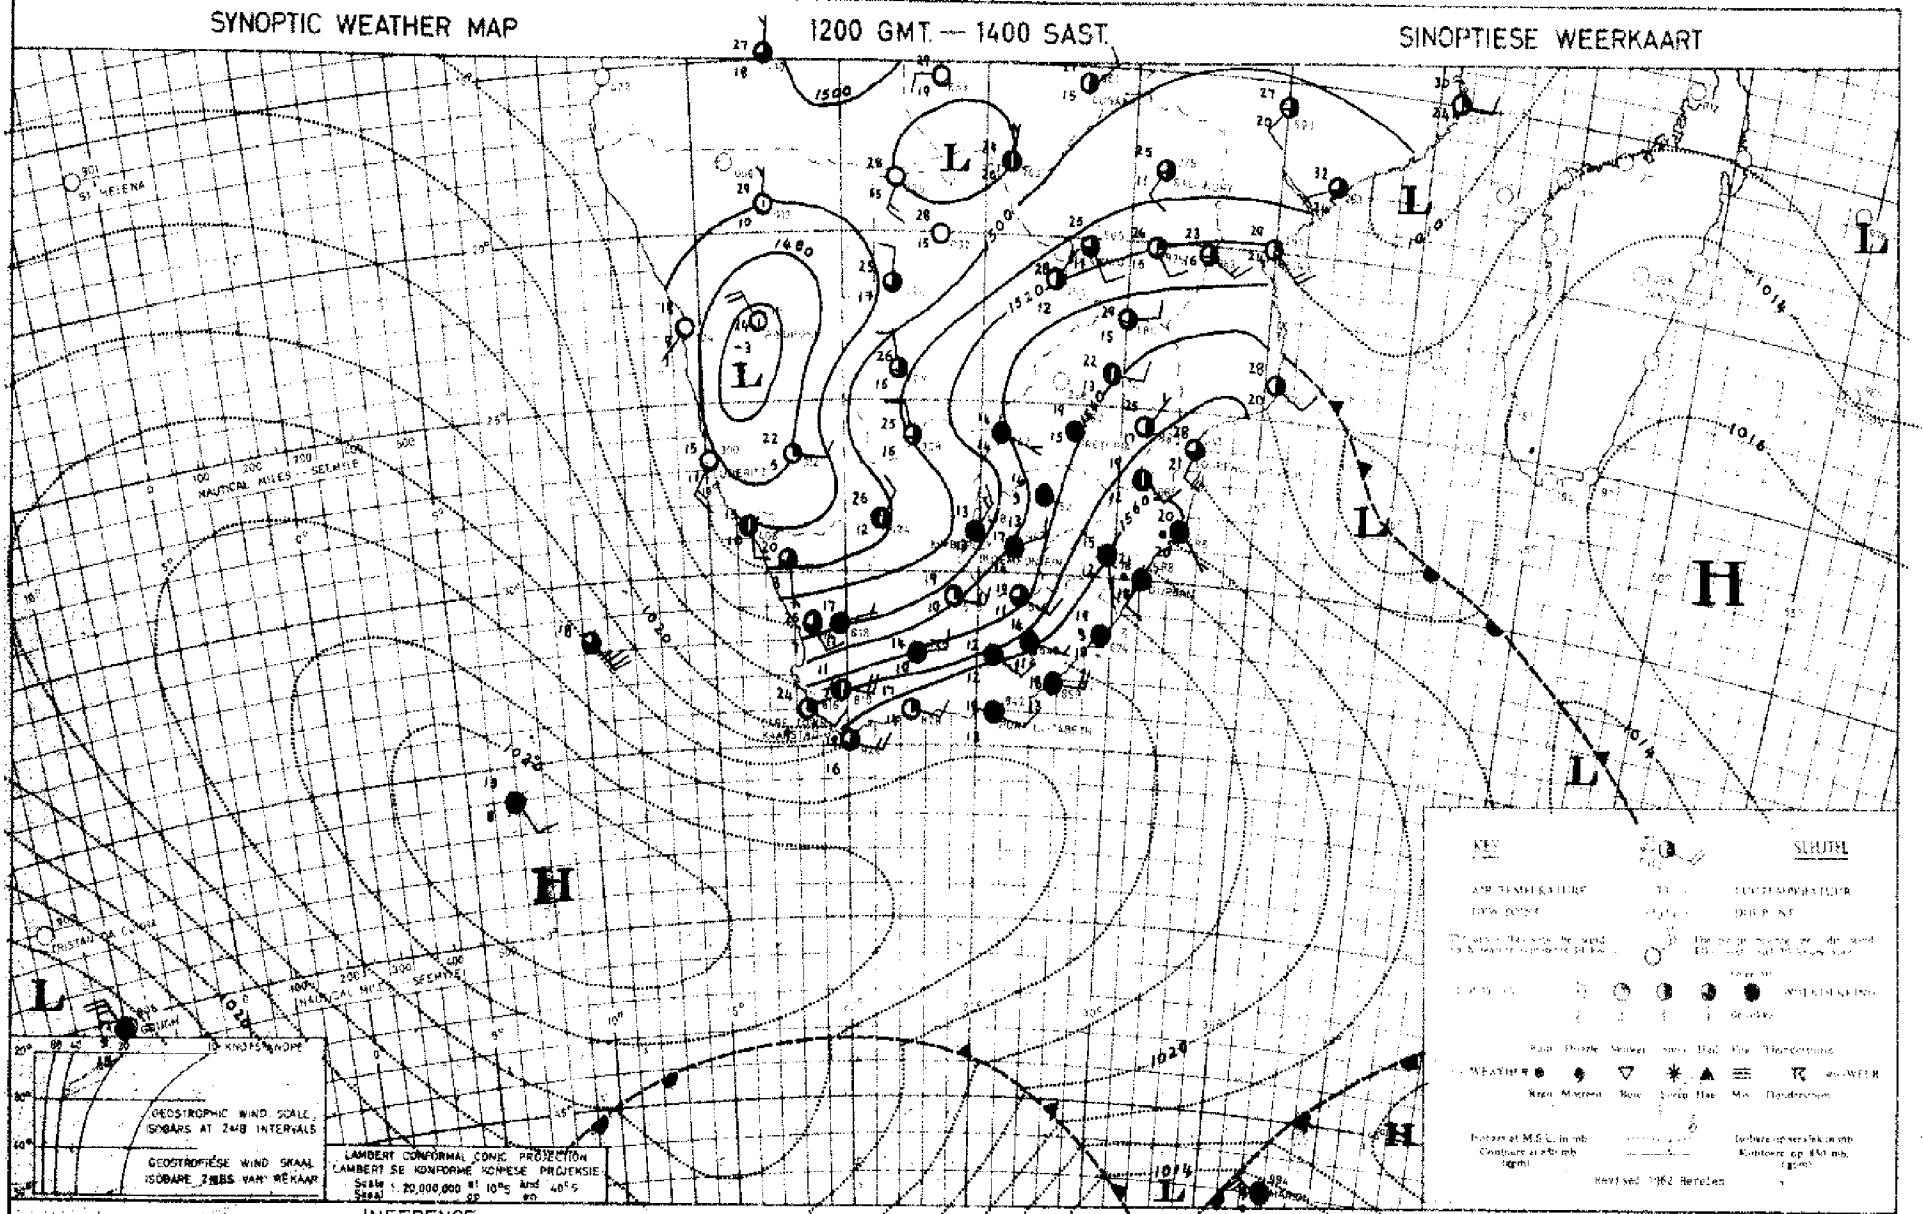
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 17 - 4 - 1967 DATUM AFLEIDING

The strong high south-west of the continent is causing an inflow of cooler, moist air over the eastern, central and southern parts of the country. With a low over the western interior, scattered to fairly general rain and showers will fall over most areas except over the Cape southern and south-western coastal regions and over most parts of South West Africa.

Die sterk hoog suidwes van die vasteland voer koeler vogtige lug in oor die oostelike, sentrale en suidelike dele van die land. Met 'n laag oor die westelike binneland sal verspreide tot taamlik algemene reën en buie oor die meeste dele voorkom behalwe oor die Kaapse suidelike en suidwestelike kusgebiede en oor die meeste dele van Suidwes-Afrika.

INFERENCE

DATE 19 - 4 - 1967 DATUM

AFLEIDING

A low pressure system, situated over the south-western parts of the country, is moving south-eastwards and dry air is spreading over the country. Therefore the cloudy weather with rain, wich occurs over the central and eastern parts of the country, is expected to clear graddually.

Die laagdrukstelsel wat oor die suidwestelike dele van die land voorkom beweeg suidooswaarts en droë lug beweeg in oor die land. Die bewolkte weer met reën wat oor die oostelike en sentrale dele van die land voorkom, sal dus geleidelik opklaar.

The cold front over the Cape south-west coast is moving eastwards and will cause colder, cloudy conditions with rain and showers over the southern and eastern coastal regions and adjacent interior and possible snow over the mountain ranges of the Eastern Cape. Drier air from the west is moving in over the interior where it will be mainly fair to partly cloudy.

Die koufront oor Suidwes-Kaapland beweeg ooswaarts en sal kouer bewolkte toestande met reën en buie veroorsaak oor die suidelike en oostelike kusgebiede en aangrensende binneland met sneeu moontlik oor die bergreekse van Oos-Kaapland. Droë lug uit die weste beweeg in oor die binneland waar dit hoofsaaklik redelik mooi tot gedeeltelik bewolk sal wees.

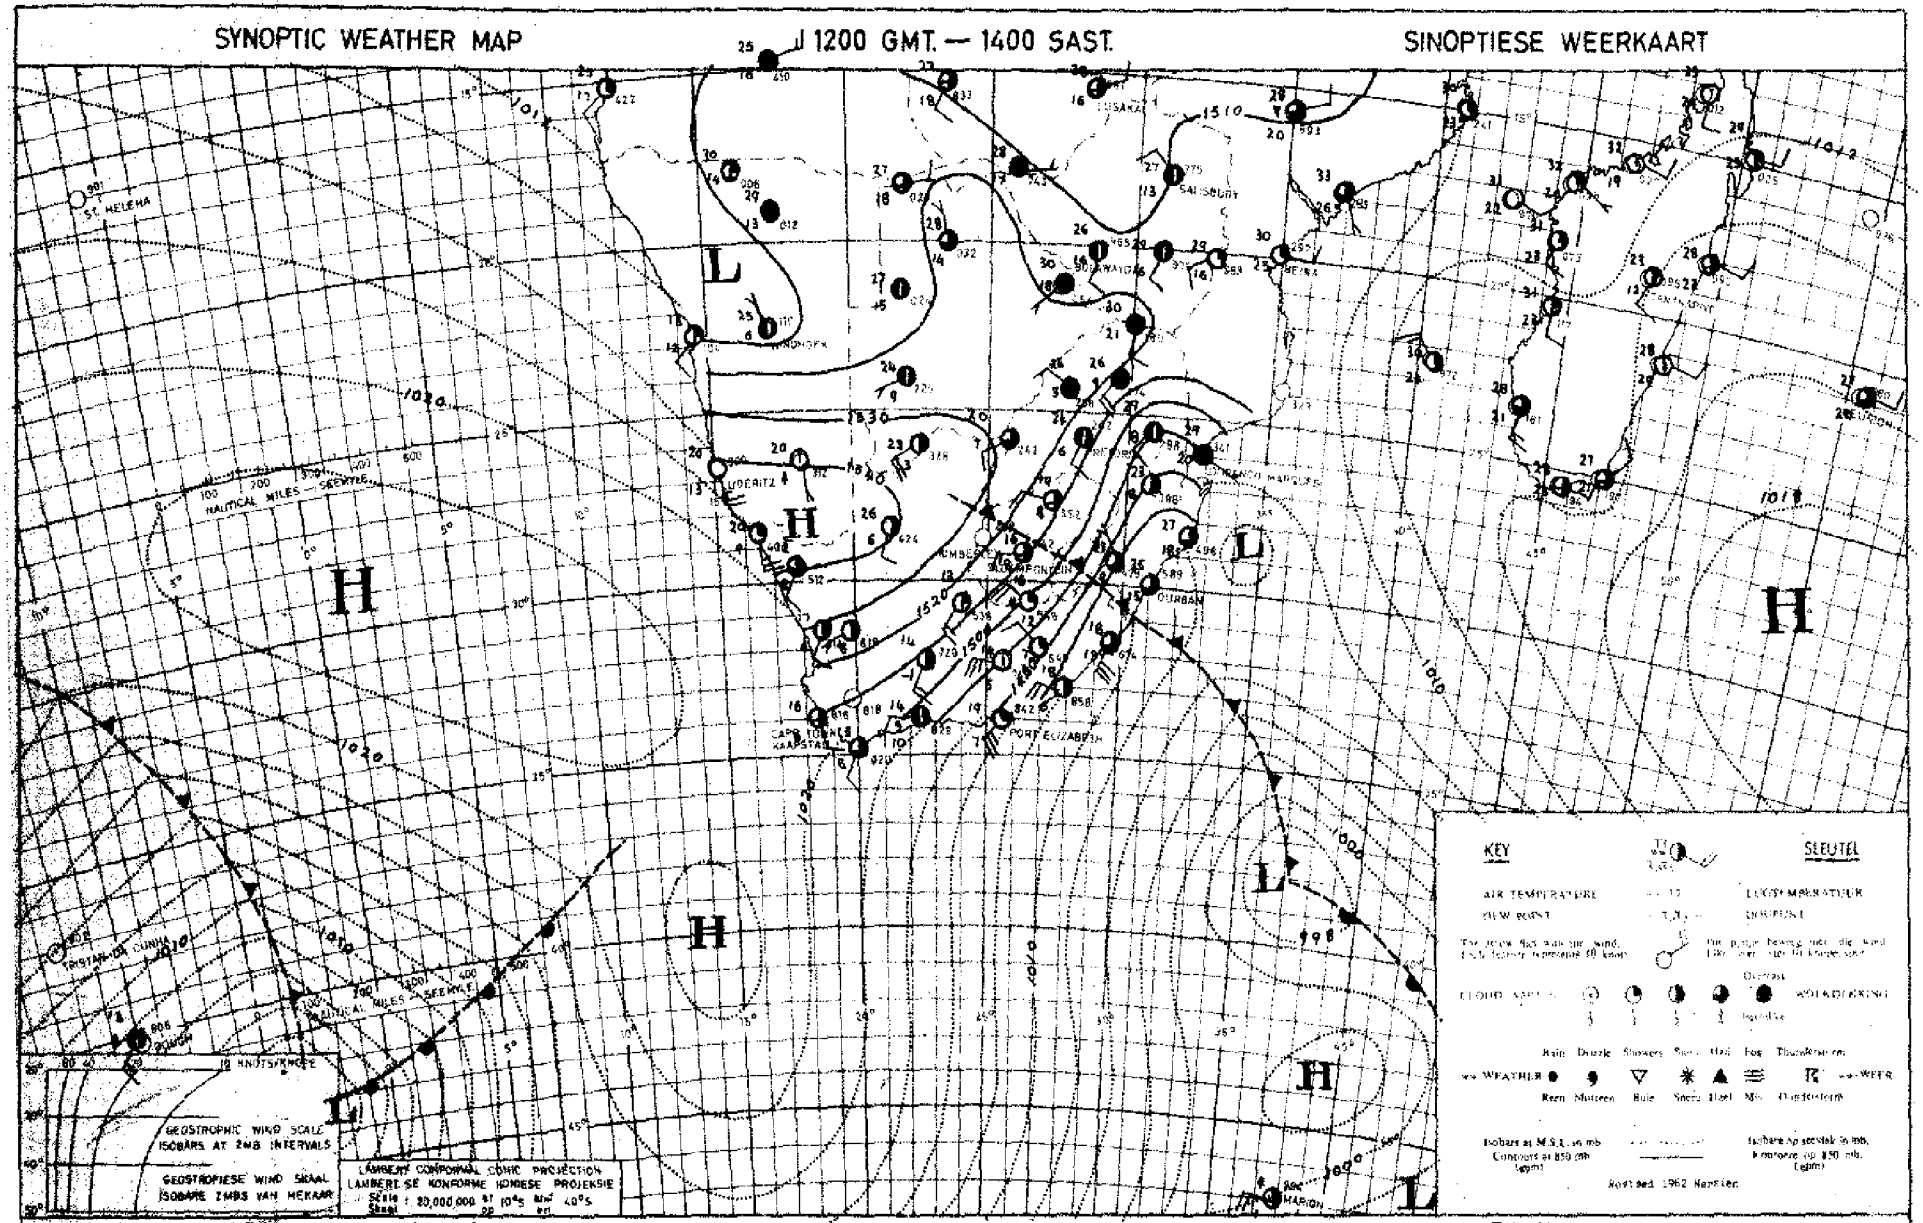
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 21 - 4 - 1967 DATUM

AFLEIDING

The cold front over the Natal South coast is moving northwards and colder, cloudy weather with rain and showers will spread over the eastern coastal regions and adjacent interior and over the southern parts of the Transvaal Lowveld. With the high over the western interior it will be mainly fair to partly cloudy and cold to cool over most of the interior.

Die kouefront oor die Natalse Suidkus beweeg noordwaarts en kouer bewolkte weer met reën en buie sal uitbrei oor die oostelike kusgebiede en aangrensende binneland en oor die suidelike dele van die Transvaalse laeveld. Met die hoog oor die westelike binneland sal sal dit hoofsaaklik mooiweer tot gedeeltelik bewolk en koud tot koel wees oor die grootste gedeelte van die binneland.

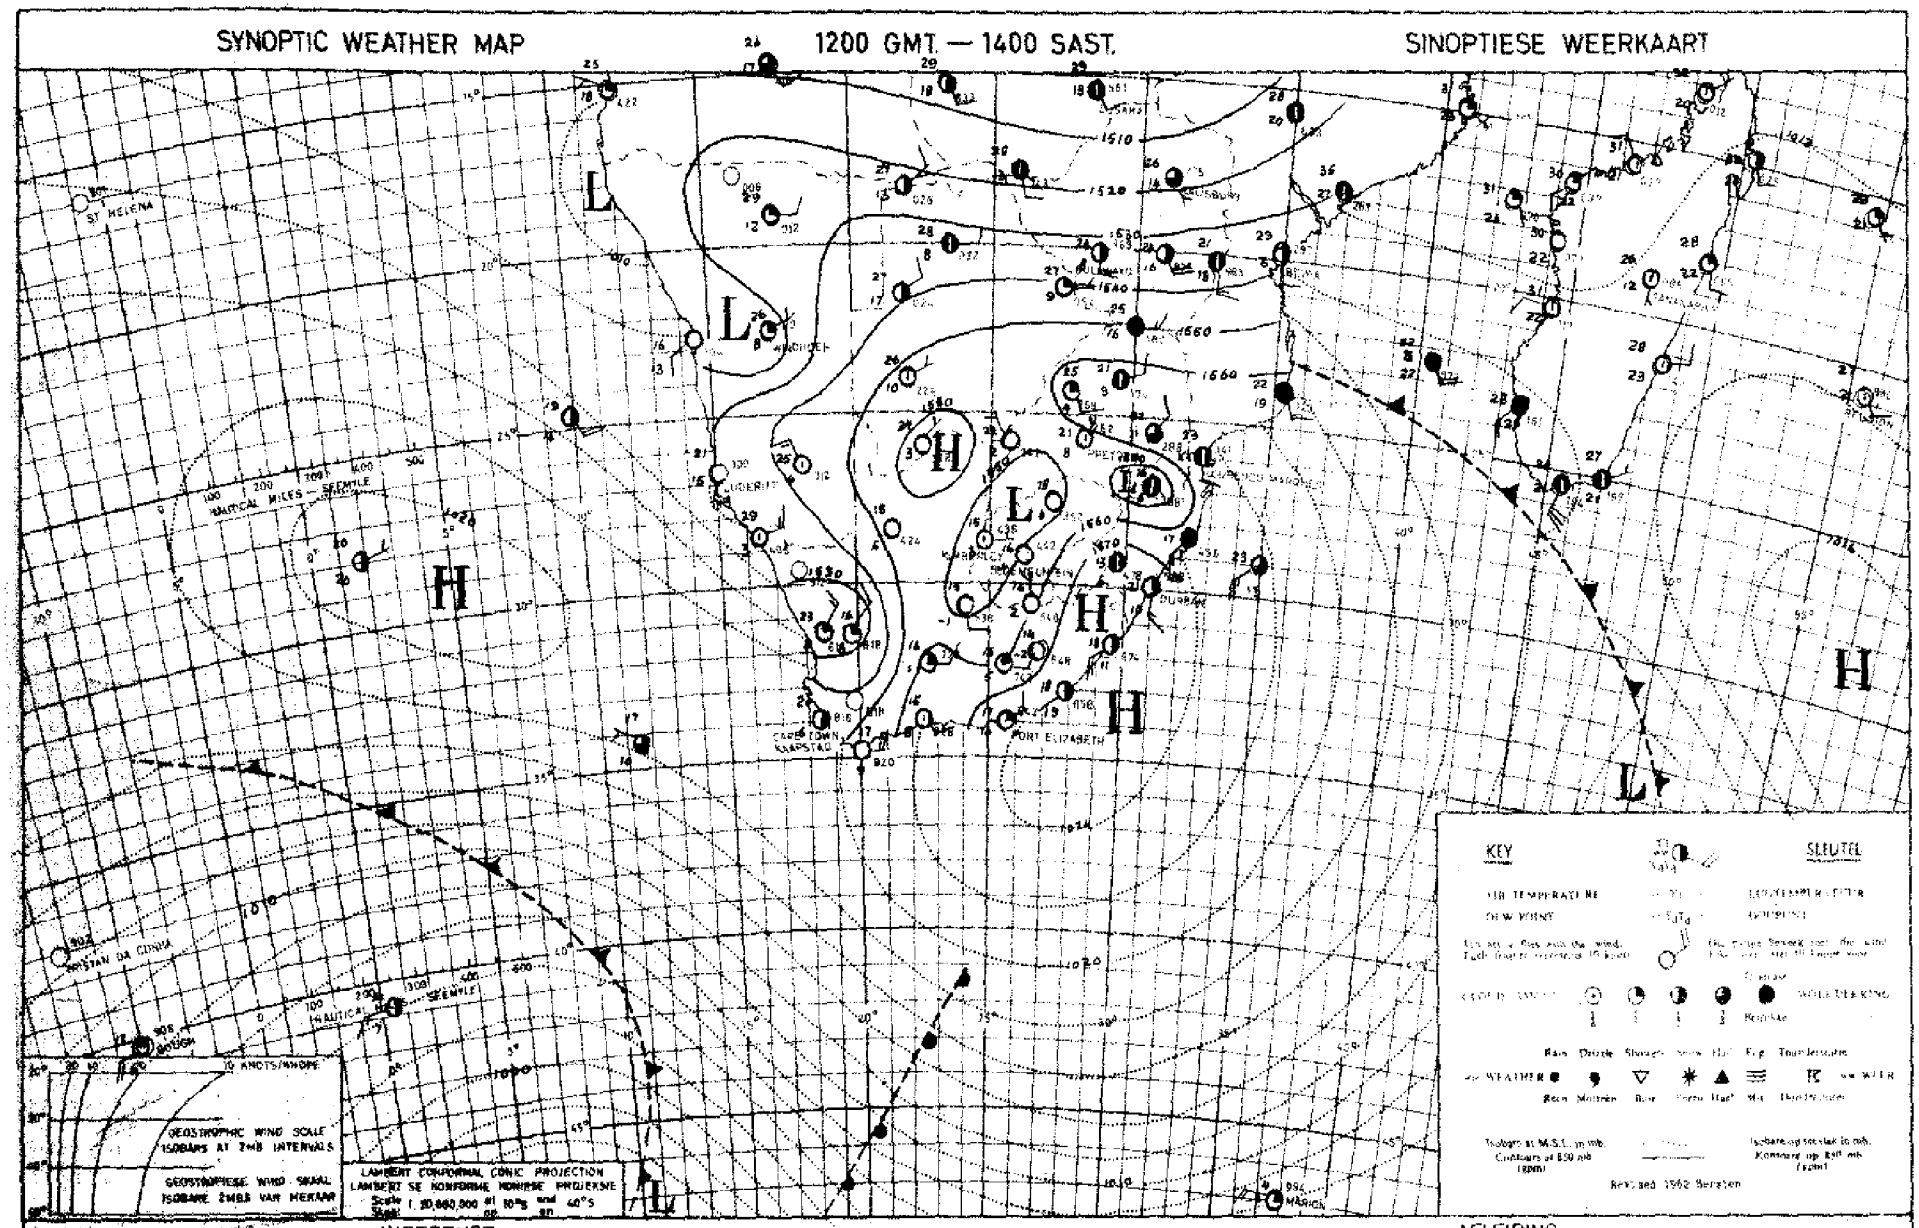
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 22 - 4 - 1962 DATUM — AFLEIDING

The high off the Natal coast will cause cloudy weather over the north eastern parts of the country, but it will clear partially later as the high moves further northwards. The cold front west of the Cape will cause cooler, cloudy conditions over the Peninsula later tomorrow.

Die hoog langs die Natalse kus sal bewolkte toestande veroorsaak oor die noordoostelike dele van die land. Dit sal later gedeeltelik opklaar oor hierdie dele namate die hoog verder noordwaarts beweeg. Die koufront wes van die Kaap sal koeler bewolkte toestande later môre oor die Skiereiland teweegbring.

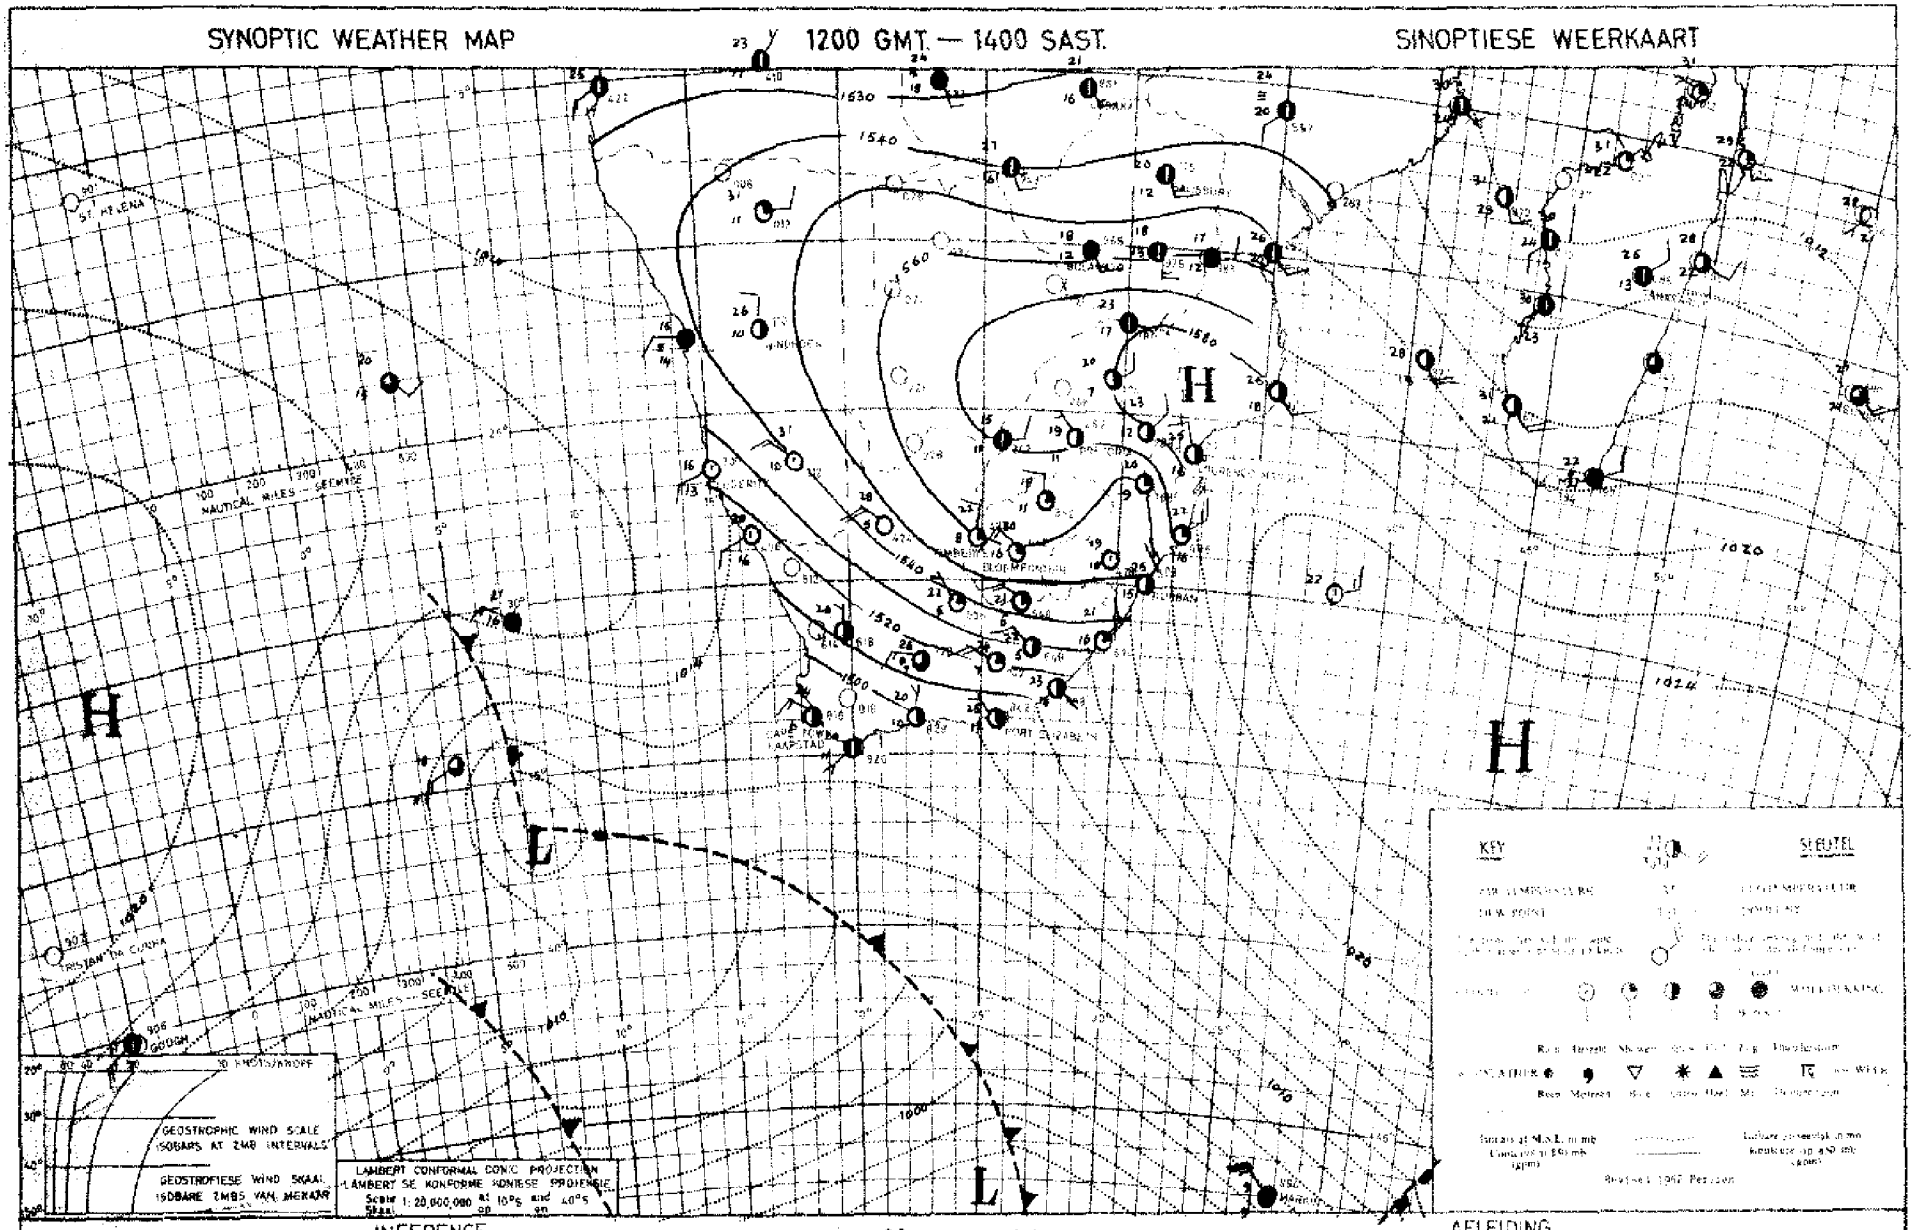
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 23 - 4 - 1967 DATUM

AFLEIDING

The high over the Indian Ocean is moving eastwards so that it will clear over the north-eastern parts of the country. The cold front to the west of the Cape will cause cloudy weather with showers along the south-western coast.

Die hoog oor die Indiese Oseaan beweeg oostwaarts en dit sal oor die noordoostelike dele van die land opklaar. Die koufront wes van die Kaap sal bewolkte weer met buie langs die suidwestkus veroorsaak.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

INFERENCE

DATE 24 - 4 - 1967 DATUM

AFLEIDING

The cold front situated over the south-western Cape coast is moving eastwards, with the result that cloudy, colder weather with showers will spread over the Cape coastal regions and adjacent interior. It will become cooler over the western and southern interior.

Die kouefront oor die Kaapse suidwestkus beweeg ooswaarts, met die gevolg dat bewolkte kouer weer met buie oor die Kaapse kusgebiede en aangrensende binneland sal uitbrei. Dit sal koeler word oor die westelike en suidelike binneland.

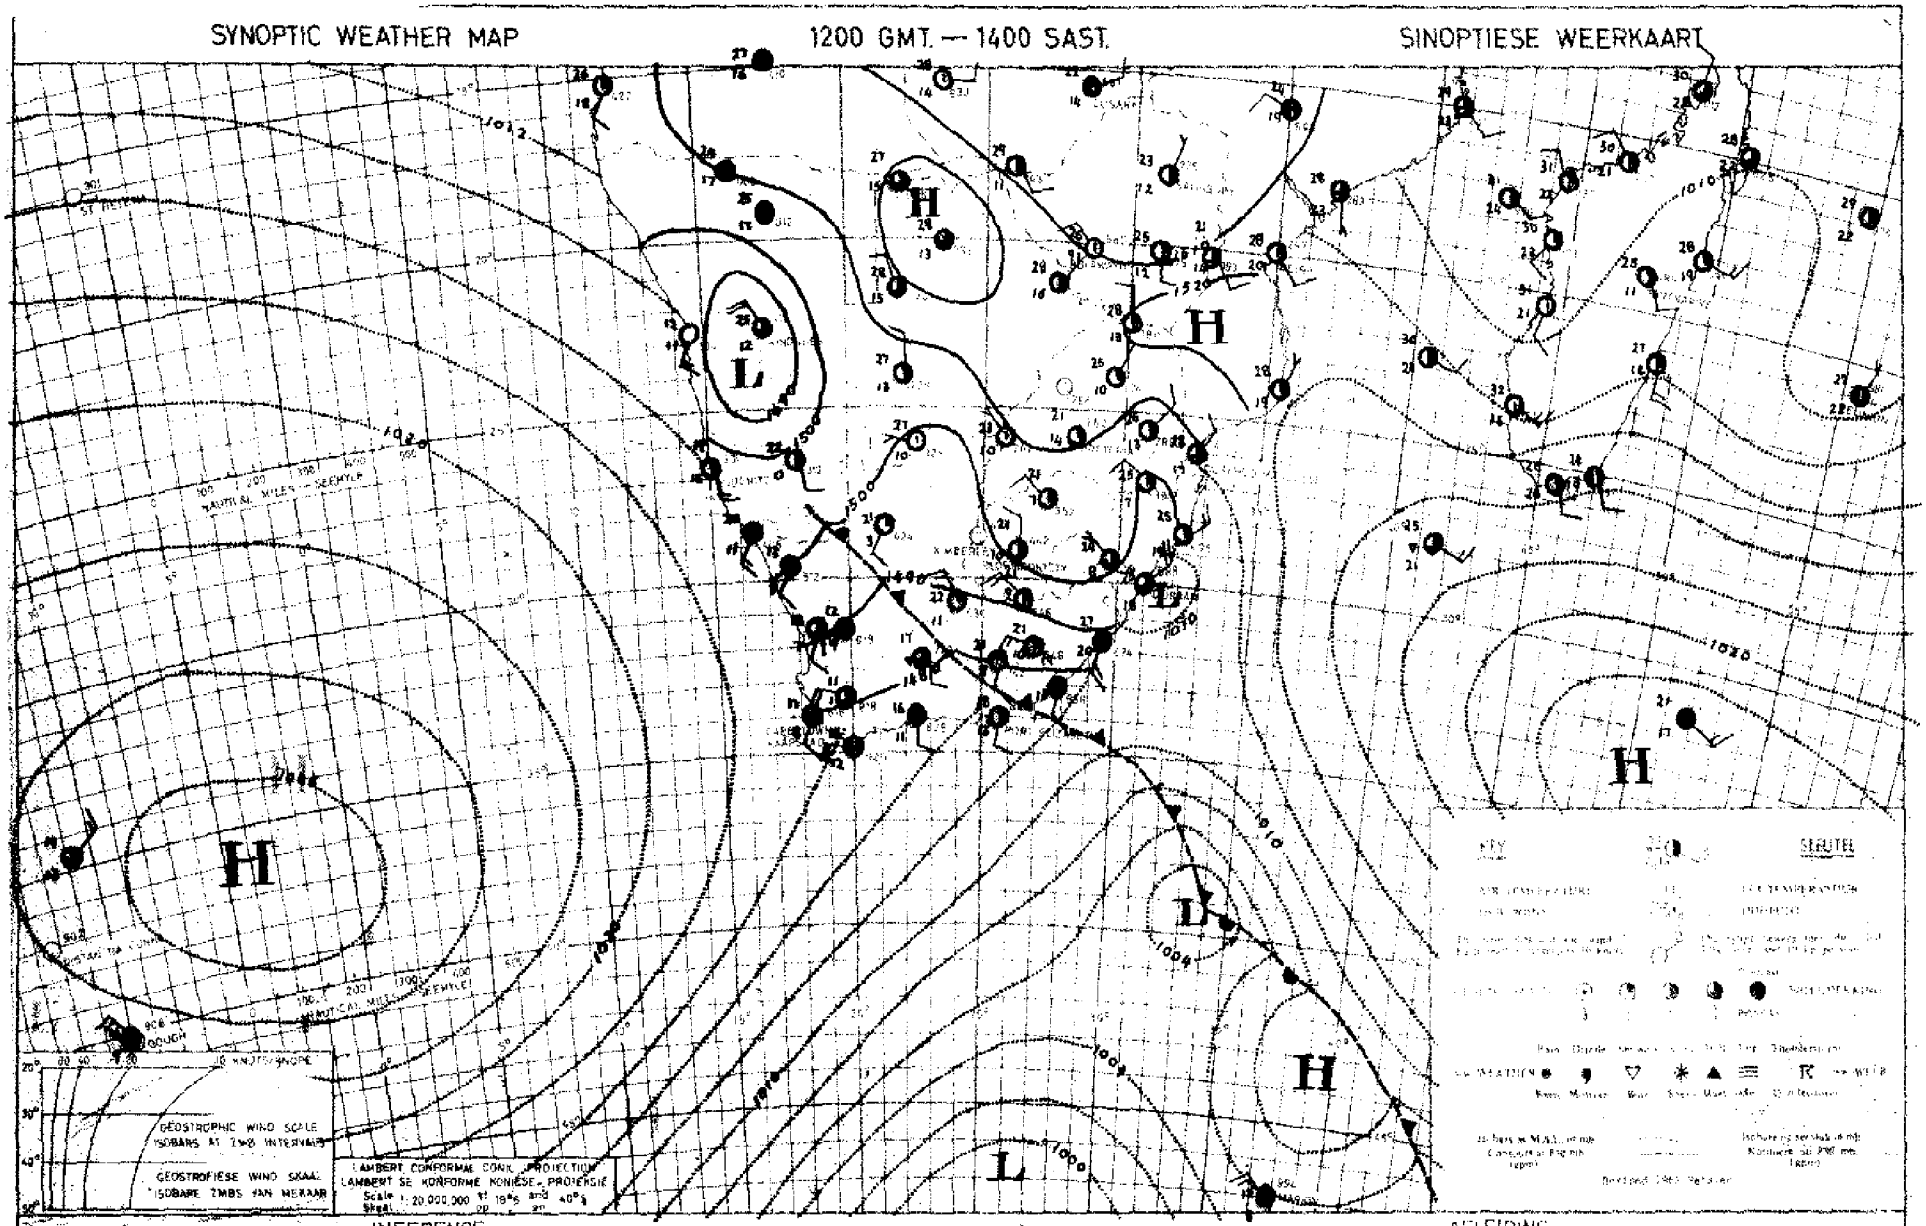
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 25 - 4 - 19 67 DATUM AFLEIDING

The cold front in the south is moving north-eastwards and will cause cloudy, colder weather with showers over the southern and eastern coastal regions and adjacent interior. Snow will fall over the eastern mountain ranges. A trough over the western parts in the upper air will cause showers or thunder-showers over the central, south-eastern and north-western interior.

Die koufront in die suide beweeg noordooswaarts en sal bewolkte kouer toestande met reën en buie veroorsaak oor die suidelike en oostelike kusgebiede en aangrensende binneland. Sneeu sal voorkom oor die oostelike bergreekse. 'n Trog oor die westelike dele in die bolug sal buie of donderbuie teweegbring oor die sentrale, suidoostelike en noordwestelike binneland.

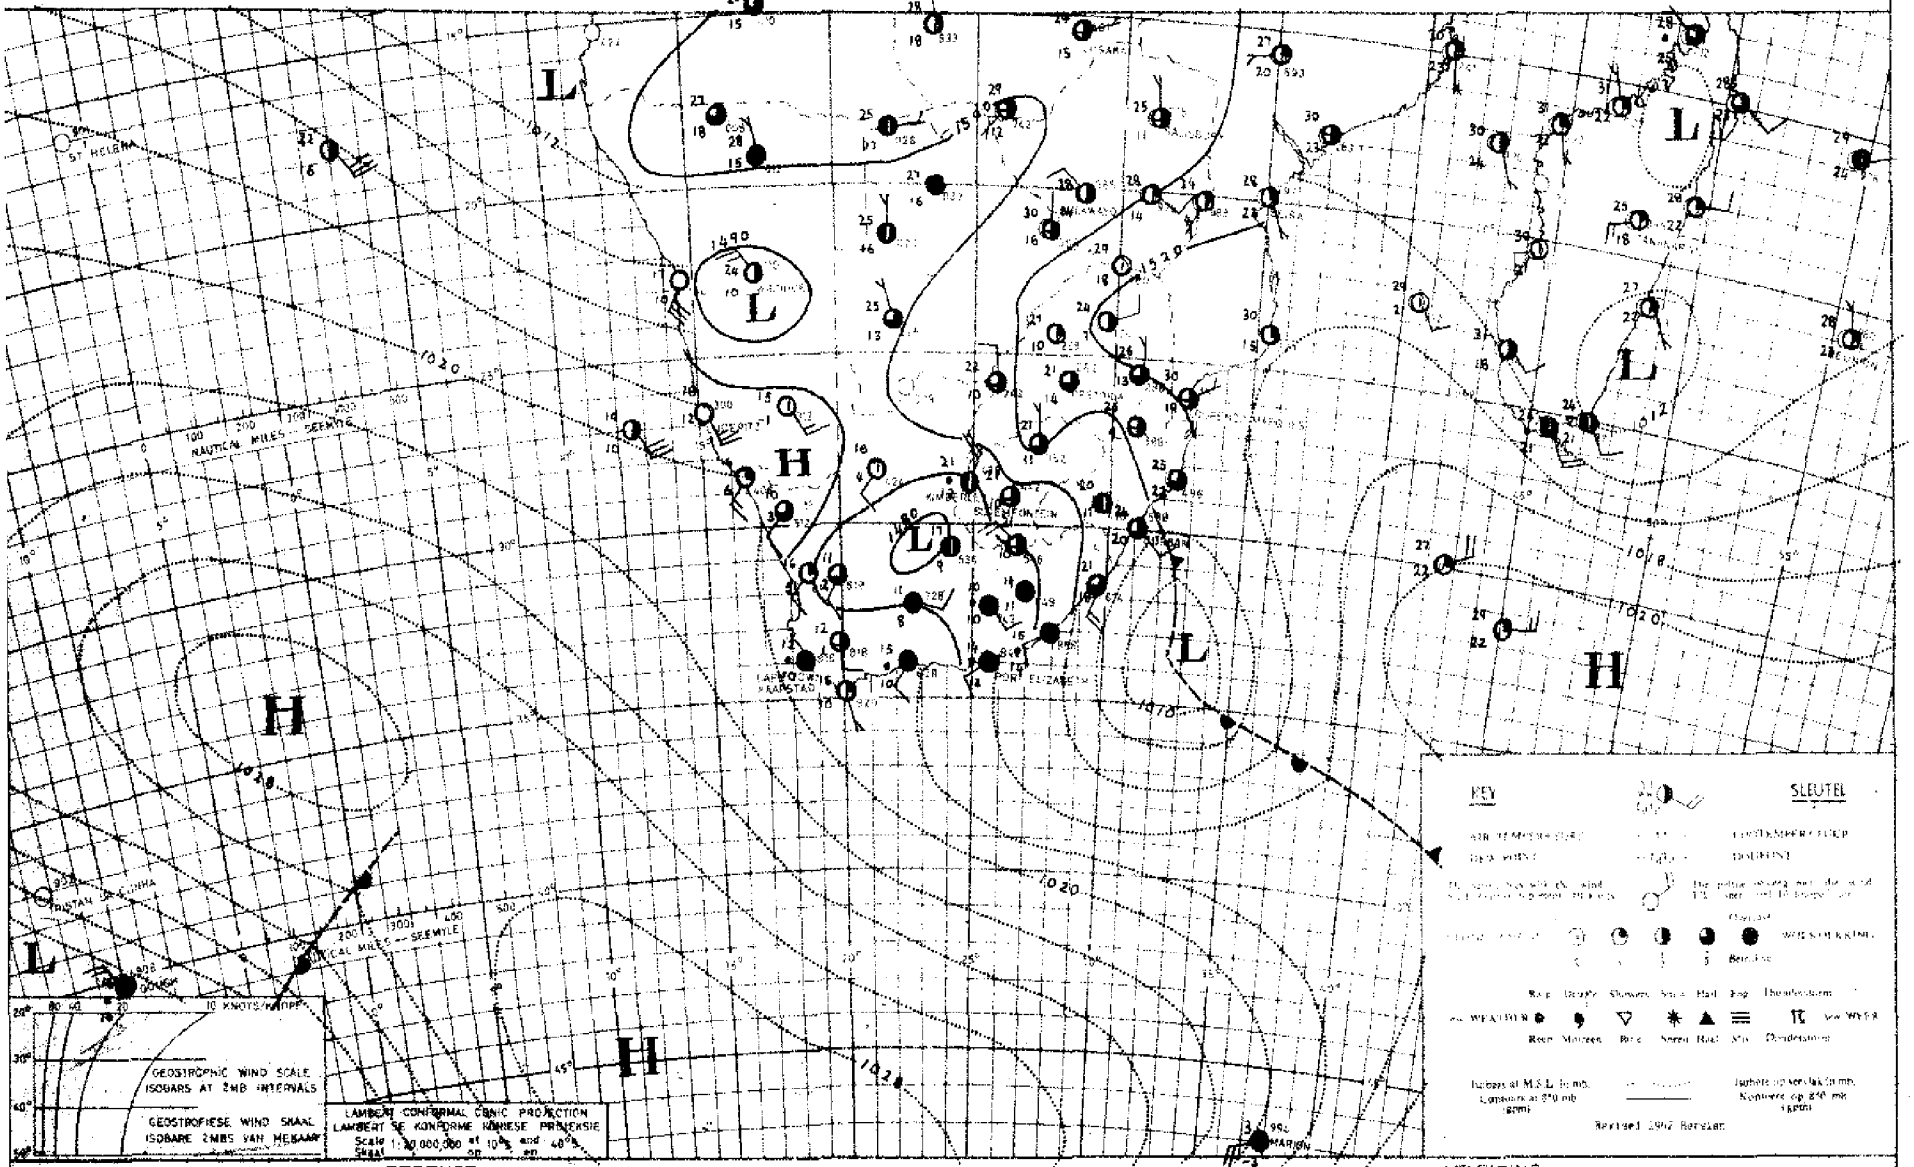
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 26 - 4 - 19 67 DATUM — AFLEIDING

The low over the Cape province is also present in the upper air is causing cloudy weather with rain over the southern and central regions of the country. The low to the east of Natal is moving eastwards and will have little further effect on the country's weather

Die laag oor die Kaaprovinsie is ook in die bolug teenwoordig en veroorsaak bewolkte weer met reën oor die suidelike en sentrale dele van die land. Die laag oos van Natal beweeg oostwaarts en enige verdere uitwerking daarvan op die land se weer sal slegs gering wees.

INFERENCE

DATE 27 - 4 - 1967 DATUM

AFLEIDING

The low south of the country is moving slowly eastwards. Cold cloudy weather with showers will be maintained over the southern and eastern parts of the country with further snowfalls over the mountain ranges. A trough in the upper air over the central interior will cause showers over the northern Orange Free State and over the southern and central parts of the Transvaal. With the low over the northern interior showers will occur over northern Botswana and north-eastern South West Africa.

Die laag suid van die land beweeg stadig oos-waarts. Koue bewolkte weer met reën en buie sal voortduur oor die suidelike en oostelike dele van die land met verdere sneeuvalle oor die bergreekse. 'n Trog in die bolug oor die sentrale dele van die land sal buie teweegbring oor die Noord-Vrystaat en oor die suidelike en sentrale dele van Transvaal. Met die laag oor die noordelike binneland sal buie voorkom oor noordelike Botswana en noordoostelike Suidwes-Afrika.

INFERENCE

The upper air trough wich is situated over the interior is moving eastwards and drier air will spread over the country. Cloudy cool weather with rain will occur over the eastern parts of the country, clearing gradually later tomorrow.

DATE 28 - 4 - 1967 DATUM

AFLEIDING

Die bolugtrog wat oor die binneland geleë is, beweeg ooswaarts en droër lug beweeg in oor die land. Bewolkte koel weer met reën oor die oostelike dele van die land voorkom, maar dit sal môre geleidelik begin opklaar.

INFERENCE

DATE 29 - 4 - 1967 DATUM

AFLEIDING

With a high pressure system over the western interior it will be fine over these parts and it will clear gradually eastwards. With a low present over Natal cloudy weather with showers are expected here. Over the southern coastal areas mainly fair weather will occur but it will be cloudy overnight.

Met 'n hoogdrukstelsel oor die westebinneland sal dit mooiweer wees oor dié dele en dit sal geleidelik opklaar in die ooste. 'n Laag oor Natal sal nog bewolkte weer tot gevolg hê en buie sal voorkom. Oor die suidelike kusstreke sal dit redelike mooiweer wees maar bewolk oornag.

Dry air is in circulation over the country, so that it will be fine or slightly cloudy over most regions.

Droë lug sirkuleer oor die land sodat dit mooiweer of effens bewolk sal wees oor die meeste dele.

INFERENCE

DATE 1 - 5 - 1967 DATUM

AFLEIDING

The high off the east coast is advecting moist air over the extreme north-eastern parts of the country where it will be cloudy to partly cloudy. With a moist westerly stream south of the country partly cloudy weather will also occur along the south-west coast. Over the interior the air is dry and it will be fine.

Die hoog langs die ooskus veroorsaak 'n instroming van vogtige lug oor die heel noordoostelike dele van die land waar dit bewolk tot gedeeltelik bewolk sal wees. Met 'n vogtige westelike stroom suid van die land sal gedeeltelik bewolkte weer ook langs die suidweskus voorkom. Die lug oor die binneland is droog en dit sal mooiweer wees.

INFERENCE

DATE 2 - 5 - 19 67 DATUM

AFLEIDING

With a zonal upper air circulation it will be mainly fine and mild over the interior but cloudy conditions with rain will occur over the extreme northern Transvaal with onshore winds over the south-west Cape coast it will be cloudy and showers will occur. Over the rest of the coast it will be fair and mild.

Met die bolugsirkulasie sonaal sal dit hoofsaaklik mooiweer en matig wees oor die binneland maar bewolkte weer met buie sal in die verre Noord-Transvaal voorkom. Met 'n westelike lugstroom oor die suidwestelike kusstrook sal bewolkte weer met buie ook hier voorkom. Oor die res van die kus sal dit redelik mooiweer wees.

The trough to the west of the Cape will cause cloudy weather with occasional showers along the western and south-western coasts. Over the remainder of the country where the air is dry it will be fair and warm.

Die trog wes van die Kaap sal bewolkte weer met afwisselende buie langs die wes- en suidwestkus veroorsaak. Oor die res van die land is die lug droog en dit sal redelik mooiweer en warm wees.

SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART

INFERENCE — DATE 6 - 5 - 1967 DATUM — AFLEIDING

The trough to the west of Cape Town is moving south-eastwards and it will clear along the south-west coast. The low along the east coast will cause partly cloudy to cloudy weather along this region. A weak trough is present over the south-eastern interior and thunder-showers will occur over the Southern Orange Free State and North-eastern Cape.

Die trog wes van Kaapstad beweeg suidoostwaarts en dit sal opklaar langs die suidweskus. Die laag langs die oskus sal gedeeltelik bewolkte tot bewolkte weer langs hierdie gebied veroorsaak. 'n Swak trog is oor die suidoostelike binneland teenwoordig en donderbuie sal oor Suid-Oranje Vrystaat en Noordoos-Kaapland uitsak.

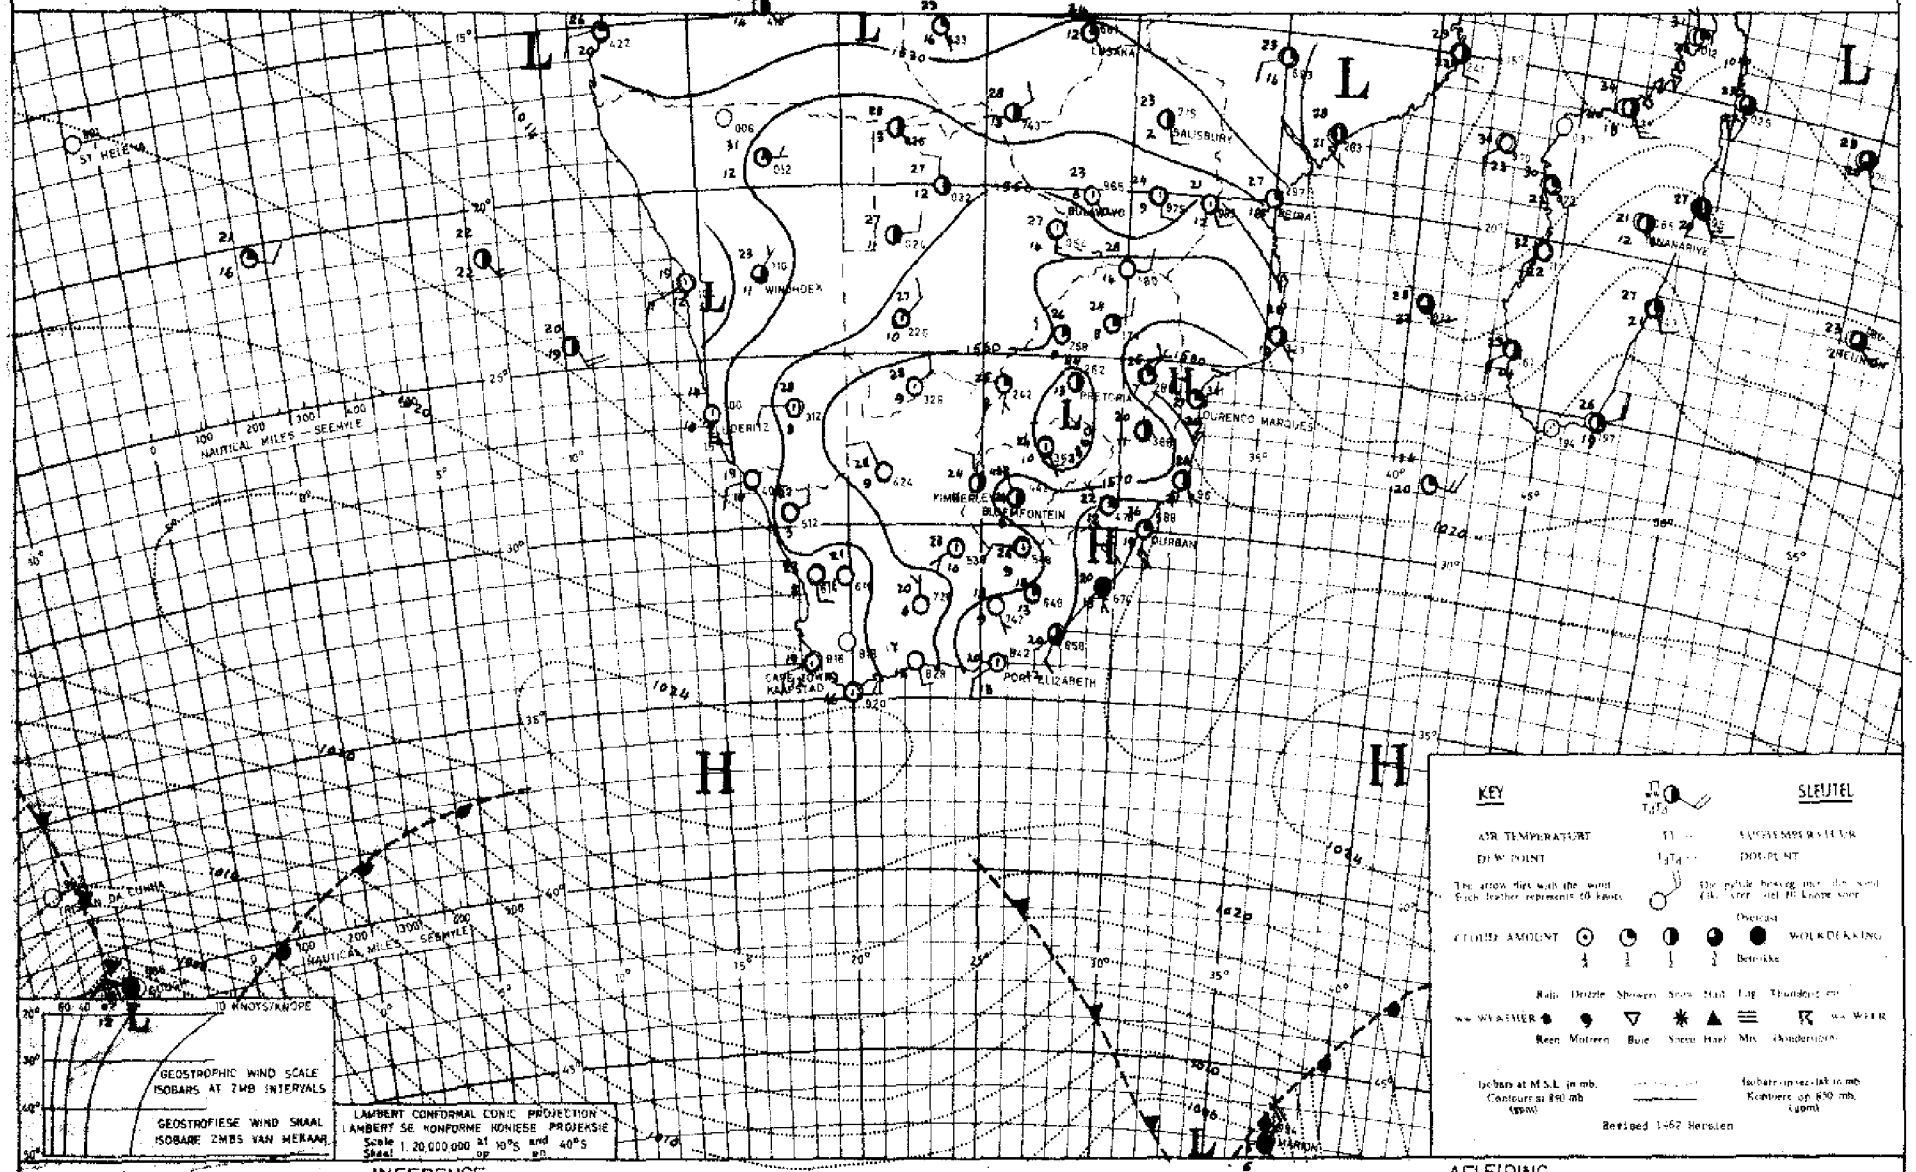
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 7 - 5 - 1967 DATUM — AFLEIDING

The pressures along the east coast are rising and a cell of high pressure is moving in south of the country. The upper air is still anticyclonic and only partly cloudy weather is expected over the eastern interior. Over the rest of the country it will be fair and mild to warm.

Die drukke langs die ooskus styg en 'n sel van hoë druk beweeg suid van die land in. Die bolugstroming bly nog antisiklonaal, dus word slegs gedeeltelik bewolkte toestande oor die oostelike binneland verwag. Oor die res van die land sal dit redelik mooiweer en matig tot warm wees.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 8 - 5 - 1967 DATUM

AFLEIDING

With an upper air trough over the western parts of the country and fairly moist air in circulation, it will be partly cloudy over most regions with isolated thundershowers over the western and central interior.

Met 'n bolugtrog oor die westelike dele van die land en met redelik vogtige lug in sirkulasie sal dit gedeeltelik bewolk wees oor die meeste dele met los donderbuie oor die westelike en sentrale binneland.

Moist air over the South-western and central parts of the Cape Province will cause partly cloudy weather with isolated showers or thunder-showers. With dry air over the remainder of the country it will remain fair.

Vogtige lug oor die Suid Westelike en sentrale dele van Kaapland sal gedeeltelike bewolkte weer met los buie en donderbuie veroorsaak. Oor die res van die land is die lug droog en sal dit redelik mooiweer bly.

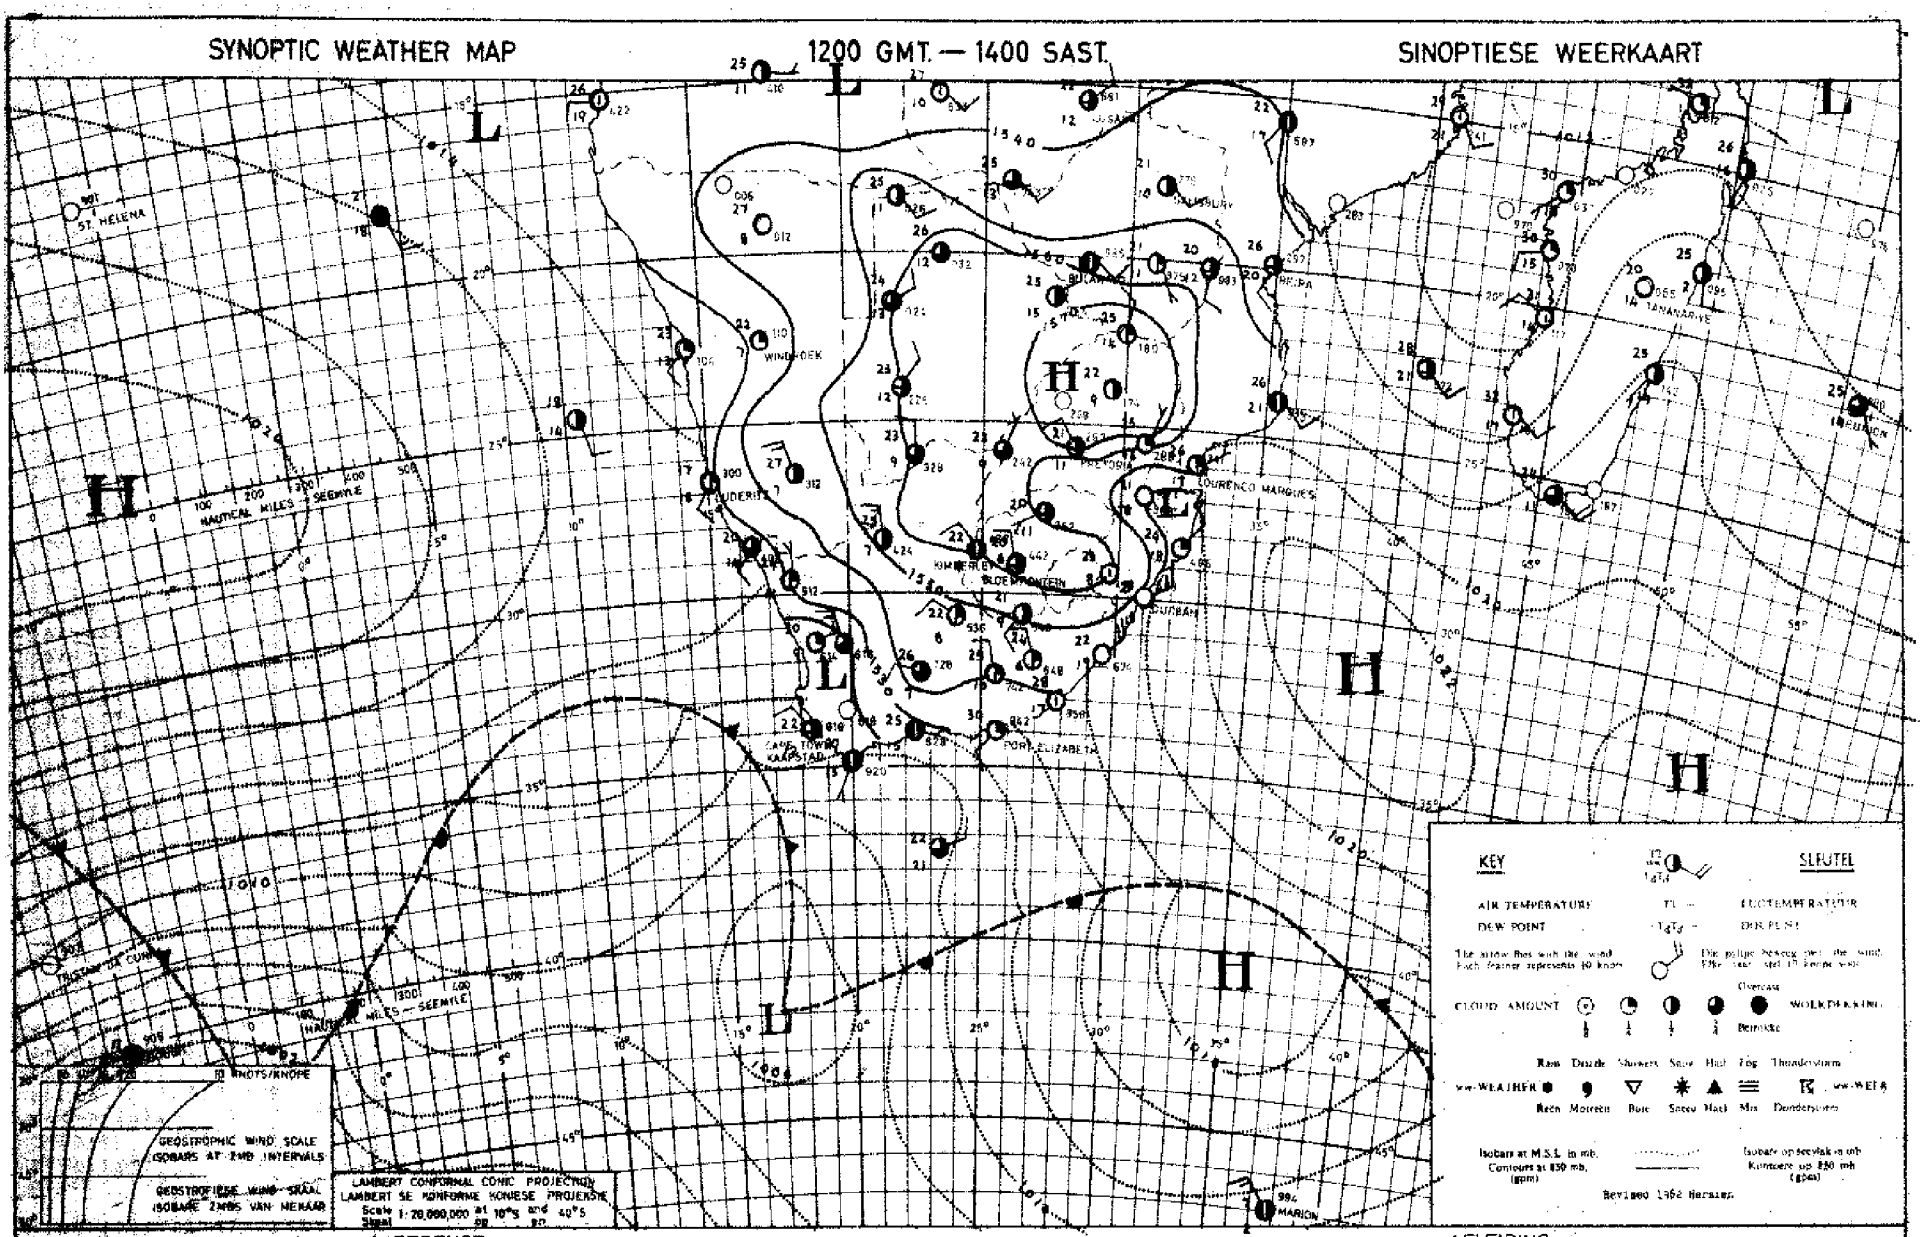
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 10 - 5 - 19 67 DATUM — AFLEIDING

With an anticyclonic upper air circulation fine weather will prevail over the northern interior of the country. A low over the south-western Cape will cause partly cloudy conditions with isolated showers over the central Cape and southern Freestate. A cold front near the Cape will cause cool, cloudy weather with rain over south-western and southern Cape Province.

Met die bolugsirkulasie antisiklonaal sal dit hoofsaaklik mooiweer wees oor die noordelike dele van die land. 'n Laag oor Suidwes-Kaapland sal gedeeltelike bewolkte weer met los buie oor kaapse binneland en Suid-Vrystaat tot gevolg hê. Met 'n koufront naby die Kaap sal koel, bewolkte weer met reën oor Suidwes- en Suid-Kaapland voorkom.

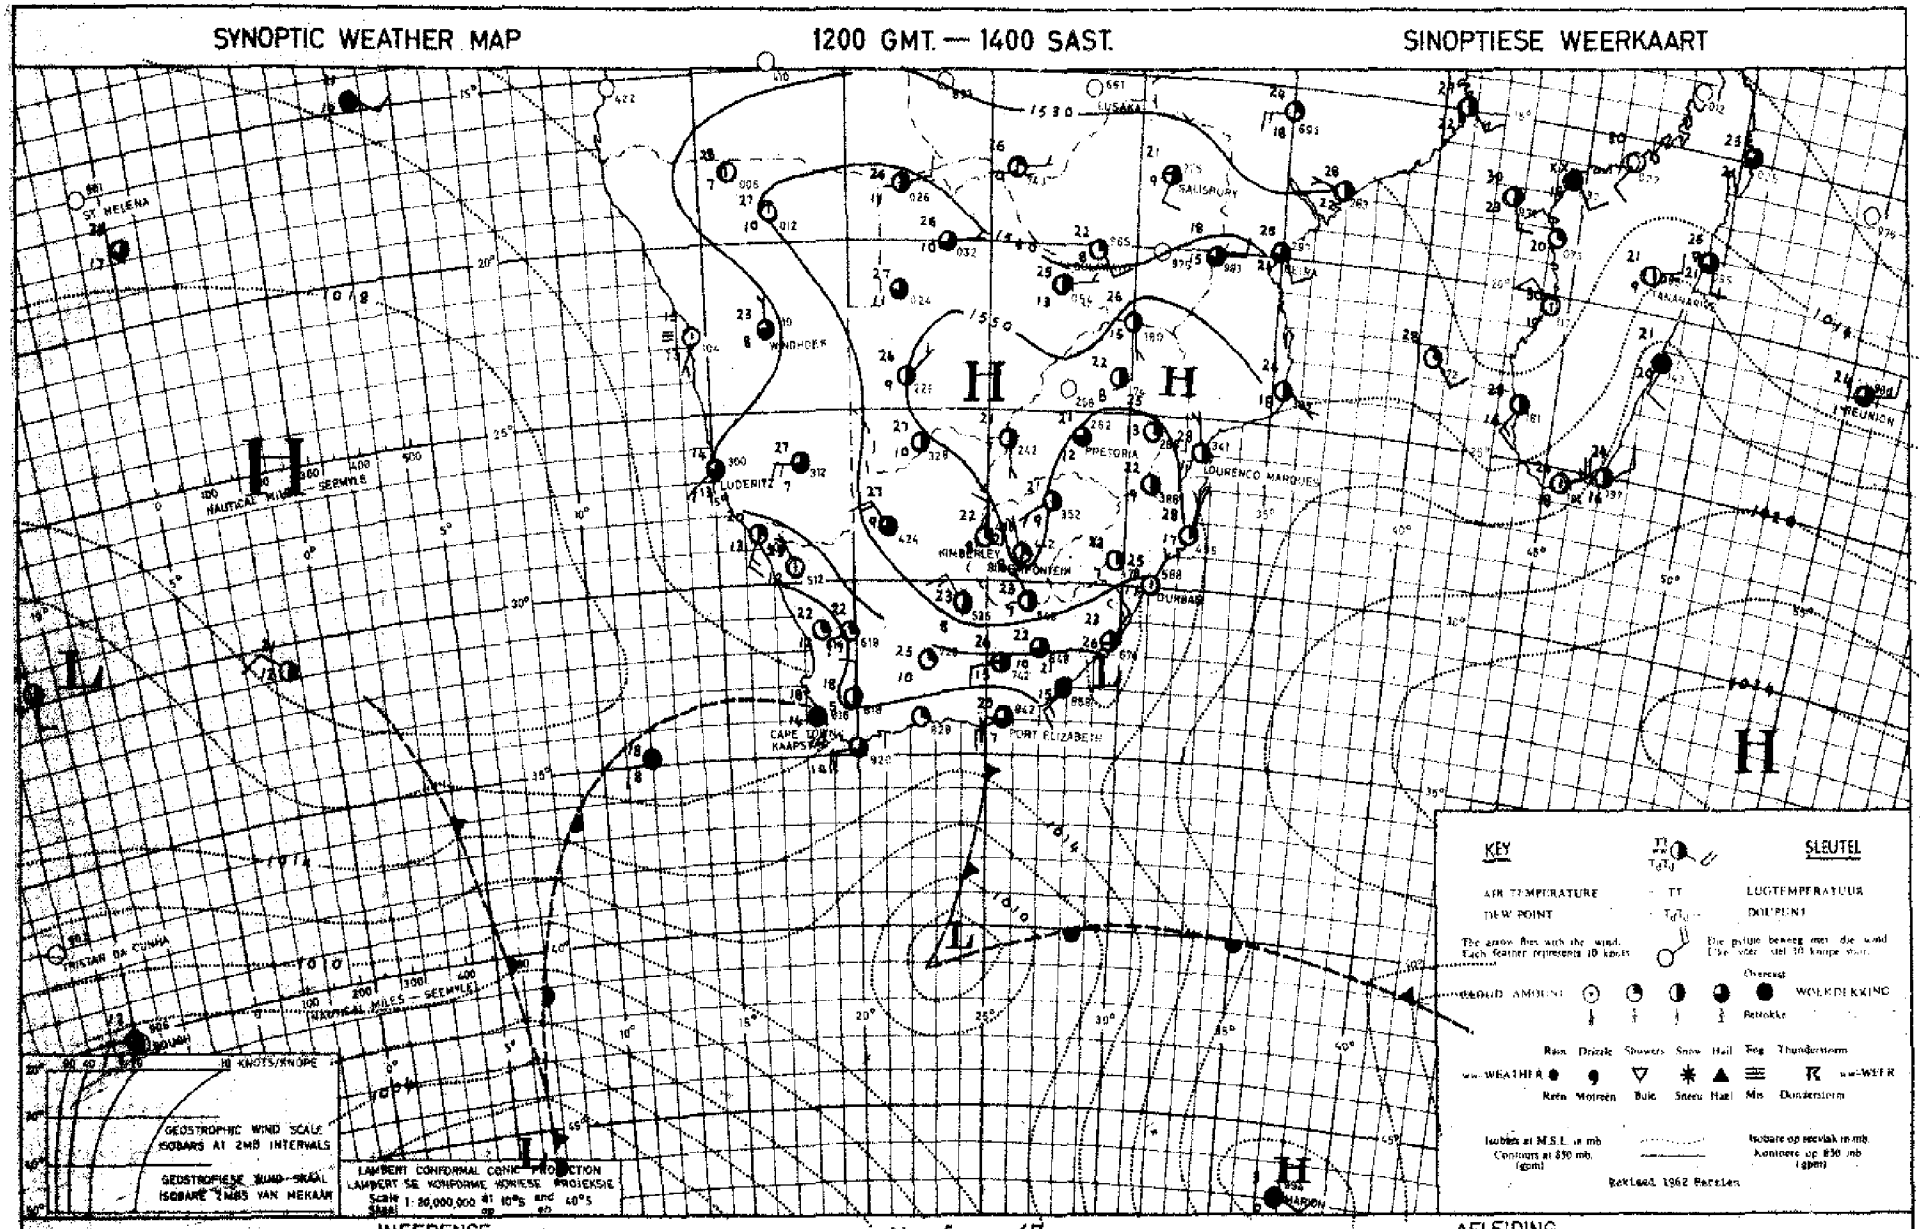
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

With a high pressure system situated over the country it will remain fine or partly cloudy over most regions. With a low pressure area to the south of the country, cloudy weather with light rain will occur along the south-western Cape coast.

DATE 11 - 5 - 1967 DATUM

AFLEIDING

Met 'n hoogdrukstelsel oor die binneland sal dit mooiweer of gedeeltelik bewolk bly oor die meeste gebiede. Met 'n gebied van lae druk suid van die land sal bewolkte weer met ligte reën oor die Kaapse suidweskus voorkom.

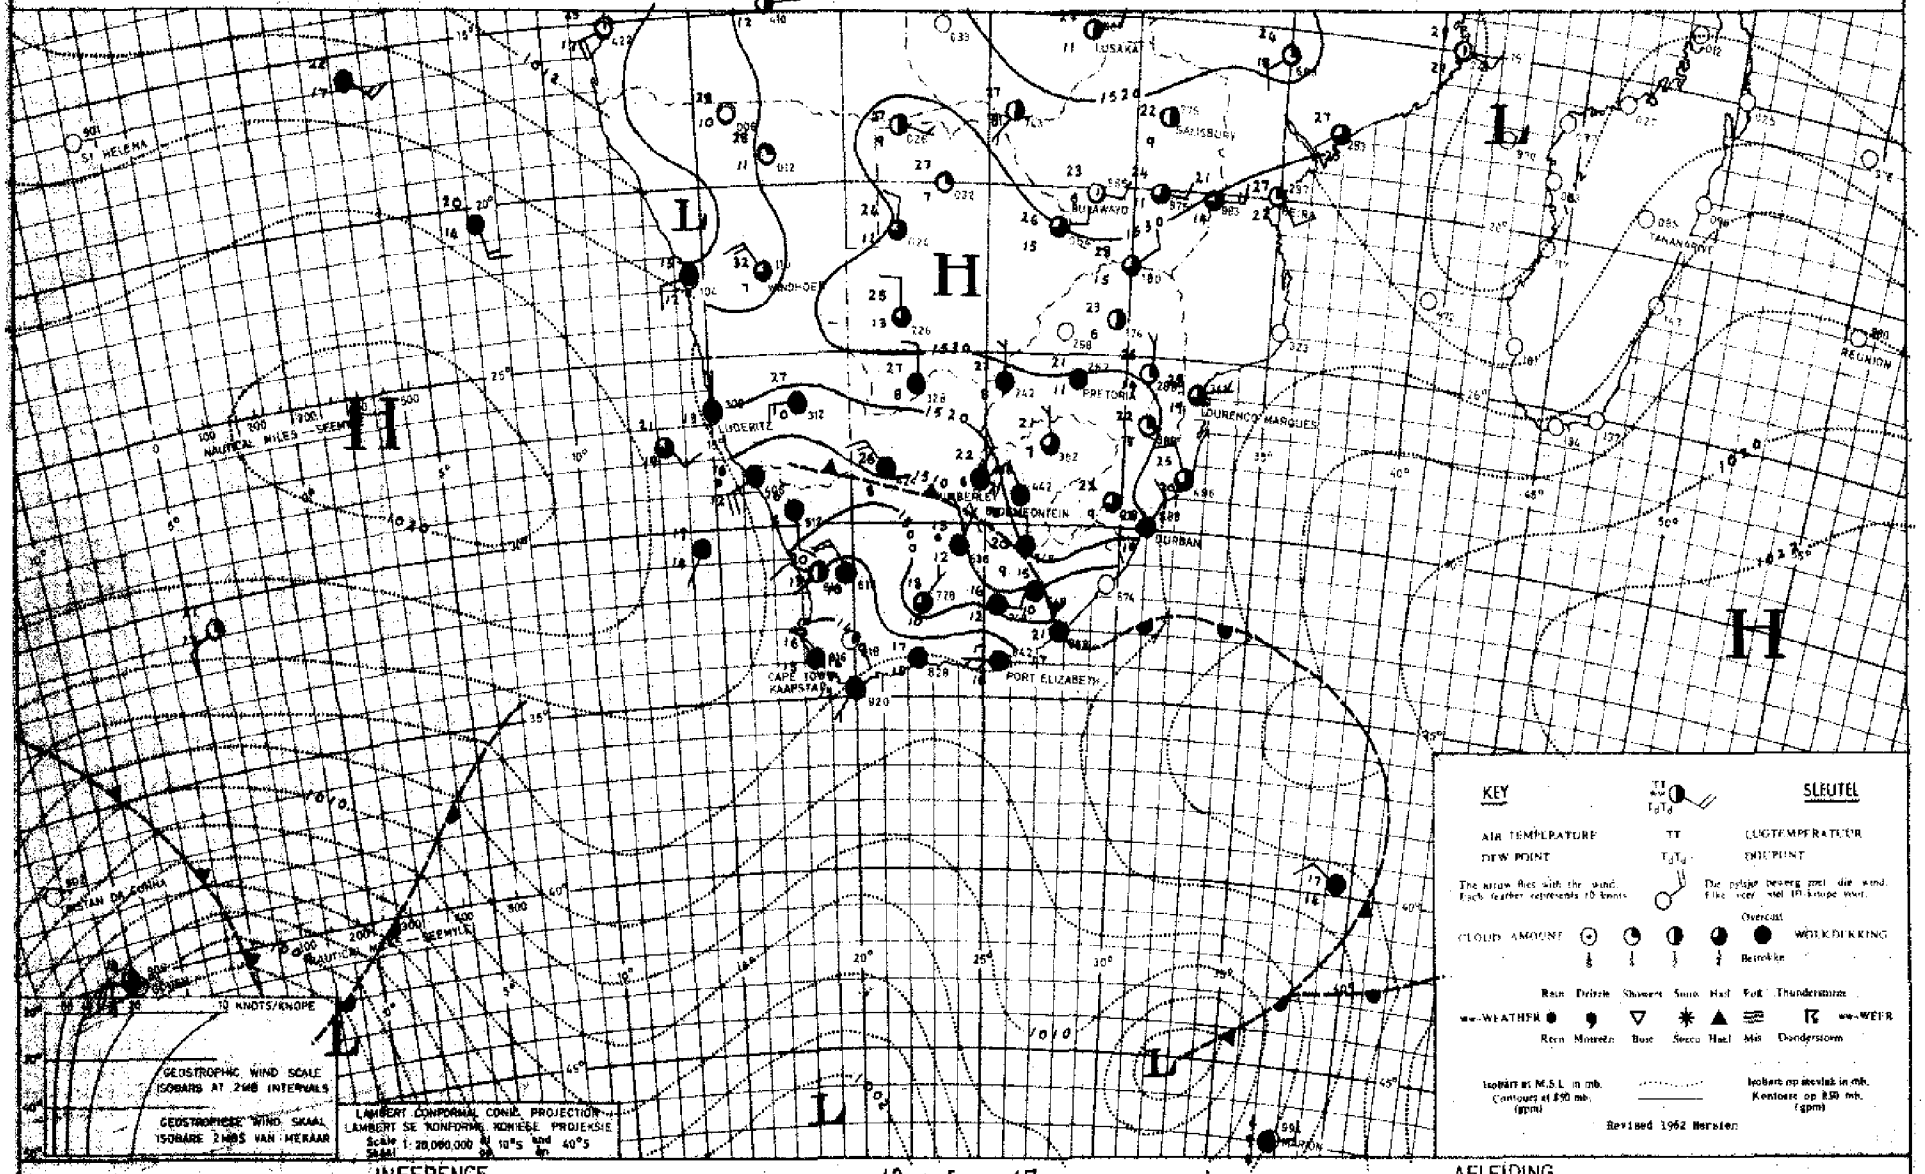
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 12 - 5 - 1967 DATUM — AFLEIDING

The trough over the Cape Province is moving eastwards and cooler weather with showers will spread to the central and eastern regions. The Atlantic high is advecting dry air over the western interior where it will clear.

Die trog oor Kaapland beweeg ooswaarts en koeler weer met buie sal oor die oostelike en sentrale gebiede uitbrei. Die Atlantiese hoog voer vogtige lug oor die westelike binnaland in waar dit sal opklaar.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 14 - 5 - 1967 DATUM

AFLEIDING

The cold front west of Cape Town is moving south-eastwards away from the country and it will clear along the south-west coast. Onshore winds are causing partly cloudy weather along the east coast.

Die koufront wes van Kaapstad beweeg suid-ooswaarts weg van die land af en dit sal langs die suidweskus opklaar. Vogtige suidwestewinde veroorsaak gedeeltelik bewolkte weer langs die ooskus.

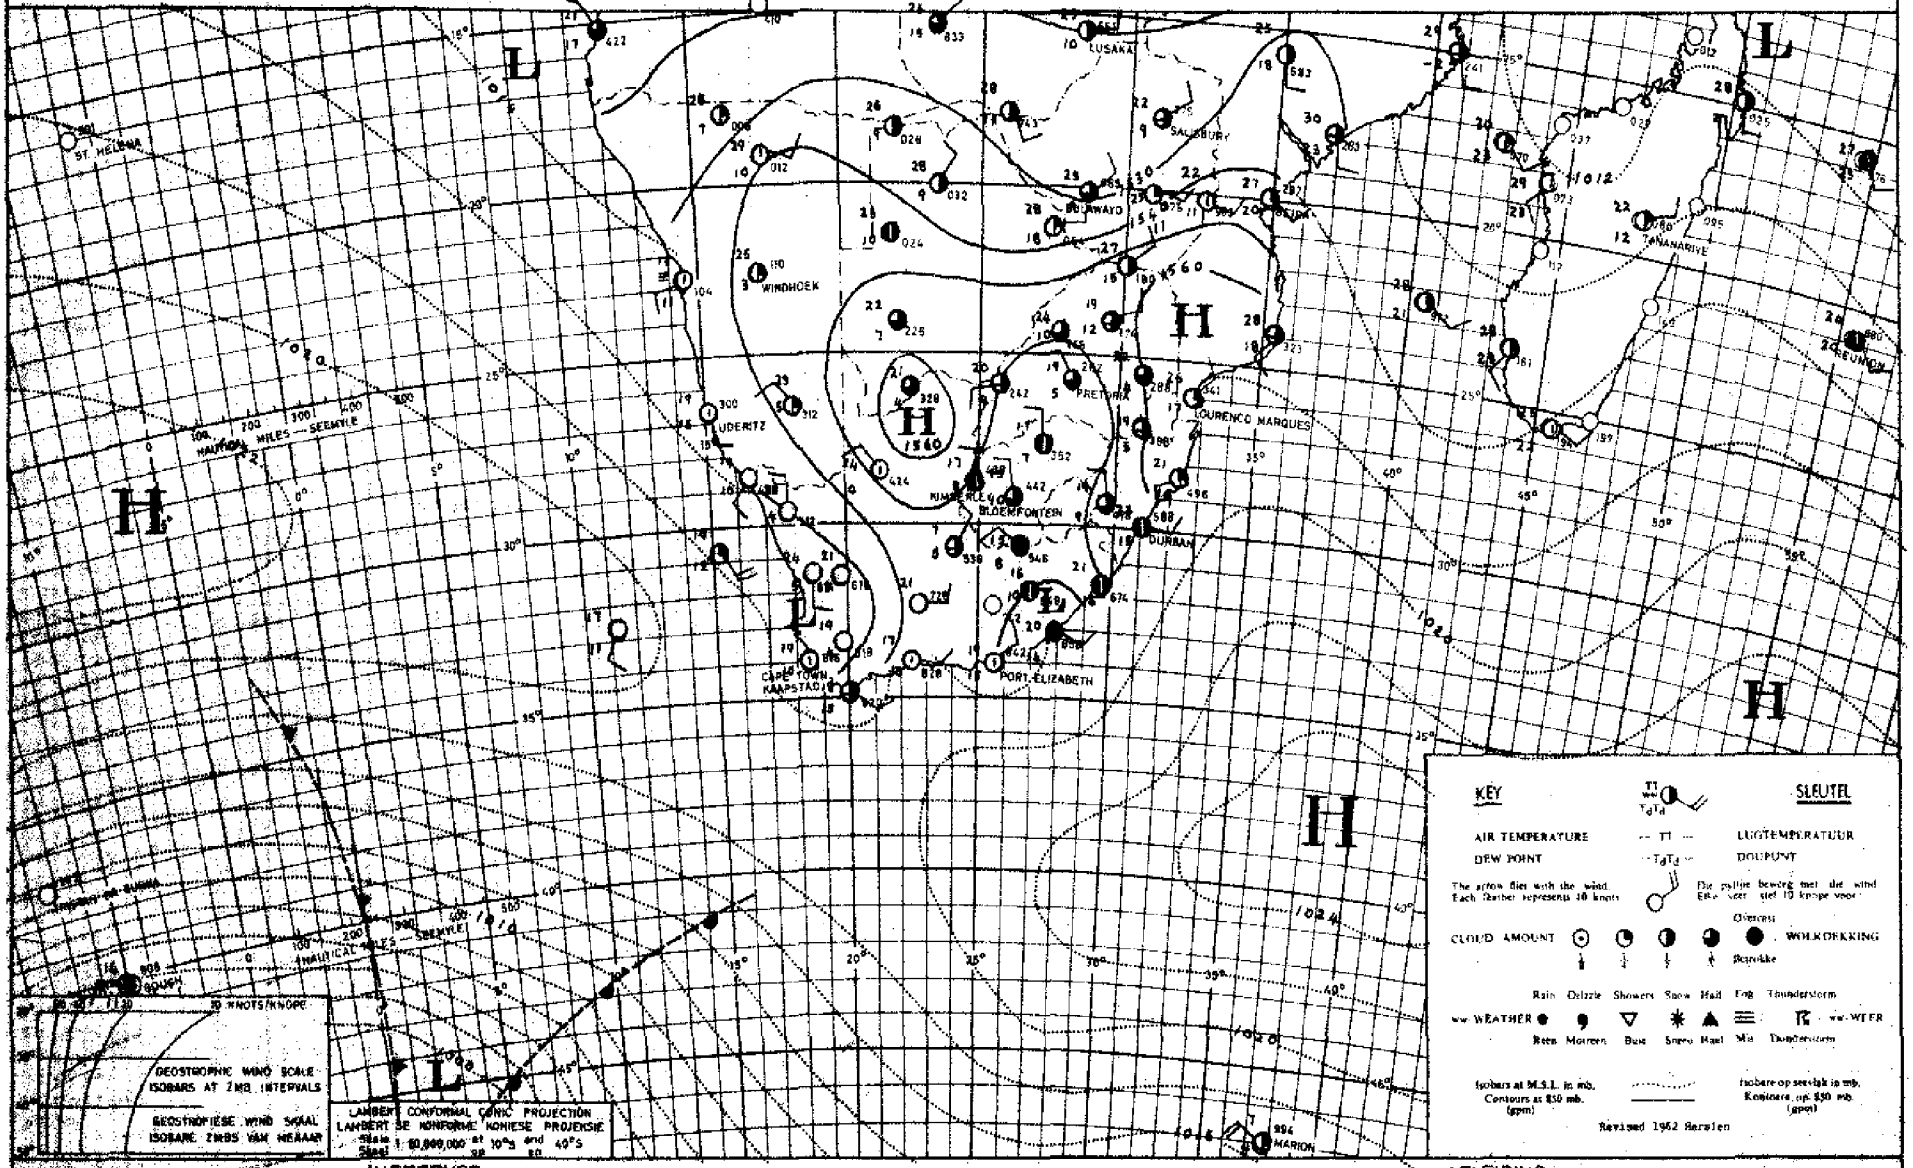
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

With a high-pressure system over the north-eastern interior and falling pressures along the east coast, it will remain fine to partly cloudy and mild over the interior. It will be fair and mild over the coastal areas but with a cold front approaching the Cape, it will become cloudy and cool over the south-western Cape tomorrow evening.

DATE 15 - 5 - 1967 DATUM

AFLEIDING

Met 'n hoogdrukstelsel oor die noordoostelike binneland en dalende drukke langs die ooskus, word min verandering in die heersende weerstoestande verwag en sal dit hoofsaaklik mooiweer tot gedeeltelik bewolk en matig bly oor die binneland. Oor die kusstreke sal dit redelike mooiweer wees maar met die kouefront wat die Kaap nader, sal dit bewolk en koeler word oor die suidwes-kus more-aand.

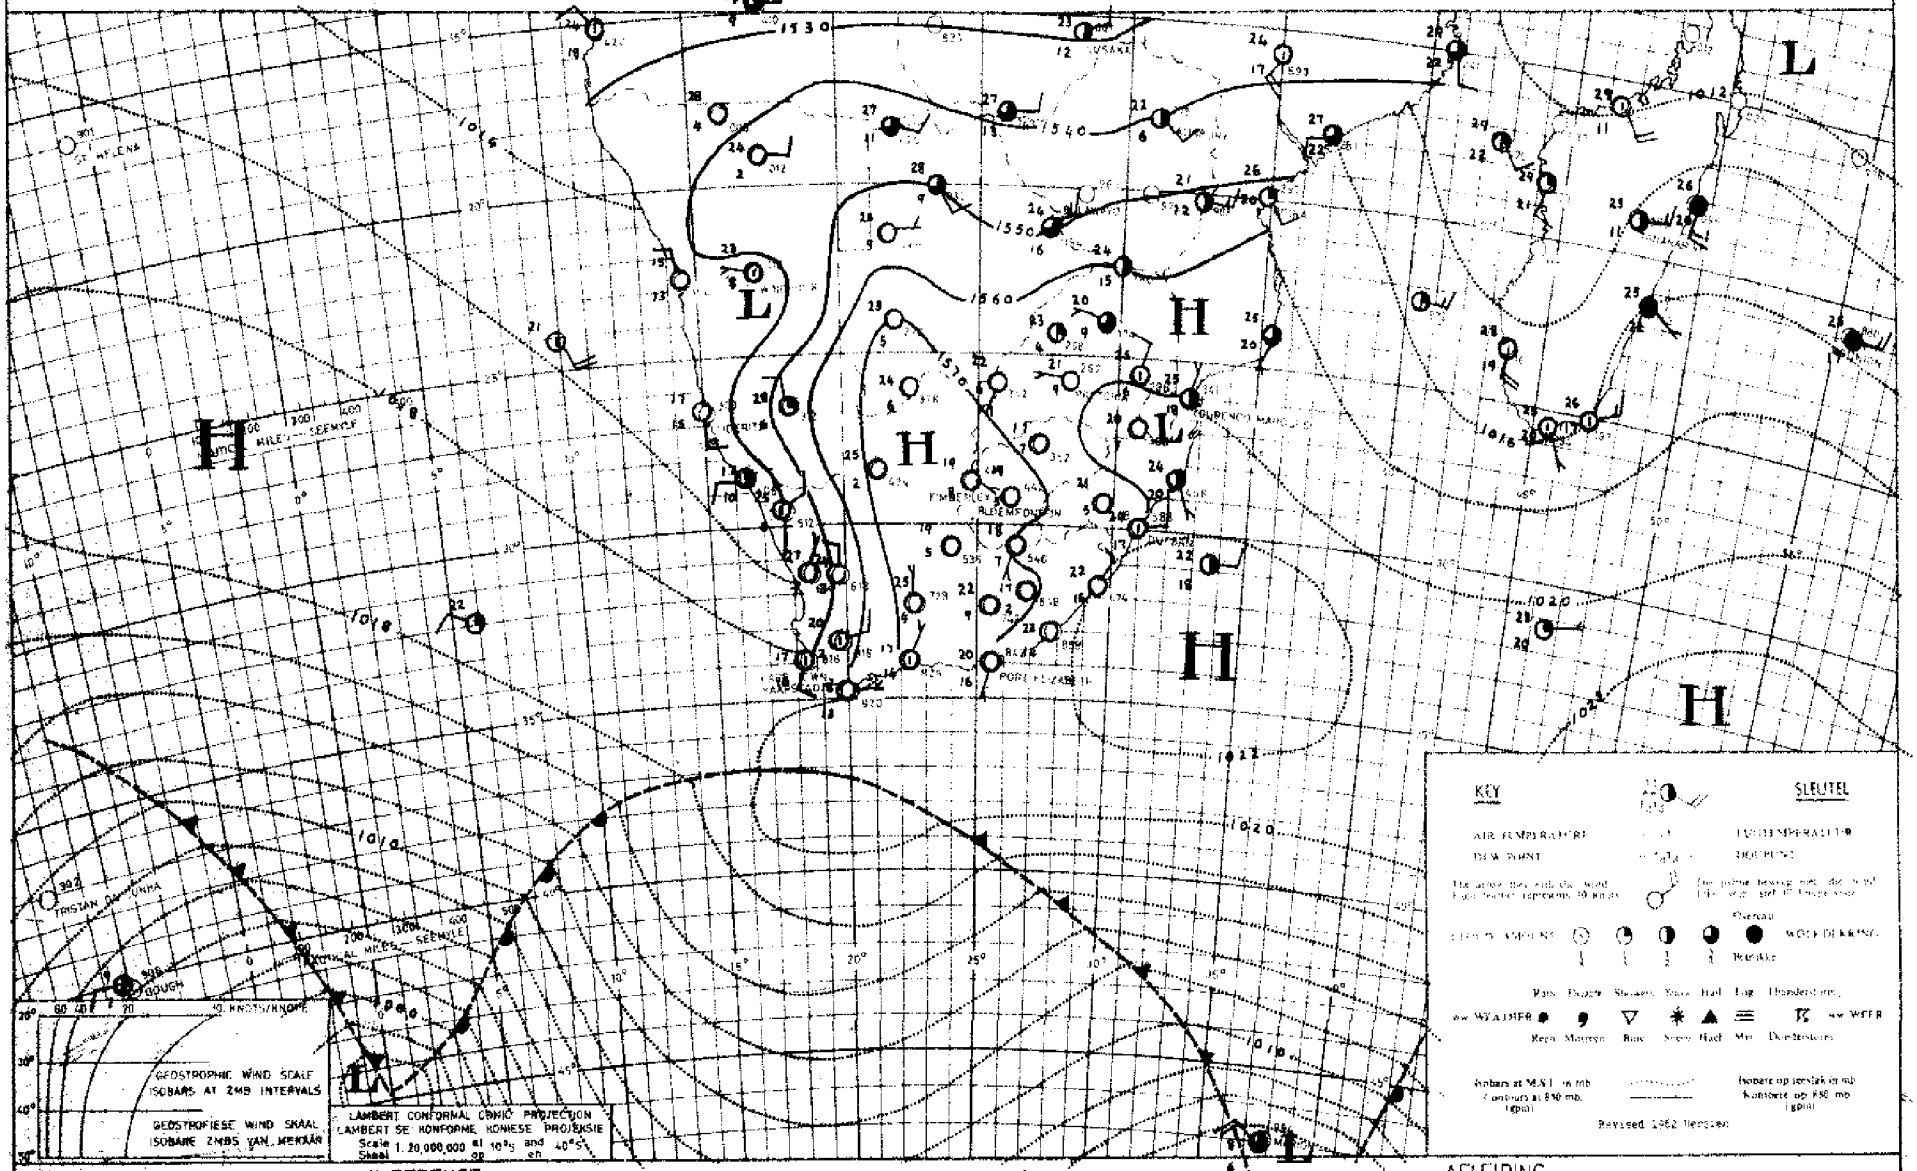
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 16 - 5 - 1967 DATUM — AFLEIDING

A high is situated over the interior and, with dry air in circulation, fair weather is expected generally, except over Northern Transvaal where it will be partly cloudy.

'n Hoog is aanwesig oor die binneland en met droë lug in sirkulasie word mooiweer verwag behalwe in Noord-Transvaal waar dit gedeeltelik bewolk sal wees.

INFERENCE

DATE 17 - 5 - 1967 DATUM

AFLEIDING

With a dry, anticyclonic circulation over the interior the weather will be fair over all regions. As a result of the low pressure area over the western and south-western coasts, fog will occur overnight and in the morning along these regions.

Met 'n droë antisiklonale sirkulasie oor die binneland sal dit redelike mooiweer bly oor al dié gebiede. As gevolg van 'n laedrukgebied oor die westelike en suid-westelike kusgebiede, sal mis langs hierdie streke voorkom.

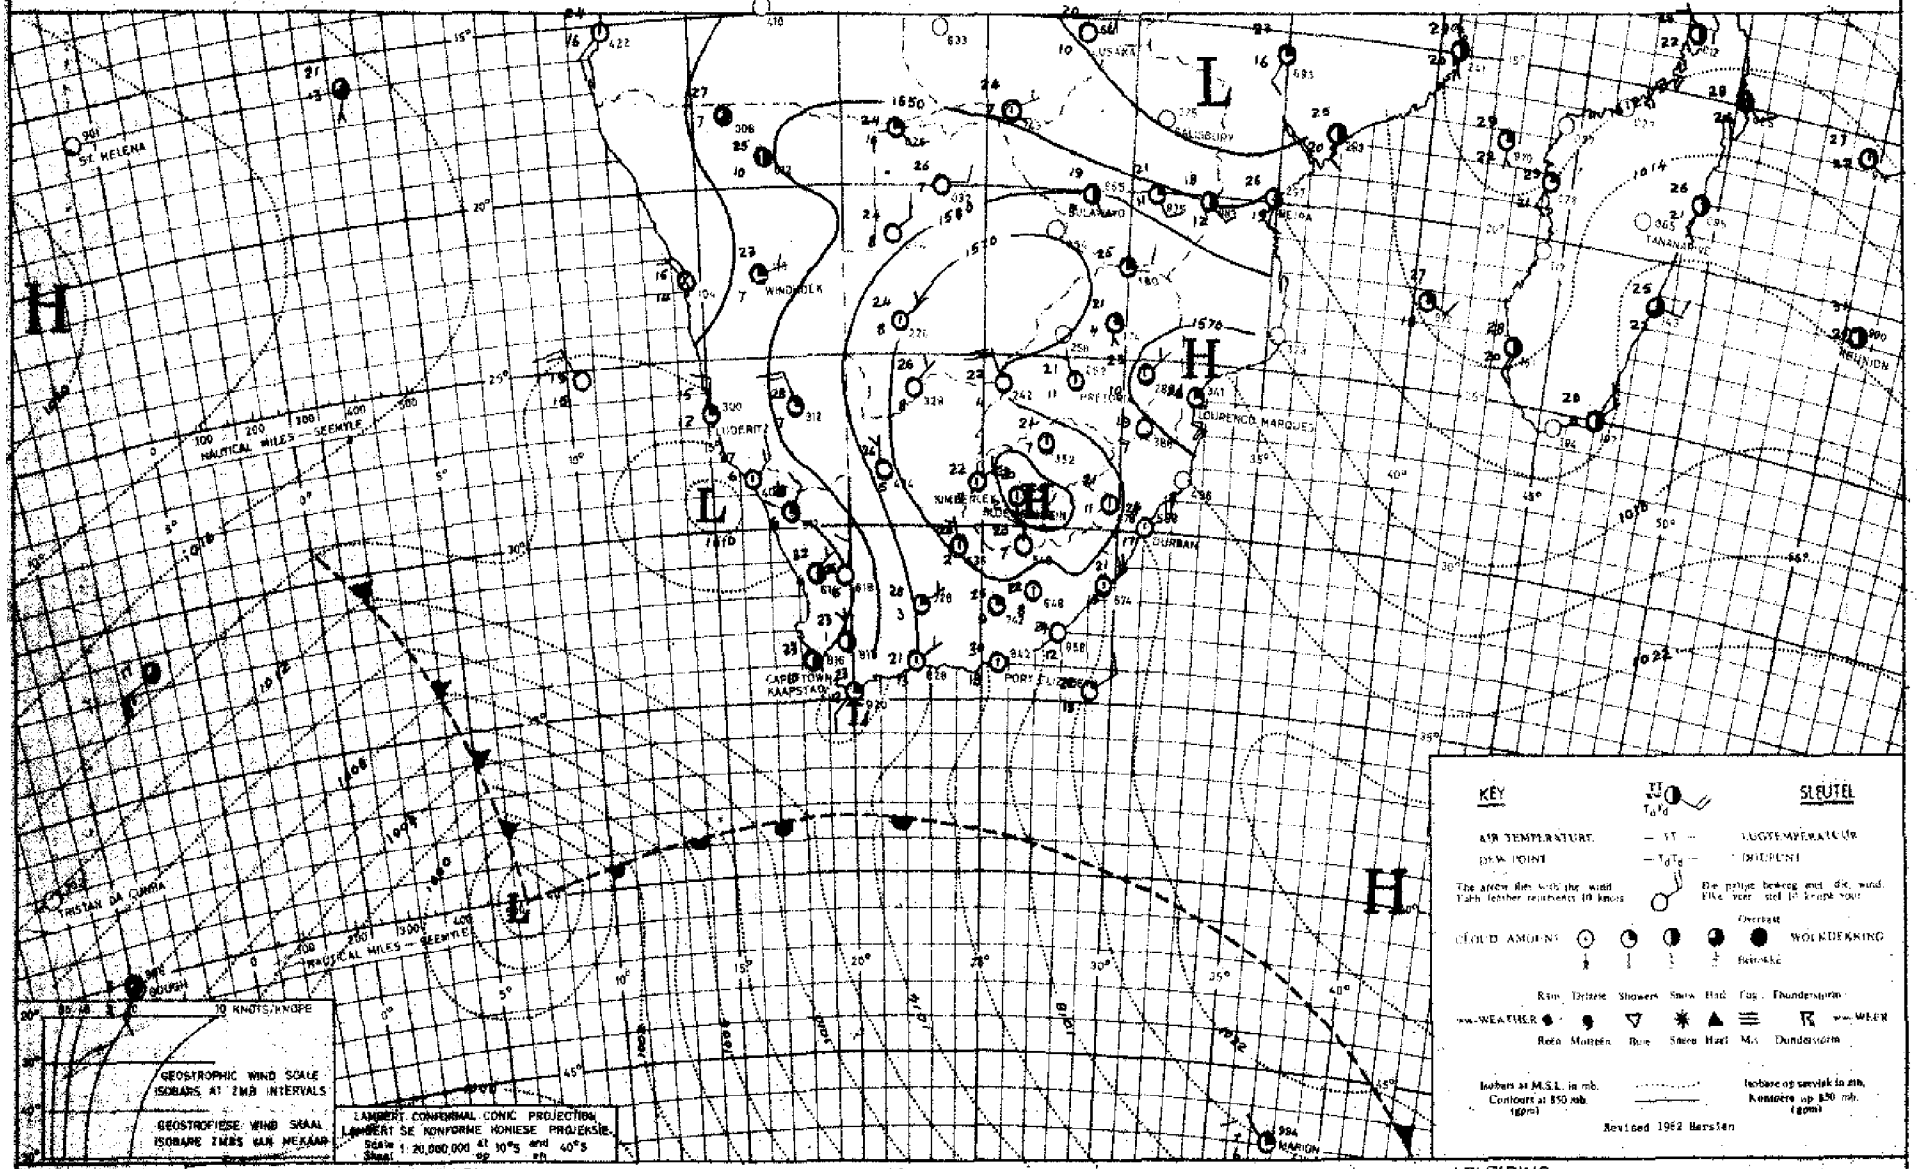
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 18 - 5 - 1967 DATUM AFLEIDING

The high over the interior will cause mainly fair and mild weather over these regions. A frontal system approaching the Cape will cause strong winds in the vicinity of the Cape, and rain will occur later tomorrow.

Die hoog oor die binneland veroorsaak dat dit hoofsaaklik mooiweer en matig sal wees oor die dele. Die front wat die Kaap nader, sal sterk winde in die omgewing van die Kaap veroorsaak en reën sal later môre begin uitsak.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

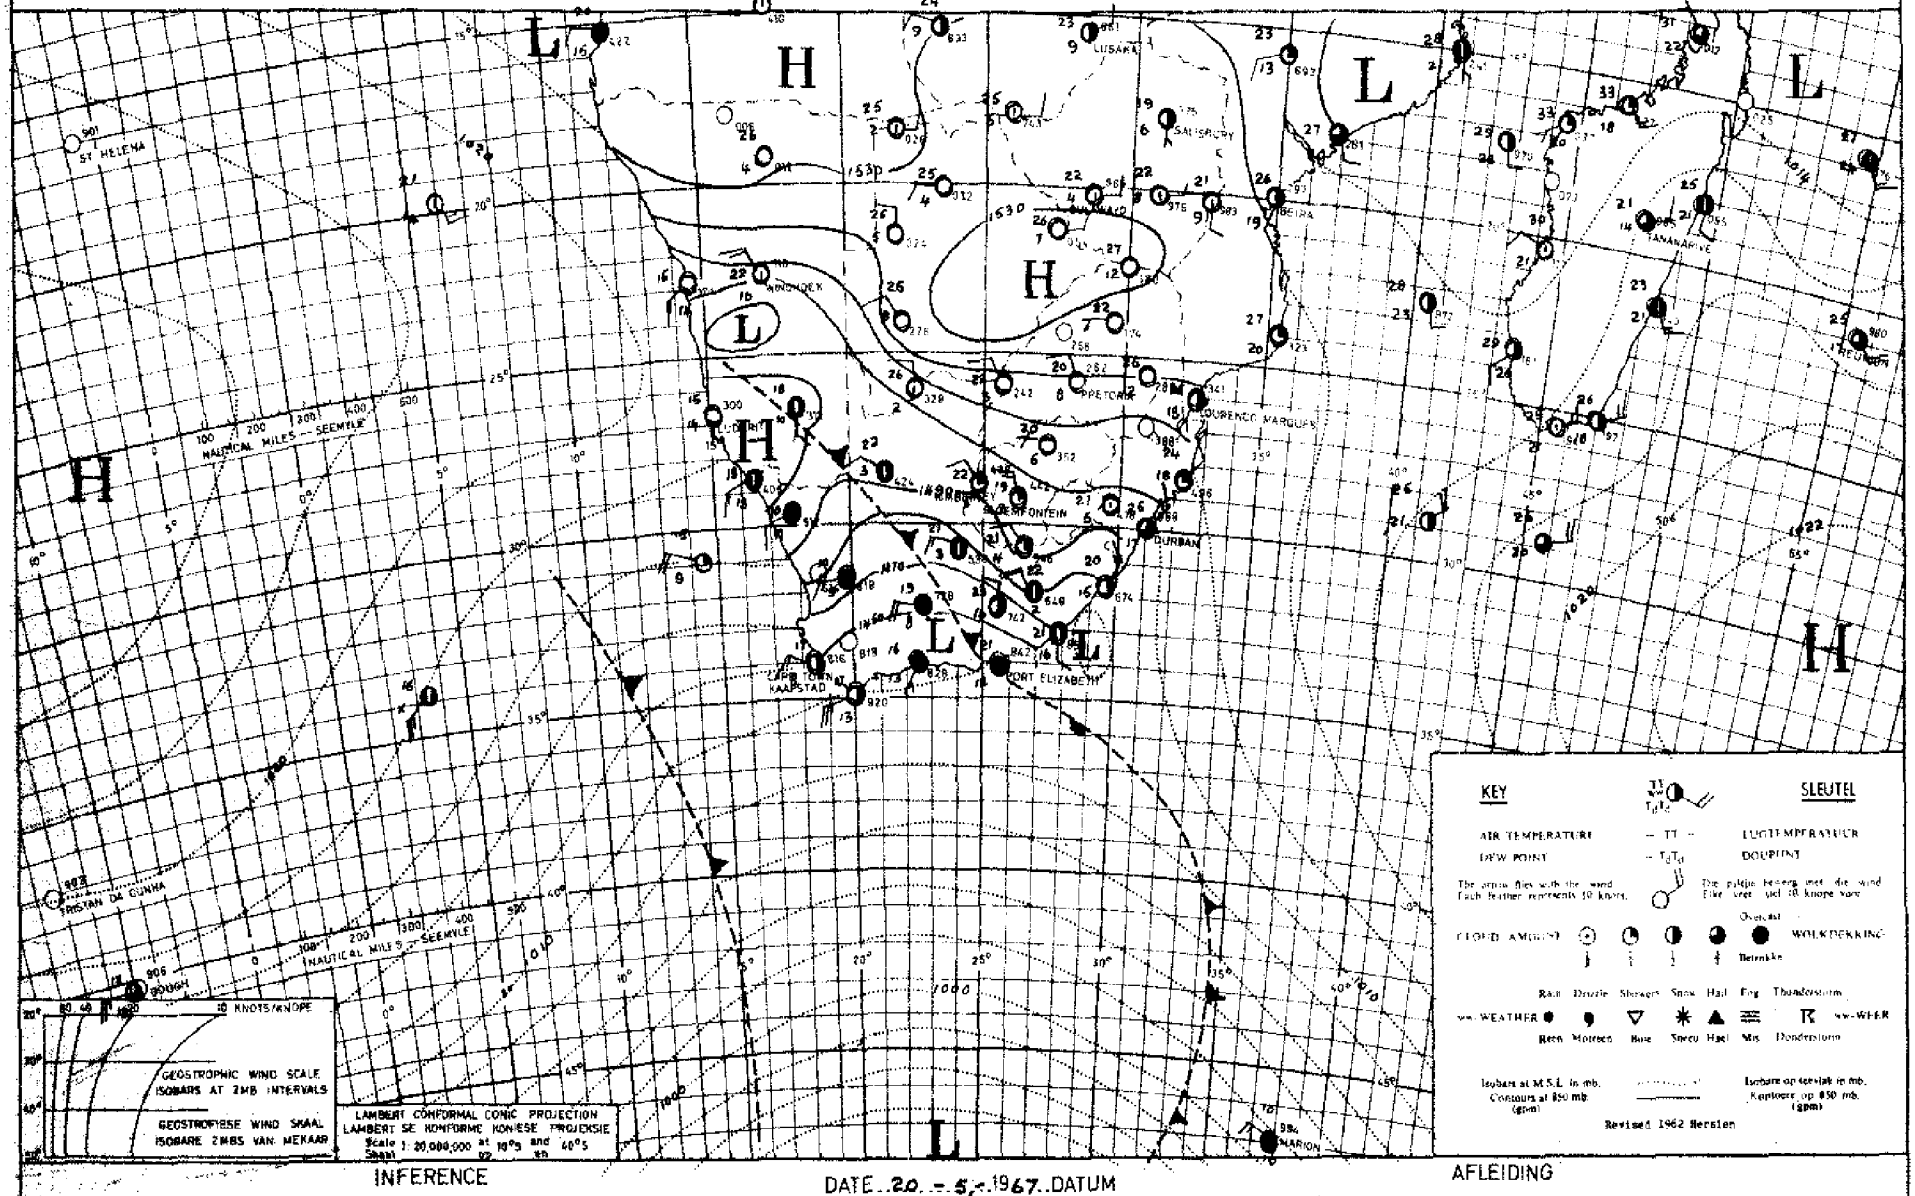
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 20. - 5. - 1967 DATUM

AFLEIDING

A second front to the west of the Cape will cause the cloudy weather with rain to persist over the Cape Province. A weak high pressure system over the northern inferior will maintain fine weather over Transvaal, Natal, Botswana and northern S.W.A.

'n Tweede front wes van die Kaap sal bewolkte toestande en reënbuie oor die Kaapprovinsie laat voortduur. 'n Swak hoogdrukstelsel oor die noordelike dele van die land sal mooiweerstoestande oor Transvaal, Natal, Botswana en noordelike S.W.A. tot gevolg hê.

INFERENCE

DATE 21 - 5 - 19 67 DATUM

AFLEIDING

The cold front extending north-westwards from Cape St. Lucia will advance further so that cold air will spread over the whole Republic, South West Africa and Botswana. Cloudy conditions with showers will still occur over the south-western, southern and eastern coastal regions.

Die koufront wat vanaf St. Lucia noordweswaarts oor die land strek, sal verder beweeg en koue lug sal oor die hele Republiek, Suidwes-Afrika en Botswana uitbrei. Bewolkte weer met buie sal nog voorkom oor die suidwestelike, suidelike en oostelike kuststreke.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 24 - 5 - 19 67 DATUM

AFLEIDING

The cold front to the west of the Cape is moving eastwards and will cause cloudy, cooler weather with showers along the western and south-western Cape coasts. Over the remainder of the country it will remain fine or partly cloudy and mild.

Die koufront wes van die Kaap beweeg ooswaarts en sal bewolkte, koeler weer met buie oor die westelike en suidwestelike Kaapse kusgebiede veroorsaak. Oor die res van die land sal dit mooiweer of gedeeltelik bewolk en matig wees.

DAAGLIKSE WEERBULLETIN

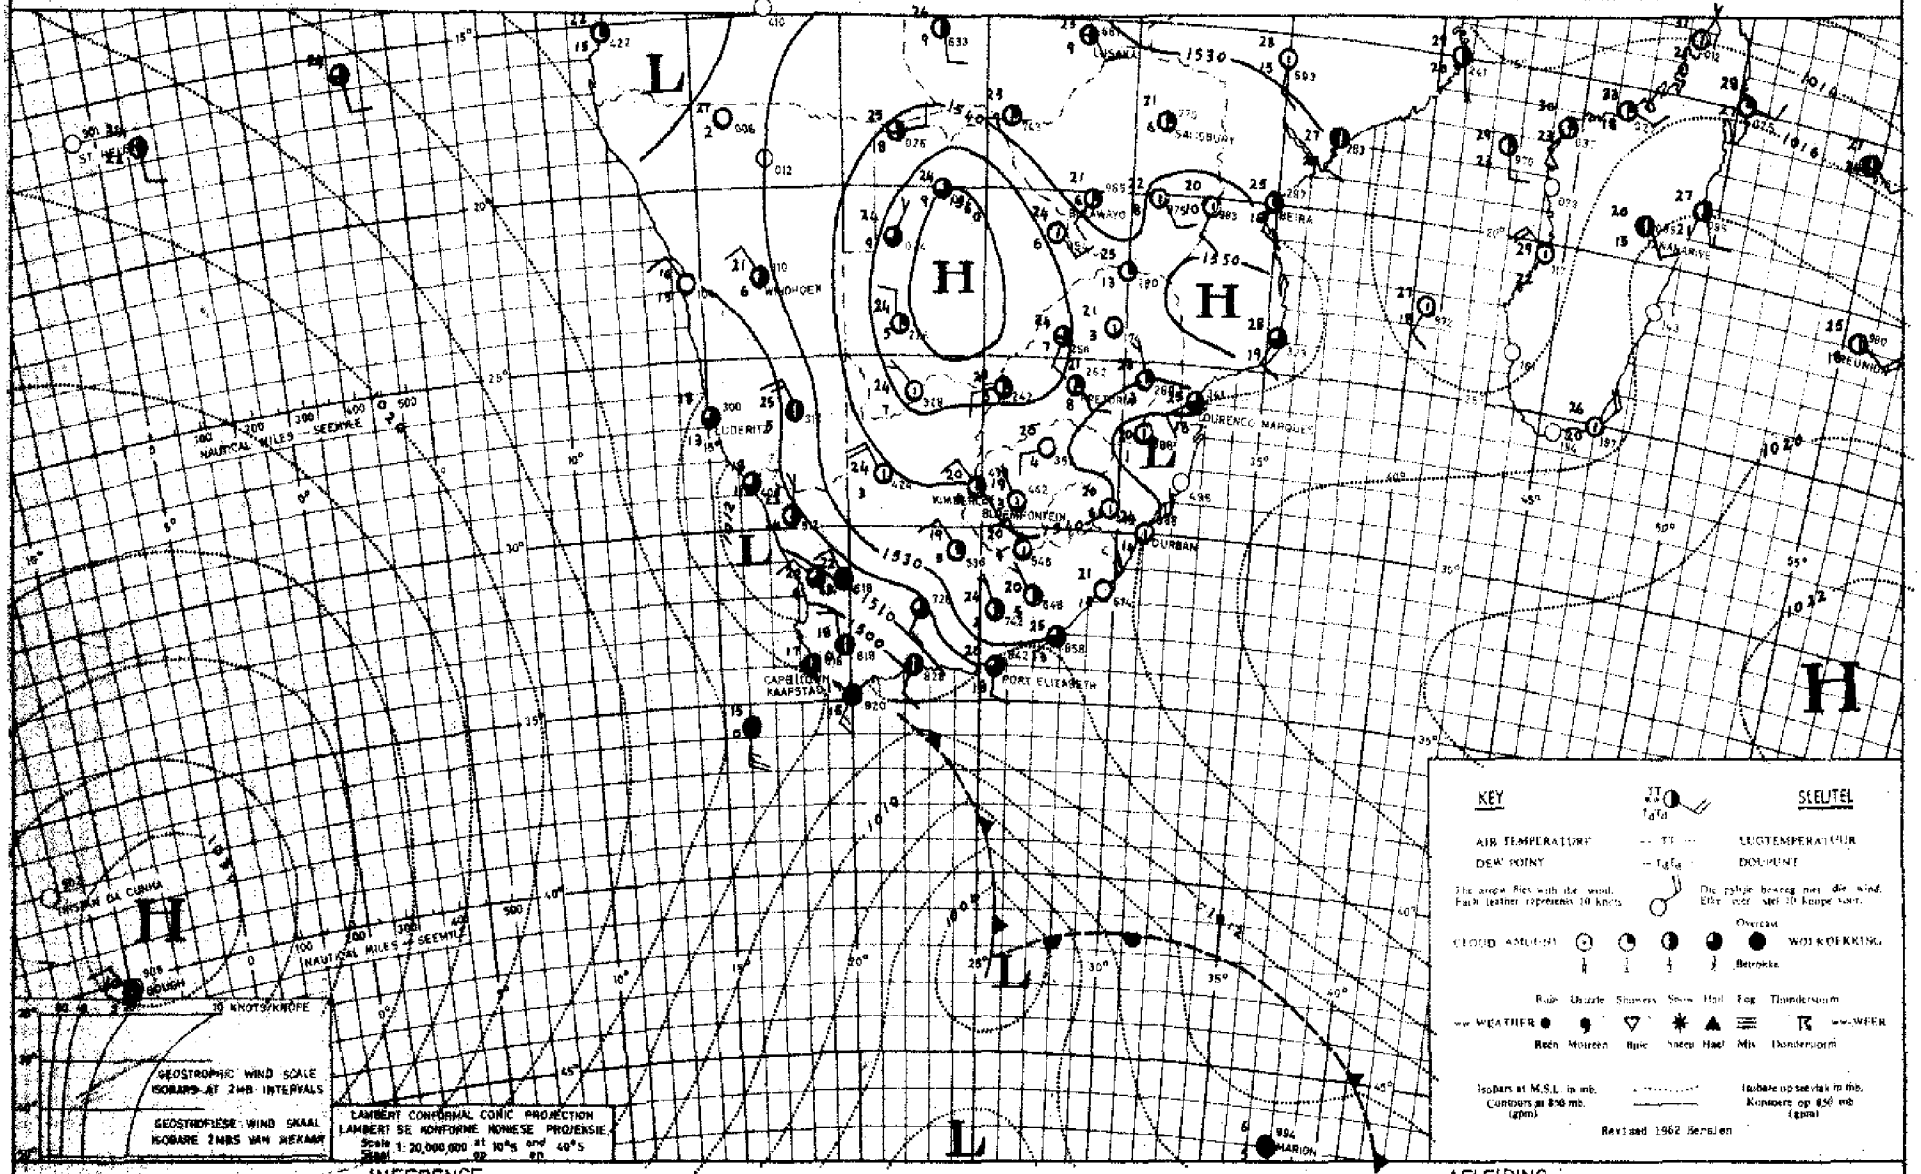
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



KEY — SLEUTEL

AIR TEMPERATURE — LUGTEMPERATUUR

DEW POINT — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots. Die pyltjie beweeg met die wind. Elke veer stel 10 knope voor.

CLOUD AMOUNT — WOLKDEKKING

Overcast — Bewolkte

Rain, Drizzle, Showers, Snow, Hail, Fog, Thunderstorm

WEATHER — WEER

Reën, Motreën, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb. — Isobare op seevlak in mb.

Contours at 850 mb. (gpm) — Kontoere op 850 mb (gpm)

Revised 1962 Bemalen

INFERENCE

DATE 25 - 5 - 19 67 DATUM

AFLEIDING

The cold front at the Cape will cause cloudy weather with rain or showers over the south-western parts of the Cape and it will spread eastwards. The low on the west coast is deepening and will advance eastwards so that local showers will occur over the Cape Interior and southern Free State. Over the northern parts of the country it will, however, remain fine.

Die front by die Kaap sal bewolkte weer met buie gee oor die Suidwes-Kaapse gebied en dit sal oostwaarts uitbrei. Die laedrukgebied aan die weskus, is aan verdiep en sal ooswaarts beweeg, sodat los buie oor die Kaapse binneland en suidelike Vrystaat sal voorkom. Oor die noordelike dele van die land sal dit egter mooiweer bly.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 27 - 5 - 1967 DATUM

AFLEIDING

The cold front over the interior will cause cold cloudy weather over the Northern Free State, southern Transvaal and parts of Natal. Moist air is still present over the southern and south-eastern Cape coasts. Rain or showers are expected over there areas. It will clear partially from the south-west.

Die koufront oor die binneland veroorsaak koue bewolkte weer oor die noordelike Vrystaat, Suid-Transvaal en dele van Natal. Vogtige lug stroom ook oor die suidelike en suidoostelike Kaapse kusgebiede. Reën of buie word oor hierdie gebiede verwag. Dit sal opklaar vanuit die suidweste.

INFERENCE

DATE 28 - 5 - 1962 DATUM

AFLEIDING

A high is moving along the Cape coast and will cause cool, cloudy weather over the northern interior and at the same time clearance over the Cape coastal areas. Showers will still occur over the central interior but over the rest of the country it will be mainly fair.

'n Hoog beweeg langs die suidkus van Kaapland om en veroorsaak koeler bewolkte toestande oor die noordoostelike binneland, maar ook terselfdertyd opklaring oor die Kaapse kusstreke. Oor die sentrale binneland sal nog buie voorkom, maar oor die res van die land sal dit redelike mooiweer wees.

DAAGLIKSE WEERBULLETIN

SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART

INFERENCE DATE 30 - 5 - 19 67 DATUM AFLEIDING

Cold moist air is present over the interior. With drier air moving in over South West Africa and spreading eastwards the weather is expected to clear slightly over the central parts. The front near the Cape will cause the weather to remain cloudy over the southern parts of the Cape, while it will also be cloudy with showers or thunder-showers over the eastern areas of South Africa.

Koel vogtige lug is aanwesig oor die meeste dele van die land. Met die droer lug wat oor Suidwes-Afrika instroom, word effense opklaring verwag oor die sentrale dele. Die front naby die Kaap sal egter die suidelike dele van die Kaapland bewolk laat bly terwyl bewolkte weer met buie en donderbuie ook nog oor die oostelike dele van die land sal voorkom.

DAAGLIKSE WEERBULLETIN

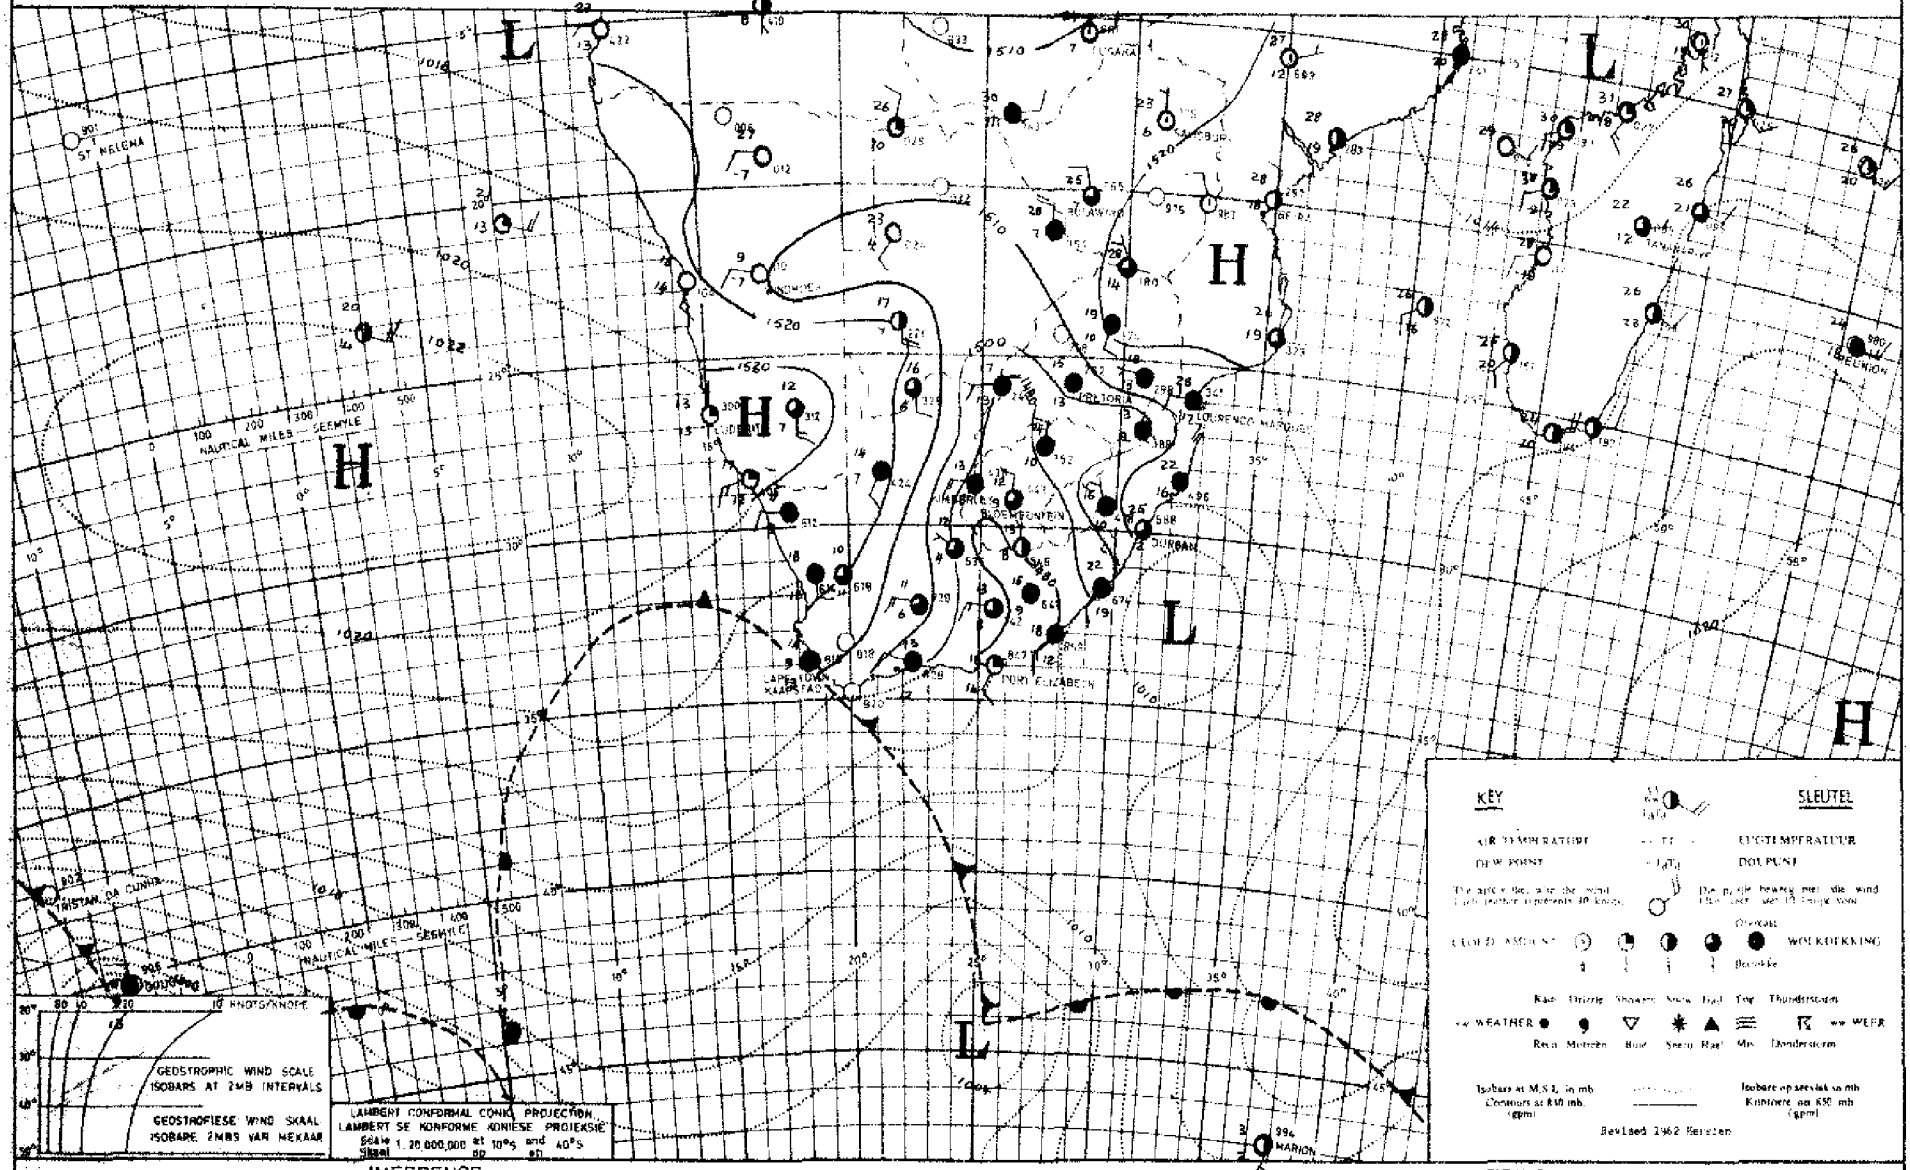
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 31 - 5 - 1967 DATUM

AFLEIDING

The trough over the interior causes cloudy weather with rain over the eastern parts of the country but it will clear over the central interior. The cold front over the Cape will cause cloudy weather with rain over the southern Cape coast. Over the rest of the country it will be mainly fine

Die trog oor die binneland beweeg ooswaarts en veroorsaak bewolkte weer oor die oostelike binneland met buie maar dit klaar op oor die sentrale binneland. Die koufront oor die Kaap veroorsaak koue bewolkte weer met reën oor die suidelike kusstreke van Kaapland. Oor die res van die land sal dit mooiweer wees.

INFERENCE

DATE 1 - 6 - 1967 DATUM

AFLEIDING

Dry, cold air has spread over the country so that it will be fine and cold over most regions. Moist air is still in circulation over the extreme eastern and south-eastern regions where it will be cloudy and cold with rain at places, clearing partially later.

Droë koue lug het oor die land beweeg sodat dit mooiweer en koud sal wees oor die meeste dele. Vogtige lug sirkuleer nog oor die verre oostelike en suidoostelike gebiede waar dit bewolk en koud sal wees met reën op plekke. Dit sal later geleidelik opklaar.

Revised 1962 Bereien

INFERENCE — DATE 2 — 6 — 19 67 DATUM — AFLEIDING

The high pressure area off the south coast, together with the low to the east of Natal, will cause cloudy weather with showers over the south-eastern regions of the country. The circulation over the remaining areas is anticyclonic and the weather will be fair and mainly cold.

Die hoëdrukgebied langs die suidkus, tesame met die laag oos van Natal, sal bewolkte weer met buie oor die suidoostelike gebiede van die land veroorsaak. Die sirkulasie oor die oorblywende dele is antisiklonaal en dit sal mooiweer en hoofsaaklik koud wees.

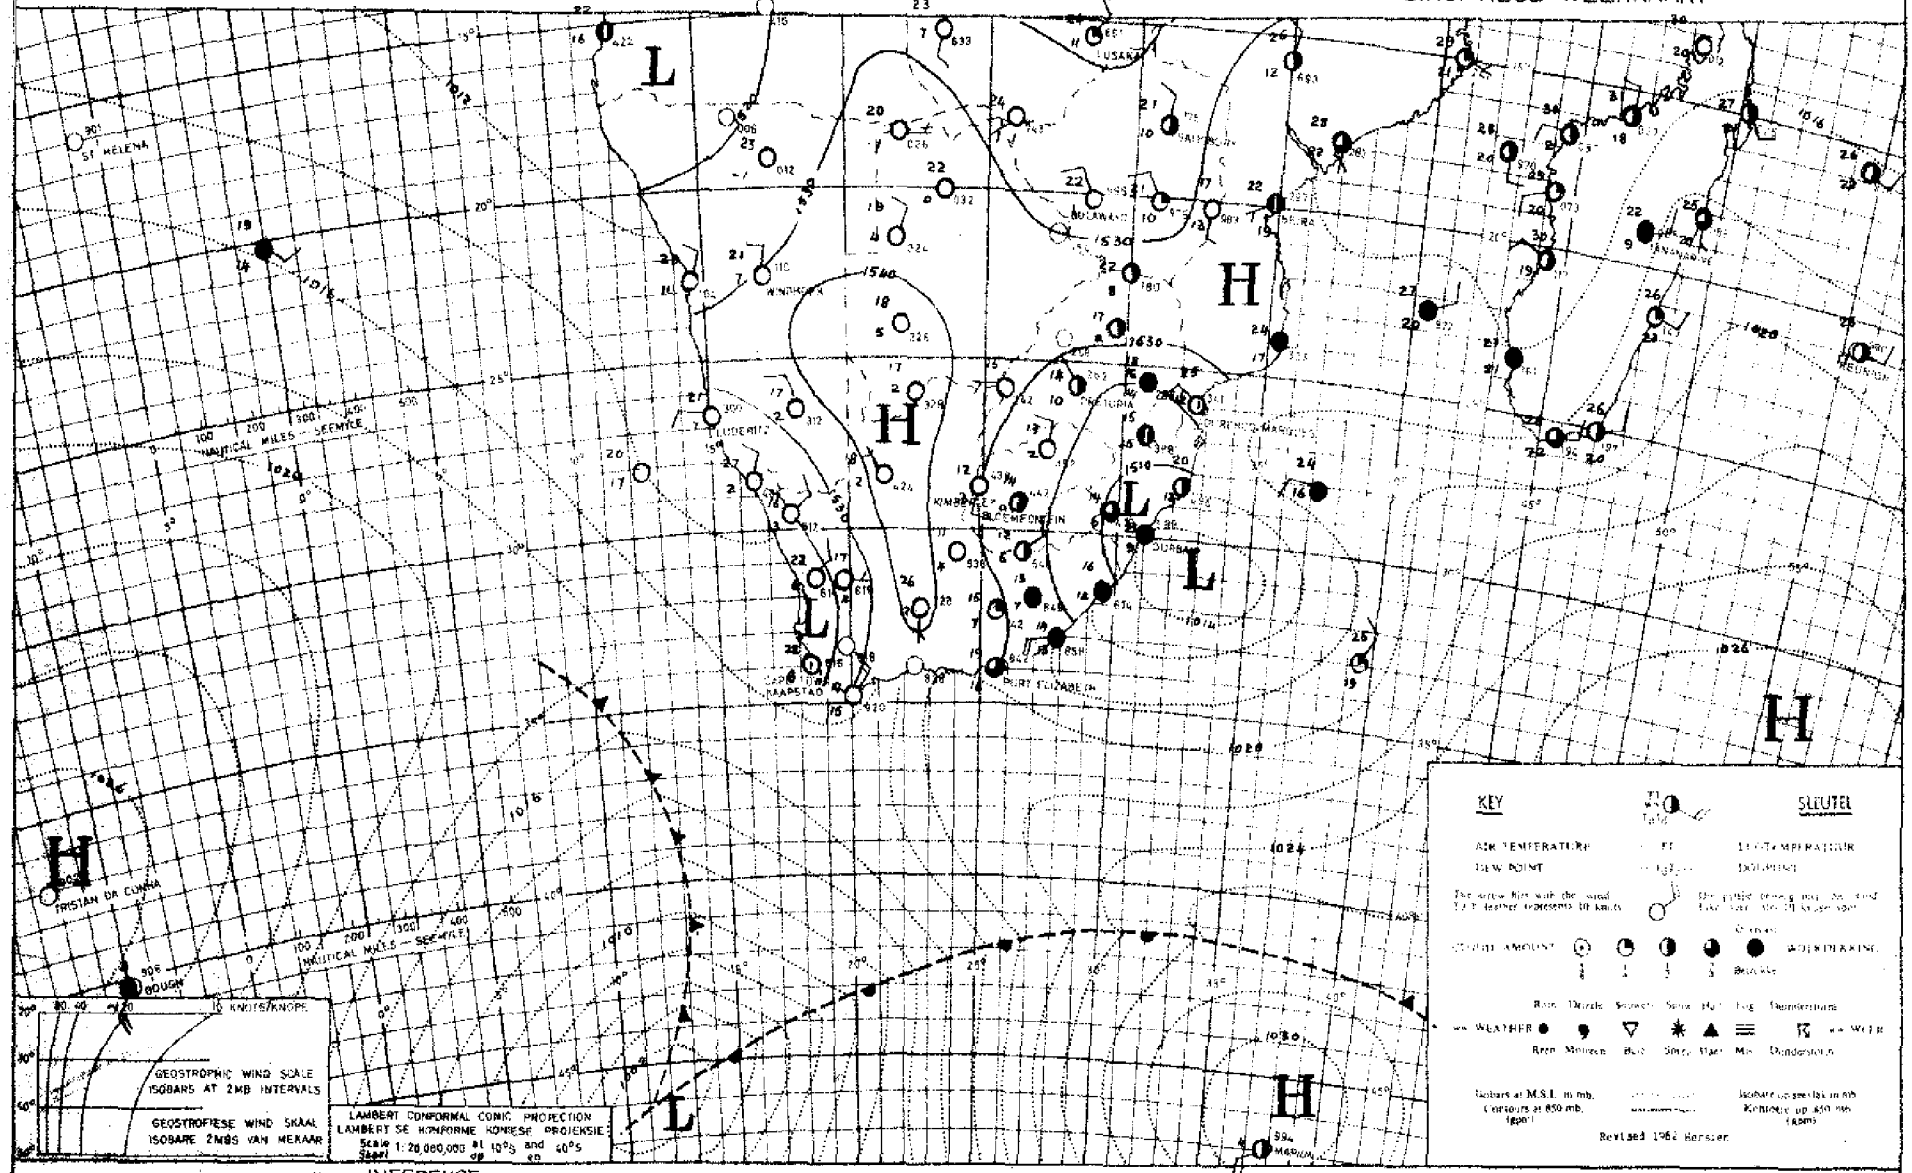
SYNOPTIC WEATHER MAP

1200 GMT. — 1400 SAST.

SINOPTIESE WEERKAART



INFERENCE

DATE 3 - 6 - 1967 DATUM

AFLEIDING

The trough over Natal and the Eastern Transvaal is causing cloudy weather over these areas with a possibility of showers over south-eastern Transvaal. The cold front nearing the Cape will cause cloudy weather to spread over the south-western Cape later. The remainder of the country, under the influence of the high pressure area over the interior, will experience mainly fine weather.

Die trog oor Natal en Oos-Transvaal veroorsaak bewolkte weer oor die gebiede en buie word ook oor die Suidoos-Transvaal verwag. Namate die front die Kaap nader sal bewolkte weer oor die suidwestelike dele uitbrei. Die res van die land, onder die invloed van die hoëdrukstelsel oor die binneland, sal hoofsaaklik mooiweerstoestande ondervind

INFERENCE

DATE 4. - 6. - 1967 DATUM

AFLEIDING

The cold front near Cape Town will cause cloudy cooler weather with showers over the South-western and southern parts of the Cape. Over the remainder of the country it will be mainly fine and cold to mild.

Die front by die Kaap sal bewolkte koeler weer met buie oor die suidwestelike en suidelike dele van die Kaap veroorsaak. Oor die res van die land sal dit hoofsaaklik mooiweer en koud wees.

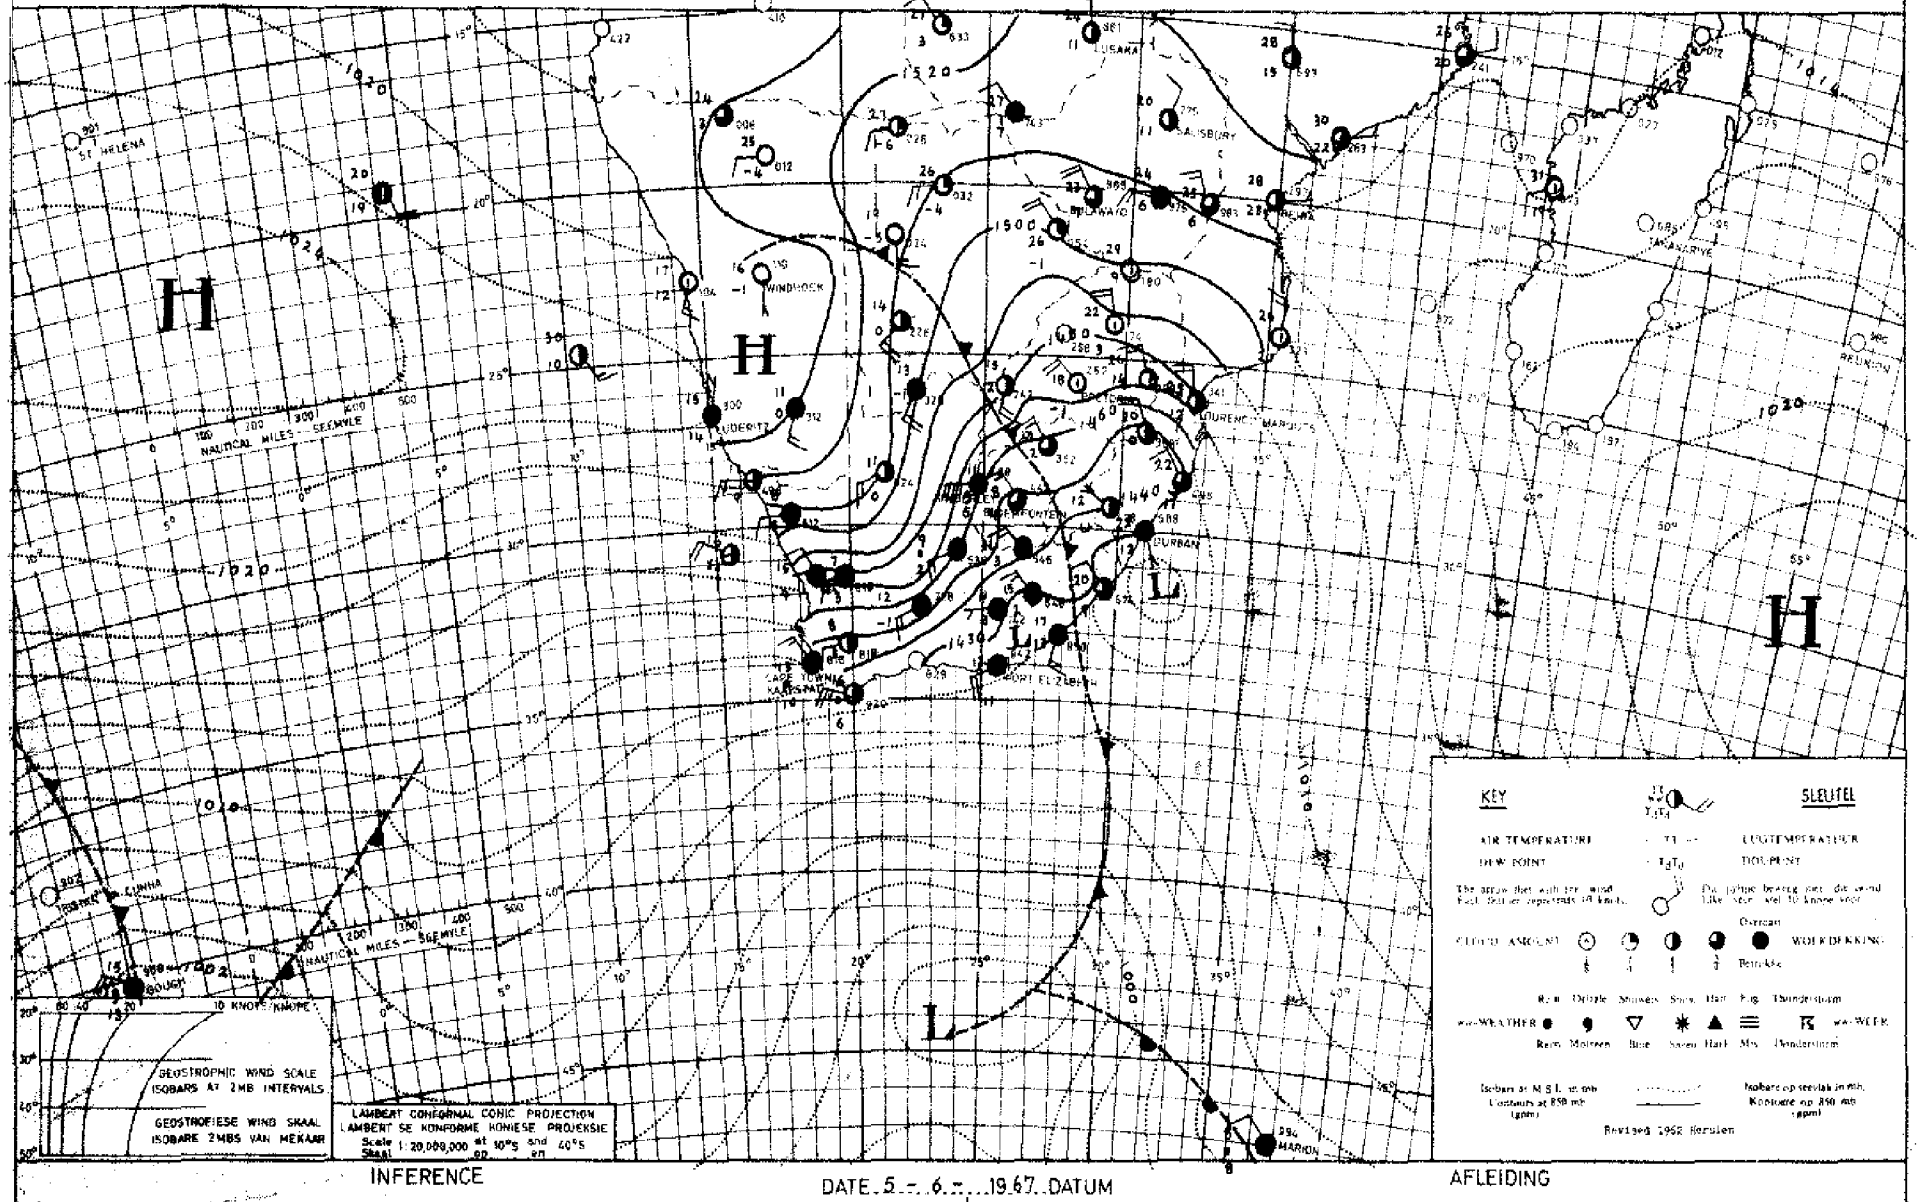
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



DATE 5 - 6 - 1967 DATUM

INFERENCE

The cold front is moving northwards and is followed by cold cloudy conditions with rain and snow at places over the higher areas. The Atlantic high is ridging in over the western parts of the country and it will gradually clear from the west. Over the northern parts of the country it will be fair and mild.

AFLEIDING

Die koufront beweeg noordwaarts oor die binneland en word gevolg deur koue bewolkte toestande met reën en buie en sneeu op plekke oor die hoër liggende dele. Met n Atlantiese hoog wat instoot oor die westelike dele van die land sal dit gedeeltelik begin opklaar vanuit die weste. Oor die noordelike dele van die land sal dit redelike mooiweer en matig wees.

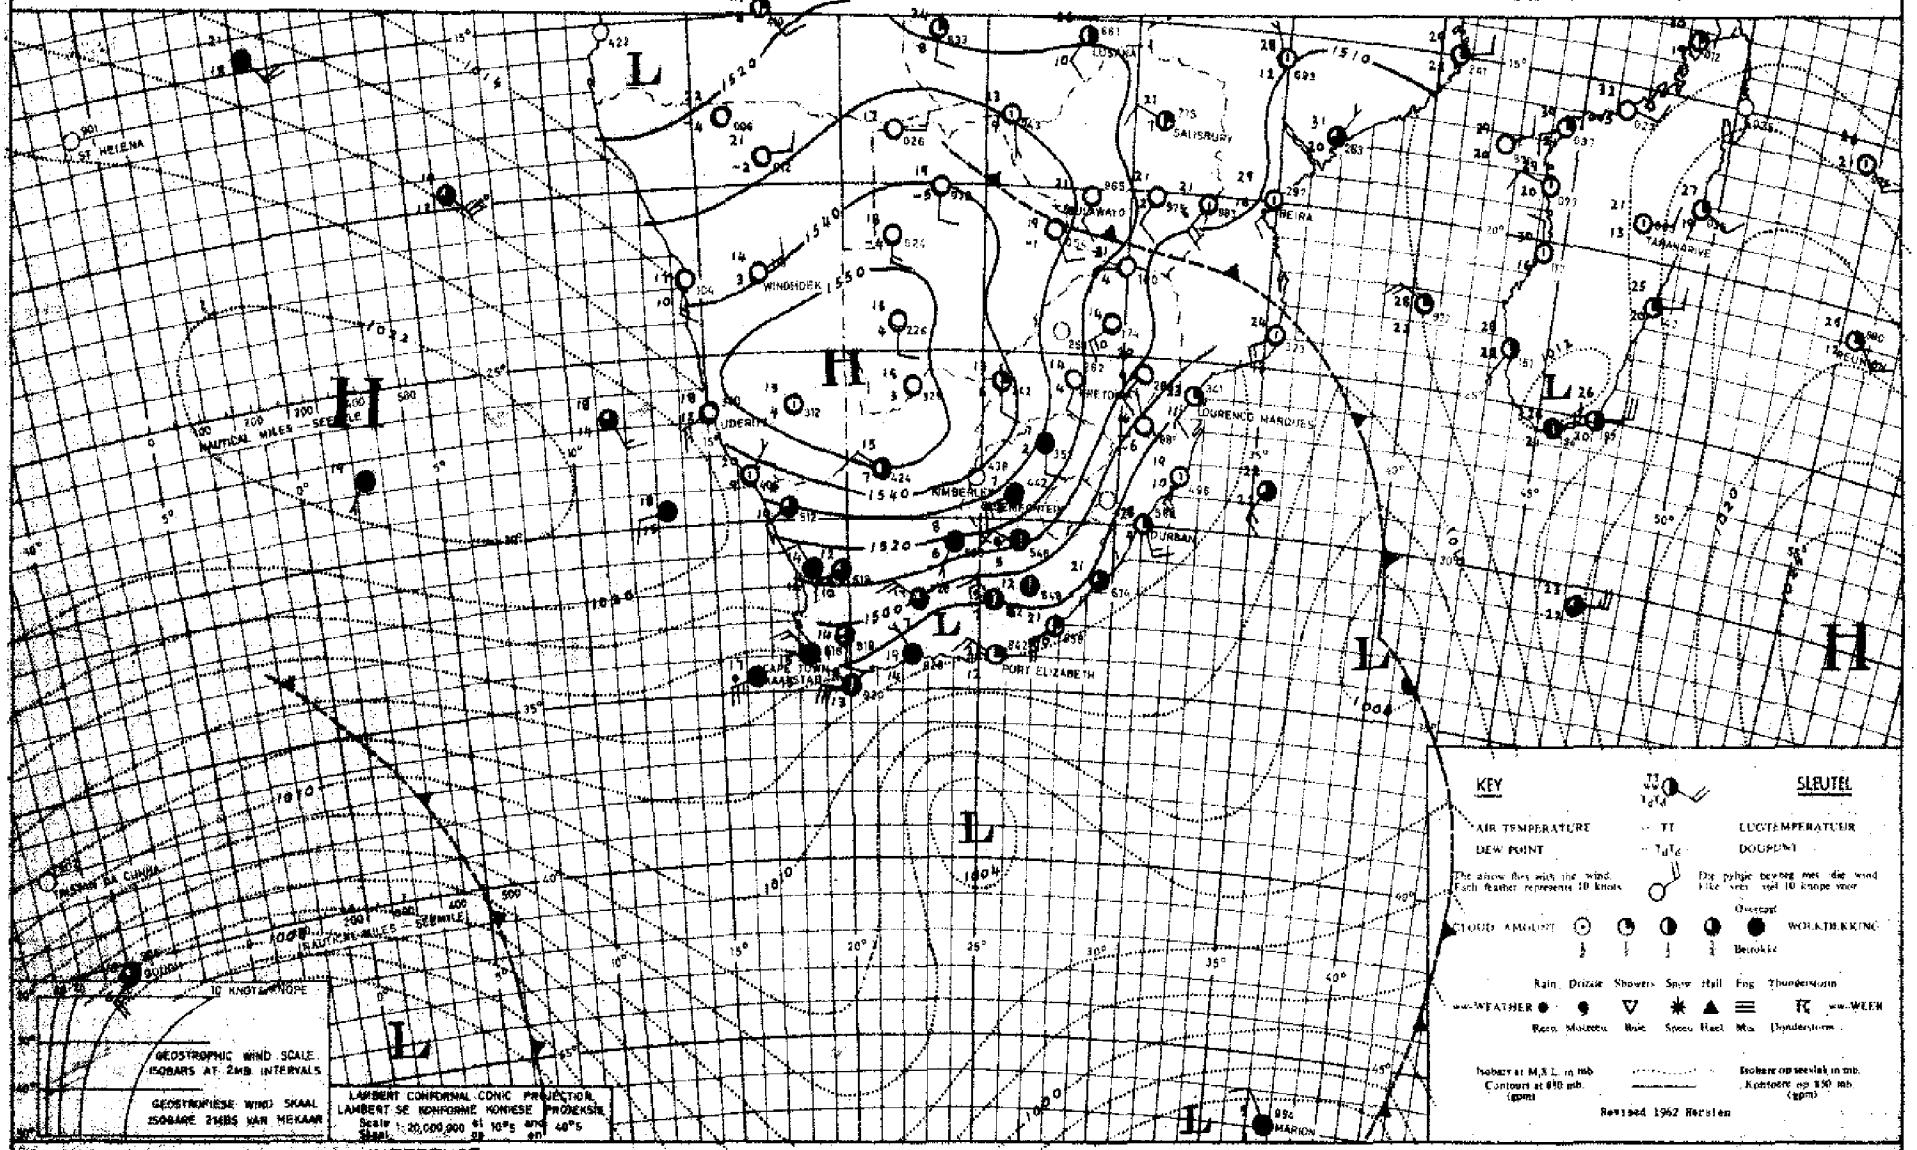
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

As a result of the cold front to the west of the Cape, it will remain cloudy with light showers along the south-western coast. The anticyclone over the interior is intensifying and it will begin to clear over the remaining regions.

DATE 6 — 6 — 1967 DATUM

AFLEIDING

As gevolg van die koufront wes van die Kaap sal dit bewolk bly met ligte reën langs die suidwestelike kusstreke. Die antisikloon oor die binneland verstark en dit sal oor die oorblywende gebiede begin opklaar.

DAAGLIKSE WEERBULLETIN

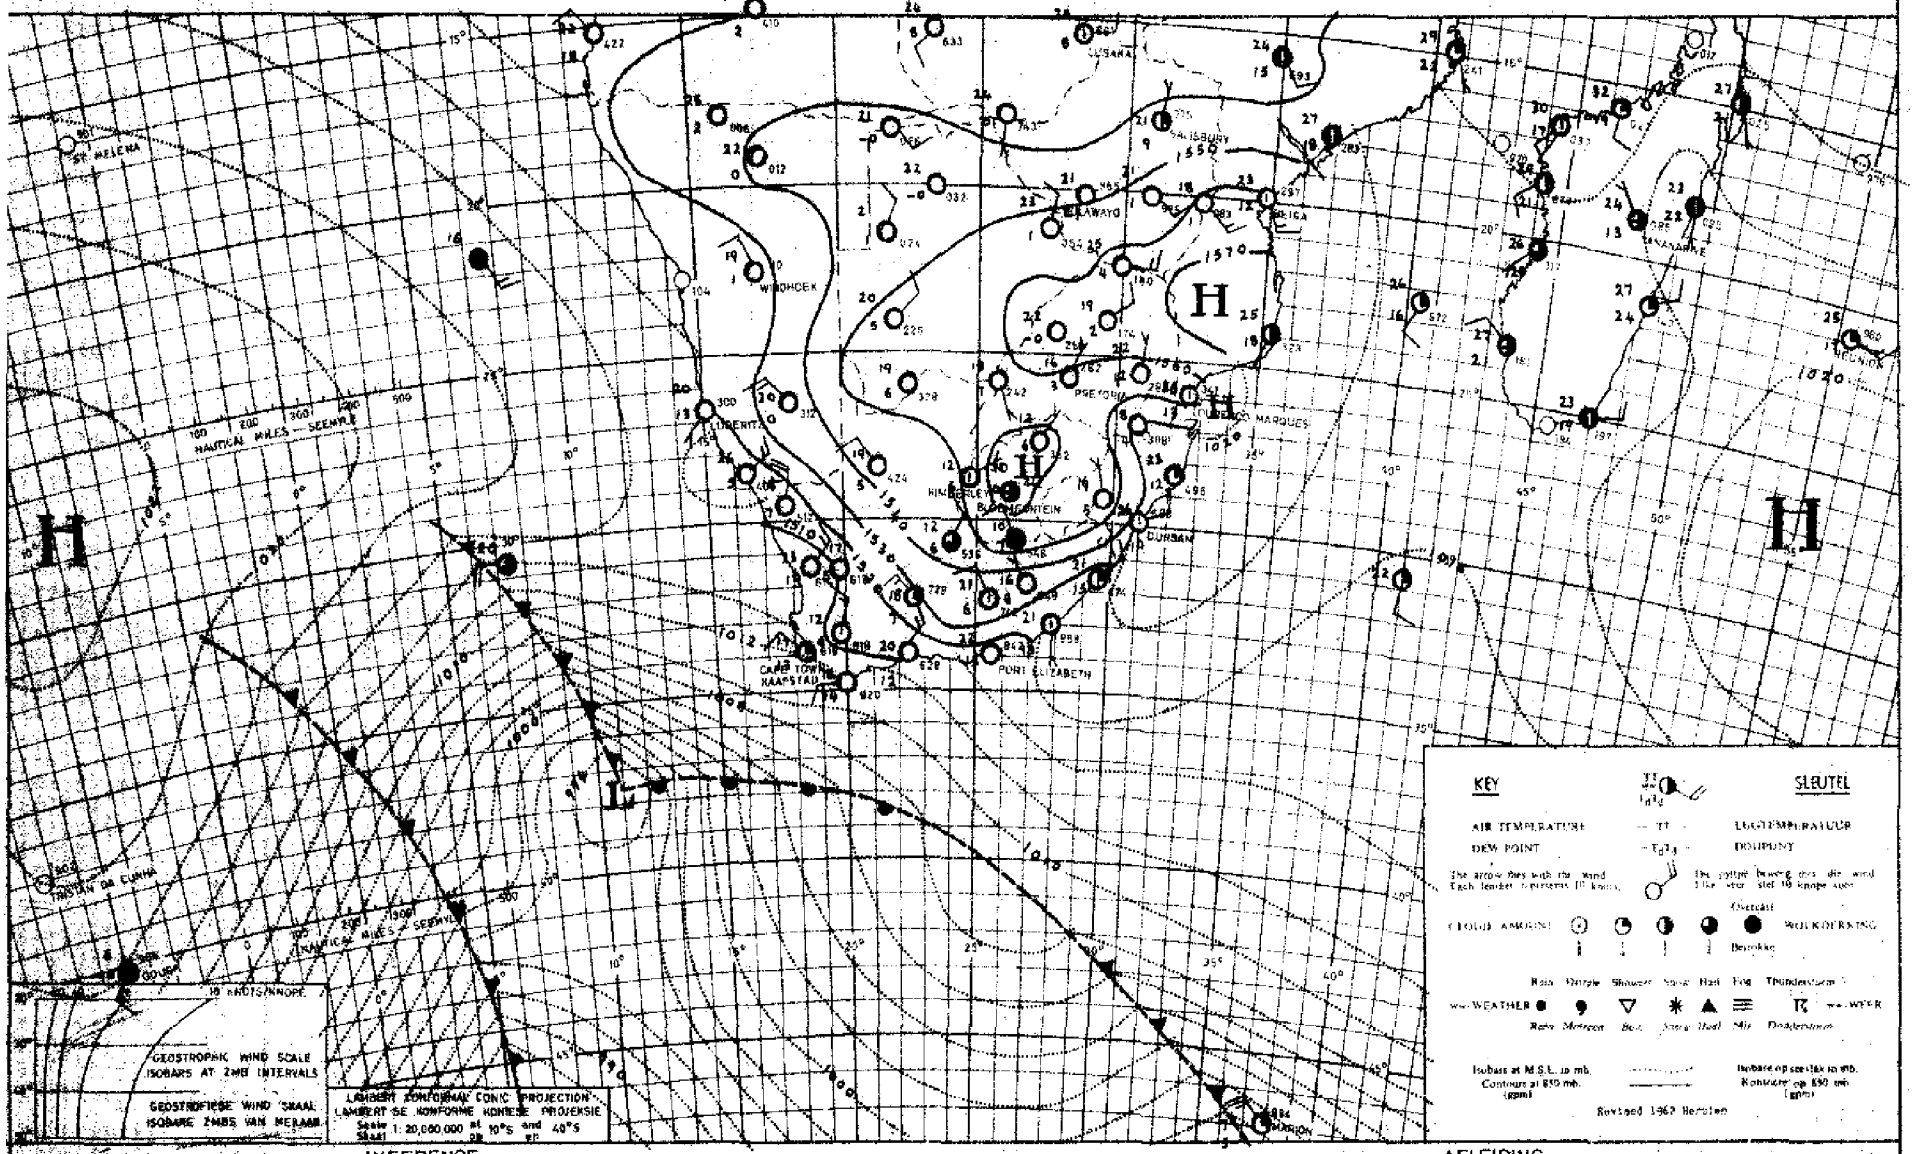
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 7 - 6 - 1967 DATUM — AFLEIDING

The front nearing the Cape will cause cooler cloudy weather with showers and strong north-westerly winds over the South-western Cape. Over the remainder of the country it will be mainly fine and mild with cold nights but it will be warmer over the northern areas.

Die front wat die Kaap nader, sal koeler bewolkte weer met buie en sterk noordwestelike winde oor Suidwes-Kaapland veroorsaak. Oor die res van die land sal dit hoofsaaklik mooiweer en matig wees met koue nagte, maar warmer weer sal oor die noordelike gebiede heers.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

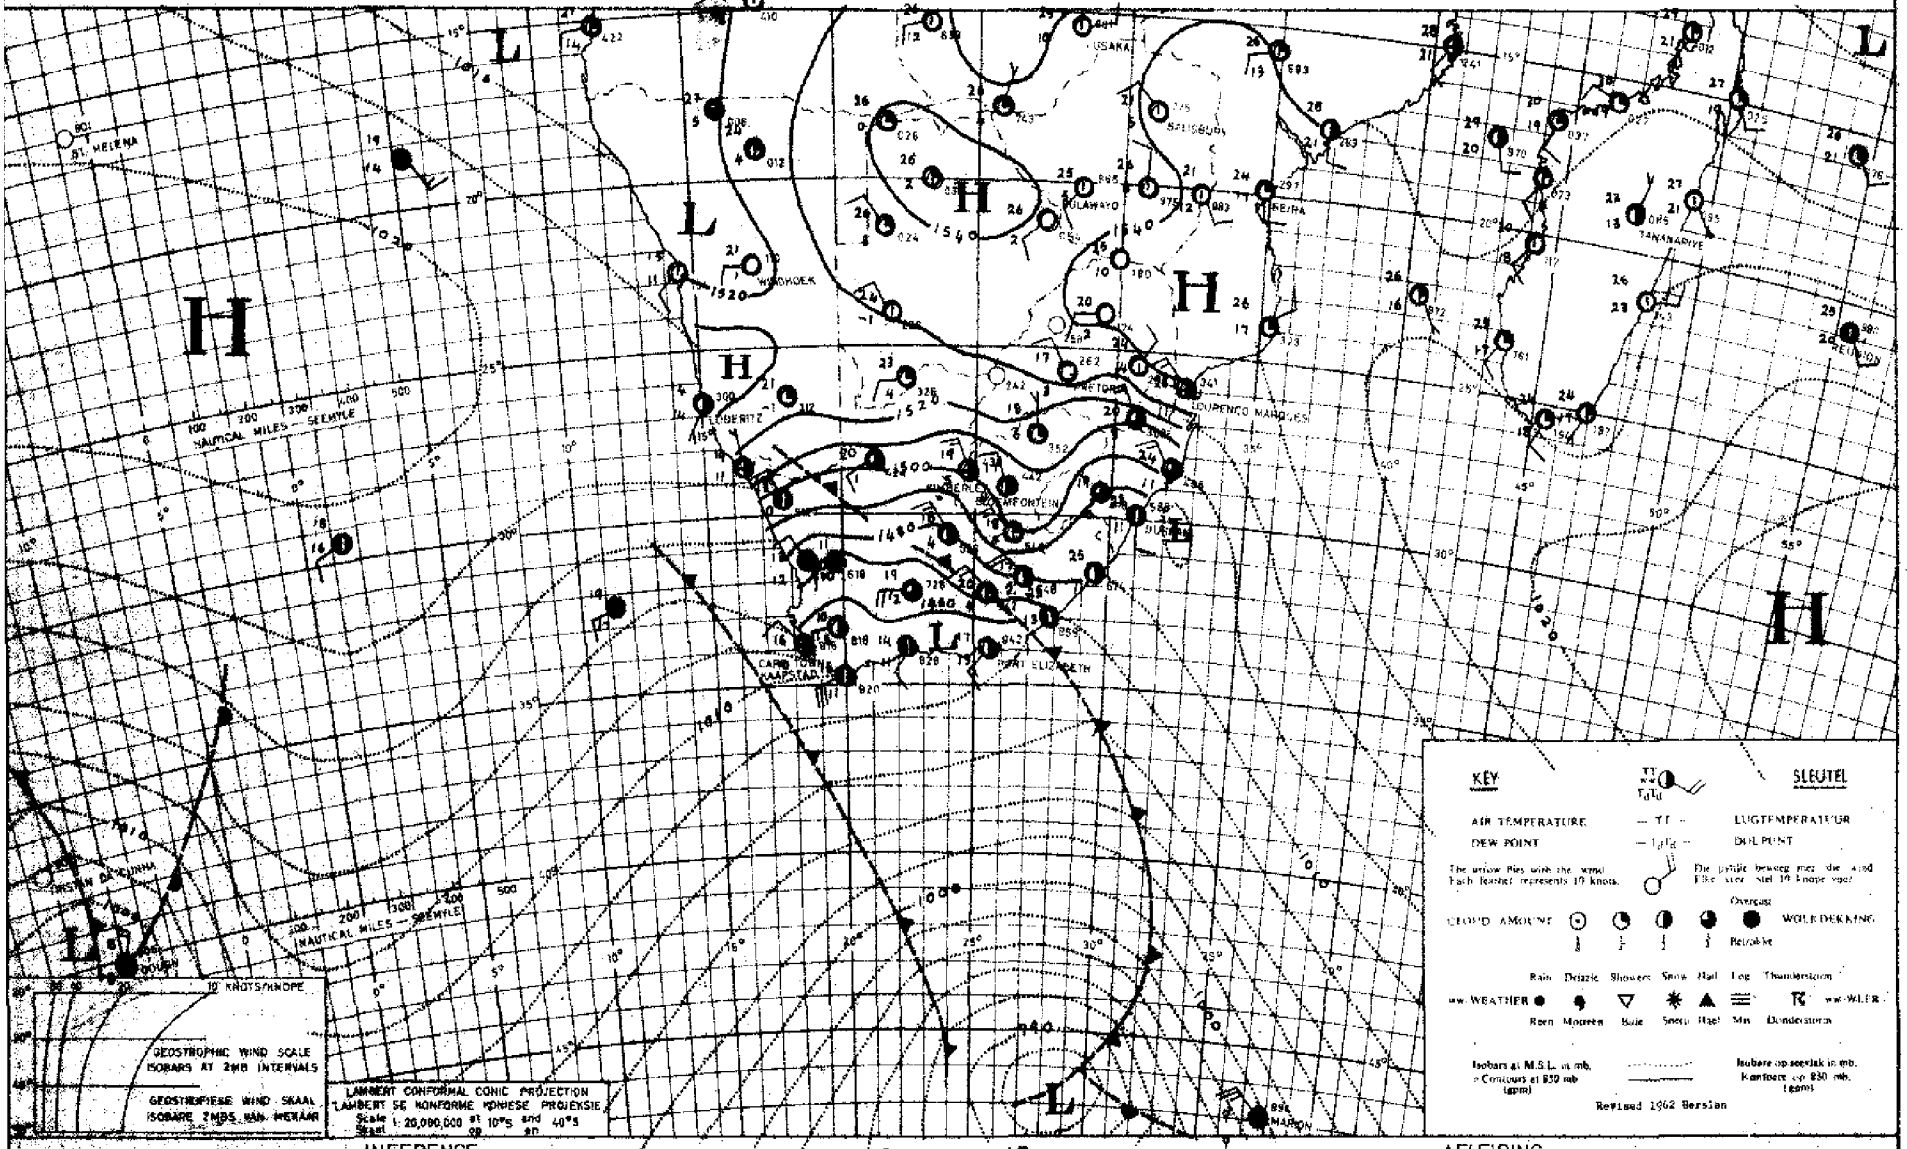
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 8 - 6 - 1967 DATUM AFLEIDING

A second front west of the Cape will cause cold cloudy weather with rain over the south-western Cape coast. It will still be cold with showers over the central and eastern Cape Interior. With an anticyclonic circulation over the northern parts of the country it will be fine and mild.

'n Tweede front wes van die Kaap sal koue bewolkte weer met reën oor die Kaapse suidweskus veroorsaak. Koue weer met reën of buie sal ook nog voorkom oor die sentrale en oostelike Kaapse binneland. Met 'n antisiklonale sirkulasie sal dit hoofsaaklik mooiweer en matig wees oor die noordelike dele van die land.

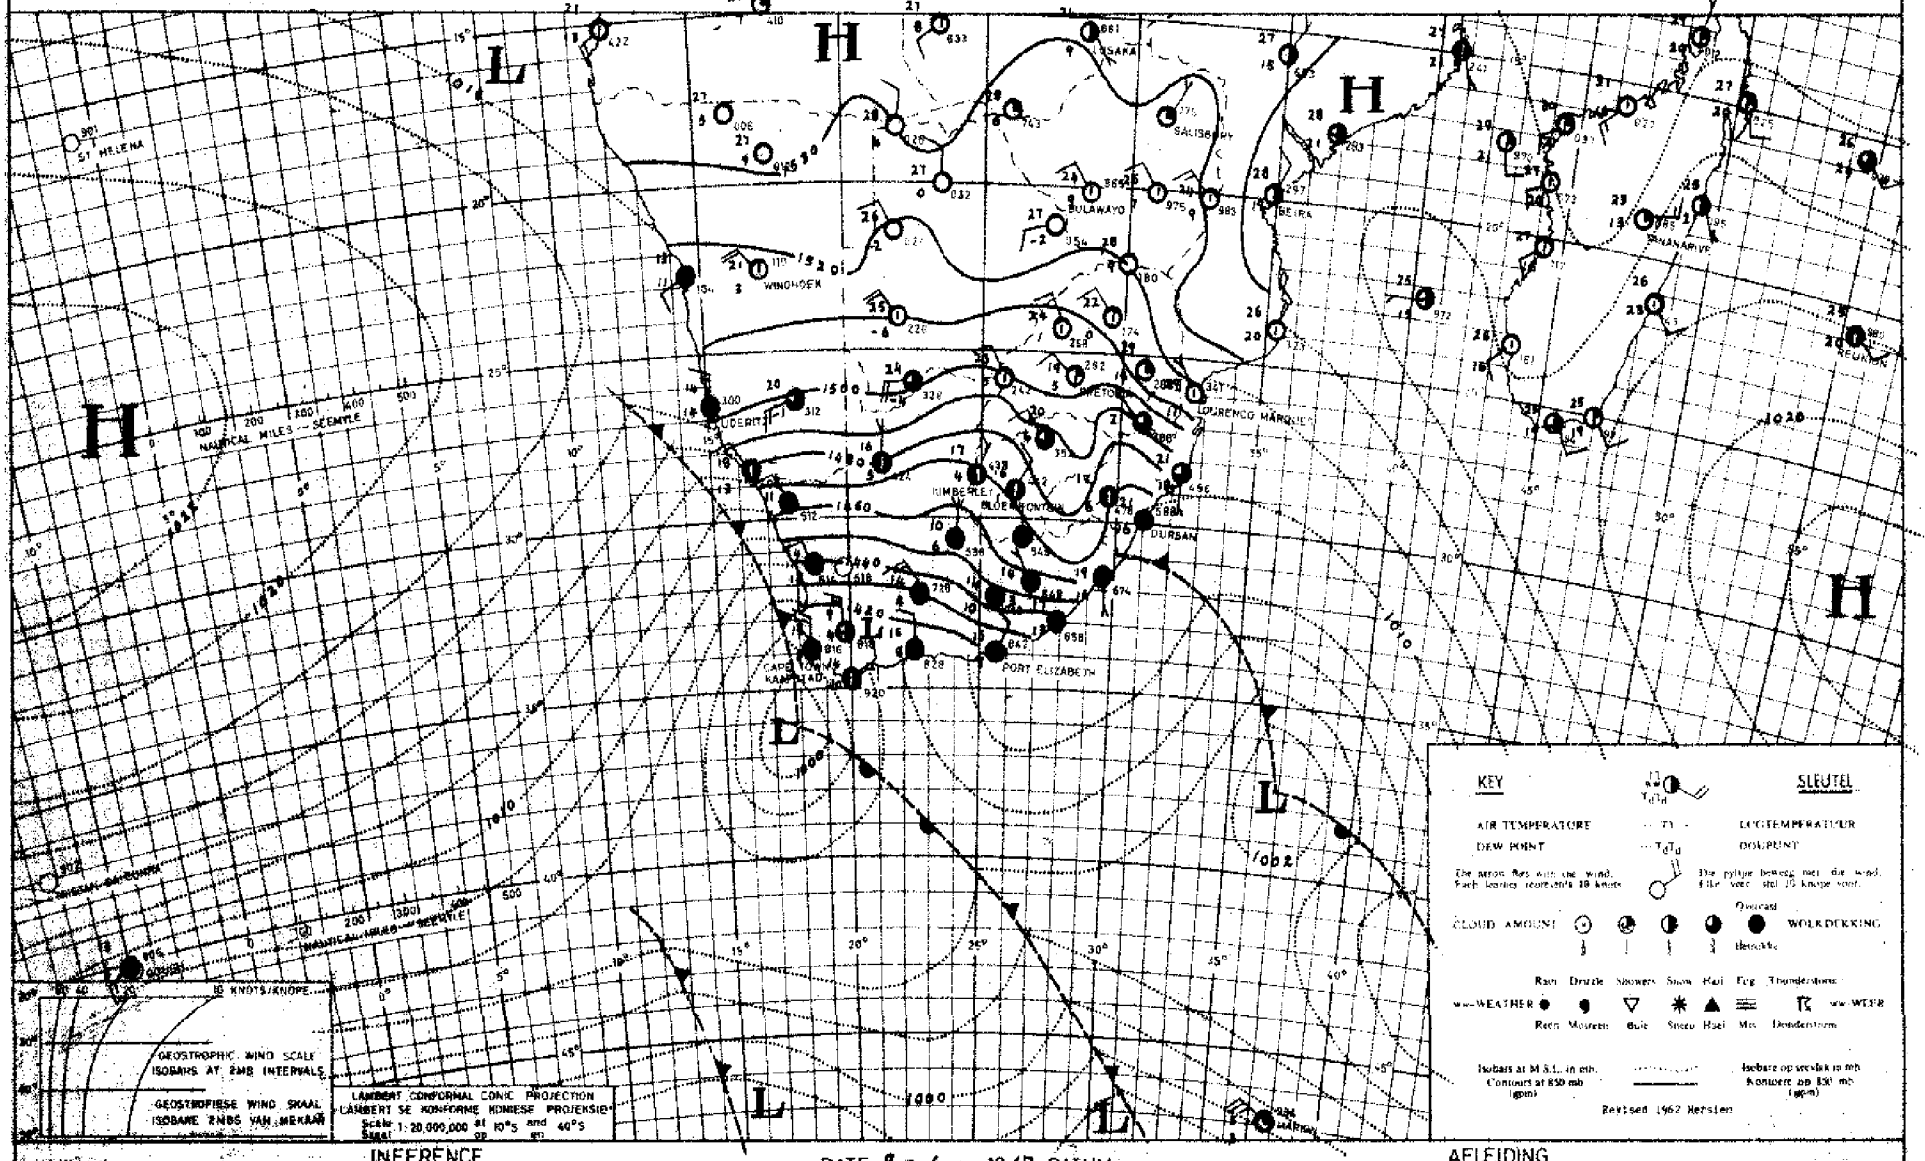
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 9 - 6 - 19 67 DATUM

AFLEIDING

The low near Cape Town is deepening and moving eastwards. Consequently cold, cloudy weather with rain, and snow over the high-lying areas, will spread over the southern and central regions of the country. Gales will occur along the coast.

Die laag naby Kaapstad verdiep en beweeg oostwaarts. Gevolglik sal koue, bewolkte weer met reën, en sneeu oor die hoogliggende dele, oor die sentrale en suidelike streke van die land uitbrei. Stormwinde sal langs die kus voorkom.

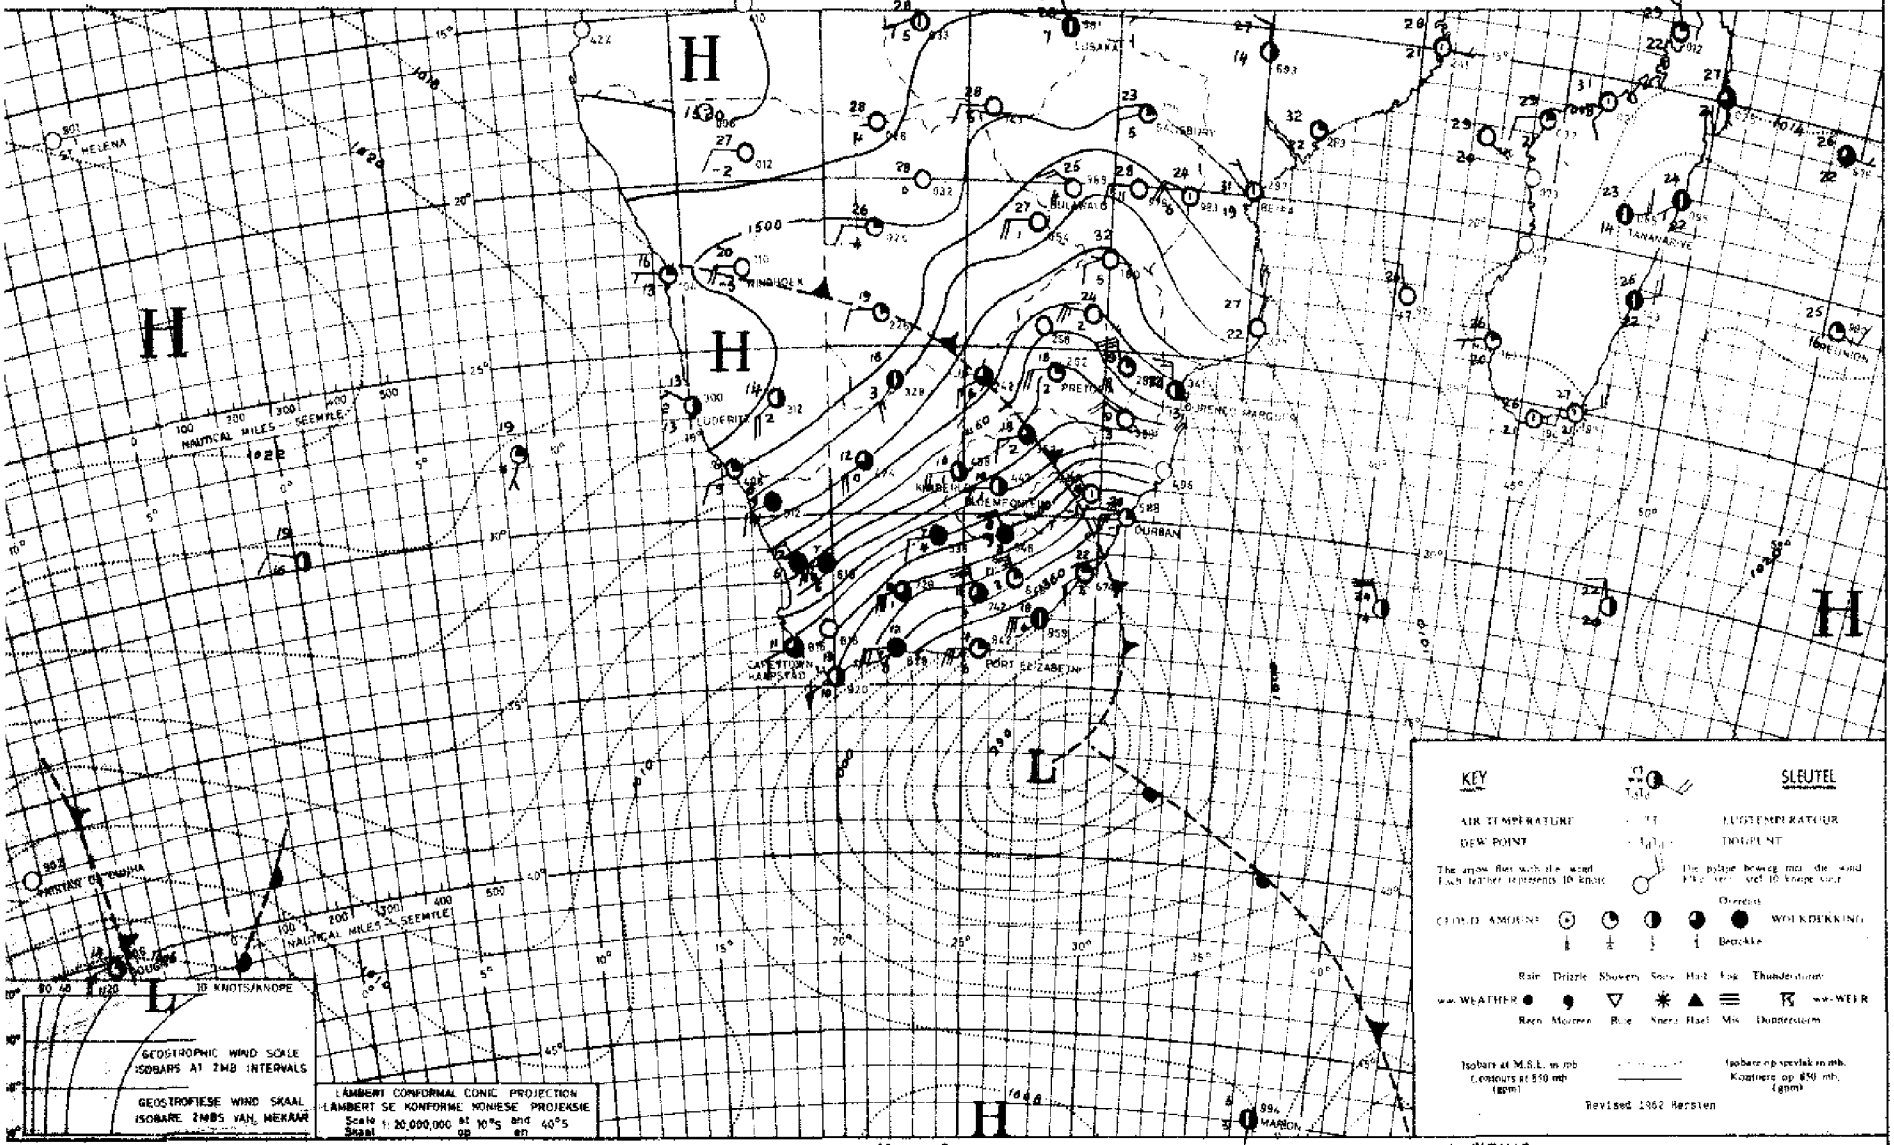
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 10 - 6 - 1967 DATUM AFLEIDING

The deep low south-east of the country is moving eastwards and the strong winds over the interior will subside gradually. Cold conditions with showers will occur over the southern parts of the Cape and Natal. The Atlantic high is ridging in over the northern parts of the country and fine cold weather will persist over the rest of the country.

Die diep laag suidoos van die land beweeg ooswaarts en die sterk winde oor die binneland sal geleidelik afneem. Koue toestande met buie sal voorkom oor die suidelike dele van Kaapland en Natal. Die Atlantiese hoog beweeg in oor die noordelike dele van die land en koue mooiweerstoestande word oor die res van die land verwag.

DAAGLIKSE WEERBULLETIN

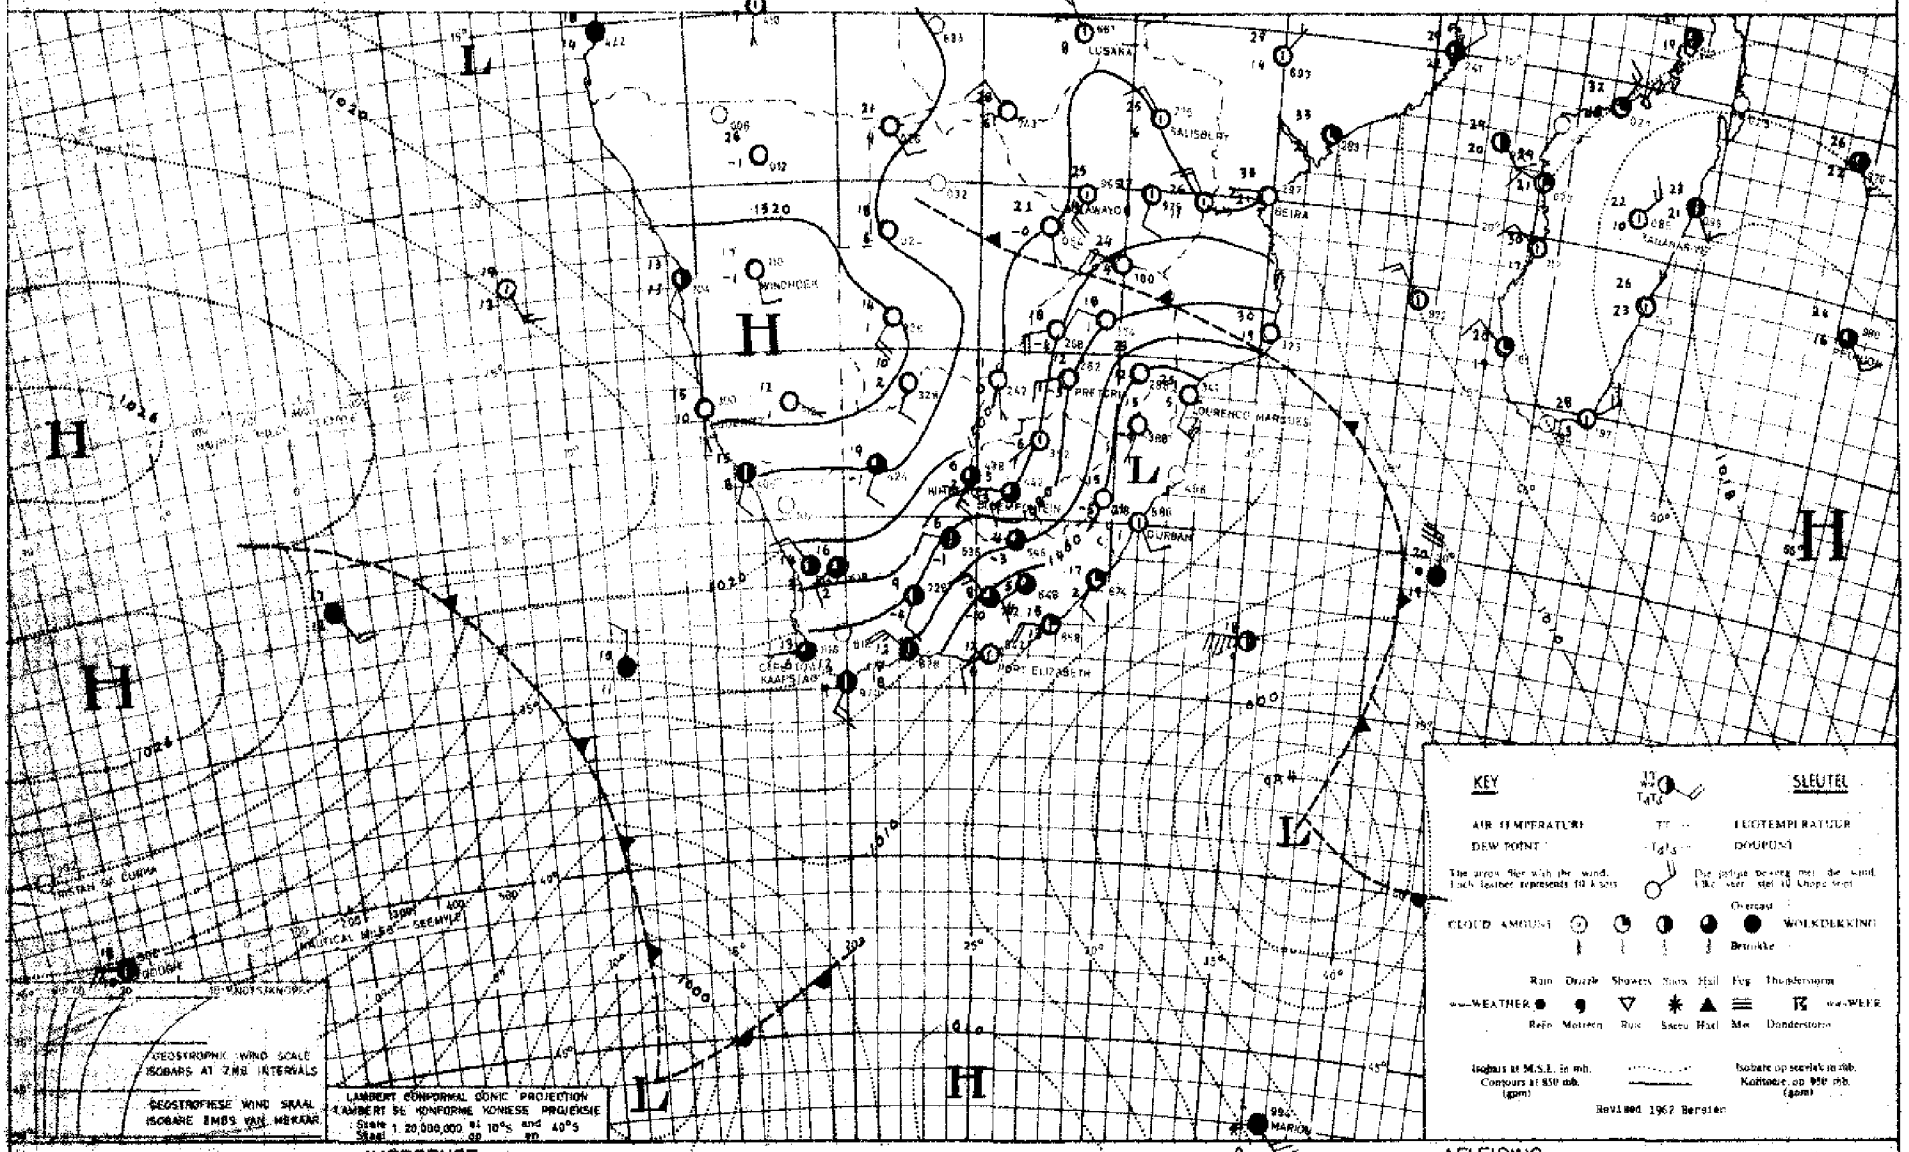
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 11 - 6 - 1967 DATUM AFLEIDING

A cold front has moved across most of the Republic and very cold weather will prevail over most areas. Another front is approaching from the west and it will be cloudy with further rain and showers over the Western and South-Western Cape Province.

'n Koufront het oor feitlik die hele Republiek beweeg en baie koue weer sal oor die meeste dele voorkom. Nog 'n front nader vanaf die weste en dit sal bewolk wees met verdere reën en buie oor Wes- en Suidwes-Kaapland.

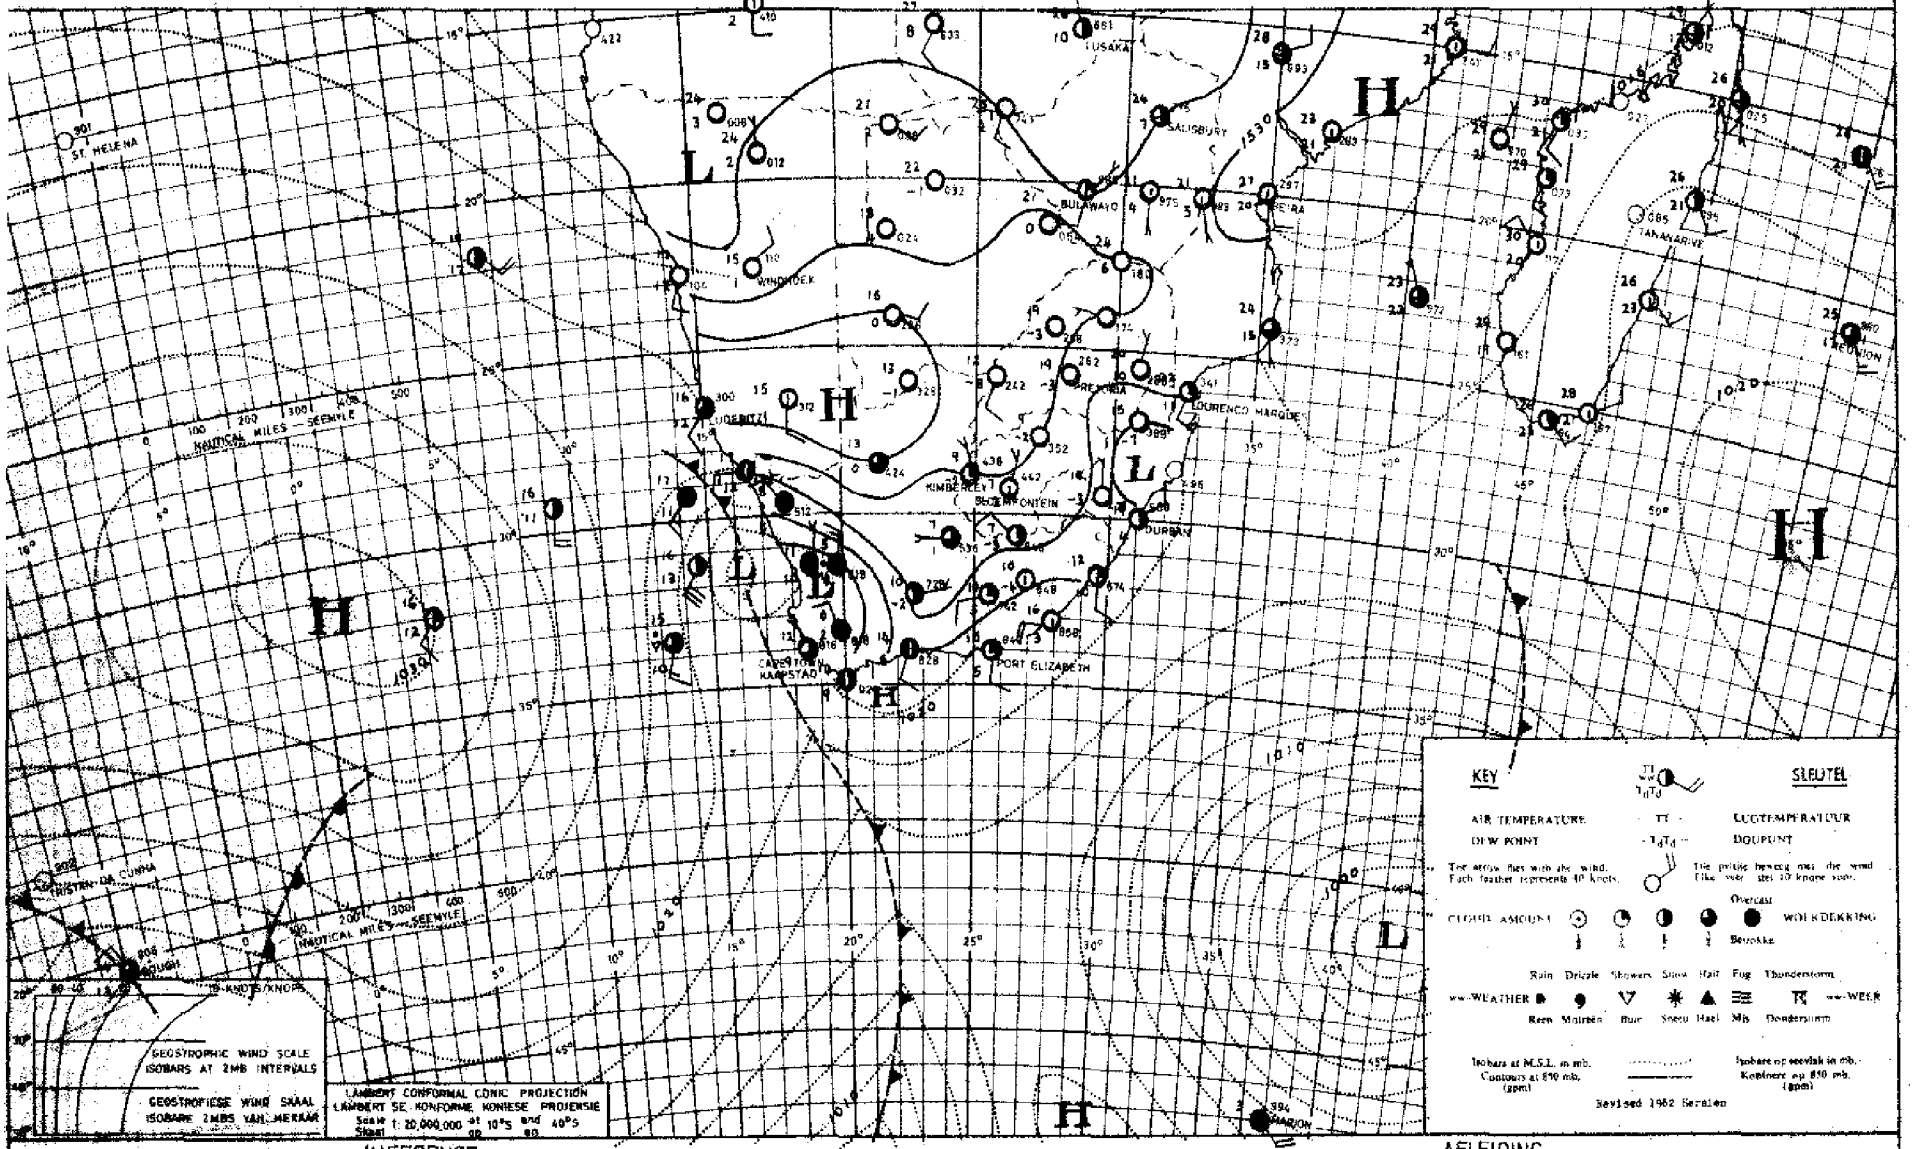
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 12 - 6 - 1967 DATUM AFLEIDING

The low north of Cape Town is causing cold, cloudy and windy conditions with rain over the South-western Cape. It will be partly cloudy and cold with showers over the remainder of the Cape Province and southern Free State. Mainly fair weather will prevail elsewhere.

Die laag noord van Kaapstad veroorsaak koue, bewolkte en winderige weer met reënbuie oor Suidwes-Kaapland. Gedeeltelik bewolkte koue weer met buie sal oor die res van Kaapland en die suidelike Vrystaat voorkom. Origens sal dit hoofsaaklik mooiweer wees oor die land.

DAAGLIKSE WEERBULLETIN

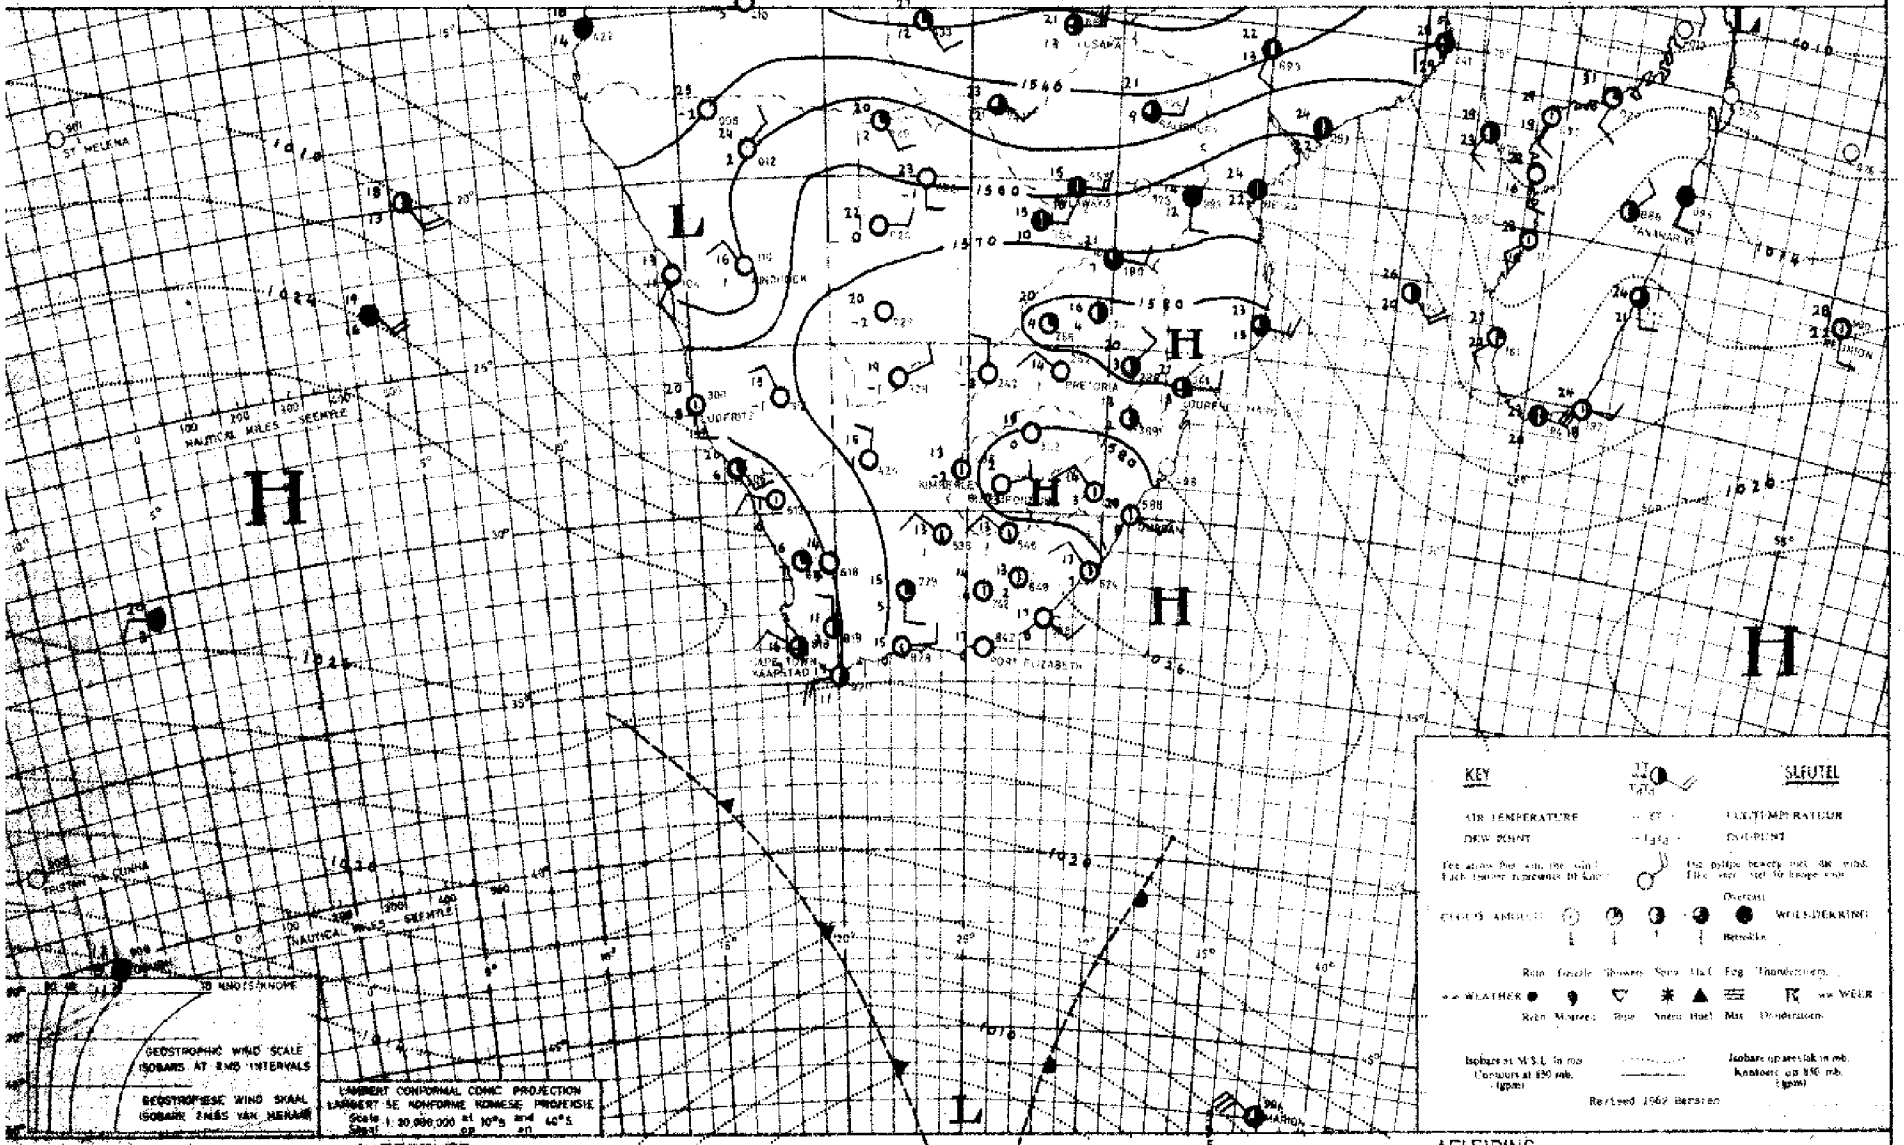
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 14 - 6 - 19 67 DATUM — AFLEIDING

The circulation over the country is strongly anticyclonic and it will be fine over most areas. Partly cloudy conditions will, however, prevail over Northern and Eastern Transvaal as a result of the easterly air flow over these regions.

Die sirkulasie oor die land is sterk antisiklonaal en dit sal mooiweer wees oor die meeste dele. Gedeeltelik bewolkte weer sal egter voorkom oor Noord- en Oos-Transvaal as gevolg van die oostelike lugstroom oor hierdie gebiede.

INFERENCE

DATE 15 — 6 — 1967 DATUM

AFLEIDING

The front south of the Cape is causing cloudy cool weather over the South-Western Cape. The circulation around the high along the North coast of Natal is causing cloudy weather over the northern regions of Transvaal. Over the remainder of the country it will be mainly fine.

Die front suid van Kaapland veroorsaak bewolkte koel weer met reën of buie oor Suidwes-Kaapland. Die sirkulasie om die hoog langs die noordkus van Natal veroorsaak bewolkte weer oor die noordelike dele van Transvaal. Origens sal dit hoofsaaklik mooiweer wees.

DAAGLIKSE WEERBULLETIN

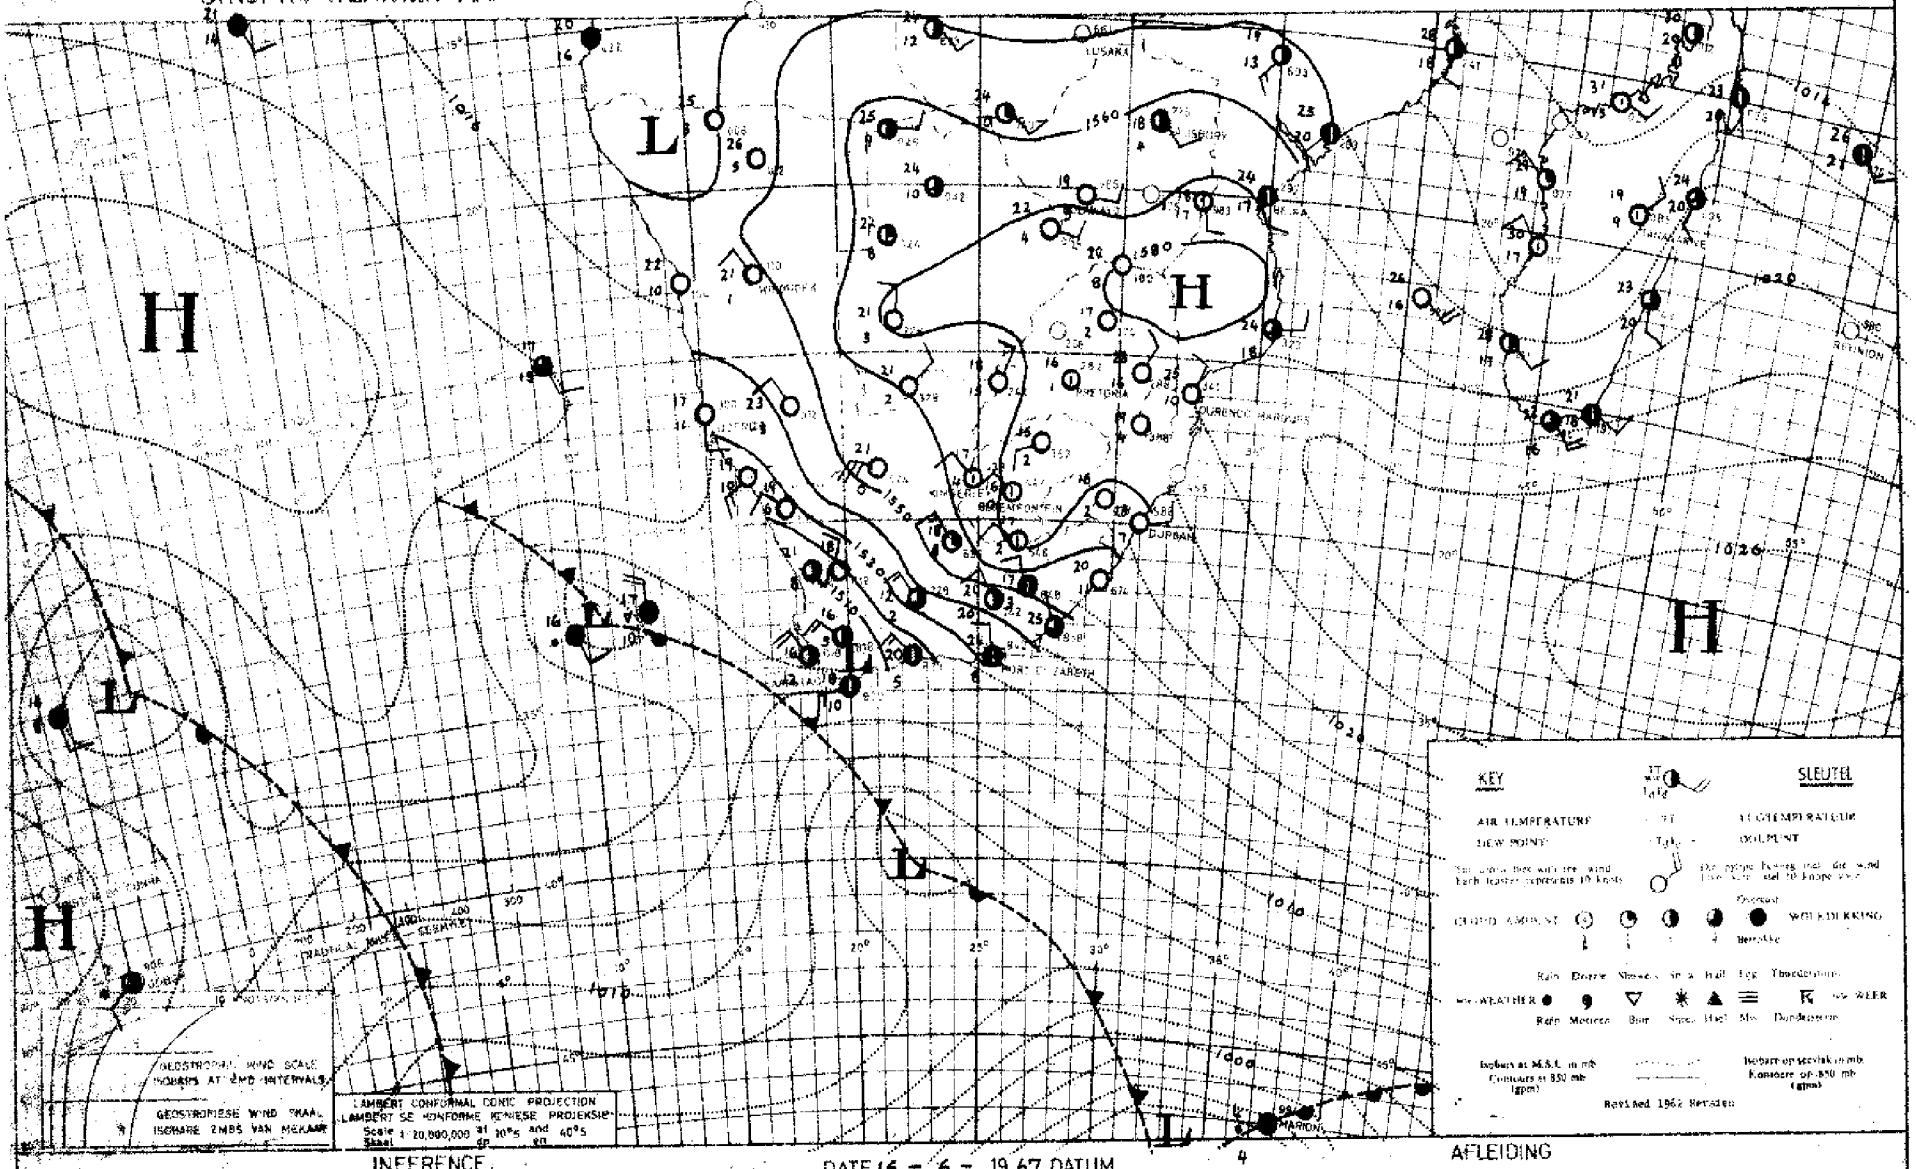
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE.

The cold front to the west of the Cape is moving south-eastwards and will cause cloudy cool weather over the south-western parts of the Cape Province only. With dry air in circulation over the rest of the country it will remain fine and mild over these regions.

DATE 16 — 6 — 1967 DATUM

AFLEIDING

Die koufront wes van die Kaap beweeg suidoos-waarts en sal bewolkte koel weer net oor die suid-westelike dele van die Kaapprovinsie veroorsaak. Droë lug sirkuleer oor die res van die land waar dit mooiweer en matig sal wees.

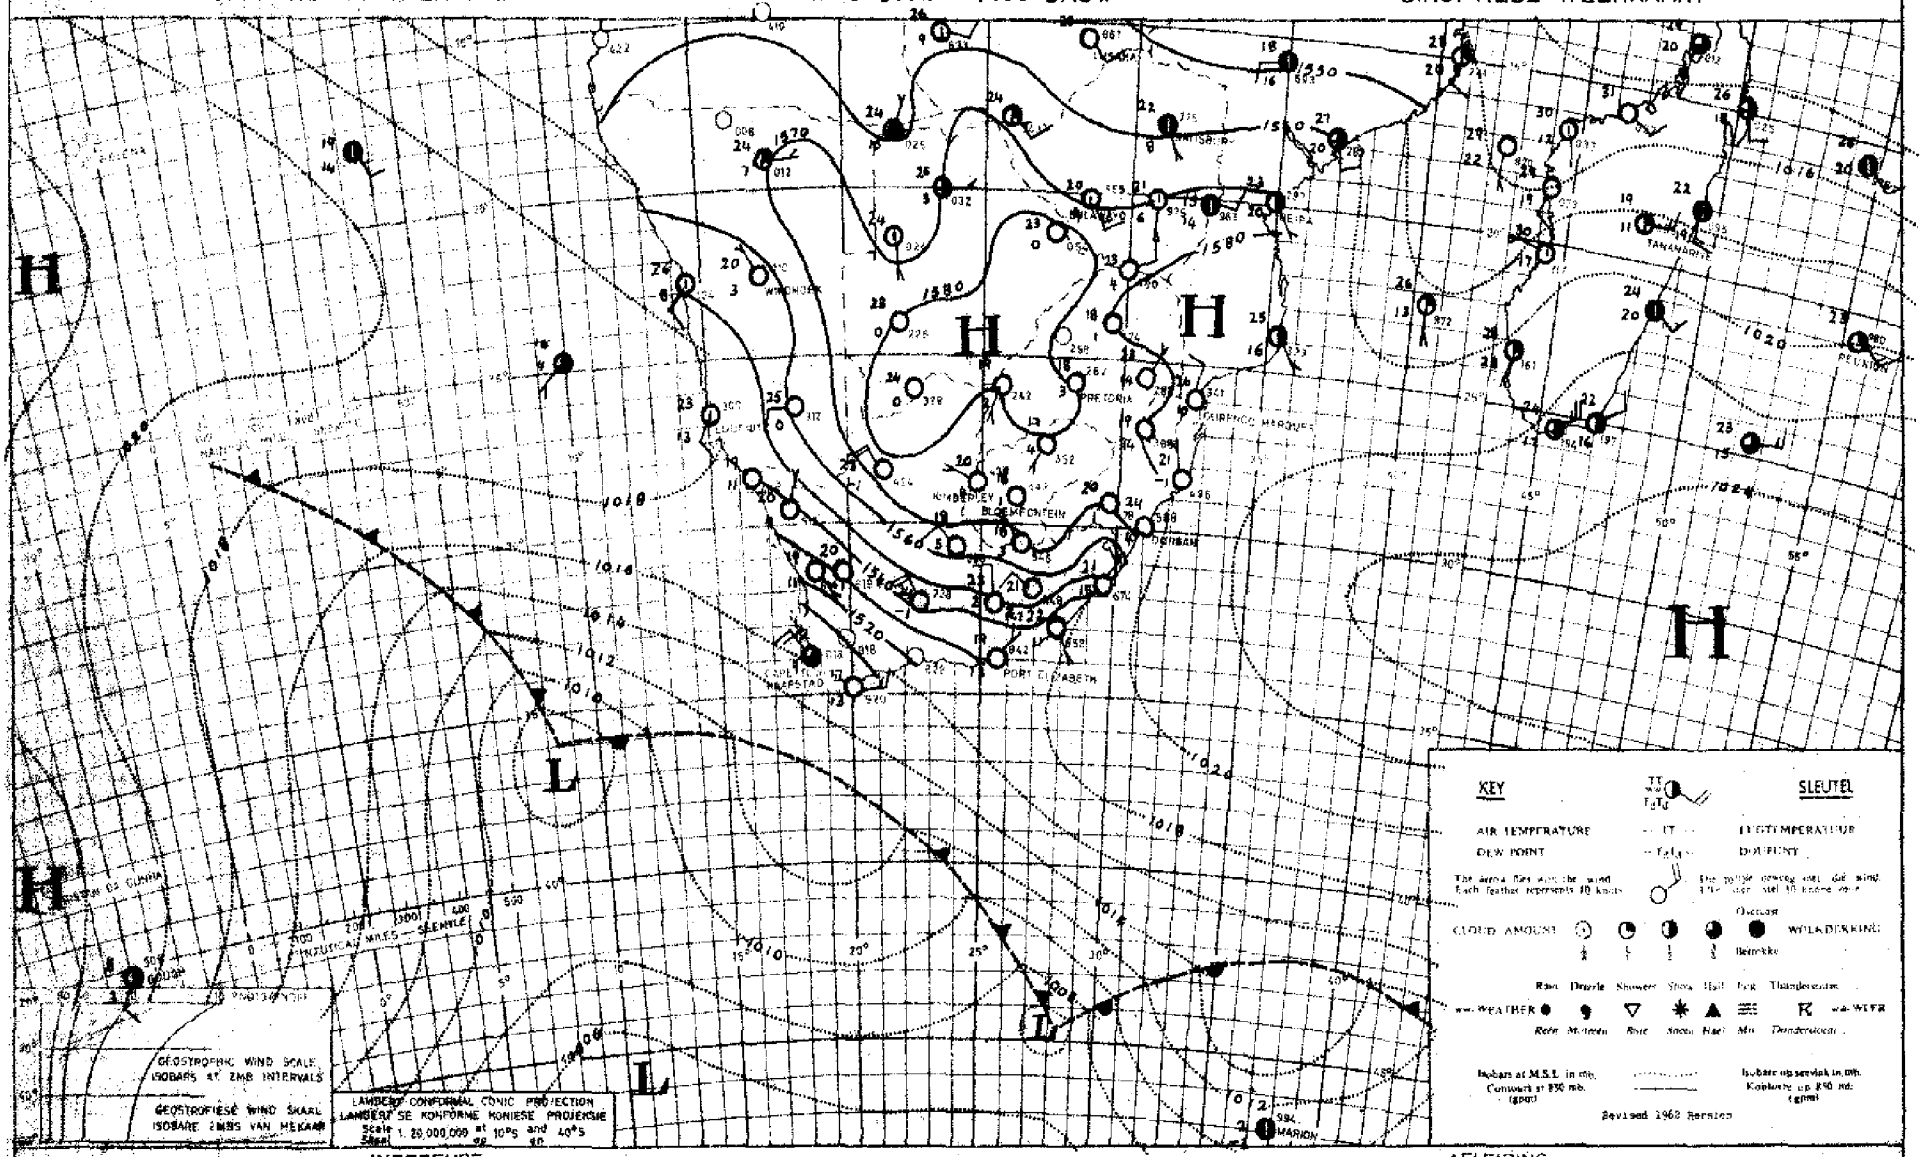
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 17 - 6 - 1967 DATUM AFLEIDING

The low near the Cape will cause cloudy, cool weather over the South-Western Cape. Over the remainder of the country it will be mainly fine due to the high pressure system over the interior.

Die laag naby die Kaap sal bewolkte, koel weer oor die Suidwestelike Kaapse gebiede veroorsaak. Oor die res van die land sal mooiweerstoestande heers as gevolg van die hoogdrukgebied oor die binneland.

The cold front is moving south-eastwards and it will clear along the south-western coast. Fairly moist air behind the front will cause partly cloudy weather along the east coast.

Die koufront beweeg suidooswaarts en dit sal oor die suidweskus opklaar. Taamlik vogtige lug agter die front sal gedeeltelik bewolkte weer langs die ooskus veroorsaak.

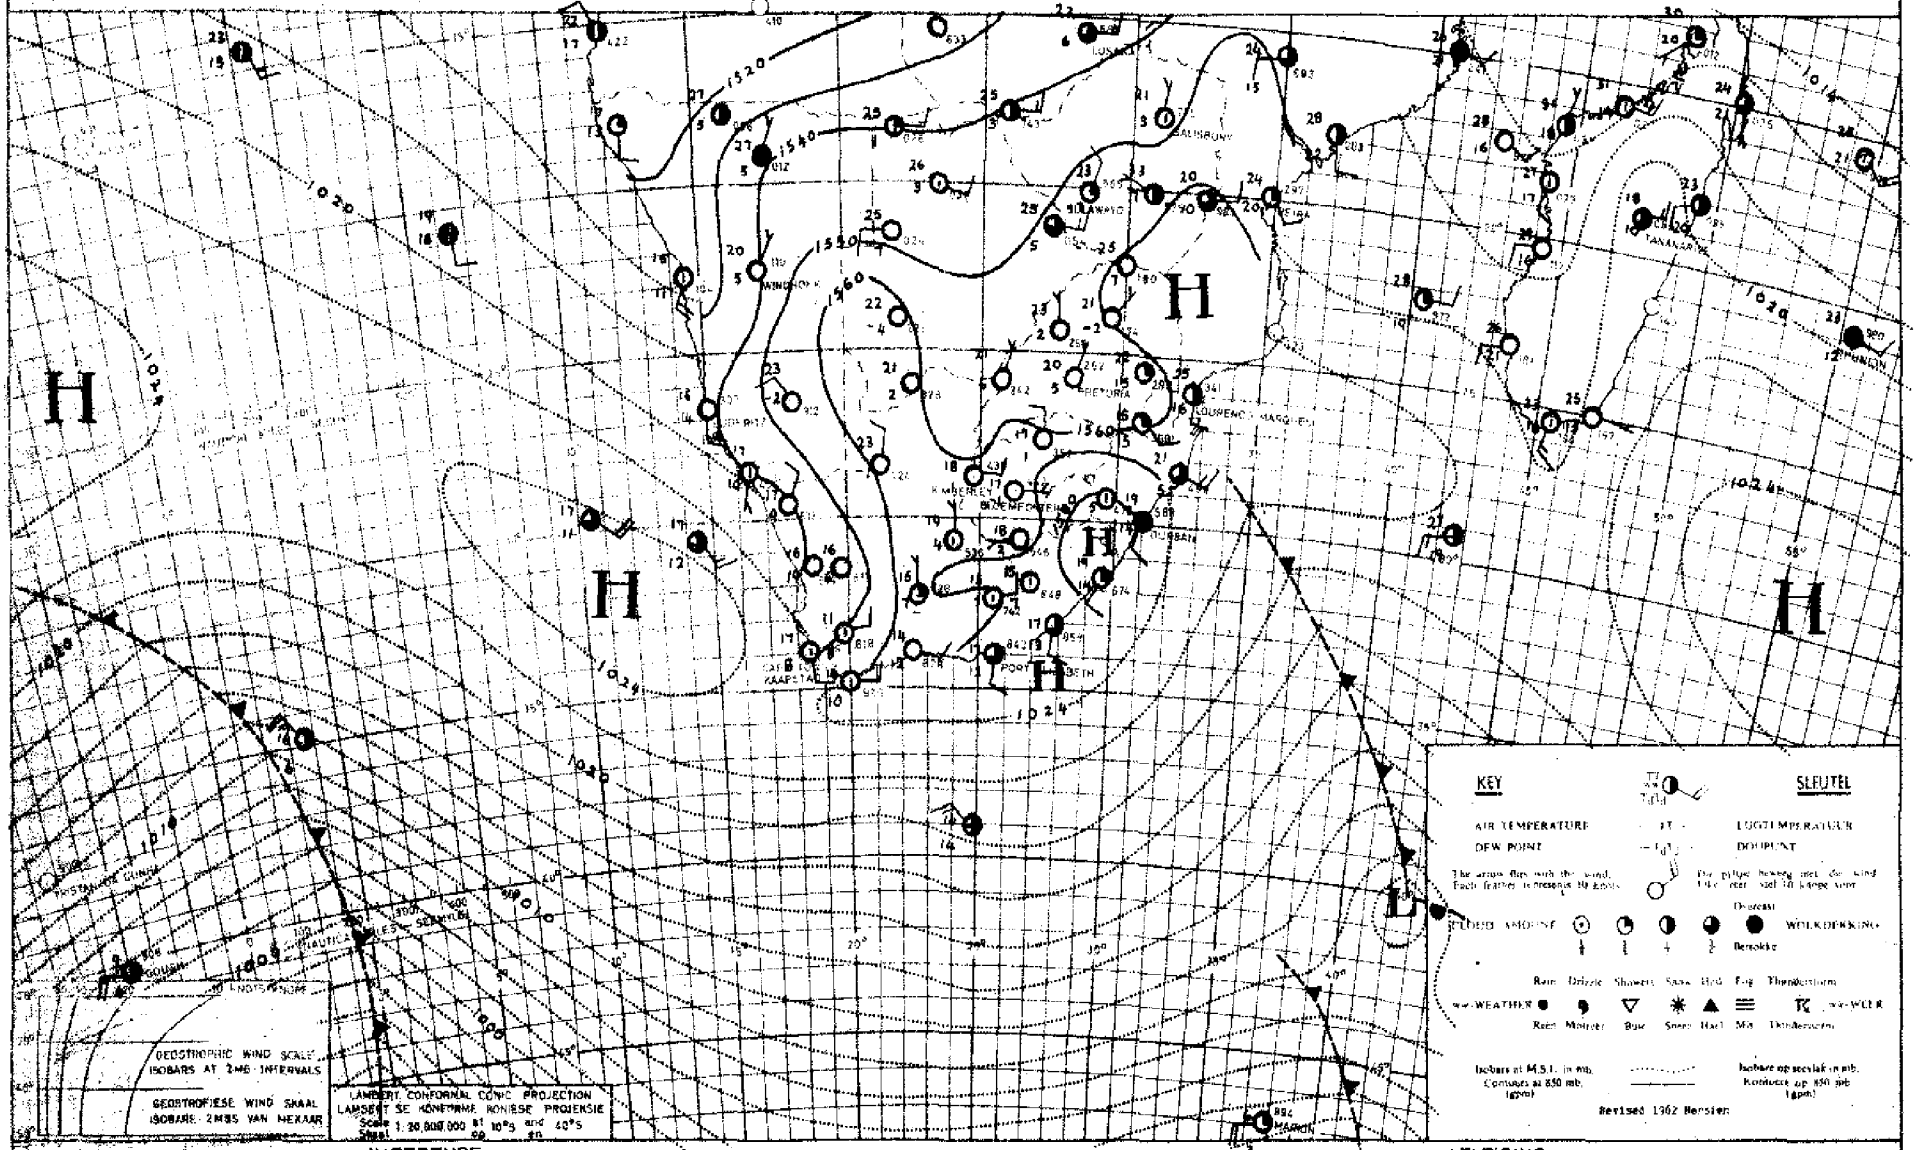
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 20 - 6 - 1967 DATUM — AFLEIDING

The high pressure area along the coast is causing moist air to move in over Natal, Northern and eastern Transvaal, and the northen parts of South West Africa and Botswana. Rain or showers will occur at places over Natal. Over the remainder of the country it will be mainly fine.

Die hoëdrukstelsel langs die kus voer vogtige lug in oor Natal, noordelike en oostelike Transvaal en die noordelike dele van Suidwes-Afrika en Botswana waar dit bewolk, tot gedeeltelik bewolk sal wees met reën op plekke oor Natal. Oor die res van die land sal dit hoofsaaklik mooiweer wees.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

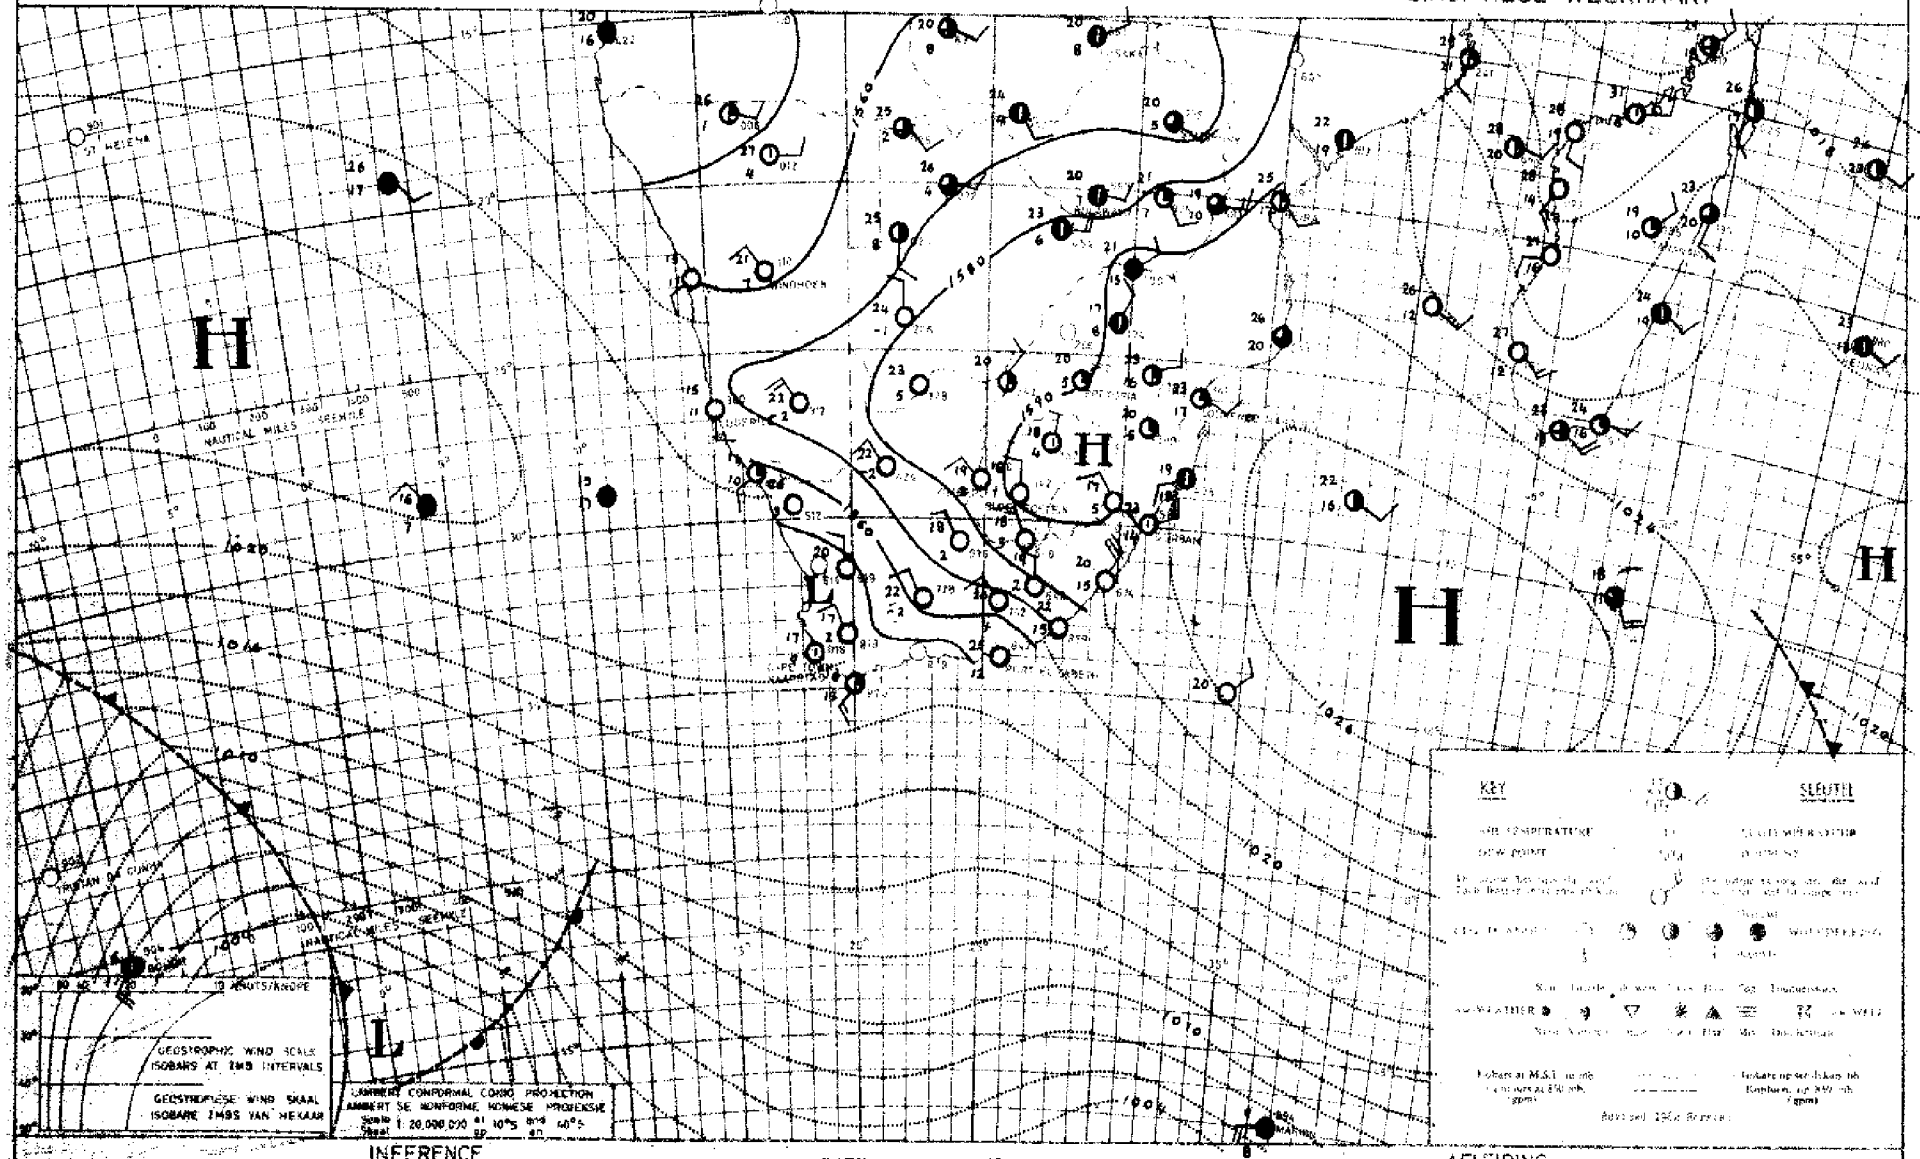
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST SINOPTIESE WEERKAART



INFERENCE

DATE 21 - 6 - 19 67 DATUM

AFLEIDING

The strong high to the east of the country is causing an influx of moist air over the northern parts of the country where it will be partly cloudy to cloudy. A deep trough to the west of the country will cause partly cloudy to cloudy weather along the western and south-western Cape coasts.

Die sterk hoog oos van die land voer vogtige lug in oor die noordelike dele van die land waar dit bewolk tot gedeeltelik bewolk sal wees. 'n Diep trog van lae druk wes van die land sal gedeeltelik bewolkte tot bewolkte weer oor die westelike en suidwestelike Kaapse kusgebiede veroorsaak.

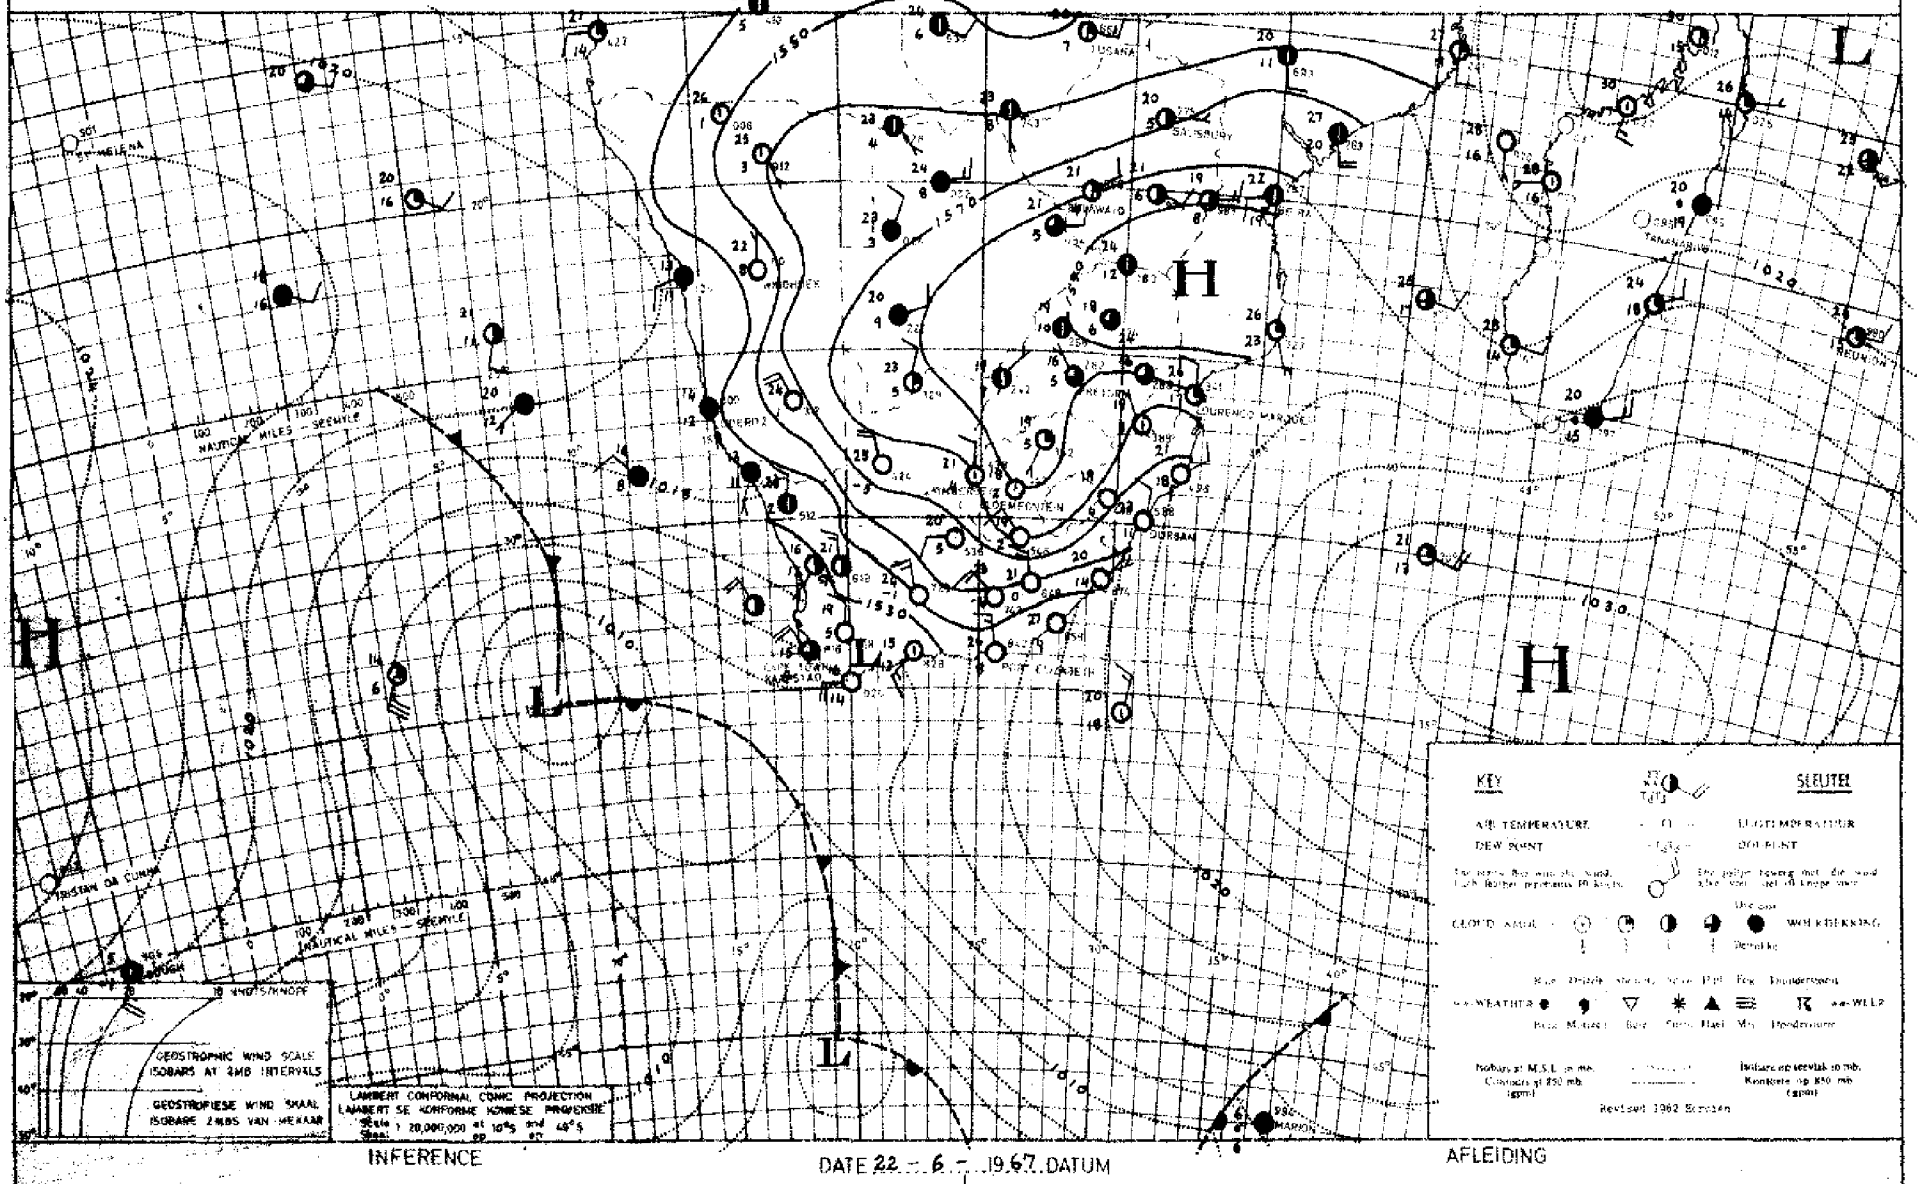
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 22 - 6 - 1967 DATUM — AFLEIDING

The cold front to the west of Cape Town will cause cloudy, cool weather with showers over the Western Cape. Moist air over the northern parts of the country is moving southwards and it will become cloudy over the central regions.

Die kouefront wes van Kaapstad sal bewolkte, koel weer met buie oor Wes-Kaapland veroorsaak. Vogtige lug oor die noordelike dele van die land beweeg suidwaarts en dit sal bewolk word oor die sentrale gebiede.

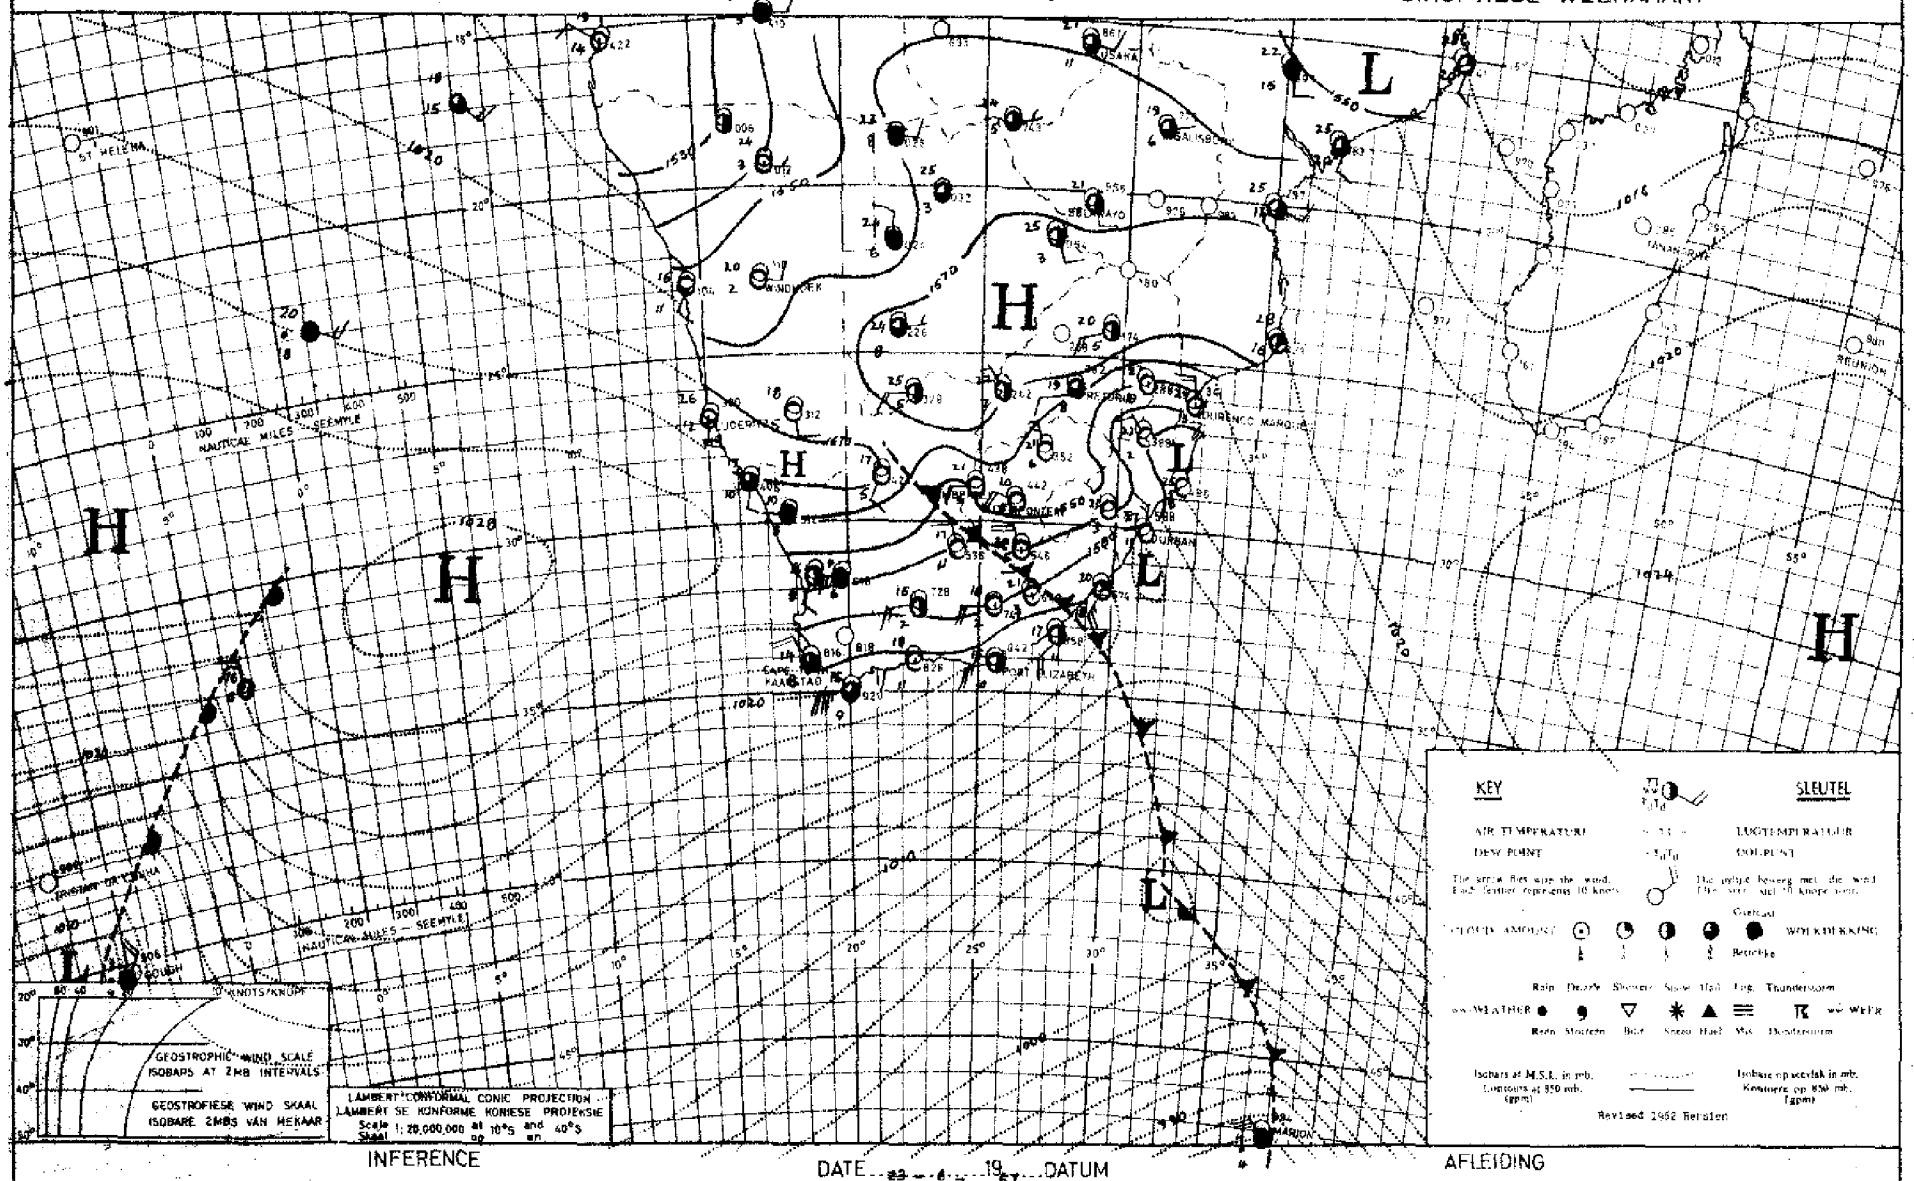
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 23 — 6 — 19 67 — DATUM — AFLEIDING

The cold front moving over the country, is causing cold cloudy weather over the southern parts and it will spread eastwards. Fairly moist air is moving around the high pressure area over the interior causing cloudy weather over the southern parts of South West Africa, Botswana and the Transvaal.

Die koufront wat oor die land beweeg, veroorsaak koue bewolkte weer oor die suidelike dele wat oos-waarts sal uitbrei. Vogtige lug beweeg om die hoëdruk-gebied oor die binneland en veroorsaak bewolkte weer oor die suidelike dele van Suidwes-Afrika, Botswana en Transvaal.

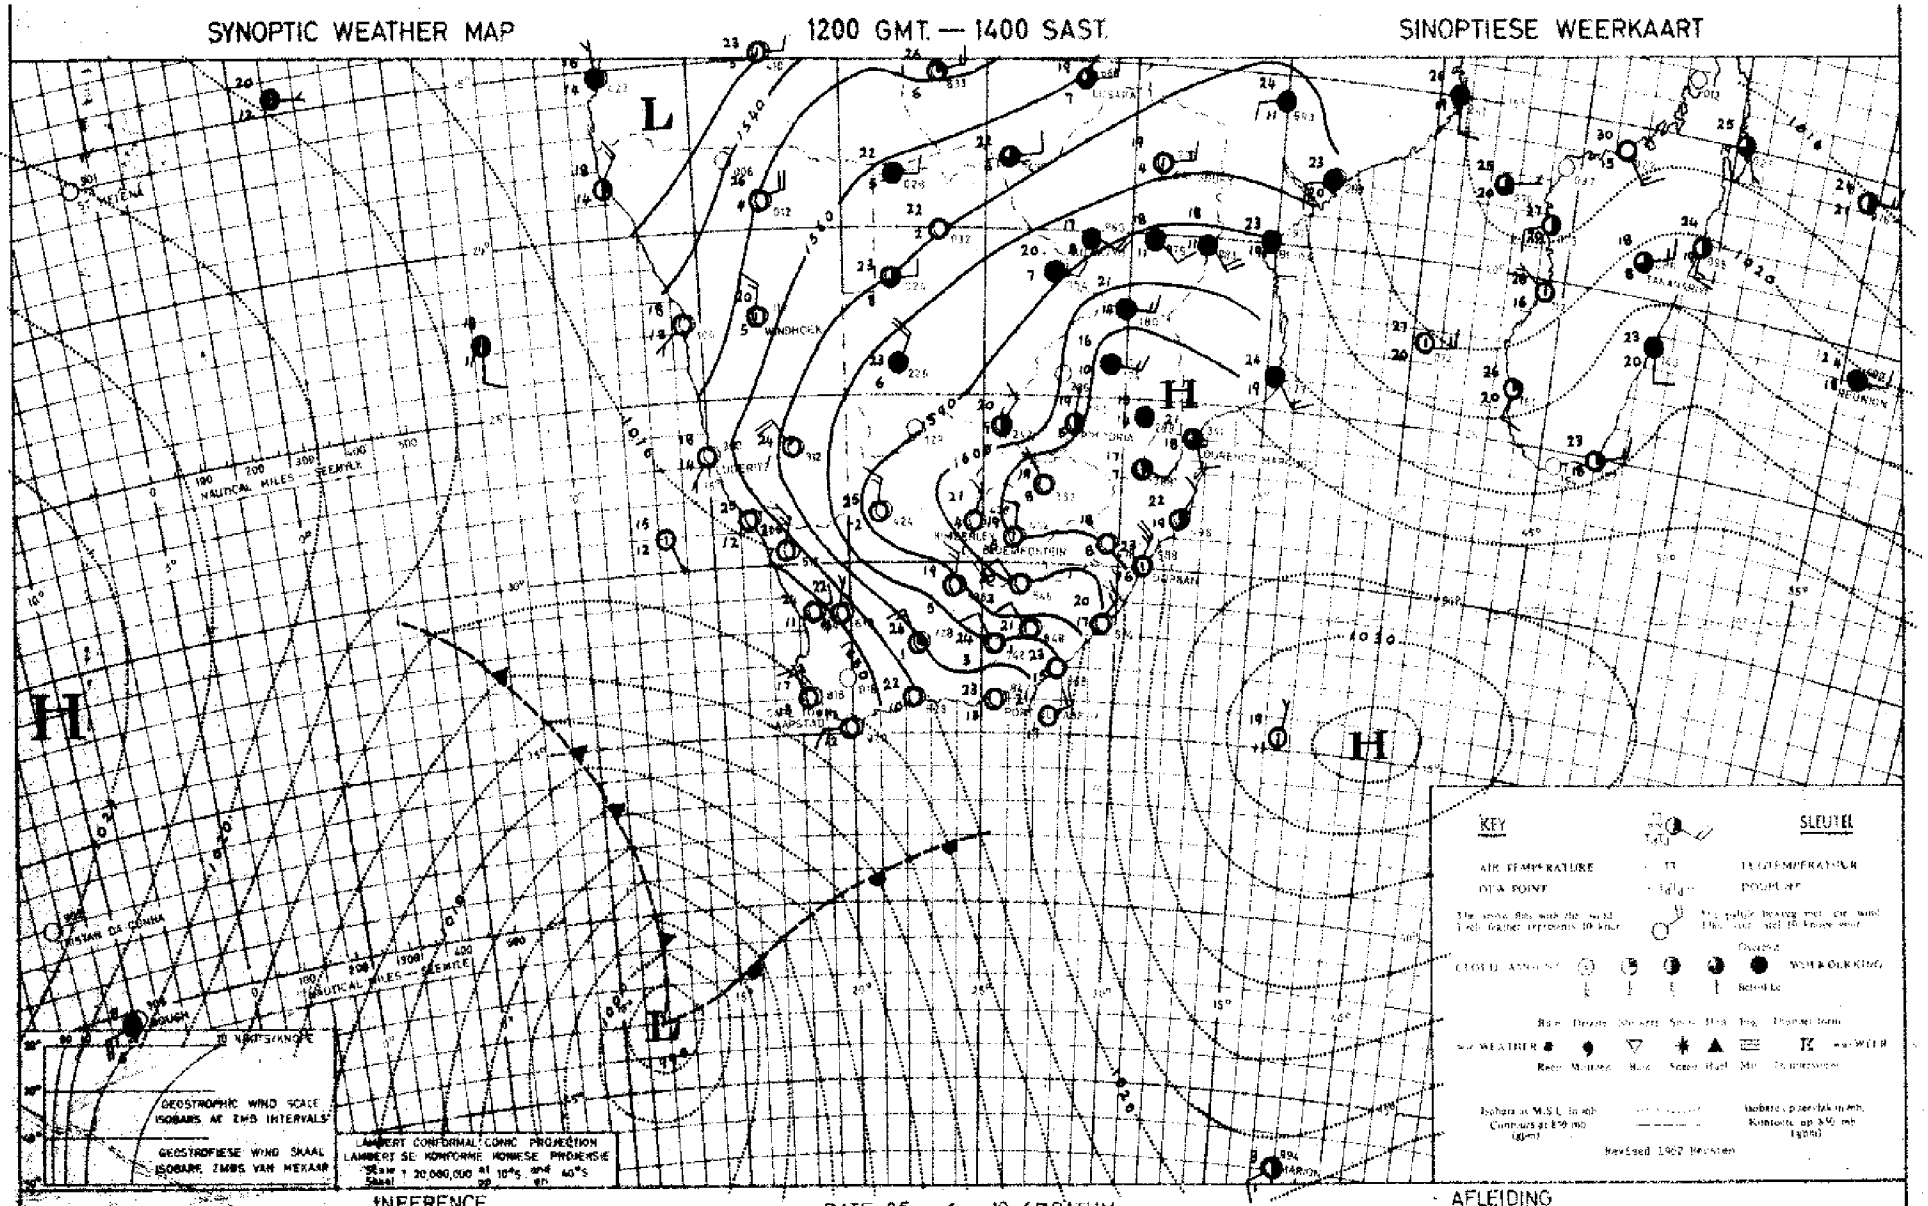
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 25 - 6 - 19 67 DATUM AFLEIDING

The circulation around the high over the Transvaal and Free State is causing moist air to move over the northern parts of the country where it will be cloudy to partly cloudy. The front nearing the Cape will cause cloudy cooler weather with rain or showers over the south-western Cape and it will spread eastwards.

Die sirkulasie om die hoog oor die Vrystaat en Transvaal voer vogtige lug in oor die noordelike dele van die land waar dit bewolk tot gedeeltelik bewolk sal wees. Die front wat die Kaap nader, sal koeler bewolkte weer met reën of buie veroorsaak oor Suidwes-Kaapland en dit sal geleidelik ooswaarts uitbrei.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

INFERENCE

DATE 26 - 6 - 1967 DATUM

AFLEIDING

The strong high over the eastern parts of the country is causing an influx of moist air over the country, so that partly cloudy weather will occur over most regions. Behind the cold front the Atlantic high will extend a ridge along the southern coastal regions causing cloudy, cooler weather with showers along the south-western and southern coastal regions.

Die sterk hoog oor die oostelike dele van die land veroorsaak 'n toevoer van vogtige lug oor die land, sodat dit gedeeltelik bewolk sal weeg oor die meeste dele. Agter die koufront beweeg die Atlantiese hoog oor die suidelike kusgebiede sodat bewolkte koeler weer met buie oor die suidwestelike en suidelike kusgebiede sal voorkom.

INFERENCE

DATE 27 - 6 - 1967 DATUM

AFLEIDING

The cold front near Port Elizabeth is moving eastwards so that cloudy, cooler weather with light showers will spread to the east coast while it will clear over the Western Cape.

Die koufront naby Port Elizabeth beweeg ooswaarts en bewolkte koeler weer met ligte buie sal langs die ooskus uitbrei terwyl dit oor Wes-Kaapland sal opklaar.

INFERENCE

DATE 28 - 6 - 1967 DATUM

AFLEIDING

The cold front approaching the Cape will cause cloudy weather with rain and showers over the south-western Cape coast. Over the remainder of the country it will be mainly fine as a result of the high over the interior.

Die koufront wat die Kaap nader, sal bewolkte weer met reën of buie oor die Suidwes-Kaapse kus veroorsaak. Oor die res van die land sal dit hoofsaaklik mooiweer wees as gevolg van die hoog oor die binneland.

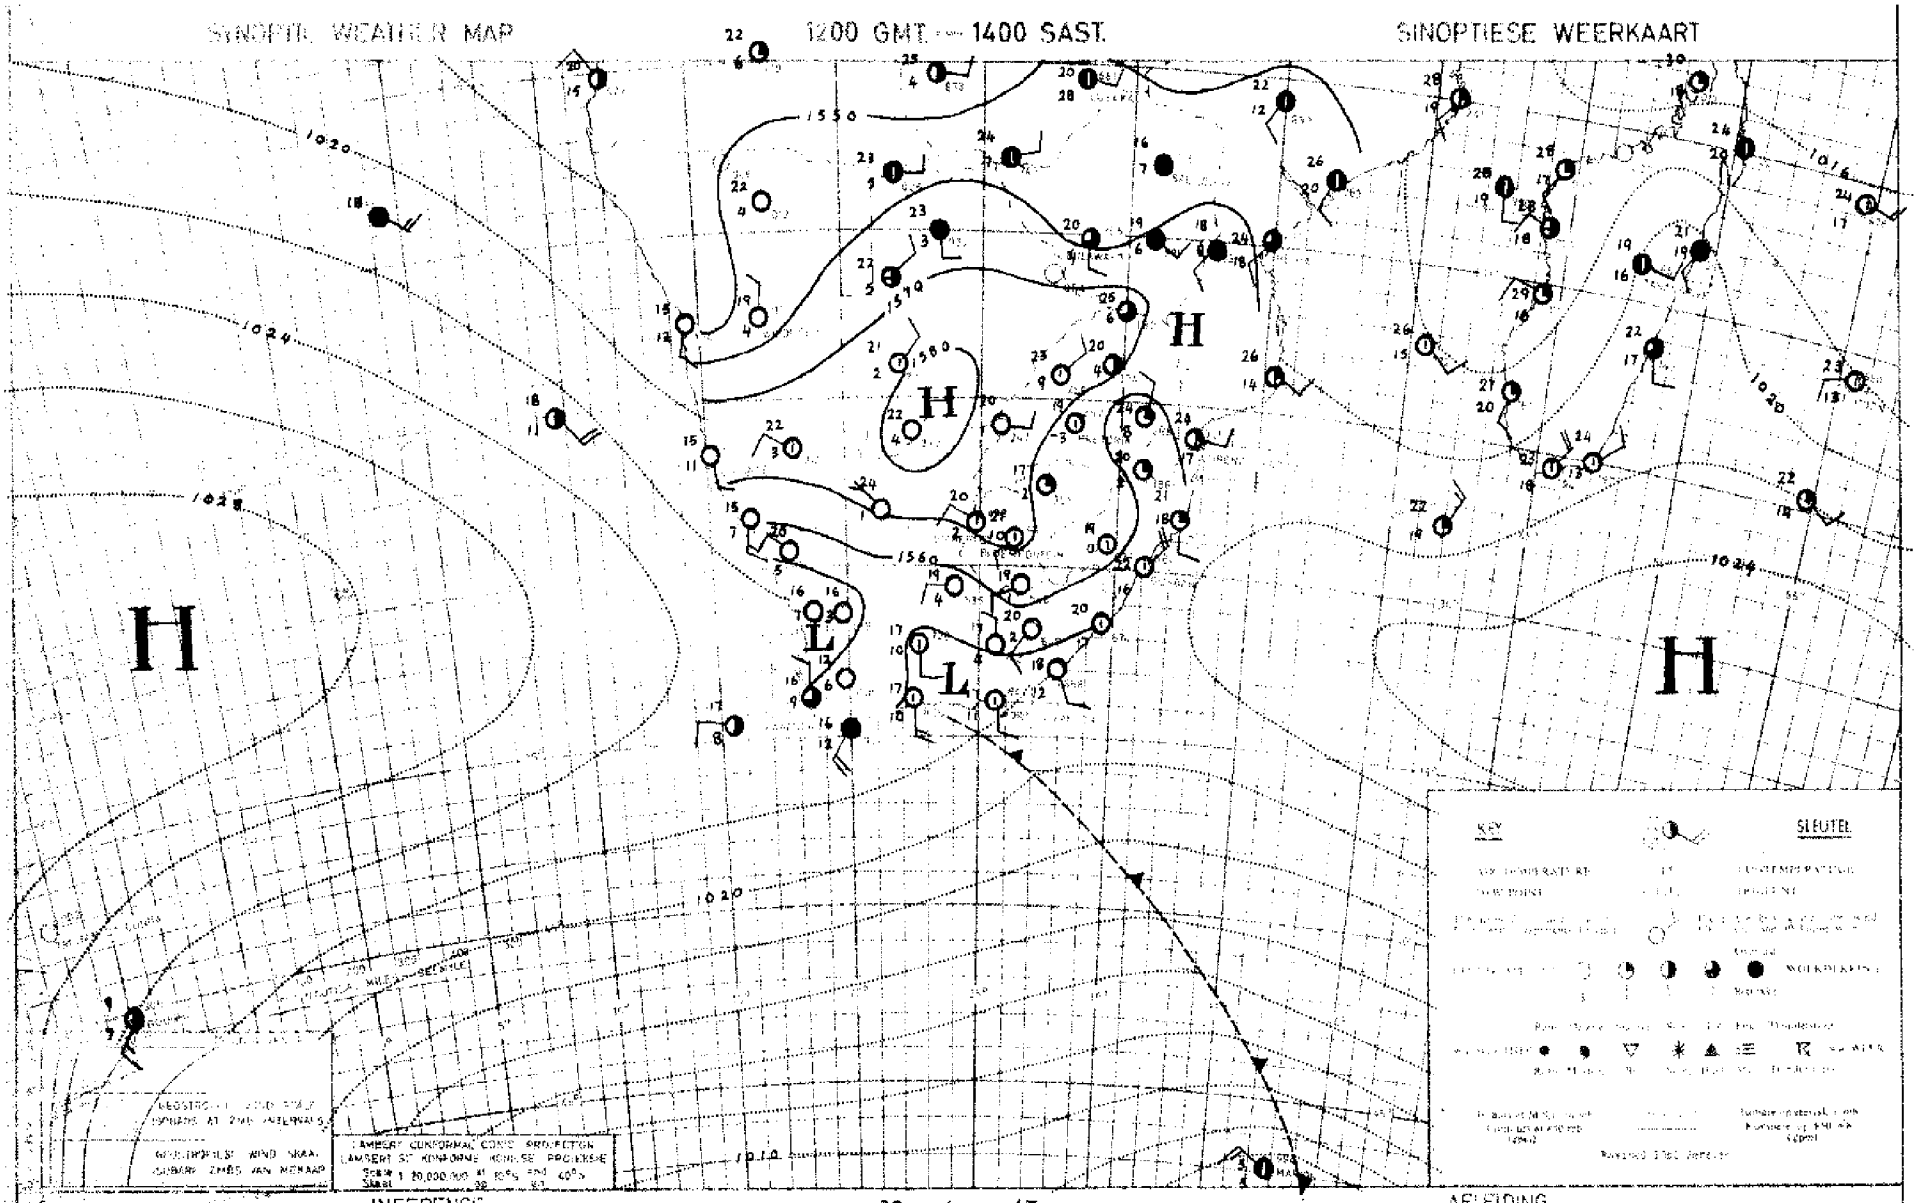
SYNOPTIC WEATHER MAP 1200 GMT — 1400 SAST SINOPTIESE WEERKAART



INFERENCE

A strong high is situated over the country. Slightly moister air is being circulated around this high over the western and central parts of the country, where it will be partly cloudy and mild.

DATE 29 - 6 - 1967 DATUM

AFLEIDING

'n Sterk hoëdrukstelsel is oor die land geleë. Effens vogtiger lug sirkuleer om hierdie hoog oor die westelike en sentrale dele van die land, waar dit gedeeltelik bewolk en matig sal wees.

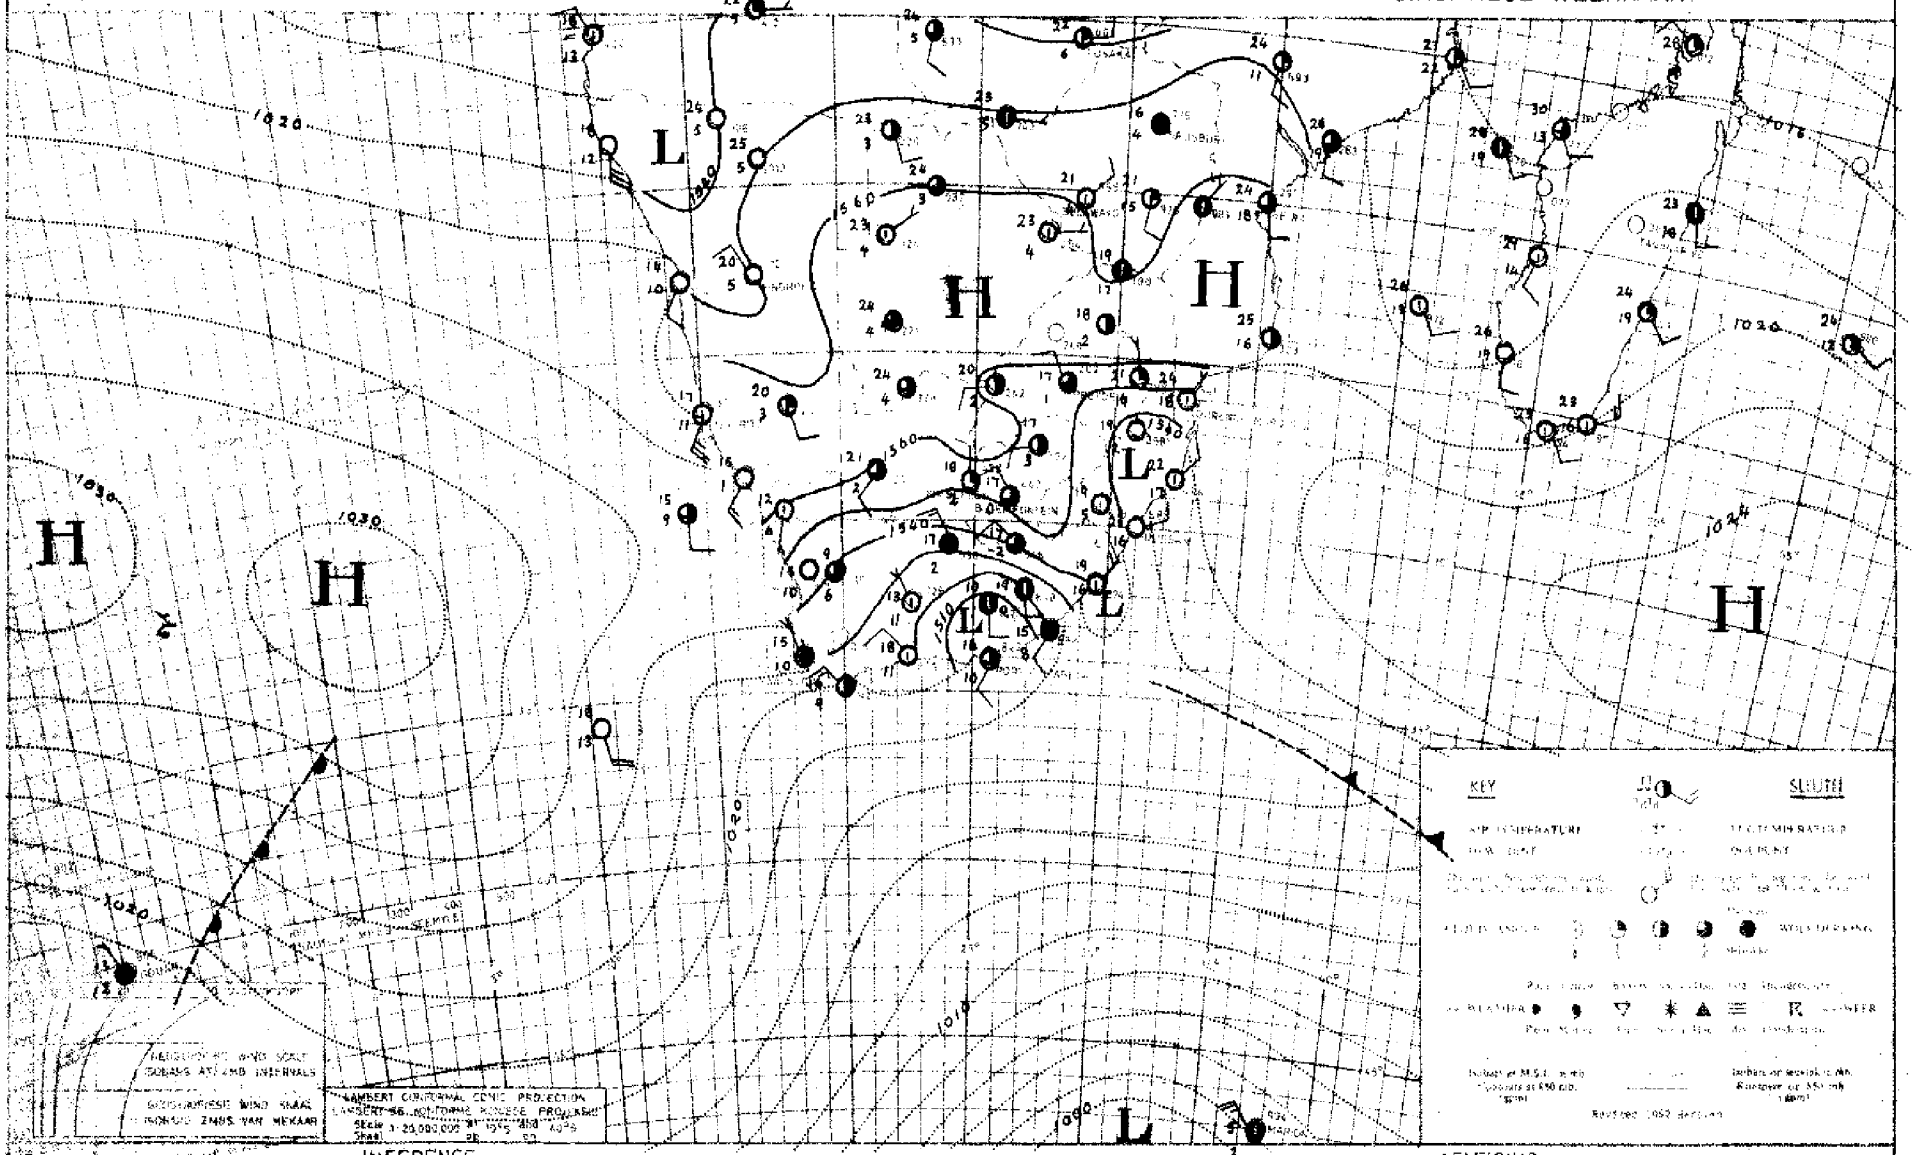
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST SINOPTIESE WEERKAART



INFERENCE

The trough of low pressure west of the Cape will move eastwards and cause cloudy conditions over the south-western and southern coastal regions. The circulation over the rest of the country, is anticyclonic but the air is fairly moist so that partly cloudy conditions will occur.

DATE 30 - 6 - 19 67 DATUM

AFLEIDING

Die trog van lae druk wes van Kaapland sal oostwaarts beweeg en bewolkte toestande oor die suidwestelike en suidelike kusgebiede veroorsaak. Die sirkulasie oor die res van die land is, antisiklonaal maar die lug is redelik vogtig sodat gedeeltelik bewolkte weer sal voorkom.
