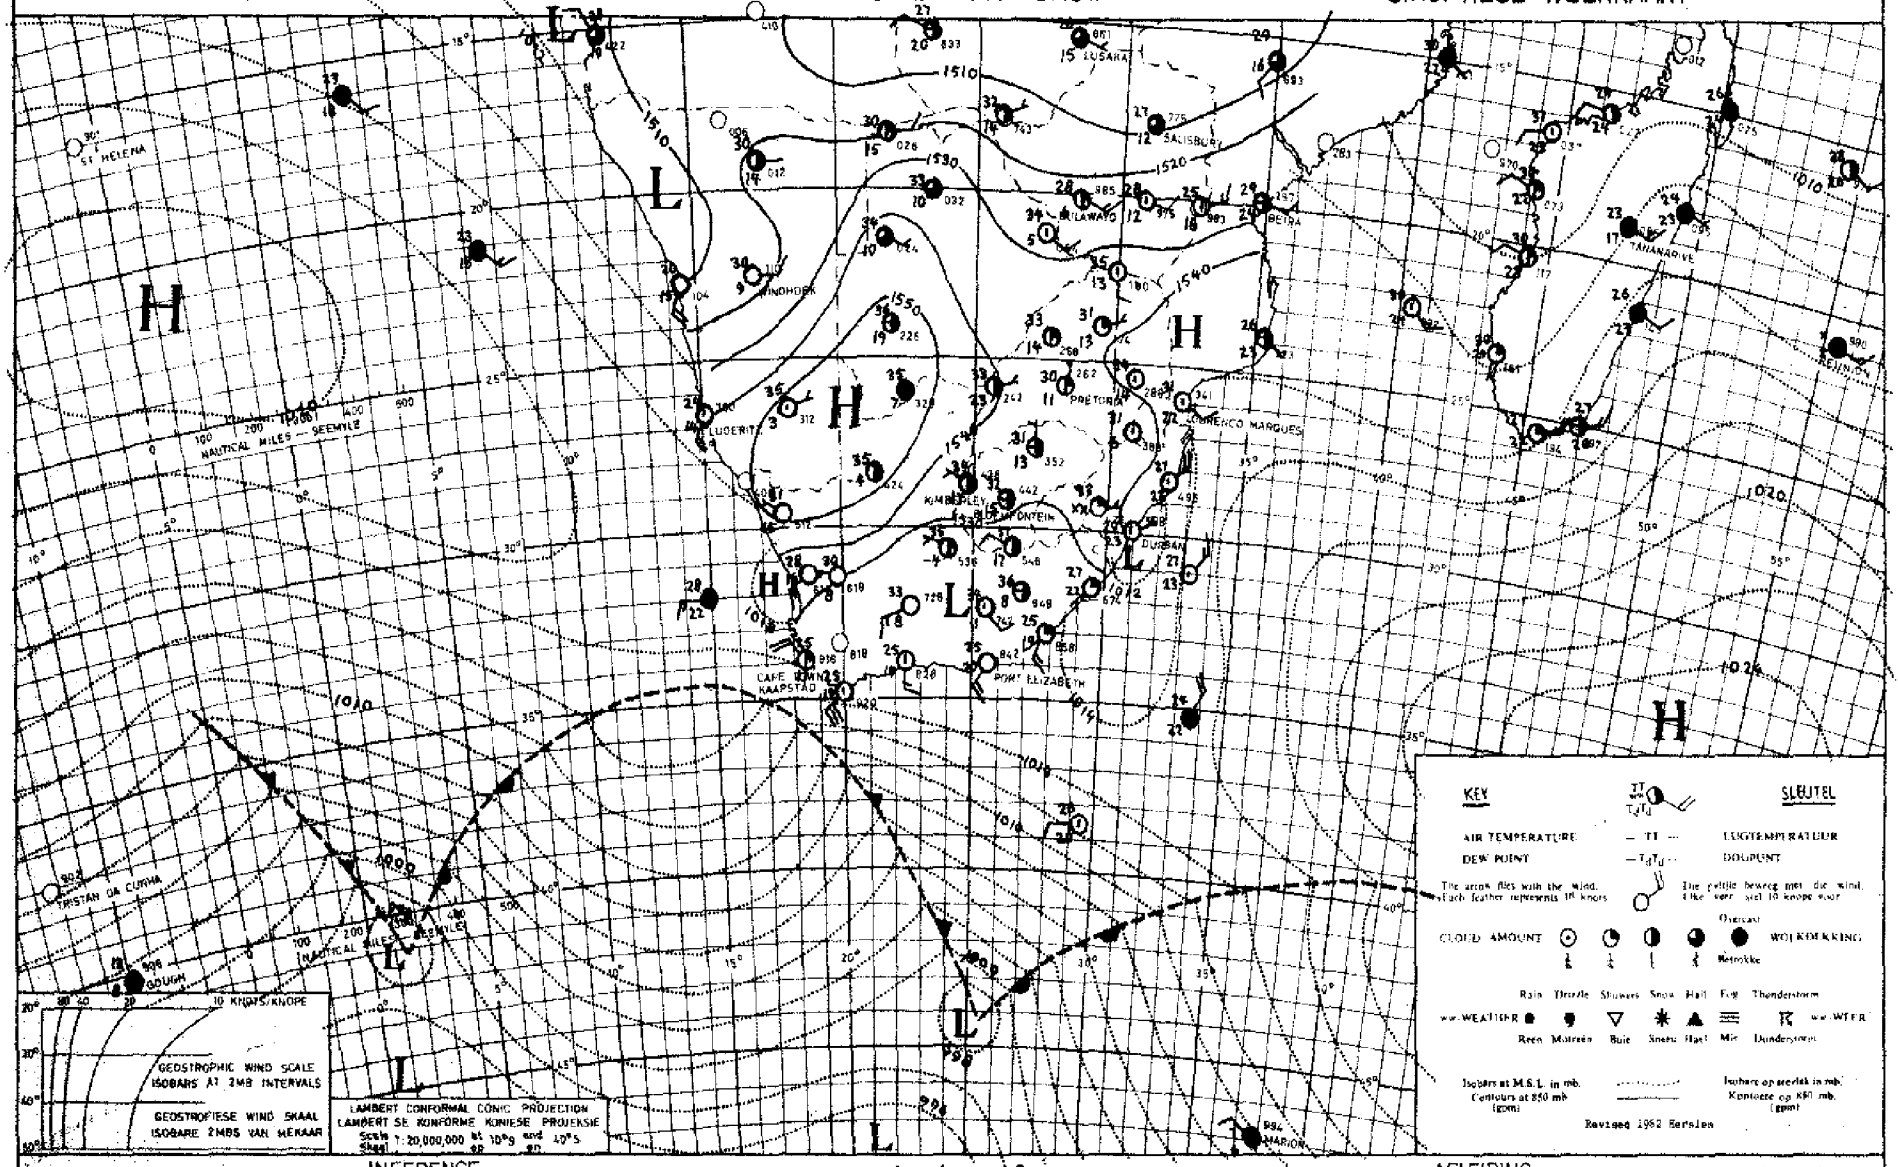
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 1 - 1 1968 DATUM

AFLEIDING

Over the eastern interior dewpoints are still fairly high and isolated thundershowers will occur there. The trough over Southwest Africa will also cause thundershowers over the northern parts of that territory. The front moving south of the country will cause cloudy weather over the south coast.

Oor die oostelike binneland is doupunte nog hoog en los donderbuie sal daar voorkom. Die trog oor Suidwes-Afrika sal ook donderbuie oor die noorde van daardie gebied tot gevolg hê. Die front suid van die land sal bewolkte weer oor die suidkus veroorsaak.

With a trough over the northern parts of South West Africa and a low over the southern and south-eastern parts of the Republic, isolated thundershowers will develop over these areas. Pressure gradients are weak over the coastal regions and partly cloudy conditions will prevail with fog patches at places in the west in the morning.

Met 'n trog oor die noordelike dele van Suidwes-Afrika en 'n laag oor die sentrale en suidoostelike dele van die Republiek, sal enkele donderbuie oor hierdie dele ontwikkel. Oor die kusgebiede is die drukgradiente swak en gedeeltelik bewolkte toestande sal daar voortduur met misbanke plek-plek in die oggend in die weste.

Dry air is present over the south-western half of the country where fine weather will prevail. Thundershowers will develop in the moist air over the northern and eastern parts of the interior. A weak trough west of the Cape will cause light rain over the south-western coastal region.

Droë lug is aanwesig oor die suidwestelike helfte van die land waar dit mooiweer sal wees. Donderbuie sal ontwikkel in die vogtige lug oor die noordelike en oostelike dele van die binneland. 'n Swak trog wes van die Kaap sal ligte reënbuie veroorsaak oor die suidweskus.

INFERENCE

DATE 4 - 1 19 68 DATUM

AFLEIDING

A weak trough to the west of Cape Town will cause cloudy weather with rain along the Cape south-west and south coast. Dry air is spreading over the whole of the interior and it will be fine and hot except over the northern parts of South West Africa and Botswana where a few isolated thundershowers are expected.

'n Swak trog wes van die Kaap sal bewolkte weer met reën langs die suidwes- en suidkus veroorsaak. Droë lug beweeg oor die hele binneland en dit sal mooiweer en baie warm wees, behalwe oor die noorde van Suidwes-Afrika en Botswana waar enkele donderbuie verwag word.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

A ridge of the Atlantic high is moving around the coast and will cause cloudy weather with rain or drizzle along the south-east and east coast. The low over the eastern interior will cause thundershowers over the north-eastern and eastern interior while a few thundershowers will also occur over the northern parts of South West Africa and Botswana.

'n Rug van die Atlantiese hoog stoot om die kus en sal bewolkte weer met reën en motreën langs die suidoos- en ooskus veroorsaak. Die laag oor die oostelike binneland sal donderbuie laat voorkom oor die noordoostelike en oostelike binneland terwyl enkele donderbuie ook oor die noorde van Suidwes-Afrika en Botswana sal voorkom.

INFERENCE

DATE 7 1 1968 DATUM

AFLEIDING

With a high to the south-east of the continent and a low still evident over the interior, further thundershowers will develop over the northern and eastern parts and will extend to the central regions.

Met 'n hoog suidoos van die vasteland en 'n laag nog steeds oor die binneland aanwesig, sal verdere donderbuie ontwikkel oor die noordelike en oostelike dele van die land en ook uitbrei oor die sentrale dele.

DATE 8 - 1 1968 DATUM

AFLEIDING

With moist air over the eastern and northern parts of the country, thundershowers can be expected over these areas. Over the remainder of the interior the air is fairly dry and fine weather can be expected over these parts.

Met vogtige lug oor die oostelike en noordelike dele van die land word donderbuie verwag oor hierdie gebiede. Oor die res van die binneland is die lug betreklik droog en mooiweerstoestande sal daar voorkom.

INFERENCE

DATE 9 — 1 1968 DATUM

AFLEIDING

The coastal low will cause cloudy weather with rain along the south-eastern and eastern coasts. The low over the interior and moist air over the eastern half of the interior are creating favourable conditions for thunderstorms and showers over the Transvaal, Natal, the Free State and the north-eastern Cape Province.

Die kuslaag sal bewolkte weer met reën veroorsaak langs die suidoos- en oskus. Die laag oor die binneland en vogtige lug oor die oostelike helfte van die binneland skep gunstige toestande vir donderstorms en buie oor Transvaal, Natal, Vrystaat en noordoostelike Kaapland.

DAAGLIKSE WEERBULLETIN

The cold front west of the Cape will cause cooler, cloudy conditions with showers over the Cape costal regions. The trough over the interior will cause thundershowers over the north-eastern parts of the country but these will be isolated, as the cyclone FLOSSIE is moving slowly southwards along the Mozambique coast.

Die koufront wes van die Kaap sal koeler bewolkte toestande met buie veroorsaak oor die Kaapse kusgebiede. Die trog oor die binneland sal donderbuie teweegbring oor die noordoostelike dele van die land, maar donderbuie sal los voorkom as gevolg van die sikloon FLOSSIE wat stadig suidwaarts beweeg langs die Mosambiekkus.

The high ridging around the coast will cause cloudy conditions with rain along the east coast. Moist air is in circulation over the eastern interior and scattered thundershowers will occur over Transvaal, Natal and the North - Eastern Free State.

Die hoog wat om die kus beweeg sal bewolkte weer met reën oor die ooskus veroorsaak. Vogtige lug is aanwesig oor die oostelike binneland en verspreide donderbuie sal oor Transvaal, Natal en Noordoos - Vrystaat voorkom.

With moist air over the eastern parts, a trough over the central interior and a weak ridge along the southern coast, rain or showers can be expected over Natal and thundershowers over Transvaal, the eastern Free State and northern South West Africa and Botswana. With dry air over the remainder of the country fine weather can be expected there.

Met voghige lug oor die oostelike dele, 'n trog oor die sentrale binneland en 'n swak rug langs die suidelike kus sal reën of buie voorkom oor Natal en donderbuie oor Transvaal, Oos - Vrystaat, noordelike Suidwes - Afrika en Botswana. Met droë lug oor res van die land kan mooiweer daar verwag word.

INFERENCE

DATE 14 - 1 19 68 DATUM

AFLEIDING

The coastal low along the east coast will cause cloudy conditions with light showers or drizzle along the Natal coast. Moist air is in circulation over the eastern parts of the interior and thundershowers will occur over Transvaal, Natal and the North-Eastern Free State.

die kuslaag langs die ooskus sal bewolkte weer met ligte buie of motreën langs die Natalse kus veroorsaak. Vogtige lug is oor die oostelike binneland teenwoordig en donderbuie sal oor Transvaal, Natal en Noordoos-Vrystaat voorkom.

As a result of the coastal low off Port Elizabeth it will be cloudy along the south-western and southern coasts with light rain at places. A weak low is situated over the central interior and with fairly moist air present in the north and east, thundershowers will occur over these regions.

As gevolg van die kuslaag in die omgewing van Port Elizabeth sal dit bewolk wees langs die suidwestelike en suidelike kusgebiede met ligte reën plek-plek. 'n Swak laag is oor die sentrale binneland geleë en met taamlik vogtige lug aanwesig in die noorde en ooste sal donderbuie oor hierdie gebiede uitsak.

With a trough over the central parts and moist air over the eastern half of the country, thundershowers will occur over these regions of the country. With the south-westerly winds along the southern Cape coast and the low along the Natal coast it will be cloudy along the southern, south-eastern and eastern coastal regions with rain or light showers at places.

Met die trog oor die sentrale dele en vogtige lug oor die oostelike helfte van die land word donderbuie oor hierdie dele verwag. Die suidwestelike winde langs die suidkus en die laag langs die Natalse kus sal bewolkte weer veroorsaak langs die suidelike, suidoostelike en oostelike kusstreke met reën of ligte buie op plekke.

DATE 17 - 1 1968 DATUM

AFLEIDING

A trough is situated from the central parts of South West Africa to the North-Eastern Cape and with moist air present, thundershowers will occur to the north-east of this trough. Along the coasts it will be partly cloudy or cloudy with rain along the south-western Cape coast.

'n Trog is geleë vanaf die sentrale dele van Suidwes-Afrika na Noordoos-Kaapland en met vogtige lug teenwoordig sal donderbuie noordoos van hierdie trog voorkom. Langs die kusstreke sal dit gedeeltelik bewolk of bewolk wees met reën oor die suidweskus.

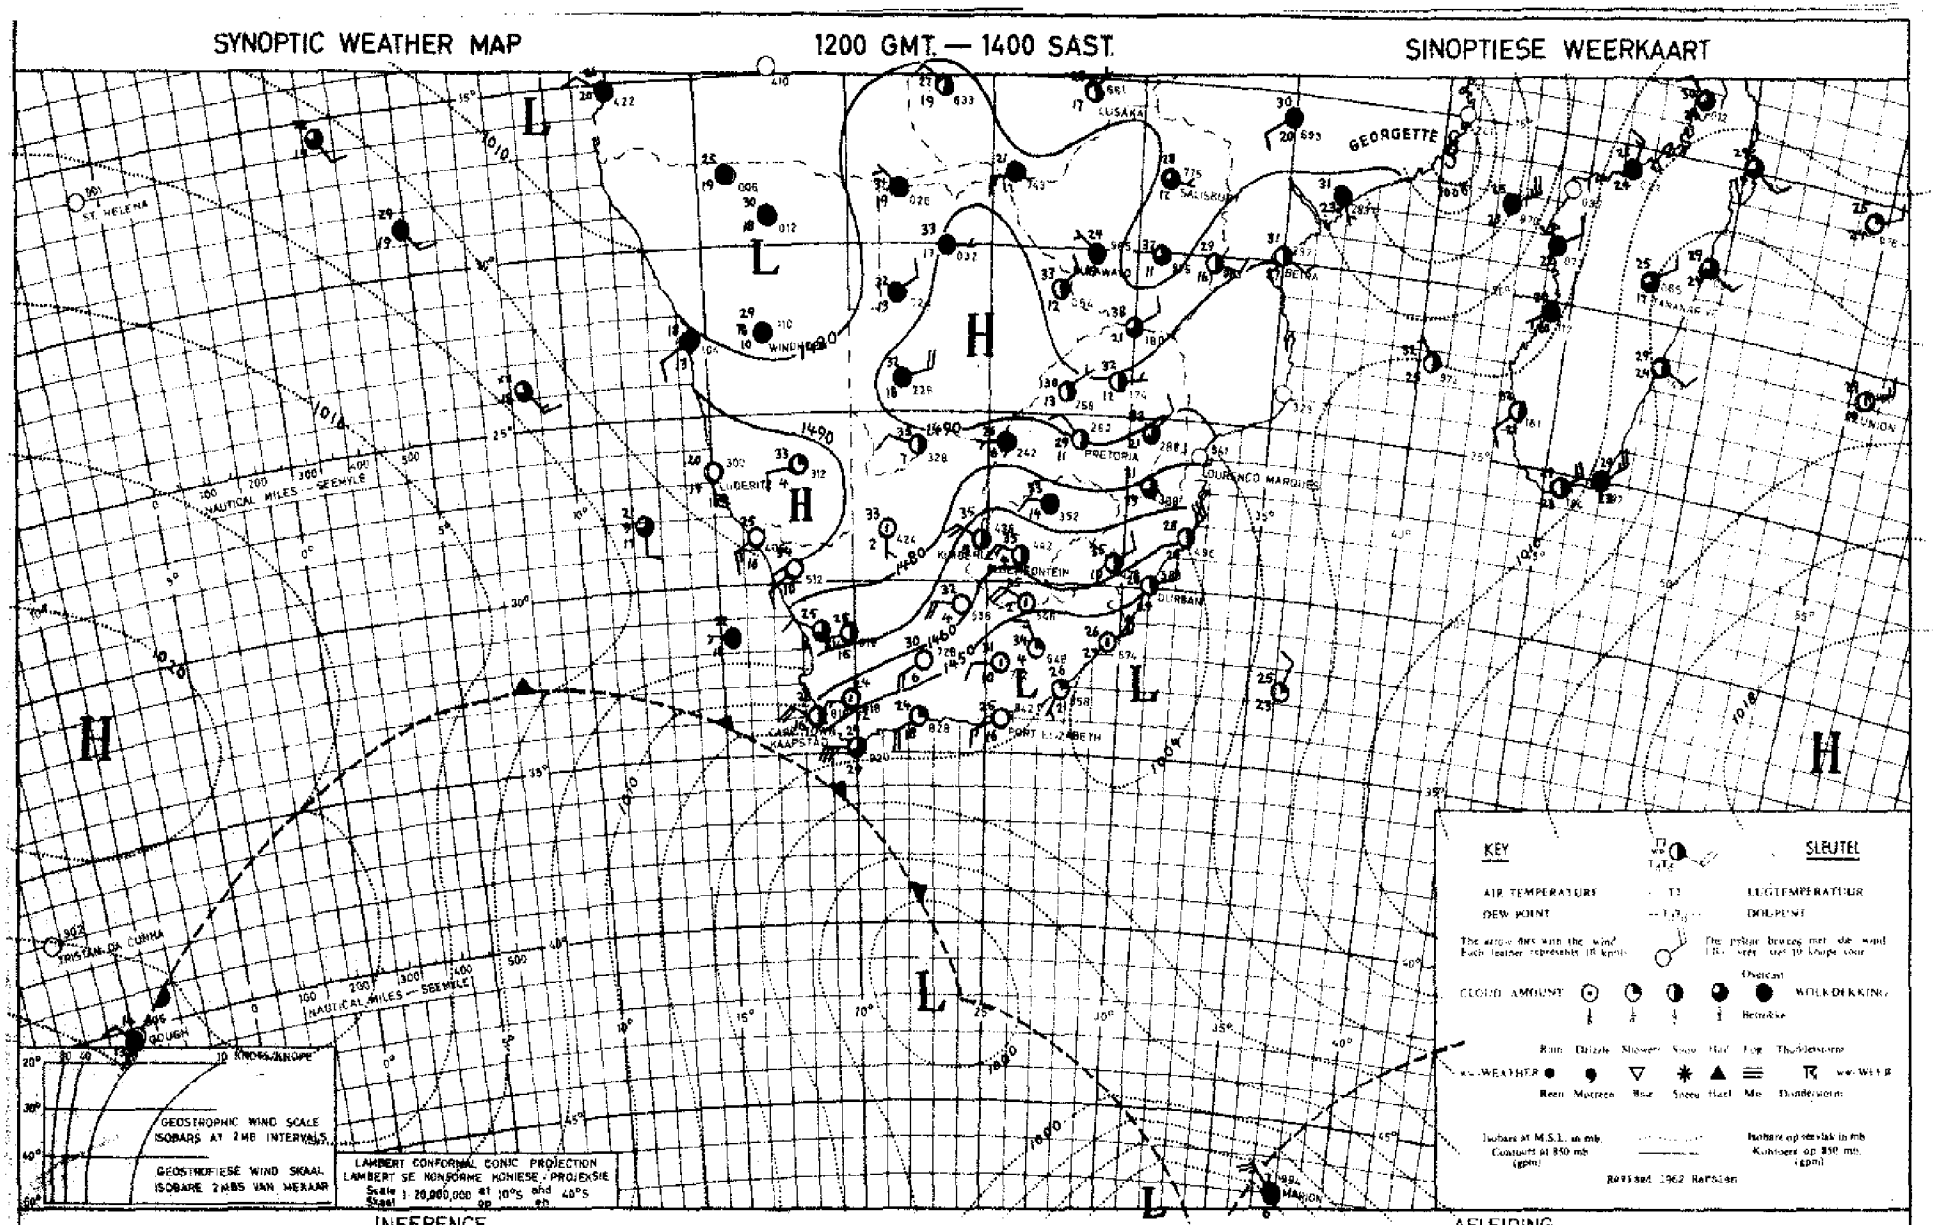
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 18 — 1 — 19 68 DATUM

AFLEIDING

The cold front near Cape Town is moving eastwards and will cause cloudy to partly cloudy and cooler weather with local light rain along the Cape coastal regions. Moist air is present over the northern and eastern interior and, associated with a trough over the central regions, thundershowers will develop over these areas. The low over the northern parts of S.W.A. will cause thundershowers over the northern half of the territory.

Die koufront naby Kaapstad beweeg ooswaarts en sal bewolkte tot gedeeltelik bewolkte weer met plaaslike ligte reën langs die suidkus veroorsaak. Vogtige lug is oor die noordelike en oostelike binneland aanwesig en, tesame met 'n trog oor die sentrale gebiede, sal donderbuie oor hierdie streke ontwikkel. Die laag oor die noordelike dele van S.W.A. sal donderbuie oor die noordelike helfte van die gebied veroorsaak.

The cyclone, Georgette, along the Mocambique coast is moving southwards with the result that the upper winds over the eastern parts of the country are tending to become south-easterly. Consequently partial clearance will occur over these areas.

Die sikloon, Georgette, langs die Mosambiekse kus beweeg suidwaarts met die gevolg dat die bowinde oor die oostelike dele van die land neig na suidoos. Gevolglik sal gedeeltelike opklaring oor hierdie gebiede intree.

With the cyclone Georgette along the Mocambique coast only isolated thunderstorms can be expected over the eastern interior but it will be cloudy along the north-eastern escarpment with showers later during the day. The cold front south of the country will cause cloudy weather with rain or showers to spread over the southern and south-eastern coasts and with the low over northern South West Africa thundershowers can be expected over these areas.

Met die siklaon Georgette langs die Mosambiekse kus sal slegs los donderbuie voorkom oor die oostelike binneland maar dit sal bewolk wees oor die noordoostelike platorand met buie later in die dag. Die koufront suid van die land sal bewolkte weer met reën of buie veroorsaak langs die suid- en suidooskusgebiede en met die laag oor noordelike Suidwes-Afrika sal donderbuie oor hierdie gebiede voorkom.

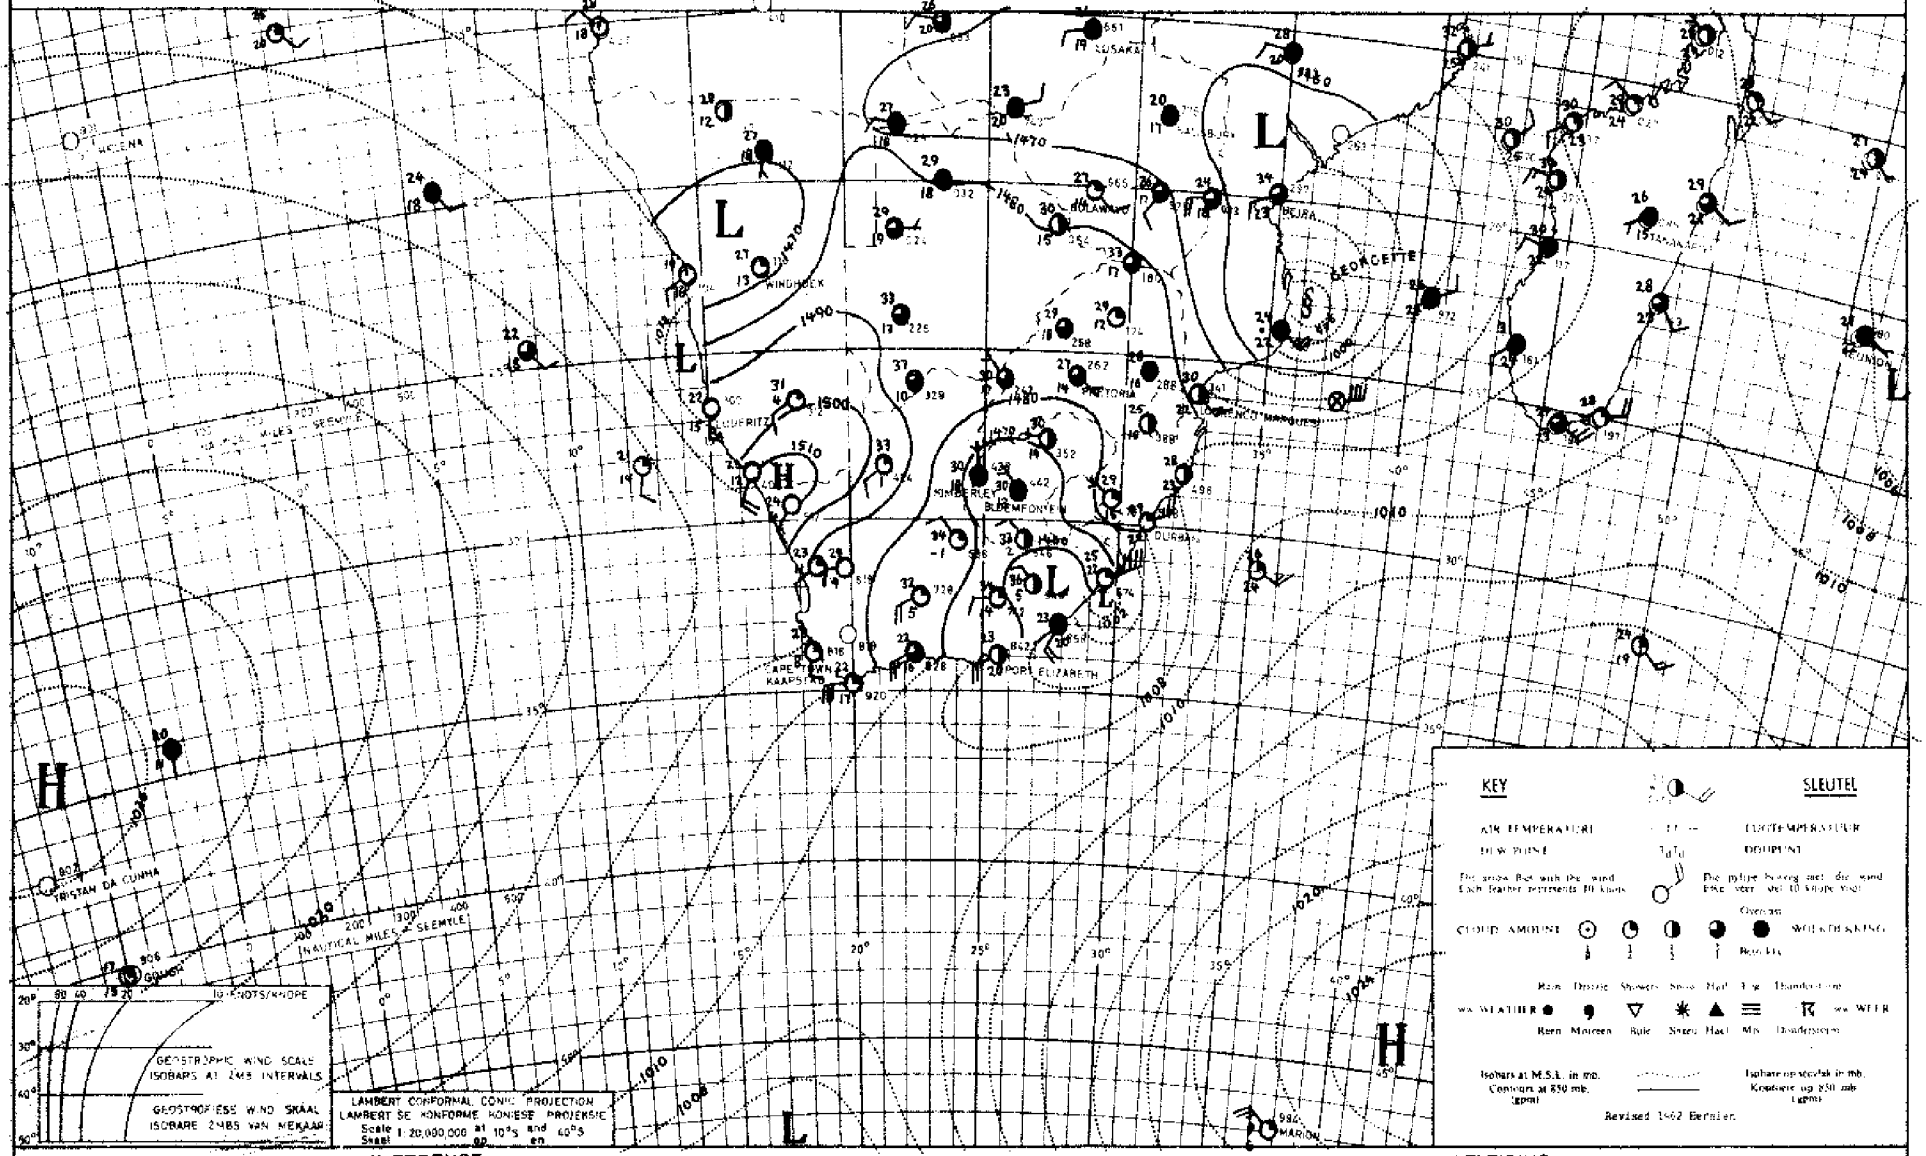
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 22 - 1 - 19 68 DATUM AFLEIDING

The coastal low along the south-east coast will cause cloudy weather with rain along the south-eastern and eastern coasts. The low over South West Africa will cause scattered thundershowers over northern and central South West Africa, while isolated thundershowers will also occur over Botswana, Free State, Natal and the north-eastern Cape. The cyclone Georgette will cause cloudy weather with showers over the Transvaal Lowveld.

Die kuslaag langs die suidooskus sal bewolkte weer met reën langs die suidoos- en ooskus veroorsaak. Die laag oor Suidwes-Afrika sal donderbuie oor noordelike en sentrale Suidwes-Afrika veroorsaak, terwyl los donderbuie ook oor Botswana, Vrystaat, Natal en Noordoos-Kaapland sal voorkom. Die sikloon Georgette sal later bewolkte weer met buie oor die Transvaalse Laeveld veroorsaak.

The strong ridge of the Atlantic high along the south coast is causing an inflow of moist air over the eastern parts of the country where it will be cloudy with showers. The low over northern Botswana will cause thundershowers over the northern areas of that country and S.W.A.

Die sterk rug van die Atlantiese hoog langs die suidkus veroorsaak 'n instroming van vogtige lug oor die oostelike dele van die land waar dit bewolk sal wees met buie. Die laag oor noordelike Botswana sal donderbuie oor die noordelike gebiede van die land en S.W.A. veroorsaak.

With the high south of the country and the low over the central interior, cloudy weather with showers will spread over Natal and the Eastern Transvaal while isolated thundershowers will occur over the central interior. With moist air over the northern and central parts of S.W.A. and Botswana scattered thundershowers will occur over these parts.

Met die hoog suid van die land en die laag oor die sentrale binneland sal dit bewolk wees met buie oor Natal en Oos-Transvaal en los donderbuie sal voorkom oor die sentrale binneland. Vogtige lug beweeg oor die noordelike en sentrale dele van S.W.A. en Botswana waar verspreide donderbuie sal voorkom.

The coastal low and approaching front will cause cloudy weather with rain along the south-western and southern Cape coasts and later also over the south-east coast. Isolated thundershowers will occur to east of the trough over the interior as well as northern S.W.A. and northern Botswana.

Die kuslaag en naderende front sal bewolkte weer met reën veroorsaak langs die Kaapse suidwes- en suidkus en later ook oor die suidooskus. Oos van die trog oor die binneland sal los donderbuie voorkom, asook oor noordelike S.W.A. en Noord Botswana.

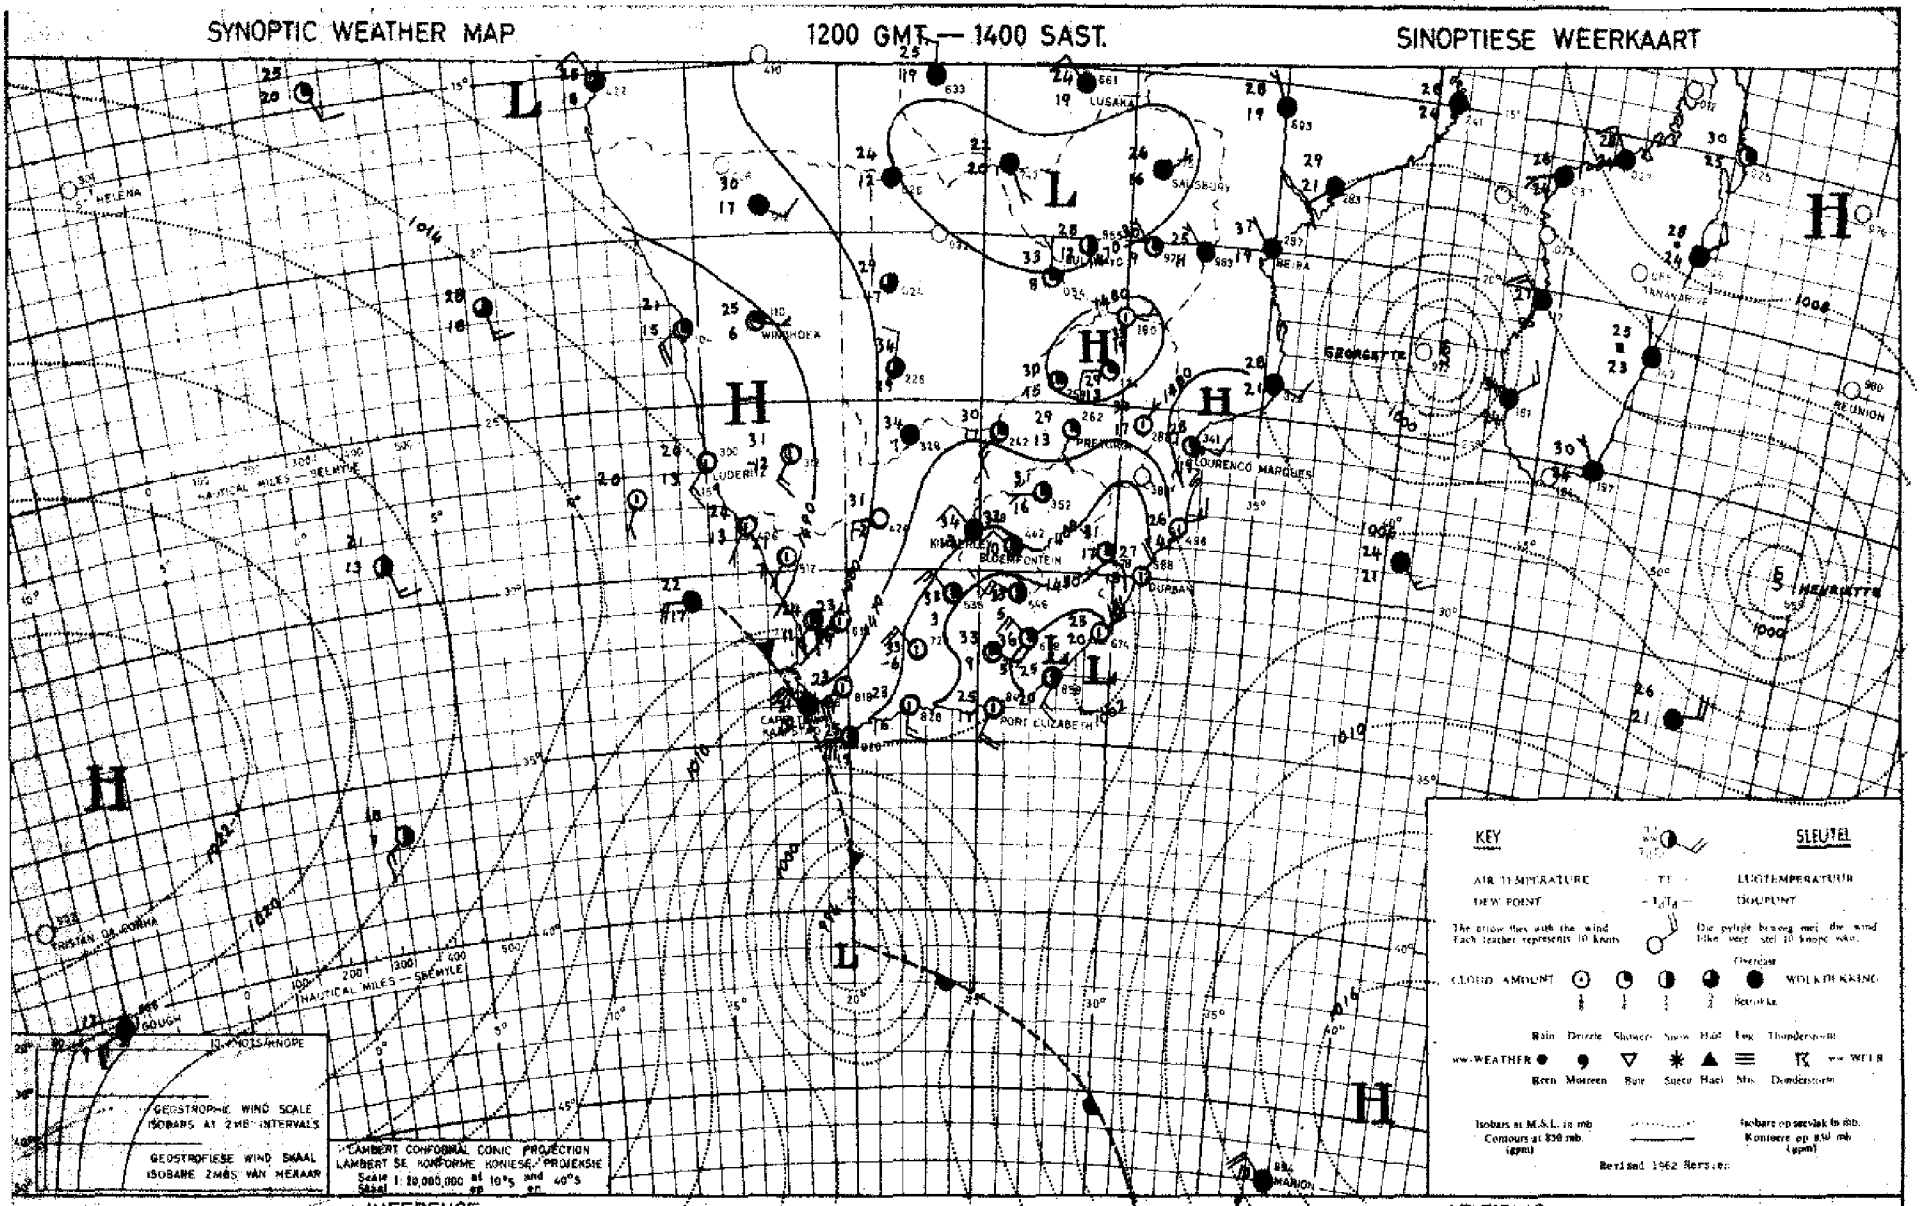
SYNOPTIC WEATHER MAP — 1200 GMT — 1400 SAST. — SINOPTIESE WEERKAART



KEY / SLEUTEL

AIR TEMPERATURE — TT — LUGTEMPERATUUR

DEW POINT — TdTd — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots.

Die pyltjie beweeg met die wind. Elke veer stel 10 knope voor.

CLOUD AMOUNT — Overcast — WOLKEBEDEKKING — Remarks

WEATHER — Rain, Drizzle, Showers, Snow, Hail, Fog, Thunderstorm — WEER — Reën, Motreën, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb — Isobare op seevlak in mb

Contours at 850 mb (gpm) — Konture op 850 mb (gpm)

Revised 1962 Hersien

GEOSTROPHIC WIND SCALE — ISOBARS AT 2 MB INTERVALS

GEOSTROFIESE WIND SKAAL — ISOBARE 2 MBS VAN MEKAAR

LAMBERT CONFORMAL CONIC PROJECTION
LAMBERT SE KONFORME KONIESE PROJEKSIE
Scale 1:20,000,000 at 10°S and 40°S
Skaal

INFERENCE

The coastal low on the south-east coast, followed by the cold front at Cape Town, will cause cooler, cloudy weather with light rain over the southern and eastern coastal regions. Over the rest of the country it will be partly cloudy and warm with local thunder-showers over the northern areas.

DATE 26 - 1 - 1968 DATUM

AFLEIDING

Die kuslaag langs die suidooskus, gevolg deur die koufront by Kaapstad, sal bewolkte weer met ligte reën langs die suidelike en oostelike kusstrake aanbring. Oor die res van die land sal dit gedeeltelik bewolk en warm wees met los donderbuie oor die noordelike dele.

Cloudy weather behind the low along the south-east coast will spread overnight to the Natal coast and the Eastern Transvaal lowveld. With a weak low over the Free State, isolated thundershowers will occur over the northern and eastern regions.

Bewolkte weer agter die laag langs die suidooskus sal oornag na die Natalse kus en die Oos-Transvaalse laeveld uitbrei. Met 'n laag oor die Vrystaat sal los donderbuie oor die noordelike en oostelike streke voorkom.

The coastal low will cause cloudy weather along the Cape south-western, southern and south-eastern coastal regions. The low over South West Africa will cause thunder-showers over that area which will spread to the northern parts of the Cape Province, while isolated thunder-showers will also occur over Transvaal and the Free State.

Die kuslaag sal bewolkte weer langs die Kaapse suidwes-, suid- en suid-ooskusstreke veroorsaak. Die laag oor Suidwes-Afrika sal donderbuie daar veroorsaak wat sal uitbrei na die noordelike dele van Kaapland, terwyl los donderbuie ook oor Transvaal en die Vrystaat sal voorkom.

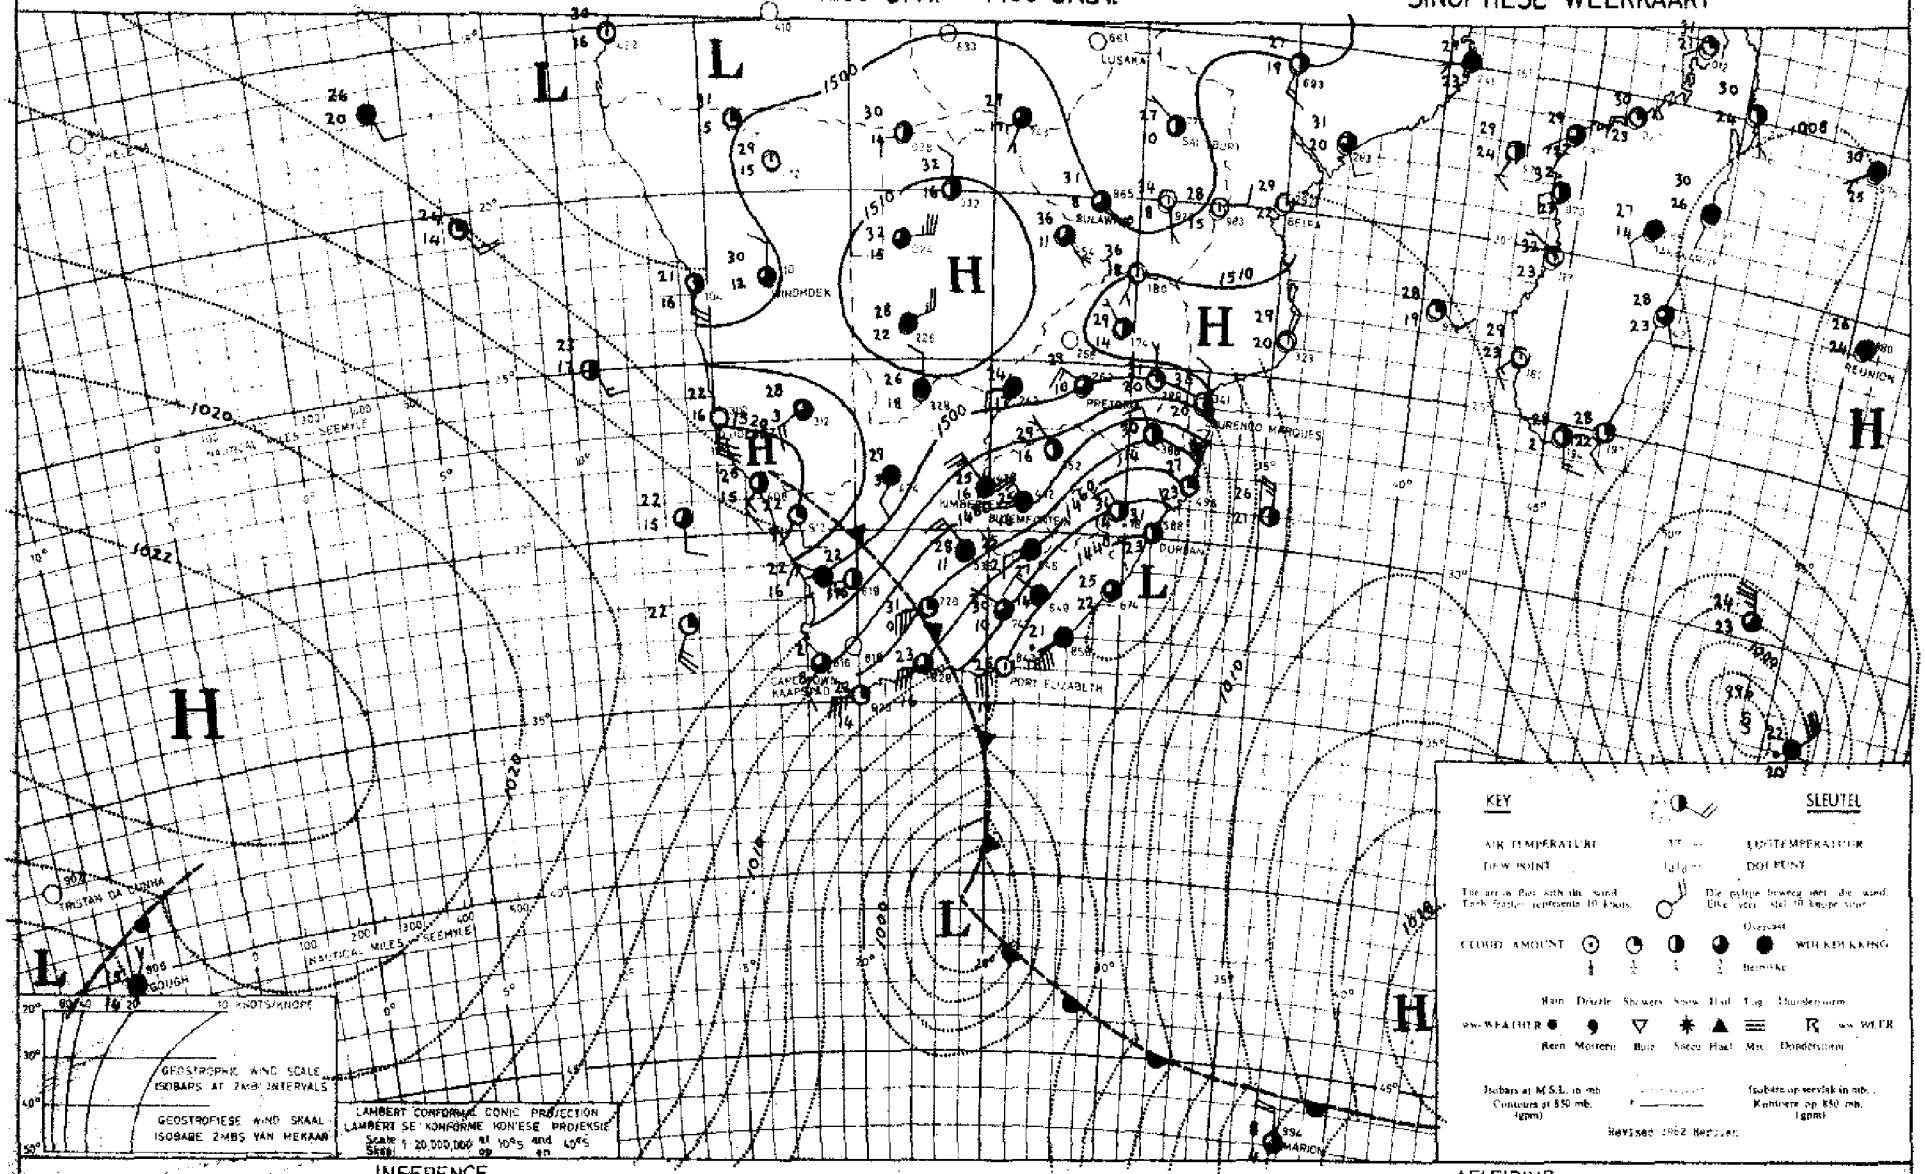
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 31-1-1968 DATUM

AFLEIDING

The cold front will move to the east coast and cloudy, cooler weather with showers will spread to Natal. Cool, dry air moving in behind the front will cause clearance over the western and central regions. The air in the north remains warm and moist and thunder-showers.

Die koufront sal na die ooskus beweeg en bewolkte koeler weer met buie sal na Natal uitbrei. Koel, droë lug wat agter die front inbeweeg sal opklaring oor die westelike en sentrale dele veroorsaak. Die lug in die noorde bly vogtig en donderbuie sal daar voorkom.

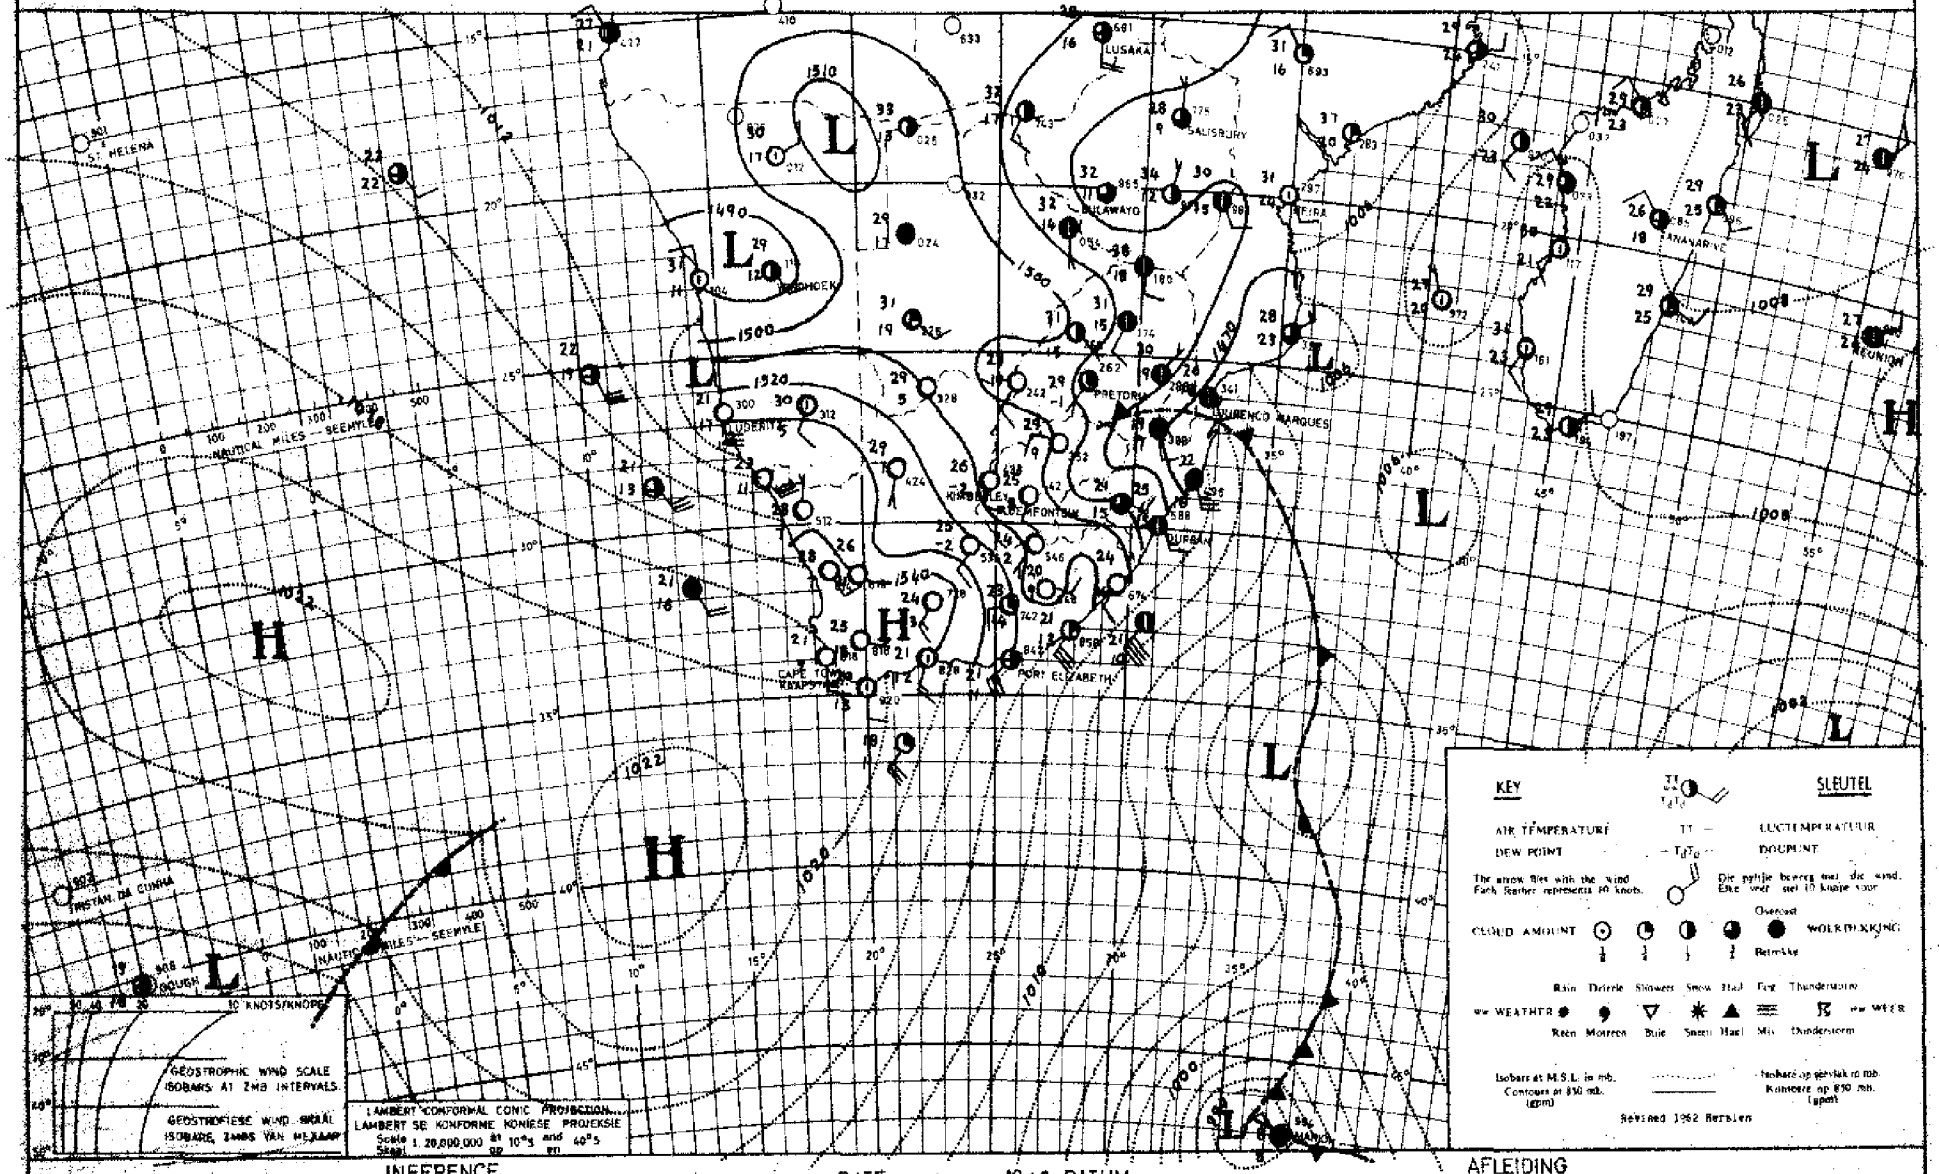
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 1 — 2 — 1968 DATUM AFLEIDING

With the high ridging in south of the country it will remain cloudy over Natal and Eastern Transvaal but the high over the interior is feeding in dry air over most areas and thunder-showers will occur over Northern Transvaal and the northern areas of South West Africa and Botswana.

Met die hoog wat suid van die land instoot sal dit bewolk bly oor Oos-Transvaal en Natal maar die hoog oor die binneland voer droë lug oor die meeste dele in en donderbuie sal slegs oor Noord-Transvaal en die noordelike gebiede van Suidwes-Afrika en Botswana voorkom.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 2 - 2 - 1968 DATUM

AFLEIDING

The trough over South West Africa will cause thunder-showers over the northern parts of this region and Botswana. With moist air over the eastern parts of South Africa and a low over the central parts, isolated thunder-showers may also be expected over the eastern parts of the interior.

Die trog oor Suidwes-Afrika sal donderbuie oor die noordelike dele van dié gebied en Botswana veroorsaak. Met vogtige lug oor die oostelike dele van Suid-Afrika en 'n laag oor die sentrale dele kan los donderbuie ook oor die oostelike dele van die binneland verwag word.

INFERENCE

DATE 3 - 2 - 1968 DATUM

With moist air over the eastern and northern parts and a fairly deep trough over the central interior and also over northern South West Africa thundershowers may be expected over the eastern and northern interior. A weak high forming along the south coast will result in cloudy weather on the south-east coast in the morning.

AFLEIDING

Met vogtige lug oor die oostelike en noordelike dele en 'n diep trog oor die sentrale binneland en ook oor noordelike Suidwes-Afrika kan donderbuie verwag word oor die oostelike en noordelike binneland. 'n Swak hoog wat langs die suidkus vorm, sal bewolkte weer in die oggend langs die suidooskus veroorsaak.

INFERENCE

DATE 4 - 2 - 1968 DATUM

AFLEIDING

The high along the south coast will move to the east coast causing an inflow of moist air over the eastern parts, where it will be cloudy in the morning. The northerly flow over the western parts will cause thunder-showers over northern South West Africa to spread to the northern Cape Province.

Die hoog langs die suidkus sal na die ooskus beweeg en 'n invloei van vogtige lug oor die oostelike dele veroorsaak, waar dit dus bewolk sal wees in die oggend. Die noordelike stroom oor die westelike dele sal dönderbuie van die noorde van Suidwes-Afrika na Noord-Kaapland sal uitbrei.

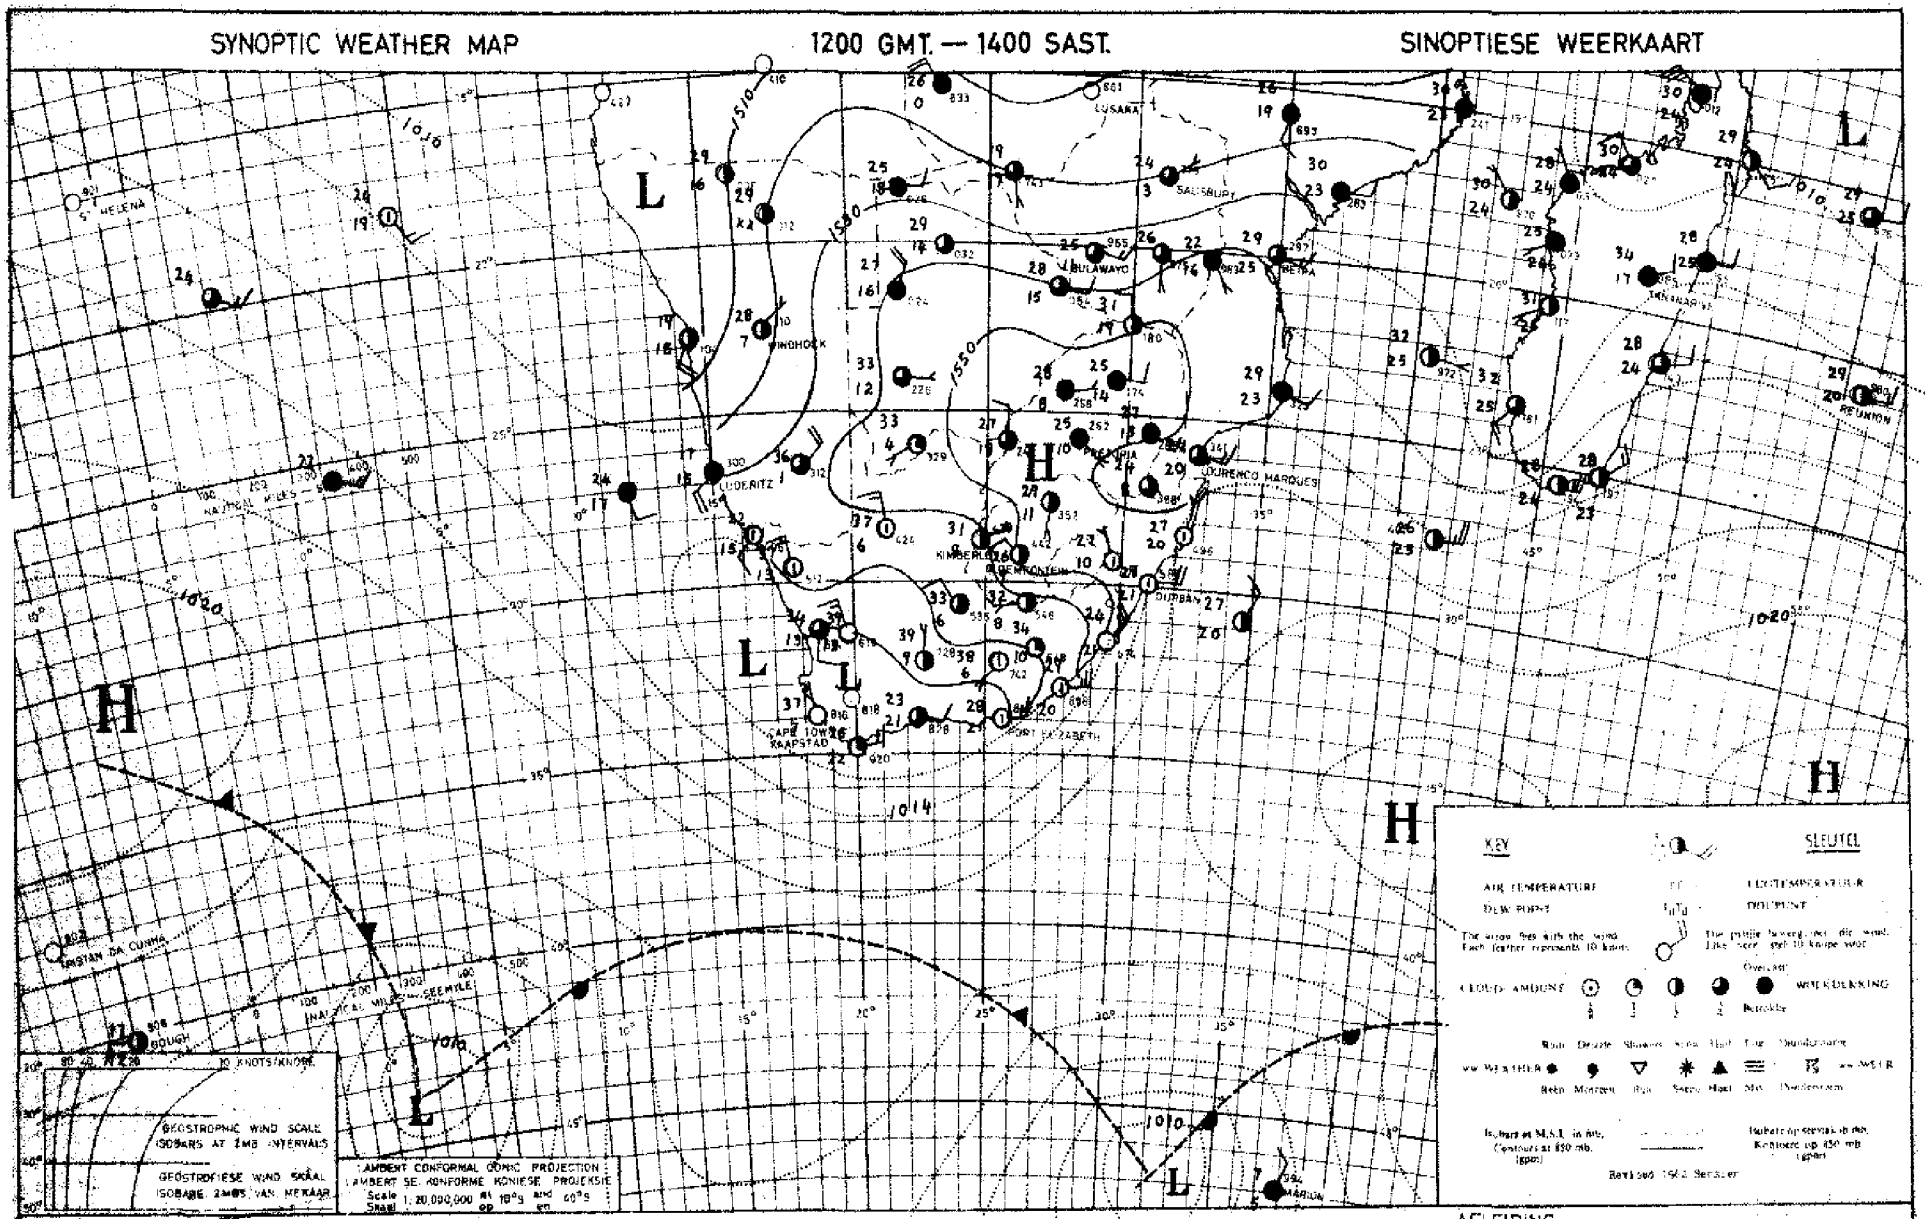
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 5 - 2 - 1968 DATUM — AFLEIDING

The low along the south-western Cape coast will cause temporary cloudy weather over this region. Moist air is present over the interior where it will be partly cloudy with thunder-showers over the northern, central and eastern areas.

Die laag langs die Suidwes-Kaapse kus sal tydelike bewolkte weer oor hierdie gebied veroorsaak. Vogtige lug is oor die binneland aanwesig waar dit gedeeltelik bewolk sal wees met donderbuie oor die noordelike, sentrale en oostelike streke.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RHR) in mm vir die 24 uur geëindig om 0600 SAST op

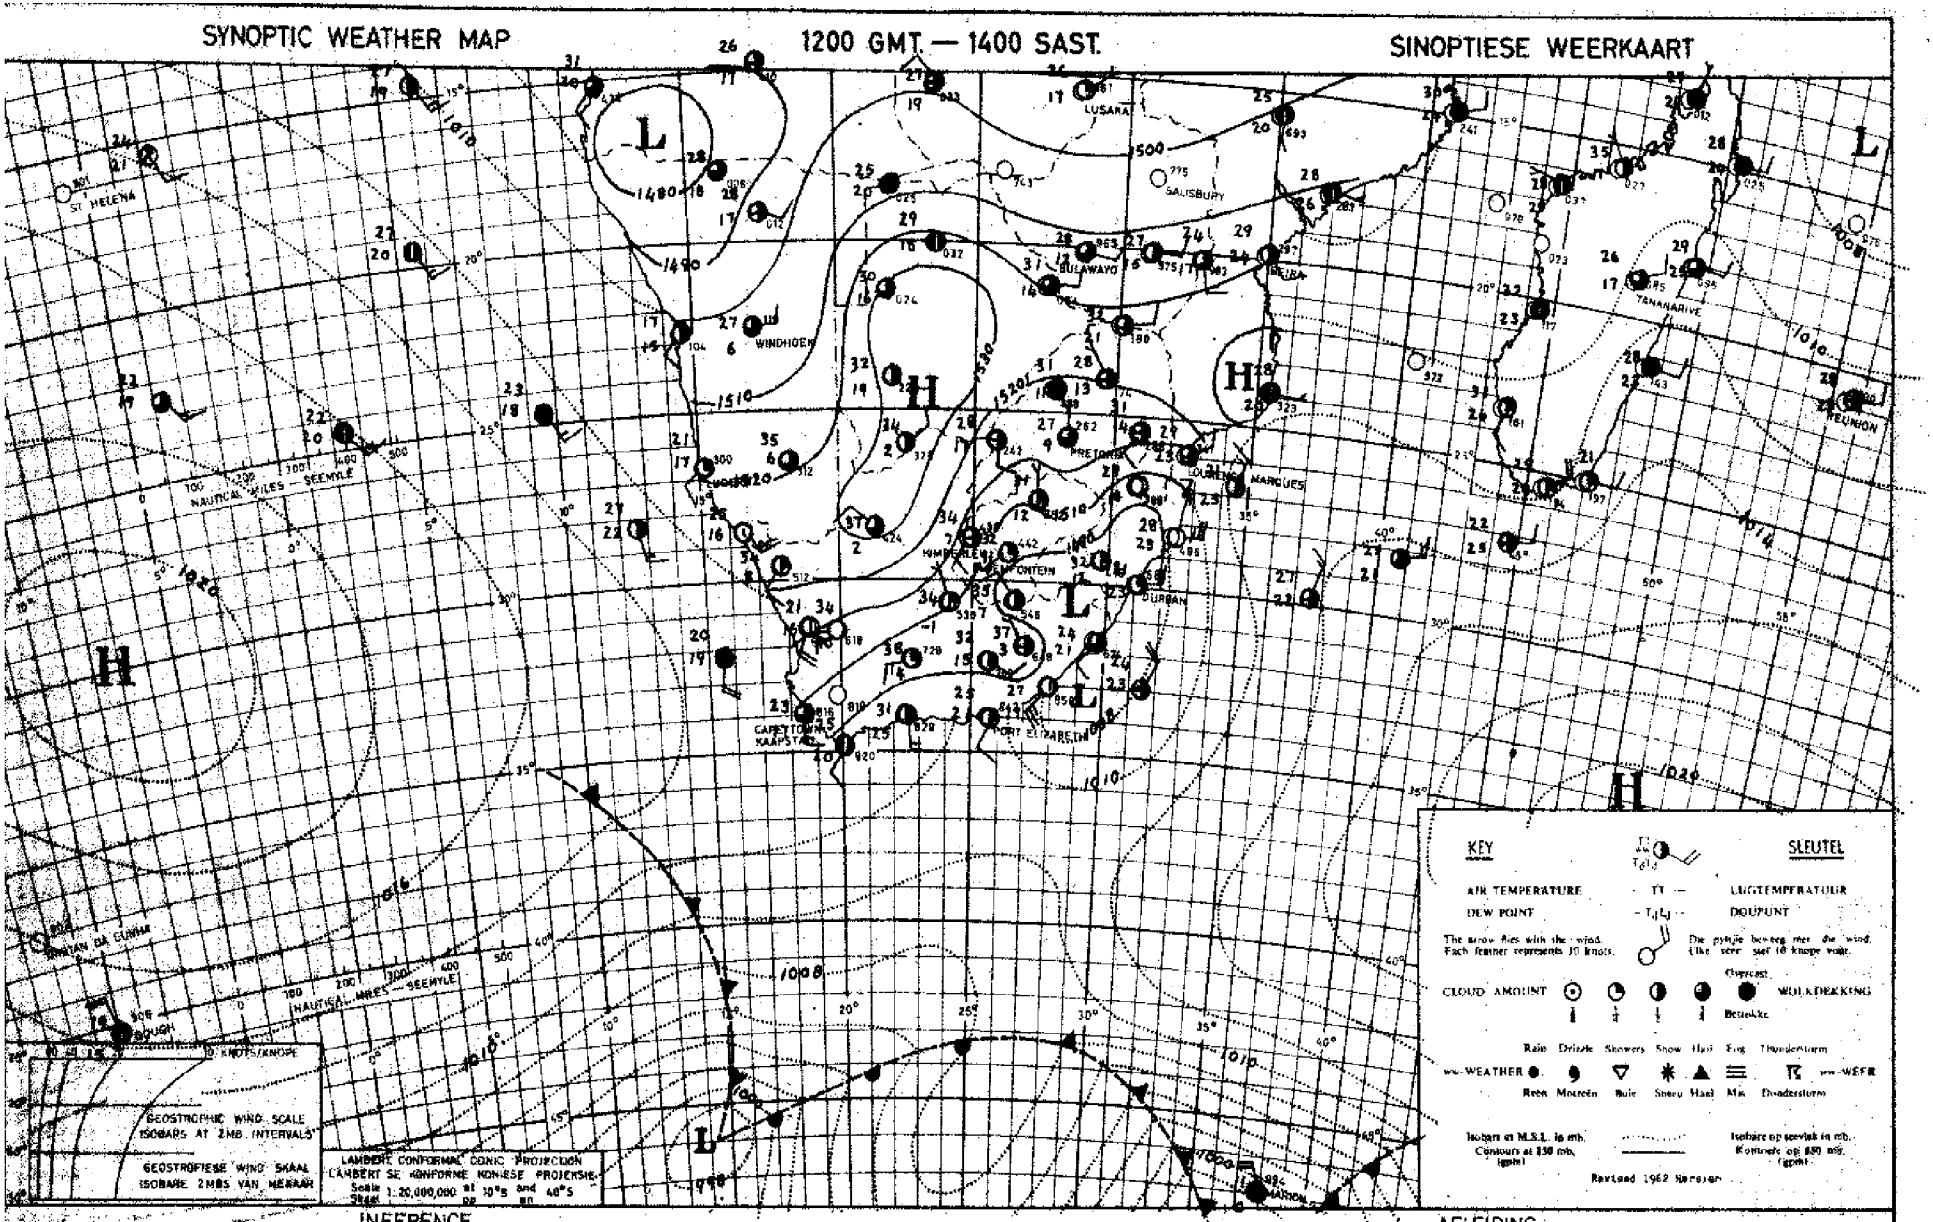
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 6 - 2 - 1968 DATUM AFLEIDING

The trough over South West Africa will cause scattered thunder-showers over the northern parts of South West Africa and Botswana. Over the remainder of the country the air is relatively dry and only isolated thunder-showers will develop over these areas.

Die trog oor Suidwes-Afrika sal verspreide donderbuie oor die noordelike dele van Suidwes-Afrika en Botswana veroorsaak. Oor die res van die binneland is die lug betreklik droog en alleenlik los donderbuie sal oor hierdie dele ontwikkel.

The low over S.W.A. will cause scattered thunder-showers over the northern parts of S.W.A and Botswana and with moist air in circulation isolated thunder-showers will occur over the eastern and central parts of the Republic. The coastal low will cause cloudy conditions with drizzle along the Cape south-western and southern coasts.

Die laag oor S.W.A. sal verspreide donderbuie oor die noordelike dele van S.W.A en Botswana veroorsaak en met vogtige lug in sirkulasie sal los donderbuie ook oor die sentrale en oostelike dele van die Republiek voorkom. Die kuslaag sal bewolkte weer met motreën langs die Kaapse suidwes- en suidkus veroorsaak.

INFERENCE

DATE 8 - 2 - 1968 DATUM

AFLEIDING

The cold front at Cape Town is moving eastwards and cooler weather will spread over the southern half of the interior. Showers will occur along the eastern and southern coasts. Warm moist air is still present in the north where further thunder-showers will develop.

Die kouefront by Kaapstad beweeg ooswaarts en koeler weer sal oor die suidelike helfte van die binneland uitbrei. Buie sal langs die suidelike en oostelike kusstroke voorkom. Warm, vogtige lug is nog in die noorde aanwesig en verdere donderbuie sal daar ontwikkel.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

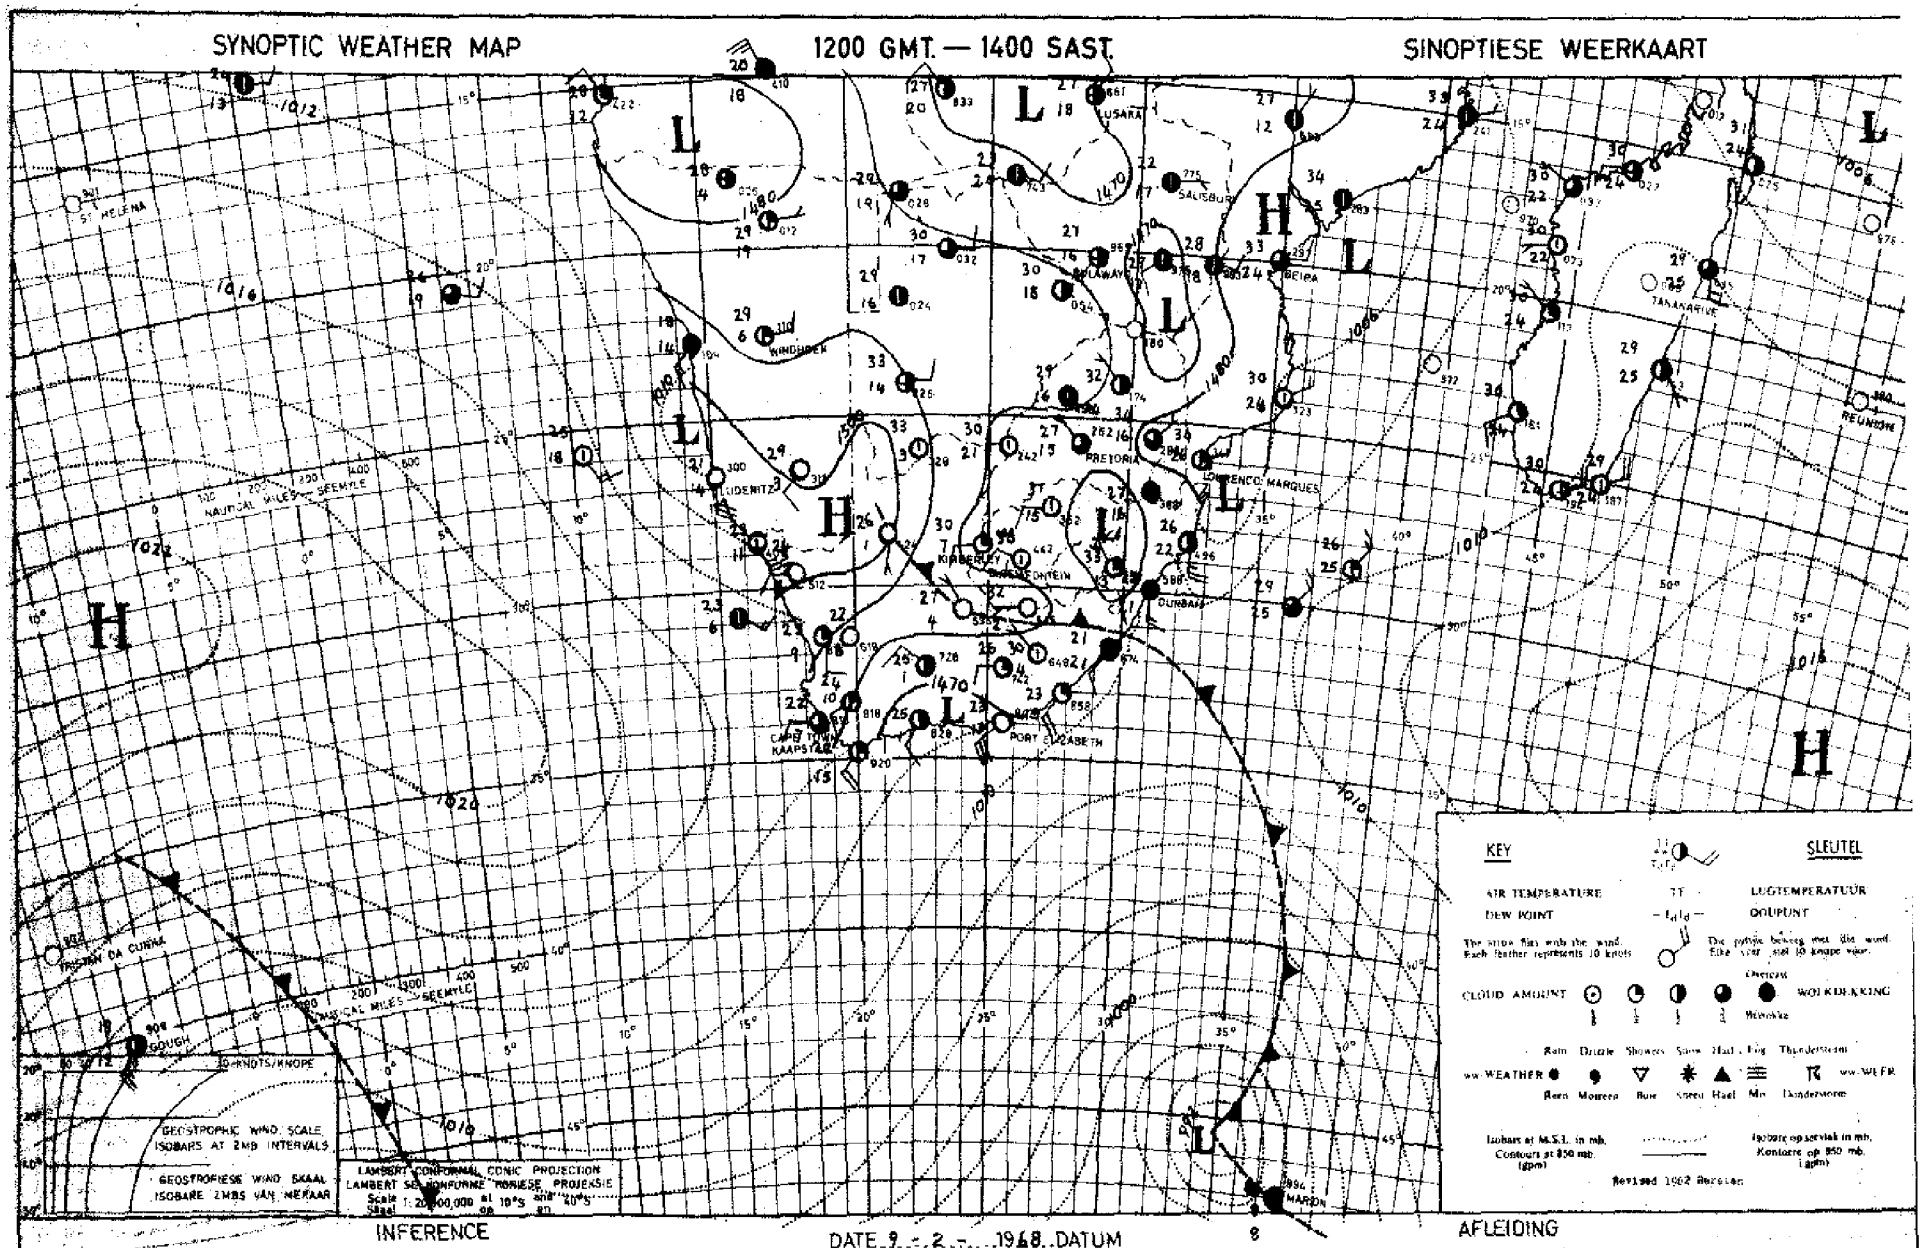
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 9 - 2 - 1968 DATUM

With the high ridging in around the south coast behind the cold front cloudy cooler weather with rain will spread over the eastern coastal regions, Natal and the eastern Transvaal. Thunder-showers will occur over the eastern and northern parts of the country. The low over the northern S.W.A. will cause thunder-showers over the northern half of the territory and northern Botswana.

AFLEIDING

Met 'n hoogrug wat suid van die land instroot agter die koufront sal bewolkte koeler weer met reën uitbrei oor die oostelike kuststreke, Natal en Oos-Transvaal. Donderbuie sal voorkom oor die oostelike en suidelike dele van die land. Die laag oor noordelike S.W.A. sal donderbuie veroorsaak oor die noordelike helfte van dié gebied en Noord-Botswana.

DAAGLIKSE WEERBULLETIN

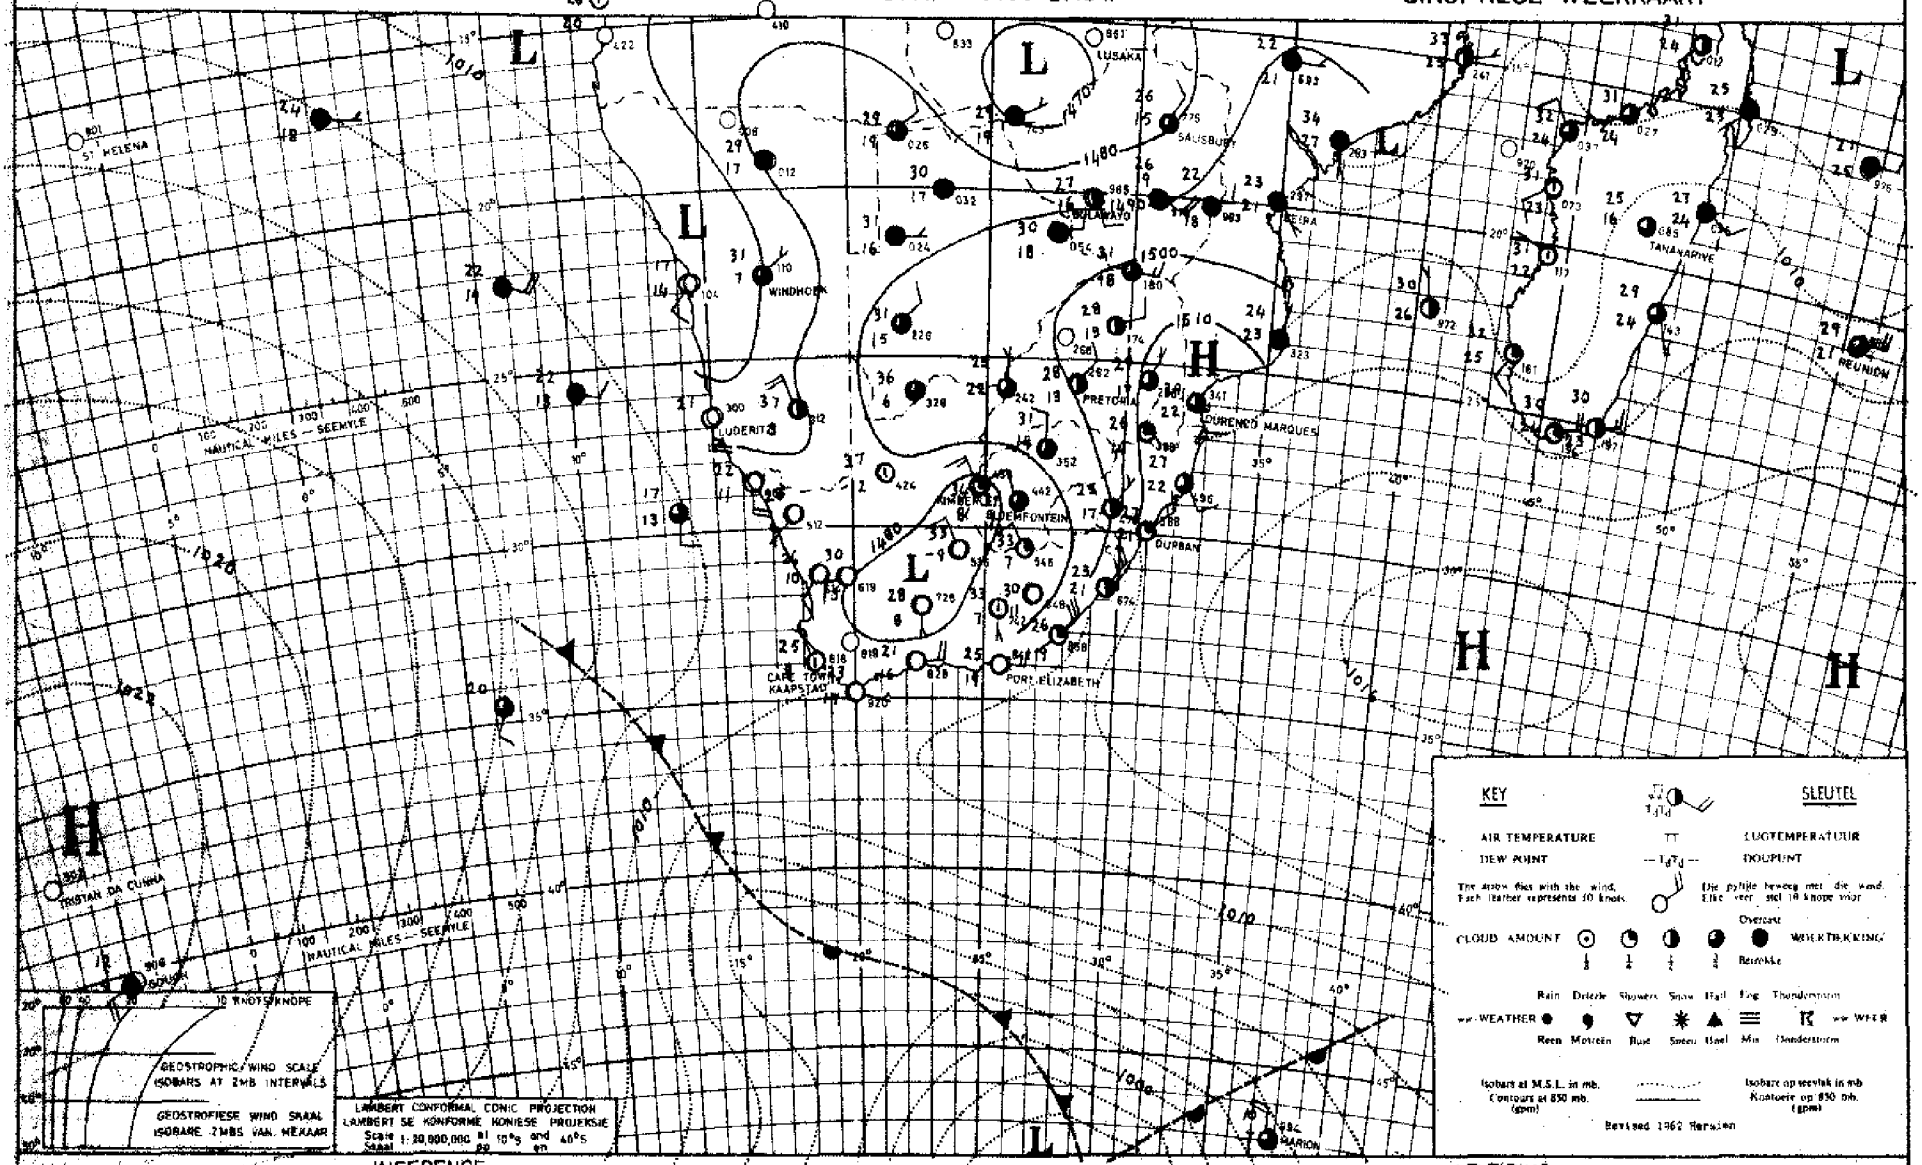
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 10.-.2.-.1968 DATUM

AFLEIDING

The cold front to the west of Cape Town is moving eastwards and will cause cloudy, cooler weather with showers along the south-western and southern coasts. The air over the interior is fairly moist and partly cloudy condition will develop. As the upper air circulation is anticyclonic thunder-showers will be mainly light and isolated.

Die koufront wes van Kaapstad beweeg ooswaarts en sal bewolkte, koeler weer met buie langs die suidwes- en suidkusstreke veroorsaak. Die lug oor die binneland is taamlik vogtig en gedeeltelik bewolkte toestande sal ontwikkel. Omdat die boluggirkulasie antisiklonaal is, sal net enkele ligte donderbuie voorkom.

DAAGLIKSE WEERBULLETIN

DATE 11 - 2 - 1968 DATUM

INFERENCE

The cold front along the south coast and the Atlantic high ridging in behind it will cause cloudy cooler weather with rain over the eastern parts and with low pressures over the northern parts and a fairly deep trough over the eastern and central interior, thunder-showers will occur over these areas.

AFLEIDING

Die koufront langs die suidkus en die Atlantiese hoog wat 'n rug suid van die land instoot, sal koeler bewolkte weer met reën veroorsaak oor die oostelike dele en met lae drukke in die noorde en 'n taamlike diep trog oor die oostelike en sentrale binneland sal donderbuie voorkom oor hierdie dele.

DATE 12 - 2 - 1968 DATUM

AFLEIDING

With moist air in circulation and a trough over the central interior thunder-showers can be expected over the eastern parts of the interior. A cold front is moving along the east coast and will cause cloudy conditions with rain along the eastern coastal regions and the Transvaal lowveld.

Met vogtige lug in sirkulasie en 'n trog oor die sentrale binneland kan donderbuie verwag word oor die oostelike dele van die binneland. 'n Koufront beweeg langs die ooskus en sal bewolkte weer met reën oor die oostelike kusgebiede en die Transvaalse laevald veroorsaak.

INFERENCE

DATE 13 - 2 - 1968 DATUM

AFLEIDING

The low over the southern Zambia will cause cloudy conditions with scattered thunder-showers over the extreme northern areas of the Republic and Botswana. With moist air and an anticyclonic upper air circulation over the eastern and central regions of the country, there will only be isolated showers over these areas.

Die laag oor suidelike Zambië veroorsaak bewolkte weer met verspreide donderbuie oor die verre noordelike dele van die Republiek en Botswana. Met vogtige lug en 'n antisiklonale bolugsirkulasie oor die oostelike en sentrale streke van die land sal slegs los neerslae oor hierdie gebiede voorkom.

INFERENCE

DATE 15 - 2 - 19 68 DATUM

The cold front will cause cloudy weather with rain along the south coast and these conditions will slowly spread eastwards. With the low pressure systems over the interior, fairly general rain and showers can be expected over northern and eastern Botswana and northern Transvaal, while showers will also occur over the remainder of the northern and eastern interior.

AFLEIDING

Die koufront sal bewolkte, koeler weer met reën langs die suidkus veroorsaak en hierdie toestande sal geleidelik oostwaarts uitbrei. Met die laedrukstelsels oor die binneland kan taemlik algemene reën en buie oor Noord- en Oos-Botswana en noordelike Transvaal verwag word, terwyl buie ook oor die res van die noordelike en oostelike binneland sal voorkom.

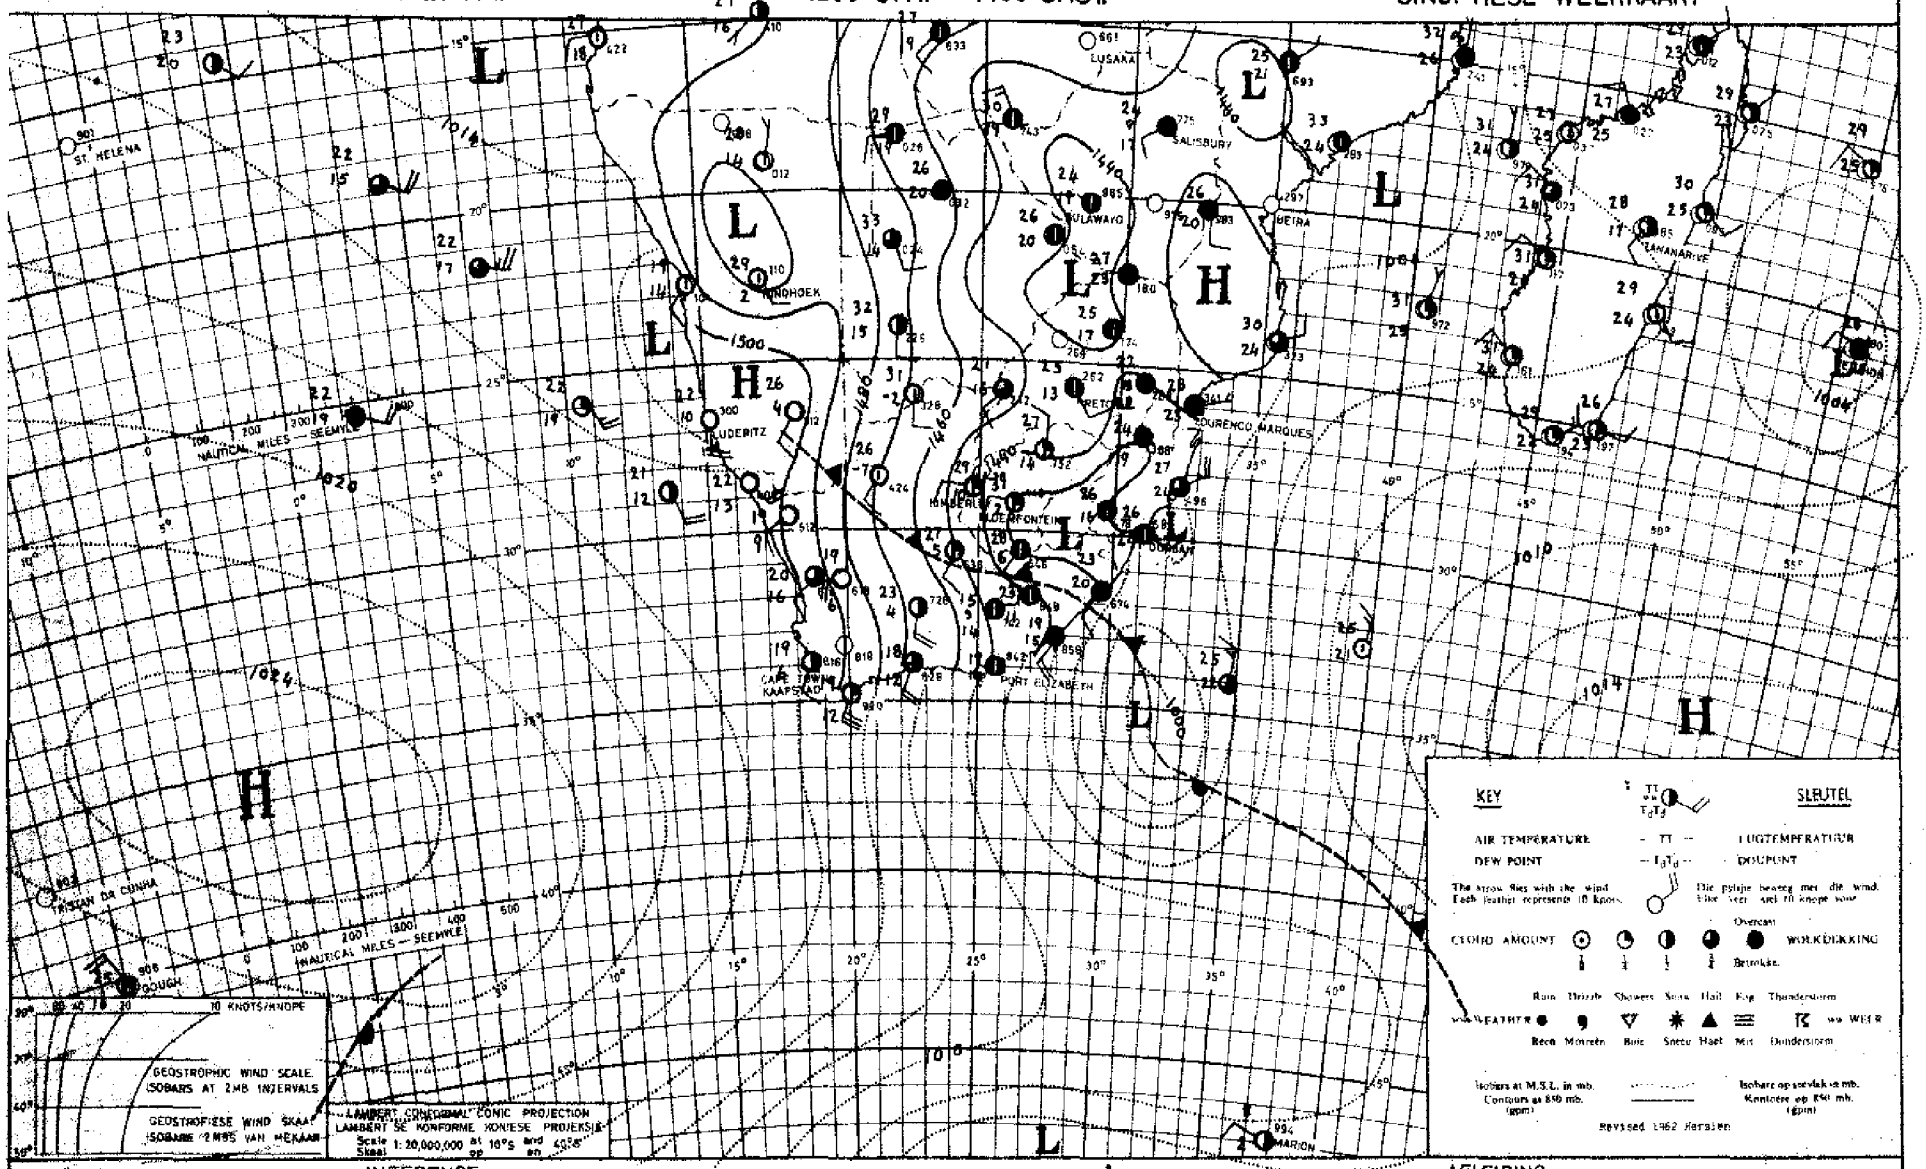
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 16 - 2 - 1968 DATUM — AFLEIDING

Dry, cooler air is moving eastwards over the interior where the weather will clear and become cooler. Moist air, however, will spread over Natal and the Transvaal Lowveld where it will be cloudy with light rain at places.

Droë koeler lug beweeg ooswaarts oor die binneland waar die weer sal opklaar en koeler word. Vogtige lug sal egter oor Natal en die Transvaalse Laeveld uitbrei waar dit bewolk sal wees met ligte reën plek-plek.

The Atlantic high is ridging around the south coast and it will clear along the southern and eastern coastal regions. Dry, cool air has spread from the south over the interior and it will be mainly fine and cool to mild, but cloudy at first over the northern and eastern Transvaal and northern Natal.

Die Atlantiese hoog stoot om die suidkus en dit sal opklaar langs die suidelike en oostelike kusgebiede. Droë, koel lug het vanuit die suide oor die binneland uitgebrei en dit sal hoofsaaklik mooiweer en koel tot matig wees, maar aanvanklik bewolk oor Noord-en Oos-Transvaal en oor Noord-Natal.

With high pressures over the western and central parts of the country and dry air in circulation it will be mainly fine over the interior. The south-westerly winds will cause cloudy cooler weather with rain or drizzle over the southern coast and it will also be cloudy over the eastern escarpment areas with light rain.

Met hoë drukke oor die westelike en sentrale dele van die land en droë lug in sirkulasie sal dit hoofsaaklik mooiweer wees oor die binneland. Die suidwestelike stroming sal bewolkte koeler weer met reën of motreën veroorsaak oor die suidelike kusstreke en dit sal ook bewolk wees langs die oostelike platorand met ligte reën.

INFERENCE

DATE 20 - 2 - 1968 DATUM

AFLEIDING

The front along the south coast will cause cloudy conditions with showers along the south coast and later along the south-east coast. Over the interior the air is dry and the upper air circulation anticyclonic, and therefore it will be fine over most parts except the extreme north where it will be partly cloudy.

Die front langs die suidkus sal bewolkte weer met buie langs suidkus en later langs die suidooskus veroorsaak. Oor die binneland is die lug droog en die bolugsirkulasie antisiklonaal, en gevolglik sal dit mooiweer wees oor die meeste dele uitgesonderd die verre noorde waar dit gedeeltelik bewolk sal wees.

DATE 21-2-1968 DATUM
AFLEIDING
The high south of the country is advecting moist air over the eastern areas of the country where cloudy, cool weather with local light rain will occur. The low over North-western Transvaal will cause thunder-showers over this province and north-eastern Botswana.
Die hoog suid van die land voer vogtige lug oor die oostelike dele van die land in waar dit bewolk en koel sal wees met plaaslike ligte reën. As gevolg van die laag oor Noordwes-Transvaal sal donderbuie voorkom oor die provinsie en oor noordoostelike Botswana.

The high off the east coast will cause cloudy, cooler weather to spread over the eastern parts with thunder-showers in the afternoon. The coastal low along the west coast and the front south-west of the Cape will cause cloudy weather to spread over the southern and western coastal regions.

Die hoog langs die ooskus sal bewolkte koeler weer veroorsaak oor die oostelike dele met donderbuie in die namiddag. Met die kuslaag langs die weskus en die front suidwes van die Kaap sal bewolkte weer later uitbrei oor die suidelike en westelike kusstreke.

INFERENCE

DATE 23 - 2 - 1968 DATUM

AFLEIDING

The coastal low will cause cloudy conditions along the Cape southern and south-eastern coasts. Moist air is being advected from the north over the western and central interior and thunder-showers can be expected over South West Africa, Botswana, western and southern Transvaal, the Free State, the Natal interior and northern and eastern Cape.

Die kuslaag sal bewolkte toestande veroorsaak langs die Kaapse suid-en suidooskus. Vogtige lug word uit die noorde oor die westelike en sentrale binneland ingevoer en donderbuie kan verweg word oor Suidwes-Afrika, Botswana, Wes-en Suid-Transvaal, die Vrystaat, die Natalse binneland en Noord-en Oos-Kaapland.

INFERENCE

DATE 24 - 2 - 1968 DATUM

AFLEIDING

With strong onshore winds over the southern, south-eastern and eastern coasts it will be cloudy and cool with rain or showers over these areas. A trough extending from Windhoek to the south-east and moist air east of it will cause partly cloudy weather with thunder-showers over these areas.

Met 'n sterk landwaartse stroming van seelug oor die suidelike, suidoostelike en oostelike kuskstreke sal dit bewolk wees met reën of buie oor hierdie gebiede. 'n Trog wat vanaf Windhoek strek na die suidooste, en vogtige lug oos van die trog, sal gedeeltelike bewolkte weer met donderbuie veroorsaak oor hierdie dele.

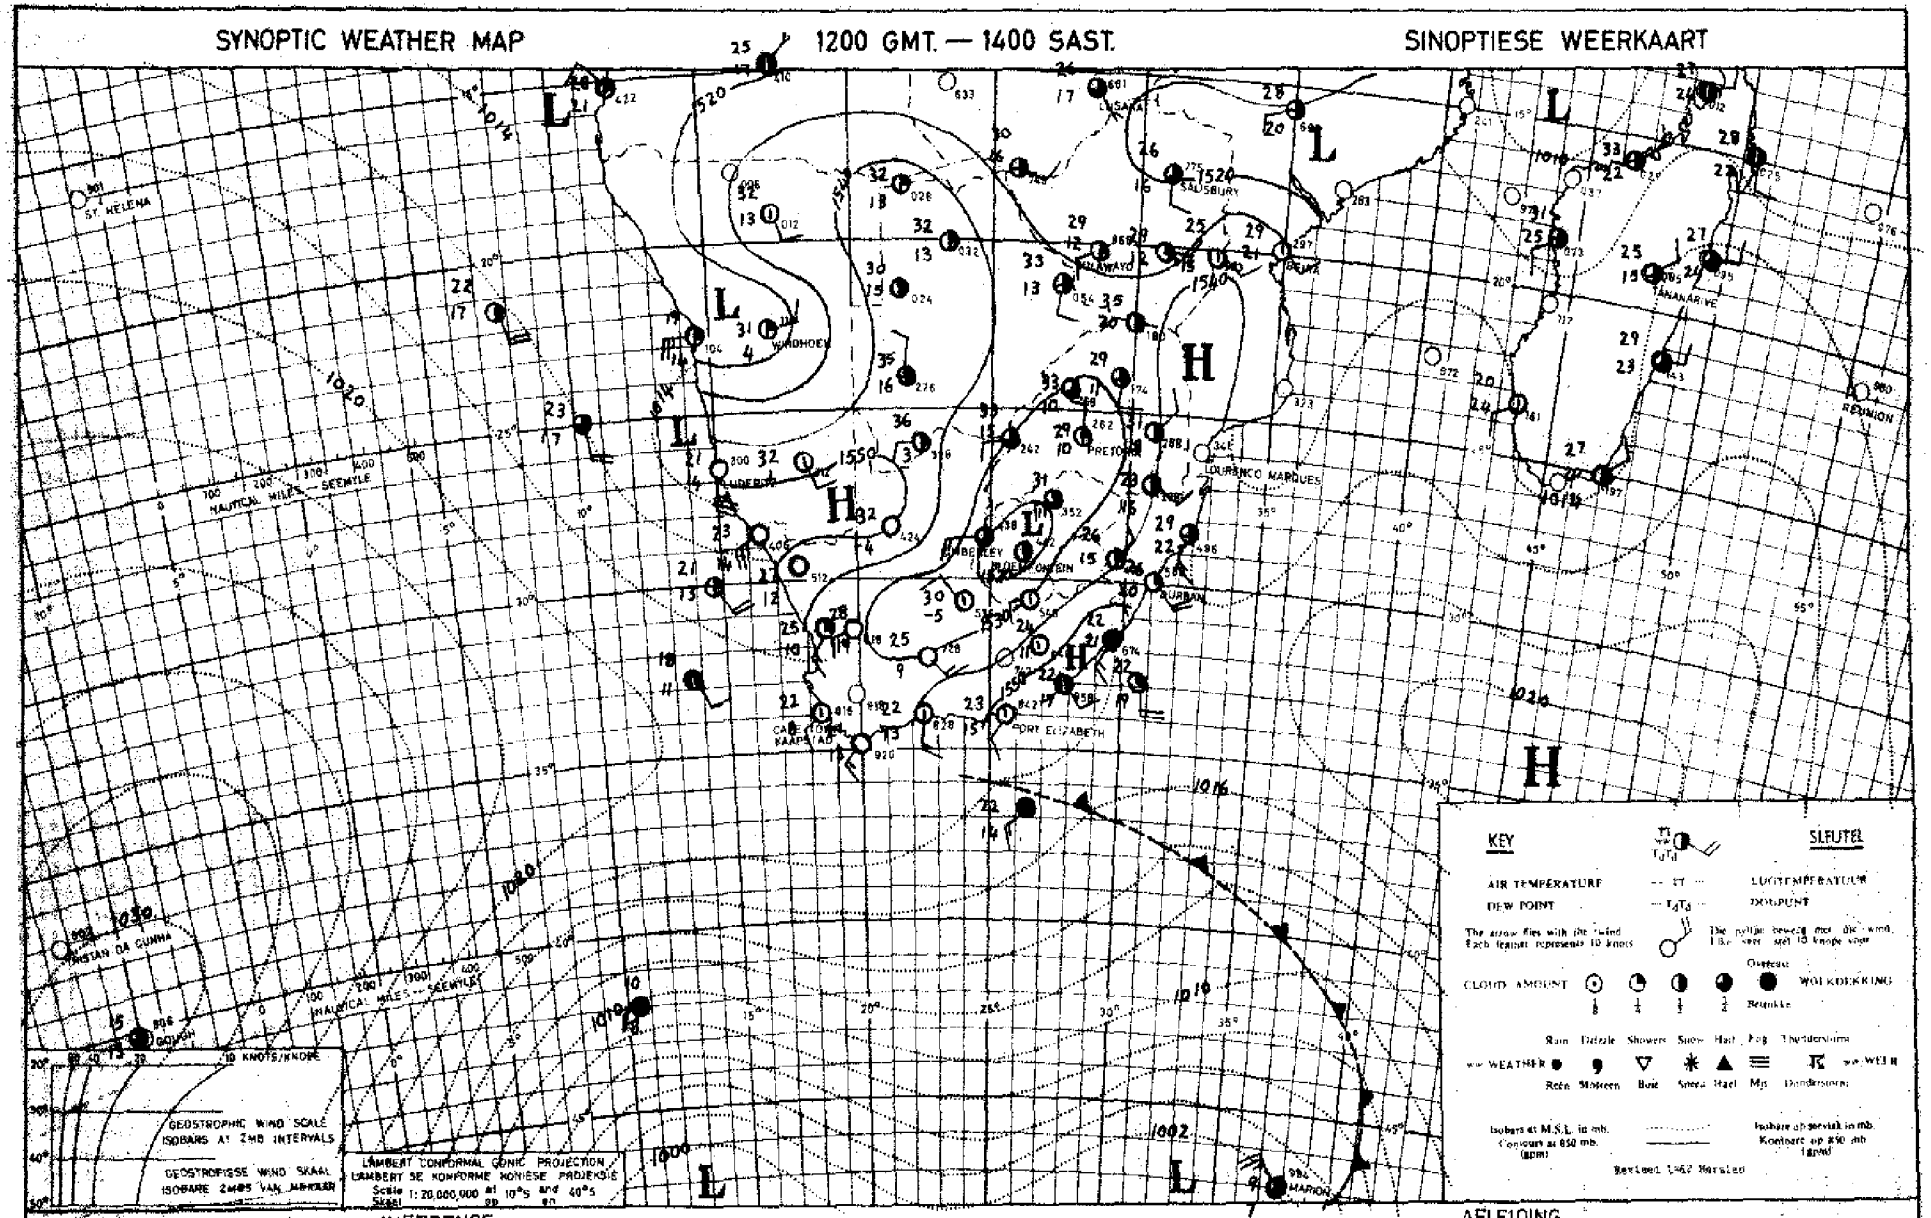
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 25 - 2 - 1968 DATUM AFLEIDING

The trough over the interior will cause thunder-showers over the northern Free State and southern Transvaal, while the ridge which is moving around the coast will cause cloudy conditions with showers along the eastern and south-eastern coasts

Die trog oor die binneland sal donderbuie veroorsaak oor Wes-en Suid-Transvaal en Noord-Vrystaat, terwyl die rug wat om die kus staat, bewolkte weer met buie langs die suidoos- en ooskus sal veroorsaak.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

Moist air behind the coastal low off the Natal coast will spread over the southern and eastern coasts where it will be cloudy with light showers at places. Fairly moist air is also present over the northern and eastern interior and isolated thunder-showers will occur.

Vogtige lug agter die kuslaag langs die Natalkus sal oor die suidelike en oostelike kusgebiede uitbrei waar dit bewolk sal wees met ligte buie plek-plek. Taamlik vogtige lug is oor die noordelike en oostelike binneland aanwesig en los donderbuie sal voorkom.

INFERENCE

DATE 28. - 2 - 19 68 DATUM

AFLEIDING

The high along the south-east coast will cause cloudy conditions with showers over Natal and eastern Transvaal. With a low over the central interior thunder-showers can be expected over the northern and eastern parts of the interior.

Die hoog langs die suidooskus sal bewolkte weer met buie oor Natal en Oos-Transvaal veroorsaak. Met 'n laag oor die binneland kan donderbuie oor die noordelike en oostelike dele van die binneland verwag word.

INFERENCE

DATE 29 - 2 - 1968 DATUM

AFLEIDING

The coastal low along the eastern Cape coast will cause cloudy, cooler weather with light showers along the eastern coastal belt. Moist air is present over the northern, central and eastern areas and thunder-showers will occur. Fairly general showers will fall over S.W.A. in the very moist air over this region.

Die kuslaag langs die Oos-Kaapse kus sal bewolkte koeler weer met buie langs die ooskusstreek veroorsaak. Vogtige lug is oor die noordelike, sentrale en oostelike gebiede aanwesig en donderbuie sal voorkom. Taamlik algemene buie sal oor S.W.A. uitbrei in die baie vogtige lug oor dié gebied.

INFERENCE

DATE 2 - 3 - 1968 DATUM

AFLEIDING

The high to the south-east of the country is causing moist air to flow in over the eastern regions of the country and along the Cape south coast where it will be cloudy with local light rain overnight. A low in the upper air is present over S.W.A. with the result that moist air from the north is being circulated over most regions with the exception of the south-western Cape. Conditions are thus favourable for fairly widespread rain.

Die hoog suidoos van die land veroorsaak 'n instroming van vogtige lug oor die oostelike dele van die land asook langs die Kaapse suidkus, waar dit bewolk sal wees met plaaslike ligte reën oornag. 'n Laag in die bolug is oor S.W.A. teenwoordig met die gevolg dat vogtige lug vanuit die noorde oor die meeste dele, behalwe Suidwes-Kaapland, gesirkuleer word. Toestande is dus gunstig vir taamlik wydverspreide reën.

DATE 3 — 3 19 62 DATUM

INFERENCE

With a flow of moist air from the north over the interior and a trough over the central parts cloudy conditions with rain or showers will occur over most of the country, except the south-west Cape, and the southern and central Karoo.

AFLEIDING

Met 'n stroom van vogtige lug uit die noorde oor die binneland en 'n trog oor die sentrale dele sal bewolkte weer met reën of buie voorkom oor die meeste dele behalwe oor Suidwes-Kaapland en die suidelike en sentrale Karoo.

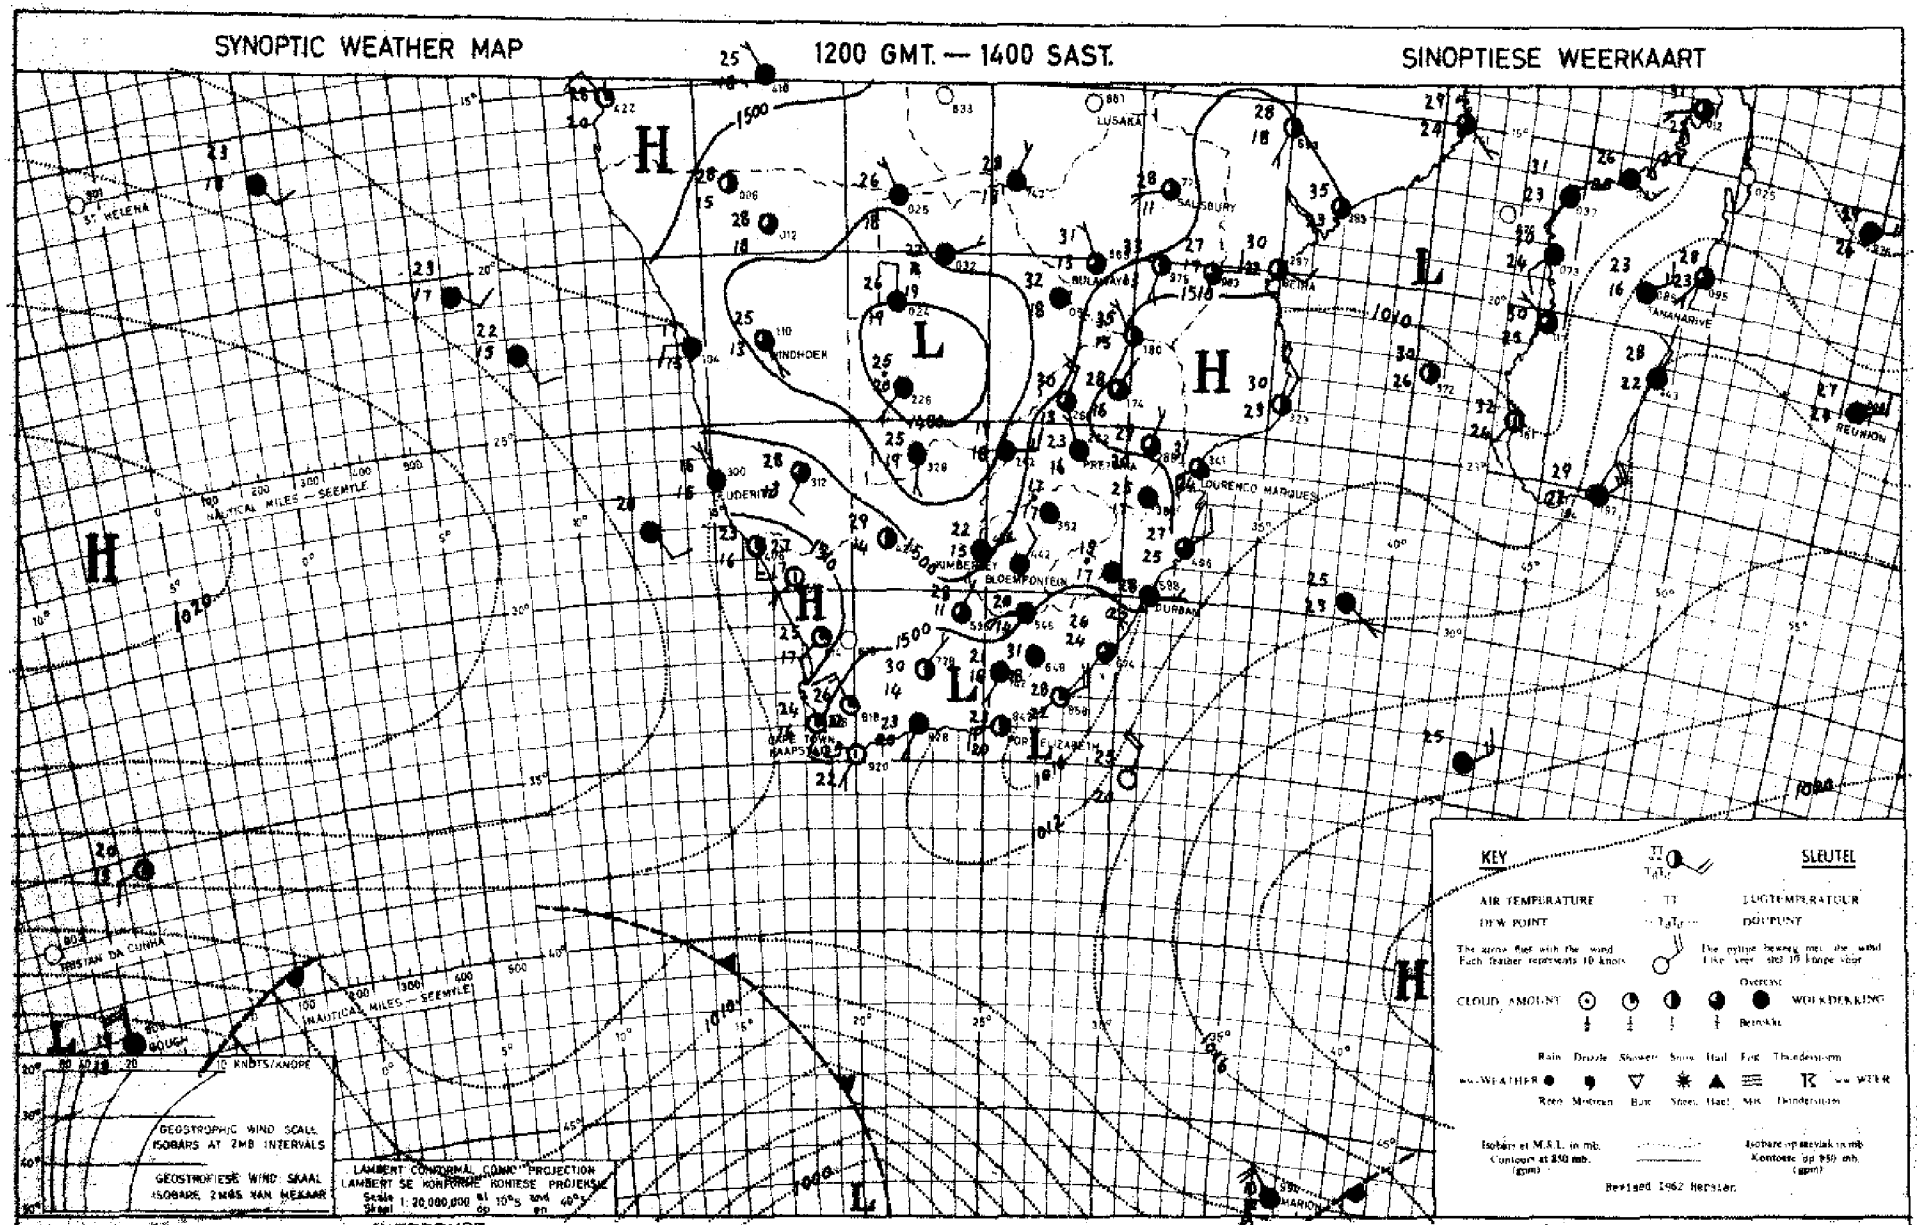
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

DATE 5 - 3 - 1968 DATUM

AFLEIDING

Drier air moving over the interior from the south-west will cause clearance over the western regions. However with a low over Botswana, further rain will fall over the northern, central and eastern areas.

Droë lug vanuit die suidweste beweeg oor die binneland in en sal opklaring oor die westelike gebiede veroorsaak. Met 'n lae oor Botswana sal daar egter verdere reën oor die noordelike, sentrale en oostelike gebiede wees.

INFERENCE

DATE 6 - 3 - 19 68 DATUM

AFLEIDING

With moist air still present over the eastern and northern parts and a weak trough over the central interior, further showers can be expected over the eastern half of the country but with the pressure rising over the western parts it will clear gradually from the west.

Vogtige lug is aanwesig oor die oostelike en noordelike dele en met 'n trog oor die sentrale binneland sal verdere buie voorkom oor die oostelike helfte van die land maar met stygende drukke oor die westelike dele sal dit geleidelik opklaar vanuit die weste.

INFERENCE

DATE 7 - 3 - 1968 DATUM

AFLEIDING

Moist air is still in circulation over the eastern parts and with a northerly flow of air over South West Africa, thunder-showers can still be expected over the northern and eastern regions of the interior. The coastal low along the south coast will cause cloudy weather with drizzle along the southern coastal regions.

Vogtige lug is nog in sirkulasie oor die oostelike dele en met 'n noordelike stroming oor Suidwes-Afrika kan donderbuie nog verwag word oor die noordelike en oostelike dele van die binneland. Die kuslaag langs die suidkus sal bewolkte weer met motreën langs die suidelike kusgebiede veroorsaak.

INFERENCE

DATE 8 - 3 - 1968 DATUM

AFLEIDING

The Atlantic high is intensifying and moving rapidly eastwards. It will clear along the south-western coast while cloudy weather with showers will spread to Natal. Thunder-showers will still occur this afternoon in the east but drier air associated with an anticyclonic circulation is moving in from the west and consequently thunder-shower activity will diminish.

Die Atlantiese hoog verdiep en beweeg vinnig oostwaarts. Dit sal langs die suidweskus opklaar terwyl bewolkte weer met buie na Natal sal uitbrei. Donderbuie sal nog vanmiddag in die ooste voorkom maar droër lug wat gepaard gaan met 'n antisiklonale sirkulasie beweeg in vanuit die weste en gevolglik sal donderweeraktiwiteit verminder.

DATE 9 - 3 - 1968 DATUM
AFLEIDING
The circulation on the surface as well as in the upper air is strongly antic yclonic and therefore it will be fine over most parts. The high ridging around the coast will cause cloudy weather with rain over Natal and the Tranvaal Lowveld and it will also be cloudy at first over the eastern highveld and north-eastern Free State.
Die sirkulasie oor die oppervlakte sowel as in die belug is sterk antisiklonaal en dit sal dus mooiweer wees oor die meeste dele. Die hoog wat om die kus beweeg sal bewolkte weer met reën oor Natal en die Transvaalse Laeveld veroorsaak en dit sal ook aanvanklik bewolk wees oor die oostelike hoëveld en Noordoos-Vrystaat.

INFERENCE

DATE 10 - 3 - 1968 DATUM

AFLEIDING

The coastal low off the Cape coast will be situated tomorrow along the south coast. Partly cloudy to cloudy and cooler weather will thus occur along these regions. With a low situated over the O.F.S. isolated thunder-showers will occur over the northern and central parts of the interior.

Die kuslaag langs die Kaapse kus sal môre langs die suidkus gelê wees. Gedeeltelik bewolk tot bewolkte weer sal dus langs hierdie gebiede voorkom. Met 'n laag oor die O.V.S. sal los donderbuie oor die noordelike en sentrale gebiede van die binneland voorkom.

INFERENCE

DATE 11 - 3 - 1968 DATUM

AFLEIDING

Behind the cold front cooler weather will spread over the southern and eastern parts of the country with rain over the eastern coastal areas. A trough is developing over South West Africa and with the flow of moist air from the north conditions for showers or thunder-showers will improve over most of the interior.

Agter die koufront brei koeler lug uit oor die suidelike en oostelike dele van die land met reën oor die oostelike kus. 'n Trog ontwikkel oor Suidwes-Afrika en met die vloei van vogtige lug vanuit die noorde sal toestande vir buie of donderbuie oor die meeste dele van die binneland verbeter.

INFERENCE

DATE 12 - 3 - 19 68 DATUM

AFLEIDING

The cold front along the east coast will cause cloudy, cool weather with rain over the eastern Cape, Natal and later over the Transvaal Lowveld. The low over southern Angola will cause scattered thundershowers over northern and central S.W.A. Elsewhere it will be fair and mild to warm.

Die koufront langs die ooskus sal bewolkte koel weer met reën oor Oos-Kaapland, Natal en later oor die Transvaalse Laeveld veroorsaak. Die laag oor Suid-Angola sal verspreide donderbuie oor die noordelike en sentrale dele van S.W.A. veroorsaak. Oorigens sal dit redelik mooiweer en matig wees.

The high moving in south of the country will cause cool weather with rain over Natal and the eastern half of Transvaal. In the warm, moist air over northern S.W.A. and Botswana scattered thunder-showers will occur. Elsewhere the air is fairly dry and the weather will be mainly fine.

Die hoog wat suid van die land inbeweeg, sal koel bewolkte weer met reën oor Natal en die oostelike helfte van Transvaal veroorsaak. In die warm vogtige lug oor noordelike S.W.A. en Botswana sal verspreide donderbuie voorkom. Elders is die lug betreklik droog en sal dit hoofsaaklik mooiweer wees.

DATE 14 - 3 - 1968 DATUM

AFLEIDING

With the trough over the western parts deepening and the high moving further eastwards around the coast, showers will spread southwards to the central parts of the country and will also occur over most of the northern and eastern parts.

Die trog oor die westelike dele is besig om te verdiep, en met die hoog wat verder ooswaarts beweeg om die kus, sal buie uitbrei na die sentrale dele van die land en sal ook voorkom oor die meeste dele van die noordelike en oostelike gebiede.

INFERENCE

DATE 15-3-1968 DATUM

AFLEIDING

The coastal low will cause cloudy weather with fog and drizzle along the Cape west and south-west coasts. With a northerly flow over the whole country it will be cloudy and rain or showers will occur over most parts.

Die kuslaag sal bewolkte weer met mis en motreën langs die Kaapse wes- en suidweskus veroorsaak. Met die noordelike stroming oor die hele land sal dit bewolk wees en reën of buie sal oor die meeste dele voorkom.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

INFERENCE

DATE 17-3-1968 DATUM

AFLEIDING

With rising pressures over the southern parts an anticyclonic circulation is expected tomorrow with the result that it will clear over most parts, but a few thundershowers can still be expected over the northern parts of South West Africa and Botswana.

Met stygende drukke oor die suidelike dele word 'n antisiklonale sirkulasie môre verwag en gevolglik sal dit opklaar oor die meeste dele, maar enkele donderbuie kan nog oor die noordelike dele van Suidwes-Afrika en Botswana verwag word.

INFERENCE

DATE 18 - 3 - 19 68 DATUM

AFLEIDING

Moist air flowing westwards over the northern regions of the country will cause partly cloudy weather over these areas with thundershowers over Northern Botswana and S.W.A. The circulation elsewhere is anticyclonic and it will be fair.

Vogtige lug beweeg weswaarts oor die noordelike streke van die land en veroorsaak gedeeltelik bewolkte weer oor hierdie gebiede met donderbuie oor Noord - Botswana en S.W.A. Andersins is die sirkulasie antisiklonaar en dit sal redelike mooiweer wees.

INFERENCE

DATE 19 - 3 - 1968 DATUM

AFLEIDING

With the moist northerly flow over the western parts thunder-showers will spread from S.W.A. to Northern and North-eastern Cape and also the south-western Free State. Over the remainder of the country the circulation is anticyclonic and only partly cloudy warm weather can be expected.

Met die vogtige noordelike lugstroom oor die westelike dele sal donderbuie uitbrei vanaf S.W.A na Noord-en Noordoos-Kaapland en ook oor die Suid-Vrystaat. Oor die res van die land is die sirkulasie antisiklonaal en kan slegs gedeeltelik bewolkte warm weer verwag word.

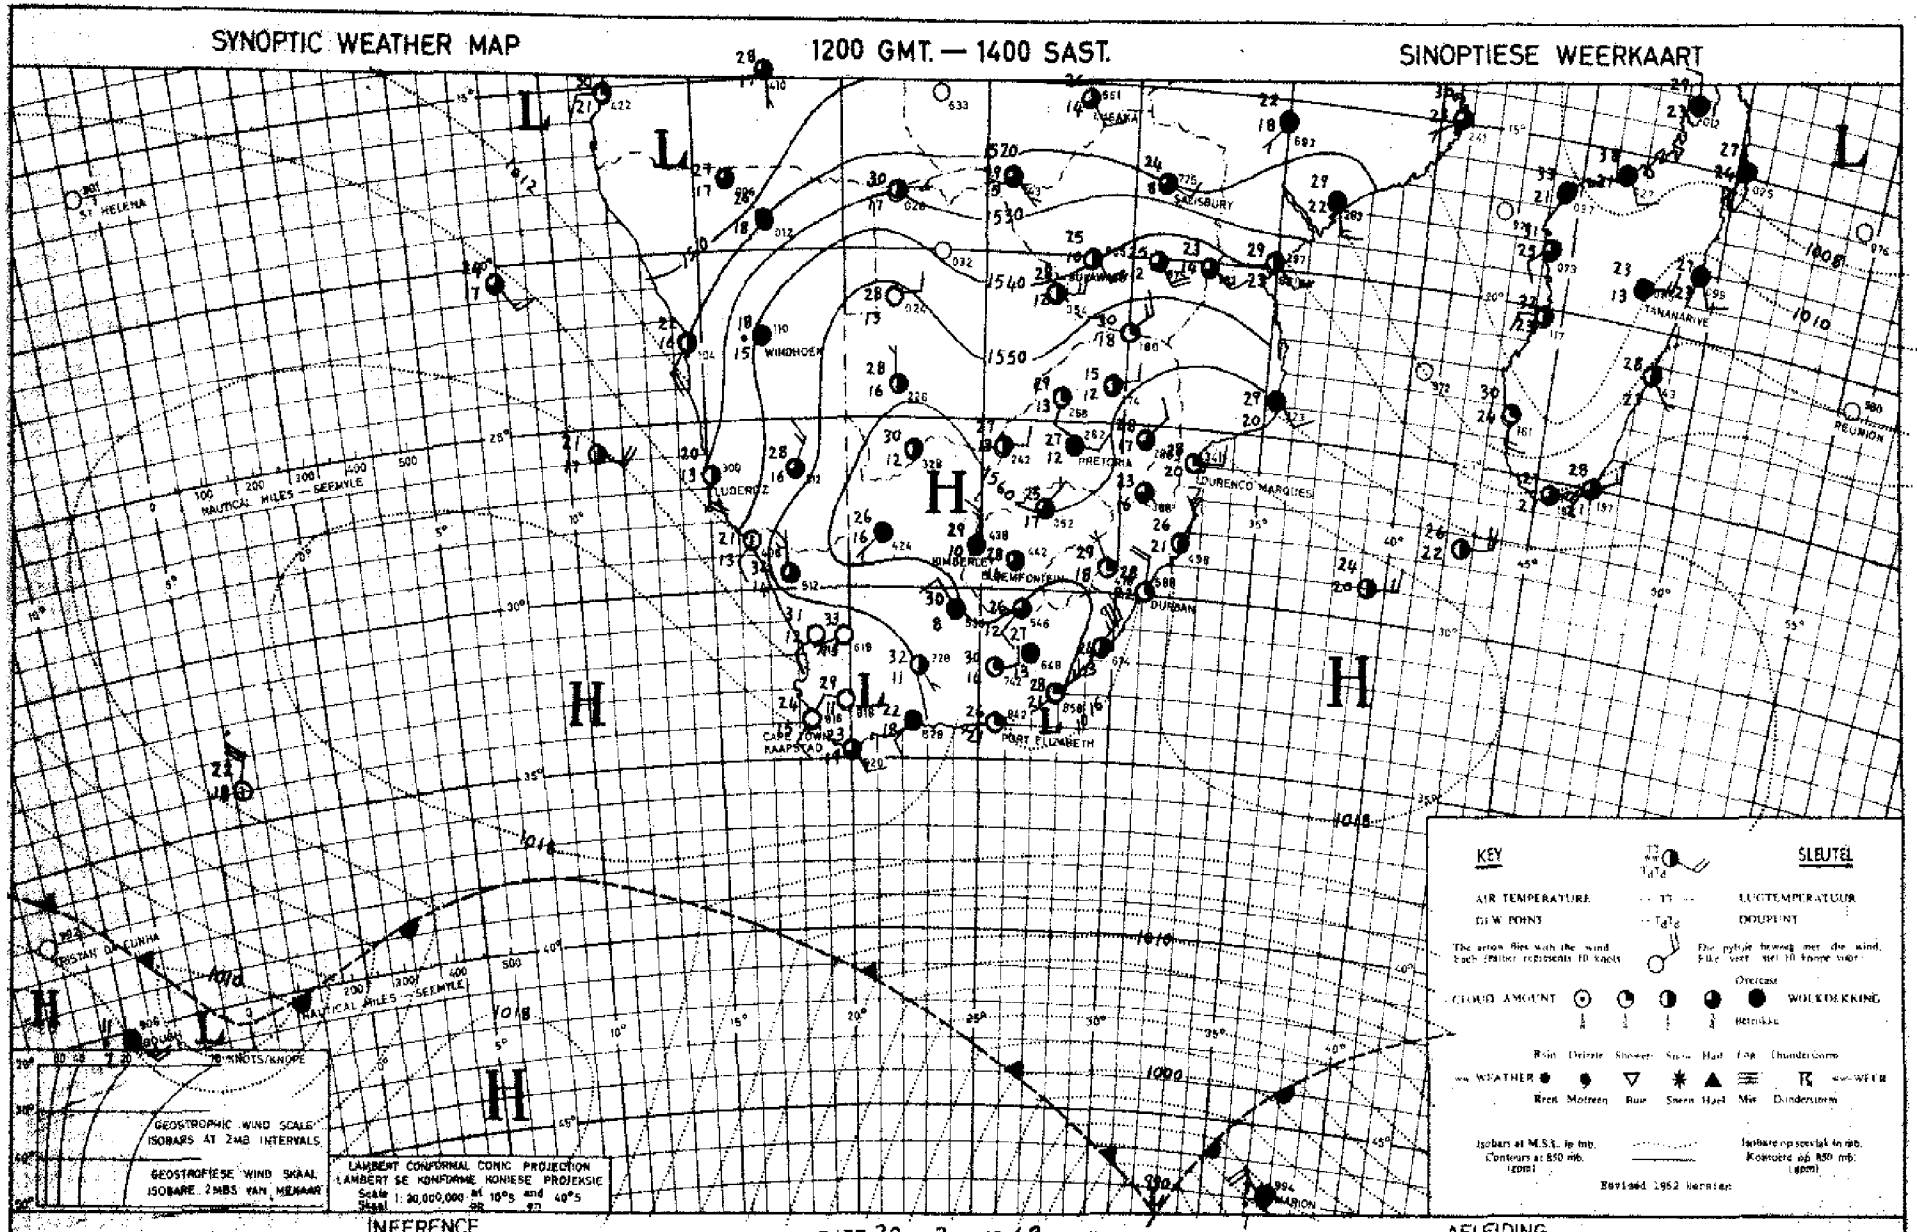
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 20 - 3 - 19 68 DATUM

AFLEIDING

The northerly flow over the western parts of the country will cause scattered rain and thunder-showers over S.W.A. and these conditions will spread later to most parts of the Cape Province, except the south-western parts. Elsewhere the circulation is anticyclonic and it will be fine or partly cloudy and warm.

Die noordelike stroming oor die westelike dele van die land sal verspreide reën en donderbuie oor S.W.A. veroorsaak en hierdie toestande sal later uitbreï ne die meeste dele van Kaapland uitgesonderd die suidwestelike dele. Elders is die sirkulasie antisiklonaal en dit sal mooiweer of gedeeltelik bewolk wees.

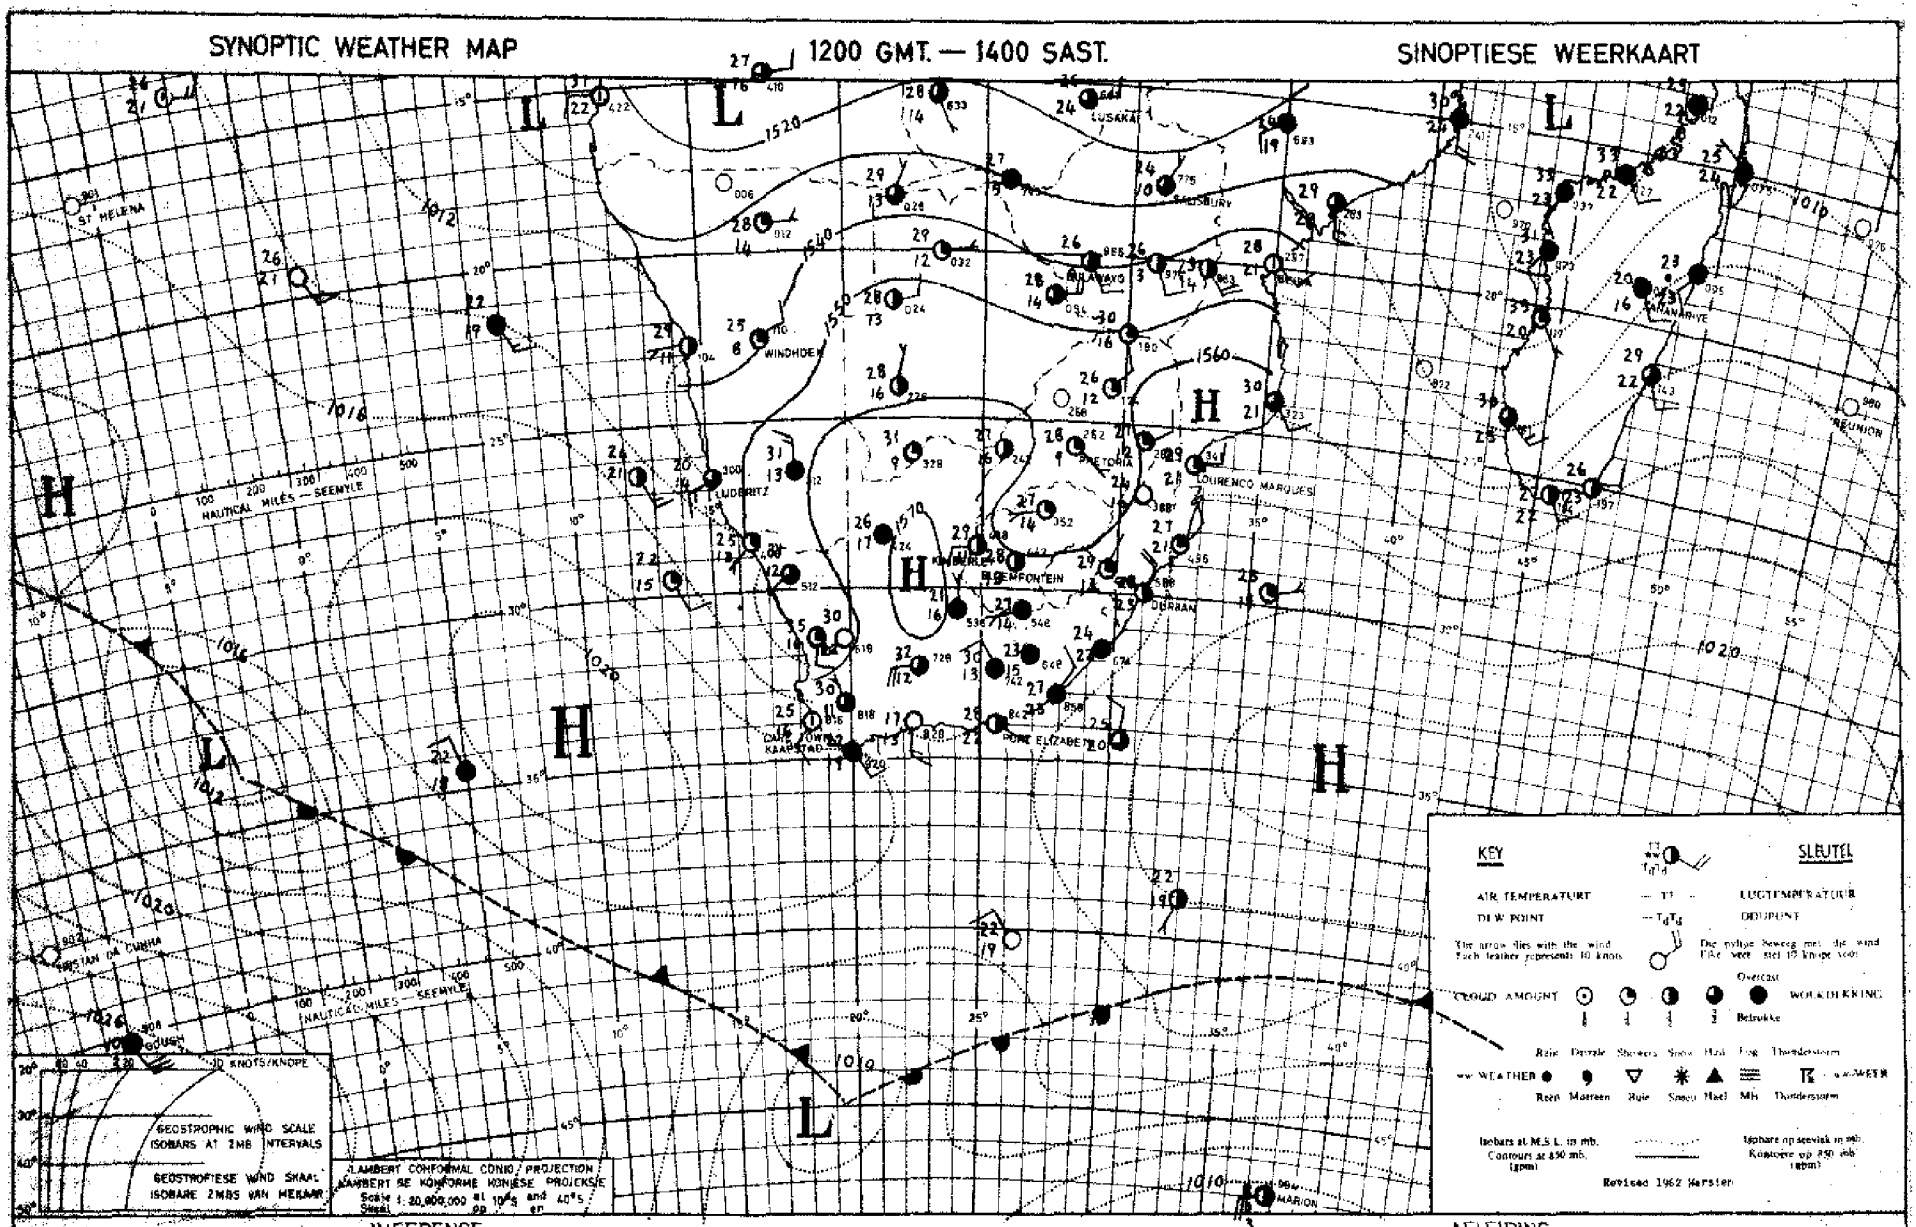
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 21 - 3 - 1968 DATUM — AFLEIDING

A coastal low is forming along the south coast and will cause cloudy to partly cloudy weather along the Cape coastal belt. The circulation over the remainder of the country is anticyclonic but with moist air present over the central regions light showers or thundershowers will occur over these areas.

'n Kuslaag ontwikkel langs die suidkus en sal bewolkte tot gedeeltelik bewolkte weer langs die Kaapse kusstreke veroorsaak. Die sirkulasie oor die res van die land is antisiklonaal maar met vogtige lug oor die sentrale gebiede teenwoordig sal donderbuie voorkom oor dié dele.

INFERENCE

DATE 22 - 3 - 1968 DATUM

AFLEIDING

The circulation over the country is mainly anticyclonic but moist air is still present over, Northern Cape, North-Eastern Cape, Southern Free State and Natal and therefore thunder-showers will occur over these regions. The high at Gough is extending a ridge south of the country and it will become cloudy and cool with light rain over the southern and eastern coastal regions.

Die sirkulasie oor die land is hoofsaaklik antisiklonaal maar vogtige lug is teenwoordig oor die noordelike gedeeltes van die Kaapprovinsie, Suid-Vrystaat en Suid-Natal en daarom sal donderbuie daar voorkom. Die hoog by Gough stoot 'n rug suid van die land in en dit sal bewolk en koel word met ligte reëns oor die suidelike en oostelike kusgebiede.

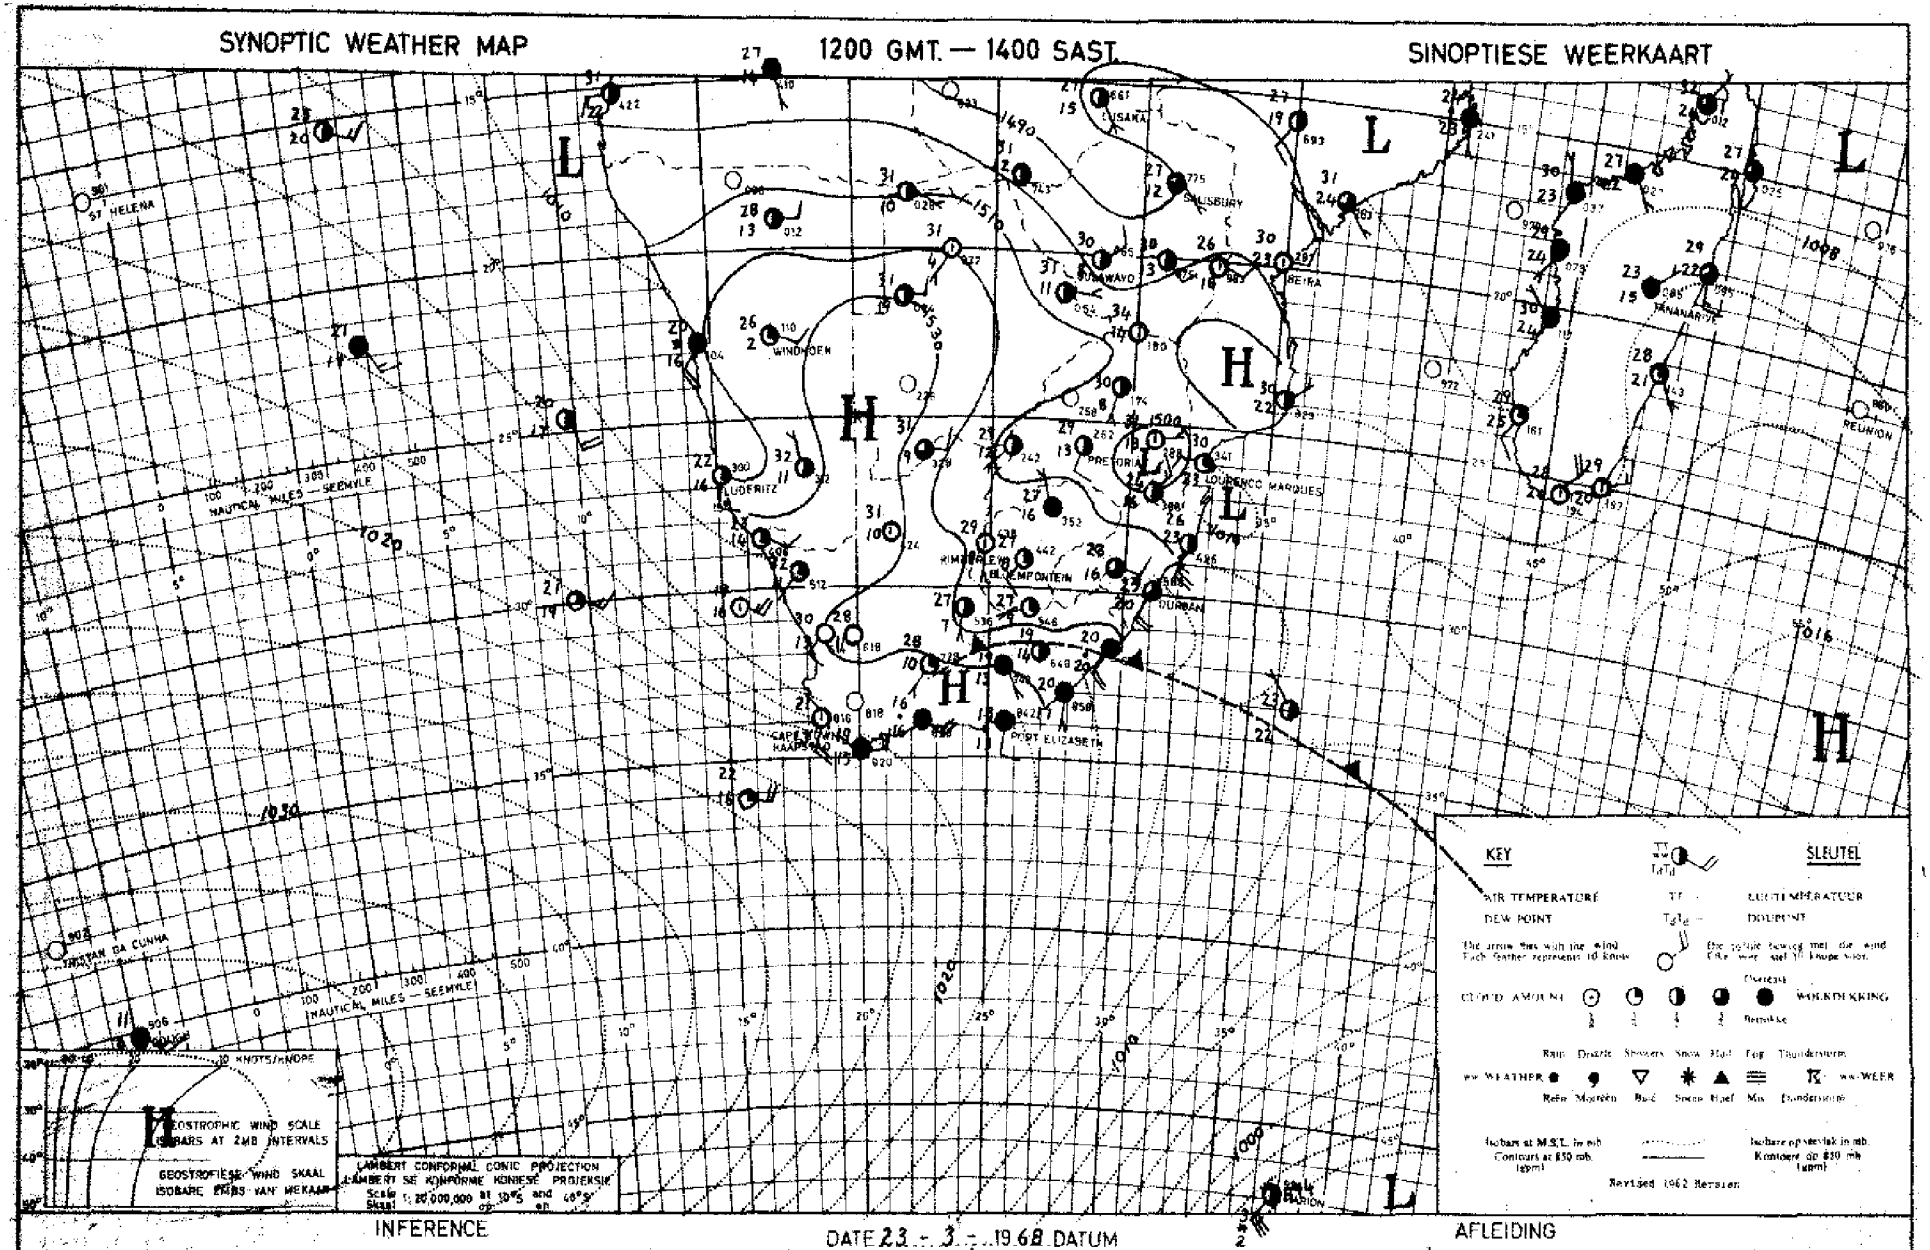
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST — SINOPTIESE WEERKAART



INFERENCE

DATE 23 - 3 - 1968 DATUM

The strong ridge of the Atlantic high south of the continent will cause cloudy, cool weather with rain to persist along the southern and eastern Cape coasts. With moist air present over the central regions, thunder-showers will occur over the Free State and southern Transvaal.

AFLEIDING

'n Sterk rug van die Atlantiese hoog suid van die vasteland sal veroorsaak dat bewolkte, koel weer met reën langs die Kaapse suid- en ooskusstreke sal voortduur. Met vogtige lug oor die sentrale dele teenwoordig sal donderbuie oor die Vrystaat en Suid-Transvaal voorkom.

DAAGLIKSE WEERBULLETIN

DATE 25 - 3 - 1968 DATUM

AFLEIDING

The high to the south of the country is feeding in moist air over the eastern and northern parts where it will be cloudy and cool with light or showers. The trough over the central parts will cause thunder-showers over the Free State, and Botswana and Northern Cape.

Die hoog ten suide van die land voer vogtige lug in oor die oostelike en noordelike dele waar dit bewolk en koel sal wees met ligte reën of buie. Die trog oor die sentrale dele sal donderbuie veroorsaak oor die Vrystaat, Noord-Kaapland en Botswana.

INFERENCE

DATE 26 - 3 - 19 68 DATUM

AFLEIDING

The high south of the country is moving eastwards and it will clear along the south-east coast. It will remain cloudy over the Transvaal but since the upper air circulation is anticyclonic little rain can be expected. Moist warm air is flowing southwards over the western and central regions where thunder-showers will occur.

Die hoog suid van die vasteland beweeg oostwaarts en dit sal langs die suidooskus opklaar. Dit sal oor Transvaal bewolk bly maar omdat die bolugsirkulasie antisiklonaal is kan min reënval verwag word. Vogtige lug beweeg suidwaarts oor die westelike en sentrale dele waar donderbuie sal voorkom.

INFERENCE

DATE 28 - 3 - 19 68 DATUM

AFLEIDING

The coastal low will cause cloudy weather with light rain along the south-west and south coasts. Moist air from the north will cause thunder-showers over most parts of the Cape Province and over the southern Free State.

Die kuslaag sal bewolkte weer met ligte reën langs die suidwes- en suidkus veroorsaak. Vogtige lug uit die noorde sal donderbuie veroorsaak oor die meeste dele van Kaapland en oor die suidelike Vrystaat.

INFERENCE

DATE 29 - 3 - 1968 DATUM

AFLEIDING

A trough - on the surface and in the upper air - is situated over the western regions of the country and will cause thunder-showers over the western, central and southern areas.

'n Trog - aan die oppervlakte en in die bolug - is aanwesig oor die westelike dele van die land en sal donderbuie veroorsaak oor die westelike, sentrale en suidelike gebiede.

Moist air is in circulation over the southern parts of the country and scattered thundershowers will occur over the Cape Province and the southern parts of the Free State and S.W.A. Elsewhere the circulation is anticyclonic and it will be fair.

Vogtige lug is in sirkulasie oor die suidelike dele van die land en verspreide donderbuie sal voorkom oor Kaapland en die suidelike dele van die Vrystaat en S.W.A. Elders is die sirkulasie antisiklonaal en dit sal redelik mooiweer wees.

INFERENCE

DATE 31 - 3 - 1968 DATUM

AFLEIDING

With moist air still in circulation over the southern parts of the country, thunder-showers will occur over these regions, but the upper trough is moving eastwards and it will start to clear from the west.

Met vogtige lug nog in sirkulasie oor die suidelike dele van die land sal verdere donderbuie oor dié gebiede voorkom, maar die bolugtrog beweeg ooswaarts en dit sal begin opklaar uit die weste.

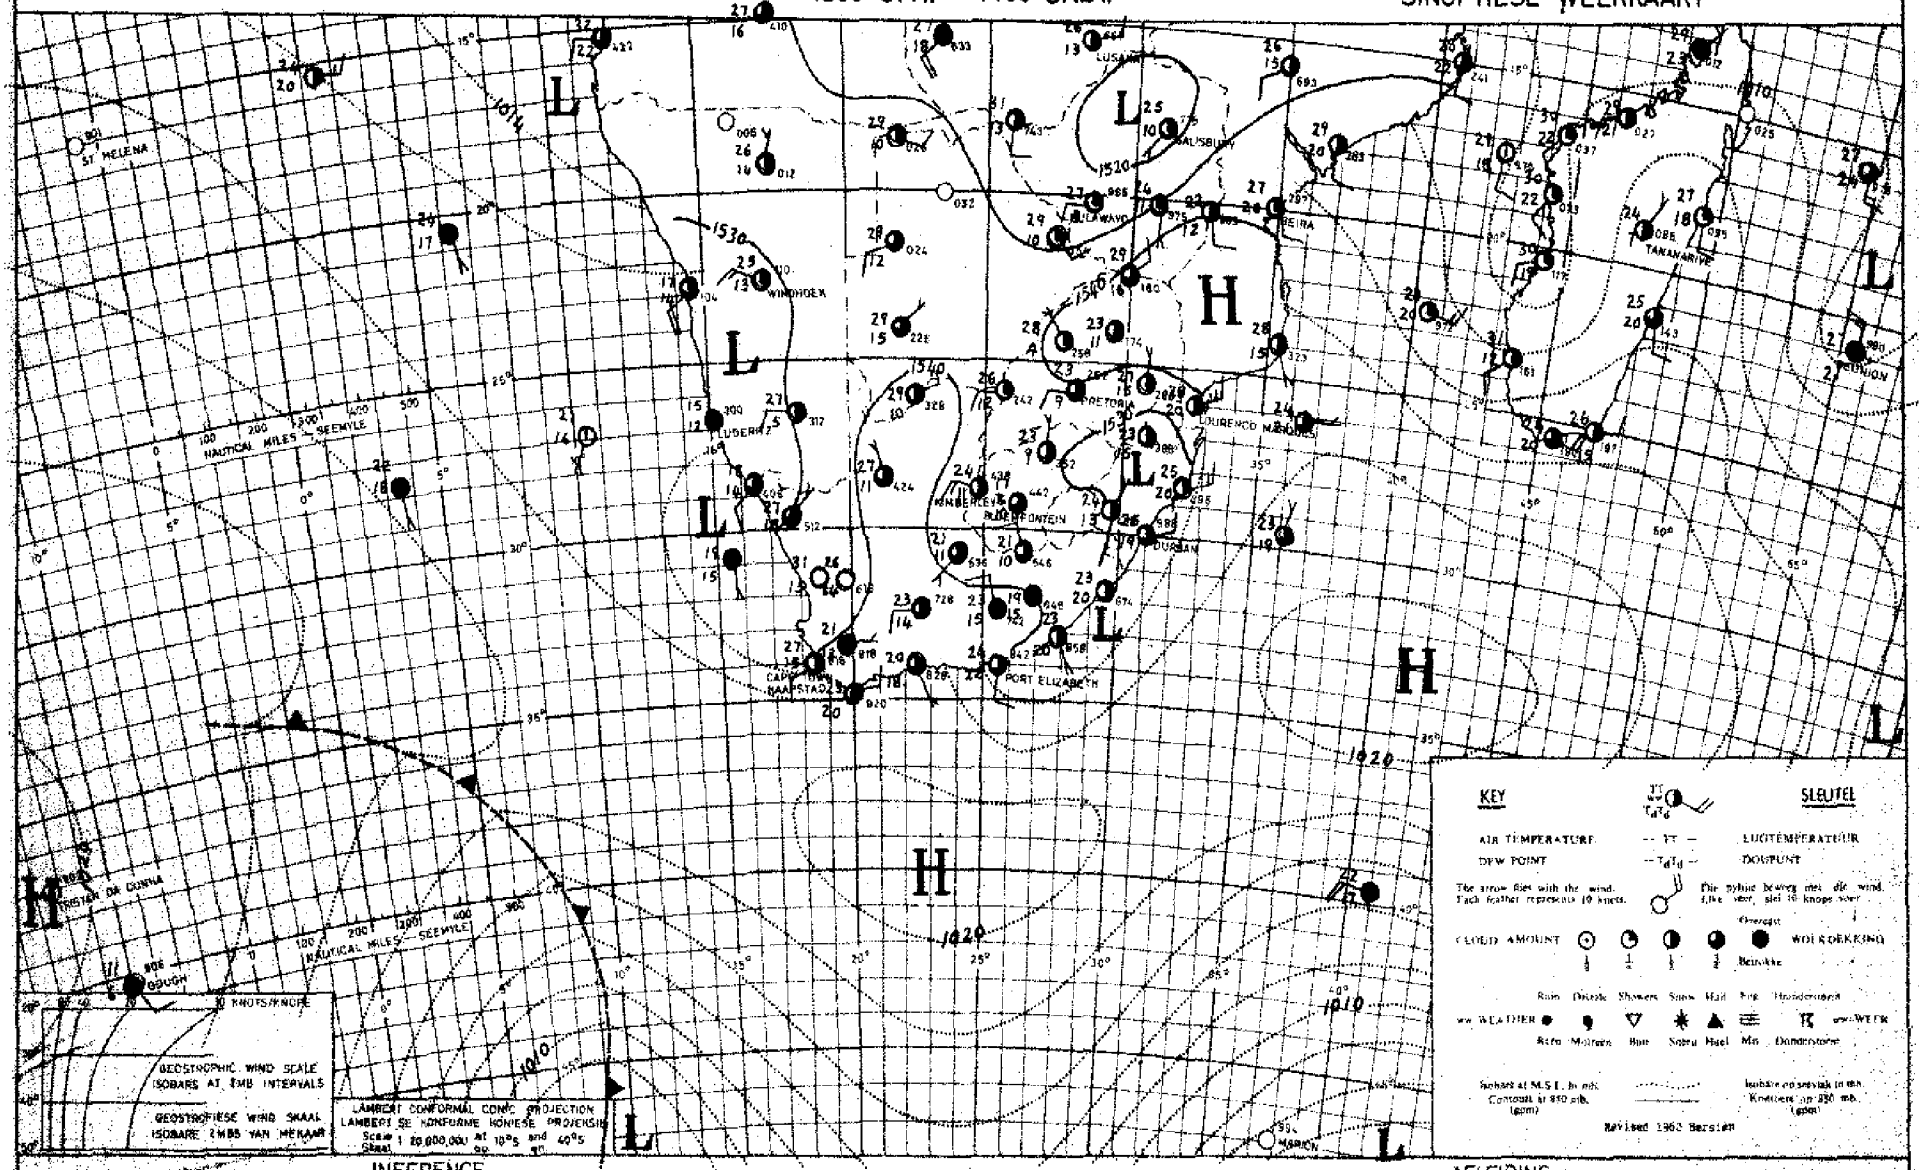
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The low along the east coast will cause temporary cloudiness along the southern and eastern Cape coastal areas. A trough in the upper air, situated over the central areas, is moving eastwards so that it will clear partially over the central regions. Thundershowers will, however, still occur over the eastern parts.

DATE 1 — 4 — 1968 DATUM

AFLEIDING

Die laag langs die ooskus sal tydelike bewolktheid langs die suidelike en oostelike Kaapse kusstreke veroorsaak. 'n Trog in die bolug, wat oor die sentrale gebiede geleë is, beweeg ooswaarts, sodat dit oor die sentrale streke gedeeltelik sal opklaar. Donderbuie sal egter oor die oostelike dele voorkom.

DAAGLIKSE WEERBULLETIN

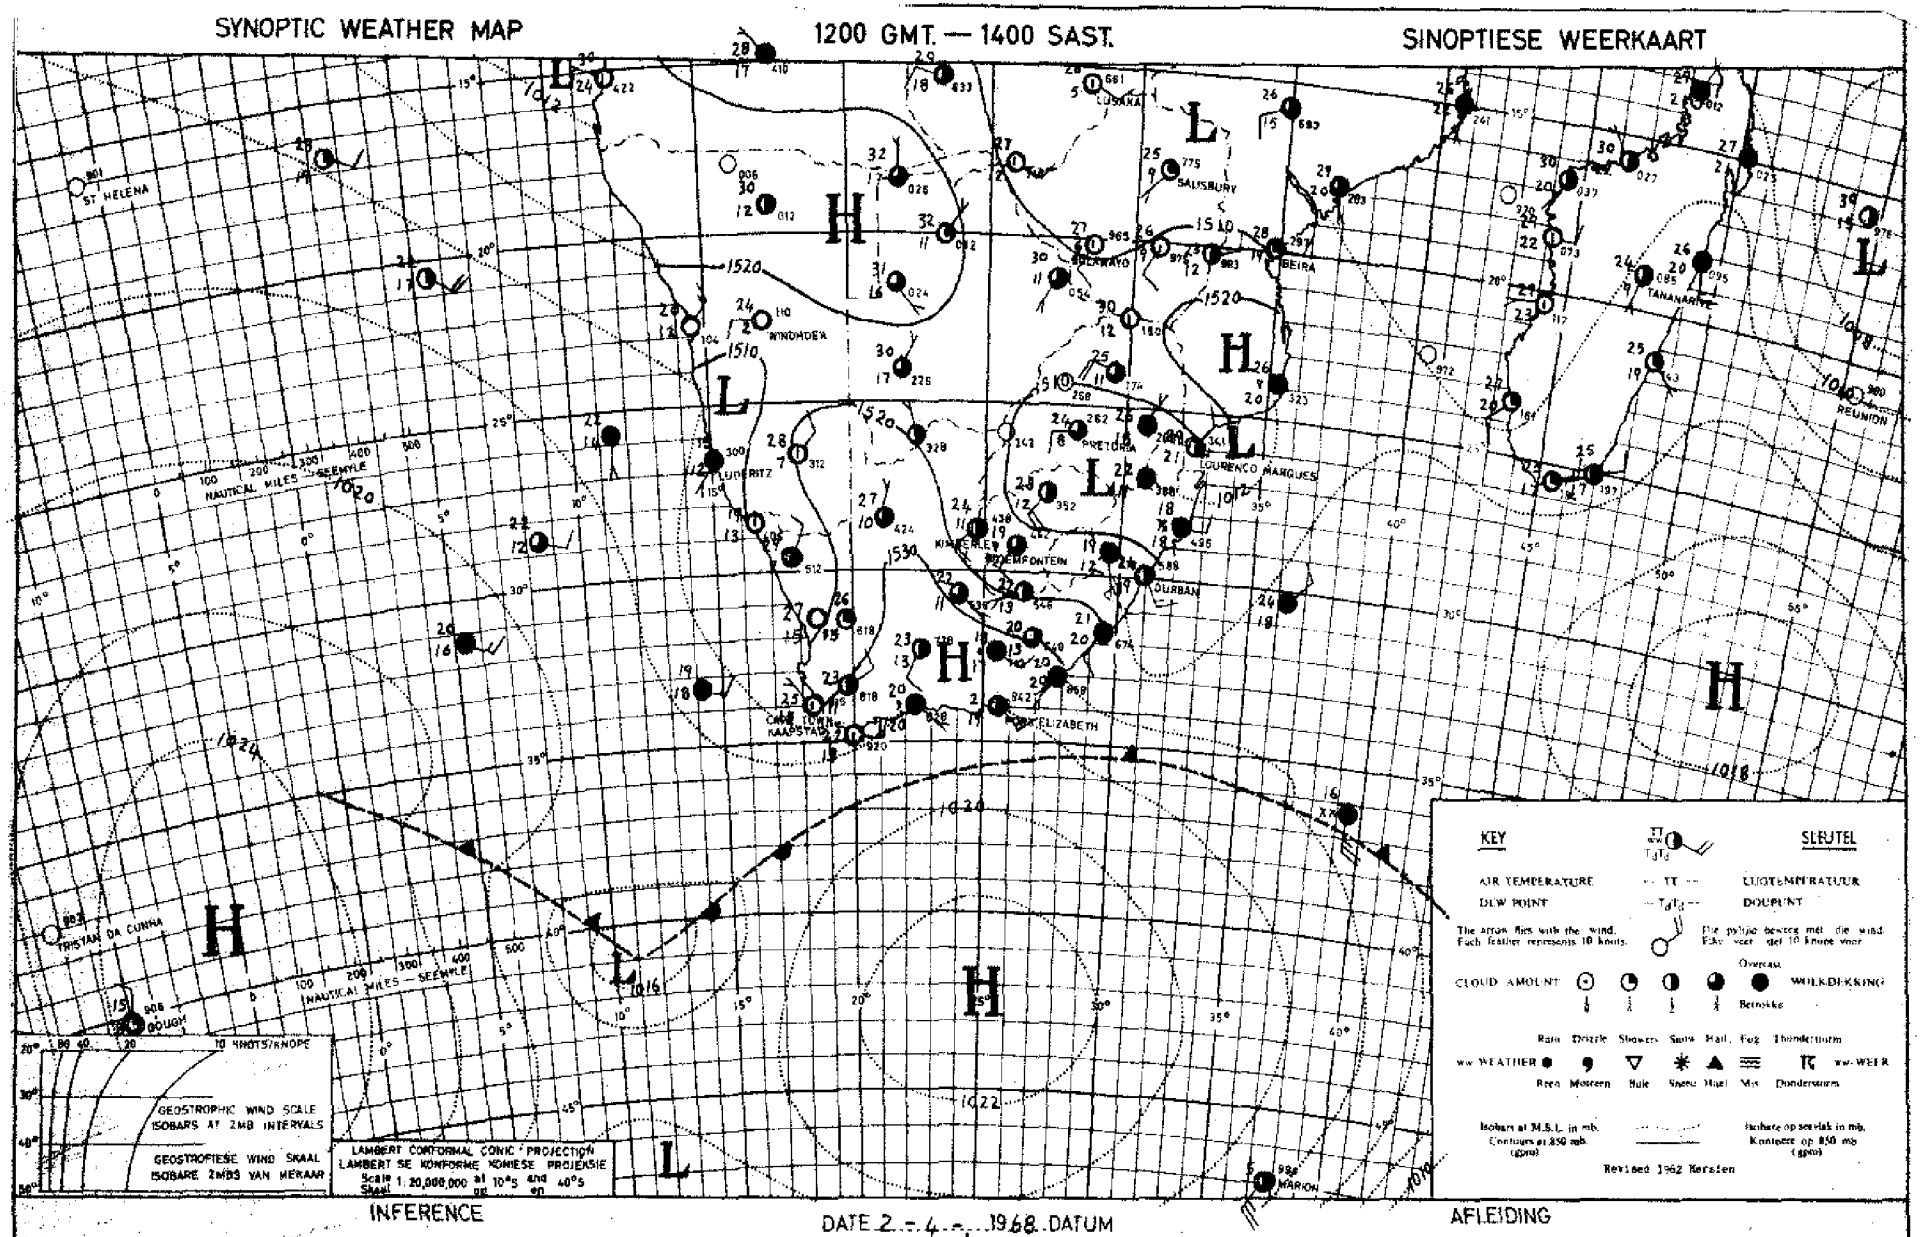
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE

The high moving around the coast will cause cloudy cool weather with rain over the eastern Cape Province and Natal, while the trough over the north-eastern interior will cause thunder-showers over the northern Free State and the southern half of Transvaal.

DATE 2-4-1968 DATUM

AFLEIDING

Die hoog wat om die kus beweeg, sal koel bewolkte weer met reën oor Oos-Kaapland en Natal veroorsaak terwyl die trog oor die noordoostelike binneland donderbuie sal veroorsaak oor Noord-Vrystaat en die suidelike helfte van Transvaal.

INFERENCE

DATE 3 - 4 - 19 68 DATUM

AFLEIDING

As a result of the low pressure area along the coastal areas temporary cloudy weather will occur along the southern and western coasts. As the Atlantic high ridges in south of the country, cloudy conditions will spread also over the east coast with light rain later. With the low over the Free State isolated showers will occur over the north-eastern interior of S.A.

As gevolg van 'n laedrukgebied langs die kusstreke sal tydelike bewolkte weer langs die suid-en weskusgebiede voorkom. Na gelang die Atlantiese hoog suid van die land inbeweeg, sal bewolkte weer met ligte reën oor die oskus uitbrei. Met die laag oor die Vrystaat sal los donderbuie voorkom oor die noordoostelike binneland van S.A.

INFERENCE

DATE 4 - 4 - 1968 DATUM

AFLEIDING

The high moving around the coast will cause cloudy weather with rain over the southern and eastern parts of the country. An upper low over the west coast will cause thunder-showers over the Northern Cape, Free State and Transvaal.

Die hoog wat om die kus beweeg, sal bewolkte weer met reën oor die suidelike en oostelike dele van die land veroorsaak. 'n Boog-laag oor die weskus sal donderbuie veroorsaak oor Noord-Kaapland, die Vrystaat en Transvaal.

DAAGLIKSE WEERBULLETIN

With the high south of the country moving slowly eastwards the inflow of moist air over the country will increase and with the low over the western parts deepening fairly general rain or showers will spread over the central and eastern parts of the country.

Met die hoog suid van die land wat stadig ooswaarts beweeg sal die vogtige vloei oor die land toeneem en met die laag oor die westelike dele wat verdiep, sal taamlik algemene reën of buie uitbrei oor die sentrale en oostelike dele van die land.

INFERENCE

DATE 6 - 4 - 19 68 DATUM

AFLEIDING

Moist air has been advected from the north over the eastern half of the country and with a deep low over western Cape, scattered rain or showers will occur over the eastern Cape, Free State, south-western Transvaal and at places in Natal.

Vogtige lug is uit die noorde oor die oostelike helfte van die land ingevoer en met 'n diep laag oor Wes-Kaapland sal verspreide reën of buie voorkom oor Oos-Kaapland, die Vrystaat, Suidwes-Transvaal en op plekke in Natal.

With pressures rising over the interior a partial clearance is expected with a rise in temperatures but with moist air still present thundershowers will still occur mainly over the central parts. The frontal system south of the Cape will cause cloudy cool weather with rain at places over the southern coastal areas.

Met stygende druk oor die binneland word 'n gedeeltelike opklaring verwag met 'n styging in temperature maar met vogtige lug steeds aanwesig kan verdere buie of donderbuie verwag word hoofsaaklik oor die sentrale dele. Die front suid van die Kaap sal bewolkte koel weer met reën op plekke veroorsaak oor die suidelike kusstreke.

With moist air still in circulation, further thundershowers can be expected over Transvaal, the Free State, Natal, eastern Cape, the northern parts of S.W.A. and northern and eastern Botswana.

Met vogtige lug nog in sirkulasie kan verdere donderbuie verwag word oor Transvaal, die Vrystaat, Natal, Oos-Kaapland, die noordelike dele van S.W.A. en Noord- en Oos-Botswana.

INFERENCE

DATE 2 - 4 - 1968 DATUM

AFLEIDING

The cold front to the west of Cape Town will cause cloudy, cool weather with rain over the South-Western Cape. The circulation over the remainder of the country is anticyclonic and it will be fair and warmer.

Die koufront wes van Kaapstad sal koel, bewolkte weer met reën oor Suidwes-Kaapland veroorsaak. Die sirkulasie oor die res van die land is antisiklonaal en dit sal redelike mooiweer en warmer wees.

A weak cold front moving along the south coast will cause cloudy cooler weather with rain along the coastal regions spreading to the east coast. Elsewhere the circulation is unfavourable and it will be mainly partly cloudy and mild.

'n Swak koufront wat langs die suidkus beweeg, sal bewolkte koeler weer met reën oor hierdie kusstrook veroorsaak wat na die ooskus sal uitbrei. Elders is die sirkulasie ongunstig en dit sal hoofsaaklik gedeeltelik bewolk en matig wees.

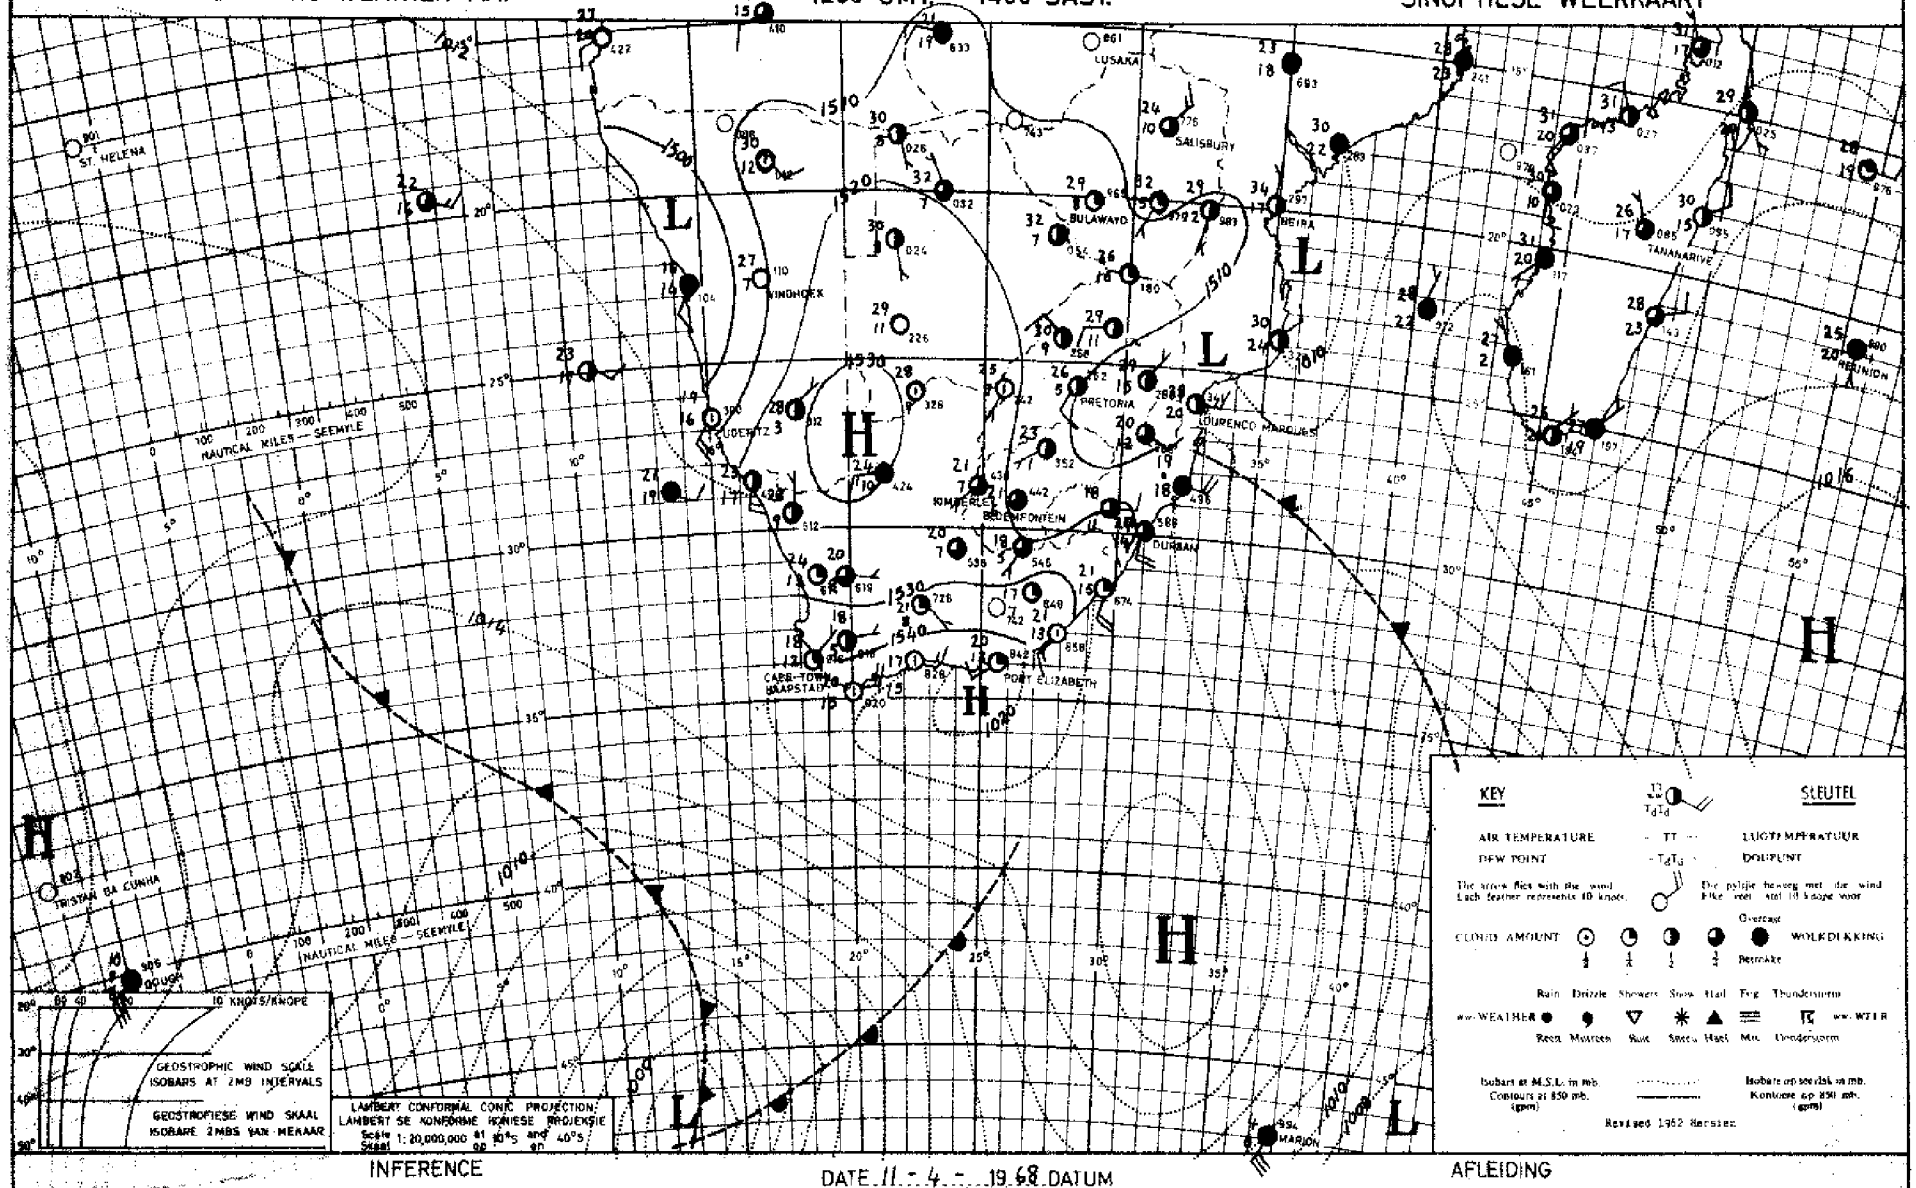
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 11 - 4 - 1968 DATUM AFLEIDING

Cool, moist air behind the cold front which is situated along the Zululand coast will spread over the eastern half of Transvaal where it will be cloudy and cooler. The cell of high pressure along the south coast is moving eastwards so that it will clear later over Natal as the winds become offshore.

Koel vogtige lug agter die koufront wat langs die Zoeloelandse kus geleë is sal na die oostelike helfte van Transvaal uitbrei waar dit bewolk en koeler sal wees. Die sel van hoë druk langs die suidkus beweeg ooswaarts sodat dit later oor Natal sal opklaar namate die winde van die kus af begin waai.

DAAGLIKSE WEERBULLETIN

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 0800 SAST op

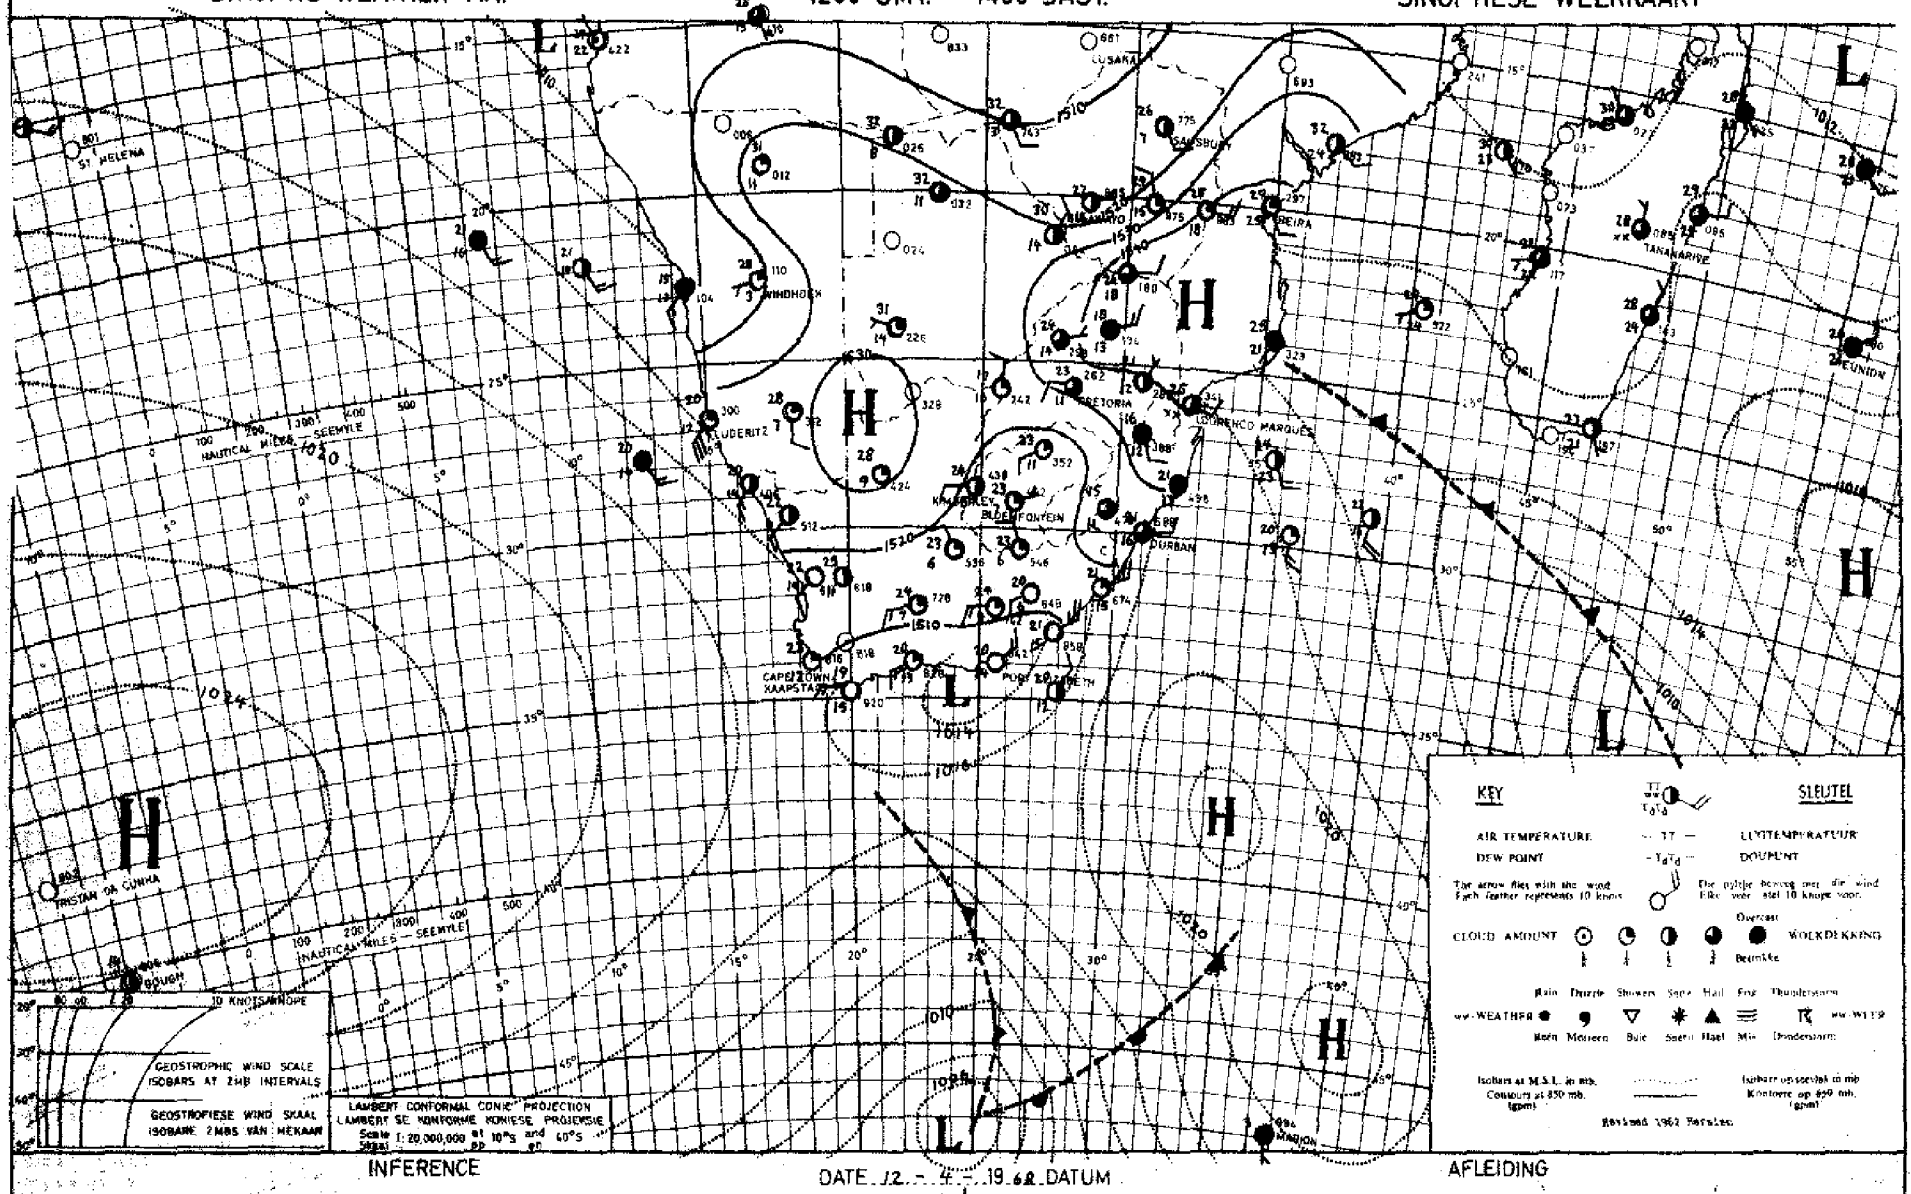
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE AFLEIDING

The high to the south-east of the country will cause cloudy conditions over northern Natal and eastern Transvaal, while the coastal low will cause cloudy weather on the south coast. Thundershowers are possible over southern Transvaal.

Die hoog suidoos van die land sal bewolkte weer oor Noord-Natal en Oos-Transvaal veroorsaak en die kuslaag sal bewolkte weer langs die suidkus veroorsaak. Donderbuie is moontlik oor Suid-Transvaal.

INFERENCE

DATE 13 - 4 - 1968 DATUM

AFLEIDING

The Atlantic high is ridging rapidly eastwards so that moist air will move in over the eastern areas where it will be cloudy and cool. With a low over the north-eastern areas thundershowers will occur overnight over the Highveld regions.

Die Atlantiese hoog beweeg vinnig oaswaarts sodat vogtige lug oor die oostelike gebiede sal inbeweeg waar dit bewolk en koel sal wees. Met 'n laag oor die noordoostelike streke sal donderbuie oornag oor die hoëveldgebiede voorkom.

INFERENCE

DATE 14 - 4 - 1968 DATUM

AFLEIDING

A low, both on the surface and in the upper air, is developing in the west and, with moist air moving south-westwards over the country, showers and thunder-showers will develop over the western and central areas.

'n Laag, aan die oppervlakte sowel as in die bolug, ontwikkel in die weste en met vogtige lug wat suidweswaarts oor die land uitbrei, sal buie en donderbuie oor die westelike en sentrale dele van die land ontwikkel.

INFERENCE

DATE 15 - 4 - 1968 DATUM

AFLEIDING

The high over the eastern areas is circulating cooler, moist air over most of the interior and, with a low in the upper air over the western parts thunder-showers will occur mainly over the central and eastern regions.

Die hoog oor die oostelike dele sirkuleer koeler, vogtige lug oor die meeste dele van die binneland en, met 'n laag in die bolug oor die westelike dele, sal donderbuie voorkom – hoofsaaklik oor die sentrale en oostelike gebiede.

INFERENCE

DATE 16 - 4 - 1968 DATUM

AFLEIDING

With moist air in circulation and an upper low over the interior scattered rain and showers will occur over southern Transvaal, the Free State, northern and north-eastern Cape, Natal interior and Botswana. It will clear from the south-west, but the coastal low will cause cloudy conditions with fog patches along the west and south coasts.

Met vogtige lug in sirkulasie en 'n boluglaag oor die binneland sal verspreide reën en buie voorkom oor die suidelike Transvaal, Vrystaat, Noord- en Noordoos-Kaapland, Natalse binneland en Botswana. Dit sal begin opklaar uit die suidweste maar die kuslaag sal bewolkte weer met miskolle langs die wes- en suidkus veroorsaak.

The Indian Ocean high continues to advect moist air over the eastern regions and, associated with low pressure areas over Botswana and the Eastern Cape there will be rain over the north-eastern sector of the country. Drier air moving in from the west is causing partial clearance over the central parts.

Die Indiese oseaanhoog voer nog steeds vogtige lug in oor die oostelike dele van die land en met laedrukgebiede oor Botswana en Oos-Kaapland sal toestande gunstig bly vir reën oor die noordoostelike sektor van die Republiek. Droë lug wat geleidelik van die weste af inbeweeg, sal gedeeltelike opklaring veroorsaak oor die sentrale dele.

INFERENCE

DATE 18 - 4 - 1968 DATUM

AFLEIDING

The circulation on the surface as well as in the upper air has become much more unfavourable and only the extreme north-eastern parts of the country can expect further rain. Elsewhere it will be fair to partly cloudy.

Die sirkulasie op die oppervlakte sowel as in die bolug het baie ongunstiger geword en slegs die verre noordoostelike dele van die land kan verdere reën verwag. Elders sal dit redelik mooiweer tot gedeeltelik bewolk wees.

DAAGLIKSE WEERBULLETIN

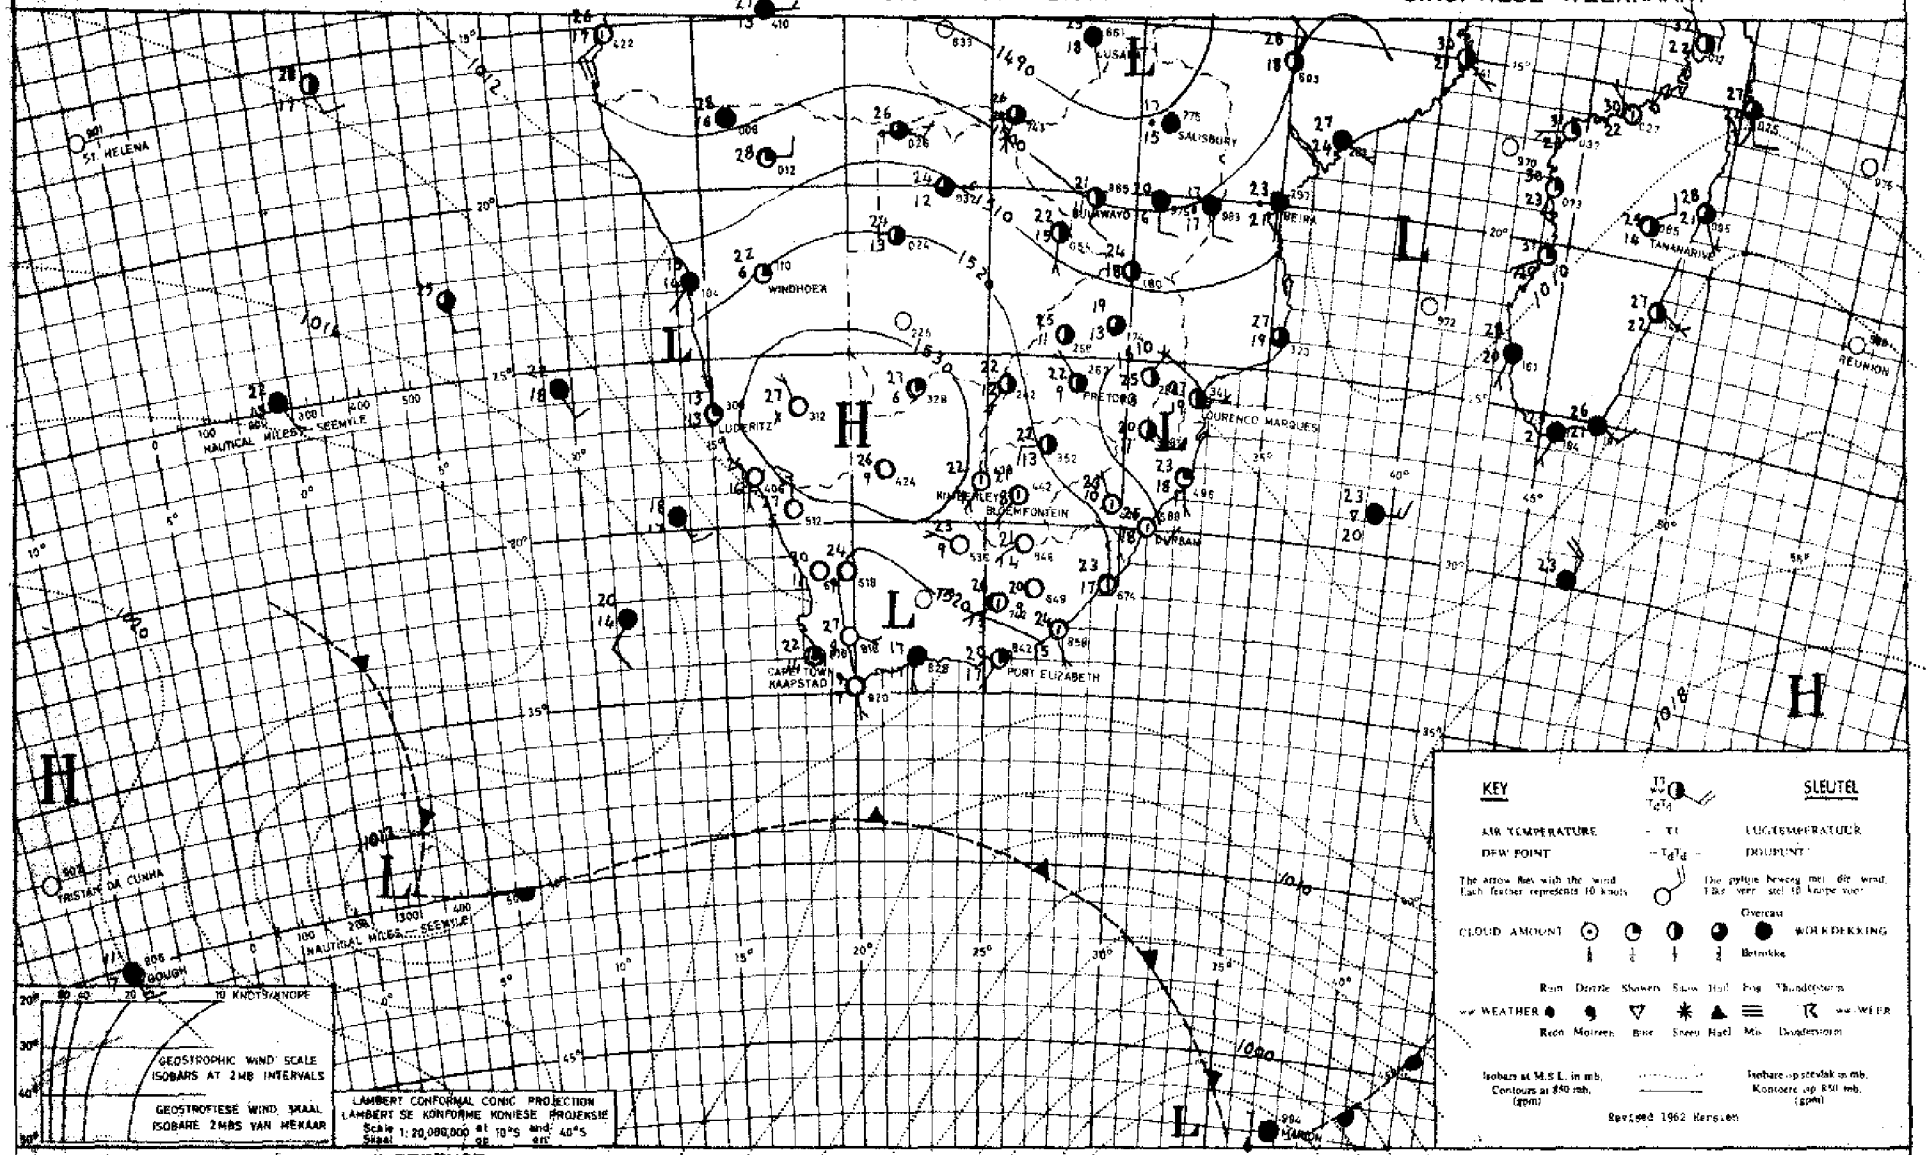
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 19 - 4 - 1968 DATUM AFLEIDING

The cold front to the west of Cape Town is moving eastwards and will cause cloudy, cool weather with rain along the south-western and southern Cape coasts. The circulation over the interior is anticyclonic and it will be fine and warm.

Die koufront wes van die Kaap beweeg ooswaarts en sal bewolkte koel weer met reën langs die suidwestelike en suidelike Kaapse kusstreke veroorsaak. Die sirkulasie oor die binneland is antisiklonaal en dit sal mooiweer en warm wees.

INFERENCE

DATE 20 - 4 - 19 68 DATUM

AFLEIDING

The cold front is moving rapidly northwards along the east coast and will cause cloudy cool weather with showers over these regions. Otherwise the circulation is anticyclonic and it will be mainly fair.

Die koufront beweeg vinnig noordwaarts langs die ooskus en sal bewolkte, koel weer met buie oor hierdie gebiede veroorsaak. Oorigens is die sirkulasie antisiklonaal en sal dit hoofsaaklik redelike mooi-weer wees.

INFERENCE

DATE 21 - 4 - 19 68 DATUM

AFLEIDING

Cloudy, cool weather will spread from Natal to the eastern and northern parts of the Transvaal while it will clear partially along the east coast. With a high over the remainder of the country it will be fair and mild.

Bewolkte koel weer sal vanaf Natal na die oostelike en noordelike dele van Transvaal uitbrei terwyl dit langs die ooskus gedeeltelik sal opklaar. Met 'n hoog oor die res van die land, sal dit redelik mooiweer en matig wees.

The onshore gradient along the Cape south coast will cause cloudy weather with rain over these coastal regions, but elsewhere the air is dry and it will be mainly fine and cool to mild.

Die aanslag van seelug langs die Kaapse suidkus sal bewolkte weer met reën oor hierdie kusstreke veroorsaak, maar elders is die lug droog en dit sal hoofsaaklik mooiweer en koel tot matig wees.

AFLEIDING
The high to the south-west of Cape Town is moving rapidly eastwards so that it will clear along the south coast. Meanwhile cooler weather behind the cold front is spreading over the eastern parts of the country.
Die hoog suidwes van Kaapstad beweeg vinnig ooswaarts sodat dit langs die suidkus sal opklaar. Intussen brei koeler lug agter die koufront oor die oostelike streke uit.

INFERENCE

DATE 24 - 4 - 1968 DATUM

AFLEIDING

The high to the south of the country will cause cloudy weather over the eastern parts, but it will clear from the south. Otherwise the circulation is anticyclonic and it will be mainly fine.

Die hoog suid van die land sal bewolkte weer oor die oostelike dele veroorsaak, maar dit sal uit die suide opklaar. Origens is die sirkulasie antisiklonaal en dit sal hoofsaaklik mooiweer wees.

INFERENCE

DATE 26 - 4 - 1968 DATUM

AFLEIDING

A trough over the central interior will cause showers over the Free State, western and southern Transvaal, the north-eastern Cape and the Natal interior, while the front will cause colder, cloudy weather with showers over the south-western and southern Cape Province.

'n Trog oor die sentrale binneland sal buie oor die Vrystaat, Wes- en Suid-Tranvaal, Noordoos-Kaapland en die Natalse binneland veroorsaak, terwyl die front koue, bewolkte weer met buie oor die suidwestelike en suidelike dele van Kaapland sal veroorsaak.

With an anticyclonic south-westerly circulation the weather over the interior will be fair and cool. Dry air behind the cold front, near Port Elizabeth will cause partial clearance along the south-western and southern coasts while partly cloudy conditions will spread to the east coast with a few showers overnight.

Met 'n antisiklonale suidwestelike sirkulasie sal dit oor die binneland hoofsaaklik mooiweer en koel wees. Droë lug agter die koue-front naby Port Elizabeth sal gedeeltelike opklaring langs die suidwestelike en suidelike kuste veroorsaak terwyl gedeeltelik bewolkte weer met enkele buie oornag na die ooskus sal uitbrei.

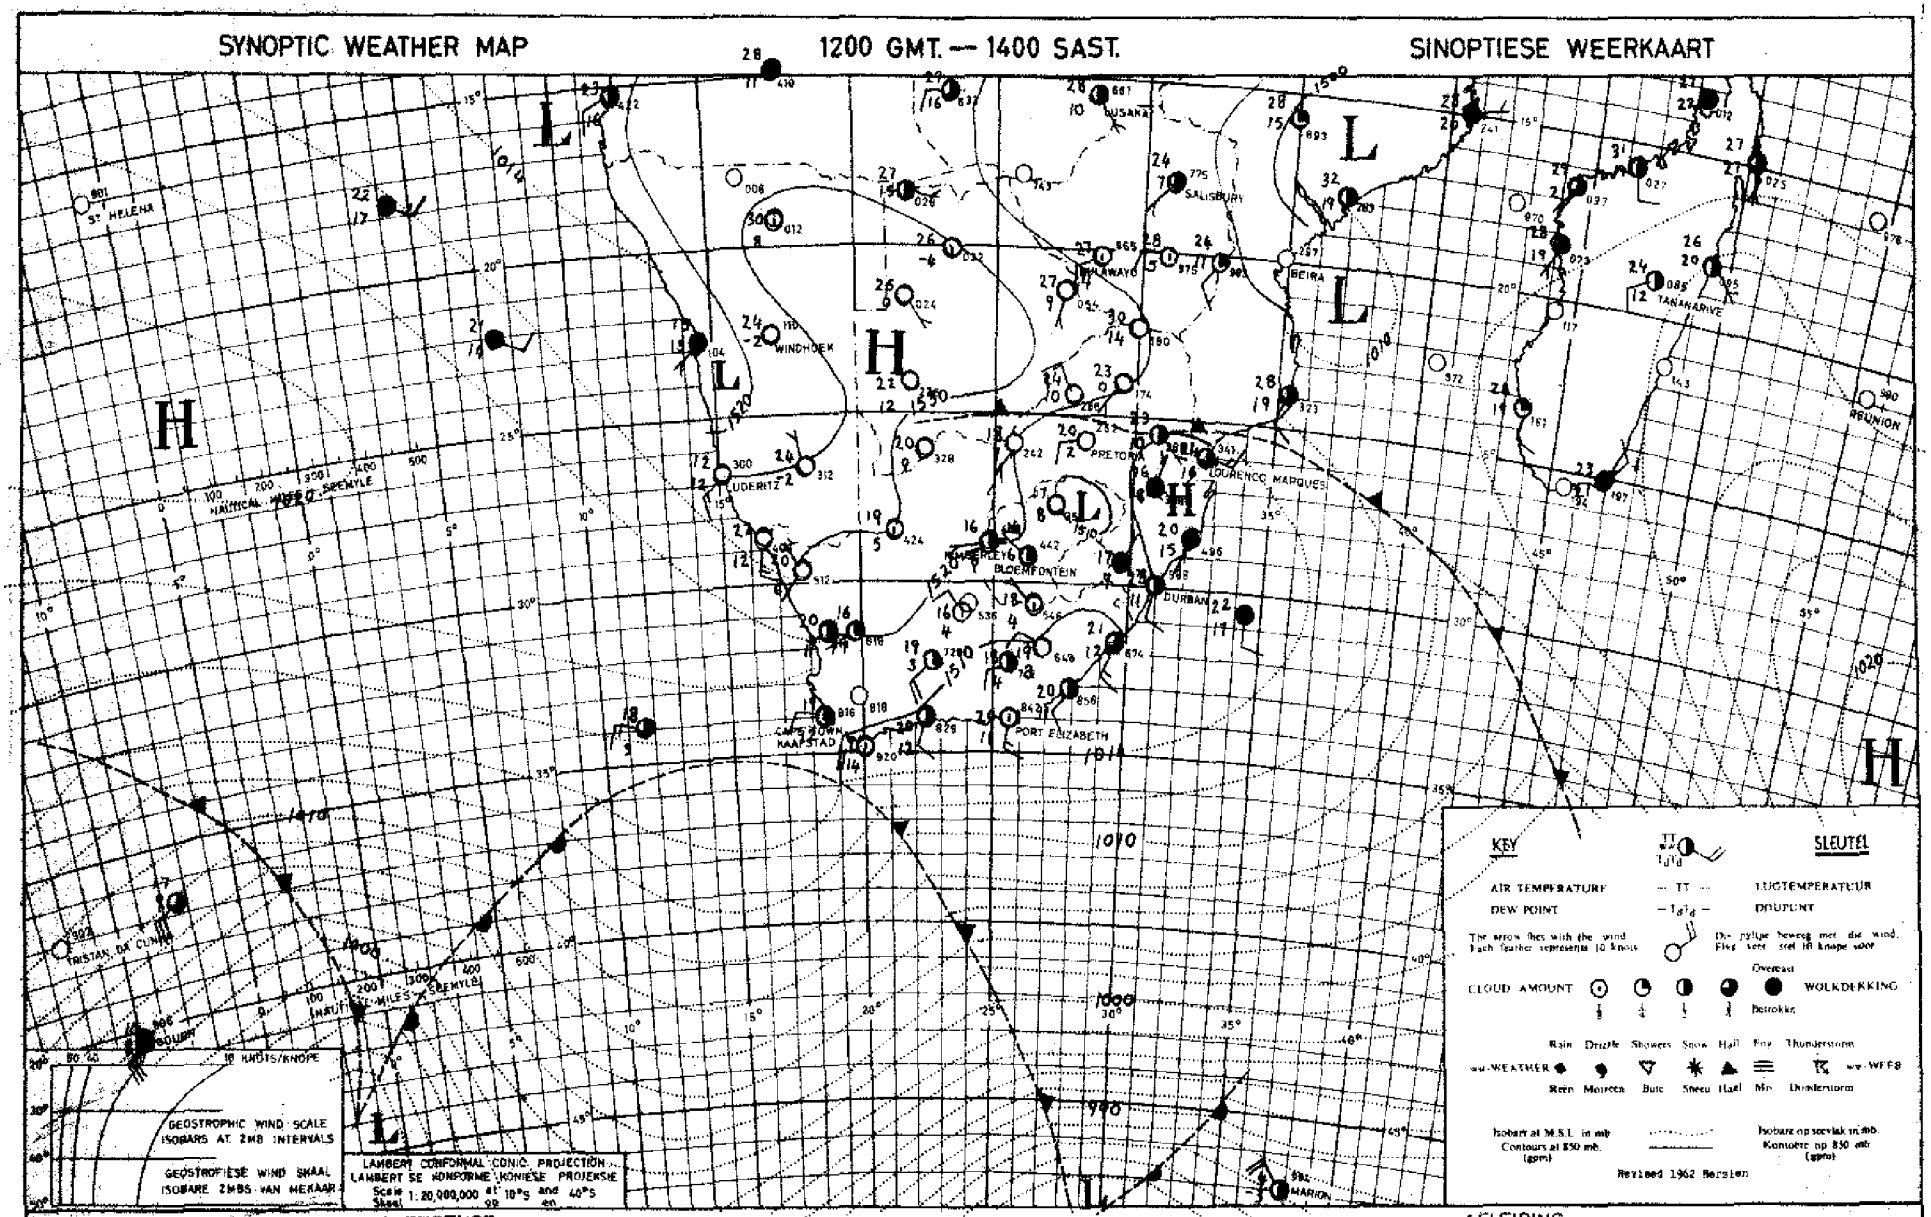
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 28 - 4 - 19 68 DATUM AFLEIDING

The circulation on the surface as well as in the upper air is anticyclonic. As a result it will be mainly fine to partly cloudy.

Die sirkulasie op die oppervlakte sowel as in die bolug is antisiklonaal. Gevolglik sal dit hoofsaaklik mooiweer tot gedeeltelik bewolk wees.

The cold front to the west of Cape Town will cause cloudy, cool weather with rain over the south-western Cape. With a high over the interior, the weather elsewhere will be fine or partly cloudy and warm.

Die kouefront wes van Kaapstad sal bewolkte koel weer met reën oor Suidwes-Kaapland veroorsaak. Met 'n hoog oor die binneland, sal dit elders mooiweer of gedeeltelik bewolk en warm wees.

The cold front moving over Cape Province will cause cooler weather to spread to the central interior. Cloudy weather with rain or showers will occur over the southern and south-western Cape.

Die koufront wat oor Kaapland beweeg, sal koeler weer laat uitbrei oor die sentrale dele van die land. Bewolkte weer met reën of buie sal oor Wes- en Suidwes-Kaapland voorkom.

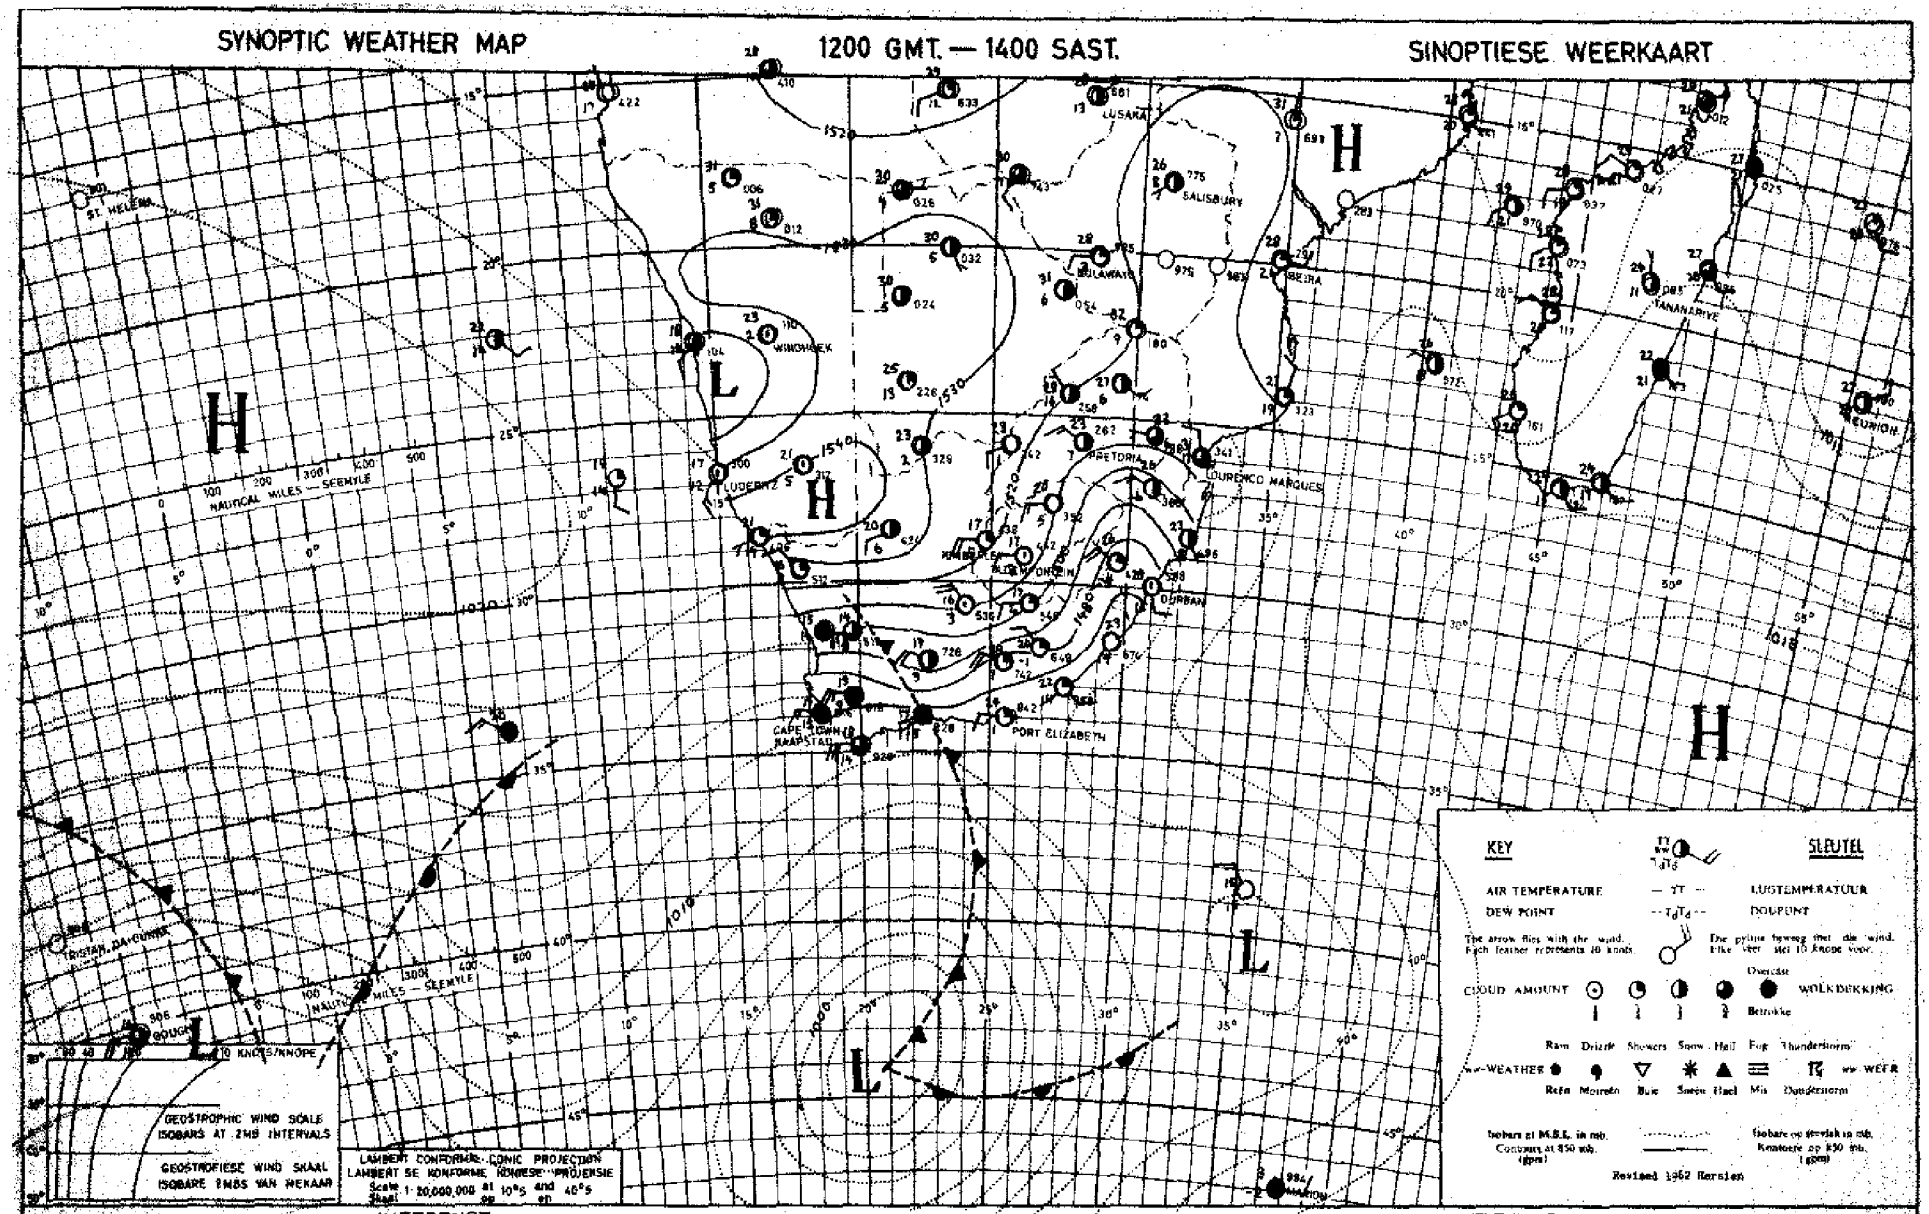
Stegi			



The series of eastwards moving fronts will maintain unsettled rainy conditions over the south-western Cape. Elsewhere the circulation is anticyclonic and the air is dry so that it will be fair and mild to warm.

Met die reeks fronte wat ooswaarts beweeg, sal ongestadige weer met reën oor Suidwes-Kaapland voortduur. Elders is die sirkulasie antisiklonaal en die lug is droog sodat dit hoofsaaklik mooiweer en matig tot warm sal wees.

INFERENCE

DATE 2 - 5 - 1968 DATUM

AFLEIDING

The front to the south-west of the Cape will cause cloudy, cool weather with showers along the south-western Cape coastal areas and adjacent interior. Over the remainder of the country it will be mainly fine and mild.

Die front suidwes van die Kaap sal bewolkte, koel weer met buie veroorsaak oor die Kaapse suidwestelike kuststreke en aangrensende binneland. Oor die res van die land sal dit hoofsaaklik mooiweer en matig wees.

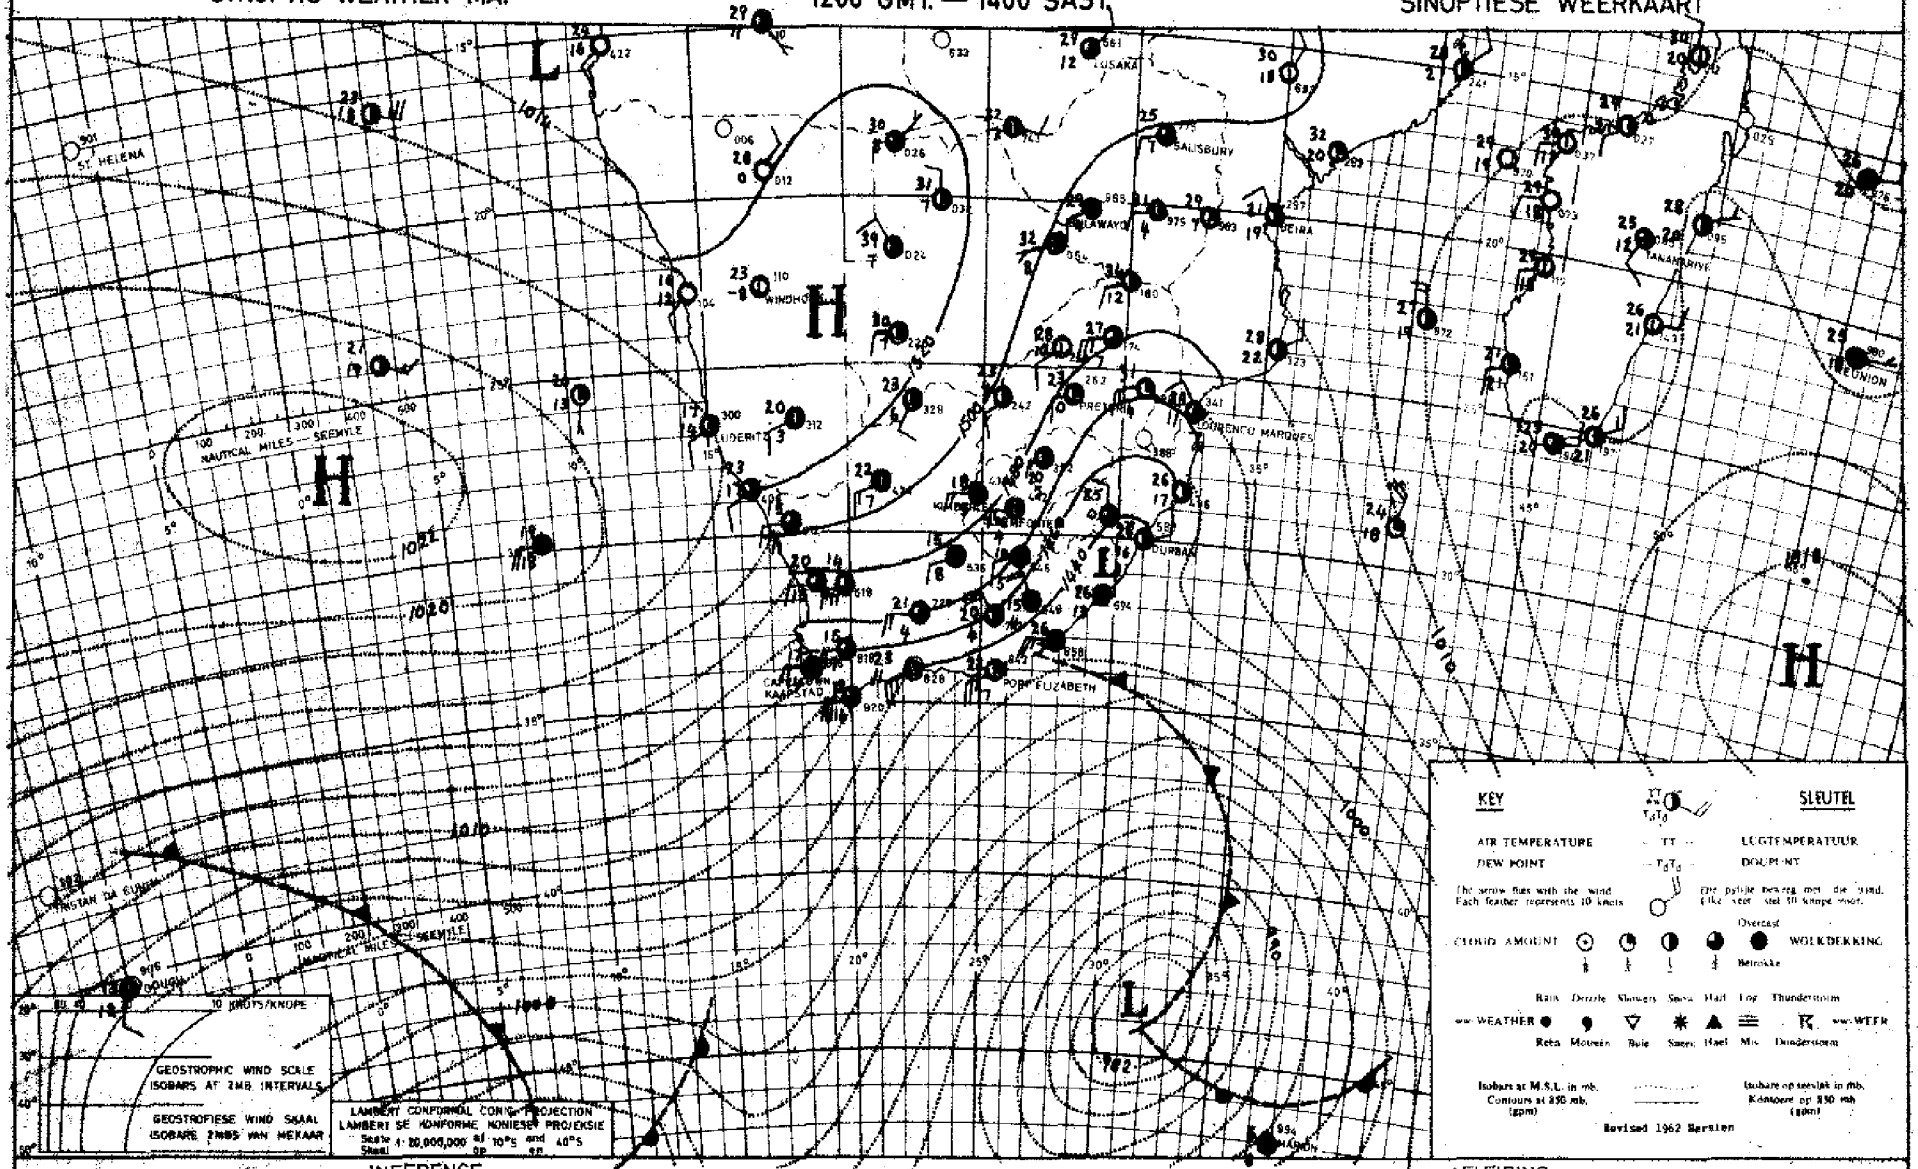
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST SINOPTIESE WEERKAART



INFERENCE:

DATE 3 - 5 - 1968 DATUM

AFLEIDING

Moist air behind the cold front will spread to the eastern Cape coast and over the adjacent interior where light rain will occur. Over the northern and central interior, where the air is dry, the weather will remain fair.

Vogtige lug agter die koufront sal na die Oos-Kaapse kus en oor die aangrensende binneland uitbrei waar ligte reën sal voorkom. Oor die noordelike en sentrale binneland waar die lug droog is, sal dit mooiweer bly.

DAAGLIKSE WEERBULLETIN

The moist westerly to south-westerly airflow south of the continent will maintain partly cloudy conditions along the south-western and southern coasts with light rain at places. Over the remainder of the country the circulation is anticyclonic and the weather will be fair.

Die vogtige westelike tot suidwestelike lugstroming suid van die vasteland sal gedeeltelike bewolkte toestande langs die suidwestelike en suidelike kusstreke met ligte reën plek-plek veroorsaak. Oor die res van die land is die sirkulasie antisiklonaal en dit sal mooiweer wees.

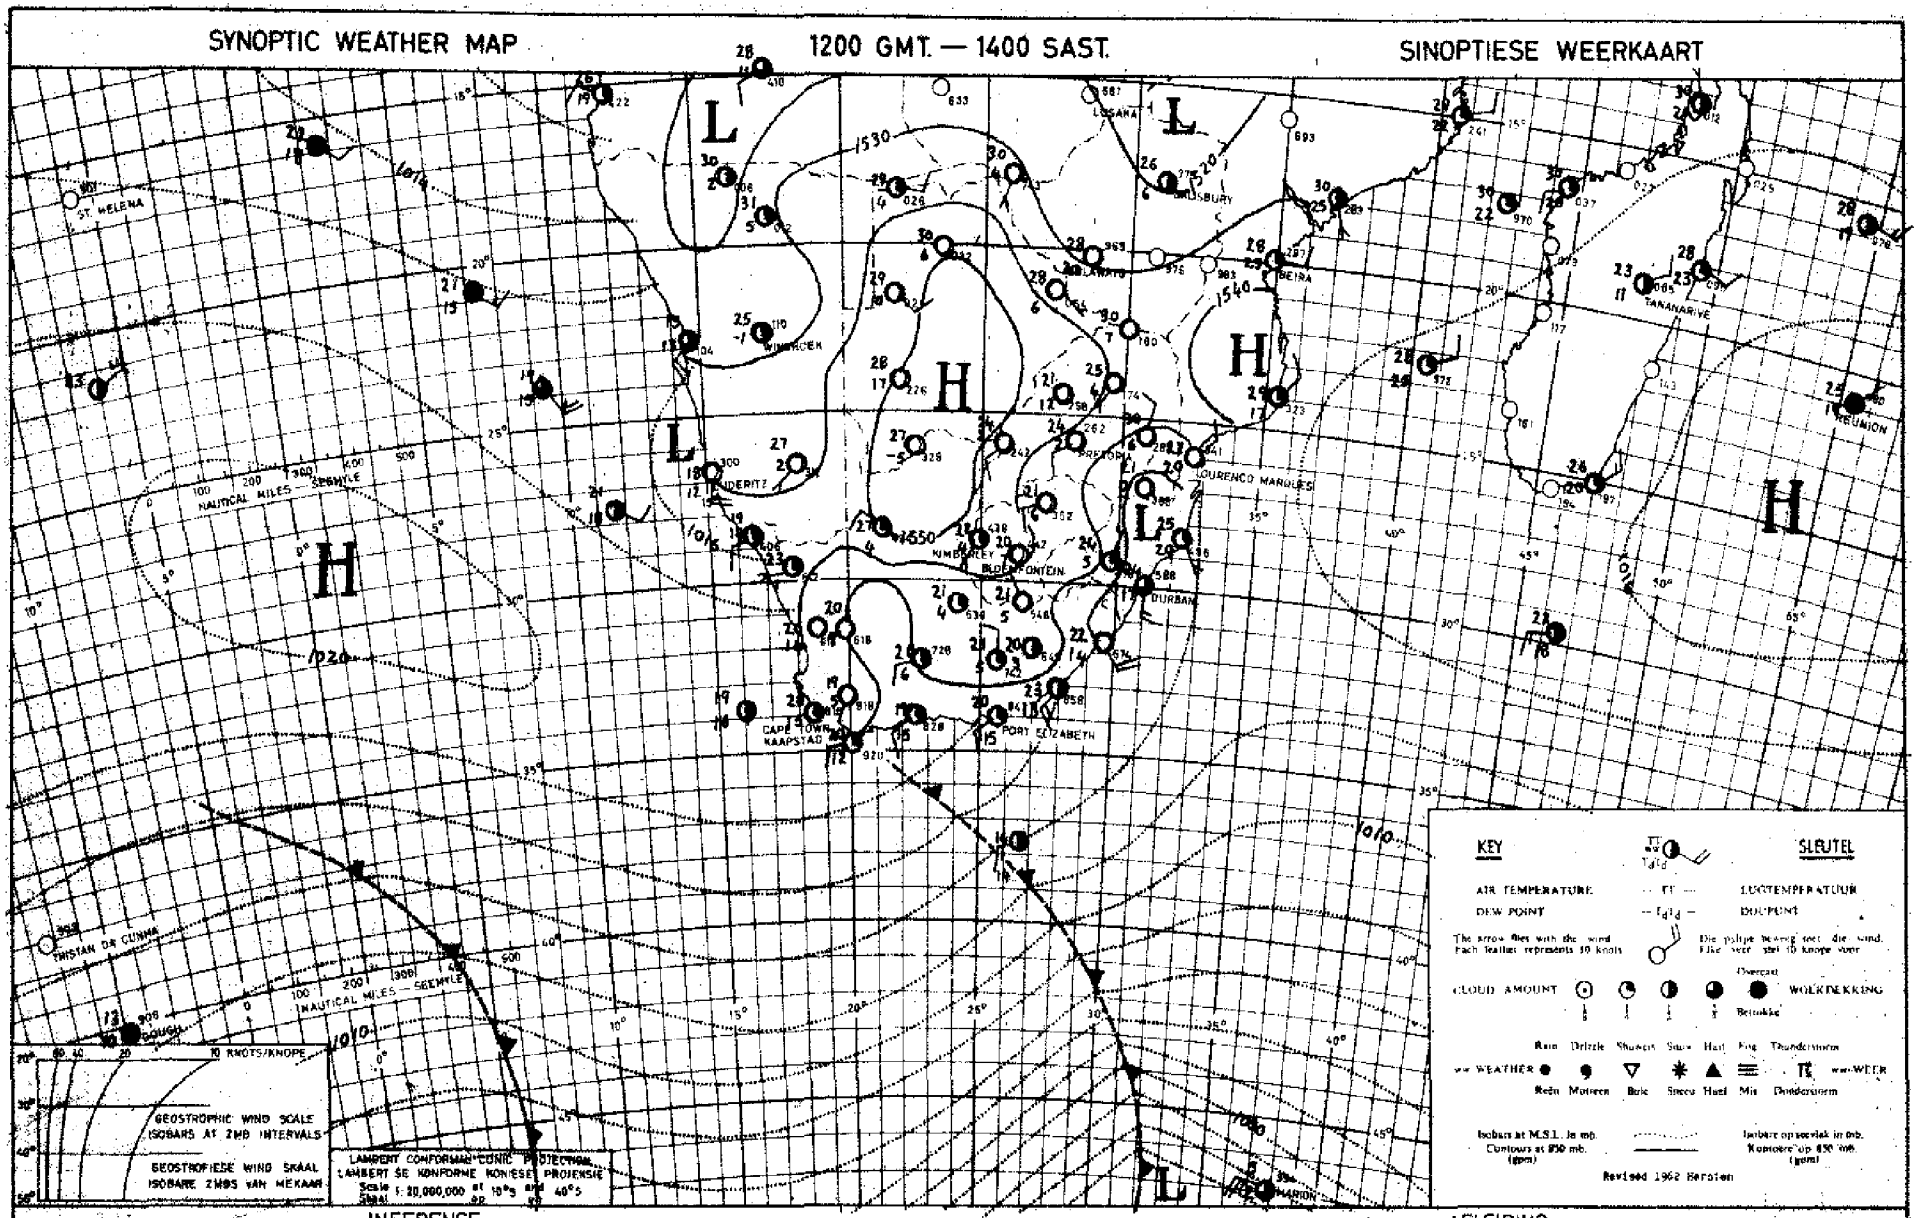
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 6 - 5 - 19 68 DATUM

AFLEIDING

The circulation over most of the country is anticyclonic and it will be mainly fine and mild to warm but cold in the mornings over the higher parts. With the front between Gough and the Cape it will become cloudy and cooler with light rain later tomorrow over the south-western Cape Province.

Die sirkulasie oor die land is antisiklonaal en dit sal hoofsaaklik mooiweer en matig tot warm wees maar koud in die oggend oor die hoër dele. Met die front tussen Gough en die Kaap sal dit later môre bewolk en koeler word met ligte reën oor Suidwes-Kaapland.

DATE 8 - 5 - 19 68 DATUM

AFLEIDING

With a low over the south-western interior and the advection of moist air from the north-west over the central parts, isolated thunder-showers are possible over the southern Orange Free State and Griqualand West.

Met 'n laag oor die suidwestelike binneland en die uitstroming van vogtige lug uit die noordweste oor die sentrale dele, is los donderbuie moontlik oor die suidelike Oranje-Vrystaat en Griekwaland-wes.

INFERENCE

DATE 9 - 5 - 19 68 DATUM

AFLEIDING

The front south-west of Cape Town will cause cooler cloudy weather along the southern Cape coastal areas and later also over the east coast. Moist unstable air is present over the central and northern parts of the country and it will cause thundershowers over these areas.

Die front suidwes van Kaapstad sal koeler bewolkte toestande langs die Kaapse suidkus veroorsaak wat ooswaarts sal uitbrei. Die vogtige onstabiele lug oor die sentrale en noordelike dele sal donderbuie oor dié dele veroorsaak.

The cold front moving over southern Cape Province will cause cloudy cold weather with showers oor the Cape coastal regions and adjacent interior, while the trough over the interior and the moist air in circulation will cause showers over the central interior.

Die kouefront wat oor Suid-Kaapland beweeg, sal Koue bewolkte weer met buie oor die Kaapse kusstreke en aangrensende binneland veroorsaak, terwyl die trog oor die binneland en die vogtige lug in sirkulasie buie ook oor die sentrale binneland sal laat voorkom.

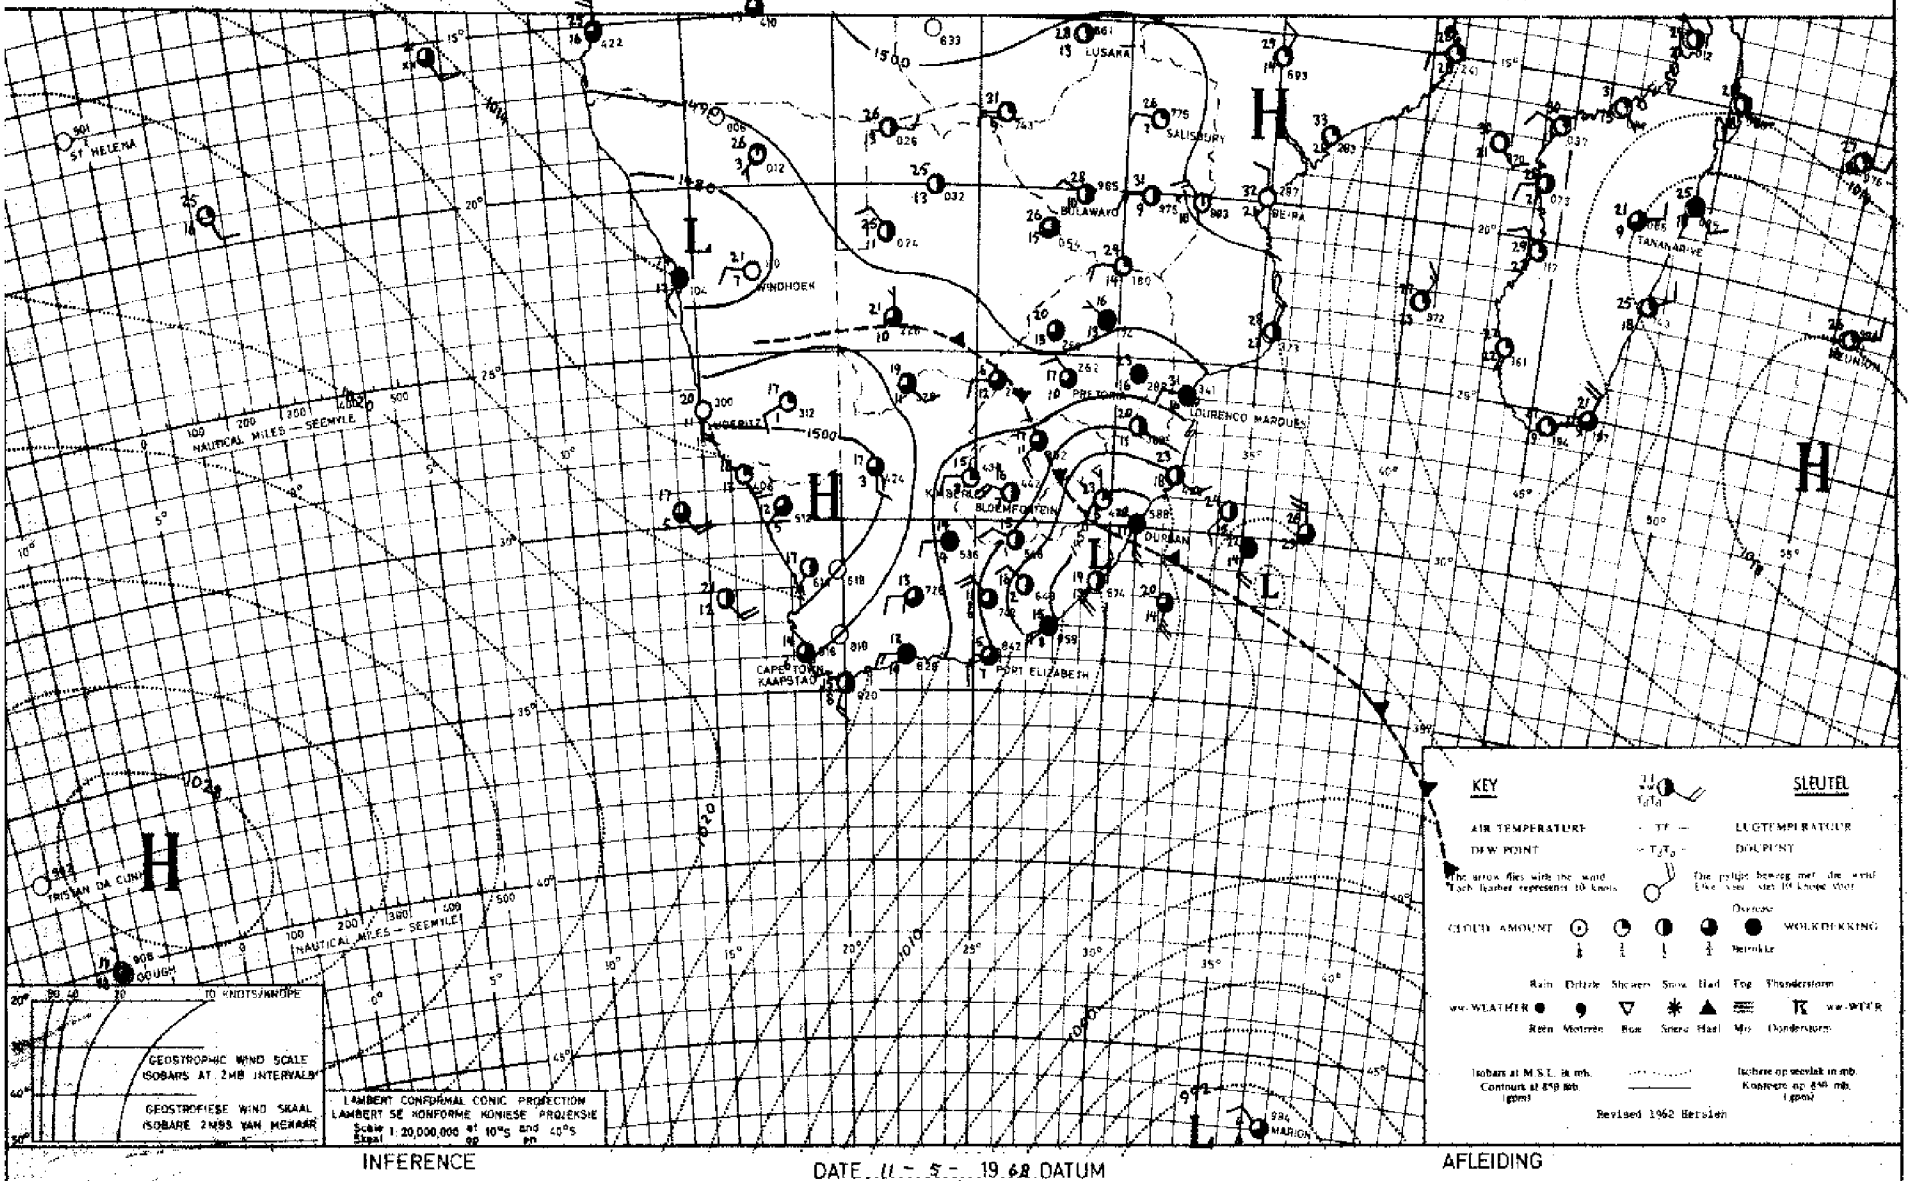
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 11 – 5 – 1968 DATUM — AFLEIDING

With strong rises in pressure over the southern coastal areas, cold cloudy weather will spread over the southern and eastern areas as well as south-eastern Transvaal with rain or showers at places. Over the remainder of the country it will be mainly partly cloudy and cold.

Met sterk drukstygings oor die suidkus sal koue bewolkte weer oor die suide- like en oostelike dele asook Suidoos-Transvaal uitbrei met reën of buie op plekke. Oor die res van die land sal dit hoofsaaklik gedeeltelik bewolk en koud wees.

INFERENCE

DATE 13.5.68 DATUM

AFLEIDING

Cold air has spread over most of the Republic and will advance further over Northern Transvaal. As the high ridges in along the east coast, cloudy weather with rain will develop over Natal, Transvaal and the northern Free State.

Koue lug het reeds oor die grootste gedeelte van die Republiek uitgebrei en sal nog verder oor Noord-Transvaal beweeg. Namate die hoog om die ooskus instoot, sal bewolkte toestande met reën oor Natal, Transvaal en Noord-Vrystaat uitbrei.

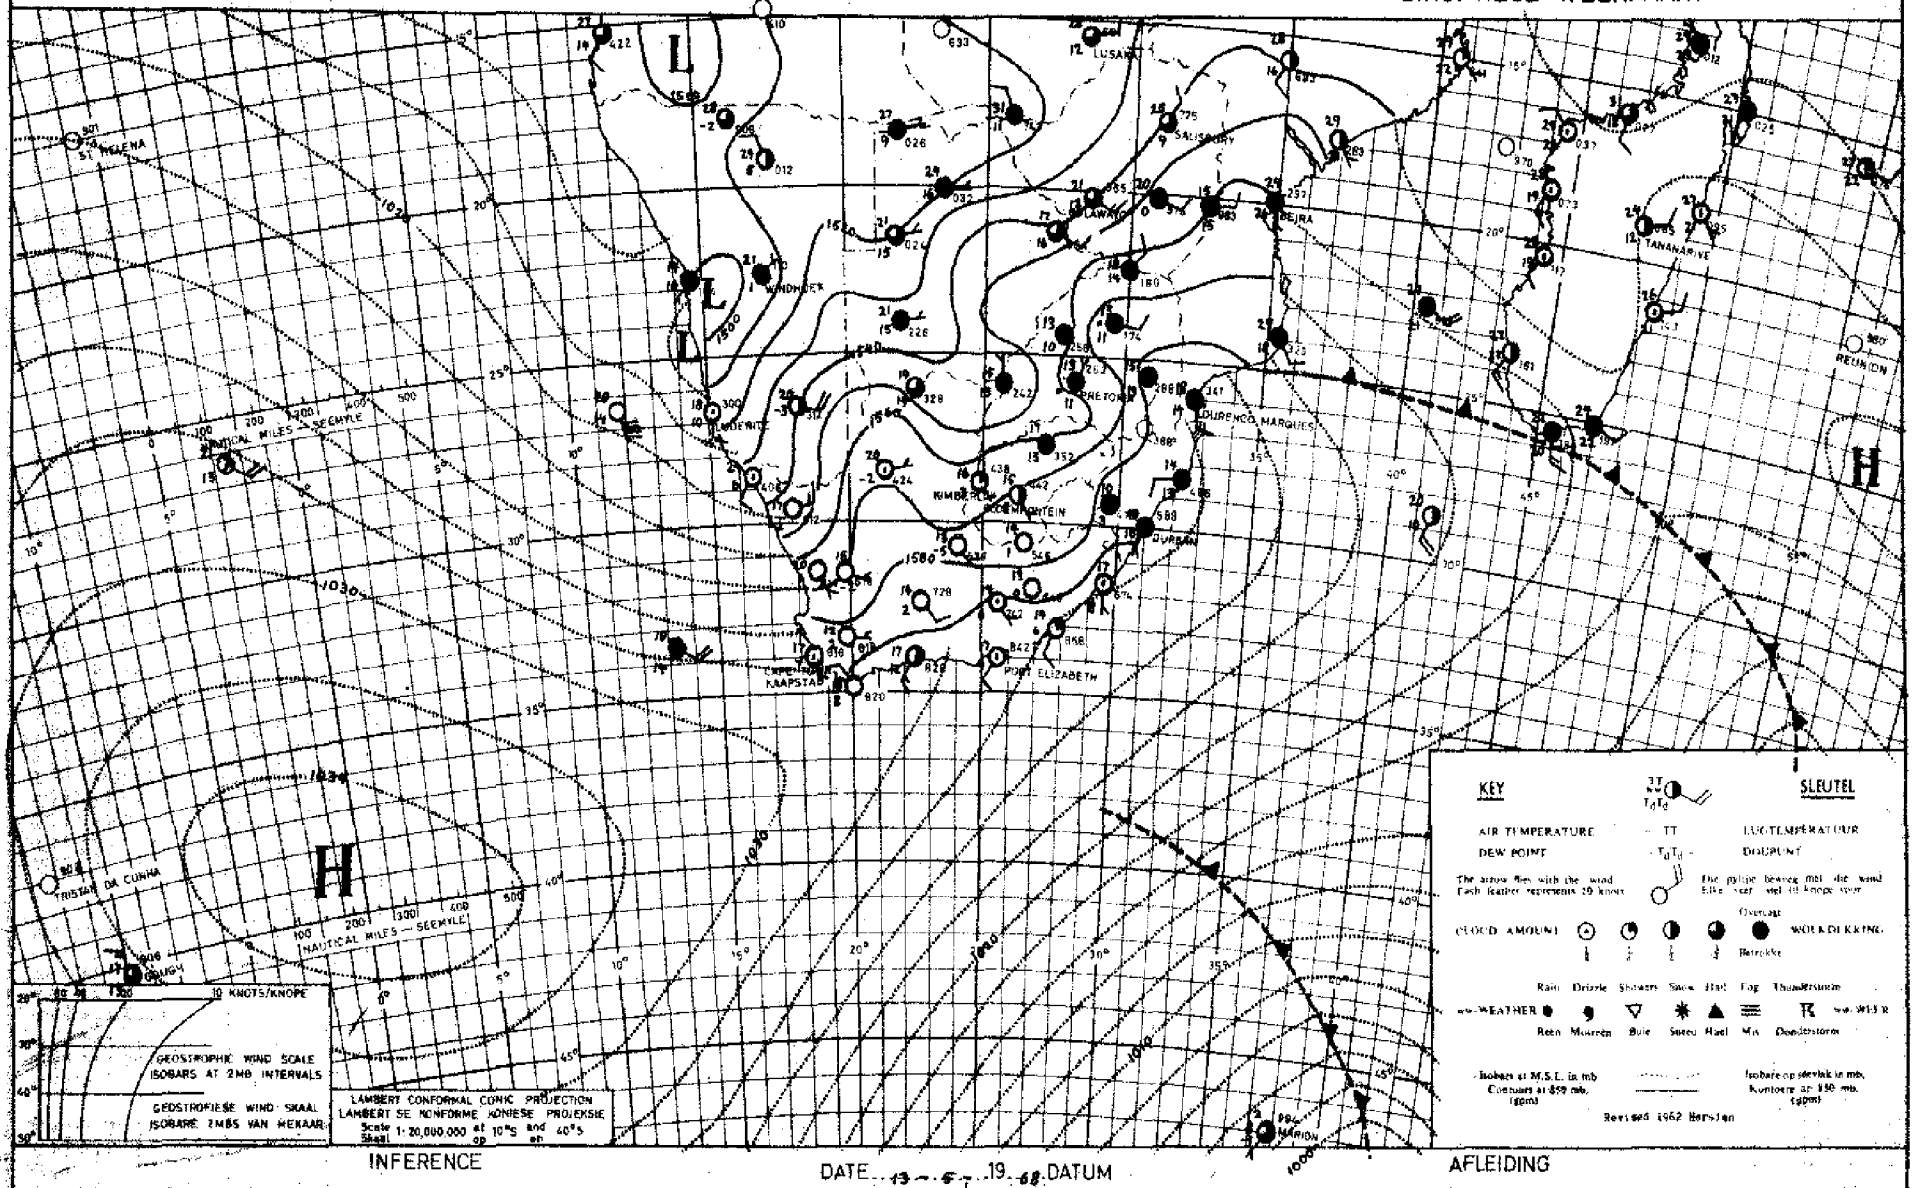
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 13 — 6 — 19 68 DATUM AFLEIDING

The Atlantic high will cause a flow of moist air over the eastern and south-eastern parts of the country with cloudy weather and rain. A low pressure system in the upper air will cause cloudy weather with showers over the eastern parts of S.W.A. Otherwise it will be fair and cool.

Die Atlantiese hoëdrukstelsel sal 'n vloei van vogtige lug oor die oostelike en suidoostelike dele van die land veroorsaak wat bewolkte weer met reën oor hierdie dele sal meebring. 'n Laedrukstelsel in die bolug sal bewolkte weer met buie oor die oostelike dele van S.W.A. veroorsaak. Oor die res van die land sal dit redelike mooiweer en koel wees.

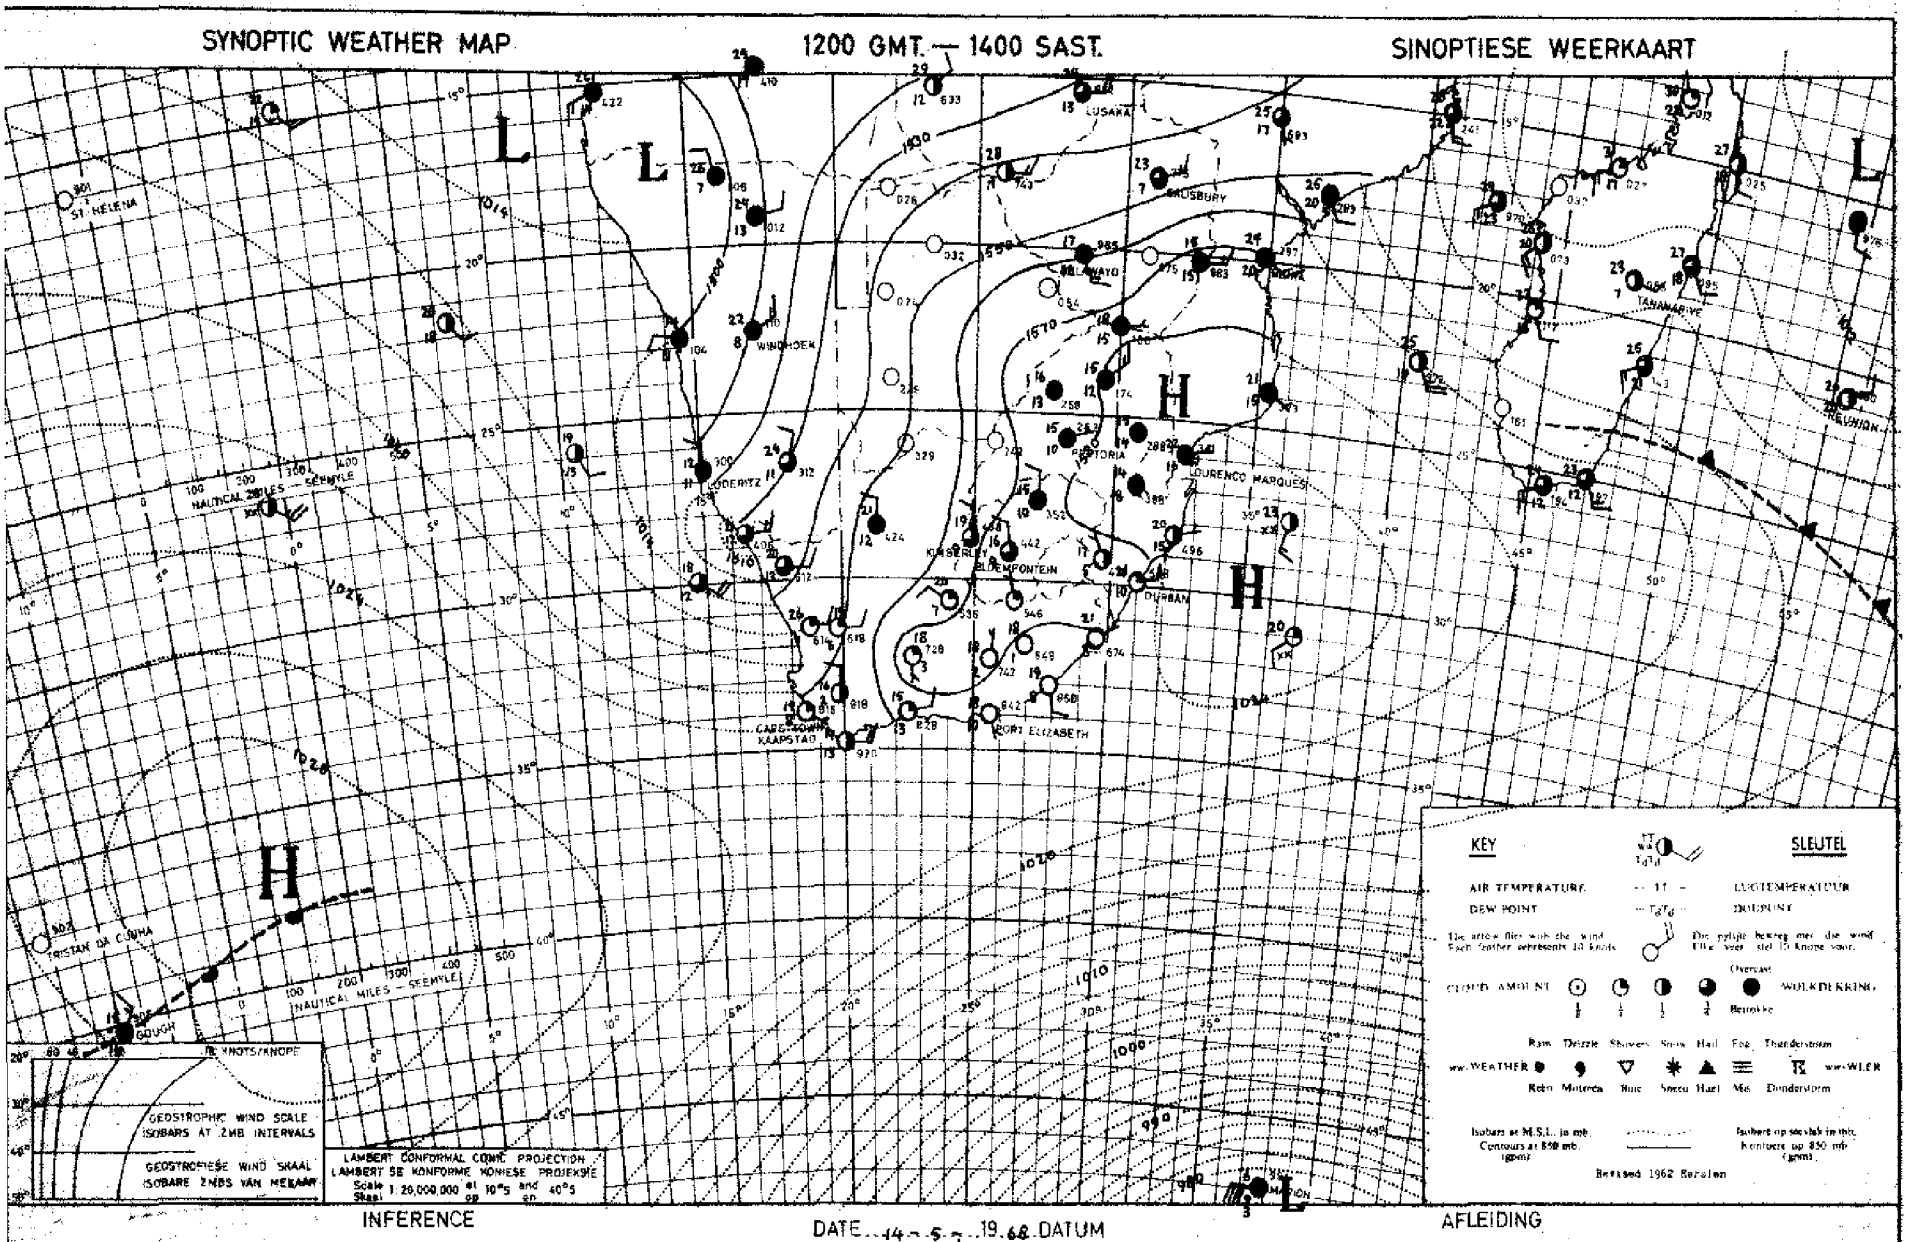
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 14-5-19.68 DATUM AFLEIDING

With the surface trough and upper air low over S.W.A., and moist air in circulation, scattered showers and thundershowers will occur over the western parts of the country. Cool moist air is still being fed in over the Transvaal where it will be cloudy with light rain along the escarpment.

Met 'n oppervlaktetrog en boluglaag oor S.W.A., en vogtige lug in sirkulasie, sal verspreide buie en donderbuie oor die westelike dele van die land voorkom. Koel vogtige lug vanaf die ooste word ook nog oor Transvaal ingevoer waar dit bewolk sal wees met ligte reën oor die plateurand.

INFERENCE

DATE 15 - 5 - 19 68 DATUM

AFLEIDING

With moist air in circulation and a low in the upper air, fairly general rain and showers will occur over the western and southern parts of the country and scattered showers over the remaining areas.

Met vogtige lug in sirkulasie en 'n laag in die bolug sal taamlik algemene reën en buie oor die westelike en suidelike dele van die land voorkom en verspreide buie oor die oorblywende dele.

INFERENCE

DATE 16 - 5 - 19 68 DATUM

AFLEIDING

The upper air low over Western Cape is beginning to move south-eastwards and the weather will clear from the west over S.W.A., Botswana and the western parts of the Republic. Over the eastern areas it will, however, remain cloudy and cool with further rain and thundershowers.

Die boluglaag oor Wes-Kaapland begin suidooswaarts beweeg en die weer sal van die weste af opklaar oor S.W.A., Botswana en die westelike dele van die Republiek. Oor die oostelike gebiede sal dit egter nog bewolk en koel bly met verdere reën en donderbuie.

INFERENCE

DATE 17 - 5 - 1968 DATUM

AFLEIDING

With the trough rapidly moving eastwards it will clear over the interior but onshore winds will cause cloudy, cold weather with rain or showers over the coastal areas and adjacent interior, excepting the west coast.

Met die trog wat vinnig ooswarts beweeg sal dit opklaar oor die binneland maar met sterk suidwestewind oor die kusgebiede sal dit bewolk en koud wees met reën of buie behalwe oor die westelike kusgebied.

With the high over the interior, and the air relatively dry, it will be fine over most of the country but cold overnight. The cloudy weather along the southern coastal belt will also clear as the trough south of the country moves away.

Met die hoog oor die binneland, en die lug betreklik droog, sal dit mooiweer wees oor die meeste dele maar koud oornag. Die bewolkte weer oor die suidelike kusstreke sal ook opklaar namate die trog suid van die land weg beweeg.

INFERENCE

DATE 20 - 5 - 19 68 DATUM

AFLEIDING

The high south of the continent causes an inflow of moist air over Eastern Transvaal where it will be partly cloudy. Over the remainder of the country the weather will remain fair as a result of the high in the upper air.

Die hoog suid van die land veroorsaak 'n invloei van vogtige lug oor Oos-Transvaal waar dit dus gedeeltelik bewolk sal wees. Oor die res van die land sal dit redelik mooiweer bly as gevolg van die hoog in die bolug.

INFERENCE

DATE 21 - 5 - 1968 DATUM

AFLEIDING

The circulation over the interior is anticyclonic. Fairly moist air is, however, present so that the weather will be mainly partly cloudy and mild. The low along the west coast will cause cloudy weather over this area.

Die sirkulasie over die binneland is antisiklonaal. Taamlik vogtige lug is egter teenwoordig sodat dit hoofsaaklik gedeeltelik bewolk en matig sal wees. Die laag langs die weskus sal bewolkte weer oor hierdie gebied veroorsaak.

The low north-west of Cape Town will slowly move southwards and cause cloudy weather over the western Cape coast. Over the rest of the country the air is fairly moist and partly cloudy conditions will prevail.

Die laag noordwes van Kaapstad sal geleidelik suidwaarts beweeg en bewolkte toestande teweegbring oor die Kaapse weskus. Oor die res van die land is die lug ook betreklik vogtig en sal dit gedeeltelik bewolk wees.

INFERENCE

DATE 23 - 5 19 68 DATUM

AFLEIDING

The low off the south-west coast will cause cloudy weather with rain or showers over south-western Cape. A low is also developing in the upper air and therefore isolated showers will occur later over S.W.A. and the western Cape interior.

Die laag langs die suidweskus sal bewolkte weer met reën of buie oor Suidwes-Kaapland veroorsaak. 'n Laag is ook besig om in die bolug te ontwikkel en dus sal los buie oor S.W.A. en die westelike Kaapse binneland later voorkom.

The strong high centred to the south - east of the country is causing moist air from the north - east to flow in over most regions of the interior where it will be mainly cloudy and mild.

Die sterk hoog, met sentrum suidoos van die land, veroorsaak dat vogtige lug vanuit die noordooste oor die meeste dele van die binneland beweeg waar dit hoofsaaklik bewolk en matig sal wees.

DATE 26-5-1962 DATUM

AFLEIDING

The cold front approaching the Cape will cause cloudy weather with rain later along the south coast. The high to the south-east of the country is still feeding in moist air and it will be partly cloudy over the northern parts of the Republic.

Die koufront wat die Kaap nader, sal later bewolkte weer met reën langs die suidkus veroorsaak. Die hoog suidoos van die land voer nog vogtige lug in en dit sal gedeeltelik bewolk wees oor die noordelike dele van die Republiek.

INFERENCE

DATE ...26 - 5 - 19 68 DATUM

AFLEIDING

The Indian Ocean high continues to advect moist air over the country where it will remain partly cloudy to cloudy and cool. The cold front near Cape Town is moving south-eastwards and will cause light showers over the South-Western Cape.

Die hoog oor die Indiese Oseaan voer vogtige lug oor die land in sodat dit bewolk tot gedeeltelik bewolk en koel sal bly. Die koue-front naby Kaapstad beweeg suidooswaarts en sal ligte buie oor Suidwes-Kaapland veroorsaak.

INFERENCE

DATE 27 - 5 - 19 68 DATUM

AFLEIDING

The air over the country is fairly moist but with an anticyclonic circulation only partly cloudy conditions will prevail. The cold front west of Cape Town will pass to the south of the country.

Die lug oor die land is betreklik vogtig maar die sirkulasie is stork antisiklonaal sodat slegs gedeeltelik bewolkte weer oor die binneland sal voorkom. Die kouefront wes van Kaapstad sal suid van die land verby beweeg.

The circulation is moist but anticyclonic and it will be mainly fine or partly cloudy over most of the country. The trough over the western regions may cause light showers over the western interior.

Die sirkulasie is vogtig maar antisiklonaal en dit sal hoofsaaklik mooiweer of gedeeltelik bewolk en matig wees oor die meeste dele van die land. Die trog oor die westelike dele sal moontlik ligte buie oor die westelike binneland veroorsaak.

INFERENCE

DATE 29 - 5 - 19 66 DATUM

AFLEIDING

The low along the south coast will cause cloudy to partly cloudy conditions over this region. The surface trough over Western Cape will cause isolated light thundershowers over the Cape interior but elsewhere over the country it will be fair.

Die laag langs die suidkus sal bewolkte tot gedeeltelik bewolkte weer oor hierdie gebied veroorsaak. Die oppervlaktetrog oor Wes-Kaapland sal enkele ligte donderbuie oor die Kaapse binneland veroorsaak maar elders oor die land sal dit redelike mooiweer wees.

INFERENCE

The circulation is anticyclonic over the interior and mainly fine weather can be expected. However with the weak trough over the western parts expected to move eastwards and fairly moist air still present over the south - eastern parts a few thundershowers can be expected over these parts.

AFLEIDING

Die sirkulasie oor die binneland is antisiklonaal en mooiweertoestande sal oor die meeste dele voorkom maar met die trog oor die westelike dele wat ooswaarts beweeg en vogtige lug oor die suidoostelike dele van die land sal enkele donderbuie voorkom oor hierdie dele.

INFERENCE

DATE 31 - 5 - 1968 DATUM

AFLEIDING

The cold front off the Cape will cause cloudy cooler conditions over the southern and south-western Cape with light rain or showers. Otherwise it will be mainly fair and mild but cold air will later advance also over the interior.

Die kouefront naby die Kaap sal bewolkte koeler toestande met ligte reën of buie oor die Kaapse suidelike en suidwestelike dele veroorsaak. Andersins sal dit hoofsaaklik redelike mooiweer en matig wees maar koue lug sal later ook oor die binneland uitbrei.

DATE ../../6.../...19.68.DATUM

AFLEIDING

With the cold front passing over the country and the high ridging in strongly cold cloudy weather with rain or showers will spread over the southern and eastern interior. Snow can be expected over the higher ground of the southern and eastern parts.

Met die koufront wat oor die land beweeg en die hoog wat sterk instoot sal koue bewolkte weer met reën of buie uitbrei oor die suidelike en oostelike dele maar dit sal opklaar oor die westelike en sentrale binneland. Sneeu kan verwag word oor die hoër liggende dele van die suidelike en oostelike binneland.

The high pressure system south of the continent is moving eastwards so that the winds along the east coast will become offshore and the weather will clear along the Natal coast and later over the Eastern Transvaal. Over the western regions the winds are easterly and warm bergwinds will occur along the Atlantic coast.

Die hoëdrukstelsel suid van die vasteland beweeg ooswaarts sodat die winde langs die ooskus van die land af sal begin waai en dit sal langs die Natalse kus en later oor Oos-Transvaal opklaar. Oor die westelike gebiede is die winde ook landaf en warm bergwinde sal langs die Atlantiese kus voorkom.

INFERENCE

DATE 4.6.19.68 DATUM

AFLEIDING

With the cold front approaching the Cape cold cloudy weather with rain will spread over the south-western Cape. The circulation over the interior is strongly anticyclonic and mainly fine weather can be expected.

Die front net wes van die Kaap sal bewolkte weer met reën veroorsaak oor die suidwestelike dele van Kaapland. Oor die binneland is die sirkulasie sterk antisiklonaal en hoofsaaklik mooi-weersfoestande kan verwag word.

INFERENCE

DATE 5.-.6.-.19.68 DATUM

AFLEIDING

The high over the interior has weakened but the circulation over the country is anticyclonic and the weather will be fair or partly cloudy and cold over the interior but with a low over the Atlantic it will become cloudy with rain over Cape Peninsula and south-western Cape interior.

Die hoog oor die binneland het verswak maar die sirkulasie oor die land is antisiklonaal en dit sal mooiweer of gedeeltelik bewolk bly en koud wees oor die binneland maar met die laag oor die Atlantiese Oseaan sal dit bewolk word met reën oor die Kaapse Skiereiland en die Suidwes-Kaapse binneland.

INFERENCE

DATE 9 . 6 . 1968 DATUM

AFLEIDING

The cold front over the country is moving eastwards with the result that cold weather will spread to the eastern parts. Dry air moving in from the west will cause clearance over the Cape and Free State but it will remain cloudy over the Cape Peninsula with further rain.

Die koue front oor die land beweeg oosweerts met die gevolg dat koue weer ook na die oostelike dele sal uitbrei. Droë lug wat vanuit die weste inbeweeg sal opklaring oor Kaapland en die Vrystaat veroorsaak. Dit sal egter bewolk bly oor die Kaapse Skiereiland met verdere buie.

INFERENCE

DATE 9 - 6 - 1968 DATUM

AFLEIDING

The cold front approaching the Cape will cause cloudy cold weather with rain over the south-western Cape and later also the southern coastal areas. With the circulation anticyclonic over the interior mainly fine weather can be expected.

Die naderende koufront sal bewolkte koue weer met reën veroorsaak oor Suidwes-Kaapland en later ook oor die suidelike kusstreke. Met antisiklonale sirkulasie oor die binneland kan hoofsaaklik mooiweerstoestande verwag word.

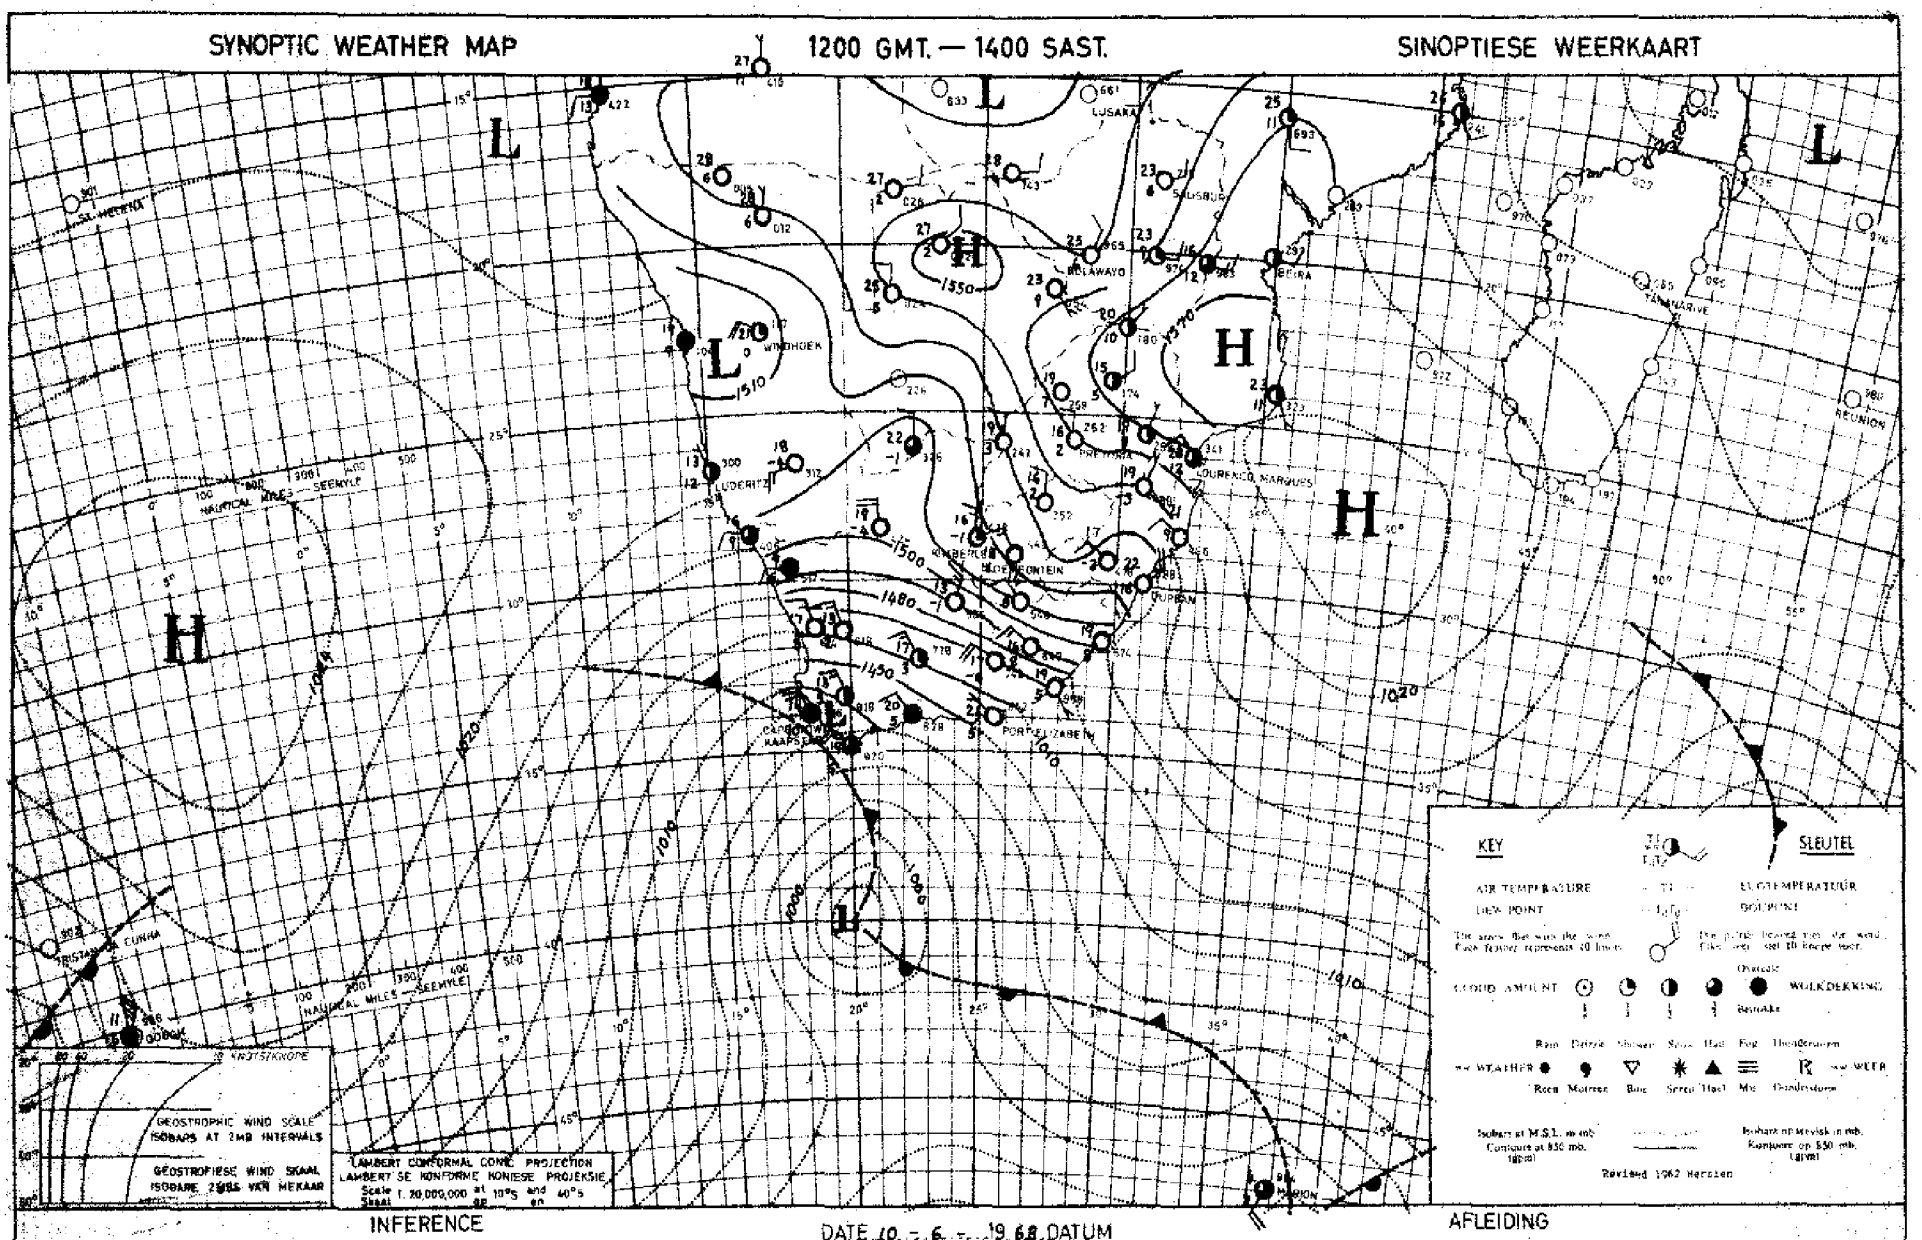
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE — DATE 10. - 6. - 19 68 DATUM — AFLEIDING

The cold front south of the Cape will move eastwards and cloudy, cold weather will spread along the Cape south and south-east coasts and into the southern Cape interior with showers and snowfalls on the mountains in the south. Over the remainder of the country it will be fine to partly cloudy and mild but cold over Northern and North-western Cape and the Free State.

Die koufront suid van die Kaap sal ooswaarts beweeg en koue, bewolkte weer sal langs die Kaapse suid- en suidooskus uitbrei en ook oor die suidelike Kaapse binneland met buie en sneeu op die berge in die Suide. Oor die res van die land sal dit mooiweer tot gedeeltelik bewolk en matig wees maar koud oor die Noord- en Noordwes-Kaapland en die Vrystaat.

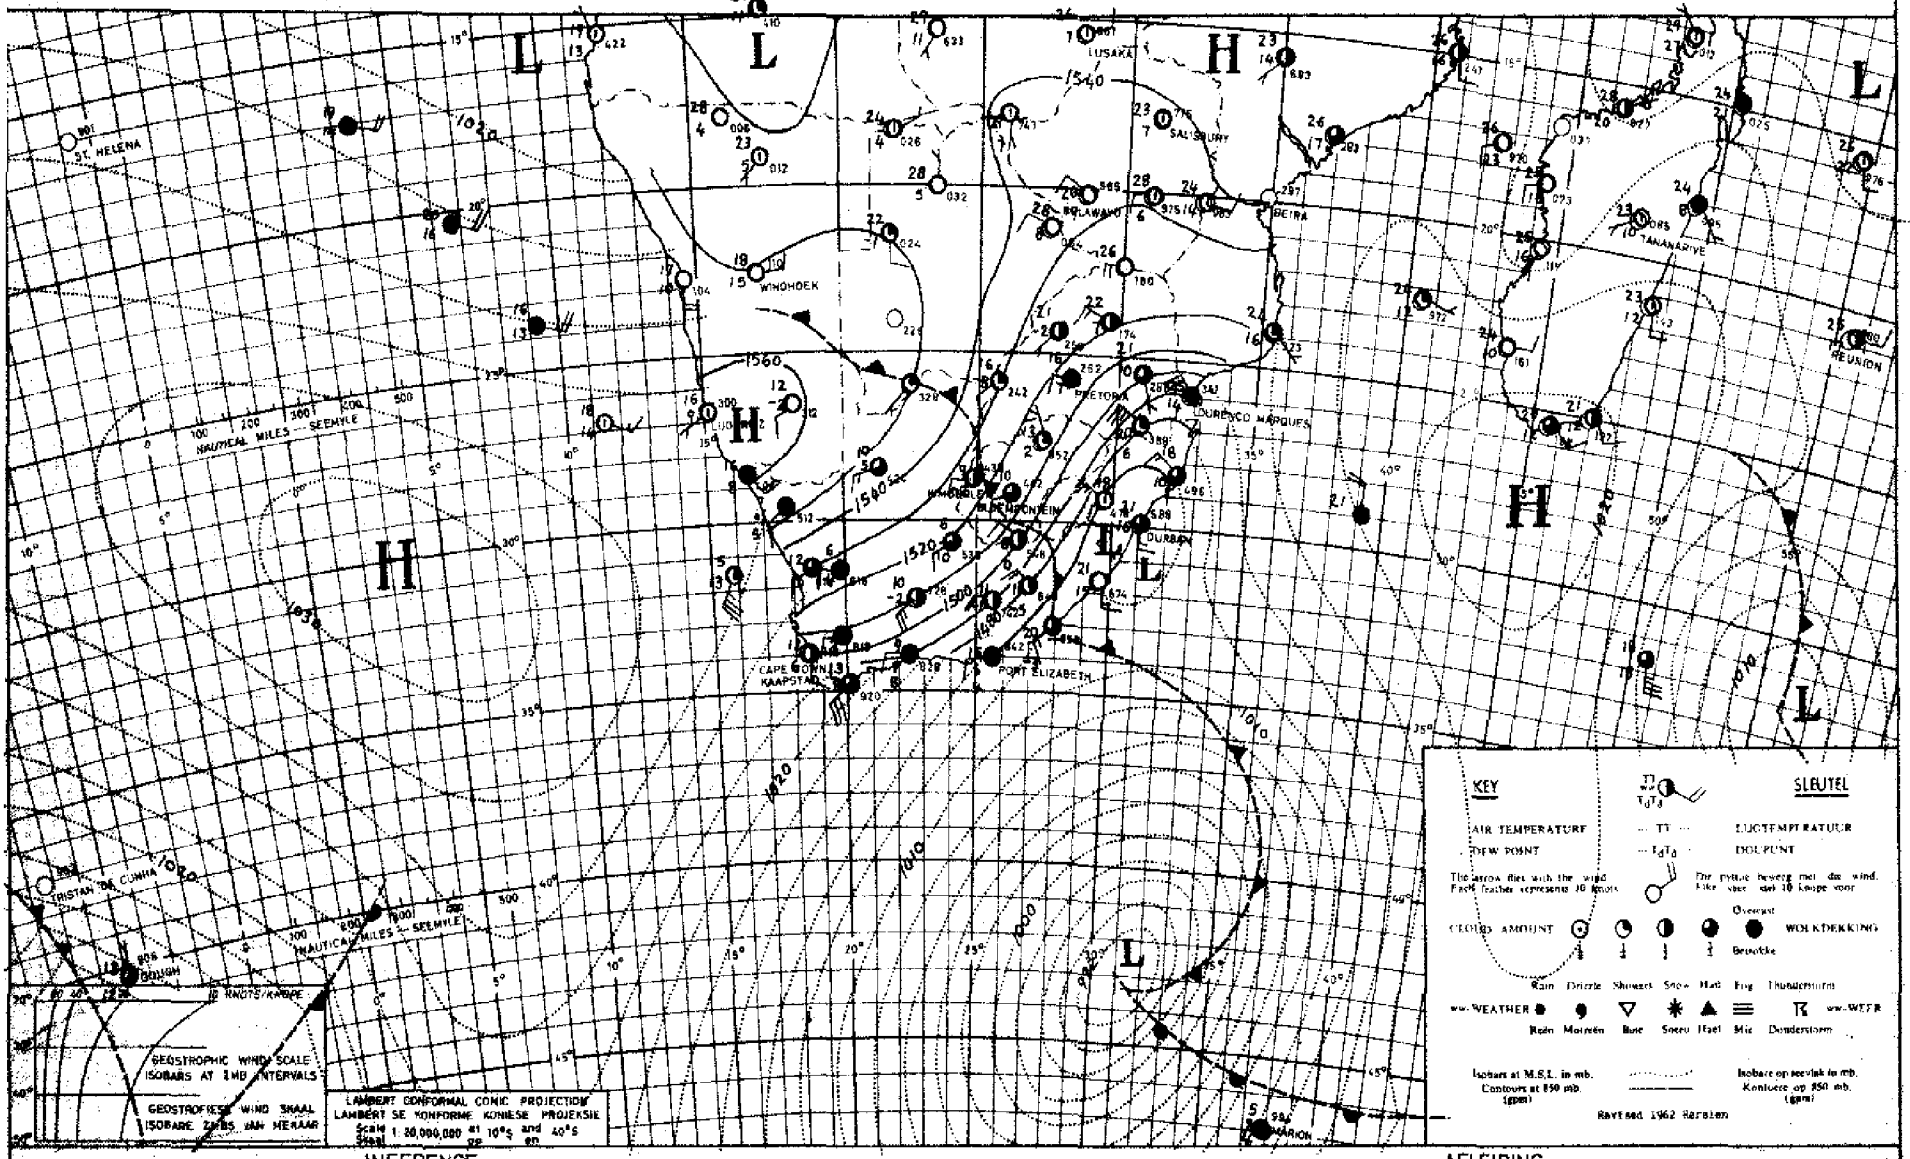
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 11 6 1968 DATUM AFLEIDING

The cold front moving eastwards will cause cold weather to spread to the eastern half of the country. The air is moist over the southern and central regions where showers and snow showers will occur.

Die koufront wat ooswaarts beweeg, sal veroorsaak dat koue weer na die oostelike helfte van die land sal uitbrei. Vogtige lug is oor die suidelike en sentrale dele teenwoordig waar buie en sneeubuie sal voorkom.

INFERENCE

DATE 12.-6.-.19.68 DATUM

AFLEIDING

With the high off the Cape moving slowly eastwards it will clear over the western parts but cloudy weather with rain along the coast and snow over the mountains will still occur over the south-eastern and eastern parts.

Die hoog by die Kaap beweeg stadig ooswaarts en dit sal opklaar oor die westelike dele maar koue, bewolkte weer met neën oor die kus en sneeu oor die berge sal nog voorkom oor die suidoostelike en oostelike dele.

INFERENCE

DATE 13 - 6 - 1968 DATUM

AFLEIDING

The low pressure system over the Indian Ocean will move gradually eastwards and it will be mainly fine and very cold to cold over most areas except the Cape South and east coasts, Border, Transkei and Natal where it will be cloudy with showers and local snow on the Drakensberg.

Die laedrukstelsel oor die Indiese Oseaan sal geleidelik ooswaarts beweeg en dit sal mooiweer en baie koud tot koud wees oor meeste dele behalwe die Kaapse Suid-en Suidooskus, Grens, Transkei en Natal waar dit bewolk sal wees met buie en sneeu op die Drakensberg.

The low over the Indian Ocean is moving eastwards so that the onshore gradient along the east coast will slacken and it will gradually clear over these regions. Dry air is present elsewhere and the weather will be fair.

Die laag oor die Indiese Oseaan beweeg oostwaarts sodat die gradiënt langs die ooskus sal afneem en dit sal geleidelik opklaar oor hierdie gebiede. Droë lug is oor die res van die land aanwesig en dit sal hoofsaaklik mooiweer wees.

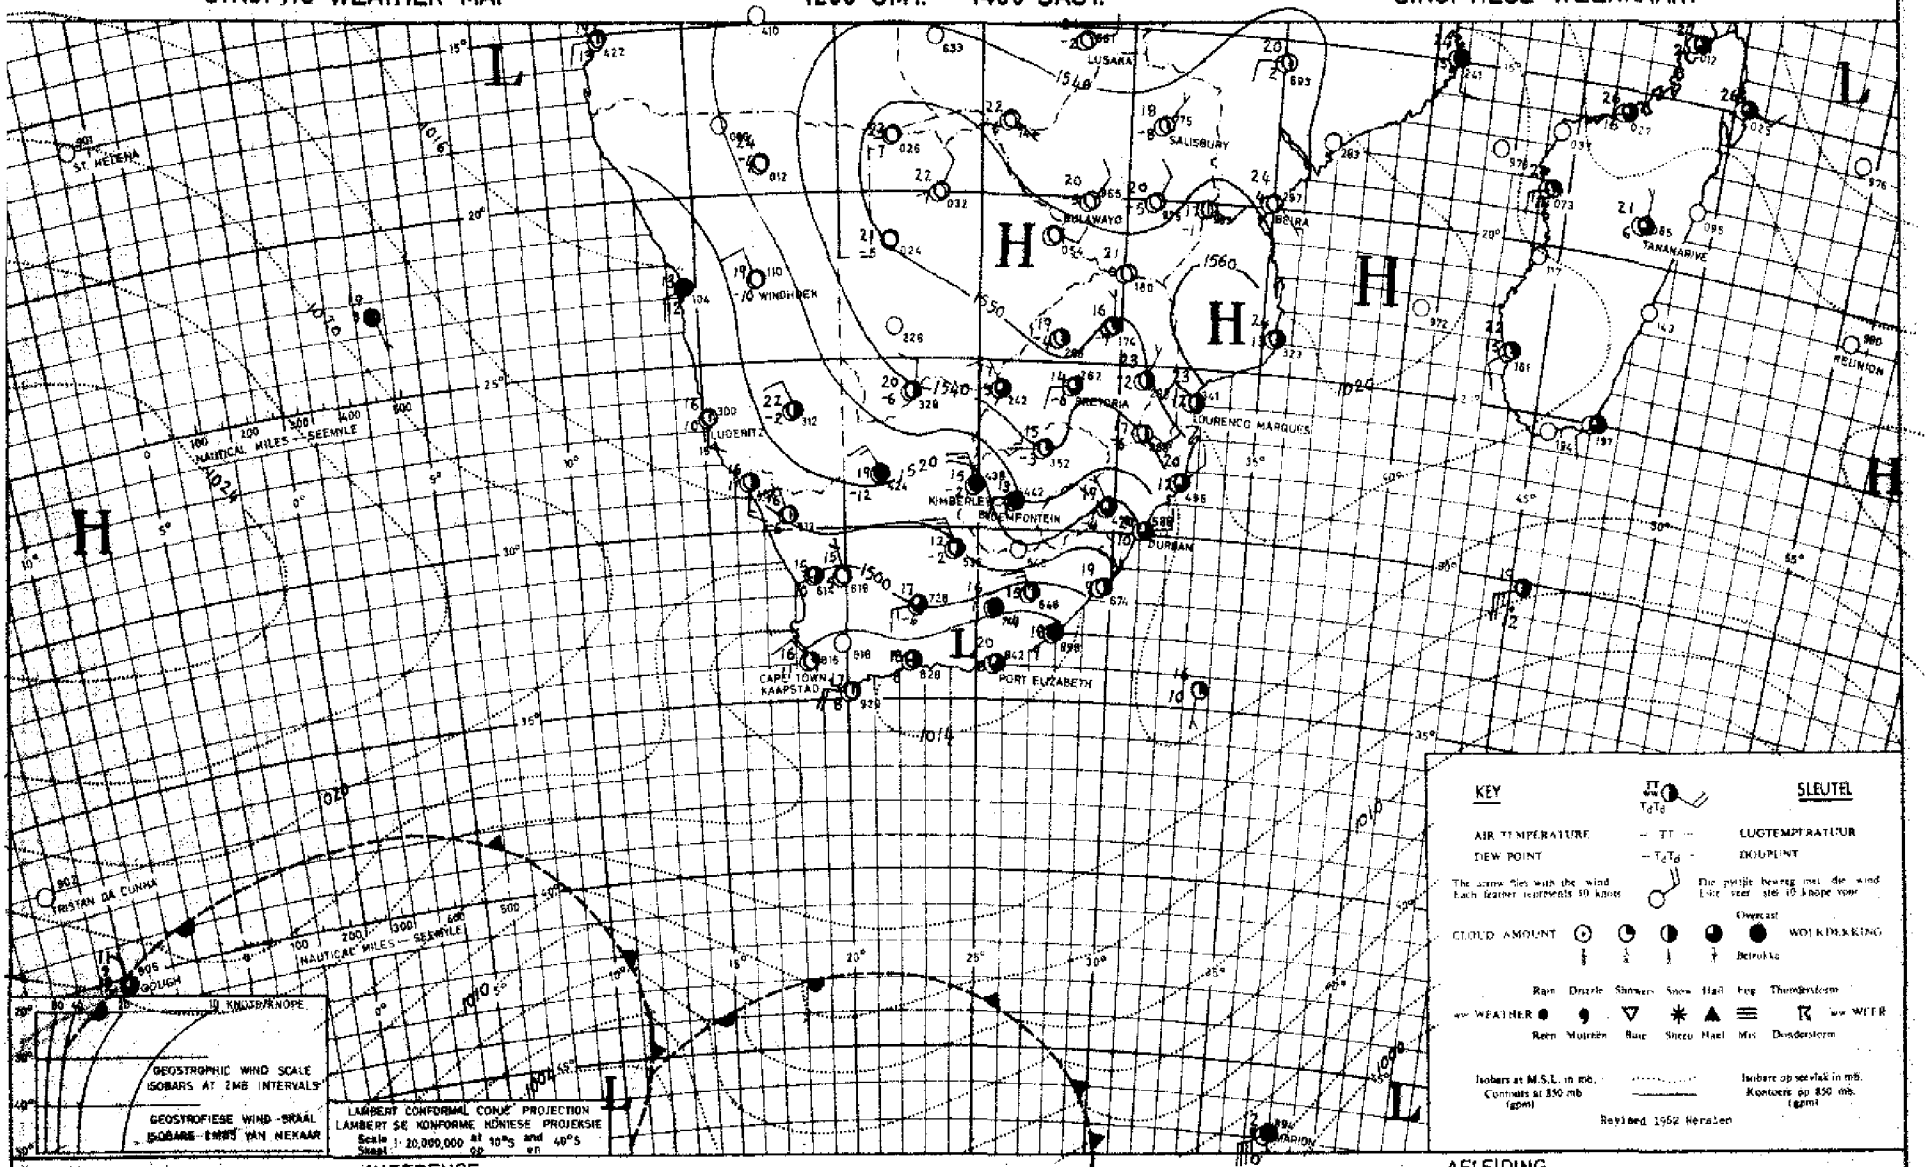
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



KEY — SLEUTEL

AIR TEMPERATURE — TT — LUGTEMPERATUUR

DEW POINT — T_dT_d — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots.

Die pyltjie beweeg met die wind. Elke veer stel 10 knope voor.

CLOUD AMOUNT — Overcast — WOLKDEKKING — Bedekte

WEATHER — Rain, Drizzle, Showers, Snow, Hail, Fog, Thunderstorm — WEER

Reën, Motreën, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb. — Isobare op seevlak in mb.

Contours at 850 mb (gpm) — Kontoere op 850 mb (gpm)

Revised 1962 Hersien

INFERENCE — DATE 16 - 6 - 19 68 DATUM — AFLEIDING

A series of fronts is passing to the south of the country but pressures are falling over the south-western Cape so that the cold front halfway between Gough and Cape Town will probably cause cloudy weather with rain over the south-west coast. Elsewhere it will be fine over the country.

'n Reeks fronte beweeg suid van die land verby maar lugdruk daal oor Suidwes- Kaapland sodat die koufront halfpad tussen Gough en Kaapstad waarskynlik bewolkte weer met reën oor die suidweskus sal veroorsaak. Oor die res van die land is die lug droog en sal dit mooiweer bly.

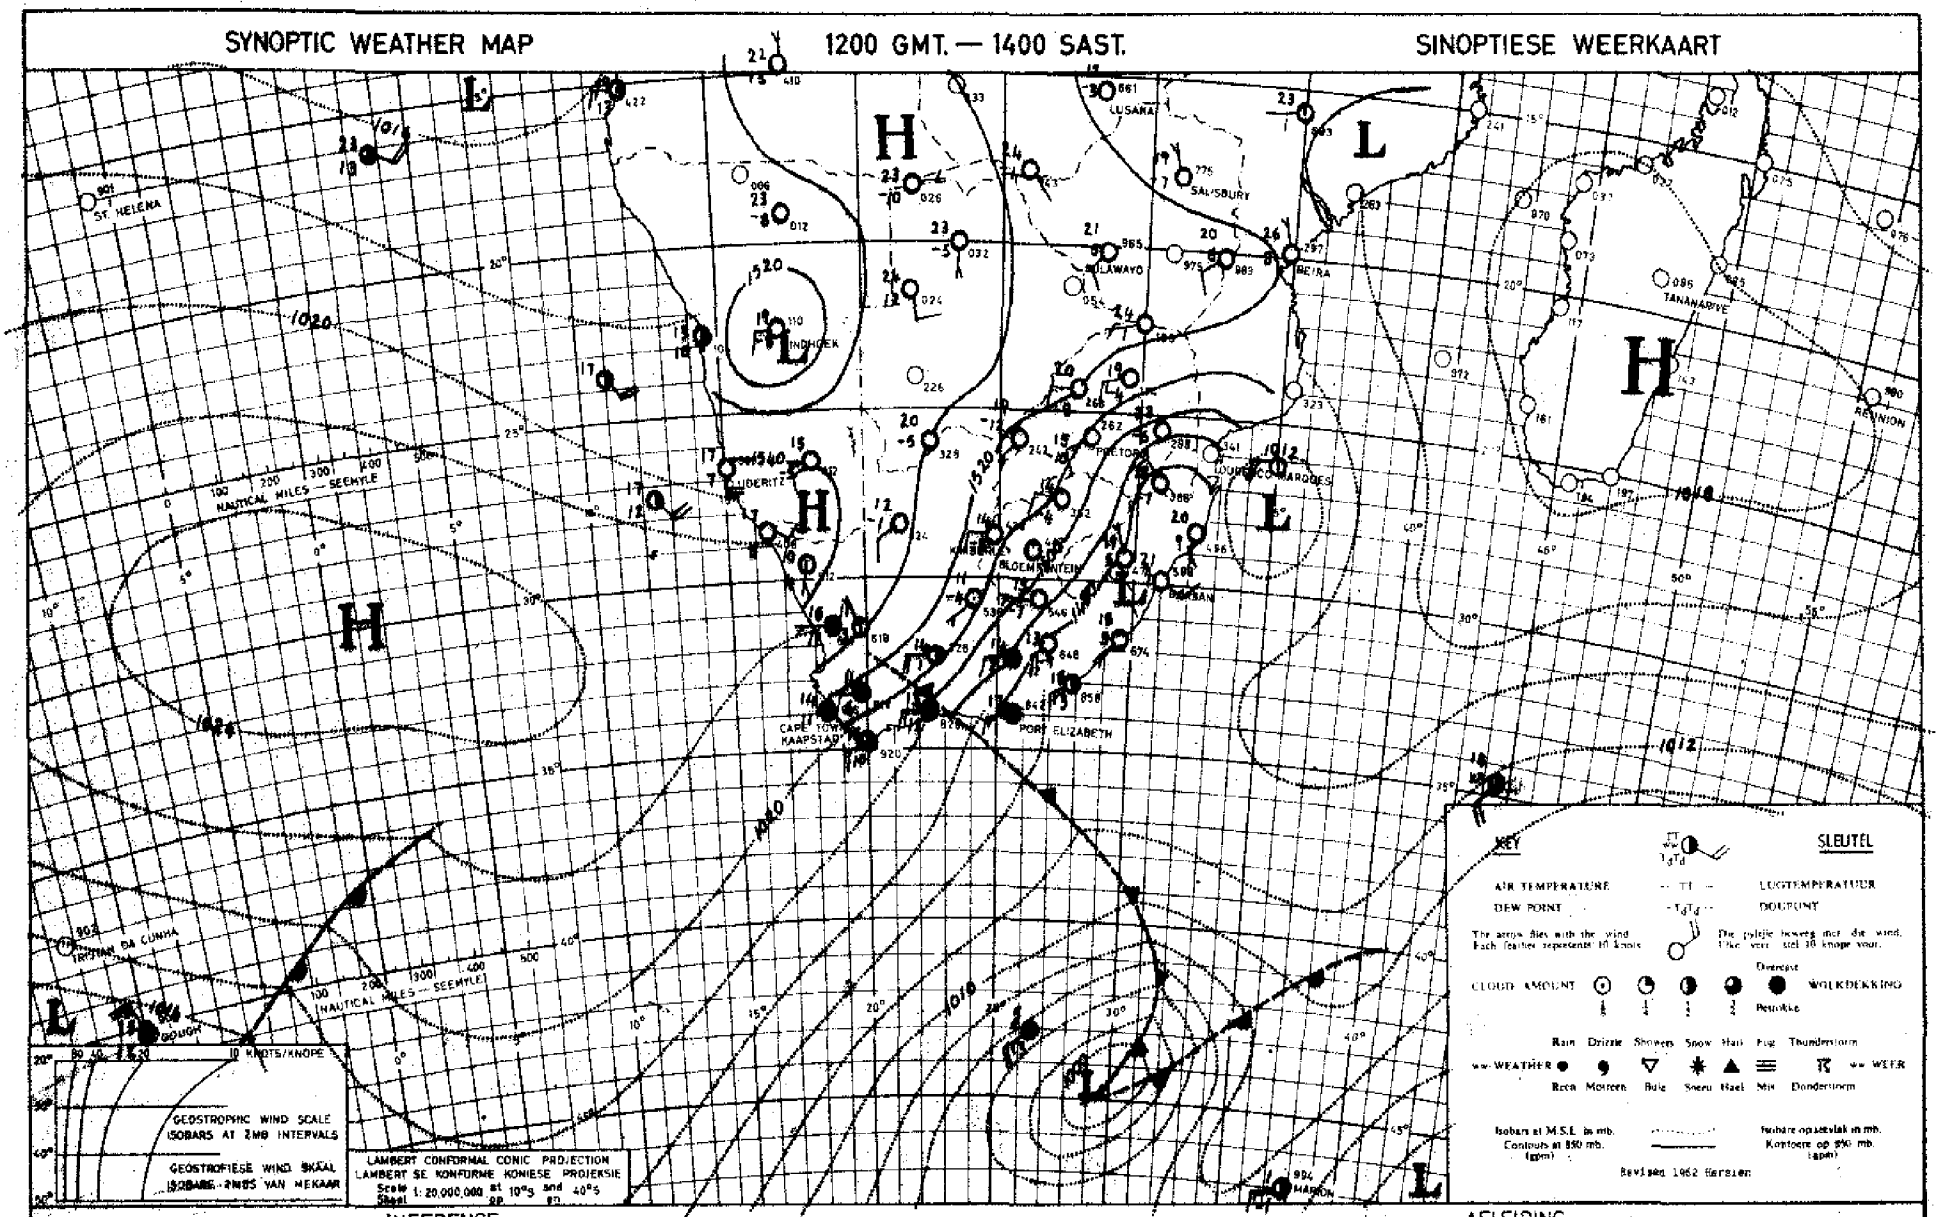
SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART



INFERENCE

DATE 17.6.1968 DATUM

AFLEIDING

With the cold front along the south coast cloudy cold weather with showers will spread over the southern and south-eastern Cape and colder weather will occur also over the central parts.

Met die koufront wat oor die suidelike dele van Kaapland inbeweeg sal koue, bewolkte weer met buie uitbreek oor die suidelike en suidoostelike dele van Kaapland. Koue weer sal ook oor die sentrale binneland uitbreek.

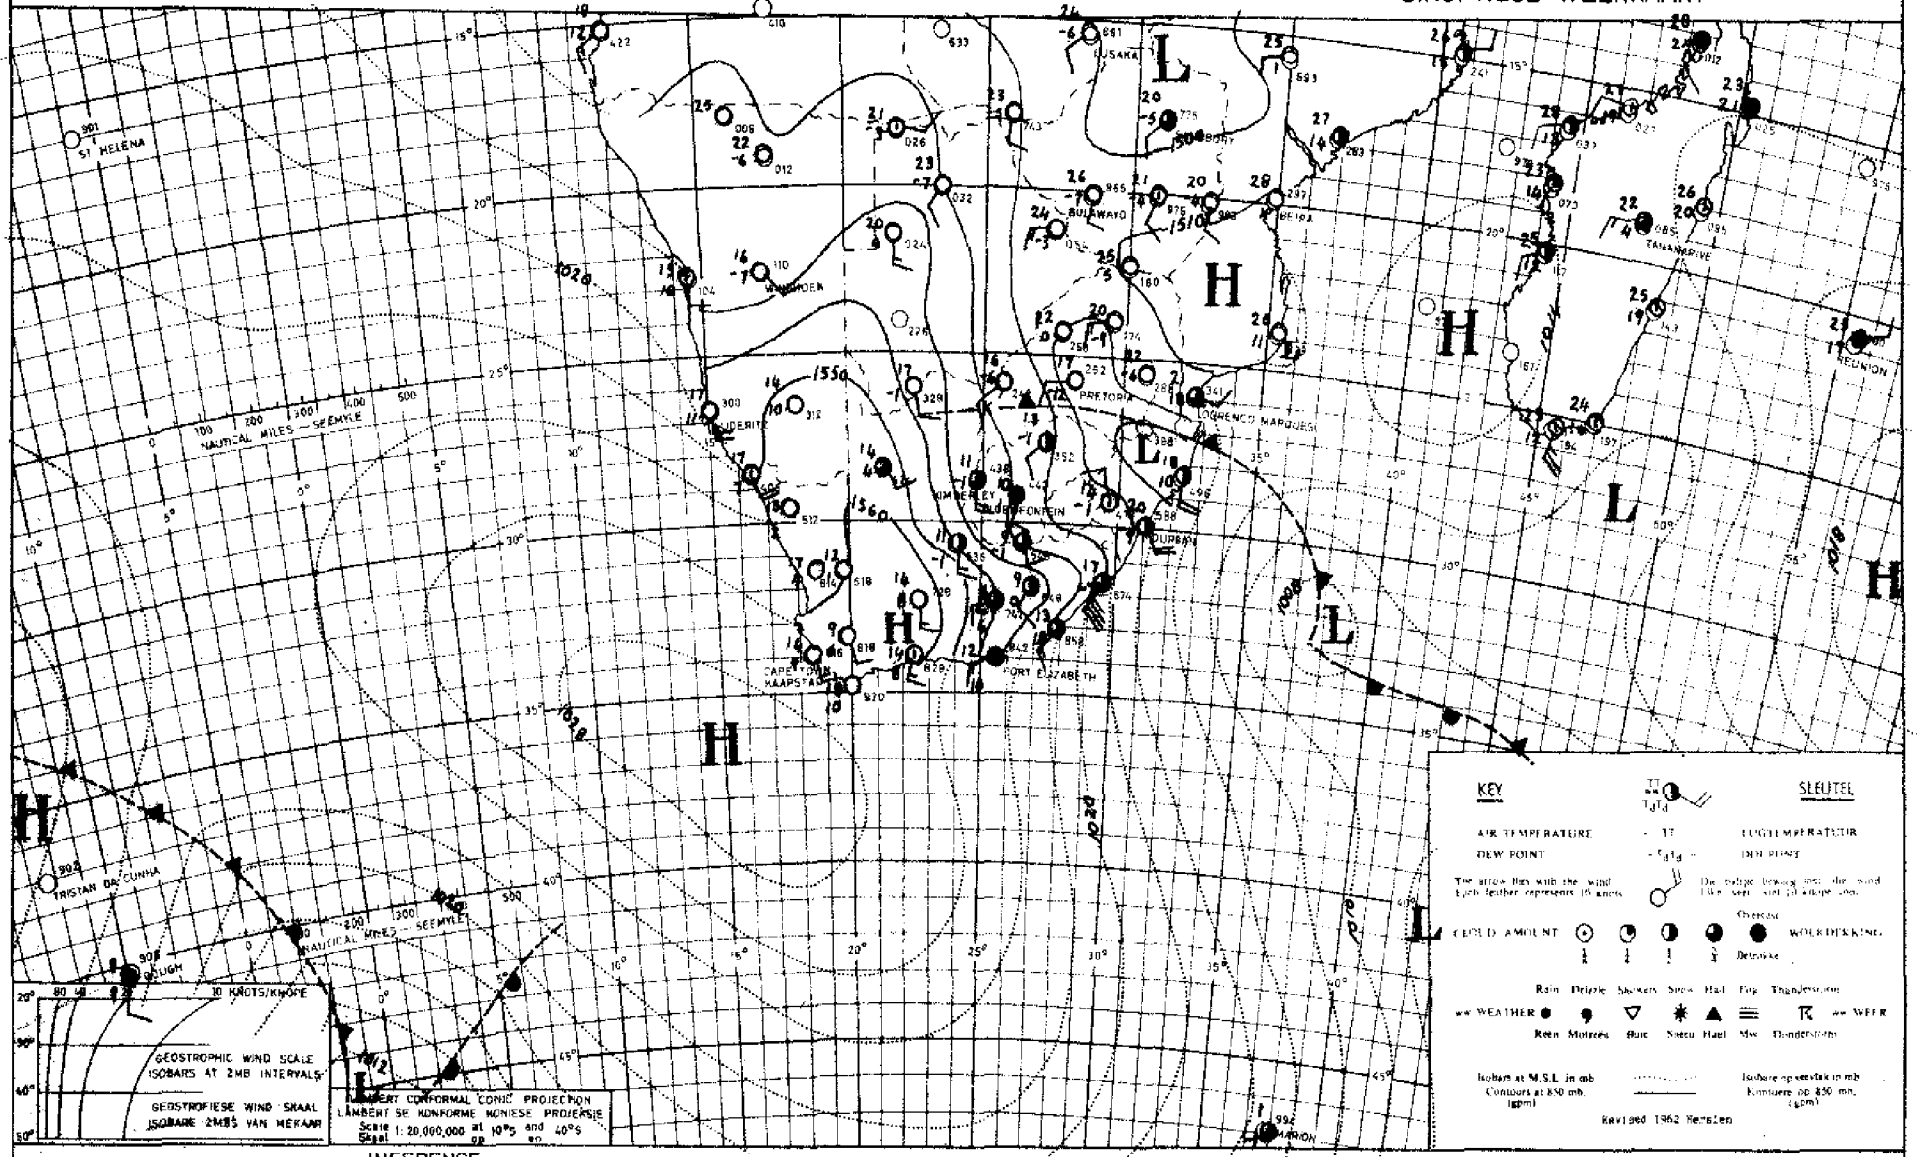
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 18 - 6 - 19 68 DATUM AFLEIDING

As the high pressure moves eastwards the weather will clear over the south-eastern parts of the country. It will however, be cold over the whole Republic and cloudy weather will occur over Eastern Transvaal.

Met die beweging van die hoëdrukstelsel oostwaarts sal die bewolkte weer opklaar oor die suidoostelike dele van die land. Dit sal egter koud wees oor die hele Republiek en bewolkte weer sal voorkom oor Oos-Transvaal.

INFERENCE

DATE 20 — 6 — 19 68 DATUM

AFLEIDING

With the cold front moving over the south-eastern parts and the high ridging in south of the country, cloudy weather with rain will spread northwards along the east coast while it will clear in the south.

Die kouefront wat oor die suidoostelike dele beweeg en die hoog wat suid van die land instoot, sal bewolkte weer met reën of buie veroorsaak wat noordwaarts langs die ooskus sal uitbrei terwyl dit sal opklaar in die suide.

DAAGLIKSE WEERBULLETIN

INFERENCE

DATE 21 - 6 - 19 68 DATUM

AFLEIDING

The low pressure is moving eastwards and the high pressure will extend along the coast. Over the interior the pressure is high and therefore mainly fine and mild weather can be expected apart from cloudy weather at places in the east.

Die laedrukstelsel beweeg oos en die hoëdrukstelsel sal langs die kus om beweeg. As gevolg van hoë drukke oor die binneland sal dit mooiweer en koud tot matig wees behalwe vir wolke plek-plek oor die oostelike dele.

SYNOPTIC WEATHER MAP — 1200 GMT. — 1400 SAST. — SINOPTIESE WEERKAART

KEY — SLEUTEL

AIR TEMPERATURE — LUGTEMPERATUUR

DEW POINT — DOUPUNT

The arrow flies with the wind. Each feather represents 10 knots. — Die spitse boarg stel die wind voor. Elke veer stel 10 knope voor.

CLOUD AMOUNT — WOLKBEDEKKING

Overcast — Bewolkte

Rain, Drizzle, Showers, Snow, Hail, Fog, Thunderstorm — Reën, Motreen, Buie, Sneeu, Hael, Mis, Donderstorm

Isobars at M.S.L. in mb — Isobare op seevlak in mb

Contours at 850 mb. (gpm) — Kontoere op 850 mb. (gpm)

Revised 1962 Bereised

DATE 23 - 6 - 19 68 DATUM

INFERENCE — AFLEIDING

The circulation over the interior is anticyclonic and as a result it will be mainly fair and mild. The coastal low off the west coast will cause cloudy weather with fog patches along the northern parts of the west coast.

Die sirkulasie oor die binneland is antisiklonaal en dus sal dit mooiweer en matig wees. Die kuslaag langs die weskus sal bewolkte weer met misbanke langs die noordelike weskus veroorsaak.

The circulation over the country is anticyclonic and it will be mainly fine over the interior but with the high ridging in south of the country partly cloudy weather will spread to the eastern Transvaal. The low along the west coast will cause partly cloudy conditions over Western Cape.

Die sirkulasie oor die land is antisiklonaal en dit sal gevolglik hoofsaaklik mooiweer wees oor die binneland maar met die hoog wat suid van die land instoot, sal dit gedeeltelik bewolk word oor Oos-Transvaal. Die laag langs die weskus sal gedeeltelik bewolkte toestande oor Wes-Kaapland veroorsaak.

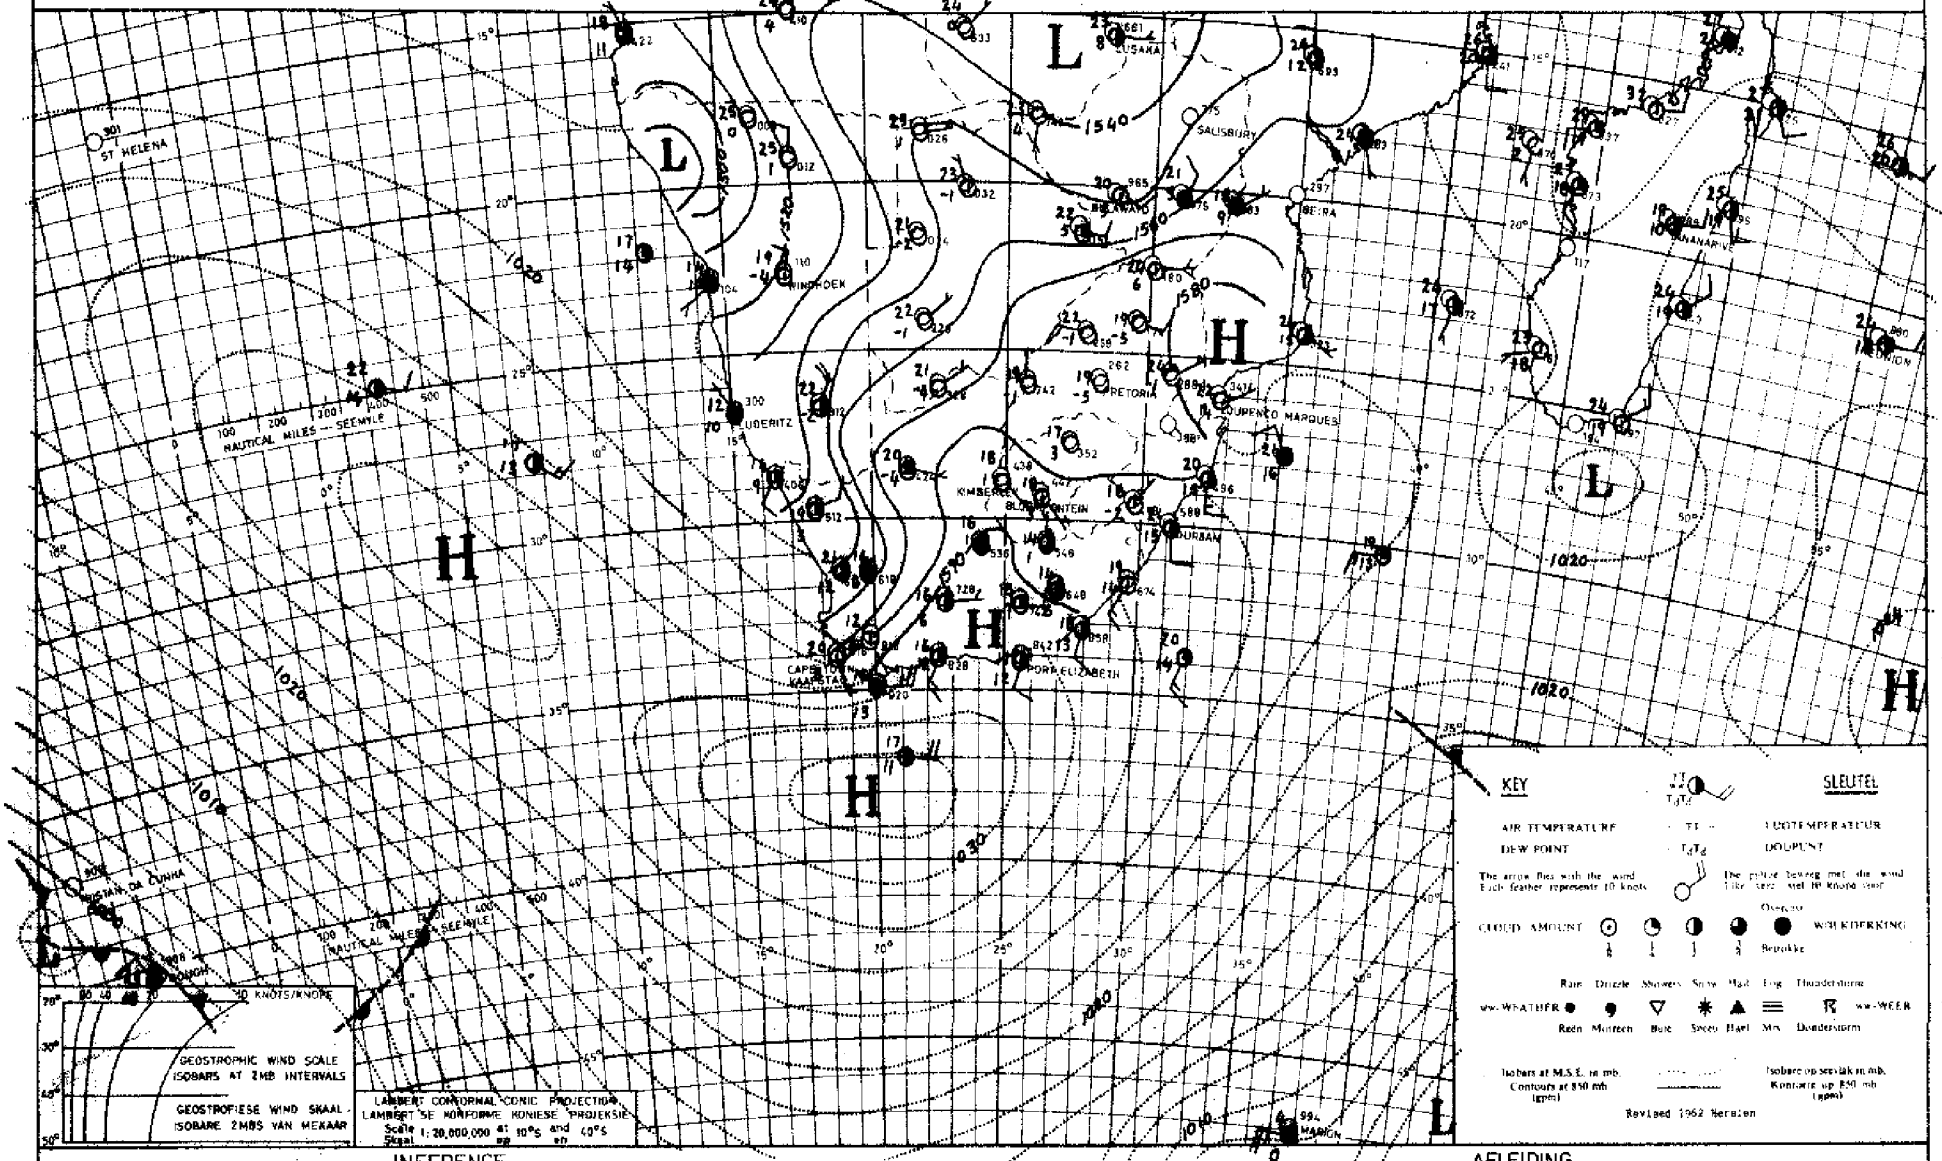
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 26 - 6 - 19 68 DATUM AFLEIDING

The high ridging in south of the country will cause partly cloudy weather over the eastern coast and also the eastern escarpment areas. Rain can be expected at places along the coast. The trough over the western coast will cause partly cloudy weather over Western Cape.

Die hoog wat suid van die land instoot sal gedeeltelik bewolk tot bewolkte weer veroorsaak oor die oostelike kus en die platorand met reën op plekke langs die kus. Die trog oor die westelike kus sal gedeeltelik bewolkte weer veroorsaak oor Wes-Kaapland.

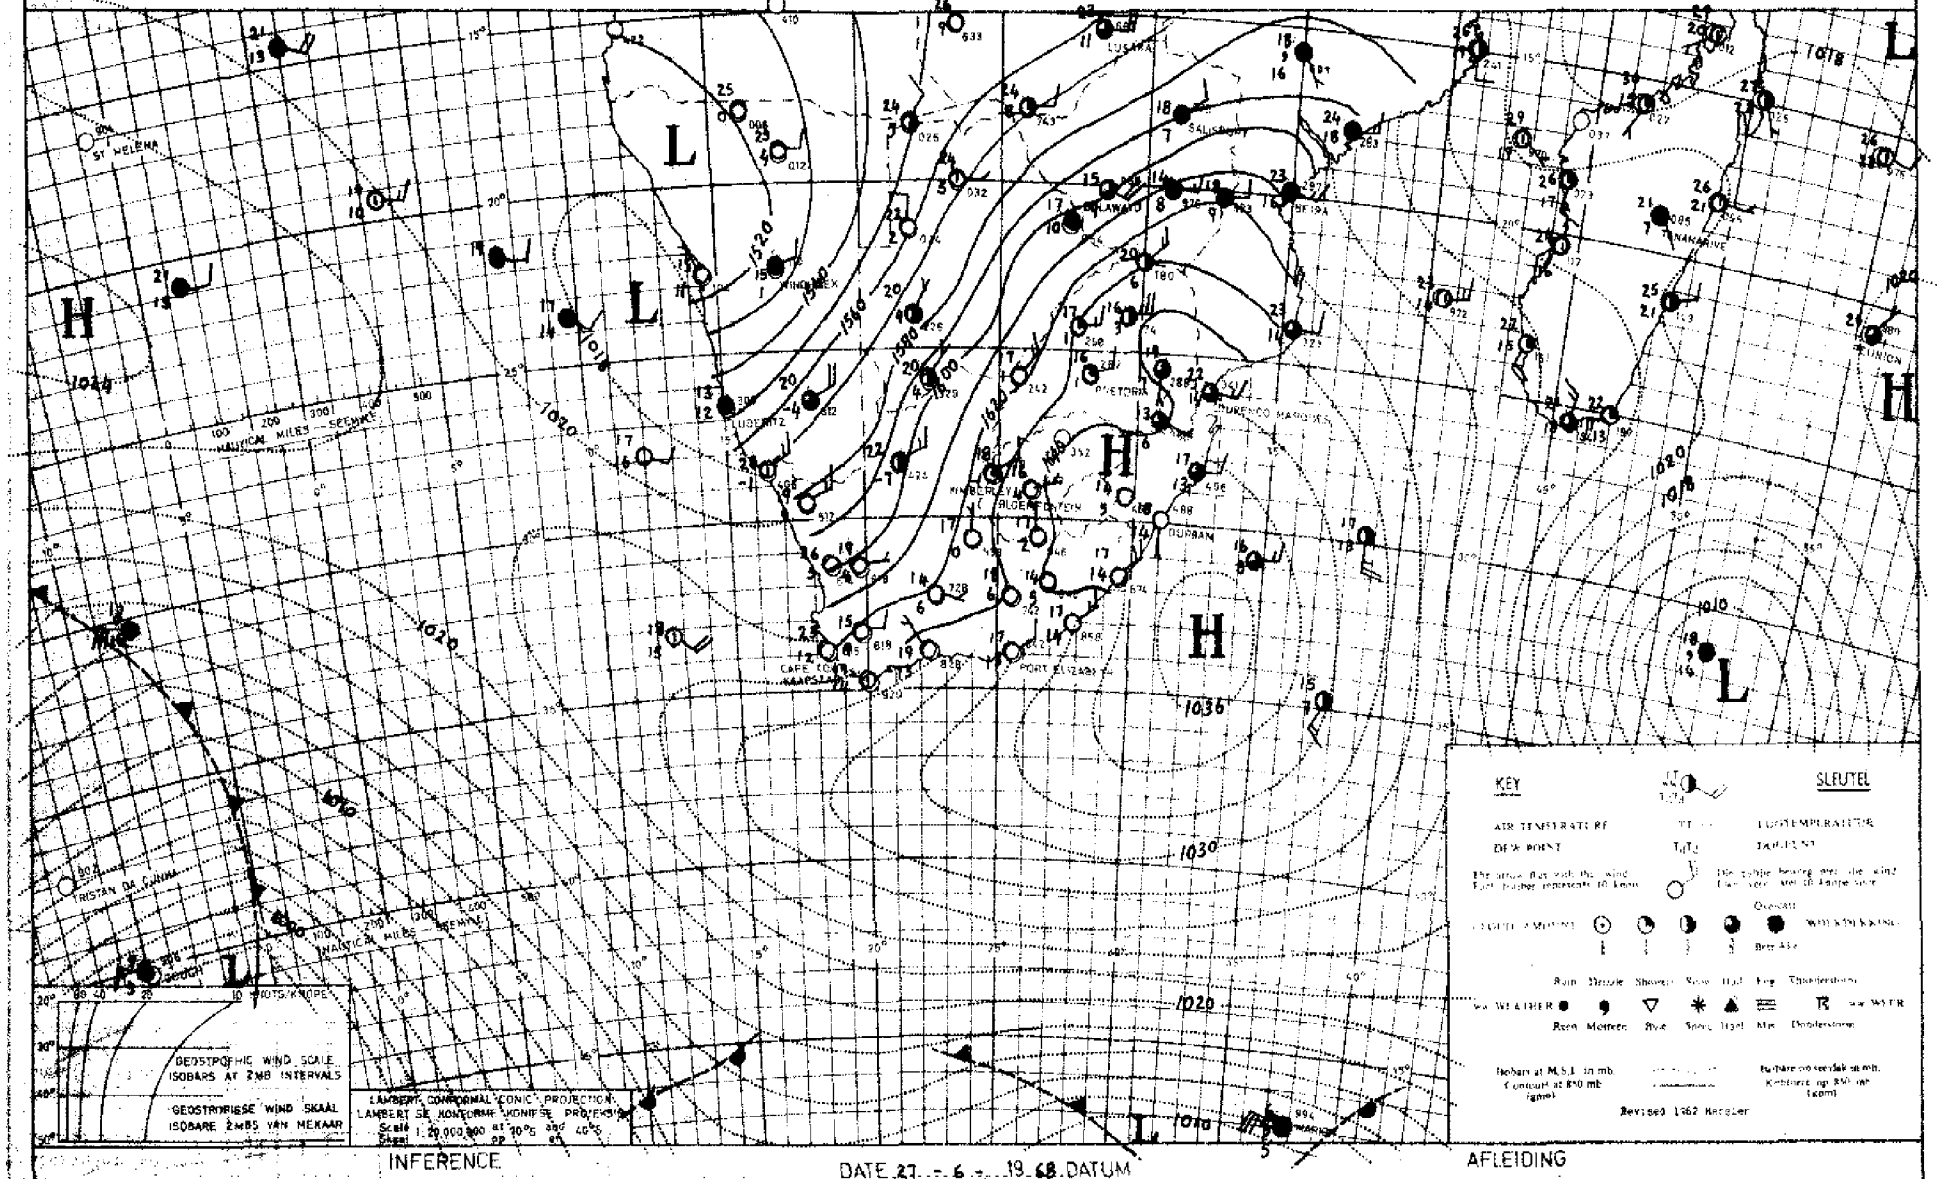
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 27 - 6 - 1968 DATUM AFLEIDING

The strong high off the east coast is advecting cooler, moist air over the northern, central and western parts of the country where cloudy or partly cloudy weather will occur. With a low over South West Africa, showers or thunder-showers will develop over South West Africa and the north-Western Cape.

Die sterk hoog langs die ooskus voer koeler, vogtige lug oor die noordelike, sentrale en westelike dele van die land in waar dit bewolk of gedeeltelik bewolk sal wees. Met 'n laag oor Suidwes-Afrika sal buie of donderbuie oor Suidwes-Afrika en Noordwes-Kaapland voorkom.

DATE 28 - 6 - 1962 DATUM

INFERENCE

With the high over the Indian Ocean moist air will be in circulation over the central interior where it will be cloudy and cold with rain or showers. These conditions will spread to the eastern coastal areas later. Over the remainder of the country it will be mainly fair with warm bergwinds along the west coast.

AFLEIDING

Met die hoog oor die Indiese Oseaan sal vogtige lug ingevoer word oor die sentrale binneland waar dit gevolglik bewolk en koud sal wees met reën of buie. Hierdie toestande sal later uitbrei na die oostelike kusstreke. Oor die res van die land sal dit hoofsaaklik mooiweer wees met warm bergwinde langs die weskus.

INFERENCE

DATE 29 - 6 - 1968 DATUM

AFLEIDING

The strong Indian Ocean high, which is advecting moist air over the northern and central parts of the country, is moving rapidly eastwards so that it will begin to clear over these regions. A coastal low is forming along the S.W.A. coast and will cause cloudy weather over the west coast. With a fairly strong offshore flow along the south-western and southern coastal belts, warm bergwind conditions will occur over these parts.

Die sterk Indiese Oseaanse hoog wat vogtige lug oor die noordelike en sentrale dele van die land invoer, beweeg vinnig ooswaarts sodat dit oor hierdie gebiede sal begin opklaar. 'n Kuslaag ontwikkel langs die kus van S.W.A. en sal bewolkte weer langs die weskus veroorsaak. Met 'n taamlike sterk lugstroming van die land af langs die suidwestelike en suidelike kusstrook, sal warm bergwindtoestande oor hierdie dele voorkom.

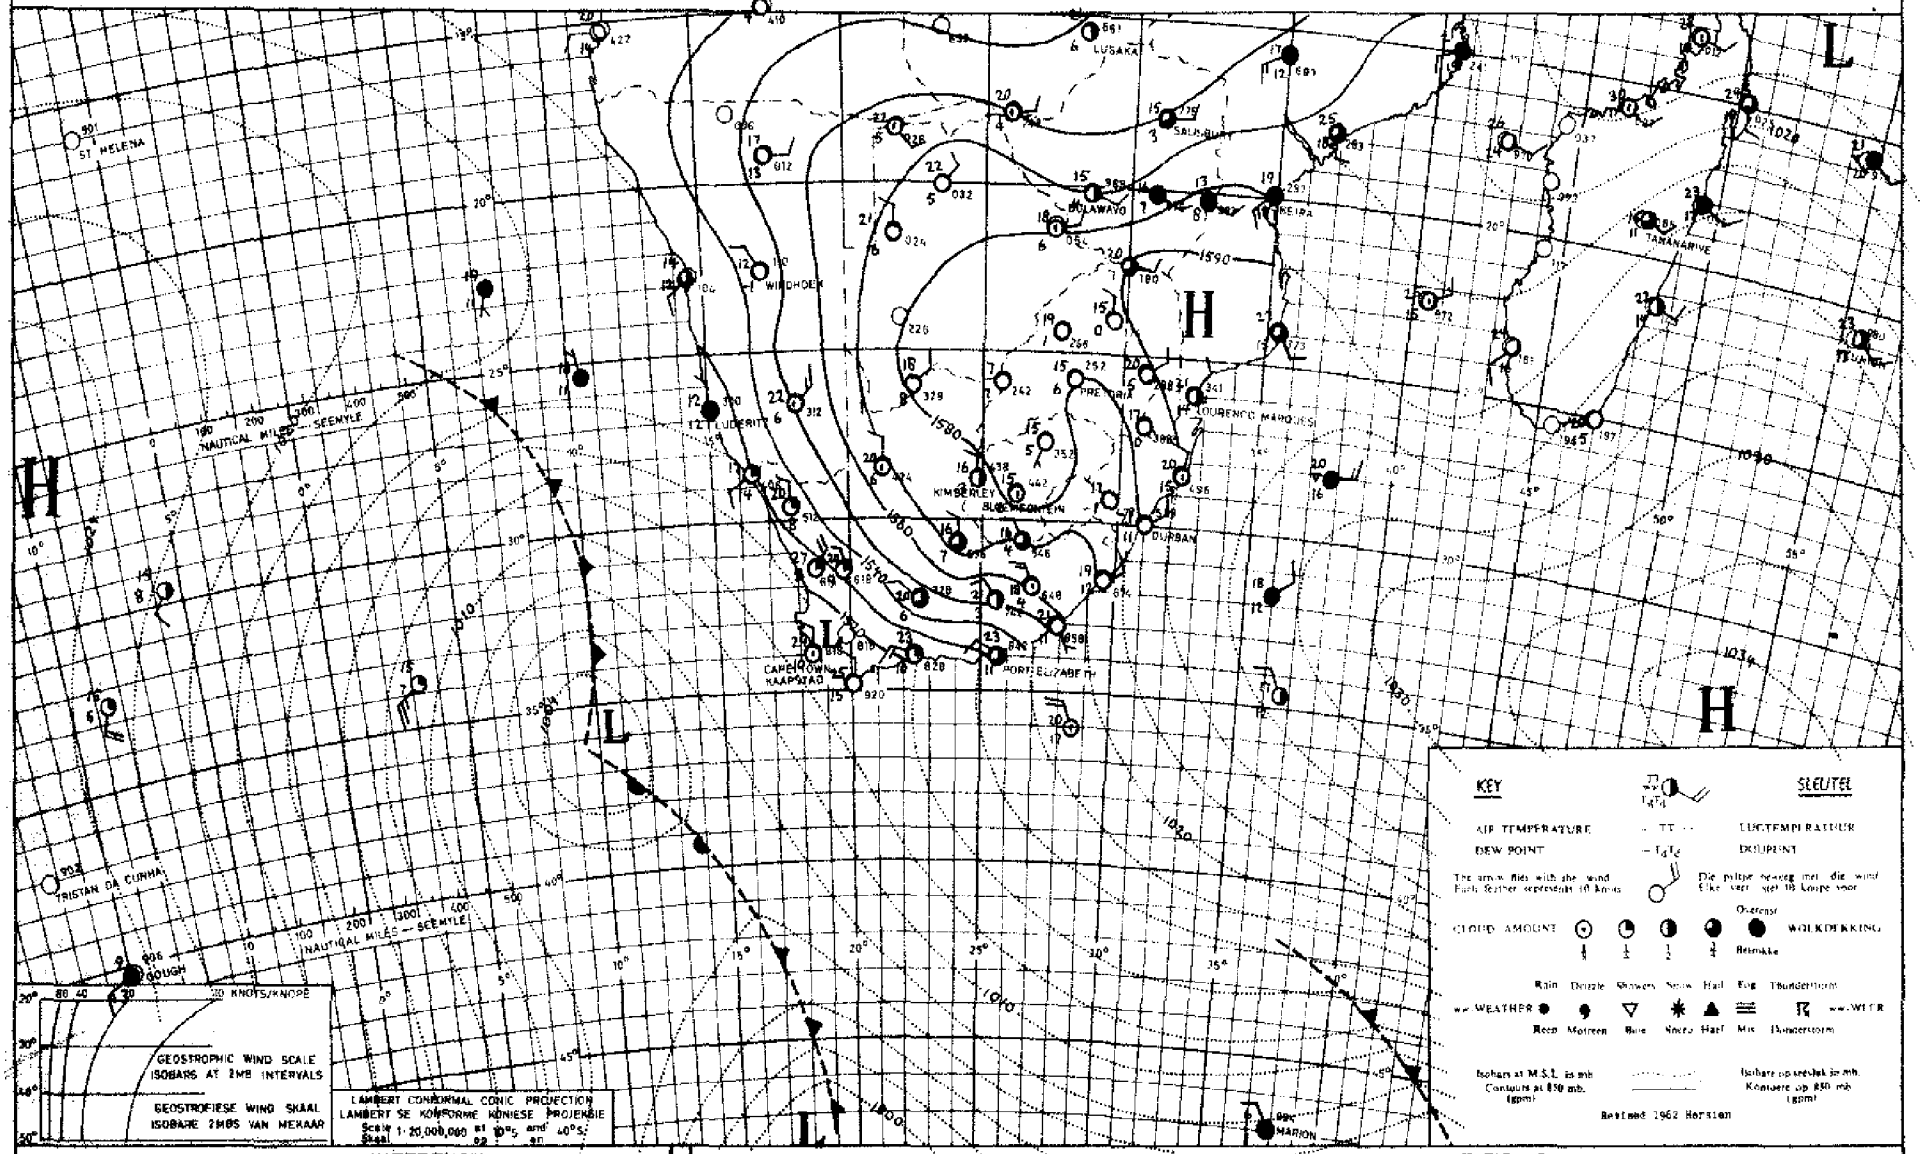
SYNOPTIC WEATHER MAP 1200 GMT. — 1400 SAST. SINOPTIESE WEERKAART



INFERENCE DATE 30-6-19.68 DATUM AFLEIDING

With the low approaching the Cape it will become cloudy and colder with rain over the south-western Cape and these conditions will spread to the south-eastern coast where it will be fine and warm with bergwinds at first. Over the interior it will be fine and mild but warmer in the north.

Die laag wat die Kaap nader, sal bewolkte kouer toestande veroorsaak oor Suidwes-Kaapland wat later uitbrei na die suidooskus waar dit aanvanklik mooiweer en warm sal wees met bergwindtoestande. Oor die binneland sal dit hoofsaaklik mooiweer en matig wees maar warmer in die noorde.
