INFERENCE With moist tropical air still in circulation over the country further general rain and showers will occur in the vicinity of the deep trough over the central interior, spreading southwards tomorrow. Cooler frontal weather will develop over South-western Cape later tomorrow.

AFLEIDING Met vogtige tropiese lug steeds in sirkulasie oor die land sal verdere algemene reën en buie in die omgewing van die diep trog oor die sentrale binneland voorkom, en môre suidwaarts uitbrei. Koeler frontale weer sal later môre oor Suidwes-Kaap ontwikkel.

INFERENCE A weak cold front is moving eastwards south of the continent and is being followed by a ridge of high pressure so that cooler rainy weather will spread over the south-eastern and eastern coastal regions. Further thundershowers will develop east of the trough over the interior.

AFLEIDING 'n Swak koufront beweeg suid van die land verby en word gevolg deur 'n wig van hoë druk sodat koeler reënweer oor die suidoos- en oskusstreke sal opbeweeg. Verdere donderbuie sal oos van die trog oor die binneland voorkom.

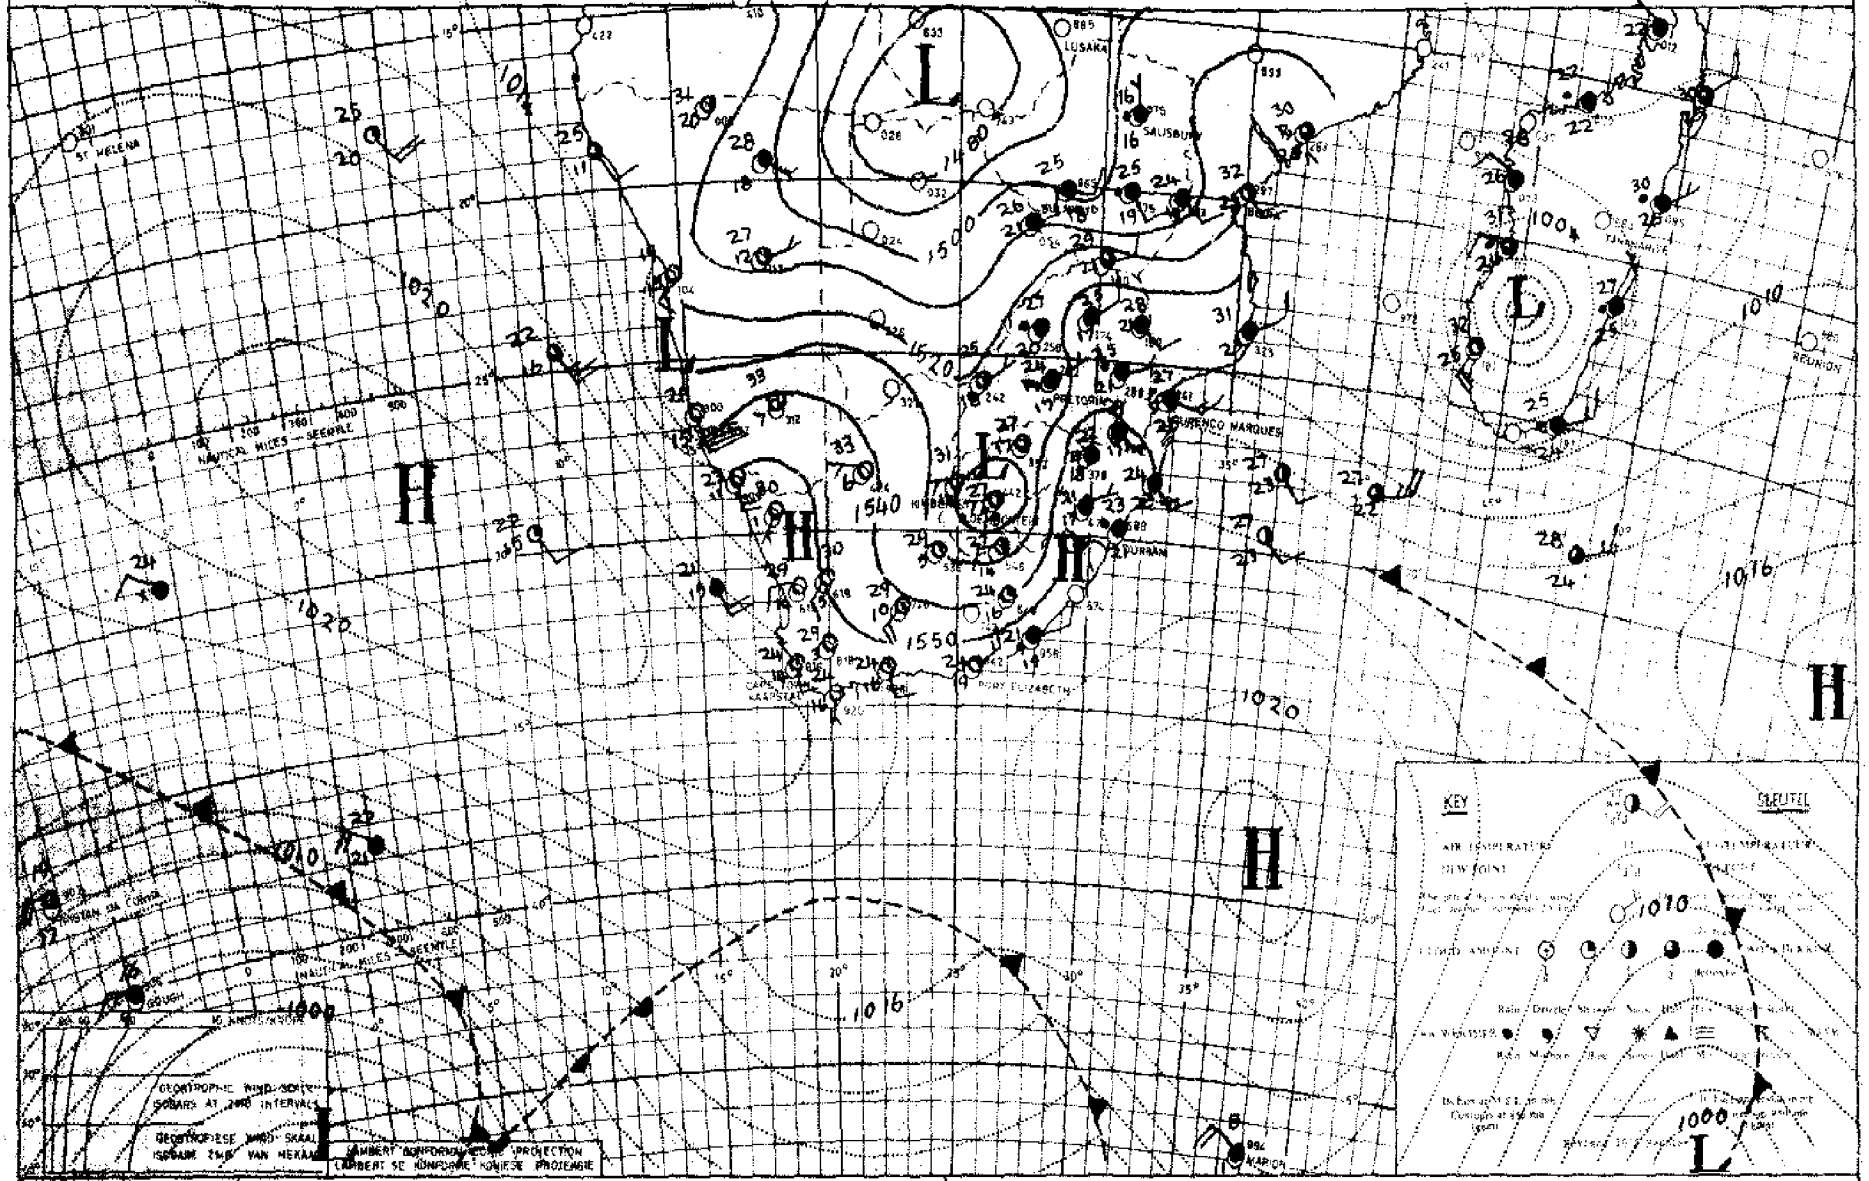
G.P.S (L) SYNOPTIC WEATHER MAP 1200 GMT – 1400 SAST 1978-01-28 SINOPTIESE WEERKAART



INFERENCE The trough over the interior has weakened considerably but further showers will develop in the moist air over the eastern half of the country.

AFLEIDING Die trog oor die binneland het heelwat verswak maar verdere buie sal nog in die vogtige lug oor die oostelike helfte van die land voorkom.

DAAGLIKSE WEERBULLETIN

INFERENCE The sharp trough of low-pressure over the interior is being pinched between the high-pressure systems over the eastern and western interior and will cause scattered thundershowers with heavy falls in the vicinity of the trough.

AFLEIDING Met die l skerp trog van lae druk oor die binneland wat vasgeknyp word tussen die hoëdruk-stelsels oor die oostelike en westelike binneland sal verspreide donderbuie voorkom met swaar neerslae in die omgewing van die trog.

INFERENCE Moist air is still being fed in from the north and east over the whole country so that further rain and showers will occur over most parts. The low north-west of the Cape is moving slowly eastwards.

AFLEIDING Vogtige lug word steeds vanuit die noorde en ooste oor die hele land ingevoer sodat verdere reën en buie oor die meeste dele sal voorkom. Die laag noordwes van die Kaap beweeg stadig ooswaarts.

INFERENCE: Further rain and showers will occur in the moist air over the eastern half of the country. With the deep low along the West coast thundershowers are expected over South-west Cape and rainy weather will occur along the South coast tomorrow.

AFLEIDING: Verdere reën en buie sal in die vogtige lug oor die oostelike helfte van die land voorkom. Met die diep laag langs die Weskus sal donderbuie oor Suidwes-Kaap ontwikkel terwyl reënweer ook môre oor die Suidkus sal voorkom.

INFERENCE Moist air is still being advected over the northern and eastern parts of the country and further rain and showers will fall over these regions.

AFLEIDING Vogtige lug word steeds ingevoer oor die noordelike en oostelike dele van die land sodat verdere reën en buie oor hierdie streke sal uitsak.

INFERENCE: With the trough extending southwards from the deep low over S.W.A. fairly general rain and showers will occur over most parts of the country except the western half of the Cape Province.

AFLEIDING: Met die trog wat vanaf die diep laag oor S.W.A. suidwaarts strek sal taamlik algemene reën en buie oor die meeste dele van die land voorkom, behalwe vir die westelike helfte van die Kaapprovinsie.

INFERENCE: The deep low-pressure-system over S.W.A. is moving somewhat southwards and general rain and showers will also spread southwards over the central interior. Isolated thundershowers will develop east of the trough over the southern interior.

AFLEIDING: Die diep laedrukstelsel oor S.W.A. beweeg weer effens suidwaarts sodat algemene reën en buie ook suidwaarts oor die sentrale binneland sal uitbrei. Enkele donderbuie sal oos van die trog oor die suidelike binneland ontwikkel.

INFERENCE Frontal systems are moving fairly rapidly eastwards to the south of the continent. Further rain and showers will occur over the northern parts of the country as well as to the east of the trough extending northwards over Eastern Cape.

AFLEIDING Frontale sisteme beweeg betreklik vinnig suid van die land verby. Verdere reën en buie sal oor die noordelike dele van die land voorkom sowel as oos van die trog wat oor Oos-Kaap noordwaarts strek.

INFERENCE The deep low over S.W.A. is moving slowly southwards and is causing general rain and showers over this territory. With the trough extending southwards scattered showers will develop over the southern half of the country and over Natal.

AFLEIDING Die diep laag oor S.W.A. beweeg stadig suidwaarts en veroorsaak algemene reën en buie oor hierdie gebied. Met die trog wat suidwaarts strek sal verspreide buie ook oor die suidelike helfte van die land en oor Natal ontwikkel.

INFERENCE The low at Port Elizabeth and trough over the interior are moving slowly eastwards. Light showers are expected to the east of the trough and cooler weather will spread over the southern coastal areas tomorrow with showers later.

AFLEIDING Die laag by Port Elizabeth en trog oor die binneland beweeg stadig oostwaarts. Ligte buie word oos van die trog verwag en koeler toestande met buie later sal more oor die suidelike kusstreke inbeweeg.

INFERENCE The moist air which is being advected over Transvaal is moving slowly southwards over the central interior. Further showers will occur over the northern regions but it will clear over Transvaal tomorrow.

AFLEIDING Die vogtige lug wat oor Transvaal ingevoer word, beweeg geleidelik suidwaarts oor die sentrale binneland. Verdere buie sal oor die noordelike gebiede voorkom, maar dit sal môre oor Transvaal begin opklaar.

INFERENCE A cell of the Atlantic high is moving rapidly eastwards and colder air with scattered showers will spread also over the whole Transvaal overnight but it will clear from the west tomorrow. The deep low along the West coast is moving southwards.

AFLEIDING 'n Sel van die Atlantiese hoog beweeg vinnig oostwaarts sodat koue lug met verspreide buie oornag ook oor die hele Transvaal sal insloot maar dit sal môre vanuit die weste opklaar. Die diep laag langs die Weskus beweeg suidwaarts.

INFERENCE A strong ridge of the Atlantic high is pushing eastwards south of the continent and cool rainy weather will spread over Eastern Cape, Natal and Eastern Transvaal overnight. The air is dry over the western interior but scattered thundershowers will still occur east of the trough.

AFLEIDING 'n Sterk wig van die Atlantiese hoog stoot suid van die land in sodat koel reënweer oornag oor Oos-Kaap, Natal en Oos-Transvaal sal uitbrei. Oor die westelike binneland is die lug droog maar verspreide buie sal nog oos van die trog voorkom.

INFERENCE The complex low-pressure system over South-western Cape is moving slowly eastwards, causing scattered thunderstmowers to the east of the system. Cooler moist air is still being advected over the north-eastern parts of the country.

AFLEIDING Die komplekse laedrukstelsel oor Suidwes-Kaap beweeg stadig oaswaarts en veroorsaak verspreide donderbuie oos van die stelsel. Koeler vogtige lug word steeds oor die noordoostelike dele van die land ingevoer.

INFERENCE: Cool moist air will also spread over most parts of Transvaal with light rain at places but the air over the western half of the country remains dry.

AFLEIDING: Koel vogtige lug sal ook oor die meeste dele van Transvaal insloot met ligte reën op plekke maar oor die westelike helfte van die land bly die lug droog.

INFERENCE The cold front near Cape Town is moving eastwards and it will therefore become cloudy along the southern and eastern Cape coastal regions with rain or showers. Dry air from the west is spreading to most parts of the Free State and the Western and Southern Transvaal and it will begin to clear.

AFLEIDING Die koufront naby Kaapstad beweeg oostwaarts en dit sal bewolk word langs die suid-en ooskusstreke van Kaapland met reën en buie. Droë lug vanuit die weste sal na die meeste dele van die Vrystaat en Wes- en Suid-Transvaal uitbrei en dit sal begin opklaar.

INFERENCE The low along the southern coastal regions is moving north-eastwards and partly cloudy weather associated with southwesterly winds will spread to the Natal coast. In the moist tropical air, which is moving south-westwards over the eastern and central parts of the country, rain and showers will occur.

AFLEIDING Die laag langs die suidkusstreke beweeg noordooswaarts en gedeeltelik bewolkte weer gepaard met suidwestewinde sal na die Natalse kus uitbrei. In die vogtige tropiese lug, wat suidwestwaarts oor die oostelike en sentrale dele van die land beweeg, sal reën en buie voorkom.

INFERENCE

With a deep low-pressure system over Botswana and moist air in circulation over the Transvaal, Natal and the northern and eastern regions of the Free State further rain and thundershowers will fall over these areas.

AFLEIDING

Met 'n diep laedrukstelsel oor Botswana en vogtige lug in sirkulasie oor Transvaal, Natal en die noordelike en oostelike dele van die Vrystaat, sal verdere reën en donderbuie oor hierdie gebiede uitsak.

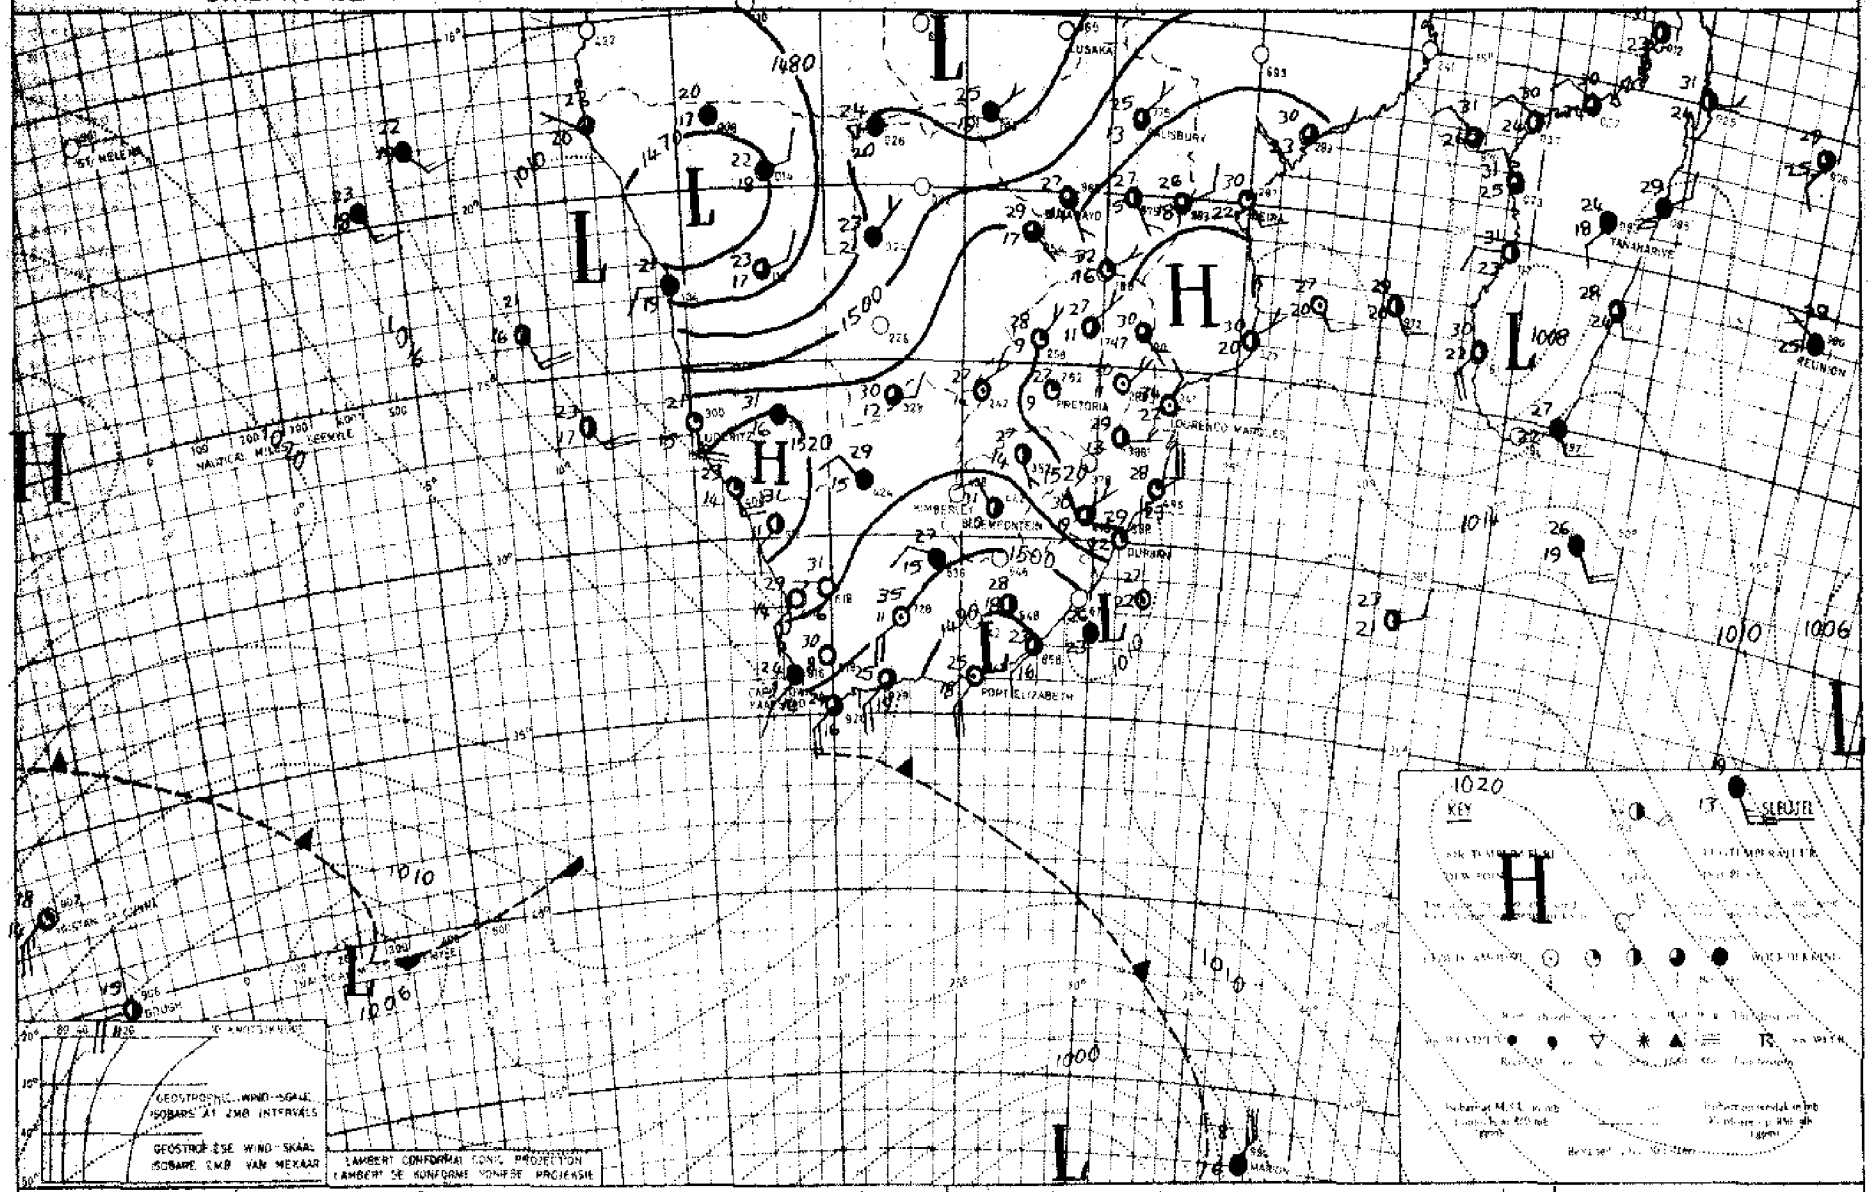
C.P.S. (L) **SYNOPTIC WEATHER MAP** 1200 GMT – 1400 SAST 1978-02-02 **SINOPTIESE WEERKAART** TV4/42



INFERENCE The low east of Gough is moving rapidly eastwards preventing the Atlantic high ridging in behind the cold front now at the Cape. The trough and unsettled weather over the central interior will thus also move very little.

AFLEIDING Die laag oos van Gough beweeg vinnig ooswaarts sodat die Atlantiese hoog nie agter die koufront nou by die Kaap sal inrug nie. Die trog en ongesteldige weer oor die sentrale binneland sal dus ook min beweeg.

INFERENCE The trough extending north-westwards over the Karoo is moving slowly eastwards and will cause further scattered showers over the central interior.

AFLEIDING Die trog wat noordweswaarts strek oor die Karoo beweeg stadig ooswaarts en sal verspreide buie oor die sentrale binneland veroorsaak.

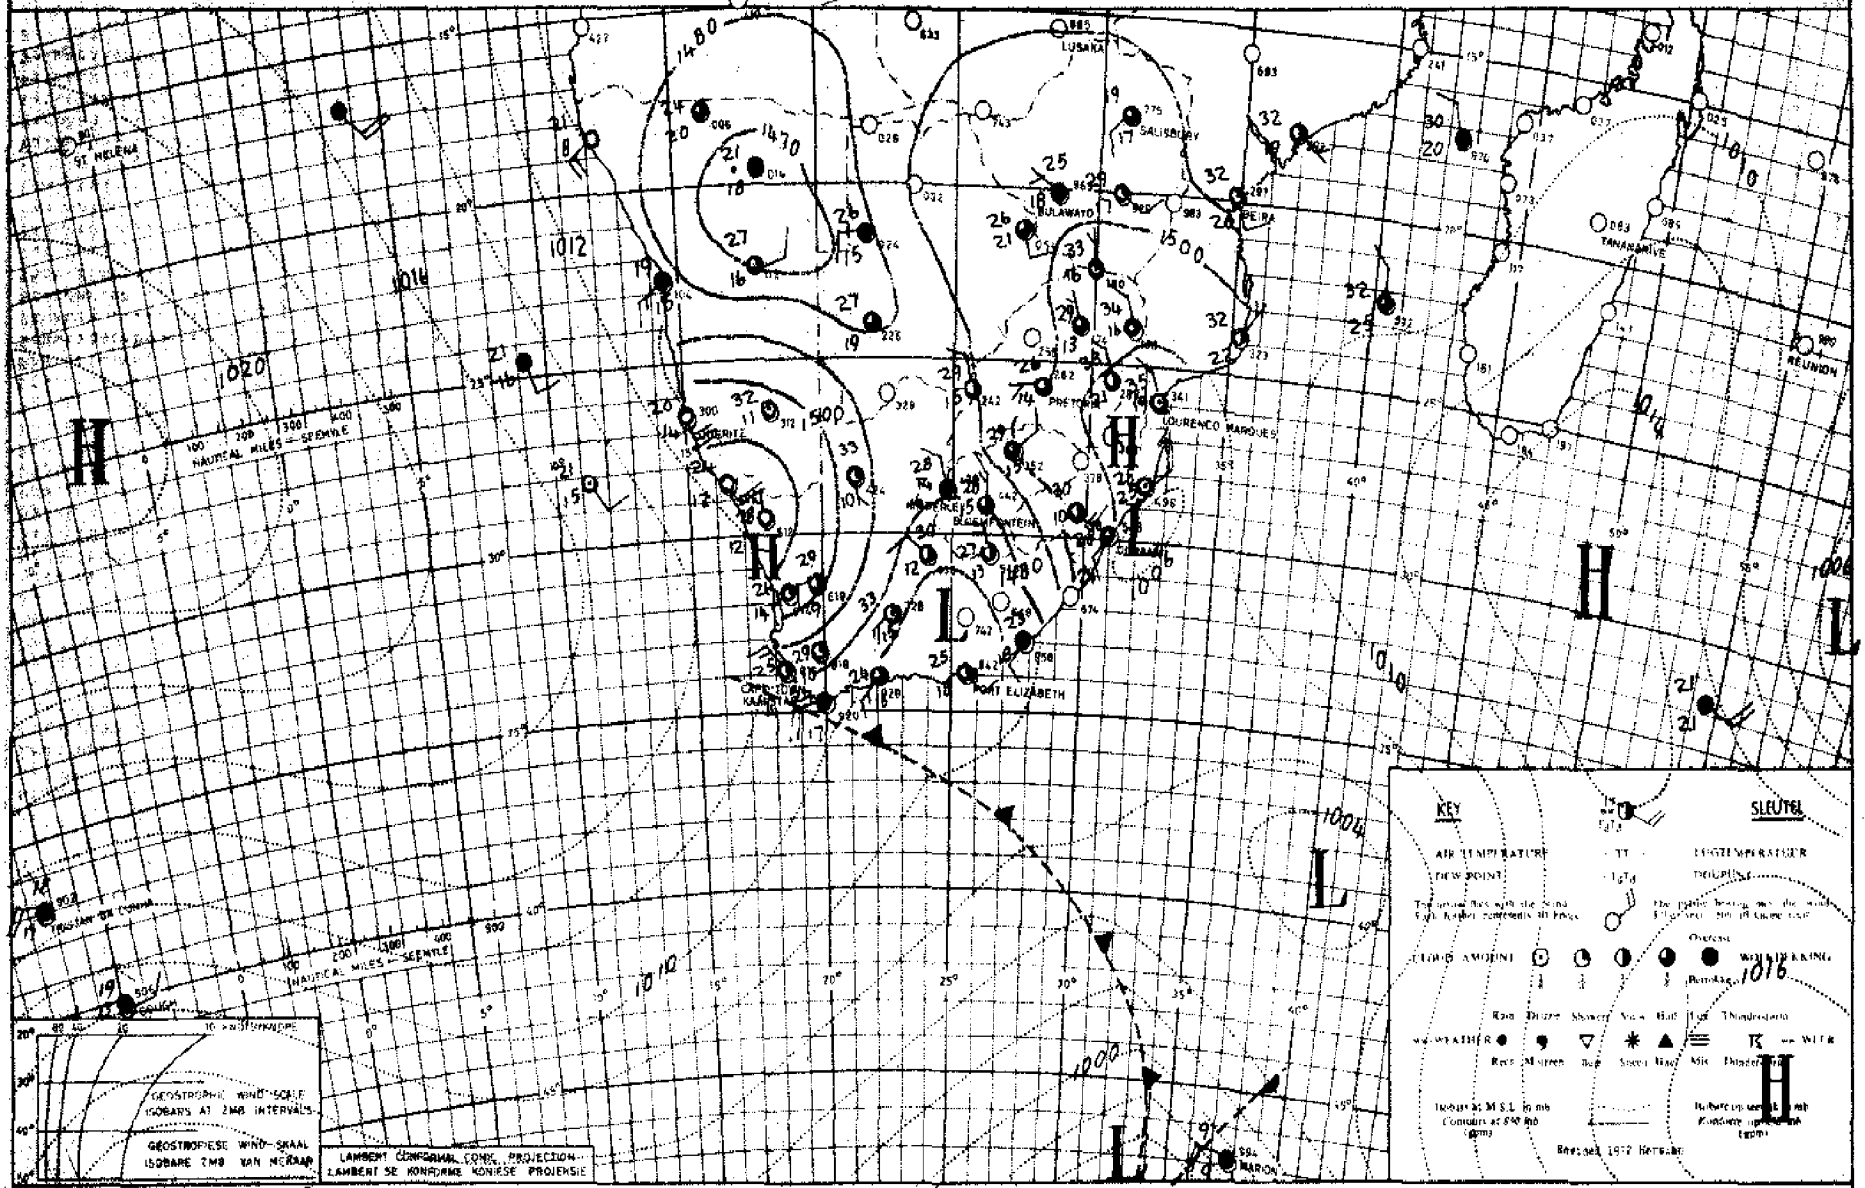
G.P.S (L) **SYNOPTIC WEATHER MAP** 1200 GMT – 1400 SAST 1978-02-04 **SINOPTIESE WEERKAART** 1/4/4



INFERENCE The cold front at the Cape is moving eastwards mainly to the south of the continent but further scattered showers will develop in the vicinity of the trough over the central interior.

AFLEIDING Die koufront by die Kaap beweeg hoofsaaklik suid van die land verby maar verdere verspreide buie sal in die omgewing van die trog oor die sentrale binneland voorkom.

INFERENCE The trough over the interior is moving slowly eastwards and thundershowers will spread also to Transvaal and Natal but dry air is spreading from the Atlantic ocean over the Cape Province.

AFLEIDING Die trog oor die binneland beweeg geleidelik oostwaarts sodat donderbuie ook na Transvaal en Natal sal uitbrei maar droë lug vanaf die Atlantiese oseaan sal oor die Kaapprovinsie inbeweeg.

INFERENCE The Atlantic high is ridging in over the southern parts of the country causing cooler weather to spread over these regions. Further thundershowers will occur in the moist air east of the inland trough.

AFLEIDING 'n Wig van die Atlantiese hoog stoot in oor die suidelike dele van die land en koeler weer sal oor hierdie streke uitbrei. Verdere donderbuie sal in die vogtige lug oos van die trog oor die binneland voorkom.

INFERENCE The strong ridge of high pressure south of the continent is still feeding cooler moist air in over the eastern half of the country. The deep low over the western interior is moving slowly southwards and thundershowers will develop also south of the Orange tomorrow.

AFLEIDING Met die sterk wig van hoë druk suid van die land word koeler vogtige lug steeds ingevoer oor die oostelike helfte van die land. Die diep laag oor die westelike binneland beweeg stadig suidwaarts sodat donderbuie môre ook suid van die Oranje sal voorkom.

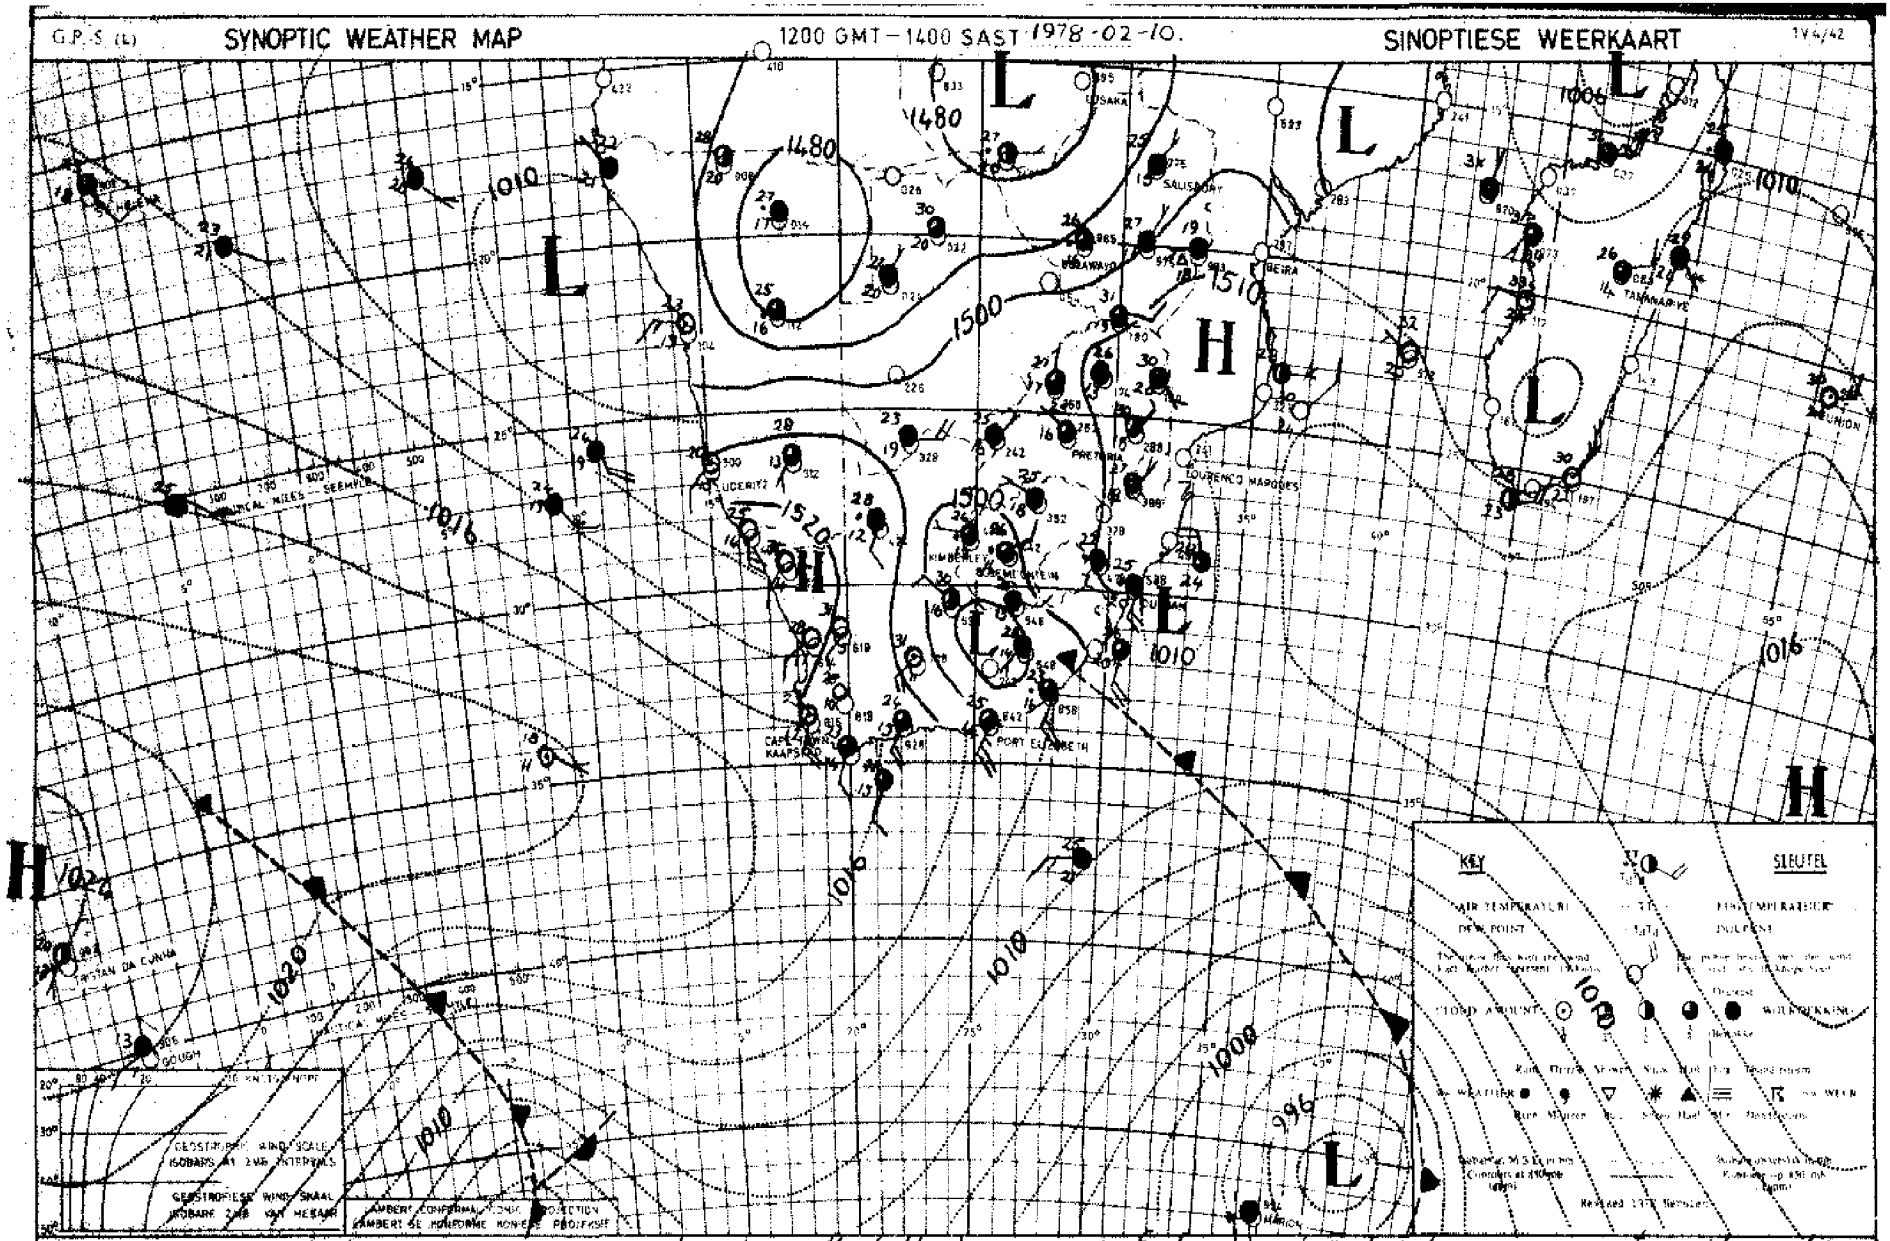
G.P.S (L) SYNOPTIC WEATHER MAP 1200 GMT – 1400 SAST 1978-02-10. SINOPTIESE WEERKAART 1V4/42



INFERENCE A cell of high pressure is moving eastwards south of the country and cool moist air will again be fed in over the north-eastern parts of the country. Further showers will occur over most regions except the western half of the Cape Province

AFLEIDING 'n Sel van hoë druk beweeg oostwaarts suid van die land verby sodat koel vogtige lug weereens oor die noordoostelike dele van die land sal instroom. Behalwe vir die westelike helfte van die Kaapprovinsie sal verdere buie oor die meeste gebiede uitval.

DAAGLIKSE WEERBULLETIN

KEY / SLEUTEL

AIR TEMPERATURE / LUGTEMPERATUUR

DEW POINT / DOUPUNT

The direction in which the wind is blowing / Die rigting waarin die wind waai

The direction from which the wind is blowing / Die rigting waarvandaan die wind waai

CLOUD AMOUNT / WOLKDEKKING

WEATHER / WEER

Rain / Reën, Drizzle / Motreën, Showers / Buie, Hail / Hael, Thunderstorm / Donderstorm

Isobars at MSL in mb / Isobare op GSV in mb

Contours of 850 mb (upper) / Kontoere op 850 mb (bo)

Isotherms at 10°C intervals / Isoterme op 10°C interval

Contours of 1000 mb (lower) / Kontoere op 1000 mb (onder)

Revised 1978 Hersien

INFERENCE The cell of high pressure south of the Cape is moving eastwards and cool rainy weather will be fed in over Eastern Cape, Natal and Transvaal but the air over the western half of the country is dry. Cooler frontal weather is expected at the Cape later tomorrow.

AFLEIDING Die sel van hoë druk suid van die Kaap beweeg ooswaarts en koel reënweer sal ingevoer word oor Oos-Kaap, Natal en Transvaal maar oor die westelike helfte van die land is die lug droog. Koeler frontale weer word later môre by die Kaap verwag.

INFERENCE The weak cold front at the Cape is being followed by a strong ridge of the Atlantic high which causes dry conditions over the western half of the country. Very moist air, however is still being fed in over the north-eastern regions where further rain will occur.

AFLEIDING Die swak koufront by die Kaap word gevolg deur 'n sterk wig van die Atlantiese hoog wat droë toestande oor die westelike helfte van die land veroorsaak. Besonder vogtige lug word egter nog oor die noordoostelike gebiede ingevoer waar verdere reën sal voorkom.

INFERENCE With the eastward movement of the cold front south-west of the Cape the low-pressure trough over the western interior will deepen and further scattered showers will develop to the east of the trough.

AFLEIDING Met die ooswaartse beweging van die koue-front suidwes van die Kaap sal die trog van lae druk oor die westelike binneland verdiep en verdere verspreide buie sal oos van die trog ontwikkel.

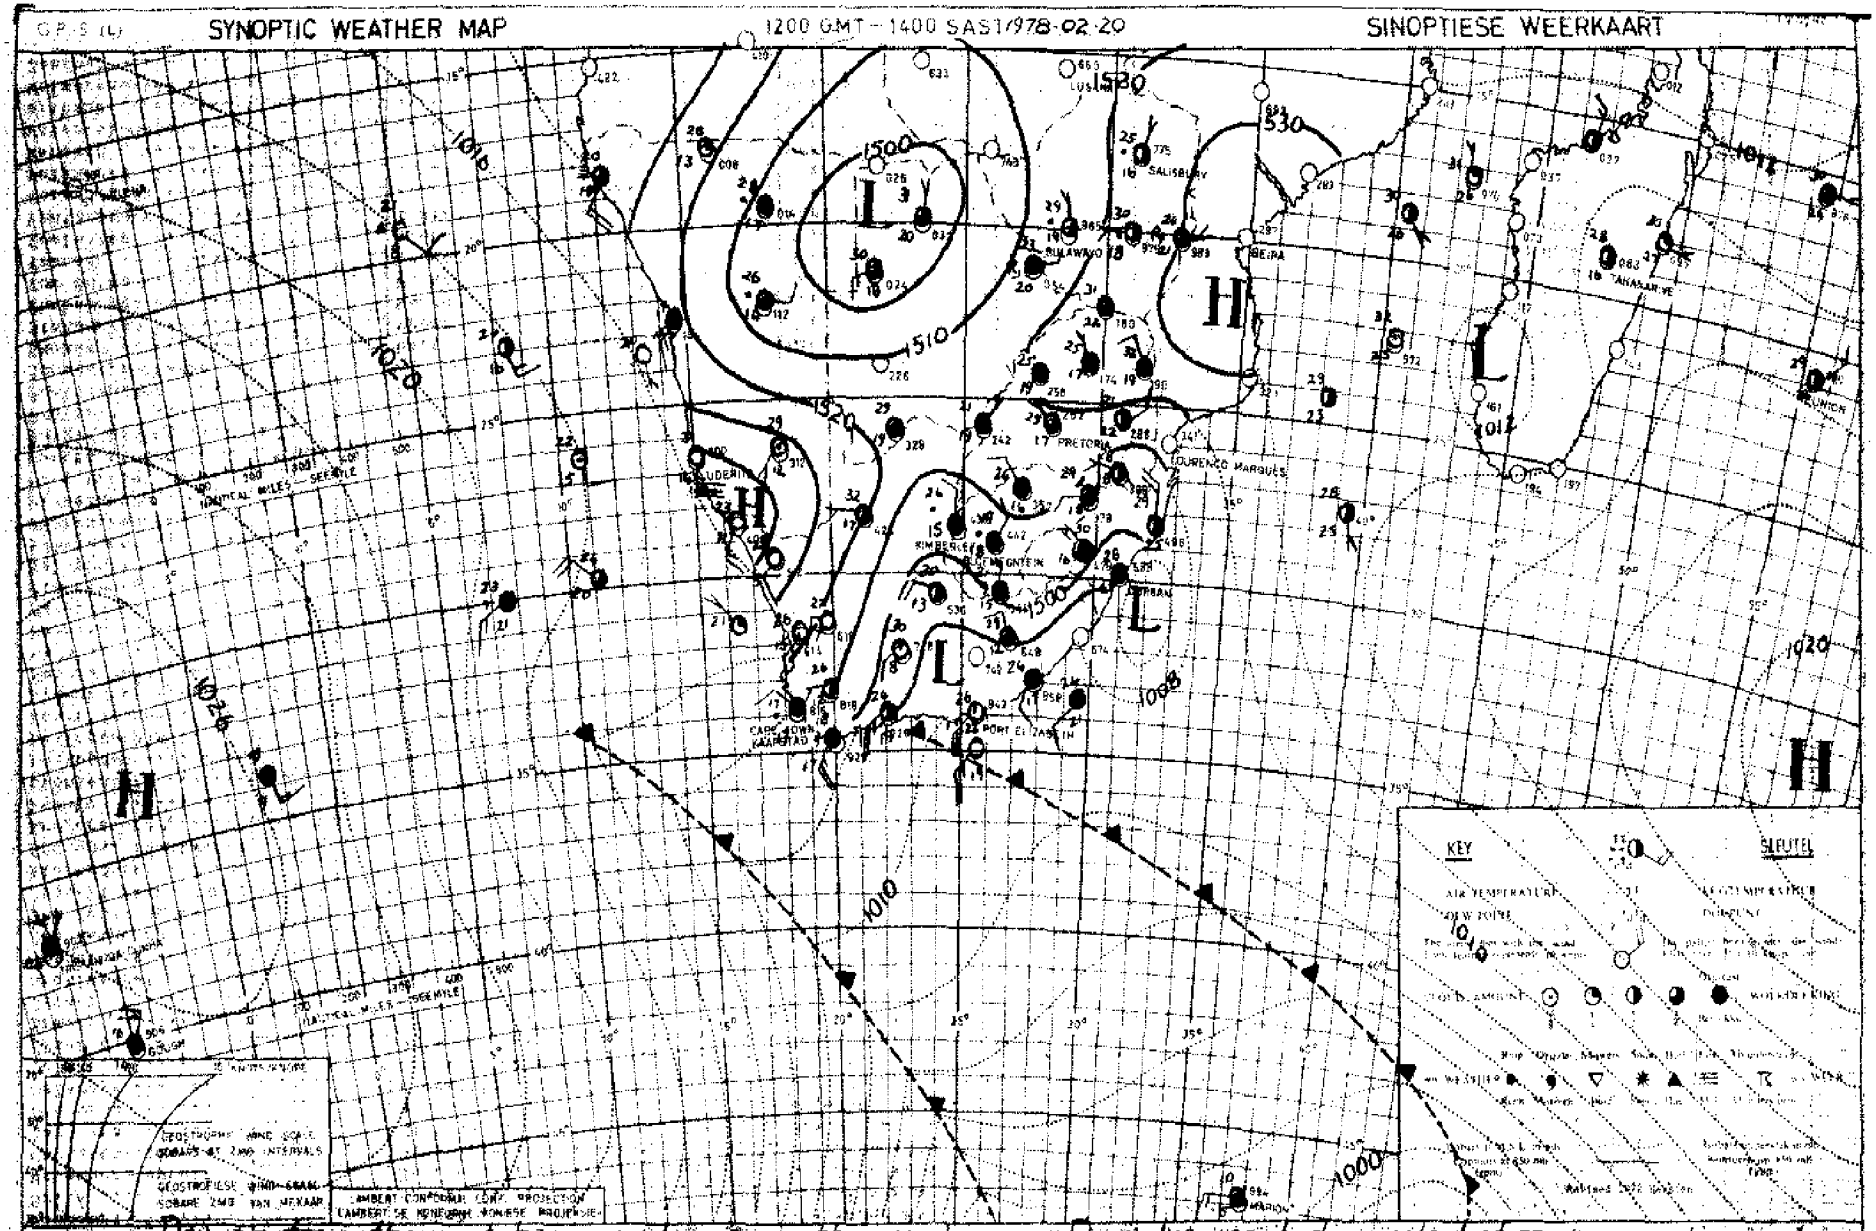
G.P.S. (L) SYNOPTIC WEATHER MAP 1200 GMT – 1400 SAST 1978-02-20 SINOPTIESE WEERKAART



INFERENCE Dry air from the west has moved in over the western interior but the Atlantic high is now ridging in to the south of the continent and cooler weather with showers will spread over the southern and south-eastern parts.

AFLEIDING Droë lug vanuit die weste het reeds oor die weste-like binneland inbeweeg maar in wig van die Atlantiese hoog staat nou ook suid van die land in sodat koeler weer met buie oor die suidelike en suidoostelike dele van die land sal uitbreek.

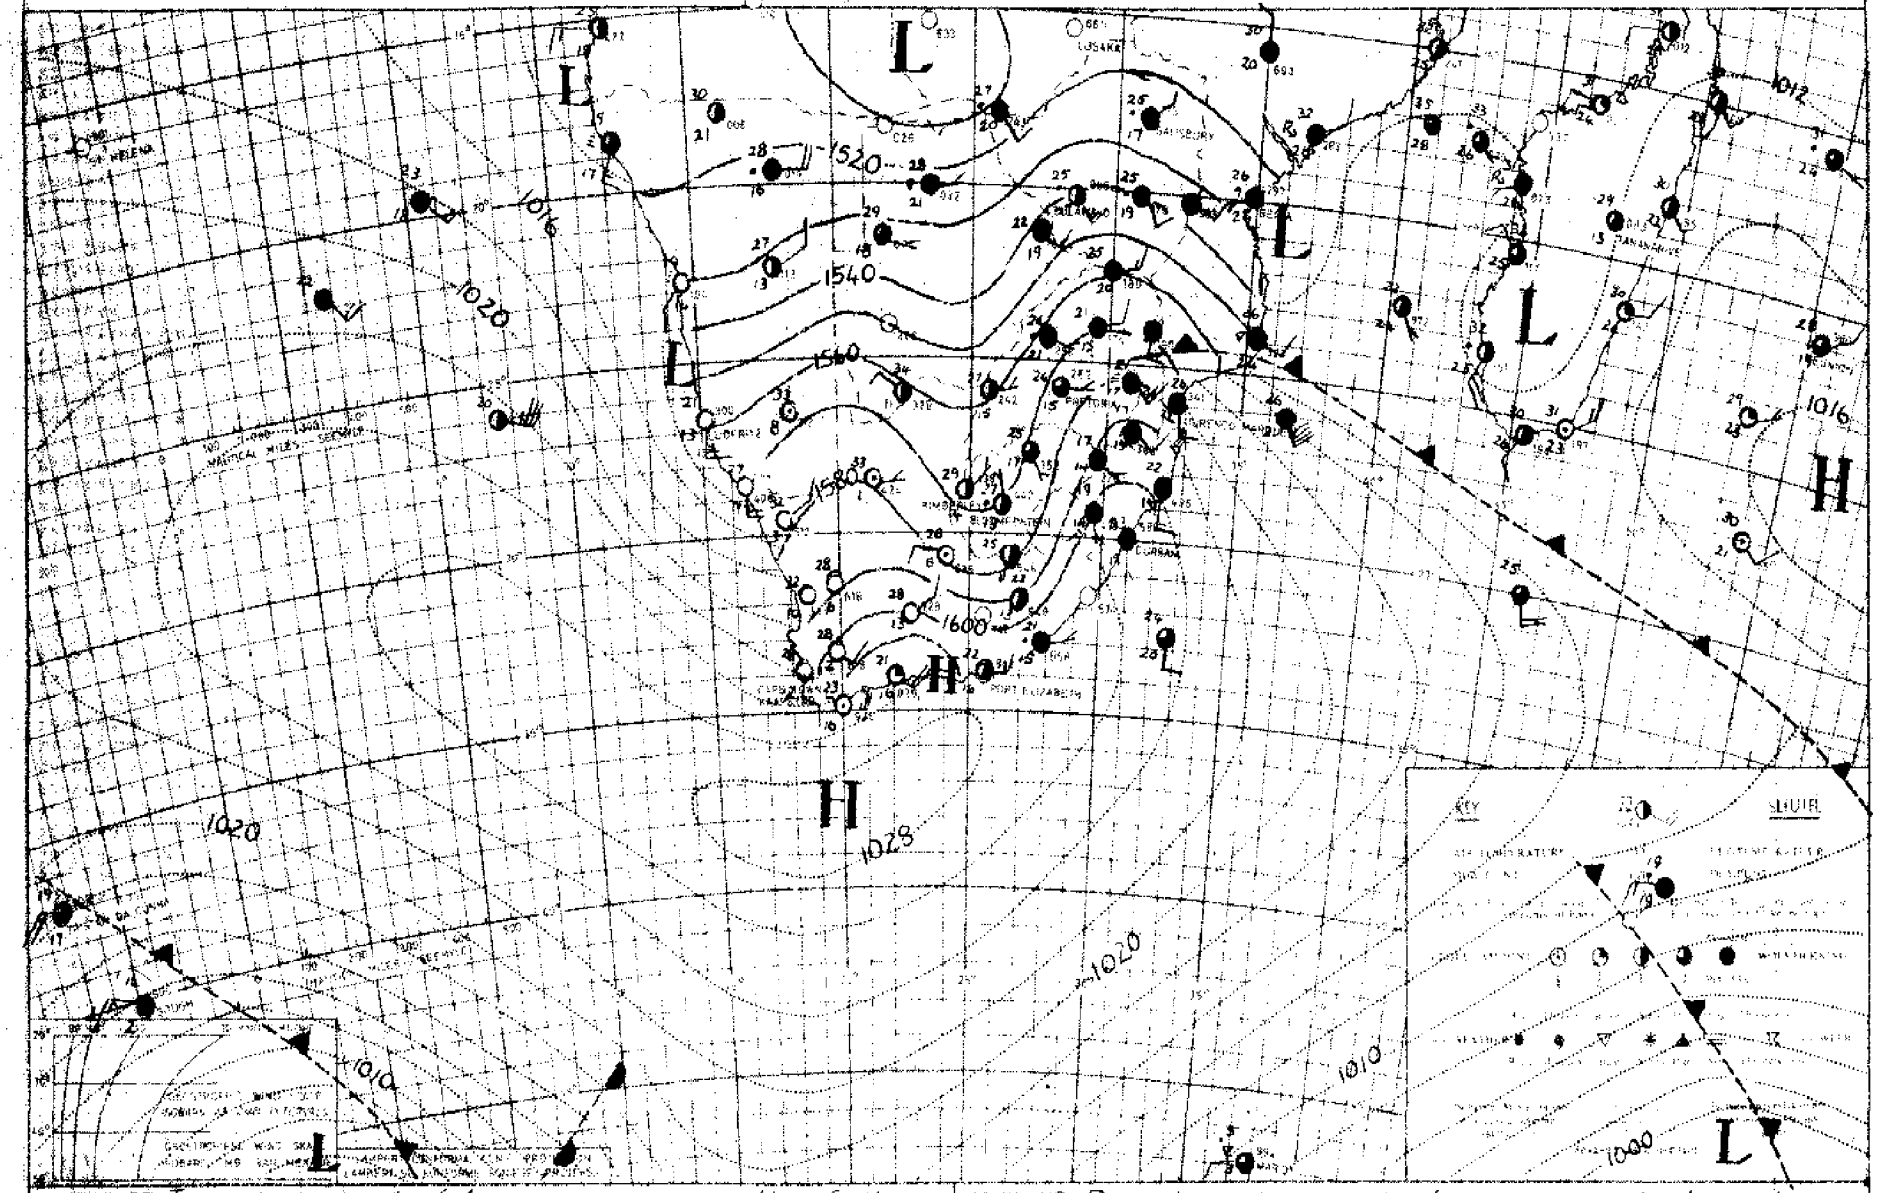
SYNOPTIC WEATHER MAP 1200 GMT 1400 SAST 1978-02-22 SINOPTIESE WEERKAART



INFERENCE The strong cell of high pressure south of the continent is moving eastwards. Cool moist air is still being advected over the eastern half of the country and will spread slowly to the central interior. Bergwinds will develop along the west coast.

AFLEIDING Die sterk hoogdruksel suid van die land beweeg ooswaarts. Koel vogtige lug word steeds oor die oostelike helfte van die land ingevoer en brei ook geleidelik na die sentrale binneland uit. Bergwinde sal oor die Weskus ontwikkel.

INFERENCE The deep low over S.W.A. is moving slowly south-eastwards over Botswana and general rain and showers will occur south-east and east of this system. Cooler moist air will be fed in from the south-east over Natal and Transvaal.

AFLEIDING Die diep laag oor S.W.A. beweeg stadig suidoos-waarts oor Botswana en algemene reën en buie sal suidoos en oos van hierdie sisteem voorkom. Koeler vogtige lug sal oor Natal en Oos-Transvaal vanuit die suidooste ingevoer word.

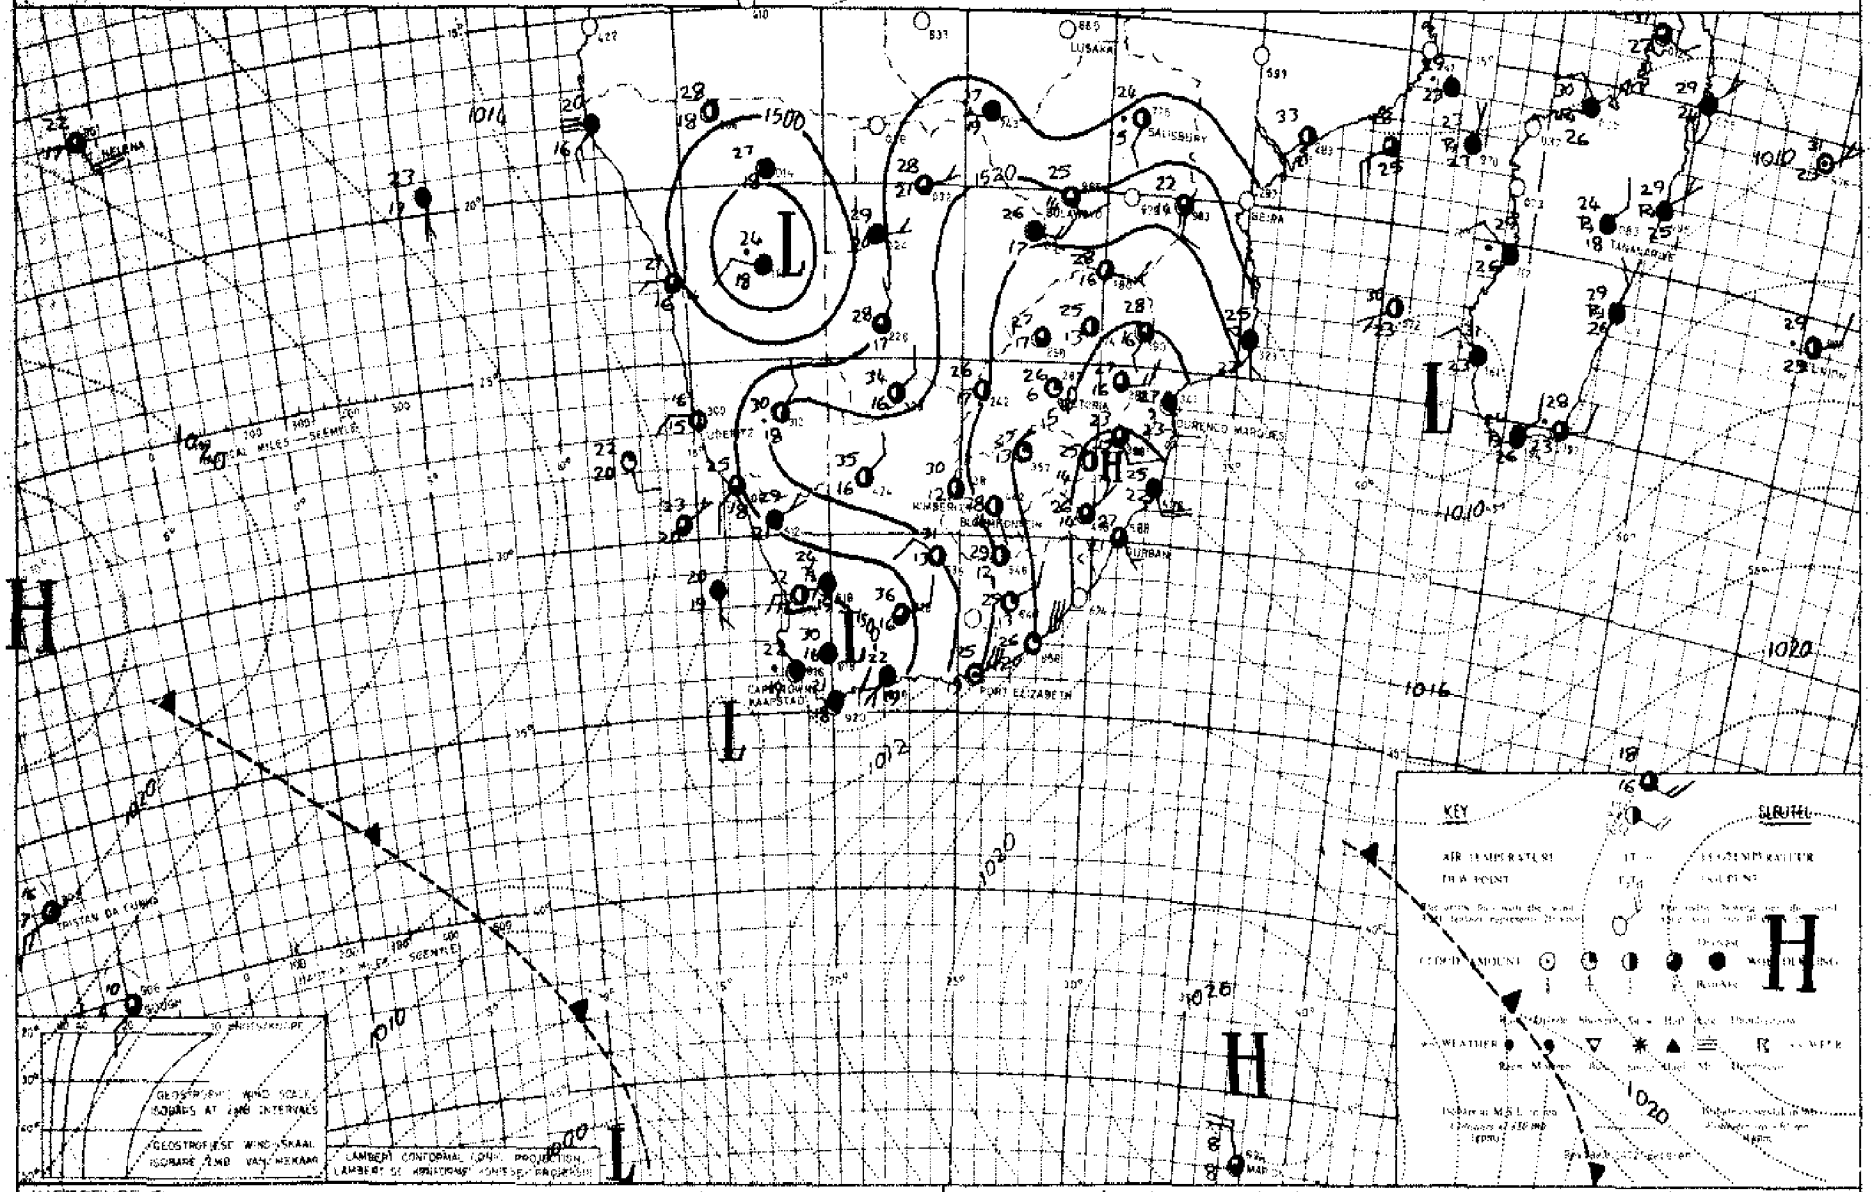
SYNOPTIC WEATHER MAP

1200 GMT – 1400 SAST 1978-02-28

SINOPTIESE WEERKAART

TV4/42



INFERENCE The low-pressure systems over the western parts of the country are moving slowly southwards and are causing scattered showers over these areas. Moist air is still being advected from the south-east over Northern Natal and Eastern Transvaal.

AFLEIDING Die laedrukstelsels oor die westelike dele van die land beweeg stadig suidwaarts en veroorsaak verspreide buie oor hierdie gebiede. Voglige lug word steeds vanuit die suidooste oor Noord-Natal en Oos-Transvaal ingevoer.

INFERENCE The low along the East coast has moved inland and has weakened but further showers will occur over the north-eastern interior. A weak ridge of high pressure will push in south of the continent with light rain over the southern coastal regions.

AFLEIDING Die laag langs die Oostus het oor die binneland inbeweeg en het verswak maar verdere buie sal oor die noordoostelike binneland voorkom. 'n Swak wig van hoë druk sal suid van die land instoot met ligte reën oor die suidelike kusstreke.

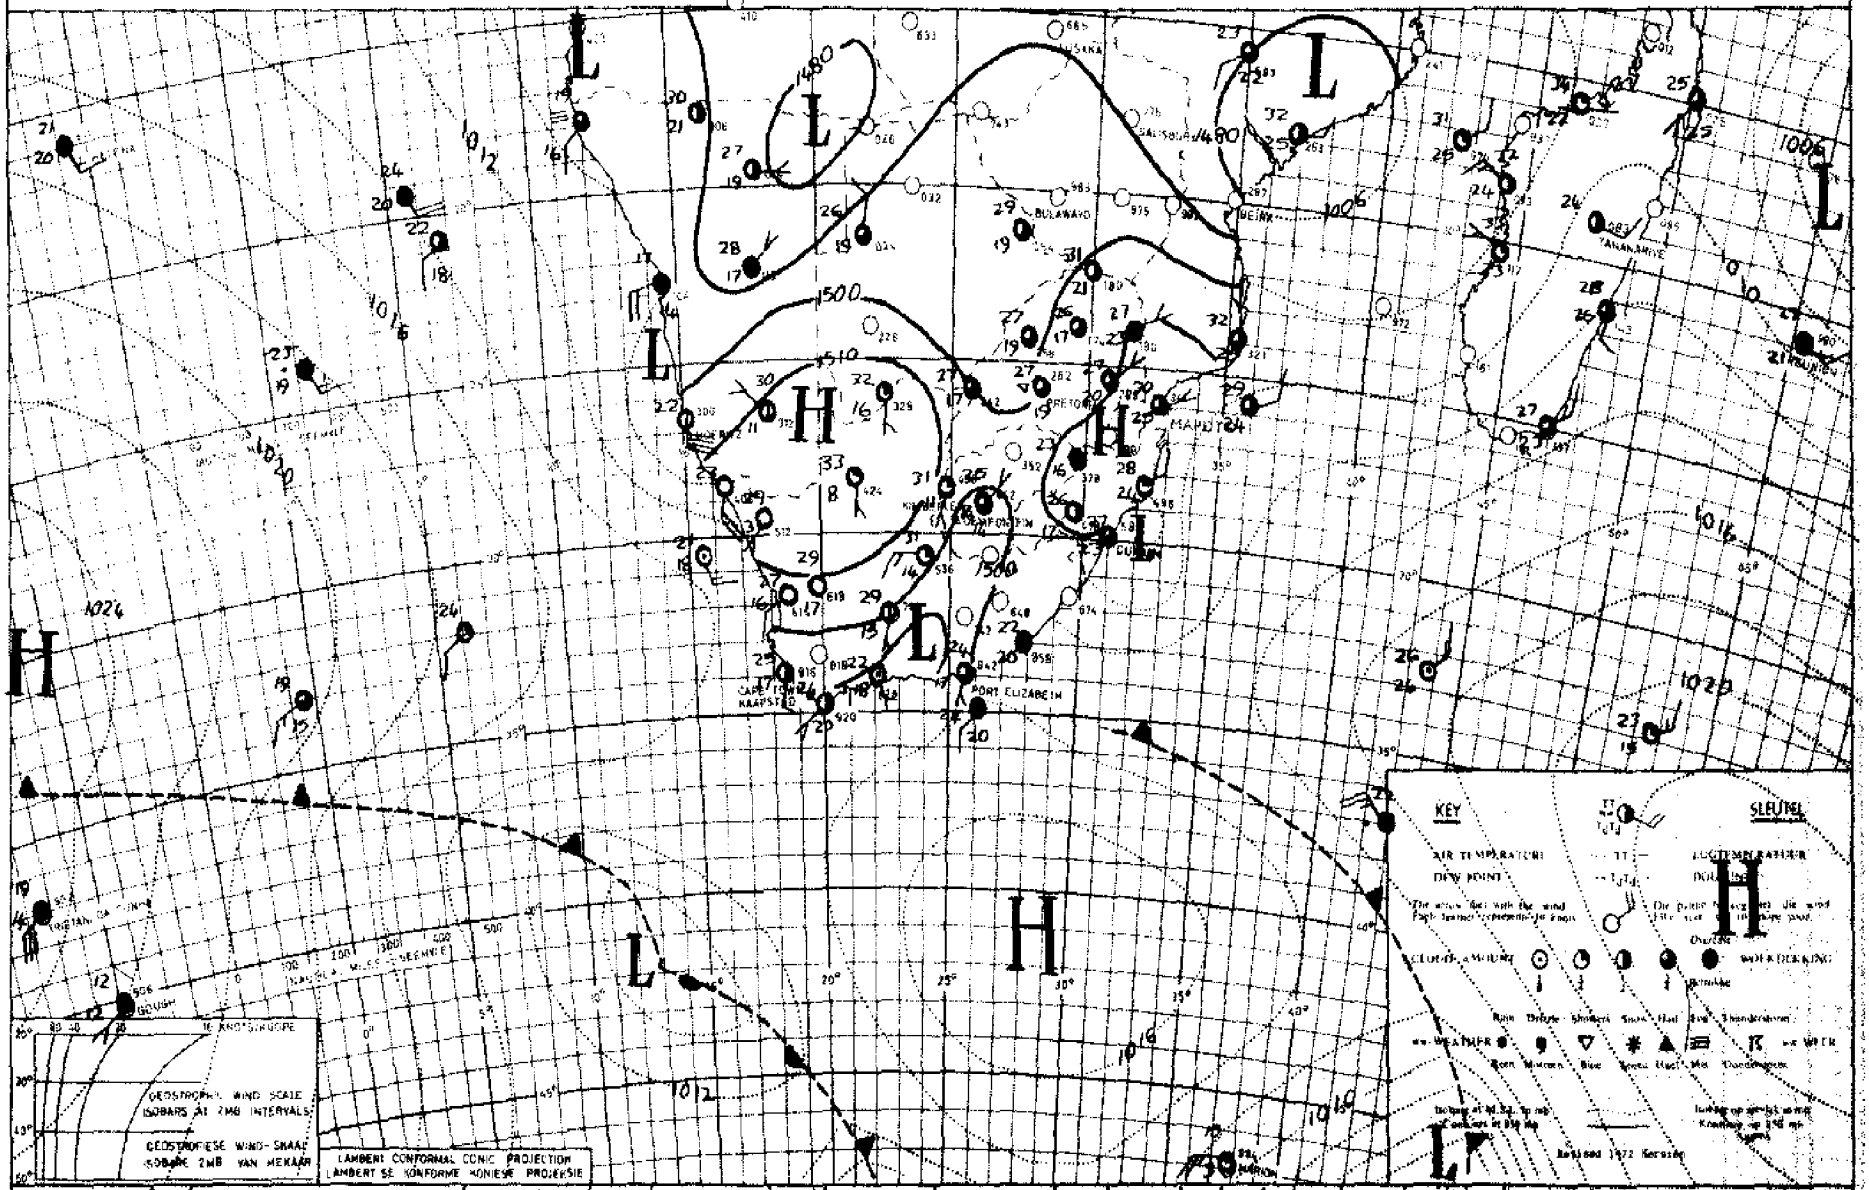
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-03-06 SINOPTIESE WEERKAART



INFERENCE A low-pressure system is developing to the south-west of the continent causing the low over South-west Cape and trough over the central interior to deepen considerably. Scattered rain and showers will again occur over the eastern half of the country.

AFLEIDING 'n Laedrukstelsel ontwikkel suidwes van die land sodat die laag oor Suidwes-Kaap en die trog oor die sentrale binneland aanmerklik sal verdiep. Verspreide reën en buie sal dus steeds oor die oostelike helfte van die land voorkom.

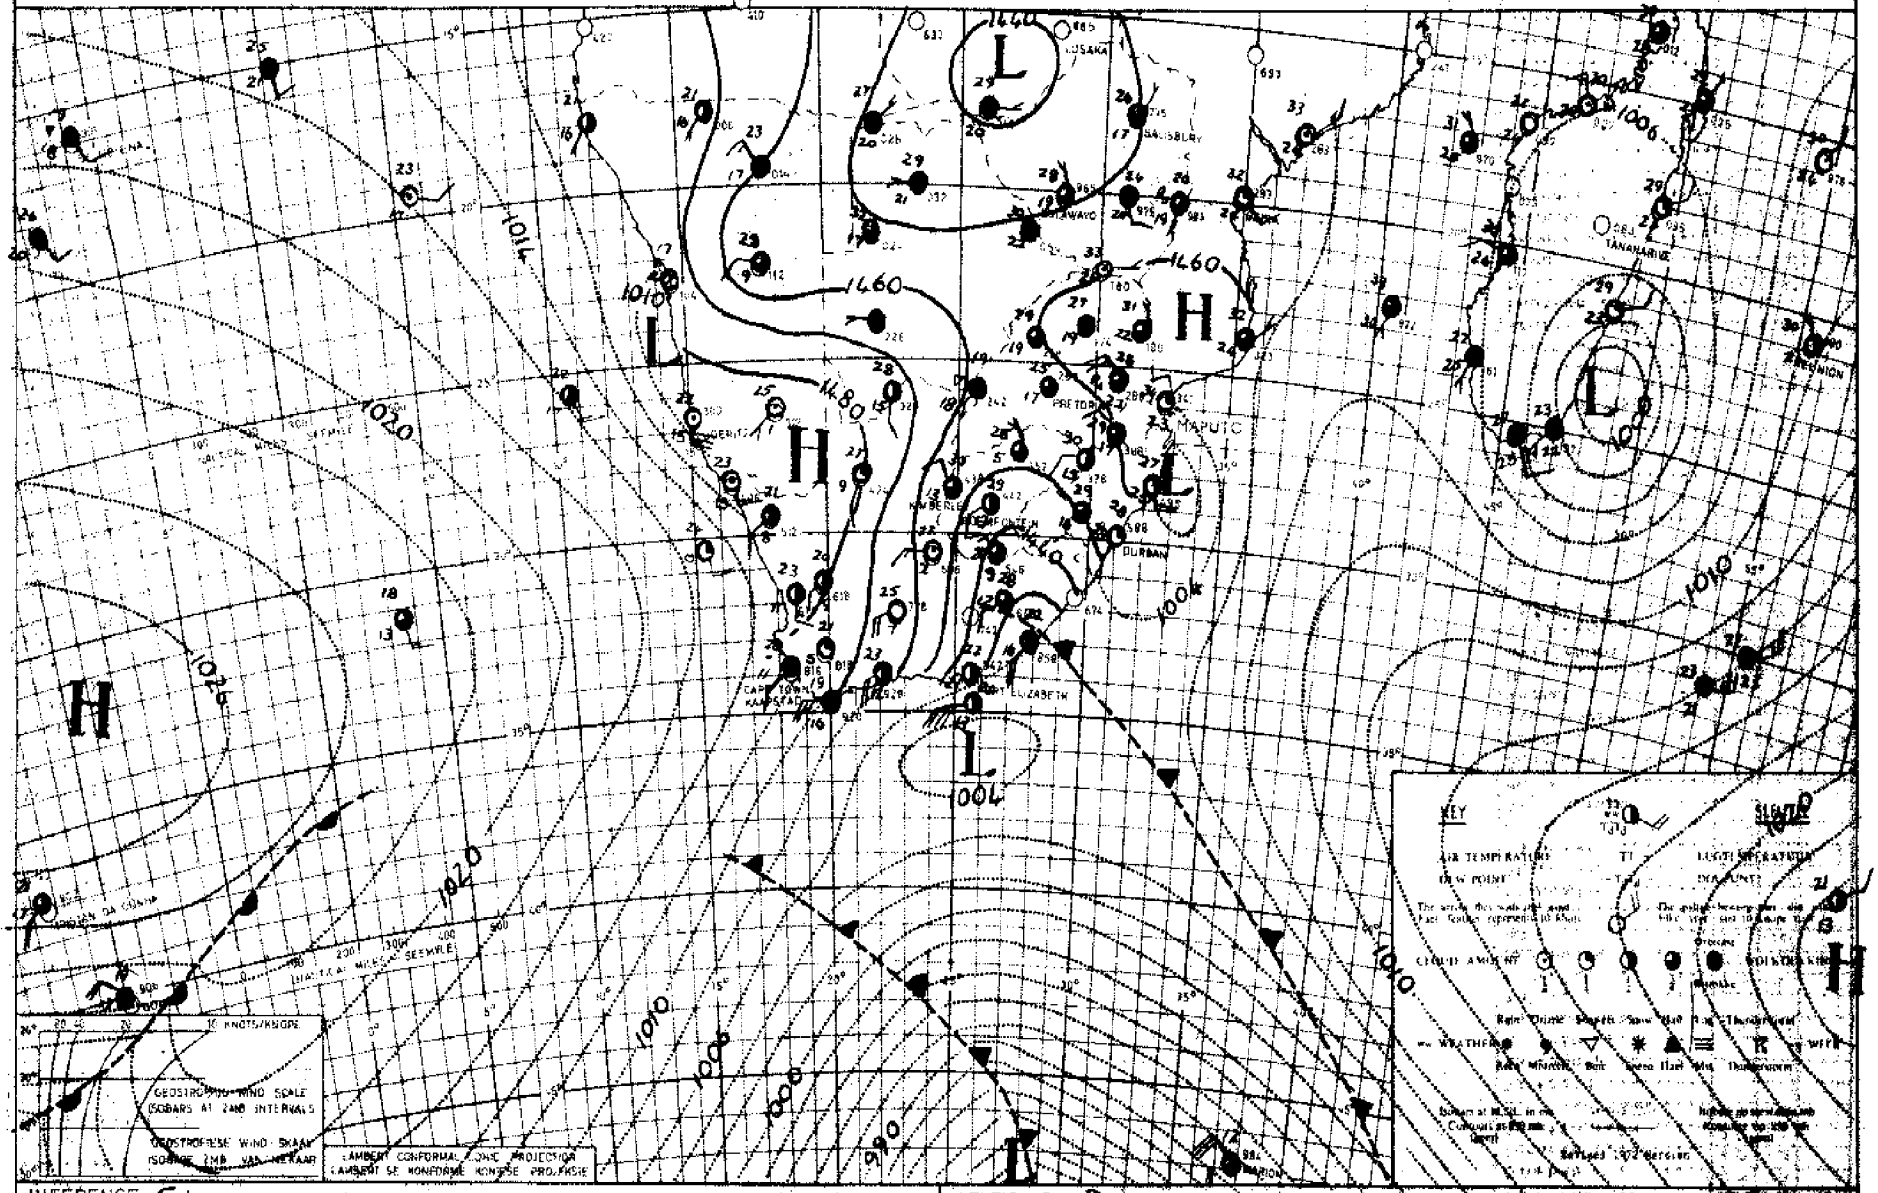
G.P.S. (L) SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-03-08 SINOPTIESE WEERKAART TV4/42



INFERENCE Showers will occur east of the deep trough over Eastern Cape but dry air is spreading gradually eastwards over the interior. Cold weather with showers will spread along the south-eastern and eastern coastal areas, overnight and over Transvaal during tomorrow.

AFLEIDING Buie sal nog oos van die diep trog oor Oos Kaap voorkom maar droë lug beweeg geleidelik ooswaarts oor die binneland. Kouer weer met buie sal oornag langs die suidoos- en ooskusstreke uitbrei en môre ook oor Transvaal instoot.

INFERENCE A ridge of the Atlantic high is pushing in rapidly south of the continent and will cause cool weather with light rain over the eastern half of the country tomorrow. Scattered showers will occur today east of the trough of low pressure.

AFLEIDING 'n Wig van die Atlantiese hoog stoot vinnig suid van die land in sodat koel weer met ligte reën môre oor die oostelike helfte van die land sal voorkom. Verspreide donderbuie sal vandag oos van die trog van lae druk voorkom.

INFERENCE Cooler conditions with showers have spread over the north-eastern regions but the high south-east of Durban is weakening as a result of the frontal system south-west of the continent. Cooler rainy weather will develop over South-western Cape tomorrow.

AFLEIDING Koeler toestande met buie het oor die noord-oostelike dele ingestoot maar die hoog suidoos van Durban verswak as gevolg van die frontale stelsel suidwes van die land. Koeler reënweer sal môre oor Suid-wes-Kaap ontwikkel.

INFERENCE The cold front and a ridge of high pressure are moving eastwards and cooler weather with showers will push in over the southern and south-eastern parts of the country. Showers will also occur east of the deep trough over Eastern Cape.

AFLEIDING Die koufront en 'n wig van hoë druk beweeg oostwaarts sodat koeler weer met buie oor die suidelike en suidoostelike dele van die land sal instoot. Buie sal ook voorkom oos van die diep trog oor Oos-Kaap.

INFERENCE A trough in the upper air is moving slowly eastwards and is causing fairly general rain and thundershowers over the eastern half of the Cape Province, Free State and Natal but will clear partially in the west tomorrow. The ridge south of the continent is moving eastwards.

AFLEIDING 'n Trog in die bolug beweeg geleidelik oostwaarts en veroorsaak taamlik algemene reën en donderbuie oor die oostelike dele van die Kaapprovinsie, Vrystaat en Natal wat môre geskeftelik in die weste sal opklaar. Die rug van hoë druk suid van die land beweeg oostwaarts.

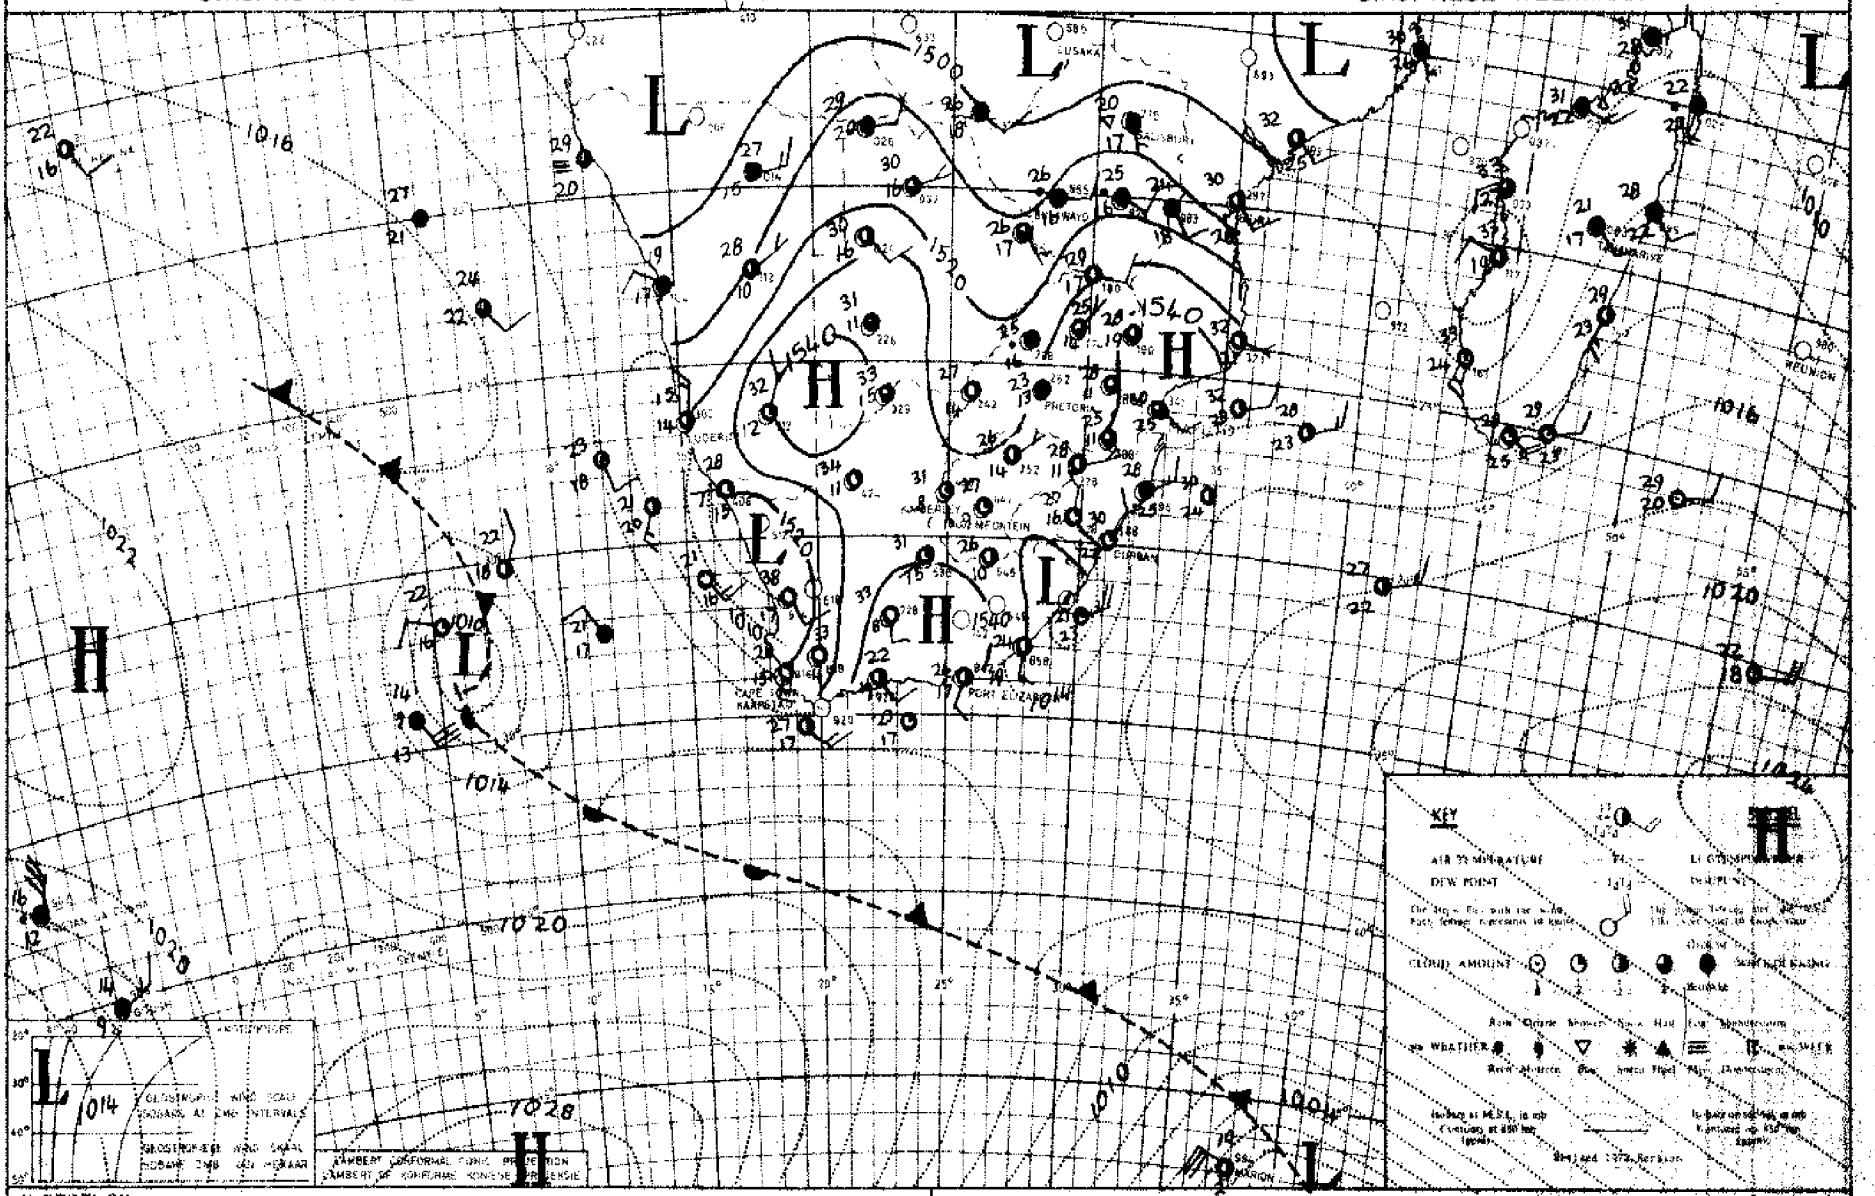
SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-03-18 SINOPTIESE WEERKAART



INFERENCE The low-pressure system west of the continent is moving very slowly and cooler conditions will only move in over South-West Cape later tomorrow. Isolated showers are still expected over the north-eastern regions.

AFLEIDING Die laedrukstelsel wes van die land beweeg baie stadig en koeler toestande sal eers later môre oor Suidwes-Kaap inbeweeg. Enkele buie word nog oor die noordoostelike gebiede verwag.

DAAGLIKSE WEERBULLETIN

INFERENCE Several cold fronts are moving eastwards over the Atlantic ocean but are passing to the south of the continent owing to the strong high east of Marion. Light showers will still occur over the eastern half of the country.

AFLEIDING Verskeie koue fronte beweeg oostwaarts oor die Atlantiese oseaan maar gaan hoofsaaklik suid van die land verby as gevolg van die sterk hoog oos van Marion. Ligte buie sal nog oor die oostelike helfte van die land voorkom.

INFERENCE A cell of high pressure is moving eastwards south of the continent and cooler moist air will spread over Natal and Eastern Transvaal overnight with light showers. Elsewhere over the country the air is fairly dry.

AFLEIDING 'n Sel van hoë druk beweeg ooswaarts suid van die land verby en koeler vogtige lug sal oornag oor Natal en Oos-Transvaal instroom met ligte buie. Elders oor die land is die lug steeds betreklik droog.

INFERENCE A trough is developing over the central interior where local thundershowers will develop. The cold front to the west of the continent will cause colder weather with showers over Western and South-western Cape tomorrow.

AFLEIDING 'n Trog ontwikkel oor die sentrale binne-land waar enkele donderbuie sal voorkom. Die koufront wes van die land sal môre kouer weer met buie oor Wes- en Suidwes-Kaap veroorsaak.

INFERENCE Cooler weather with local showers will move in over the southern Cape Province. Moist air is moving southwards over the Karoo where conditions will become more favourable for thundershowers.

AFLEIDING Koeler weer met enkele buie sal oor die suidelike Kaapprovinsie inbeweeg. Voglige lug beweeg suidwaarts oor die Karoo sodat toestande daar meer gunstig sal raak vir donderbuie.

INFERENCE The strong Atlantic high is moving slowly eastwards south of the continent and with the low-pressure system over the southern Free State fairly general showers are expected over the southern half of the country.

AFLEIDING Die sterk Atlantiese hoog beweeg stadig ooswaarts suid van die land en met die laedrukstelsel oor die suidelike Vrystaat word taamlik algemene buie oor die suidelike helfte van die land verwag.

INFERENCE The cold front south-west of the continent and strong high at Gough Island are moving slowly eastwards and cold rainy weather is not expected over South-west Cape before later tomorrow. Further showers will occur over the central interior.

AFLEIDING Die koufront suidwes van die land en sterk hoog by Gougheiland beweeg stadig ooswaarts sodat koue reënweer eers later môre oor Suidwes-Kaap verwag word. Verder buie sal oor die sentrale binneland voorkom.

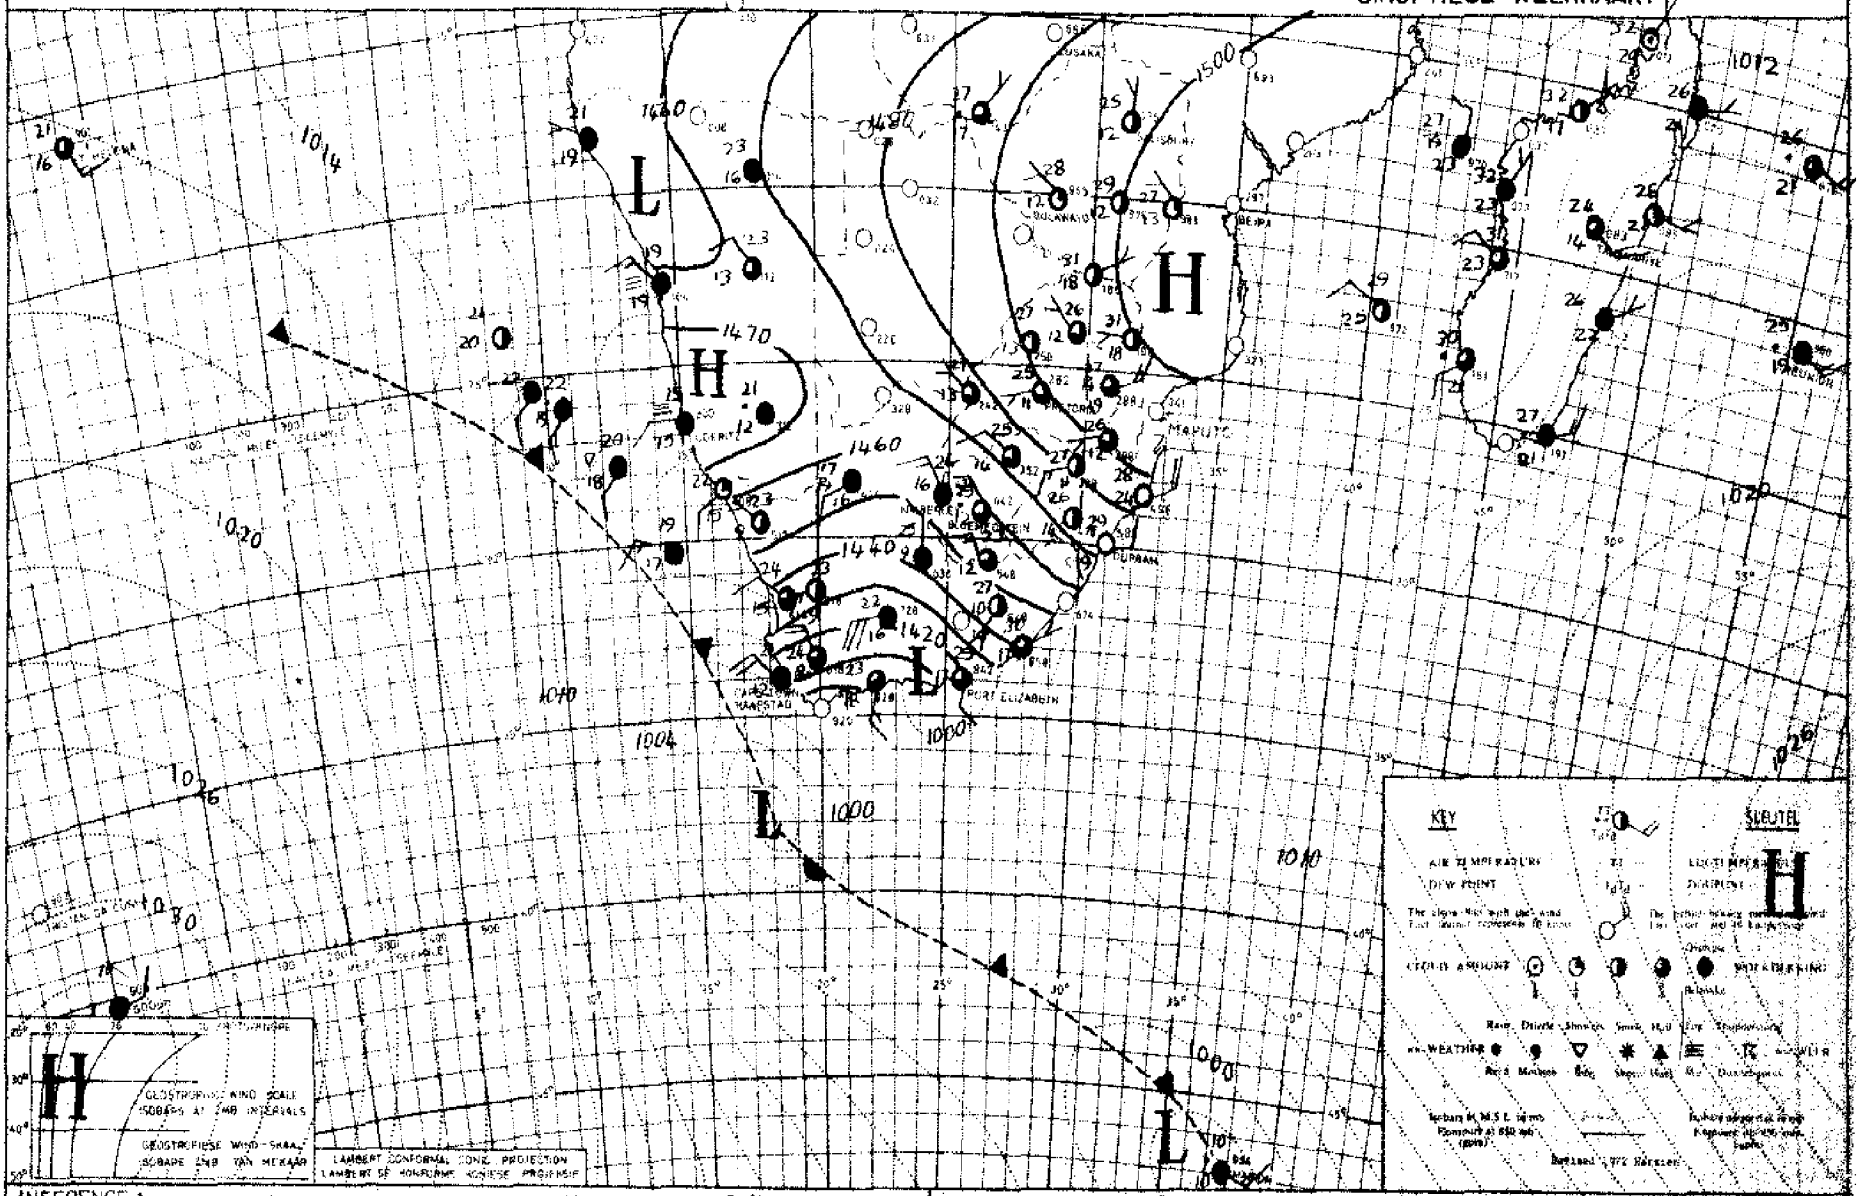
SYNOPTIC WEATHER MAP 12h00 GMT-14h00 SAST 1978-03-30. SINOPTIESE WEERKAART



INFERENCE A wave has developed south-west of the continent on the front and the trough over the interior has deepened. General rain and showers will occur over most areas. Cold air will move in over the western parts of the country tomorrow with snow on the Boland mountains.

AFLEIDING 'n Golf het suidwes van die land op die front ontwikkel sodat die trog oor die binneland verdiep het. Algemene reën en buie sal oor die meeste dele voorkom. Koue lug sal môre oor die westelike dele van die land inbeweeg met sneeu op die Bolandse berge.

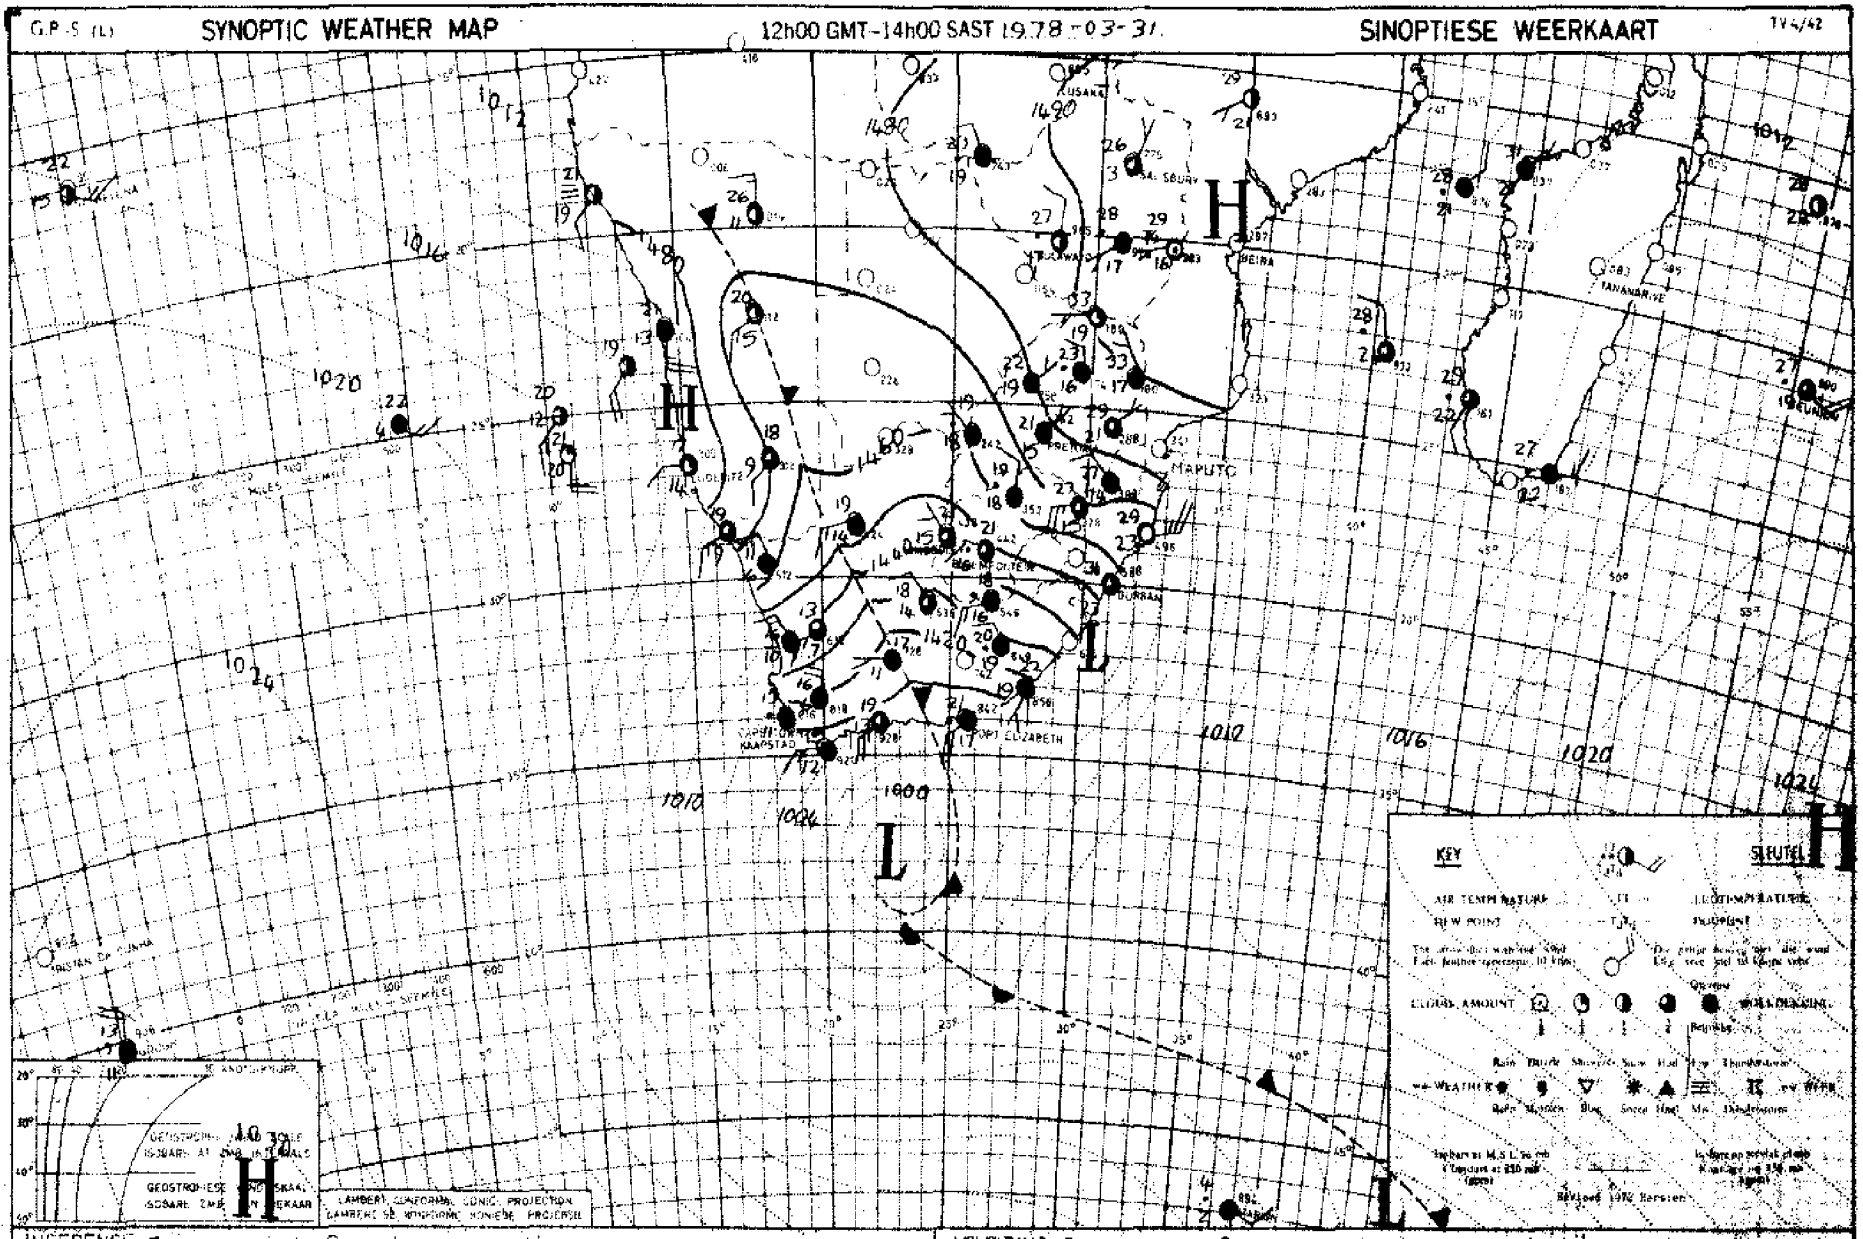
G.P.-S (L) SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-03-31 SINOPTIESE WEERKAART TV 4/42



INFERENCE The cold front over the western interior is moving eastwards and cold air will move in over S.W.A., the Cape Province and Free State. Showers will occur over most parts with snow over the southern mountain ranges.

AFLEIDING Die koufront oor die westelike binneland beweeg oswaarts en koue lug sal oor S.W.A., die Kaapprovinsie en Vrystaat inbeweeg. Buie sal oor die meeste dele voorkom met sneeu op die suidelike bergreekse.

INFERENCE Cool moist air is still being advected in the lower air layers over the eastern parts of the country but the air westwards is dry with bergwinds along the West coast. The coastal low, however, is moving slowly southwards

AFLEIDING Koel, voglige lug word steeds in die onderste luglae oor die oostelike dele van die land ingevoer maar weswaarts is die lug droog met bergwinde oor die Weskus. Die kuslaag beweeg egter geleidelik suidwaarts

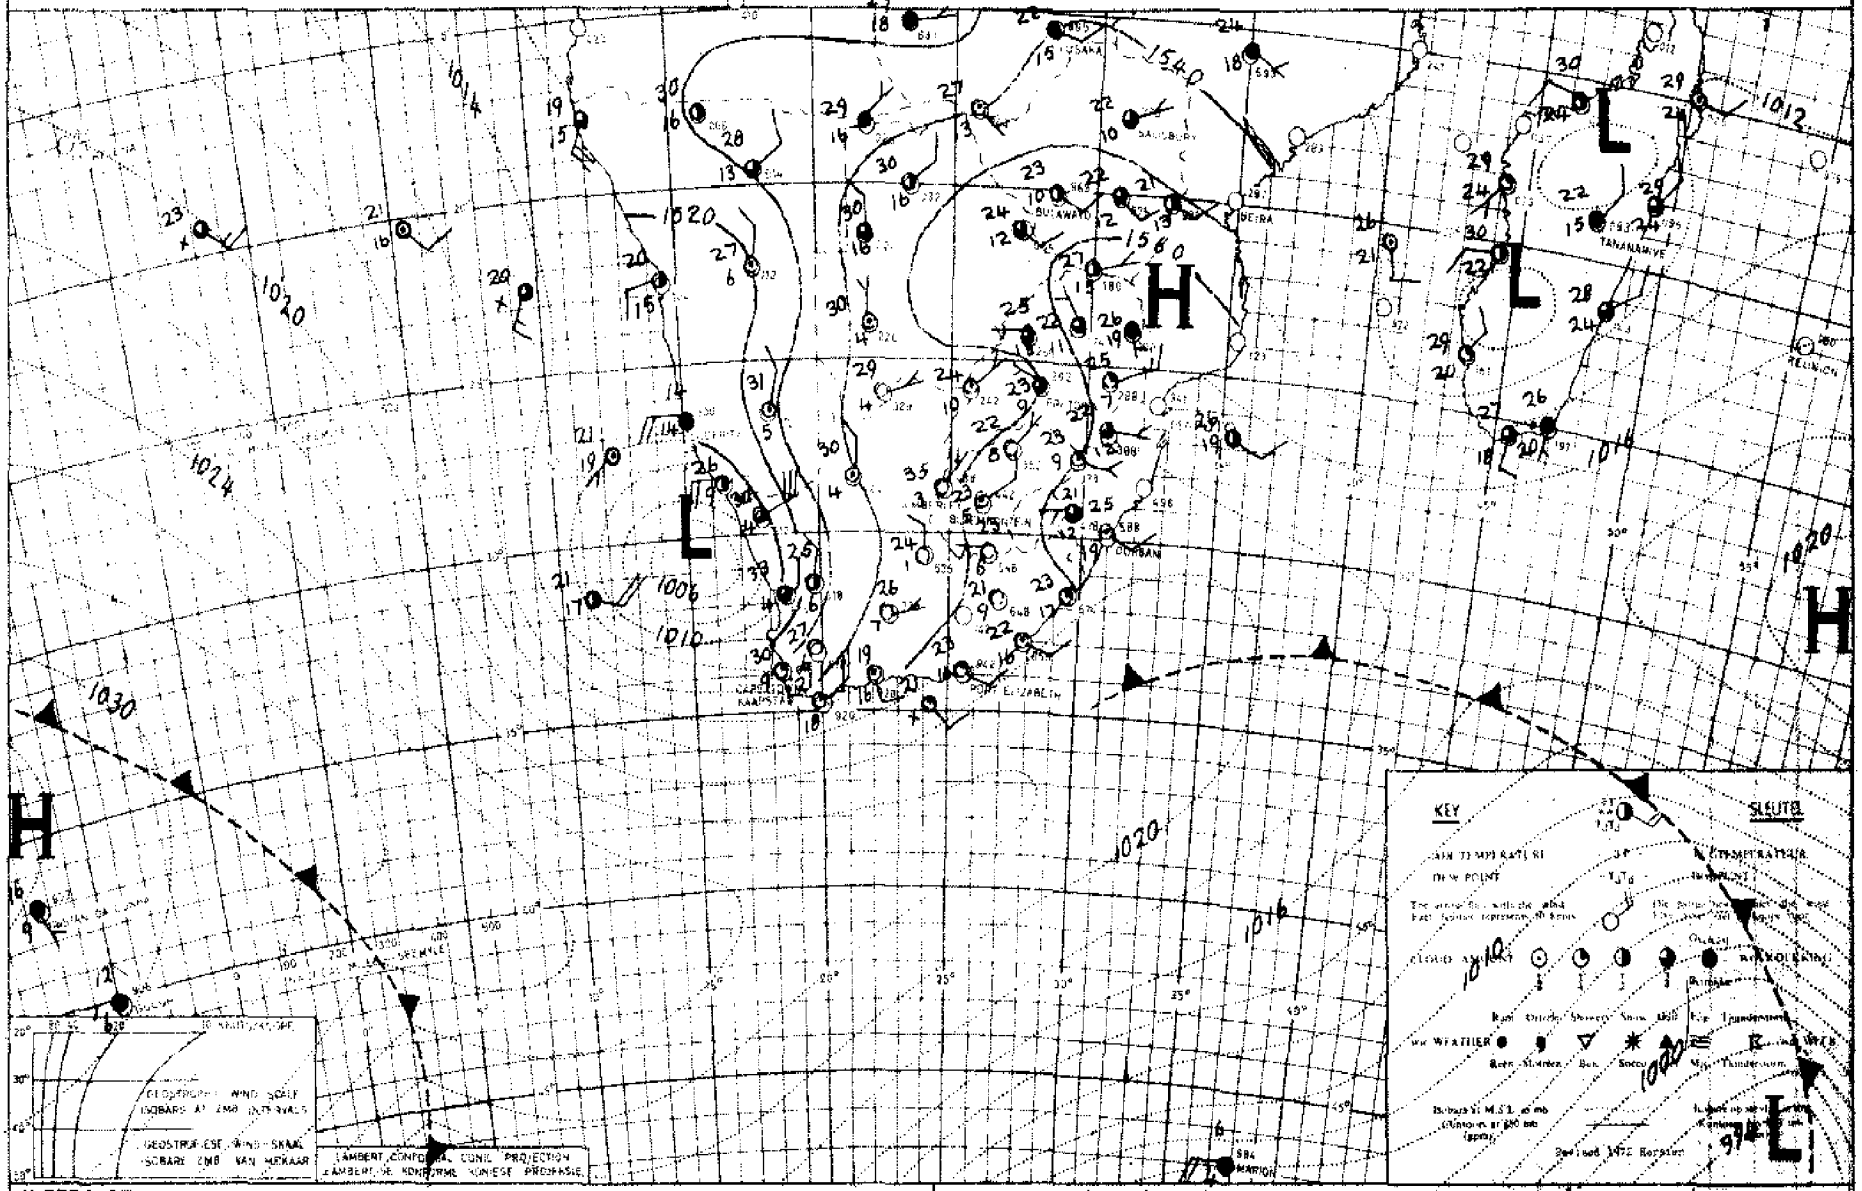
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-04-05 SINOPTIESE WEERKAART



INFERENCE The low-pressure system along the West coast is still deepening and is moving slowly southwards. Fairly general thundershowers will occur over southern S.W.A. and West and South-West Cape, spreading to the South coast tomorrow.

AFLEIDING Die laedrukstelsel langs die Weskus verdiep nog steeds en beweeg stadig suidwaarts sodat taamlik algemene donderbuie oor suidelike S.W.A. en Wes- en Suidwes-Kaap sal voorkom wat môre ook na die Suidkus sal uitbrei.

INFERENCE The low to the west of the Cape is moving slowly south-eastwards. Scattered thundershowers are expected over the Cape Province and Free State, spreading to southern Natal tomorrow but dry air will move in over the western interior.

AFLEIDING Die laag wes van die Kaap beweeg stadig suidooswaarts. Verspreide donderbuie word oor die Kaapprovinsie en Vrystaat verwag wat more na Suid-Natal sal uitbrei maar droë lug sal oor die westelike binneland inbeweeg.

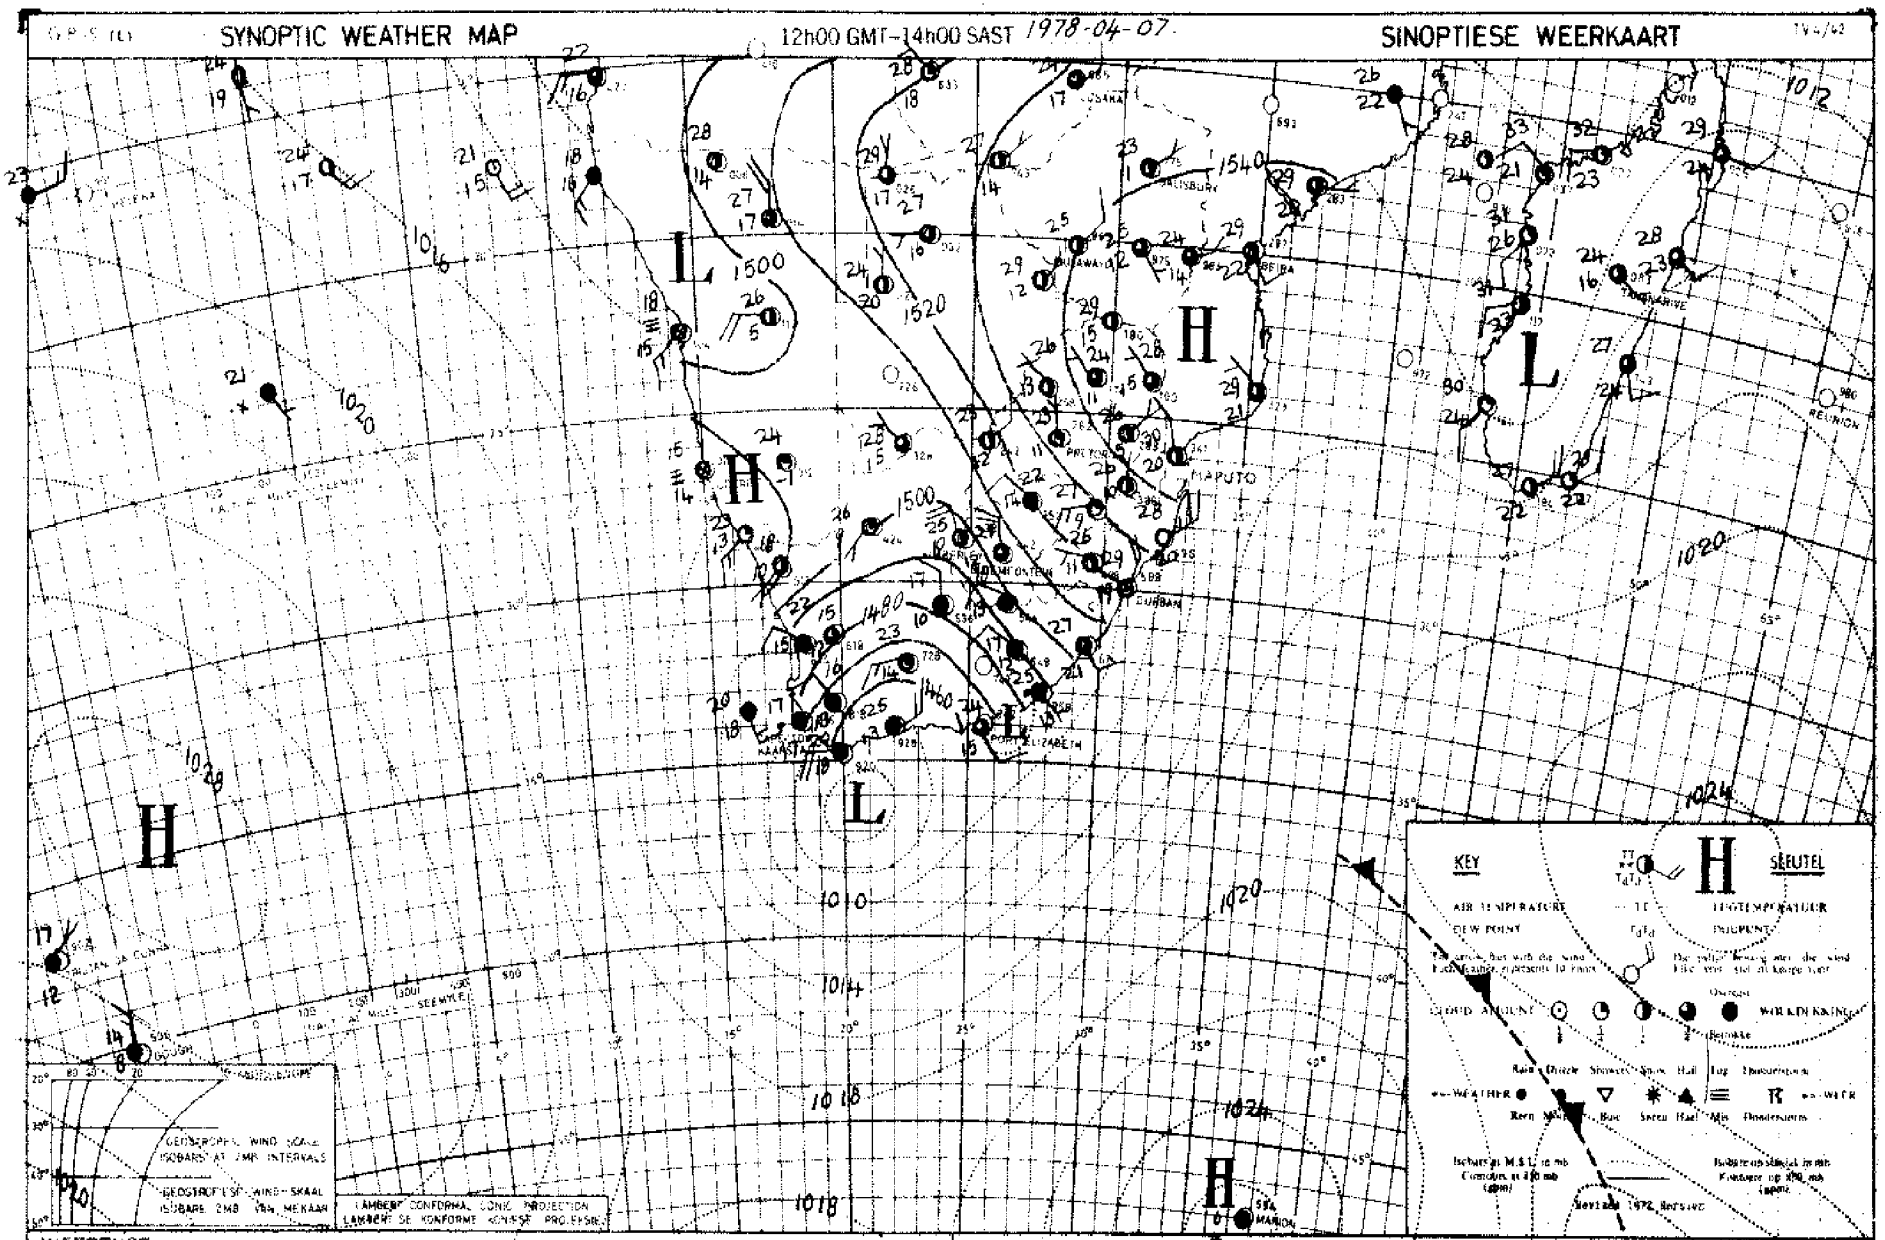
SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-04-07 SINOPTIESE WEERKAART



INFERENCE The low south of Agulhas and trough extending northwards over the interior are moving slowly eastwards. General rain and thundershowers are expected in the moist air east of the trough and showers will still occur over South-West Cape today.

AFLEIDING Die laag suid van Agulhas en die trog wat noord-waarts oor die binneland strek beweeg stadig ooswaarts. Algemene reën en donderbuie word in die vogtige lug oos van die trog verwag terwyl buie ook nog vandag oor Suidwes-Kaap sal uitsak.

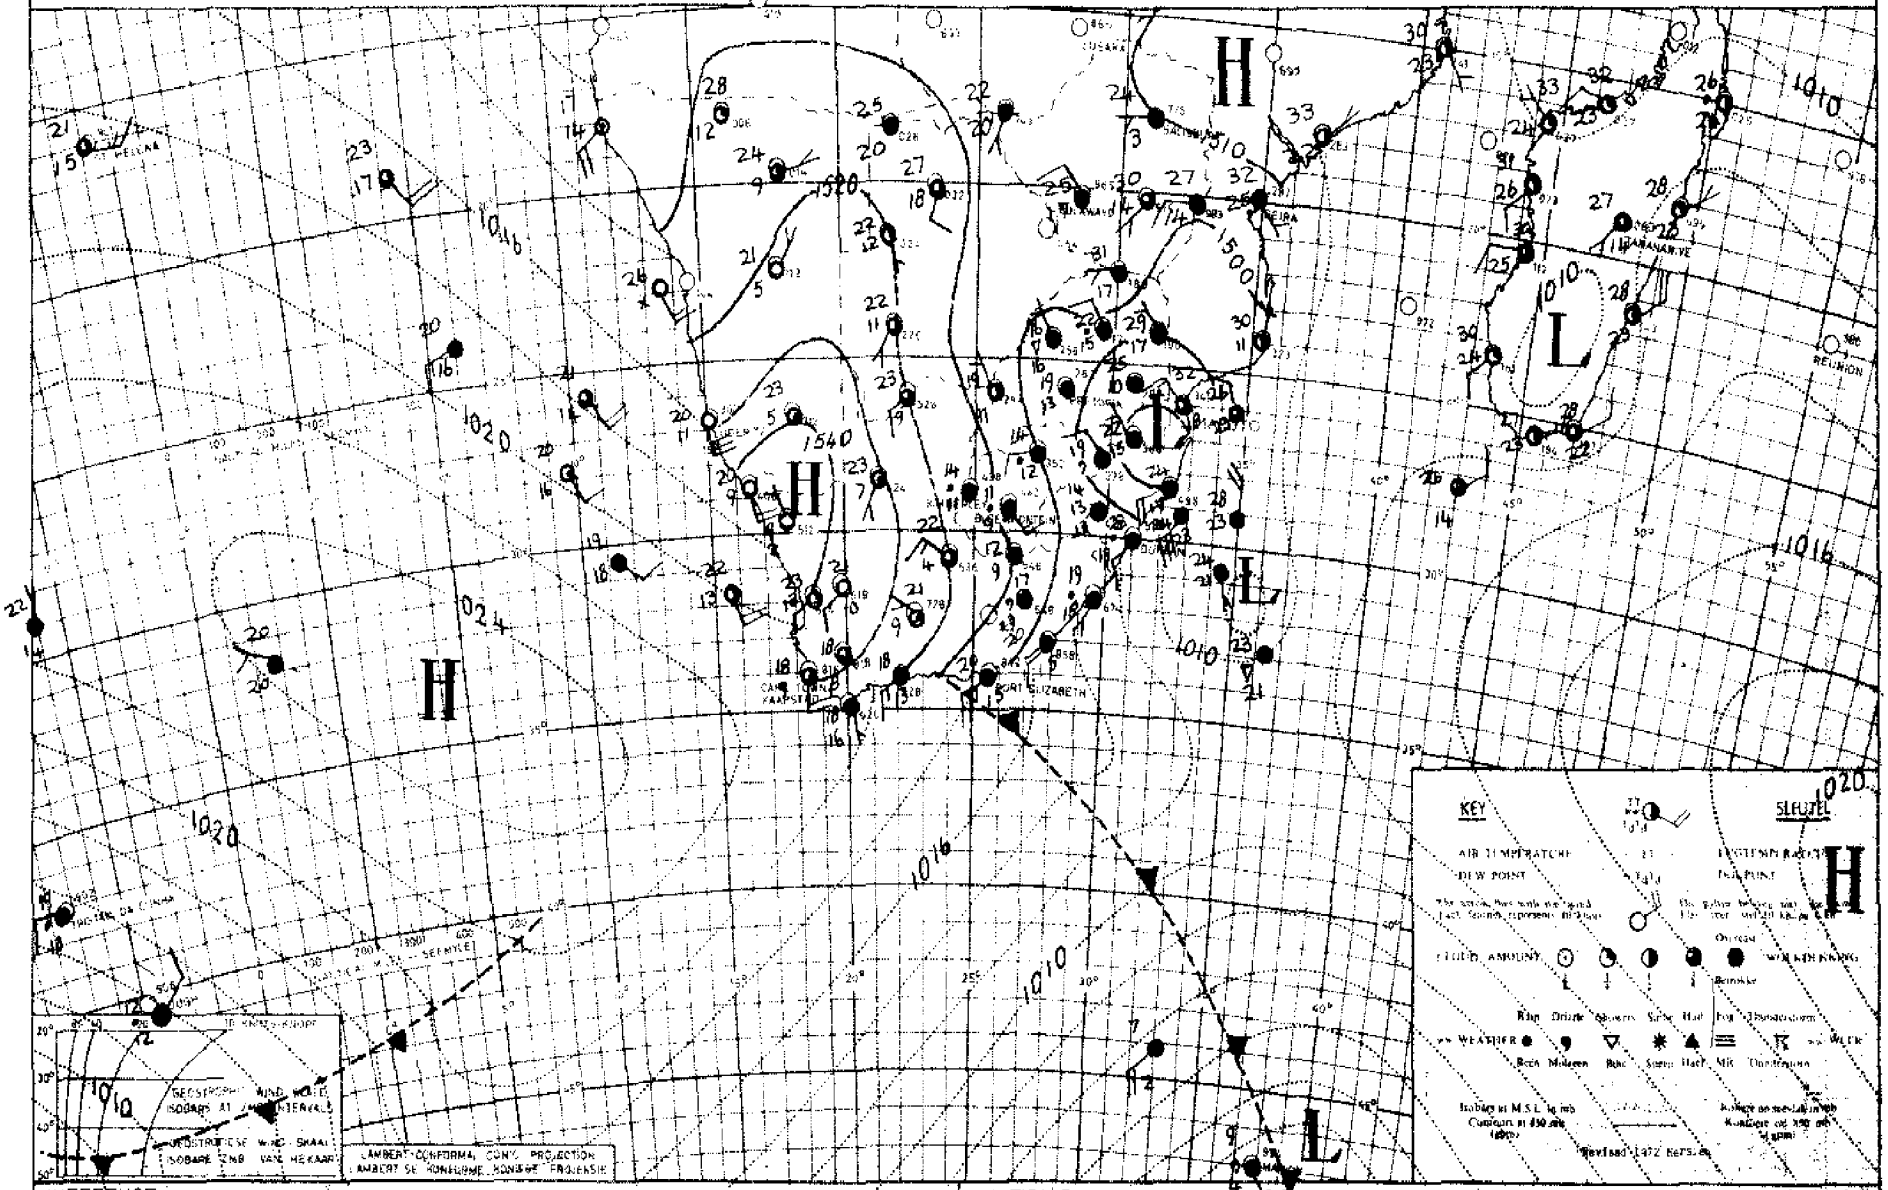
SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-04-10 SINOPTIESE WEERKAART



INFERENCE A ridge of the Atlantic high is pushing in south of the continent and cool cloudy weather with rain will still occur over Natal and Eastern Transvaal tomorrow but dry air will spread from the west over the remainder of the country.

AFLEIDING 'n Wig van die Atlantiese hoog stoot suid van die land in en koel bewolkte weer met reën sal môre nog oor Natal en Oos-Transvaal voorkom, maar droë lug sal vanuit die weste oor die res van die land inbeweeg.

INFERENCE Moist air will be fed in over the Cape South coast behind the weak low-pressure trough and fog will develop over these regions overnight. The West coast trough is deepening and warm bergwinds will spread ~~southwards towards South-west Cape~~

AFLEIDING Vogtige lug word oor die Kaapse suidkus ingevoer agter die swak trog van lae druk en misbanke sal oornag oor hierdie dele voorkom. Die trog langs die Weskus verdiep en warm bergwinde sal na Suidwes-Kaap uitbre.

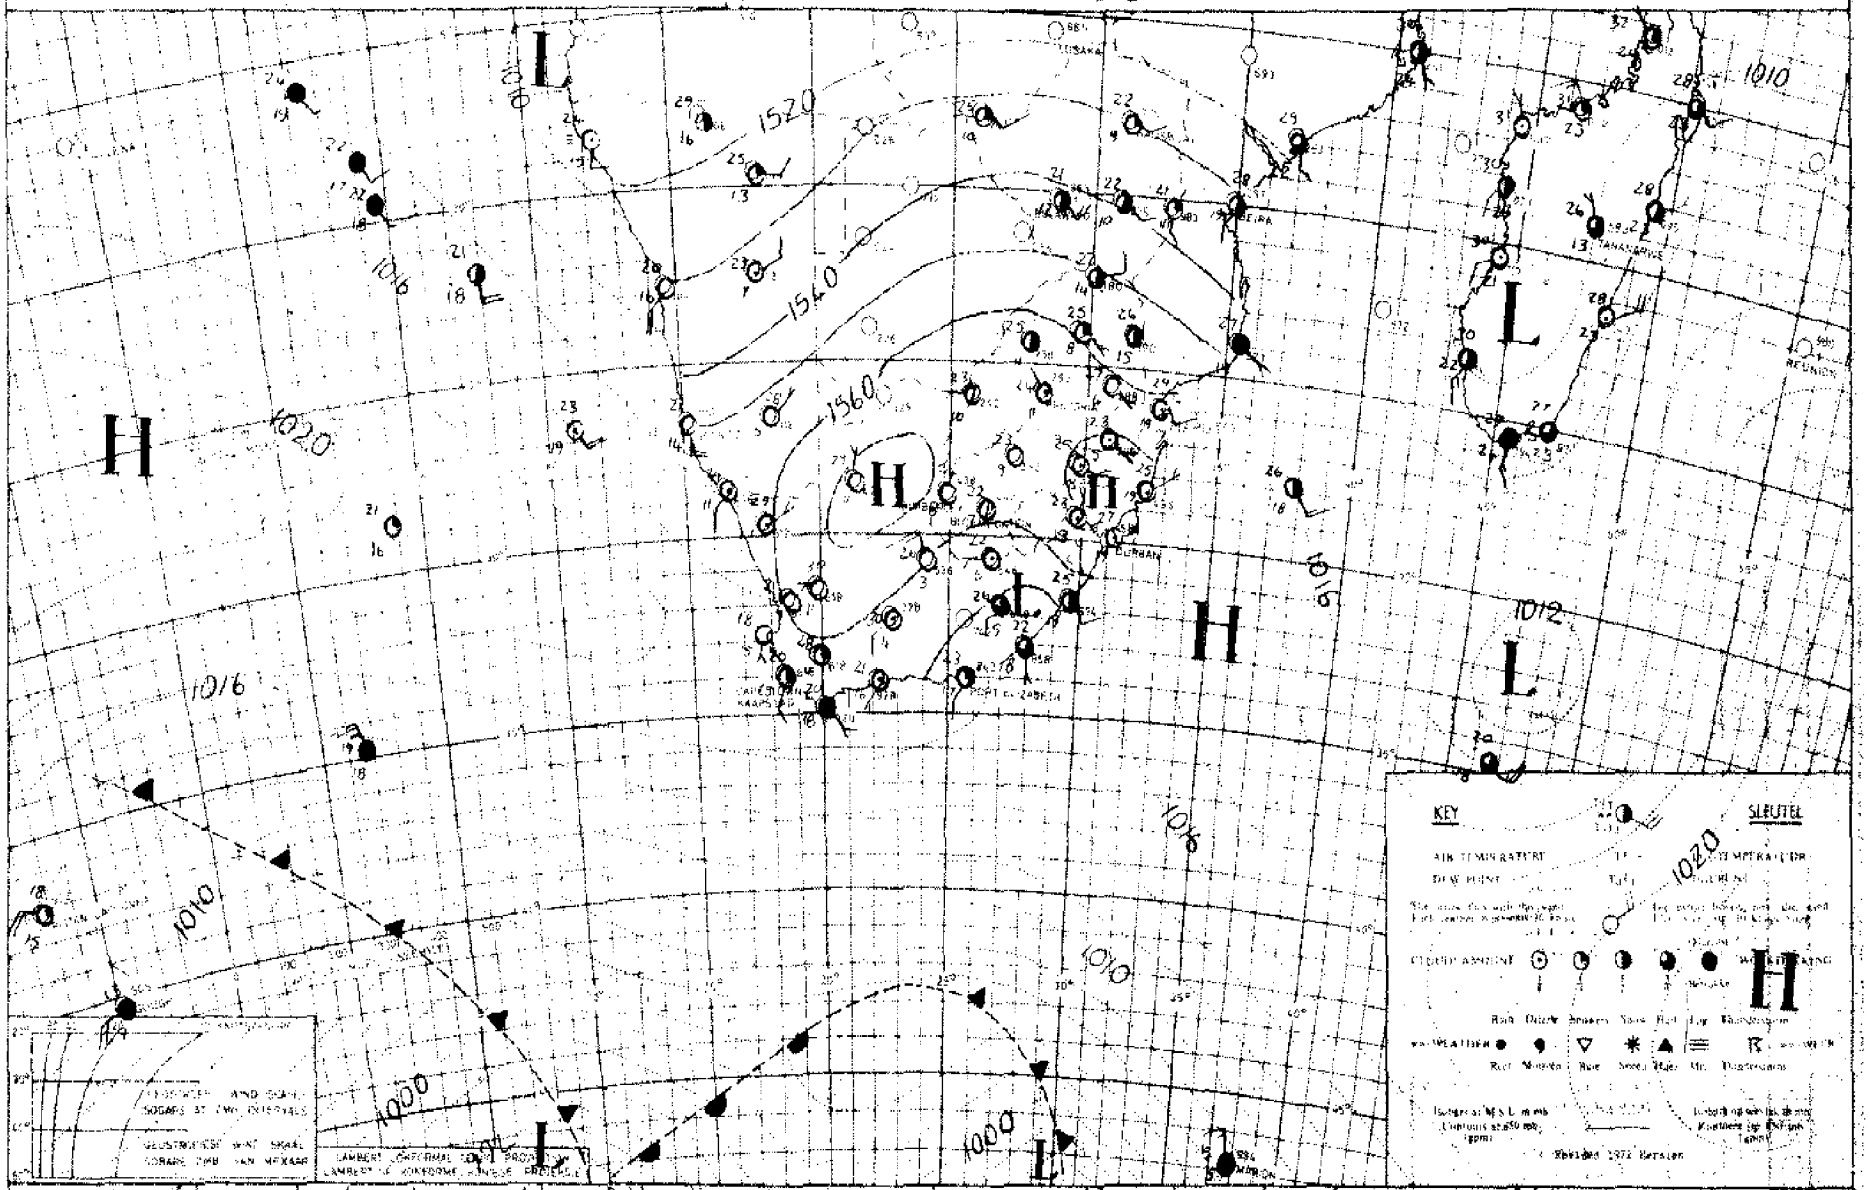
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-04-13 SINOPTIESE WEERKAART



INFERENCE The cold front over the Atlantic ocean is moving eastwards but is weakening and very little change is expected in the weather over the country. Fog patches will recur along the Cape coasts over night.

AFLEIDING Die koue front oor die Atlantiese oseaan beweeg oostwaarts maar is besig om te verswak sodat min veranderings in die weer oor die land verwag word. Misbanke sal weer oornag oor die Kaapse kusstreke voorkom.

INFERENCE A wave formed on the cold front and is being followed by a strong cell of high pressure pushing in south of the continent. Cold weather with showers will also spread to Eastern Cape and local thundershowers can develop east of the inland trough.

AFLEIDING 'n Golf het op die koue front gevorm en word gevolg deur 'n sterk hoog wat suid van die land sal instoot. Koue weer met buie sal ook na Oos-Kaap uitbrei terwyl enkele donderbuie oos van die trog oor die binneland kan ontwikkel.

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE A trough of low pressure is still extending across the country from Windhoek to Durban with the strong high-pressure system south of the continent. Moist air is also being advected from the north over Transvaal so that further rain and showers will occur over most regions.

AFLEIDING 'n Trog van lae druk strek steeds suidooswaarts vanaf Windhoek na Durban met 'n sterk hoëdruksisteem suid van die land. Vogtige lug word ook vanaf die noorde oor Transvaal ingevoer sodat verdere reën en buie oor die meeste dele van die land sal voorkom.

INFERENCE With the strong ridge of high pressure south of the continent and low over the Natal South coast which is moving very slowly further heavy rain can be expected over Transkei and Southern Natal.

AFLEIDING Met die sterk wig van hoë druk suid van die land en laag oor die Natalse Suidkus wat baie stadig beweeg, kan verdere swaar neerslae oor Transkei en Suid-Natal verwag word.

INFERENCE The low off the Natal coast is moving slowly eastwards and it will clear partially over Natal tomorrow. The trough over S.W.A. is moving gradually southwards and local showers will develop over the western interior tomorrow.

AFLEIDING Die laag langs die Natalse kus beweeg stadig ooswaarts en dit sal môre gedeeltelik oor Natal ooptrek. Die trog oor S.W.A. beweeg geleidelik suidwaarts en enkele buie sal môre oor die westelike binneland ontwikkel.

INFERENCE The cold front to the west of the continent is moving slowly eastwards but cooler air from the sea will move in over Western Cape tomorrow with light showers. Warm bergwinds will occur over the South-East coast.

AFLEIDING Die koufront wes van die land beweeg stadig oeswaarts maar koeler seelug sal môre oor Wes-Kaap inbeweeg met ligte buie. Warm bergwinde sal oor die suidooskusstreke voorkom.

INFERENCE: Cold air behind the cold front will push in over Western and South-western Cape overnight spreading eastwards over the Cape Province tomorrow. Light showers are expected as well as snow on the southern mountains.

AFLEIDING: Koue lug sal oornag agter die koufront oor Wes- en Suidwes-Kaap instoot en more ooswaarts oor die Kaapprovinsie uitbrei. Ligte buie word verwag asook sneeu op die suidelike bergreekse.

DAAGLIKSE WEERBULLETIN

DAILY WEATHER BULLETIN

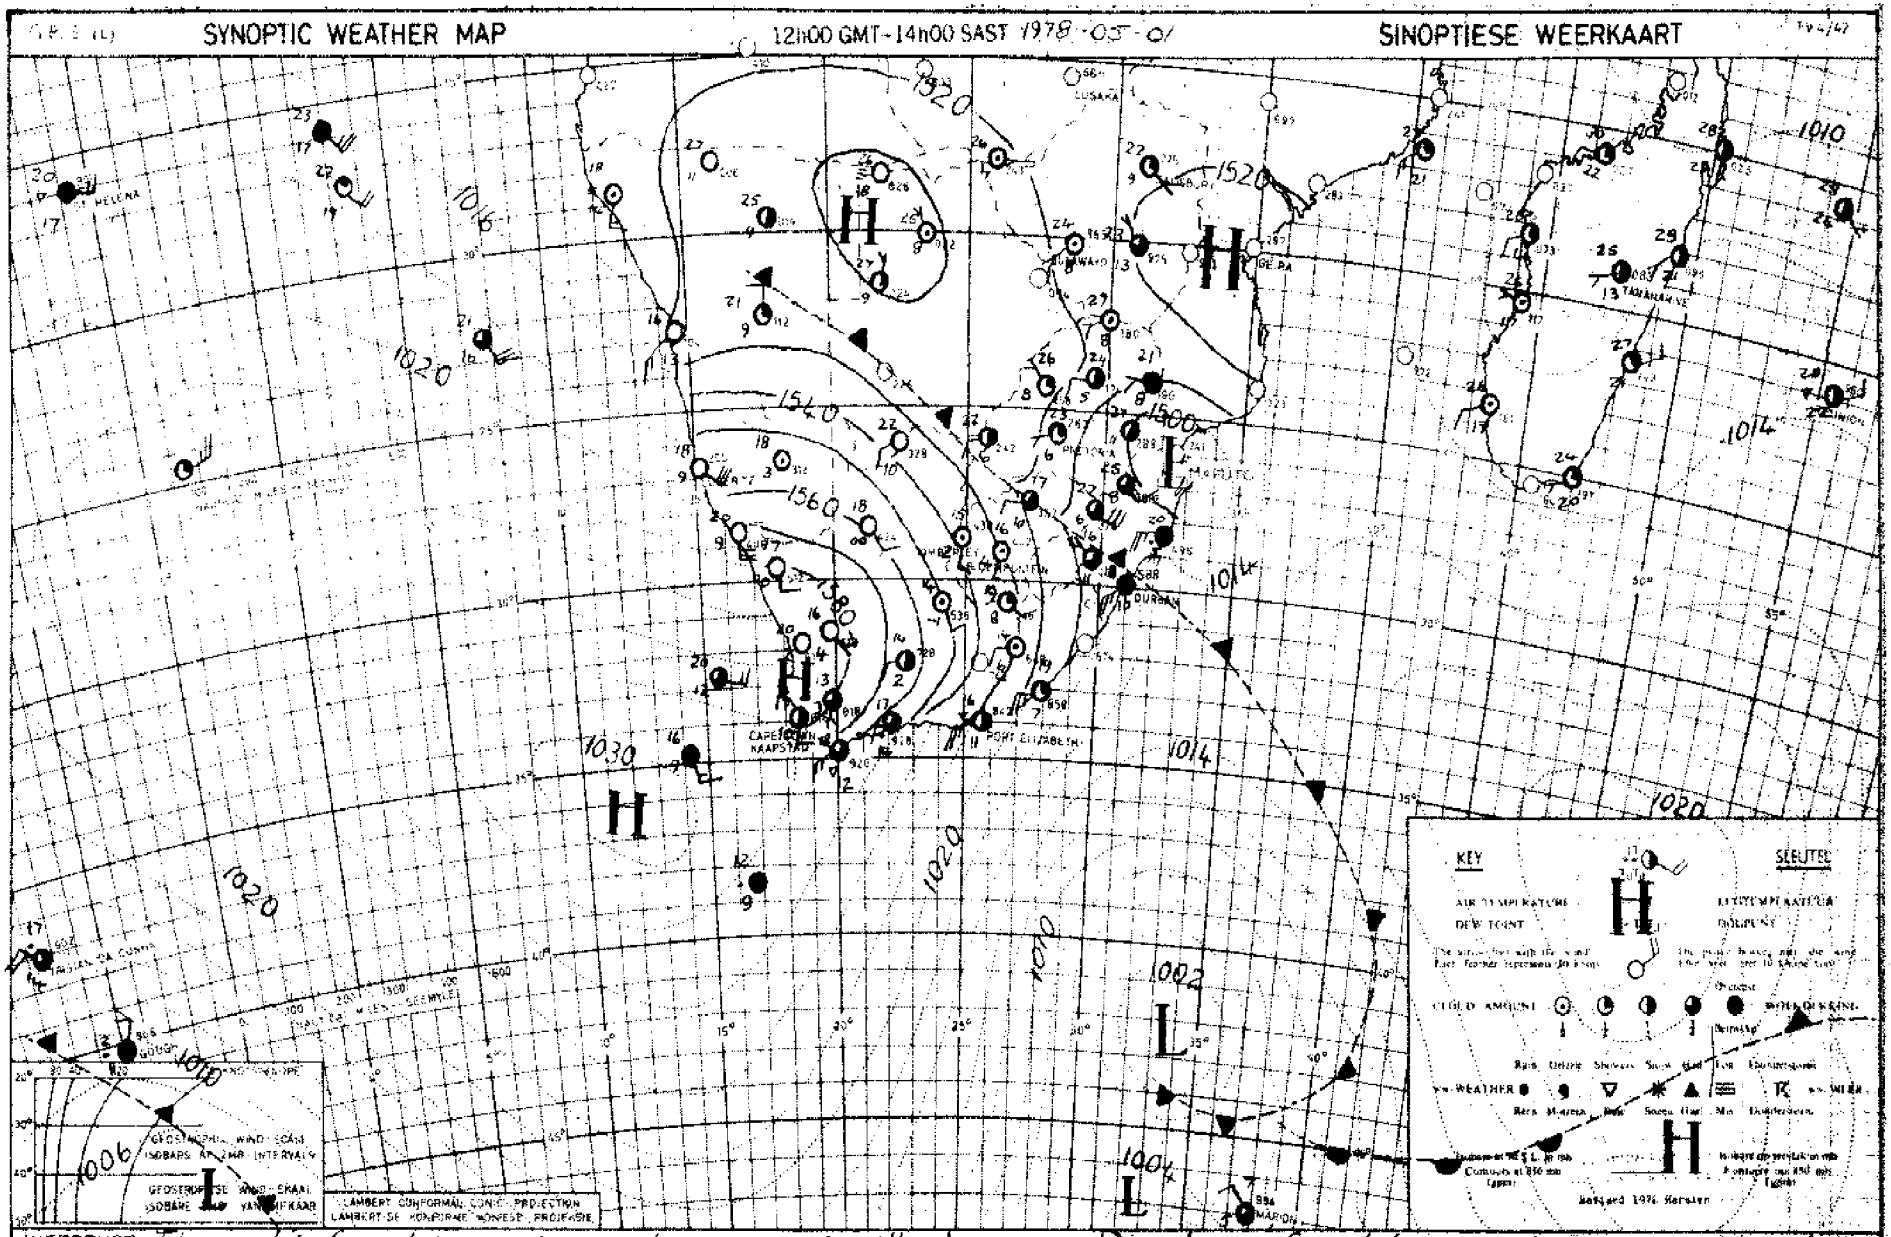
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978 - 05 - 01 SINOPTIESE WEERKAART



INFERENCE The cold front is moving eastwards and will cause light showers over the north-eastern regions but the front is being followed by cold dry air. Showers will occur over the southern and south-eastern coasts and adjacent interior and snow is possible on the mountains.

AFLEIDING Die koue front beweeg oswaarts en sal lige buie oor die noordoostelike dele veroorsaak maar die front word deur koue droë lug gevolg. Buie sal oor die suidelike en suidoostelike kusstreke en aangrensende binneland voorkom en sneeu is moontlik op die berge.

DAAGLIKSE WEERBULLETIN

INFERENCE The cold front south-west of the continent is moving eastwards and cooler conditions with local showers will spread over the southern and south-eastern Cape Province overnight but the air is dry elsewhere over the country.

AFLEIDING Die koue front suidwes van die land beweeg ooswaarts en koeler lug met enkele buie sal oornag oor die suidelike en suidoostelike Kaapprovinsie inbeweeg maar oor die res van die land is die lug droog.

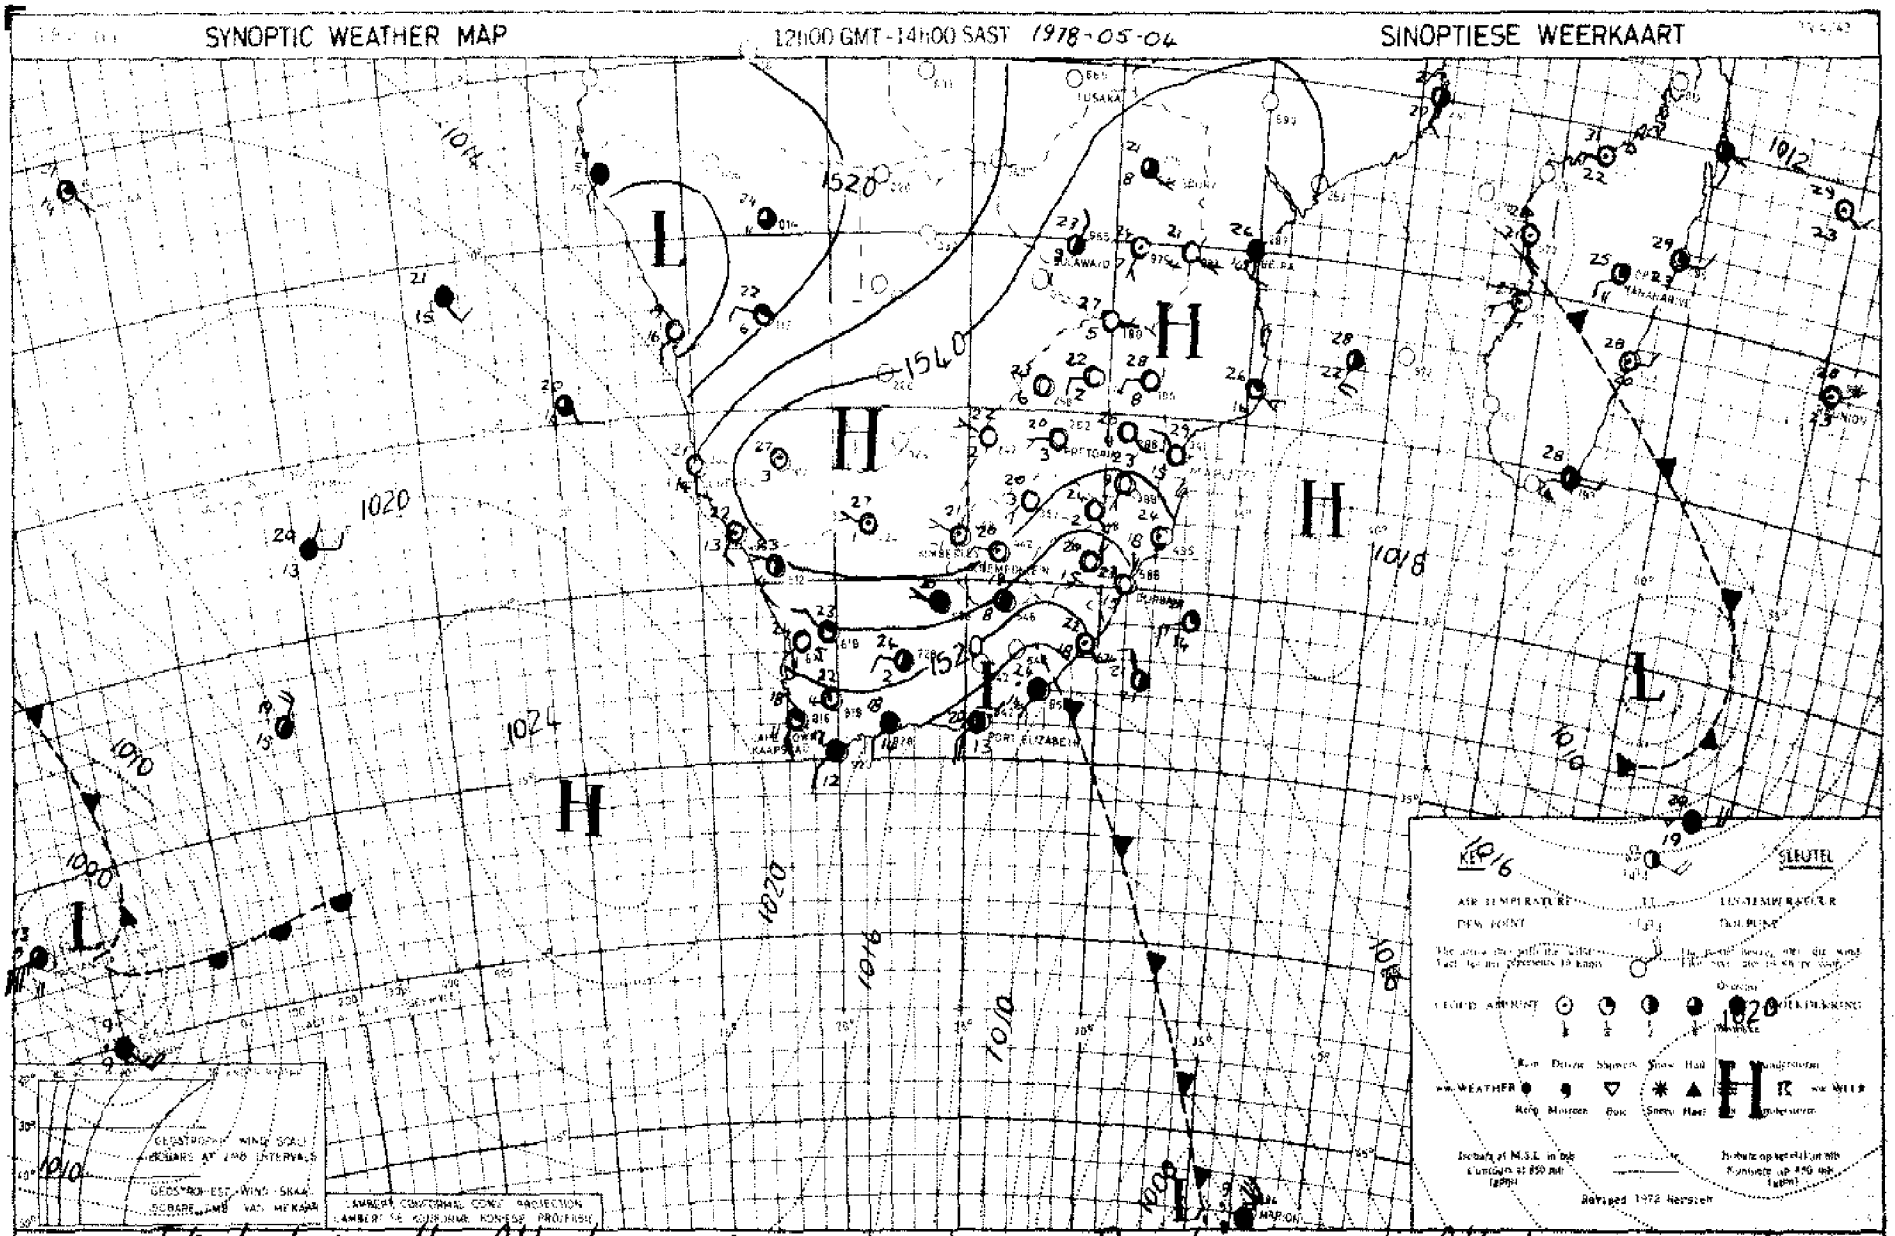
Tshane			



INFERENCE The high over the Atlantic ocean is moving eastwards over the interior and cooler but dry conditions will spread over the southern and south-eastern regions with light showers only along the coast.

AFLEIDING Die hoog oor die Atlantiese oseaan beweeg ooswaarts oor die binneland sodat koeler maar droë lug oor die suidelike en suidoostelike gebiede inbeweeg met slegs ligte buie oor die kusstrekke.

INFERENCE The high south of the continent is moving eastwards and is causing cloudy, cool conditions over the southern parts, spreading to Natal tomorrow. The frontal system over the Atlantic ocean is moving slowly eastwards.

AFLEIDING Die hoog suid van die land beweeg ooswaarts en veroorsaak bewolkte, koel toestande oor die suidelike dele wat môre na Natal sal uitbrei. Die frontale stelsel oor die Atlantiese oseaan beweeg stadig ooswaarts.

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE Cold air with light showers will spread behind the cold front over Western and South-Western Cape overnight. Light showers are also possible over the central interior, associated with the trough moving eastwards ahead of the front.

AFLEIDING Koue lug met ligte buie sal oornag agter die koufront oor Wes- en Suidwes-Kaap inbeweeg. Ligte buie is ook moontlik oor die sentrale binneland saam met die trog wat voor die front ooswaarts beweeg.

INFERENCE Cold air will spread eastwards over the interior behind the cold front reaching the Free State and Natal tomorrow. With the Atlantic high so far north, showers are expected mainly over the western and south-western regions.

AFLEIDING Koue lug sal ooswaarts oor die binneland agter die koufront uitbrei en môre die Vrystaat en Natal bereik, maar met die Atlantiese hoog so ver noord word buie hoofsaaklik oor die westelike en suidwestelike dele verwag.

INFERENCE The deep low-pressure system south of the continent is moving slowly eastwards and little change is expected in the weather over the country. Further showers are possible over South-West Cape, but elsewhere the air is dry.

AFLEIDING Die diep laedrukstelsel suid van die land beweeg stadig oostwaarts en min verandering in die weer oor die land word verwag. Verdere buie is moontlik oor Suidwes-Kaap, maar elders is die lug droog.

INFERENCE The cell of high pressure over the western interior is moving eastwards and the weather will be fine over most parts. The winds over the southern coastal areas will also abate tomorrow.

AFLEIDING Die sel van hoë druk oor die westelike binneland beweeg oaswaarts en dit sal mooiweer wees oor die meeste dele. Die winde oor die suidelike kusstreke sal ook môre afneem.

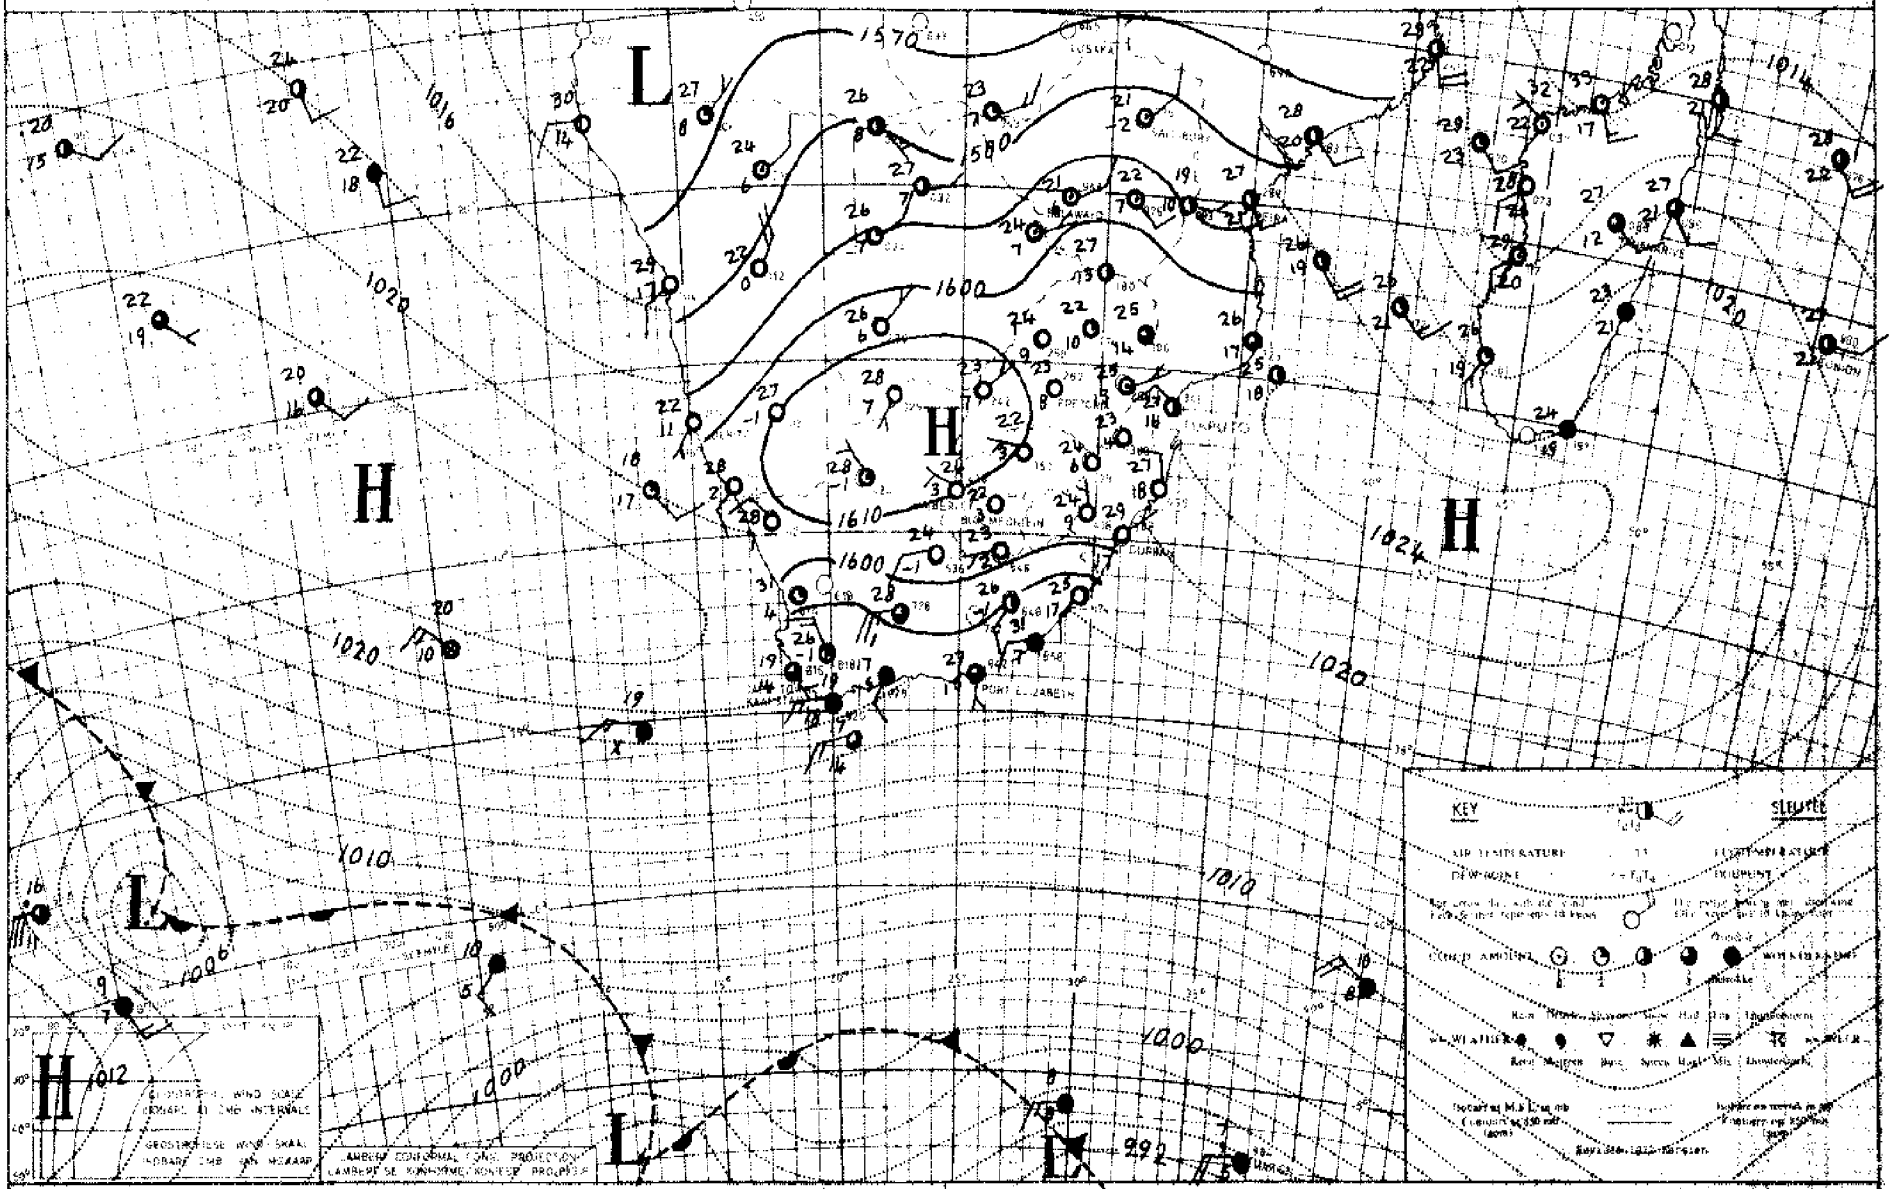
SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-05-11 SINOPTIESE WEERKAART



INFERENCE The West-wind belt to the south of the continent has shifted somewhat northwards and cooler conditions has moved in over the southern coastal regions. Frontal rainy weather can develop over South-Western Cape later tomorrow.

AFLEIDING Die westewindgordel suid van die land het effens noordwaarts geskuif sodat koeler toestande oor die suidelike kusstreke inbeweeg het. Frontale reënweer kan later môre oor Suidwes-Kaap ontwikkel.

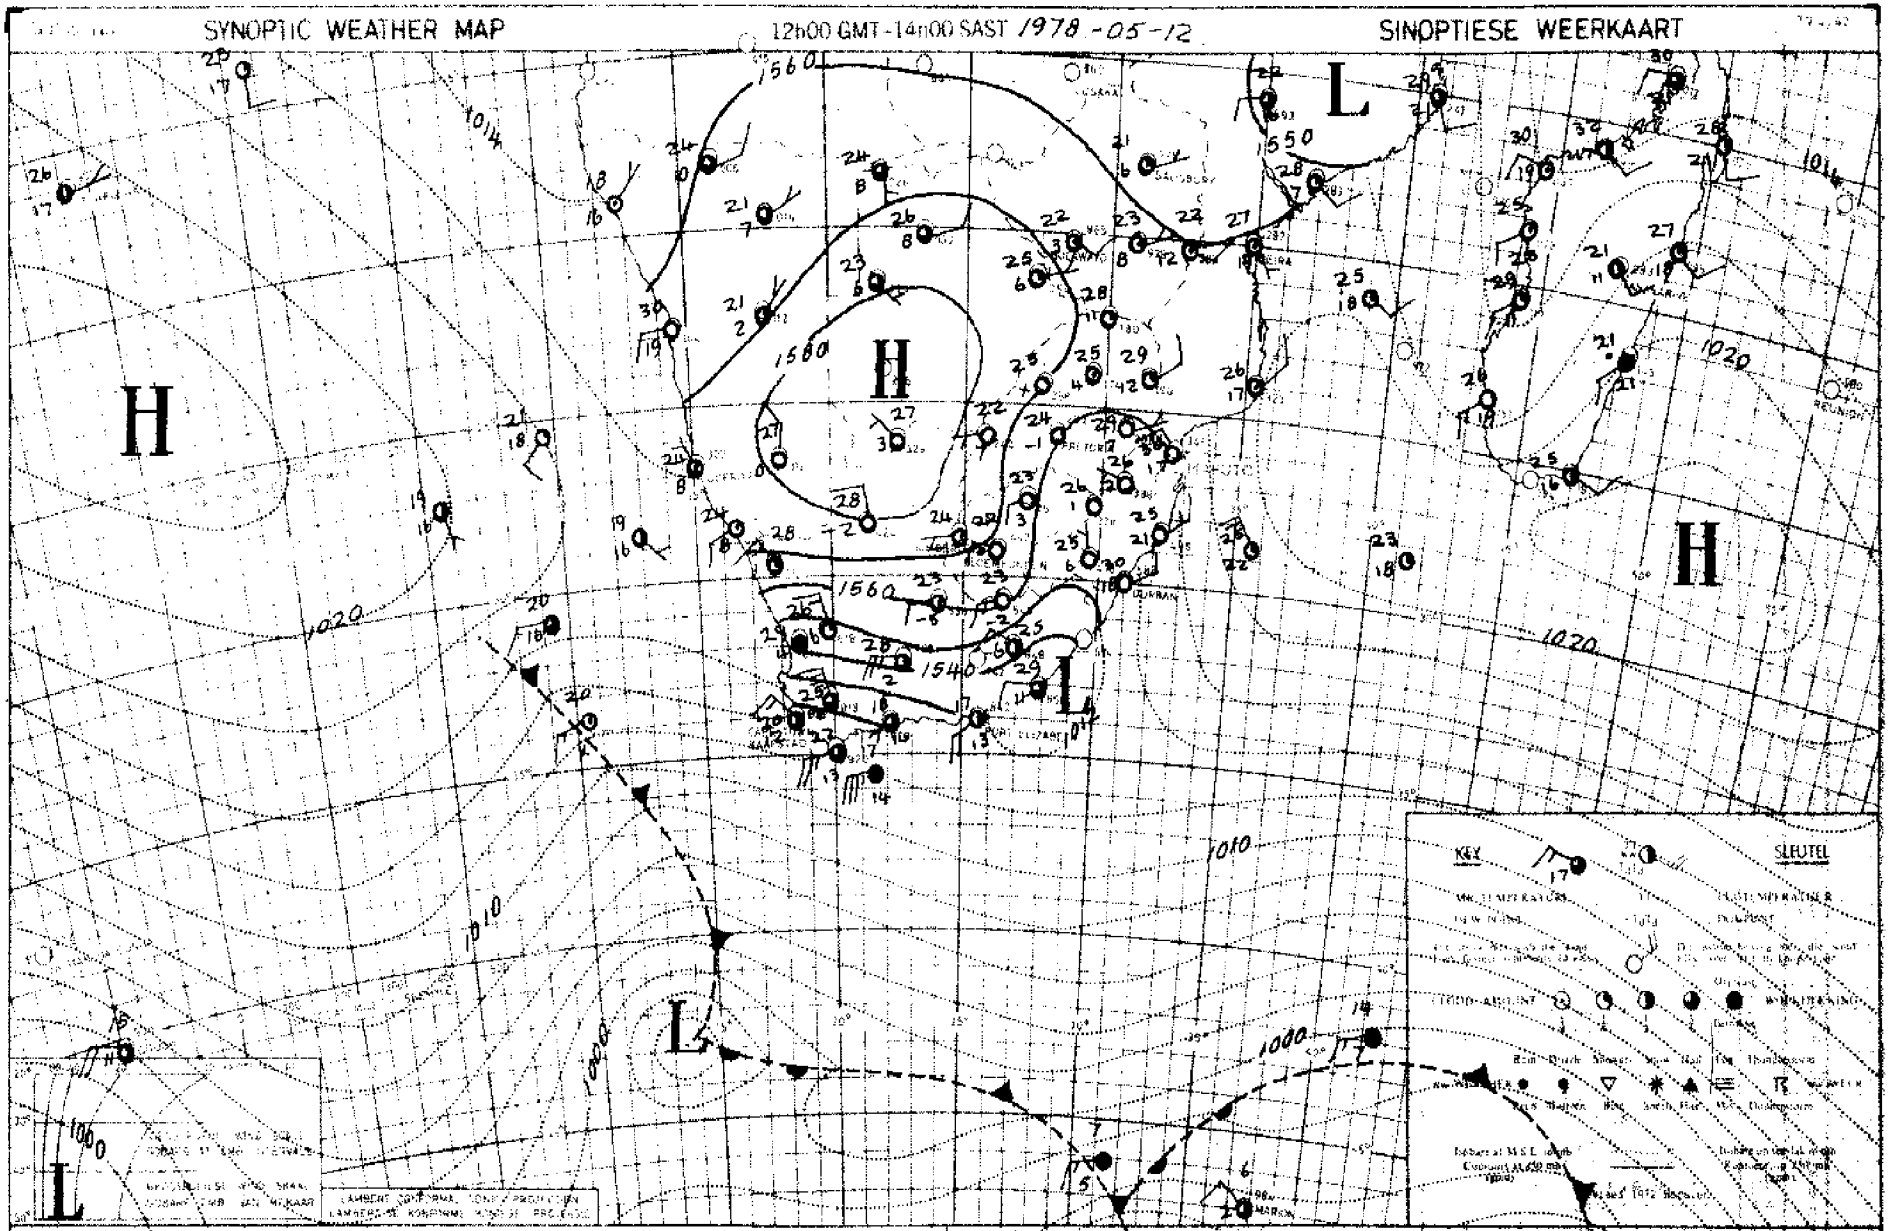
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978 - 05 - 12 SINOPTIESE WEERKAART



INFERENCE The frontal system west of the continent is moving south-eastwards and only local showers are expected over South-Western Cape but cooler south-westerly winds will spread along the south-east coast and the Natal coast.

AFLEIDING Die frontale stelsel wes van die land beweeg suidooswaarts sodat slegs enkele buie oor Suid-wes-Kaap verwag word, maar koeler suidwestelike winde sal langs die suidooskus en oor die Natalse kus uitbrei.

INTERPRETATION

A strong cell of high pressure is pushing in south of the continent and cloudy cool weather with light rain will move in over the southern and south-eastern parts of the country spreading later to Natal.

AFLEGGING

'n Sterk sel van hoë druk stoot suid van die land in en bewolkte, koel weer met ligte reën sal oor die suidelike en suidoostelike dele van die land inbeweeg en later na Natal uitbrei.

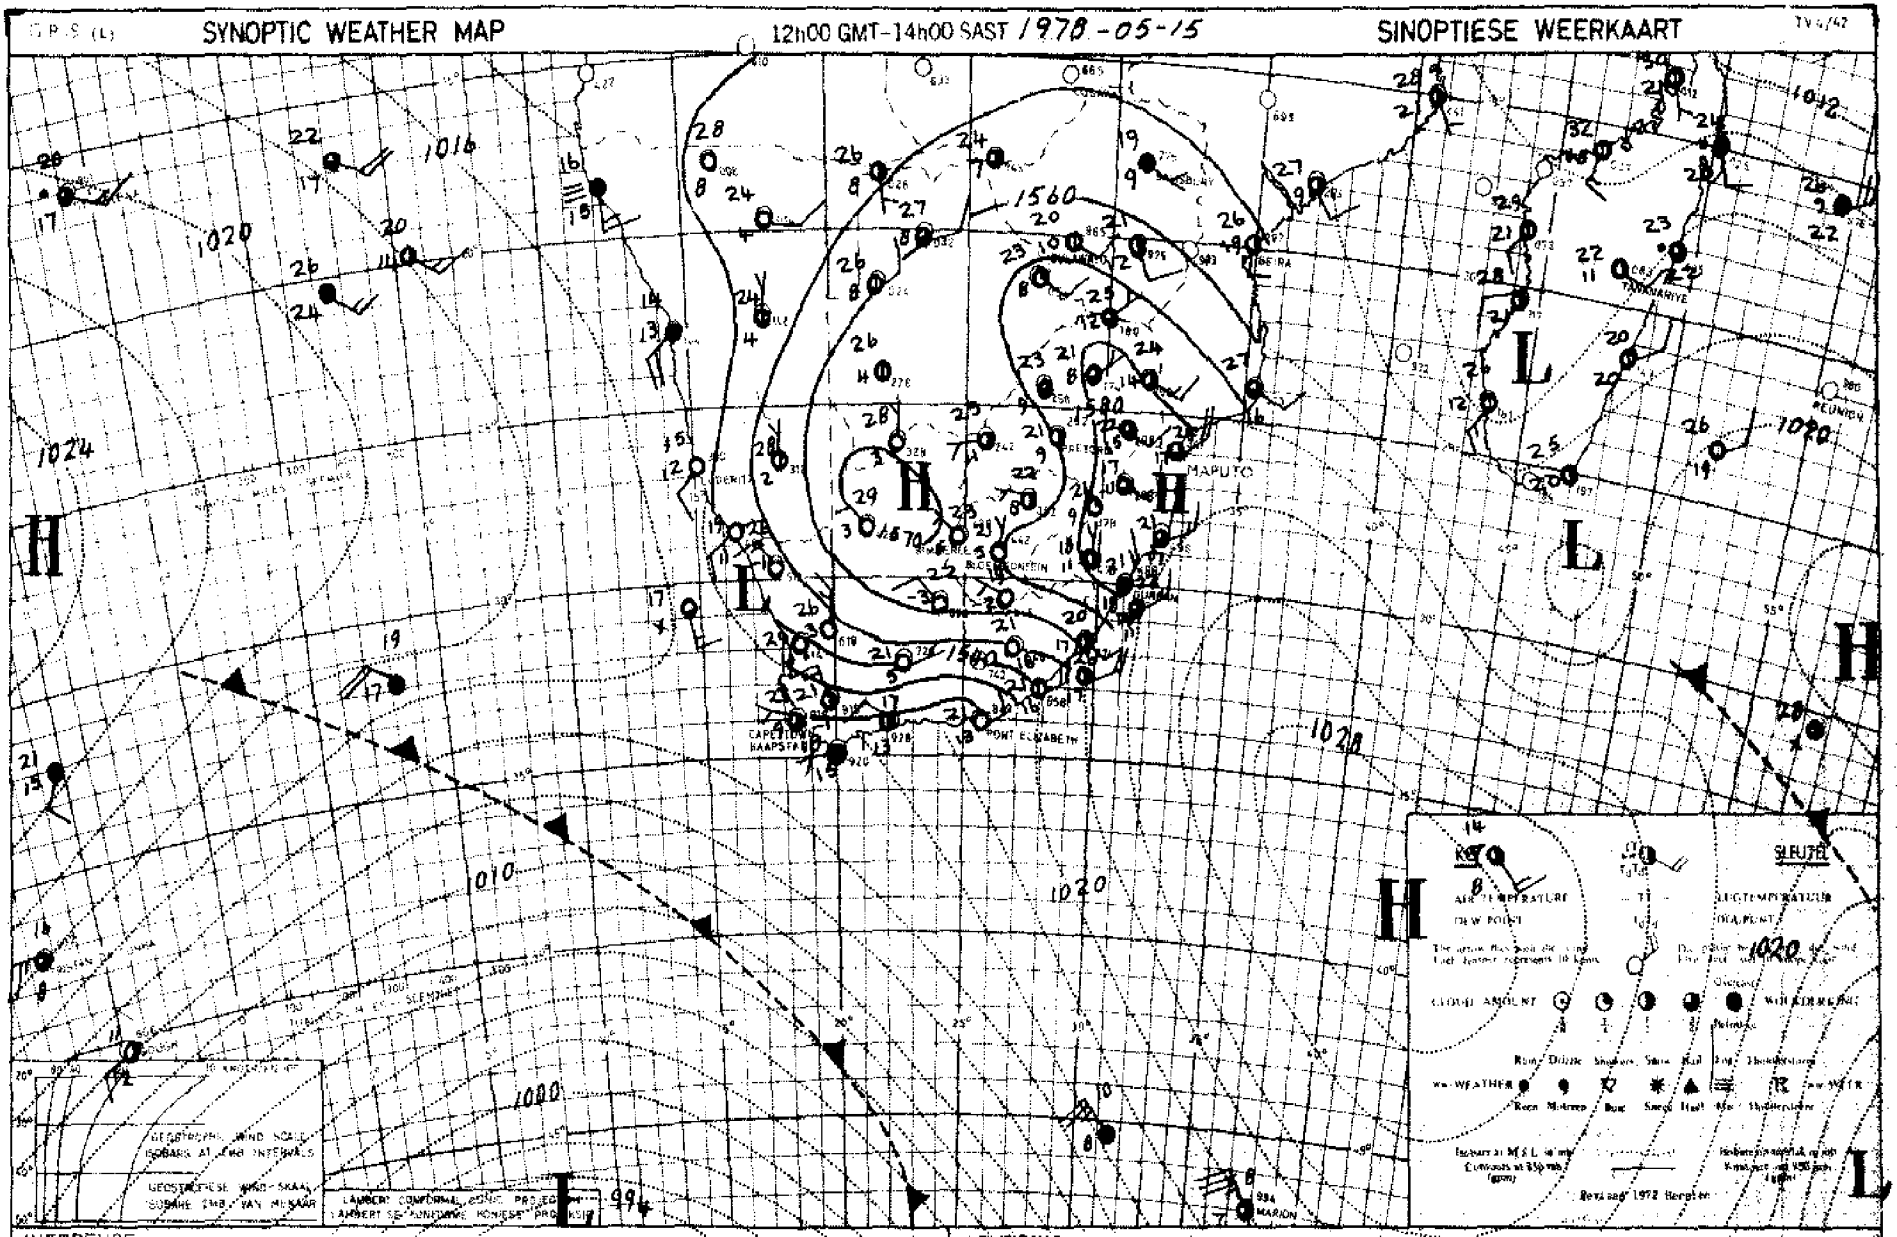
C.P.S. (L) SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-05-15 SINOPTIESE WEERKAART TV 6/42



INFERENCE Cool moist air is still being advected over the north-eastern regions but the strong high over the Indian Ocean is moving rapidly eastwards. Cooler conditions will move in over South-West Cape tomorrow with rain later.

AFLEIDING Koel, vogtige lug word steeds oor die noordoostelike gebiede ingevoer, maar die sterk hoog oor die Indiese oseaan beweeg vinnig ooswaarts. Koeler toestande sal môre oor Suidwes-Kaap inbeweeg met reën later.

INFERENCE The cold front at the Cape is moving rapidly eastwards and cooler weather with local showers will spread eastwards over the southern Cape Province. The air over Transvaal and Free State is still fairly moist.

AFLEIDING Die koufront by die Kaap beweeg vinnig ooswaarts en koeler weer met enkele buie sal oor die suidelike Kaapprovinsie uitbreï. Oor Transvaal en die Vrystaat is die lug steeds betreklik vogtig.

INFERENCE With the deep low south of the continent and high to the north-west of the Cape, further rain will fall over South-West Cape and colder conditions will also spread eastwards over the Cape Province.

AFLEIDING Met die diep laag suid van die land en hoog noordwes van die Kaap, sal verdere reën oor Suidwes-Kaap uitsak terwyl kouer toestande ook ooswaarts oor die Kaapprovinsie sal uitbrei.

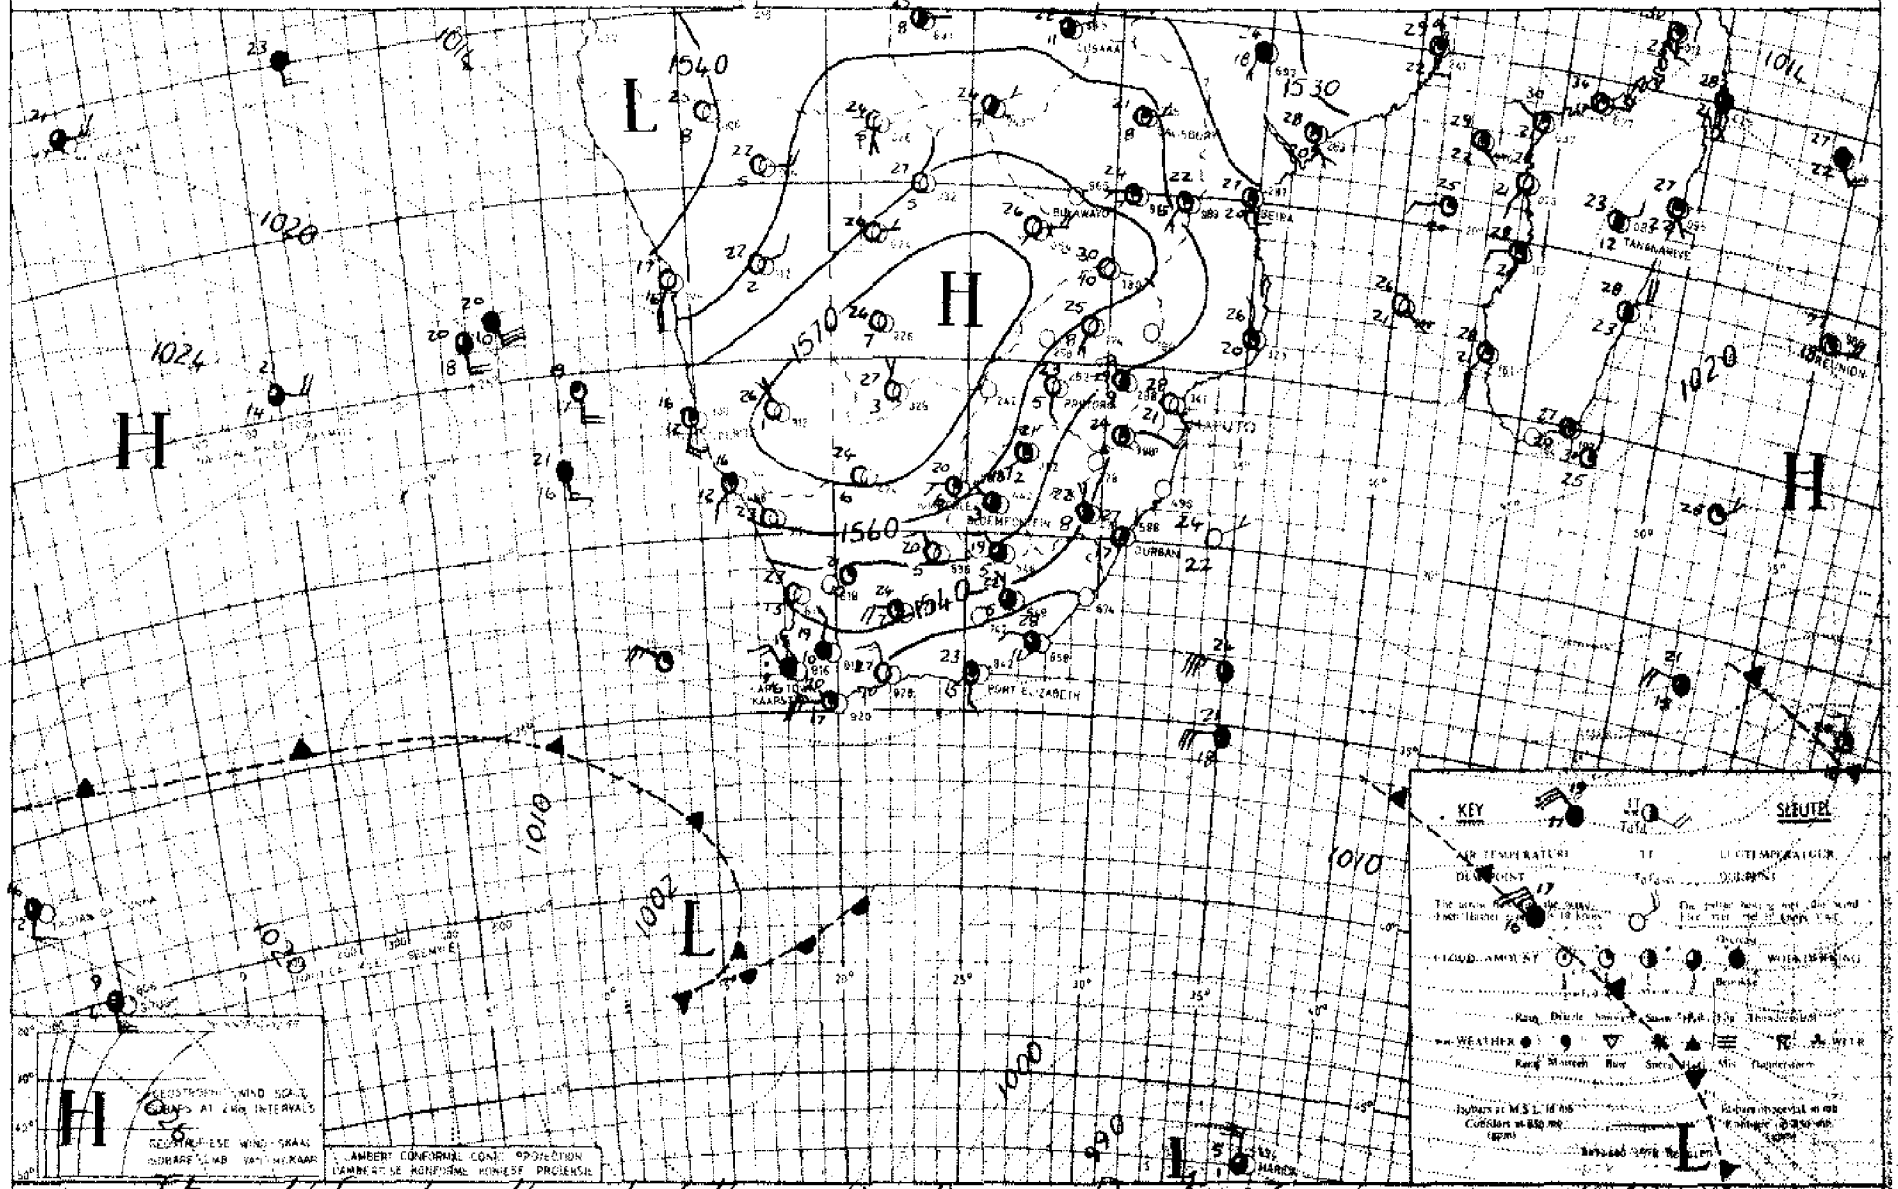
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1976 - 05 - 19 SINOPTIESE WEERKAART



INFERENCE The cold front south-west of the continent is moving north-eastwards and is being followed by the strong high at Gough Island. Cold weather with rain and showers will spread over South-western and Southern Cape overnight.

AFLEIDING Die koue front wes van die land beweeg noordooswaarts en word gevolg deur die sterk hoog by Gougheiland. Koue weer met reen en buie sal oornag oor Suidwes- en Suid-Kaap inbeweeg.

INFERENCE The cold front over the country is moving north-eastwards and cold air will push in over the Cape Province and southern parts of S.W.A. and Free State. Showers will occur over the coastal regions but inland the air is dry.

AFLEIDING Die koufront oor die land beweeg noord-ooswaarts en koue lug sal oor die Kaapprovinsie en die suidelike dele van S.W.A. en die Vrystaat instroom. Buie sal oor die kusstrekke voorkom, maar die lug oor die binneland is droog.

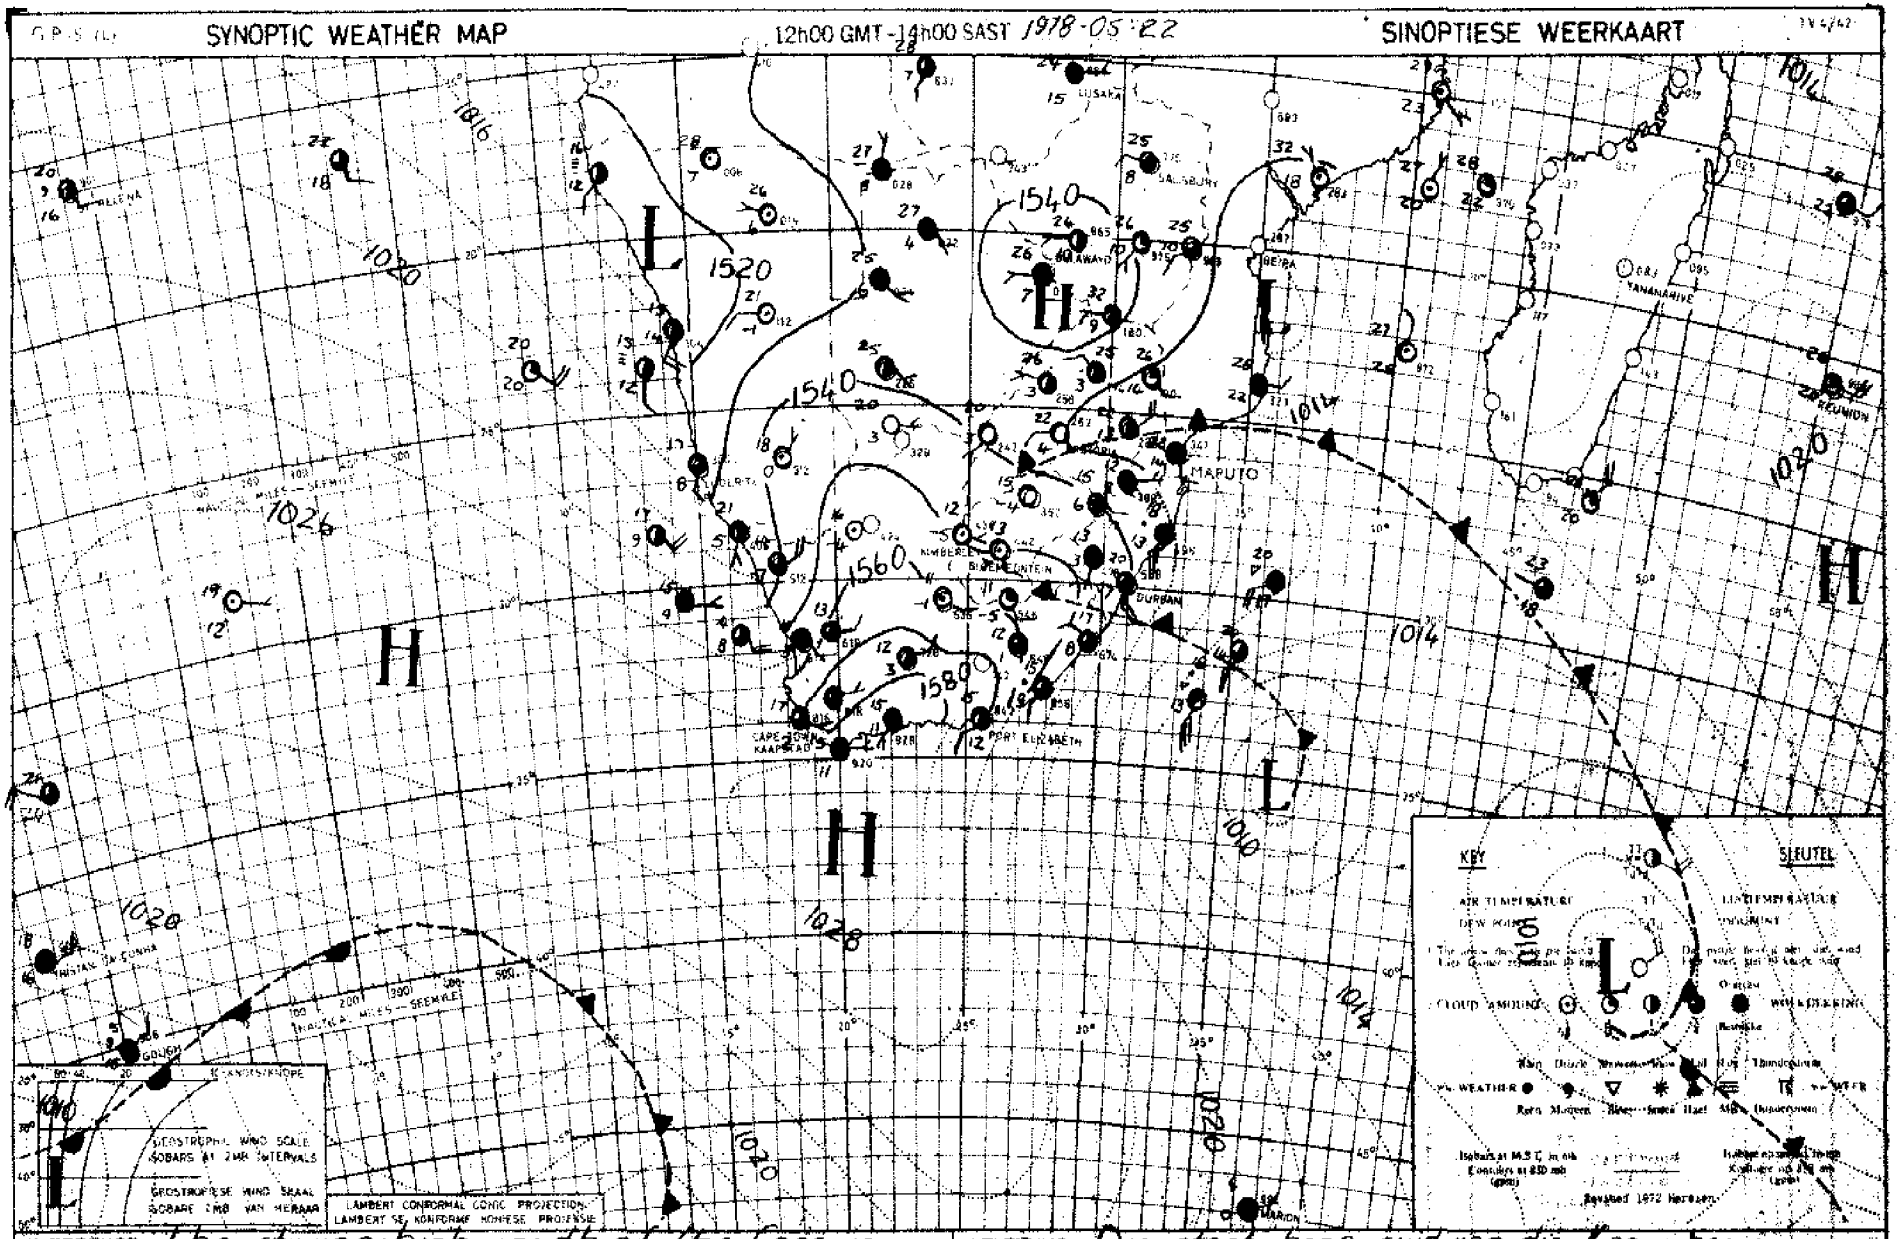
Tshane	26	5	



INFERENCE The strong high south of the Cape is moving eastwards. Cold moist air will also spread over Transvaal and northern Free State overnight from the south-east but it will become warmer over the western parts of the country.

AFLEIDING Die sterk hoog suid van die Kaap beweeg ooswaarts. Koue vogtige lug sal oornag ook vanuit die suidooste oor Transvaal en noordelike Vrystaat instroom maar dit sal warmer word oor die westelike dele van die land.

INFERENCE The cell of high pressure south-east of Port Elizabeth is moving eastwards and the influx of cold moist air over Natal and Transvaal will decrease tomorrow. As a result of the deep low south of the continent a coastal low will develop along the Cape south coast overnight

AFLEIDING Die sel van hoe druk suidoos van Port Elizabeth beweeg ooswaarts en die invloei van koue vogtige lug oor Natal en Transvaal sal môre afneem. As gevolg van die diep laag suid van die land sal 'n kuslaag oornag oor die Kaapse suidkus ontwikkel.

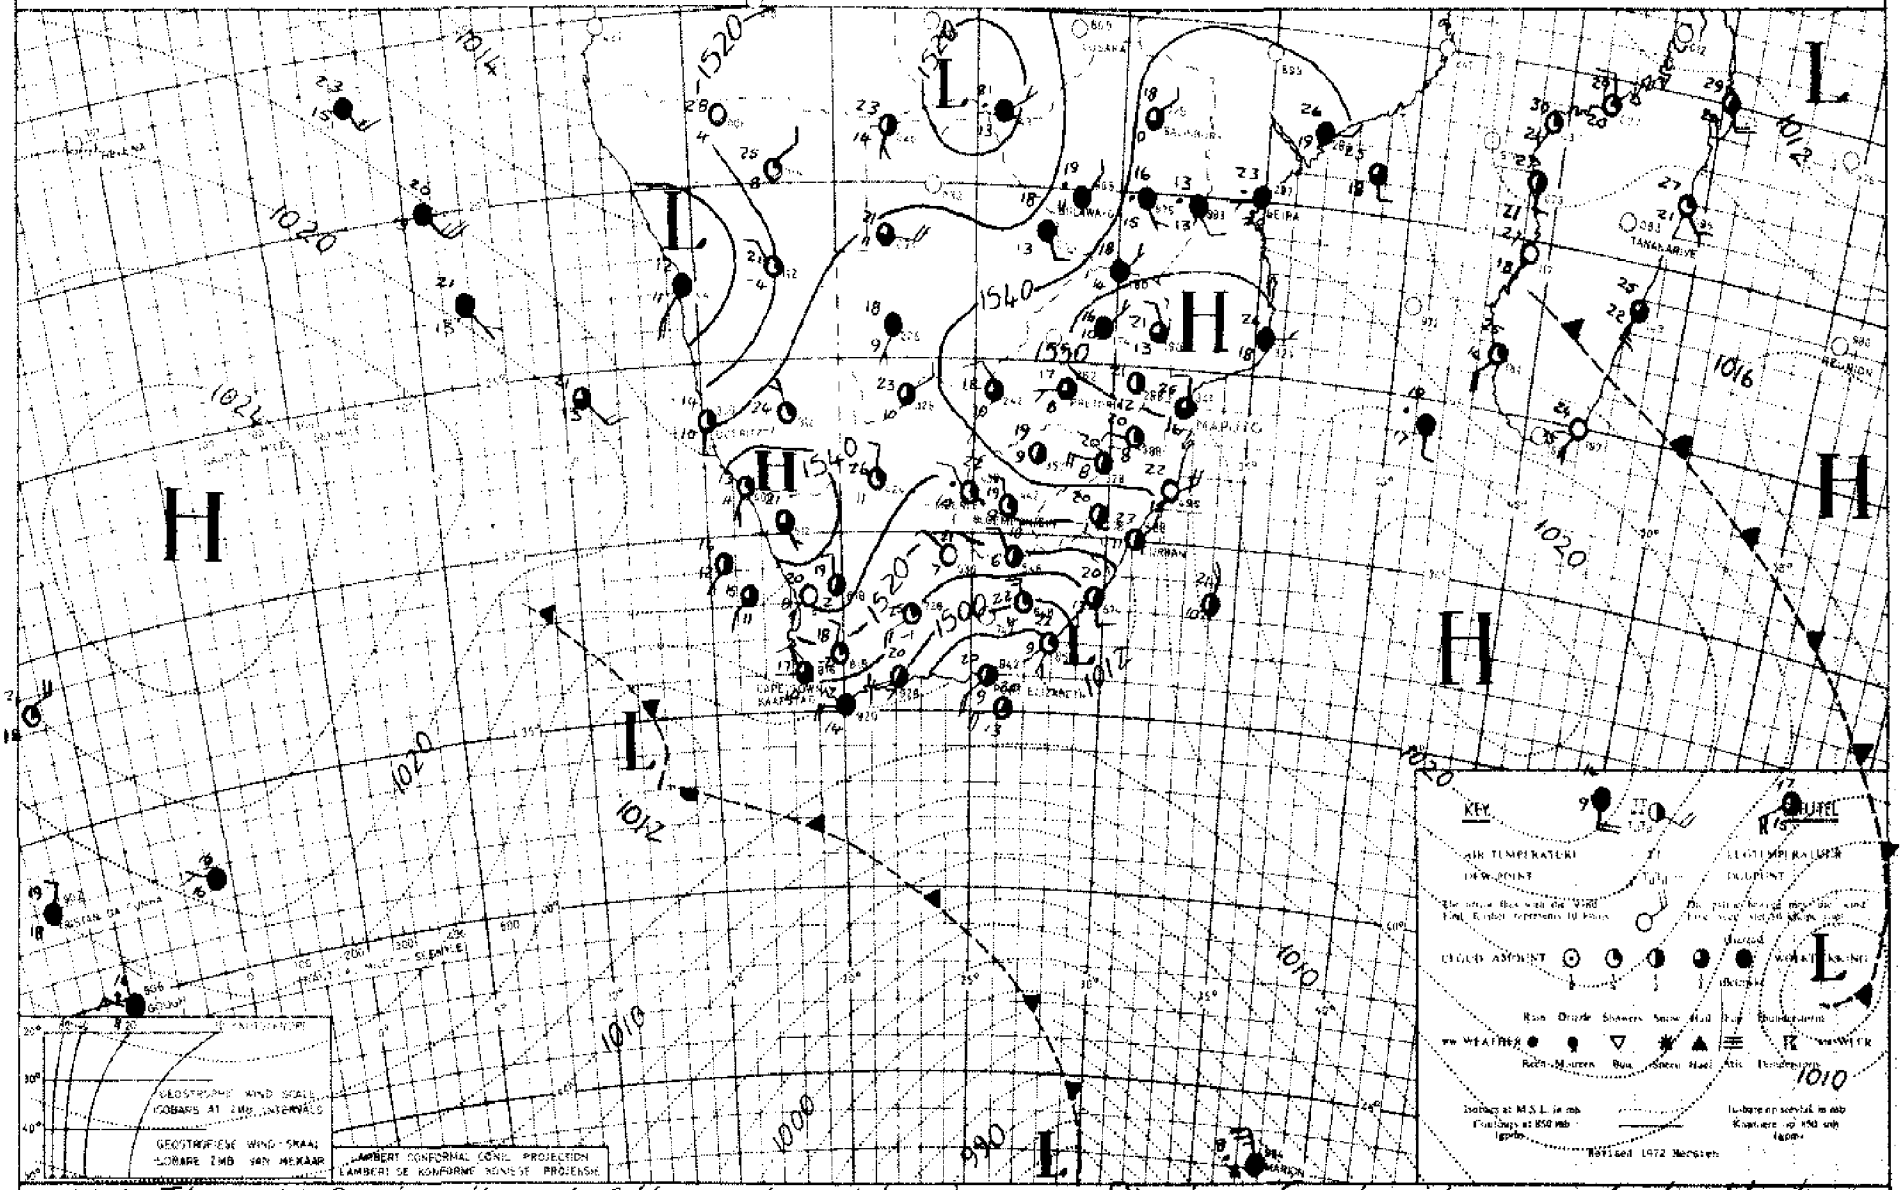
SYNOPTIC WEATHER MAP 12h00 GMT -14h00 SAST 1978-05-24 SINOPTIESE WEERKAART



INFERENCE The cold front south-west of the continent has moved north-eastwards and with the wave near the Cape cold rainy weather will move in over South-West Cape overnight spreading to the South coast later tomorrow.

AFLEIDING Die koue front suidwes van die land het noordooswaarts beweeg en met die golf by die Kaap sal koue reënweer oornag oor Suidwes-Kaap inbeweeg en later môre na die Suidkus uitbrei.

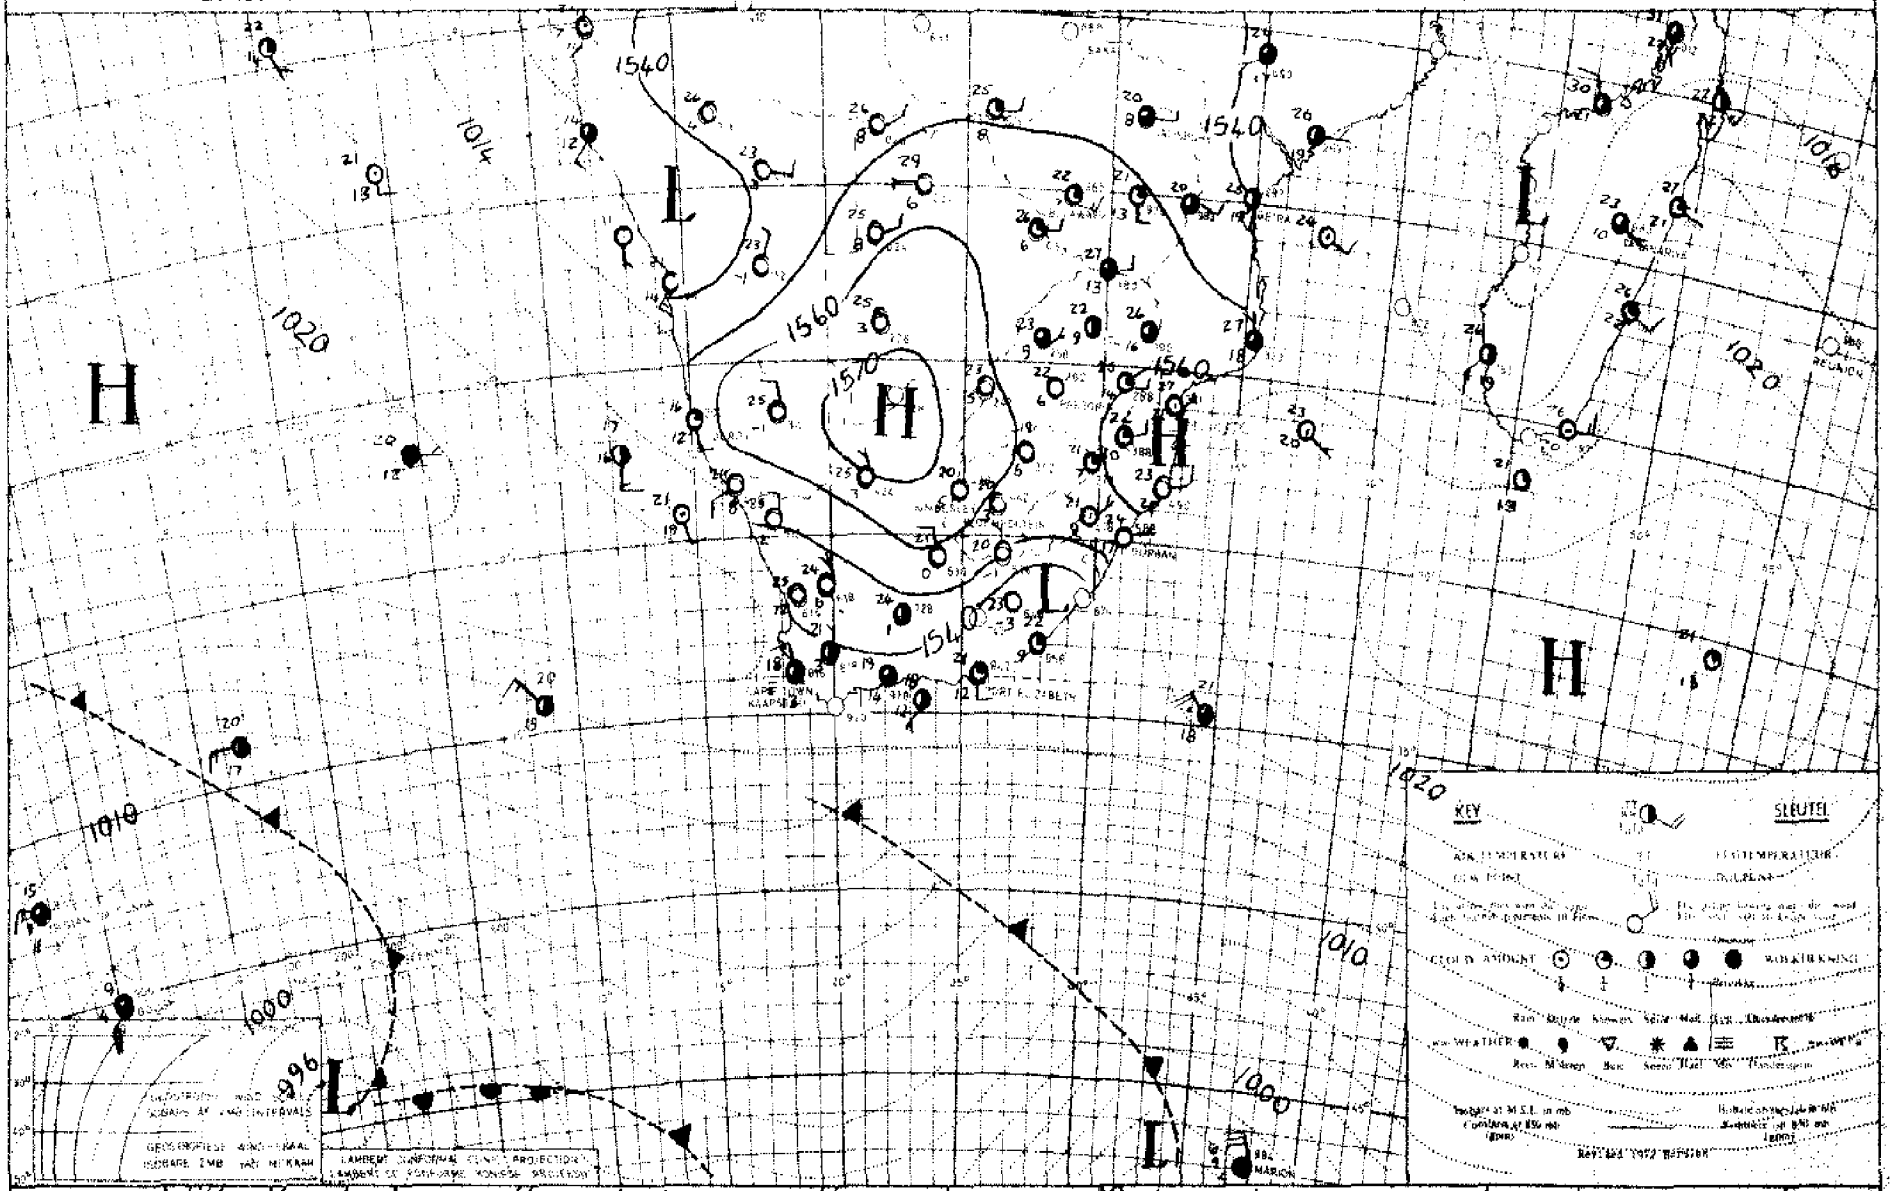
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-05-27 SINOPTIESE WEERKAART



INFERENCE With the high over the interior and the cold front moving eastwards south of the continent it will remain fine over most areas.

AFLEIDING Met die hoog oor die binneland en die koue-front wat suid van die land verby beweeg sal dit mooiweer bly oor die meeste dele.

INFERENCE The cold front over South-West Cape is moving slowly eastwards over the southern Cape Province and colder conditions with light showers will spread over these areas.

AFLEIDING Die koue front oor Suidwes-Kaap beweeg geleidelik ooswaarts oor die suidelike Kaapprovinsie sodat kouer toestande en ligte buie oor die dele sal uitbreek.

INFERENCE The high south-west of the continent is moving eastwards and cold conditions with rain will spread along the South-east coast. A trough in the upper air is moving eastwards over the interior causing light showers over Free State and southern Transvaal.

AFLEIDING Die hoog suidwes van die land beweeg ooswaarts en koue toestande met reën sal langs die Suidooskus uitbrei. 'n Bolugtrog beweeg ooswaarts oor die binneland en ligte buie is moontlik oor die Vrystaat en suidelike Transvaal.

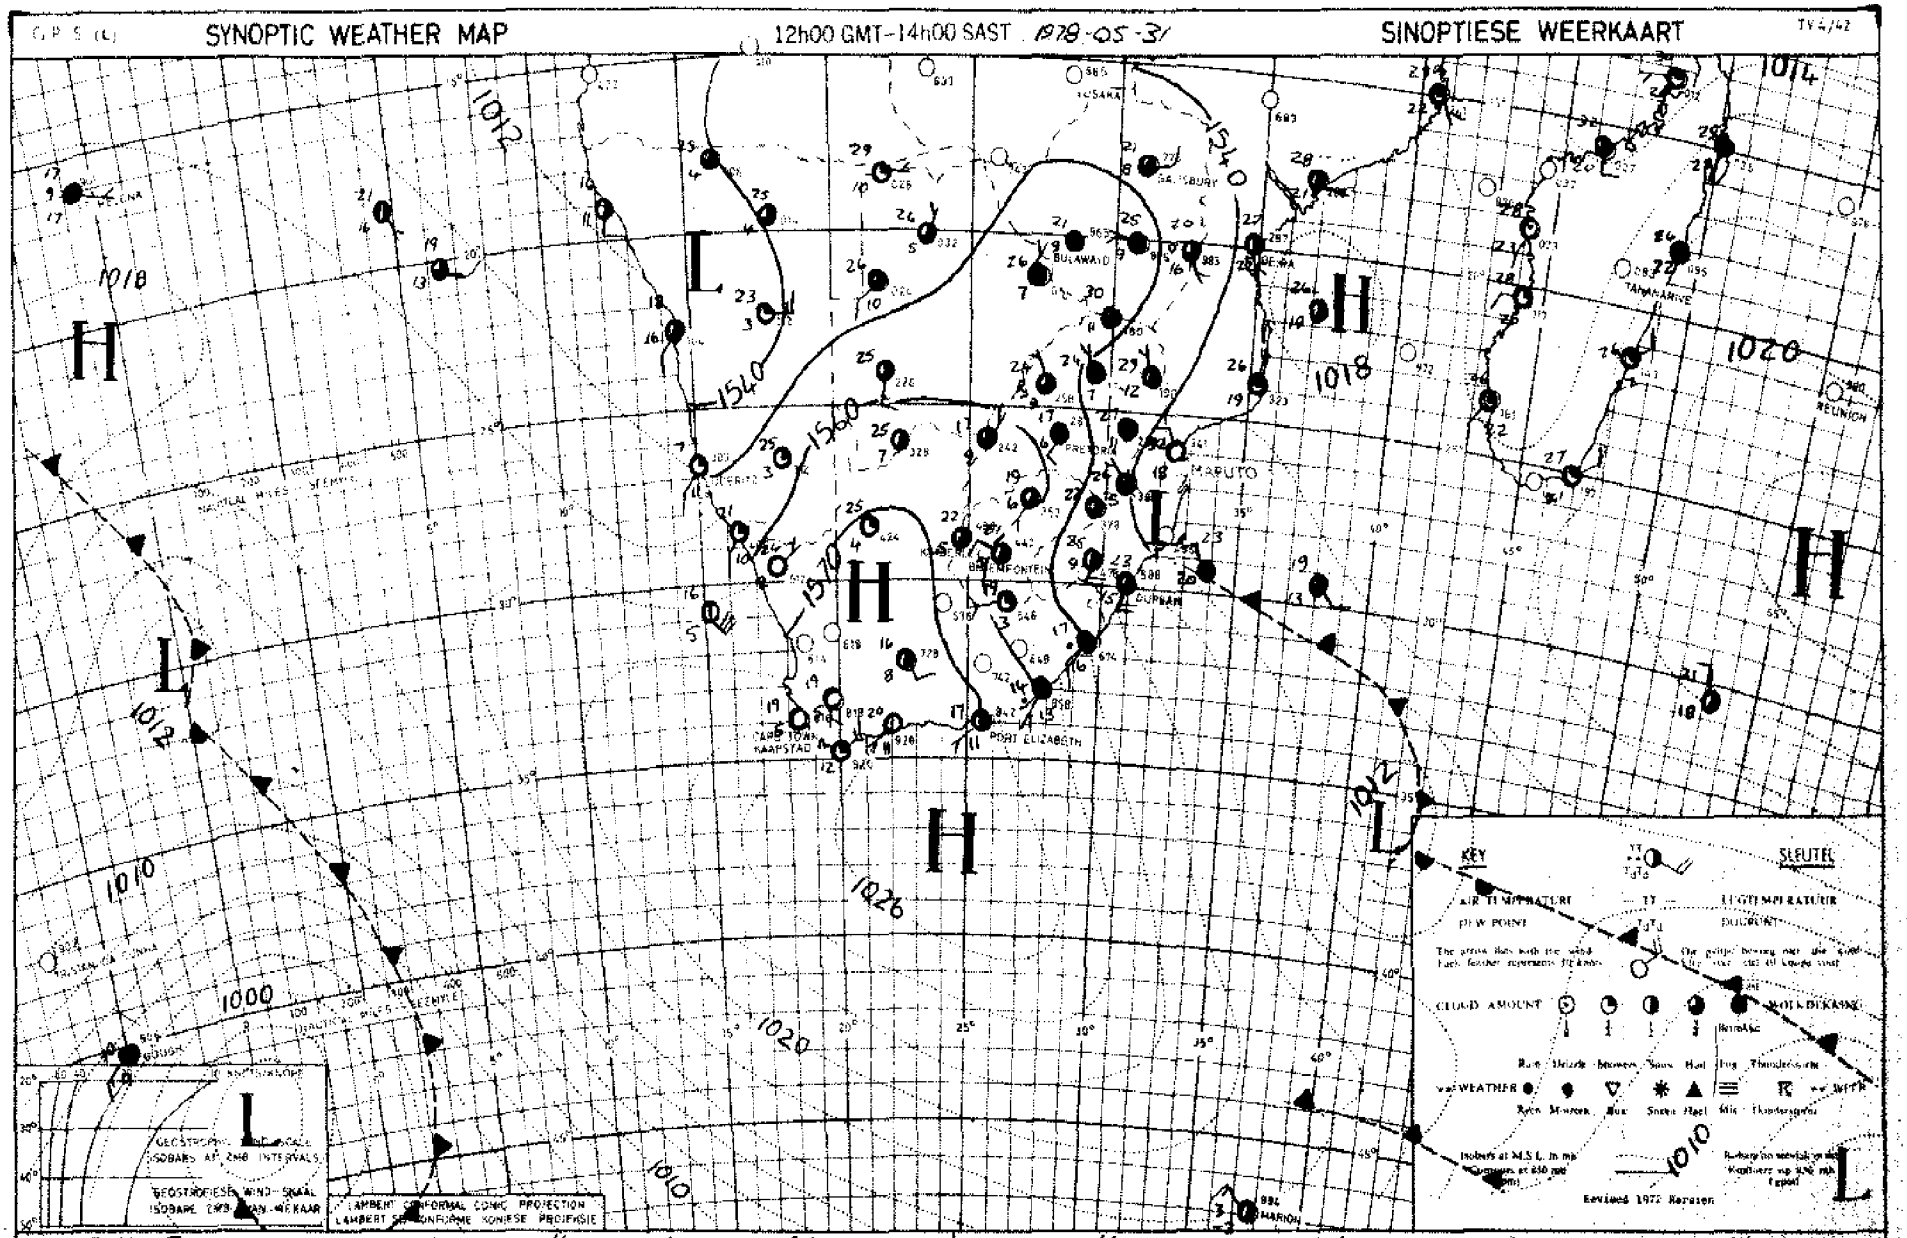
C.P.S. (C) SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-05-31 SINOPTIESE WEERKAART TV 2/42



INFERENCE Cool cloudy weather will push in over Natal and Transvaal overnight with light rain at places. The upper-air trough over central interior is moving rapidly eastwards causing light showers over Free State and Transvaal today.

AFLEIDING Koeler bewolkte weer sal oornag oor Natal en Oos-Transvaal instoot met ligte reën op plekke. Die bolug-trog oor die sentrale binneland beweeg vinnig ooswaarts maar ligte buie sal vandag nog oor Vrystaat en Transvaal voorkom

INFERENCE A trough over the western interior is moving eastwards and cooler conditions will move in over the western half of the country with light showers over the central parts. Cold moist air is still being fed in over northern Transvaal.

APLEIDING 'n Trog oor die westelike binneland beweeg ooswaarts en koeler toestande sal oor die westelike helfte van die land inbeweeg met ligte buie oor die sentrale dele. Koue vogtige lug word steeds oor noordelike Transvaal ingevoer.

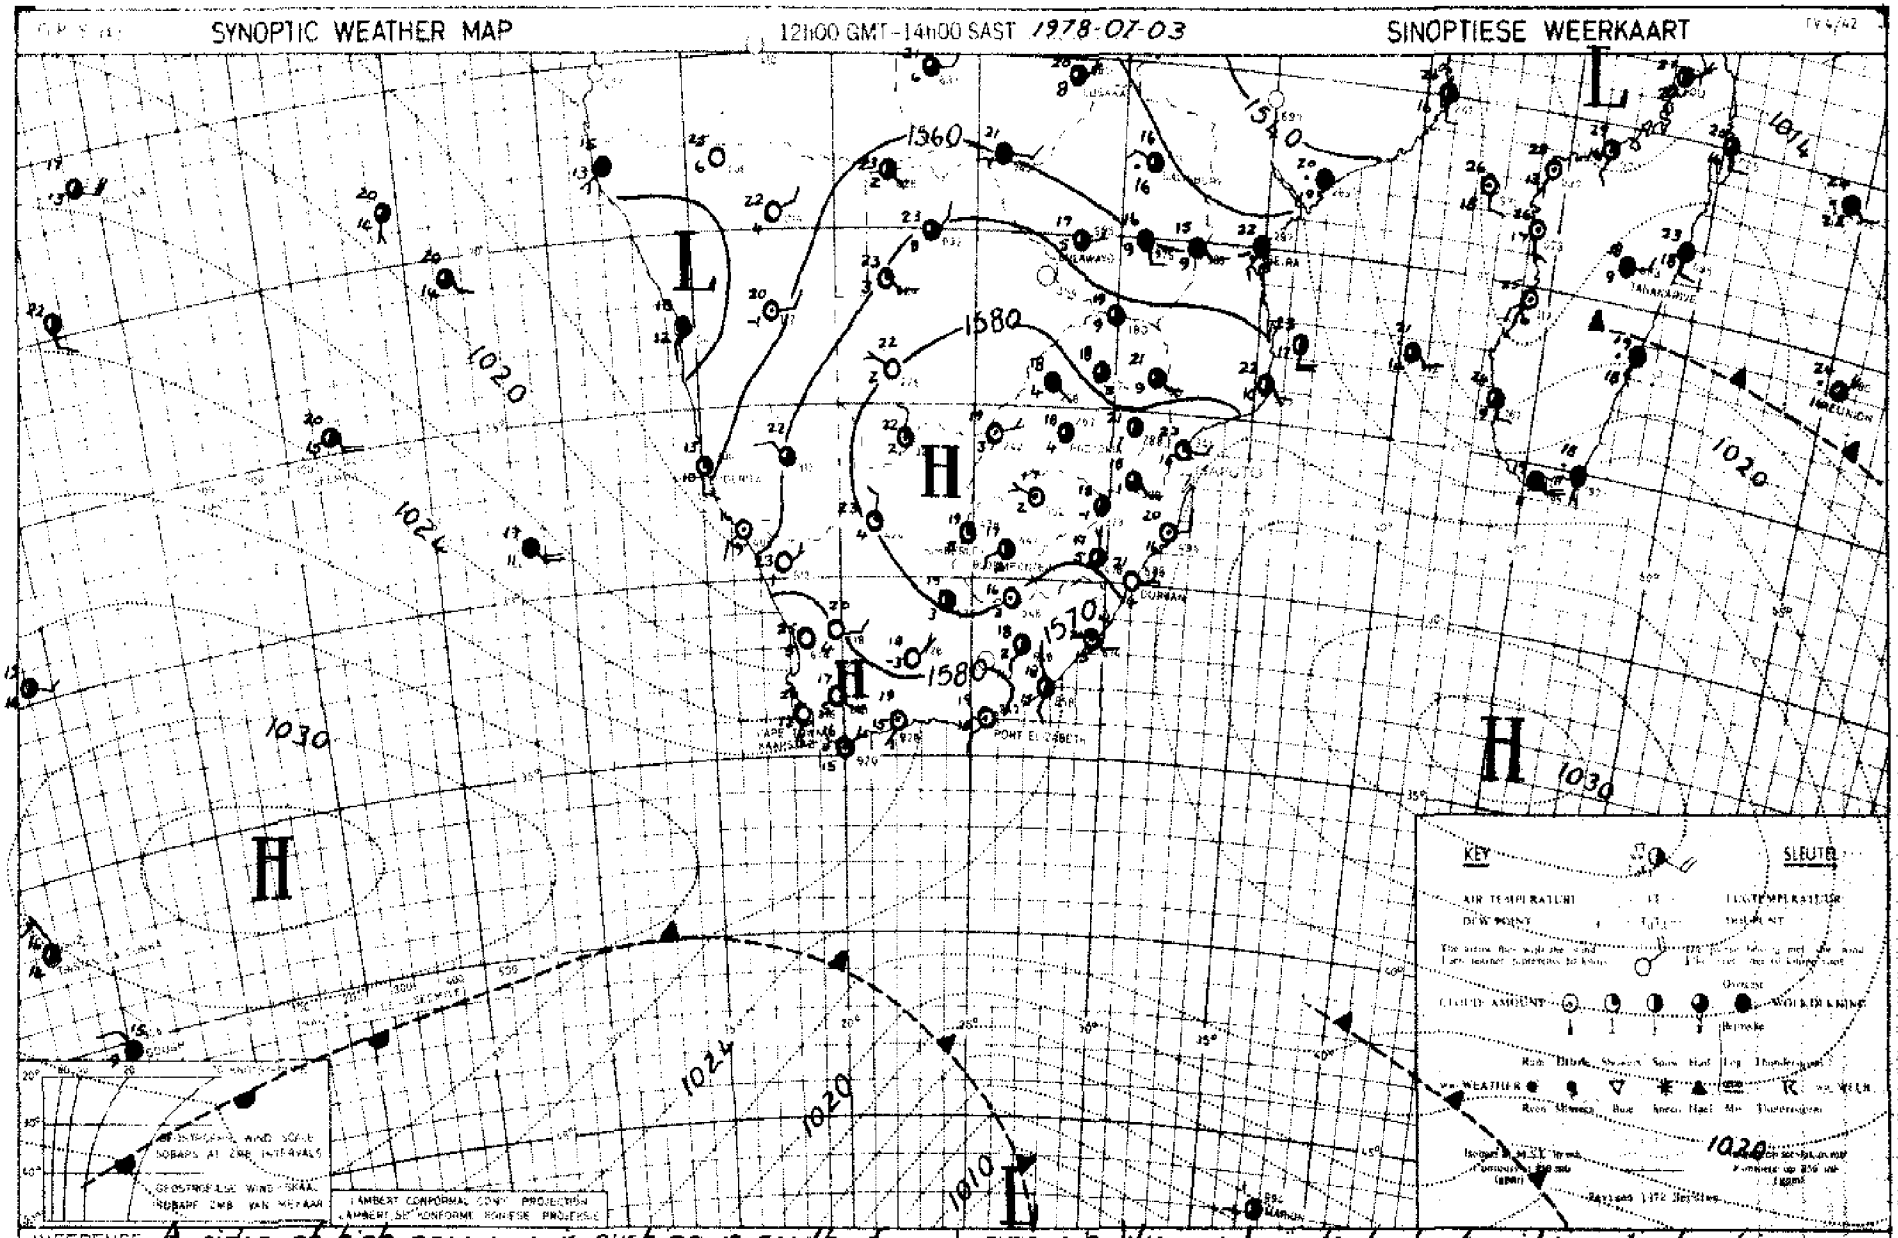
SYNOPTIC WEATHER MAP 12h00 GMT–14h00 SAST 1978-07-03 SINOPTIESE WEERKAART



INFERENCE A ridge of high pressure is pushing in south of the continent and somewhat cooler conditions will spread to the East coast. With the trough over Eastern Cape light showers can occur over this region and Southern Natal today.

AFLEIDING 'n Wig van hoe druk stoot suid van die land in en effens koeler toestande sal na die ooskusstreke uitbrei. Met die trog oor Oos-Kaap kan ligte buie vandag nog oor hierdie streek en Suid-Natal voorkom.

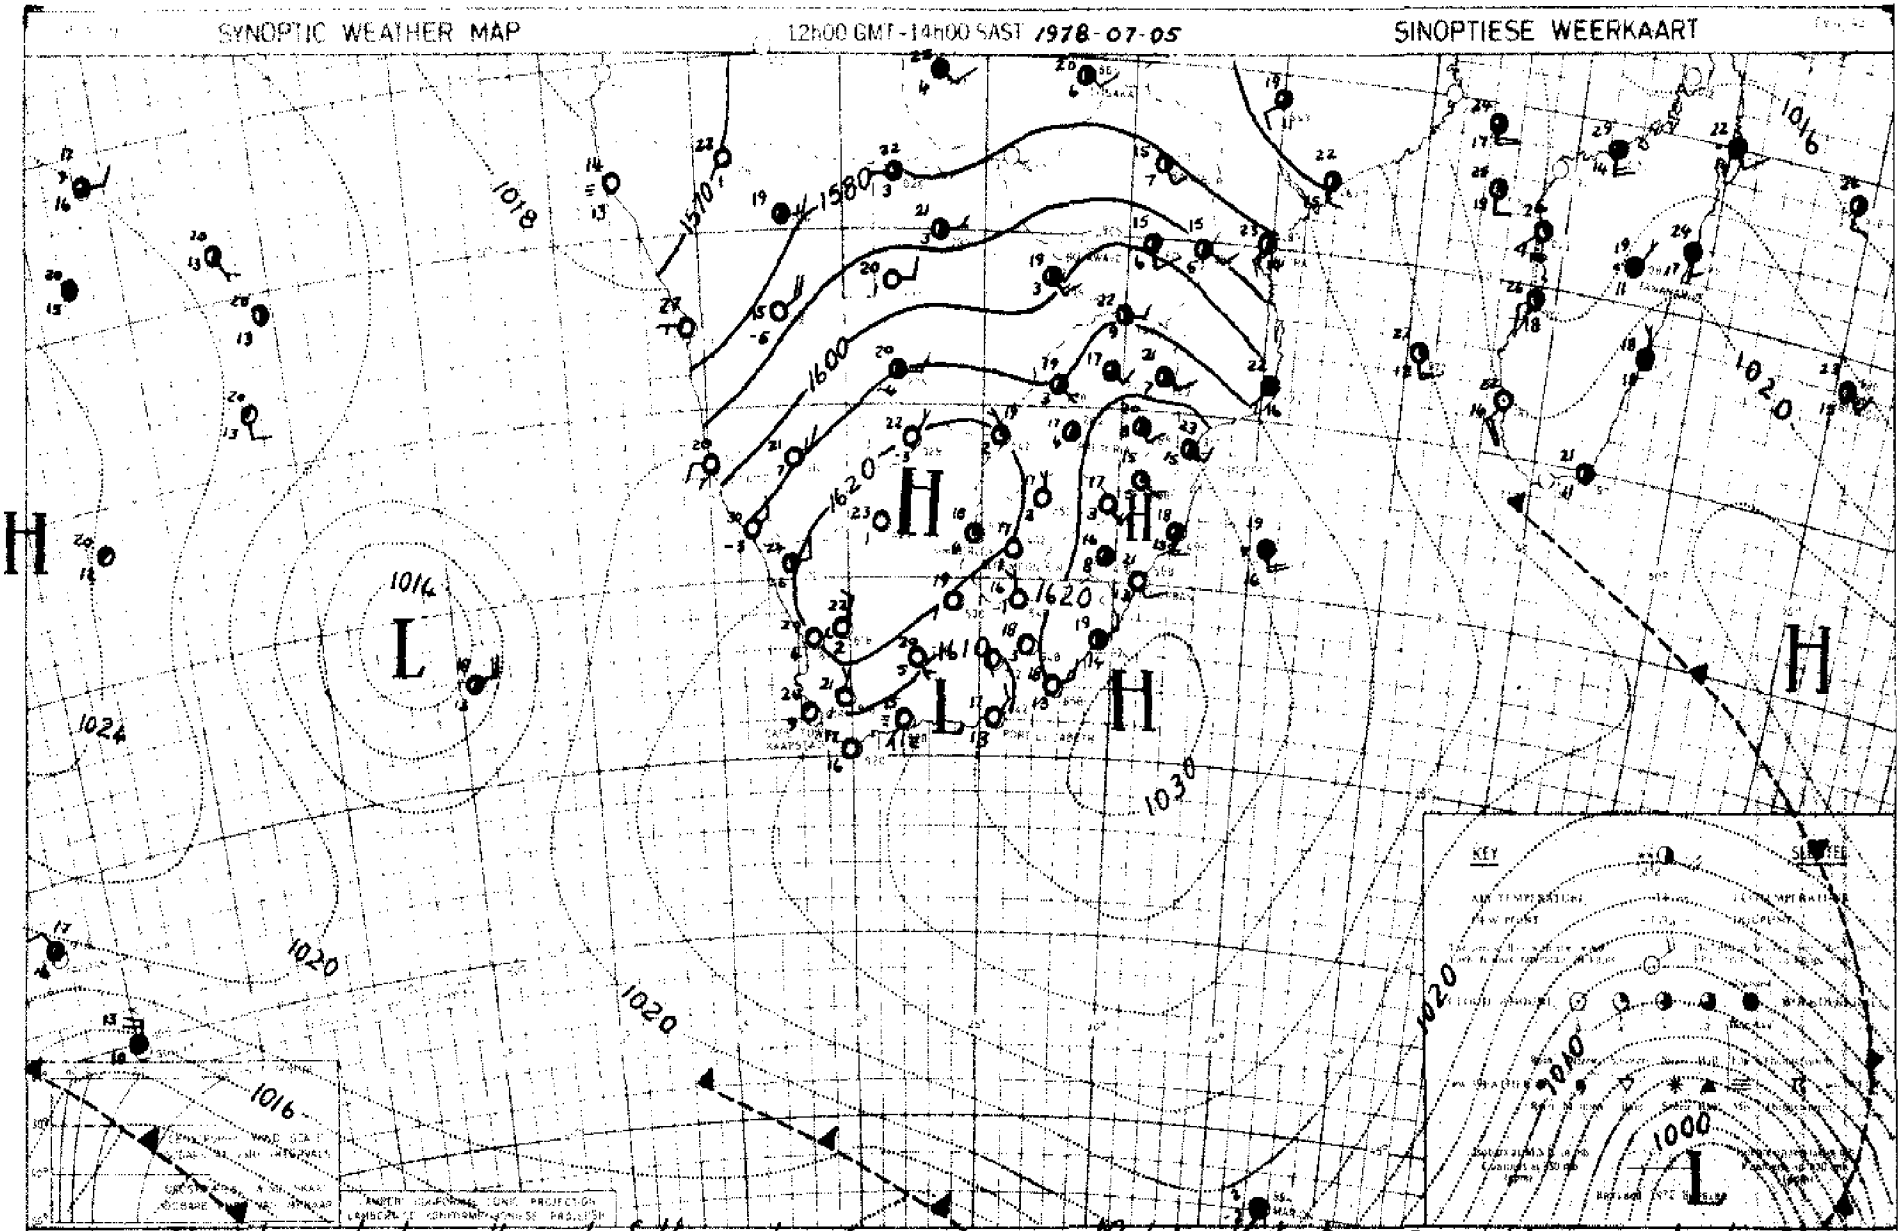
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-07-05 SINOPTIESE WEERKAART



INFERENCE The strong high south-east of the continent is still causing an influx of cold moist air over northern Natal and eastern Transvaal. The cutt-off low over the Atlantic ocean is moving very slowly eastwards.

AFLEIDING Met die sterk hoog nog suidoos van die land word koue vogtige lug steeds ingevoer oor noordelike Natal en Oos-Transvaal. Die afgesnyde laedrukstelsel oor die Atlantiese oseaan beweeg uiters stadig oostwaarts.

INFERENCE The high over the Indian Ocean is causing a strong inflow of moist air over the north-eastern parts of the country and cloudy conditions with light rain at places will occur. The low over the Atlantic Ocean is moving eastwards and it will become slightly cooler later along the south-western coast.

AFLEIDING Die hoog oor die Indiese Oseaan veroorsaak n sterk invloei van koue vogtige lug oor die noordoostelike dele van die land en bewolkte toestande met ligte reën op plekke sal voorkom. Die laag oor die Atlantiese Oseaan beweeg oostwaarts en dit sal later effens koeler word langs die suidwestekus.

INFERENCE The strong high-pressure systems over the interior and the Indian Ocean are causing the frontal systems to the west of the Cape to move south-eastwards and rain is therefore not expected along the south-western coast.

AFLEIDING Die sterk hoëdrukstelsels oor die land en oor die Indiese Oseaan veroorsaak dat die frontale stelsels wes van die Kaap suidooswaarts beweeg en reën word dus nie langs die suidweskusstreke verwag nie.

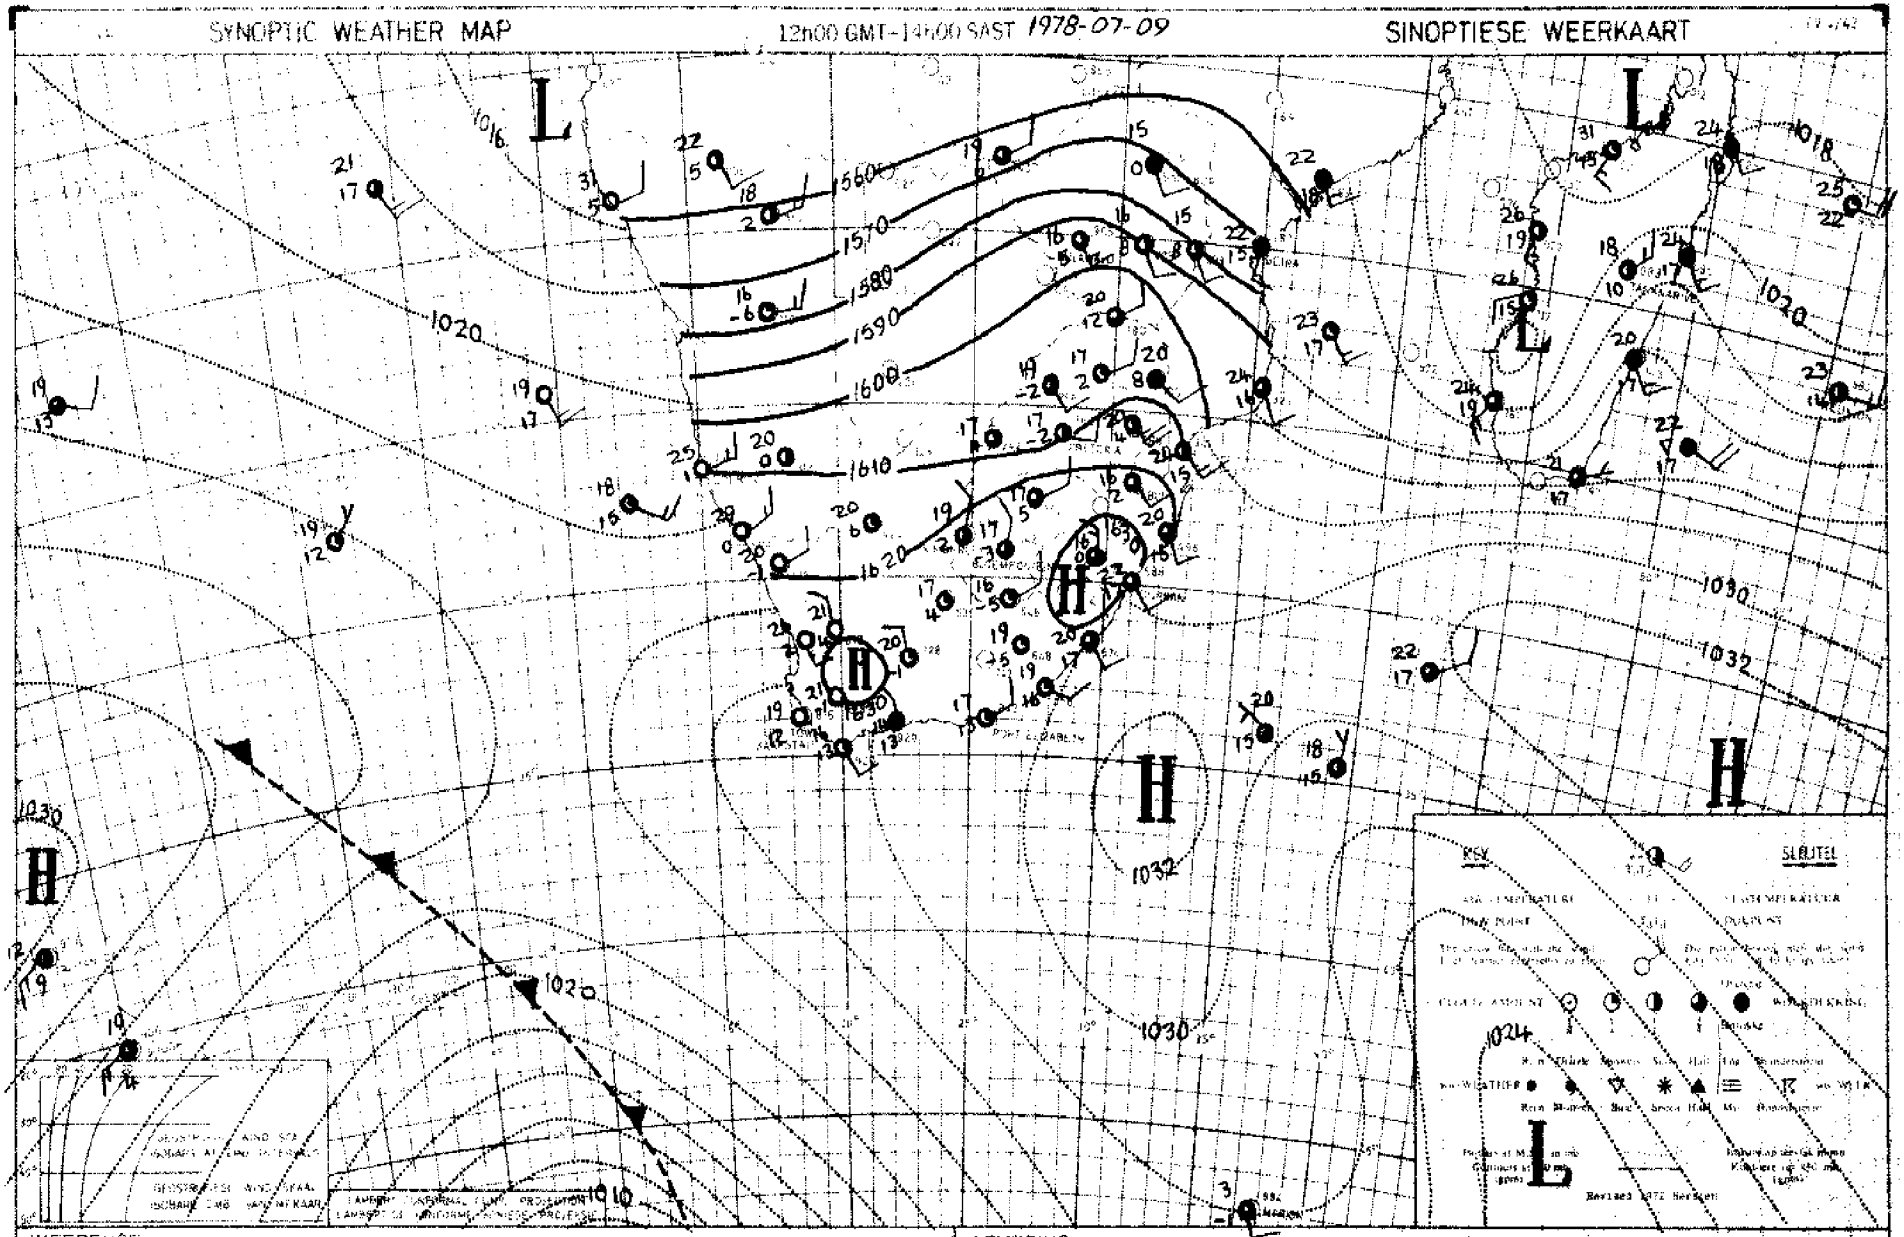
Tshane	18	2	



INFERENCE The upper-air trough is moving eastwards and associated with an inflow of moist air over the eastern parts, thundershowers and showers can be expected over the Natal north coast.

AFLEIDING Die bolugtrog beweeg ooswaarts en tesame met 'n invloei van vogtige lug oor die oostelike dele kan buie en donderbuie oor die Natalse noordkus verwag word.

INFERENCE The high over the Indian Ocean is moving slowly eastwards and the influx of moist air over the north-eastern parts of the country will decrease. Cloudy cold weather will however, still occur over the Eastern Transvaal and North-Eastern Natal with light rain at places.

AFLEIDING Die laag oor die Indiese Oseaan beweeg stadig oostwaarts en die invloei van vogtige lug oor die noordoostelike dele van die land sal afneem. Bewolkte koue weer sal egter nog oor Oos-Transvaal en Noordoos-Natal voortduur met ligte reën op plekke.

INFERENCE The cold front to the south-west of the Cape is moving eastwards south of the country and will cause cloudy weather overnight along the south coast. As the high over the Indian Ocean moves eastwards the inflow of moist air over the Transvaal will diminish and it will start to clear.

AFLEIDING Die koufront suidwes van die Kaap sal oostwaarts suid van die land verby beweeg en sal bewolkte weer oornag langs die suidkus veroorsaak. Namate die hoog oor die Indiese Oseaan ooswaarts beweeg, sal die invloei van vogtige lug oor Transvaal afneem en dit sal begin opklaar.

INFERENCE The cold fronts to the south of the continent are moving north-eastwards and are being followed up by a strong ridge of the Atlantic High. South-Westerly winds will therefore spread to the east coast where it will be partly cloudy with showers.

AFLEIDING Die koufronte suid van die kontinent beweeg noordooswaarts en word opgevolg deur in sterk rug van die Atlantiese Hoog. Suidwestewinde sal dus langs die ooskus uitbrei waar dit gedeeltelik bewolk sal wees met buie.

INFERENCE The low along the west coast is moving southwards - therefore cloudy weather with light rain will occur along the south-western coast. The high south of the country is causing an influx of moist air over the north-eastern regions of the country where it will be partly cloudy and colder.

AFLEIDING Die laag langs die weskus beweeg suidwaarts - dus sal bewolkte weer met lige reën langs die suidweskus voorkom. Die hoog suid van die land veroorsaak 'n invloei van vogtige lug oor die noordoostelike gebiede van die land waar gedeeltelik bewolkte en kouer weer sal voorkom.

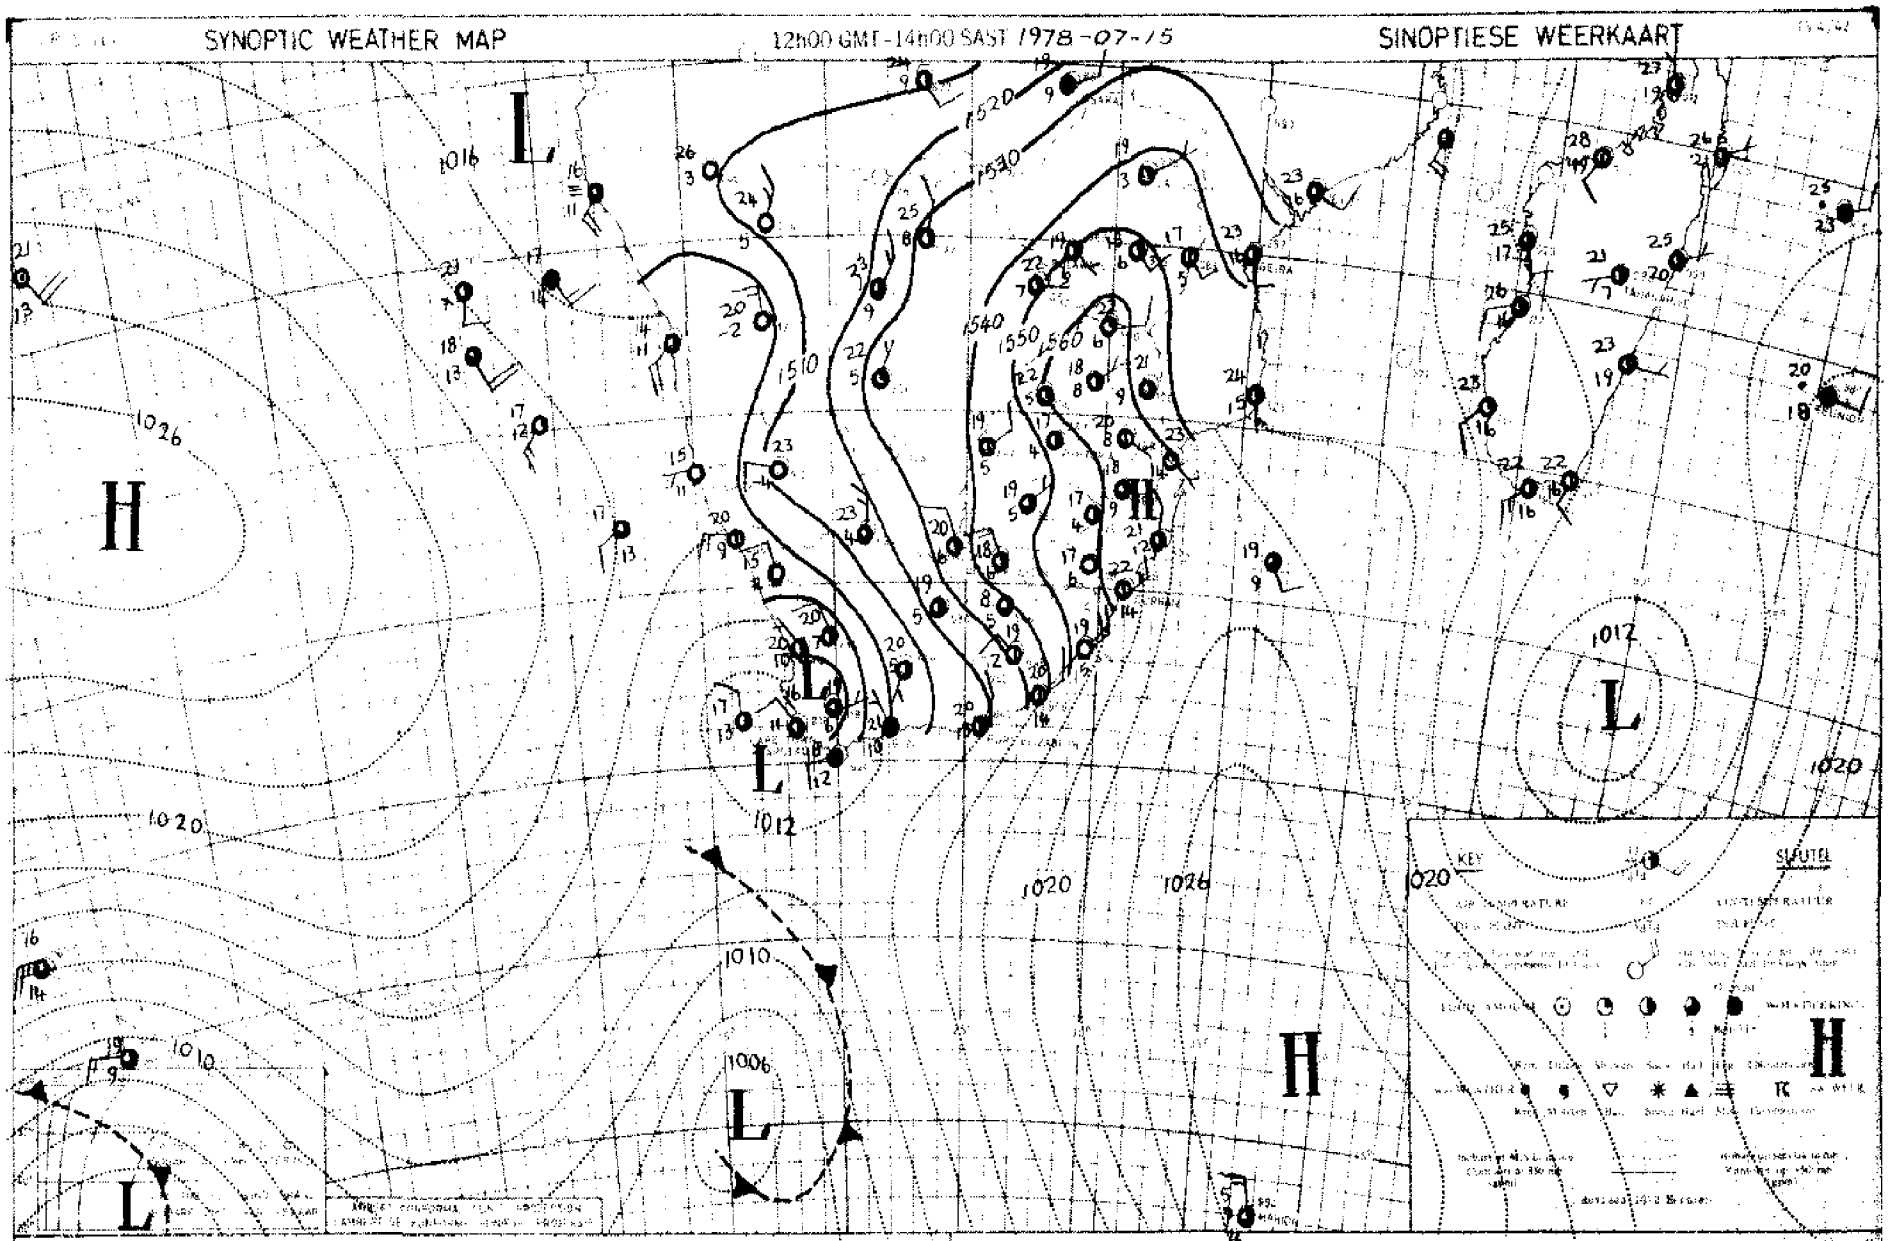
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-07-15 SINOPTIESE WEERKAART



INFERENCE: An upper-air trough is situated over the western parts of the country and with fairly moist air in circulation over the central and southern parts, light showers and thunder-showers will fall over most parts of the Cape Province

AFLEIDING: 'n Bolugtrog is oor die westelike dele van die land gelee en met redelike vogtige lug in sirkulasie oor die sentrale en suidelike dele sal ligte buie en donderbuie oor die meeste dele van Kaapland uitsak.

INFERENCE The ridge of the Atlantic high along the south-east coast is feeding in moist air over Natal, causing partly cloudy weather. A separate high pressure cell will develop tomorrow off the east coast and it will clear. The cold front to the west of the Cape will pass to the south of the country and only fog patches will occur in the morning

AFLEIDING Die rug van die Atlantiese hoog langs die suidooskus voer vogtige lug oor Natal in, en veroorsaak gedeeltelik bewolkte weer. 'n Aparte hoëdrukstelsel sal môre langs die ooskus ontwikkel en dit sal opklaar. Die koufront wes van die Kaap sal suid van die land verby beweeg en slegs misbanke sal in die oggend langs die suidwestkus voorkom.

INFERENCE Cold fronts are still moving eastwards too far south to have any significant influence on the weather over the southern regions. The upper air over the central interior is very unstable and light showers can be expected.

AFLEIDING Koufronte beweeg steeds te ver suid van die land verby om 'n betekenisvolle invloed op die weer oor die suide-like dele te hê. Oor die sentrale binneland is die bolug onstabiel en ligte buie word verwag.

INFERENCE A strong ridge is pushing in south of the continent causing the low west of the Cape to move north-westwards. Cold rainy weather will move in over the southern and south-eastern regions, spreading to Natal tomorrow.

AFLEIDING 'n Sterk wig van hoë druk stoot suid van die land in sodat die laag wes van die Kaap noordooswaarts beweeg. Koue reenweer sal oor die suidelike en suidoostelike gebiede inbeweeg en môre ook na Natal uitbrei.

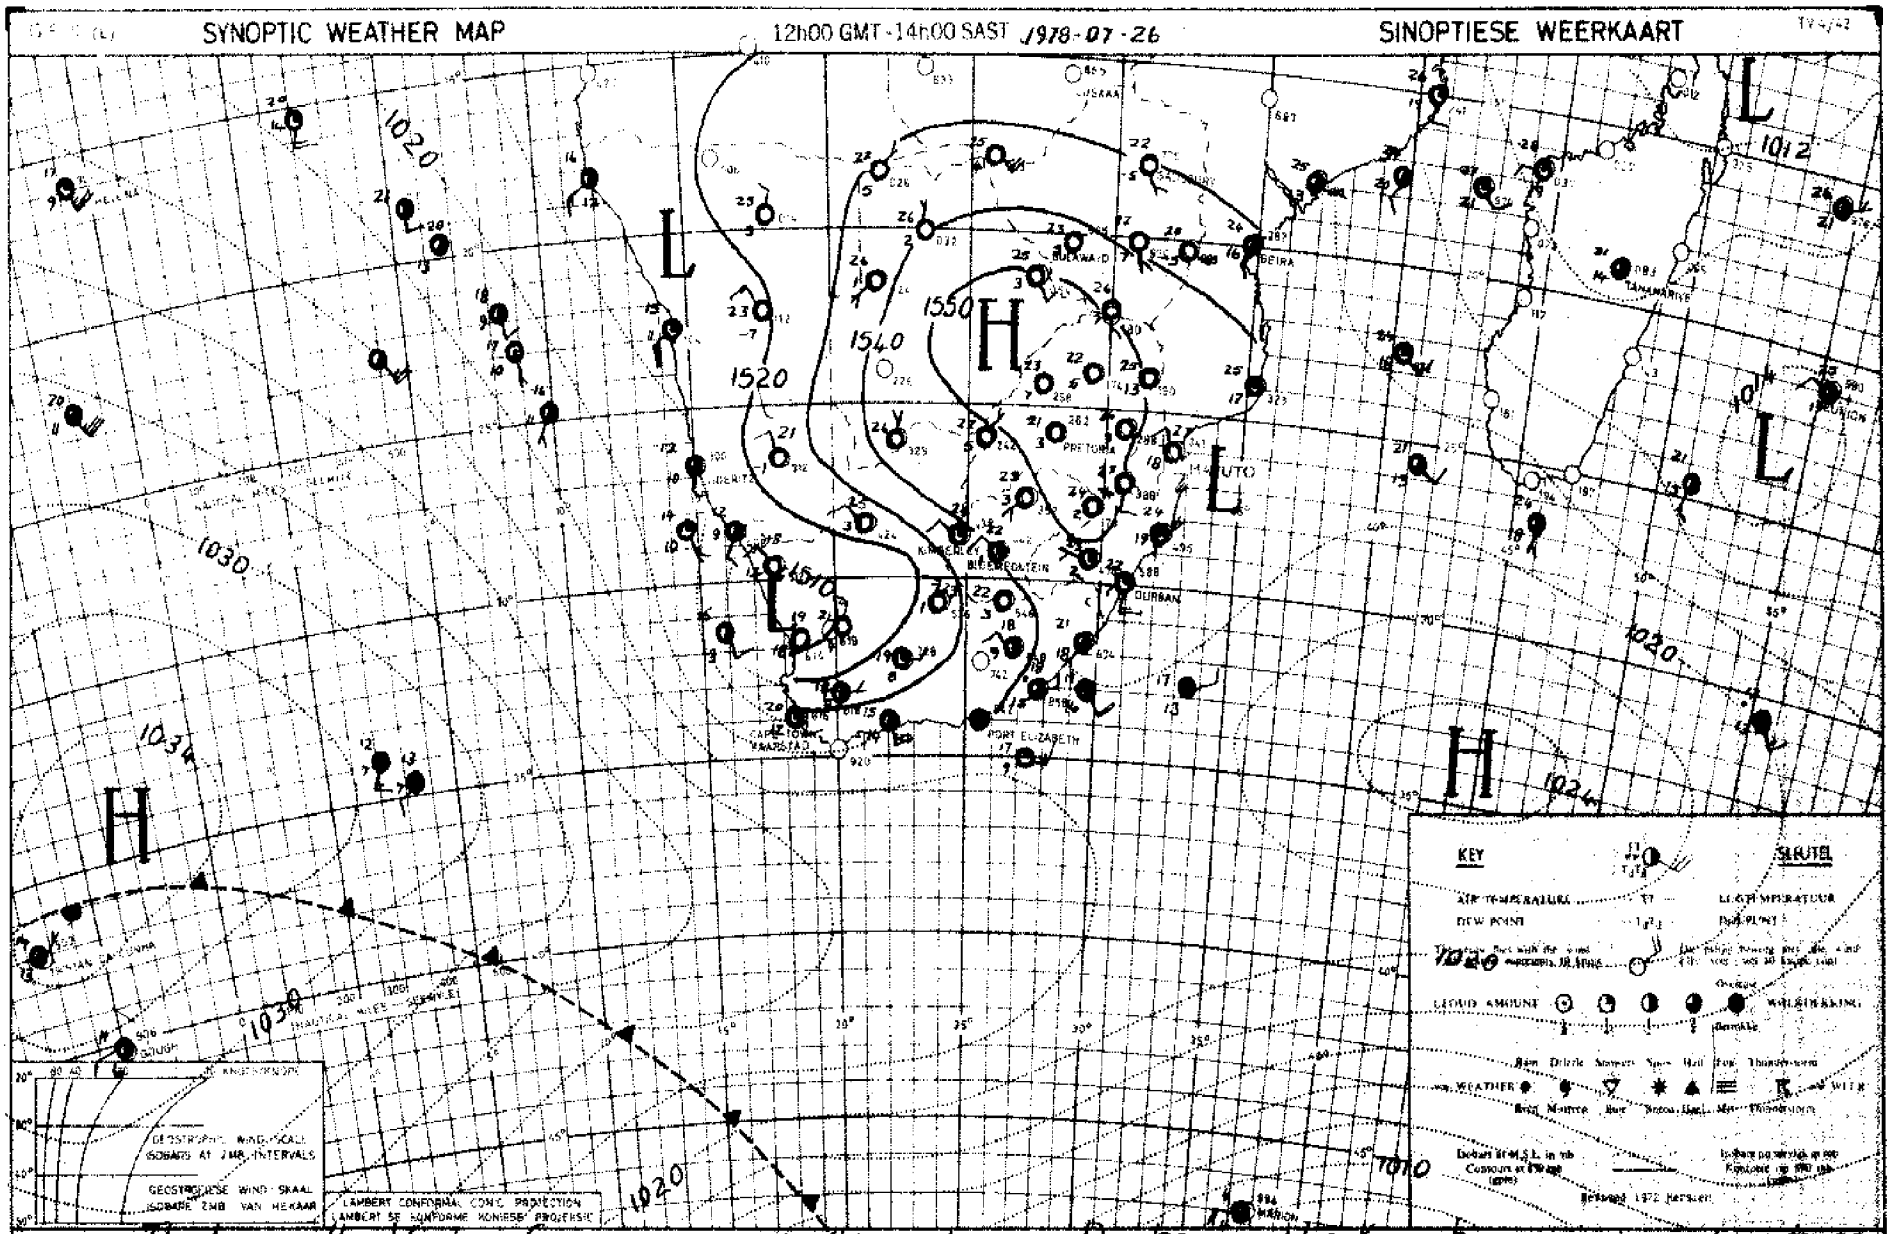
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-07-26 SINOPTIESE WEERKAART



INFERENCE The low over the Western Cape is moving rapidly southwards to the South and South-east coast and the rainy conditions over Southern Cape will clear. Colder frontal weather can be expected over South-West Cape later tomorrow.

AFLEIDING Die laag oor Wes-Kaap beweeg vinnig suidwaarts na die Suid- en Suidooskus en die reënweer oor Suid-Kaap sal opklaar. Koue frontale weer kan later môre oor Suidwes-Kaap verwag word.

INFERENCE. The cold front over the interior is moving eastwards and cold but dry conditions will spread also over the Free State and Natal. The cold front at the Cape is moving eastwards mainly to the south of the country but is being followed by another frontal system.

AFLEIDING Die koufront oor die binnaland beweeg oostwaarts en koue maar droë lug sal ook oor die Vrystaat en Natal inbeweeg. Die koufront by die Kaap beweeg hoofsaaklik suid van die land verby, maar word deur nog n frontale stelsel gevolg.

INFERENCE A strong cell of high pressure is pushing in south of the continent and cold rainy weather will spread also to Eastern Cape and Natal with snow on the mountains. Cold but dry air will push in over the Free State from the west.

AFLEIDING 'n Sterk sel van hoë druk stoot suid van die land in en koue reënweer sal ook na Oos-Kaap en Natal uitbrei met sneeu op die berge. Koue maar droë lug sal oor die Vrystaat vanuit die weste inbeweeg.

DAAGLIKSE WEERBULLETIN

DAILY WEATHER BULLETIN

INFERENCE The low over the Free State is moving slowly southwards towards East London and it will remain cloudy and cold over Eastern Cape and Natal with further rain. Frontal rain can develop over South-Western Cape later tomorrow.

AFLEIDING Die laag oor die Vrystaat beweeg geleidelik suidwaarts in die rigting van Oos-London sodat dit bewolk en koud sal bly oor Oos-Kaap en Natal met verdere reën. Frontale reëntoestande kan later môre oor Suidwes-Kaap ontwikkel.

DAAGLIKSE WEERBULLETIN

INFERENCE The low over the Free State has moved eastwards to the East coast, causing the weather to clear over the interior. The frontal systems south-west of the Cape are moving north-eastwards and light rain is expected over the South-west Cape tomorrow.

AFLEIDING Die laag oor die Vrystaat het na die Oostkus uitbeweeg sodat die weer oor die binneland opgeklaar het. Die frontale stelsels suidwes van die Kaap beweeg noordoostwaarts en ligte reën word môre oor Suidwes-Kaap verwag.

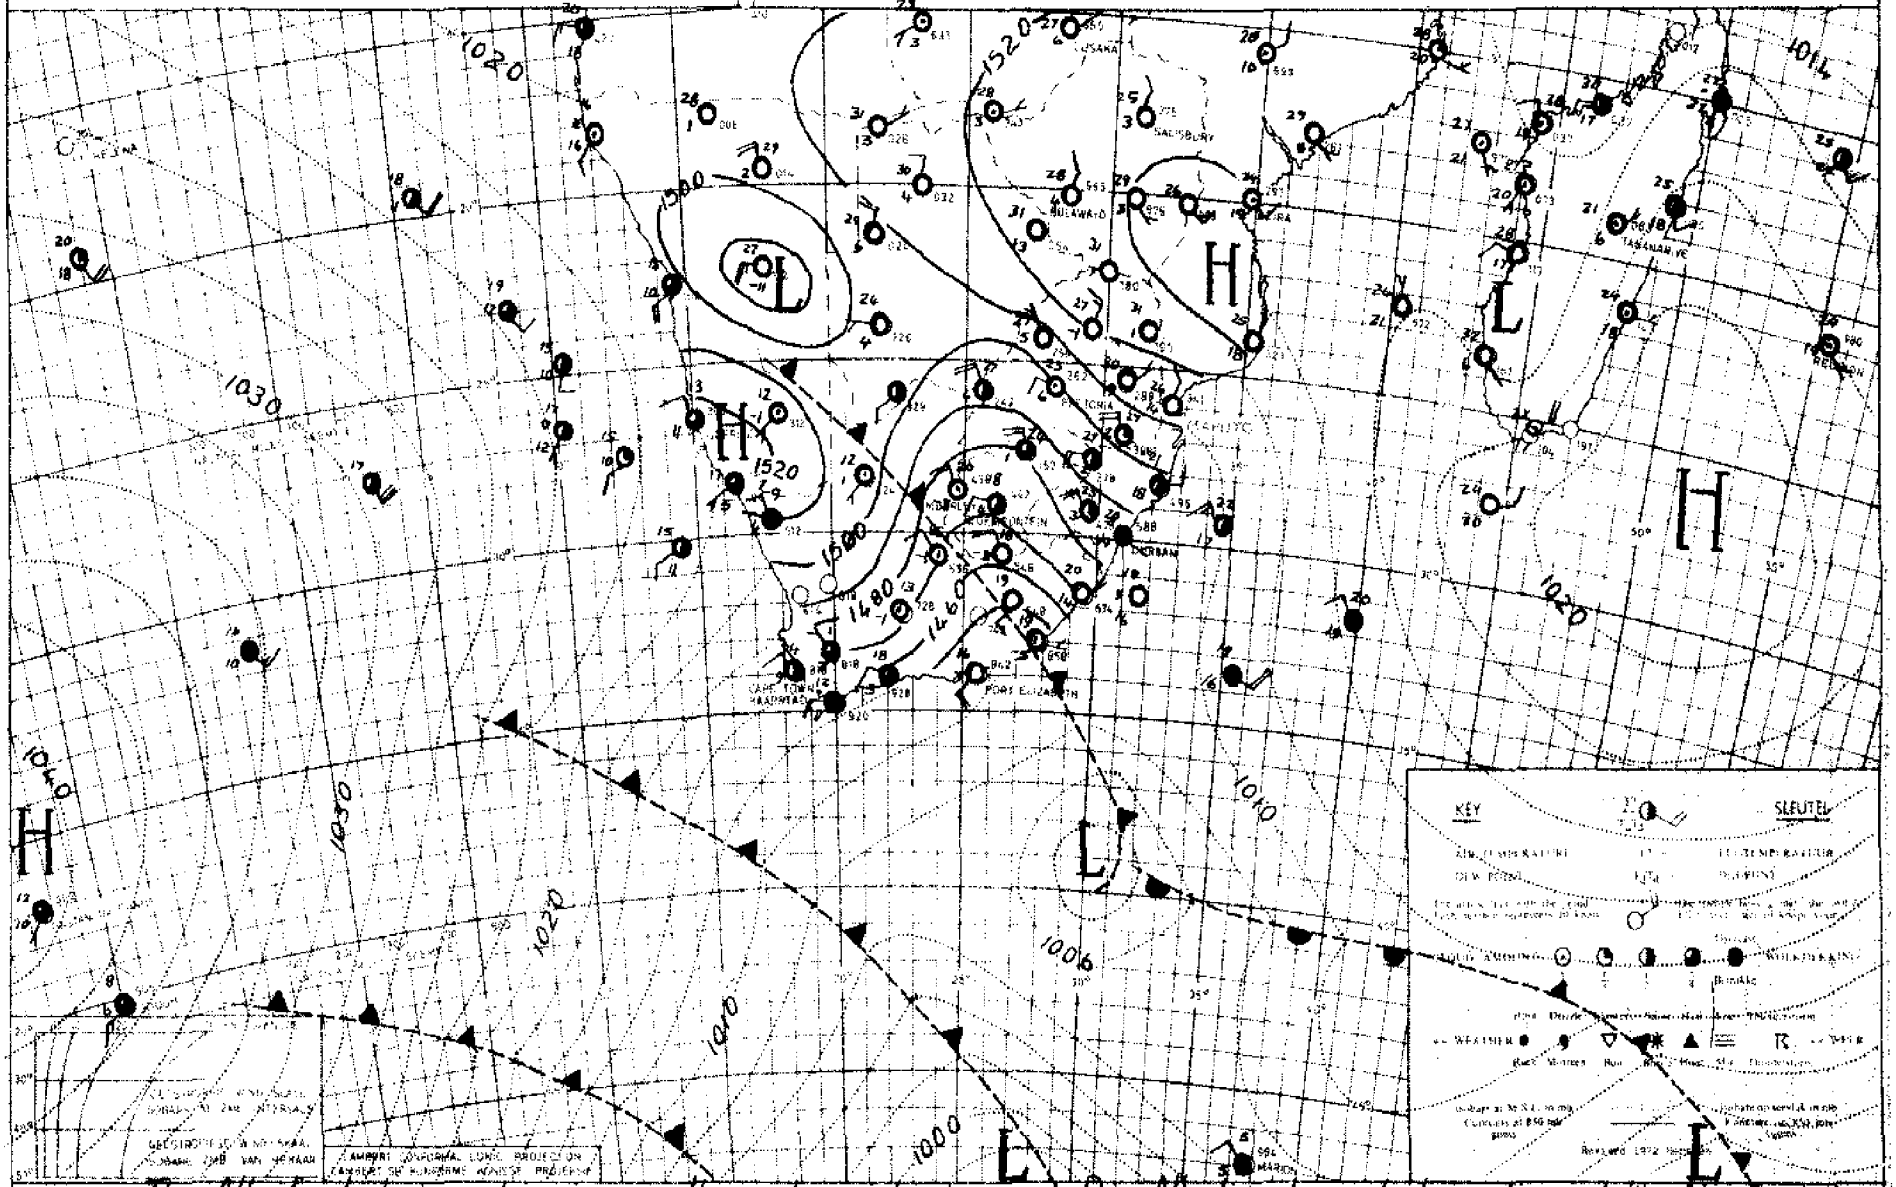
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-08-03 SINOPTIESE WEERKAART



INFERENCE The Atlantic high is pushing in over the western interior and cold but dry air will spread also to the Free State and Natal. The cold front south-west of the Cape is weakening but it is being followed by another front.

AFLEIDING Die Atlantiese hoog stoot oor die westelike binneland in en koue maar droë lug sal ook na die Vrystaat en Natal uitbre. Die koufront suidwes van die Kaap verswak maar word deur nog 'n front opgevolg.

INFERENCE

Cold air with showers will push in over Natal overnight but only slightly cooler and dry air will move in over Transvaal from the west. The cold fronts are moving eastwards mainly to the south of the continent.

AFLEIDING

Koue lug met buie sal oornag oor Natal instoot maar oor Transvaal sal slegs effens koeler en droë lug vanuit die weste inbeweeg. Die kouefronte beweeg nog hoofsaaklik suid van die land verby.

INFERENCE The frontal system west of the continent is moving rapidly eastwards. Cold air will push in over southern S.W.A. and the whole Cape Province overnight and tomorrow with showers and snowfalls over the south-western regions.

AFLEIDING Die frontale stelsel wes van die land beweeg vinnig oos-waarts. Koue lug sal oornag en môre oor suidelike S.W.A. en die hele Kaapprovinsie instoot met buie en sneeuneerslae oor die suidwestelike gebiede.

INFERENCE The high south-east of the continent is moving eastwards, causing the weather over Natal to clear but colder cloudy conditions will push in over Eastern and Northern Transvaal. The cold front at the Cape is moving eastwards mainly to south of the continent.

AFLEIDING Die hoog suidoos van die land beweeg oswaarts sodat die weer oor Natal sal opklaar maar kouer bewolkte toestande sal oor Oos- en Noord-Transvaal instoot. Die koufront by die Kaap beweeg hoofsaaklik suid van die land verby.

INFERENCE With the deep low pressure systems moving eastwards south of the continent it will remain fine over most regions except over South-West Cape where north-westerley winds are expected with light rain.

AFLEIDING Met die diep laedrukstelsel wat suid van die land verby beweeg sal dit mooiweer bly oor die meeste dele behalwe vir Suidwes-Kaap waar noordwestewind en ligte reen verwag word

INFERENCE The sharp trough over the West coast is moving eastwards. With the moist air flowing southwards over the country scattered rain and showers are expected over S.W.A. and the Cape Province spreading to the Free State and Eastern Cape tomorrow.

AFLEIDING Die skerp trog oor die Weskus beweeg ooswaarts en met vogtige lug wat vanuit die noorde oor die land instroom word verspreide reën en buie oor S.W.A. en die Kaapprovinsie verwag wat more na die Vrystaat en Oos-Kaap sal uitbrei.

INFERENCE Scattered showers will occur today east of the trough over the interior but dry air will spread also to Transvaal tomorrow. Cold but fairly dry air is moving eastwards over the Cape Province with showers along the southern coastal regions overnight.

AFLEIDING Verspreide buie sal vandag oos van die trog oor die binneland voorkom maar droë lug sal more ook oor Transvaal inbeweeg. Koue maar betreklik droë lug beweeg ooswaarts oor die Kaapprovinsie met buie oornag oor die suidelike kusstreke

INFERENCE The strong high over the southern Atlantic ocean is moving eastwards and exceptionally cold air will spread eastwards over the country with rain and snow over the southern regions. Local thundershowers will develop over the north-eastern parts of the country.

AFLEIDING Die sterk hoog oor die suidelike Atlantiese oseaan beweeg oswaarts en besondere koue lug sal oswaarts oor die land uitbrei met reën en sneeu oor die suidelike gebiede. Enkele donderbuie sal nog oor die noordoostelike dele van die land ontwikkel.

INFERENCE Exceptionally cold air will push in over the whole country overnight and tomorrow with showers and snow over the southern and south-eastern regions but the air is gradually drying out. Another cold front is moving rapidly towards the Cape.

AFLEIDING Besonder koue lug sal oornag en môre oor die hele land instoot met buie en sneeu oor die suid- en suidoostelike streke maar die lug word geleidelik droër. Nog 'n koue front beweeg vinnig in die rigting van die Kaap.

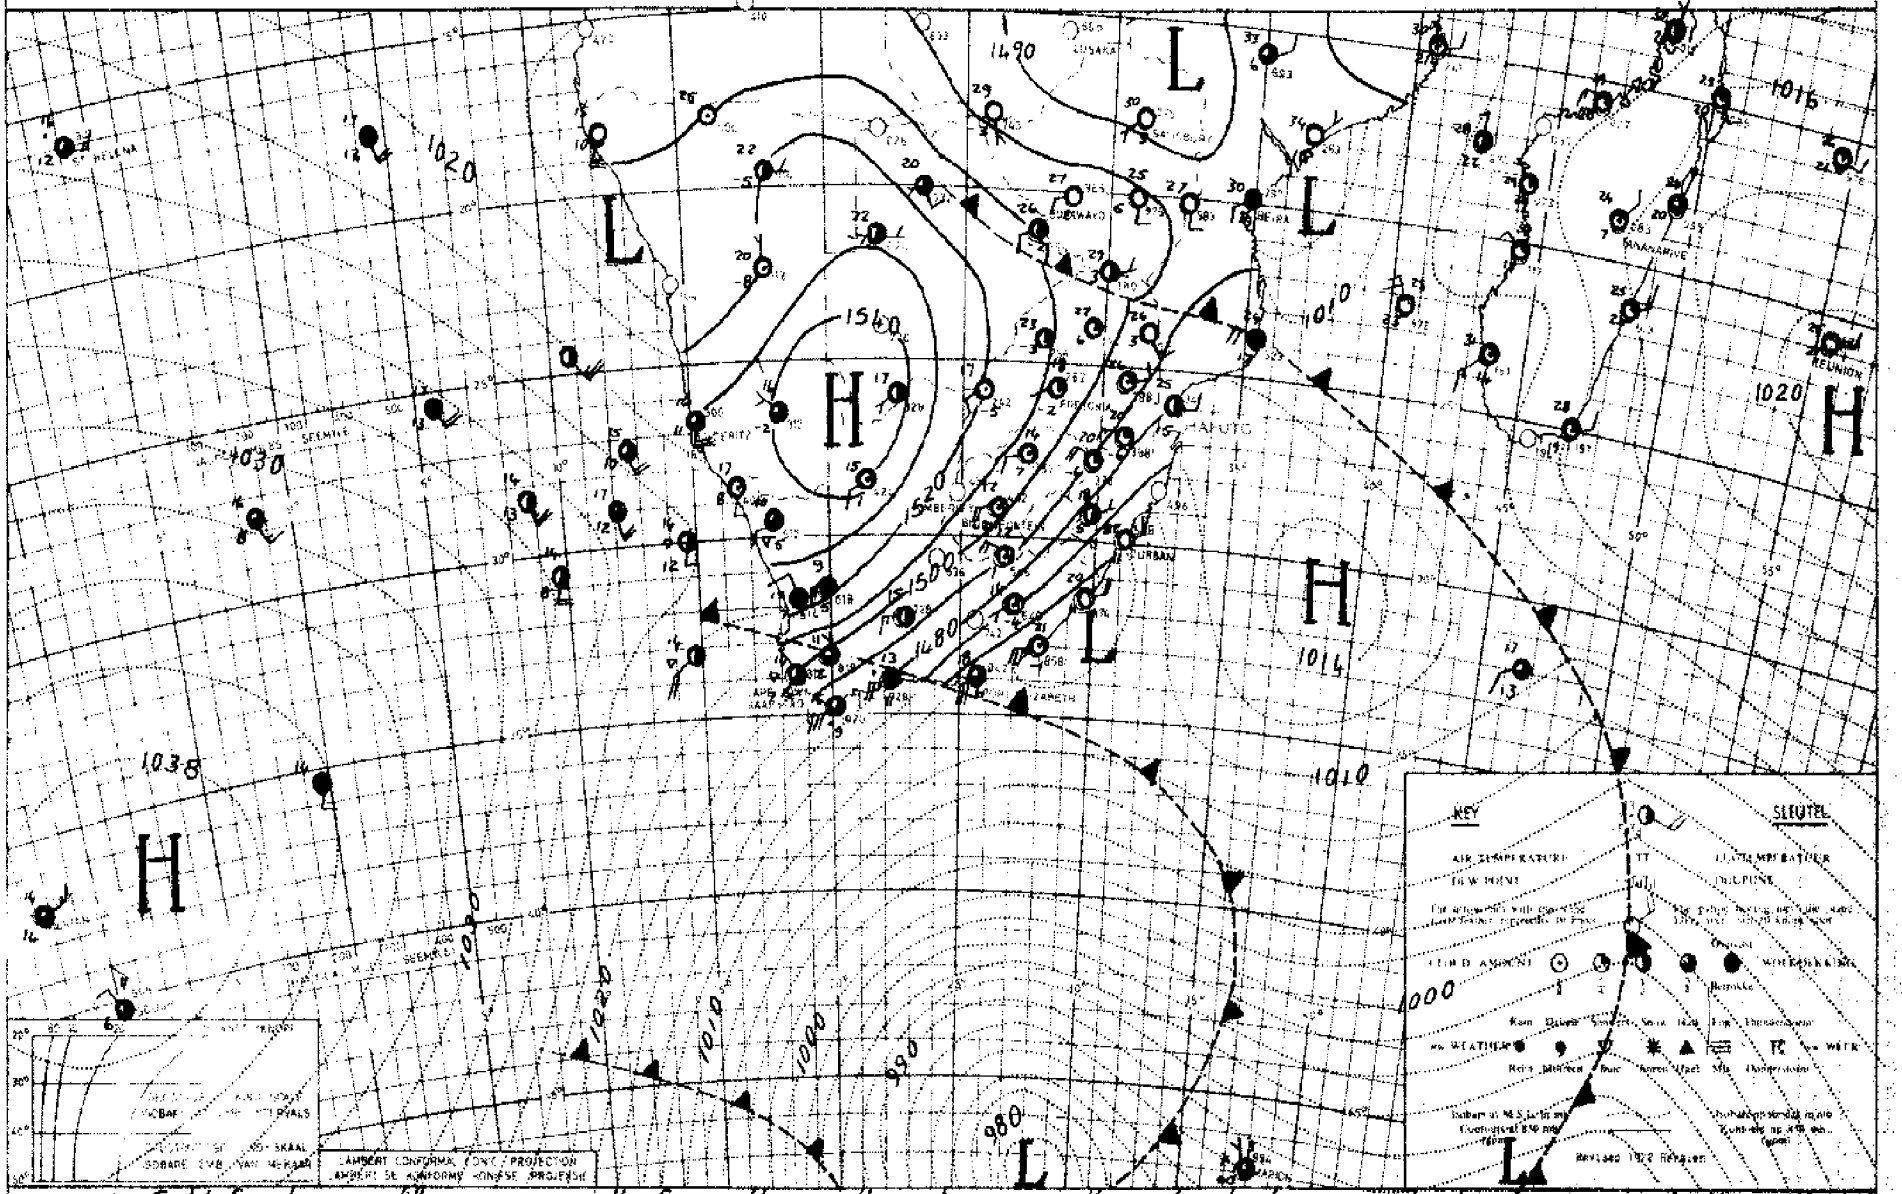
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1978-09-01 SINOPTIESE WEERKAART



INFERENCE Cold fronts are still moving rapidly from the south-west in over the country and even colder conditions with showers and snowfalls will move in over the Cape Province.

AFLEIDING Koue fronte beweeg steeds vinnig vanuit die suidweste in oor die land sodat nog kouer toestande met buie en sneeuvalle oor die Kaapprovinsie sal inbeweeg.

DAAGLIKSE WEERBULLETIN

INFERENCE The trough of low pressure over the western interior is moving rapidly eastwards. Light showers will spread to Southern Transvaal and Natal today but it will clear over most areas tomorrow.

AFLEIDING Die trog van lae druk oor die westelike binneland beweeg vinnig oostwaarts. Ligte buie sal vandag na Suid-Transvaal en Natal uitbrei maar dit sal môre reeds oor die meeste dele ooptrek.

INFERENCE The sharp trough over the western interior is moving slowly eastwards. Scattered thundershowers are expected east of the trough but west of the trough the air is cooler. Colder showery weather will spread eastwards along the south coast.

AFLEIDING. Die skerp trog oor die westelike binneland beweeg geleidelik ooswaarts. Verspreide donderbuie word oos van die trog verwag maar aan die westekant is die lug koeler. Koeler weer met buie sal ook ooswaarts oor die suidkus uitbrei.

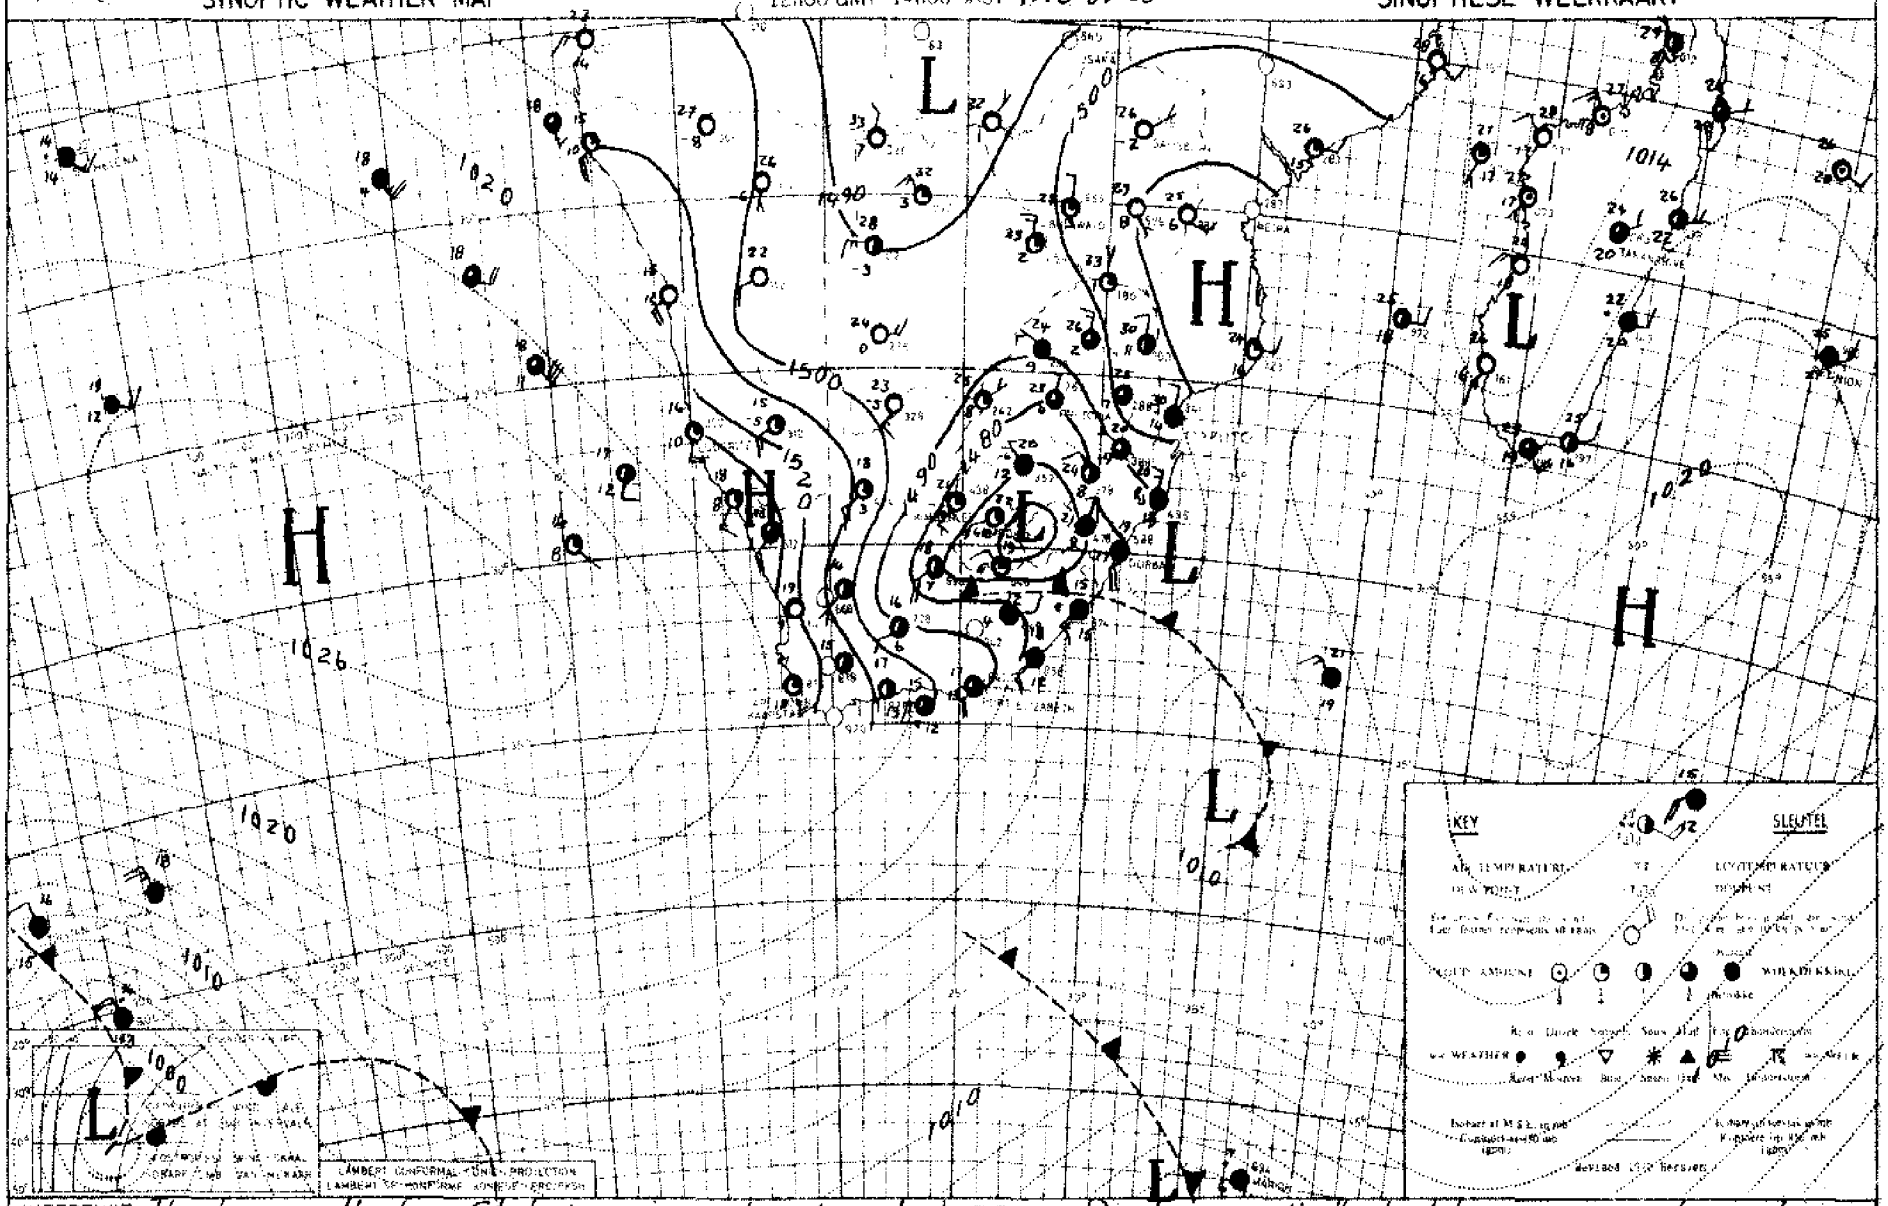
SYNOPTIC WEATHER MAP 12h00 GMT-14h00 SAST 1978-09-08 SINOPTIESE WEERKAART



INFERENCE The low over the Free State is moving eastwards and general rain and showers will occur east of this system. Very cold air is pushing in over Natal behind the cold front with heavy snowfalls on the Drakensberg.

AFLEIDING Die laag oor die Vrystaat beweeg ooswaarts en algemene reën en buie sal oos van die stelsel voorkom. Besonder koue lug sal agter die koufront oor Natal instroom met swaar sneeuneerslae op die Drakensberg.

Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE The inland trough is moving north-eastwards. Showers will develop east of the trough but the air to the west is dry and cooler. Cold showery weather will spread eastwards over the southern coastal regions towards Natal.

AFLEIDING Die trog oor die binneland beweeg noordoostwaarts. Buie sal oos van die trog ontwikkel maar aan die westekant is die lug droog en koeler. Koue weer met buie sal oor die suidelike kusstreke oostwaarts na Natal uitbrei.

Tshane			

INFERENCE Several cold fronts are moving eastwards to the south of the continent and colder conditions will move in over the southern Cape coastal regions. Local showers can develop in the moist air over the interior.

AFLEIDING Verskeie koue fronte beweeg ooswaarts suid van die land verby, en kouer toestande sal oor die Kaapse suidkusstreke inbeweeg. Enkele buie kan in die vogtige lug oor die binneland ontwikkel.

INFERENCE: The trough over the interior has deepened considerably and is moving slowly eastwards. Scattered showers will still occur east of the trough but cold dry air over the western half of the country will move in over the Free State.

AFLEIDING: Die trog oor die binneland het aansienlik verdiep en beweeg geleidelik oostwaarts. Verspreide buie sal nog oos van die trog voorkom maar koue droë lug oor die westelike helfte van die land sal oor die Vrystaat nbeweeg.

INFERENCE A trough in the upper air over the western interior is deepening and moist air will be advected southwards east of the trough. Cloudy weather with rain and showers will thus develop over the central interior.

AFLEIDING 'n Trog in die bolug oor die westelike binneland verdiep en vogtige lug sal oos van die trog suidwaarts gevoer word. Bewolkte weer met reën en buie sal dus oor die sentrale binneland ontwikkel.

Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE Scattered showers will occur in the moist air east of the trough extending north-westwards from East London. The low at the Cape is moving slowly eastwards and cooler misty conditions will move in over Western and South-Western Cape.

AFLEIDING Verspreide buie sal in die vogtige lug oos van die trog wat vanaf Oos-Londen noordwaarts strek voorkom. Die laag by die Kaap beweeg stadig ooswaarts en koeler weer met mis sal oor die Wes- en Suidwes-Kaap inbeweeg.

Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

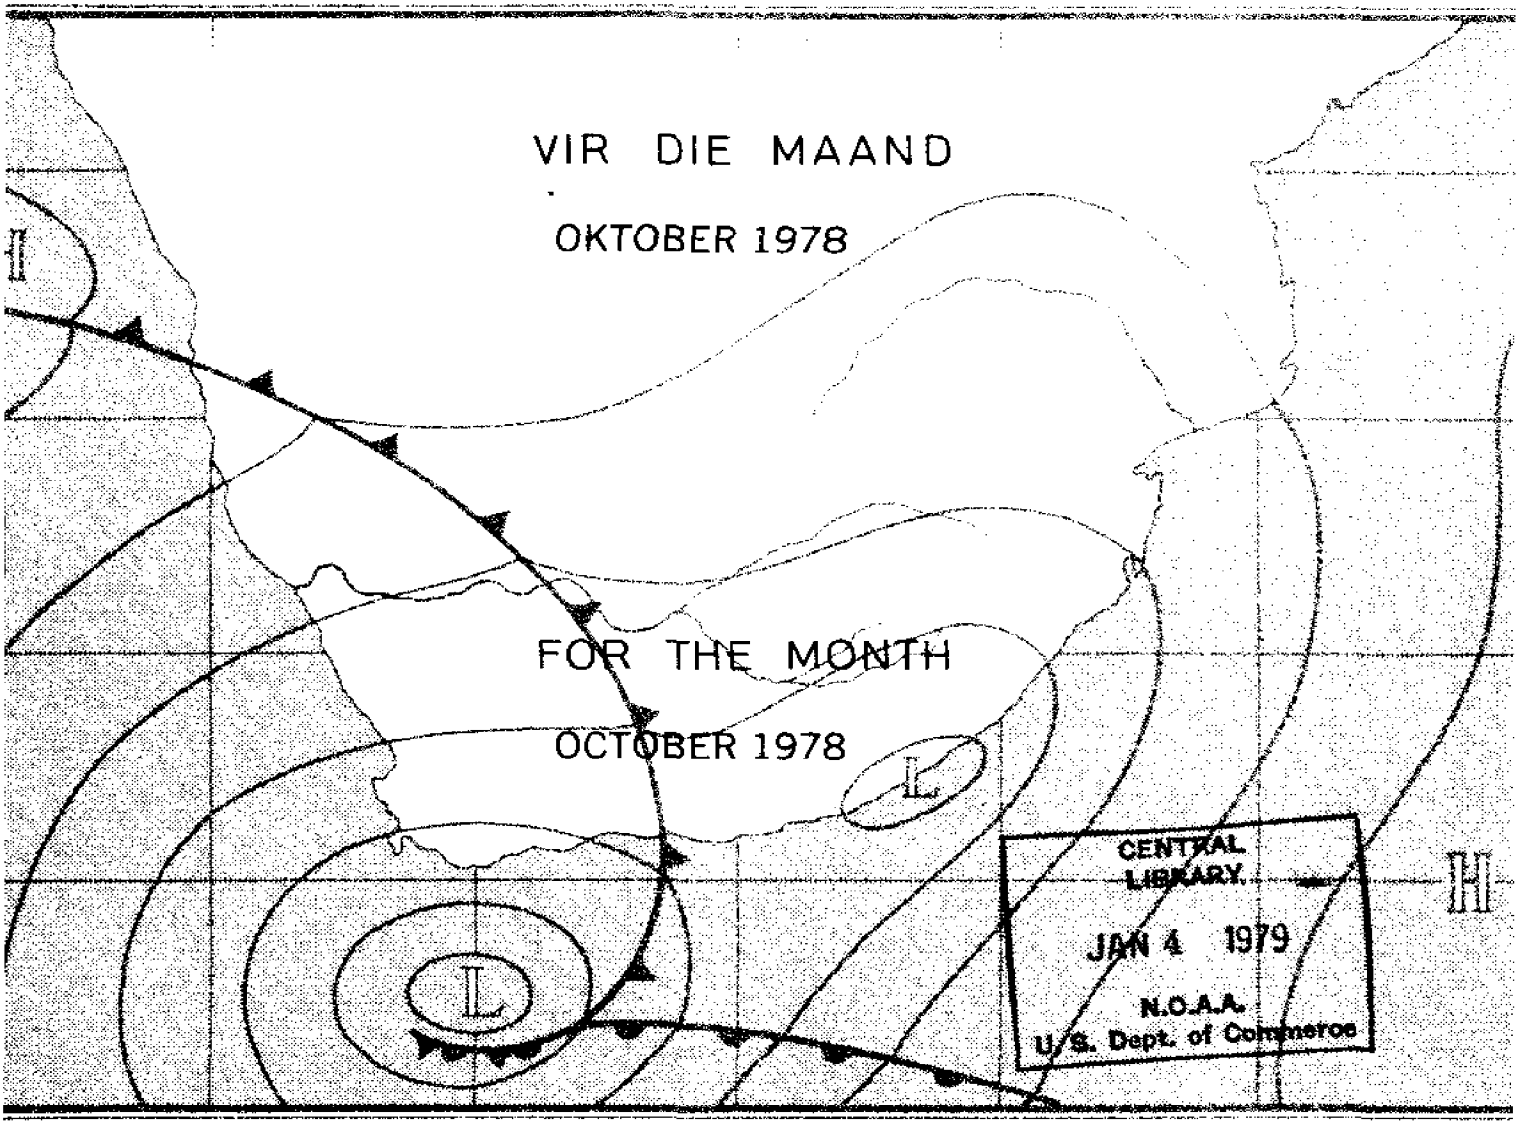
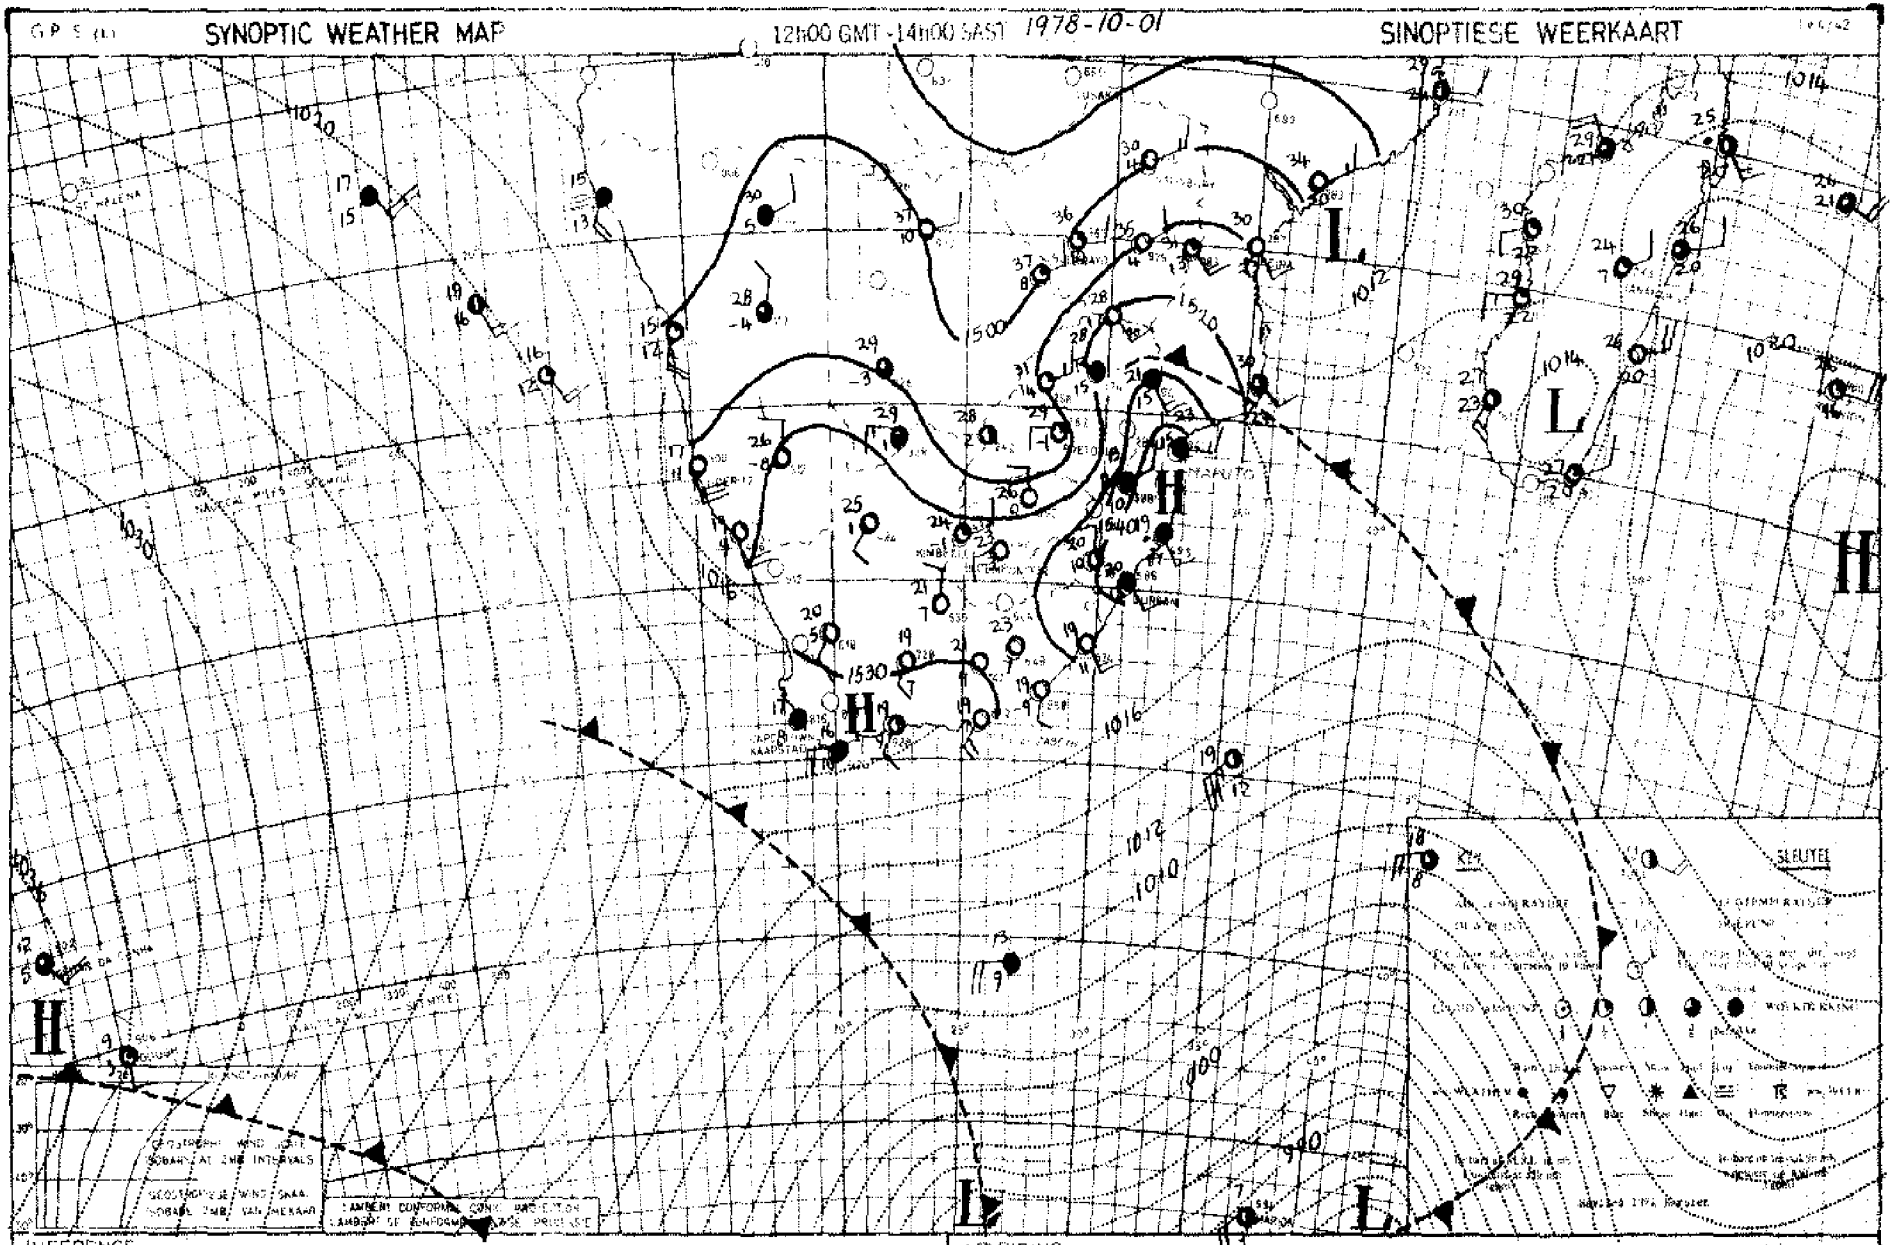
DAAGLIKSE WEERBULLETIN



CENTRAL LIBRARY
JAN 4 1979
N.O.A.A.
U.S. Dept. of Commerce

DAILY WEATHER BULLETIN



INFERENCE Cooler conditions with showers will spread again over the southern Cape Province. Local thundershowers will occur in the moist air over the north-eastern parts but it will be cooler also over these areas tomorrow.

AFLEIDING Koeler toestande met buie sal weer oor die suidelike Kaapprovinsie inbeweeg. Enkele donderbuie sal in die vogtige lug oor die noordoostelike dele voorkom waar dit môre ook koeler sal wees

DAAGLIKSE WEERBULLETIN

INFERENCE The sharp trough over the interior is moving eastwards and is followed by drier, cooler air but scattered showers will develop east of the trough. The cold fronts are moving fairly rapidly eastwards.

AFLEIDING Die skerp trog oor die binneland beweeg ooswaarts en word gevolg deur droër, koeler lug maar verspreide buie sal oos van die trog ontwikkel. Die koufronte beweeg betreklik vinnig ooswaarts.

INFERENCE

Further showers will occur east of the low over the Free State but the air to the west of the system is dry. Rain will again occur over South-Western [illegible] spreading eastwards later.

AFLEIDING

Verdere buie sal oos van die laag oor die Vrystaat voorkom, maar wes van die stelsel is die lug droë. Reën sal môre weer oor Suidwes-Kaap voorkom en later ooswaarts beweeg.

INFERENCE

The air is still dry over most parts of the country. The cold front near the Cape is moving slowly eastwards and colder cloudy weather will move in over South-West Cape overnight.

AFLEIDING

Die lug oor die meeste dele van die land is steeds droog. Die koufront by die Kaap beweeg stadig ooswaarts en kouer, bewolkte weer sal oornag oor Suidwes-Kaap inbeweeg.

INFERENCE The cold front over South-West Cape is moving eastwards and is being followed by a strong ridge of high pressure. Cold conditions will spread also to Eastern Cape and Natal and thundershowers will develop over the north-eastern interior ahead of the trough over Natal.

AFLEIDING Die koufront oor Suidwes-Kaap beweeg oaswaarts en word gevolg deur 'n sterk wig van hoë druk. Koue toestande sal ook oor Oos-Kaap en Natal inbeweeg terwyl donderbuie oor die noordoostelike binneland sal ontwikkel voor die trog oor Natal.

INFERENCE

The cell of high pressure over the Atlantic ocean is moving eastwards. Cold conditions with showers will spread over the coastal regions towards Natal but the cold air over the interior is dry.

AFLEIDING

Die sel van hoe druk oor die Atlantiese oseaan beweeg ooswaarts. Koue toestande met buie sal oor die kusstrake na Natal uitbrei maar oor die binnaland is die koue lug droog.

Maksimum en minimum temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE

Thundershowers are expected to the east of the trough over the interior. As a result of another cold front moving rapidly eastwards over the Atlantic ocean this trough will remain stationary.

AFLEIDING

Donderbuie word oos van die trog oor die binneland verwag en omdat daar nog 'n koue front oor die Atlantiese oseaan is wat vinnig ooswaarts beweeg sal die trog stil-

DAAGLIKSE WEERBULLETIN

DAILY WEATHER BULLETIN

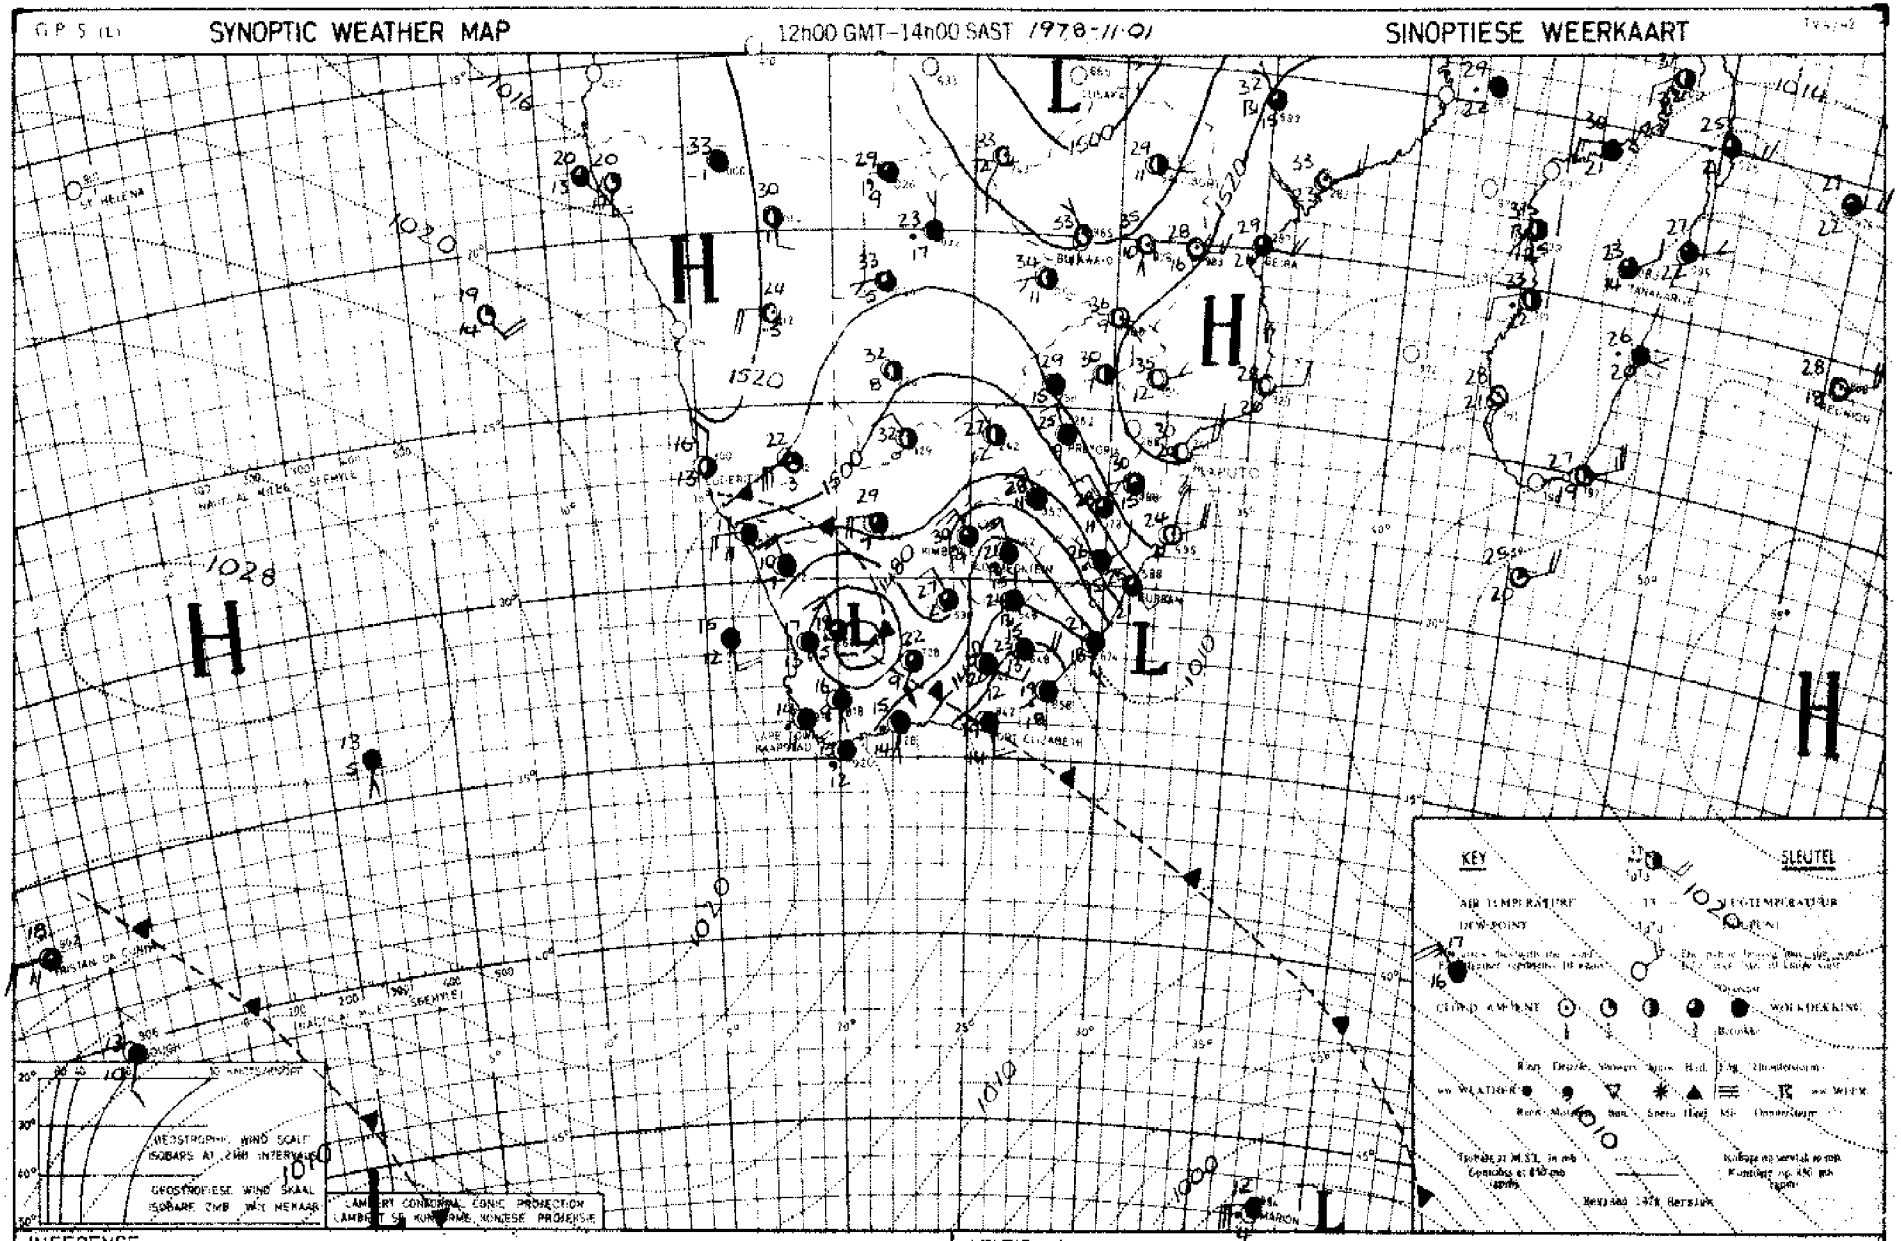
LIBRARY
FEB 14 1979
N.O.A.A.



INFERENCE The low over Western Cape is moving rapidly eastwards to the South-east coast and is being followed by cold drair air but good falls can be expected overnight south of the low. Cooler dry air will move in also over the Free State and southern Transvaal.

AFLEIDING Die laag oor Wes-Kaap beweeg vinnig ooswaarts na die suidooskus en word gevolg deur koue droër lug maar goeie neerslae kan oornag suid van die laag uitsak. Koeler droër lug sal ook oor die Vrystaat en suidelike Transvaal inbeweeg

INFERENCE

A strong cell of high pressure is pushing in south of the continent and cloudy cool weather with rain and showers will move in also over Natal, Transvaal and the Free State overnight but it will clear over the southern Cape Province tomorrow.

AFLEIDING

'n Sterk sel van hoë druk stoot suid van die land in en bewolkte koel weer met reën en buie sal ook oornag oor Natal, Transvaal en die Vrystaat inbeweeg, maar oor die suidelike Kaapprovinsie sal dit mōre ooptrek.

INFERENCE

The strong cell of high pressure is moving eastwards and rain is expected only over the northern parts of Transvaal tomorrow. Elsewhere over the country temperatures will also rise considerably

AFLEIDING

Die sterk sel van hoë druk beweeg ooswaarts en reën word more slegs nog oor die noordelike dele van Transvaal verwag. Oor die res van die land sal temperature ook heelwat styg

DAAGLIKSE WEERBULLETIN

INFERENCE

With moist air in circulation over the eastern half of the country showers will develop east of the trough over the Free State. The cold front west of the Cape is moving south-eastwards.

AFLEIDING

Met die vogtige lug in sirkulasie oor die oostelike helfte van die land sal buie oos van die trog oor die Vrystaat ontwikkel. Die koufront wes van die Kaap beweeg suidooswaarts.

INFERENCE The low over Eastern Cape is moving slowly eastwards and scattered showers are expected east of this system as well as east of the low over S.W.A. Cooler weather with rain will move in over Western Cape.

AFLEIDING Die laag oor Oos-Kaap beweeg stadig oos-waarts en verspreide buie word oos van hierdie stelsel sowel as oos van die laag oor S.W.A. verwag. Koeler weer met ligte reen sal oor Wes-Kaap inbeweeg.

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE

A ridge of high pressure is pushing in south of the continent and cooler moist air will move in also over Transvaal overnight. Scattered showers will develop over the eastern regions but air over the western half of the country is dry.

AFLEIDING

'n Wig van hoë druk stoot suid van die land in sodat koeler vogtige lug oornag ook oor Transvaal sal instroot. Verspreide buie sal oor die oostelike dele voorkom maar oor die westelike helfte van die land is die lug droog.

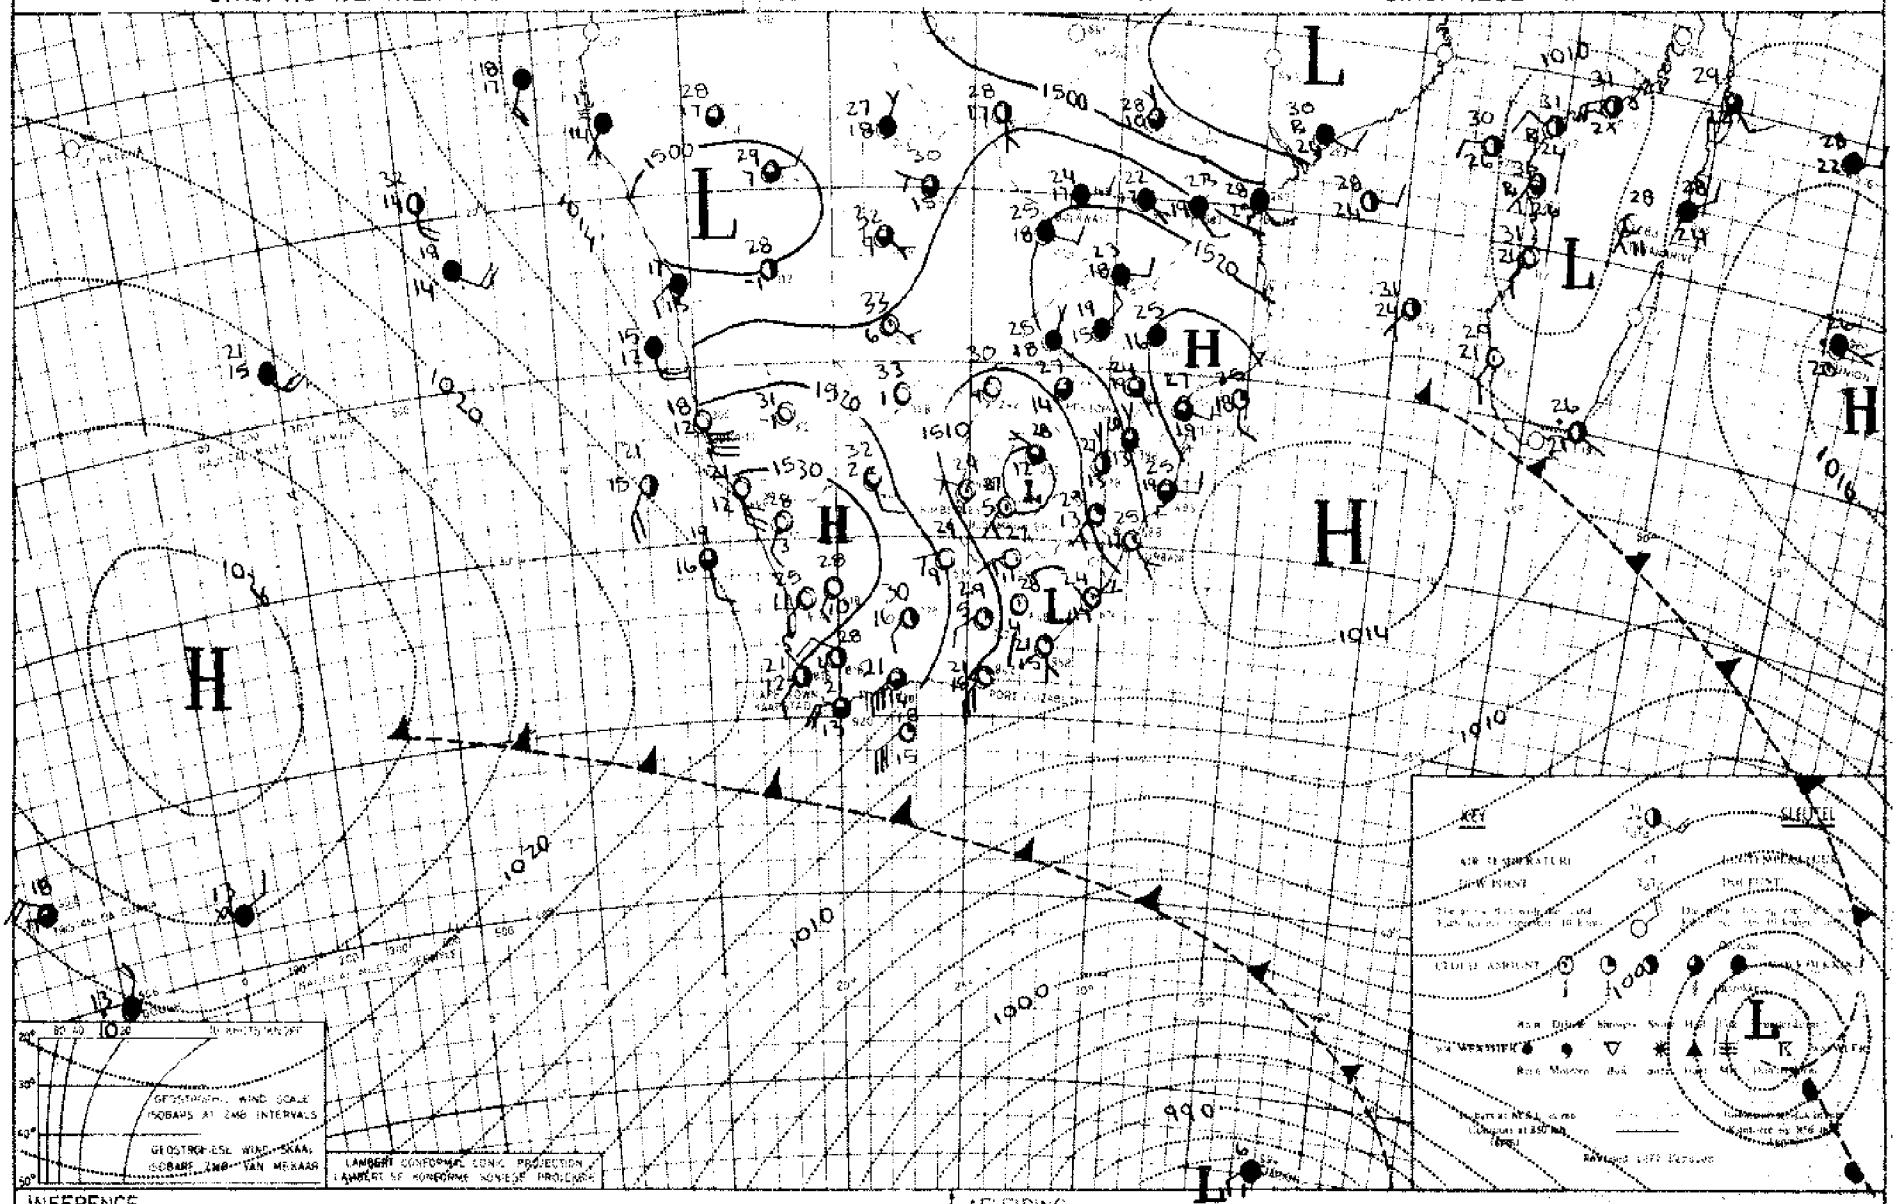
SYNOPTIC WEATHER MAP 12h00 GMT - 14h00 SAST 1998-11-13 SINOPTIESE WEERKAART



INFERENCE

The cold front south-west of the continent is moving eastwards and cooler conditions with showers will push in over the southern coastal regions overnight, spreading to Natal tomorrow. Scattered showers will develop east of the inland trough.

AFLEIDING

Die koufront suidwes van die land beweeg ooswaarts en koeler toestande met buie sal oornag oor die suidkusstreke inbeweeg en more na Natal uitbrei. Verspreide buie sal oos van die trog oor die binneland ontwikkel.

INFERENCE

A deep low-pressure system is moving eastwards south of the continent and a weak ridge of the Atlantic high will push in over the southern and south-eastern coastal regions. The air in circulation over the country is still dry but moist air is moving slowly

AFLEIDING

'n Diep laedrukstelsel beweeg ooswaarts suid van die land en 'n swak wig van die Atlantiese hoogsal oor die suid en suidooskusstreke instoot. Die lug in sirkulasie oor die land is steeds droog maar vogtige lug beweeg stadig suidwaarts oor S.W.A.

INFERENCE

The cold front south of the continent is moving north-eastwards and cooler conditions with showers will spread overnight along the southern coastal regions towards Natal. Elsewhere over the country the air is still dry.

AFLEIDING

Die koufront suid van die land beweeg noordoos-waarts en koeler toestande met buie sal oornag oor die suidelike kuststreke na Natal uitbrei. Oor die res van die land is die lug agter nog droog.

INFERENCE The high-pressure system south of the continent has intensified and is moving slowly eastwards. With the low over the Free State cooler moist air will push in also over Transvaal and scattered showers will develop east of the low.

AFLEIDING Die hoëdrukstelsel suid van die land het versterk en beweeg stadig ooswaarts. Met die diep laag oor die Vrystaat sal koeler vogtige lug oornag ook oor Transvaal instoot en verspreide buie sal oos van die laag ontwikkel.

INFERENCE The cold front over South-west Cape is moving eastwards and is being followed by a strong ridge of high pressure and cooler rainy weather will spread to the Natal coast. Scattered thunder-showers will develop east of the low over Eastern Cape.

AFLEIDING Die koufront oor Suidwes-Kaap beweeg oos-waarts en word gevolg deur 'n sterk wig van hoë druk sodat koeler reënweer oor die Natalse kus sal uitbrei. Verspreide donderbuie word verwag oos van die laag oor Oos-Kaap.

INFERENCE The cold front at the Cape is weakening but the system at Gough Island is moving very rapidly eastwards. Local thundershowers will occur east of the trough extending north-westwards from the Eastern Cape.

AFLEIDING Die koufront by die Kaap verswak maar die stelsel by Gougheiland beweeg besonder vinnig oostwaarts. Enkele donderbuie sal voorkom o.a. van die trog wat vanaf Oos-Kaap noordwes-waarts strek.

INFERENCE The cold fronts are passing to the south of the continent but the low over the Karoo will move to the south-east coast and scattered showers will develop east of this low and the one over S.W.A. The influx of cool air over Transvaal will decrease tomorrow.

AFLEIDING Die koufronte beweeg suid van die land verby maar die laag oor die Karoo sal na die suidooskus beweeg en verspreide donderbuie sal oos van hier die laag en die een oor S.W.A ontwikkel. Die invloei van koel lug oor Transvaal sal môre afneem.

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

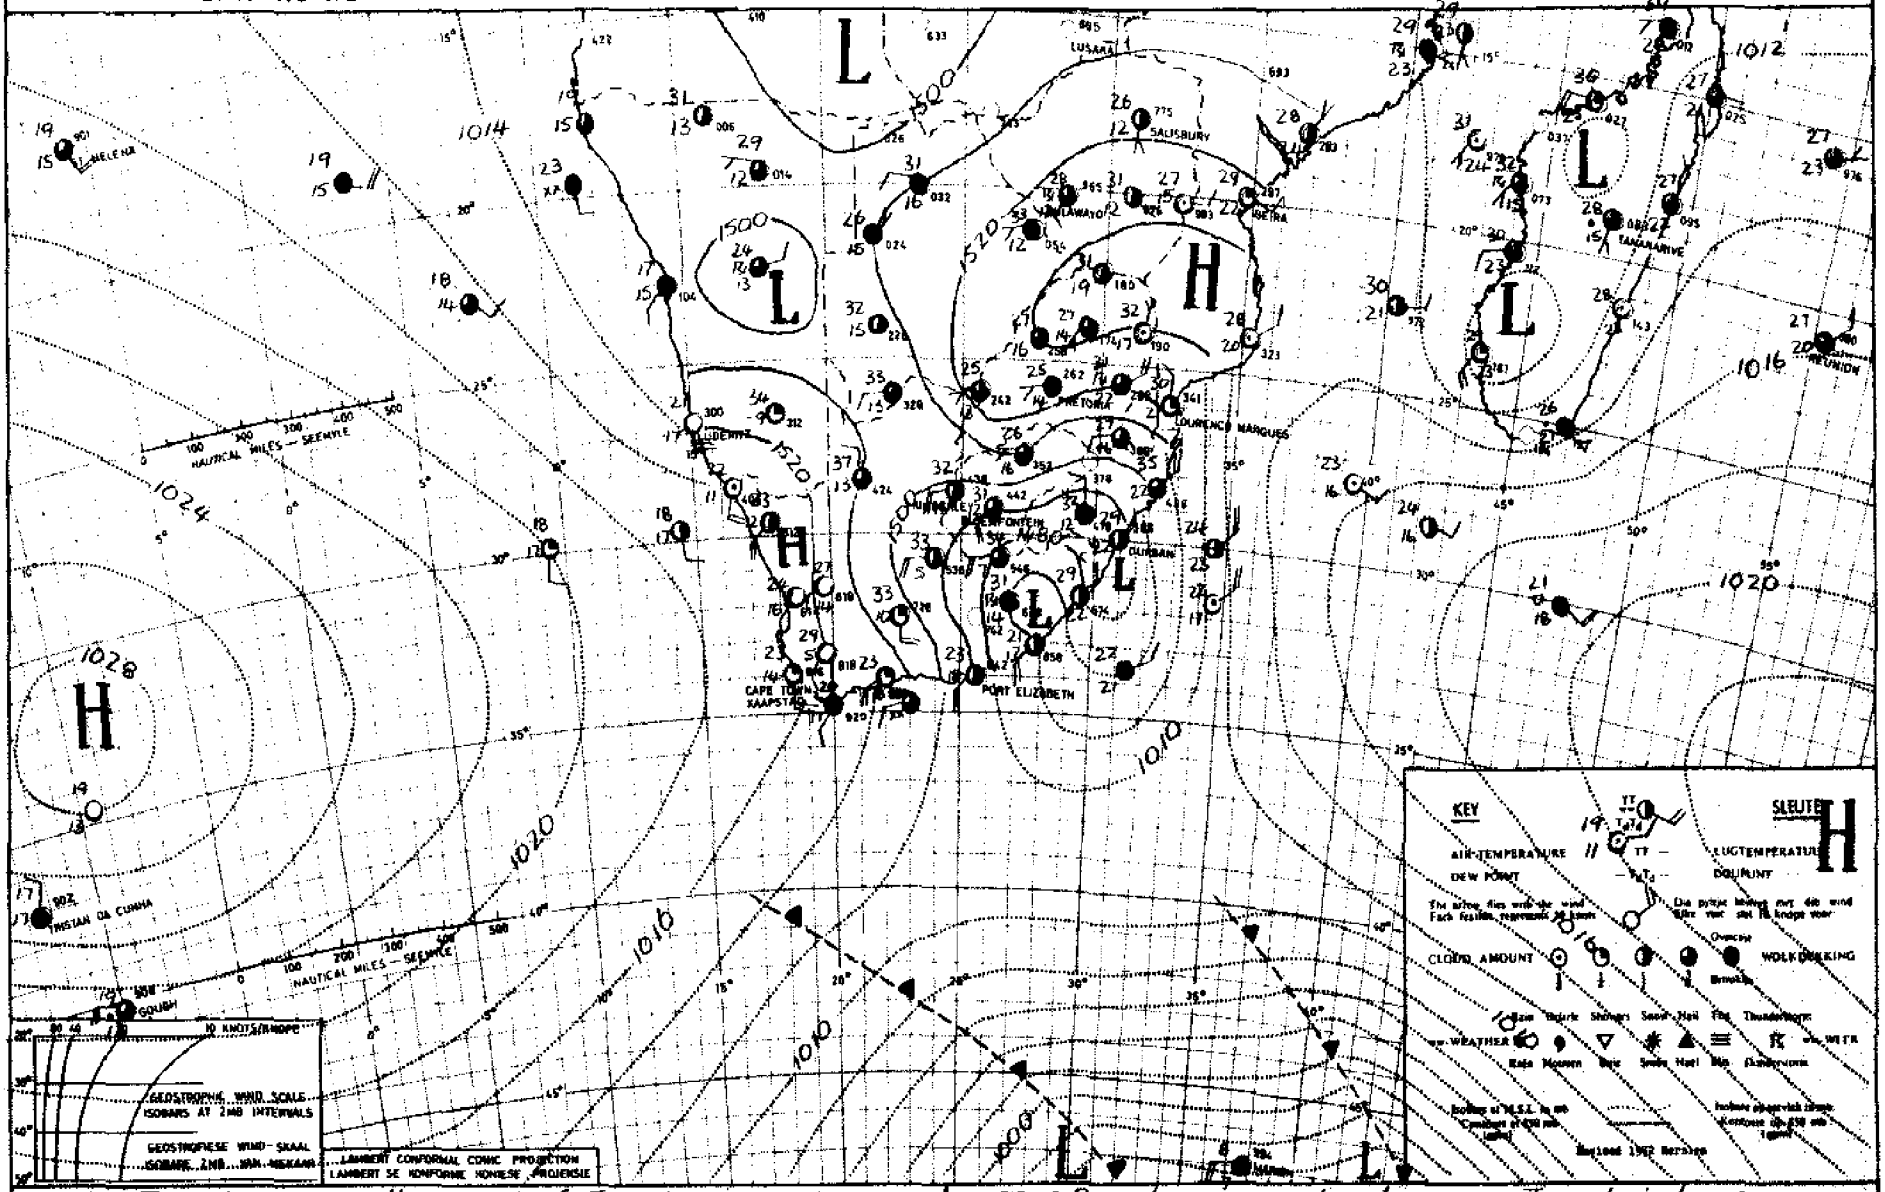
G.P.-S (L) **SYNOPTIC WEATHER MAP** 12h00 GMT – 14h00 SAST 1978 11 28 **SINOPTIESE WEERKAART** TV 4/42



INFERENCE The low over the coast of Transkei is moving eastwards but the inland trough is almost stationary. Scattered thundershowers will occur east of this trough. A ridge of the atlantic high is pushing in south of the continent.

AFLEIDING Die laag oor die kus van Transkei beweeg oos-waarts maar die trog oor die binneland beweeg baie min. Verspreide donderbuie sal oos van die trog voorkom in Wig van hoë druk stoot suid van die land in.

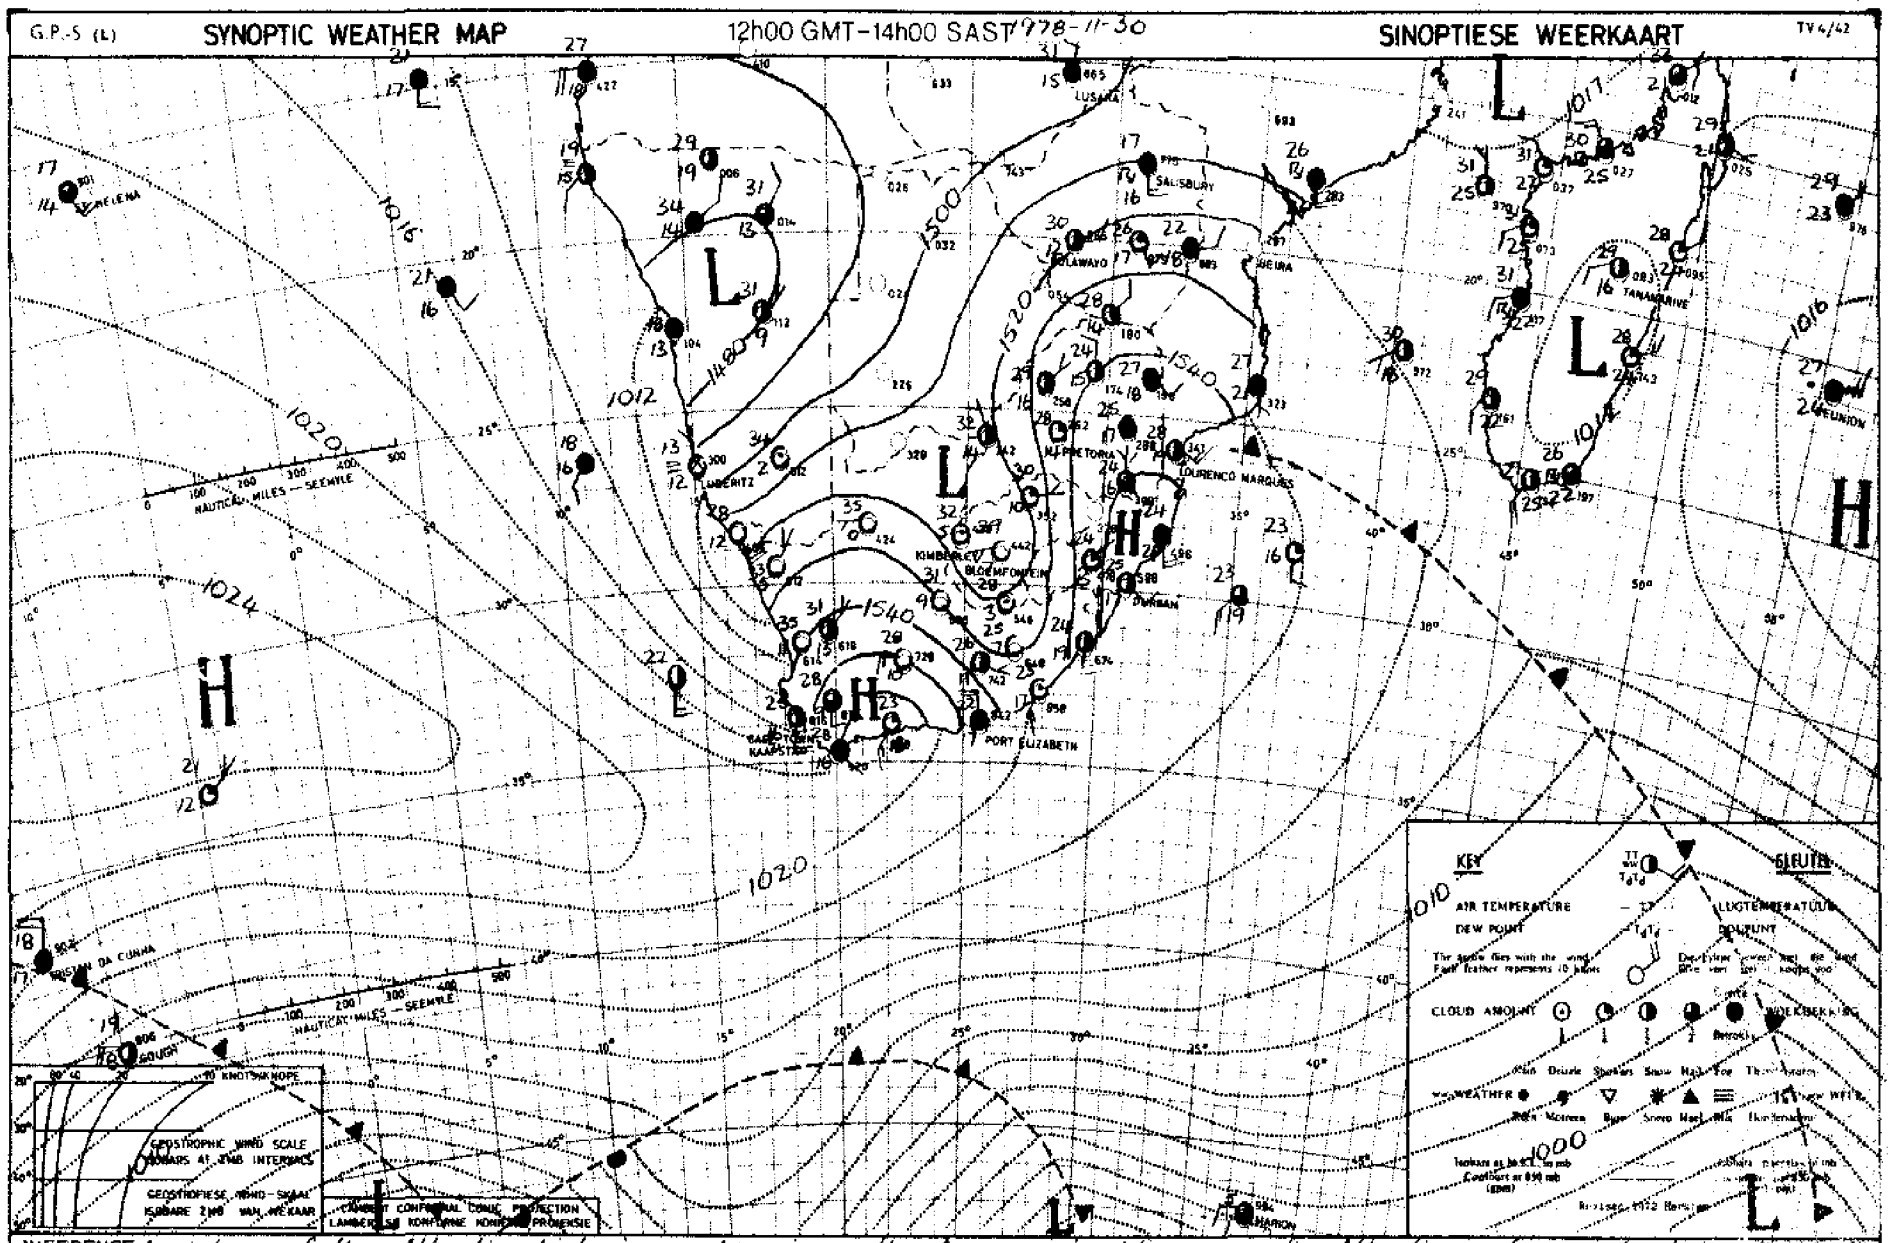
G.P.-S (L) **SYNOPTIC WEATHER MAP** 12h00 GMT–14h00 SAST 1978-11-30 **SINOPTIESE WEERKAART** TV 4/62



INFERENCE A ridge of the Atlantic high is pushing in south of the continent and cooler moist air will be fed in over Natal and Transvaal. The inland trough is deepening and is moving westwards and scattered showers will occur east of the trough.

AFLEIDING 'n Wig van die Atlantiese hoog stoot suid van die land in en koeler vogtige lug sal oor Natal en Transvaal ingevoer word. Die trog oor die binneland verdiep en beweeg weswaarts en verspreide buie sal oos daarvan voorkom.

INFERENCE The low over Eastren Cape is deepening and is moving eastwards and will cause general thundershowers over the south-east coast and adjacent interior. Scattered showers will occur also in the moist air east of the trough extending north-westwards towards Windhoek.

AFLEIDING Die laag oor Ooskaap verdiep en beweeg oostwaarts sodat algemene donderbuie oor die suidooskus en aangrensende binneland sal voorkom. Verspreide buie sal ook in die vogtige lug voorkom oos van die trog wat noordweswaarts na Windhoek strek.

INFERENCE

Moist air is in circulation over the southern, central and eastern regions of the Republic and with a deep low over the interior, further rain and thundershowers will occur over Natal, the Free State and most parts of the Cape Province.

AFLEIDING Vogtige lug is in sirkulasie oor die suidelike, sentrale en oostelike gebiede van die Republiek en met 'n diep laag oor die binneland, sal verdere reën en donderbuie oor Natal, die Vrystaat en meeste dele van Kaapland uitsak.

INFERENCE

Moist air is in circulation over the eastern regions and thundershowers or showers will therefore develop to the east of the trough axis over Natal, the North-Eastern Free State and parts of the Transvaal.

AFLEIDING

Vogtige lug is in sirkulasie oor die oostelike strake en donderbuie of buie sal dus ooswaarts van die trogas oor Natal, die Noordoos-Vrystaat en dele van Transvaal uitsak.

INFERENCE Moist air is moving southwards over the country, and with a trough that extends from S.W.A to the southern Cape, conditions are favourable for thundershowers S.W.A. and the Northern and Eastern Cape.

AFLEIDING Vogtige lug beweeg suidwaarts oor die land, en met 'n trog wat strek van S.W.A. tot Suid-Kaapland is toestande gunstig vir donderbuie oor S.W.A. en Noord- en Oos-Kaapland.

INFERENCE

The cold front, which is approaching the Cape from the west will cause colder conditions with rain over the Western Cape. With a trough over the southern interior conditions are favourable for thundershowers over the Eastern Cape and the western parts of the Free State

AFLEIDING

Die koufront, wat die Kaap vanuit die weste nader sal kouer toestande met reën oor Wes-Kaapland veroorsaak. Met 'n trog oor die suidelike binneland is toestande gunstig vir donderbuie oor Oos-Kaapland en die westelike dele van die O.V.S.

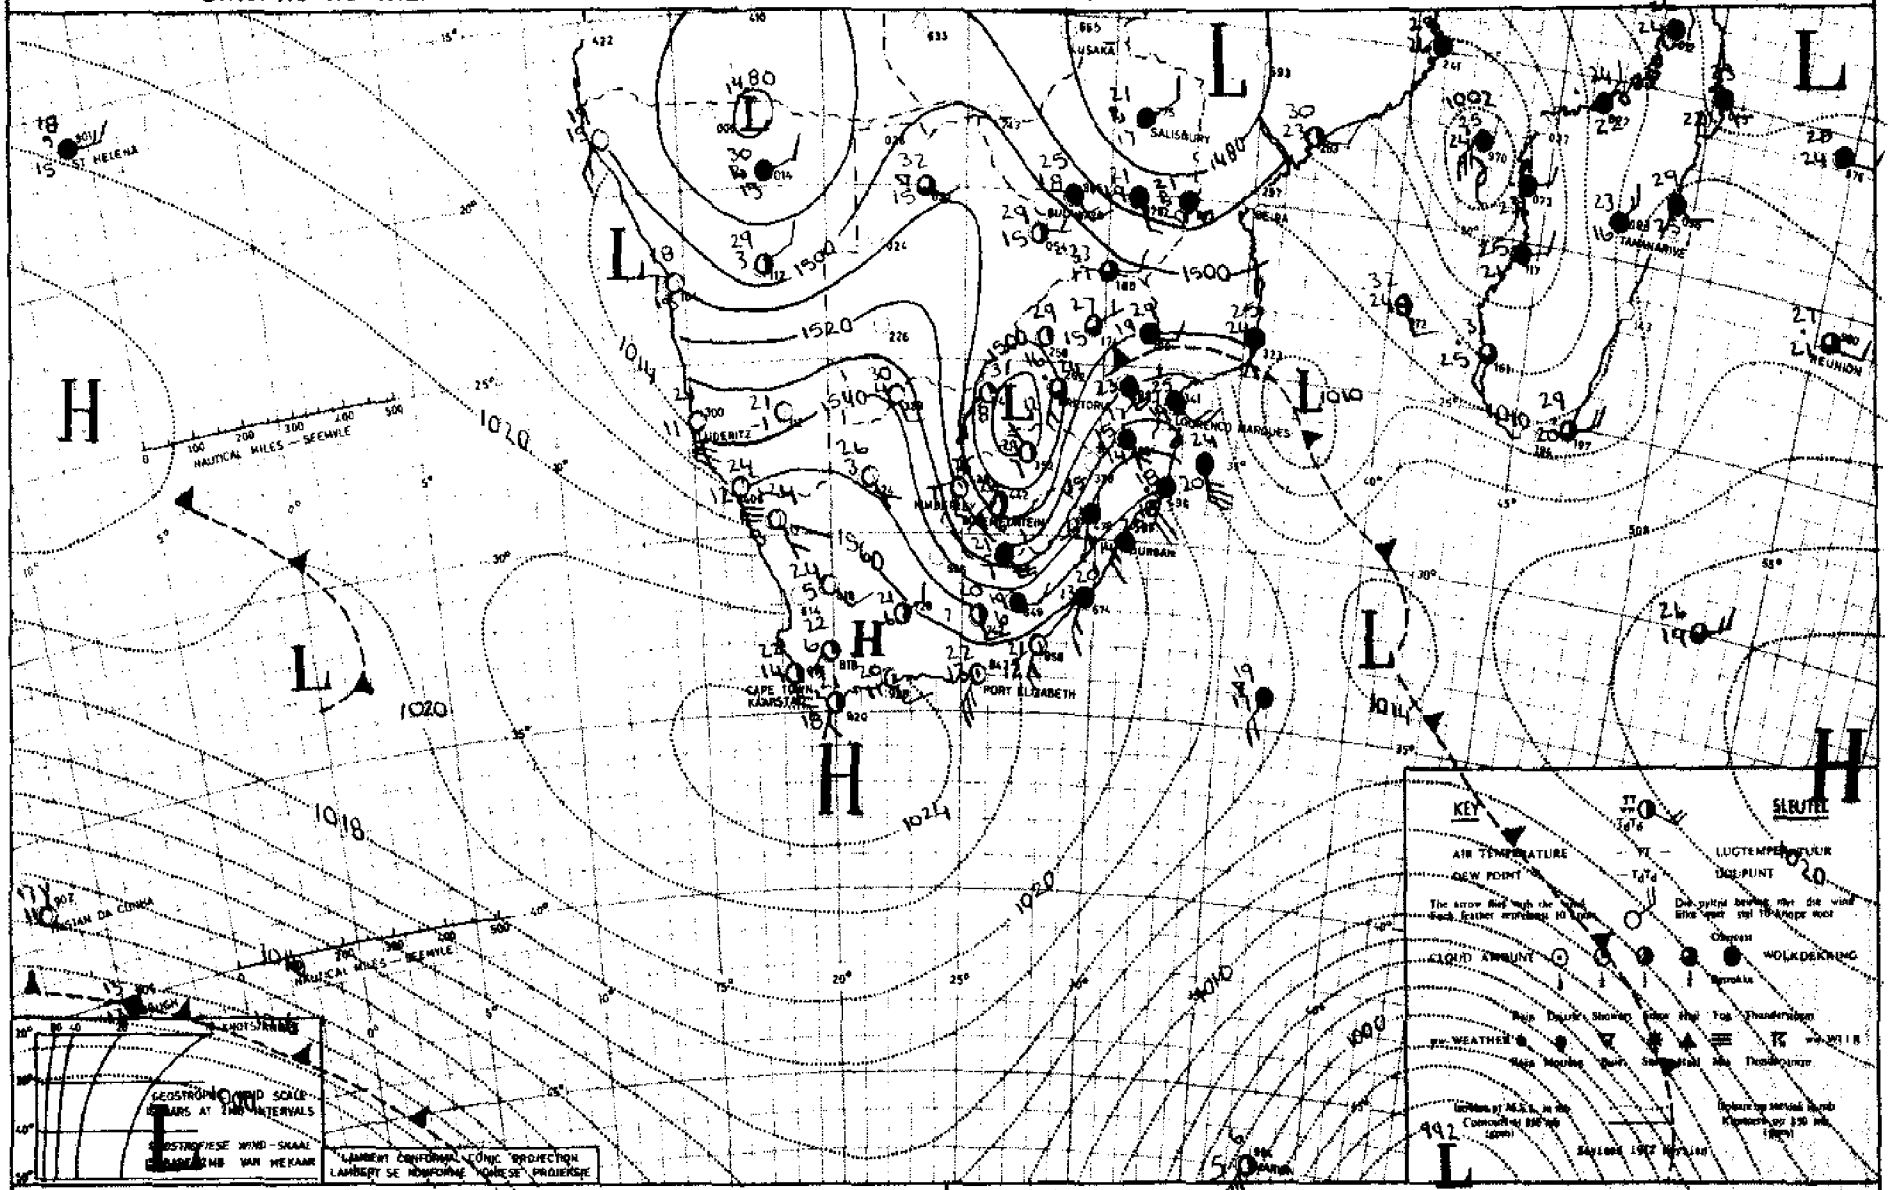
G.P.-S (L) **SYNOPTIC WEATHER MAP** 12h00 GMT–14h00 SAST 1978-12-17 **SINOPTIESE WEERKAART** TV 4/42



INFERENCE

With the eastwards movement of the high pressure region south of the country, cooler cloudy weather will spread from the east over the Transvaal and showers or thundershowers will occur.

AFLEIDING

Met die oostwaartse beweging van die hoëdruk
baid suid van die land sal koeler bewolkte weer
vanuit die ooste oor Transvaal uitbrei en buie of
donderbuie sal uitsak.

DAGVERSE WEERBOELETIN
Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

INFERENCE Moist air is in circulation over the eastern parts of the country and, associated with the weak low over the interior, isolated thundershowers will develop over the Transvaal Natal and the Northern O.F.S.

AFLEIDING Vogtige lug is in sirkulasie oor die oostelike dele van die land en, gepaard met die swak laag oor die binneland, sal enkele donderbuie oor Transvaal, Natal en Noord-Vrystaat ontwikkel.

Maksimum en Minimum Temperatuur (°C) en Reënval (RRR) in mm vir die 24 uur geëindig om 08 h 00 SAST op

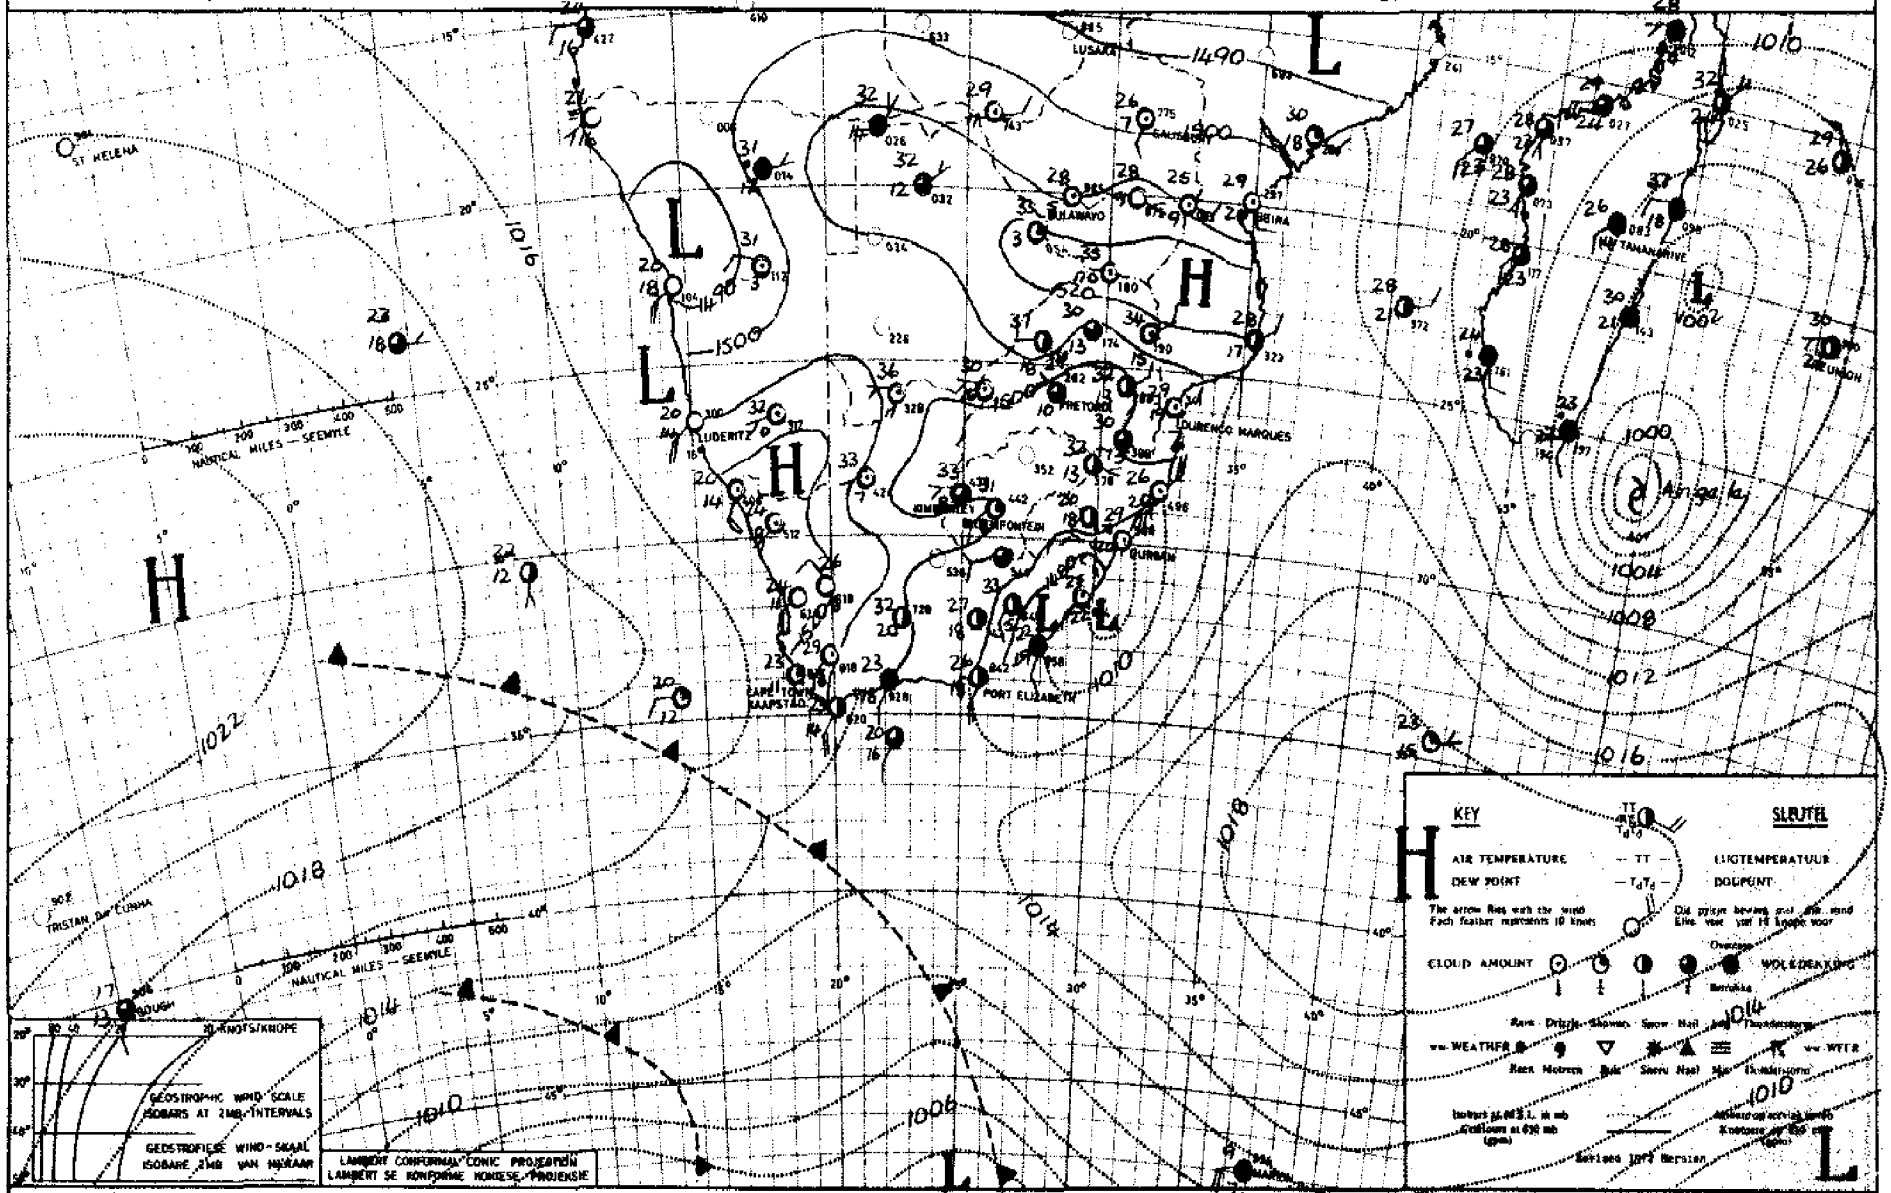
G.P.-S. (L) **SYNOPTIC WEATHER MAP** 12h00 GMT–14h00 SAST 1978-12-27 **SINOPTIESE WEERKAART** TV 4/42



INFERENCE The low along the south-east coast is feeding in moist air over the southern and south-eastern coasts and over the adjacent interior where it will be partly cloudy and cooler with light rain at places. A trough extends from the Eastern Cape to the northern parts of S.W.A. and thundershowers will develop to the east of the trough axis.

AFLEIDING Die laag langs die suidooskus voer vogtige lug oor suid- en suidooskuste en oor die aangrensende binneland in, waar dit gedeeltelik bewolk en koeler sal wees met ligte reën op plekke. 'n Trog strek vanaf Oos-Kaapland na die noordelike dele van S.W.A. en donderbuie sal oos van die trogas

DAGVERSE WEERBOELETYN
