BIG STOCK AND SHARE.

Sch. Kineo Makes Extra Big Stock and Share.

Craft Is High Line of Georges Halibut Fleet.

Sch. Kineo, Capt. John Stream, made one of the largest stocks and shares of the season as the result of her recent Georges halibuting trip, and only once this season has it been exceeded in her line of the business.

The vessel had a splendid fare, 13,000 pounds of fresh halibut, 20,000 pounds of salt cod and 60,000 pounds of fresh cod and five swordfish. On this fine fare, the big stock of $3300 was made and on this the crew made the great share of $102.53 clear to a man.

Capt. Stream has made a big record this year and is high line of the Georges halibut fleet with a season's stock of nearly $20,000. He is one of the leading master mariners of the port and has several times previously held the honor of being high line of the Georges halibuters.

NORTH BAY NEWS.

Prospect Good and Tinkers Schooling There Recently.

Capt. McFarland Writes Latest News from Souris.

Sch. Victor, Capt. John W. McFarland, of this city, arrived at Souris, P. E. I., Monday. Capt. McFarland writes that he came in during a heavy northerly breeze. The sch. Priscilla Smith had taken 100 barrels of mackerel and the prospect appeared good if good weather held. Lots of tinkers had been showing the past week and there appeared to be fish all over the bay.

The tinkers go about 450 to the salted barrel. The Victor will stay in the bay until the next dark and then will go down off North Sydney, C. B., for the late Cape Shore work. Capt. McFarland in closing his letter said that everything depended on the weather.

Quite a lot of mackerel were seen in Ipswich Bay yesterday and one of the shore boats caught quite a few.

Sch. Ralph L. Hall took nine barrels of tinkers on Middle Bank last Friday and landed them fresh at Provincetown. Last Wednesday a number of seiners were on Middle Bank, but saw no fish and went to the eastward.

Sch. Lillian of this port took nine barrels of tinkers off Nomans Land Wednesday and landed them fresh at Woods Hole yesterday. These fish were taken in two hours and then as it breezed up the craft ran for port with them.

Bait.

Tarr's trap at Magnolia took 20 barrels of good-sized herring yesterday.

Plenty of bait at Southwest Harbor.

Bad Season at Placentia Bay.

The St. John's, N. F., News says: "The fishermen of Placentia Bay will be worse off this fall than for many years. Constable March, who has been on the fishing protection service there for for over three months, states that the fishery is the worst on record, and that many families will feel the pangs of hunger during the coming winter. The average catch for fishermen around the bay does not exceed five quintals, and though fish is plentiful at present bait is scarce."

ON WEST AFRICAN COAST.

French Government Turning Attention to Codfishesy There.

A Nova Scotia exchange in speaking of the French rights on the Newfoundland coast and the possibility of Newfoundland becoming a part of the Dominion says:

"Since the yielding up of her claim on the two hundred miles of coast in Newfoundland, France has turned her attention to the codfisheries of West Africa, which are said to be equal to those on the Newfoundland coast. The African cod is called "Vicille," is large, and has stronger scales and darker colored flesh than the Atlantic variety. But as a food it is said to possess identical qualities, whether fresh or cured. It is not unlikely that France will ere long abandon the Miquelon Islands. The fisheries have not been a success there in recent years. If Newfoundland was a part of the Dominion, our government would then think it worth while to purchase French interests in the adjacent islands, and thereby put a stop to smuggling.
