RECEIPTS AT BOSTON LAST WEEK 5,623,900 POUNDS.

At the Boston fish pier for the week ending February 4, there were 99 arrivals with 5,623,900 pounds of fresh fish as against 147 arrivals and receipts of 3,905,000 pounds in the corresponding week of 1936.

Receipts were divided as follows:

1937—2,116,000 pounds of haddock; 356,500 pounds of scrod; 845,200 pound of large cod; 544,500 uounds of market cod; 1,761,700 pounds of mixed fish.

1936—1,610,000 pounds of haddock; 192,000 pounds of scrod; 295,500 pounds of large cod; 571,200 pounds of market cod; 1,234,700 pounds of mixed fish.

The flood condition in tne west has been an adverse factor in the fish business during the past 10 days, especially in the shipment of fillets to the section affected. There has been a good local demand as is usual the week preceding the opening of the Lenten season.

Up to within the last few days the weather conditions have been quite favorable to fishing operations and the boats have landed some good catches of cod and haddock. In the corresponding week last year, the weather was bad, cold and with lots of ice, and shore fishing was difficult.
