

# INDEX.

	Page.		Page
Abbe, Prof. Cleveland. (Notes and articles by the Editor.)		The Pacific coast division of the Canadian Meteorological Service (Prof. R. F. Stupart).....	212
Death of Charles S. Gorgas .....	17	Scientific aids in the Department of Agriculture (Hon. James Wilson) .....	213
Meteorological records in Iowa (J. P. Walton) .....	17	Records by the Milne seismograph (John Milne).....	214
History of weather telegraphy (Wm. Foster, Jr) .....	17	Climatological data for Canada.....	253
The Tugrin fog dispeller.....	17	The annual summaries of the Climate and Crop Service (E. A. Evans, A. H. Bell, A. J. Mitchell, J. B. Marbury, John Hyde, T. B. Jennings, A. E. Hackett, G. A. Loveland, F. J. Walz) .....	254
The international date .....	17	The climate adapted to tobacco (E. A. Evans).....	254
Sensible temperatures .....	18	The duration of the growing season for 1898 .....	255
Origin of the word "blizzard" .....	18	Ribbon lightning .....	255
Forests and snowfall (W. S. Palmer, A. L. Foster) .....	18	Unnecessary tornado alarms (J. L. Widmeyer).....	255
Recent earthquakes .....	18	The camphor barometer .....	255
The weight or mass of the atmosphere .....	58	An objectionable new meteorological term .....	256
The weather Bureau in Alaska .....	59	Weather Bureau men as university lecturers .....	256
Solar halo.....	59	The conflict of man with climate.....	257
Frequency of injurious phenomena .....	59	Widespread area of drought or cold .....	257
Barographs on ships (Norman B. Conger) .....	60	Rainfall at high stations .....	257
Why do birds migrate? (F. W. Corliss).....	60	Physics and meteorology in the universities.....	258
Ice jam in the Niagara River .....	61	The climate and crop service in Puerto Rico .....	258
International cloud names.....	61	Effect of wind on catch of rainfall.....	308
Increase of snow with altitude (W. S. Palmer).....	61	Seismograph stations in the United States.....	310
The date of the Monthly Weather Review .....	61	Back numbers (A. Lawrence Rotch) .....	310
Forecasts on letter boxes (E. P. Chaffee) .....	61	Temperatures in the sunshine .....	311
The depth of atmospheric cold waves (F. H. Brandenburg).....	62	Destructive frost of June 30, 1899 (J. Warren Smith).....	311
The benefits of severe winters (J. B. Marbury).....	62	Chalk-plate maps.....	311
Weather versus climate (C. F. R. Wappenhans) .....	62	Tornado phenomena (W. M. Wilson, H. J. Volker).....	311
Experiments in protection from frost (A. G. McAdie) .....	62	Local winds that are not tornadoes.....	312
The dust in the atmosphere (A. H. Thiessen).....	63	Rain gages at high stations.....	313
The utility of the Weather Bureau Library.....	63	Spurious tornado photographs.....	313
The blessing of cold weather.....	63	General forecast for Washington, Oregon, and Idaho (B. S. Pague).....	313
Recent earthquakes .....	63	The present state of meteorology.....	313
Back numbers of the Monthly Weather Review.....	63	The diurnal variation of the barometer.....	313
The Weather Bureau and the ice business.....	64	River discharges in Colorado.....	313
History of weather predictions (Charles Foster, Jr.).....	64	Back numbers of the Monthly Weather Review.....	313
William H. Hammon.....	102	A newspaper tornado fake.....	360
The Pacific coast division of the Canadian Meteorological Service (F. Napier Denison).....	102	Display of forecast cards on street letter boxes (F. P. Chaffee).....	361
Mirobia and seiches (F. Napier Denison) .....	102	Chemistry of vegetation (E. A. Evans).....	361
Meteorological reports by cable from Iceland.....	103	The direction of rotation.....	361
The International Meteorological Committee .....	103	Standard time.....	362
Meteorology in Russia .....	103	The ether and the atmosphere.....	362
The daily weather map for Mexico.....	107	From Honolulu to Iowa.....	363
Death of John H. Harmon (H. E. Williams) .....	107	Do local storms follow river valleys? (Samuel D. Irwin).....	363
Obscure points in meteorology (Dr. Doberck).....	108	Weather Bureau men as university lecturers (J. Warren Smith, Isaac M. Cline, O. L. Fassig) .....	364
Back numbers of the Monthly Weather Review.....	109	The weather and the dairy .....	364
Meteorology in Great Britain (Wm. Allingham).....	109	Ball lightning (J. L. Rawlings, Dr. Stokes, E. W. Dimock) .....	364
Breaking up of the ice at Pierre, S. Dak .....	109	Fillet or ribbon lightning (J. Nelson Trask) .....	365
Liquid air as a source of power.....	110	Distant lightning (James Clove) .....	365
Clearness of the atmosphere in Arizona .....	110	The storms of August 2 (F. J. Walz).....	365
Dust whirls and fairy dances (O. C. Pepon).....	111	Air currents in thunderstorms (Wm. A. Eddy).....	366
Monthly charts for the West Indies (A. J. Henry) .....	111	Ancient tornado tracks .....	366
The American Meteorological Journal.....	112	Back numbers of the Monthly Weather Review.....	366
Vertical temperature gradients (J. S. Hazen) .....	112	The second Wellman expedition.....	366
Utilization of fog (A. McL. Hawks) .....	113	A successor to Señor Barcena.....	366
The blue color of the sky (A. H. Thiessen).....	113	Results of work with balloons and kites at Trappes, France (L. Teisserenc de Bort).....	411
Abstracts of university theses .....	114	Preliminary results of Weather Bureau kite observations in 1898 (C. F. Marvin, H. C. Frankenfield).....	413
Storm centers in the Pacific.....	114	The average temperature of the atmosphere (L. Teisserenc de Bort).....	414
Pamperos and cyclonic storms .....	154	The International Electrical Congress at Como, Italy (Dr. Folgheraiter, Somigliano, Chistoni, Lemstrom, Wiedemann, Maragoni, Zublena, Rizzi).....	419
Spool kites and kites with radial wings (Prof. A. Graham Bell) .....	154	Instructive laboratory experiments (Ralph B. Marean).....	419
Newspaper fakes .....	155	Meteorology in our universities .....	420
Universities and meteorology (Prof. W. L. Moore).....	155	Weather Bureau men as university lecturers (W. M. Fulton, A. F. Sims) .....	420
Not ball lightning .....	156	Minimum temperatures on mountain peaks (J. N. Le Conte, A. G. McAdie).....	421
Empirical generalizations for South Carolina .....	156		
Radiant heat for the prevention of frost (E. W. Holmes).....	156		
The present state of long-range forecasting (Kropotkin).....	156		
Characteristics of tornadoes (A. W. Baker, E. L. Dinniston).....	157		
Death of Mariano Bárcena .....	158		
No increase in tornadoes .....	158		
No change in the climate of April (Prof. C. W. Pritchett).....	158		
Rains of sand, dust, and mud .....	158		
The prediction of tornadoes and thunderstorms .....	159		
International courtesy .....	160		
Recent earthquakes .....	161		
National Geographic Society .....	161		
The weather service of Jamaica (Robert Johnstone).....	161		
Daily international exchange with Mexico .....	161		

	Page.		Page.
August weather on the Pacific coast (A. G. McAdie, B. S. Pague, G. N. Salisbury) .....	421	Cline, Dr. I. M., special report on the flood in the Brazos Valley. Lectures on medical climatology .....	295 364
The calculation of the resultant wind .....	421	Clove, James, distant lightning .....	364
Probable cloudiness during total solar eclipse of May 28, 1900 (Prof. F. H. Bigelow) .....	422	Conger, Norman B., barographs on ships .....	60
The rain gage and the wind (G. J. Symons) .....	464	Water temperatures on the Great Lakes .....	352
Meteorology by the laboratory method .....	468	Cooley, George W., hydrology of the Lake Minnetonka watershed .....	14
The recurving of hurricane tracks in the North Atlantic (James Page) .....	468	Corliss, F. W., why do birds migrate? .....	61
Meteorology in the schools .....	469	Coville, H. J., text-books on botany .....	154
Replies to correspondents .....	469	Cox, H. J., Chicago forecast district .....	2, 44, 90, 140, 188, 397, 450, 503
The Baguios of the Philippines (Dean C. Worcester) .....	470	Recent earthquakes at Chicago, Ill. ....	63
The Ben Nevis Observatory .....	470	Davis, A. P., rainfall and temperature in Nicaragua .....	211
The Seventh International Geographical Congress .....	470	Davison, G. M., a talk on elementary meteorology .....	144
The Weather Review and the high schools .....	471	Day, Dr. W. E., clearness of the atmosphere in Arizona .....	110
Save your sets of Monthly Weather Reviews .....	471	Denison, F. Napier, the Pacific coast division of the Canadian Meteorological Service .....	102
Back numbers of the Monthly Weather Review .....	471	Mirobia and seiches .....	102
Heat radiation of the stars (George E. Hale, E. F. Nichols) .....	472	Dexter, Edwin Grant, conduct and the weather .....	353
The first volume of the Maryland weather service .....	472	Dinniston, E. L., Kirksville tornado .....	157
The director of the Iowa Weather and Crop service .....	473	Dimock, E. W., ball lightning .....	364
Rainfall and rivers in Idaho (S. M. Blandford) .....	473	Doberck, W., weather forecasting in Hongkong .....	98
The central office of the Illinois section .....	473	Obscure points in meteorology .....	108
Irrigation by wire (Arthur Betts) .....	473	Dorsey, N. Ernest, selenium and its use for the measurement of sunshine .....	99
Frosts and strawberry crops (G. J. Kellogg) .....	474	Doudna, Prof. P. E., back numbers of the Monthly Weather Review .....	109
Auroras in Texas (D. Lee Slataper) .....	474	Evans, Edward A., some physical features and flood conditions of the James River Valley .....	250
Warm rains and angle worms .....	474	Physical features and flood conditions of the James River Valley .....	254
This year's crop and last year's growing season .....	474	Soil and climate adapted to raising tobacco .....	254
Protection against frost .....	475	Green coloring of plants .....	361
The weather and the dairy (E. A. Evans) .....	475	Eddy, W. A., experiments in weather predictions .....	96
Losses by lightning (J. Russell Sage) .....	475	Air currents in thunderstorms .....	366
Vapor pressure for water and ice (Julius Juhlin) .....	476	Fassig, Dr. O. L., lectures on meteorology .....	256, 364
Temperature and moisture of soils in Red River Valley (E. F. Ladd) .....	477	Flint, Dr. Earl, observations at Rivas, Nicaragua .....	11, 97, 153, 192, 249, 299, 360, 462, 509, 546
History of the barometer (G. Monchamp) .....	546	Rainfall in central and western Nicaragua .....	587
"Tule fog" .....	547	Folgheraiter, Doctor, ancient magnetic phenomena .....	419
The "gran cultura" in Puerto Rico (Arthur C. Hansard) .....	548	Foster, William, Jr., history of weather telegraphy .....	17
Scientific assistants (Hon. James Wilson) .....	548	History of weather predictions .....	64
Barometric corrections and reductions (Instructions No. 139) .....	548	Foster, A. L., forests and snowfall .....	18
Meteorology in the universities (James A. Lyon) .....	549	Frankenfield, H. C., rivers and floods. (See Table of Contents.)	
Back numbers of the Monthly Weather Review .....	549	Vertical gradients of temperature, humidity, and wind direction .....	413
Meteorological observations at public schools (H. E. Wilkinson) .....	550	Floods and flood problems .....	405
The meteorological century .....	591	Highs and lows of 1899 .....	577
Abbot, Henry J., climatology of the Isthmus of Panama .....	198, 302, 463	Fulton, W. M., lectures on meteorology .....	420
Ratio of the discharges of the Chagres River at Gamboa and Bohio .....	541	Gale, A. H., tornado observations .....	303
Aitken, John., the dust in the atmosphere .....	63	Garriott, Prof. E. B., forecasts and warnings. (See Table of Contents.)	
Alexander, Wm. H., the flood of January, 1880, at Basseterre, St. Kitts .....	196	The West Indian hurricane of August 7-17, 1899 .....	344
Additional observations of the St. Kitts, W. I. hurricane. Climatology of St. Kitts .....	409 583	The West Indian disturbance of August 29-September 4, 1899 .....	395
Allen, Henry L., records by the kite corps at Bayonne, N. J. .....	11, 251	The West Indian hurricane of September 8-13, 1899 .....	396
Allingham, William, meteorology in Great Britain .....	109	Gorgas, Charles S., death of .....	17
Baker, Prof. A. W., characteristics of tornadoes .....	157	Groat, B. F., the force of a tornado .....	305
Ball, Hector L., the Weather Bureau in Alaska .....	59	Gull, W. J., back numbers of the Monthly Weather Review .....	471
Barcena, Mariano, Mexican climatological data .....	57, 98, 149	Gunn, James, long-range weather forecasting in Canada .....	149
Death of .....	158	Hackett, A. E. (mentioned) .....	254
Barwick, J. A., effect of wind on catch of rainfall .....	308	Notes on the climate of Missouri .....	582
Beals, E. A., Chicago forecast district .....	243, 287, 536	Hale, George E., heat radiation of the stars .....	472
Bell, A. H., weather conditions along the coast of northern California .....	254	Hammon, Prof. W. H., San Francisco forecast district .....	2
Bergholz, Paul, origin, paths, and limiting zones of the typhoons of the Orient .....	402	Bulletin on frost prevention .....	254
Back numbers of Monthly Weather Review .....	471	Hansard, Arthur C., use of the term "gran cultura" in Puerto Rico .....	548
Berry, James, Climate and Crop Service. (See Table of Contents.) Climate and Crop Service publications .....	150	Harkness, Prof. Wm., hints to observers of shooting stars .....	9
Betts, Arthur, irrigation by wire .....	301, 473	Hawkins, Barry C., the northwest gales of the southern Blue Ridge and the Piedmont region .....	13
Bigelow, Prof. F. H., balloon ascensions on March 4, 1899, in France .....	197	Back numbers of the Monthly Weather Review .....	471
The international cloud work of the Weather Bureau .....	404	Hawks, A. McL., utilization of fog .....	101, 113
Blandford, S. M., discharges of the rivers in 1898 .....	473	Hazen, Prof. H. A., areas of high and low pressure .....	2, 45, 90, 140, 188, 243, 288, 344, 398, 450, 504
Bort, L. Teisserenc de, work with balloons and kites at Trappes, France .....	411	Extraordinary rainfall in Texas .....	249
Average temperature of the atmosphere .....	415	Hazen, J. S., vertical temperature gradients .....	112
Boynton, H. R., waterspouts at Key West, Fla. ....	351	Cold waves in the Southwest .....	291
Brandenburg, F. H., the depth of atmospheric cold waves .....	62	Henry, A. J., description of tables and charts .....	18, 64, 164, 219, 261, 317, 369, 424, 479, 511
The weather and the live stock industry .....	588		
Calvert, E. B., snow temperatures .....	55		
Carpenter, Ford A., the utilization of fog .....	195		
Chaffee, F. P., forecast cards on street letter boxes .....	61, 361		
Chistoni, Professor, electrical discharges on Mount Cimone .....	419		

	Page-		Page-
Wave or billow clouds.....	57	The precipitation over the Pacific northwest and the possibility of high water in the Columbia River from the melting snow in the mountains.....	252
Monthly charts for the West Indies.....	111	Oregon Report of August weather.....	421
Normal precipitation in the region of the Great Lakes.....	151	Palmer, W. S., forests and snowfall.....	18
Appendix to article by General Abbot.....	203	Increase of snow with altitude.....	61
Spurious tornado photographs.....	203	Parvin, Hon. T. S., meteorological records in Iowa.....	17
Sudden oscillations in lake-level pressure waves.....	305	Pastrana, E., Mexican climatological data.....	193, 252, 298, 402, 455, 545
Thunderstorm on August 2, 1899.....	359	Pepoon, O. C., dust whirls and fairy dances.....	110
The climate of St. Lawrence Island.....	457	Phillips, W. F. R., recent papers bearing on meteorology.....	9, 56, 100, 150, 192, 248, 294, 352, 401, 455, 508, 541
Comparative rain-gage readings at Atlanta, Ga.....	543	Snow temperatures.....	55
General climatic conditions for 1899.....	579	Pritchett, Prof. C. W., no change in the climate of April.....	158
Hopkins, J. Howard, every man his own weather prophet.....	293	Rawlins, J. L., ball lightning.....	364
Hyatt, James, solar halo.....	59	Rayleigh, Lord, the blue color of the sky.....	114
Hyde, John (mentioned).....	254	Richardson, H. W., temperatures at Duluth.....	463
Ingersoll, John T., recent earthquakes.....	63	Rizzi, Signor, color of the sky and sea.....	419
Irwin, Samuel D., do local storms follow river valleys?.....	363	Rowland, H. A., back numbers of the Monthly Weather Review.....	314
Jennings, T. B. (mentioned).....	254	Sage, J. Russell, losses by lightning.....	475
Johnstone, Robert, the weather service of Jamaica.....	161	Salisbury, G. N., August weather in Washington.....	421
Kales, Dr. J. W., serpentine lightning.....	461	Somigliano, Professor, variations in the levels of Italian lakes.....	419
Kellogg, G. J., frosts and the strawberry crop.....	474	Scott, G. O., clearness of the atmosphere in Arizona.....	110
Kimball, H. H., automatic records of a thunderstorm.....	355	Sebree, Commander N., U. S. N., earthquake of February 7, on the coast of California.....	63
Kropotkin, the present state of long-range forecasting.....	156	Sharpe, Benj. F., an advance in measuring and photographing sounds.....	205
Ladd, E. F., some studies in meteorology.....	477	Sims, A. F., lectures on meteorology.....	421
Lancaster, Prof. A., meeting of International Meteorological Committee at St. Petersburg, September 2-7, 1899.....	410	Slataper, D. Lee, rainbow in Texas.....	474
LeConte, Prof. J. N., minimum temperature on the summit of Mount Lyell, Cal.....	421	Smith, J. Warren, derecho, not tornado, of May 16 in Ohio... Destructive frost, June 30, in Ohio.....	196 311
Leisenring, O. D., a new brass river gage at Richmond, Va.....	456	Lectures on meteorology.....	363
Lemström, Prof. A., artificial auroras.....	419	Stockman, Wm. B., monthly reports of the Weather Bureau service in the West Indies.....	194
Libby, O. G., the tornado at New Richmond, Wis.....	299	West Indian forecast district.....	397, 450, 504
Loveland, G. A., small chart of the distribution of snowfall during 1898.....	254	Stokes, Dr., ball lightning.....	364
Lowell, clearness of the atmosphere in Arizona.....	110	Stupart, Prof. R. F., the meteorological service of Canada.....	204
Lyon, Jas. A., Meteorology in the Southwestern Presbyterian University.....	549	Symons, G. J., the effect of wind on the catch of rainfall.....	454
Lyons, Curtis J., observations at Honolulu.....	12, 56, 100, 149, 193, 250, 355, 402, 455, 508, 545	The rain gage and the wind.....	464
Sun spots and Hawaiian eruptions.....	298	Ten Broeck, H., remarkable aurora at Braidentown, Fla., November 18, 1899.....	582
Volcanic eruptions in Hawaii.....	298	Thiessen, A. H., the dust in the atmosphere.....	63
Tables of dew-point observed at Honolulu.....	587	Snow rollers.....	100
McAdie, A. G., San Francisco forecast district.....	140, 188, 244, 288, 397, 450, 504, 536	The blue color of the sky.....	113
Experiments in protection from frost.....	62	Thorne, Prof. Chas. E., back numbers of the Monthly Weather Review.....	63
Lectures on meteorology.....	256	Trask, J. Nelson, fillet or ribbon lightning.....	365
Minimum winter temperatures on high peaks.....	420	Tublema, Signor, hail in Italy.....	419
August weather in California.....	421	Volker, H. J., photographs of explosions of houses.....	312
MacMillan, Prof. Conway, back numbers of the Monthly Weather Review.....	109	Vose, Elisha C., the use of the storage battery for the electrical recording instruments.....	300
Marbury, J. B., the benefits of severe winters (mentioned) ..	62, 254	Walton, Joseph P., meteorological records in Iowa.....	17
Marean, Ralph B., small whirling columns of mist.....	409, 419	Walz, F. J., diagrammatic curves of the relation between monthly normal temperatures or rainfall and the actual curves of the year.....	254
Marigoni, Professor, theory of the formation of hail.....	419	A study of temperatures at Baltimore, Md.....	293
Marvin, Prof. C. F., seismograph at Washington, D. C.....	18, 63, 310	Summary of storms of August 2.....	365
