

INDEX.

	Page.		Page.
Abbe, Prof. Cleveland. (Notes by the Editor.)		Weather Bureau men as instructors.....	318
The Milwaukee Convention of Weather Bureau officials..	25	Organization of the Philippine Weather Bureau by the	
Station libraries.....	25	United States Philippine Commission.....	372
Lectures and instructions by Weather Bureau men.....	25	The autumn haze (Prof. Willis L. Moore).....	374
Cumulus clouds above columns of smoke (G. C. Stocking)	26	The moon and the weather.....	374
Howard Shriver, death of.....	67	Meteorology in Madagascar.....	375
Herbertson's distribution of rainfall over the land.....	67	Popular errors in meteorology and geography (H. Gannett)	375
The storms of the Hawaiian Island (Curtis J. Lyons)....	68	Further explanations desired (Prof. Simon Newcomb)....	377
The rainfall and evaporation of Great Salt Lake (Prof. A. J. Henry).....	68	Weather Bureau men as instructors.....	377
Harvard's meteorological stations (Prof. E. C. Pickering)..	69	Climate and crops: A problem with two solutions (C. M. Donner, Prof. Willis L. Moore).....	419
Reflection by clouds of light from a distant fire (T. S. Outram).....	69	Seismometers in meteorology.....	420
History of meteorology in Belgium (Annuaire Météorologique).....	69	The observation of shooting stars.....	420
Official standard time.....	70	Applied climatology (Geo. B. Shattuck).....	458
The work of the Meteorological Institute of Prussia.....	70	The barometer as used at sea (C. C. Todd).....	459
Temperature of deep lakes.....	71	On barometric oscillations (G. J. Symons).....	463
Ice caves.....	71	Electrical phenomena; incandescent clouds (H. H. Ten Broeck).....	466
Weather Bureau men as instructors.....	72	Fake forecasts.....	467
English versus metric system of measurements.....	73	Prof. Luigi Palazzo, appointment of.....	467
The structure and formation of hail.....	73	Relative frequency of sun spots (R. Wolf, A. Wolfer).....	505
Hann's new meteorology.....	74	Hailstorm on the St. Lawrence (H. S. Chandler).....	506
The relative duration of the normal warm and cold seasons	74	Plagiarism.....	507
The weather in distant regions.....	74	Earthquake-proof buildings (James H. Kimball).....	507
New determination of vapor tension.....	74	Periodicity in climate.....	511
Snow crystals (W. A. Bentley).....	118	Auroral light.....	512
Charts of atmospheric humidity (Dr. E. G. Ravenstein)....	118	The influence of small lakes on local climate (Prof. Willis L. Moore).....	563
Normals for Manila (Manila Observatory).....	119	Early meteorological records.....	565
The new Philippine weather service (Joseph Algué).....	120	Lunar halo and lunar corona (Prof. John W. Harshberger)	566
Weather Bureau men as instructors.....	120	Abbe, Prof. Cleveland. (Special contribution.)	
Dust storms and red rain (Prof. A. W. Rücker).....	120	The physical basis of long-range weather forecasts.....	551
The permanence of climate (A. F. Sims).....	121	Abbot, Gen. Henry L., our killing heat.....	371
The moon and the weather.....	121	Alciatore, H. F., hurricane of August 13-16, 1901, at the mouth of the Mississippi.....	343
Alexander Ashley, death of.....	173	Alexander, W. H., the relation of rainfall to mountains.....	6
Charles Davis, death of.....	173	The climatology of Antigua, W. I.....	165
Hawaiian weather for February, 1901 (Curtis J. Lyons) ..	174	Reforestation and rainfall in the Leeward Islands.....	254
Lorin Blodget, death of.....	174	Climatology of St. Kitts; comparison of barometers.....	257
Weather Bureau officials as instructors.....	174	Algué, Rev. Joseph, the new Philippine weather service.....	120
Earthquakes in Montana (H. P. Dick).....	175	Angot, Alfred, lunar influences in meteorology.....	315
Dust storms in Burma and elsewhere.....	175	Ashley, Alexander McC., long-range seasonal forecasts for the Pacific coast States.....	16
The permanence of climate.....	175	Ashley, Alexander, death of.....	173
Fog in New York Harbor.....	175	Balch, Edwin S., evaporation under ground.....	545
Sleet.....	175	Baldwin, Evelyn B., auroral observations on the second Wellman expedition made in the neighborhood of Franz Josef Land.....	107
Rainfall and grazing.....	176	Bassler, R. S., Weather Bureau men as instructors.....	72
The first number of the Monthly Weather Review.....	176	Bassler, S. S., Weather Bureau men as instructors.....	26, 72, 566
Bombardment of hailstorms (Prof. Willis L. Moore).....	176	Rivers and floods.....	263
Sand dunes and wind.....	176	Beals, E. A., Portland, Ore., forecast district.....	2, 100, 146, 202, 244, 292, 400, 448, 491, 537
The glacier as an index of climate.....	177	Weather Bureau men as instructors.....	72
An old record at Pensacola, Fla.....	177	Daily rainfall at Portland, Ore., September 15-October 6 (tables).....	508
The kite work of the German antarctic expedition.....	177	Bentley, W. A., snow crystals.....	118
Average temperature of the upper strata (L. Teisserenc de Bort).....	177	Twenty years study of snow crystals.....	212
Wind and temperature.....	177	Berry, James, climate and crop service. (<i>See</i> Table of Contents.)	
Reduction to standard gravity at Mexican stations (Manuel E. Pastrana).....	218	Methods employed in the distribution of weather forecasts.....	14
Snowfall and its equivalent in water.....	219	Bigelow, Prof. F. H., wind force in tornadoes.....	419
Hail insurance.....	219	Blagden, J. D., rivers and floods.....	346
Weather Bureau men as instructors.....	219	Blandford, S. M., some features of the climate of Idaho.....	19
Annual meeting of the German association of investigators and physicians.....	220	Weather Bureau men as instructors.....	120, 219
Gustavus A. Hyde.....	220	Blodget, Lorin, death of.....	174
Hail and thunderstorms in Oregon (J. S. Churchill, J. C. Brattain, G. Muecke).....	262	Bolton, J. P., Weather Bureau men as instructors.....	174
Meteorology in French Indo-China (Ann. de Geographie)	263	Boyer, H. B., Weather Bureau men as instructors.....	120
A rain of small fish.....	263	Brandenburg, F. H., Denver forecast district.....	292, 400, 448, 491, 537
Sun spots and meteorology.....	263	Facilities for systematic study of corresponding weather types.....	546
Meteorology in the universities.....	264	Brattain, J. C., hail and thunderstorms in Oregon.....	262
The International Meteorological Congress, Paris, September 10-16, 1900.....	265	Brillouin, Marcel, original memoirs on the general circulation of the atmosphere.....	300
Knut Angström on atmospheric absorption.....	268	Brown, Prof. W. V., a proposed classification and index of weather maps as an aid to weather forecasting.....	547
A proposed meteorological commission (Prof. Willis L. Moore).....	312	Burns, William G., Weather Bureau men as instructors.....	72, 219
University research at Washington, D. C.....	314	Carpenter, Ford A. Weather Bureau men as instructors.....	219
Instructions to the voluntary meteorological observers of the United States Hydrographic Office (James Page)....	314		
Lunar influences in meteorology (Prof. A. Angot).....	315		
The red dust of March, 1901.....	316		
The Milwaukee Convention of Weather Bureau officials..	317		

	Page.		Page.
Carroll, D. J., J. Brown Hicklin, death of.....	119	Publications of the United States Weather Bureau (W. F. R. Phillips).....	216
Chaffee, F. P., rivers and floods.....	100, 541	Wind force in tornadoes (Prof. Willis L. Moore).....	419
Chandler, H. S., hailstorm on the St. Lawrence.....	506	A new field for kites in meteorology (A. Lawrence Rotch).....	419
Churchill, J. S., hail and thunderstorms in Oregon.....	262	Weather Bureau bulletins wanted.....	419
Claxton, T. F., the meteorological society of Mauritius.....	565	The south polar expeditions (Dr. Georg Kollm).....	421
Cline, I. M., Weather Bureau men as instructors.....	72, 219	Answers to correspondents: popular queries about rain, hail, wind, and frost.....	422
Galveston forecast district.....	292	Weather Bureau men as instructors.....	424, 458, 566
Tropical hurricane of August 13-16, 1901, at New Orleans.....	342	What is a storm wave? (Prof. Willis L. Moore).....	460
New Orleans forecast district.....	400, 448, 491, 537	Colored snow.....	465
Cline, Joseph L., the island of Porto Rico.....	353	Signs and weather.....	508
Connor, Patrick, Weather Bureau men as instructors.....	72	The equinoctial storm (E. A. Beals).....	508
Cox, Prof. H. J., Chicago forecast district... 2,50,100, 202, 243,400,490,537	537	The November meteors (D. S. Landis, C. W. Ling).....	509
Davis, Charles, death of.....	173	Ice caves and freezing wells (W J McGee).....	509
Day, P. C., weather of the month.....	318	The temperature of water in wells (R. J. Redding).....	510
Demain, E. R., rivers and floods.....	538	Establishment of the Martinique weather service.....	512
Dick, H. P., earthquakes in Montana.....	175	Second Mexican meteorological congress.....	512
Dodge, Prof. Richard E., diurnal winds on faint gradient in northwestern New Mexico.....	299	Classified weather types.....	562
Donaldson, W. E., Weather Bureau men as instructors.....	174	Meteorological observations with kites at sea (A. L. Rotch).....	563
Donner, C. M., climate and crops: a problem with two solutions.....	419	Climate and crops (Dr. H. W. Wiley).....	564
Dudley, William M., tropical hurricane of August 13-16, 1901, at Mobile.....	343	The meteorological society of Mauritius (T. F. Claxton).....	565
Eadie, J. H., the tornado in Hudson County, N. J., August 24, 1901.....	355	Halo of Hevelius (F. Odenbach).....	566
Evans, E. A., rivers and floods.....	540	Kimball, H. H. (Special contributions.)	
Fassig, Dr. O. L., Weather Bureau men as instructors.....	265	The seasonal variations in the climate of Antigua, W. I....	168
The westward movement of the daily barometric wave.....	495	Some causes of the variability of earthshine.....	209
Flint, Dr. Earl, death of.....	67	Sun spots and the weather.....	248
Frankenfield, H. C., areas of high and low pressures.....	448, 491	Ice caves and frozen wells as meteorological phenomena.....	366
Rivers and floods. (See Table of Contents.)		The general circulation of the atmosphere, especially in arctic regions.....	408
Franklin, G. E., Weather Bureau men as instructors.....	458	Kimball, James H., earthquake-proof buildings.....	507
Gannett, Henry, popular errors in meteorology.....	375	Kollm, Dr. Georg, the south polar expeditions.....	421
Gardiner, I. G., rivers and floods.....	346	Landis, D. S., Leonids at Phoenix, Ariz.....	509
Garriott, Prof. E. B., forecasts and warnings. (See Table of Contents.)		Ling, C. W., Leonids at Havre, Mont.....	509
Areas of high and low pressure.....	2, 51, 101, 146, 202	Linney, Charles E., Weather Bureau men as instructors.....	72, 219
Monthly statement of average weather conditions..	21, 57, 117, 163, 208, 258, 307	Lumsden, G. E., some causes of the variability of earthshine..	209
Classified weather types.....	548	Lyons, Curtis J., observations at Honolulu.....	15, 55, 116, 164
Gilbert, G. K., the water level of Great Salt Lake.....	23	The storms of the Hawaiian Islands.....	68
Gray, James J., tornado and waterspout at Norfolk, Va., on August 6, 1901.....	372	Hawaiian weather for February, 1901.....	174
Hackett, A. E., Weather Bureau men as instructors.....	458	Hawaiian climatological data....	211, 257, 307, 351, 405, 453, 496, 549
Hall, Maxwell, climatological data for Jamaica.....	214, 253, 304, 352, 407, 497, 595	McAdie, Prof. A. G., San Francisco forecast district... 2, 51, 100, 146, 202, 243, 292, 400, 448, 491	
The sun-spot period and the temperature and rainfall of Jamaica.....	503	Fog studies on Mount Tamalpais: No. 3. Photographs of fog billows.....	24
Harkness, R. B., Weather Bureau men as instructors.....	72	Fog studies on Mount Tamalpais: No. 4.....	104
Harris, C. A., the climatology of Antigua, W. I.....	165	Fog studies on Mount Tamalpais: No. 5. Wreck of the Pacific mail steamship Rio de Janiero.....	61
Harshberger, Prof. John W., lunar halo and lunar corona.....	566	Frost fighting.....	65
Hayes, Montrose W., Havana, Cuba, forecast district.....	491	Weather Bureau men as instructors.....	174
Hazen, J. S., Weather Bureau men as instructors.....	377	McClintock, F. L., Weather Bureau men as instructors.....	174
Henry, Prof. A. J., introduction. (See Table of Contents.)		McFarland, Byron, the thunderstorm: a new explanation of one of its phenomena.....	297
Weather of the month. (See Table of Contents.)		McGee, W J, ice caves and freezing wells.....	509
Description of tables and charts. (See Table of Contents.)		Mackie, Simon F., the relation between the level of Great Salt Lake and the rainfall.....	57
Climatological tables. (See Table of Contents.)		Marbury, J. B., Weather Bureau men as instructors.....	219
Dr. Earl Flint, death of.....	67	Rivers and floods.....	541
The rainfall and evaporation of Great Salt Lake.....	68	Maring, D. T., Weather Bureau exhibit at the Pan-American Exposition, Buffalo.....	259
Remarks on the reduction of records of rain gages.....	500	Marvin, Prof. C. F., the measurement of sunshine and the preliminary examination of Angström's pyrheliometer.....	454
General climatic conditions for 1901.....	592	Meech, Levi W., the moon and the weather.....	372
Normal temperatures by decades.....	600	Mitchell, A. J., report on cold-wave warnings.....	50
Herbertson, A. J., distribution of rainfall over the land.....	68	Mitchell, W. H., cumulus clouds formed by smoke.....	498
Hicklin, J. Brown, death of.....	119	Moore, Prof. Willis L., bombardment of hailstorms.....	176
Hunt, Geo. E., areas of high and low pressure..	244, 293, 345, 400, 537, 591	A proposed meteorological commission.....	312
Huntington, Prof. Ellsworth, the climate of Harpoot, Turkey in Asia.....	250	The autumn haze.....	374
Hyde, Gustavus A.....	220	Wind force in tornadoes.....	419
Jefferson, Mark S. W., the rainfall of the Leeward and Windward Islands.....	56	Climate and crops: a problem with two solutions.....	420
The reduction of records of rain gages.....	499	What is a storm wave?.....	460
Jennings, T. B., Weather Bureau men as instructors.....	219, 566	The influence of small lakes on local climate.....	563
Jesunofsky, L. N., rivers and floods.....	346, 540	Report of the Chief of the Weather Bureau for the year ending June 30, 1901.....	595
Kelliher, J. J., Weather Bureau men as instructors.....	566	Muecke, G., hail and thunderstorms in Oregon.....	262
Kenealy, James, the meteorological observatory of St. Ignatius College, Cleveland, Ohio.....	355	Murdoch, L. H., relation of the water level of Great Salt Lake to the precipitation.....	22
Kimball, H. H. (Notes by the Editor.)		Myers, U. G., Yukon weather.....	309
The effect of the moon on vegetation.....	215	Newcomb, Prof. Simon, further explanations desired.....	377
		Nielsen, Dr. L., official standard time.....	70
		Odenbach, Rev. Frederick, S. J., halo of Hevelius.....	566
		Outram, T. S., reflection by clouds of light from a distant fire.....	69
