STATION HISTORY

Rainfall records began at Levelland February 1, 1926, at Latitude 33° 36' N and Longitude 102° 23', but continued only until August 31st the same year. Observations began again at the same location, 2 blocks west of the Post Office, July 15, 1935. Temperature observations were added October 1, 1937. The station was moved one mile east to Latitude 33° 36' W and Longitude 102° 22', September 15, 1938, then back to 25 SW of the Post Office, January 1, 1940. The station was moved several more times, all within 7 blocks of the Post Office, until established at its present location 1 mile SW of the Post Office at Latitude 33° 34' and Longitude 102° 23'. Records are incomplete with frequent breaks until 1948, after which only a few breaks have occurred.
