National Oceanic and Atmospheric Administration
Main Commerce
14th and Constitution
Washington, DC 20230

Dear Dave:

Thank you for visiting my office recently with Administrator Frank. I have enclosed a copy of the picture we had taken.

I am very interested in the future of satellite-based land remote sensing activities. As the reorganization process continues, I trust the future and success of EROS Data Center in South Dakota will not be jeopardized.

Thank you again for your assistance to me and my staff.

Sincerely,

Larry Pressler
United States Senator
