SCH. METAMORA'S BIG FARE.

One of the Largest Ever Landed at T Wharf, Boston.

Sch. Metamora, Capt. John Robbins, shot up to T wharf, Boston, yesterday morning with one of the largest fares of fresh fish ever brought in there, hailing for 182,000 lbs., nearly all being hake. The fare was taken on Western Bank and as the market was glutted, she took out only a few cod and came to this port in the afternoon with 175,000 pounds, selling to Cunningham & Thompson. Capt. Robbins says that 3000 or 4000 pounds more would have filled his vessel.

HALF FALSE JEWELS.

How One Diamond Makes Two Each as Big as the Original.

The lapidary was splitting a diamond. He leaned forward with intent brows. His tiny machine buzzed like a bee. A delicate and shining dust arose.

Then suddenly everything was stilled, and the diamond, split in halves, lay in the lapidary's white, thin hand.

"Out of one diamond," he said, "I am going to make two, and each of these two will be as big and brilliant as the original one was."

As he scraped up the glittering dust he exclaimed:

"First I will make in paste an exact duplicate of each of these two halves. Then I will join to the bottom of each genuine half its artificial complement, making the junction so carefully that no one will be able to perceive it. Finally I will mount these two half false and half genuine stones. Each then will appear to be altogether genuine. Their paste foundations will not detract in any way from their brilliance. The owner of the big diamond will have two big diamonds."

"The making of fake jewels," the lapidary said, "is an interesting study. Do you know what the best fake pearls are made of? They are made of fish scales—silvery and iridescent fish scales pasted on the inside of balls of glass. The fish these scales come from is called in France the ablette and in England the bleak. It is smaller than a minnow. Its scales must be picked off by hand, and only a small portion of them can be used. It takes 18,000 ablettes, or bleaks, to yield a pound of scales."—New York Telegram.

FOUGHT SWORDFISH.

Two of Crew of Str. Petrel Had Exciting Experience.

A dispatch from Nantucket, recently, says: The fishing steamer Petrel, Captain Arthur C. Manter, returned Thursday from a day's trip, breaking all previous records for one day's work.

Soon after passing the island of Tuckernuck on the way out, a small school of swordfish was sighted, and ten were captured.

Mate Barrett and Charles Thomas had an exciting encounter with one of the smallest of the lot after it had been struck. They were "hauling line," when the fish suddenly turned and drove its sword through the bottom of the dory, boring a large hole, through which the water began to pour. Hastily removing their canvas mittens the men plugged up the opening and again attacked the ugly captive, this time killing and bringing it alongside.

OVER \$9000.

Sch. Lucinda I. Lowell Makes a Big Salt Bank Stock.

Sch. Lucinda I. Lowell, Capt. Warren Forber, stocked \$9,100 on the result of her recent salt bank trip, the crew sharing \$330. This is the second largest stock of the season thus far in this fishery. Capt. Forber is a hustler, who during the last few years has been making a fine record for himself and fairly won a place among the leading salt bank skippers.

Another Quick Trip.

Sch. Kineo, Capt. John Stream, arrived from Georges this morning after an absence of but 14 days with a fair trip of halibut and codfish. Capt. Stream reports that he never before saw the tide of Georges running as strongly as it was this trip. He was out in the shoal water on the northeast part of the bank, and says that the tide was so strong that it would take their great heavy barrel buoys fairly under and that it would rush over the bow of a dory, pulling trawls against the current. The handliners whom he saw were all under sail and all reported that the tide was so strong that they really could not fish.

Hon. Sylvanus Smith, while out fishing in Ipswich Bay yesterday in his launch, caught a halibut weighing 30 pounds.

CAPT. HINES BIG STOCK.

Gets \$9500 on First Trip of His New Craft.

Sharesmen Profit to the Extent of \$369.88 Each.

The banner salt cod trip of the season thus far is that recently landed by the new sch. Hazel R. Hines, Capt. Lovitt E. Hines of this port. This craft arrived a few days ago from the Grand Bank with a big trip of salt cod and as the result of her maiden voyage made the splendid stock of \$9164.69, the average share being \$241.88 while the sharesmen each got \$369.88 as their part of the splendid voyage.

Capt. Hines is one of the best known skippers hailing from this port and can always be counted on for a big fare. Year after year he has gone on in the salt bank fishery, always bringing in the biggest kind of fares and always landing his fish at this port. Few men, if any, have landed more salt cod than he in his long term of years as skipper and he is today one of the most successful codfishermen on the North Atlantic coast.
