

ANOTHER DAY OF LIGHT RECEIPTS.

HAKE LEADS LARGELY IN FISH TRIPS AT T WHARF THIS MORNING.

This is another day of light fish receipts at T wharf. In all there are 14 arrivals and 25,000 pounds is the largest fare in the lot.

Hake largely predominates, which means that cod and haddock are bringing good prices.

Four of the pollockers are among the arrivals with fares running from 5000 to 15,000 pounds, the latter amount being the catch of sch. Good Luck. Despite the fact that the pollockers are doing but little, the price is and has been nothing fancy.

Haddock sold at \$3.75 to \$4.50 and codfish brought \$4 to \$5. Pollock went at \$1.50 to \$1.60 and large hake sold for as high as \$2.25, small being quoted at \$1.15.

The United States quarantine officer's steamer Petrel was damaged yesterday forenoon when the steamer collided with the fishing schooner Angie B. Watson. The Petrel's smoke stack was bent and the steam pipe leading to the whistle was broken. The lantern was on the port side of the pilot house, was torn away and the stanchions for the awning aft of the engine room were torn from their fastenings and bent.

Freezer Steamer Nearly Ready to Start for Bay of Islands.

The Gorton-Pew Fisheries Company's big freezer steamer Alcona is about ready to start on her voyage to Bay of Islands, N. F., to engage in the winter herring fishery and will probably get away next week.

The British sch. Acme, which arrived here this morning with a load of salt cod, reports loss of maintopmast.

MORE COD FROM NEWFOUNDLAND.

CARGO OF 340,000 POUNDS FOR GORTON-PEW AND CUNNINGHAM & THOMPSON.

Home from a seining trip to the North Bay, with 90 barrels of salt mackerel of the finest kind, taken off North Sydney, C. B., is sch. George Parker, one of the fleet of two vessels which went "to the bay" this season.

Another arrival is the British sch. Acme, here from Belleoram, N. F., with 340,000 pounds of salt cod for the Gorton-Pew Fisheries Company and the Cunningham & Thompson Company.

The torchers had a good night last night and brought over 240 barrels of fresh herring. The hustling bait men, Cooney and McDonald, placed about the whole of it on the haddockers and market boats and there was but little for the freezer.

During the forenoon three of the mackerel netters came in, having found a few fish last night. The catches ranged from 130 to 175 fish and they sold at 25 cents each.

ONE BAY MACKEREL SEINER HOME

Sch. George Parker Took 90 Barrels Large Fish in One Haul.

Found No Fish in North Bay But Made Set Off North Sydney.

Sch. George Parker, Capt. Joseph Lacey, arrived home from her North Bay mackerel seining trip during the night, with 90 barrels of salt mackerel, all large and of the finest quality.

Capt. Lacey reports taking no fish in the North Bay, but got his fare all in one school recently off North Sydney, C. B. The weather on the start of the trip was so bad that fishing was out of the question. No fish were seen in the bay, but down off North Sydney there seemed to be quite a few schools.

Here again the weather interfered with fishing operations and really only three or four decent fish days were had and then no fish were seen. The school caught was taken in a rough chance.

Capt. Lacey did not like to give it up and hung there in hopes of getting another haul, but the weather set in bad and for days on a stretch there was no chance to even look for fish,

so a few days ago he headed the craft for home.

The fare is on the market and will find the buyers interested, for Capt. Lacey says the fish are all large, very fat, well taken care of and of the finest quality.

Sch. Diana Reported With 30 Barrels Mackerel.

Sch. Diana, Capt. James McLean, the only other seiner which went to North Bay, is expected home in a few days. She has 30 barrels of salt mackerel, taken off North Sydney recently.

Mackerel Netters Land Small Catches.

Three of the mackerel netting fleet were in here this forenoon with small catches. Sch. Freedom had 160 fish, sch. Reliance 175 and a Lanesville boat came up from an Ipswich bay set of her nets with 130 fish. Sales were at 25 cents per fish.

At Rockport this forenoon the sloop J. F. McMorrow came in with 200 large fresh mackerel.

NEWFOUNDLAND HERRING PLENTY

FAVORABLE REPORT FROM BOTH BAY OF ISLANDS AND BONNE BAY.

Advices yesterday from Bay of Islands, N. F., state that herring are still plenty at both Bonne Bay and Bay of Islands, although at the latter place they are shifting around considerably.

The herring at Bonne Bay now are reported equal to those of Bay of Islands in size and quality and some of the vessels were going to shift up there from Bay of Islands.

Sch. W. E. Morrissey, with a load of salt herring, had sailed from Bay of Islands for this port and schs. Arcadia, Flirt, Athlete, Ella G. King, S. P. Willard and Arthur James were among the arrivals there to load.

Portland Fish Notes.

Another large amount of fish was brought into Portland yesterday when six schooners and a number of small fishing boats came in from the fishing grounds. All the fish was sold at high prices, as the price paid by the dealers ranged from \$3.25 to \$4.00 per hundred weight. With fish at the present prices, the fishermen are earning considerable money, and one skipper said this morning that season was proving decidedly successful for the fishermen.

The vessels to come into port yesterday morning were: George H. Lube, 9000 pounds mixed fish; Angie B. Watson, 8000 pounds mixed fish, 1000 pounds of halibut; Albert W. Black, 12,000 pounds mixed fish; Wautauga, 3500 pounds mixed fish; Edmund P. Black, 10,000 pounds mixed fish; Eva and Mildred, 6000 pounds mixed fish; small boats, 8000 pounds mixed fish. Total, 48,500 pounds.

PREVIOUS FISH RECORDS BROKEN.

Sch. Arethusa Landed 839,716 Lbs. Fish and Stocked \$33,978 This Season.

Capt. Morrissey's Success Unparalleled in History of Atlantic Fisheries

The high water mark in the salt cod fishery of the North Atlantic has apparently been reached. All records, past and present, have been completely cast in the shade by the magnificent performance of Capt. Clayton Morrissey of sch. Arethusa.

The taking out of the third fare Capt. Morrissey has caught and brought here this season in his big knockabout craft was completed yesterday and this morning the figures for the season's work were made up. The record is a phenomenal one. Salt bankers usually make two trips in a season, and sometimes but one, but Capt. Morrissey has made three and the trip of the trips has resulted in the great amount of 839,716 pounds of salt fish being landed, on which was made the previously unheard of stock of \$33,978.35, while the crew, who have been with Capt. Morrissey since last February in the vessel have each shared \$668.23.

Large Fares and Big Prices Combined to Raise Stock.

The usual money returns for the Arethusa's season of fishing has been made possible by a combination of the largest amount of fish ever landed in one season by any salt banker in the North Atlantic fisheries and the splendid prices which have prevailed all the season. How good prices have been can be gleaned from the fact that every one of the over 800,000 pounds of fish landed has been worth more than four cents a pound right from the vessel.

Not only is the record broken for

amount of fish landed but also the stock record has gone by the board, and many are of the opinion that it will be a long time before a salt banker again stocks practically \$34,000 in one season.

Breaking records has been a habit with Capt. Morrissey for many years and his latest achievement but adds to his reputation as the premier codfisherman of the North Atlantic.

Stock on Last Trip Largest Ever Made Salt Banking.

No one begrudges the tall hustling chap the splendid money return which the making of such a phenomenal record entails, or the honor and credit which go with such a performance. Everybody knows him for a worker of the hardest kind, a man without a lazy bone in his body, and a head full of fishing ideas second to none. He deserves all the praise which is being bestowed upon him for his remarkable performance.

The result of each of the three trips in detail, is as follows:

First trip, 215,860 pounds, \$8751.10 stock, \$170.91 share.

Second trip, 261,686 pounds, \$9565.77 stock, \$194.43 share.

Third trip, 362,170 pounds, \$15,661.48 stock, \$302.89 share.

The stock on the third trip is one of the largest single trip returns on record in the salt trawl bank fishery.

FREAK LOBSTER.

One Caught Near Port and Is Covered With Yellow Spots.

One of the most remarkable "freak lobsters," brought to Portland for many months is that now in the lobster cars of Lewis McDonald at Portland, which was sent to Warden George A. Dow by William Walker, a Cliff Island lobsterman.

The lobster was caught on Johns Ledge, off Cliff Island, by Walker in nine fathoms of water, and is covered with yellow spots. The color of a lobster when taken from the water is usually green and while the "freak" brought to Portland by Walker is green, the yellow spots cover the back, the tail, claws and even the smellers of the lobster.

Lobster dealers in Portland say that they have never seen such a specimen and they do not attempt to explain the cause of the hundreds of yellow spots covering the lobster's shell covering.

Fishing Fleet Movements.

Schs. Esperanto, Arkona, Priscilla Smith and Onato harbored at North Sydney, C. B., Tuesday, a heavy gale being in progress outside.

Sailed on Second Salt Herring Trip.

Season's Work of Porgy Steamer Arizona.

Capt. E. P. Gammage of South Bristol was in Portland Friday and he was very proud over the performance that his steamer, the Arizona has been doing the past season.

The Arizona is a porgy boat, though she is too large to be classed as a mere boat. But she has been making a record for herself and for her crew. She has been the high liner of the whole fleet of porgy catchers. During the season, the total catch amounted to 62,000 barrels of porgies for this steamer alone. And all this was done in only five months. From this immense quantity of fish, 10,000 barrels of oil were extracted, in addition to the fertilizer.

Capt. Gammage left the steamer at Tiverton to come home. The Arizona has now gone south with the floating fish factory Mills where the work of catching porgies for the Menhaden Fish Co. will be continued.

Catch of Fish Affected by Full Moon.

A recent report of the Scotch fishery board mentioned a curious habit which, according to fishermen, is associated with fish; the phases of the moon, it was asserted, have a very direct connection with the willingness of fish to be netted.

To test this theory statistics were obtained of the catch of herrings from 1860 to 1900, with the result that the biggest catches were found to have coincided with the new moon and the smallest with the full moon. The report suggested that a full moon enabled the nets to be seen much more easily than at the times of new moon or the crescent phase or that the tides which vary with the lunar phases, were possible factors in the matter.—Westminster Gazette.

Nov. 13.

SOUTHWESTER DELAYED FLEET.

BUT TWENTY-FIVE VESSELS WERE AT T WHARF THIS MORNING.

The stiff southwester of yesterday knocked out all chances of a big fleet of market fishermen being in at T wharf this morning. Evidently the fleet down in South Channel has been having bad weather also, for arrivals from there are more scarce than from along shore. All this will work to the advantage of the three off shores in from the Scatteri grounds with big fares, mostly codfish.

In all 25 crafts are in and of these three have fresh mackerel, three are pollockers, two are cod netters, two Georges drifters, three from Scatteri and two from the Channel and the rest market boats.

The shore boats generally have small fares, the result of one set on Saturday, the cod netters did fairly well, the Scatteri chaps hailed for from 80,000 to 105,000 pounds and the two channel crafts had fair catches. The catch of the pollockers showed an improvement over fares of last week, hails being from 11,000 to 19,000 pounds.

The most remunerative trip in, when the length of time gone is considered, was that of sch. Massasoit, whose hail was for 4600 large fresh mackerel. These fish sold in the neighborhood of 25 cents each, which means a stock of about \$1100 and a share per man in neighborhood of \$100 for one night's work. Sch. M. Madeleine also reported with 1600 large fresh mackerel and sch. Hawk had 550 in count.

The steam trawler Ripple was among the arrivals, with 38,000 pounds of fresh fish, mostly haddock.

The banner trip of the day and one whose stock will make a noise like between \$2500 and \$3000 is that of sch. Valerie, Capt. Wallace Bruce, from the Scatteri ground, hailing for 105,000 pounds of fresh fish, 90,000 pounds of which are cod. This is Capt. Bruce's first trip of the season and he evidently has not forgotten how to get 'em.

Two other fine fares are those of sch. Vanessa, Capt. William Firth, with 81,000 pounds, mostly cod and sch. Harmony, Capt. Christopher Gibbs, with 81,000 pounds, half cod, and 1500 weight of halibut besides. Haddock sold at \$3 and \$3.50 and large cod went at from \$3.50 to \$6, the off shores getting the former price. Hake brought from \$1.15 to \$2.50 and pollock \$1.50 to \$1.60.

MANY ARRIVALS, FISH IN VARIETY.

LAST OF THE SEASON'S SEINING FLEET AMONG THE NUMBER.

Arrivals here with fish since the last report have been many and the species brought in varied.

Three of the dory handliners, schs. Olga, Miranda and Titania, are home, with fares ranging from 120,000 to 140,000 pounds of salt cod, mostly late caught fish, the two former going to Gorton-Pew Fisheries Company and the latter to Sylvanus Smith & Company, Incorporated.

Sch. Waldo L. Stream, from a short fresh halibut trip, blew in on the wings of the gale yesterday afternoon bringing a good fare, 10,000 pounds of halibut, 20,000 pounds of fresh salt fish and 18,000 pounds of fresh. She got a fine advance over last sales on the halibut.

Several of the market boats which got a set Saturday, were unable to fish Sunday and ran in for harbor, few, if any, will take out here, but will try for another day's fishing and go to Boston.

Sch. Diana, the last of this season's seining fleet, is home from North Bay and the Cape Shore. She brings 30 barrels of salt mackerel, having lost a whole trip of 200 barrels in one school, off North Sydney by the bursting of her seine.

The gill netters did well again Saturday, landing 41,000 pounds of fresh fish, mostly pollock. Only one of them, the Margaret D. was out Sunday and she brought in 7000 pounds.

The mackerel netters were out Saturday night, the fleet being now small as many of them have shifted to other branches of fishing. Some of them did well, extra well, while the majority got small hauls. Their work in detail will be found in the mackerel story in another column.

The third fare of salt herring of the season came along Saturday night, sch. Arbutus arriving home from a quick trip to Bonne Bay, N. F., with 1100 barrels of salted stock.

The torchers did not have much of a chance, but brought over about 100 barrels for the two nights.
