

# MET HEAD WINDS AND HEAVY GALES

## Sch. Smuggler Blown Off Her Course and 19 Days Coming Home.

Sch. Smuggler, Capt. Peter Porter, arrived here today from Bonne Bay, N. F., with a full load of salt and pickled herring for the Gorton-Pew Fisheries company.

Capt. Porter had a hard passage home, meeting with heavy gales and head winds which drove him off his course. The craft was just 19 days coming, but notwithstanding the bad passage, came through it all without damage.

Not a single fresh fare of any kind is reported here today. The gill netters landed about 55,000 pounds yesterday afternoon, which were shipped to Boston. The largest fare of the day was 4000 pounds.

### SCALLOP FISHING IS BIG.

#### Nantucketers Making \$1000 a Day and Supply Plentiful.

Scallop taking in Nantucket Sound is proving a more profitable occupation for fishermen this year than ever before. Nantucket is the only place on the coast where the much-sought morsel is plentiful, and as a result prices have soared until the daily income here from the industry has reached nearly \$1000 a day. Since October 1 about 60 kegs, or 420 gallons have been shipped from Nantucket each day. The islanders are no longer eating fish, preferring to take the benefit of the high prices.

Four firms have been represented on the island since the season began, and bidding is lively every time a dory load of scallops comes into the harbor.

### Fishing Fleet Movements.

- Sch. Terra Nova arrived at Shelburne, Monday last and cleared for fishing.
- Schs. Alice M. Guthrie, Gertrude DeCosta and Eugenia arrived at Liverpool Monday last and cleared.
- Sch. Pontiac with 30,000 pounds of fish put into Halifax Monday last.

### Digby, N. S., Fish Notes.

The lobster season for Digby county opens on January 6th, 1913.

Sch. Amelia, Capt. O'Hara, from Westport was in St. John, Monday.

Sch. Mercedes, Capt. LeCain, sailed from St. John for Digby, Wednesday.

D. & O. Sproul's arrivals last week 6,000 lbs. of fresh fish, from boatmen, shipped 300 boxes of finnan haddies.

Nova Scotia Fish Co. arrivals last week: From boatmen, 6000 lbs. mixed fish; shipped 250 boxes finnan haddies.

Arrivals at Joseph E. Snow's last week, 35,000 lbs. of mixed fish, from the Loran B. Snow, shipped from Yarmouth; shipped 100 boxes of finnan haddies.

Arrivals at the Maritime Fish Corporation last week: Cora Gertie, 15,700 lbs. of haddock, 634 lbs. of cod, 900 lbs. of hake; other sources, 36,600 lbs. of haddock, 12,600 lbs. hake, 6800 lbs. cod.

Digby shippers of clams have found Portland, Me., a new and profitable market and already several large shipments have gone forward via the Boston boat from St. John. Heretofore all shipments went to Boston and New York.

Yarmouth Herald says: The Digby sch. Dorothy G. Snow, Capt. William Snow, returned to Yarmouth Monday afternoon and reports the loss of \$100 worth of gear during the gale of yesterday morning.

### Obstruction in the Slue.

Capt. Lewis of the steamer North Star from New York to Portland, Me., sent a warning to vessels through the marine department of the Boston Chamber of Commerce of a dangerous obstruction one mile south of the bell buoy in Pollock Rip Slue. Vessels passing through Vineyard Sound are warned by the skipper to beware of the obstruction, which is apparently the section of a wrecked craft. Capt. Lewis saw two timbers, 75 feet long, floating directly in the channel used by steam and sailing craft.

### Halibut Still High.

Halibut, that fish which broke all previous records for itself a few days ago by selling ex-vessel at 51 cents a pound sold high again there yesterday. The Elk brought 500 pounds of it, but so heavy was the demand that this amount was not sufficient to send the price down very much. The schooner's skipper sold the 500 pounds of white shoal halibut at the rate of 47 cents a pound, within four cents of the record price.

## Jan'y 2.

### Shipped Halibut Home.

Sch. Massachusetts, Capt. Donald McCoish, was at Halifax, N. S., on Christmas day and shipped her fare of halibut to the American market.

At a meeting of the directors of the Gloucester Fishermen's Institute held last evening, the president, Col. Chas. F. Wonson, was delegated to go to Washington to attend the hearing in regard to the hospital ship, to present the claims of the fishermen for the same.

The Master Mariners' Association will hold a meeting tomorrow afternoon when they will probably take some action on the matter, while the Board of Trade is expected to do likewise at their meeting next week.

# FOR HOSPITAL SHIP

It is a particular request of Col. ### FISH PIER NEARLY READY.

Market Association Has Started to Erect Buildings.

So far as the actual construction work is concerned, the Boston Fish Pier is completed and will soon be ready for use. The Port Directors yesterday made what amounts to a final settlement with the contractors who built the pier.

This pier, which is a granite wharf, was started under a contract made on behalf of the Commonwealth by the Board of Harbor and Land Commissioners before the Port Directors came into existence a little more than a year ago. It is 1200 feet long, 3000 feet wide, with a depth of water alongside of 23 feet and is to be entirely devoted to the fishing industry.

The Boston Fish Market Association which is the lessee of the pier, has already started constructing buildings on the pier, and these will be finished as soon as possible. This work was commenced November 4 of last year, which was before the whole of the pier, proper was completed. The pier is just to the east of the Commonwealth Pier in South Boston.

In a supplementary report to the Legislature yesterday, the Port Directors stated that they did not care to extend their jurisdiction to include Lynn Harbor, a plan which they were asked to consider by the last Legislature.

### How War Affects Fish Trade.

Pending the Peace Convention at London which it is believed will result in a termination of hostilities between Turkey and the Balkan States, ordinary business relations remain much as they have been in the Mediterranean, Spanish and Portuguese large consuming markets, the Fishing Gazette says. Before the Lenten season comes on more definite conditions will prevail in all branches of trade. With regard to the outlook for fishstuffs, an item from Naples, posted in the St. John's N. F., Board of Trade, intimated a steady decline in quotations for Labrador fish, advising the holding back of shipments from this side allowing the market to recover. It is estimated that well up to 70,000 quintals are still held at Lunenburg, the bulk of which may be expected to reach Halifax during the spring of 1913. A quiet feeling prevailing in local export circles as usual during the Christmas and New Year holidays. Shipments to the West Indies and Caribbean ports maintain the customary average in the long established trade from this port. Substantial cargoes have gone forward of late to Brazil and other are being prepared for the same destination in available tern schooners, which are understood to deliver fishstuffs more acceptably than transit by steamers.
