# NEWS FOR THE LAKE FISHERS

**Menominee, Michigan, March 5.**—The week's fishing operations were about the same as last week, although herring dropped off south of the river. The price of herring dropped, due to increased fishing operations on the east shore. Green Bay dealers got nearly all of their supply from this quarter and local dealers were well supplied with what was brought in here. Mullet and perch fishing was fair and prices remain firm for that class of fish. Wisconsin pound netters are operating, but the best part of the run is over at the present time. The local game warden, A. B. Bedell, has resigned his position as game warden, and no one is doing that duty here at present, although the Ishpeming deputy is looking after interests here. Wisconsin fishermen operating pound nets were arrested for fishing a 2-inch pit in the pound nets, but won out in justice court; the wardens did not carry the case further, but will use their influence in getting a law passed similar to that being discussed in the Michigan Legislature, namely, a 2 1/4 inch mesh for the pot or crib in pound nets. Prices for the week rule as follows: Whitefish, 10c; trout, 10c; herring, 11-2c; perch, 8c; mullet, 6 1-2c, and pike, 10c.

**Bay City, Michigan, March 5.**—The fishing at Bay City this week has not been good, and very few fresh fish are being caught by the nets or the spears, and the hook fishing is now over for this winter. Fishing is also poor at other points on Saginaw Bay and Lake Huron, but they expect the spring run to start up soon. When fresh caught fish are scarce it makes a good market for frozen, salt and smoked fish, and they are going out at good prices and the dealers look for clean-up on all kinds before spring fishing. The fishermen at this point are all ready for spring fishing, and some look for an early spring, say April 1. The fish bills now before the Michigan Legislature have been fixed up to suit the fishermen, also the game and fish warden department, and it looks like good protection to fish and at the same time keep the fishing in good healthy condition for some time to come. A. Radin, of the Star Fish Company, and John J. Rader, of Peck Slip Fish Company, are both here looking over business for spring. Both men are nice fellows and should get a lot of trade for their houses from Bay City. The weather for the last week has been cold and we have had a lot of wind and some snow, and it looks just now as if spring is not here yet. About 25 to 50 boxes of fish went to New York and Boston from here, mostly suckers. Mullet and perch are very few; no yellow pike.

**Cleveland, Ohio, March 5.**—The trade here for the week is reported as fair to brisk, and prices are being held up to former quotations.—Fishing Gazette.

## Death to Herring Fishery.

According to a recent news article, the development of the English trawl is threatening the herring fisheries in the North Sea. The drift fishermen have nets with wide meshes, so that young herring escape; the trawl takes in everything. Some of the immature fish are thrown back into the water, but often after being injured in the crush; others are sold as "sardines," and others are used as fertilizer.

## Started Right Off.

Capt. Farquhar, the veteran of the Halifax sealing industry, sailed from that port on March 4 in command of the steamship Seal. He had arrived from France, via New York, only a few hours before setting out on the voyage.

## Caught Big Seal.

Recently a mammoth seal, weighing 800 pounds, was caught on the Cape Breton coast. The skin measured 7 feet 10 inches in length and 4 feet 10 inches in width.

## Fish House Burned.

The fish house of Couture & Sons, Hancock, Michigan, was destroyed by fire, including all the firm's nets, floats, etc. The loss is partially covered by insurance.

Mar. 12.

## Foreign Mackerel.

There has been a little more action in the New York market for imported mackerel but the volume of business is still much behind expectation, says the Fishing Gazette. Norways are easier and Irish are quiet. The last weekly report of a New York importing house runs: Norway mackerel continues in better hand-to-mouth demand and price is somewhat firmer. Irish mackerel are somewhat neglected. Last week's shipments amounted to 1682 barrels, bringing the total shipment of Irish autumn mackerel to date to 2674 barrels.

## Portland Fishing Notes.

Arrivals at Portland Monday were as follows:  
Sch. Lochinvar, 20,000 lbs. mixed fish.  
Sch. Cavalier, 30,000 lbs. halibut.  
Sch. Rena A. Percy, 6000 halibut, 6000 lbs mixed fish.  
Sch. Dorcas, 3000 lbs. fish.  
Sch. Mary Edith, 3000 lbs. fish.  
Sch. Fanny Hayden, 2000 lbs. fish.  
Sch. Hockomock, 6000 lbs. fish.

## Pacific Halibut Craft Burned.

The big launch Victoria of the Standard Fisheries Company of Prince Rupert, B. C., was burned to the water's edge while at Dundas Island. She had 7000 pounds of halibut on board, which is a total loss.

## WANTS THE CITY TO LEASE CLAM FLATS.

A special meeting of the municipal council was held yesterday afternoon for the purpose of taking action on the order reported by the committee on finance appropriating \$296,000, the full amount allowed under the \$12 limit, for municipal expenses, the current year, the appropriations for payment of loans, interest, etc., bringing the total up to \$415,100.

A communication was received from the advisory board approving of the order and recommending its passage. The order was adopted by a unanimous ye and nay vote.

A communication was received from the water commissioners asking for a loan of \$50,000 for 30 years, which was referred to the committee on finance, which later recommended the passage of the order, and it was laid over under the charter provisions.

An order from the committee on highways appropriating \$2000 for the purchase of a stone crusher and boiler was laid on the table under the provisions of the matter.

A protest from Edward K. Burnham against the repairing of the building, 83 Main street recently damaged by fire was referred to the building inspector.

An order introduced by Mayor Foster was adopted to petition the harbor and land commissioners for a lease of all the clam flats within the territory of the city in accordance with the statute recently accepted.

An order was adopted asking the senator and representatives representing the city to oppose the passage of senate bill number 70, placing the assessors under the direct control of the tax commissioner.

## Rare California Fish.

A most singular little fish, which, instead of laying eggs or roe, gives birth to fully developed young, is found along the California coast, says the "Technical World Magazine." Specimens collected by members of the United States Fish Commission July 1 were stuffed with little fish apparently almost to the bursting point. In some instances the young had begun to escape from the mother, the little ones being found in the water, and in nearly all cases they could be easily pressed from the body of the mother, in which event they were able to maintain themselves in an upright position in the water and swim about. The adult fish are a silvery white color, from 3 1-2 to 8 inches long and the newly born fish were from 1 to 1 1/4 inches in length. "Surf fish" is the name it goes by.

# FIRST OFF-SHORES THIS MONTH

## Long Spell Without any Big Vessels Reporting Here Is at Last Broken.

The extreme quiet that has prevailed at this port for 12 days, was broken yesterday and today, by the arrival of several off shore crafts, including two halibuters, one from fresh haddocking and a deck handliner, these being the first off-shore arrivals here this month.

Yesterday, schs. Paragon, Capt. Hermon and Maud F. Silva, Capt. Charles Colson, arrived from Quere with small fares of fresh halibut. Weather of the worst kind was experienced on the trip, which hampered fishing. The Paragon came in with her main boom gone as the result of one of the heavy blows.

Other arrivals are schs. Laverna, Capt. Albert Latkin, with 50,000 ponds of fresh fish, which sold to the Gloucester Fresh Fish Company and sch. Etta Mildred from deck handlining, with 6000 pounds of salt cod.

Sch. Elizabeth N. from Boston is here with 500 barrels of salt herring for the Gloucester Salt Fish Company.

Yesterday's gill netting receipts were better than the preceding day, several of the larger steamers getting fair-sized hauls. The entire lot was shipped to Boston for this morning's market.

## Today's Arrivals and Receipts.

The arrivals and receipts in detail are:  
Sch. Laverna, 50,000 lbs. fresh fish.  
Str. Ibsen, gill netting, 400 lbs. fresh fish.

# SEVERAL LARGE FARES AT DOCK

## Prices Go Down on the Off-Shores and Hold Up for Market Boats.

A fleet of 15 crafts were at T wharf this morning, with fresh mixed fares, several being off shore with good sized fares.

The largest trips are schs. Diana, 60,000 pounds; Cynthia, 72,000 pounds and 2000 pounds halibut; Premier, 71,000 pounds; Gertrude DeCosta, 50,000 pounds; Mary, 65,000 pounds; Virginia, 45,000 pounds; steamers Surf, 38,000 pounds; Swell, 41,000 pounds.

Prices on off shore fish took a drop, wholesalers paying \$2.50 to \$4.50 a hundred weight for haddock, \$5 for large cod, market cod, \$2.50 to \$3.50 hake, \$3 to \$5, pollock, \$3 to \$5, cusk, \$3.50 and halibut, 16 cents a pound.

## Boston Arrivals.

The fares and prices in detail are:  
Str. Surf, 37,000 haddock, 3000 cod, 4000 lemon sole.  
Str. Swell, 32,500 haddock, 7500 cod, 1500 lemon sole.  
Sch. Diana, 55,000 haddock, 5500 cod.  
Sch. Cynthia, 54,000 haddock, 11,000 cod, 7000 cusk, 2000 halibut.  
Sch. Premier, 55,000 haddock, 12,000 cod, 4000 cusk.  
Sch. Gertrude DeCosta, 30,000 haddock, 10,000 cod, 4500 hake, 4500 cusk, 800 halibut.  
Sch. Mary, 45,000 haddock, 12,000 cod, 7000 cusk.  
Sch. Virginia, 40,000 haddock, 4000 cod.  
Sch. Richard T. Nuevan, 13,000 haddock, 1000 cod, 2000 hake.  
Sch. Motor, 1500 haddock, 400 cod, 1000 hake.

## Ice Report.

As telegraphed by the Supt. Signal Service, Quebec, to the Halifax Board of Trade, March 7th:  
Magdalen Islands Point — Heavy open ice everywhere.  
West Point, Anticosti—Light, close packed everywhere.  
Money Point—Heavy open ice distant.  
Flat Point—No ice.  
Cape Race—Dense fog.

# BETTER GUIDES IN BAY OF FUNDY

The Canadian minister of marine, who has been in communication with the aids to navigation committee of the St. John board of trade in reference to navigation in the Bay of Fundy, has determined on an extensive program of improvement which will no doubt be hailed with satisfaction by seafaring men and shipping interests, says the Yarmouth Times.

A gas and whistling buoy will be placed on Trinity Rock as soon as possible. Immediate steps will be taken to improve the light on Brier Island. A bell buoy will be established off Cape Enrage in the Chignecto channel, and steps are being taken to erect a light on St. Martins head and provision made for its maintenance.

In regard to the recommendation of the committee to put a lighthouse on Old Proprietor Rock, a communication says the matter has been laid over for further consideration of the minister and the lighthouse board; the recommendation to install a fog-bell at the Swallowtail lighthouse was also laid over, pending a report from the officials of the department.

The St. John committee recommended the department to place a larger light vessel off the Lurcher shoal at the mouth of the bay. The department states that it is not prepared to carry out this recommendation, but instead will install a wireless apparatus on the present light vessel, which it is expected will be of great advantage to shipping.

The lighthouse department is considering the question of erecting small enclosed light houses on wharves and breakwaters along the Bay of Fundy.

# EXPRESS MAN IS FROM MISSOURI

A morning paper stated that a Long Island fisherman caught two codfish for which he received \$17. If they weighed 100 pounds each and the price paid was 81-2 cents per pound that would make it. The average cod nowadays taken on a handline weighs four or five pounds. The codfish caught on trawls probably will average around 25 pounds, although big fellows tipping the scale at 50 and 60 pounds are not by any means unknown. There is a story that 12 or 15 years ago Erastus Wallace of Long Island caught a cod off the Stepping Stones in Lucke's Sound which weighed 110 pounds and, so far as known, this was the largest one ever taken in Casco Bay. That today, with codfish scarce as they are known to be, it is possible to pull out two that weighed almost as much as the biggest one on record, seems somewhat remarkable to say the least. Can't we have some further particulars of this wonderful catch or did the smell of spring in the air fire the reporter's imagination a trifle? Anyway, the story is good enough to be true, but under the circumstances some of us would like to be shown.—Portland evening and Daily Advertiser.

### Nova Scotia Cod Market.

The situation of bank fish is a little stronger, says the Halifax Herald. Sales of some 15,000 quintals have strengthened the market and excepting the 20,000 remaining in fishermen's hands. These should go off in March or April. Prospects now point to a fairly clean market before new fish arrive.

It was stated that Newfoundland stocks are about 50,000 quintals less than they were at this time last year, and while business is not brisk large shipments should absorb the bulk of this quantity before next season. We think, therefore, that the outlook is a fairly steady figure for some time.

Pickled fish have been moving rather slowly, but reports from the south show that the market for herrings particularly, is gradually strengthening. The Windward Islands boats are taking large cargoes and the Jamaica and Cuba trade is a fair volume.

While there seems to be sufficient stocks for the balance of the winter months, it looks as if all holdings will be pretty nearly absorbed altogether in the usual course of trade.

Mar. 13.

# READY FOR HER PACIFIC TRIP

The new sch. Knickerbocker arrived yesterday afternoon at Long wharf, Boston, after a very satisfactory passage from this port.

Tomorrow she will be given a trial spin for the benefit of her owners and on Monday will probably leave on her 16,000-mile trip for Seattle, where she will engage in the fresh halibut fishery.

If the engines are in good working order, Capt. Robert Lathage will take the craft through the Straits of Magellan, otherwise he will circle Cape Horn.

# SOL FITTING FIRST SEINER

Capt. Solomon Jacobs, veteran of many a mackerel season, will be the first to sail south this spring evidently, for he has taken command of sch. Romance, and is now fitting out, indicating that he intends making an early start.

Mar. 13.

# BIG START FOR SCH. YUCATAN

The new schooner Yucatan, built at Essex and fitted at this port, arrived at Galveston Sunday, from her second trip with one of the largest trips of snappers which were ever landed there.

The craft weighed off 54,950 pounds, from which the crew shared \$99.85, which is claimed to be the largest share ever made in the snapper fishery in the Gulf of Mexico.

On February 1, the price of snappers was raised to four cents a pound and the Yucatan was the first craft to receive the new price, arriving there February 3. The crew's share was \$60.90.

Capt. Clifton Smith, formerly of this city, commands the new craft and it is the wish of his many friends that his good fortune will continue.

Mar. 13.

### Found Much Ice.

Two sailing schooners, the Hazel B. Mosher, Captain Dover, and the Iona, Captain Goddard, arrived at Louisburg, C. B., from Halifax Friday, bound for Fortune Bay and Burin respectively. This is early in the season for sailing vessels. During the voyage from Halifax both encountered considerable ice and rough weather.

### Salt Steamer on Way.

The Dutch steamer Boomborg sailed from Iviza, Spain, Saturday, for this port with a cargo of salt for Fred Bradley.

Mar. 14.

### Pacific Halibut Lower.

At Seattle the arrival of a goodly shipment of fresh halibut during last week has lowered quotations 1 1/2 cent per pound. It is believed that present quotations will hold during the coming week. Because of the Lenten season there is a fairly active business doing in the local market, says the Trade Register.

### Gasolene Costs Too Much There.

There are 17 steam trawlers and about 3000 sail of fishing boats on the coast of Malaga, Spain. No motor boats are in use owing primarily to the fact that gasolene and kerosene now cost there wholesale at the refineries, without containers, 42 to 45 cents per gallon.

### Portland Fishing Notes.

Owing to the great demand this winter for bait the Portland Cold Storage Co. have disposed of their entire lot of blueback herring and are now seeking supplies at the eastward, the sloop Aubrey A. landing 20,000 pounds there Wednesday, brought up from Port Clyde.

Mar. 14.

# FISH RECEIPTS FOR TWO MONTHS

The bulletin issued by the Board of Trade shows a total of 3,745,201 pounds of fish landed here for the first two months of the year against 4,619,405 pounds for the same period of 1912.

Following is a statement of the kind and quantity of each:

# THE LUNENBURG BANKERS START

The first two Lunenburg schooners to fit out for the fishing grounds arrived at Halifax. They are the Clintonia, Capt. E. C. Mack, and Henry L. Montague, Capt. Abram Cook. They are now fitting out for the voyage and were expected to get away probably Thursday.

### SEALERS SAIL FROM ST. JOHN.

Vanguard of Fleet Bound For Grand Banks and Gulf.

St. Johns, N. F., March 13.—The first division of the sealing fleet set out from this port yesterday. The early presence of drift ice in the Gulf of St. Lawrence and off the Grand Banks and the fact that seals were sighted several weeks ago, have been taken as indications of a good season. The vanguard of the fleet consisted entirely of wooden vessels, which are conceded a one-day advantage in the start by the steel ships. Of the twelve wooden vessels, eight are bound for the Grand Banks and four for the Gulf of St. Lawrence. Eight steel steamers will sail today, all for the Grand Banks.

Two vessels of the wooden fleet were left behind, damaged and possibly wrecked as a result of running ashore while picking up crews along the coast.

The seal hunt this year will employ 4000 men. Nearly all the vessels are equipped with wireless, and a series of shore stations has been arranged whereby the owners of the steamers may keep in touch with the fleet at all times.

### Landings at Pensacola.

Sunday at Pensacola proved an exceptionally busy day in the way of snapper receipts by the two local fish houses. Four smacks arrived during the day with catches, aggregating about a hundred and twenty-five thousand pounds.

The arrivals during the day follow: To the E. E. Saunders Fish Company—Thomas J. Carroll, 50,000 pounds; Sheffeyd, 22,000 pounds; Dorothy, 30,000 pounds.

The only arrival reported to the Warren Fish Company was the Culebra, with a catch of 20,000 pounds.

Thus the new week commenced with an aggregate catch totalling almost the entire catch recorded during the previous week.

### The Ice Report.

As telegraphed by the superintendent of the signal service, Quebec, to the Halifax, N. S., board of trade, March 10, 1913.

Cape Ray, Heath Point—Heavy open ice everywhere.

Magdalen Islands—Heavy close packed ice everywhere.

Money Point—Heavy close packed everywhere, stationary.

Flat Point—No ice.

Sydney Harbor—Light close packed, stationary.

# GILL NETTERS DOING BETTER

## They Landed About 40,000 Pounds of Fresh Fish Here Yesterday.

The water front was a pretty quiet place this morning, not an off shore craft of any description being reported since yesterday.

The gill netters did considerably better than the preceding days, some 40,000 pounds of fresh fish being landed. Steamer Ethel was high line with 3800 weight. Other good fares were steamers Gertrude T., 2500 pounds; George E. Fisher, 2500 pounds; Margaret D., 2000 pounds; Medomak, 1800 pounds; Margaret D., 2000 pounds; Lydia, 1700 pounds.

### Today's Arrivals and Receipts.

The arrivals and receipts in detail are:

- Str. Ibsen, gill netting, 400 lbs. fresh fish.
- Str. Carrie and Mildred, gill netting, 1600 lbs. fresh fish.

# MARKET BOATS ARE IN TODAY

## Fishers on the Shore Grounds Now Picking Up Some Good Trips.

T wharf's fleet of arrivals was confined to 11 shore boats this morning, with fares chiefly of haddock and cod which sold at fair prices.
