(3)

Independent Mild-cure Fleet. SE Alaska. 1913.

Custom house records show 7.443 tierces of mild-cure salmon received at port of Seattle, from SE Alaska. As Western + Central Districts are known exactly as to output, the difference between the total reported pack, and the exported amount, represents the unreported pack of SE. Alaska, or 633 tierces. At 55 King salmon per tierce, the take would be 34.815 salmon, all trolled. As earnings not shown elsewhere, on the basis of 5/6 of the fish being red-meat worth 1¢ each, while the other 1/6 had a value of only 30¢ each, the "fishermens wages" is credited with $30.754.

The power boats at Douglas Island, Seal Otter Sound, + the west Coast generally are estimated to have had 3 troll rigs per man or (96+6+130+900 x 3) 3.396 lines worth 2.00 each. or $6.792.

(4)

Independent Mild-cure Fleet. SE Alaska. 1913.

The pulling boats (398 + 400 + 147) were provided with 2 lines each. or 1.890 trolling rigs, worth of a value of $3.780.

The power boats at Wrangell were engaged in gill-netting, 244 nets of a total length of 25,200 fms. worth, $18,900. being used.

Pack = 633 tierces @ 800# or 506,400# @ 10¢ = $50,640.
