Seattle, Wash.

Gentlemen:

Your report of fishery operations at Big Port Walter, Alaska, in 1917, shows that you canned 822,000 pounds of herring, valued at \$125,000. Information is desired as to the number of cases that were packed, the size of container used and the number per case.

Please advise in regard to this matter at your early convenience.

Very truly yours,

H. F. Moore

Acting Commissioner.
