Gentlemen:

Your letter of the 29th, and we have given our Auditor, Mr. C. L. Meissner, who makes up our various State and Government Reports, your blanks, to fill out as best he can.

As before advised, we are not canners and simply have buyers at several places in the North, purchasing fresh halibut and salmon and shipping it down to us on the passenger steamers.

These various reports for State Government, etc. are entailing upon us an excessively heavy expense, amounting to more than \$2,000.00 annually to get them up and we will get them out as soon as we can do so.

We cannot complete the statement for the year's business, until after we hear from our buyers in the North.

Yours truly,

ER:RM

Edwin Ripley
