March 5, 1923

The Commissioner of Fisheries,
Washington, D. C.

Herewith I submit some notes on the fisheries in general of Southeastern Alaska and the work of the field force in that district in 1922 as carried on under my direction. This report contains nothing of a statistical nature regarding the fisheries as such information can not be obtained accurately from the packing companies before their business for the year is closed.

Respectfully,

E. M. Ball

Assistant Agent.
