## DEPARTMENT OF COMMERCE BUREAU OF FISHERIES

Name of stream Security Bay stream Date examined 7/10/37 & 7/11/37 & 7/12/37

Location Security Bay, Kuiu Id, N.W. shore

Approximate length 4 to 5 miles Width 10 to 65 ft. Depth 6 in. to 9 ft.

Condition and stage (whether clear, high, low, etc.) Clear and high

Lakes, if any, size, character, and whether accessible from sea No lake accessible to my knowledge

Salmon run (heavy, light, average, etc.) Light

Date and duration of run of each species Chums, 7/20/37 8/16/37

Estimated number of each kind of salmon on spawning beds, or in stream Chums 8,870

Former size of runs of each species and evidence of depletion, if any No depletion

Natural barriers and whether removable Mostly all natural barriers

Where markers are placed One marker S.W. of Russick Island and the other marker S.E. of Russick Island

Remarks, sketches, etc. To my estimation Security Bay should also be closed next season so the fish could have a chance to accumulate again.

(sgd.) H. W. Homeyer, Stream Watchman

(Name and title of employee making examination)

Send original to Washington office, one copy to Seattle office, and one copy to Juneau office.  
Use reverse side if additional space is required, or explanatory sketches are made which can not go on this side.
