

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

Name of stream **Trap Bay - Tenakee Inlet** Date examined **August 14.**

Location **2 miles West of South Passage Point.**

Approximate length **3 miles.** Width **30 feet.** Depth **6 to 12 inches.**

Condition and stage (whether clear, high, low, etc.) **Clear, medium.**

Lakes, if any, size, character, and whether accessible from sea **None**

Salmon run (heavy, light, average, etc.) **None**

Date and duration of run of each species

Estimated number of each kind of salmon on spawning beds, or in stream **Saw two chums.**

Former size of runs of each species and evidence of depletion, if any **Yes, Evidence of depletion.**

Natural barriers and whether removable **None.**

Where markers are placed **All closed waters.**

Remarks, sketches, etc. **Prior to 1915-16 this stream is said to have had heavy runs of salmon. Since the years indicated they have annually dwindled until they have practically none. In 1927 I did not see any salmon. In 1928 a few chums.**

Herbert Lee, Stream watchman.
