Chart I. Tracks of Centers of Low Areas. December, 1894.

NOTES.

The Roman letters show number and order of centers of low areas. The figures within the circles show the days of the month; the letters *a* and *p* indicate, respectively, the 8 a. m. and 8 p. m., 75th meridian time, observations.

The queries (?) on the tracks show that the centers could not be satisfactorily located.

Within each circle is given the lowest barometric reading reported near the center. A blank indicates that no reports were available.

A wavy line indicates the axis of a trough or long oval area of low pressure.

The dotted shading (▒▒▒▒) indicates fog belts.

The crosses (× × × × × ×) indicate the position in which field-ice or icebergs were observed.
