## New Weather Bureau Publication

*Technical Paper No. 45*, "Snowmelt Floods of March-April 1960, Missouri and Upper Mississippi Basins," Washington, D.C., 1962, 77 pp. For sale by Superintendent of Documents, U.S. Government Printing Office, Washington, 25, D.C. Price \$1.25.

This report compiles and records the basic hydrometeorological data for the snowmelt floods of the spring of 1960, such as precipitation, snow depth, water equivalent, and degree-day data for the period of snow cover breakup in March; temperature and precipitation data for the period November 1959 through March 1960; and river stages and damage statistics. Nine plates are included.

## CORRECTION

*Monthly Weather Review*, October 1962, pp. 447 and 449: Cuts B and C of figures 7 and 10 are interchanged.
