December 1922

FOR OFFICIAL USE ONLY

NOT TRANSFERABLE

(See inside cover)

Daily Synoptic Series

Historical Weather Maps

Northern Hemisphere Sea Level

December 1922

The Joint Meteorological Committee has decided that classification of these maps under rigid security regulations would unnecessarily restrict their official use by forecasters and research collaborators on official projects of the United Nations. They are, therefore, "Unclassified". Distribution is, however, restricted to an approved list of official agencies. Copies are not to be transferred by the recipient to another agency for the duration of war without authority of the Joint Meteorological Committee. All recipients should take necessary steps to prevent copies falling into hands of persons who would put them to uses prejudicial to the interests of the United States and her allies.
