

ALPHABETICAL INDEX FOR THE  
YEAR 1933

RAREBK  
QC  
851  
.W49  
1933

Air-cooling possibilities, June 10  
All about the rainbow, May 24  
Almanac weather prophecies, May 26  
Alpine winter, December 1  
Ancient ideas about lightning, April 8  
Andes lights, February 9  
Archdeacon Stuck's thermometer, January 11  
Audibility in high latitudes, October 30  
Audibility of thunder, June 22  
Auroral sounds, September 25  
Autumn and spring, October 14  
Aviators' weather vanes, August 21

Barometers, January 12  
Belated hurricane report, October 25  
Ben Nevis observatory, February 24  
Ben Nevis snows, February 25  
Biggest "iceberg", December 20  
Biggest icebergs, January 23  
Biggest snowflakes, January 25  
Birds killed by hail, October 7  
Black lightning, April 10  
Bolts from the blue, April 21  
Brief fame of storms, October 4  
Building for hurricanes, October 13  
"Bumpy" air, February 2  
Buried in snow, February 20

Calm in the forest, September 21  
Camphor "barometer", August 16  
Cannonading and rainfall, June 30  
Cat's ice, December 19  
Cause and effect, February 8  
Christmas weather proverbs, December 25  
Clear-sky thunderstorm, May 16  
Climate and trade, March 3  
Clothing for hot weather, June 17  
Clouds in the trade winds, October 5  
Controlling the weather, March 28  
Cool tropics, July 21  
Cooperative weather study, March 13  
Corona, December 29  
Curious snowflakes, January 28

Daily weather forecast, February 15  
Darwin's barometer, April 19  
Deadly fogs, May 6  
Débacle, April 3  
Desert winds, January 18  
"Diamond dust", December 7  
Dispelling fog, February 3  
"Doctor", July 7  
Doldrums, July 10  
Do lightning-rods pay? August 24  
"Double winter", January 21  
Droughts in India, May 5  
Dry and wet moons, August 1  
Dust whirls, June 14  
Dyrenforth experiments, April 6

Early "equinoctials", August 31  
East India weather calendar, November 18  
Eighteenth century weather observers, October 31  
Energy of weather, October 23  
Equinoctial storms, September 22  
Europe's mountain weather stations, March 2  
Explaining a rare halo, November 22  
Explanations overhead, November 24  
Explorers' ignorance of optics, May 19  
Explosives and rain, January 27  
"Exsiccation", October 6

Famous society of weathermen, April 24  
Faraday on ball lightning, May 9  
Fatal kite flight, July 18  
Favorite "west end", April 12  
Five kinds of ice, December 8  
Florida hurricane, August 8  
Fog caused by hail, December 21  
Force of wind, January 10  
Forecasting from weather maps, February 23  
Forest air, April 28  
Forest temperatures, June 16  
Franklin on northeast storms, September 8  
Franklin's dust whirl, September 6  
Frogs as rain-makers, January 19  
Frosts and freezes, October 26  
Fruit thermometers, January 7

Geography of thunderstorms, April 4,  
Glaciers and climate, September 26  
Gobi desert sandstorms, May 29  
Good and bad wind, December 18  
Great storm disasters, October 11  
Green flash, August 12  
Green lightning, July 13  
Gusts and squalls, October 20

Hail-fighting devices, July 1  
Hail, then cooler, June 27  
Halcyon days, December 15  
Halos, April 18  
Hamilton's hurricane, September 13  
Harmattan, March 15  
Harnessing the winds, September 29  
Heavy dustfalls, August 19  
Heights of "night-shining" clouds, May 22  
Herschel not guilty, January 6  
High-air dust storm, July 28  
Highest weather station, February 11  
Hoarfrost crystals, December 6  
Horse latitudes, December 13  
Hot sunshine in cold weather, January 3  
Hottest weather, July 25  
Hot-weather architecture, May 31  
Hot weather brawls, June 19  
How snow crystals begin, December 11  
How water freezes, December 22  
How far may thunder be heard? April 13  
How the wind blows, March 30  
How dust is raised, February 6  
Huge ice barrier, May 8  
Hurricane hymn, June 7  
Hurricane-proof buildings, August 10

Ice columns, March 14  
Ice crystal pictures, December 26  
Ice crystals, December 5  
Ice off Newfoundland, April 7  
Ice on airplanes, January 13  
Imitation weather, July 24  
Indian summer, October 10  
Indian summer and its kin, October 17  
Indian summer tradition, October 24  
Inside a waterspout, February 17  
Is Asia drying up? March 8

Jamaican downpour, September 5  
January weather, January 2  
Joking about the weather man, October 18

Key days, December 16

Labrador fogs, December 28  
Lakes and rainfall, August 5  
Landsman's wind scale, September 15  
Lateral mirage, March 9  
Learning about wind, October 27  
Lightning and forest fires, July 11  
Line squall, November 9  
Local wind names, September 7  
London's dense fogs, November 28  
Loftiest wind vane, September 18  
Long-ago tornadoes, June 26  
Lost and found, March 18  
Low and audible auroras, April 11  
Lowest barometer reading, August 23

"Madmen" on Mount Washington, February 22  
Many-sided meteorology, July 3  
Mathieu de la Drôme, September 28  
Measuring hot weather, June 21  
Measuring rainfall, June 24  
Measuring violent winds, May 12  
Memorable gale, October 3  
Meteoric dust in the air, June 1  
Meteorology and astronomy, May 30  
Miscellanies, March 6  
Mistral and bora, November 10  
Money value of rain, June 2  
"Montana Monsoon", January 4  
Most famous Alpine wind, September 27  
Moving snowfields, March 4  
Mud-slides in the Andes, June 5  
Mystery of ice crystals, December 27

Named storms, February 13  
Nautical weather oracles, November 20  
New geological weather records, March 7  
New style weather maps, July 14  
New ventilation, March 23  
New weather proverbs, November 30  
Night battle with frost, January 20  
Normals, June 15  
Northeast storms, September 2  
Notions about the whirlwinds, February 1  
November in two continents, November 4  
"Nuclei" in the air, January 30

Old-fashioned Indian summer, October 16

Painted rainbows, May 15  
Paradoxical ice formation, April 1  
Perennial question, May 20  
Phenology, August 15  
Pinnacled snowfields, December 30  
Plant weather, July 29  
Precipitation and presidents, November 3

Queer wind names, November 11

Radio weather forecasts for farmers, May 23  
Rain after battles, March 27  
Rainfall geography, April 29  
Rain in Death Valley, March 18  
Rain-making, March 25  
Rain-making episode, March 22  
Rain-making project, July 7  
Rain-prints in the rocks, August 22  
"Rains" of fishes, May 17  
Rainy tropical cyclones, September 11  
Red hailstones, August 18  
Red Sea climate, June 12  
Religion and climate, January 24  
Remarkable squall, October 21  
Reminiscent weather, June 8  
Rime, February 27; December 12  
Ring around the moon, May 25  
Rocks carried by ice, December 14  
Russet moon, May 3

"Sacrilegious" use of wind, November 14  
Safe places in thunderstorms, March 20  
St. Elmo's fire, February 10  
St. Elmo's fire caused by a volcano, July 4  
St. Swithin's rivals, July 15  
"Sand Mist" in the far east, January 5  
Santa Ana, November 23  
Scheme to alter climate, July 27

Seasonal weather prediction, November 2  
Second biggest rain-gauge, June 13  
Shadow of a mountain, June 23  
Shells of the atmosphere, July 19  
Shipboard weather maps, October 19  
Showers of hay, August 17  
Showers of living things, May 27  
Showers of toads, August 11  
Signs of hurricanes, September 9  
Silhouette weather vanes, July 12  
Sirocco, November 6  
Size of tropical cyclones, August 3  
Smoke wind vanes, September 19  
Snow crystals, March 1  
Snow-line on mountains, March 17  
Some big hailstorms, April 25  
Some effects of cold, January 9  
Some weather "records", January 16  
Some world-wide thunderstorm statistics, March 28  
Springs as weather indicators, April 15  
Storm noises, October 12  
Storms and beaches, July 20  
Storm waves and currents, August 25  
Strength of lightning, July 31  
Strongest winds, January 26  
Superstitions about comets, November 16  
Swell and wind, December 2  
Synthetic atmospheres, March 11

Temperature "lapse-rate" indoors, February 21  
"Tornado, Bahamas", May 13  
Tornado cloud, April 22  
Tornadoes during a dust storm, August 30  
Tornado feats, May 11  
Tornado freaks, April 20  
Tornado in India, July 26  
Too much weather observing, August 14  
Tropical climates, July 6  
Tropical gales in Canada, April 27  
Two good books on weather, March 10  
Two kinds of twilight, April 14  
Two-stage ball lightning, July 17  
Typical dust horizon, March 31

Uncertain trade winds, April 5  
Unusual weather, November 15  
Upper air composition, November 17  
Upside-down rainbow, August 28

Valleys colder than hillsides, November 27  
Value of climatic statistics, March 29  
Varying trade winds, October 9  
Vertical air currents, September 12  
Visibility records, November 13

Wagnerian meteorology, October 2  
Waterfall electricity, November 7  
Waterfall rainbows, November 8  
Water vapor, June 29  
Weather and business, August 2  
Weather and cattle shipments, July 22  
Weather and erosion, October 28  
Weather and fires, May 2  
Weather forecasts for advertisers, June 9  
Weather instruments, August 4  
Weather in verse, September 14  
Weather kiosks, August 9  
Weather-making, March 21  
Weatherman, August 29  
Weatherman in court, January 17  
Weather-making fallacies, February 4  
Weather maps and weather proverbs, February 16  
Weather news for aviators, May 4  
Weather observatory in mid-Sahara, February 14  
Weather words, September 1  
Well-worn tale, December 23  
What is a cloud? June 28  
What is a hurricane? July 5  
What is climate? May 10  
What is "Glaze"? January 31  
What is graupel? February 18  
When forecasting was new, November 25  
When lightning rods fail, August 26  
Where is the "equinoctial"? September 23  
"Whirlies", November 29  
Why "Indian" summer? November 21  
Wind and sails, September 16  
Wind-borne salt, July 8  
Wind directions, May 1  
Wind individuality, September 30  
Windy weather observatories, February 28  
"Winter cold pole", February 7  
Winter -- old and new, December 4  
Winter portends, November 1  
Winter window-pane patterns, December 9  
Wonderbook of snow-crystals, March 16  
Word "meteorology", April 17  
Wyoming dust storm, April 26

Yachtsmen's paradise, January 14

Zigzag lightning, June 6
