Fishing and the weather! "Ye'll no catch fush wi' your fly on the bank." So said an old Scots gillie, and it seems to embody the best philosophy regarding good and bad fishing days. One writer says: "A successful fisherman must not be given to too much observation of the conditions of the weather." It seems a mistake not to go fishing because one thinks the weather is not good. Fish have been caught in dazzling sunlight and also when snow was falling so fast that it was difficult to cast. So the moral is to persist. The patient man gets the fish, often in spite of the weather.
